Certification of the Institutional Self Study Report

Date: September 22, 2010

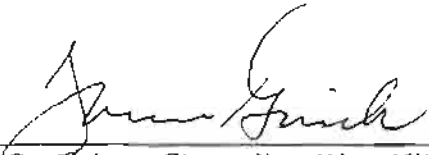

To: Accrediting Commission for Community and Junior College,
Western Association of Schools and Colleges

From: West Hills College Lemoore
555 College Avenue
Lemoore, CA 93245

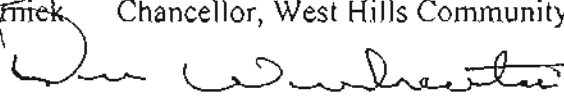

This Institutional Self Study Report is submitted for the purpose of assisting in the determination of the institution's accreditation status.

We certify that there was broad participation by the campus community, and we believe the Self Study Report accurately reflects the nature and substance of this institution.

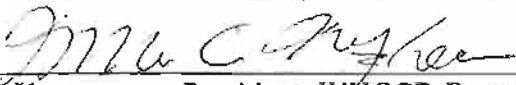

Signed:

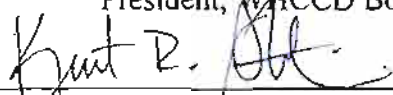

Dr. Frank Gornmek Chancellor, West Hills Community College District

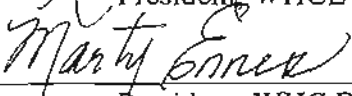

Don Warkentin President, West Hills College Lemoore

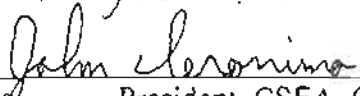

Mark McKean President, WHCCD Board of Trustees

Kurt Sterling President, WHCL Academic Senate

Marty Ennes President, WHC Faculty Association

John Jeronimo President, CSEA, Chapter 429

Ryan Cardoza President, WHCL Student Governmental Association

Dave Bolt WHCL Accreditation Liaison Officer

Compliance with Eligibility Requirements

1. Authority

The California Community College Board of Governors and the California Post-Secondary Education Commission designated the Kings County Center as an official center in 1992. The Kings County Center had operated as an educational center, awarding degrees under the auspices of West Hills College Coalinga. In June 2006, West Hills College Lemoore (WHCL) was granted initial accreditation by the Western Association of Schools and Colleges. West Hills Community College District transitioned from a single to a multi-college district with two colleges: West Hills College Coalinga and West Hills College Lemoore.

WHCL is a public two-year community college operating under the authority of the state of California, the Board of Governors, California Post Secondary Education Commission, and the Board of Trustees of the West Hills Community College District. The college catalog clearly states that WHCL is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges.

2. Mission

Yearly, WHCL reviews its mission statement in Strategic Planning Meetings and is approved by the college's primary participatory governance body, the Planning and Governance Council. The college's institutional outcomes have been developed with linkage to the mission statement.

The college's most recent review and approval of the mission statement occurred in the spring 2010 term. The West Hills Community College District Board of Trustees reaffirmed the college's mission statement during its regular June 2010 meeting.

The mission and vision statement are published in numerous documents, including the Educational Master Plan, the college's Strategic Plan, the college's Planning and Governance Manual, college catalog, and the WHCL website.

3. Governing Board

The Board of Trustees of the West Hills Community College District is an independent policy making body responsible for the quality and integrity of all educational sites in the district, including WHCL. It is a seven-member board, elected to four-year terms by registered voters in geographical districts representative of the diverse area comprising the district. The Board also includes one non-voting student member. The Board operates under an approved set of bylaws that are published in the Board Policy Manual. Biographies of the current trustees are available on the district website at www.westhillscollege.com.

4. Chief Executive Officer

The college's current president and chief executive officer was appointed by the Board of Trustees in June 2005 becoming the second president in our college's brief history. The primary responsibilities of the college president are to establish, promote, and fulfill the college mission, and follow all district, local, state, and federal policies and regulations. In addition, the college president is charged with providing sound fiscal management, strategic planning, and articulating the college and district mission and vision, all for the purpose of providing and managing an effective teaching/learning environment.

5. Administrative Capacity

WHCL has implemented an organizational structure that provides the administrative capacity required to support the college and district mission, vision, and functions. The administrative staff includes the president, a vice president of educational services, a vice president of student services, a dean of student services, an associate dean of educational services, and three directors responsible for athletics, the TRiO programs, and the allied health programs. The administrators are competent, well-qualified individuals who exemplify the expertise, quality, and integrity needed to support the purpose of WHCL.

6. Operational Status

WHCL, formerly known as Kings County Center, has been in operation for over 25 years. WHCL moved to its current location in January 2002.

The college has developed a complete and comprehensive offering of educational programs and services. Semester enrollment at WHCL is approximately 4300, including full-time and part-time students. The college prepares students for transfer to public and private colleges and universities through its academic programs, as well as for employment opportunities through its occupational programs.

7. Degrees

WHCL offers 48 degrees and certificates, which are described in the WHCL catalog along with requirements, course descriptions, and information on prerequisites and advisories. The California Community College Chancellor's Office program inventory list reflects the college's degree and certificate programs. The college catalog also includes comprehensive information regarding instructional services, student services, and district policies and procedures.

8. Educational Programs

The degree programs offered at WHCL are congruent with its mission as evidenced by the comprehensive variety of programs offered: general education, degree/certificate, transfer, career technical, and basic skills. The college's educational programs are based on recognized higher education fields of study, are of sufficient scope and length, and are conducted at appropriate levels of quality and rigor. All educational programs are

reviewed regularly through an established program review process as well as the curriculum review process.

The WHCL catalog contains a comprehensive statement of educational purpose for each academic and career technical education program offered. Further, it describes the courses that comprise each program and the units of each course. Course work taken to complete the requirements of a degree combined with the general education component allows the student to receive the appropriate associate degree, typically representing two years of full-time academic work.

9. Academic Credit

Credit is awarded to students based on the generally accepted practices in degree granting institutions of higher education and in keeping with the standards set by the American Association of College Registrars and Admissions Officers. A lecture class requires the equivalent of one academic hour (50 minutes) per week for each semester unit conferred. Laboratory classes require three academic hours (150 minutes) per week for each semester unit conferred. West Hills College Lemoore adheres to the Carnegie Unit.

In addition to regularly scheduled credit courses, students may receive college credit for participating in alternative credit and study options: Advanced Placement examinations offered by the College Board, College Level Examination Program (CLEP), credit by examination, credit for military service schools, cooperative work experience, and directed studies through contract education. The awarding of academic credit is clearly delineated in the college catalog.

10. Student Learning Achievement

Educational objectives for degree, certificate, and general education programs are published in the WHCL catalog. Each program of study is listed in the catalog and includes description of the program in regards to transfer to another college or to occupational preparation. All course outlines of record are required to have clearly stated measurable instructional objectives and must be revised on a regular basis. Course level student learning outcomes are published on course syllabi and measured regularly according to an agreed upon schedule.

11. General Education

All associate degree programs require at least 18 units in general education courses in the following areas: language and rationality (6 units), natural sciences (3 units), humanities (3 units), social science (3 units), and health education (3 units). Competencies in reading, writing, and mathematics are also required. These requirements are summarized in the general education philosophy statement stated in the WHCL catalog.

All general education requirements are published in the college catalog. The general education options allow students to complete general education patterns required by the

California State General Education and Breadth Requirements, and the Intersegmental General Education Transfer Curriculum (IGETC). Review by the WHCL Curriculum Committee ensures that credit is consistent with levels of quality and rigor of higher education. The annual review of articulated general education courses by the California State University System and IGETC validates the quality and rigor of the courses.

12. Academic Freedom

The West Hills Community College District Board of Trustees believe that academic freedom is an essential right in education as stated in Board Policy 313, available in the Board Policy Manual. It is the obligation of the instructor to pursue his/her subject consistent with standards of scholarly objectivity.

13. Faculty

WHCL currently employs 45 full-time and 39 part-time faculty. All faculty members meet minimum qualification requirements as established by California Community College Board of Governors, California Code of Regulations, or have been approved by the college's academic senate through the established equivalency policy. The names and degrees of all full-time faculty are published in the college catalog. The schedule of classes identifies specific faculty assigned to teach each class for the appropriate semester.

Board Policy 7215 delineates the scope of faculty responsibilities.

14. Student Services

WHCL provides comprehensive and accessible student services that are consistent with the diverse student characteristics and the college mission. The services include admissions, counseling, financial aid, assessment, registration, and tutoring. Targeted groups are provided with additional programs such as Extended Opportunity Program and Services (EOPS), Cooperative Resources for Education (CARE), CalWorks, Disabled Students Programs and Services (DSPS), Student Support Services (SSS), College Assistance Migrant Program (CAMP), Higher Education Program (HEP), Upward Bound/Math and Science, and Upward Bound/Classic. Counselors, advising specialists, and other program staff conduct outreach activities that distribute information about the services to prospective students. Information about the services is also published in the college catalog and on the WHCL website.

15. Admissions

WHCL adheres to the district approved admission policy, which is consistent with California Title 5 regulations and the college mission. The policy clearly specifies the qualifications of students that apply for admission to the college and is published in the college catalog and on the WHCL website.

16. Information and Learning Resources

West Hills College Lemoore provides a library/learning resource center (L/LRC) that includes books, periodicals, reference materials, and electronic resources. The L/LRC contains 33,000 square feet of space, 40,000 holdings, and includes a variety of rooms for public and student use including an executive video conference room. In addition, the L/LRC provides 350 seats for the general student population and office space for 35 faculty and staff.

The L/LRC is staffed to provide assistance to students in the use of college resources. The library catalog and other electronic resources are available to all students regardless of location or time via the Internet at the college website.

In addition, WHCL remains committed to systematically enhancing library resources. Internet access and online computer search capabilities are available without charge to students in the L/LRC. The L/LRC includes 60 wireless and networked laptop computers for check-out, 45 desk top computers, and a tutorial center with five desktop computers.

17. Financial Resources

WHCL is primarily funded by property taxes and state apportionment. The current funding base, financial resources, and plans for financial development are adequate to support the college's mission and educational programs in spite of severe cuts in state funding. The college has responded responsibly by utilizing an effective participatory budget process to minimize the negative effects of a reduced budget.

The West Hills Community College District has a budget allocation process in support of the college functions. Operational costs are diligently tracked and anticipated, and the district business office maintains a WHCL budget and fiscal accountability for the majority of programs and services offered at the college. Copies of the budget are available and are reviewed regularly.

The West Hills College Foundation works closely with the community and WHCL to provide external funding whenever possible. In addition, the district Grants Office works diligently to secure alternative funding.

18. Financial Accountability

The West Hills Community College District demonstrates financial accountability through the findings of an independent auditor secured by the Board of Trustees. The independent audit report is presented annually to the Board in public session. In addition, the district's required files and financial statements are filed with the California Community College's Chancellor's Office. The district adheres to Board approved policies and procedures regarding all fiscal matters.

19. Institutional Planning and Evaluation

In keeping with the West Hills Community College District's integrated strategic planning, the West Hills College Lemoore's Educational Master Plan, based on instructional and support program reviews and annual institutional outcome data, directs the decisions made at every level of West Hills College Lemoore. The college's Educational Master Plan ties decision making to the college's mission and assesses the success in fulfilling that mission. The most recent college Educational Master Plan was completed in 2008 and updated in 2009. This plan incorporates internal and external scan data provided by the Office of Institutional Effectiveness and Enrollment Management and is updated annually. The college's Educational Master Plan drives resource planning, which includes technology, facilities, supplies, and instructional purchases.

The college's Planning and Governance Council holds primary responsibility for strategic planning and decision making for West Hills College Lemoore.

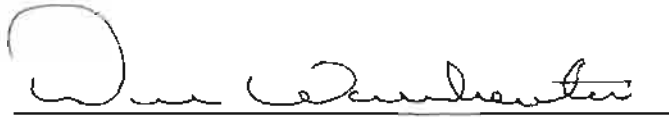

20. Public Information

All information pertinent to WHCL is published in the college catalog, brochures, and on the WHCL website. The college catalog is published in hard copy and available online. Information regarding the college's mission, vision, guiding principles, admission requirements, fees, placement tests, academic regulations, special programs, non-traditional credit, students' rights and responsibilities, refund policies, grievance procedures, student code of conduct, student services, student life, instructional services, transfer information, degree requirements, programs of study, course descriptions, and credentials of faculty and administrators are described in these documents. These documents are carefully checked for accuracy and updated on a regular basis.

21. Relations with the Accrediting Commission

WHCL and the West Hills Community College District Board of Trustees adhere to the eligibility requirements, standards, and policies of the Accrediting Commission for Community and Junior Colleges. WHCL describes itself in identical terms to all its accrediting agencies, communicates any changes in its accredited status, and agrees to disclose information required by the Commission to carry out its accrediting responsibilities. A statement of accreditation for WHCL appears in its catalog.

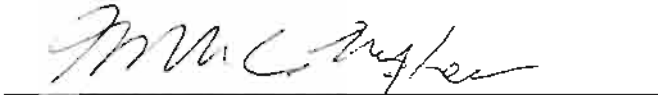

We certify that West Hills College Lemoore meets the eligibility requirements for accreditation.

Abstract of the Standards

Institutional Mission and Effectiveness

Dialogue is exemplified in the annual Strategic Planning Meetings, during which the college's mission statement is reviewed and revised. West Hills College Lemoore's institutional commitments are defined through a regular systematic cycle of program review, which insures a commitment to implementing and improving student learning outcomes. Evaluation, planning, and improvement are achieved through an ongoing cycle of evaluation, integrated planning, implementation, and reevaluation of campus committee products.

Student Learning Programs and Services

Institutional commitments and institutional integrity are evident in West Hills College Lemoore's instructional programs. The college is working to support student learning by developing, assessing, analyzing, and evaluating student learning outcomes at the course, program, degree, and institutional level; institutional student outcomes are a component of the Planning and Governance Manual. Evaluation, planning, and improvement are evident in program review. Institutional integrity and commitment are addressed through the availability of student services on campus. Dialogue is strongly represented in library and learning support services. The college collaborates with other institutions or other sources for library and other learning support services for the instructional programs. This is also evidence of the college's commitment to student learning.

Resources

Through the effective use of available human, physical, technological, and financial resources, West Hills College Lemoore plans and administers the college's institutional student outcomes. Dialogue is evident in the area of human resources through the college's activities, which foster campus wide input into professional development and teaching needs. Institutional commitments are evident in the college's physical facilities, which show commitment to ensuring access, safety, security, and a healthy environment for the students and staff. Evaluation, planning, and improvement are evident in the planning process at the college, which allows for input from all levels of faculty, staff, and students. Organization is monitored by the Planning and Governance Council, which is informed by various other representative subcommittees. Institutional integrity is demonstrated by the college's hiring practices, which meet or exceed the requirements determined by the California Community College Board of Governors.

Leadership and Governance

Dialogue has been utilized in the planning processes at West Hills College Lemoore as evidenced by the regularly scheduled Strategic Planning Retreats, pervasive campus dialogue during participatory governance meetings, and the collaborative and inclusive approach in establishing governance processes. Institutional integrity is demonstrated by

the involvement of a cross-representation from all groups, including staff, faculty, administrators, students, community groups, CSEA, West Hills College Faculty Association, and Academic Senate, involved in the planning processes and shared governance. Evaluation, planning, and improvement are ongoing processes of the West Hills College Lemoore, as outlined in the governance structure and board policy. The participatory governance process enables all constituents of the college to be represented in the decision-making process.

Organization of the Self Study

West Hills College Lemoore fully realizes that “accreditation” is a constant, on-going activity and is not to be the focus of attention only in preparation of a self study. However, particular organizational activities must occur if the self study report is to be completed in a contemplative manner. With this intention, West Hills College Lemoore initiated activity for this self study report in the summer of 2008 by identifying the Vice President/CIO, Dave Bolt, as the administrative chair based on his background as accreditation liaison officer. Stephanie Droker, full-time faculty member and past president of the academic senate, was offered and selected for the role of co-chair.

In consultation with the college president, a timeline for report-related activities was mapped. It was further determined that the process would be best served if each accreditation subcommittee had an administrative leader along with members from the classified and faculty ranks to serve as co-chairs/tri-chairs. Classified staff and faculty served as co-chair/tri-chairs of individual standards, being volunteered or nominated by their constituency groups for these positions. Self study leadership received formal training from ACCJC staff in spring 2009. This training included information on the individual standards and the development of the self study process.

With leadership and a timeline in place, college faculty and staff were provided a general background on the accreditation process in August 2008. The college asked for support from college staff to provide input into the self study by working on a subcommittee team. Based on interest and the anticipation of how much effort was needed, final assignments were subsequently determined in order to have equitable distribution of team members. Many West Hills College Lemoore faculty and staff were involved in writing the self study report based on their interest and experience. Additionally, students and adjunct faculty were included as part of some subcommittee teams.

During the fall of 2008, each subcommittee began meeting to discuss expectations and what needed to be accomplished. Appropriate materials were given to each member of each subcommittee to assist them in their work. A template model was provided to ease the task of requiring large volumes of text to be written. The college’s MyWestHills portal to post completed work, communicate within teams, and serve as a repository of documents was also introduced.

As a college in a multi-college district, the district office provides a key role in the completion of the accreditation report. Input from district offices was collected during the 2008-9 academic year for the purpose of provided pertinent knowledge on specific standards and to be consistent with the information used by each of the two colleges in their own individual self study reports.

Subcommittees continued to meet during spring 2009 to work on the templates used as the basis of the accreditation report. These meetings sometimes included the ALO with the intention of keeping the subcommittees on track, ensuring consistency in the writing

of individual standards, incorporating a uniform referencing system of documents, and sharing of data and information gathered.

The necessity of developing surveys for distribution to members of the college was important to the process of writing the accreditation report. Surveys were created and distributed electronically to staff, faculty, and students during the summer and fall terms of 2010. The results of the surveys were tabulated and shared with members of the self study subcommittees for inclusion in the self study. Subcommittees were encouraged to incorporate the responses to any survey question that applied to their standard.

At various times, subcommittees were given drafts of the accreditation report to review for thoroughness and accuracy. Any changes to the report narrative were communicated to the administrative lead of the standard for consideration.

Regular updates were given to the West Hills Community College Board of Trustees by the college president during monthly Board of Trustees meetings. In addition, the district Chancellor's Executive Cabinet and the college's Planning and Governance Council were given regular updates on the progress of the accreditation report. Drafts of the self study were readily available with the entire final document given to constituency leadership and hard copies placed in the college library.

Listed below is the timeline and highlights of completing the self study.

Summer/Fall 2008

- Self study leadership established
- Drafting of timelines to complete self study
- Preliminary co-chairs of each standard notified
- Information meeting with college constituencies to present the "standards" used to complete the self study
- Identification of subcommittees to include all constituency groups
- Subcommittee meetings to determine responsibilities
- Document collection and storage begins
- Monthly updates given to Board of Trustees via the President's Report
- Interviews and research conducted in support of answering standards

Spring 2009

- ACCJC self study presentation given to college leadership and staff
- Monthly updates given to Board of Trustees via the President's Report
- Identification and collection of document archiving
- Interviews and research continue in support of answering standards

Summer/Fall 2009

- Monthly updates given to Board of Trustees via President's Report
- First draft given to each standard based on template information
- Review and update of individual standards by each subcommittee
- Self study update provided to college personnel
- Continuation of document archiving
- Compilation of a complete rough draft using individual standard drafts

Spring 2010

- Continuation of work by subcommittees on templates and report draft
- Review of templates by administrative team
- New report drafts are completed based on updated information on templates
- Drafts sent to college's constituency groups and standard subcommittee members
- Document archiving continues

Summer 2010

- Organization of self study report reviewed by administration
- Document archiving continues
- Identification of printer
- Identification of format specialist
- Formatting of report for print
- Finalization of introductory portions of self study
- Distribution of survey to college staff and students
- Draft of report sent to district's Chancellor's Executive Cabinet for review

Fall 2010

- Presentation of final report to college constituencies for approval
- Approval from each constituency group and primary shared governance committee
- Final revision of report sent to printer
- Presentation of report to WHCCD Board of Trustees for approval
- Planning of team visit logistics

Spring 2011

- Mailing of report to WASC and team visitation team members
- Final preparations for team visit
- WASC site visit

Self Study Subcommittee Members

Standard I: Institutional Mission and Effectiveness

*Stephanie Atkinson-Alston, Lead – Dean of Educational Services
Bob Clement, Lead – Director of Athletics
Angela Barginear, Co-chair – Classified, Career Center Technician
Kyle Crider, Co-chair – Classified, Senior Secretary
Dr. Frieda Ganter, Co-chair – Faculty, Math
Etsel Barner – Faculty, Business
Fidela Byars – Classified, Student Services Assistant
Neomi Daniels – Faculty, English
Marty Ennes – Faculty, Communication/English
Shawn Jackson – Faculty, Math
Glenda Oliver-Smith – Confidential, Administrative Assistant to the President
Christian Raia – Faculty, Culinary Arts
Jacqui Shehorn – Faculty, English

Standard II: Student Learning Programs and Services

Dr. Marlon Hall, Lead – Associate Dean of Educational Services, Evening College
Dr. Ron Oxford, Co-chair – Faculty, Librarian
James Preston, Co-chair – Faculty, English/Education
Francess Andrade – Classified, Library Specialist
David Babb – Faculty, Biology
Dr. Larry Beloof – Faculty, English/Communication
Jameson Birrell – Faculty, Math
Cindy Dolata – Faculty, Nursing
Gustavo Enriquez – Classified, Academic Advisor
Bob Gibson – Faculty, Math
Veronica Grijalva – Faculty, Counselor
Lataria Hall – Faculty, Counselor
Marta Hendrickson – Faculty, Counselor
Libra Howard – Faculty, English
Michael McDowell – Faculty, Art
Tiffani McGee – Faculty, Counselor
Rebecca Neves – Faculty, Physics/Engineering
Joel Rogers – Faculty, Kinesiology/Biology
Marleen Smart – Faculty, Nursing
Kurt Sterling – Faculty, Biology

Standard III: Resources

Sylvia Dorsey-Robinson, Lead – Vice President of Student Services
Brian Abela, Co-chair – Faculty, Chemistry
Valarie Kerns, Co-chair – Classified, Student Services Assistant
Linda Amaya-Guenon – Faculty, Counselor
Amber Avitia – Classified, Senior Secretary
Samuel Barnes – Student
Keith Brock – Classified, DSPS Assistive Technology Assistant
Lisa Butts – Adjunct Faculty, Music
Rocio Evans – Student
Charles Freeman – Director of Allied Health
Mariadelaluz Gonzalez – Faculty, Counselor
Garrett Gudgel – Student
Bob Hall – Faculty, Geography
Allen Moore – Director of Maintenance, Operations, and Auxiliary Services
Michael Navarro – Student
Dave Neer – Faculty, Kinesiology/Biology/Psychology
Leo Orange – Classified, Learning Skills Program Assistant
Mike Rodriguez – Faculty, Counselor
Kim Sheffield – Faculty, English
Anna Silvestre – Classified, Program Development Assistant
Elva Torres – Classified, Senior Secretary
Oscar Villarreal – Classified, Outreach Specialist

Standard IV: Leadership and Governance

Jose Lopez, Lead – Dean of Student Services
Bob Clement, Co-chair – Director of Athletics
Jody Ruble – Co-chair, Director of Categorical Programs
Julio Trevino – Co-chair, Adjunct Faculty, English
Pam Brasil – Classified, Secretary
Susie Briones – Classified, Advising Specialist
Michelle DeOchoa – Classified, Advising Specialist
Aimee Freitas – Classified, Student Services Assistant
Tammy Larson – Faculty, GED
Eva McPherson – Student
Rupinder Rai – Faculty, Counselor

* Ms. Atkinson-Alston served as lead of Standard I until she assumed a new position at another college in September 2009. At that point, she was replaced by Mr. Clement, who had been serving as a co-chair on Standard IV.

Background

West Hills Community College District (WHCCD) serves significant portions of Kings County, Fresno County, and parts of San Benito, Monterey, and Madera counties. WHCCD is a two-college district with fully accredited campuses in Coalinga and Lemoore. The North District Center, located in the community of Firebaugh, operates under the stewardship of West Hills College Coalinga. West Hills College Lemoore operates an office and classrooms at Naval Air Station Lemoore.

History of the Institution

The history of West Hills College Lemoore (WHCL) begins in 1962 when Lemoore High School District residents voted to annex to the WHCCD. Between 1962 and 1979 classes were offered primarily at the Naval Air Station Lemoore and Lemoore High School. In 1979, the district purchased land in the city of Lemoore, and in 1981, a classroom building and an office were erected. This site was named the Kings County Center. For 20 years the campus operated in portable buildings on five acres in the city of Lemoore, as well as in leased space at Lemoore K-12 schools and in classrooms located on Naval Air Station Lemoore.

In 1991, after considerable deliberations and public hearings, the California Community College Board of Governors adopted a staff recommendation naming the Kings County Center of West Hills College as the official, permanent education center to serve the Lemoore/Hanford area. In August of 1992, the California Post-Secondary Education Commission agreed with the Board of Governors actions, thereby confirming that 1) the WHCCD service area extended beyond its territorial boundaries, and 2) the Kings County Center was eligible for state capital outlay funding. Since that time, the California Community Colleges Chancellor's Office enrollment forecast for the WHCCD has included Lemoore and Hanford areas.

During the same period it became increasingly evident that the five acre site for the Kings County Center would not have the capacity to serve the influx of students that would descend upon it in the mid-1990s and beyond. A search for additional space ended with a landowner donation from the Pedersen and Semas families of approximately one hundred acres being officially accepted by the WHCCD Board of Trustees on September 26, 2000.

In 1998, residents of the WHCCD approved a \$19 million general obligation bond, Measure G, for facility upgrades to the Coalinga and Firebaugh campuses, and new construction for the Lemoore campus. In Kings County, the measure was approved by 70% of the voters. This bond measure, coupled with bond funds from Proposition 1A, which passed statewide, allowed the college to begin making the dream of a fully accredited college in Lemoore a reality. Groundbreaking began shortly after the WHCCD Board of Trustees accepted the Pedersen/Semas donation, and West Hills College Lemoore opened its doors to students on January 14, 2002. When fully completed, West Hills College Lemoore will have capacity for over 6,000 FTEs.

In 2002, having just moved to a new location with new facilities, the Kings County Center began the formal process of seeking its own stand-alone college status as the second college in the WHCCD. Work on an application for college status started in 2002 culminating in a 2004 self study report (with visit) presented to ACCJC resulting in West Hills College Lemoore moving from eligibility to candidacy status. Immediately following, the college diligently and tirelessly produced an additional accreditation report that was submitted in 2006. The WASC visitation team in 2006 gave some recommendations yet the WASC commissioners granted full college status to West Hills

College Lemoore. A Midterm Report was submitted in 2008 and a Follow-Up Report was submitted in 2009 with the intention of responding to the visitation team and WASC recommendations; the 2009 Follow-up Report fully met the WASC commissioners' expectations.

In November 2008, WHCL successfully passed Measure E, a \$31 million general obligation bond, to provide matching funds for Phase 3 construction projects. In addition, Measure E allocated funds for educational center opportunities in Riverdale and Avenal. Currently, as part of Phase 3 construction, WHCL has completed the construction of a new Multi-Use Sports Complex for additional educational, community, and athletic events.

The current West Hills College Lemoore campus prides itself on providing facilities with advanced technology. The most impressive features of the campus are the most technologically advanced library in Kings County and the newly constructed Multi-Use Sports Complex. The campus contains 34 classrooms that include nine classrooms outfitted fully with computers and three science collaboratories (an award winning cooperative science lab concept that is being replicated at other colleges). The college has always maintained a high level of technology, which has been refreshed periodically to reflect more up-to-date standards.

Associate degrees and/or certificate programs are offered in a variety of vocational and non-vocational areas. Students also are able to benefit from available technology by enrolling in a significant number of classes in an online format. The online format allows for students to access class materials at their convenience and minimizes potential employment or family conflicts. A substantive change proposal was submitted to WASC in May 2010 for the distance education delivery of additional courses and degrees.

The expansion and creation of the new campus site generated significant energy in the educational community resulting in some exciting and prosperous partnerships. A partnership with Lemoore Elementary School District has allowed an elementary charter school, the University Charter School, to be located on the West Hills College Lemoore campus. An additional partnership with Lemoore Union High School District has allowed for a Middle College High School to be located on the college campus; this Middle College High School has recently received charter school status. Partnerships with California State University, Fresno and Fresno Pacific University allow for local students the opportunity to receive upper division courses (and possibly credentialing classes in the future) on the West Hills College Lemoore campus, thus increasing access.

Naval Air Station Lemoore

In addition, the college is responsive to the needs of Naval Air Station Lemoore (NASL), which is located five miles from the West Hills College Lemoore campus. With a base resident population of over 7,000 active duty personnel and dependents, the college is a valued source of education for the military. The college maintains an office and classrooms on the base, but most base students also attend the college campus. The

needs of these personnel are varied, ranging from newly enlisted servicemen who may have little education and are in need of basic classes, to highly educated military personnel and dependents. West Hills College Lemoore seeks to offer courses to meet the spectrum of requirements and works closely with base officials to select and design these courses.

Online classes allow active duty personnel to schedule courses around their busy work schedules. WHCL is an active participant in NASL activities, including special ceremonies and graduation. The college considers NASL a strong education partner at all levels.

While many military bases have been closed or downsized in the past decade, NASL has grown and is expected to continue to grow. In addition to its positive economic impact on the community and the college, the presence of the base provides the area with a global perspective. The base personnel actively participate in a variety of college functions, including advisory committees, special ceremonies, and serving as a resource for programs related to military activities.

The range of experience and education offered by military personnel who participate in West Hills College Lemoore classes and activities is a significant resource to college faculty and staff. Some military personnel lack the education necessary for advancement, and the college is able to provide them with classes that increase their ability to succeed. In addition, many highly educated, world-traveled military personnel seek coursework to enhance their education. The college seeks to respond to this need through NASL participation in college advisory committees and through regular meetings with base administrators. Faculty and staff at the college have noted that the presence of these knowledgeable students in their classes adds significantly to the teaching and learning experience for both students and teachers. For valley students, many of whom may have limited travel experience, the global perspective brought by NASL is invaluable. In addition, the college also meets the needs of the military retirees through our Veterans Services Program.

Demographics

Student Access

During the 2009-10 academic year, West Hills College Lemoore (WHCL), including the students on its main campus, at the Naval Air Station, and students enrolled in online classes, totaled 6,549 unduplicated students, an increase of 41% in students served during the past six years. The decrease in enrollment was due to a planned reduction of sections as a result of reduced state funding. The growth in student population at West Hills College Lemoore is expected to continue on its upward trend as funding is restored.

WHCL generates about 66% of the district's unduplicated student headcount. It is important to note that approximately 27% of the students enrolled at WCHL are also enrolled at its sister college (WHC Coalinga) mainly through online courses. Both colleges work closely to coordinate and maintain consistency in services provided to online students.

Source: WHCCD Data Warehouse

Between 2004 through 2010, WHCL increased its full-time equivalent students (FTES) by 14%. West Hills College Lemoore generates approximately 56% of the district's FTES. Decline in FTES for 2009-2010 was due to a planned reduction of courses as a result of reduced state funding.

Source: WHCCD Data Warehouse

Note: This graph displays FTES generated which differs from FTES reported for apportionment.

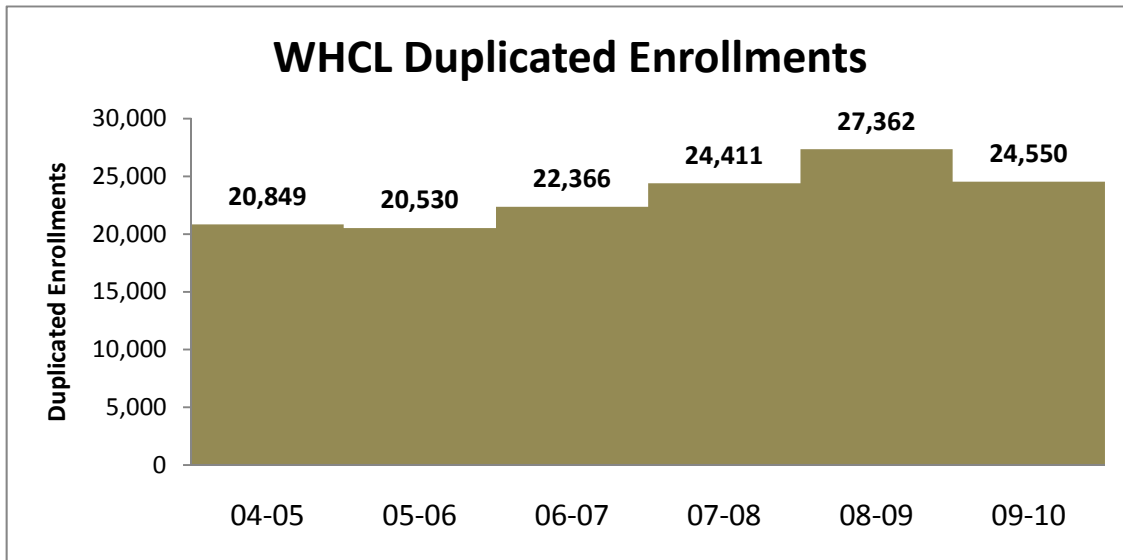

West Hills College Lemoore students have the option of registering for courses at three different locations. Approximately 77% of students enroll in traditional courses on the Lemoore campus, 41% enroll in online courses, and 2% enroll in courses at the Naval Air Station location.

Source: WHCCD Data Warehouse

Note: Students enroll in multiple locations therefore headcount total for all locations is greater than 100% of the overall college unduplicated headcount.

During the last six years there has been a 39% increase in the number of duplicated enrollments at WHCL. The decline during the 2009-2010 year was due to a reduction in state funding and a planned reduction of course sections.

Source: WHCCD Data Warehouse

During the 2009-2010 academic year there was a decline of evening and online duplicated enrollments. The decline in enrollment is related to a planned reduction of sections as a result of reduced state funding. Full-time instructors teach the majority of morning and afternoon sections; therefore, those sections were less impacted because of load requirements. The increase in morning sections was the result of a change in class scheduling patterns resulting in an effort to provide a more effective schedule for students. This change was driven by a review of 08-09 scheduling patterns.

During the past six academic years, WHCL has increased its vocational courses enrollment by 17%. West Hills College Lemoore offers a number of vocation options that include Nursing, Culinary, Administration of Justice, Child Development, Computer Information Systems, Business, Health Careers, and Work Experience, for example.

Source: WHCCD Data Warehouse

Note: Enrollments based on courses coded as “clearly occupational” or “advanced occupational”

The California Standards Test (CST) results reveal low levels of proficiency in English/Language Arts and Mathematics of students at the 11th grade level in feeder high schools. This implies a potential need for more Basic Skills sections available for first-term students matriculating to the college.

Student Success

West Hills College Lemoore participated in the Community College Survey of Student Engagement (CCSSE) during spring 2007 and spring 2008. All results were statistically equal or higher than the comparison group. In particular, WHCL student responses rated higher in the following areas: Worked with other students on projects during class; encouraging contact among students from different economic, social, and racial ethnic backgrounds; and frequency of career counseling. WHCL is scheduled to administer the CCSSE again in spring 2011.

Community College Survey of Student Engagement Results

Area of Measurement	WHC Lemoore 2007 Results	*Points above or below CCSSE comparison group	WHC Lemoore 2008 Results	*Points above or below CCSSE comparison group
Active and Collaborative Learning	57.5	+7.5	53.4	+ 3.4
Student Effort	55.8	+5.8	51.6	+ 1.6
Academic Challenge	54.3	+4.3	51.1	+ 1.1
Student-Faculty Interaction	55.3	+5.3	51.4	+ 1.4
Support for Learners	54.7	+4.7	55	+ 5

*Comparison group is based on average CCSSE group score of 585 participating colleges.

During 2009-2010, the average number of units per student increased by approximately .5. The same occurred in 2003-2004 during a downward economy and higher unemployment rates.

WHCL Annual Average Units per Headcount			
Academic Year	Headcount	Total Units	Units/Headcount
03-04	4,997	51,940	10.4
04-05	5,512	56,391	10.2
05-06	5,817	58,910	10.1
06-07	6,467	64,468	10.0
07-08	7,089	68,748	9.7
08-09	7,618	75,397	9.9
09-10	6,549	67,617	10.3

Approximately 66% of students at WHC Lemoore are enrolled part-time, and 34% are enrolled full-time. The percentages fluctuate slightly throughout the years with a slight increase (2%) of full-time students during the 2009-2010 academic year.

Percent of Full-Time & Part-Time Students

WHCL	% Part-Time	% Full-Time
03-04	64%	36%
04-05	65%	35%
05-06	66%	34%
06-07	68%	32%
07-08	67%	33%
08-09	67%	33%
09-10	65%	35%

Approximate 50% of first-term students persist from their first fall term to the next.

WHCL Fall to Fall Persistence Rate of First-Term Students	
Terms	% Persisted
2004 Fall to 2005 Fall	48%
2005 Fall to 2006 Fall	50%
2006 Fall to 2007 Fall	47%
2007 Fall to 2008 Fall	47%
2008 Fall to 2009 Fall	50%

From 2006 through 2008 there was an increase in course withdrawals that negatively impacted the overall retention and success rates for WHCL. In 2008 the college created a retention ad-hoc committee to investigate issues related to the decline in student retention. The committee surveyed students and faculty to collect feedback. As a result, modifications were made to the “Early Alert System,” and improvements were made to communicate the different drop dates to faculty. Additionally, WHCCD developed a Distance Education Strategic plan that focuses on increasing retention and success rates for students enrolled in distance education courses. WHCL retention and success rates for 2009-2010 are at an all time high.

Definitions: Course Retention Rate is based on the percent of students who remain in the course after the census date until the end of the term. Course Success Rate is based on the percent of students who earn a successful grade in the class. Course grades of NC, D, F, I, NP or W are considered to be unsuccessful.

Source: WHCCD Data Warehouse

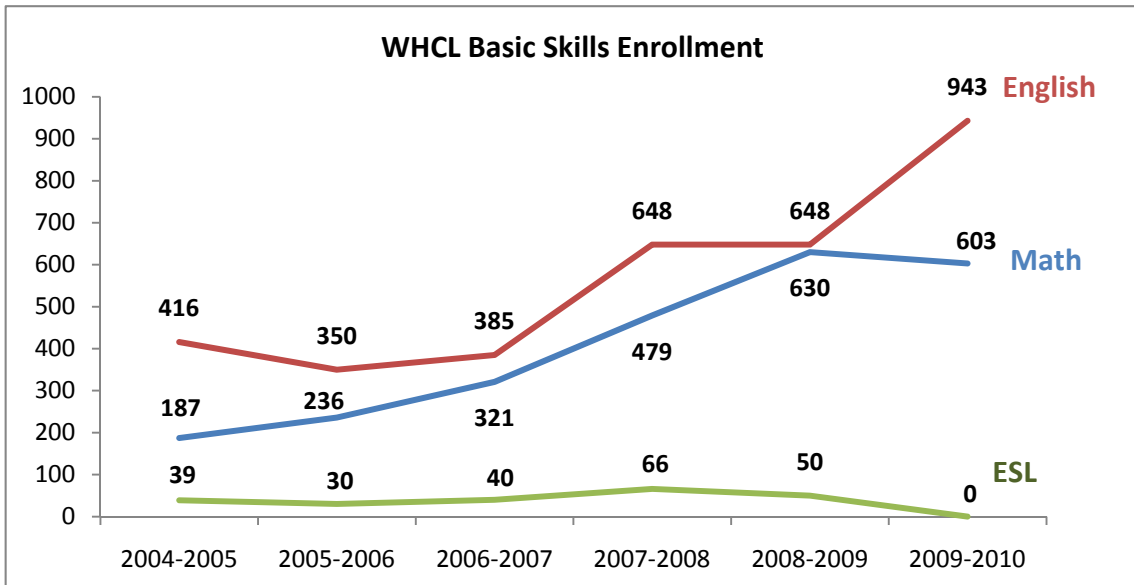

Approximately 20% of WHCL FTES are generated from online education. Online courses at WHCL and other California community colleges have lower retention and success rates than traditional face-to-face courses. The table below provides the average retention and success rates for all California community colleges in comparison to WHCL's online retention and success rates. Retention and success rates for WHCL are at par with the California community college averages.

Source: WHCCD Data Warehouse; CA Community College Chancellor's Office Data Mart
 Note: CA CC data not available for 09-10

The California Standards Test (CST) results reveal low levels of proficiency in English/Language Arts and Mathematics of students at the 11th grade level in feeder high schools. This implies a potential need for more Basic Skills sections available for first-term students matriculating to the college.

Basic Skills courses are needed by many first-term WHCL students in order to be successful in college coursework. With the new math and English requirements, approximately 87% and 90% of students place in developmental Math and English courses, respectively. During the past six years enrollments for Basic Skills English have increased by 126%, and enrollments in Basic Skills math have increased by 222%. The college has identified the need to hire a full-time ESL instructor who can provide structure and stability to the ESL program. These plans have been delayed due to current budget restraints and a hiring freeze.

WHC Lemoore Basic Skills classes have success rates at par or above the statewide average. Math success rates are above the statewide average of 52%. During the last two years, English success rates have surpassed the statewide average of 59.3%. This has been as a result of format changes driven by English faculty. ESL success rates are mostly above statewide average of 70.6%, with some fluctuation due to low sample sizes and variations in adjunct instructor grading. (Statewide data based on Board of Governor's Report on System's Basic Skills)

WHCL was officially granted accreditation status in spring 2006. The total number of degrees and certificates conferred by the college has been steadily increasing over the past four years. WHCL has granted 1,501 degrees and certificates during those years. The majority of degrees conferred have been Liberal Studies degrees under the Interdisciplinary Studies Program.

The annual number of transfers to four-year institutions was based on students who completed at least 12 units in the WHCCD system and stopped attending WHCCD prior to transferring to a four-year institution. The number of students transferring to four-year institutions has increased over the six year. Approximately 40% of all WHCL transfers attend CSU, Fresno. Chapman University, Fresno Pacific University, and University of Phoenix, in that particular order, are the next institutions of choice for WHCL student transfers. The WHCCD Office of Institutional Effectiveness works closely with the CSU, Fresno Research office to track the progress of WHCCD transfers. Data shows that West Hills College Lemoore transfers perform at par or better in the areas of GPA, retention, and graduation rates when compared to other Central Valley community colleges.

Responses to Recommendations from Previous Review

Team Visit: February 28—March 2, 2006

West Hills College Lemoore was visited by representatives of the WASC Commission in 2006. Upon review, the Commission evaluated the documentation and granted the college initial accreditation status. As a condition of accreditation, the Commission required the college to complete a Focused Midterm Report to address four of the six team recommendations; this Focused Midterm Report was submitted in March 2008.

The March 2008 Focused Midterm Report was accepted by the WASC Commission with the requirement that the college complete a Follow-Up Report due in March 2009. The Follow-Up Report was to further focus on three of the original recommendations made by the original visitation team in 2006. The required Follow-Up Report was completed, submitted, and approved by the WASC Commission.

Listed below are all six of the original 2006 visitation team recommendations and West Hills College Lemoore's response to each, borrowed from previously submitted responses:

Recommendation 1: *That the institution take immediate action to develop appropriate evaluation mechanisms to assess the effectiveness of board and college policies, procedures, and processes, particularly those developed and adopted by the West Hills Community College Board of Trustees within the past twelve months related to the structure and function of a multi-college district. A timeline and evaluation process must be developed and implemented that assures the evaluation of board and college policies, procedures, and processes is completed by June 30, 2007.*

Special evaluative focus is to be given to the following policies:

BP 2431, Delineation of Authority to College Presidents and District Chancellor, 11/15/2005

BP 6225, Resource Allocation, 11/15/2005

BP 3250, District Strategic Planning, 12/6/2005

BP 2740, Trustee Education, 11/18/2003 (Team's note: implementation procedure needed)

BP 2510, Participation in Local Decision Making Through the District Council on Student Learning, 1/24/2006

Evaluative focus is also given to the recently instituted governance structure and decision making process implemented at the West Hills Community College Lemoore, adhering to the same timeline.

The issues concerning the functionality of transitioning from a single college district to a multi-college district are new to the West Hills Community College District. As a result,

many existing policies and procedures needed to be evaluated and modified to reflect a multi-campus district, and new policies and procedures needed to be developed.

The West Hills Community College District Board of Trustees approved board and administrative procedures to illicit college governance body's feedback and timely consideration of all future board policies and procedures. As a result of Board Policy (BP) 2410 and Administrative Procedure (AP) 2410, the process of including college review of new and revised Board policies and procedures was outlined and implemented in the spring term of 2006. Further implementation of BP 2410 and AP 2410 produced a policy and procedure review schedule that was initiated with the 2007-2008 school year.

The implementation of BP 2410 and AP 2410 on the West Hills College Lemoore campus means that each policy and procedure being considered by the West Hills Community College District Board of Trustees will undergo the review and approval by the college's Planning and Governance Council (PGC), which has representation of all constituency groups; a tracking sheet is used to verify the review by constituency groups and various appropriate committees. Review of board policies and procedures is now a standing item on the PGC agenda. The PGC is also responsible for verifying that board policies are being reviewed according to the timeline.

On April 10, 2007 the district chancellor made the Report on Board Policies and Administrative Procedures to the board at the Study Session. This report summarized the status of the policies to be given special evaluative focus.

The Chancellor's Executive Cabinet reviewed BP and AP 2431, Delineation of Authority to College Presidents and District Chancellor, and recommended approval on November 15, 2005. The policy and procedure were forwarded to the college on April 2, 2007 for review and approved on May 3, 2007. They were then reviewed by the board on April 24, 2007 and approved on May 15, 2007.

Discussion of and revision to AP 6225, Resource Allocation occurred at the Chancellor's Executive Cabinet. The procedure was forwarded to the college for review on March 21, 2007. The PGC reviewed this procedure on April 18, 2007 and approved it with recommended changes. The board reviewed and approved the revised AP 6225 on May 15, 2007.

BP and AP 3250, District Strategic Planning, were discussed and revised at the Chancellor's Executive Cabinet. The policy and procedure were forwarded to the college for review and action. They were then presented to the Board of Trustees and approved on June 26, 2007.

BP 2740, Board Education, was revised at the Chancellor's Executive Cabinet. After final review occurred at the Cabinet, BP 2740 was presented to the Board of Trustees for review. The Board approved the revision of BP 2740 on June 26, 2007.

BP and AP 2510, Participation in Local Decision Making through the District Council on Student Learning, was revised at the Chancellor's Executive Cabinet. These revisions led

to the reorganization of the District Council on Student Learning (DCSL). The DCSL consisted of the President of West Hills College Coalinga (WHCC), the President of West Hills College Lemoore (WHCL), the Vice President of Educational Services at WHCL, Academic Senate representatives from WHCL and WHCC, a West Hills College Faculty Association representative, a CSEA representative from WHCL and WHCC, a district office representative, and a student government association representative. The DCSL met through May 2007. Based on actions from the College Consultation Council (at WHCC) and the Planning and Governance Council (PGC) (at WHCL), the DCSL was replaced by the District Leadership Council (DLC) and membership was modified to include representatives from various college groups, the district Chancellor, the Vice Chancellor of Business Services, the Director of Human Resources, the Director of District Enrollment Services, Director of Marketing, President of WHCC, the President of WHCL, the Academic Senate President from WHCC, the Academic Senate President from WHCL, a West Hills College Faculty Association representative, a CSEA representative, and a college president-appointed student representative. The revised versions of BP and AP 2510 were presented to the board on May 15, 2007 and approved on June 26, 2007.

The Chancellor's Executive Cabinet also reviewed AP 2410, Policy and Administrative Procedure, which deals with the review of policies and procedures, as well as the routing process by the colleges. Changes to AP 2410 have been made to reflect changes to BP 2510. The revisions to AP 2410 were reviewed at the Board of Trustees meeting on May 15, 2007 and approved on June 26, 2007.

Evaluative focus has also been given to the governance structure and decision making process implemented at West Hills College Lemoore. On June 12, 2007 the college held a Leadership Retreat to evaluate the campus governance model, examine governance committee products, assess the program review process, discuss student learning outcomes (SLOs), and review the college Master Plan. This retreat was attended by the president, the dean of educational services, the director of institutional research, the vice president of educational services, the associate dean of categorical programs, the associate dean of educational services and evening college, the Financial Aid coordinator, the dean of students, the director of M & O/Auxiliary Services, the Academic Senate president, a student services technician, the lead counselor, the tutor coordinator, and an advising specialist. Later, the Leadership Retreat was changed to be the Strategic Planning Committee and recommended to meet at least twice each semester. Participants at the Strategic Planning Committee Meetings include representatives from all college constituency groups, including students. The college's mission, vision, goals, and institutional outcomes are reviewed at the retreat each fall.

To validate that the shared governance process was working at the college, an evaluation of shared governance was conducted during the spring of 2006 and again in the spring of 2010. In both surveys, favorable scores were received from respondents showing, in most cases, that the shared governance process "provides an environment that encourages honesty" and "provides an environment that values different opinions."

The lowest ranked 2010 survey response was received on the question “Members of your organization understand how the shared governance process works.” The college has plans to improve the flow of information from college and district committees by utilizing the MyWestHills portal for meeting agendas and minutes. Also, the college needs to re-emphasize the importance of constituency representatives to report news and business occurring at the committee meetings they are assigned/elected to attend.

Recommendation 2: *That the college integrate periodic review and update of the mission statement into other key college planning documents, such as the Planning and Governance Manual and the Institutional Student Outcomes Indicators plan, so that the institution’s evolving educational purposes, intended student population, and commitment to achieving student learning are aligned with the mission statement.*

The college has taken several actions to demonstrate compliance with the Commission’s recommendation to integrate periodic review and update of its mission statement into key institution planning documents.

Since September 2008, the college conducts Strategic Planning Committee Meetings each fall term to accept the responsibility of reviewing: 1) the college’s mission and vision statements, 2) the institution’s goals and institutional outcomes, and 3) the alignment of the mission goals to the institutional outcomes to measure how well the college meets its goals. Any recommendation for the modification of the mission statement, vision statement, goals, or institutional outcomes is sent to the Planning and Governance Council, the college’s primary participatory governance body, for consideration and adoption. This process of evaluation at the Strategic Planning Committee Meetings allows for regular review on the appropriateness of the college goals and mission statement.

Potential data-driven criteria have been discussed by the college’s Planning and Governance Council that may influence changes to the college’s mission statement. For example, dramatic changes in the college’s student demographics, regional employment patterns, or state/federal funding opportunities might be used as a basis for considering changes to the mission statement. More importantly, the college’s current mission statement is articulated in a fashion that accurately describes its commitment to its students and their success. However, the college is aware that the mission statement must evolve as the college matures and external factors change.

The college’s Planning and Governance Council has developed a planning calendar to reflect an effort to evaluate and improve the college’s institutional effectiveness and processes. The planning calendar includes dates, actions, and the responsible college group. In addition, the planning calendar includes several of the college’s key planning documents, such as the Education Master Plan and the Planning and Governance Manual. Currently, the college is continuing to evaluate the accuracy and effectiveness of its planning calendar; appropriate modifications are expected to be made as necessary.

Recommendation 3: *That the college ensure that all programs, instructional and non-instructional, identify measurable goals and objectives, including those goals and objectives that support student learning; that these goals are incorporated in program review reports; that assessment of progress incorporates appropriate research data; that users of research data are properly trained; and that an effective mechanism for the timely implementation of improvements is in place for all programs.*

The college has used the program review process since its first comprehensive self study in 2004 to assess, monitor and ensure that comprehensive programs and services are delivered to students. However, program review did not originally employ mechanisms for continual monitoring and data-driven decision making. As a result of the accreditation visitation team's 2006 visit, substantial and systemic changes were instituted throughout the college.

One of the substantial changes was a campus-wide discussion regarding the definition of a program. The college president charged the college with resolving the ambiguity; discussion occurred that culminated in the clarification of the definition of a program at the Leadership Retreat (later to be renamed the Strategic Planning Committee) in September 2007. It was determined that an instructional program be defined as one that leads to a degree or certificate. A non-instructional program is now defined by possessing an ongoing identifiable funding source or a specific budgetary object code. These definitions were approved by the college's primary participatory governance body, the Planning and Governance Council, in October 2007.

Preparation of the program review is an activity requiring months to complete due to thoughtful contemplation. Numerous workshops are offered each fall term led by the Office of Educational Services before being submitted to the Institutional Effectiveness and Program Review Committee for technical review. Upon initial review by the Institutional Effectiveness and Program Review Committee, program reviews are submitted to the Planning and Governance Council for official approval.

Approval of program reviews substantiates the college staff or faculty member in making requests in a variety of areas to support their program including personnel, facilities, budget, curriculum, and technology. These requests for additional support can be processed in a timely manner when requested by their administrator or by an appropriate committee on campus. For example, faculty and staff can ask for additional equipment or supplies from the Budget Allocation Committee. Another example would be for a faculty member taking the initiative to institute a curriculum change immediately based on their submitted and approved program review. Overall, faculty and staff are given avenues on which to quickly react in order to implement changes based on approved program reviews.

Program reviews must now also include data-driven goals. Faculty and staff are responsible for determining the nature of these goals but must be aware of how the goals support the college's mission statement. The stated goals are reviewed regularly for progress as a result of midterm program review updates and future program reviews.

In consideration of the college's need to receive useful and accurate data, the district established the Office of Institutional Effectiveness in fall 2005, now called the Office of Institutional Effectiveness and Enrollment Management. The Vice Chancellor of Institutional Effectiveness and Enrollment Management began effective distribution of program data and has worked extensively with staff to ensure that users of research data are properly trained. Program specific data and trainings on effective uses of data have been provided to instructional areas and non-instructional programs as a common practice during the program review process and during district-wide duty and flex days. The Vice Chancellor of Institutional Effectiveness and Enrollment Management provides data reports and training for campus end-users in an on-going basis, including one-on-one staff training as requested.

Through the program review process, instructional and non-instructional programs identify goals and objectives and align them to the West Hills College Lemoore Strategic Plan. The college has advanced its ability to measure goals and objectives through the collaborative efforts by the district Vice Chancellor of Institutional Effectiveness and Enrollment Management, the Vice President of Educational Services, and a faculty member with reassigned time to operate as the backbone of the Institutional Effectiveness and Program Review Committee.

Program reviews are used by the college's Strategic Planning Committee along with the Planning and Governance Council to assess progress toward achieving program and institutional goals. Institutional decision making utilizes this information with regards to the improvement of institutional effectiveness, part of an ongoing and systematic cycle of evaluation, integrated planning, resource allocation, implementation, and re-evaluation. This is a component of the institution's planning calendar.

In consultation with program review teams and the Institutional Effectiveness and Program Review Committee, the Vice Chancellor of Institutional Effectiveness and Enrollment Management provides comprehensive, updated data packets to all programs and to individuals upon request. A major element of West Hills College Lemoore's institutional effectiveness efforts is assessment, which utilizes state-level and institutional level specific data. The Vice Chancellor of Institutional Effectiveness and Enrollment Management provides data that includes enrollment trends, FTES, Weekly Student Contact Hours, retention rates, success rates, persistence rates, degrees and certificates awarded, as well as course level details like grades, success, retention rates in comparison to other institutions, and industry data. The data is used in the program review cycle to drive decisions regarding resource allocation, staffing, facilities, technology, curriculum, etc.

Data aids in the decision making process at the program and course level. For example, based on an analysis of the student success, retention rates, and the number of student accessing the Disabled Student Program and Services (DSPS) Lab, the DSPS program review identified four goals – a need to increase the number of students using the DSPS lab, a need to increase the number of students enrolled in the program, a need to increase

the number of adaptive classes offered, and a need to decrease the number of DSPS students receiving a grade of “W.” The DSPS team works toward allocating fiscal, personnel, and supply resources to address these problems. In this example, the DSPS team utilized the budget planning process to address the personnel and resource allocation needs to fund an additional staff person in the DSPS Lab. This process involved an approval from the Planning and Governance Council and President’s Cabinet. This position was subsequently approved by the district chancellor and filled. The next step in the cycle is the analysis of the effectiveness of the action at the mid-term review process and a concurrent assessment of the program SLOs.

Another example is from the T.E.A.M. Teach program. This program has grown from about 50 students in 2005 to over 400. The program is more accurately described as a “support network” of both current WHCL students as well as former T.E.A.M. Teach members. The program review analyzed the effectiveness of the student transfer rate and recognized a “bottle-neck” in the university transfer process. As a result, a need for a counselor who would work exclusively with the T.E.A.M. Teach students and develop stronger articulation agreements was identified. The program review process also resulted in the T.E.A.M. Teach program becoming institutionalized through district, categorical, and grants funds.

Since 2005, all programs have been linked to a timeline for evaluation, the involvement of the Office of Institutional Effectiveness and Enrollment Management, the development of SLOs, and a midterm review. This mechanism involves the input of the budget planning process. While this process was not well known to all individuals involved, it did exist. Recently, the college began the process of clarifying and communicating the workflow mechanism for evaluating the programs, and a workflow distribution chart was created that crystallizes the process. Since the 2006 accreditation visit, the college has strategically identified staff needs, program development, terminology clarifications, and communication enhancements in order to ensure that programs are aligned to thoughtful, data driven objectives for dynamic growth. Since 2007, the president has instructed staff and administrators to develop and implement plans to assure that the college achieve a level of excellence and uniformity. A five-year implementation chart was developed, the Educational Master Plan was created, and an institutional planning calendar was created for the college and programs to use as a guide for planning and decision making.

The college began creating student learning outcomes (SLOs) for all courses and programs beginning in fall 2005. This activity is under the guidance of the Student Learning Outcome Committee, a participatory governance body that reports to the Planning and Governance Council. At present, 100% of the course level SLOs have been developed and assessments have been defined. Also, the college has 94% of the non-instructional program level SLOs developed and assessment methods defined.

Now that the college has agreed on the definition of a program and responded to the president’s additional request to complete SLOs, the college revised the program review process to utilize current, qualitative and quantitative collected data and to include goals and objectives and activities identified through the SLO process. In fall 2008, the

program review process was modified to include the evaluation of student learning outcomes at the program level. With the support of the Office of Institutional Effectiveness and Enrollment Management, the college reviews approximately 25% of its programs each year. Program data and goals and objectives derived from program reviews are included in the institution's Educational Master Plan document, which serves as a comprehensive and consistent compendium of program information. This information is used to formulate institutional student outcomes and institutional strategic goals.

Recommendation 4: *That the college implement a well-defined plan outlining the steps to identify and assess student learning outcomes for all courses, programs, degrees, and certificates, and, as applicable, appropriate support areas. The plan should establish a specific timeline for the completion of all tasks, including: identifying student learning outcomes; assessing student learning; training faculty; defining the role of institutional research in the process; and describing procedures for implementing improvement.*

During the fall of 2007, West Hills College Lemoore developed a five-year plan for the implementation of student learning outcomes (SLOs) across all areas of the institution. This plan was developed by the Student Learning Outcomes Committee (SLOC), which is part of the college's shared governance system. The SLOC includes representatives from both the academic and vocational education areas as well as from student support services. The five-year Implementation Plan illustrates that SLOs are an integral part of the workings at WHCL.

Even in the years previous to the development of the implementation plan, SLOs have been a priority for the faculty, staff, and administration at West Hills College Lemoore. At the course level, all SLOs have been written, but because SLOs are designed to be fluid, rewriting of SLOs is taking place as the assessment cycle is completed. In addition, the student services area has implemented SLOs for nearly all programs but is also constantly reviewing these to better serve the college's service area and students.

Beginning in the 2007-2008 academic year (and each year thereafter), the first year of the Implementation Plan across all areas of the college was instituted. At this time, the SLO Coordinator, who is the chairperson of the SLO Committee, developed and implemented training programs for flex day and workshops to take place throughout the year. In addition, the SLO Coordinator worked with the SLO Committee to create a form to be used to develop SLOs at the program level. The SLO Coordinator and SLOC track SLOs to ensure that the assessments are being done and works with faculty through training and one-on-one sessions to ensure all faculty understand the task. The Vice Chancellor of Institutional Effectiveness Enrollment Management plays a vital role by providing data and analysis to assist faculty in assessing their students' learning. As SLOs are implemented by faculty and staff, assessment and improvement will be constant goals. Instructional learning areas (the college does not have departments) meet monthly or bi-monthly to discuss SLOs and assessments, as well as to work on ways to improve student learning.

The 2008-2009 academic year marked the second year of the Implementation Plan. The SLO Coordinator and Committee worked to map all courses supporting the SLOs of General Education. Training sessions continued for new as well as experienced faculty and staff to ensure that new practices are implemented. In this second year, the assessment of SLOs by faculty and staff were being completed in rotating schedules. Learning areas continued to meet monthly or bimonthly, analyzing the results of the assessments at the course level, and instructors made changes to improve student learning. Non-instructional programs continued to assess and analyze SLOs annually and make improvements to better serve our students. The assessment results were shared within the Counseling Learning Area Meetings.

The 2009-2010 academic year marked the third year of the Implementation Plan. During this year, courses continued to be assessed and analyzed according to the plan and changes were implemented to improve student learning. The goal was to have half of the academic and vocational programs have their SLOs assessed, analyzed, and changes implemented to improve student learning; the college unevenly accomplished this goal. The information resulting from the assessments were shared in Learning Area Meetings. The training in the writing, assessing, and analyzing of SLOs continued under the leadership of the SLO Coordinator and SLO Committee. Student Services continued to assess and analyze SLOs annually and make improvements to better serve all students. The assessment results were shared within the Counseling Learning Area Meetings.

The 2010-2011 academic year will mark the fourth year of the Implementation Plan. The SLO Coordinator and SLO Committee continue to review SLO tracking sheets to ensure that courses and programs are being assessed, analyzed, and that changes are being implemented to improve student learning. The assessment of course level and program level SLOs will continue on the adopted rotating cycle. Training in the writing, assessing, and analyzing of SLOs will continue under the leadership of the SLO Coordinator and Committee. Student Services will continue to assess and analyze SLOs annually and make improvements to better serve all students. The assessment results will be shared with the appropriate campus groups.

The 2011-2012 academic year will mark the fifth and final year of the Implementation Plan. During this year, the assessment of course level and program level SLOs will continue on the adopted rotating cycle. Training in the writing, assessing, and analyzing of SLOs will continue under the leadership of the SLO Coordinator and Committee. Student Services will continue to assess and analyze SLOs annually and make improvements to better serve the students. The assessment results will be shared with the appropriate campus groups.

During each assessment cycle, faculty and staff are required to not only assess SLOs at the course and program level but also to share the results of the assessments within each learning area and analyze the results. From the analysis, which takes place both individually in groups of faculty teaching the course and in the monthly and bi-monthly learning area meetings, changes will be implemented to either the assessments or the pedagogy used in the classroom based upon the results of the assessment. Training

sessions are planned throughout the five year plan to assist faculty in making the necessary changes to their courses and programs in order to achieve successful student learning. The Vice Chancellor of Institutional Effectiveness and Enrollment Management will be available to assist faculty and staff in the assessment and analysis of SLOs for their courses and programs.

Recommendation 5: *That the college further improve the quality of learning resources by providing library and other learning support services that are sufficient in quantity, currency, depth, and variety to facilitate educational offerings, regardless of location or means of delivery.*

The West Hills College Lemoore Library/Learning Resource Center was planned and constructed to be the focal point of the college campus. With an outdoor amphitheater, the Pedersen/Semas Plaza, the building contains the traditional functions found in a college library along with faculty offices, classrooms, and computer access for students and community. Foot traffic into the building has steadily increased from a daily average of 833 visitors in 2006 to 1112 visitors in 2010.

The Library/Learning Resource Center has been highly aggressive in improving its resources and services in spite of this challenging economic era. Utilizing a combination of district and grant funding, the Library/Learning Resource Center has taken particular advantage of the increased availability of electronic resources.

Students of West Hills College Lemoore have access to a much greater number of resource materials compared to 2006. Specifically, the collection has increased from 19,795 items to 34,172 or a 73% increase. Even more impressive is the increase in electronic-books, from 3,098 to 17,260 titles for a 557% increase in the same five year time period, evidence that the college is cognizant of its distance education student population.

Periodically, the college librarian purges older non-relevant books from the collection. The number of books removed is small but the practice helps to maintain a current and more useful collection. The librarian uses collection development guidelines to fit the curriculum of WHCL.

Subscription databases are regularly examined and subscriptions are adjusted to better fit curriculum. An example of this is the addition of Health Source: Nursing/Academic Edition that consists of 550 scholarly journals focusing on medical disciplines that was added to enhance the collection for the new nursing program at the college.

The Internet has been utilized in several ways to enhance the acquisition of knowledge. For example, an instant messaging system has been installed to give users, regardless of location, the ability to seek library help in real time. The implementation of the Blackboard v.9 course management system is a second use of the Internet. Tutorials geared towards teaching students how to more efficiently utilize library resources are also planned to help students with information competency.

Representative of the value that students place on classroom success, the tutoring program has continued to be popular. The total number of tutoring applicants was 268 during the 2006 calendar year and increased to 348 in 2007. The number of tutoring applicants peaked in 2008 when 381 students sought tutoring assistance. Enrollments declined in 2009 and a concomitant number of students requested tutoring assistance, 366. West Hills College Lemoore remains committed to providing this necessary service to students.

Recommendation 6: *That the Board of Trustees develop a new member orientation program as part of their board education policy.*

A Board of Trustee Handbook was developed and approved by the West Hills Community College District Board of Trustees in March 2008. Additionally, the handbook is reviewed at the annual Board of Trustees Retreat and is updated as necessary.

New Board members are given the opportunity to attend the Community College League of California and American Association of Community College workshops each year; however, it should be noted that there has been no new Board member elected since 1997.

Standard I – Institutional Mission and Effectiveness: A Thematic Overview

Dialogue

The dialogue theme is exemplified in the development of the mission statement. Regular Strategic Planning Meetings include college constituency groups, such as classified staff, faculty, administration, and managerial staff. The mission statement, goals, and institutional outcomes are reviewed annually at these meetings.

Institutional Commitments

Institutional commitments are defined in the mission statement. The college has created goals that are aligned to its mission and focus on student learning. The communities we serve include: high school graduates, re-entry students, the military community, underserved, and special needs populations. Regular systematic cycle of program review processes ensures a commitment to implement and improve student learning.

Evaluation, Planning, and Improvement

Evaluation, planning, and improvement are achieved through an on-going cycle of assessment, evaluation, integrated planning, implementation, and reevaluation of campus committee products, including instructional and non-instructional program reviews. The West Hills College Lemoore Strategic Plan incorporates our mission and vision statements as well as the college's guiding principles. The Strategic Plan includes themes and institutional student outcomes that are measured by institutional outcomes.

Standard I. Institutional Mission and Effectiveness

The institution demonstrates strong commitment to a mission that emphasizes achievement of student learning and to communicating the mission internally and externally. The institution uses analyses of quantitative and qualitative data and analysis in an ongoing and systematic cycle of evaluation, integrated planning, implementation, and re-evaluation to verify and improve the effectiveness by which the mission is accomplished.

I.A. Mission
The institution has a statement

The West Hills College Lemoore mission statement reflects college-wide commitment to student learning:

West Hills College Lemoore enriches the lives of our students and the community we serve by being dedicated to quality educational learning opportunities and partnerships. The college provides a positive environment that is committed to student learning and empowering students to achieve their educational goals.

The mission statement is published in the college catalog, strategic plan, educational master plan, website, student handbook, and brochures. It is also posted on the wall of the administration building, as well as in classrooms.

The college's Strategic Planning Committee, with the assistance of the Office of Institutional Effectiveness and Enrollment Management, developed goals and institutional outcomes composed of quantitative and qualitative data that serve to measure how well the college accomplishes its mission. WHCL reviews its mission statement, goals, and institutional outcomes annually in Strategic Planning Committee Meetings. Recommendations for interventions, improvements, or changes are sent to the college's Planning and Governance Council for further review, approval, and implementation.

In addition, the college has adopted and approved a college planning calendar that focuses the college's institutional effectiveness processes in support of its mission statement. For example, the planning calendar specifies a timeline for review of the college mission and vision statements, its planning and governance manual, educational master plan, strategic plan, WASC annual report, technology strategic plan, and budget priorities. The planning calendar also specifies the dates of the college's regular strategic planning retreats. The college has developed formal evaluation instruments using surveys to evaluate and re-evaluate its processes in support of its mission.

WHCL has a mission, vision, and guiding principles that define its purpose, its population served, and its commitment to student

of mission that defines the institution's broad educational purposes, its intended student population, and its commitment to achieving student learning.

learning. The college mission statement identifies its educational purpose as enriching “the lives of [its] students and the community [it] serve[s].” The college is “dedicated to quality educational learning opportunities and partnerships” as is appropriate to any institution of higher learning. (1.1)

WHCL’s service area includes a diverse population in terms of socio-economic status, educational background and goals, age, race, and ethnicity. The student population consists of traditional first- and second-year students, current high school students, re-entry students, active military and dependents, veterans, student-athletes, and special populations. The college is committed to ensuring access through its dedication to new technology and distance education methodologies.

The mission statement further declares that the college is “committed to student learning and empowering students to achieve their educational goals” as shown through learning communities, tutorial support, early alert systems for at-risk students, informal faculty dialogue for students’ achievement, and partnerships.

The West Hills College Lemoore mission statement reflects a college-wide commitment to student learning:

WHCL Mission:

West Hills College Lemoore enriches the lives of our students and the community we serve by being dedicated to quality educational learning opportunities and partnerships. The college provides a positive environment that is committed to student learning and empowering students to achieve their educational goals.

Vision:

Learning Through Excellence and Innovation

Guiding Principles:

West Hills College Lemoore is student-centered and is dedicated in providing high quality learning opportunities. We are guided by our core values:

- **Access:** Ensure accessibility to all our programs and services.
- **Collaboration:** Emphasize efforts to understand and

meet community needs and garner community support. Support collaborative decision-making processes.

- **Community:** Develop and foster a sense of community within the college.
- **Diversity:** Respect and embrace diversity in our programs and learning environments.
- **Excellence:** Provide high quality learning, teaching, and service opportunities.
- **Innovation:** Support innovation and technology to enhance learning environments, services, and communication.
- **Integrity:** Advocate and demonstrate honesty, truthfulness, equality, and ethics.
- **Mutual Respect:** Promote an environment of open communication. (I.A)

I.A.1

The institution establishes student learning programs and services aligned with its purposes, its character, and its student population.

Descriptive Summary

WHCL establishes student learning programs and services that align with its purposes, its character, and its student population. In alignment with its mission statement, WHCL utilizes job market and industry surveys, advisory committees, economic development studies, local workforce investment board recommendations, grant opportunities, and partnerships with four-year universities to identify and develop its programs. Services are developed and refined to support student learning for all programs by the college. Through the program review process, course outline reviews, and student learning outcome assessment, the college assures its programs and services align with its mission.

The college identifies its students by working closely with the above mentioned programs and utilizing effective outreach strategies in the high schools and outreach through the local community including the Naval Air Station Lemoore. The college also provides programs and services to its online student population. West Hills College Lemoore further identifies its students through the use of data from the assessments of its institutional outcomes. This data are used to assess the college's mission statement and college goals. (1.1, 1.2, 1.3)

Self Evaluation

West Hills College Lemoore's mission statement is a statement of commitment to students and the area communities by guiding the college in its effort to provide a quality educational experience for all

of its students. Through its mission statement the college has identified guiding principles to further enhance its commitment to its mission. These guiding principles identified in the college's strategic planning document serve to guide college planning processes. As an example of commitment to its guiding principles, each of the college's shared governance committees has a defined diversity statement which demonstrates its commitment to students from diverse cultures and varied learning experiences. (I.A.1)

Planning Agenda Items

- None

I.A.2

The mission statement is approved by the governing board and published.

Descriptive Summary

The mission statement is reviewed annually by the college's Strategic Planning Committee. Changes to the mission statement are approved by the college's primary participatory governance body, the Planning and Governance Council; the mission statement is then reviewed and approved by the WHCCD Board of Trustees. The mission statement was last reviewed by the PGC on February 19, 2010 and approved by the Board of Trustees on May 18, 2010. The mission statement is published in the college catalog, strategic plan, educational master plan, website, student handbook, and brochures; it is also posted on the wall of the administration building, and posted in classrooms. (1.4, 1.5, 1.6)

Self Evaluation

West Hills College Lemoore's mission statement was most recently approved by the WHCCD Board of Trustees on May 18, 2010. Prior to board approval, the college constituencies represented by the Strategic Planning Committee and the Planning and Governance Council reviewed college institutional outcomes and goals utilizing data from the office of institutional effectiveness and enrollment management for mission statement currency. The college determined that the current mission statement meets the needs of its students and area communities.

WHCL's mission statement is widely visible in its college catalog, course schedule, strategic and educational master plans, student handbook, and other college wide print media. (I.A.2)

Planning Agenda Items

- None

I.A.3

Using the institution's governance and decision-making processes, the institution reviews its mission statement on a regular basis and revises it as necessary.

Descriptive Summary

The Strategic Planning Committee approved a review cycle recommending the mission/vision statements, goals and institutional outcomes be reviewed annually by the Strategic Planning Committee, and if changes are recommended they are forwarded to the Planning and Governance Council for review and approval. (1.7, 1.8)

Self Evaluation

The mission statement is reviewed on a regular basis by all constituency groups according to the planning calendar. The development of a planning calendar is addressing the 2006 response of the previous team's recommendation to review and update the mission statement. (I.A.3)

Planning Agenda Items

- None

I.A.4

The institution's mission is central to institutional planning and decision-making.

Descriptive Summary

The mission statement is a guiding principle for the college's Planning and Governance Manual. (1.4, 1.5, 1.6)

The mission statement directs the college's educational purposes by focusing on its student population and commitment to student learning. Further, the planning and governance and the strategic planning processes rely on the college's mission statement, the vision statement, guiding principles, themes, and institutional learning outcomes.

As part of the program review process, validation of how a program aligns and supports the college's mission statement must be provided. Program reviews are reviewed and approved by the Planning and Governance Council, which consists of members of all campus constituencies. (1.2, 1.3)

The importance of the college's mission statement as a component of the planning and governance process is significant in directing the actions of these committees. In addition, advisory committees have been established for vocational/career technical education programs to discuss relevance to community and industry needs that are consistent with the college's mission statement. General Education instructional areas (programs) align courses to meet graduation

requirements and to transfer to California State Universities and the University of California. Curriculum Committee course outlines are designed to address graduation requirements as well as articulation agreements for transferability of courses. The effectiveness of the college's programs is indicated by the growing number of students graduating and/or transferring to baccalaureate institutions. (1.9)

Self Evaluation

WHCL's mission is central to institutional planning and decision-making with defined goals that support the mission statement. The Office of Institutional Effectiveness and Enrollment Management has assisted the college in developing institutional outcomes. The institutional outcomes assess the college's attainment of its mission-driven goals. College planning and decision making are aligned to these goals. Data analyses from the institutional outcomes drive planning within the college governance process. Program reviews, student learning outcomes, budget procedures, and institutional planning must support the institutional outcomes and are central to further ensuring that the college's processes are aligned to the college mission statement. All program reviews are evaluated and approved through the participatory governance process culminating at the Planning and Governance Council. (IA.4)

Planning Agenda Items

- None

I.B. Improving Institutional Effectiveness

The institution demonstrates a conscious effort to produce and support student learning, measures that learning, assesses how well learning is occurring, and makes changes to improve student learning. The institution also organizes its key processes and allocates its resources to effectively support student learning. The institution demonstrates its effectiveness by providing 1) evidence of the achievement of student learning outcomes and 2) evidence of institution and program performance. The institution uses ongoing and systematic evaluation and planning to refine its key processes and improve student learning.

West Hills College Lemoore conscientiously strives to produce and support student learning at all levels. Faculty members have developed course-level and program-level students learning outcomes (SLOs) and assessments that contribute to the revision of course content, pedagogy, and methodology. Non-instructional programs and services have also developed SLOs. The assessment results for all SLOs serve to focus dialogue on ways in which the college can be improved to better serve students. All SLOs are included in the program review process that engages all college councils, committees, and constituencies. The assessment of SLOs and program review is ongoing and include both systematic evaluation and planning.

The college's institutional outcomes are composed of quantitative and qualitative data that serve to measure how well the college accomplishes its mission. WHCL reviews its mission statement, goals, and institutional outcomes annually in Strategic Planning Committee Meetings. Recommendations for intervention, improvements, and changes are sent to the college's Planning and Governance Council for continued dialogue, review, and implementation.

The data and processes from program review, SLOs, and college institutional outcomes drive decisions regarding program modifications, staffing, curriculum, class scheduling, facilities, technology, resource allocation, etc. All modifications are focused on improving and supporting student learning.

College governance committees report to the Planning and Governance Council (PGC), which recommends and reviews college policies and processes. Student learning and institutional processes are reviewed by the PGC and its constituent groups consistently with their review cycles.

Instructional administrators conduct monthly learning area meetings with faculty each semester. At the request of faculty, these more frequent learning area meetings have occurred since the fall of 2005 in place of frequent interdisciplinary meetings. The learning area meetings allow for focused and relevant face-to-face dialogues about curriculum, student learning outcomes, senate issues, and more that affect the students and faculty. (1.10) In addition, student services operational areas conduct regular meetings. (1.11) (I.B)

I.B.1

The institution maintains an ongoing, collegial, self-reflective dialogue about the continuous improvement of student learning and institutional processes

Descriptive Summary

The Planning and Governance Council (PGC) has general oversight over all standing college committees and meets at least once a month to review all institutional processes. Voting membership of the PGC consists of a West Hills College Faculty Association representative, an Academic Senate representative, two CSEA representatives, two student representatives, and two administrators; the college president is the chair of the committee and votes only in case of a tie. The agenda of a PGC meeting routinely discusses and approves proposed Board of Trustee policies and administrative procedures, reports from each of the standing college committees, and discusses news of particular interest that affects the learning and working climate on the college facility. The PGC also approves all program review documents. It is the responsibility of the PGC membership to communicate information and decisions back to their constituency groups.

In November 2007, the Academic Senate president reported to the PGC that counseling faculty had been assigned to each instructional learning area. (1.12) The assigned counselor was to attend instructional learning area meetings and report back relevant news to their fellow counselors and advisors, allowing for improved communication between student services and instructional faculty. These learning area meetings routinely discuss student learning outcomes, curriculum, and senate issues. In the Counseling Learning Area Meetings, representatives share with each other news from their assigned learning areas. (1.10, 1.13)

The president's office also communicates campus activities in less formal ways. For example, the president's office distributes a weekly newsletter via email updating college faculty and staff with relevant events occurring on campus and at the district level. (1.14) Another example of dialogue by the college president is the President's Forums that occur during the school year. These President's Forums, which are well attended, allow for immediate feedback to the president on items of interest.

Additionally, other committees at the district level ensure that dialogue and collaboration occur among college and district staff to improve student learning and instructional processes.

The District Strategic Planning Committee was established in 2006 and is composed of representatives from the college, community, district, and Board of Trustees. This committee meets three times a year and its primary role is to review the progress of the district's

goals: 1) achieve or exceed funded growth targets, 2) focus marketing efforts in district-wide stories, 3) increase community participation rates, 4) improve transfer, completion, and graduation rates, and 5) become the preferred choice of students through on-going and active recruitment. Metrics have been developed to evaluate the progress of each of the goals and are reviewed annually by the District Strategic Planning Committee. Results are published to the community in the Annual Report to the Community. (1.15, 1.16, 1.17)

The District Technology Committee (DTC) is a committee whose purpose is to obtain the optimal use of technology resources to improve services. The committee meets once per month and is composed of college and district leaders. There are five sub-committees reporting to the DTC with membership composed of faculty, staff, and students. Sub-committee leaders bring concerns, achievements, and requests for new projects to the DTC. The DTC is responsible for prioritizing technology projects based on institutional needs. The list of priorities is utilized by the Information and Technology Systems (ITS) and Academic and Information Systems (AIS) departments to assign resources and meet the needs of the college and district. (1.18, 1.19, 1.20)

The Chancellor's Executive Cabinet is composed of the college presidents, the district chancellor, and key district administrators. The cabinet meets once per month and provides a forum for the presidents and chancellor to talk about current issues and to review policies. Additionally, this cabinet provides the opportunity for the college presidents to provide feedback to the chancellor regarding services that are centralized at the district office. (1.21, 1.22)

The District Leadership Council (DLC) is composed of faculty leaders and administrators from the colleges and district. The purpose of this group is to provide a channel of communication where the college and district staff can collaborate to develop uniformed solutions and processes across the district. This council has been in existence since 2005. (1.23)

District Leadership Retreats are held quarterly and bring together top-level administrators, faculty, and classified group representatives. The retreats are lead by the district chancellor and cover topics ranging from the discussion of current events, such as budget status, reviewing of institutional processes, and identifying new initiatives to help improve student success. (1.24)

Self Evaluation

West Hills College Lemoore has established a well-structured shared governance system that provides communication channels, access to all constituencies, and dialogue at every level. This provides the institution a mechanism for continuous improvement based on collaboration and introspection.

Program review for instructional and non-instructional programs is on a four-year review cycle, with a midterm report completed every two years. Occupational instructional programs are on a two-year cycle. This report consists of a logic model grid that details short and long term planning goals and achievements. with the midterm report completed at the one-year mark. The program review process incorporates student learning outcomes data and student progress data such as success, retention, and graduation rates. Program review is directly connected to the budget process by means of the college's planning framework.

As an example, during the 2009-10 academic year, several program review documents, such as Business/CIS, nursing, and Upward Bound/Math Science, were presented and approved by the college's Planning and Governance Council. This process assures collegial, self-reflective dialogue about the college's commitment to continuous improvement of student learning. (I.B.1)

Planning Agenda Items

- None

I.B.2

The institution sets goals to improve its effectiveness, consistent with its stated purposes. The institution articulates its goals and states the objectives derived from them in measurable terms so that the

Descriptive Summary

WHCL has set goals and benchmarks that directly support its mission statement. Quantitative and qualitative institutional outcomes have been established to measure how successfully the college achieves its goals. WHCL has implemented the following goals and institutional outcomes:

Institutional Outcome 1: WHCL is committed to provide quality education to students and community. This goal is measured by the population participation rates of the service area, high school participation rates, student retention, and persistence rates.

Institutional Outcome 2: WHCL is committed to empower students to achieve their educational goals. This goal is measured by Basic Skills English, ESL, and math success and retention rates, career

degree to which they are achieved can be determined and widely discussed. The institutional members understand these goals and work collaboratively toward their achievement.

technical education course success and retention rates, degree and certificate completion, transfers to four-year institutions, and the Community College Survey of Student Engagement (CCSSE) benchmarks.

Institutional Outcome 3: WHCL will effectively maintain and increase its resources and productivity. This goal is measured by student headcount, FTES goals, successful grant acquisition, and increased revenue generated by outside capitol campaign activities.

Institutional Outcome 4: WHCL will identify and disaggregate its student population groups to assess program effectiveness. This goal is measured by examining the demographics of student services programs with respect to factors such as access and success.

(1.1)

Improvements have been made as a result of the review of these institutional outcomes. For example, through the established strategic planning processes, it was determined that vocational/career technical education success rates were performing below the college's stated benchmark. Further review of the data revealed success rate issues with courses offered in the "open entry/exit" format that did not require set scheduled class meetings. In conjunction with the program review process, the Planning and Governance Council requested that the format of those courses be changed to a traditional format and require students to attend regularly scheduled class meetings. As a result of this change, success rates for those courses have increased by 40%.

Self Evaluation

The college sets goals to improve its effectiveness consistent with its stated purposes and articulates its goals and objectives into measureable terms. The college members understand these goals and work collaboratively toward their achievement. The Strategic Planning Committee has set institutional outcomes (goals) that directly support the college's mission statement. These outcomes are approved by the Planning and Governance Council. Quantitative institutional outcomes have been established to measure how well the college achieves its outcomes. (I.B.2)

Planning Agenda Items

- None

I.B.3.

The institution assesses progress toward achieving its stated goals and makes decisions regarding the improvement of institutional effectiveness in an ongoing and systematic cycle of evaluation, integrated planning, resource allocation, implementation, and re-evaluation. Evaluation is based on analyses of both quantitative and qualitative data.

Descriptive Summary

Achieving the college goals and improving its institutional effectiveness are the responsibilities of the shared governance committees and the college community as a whole. The Planning and Governance Council monitors the achievement and progress of these outcomes. The Office of Institutional Effectiveness and Enrollment Management provides the necessary quantitative and qualitative data and analysis to measure the college's achievement of its institutional outcomes.

The college has established a strategic plan with institutional outcomes that measure student achievement and how well strategic goals are met. (1.1) The college institutional outcomes are reviewed annually by the college's Strategic Planning Committee and by the District Strategic Planning Committee. These outcomes include integrated metrics from the California Community College Chancellor's Office Accountability Reporting for the Community Colleges (ARCC) along with locally designed benchmarks for accountability. Additionally, the college participated in the 2007 and 2008 Community College Survey of Student Engagement (CCSSE). The CCSSE instrument provides five qualitative benchmarks that are highly correlated to student learning and success. (1.25)

The college developed its Educational Master Plan (EMP) in 2008, which provides a reference point and framework for the future of the college. The EMP includes a thorough data review of the college's overall instructional programs. The EMP brings together internal, external, quantitative, and qualitative data into key findings that inform and support planning. While maintaining the integrity of the college's vision, mission, and strategic goals, the EMP draws a blueprint for implementing emerging educational objectives. More specifically, the EMP focuses on the service area, students, staff, and programs of the college. Matriculation rates from regional high schools provide a basis for enrollment projections. An analysis of economic trends in the area and a review of emerging labor market information inform the consideration of new programs. An examination of student services, instructional programs, disciplines, and student performance assess current effectiveness and point the way for change. (1.26)

The college further assesses progress toward achieving its stated goals through evaluation of committee structure, program review, and institutional learning outcomes. Each college committee has identified goals and objectives that evaluate institutional effectiveness as it pertains to their campus role. The mission

statement has been revised to provide clear guidance to these committees.

Departments or services centralized at the district office are part of a program review cycle. The review cycle for district office departments is coordinated by the Office of Institutional Effectiveness and Enrollment Management. District department reviews are evaluated by the college's shared governance committee process when feedback is provided to help improve services to the college. Feedback from the colleges is reviewed by appropriate district office staff for possible implementation. Collectively, these processes promote dialogue on the appropriateness of centralized versus decentralized services. (1.27, 1.28, 1.29)

The college has implemented a planning calendar, monitored by the Planning and Governance Council, which guides the college's planning process. Included in this calendar are committee assignments for task completion, the Strategic Planning Committee's annual review of the mission and vision statements, institutional outcomes, performance indicators, the PGC's annual review of the PGC manual, annuals reports, and program reviews. (1.30)

Self Evaluation

The college Strategic Planning Committee and Planning and Governance Council have played key roles in assessing the college goals and institutional outcomes in a systematic cycle that drives improvements. The college has established a model for integrated institutional planning that utilizes college research data to drive decision making and resource allocation. In addition, the planning calendar has provided a schedule for review ensuring comprehensive evaluation of all areas. (I.B.3)

Planning Agenda Items

- None

Descriptive Summary

WHCL's Strategic Plan and Educational Master Plan provide direction as reference documents for all college planning activities. The planning activities along with evaluation processes are integrated into a process that drives planning, resource allocation, implementation, and reevaluation. These processes are handled through the college's shared governance committees. The following graphic illustrates the different layers and processes of the college's

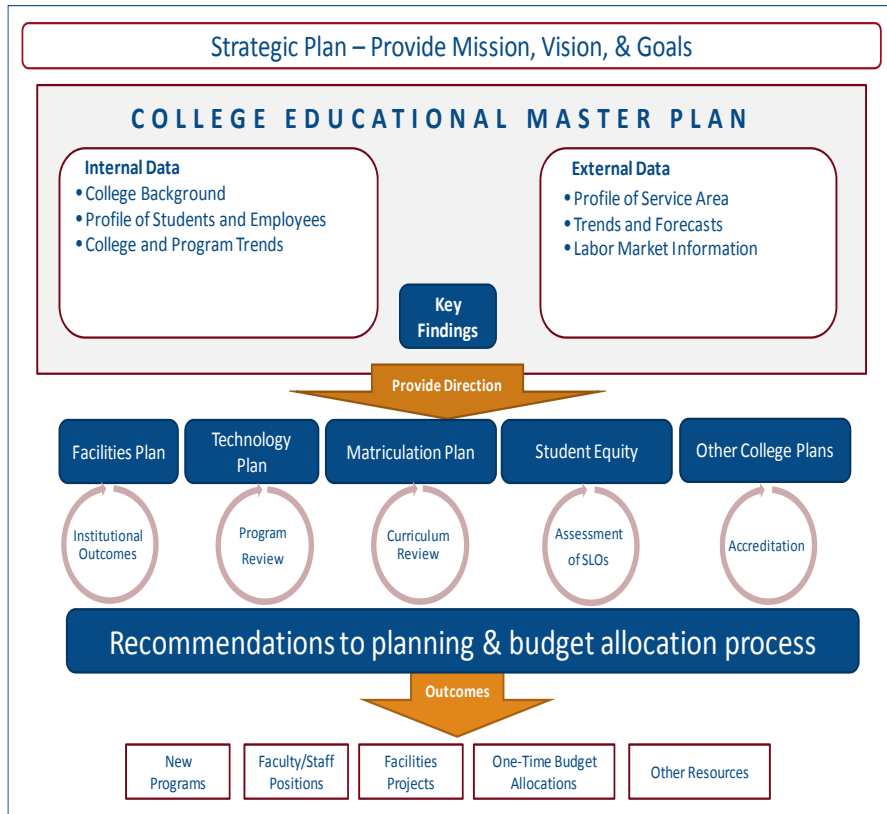

I.B.4.

The institution provides evidence that the planning process is broad-based, offers opportunities for

input by appropriate constituencies, allocates necessary resources, and leads to improvement of institutional effectiveness.

institutional planning framework:

WHC Lemoore Institutional Planning Framework

The Office of Institutional Effectiveness and Enrollment Management has worked extensively with staff to ensure that the appropriate data is available for all planning committees and processes. The vice chancellor of institutional effectiveness and enrollment management attends college meetings and provides analysis and recommendations to the various committees. Program specific data and trainings on effective uses of data have been provided to instructional areas and non-instructional programs as a common practice during the program review process and during district-wide duty and flex days. The vice chancellor of institutional effectiveness and enrollment management provides data reports and training for campus end-users in an on-going basis, including one-on-one staff training as requested. Data is used in all of the college’s review cycle to drive decisions regarding resource allocation, staffing, facilities, technology, and curriculum. (1.31, 1.32)

There are seven shared governance committees that provide input to the college’s Planning and Governance Council. These committees are the Budget Allocation Committee, the Facilities, Safety and

Auxiliary Services Committee, the Institutional Effectiveness and Program Review Committee, the Employee Development and Success Committee, the Student Learning Outcomes Committee, the Student Success Committee, and the Technology Committee. Each of these committees is represented by faculty, staff, and students. In addition, the Academic Senate, the WHC Faculty Association, CSEA, and students (through the Student Government Association), have representation on PGC. West Hills College Lemoore does not have a classified senate.

The President ensures a process of effective integrated planning, not only of district and college planning processes, but also for college based planning. This is exemplified by the structure of committee/councils (unit level), Learning Areas (department level), shared governance committees (division level), and PGC (college level).

WHCL's planning processes, including all college committees, are broad-based and provide opportunities for input and feedback by all constituency groups; outside community representatives are invited when appropriate. Through this representation, planning processes are incorporated into the participatory governance system. Evidence of these broad-based processes occur at all planning levels. Student learning outcomes, program reviews, and strategic planning start with data collection and analysis by the appropriate learning area, support service, or committee. Information is shared among members and distributed throughout the college-wide community. Constituency groups are encouraged to review and provide input to further clarify the analysis and to forward recommendations for improvement.

Communication concerning college processes and procedures are further enhanced by the president's Intercommunication Team (PIT) with membership from college and district personnel. The PIT meets monthly and provides a vehicle for information exchange regarding campus needs and district resources. In addition, college faculty and staff are members of the District Leadership Council (DLC) that serves to ensure continuity, collaboration, and alignment of policies and procedures between the college and the district. (1.23, 1.33)

The college conducted an evaluation of shared governance during the spring of 2010. The majority of respondents agreed that the shared governance process was inclusive of faculty, classified staff, administrators, and student government. Also, the majority of respondents agreed that the shared governance process drives institutional planning. (1.34)

WHCL is committed to effective program review practices and planning in order to fully benefit its recipients. This evaluation process includes improvement strategies based on quantitative and qualitative data. Changes identified in the review process are incorporated to improve program vitality and to avoid stagnation. The college closes the planning “loop” by reporting all program changes resulting from the planning processes to appropriate councils, committees, and constituencies.

Resource allocation is an important component of WHCL’s planning process. The college’s planning framework has been designed to be broad-based and drives the resource allocation processes. Staffing, facilities, and budget requests are routed to the respective committees for further discussion, input, and determination. When resources are not available to fulfill requests, the college will seek to secure resources through grants and fundraising activities. One of WHCL’s strategic goals is to “effectively maintain and increase its resources and productivity.” This goal is measured by student headcount, FTES, successful grant acquisition, and increased revenue generated by outside capitol campaign activities.

During the past five years, with involvement from all constituencies, WHCL has implemented various plans to improve student learning, including the Strategic Plan, Educational Master Plan, Technology Plan, and Distance Education Plan. Results from these plans have resulted in improvements such as raising the vocational courses’ success rates, modified outreach activities, implemented interventions to improve student success, and dedicated resources for its distance education program.

For example, one of the college’s outcomes demonstrated a decline in the number of high school seniors from feeder high schools enrolling in WHCL. Through the review process, it was determined by the Student Success Committee, as well as through counseling/advising meetings and the student services leadership team, that focused outreach efforts were vital to improving high school participation rates. In the spring of 2010, counselors and advisors spent considerable time discussing what was important in outreach and the concept of the Eagle Team (E-Team) was created. The focus of this outreach practice in the fall of 2010 is to improve connections with the high schools. (1.35) As part of a district-wide strategic planning meeting in July 2010, administrators and counselors from local high schools were invited to share suggestions with college and district staff to improve high school outreach activities. The district and its colleges are committed to increasing high school participation rates from service area high schools; the results of this retreat will be

incorporated into the college's outreach process. (1.36)

Self Evaluation

WHCL provides evidence that the planning process is broad-based, offers opportunities for input by appropriate constituencies, which includes advisory committees for vocational/Career Technical Education disciplines, allocates necessary resources, and leads to improvement of institutional effectiveness. All college committees have representatives from each constituency group. Through this representation, planning processes are incorporated into the participatory governance system. Constituency groups are encouraged to review and provide input to further clarify the analysis and to forward recommendations for improvement. (I.B.4)

Planning Agenda Items

- None

Descriptive Summary

WHCL and the district provide institutional documents to communicate matters of quality assurance to the appropriate constituencies: program review data packets, College Strategic Plan, District Strategic Plan, college institutional outcomes, district score card, Community College Survey on Student Engagement, Accountability Reporting for the Community Colleges, president's monthly report at the Board of Trustees meetings, Educational Master Plan, Technology Plan, Matriculation Plan, Distance Education Strategic Plan, College Annual Report to the Community, District Office Monthly Newsletter, and president's weekly update.

The college presents information to both internal constituents and the public in a variety of ways, including printed documents, email, as well as through the website. The Office of Institutional Effectiveness and Enrollment Management maintains the data warehouse and college's web site as a central location for information dissemination; the data warehouse provides statistical reports for the colleges.

The WHCL 2007-2008 Report to the Community was sent to 57,000 homes in WHCL service areas in November 2008. It included the mission and vision statements, as well as a 2004-2008 chart including expenditures, revenue and expenses, demographics, future planning, and information regarding programs such as registered nursing, engineering, culinary, maintenance mechanics, human services certificates, and T.E.A.M. Teach. This information was also made

I.B.5.

The institution uses documented assessment results to communicate matters of quality assurance to appropriate constituencies.

available on the college's homepage of its website. (1.37)

One of the district's strategic goals is to publish the district's "@West Hills College" newsletter, another communiqué with the community. This newsletter is mailed quarterly to 82,000 homes throughout the district. This newsletter provides information related to facility updates, campus events, and accomplishments by the colleges, employees, and students. (1.38)

Self Evaluation

Data and reports are provided to the appropriate constituencies for quality assurance review. Information about quality is provided to the college community through the West Hills website. Reports and presentations are provided to the appropriate committees, advisory groups, college administrators, and Board of Trustees. Results of the college's progress towards institutional outcomes are communicated via annual reports that are mailed to service area homes. Communication of results could be more widely distributed by utilizing email as a tool for disseminating information to the overall college community. (I.B.5)

Planning Agenda Items

- Utilize email and other electronic means to improve the dissemination of the annual results of institutional outcomes achievement. The Office of Institutional Effectiveness and Enrollment Management will be responsible for disseminating these results no later than the fall 2011. (I.B.5)

I.B.6

The institution assures the effectiveness of its ongoing planning and resource allocation processes by systematically reviewing and modifying, as appropriate, all parts of the cycle, including institutional and

Descriptive Summary

The college has ongoing and systematic cycles of evaluation to assess progress toward achieving improvement of institutional effectiveness. The primary purposes of these evaluations are for integrated planning, resource allocation, and implementation and re-evaluation. The college's Planning and Governance Council (PGC) and Strategic Planning Committee are primarily responsible for regularly reviewing the ongoing research, planning, and resource allocation processes. The college's ability to assess these cycles of evaluation has been supported by the creation of a data warehouse and the district's Office of Institutional Effectiveness and Enrollment Management. Systematic cycles of evaluation for the improvement of institutional effectiveness at current levels of the campus community exist for both instructional and non-instructional areas through program review. For example, non-vocational programs are

other research efforts.

scheduled for review on a four-year cycle with a midterm report, and vocational programs are reviewed every two years. (1.39) Areas being reviewed are provided with instructions according to the purpose, either instructional or non-instructional. Program reviews that may require budget support are forwarded to the Budget Allocation Committee by the originator of the program review.

Self Evaluation

WHCL assures the effectiveness of its ongoing planning and resource allocation processes by systematically reviewing and modifying, as appropriate, all parts of the cycle, including research. The college has several ongoing and systematic cycles of evaluation to assess programs central to institutional effectiveness. The SLO review process involves qualitative evaluation to improve the definition, development, assessment method, and analysis and improvement measures for course and program level SLOs. The Office of Institutional Effectiveness and Enrollment Management is critical in providing data and data analysis for the college to assess the effectiveness of its ongoing cycle of evaluation, integrated planning, resource allocation, implementation, and re-evaluation. (I.B.6)

Planning Agenda Items

- None

I.B.7

The institution assesses its evaluation mechanisms through a systematic review of their effectiveness in improving instructional programs, student support services, and library and other learning support services.

Descriptive Summary

WHCL assesses its instructional and non-instructional programs through program review. The program review process serves as the college's primary method for reviewing programs and services for effectiveness. The process of program review is conducted by each operational unit on a regular basis (at least every four years, every two years for vocational programs), based on a schedule maintained by the Vice President of Educational Services. The program review process is continuously modified to improve its effectiveness. As recently as 2010, the program review template was modified by the Institutional Effectiveness and Program Review Committee. These modifications were the result of feedback given to the committee by faculty and staff. Suggestions for changes were made to the program review template. The template was updated to improve its usability and incorporate student learning outcomes. Also, the Office of Institutional Effectiveness and Enrollment Management provides data for program reviews in a format for easier integration into the program review document rather than having staff copy and paste data from multiple documents. Most recently, data and

documentation for program review is made available through the MyWestHills portal program review team site. The program review team site serves as a central digital repository and contains a history of program review documents, as well as all of the data necessary to conduct program review for each program. (1.31, 1.39, 1.40)

A course-level student learning outcome assessment schedule has been established, and most courses are being evaluated according to this schedule. (1.41) This schedule was created by the individuals responsible for the assessments and is maintained by the Student Learning Outcomes Committee.

The student services area utilizes student satisfaction surveys to evaluate its counseling and advising services and the registration process. In response to student concerns voiced through surveys and Town Hall Forums, student services has implemented same-day walk-in counseling appointments and the Scheduling and Reporting System (SARS) to streamline appointments and tracking of student services. (1.42)

Library and Learning Resources also uses student satisfaction surveys to improve its service to students. The number of computers made available to students increased as a result of concerns expressed by students. (1.43)

The college relies on faculty, the Academic Senate, the Curriculum Committee, advisory committees, and academic administrators for recommendations about student learning programs and services. Written policies describing faculty participation in the governance process and the delineation of faculty roles in regard to policy, planning, and special-purpose bodies are in place. Faculty members' roles in governance and educational matters were established through negotiations and collaboration with the district and college administration. The administration supports a decision-making process that involves people who will be affected by the decision.

In order to review the effectiveness of approved board policies and procedures, Board Policy 2410 was approved in 2003, and Administrative Policy 2410 was approved in 2006. Beginning with the 2007-8 academic year, a policy and procedure review schedule was implemented by the district Chancellor's Office, which includes feedback from the governance committee from both colleges. This allows the college and district participatory governance committees to evaluate the effectiveness of current policies and procedures. (1.44, 1.45, 1.46, 1.47, 1.48, 1.49)

Self Evaluation

WHCL systematically assesses its effectiveness as part of a continuous integrated planning process. The college uses ongoing and systematic evaluation, planning, and dialogue to refine its key processes and improve student learning.

Planning and evaluation are conducted through student learning outcomes and the program review process for instructional programs, student support services, learning resources, and administrative departments. Results from these assessments are reviewed by the college's Planning and Governance Council and then distributed to all constituency groups. Discussions about these results occur to elicit feedback and provide insights to program improvements which determine program modifications that become implemented for the following review cycle. (I.B.7)

Standard II – Student Learning Programs and Services: A Thematic Overview

All of the themes are represented throughout various sections of Standard II; however, certain themes are predominant in each of the sections. Standard II.A (Instructional Programs) is filled with examples and evidence tied to the themes of student learning outcomes, institutional commitments, and institutional integrity. Standard II.B (Student Support Services) has a strong focus on dialogue, institutional commitments, and evaluation, planning, and improvement. Standard II.C (Library and Learning Support Services) also has a focus on dialogue and institutional commitments. The theme of organization is consistently shown throughout the entire standard.

Standard II.A – Instructional Programs

Institutional Commitments

Institutional commitments and institutional integrity are clearly evident throughout this substandard. These themes focus on a “commitment to support student learning as its primary mission,” a “demonstrated concern for honesty, truthfulness, and the manner in which the college represents itself to all stakeholders, internal and external,” and the importance of other key concepts such as “integrity of policies, practices, and procedures.” In this section are exemplary examples of institutional commitment in the description and evidence of the two-year schedule, transfer of credits, and how the college works diligently to align with the demands of four-year institutions and the state. West Hills College Lemoore’s commitment to meeting the diverse needs and learning styles of its students is also detailed with evidence and description of faculty training and development. Evidence and descriptions of institutional integrity are clear through the explanation of program review and curriculum process as well as through examples of the Academic Freedom policy, the code of conduct for faculty, and the Academic Dishonesty policy.

Student Learning Outcomes

This substandard details the college’s efforts to produce and support student learning by developing student learning outcomes at the course, program, and degree level. This substandard shows the commitment to training opportunities and the subsequent and ongoing dialogue of all college stakeholders in the use of student learning outcomes. Specific examples and evidence are presented that show the development of a student learning outcome cycle that includes development, implementation, and assessment in some key courses, such as English.

Standard II.B – Student Support Services

Evaluation, Planning, and Improvement

Standard II.B addresses the evaluation, planning and improvement dialogue themes. For example, Student Services evaluates and plans improvement of its services via the program review process. All areas of student services are reviewed. Also, the student, faculty, and staff surveys help the college to identify which of the student needs are or are not being met.

Dialogue

Dialogue is addressed by the faculty, staff, and students receiving club and organization information via office mail, flyers, and email. In addition, these clubs and organizations meet with the activities director for an inter-club council meeting to promote dialogue that identifies and meets student needs at this level. Dialogue also occurs when student service directors meet with staff to review policies, procedures, and information for meeting student learning objectives. Once the evaluation has been made, annual reports are used to evaluate the progress made toward goals. Thus, the college addresses dialogue, evaluation and planning, and student learning outcomes through student service directors and staff meetings.

Institutional Commitments

The theme of institutional integrity and commitment is widely addressed in this section. This substandard addresses the availability of student services on campus. For example, the college works with the community by providing a public transportation route using the Kings Area Rural Transit. Services are also available by phone. In addition, policies, procedures, and services are available via the web page and MyWestHills portal. This format allows for the broadest way to update materials. Since so much information is published via the website, the college provides adequate assistance and computers to students as well as the community. Student services addresses institutional commitment by providing focused attention to its diverse population. Through various clubs and programs the college demonstrates a regard for issues of equity and diversity.

Organization

The theme of organization is addressed in that student services and activities staff work collaboratively and in a coordinated and comprehensive manner to ensure students matriculate, achieve learning outcomes, and meet their educational goals consistent with the college's mission. Operational units within student services meet regularly to identify, evaluate, and plan effective strategies to achieve student success.

Standard II.C – Library and Learning Support Services

Dialogue

The theme of dialogue is represented strongly in this section. An example of this is that the college relies on the expertise of the faculty, the librarian, industry partners, and the support services personnel in choosing educational materials and equipment. This dialogue is accomplished via student and faculty feedback during reference interaction and classroom orientations. The librarian also works directly with faculty and examines course syllabi to evaluate resources needed for class assignments. The librarian asks the faculty to recommend books and materials for the library that support what they are teaching. The college library collaborates with other institutions for resources and other learning support services for the instructional programs to support learning.

Institutional Commitments

The theme of institutional commitments is also represented clearly in this standard. The college is committed to student learning by building a library collection of over 34,000 items following a collection management policy focusing on the programs offered at WHCL. The college has purchased a catalog and circulation system called Unicorn that enhances book search and retrieval. The Library/Learning Resource Center focuses on enhancing student information competency through interaction with library staff both in and out of the classroom as well as in the L/LRC. The L/LRC maintains hours five days a week. It is open from 7:30 a.m. to 8:00 p.m., Monday through Thursday, and from 7:30 a.m. to 4 p.m. on Friday. Students can also access the library away from the college through the portal; resources on the portal include full access to the collection of electronic books.

Standard II. Student Learning Programs and Services

The institution offers high quality instructional programs, student support services, and library and learning support services that facilitate and demonstrate the achievement of stated student learning outcomes. The institution provides an environment that supports learning, enhances student understanding and appreciation of diversity, and encourages personal and civic responsibility as well as intellectual, aesthetic, and personal development for all of its students.

II.A Instructional Programs

The institution offers high quality instructional

West Hills College Lemoore is committed to providing high quality instructional programs, student services support systems, and learning resources through a continuous cycle of review and assessment that meets its commitment to fulfill its mission.

Quality of educational programs is ensured by multiple methods: regular curriculum review and development, program review, advisory committee input, and student learning outcome assessment. Through student and community feedback, student services are regularly assessed for adequacy in providing support mechanisms to ensure successful matriculation.

Learning resources, including library support, tutoring services, and distance education support mechanisms, are regularly assessed and enhanced to provide quality educational opportunities.

WHCL, as a comprehensive community college, offers high quality instructional programs in Basic Skills, career technical education, and transfer. Basic Skills coursework can prepare

programs in recognized and emerging fields of study that culminate in identified student outcomes leading to degrees, certificates, employment, or transfer to other higher education institutions or programs consistent with its mission. Instructional programs are systematically assessed in order to assure currency, improve teaching and learning strategies, and achieve stated student learning outcomes. The provisions of this standard are broadly applicable to all instructional activities offered in the name of the institution.

II.A.1

The institution demonstrates that all instructional programs, regardless of location or means of delivery, address and meet

students for degree applicable or transfer level course work. Course selection in career technical education can result in useful certificates, associate degrees, or transfer opportunities. The effectiveness of WHCL's transfer program is evident in the number of students who transferred to CSU schools during the 2008-2009 school year. Six hundred and twenty seven students transferred to California State Universities at Fresno, Humboldt, and San Jose from West Hills College Lemoore during this period. This is a significant increase over the 507 students who transferred to CSU schools during the previous school year. (2.1) (II.A)

Descriptive Summary

WHCL meets its mission by providing quality learning opportunities using various instructional methods based on objectives, types of courses, and the students served.

WHCL faculty and staff engage in ongoing review and improvement of programs and services to ensure they meet the needs of the college, students, and the community. The college

the mission of the institution and uphold its integrity.

offers instructional programs that are high quality and meet the varied educational needs of its students whether they are delivered in a traditional face-to-face format or by distance education. The instructional programs are consistent with the preparation, diversity, demographics, and economy of the community served. Research and analysis assists the college in identifying student learning needs and the progress toward achieving stated student learning outcomes.

The results of research and analysis are evaluated by the college to improve instructional programs, ensure currency, and to improve teaching and learning strategies. Through program review, the educational master plan is updated and guides the budget development process and the strategic planning process.

Self Evaluation

The WHCL mission statement is tied to program review, strategic planning, and program planning. This ensures that the mission of the college is always taken into account when reviewing existing or creating new college programs or plans. The program review process is campus-wide in all instructional areas and the process is continually improved through input from faculty, staff, and administration. The college has an Institutional Effectiveness and Program Review Committee (IEPRC) that ensures program reviews are completed in the timely fashion and accurately assess the strengths and weaknesses of all programs.

SLOs are now campus-wide in all instructional areas and part of the instructional program assessment process. The Student Learning Outcomes Committee (SLOC) is in place to schedule and archive assessments and assist faculty members in writing, assessing, and evaluating SLOs. (II.A.1)

Planning Agenda Items

- None

II.A.1.a

The institution identifies and seeks to meet the varied educational needs of its students through programs

Descriptive Summary

WHCL establishes instructional programs and instructional support services that are aligned with its purposes, its mission, and its student population by utilizing the program review process. The college relies on research conducted by the district Office of Institutional Effectiveness and Enrollment Management to identify student learning needs and to access

consistent with their educational preparation and the diversity, demographics, and economy of its communities. The institution relies upon research and analysis to identify student learning needs and to assess progress toward achieving student learning outcomes.

progress toward achieving stated learning outcomes; this data is utilized by relevant college staff in the development of instructional and non-instructional program review.

General Education courses meet requirements for graduation and transfer to CSU and UC. Revisions or implementation of vocational student learning programs require input and recommendations from advisory committee members. Most vocational/Career Technical Education program advisory committees (administration of justice, CIS/BUS/HRCM, nursing, and child development) meet twice each academic year to review currency and make recommendations for program improvements. New Career Technical Education programs, e.g., nursing, have been started in response to community needs as identified in advisory committee meetings. Specifically, there is an active Business Advisory Committee that meets twice a year to advise the college on course offerings and content. The Business Advisory Committee has discussed proper classroom software to teach various business courses. The vice chancellor of institutional effectiveness and enrollment management provides research data for individual departments and instructional programs for use in planning activities, such as program review. (2.2)

The college is actively involved in local processes affecting the economy. This information augments advisory committee meetings and is presented and discussed by college staff for relevancy and potential future planning. For example, the college is represented at monthly Kings County Employment Development Department meetings. Information from these meetings has resulted in the college offering short term vocational classes, such as maintenance mechanics.

In addition, an annual exit survey is given to graduating students asking them of their future plans, if their experience at WHCL prepared them to attain their future goals, the status of their job search, and their satisfaction with the educational programs at WHCL. In the results of the 2008-2009 survey, 97% of students completing the survey were satisfied with how well the college prepared them to attain their future goals, 25% were employed, and 29% were employed but looking for a new job or position. Students were consistently satisfied with the college's educational programs. (2.3)

Self Evaluation

In recent years, WHCL faculty members have created several new programs or modified existing programs to address emerging fields and changes in transfer requirements. These include programs such as Liberal Studies, Nursing, Sterile Processing, Biotechnology, Human Services, and Web Development. This is a continual process whereby faculty members monitor the trends in their areas of expertise and create or modify programs to satisfy the changing needs of employers and transfer institutions.

Institutional data regarding student diversity, demographics, and economic conditions is regularly compiled by the district's Office of Institutional Effectiveness and Enrollment Management for use in program review, SLOs, and new program development. This data helps guide faculty in their decisions to create new programs or to revise existing programs. Community groups such as the Chamber of Commerce, as well as business leaders in the community, are asked for input and included on advisory committees for vocational program planning and updating. It is sometimes determined that the costliness of creating new vocational programs prohibits the college from establishing those new programs.

Many campus meetings, such as learning area meetings, PGC, Curriculum, SLOC, and IEPRC, have regular dialogue on student learning needs and how to modify programs to meet those needs. SLO assessments are reviewed by relevant faculty members, analyzed to determine if students are achieving the outcomes, and the results used to improve learning for all involved with the course or program. These results are shared one-on-one or during learning area meetings. (II.A.1.a)

Planning Agenda Items

- Led by the Institutional Effectiveness and Program Review Committee, the college will demonstrate how program review is used to improve student learning and progress in achieving SLOs by the fall 2012. (II.A.1.a)

II.A.1.b

The institution utilizes delivery systems and modes of

Descriptive Summary

WHCL designs instructional curriculum to meet a wide range of student needs by offering 48 degree and certificate programs in a wide variety of delivery methods, including traditional, online,

instruction compatible with the objectives of the curriculum and appropriate to the current and future needs of its students.

hybrid, web enhanced, and video conferencing courses to reach the diverse student population. Many classes are offered in multiple formats. Courses have been hosted in off-campus locations as well, like the Sterile Processing Program conducted at an off-campus site in Fresno. The college uses information received from separate student and staff Town Hall meetings, strategic planning sessions, the Accountability Report for Community College, the college's Curriculum Committee, and instructional learning area meetings to determine the appropriate methods of delivery to meet student needs and provide effective learning. (2.4)

Self Evaluation

The college uses information received from student town halls, strategic planning sessions, and the ARCC report to determine if the instructional delivery methods meet student needs. Based on these informational sources, the college has steadily increased the number of courses offered online. In some disciplines, the increased offering of online courses has decreased the number of face-to-face sections. Faculty members determine which courses can or cannot be offered online, hybrid, or face-to-face. The WHCL Curriculum Committee ultimately approves the Distance Education Addendum to the course outline of record for all courses offered in alternate formats. Regardless of delivery format, instructors follow the same defined learning objectives/outcomes and are evaluated regularly to ensure they are being taught. SLOs are evaluated in courses, regardless of delivery format, to determine how students are achieving the outcomes. (II.A.1.b)

Planning Agenda Items

- None

II.A.1.c
The institution identifies student learning outcomes for courses, programs, certificates, and degrees, assesses student achievement of those outcomes,

Descriptive Summary

WHCL maintains equality among instructional delivery options through the application of student learning outcomes (SLOs). Dialogue progresses in instructional area meetings, specific course meetings, and curriculum meetings to analyze the SLO assessment data and incorporate success rates to measure and improve student learning. The college has developed a well-defined plan outlining the steps to identify and assess student learning outcomes for all courses, programs, degrees, and certificates, and, as applicable, appropriate support areas. (2.5,

and uses assessment results to make improvements.

2.6) Since the college's previous accreditation visit in 2006, the college has identified a SLO coordinator, organized a SLO Committee, and moved from the developmental stage to sustainable continuous quality improvement in regards to its student learning outcomes based on discussion that has occurred in the Planning and Governance Council. One hundred percent of courses have student learning outcomes, and student learning outcomes are incorporated on course syllabi. Assessment of SLOs has occurred to a lesser degree and not all courses have completed an assessment cycle. (2.7)

Self Evaluation

There is a general commitment from all faculty, staff, and administration regarding SLOs. It is campus-wide and has become embedded in the college culture.

All courses have defined SLOs and SLO assessment methods in place. The percentage of courses having assessed SLOs has steadily increased over the last four years. To date, over 60% of active courses have been assessed at least once. For the Arts and Letters Learning Area, 66% of the course level SLOs has been assessed and 50% have used their results to improve learning in their courses. For Career and Technical Education, 38% of the course level SLOs has been assessed and 33% have been used to improve learning. For the Health and Wellness Learning Area, 91% of the course level SLOs has been assessed and 91% have used the results to improve student learning. For the Math and Science Learning Area, 68% of the course level SLOs has been assessed and 47% have used their results to improve student learning. For the Social Sciences Learning Area, 39% of the course level SLOs has been assessed and 26% have been used to improve student learning. SLO assessment results are routinely discussed during Social Science Learning Area Meetings for the benefit and input from faculty peers. Overall as a college, 57% of the course level SLOs has been assessed and 48% have used SLO data to improve student learning. (2.5)

Approximately 70% of instructional programs have defined SLOs, which is up from 6% a year ago. However, only 4% have been assessed with results used to make improvements. For non-instructional programs, 100% of the SLOs have been defined and 33% have been used to improve student learning. (2.5)

The lack of full time instructors in areas such as Guidance

Studies, Spanish, ESL, and Humanities makes some SLO assessments difficult. Adjunct faculty members are relied upon to assess courses in areas without full time instructors. The changing of adjunct instructors from semester to semester causes inconsistency in SLO assessment in these areas.

Course and program level SLO assessment schedules have been developed by each learning area. The representatives of the SLOC monitor and ensure that the assessment schedule is followed each semester.

During each SLO assessment cycle, faculty and staff are required to assess SLOs at the course and program level and to share the results of the assessments within each learning area. From the analysis, which takes place both individually in groups of faculty teaching the course and in the monthly and bi-monthly learning area meetings, changes have been implemented to either the assessments or the pedagogy used in the classroom, based upon the results of the assessment. Training sessions have occurred throughout the five-year SLO plan to assist faculty in making the necessary changes to their courses and programs, thereby achieving successful student learning. The vice chancellor of institutional effectiveness and enrollment management is available to assist faculty and staff in the assessment and analysis of SLOs for their courses and programs.

These are monitored by relevant faculty members and rewritten if necessary. The SLO process is separate from the curriculum process in order to allow faculty members to more easily modify SLOs to match evolving course outcomes.

The SLOC maintains and updates a MyWestHills site where all SLO related information is stored and accessible. Anyone with access can view assessment schedules, meeting minutes, assessment tracking, defined SLOs, and archived assessments.

New faculty and adjuncts receive individualized assistance on SLO development and assessment. This occurs during adjunct orientation meetings and learning area meetings. Online adjunct faculty receive assistance via email and phone. However, in general, communication with adjunct faculty regarding SLOs needs to be improved. (II.A.1.c)

Planning Agenda Items

- Led primarily by the SLOC and administration, the

college will fully implement the course and program level assessment cycle. The college will be in full compliance with this standard by 2012. (II.A.1.c)

- The associate dean of educational services will work with the district office to determine the best method to better include adjunct faculty in the SLO communication loop. This will occur before the spring 2012 term. (II.A.1.c)

II.A.2

The institution assures the quality and improvement of all instructional courses and programs offered in the name of the institution, including collegiate, developmental, and pre-collegiate courses and programs, continuing and community education, study abroad, short-term training courses and programs, programs for international students, and contract and other special programs, regardless of type of credit awarded, delivery mode, or location.

Descriptive Summary

Through communication among faculty, including Curriculum Committee Meetings, the establishment of prerequisites for professional programs, academic requirements, and expectations for subsequent transfer or employment are discussed and implemented to assure quality. (2.8) In addition, regular program review further assures quality by evaluation and assessment of data. WHCL offers pre-collegiate and developmental courses in math and English. The college has developed a partnership with its sister college, West Hills College Coalinga, to host courses in the maintenance mechanic program and as well as a cohort in the psychiatric technician program. (2.9)

Dialogue has occurred to examine the issues regarding the dearth of student interest in ESL and establish a plan to improve awareness. This dialogue has occurred during Basic Skills Initiative Meetings, Arts and Letters Learning Area Meetings, and President's Executive Cabinet Meetings. Some of the ideas discussed include better promotion of the ESL classes in local newspapers, television public service announcements, and radio spots, distributing flyers to high school students to take home and recruit family members to attend WHCL ESL classes, and improve the availability of the Combined English Language Skills Assessment (CELSA) to students taking placement exams. Above all, the hiring of a full-time ESL instructor would result in a champion for the ESL program where there is no one in this position at the current time.

The college has had a recent lack of student interest in English as a Second Language classes in spite of offering the sections at various days of the week and times. The local high school offers ESL during its adult school program, which is free of charge and has flexible attendance requirements. These conditions offered by the adult school may be reasons for students to favor the high schools adult school program over the college's offerings.

WHCL offers interest-based and short-term training opportunities through the Community Education program. Examples of short-term training includes entry-level maintenance trades, allied health careers (e.g., EKG, sterile processing, medical assisting, EEG), culinary, wellness, voice over training, computer applications, and entrepreneurial development. (2.10) The college does not offer study abroad or international student programs.

The Curriculum Committee reviews course outlines for appropriateness to be instructed by distance education. Upon the recommendation of the faculty originating the course outline, the Curriculum Committee discusses the value and integrity of each course before voting on its merit to be instructed in a distance education format. The assurance of instructional quality is considered in each case.

WHCL has a fully implemented program review process for all instructional and non-instructional programs on campus and at the district office. Components of the program review include both qualitative and quantitative data analysis, linkage of the program to the college's mission statement, and the evaluation of student learning outcomes. As a result of the program review, an analysis of student learning outcomes achievement and goal attainment might result in a redefining of a programs mission, student learning outcomes, and/or goals.

In addition to the program review process, another way the college assures the quality of its instructional offerings is through its articulation agreement with four-year colleges and universities. Since WHCL was accredited in 2006, the college has created articulation agreements with all 23 CSU campuses and all 10 UC campuses. WHCL has added 57 new courses to the CSU baccalaureate list, 38 new courses have been added to the CSU GE Breadth pattern, and 17 new courses to the IGETC pattern. (2.11)

Self Evaluation

The college engaged in lengthy discussion to determine a useful definition of what constitutes a “program.” After thoughtful and thorough dialogue, the college has defined an instructional program as a list of courses leading to a certificate or a degree; for non-instructional areas, a program is defined by a distinct budget code or funding source.

Dialogue has occurred between faculty concerning the effectiveness of pre-requisites and academic requirements for both transfer and vocational programs. These discussions have taken place during advisory, curriculum and instructional area meetings as well as Basic Skills Initiative Committee meetings. Community and contract education programs meet stated community needs as reported through employer participation at advisory meetings. The delivery of instruction in the college's pre-collegiate courses in math, English, and English as a Second Language were found to be a strength as these courses were offered in a variety of formats: web-enhanced, hybrid, learning communities, and through traditional delivery. This variety of instructional delivery allows for student choice and different learning modalities.

Through discussion and evaluation it was revealed that continued improvement and expansion of contract education courses is needed to continue to meet the academic and vocational needs of our male population. For example, since many of the vocational contract education offerings are targeted on entry-level training, there is no career path and no sequence of courses for students to take. This is particularly true in maintenance mechanics training.

Program review results often result in recommendations or changes. Specifically, it has been identified that a full-time ESL instructor is needed to enhance the face-to-face and non-credit courses. (II.A.2)

Planning Agenda Items

- The college will review data (state and local labor market information and institutional effectiveness data) to determine most urgent skills needed for local market to develop a five-year plan for the contract education program. (II.A.2)
- The college will examine fiscal allocation resources to determine the timetable when a full-time ESL instructor can be hired. (II.A.2)

II.A.2.a.

The institution uses established procedures to design, identify learning outcomes

Descriptive Summary

West Hills College Lemoore utilizes a Curriculum Committee that acts responsibly to approve course outlines and instructional certificates and degrees. The Curriculum Committee is primarily composed of instructional faculty representing each of the five

for, approve, administer, deliver, and evaluate courses and programs. The institution recognizes the central role of its faculty for establishing quality and improving instructional courses and programs.

instructional areas, and is co-chair by a member of the teaching staff. As a matter of routine, the Curriculum Committee evaluates course and program proposals for learning outcomes appropriate for a course, unit value, rigor, evaluation methods, mode of delivery, and administration. Actions taken by the Curriculum Committee are later considered for approval by the West Hills Community College District Board of Trustees.

Student learning outcomes (SLOs) are an institutionalized part of the faculty-driven curriculum process. The procedure for the creation of new courses offered by the college, as well as design and approval of new courses offered, is established by the Curriculum Committee; included in this process is the approval of SLOs. SLOs have been identified and approved for all active courses and are currently being identified and approved for all active programs. SLOs are available on all course syllabi. Each campus learning area has established a two-year schedule to evaluate all course level SLOs in their area. A program level SLO schedule has been developed and a tracking form, linked to program review, has been established. The SLO Committee representative for each learning area ensures that the evaluation schedule for their learning area is followed. (2.12) The SLO Committee meets regularly to monitor progress on SLOs. The SLO team site on the MyWestHills portal provides a common repository for all SLO-related information.

Self Evaluation

WHCL monitors its course and program inventory. On campus, the course and program inventory are maintained by the faculty chair of the Curriculum Committee. The vice president of educational services is the liaison with the state level course and program approval process.

The vast majority of course outlines are up-to-date. However, in rare cases, some course outlines are in need of updating and remain delinquent due to no full time faculty teaching in those disciplines. Course outlines are available either on the WHCL Curriculum Team portal site or as hard copies in the Office of Educational Services.

The Student Learning Outcome Committee (SLOC) determined that faculty needed a common repository for SLOs. This led to the development of a SLOC portal team site. Faculty are allowed to learn from peers and share information by utilizing this team site. (II.A.2.a)

II.A.2.b

The institution relies on faculty expertise and the assistance of advisory committees when appropriate, to identify competency levels and measurable student learning outcomes for courses, certificates, programs including general and vocational education, and degrees. The institution regularly assesses student progress toward achieving those outcomes.

Planning Agenda Items

- Led by the Curriculum Committee Chair and the Vice President of Educational Services, all course outlines will be no older than five years by the spring 2012. (II.A.2.a)

Descriptive Summary

The identification of SLOs at WHCL is a faculty-driven process. Qualified faculty and staff are hired, and faculty have received training in the effective writing and implementation of SLOs. (2.13) Faculty members are responsible to determine appropriate SLOs for courses and programs. General Education SLOs were developed by the SLO Committee, a committee dominated by faculty and led by faculty. The institution also relies on faculty to develop and approve course outlines and programs by the Curriculum Committee. Course content and instructional learning objectives are identified on course outlines. (2.7)

Advisory committees are formed for vocational/Career Technical Education programs and provide community expertise in evaluating the quality of the college's vocational program offerings. For example, the college has an advisory committee to support its new Biotechnology and Quality Control program. To help in developing its course curriculum, community members from a cross-representation in the local workforce joined to identify employee and employers needs and aided in designing curriculum. A similar format was used in support of the college's Allied Health programs. (2.14, 2.15)

Self Evaluation

The college utilizes effective methods to develop appropriate course content and measureable SLOs by relying on faculty content experts and community vocational leaders. The college follows a five-year plan to update course outlines and has an SLO implementation assessment plan.

Using the review by the SLO Committee, it is clear that the college needs to develop, assess, and analyze the results for all program level SLOs. The college also needs to be more fully engaged in assessing course level SLOs.

Through the vocational/CTE advisory committee work it has been determined that current programs are being responsive to the needs of local employers. In addition, outside agencies such as the California EDD, local Workforce Investment Board and California Board of Registered Nurses have conducted program review and found WHCL Nursing and Allied Health programs to be successful in terms of student success as it relates to licensure and employment. The process of involving and engaging outside regulatory agencies and employers is an important element in the efforts to continually assess CTE curriculum to ensure the relevancy to the ever-changing work environment. (II.A.2.b)

Planning Agenda Items

- The college will continue to assess and evaluate course level student learning outcomes. Appropriate changes to student learning outcomes will occur upon analysis of results. This activity will be led by the Student Learning Outcomes Committee and all members of the administrative team. (II.A.2.b)
- The college will develop all program level student learning outcomes by following its implementation plan. This activity will be led by the Student Learning Outcomes Committee and all members of the administrative team. (II.A.2.b)

II.A.2.c

High quality instruction and appropriate breadth, depth, rigor, sequencing, time to completion, and synthesis of learning characterize all programs.

Descriptive Summary

The quality of instructional programs, which includes appropriate breadth, depth, and rigor, is assured through the curriculum approval process, the ongoing revision of curriculum, by program review at the learning area level, and the implementation and assessment of SLOs in the courses. Through on-campus peer dialogue and input from off-campus specialists (e.g., articulation officers, vocational workforce experts), high instructional quality can be maintained.

The quality of instruction is also assured through the evaluation of full-time and part-time faculty. Instructor evaluations are conducted at least every three years for tenured, full-time faculty; adjunct instructors are evaluated during their first year, with additional evaluations every three years. The evaluation process includes classroom observation, student evaluations, and

a self-evaluation component that includes goals and professional development plans for each faculty member. An evaluation team comprised of both faculty peers and administrators works with the faculty to identify areas of strength and areas for growth if needed. Evaluations are kept on file in the Office of Human Resources. (2.16, 2.17)

The strategic planning process, student Town Hall meetings, curriculum review process, labor market data, and advisory committee meetings aid in decision making concerning continued course offerings, the deletion of courses, the inactivation of courses, and class scheduling and sequencing.

Non-vocational learning areas are required to submit a program review every four years, with a midterm report every two years, to evaluate the quality of the program. Vocational programs submit program reviews every two years. Instructional learning areas work to keep curriculum relevant and updated through five-year course outline reviews. Curriculum representatives meet weekly to approve and review course revisions, new courses, course deletions, and course in-activations. (2.8)

SLOs are assessed in courses and discussed within appropriate learning area meetings. This process enables the learning area and the college to measure the breadth, depth, and rigor in the curriculum and implement improvements when necessary.

Self Evaluation

The strategic planning process, Student Town Hall Meetings, curriculum review process, program review process, participation in industry specific meetings, as well as analysis of local labor market data and discussion at Advisory Committee meetings all aid in the decision making regarding the relevance, continuance and deletion of courses and programs. In addition, this process aids in the development of course scheduling and sequencing.

The evaluation process described above also aids in the development of articulation agreements with employers, K-12 and other colleges and universities.

Outside funding agencies have reviewed and evaluated many of WHCL vocational/career technical programs and have found them to be successful in terms of meeting local employer need and student success benchmarks such as retention and

employment. (II.A.2.c)

Planning Agenda Items

- None

II.A.2.d

The institution uses delivery modes and teaching methodologies that reflect the diverse needs and learning styles of its students.

Descriptive Summary

A variety of delivery modes and teaching methodologies are used in traditional face-to-face, online, hybrid, web-enhanced, and video conferenced courses to reflect the diverse needs and learning styles of the students at WHCL. For example, the college utilizes Blackboard to support online instruction and web-enhanced classes. The college faculty also benefits from textbook publisher websites and software to enhance learning outside of the classroom.

Professional development, which includes seminars on use of technology, is offered on Flex and Duty days and through the Employee Educational Assistance Program. Typically, in-house professional development activities have been organized by the college's Employee Development and Success Committee (e.g., use of Microsoft Office Suite and Blackboard). Current teaching methodologies and modes are addressed at conferences attended by faculty.

External grant funds have afforded the college faculty and administration with the opportunity to pursue additional professional development activities that would not otherwise be available. These opportunities have been available to counselors, academic and CTE faculty, and administrators. Areas of development include online teaching strategies, learning communities, retention strategies, industry developments, and adult learning techniques. The use of technology in the classroom aids in addressing the diverse needs and learning styles of students have also been addressed through external and internal training opportunities. Faculty incorporate technology such as PowerPoint, Blackboard, "clickers", and high fidelity simulation technology as appropriate. Some faculty utilize Edumetry, an online teaching assistant with a tutoring component.

Many of the college's courses are offered online or through video conferencing. Course outlines include a distance education addendum that provides for formal approval by the

faculty-led Curriculum Committee to allow for alternate means of delivery. The college offers an online assessment entitled, “Is Online Right For You?” to assist students in determining whether they are adequately prepared to take online courses.

In spring 2010, the college implemented the Eagle Lunch and Learn program for academically at-risk students who are referred by a faculty member. These lunchtime sessions are facilitated by a Disabled Students Program and Services (DSPS) counselor and appropriate faculty, depending on the theme of the session. (2.18, 2.19) Referrals from faculty in February 2010 totaled 30 students to the Eagle Lunch and Learn. On-going intervention, communication, and dialogue resulted in a dramatic increase in the number of students referred totaling 180 by May 2010. Analysis remains to be collected to determine if the intervention is successful. The Eagle Lunch and Learn program will be continued in future semesters.

Self Evaluation

WHCL utilizes an array of instructional delivery methods and teaching methods. Mostly relying on technology for execution, the college is well positioned in regards to outfitting facilities and instructional staff to be successful in the delivery of their course materials. For example, all full-time faculty are issued laptop computers and adjunct faculty have long-term laptop computer check-out privileges through Media Services located in the library.

A sufficient number of staff development opportunities are provided to the teaching staff throughout the academic year to support technology-based instruction. Still, full-time staff are located in the library to assist faculty one-on-one with individual support upon request. When a face-to-face meeting is not possible, staff utilize alternative methods of satisfying requests from teaching staff for course material development.

Teaching staff who elect to use Blackboard must receive training on its use in order to fully benefit from Blackboard’s qualities. This required training is for faculty that teach online, hybrid, or web-enhanced.

Occasionally, students have indicated that they have struggles with the technology associated with online and Blackboard classes. These cases are handled individually with WHCL staff wither in a face-to-face setting, by phone, or by email.

II.A.2.e

The institution evaluates all courses and programs through an on-going systematic review of their relevance, appropriateness, achievement of learning outcomes, currency, and future needs and plans.

The college has a sufficient number of computers in the library to meet student demand in support of courses needing Internet access. (II.A.2.d)

Planning Agenda Items

- None

Descriptive Summary

WHCL provides a systematic review of courses and programs through program review, updating of curriculum, and implementation of the student learning outcomes in learning areas and courses. Results of SLO assessments and identified improvements are first reviewed by course-level faculty and program staff. The next level of review involves the learning areas and non-instructional programs followed by review by the Student Learning Outcomes Committee.

All course outlines are scheduled for review and update every five years. All programs are scheduled for review at least every four years; vocational programs are reviewed every two years. (2.20)

The data warehouse system, under the supervision of the Vice Chancellor of Institutional Effectiveness and Enrollment Management, serves as a repository of statistical data for program review reporting; analysis of completion, success and retention rates; and implementation of improvements for institutional effectiveness.

The program review process requires all non-vocational programs to be reviewed every four years with a midterm report due in-between. Vocational/Career Technical Education programs are reviewed every two years. Faculty, administration, and other employees at WHCL continually evaluate and seek to improve the quality, currency, and consistency of all courses, certificates, programs, and degrees. The program review process is tied to the budget development process in that requests for additional funding or staffing are included in the program review report. The program review originator follows-up with the program's needs by submitting requests to the Budget Allocation Committee for consideration. Fulfillment of the request is subject to the availability of funds, however. None-the-less, a link exists between the program review process and the future

needs of a program to the budget process. (2.20)

Self Evaluation

Through the Program Review, Advisory Committee process and additional information gleaned from external sources have indicated that the process is working to ensure the delivery of high quality instruction with the appropriate breadth, depth, rigor and sequencing is occurring across all programs. Additionally, for CTE programs, this is evident by reviews conducted by external agencies such as California EDD, U.S. Department of Labor, and California Board of Registered Nurses. (II.A.2.e)

Planning Agenda Items

- None

Descriptive Summary

Student learning outcomes (SLOs) have been developed and implemented on a course-by-course basis. A schedule has been developed for the assessment of course-level SLOs. Tracking sheets are kept by the SLO Committee that show which courses and program have SLO assessment data. The tracking forms indicate which courses and programs have been assessed, analyzed, and have used the SLO assessment data to improve learning. Similar tracking is done for non-instructional programs. The SLO Committee has identified General Education SLOs and has mapped those SLOs to all GE courses. (2.5)

Institutional data provided by the Vice Chancellor of Institutional Effectiveness and Enrollment Management is used by the college for the planning process, program review, and the SLO process. This information is also incorporated into presentations at strategic planning meetings, town hall meetings, and advisory council meetings. Feedback from participants of these meetings is used to base changes to planning, instructional or non-instructional programs, or student learning outcomes. Constituency groups are provided with this information, primarily through the Planning and Governance Council meetings, which has representatives from all college constituency groups.

II.A.2.f

The institution engages in ongoing, systematic evaluation and integrated planning to assure currency and measure achievement of its stated student learning outcomes for courses, certificates, programs including general and vocational education, and degrees. The institution systematically strives to improve those outcomes and makes the results available to appropriate constituencies.

II.A.2.g

If an institution uses departmental course and/or program examinations, it validates their effectiveness in measuring student learning and minimizes test biases.

II.A.2.h

The institution awards credit based on student achievement of the course's stated learning outcomes. Units

Self Evaluation

West Hills College Lemoore is working at the sustainable continuous quality improvement stage of the Rubric for Evaluating Institutional Effectiveness in Student Learning Outcomes and at the sustainable continuous quality improvement stage for Planning. The college has the committee structure in place to achieve the level of sustainable continuous quality improvement for student learning outcomes but simply needs a short time in which to assess all courses and programs, followed by analysis of the results. (II.A.2.f)

Planning Agenda Items

- None

Descriptive Summary

The college does not offer exit exams in any of its programs; however, some professions require state, national, or board certification exams such as the associate degree in nursing, EMT, and food safety. The results of these certification exams is a component of the program review process.

Self Evaluation

The college meets this standard as it does not use departmental course and/or program examinations.

To assist in grading, the English faculty have developed rubric to evaluate in-class essays. The rubric was calibrated to eliminate test bias. Results are being tracked and will be used in the on-going evaluation and planning. (II.A.2.g)

Planning Agenda Items

- None

Descriptive Summary

WHCL awards credit for courses based directly on achievement of a course's learning outcomes (or instructional objectives). The learning outcomes for a course are a key component of a course outline, which is written by faculty with expertise in the subject matter and approved by the faculty-led Curriculum Committee. Each instructor creates assignments to measure the

of credit awarded are consistent with institutional policies that reflect generally accepted norms or equivalencies in higher education.

proficiency or attainment of a course's learning outcomes. In some areas, like English, faculty for a course work together to design these assignments. Instructors modify teaching strategies as a result of stated outcomes. Credit is based on the student's proficiency of assigned tasks.

The college awards appropriate course credit based on the Carnegie unit. A lecture class requires the equivalent of one academic hour (50 minutes) per week for each semester unit conferred. Laboratory classes require three academic hours (150 minutes) per week for each semester unit conferred.

Self Evaluation

All West Hills College course outlines contain learning outcomes (or learning objectives). A student's achievement of these learning outcomes is used as the basis of issuing grades and credit. The Carnegie unit is used to determine the appropriate unit value issued for completion of a course. [\(II.A.2.h\)](#)

Planning Agenda Items

- None

II.A.2.i

The institution awards degrees and certificates based on student achievement of a program's stated learning outcomes.

Descriptive Summary

West Hills College Lemoore has established learning outcomes for all courses leading to degrees and certificates. Therefore, the attainment by a student of a certificate or degree is assured when the student has received a passing grade in all required courses.

Program level student learning outcomes (SLOs) are being developed and at the same time mapped to the courses required to earn degrees or certificates. SLOs have been established for all courses within programs. SLOs for some programs have been identified and mapped to courses. General Education program SLOs have also been identified and mapped to courses. WHCL, through its adjunct faculty orientation, is requiring adjunct faculty to assess identified SLOs for the courses they instruct. Adjunct faculty receive training on SLOs and SLO assessment from full-time faculty during their orientation meeting. (2.21)

II.A.3

The institution requires of all academic and vocational degree programs a component of general education based on a carefully considered philosophy that is clearly stated in its catalogue; the institution, relying on the expertise of its faculty, determines the appropriateness of each course for inclusion in the

Self Evaluation

The College uses a set of criteria described in its catalog as the basis of awarding degrees and certificates. These include:

- Completion of at least 18 units of general education (for degrees)
- Completion of required course work in a major
- Completion of other local college/district course work (for degrees)
- Completion of a minimum number of units in a major
- Completion of a minimum number of overall units (for degrees)
- Satisfy GPA requirements

These requirements are verified by college counselors after a student petitions to graduate. Once verified by the counselor, the degree or certificate qualifications are further reviewed and approved by the district registrar before the issuance of a certificate or degree. (II.A.2.i)

Planning Agenda Items

- None

Descriptive Summary

The GE requirements of the transfer associate degree are designed to prepare students to transfer to and function successfully in a baccalaureate degree granting institution, enter the workforce as a competent, productive citizen, live a richer, more rewarding life, and enter a specific vocational program to attain lifelong employment. Students in academic and vocational degree programs at WHCL are introduced to the humanities, social sciences, natural sciences, applied sciences, and technology. Students are exposed to different areas of learning, and acquire and use reading, writing, and critical thinking skills. Students also learn how to function as responsible, ethical individuals in a complex society, and are instilled with a level of intellectual curiosity and self-awareness conducive to lifelong learning and personal growth as a result of completing the GE graduation requirements.

New courses are considered for inclusion on the GE curriculum at a special Curriculum Committee Meeting held each year. At this time, discipline faculty are asked to attend and justify their

general education curriculum by examining the stated learning outcomes for the course.

General education has comprehensive learning outcomes for the students who complete it, including the following:

II.A.3.a
An understanding of the basic content and methodology of the major areas of

request. The Curriculum Committee votes to determine if a new course would be appropriate to be considered to be on the GE curriculum list on a case-by-case basis.

Degree requirements are communicated to all students through the student orientation, counseling and advising, student educational plans, and individual program requirements as outlined in the college catalog. Degree requirement information is available in hard copy format and online. In addition, students are taught and encouraged to use ASSIST.org to supplement their understanding and accessibility of degree and transfer requirements. The college curriculum committee is responsible for developing and approving all degree and certificate requirements. SLOs for general education courses are regularly evaluated and assessed for currency, relevancy, and appropriateness. All associate degrees have as a component of their requirements general education courses that reflect the college's philosophy of the value of an associate degree from the college as identified in its mission statement.

Self Evaluation

WHCL students are exposed to different areas of learning, and acquire and use reading, writing, and critical thinking skills. Students also learn how to function as responsible, ethical individuals in a complex society, and are instilled with a level of intellectual curiosity and self-awareness conducive to lifelong learning and personal growth.

The GE requirements of the transfer associate degree are designed to prepare students to transfer to, and function successfully in, a baccalaureate degree granting institution, enter the workforce as a competent, productive citizen, live a richer more rewarding life, and enter a specific vocational program to attain lifelong employment. (II.A.3)

Planning Agenda Items

- None

Descriptive Summary

WHCL offers courses that satisfy the GE components of all of the major learning areas, and all classes have student learning outcomes that will allow the institution to assess the students' level of understanding in those GE courses. There are 36

knowledge: areas include the humanities and fine arts, the natural sciences, and the social sciences.

courses offered in the humanities, GE Area C. There are 30 courses offered in social sciences, GE Area D. There are 21 courses offered in the natural sciences, Area B. Courses have been assigned to these areas as a result of Curriculum Committee action.

The college, Academic Senate, Curriculum Committee, instructional areas, Office of Educational Services, and the college articulation officer are responsible for the content and methodologies of the general education curriculum. This includes ensuring that the general education requirements include Language and Rationality, Natural Sciences, Humanities, Social Science, and local district requirements. Flexibility in these general education requirements allows students to take from a list of classes and to explore new interests.

Self Evaluation

Through the shared governance processes of the academic senate and curriculum committee, extensive dialogue occurs. The college, Academic Senate, Curriculum Committee, instructional areas, Office of Educational Services, and the college articulation officer are responsible for the content and methodologies of the general education curriculum. This includes ensuring that the general education requirements include Language and Rationality, Natural Sciences, Humanities, Social Science, and local district requirements. Flexibility in these general education requirements allows students to explore new interests. (II.A.3.a)

Planning Agenda Items

- None

II.A.3.b

A capability to be a productive individual and lifelong learner: skills include oral and written communication, information competency, computer literacy, scientific and

Descriptive Summary

WHCL exposes students to a variety of opportunities to create a productive individual and lifelong learner by encouraging students' development as effective communicators, critical thinkers, and effective learners of information competency and computer literacy. The college requires that graduating students must successfully complete English 1A, Composition and Reading, to be eligible for graduation. The college also requires that graduates must successfully pass Math 63, Intermediate Algebra, or higher and one natural science course, Area B. There are 21 courses in area B that a student can choose.

quantitative reasoning, critical analysis/logical thinking, and the ability to acquire knowledge through a variety of means.

Computer literacy, information competency, and critical analysis are not direct requirements for the associate degree but are imbedded in course offerings whether they be traditional face-to-face offerings or through the college's online delivery. WHCL students further utilize computer competency skills in that the college provides up-to-date course schedules, college catalog, application and registration processes online or through individual one-on-one assistance.

Self Evaluation

In general, the college provides up-to-date technology for its students in the classrooms and resource centers, and supports student learning by offering tutoring and weekend programs. To promote wellness and altruism, the college sponsors regular health fairs, blood drives, and other student life contributions.

Computer literacy and information competency are not direct requirements for the associate degree but are imbedded in course offerings whether they be traditional face-to-face offerings or through the college's online delivery. WHCL students utilize computer competency skills in that the college provides up-to-date course schedules, college catalog, application and registration processes online or through individual one-on-one assistance. (II.A.3.b)

Planning Agenda Items

II.A.3.c

A recognition of what it means to be an ethical human being, an effective citizen: qualities include an appreciation of ethical principles; civility and interpersonal skills; respect for cultural diversity; historical and aesthetic

Descriptive Summary

Imbedded in WHCL's general education courses (2.7) is the promotion of cultural diversity and engagement in ethical principles and civility wherein students also develop an awareness of what it means to be ethical human beings and effective citizens. Specifically, each course outline must address how cultural sensitivity is addressed in the course; this question must be answered prior to approval by the Curriculum Committee.

In addition to coursework, student life organizations, WHCL sports, and sponsored events or activities encourage and promote discourse on ethics, diversity, interpersonal communication skills and citizenship.

sensitivity; and the willingness to assume civic, political, and social responsibilities locally, nationally, and globally.

(2.22, 2.23)

Self Evaluation

The Student Government Association (SGA) connects students, faculty, and administration. Through SGA, student representation is provided on various college committees. There are also various clubs and organizations with service, political, academic, social, and cultural objectives which offer students a variety of opportunities to participate. Many general education courses require student participation in campus activities, including health fairs, cultural programs that are organized by students, and district board meetings.

Cultural events such as the Day of the Dead celebration during Hispanic Heritage Month, Gospel and Gumbo Night during African American History Month, An Evening with Gary Soto, and Disability Awareness Month support the college's mission statement and guiding principles, as well as Board and Administrative Policy 5505. (2.22, 2.23) (II.A.3.c)

Planning Agenda Items

- None

II.A.4.

All degree programs include focused study and at least one area of inquiry or in an established interdisciplinary core.

Descriptive Summary

All associate degree programs include a focused study in at least one area of inquiry or in an established interdisciplinary core. All AA/AS degrees require at least 18 semester units of study in the major. (2.22)

Self Evaluation

As an example of incorporating an interdisciplinary core, the general Health Science Degree has five required courses listed for its associate degree. The required courses for the general Health Science Degree are human anatomy, human physiology, microbiology, general or introductory chemistry, and basic nutrition. Both psychology and sociology are recommended electives. Students obtaining this degree are prepared to enter directly into advanced and focused programs such as nursing or dental hygiene. All degree programs at WHCL minimally include an interdisciplinary core or an area of inquiry. (II.A.4)

II.A.5
Students completing vocational and occupational certificates and degrees demonstrate technical and professional competencies that meet employment and other applicable standards and are prepared for external licensure and certification.

Planning Agenda Items

- None

Descriptive Summary

To complete a vocational or occupational certificate or degree at WHCL, students must demonstrate technical and professional competencies. This is to ensure that the student meets employment and other applicable standards that prepare them for external licensure and certification. Students' technical and professional competencies in vocational and occupational programs are measured through skill tests, written tests, demonstrations, and/or passing certificate exams. (2.24)

Students working toward industry-based professions must demonstrate technical and professional competency based on input from the advisory committees, which is included in the course curriculum or program SLOs.

Self Evaluation

The fields of child development, administration of justice, and health career programs all have standards that are regulated by state and federal agencies, such as the Commission on Credentialing, Police Officers Standards and Training, Correctional Police Officers Standards and Training, Board of Registered Nursing, and the National Registry of EMT. Also, local input from industry helps to determine the required skills of its employees. (2.24)

WHCL utilizes the expertise of industry-based advisory committees to assist in determining the technical and professional competencies in courses relating to the programs that do not have exams or licensure requirements. For example, students completing WHCL courses in Certification/Arrest Control and Certification/Firearms must pass the Police Officers Standards and Training or the Correctional Police Officers Standards and Training certification tests. Over the past three years, the AOJ program has had a 100% success rate for students passing the certification exam. Another example is that 100% of the first cohort of sterile processing students had jobs before finishing the course, as did 75% of the second cohort. (II.A.5)

II.A.6

The institution assures that students and prospective students receive clear and accurate information about educational courses and programs and transfer policies. The institution describes its degrees and certificates in terms of their purpose, content, course requirements, and expected student learning outcomes. In every class section students receive a course syllabus that specifies learning outcomes consistent with those in the institution's officially approved course outline.

Planning Agenda Items

- None

Descriptive Summary

WHCL produces a catalog every two years and addenda in between those years as appropriate. The degrees and certificates offered by the college along with their requirements and the transfer policies are stated clearly in the catalog. New editions of the college catalog reflect curriculum committee approved course changes, revised program requirements, and any changes to pre-requisite and co-requisite requirements. The college catalog is available in print and electronic versions and can be accessed on the college website. This ensures that information provided to students is current and accurate. (2.22)

Degree requirements are communicated to students. Course syllabi, prepared by individual instructors for each course section are provided to students. Inclusion of course objectives and student learning outcomes in course syllabi are verified by the office of educational services. (2.7, 2.25)

Self Evaluation

The college's counseling and advising staff regularly attend off-campus staff development activities to ensure that degree and transfer information is current and accurate. For example, WHCL participates in regional articulation officer workshops; this information is shared during Student Services staff meetings on-campus. This assures that the articulation officer provides updated information to counseling and advising staff to confirm that articulation agreements are current and accurate. The articulation officer is a standing member of the curriculum committee assuring continuity of information.

Students receive degree requirement and transfer information through the student orientation (in person and online), counseling and advising (in person and online), student educational plans, and individual program requirements. Degree requirement information is available in hard copy format and online. In addition, students are taught and encouraged to use ASSIST.org to supplement their understanding and accessibility of degree and transfer requirements.

A course syllabus is prepared by the instructor for each course

II.A.6.a

The institution makes available to its students clearly stated transfer- of-credit policies in order to facilitate the mobility of students without penalty. In accepting transfer credits to fulfill degree requirements, the institution certifies that the expected learning outcomes for transferred courses are comparable to the learning outcomes of its own courses. Where patterns of student enrollment between institutions are identified, the

section each semester and given to the students during the first class meeting. The course syllabus is submitted by the individual instructors to the Office of Educational Services within a week of the start of the class. (2.25) The contents of the syllabus are reviewed to assure a basic that the learning objectives that are consistent with the approved course outline and the student learning outcomes are listed on the syllabus. (II.A.6)

Planning Agenda Items

- The college will place course, program, and certificate sheets on the MyWestHills portal to increase access for students and staff. (II.A.6)

Descriptive Summary

WHCL provides clearly stated transfer-of-credit policies to ensure the mobility of students without penalty, and continually strives to improve the channels of transfer credit between other institutions. Articulation agreements exist and are regularly reviewed by the college's articulation officer and are updated to ensure accuracy. The college's articulation officer also works with instructional program areas to update and seek new articulation agreements. The college is a member of a Servicemember's Opportunity College, Navy (SOCNAV) to ensure transfer of credit for military students. (2.26)

Students transferring into WHCL undergo a transcript evaluation completed by a member of the counseling staff. This evaluation process might include clarification from a member of the teaching faculty or involve communication with the institution issuing the transcripts. As applicable, comparable courses are given appropriate WHCL credit towards degrees and certificates.

The college provides counseling staff and a Transfer Center to assist students transferring to other institutions. Counselors help students generate educational plans that map the sequence of courses based on their transfer and career goals.

Self Evaluation

An example of assisting students with course sequencing occurred during the 2008-2009 academic year when the first cohort of engineering students arrived on campus. These students will complete a two-year program that prepares them to

institution developed articulation agreements as appropriate to its mission.

transfer to a four-year institution's engineering program. Each student met with the lead counselor to draft educational plans based on their desired transfer institution and major engineering discipline. Each semester, these educational plans are revisited and updated based on the student's progress. All courses are checked regularly for current articulation agreements to ensure a seamless transition to the transfer institution. (II.A.6.a)

Planning Agenda Items

- None

II.A.6.b

When programs are eliminated or program requirements are significantly changed, the institution makes appropriate arrangements so that enrolled students may complete their education in a timely manner with a minimum of disruption.

Descriptive Summary

As a new college established in 2006, WHCL has not been in a position to discontinue a program. At the current time, the college does not have a program discontinuation policy but understands the importance of determining a board approved policy.

For students in a program, WHCL offers a two-year schedule that allows students to plan their courses and complete their education in a timely manner with a minimum of disruption. Courses necessary for graduation are many times offered even if enrollment is low in order to assure that students can complete their educational goals efficiently. The college also has a course substitution process for meeting graduation requirements. (2.27)

Self Evaluation

Student educational plans are fluid documents that may be altered due to program or course changes affecting the student's progress towards completion of a degree or certificate. A goal has been set by the college to have a completed educational plan on file for all entering freshmen planning to matriculate beginning in fall 2010. (2.28)

During the 2008-2009 academic year, the California Community College Chancellor's Office determined that the college's Associate of Arts in Liberal Arts degree was out of compliance. The college was advised to act quickly to replace the non-compliant degrees and provide a new option to students pursuing a liberal arts degree. Within a year, the WHCL Curriculum Committee approved new degrees with the new requirements that are compliant by providing liberal arts degrees with an area of emphasis. One example is the newly approved Liberal Arts

with an Emphasis in Math and Science Degree.

While the college does not currently have a program discontinuation policy, college leadership has had discussions with its sister college and the district office to develop a board approved program discontinuation policy. (II.A.6.b)

Planning Agenda Items

- The college leadership will work with its sister college and district office to develop a program discontinuation policy by Spring 2012. (II.A.6.b)

II.A.6.c

The institution represents itself clearly, accurately, and consistently to prospective and current students, the public, and its personnel through its catalogs, statements, and publications, including those presented in electronic formats. It regularly reviews institutional policies, procedures, and publications to assure integrity in all representations about its mission, programs, and services.

Descriptive Summary

WHCL presents itself to constituents with integrity by providing current and accurate community outreach and by its review of college publications for accuracy and consistency. Individual program and learning areas regularly update their program information and marketing materials to ensure accuracy. The college produces brochures, information sheets, pamphlets, posters, and website information that market and advertise college information to the community, students, and staff.

The college catalog provides clear, accurate, and consistent information to current and prospective students, the community, and stakeholders. (2.22) Efforts are made to ensure consistent information is presented in all written and electronic media. When discrepancies are noticed, action is taken in an appropriate manner to troubleshoot, correct, and improve.

Self Evaluation

The district marketing office coordinates communication, publications, and marketing materials to the public. This information is regularly distributed during community outreach events, campus outreach activities, Xtreme Registration, student orientations, Welcome Week activities, and categorical program orientations. (2.29) (2.30)

Counselors, advisors, and financial aid personnel visit local high schools during the academic year for informational presentations, assistance with the application and registration process, and to answer questions concerning the financial aid process, FAFSA, and scholarships. (2.31, 2.32)

In March 2009, a WHCL Catalog Committee was created to review and address any discrepancies between distributed publications and current college policy and procedures. The purpose of the committee is to continually review the published college policies and to ensure consistency with all distributed media, as consistency leads to institutional integrity. (II.A.6.c)

Planning Agenda Items

- None

Descriptive Summary

The West Hills Community College District Board of Trustees has approved an academic freedom board policy to identify the provisions under which faculty maintain freedom to instruct and provide course content to adequately maintain the quality and integrity of their individual courses. (2.33)

The academic honesty board policy 5505 (2.23) was approved by the WHCCD Board of Trustees on June 7, 2006.

Self Evaluation

The academic freedom policy is available to the public in the college catalog and on the website.

The Academic Senate developed an academic honesty policy that was approved by the WHCL Planning and Governance Council in October of 2005. The Academic Senate presented this policy in the form of a resolution to the WHCCD Board of Trustees at their November 2005 meeting. (2.23) (II.A.7)

Planning Agenda Items

- None

Descriptive Summary

The faculty of WHCL adhere to an academic freedom policy that outlines the distinction between personal conviction and professionally accepted views in a discipline. The academic freedom policy is clearly stated in the 2008-2010 college catalog. It was approved by the academic senate and is similar to the one found at the state and national level. The statement

II.A.7

In order to assure the academic integrity of the teaching-learning process, the institution uses and makes public governing-board adopted policies on academic freedom and responsibility, student academic honesty, and specific institutional beliefs or worldviews. These policies make clear the institution's commitment to the free pursuit and dissemination of knowledge.

II.A.7.a

Faculty distinguish between personal conviction and professionally accepted views in a discipline. They

present data and information fairly and objectively.

includes the elements of professional versus personal conviction, professionally accepted views of the discipline, and the presentation of fair and objective information. (2.22)

Self Evaluation

During the faculty evaluation process for tenured, non-tenured, and adjunct faculty, peers are asked to evaluate whether faculty members' methods of presentation are appropriate for the types of materials covered, present alternative and opposing views, use appropriate supporting materials, encourage student participation, and maintain a positive learning environment. Peers are also asked to assess whether the course objectives were achieved. (2.16) (II.A.7.a)

Planning Agenda Items

- None

II.A.7.b

The institution establishes and publishes clear expectations concerning student academic honesty and the consequences for dishonesty.

Descriptive Summary

The Academic Honesty Policy is available in the WHCL catalog, the student handbook, and on the college website. Faculty are required to include this statement on syllabi. Academic dishonesty is primarily dealt with individually by instructors according to the level of dishonesty and can involve the administration in some cases. (2.22, 2.23, 2.34)

The Academic Senate developed an academic honesty policy that was approved by the WHCL Planning and Governance Council in October of 2005. The Academic Senate presented this policy in the form of a resolution to the WHCCD Board of Trustees at their November 2005 meeting. This policy describes academic behavior expected of all students. The Academic Honesty Policy is clearly linked on the login page for online students using Blackboard. Students are directed that when they log in they "agree to abide by the terms of the Computer and Network Use Policy and Academic Honesty Policy." (2.33)

Self Evaluation

The Academic Honesty Policy describes academic behavior expected of all students. The policy is clearly linked on the login page for online students using Blackboard. When students log in to their online courses a statement appears before they can continue that states: "I agree to abide by the terms of the

Computer and Network Use Policy and Academic Honesty Policy.” This statement exists as well on all student email log ins and on campus computer log ins. (2.23) [\(II.A.7.b\)](#)

Planning Agenda Items

None

II.A.7.c

Institutions that require conformity to specific codes of conduct of staff, faculty, administrators, or students, or that seek to instill specific beliefs or worldviews, get clear prior notice of such policies, including statements in the catalog and/or appropriate faculty or student handbooks.

II.A.8

Institutions offering curricula in foreign locations to students other than U.S. nationals operate in conformity with standards and applicable Commission policies.

II.B
Student Support Services

The institution recruits and admits diverse students who are able to benefit from its programs, consistent with its mission. Student support services address the identified needs of students and enhance a supportive learning environment. The entire student pathway through the institutional experience is characterized by a concern for student access, progress, learning, and success. The institution systematically assesses student support services using student learning outcomes, faculty and staff input, and other appropriate measures in order to improve the effective

II.B.1
The institution

WHCL has an open access policy that is consistent with state regulations and board policy. The policy is reflected in the college mission statement, which states that the college is dedicated to “quality educational learning opportunities and partnerships,” and “committed to student learning and empowering students to achieve their educational goals.”

Student Services offers a variety of pathways and procedures for entering and continuing students such as the admissions/registration process, outreach presentations, student orientations, assessment tests, counseling and advising, classroom presentations, and workshops. Also, the college provides programs such as Equal Opportunity Program and Services (EOPS), Disabled Students Program and Services (DSPS), TRiO, College Assistance Migrant Program (CAMP), and Veteran Services. These services provide gateway services for eligible students able to benefit from its programs.

Student learning outcomes have been written and assessed for all Student Services programs, such as matriculation and Upward Bound.

The catalog, student handbook, and the college website serve to inform, recruit, and provide access for diverse students, and provide information about the college’s programs and services.

Recently, students have participated in Town Hall meetings as a means of expressing opinions, concerns, and suggestions for improving services to students. (2.32, 2.35) For staff and faculty, President’s Open Forums are held once per semester. Strategic Planning Meetings are held twice per semester that include areas such as student services and student success. (II.B)

WHCL assures quality of services that support student learning and the mission of the college with a systematic cycle of student

assures the quality of student support services and demonstrates that these services, regardless of location or means of delivery, support student learning and enhance achievement of the mission of the institution.

learning outcomes (SLOs) assessment and improvements and regularly scheduled program reviews. Quality is also assured by a California Community College Chancellor's Office matriculation and categorical site visit in spring 2009. (2.36) The college demonstrates that these services, regardless of location or means of delivery, support student learning, and enhance achievement of the mission of the institution.

Program review also assures quality of services. For example, Counseling brought their program review to the Student Success Committee and then to the Institutional Effectiveness and Program Review Committee for technical review. The program review was approved by the primary participatory governance body, the Planning and Governance Council, in the fall of 2008. (2.37) The dean of student services has worked with his staff to develop SLOs for the areas of his responsibility, such as counseling and advising, financial aid, categorical programs, and admissions. The first cycle of implementation and assessment of SLOs began in the spring of 2006.

Self Evaluation

West Hills College Lemoore ensures that all students are provided with a variety of traditional, non-traditional, and mandated programs and services. These services include counseling and advising, assistive technology, financial aid, tutorial programs, Student Services MyWestHills portal access, disability services, placement testing at multiple locations, and the Early Alert system.

The college maintains office space at the Naval Air Station Lemoore (NASL), which includes a counselor, advisor and student services assistant. Prior to the 2010-11 academic year, there was only one advisor and a student services assistant. From a discussion at the student services meeting in the spring of 2010 regarding, a need to enhance the services at NASL, it was later determined that counseling and advising services was necessary on the base. As a result, one counselor now provides onsite services at the naval base once a week. This counselor's presence has aided in bringing current the educational plans for military personnel, called SOC-NAV Agreements. In addition, the use of SharePoint portal has increased communication, and information to both staff and students on the base. Another example of enhancing services, communication and opportunities for students at the base was the modified version of the Xtreme Registration opportunity and Welcome Week

activities. Xtreme Registration was an event hosted on the main campus for non-traditional students to enroll in college the Friday before school started in the late evening hours. Students were able to complete all registration activities, including financial aid, in one evening, in a one stop format. Xtreme Registration opportunities were also offered on the base, during the week, and staff were available until 7 pm.

West Hills Lemoore has been selected by G.I. Jobs magazine as a Military Friendly School for 2011. This honor places the college in the top 15% of all colleges nationwide. It reaffirms the college's commitment to educating the nation's military veterans

A hallmark of West Hills College Lemoore is the open access for students regardless of location. Students are able to electronically inquire about counseling and advising services through the "Ask a Counselor" web service. This link goes directly to an advisor who follows-up and/or refers the student to the appropriate department. In addition, all students have access to the online orientation, personal financial aid information, "help desk" support, and are able to conduct business, such as requesting a transcript electronically. While these services are readily available to students, not all students are aware of what they can access electronically as evidenced in the Student Town Hall meeting discussions and matrix. This continues to be an area needing improvement.

Over the past two and one half years, the college has conducted four Student Town Hall meetings. The purpose of the town hall meetings is to solicit feedback from students regarding issues and concerns they have on the campus. Since the first Student Town Hall meeting, the college has held three additional Town Hall Meetings that have been attended by over 300 students. As a result of the Student Town Hall meetings, students have indicated a desire to have more immediate access to the help desk during peak registration times. In response to this concern, "live help desk hours" have been made available as well as the recent hiring of two temporary help desk staff members to assist during peak registration hours. Additional feedback received has been a concern from students regarding "customer service" from front counter staff. Despite trainings, additional attention needs to be paid in this area.

At the February, 2010 Board Retreat, the Governing Board examined the District Score Card and the results on high school

participation rates indicated a downward trend, thus prompting a “call to action.” In the summer of 2010, a Strategic Planning Retreat at Harris Ranch was held. This retreat included high school principals and other contacts, community members, and Work Force Development partners. The purpose of this retreat was to look at data regarding high school participation rates, engage in a dialogue of identifying what can be done to increase the college going rate and how each partner can support this effort. In addition to the high school participation rates, contributors also looked at data regarding the completion of student educational plans. One of the 2010-11 tasks identified by the vice president of student services was to increase the number of student with and educational plan. In the fall, counselors held “student education planning” workshops. The results have been very encouraging. By the middle of September, over sixty athletes had an educational plan completed and by the middle of October, over seventy-five teacher preparation students had a completed educational plan. The 2010-11 goal is to have 100% of the freshman class students on a degree or certificate track to have an educational plan completed by May 2011, regardless of location. The inroads made to date are encouraging; however, the college will need to focus on increasing the number of students with an educational plan completed and ensure that this can occur, regardless of location. These existing and expanded activities allow for comprehensive student services, focusing on access, learning, success, and aligning to the mission statement. (II.B.1)

Planning Agenda Items

- By the fall of 2011, the vice chancellor of institutional effectiveness and enrollment management will develop electronic student educational plans. (II.B.1)
- By the spring of 2011, the dean of students will improve the customer service provided to students from the front counter staff. (II.B.1)
- By the fall of 2011, the dean of students will increase student awareness of electronic resources on the web, such as the catalog. (II.B.1)

II.B.2

The institution provides the catalog for its constituencies with precise,

Descriptive Summary

The WHCL catalog provides general information, graduation and transfer requirements, and institutional policies. The college began using a two-year catalog format with the 2008-2010 catalog. Although the college makes every attempt to produce

accurate, and current information concerning the following:

an accurate catalog, there are at times errors and omissions. The college produces an addendum as appropriate to correct errors and omissions while also updating any changes that have occurred. Long term, the college has implemented a Catalog Committee to oversee publication of future catalogs, which will increase accuracy. The catalog is easily accessible online. A sufficient number of hard copies are also available.

Self Evaluation

West Hills College Lemoore catalog is the primary printed source for information on programs, policies, and procedures pertaining to students. These items of information include academic regulations and policies on honesty, nondiscrimination, acceptance of transfer credits, grievance and complaint procedures, sexual harassment, academic freedom statement, academic calendar and program length, and fee refunds. The catalog is reviewed and updated regularly by the Student Services and instructional divisions to ensure information accuracy. The first draft is also reviewed by the articulation officer, who looks specifically at sections that have been affected by instructional changes. In viewing this document, every dean is asked to review their respective area for changes/corrections of staff, programs changes and updates and then it proceeds to the final draft stages. The vice president of educational services reviews the material and forwards the verified and completed final draft for publication for the next catalog year. Beginning with the 2008-2010 catalog, the college began using a two-year catalog format. Each college is responsible for the content and accuracy of their catalog and that information shared with the district for continuity and approval by the governing board.

With the cooperation of the district, the college produces a complete and updated catalog. Although the college makes every attempt to produce an accurate catalog, there are at times errors and omissions. The college will then provide an addendum as appropriate to correct or update those errors or omissions. Long-term, the college has implemented a Catalog Committee to oversee publication of future catalogs, which will increase accuracy and timely delivery.

While changes do occur with the catalog, there is a need to educate students and staff what those changes are and where they can be found, so that they all have the same information.

While some policies are available in Spanish, many policies, including the Student Handbook, are not. The college is identified as a Hispanic Serving Institution; therefore, the college needs to be more responsive to the language needs of the student population. (II.B.2)

Planning Agenda Items

- In the fall of 2011, the vice president of educational services will provide orientation and training to staff and students on catalog content and how to find changes. (II.B.2)
- In the fall of 2011, the vice president of student services will provide the handbook and other essential documents in Spanish. (II.B.2)

- *Names and*

Descriptive Summary

The WHCL catalog provides general information, graduation and transfer requirements, and institutional policies. The catalog is in hard copy, alternate formats, and available online. The college makes every effort possible to produce an informative and accurate catalog. Revisions, omissions, and new information are included in periodic addenda.

During the 2008-10 academic year, the college began using a two-year catalog format. An addendum was produced in 2009. A Catalog Committee has been formed to regularly review the accuracy of the college catalog, along with the web pages and other essential documents. The catalog is easily accessible online for prospective students, community members, and others. Programs of study, as outlined in the catalog, are based on the California Community College Chancellor's Office program inventory. Faculty are responsible for accurate course descriptions and programs of study. Local approval of all curriculum occurs at the Curriculum Committee Meetings, followed by approval by the WHCCD Board of Trustees.

The college catalog provides the college's official name, address, phone number, and website information. In addition, the college catalog contains the college mission statement, academic calendar, course program and degree offerings, student financial aid information, learning support services, names and degrees of faculty and administration, and current governing board members.

Degrees of Administrators and Faculty

- *Names of Governing Board Members*

Self Evaluation

General information contained in the catalog includes the College's official name, address, telephone numbers, web address, names and degrees of administrators and faculty, and mission statement. The catalog provides a listing of the courses, programs, and degree offerings. Programs of study, as outlined in the catalog, are based on the California Community College Chancellor's Office program inventory. Additionally, an academic calendar with program length is included. Academic freedom statement is included to advise students of this practice. Financial Aid and other resources are advertised in the catalog for students to utilize at their discretion. Learning resources and support services are referenced in the catalog, which is available online, and in alternative formats. Names of WHCCD Board of Trustees are included in the college catalog. The college catalog curriculum approval occurs locally at the Curriculum Committee Meetings, followed by approval by the WHCCD Board of Trustees. Programs of study, as outlined in the catalog, are based on the California Community College Chancellor's Office program inventory. The college catalog is produced in a reader friendly context and it meets this standard. (II.B.2 a)

II.B.2.b Requirements

- *Admissions*
- *Student Fees and Other Financial Obligations*
- *Degree, Certificates, Graduation, and Transfer*

Descriptive Summary

The WHCL catalog contains information on admission requirements, student fee information, and a listing of degrees, certificates, general education requirements, graduation requirements, and transfer information.

Self Evaluation

Any potential or current students can receive a hard copy of the catalog or access the catalog electronically. The WHCL catalog contains admission requirements, student fee information, and a listing of degrees, certificates, general education, graduation, and transfer information made available in various formats. Considerable effort is made to ensure the college catalog is a valuable resource for students, faculty, and staff. The college is making every effort to go green and encourage the online version.

West Hills College Lemoore meets this standard by clearly publicizing requirements of a college catalog. Additionally, students receive a Student Handbook with updated and vital information such as Administrative Procedure 5530 on Student Rights and Grievances and important academic dates for their consideration. (II.B.2.b)

Planning Agenda Items

Locations or

Descriptive Summary

publications where other policies may be found

In addition to having the current catalog on the college website, individuals are able to access previous catalogs, as well. Catalogs and other documents with policies can be located in the college library, administration building, and district offices and are available upon request.

Self Evaluation

While students have access in alternative formats to the catalogue, handbook, and other critical documents, it is unknown the extent to which students are aware of the various locations and formats they can access those documents. The district has recently subscribed to social media networks, such as FaceBook and Twitter, as a means of communicating vital information to students. These avenues, along with students' SharePoint portal, will be instrumental in communicating the location of essential documents to students. (II.B.2.d)

Planning Agenda Items

- None

II.B.3

The institution research shows and identifies the learning support needs of its student population and provides appropriate services and programs to address those needs.

Descriptive Summary

In 2008, the college developed its Educational Master Plan (EMP), which provides a reference point and framework for the future of the college. It includes a thorough data review of the recent past and present of the college's overall instructional and student services areas. While maintaining the integrity of the college's vision, mission, and strategic goals, the EMP draws a blueprint for implementing emerging educational objectives. More specifically, the EMP focuses on the service area, students, staff, and programs of the college. Matriculation rates from regional high schools provide a basis for enrollment projections. An analysis of economic trends in the area and a review of emerging labor market information promote the consideration of new programs. An examination of student services, instructional programs, disciplines, and student performance assesses current effectiveness and points the way for change.

The EMP brings together internal, external, quantitative, and qualitative data into key findings that inform and support planning. Unanticipated events, emerging issues in the region, and changing demographics in the service area demand that the EMP be treated as a living, fluid document that will guide decisions regarding the educational programs and services

provided by the college.

The college provides counseling and advising services via individual appointments, drop-in services, workshops, and guidance classes primarily by a staff of twelve full-time and eight adjunct counselors/advisors. Nearly 4,000 students were served through appointments, and over 2,000 students successfully completed guidance classes in 2009-2010. (2.38) Students used an exit survey to express satisfaction with the quality of counseling and advising services with a favorable rating of 87% in 2009. (2.40, 2.41)

Self Evaluation

Student Services staff continually examine student success indicators, discuss areas needing improvement and what strategies can be implemented to achieve desired results. In the spring of 2010, key initiatives and activities were identified and shared with staff through the 2010-11 Task List. This list was a culmination of the many discussions held throughout the year, with targeted tasks, persons responsible and timelines for completion. Staff have aggressively approached the initiatives and met with much success and accomplishment. In the September board meeting, the progress to date was shared with the Board of Trustees.

Some of the specific tasks and initiatives include:

- Facilitate the coordination of counseling services on the Naval Air Station Lemoore;
- Establish junior high connection;
- Coordinate an all-inclusive progress report for students and eliminate duplicated efforts;
- Facilitate outreach supply purchases to ensure they support the mission and are fiscally sound by creating an electronic “shopping cart” system;
- Launch an intervention called “Eagle Lunch and Learn” for students at risk of failing classes as identified by the faculty and initiated through the Early Alert system;
- Provide post-secondary opportunities for students with intellectual disabilities by developing course curriculum and applying for the federal grant called Transition Programs for Students with Intellectual Disabilities, which is in response to the Reauthorized Higher Education Act;
- Continue with the fall Eagle Outreach initiative for

II.B.3.a

The institution assures equitable access to all of its students by providing appropriate, comprehensive, and reliable services to

- special needs students applying to attend West Hills;
- Fully implement eSARS, which will allow students, regardless of location to schedule their own appointments;
- Ensure that by May 2011, all students with 29 units or less have an educational plan completed;
- Create an electronic student educational plan;
- Monitor essential information on high school contacts, including where they are in the application process, and offer “early registration” options for students who have completed their applications, placement, test and orientation;
- Re-design the outreach model to include essential individuals, called the “E-Team;”
- Explore electronic interventions for students in the areas of math and English;
- Work on redesigning the “Ask a Counselor” system so that the college maintains information on types of questions being answer so online counseling services can be coordinated;
- Work on developing a parent outreach project;
- Work on simplifying the outreach pamphlets to ensure that they communicate efficiently to all of our constituents the essential information about the college and programs offered;
- Work to expand the placement test schedule and options;
- Work to establish student ambassadors;
- Develop a first-year intervention experience for students;
- and develop intervention for students on academic probation. (II.B.3)

Planning Agenda Items

- None

Descriptive Summary

The college has participated in the 2007 and 2008 Community College Survey of Student Engagement (CCSSE) and conducts an annual exit survey for graduating students to assess overall performance. The CCSSE instrument provides five benchmarks that are highly correlated to student learning and success. The college performed well in all benchmarks and it significantly surpassed the benchmarks in the areas of active and collaborative learning and support for learners. Results from the survey are utilized to compare the college performance in delivering

students regardless of service location or delivery method.

services to students against similar colleges. Results from the CCSSE survey have become part of the college's performance and accountability system. (2.39, 2.42)

WHCL assures equal access for all students by offering an array of student service programs to all of its students, regardless of service location or delivery methods. The college offers multiple opportunities for students to reach staff and faculty for educational needs through the website, school hours of service, faculty office hours, and community outreach programs. Services available through the website include the student application, orientation, enrolling in classes, receiving counselor/advising assistance, checking on financial status, retrieving email, and financial aid status. Services at the front counter of the Administration/Student Services Building are available Monday through Thursday from 7:30 a.m. to 7 p.m. and Friday from 7:30 a.m. to 5 p.m. The front counter of the Administration/Student Services Building accepts walk-in traffic and phone requests for information.

Counselors and advisors attend community outreach events to disseminate information about the college and its programs. From October 2009 through May 2010, the college's advising staff attended more than 100 outreach activities and more than 80 on-campus events. The college offers an online orientation to reach students who are unable to come on campus and attend orientations. In addition, there is an online "Ask a Counselor" option for basic online counseling. (2.35)

Self Evaluation

WHCL assures equal access for all students by offering an array of student service programs to all of its students, regardless of service location or delivery methods. The college offers multiple opportunities for students to reach staff and faculty for educational needs through the website, school hours of service, faculty office hours, and community outreach programs. Services available through the website include the student application, orientation, enrolling in classes, receiving counselor/advising assistance, checking on financial status, retrieving email, and financial aid status. Services at the front counter of the Administration/Student Services Building are available Monday through Thursday from 7:30 a.m. to 7 p.m. and Friday from 7:30 a.m. to 5 p.m. The front counter of the Administration/Student Services Building accepts walk-in traffic and phone requests for information. Almost all student services

are available by phone, in-person, online, email, and available for students who are deaf and or hard of hearing through the TTY line or the UbiDuo portable device. One primary service the college is working on is an on-line degree audit service and electronic student education plans.

Comprehensive information is available on the college's web site. It has been brought to our attention that a few links or pages need de-activation or updates. The college web site is maintained by district personnel; a webmaster was hired in fall 2010 to work on the web site information.

Since spring 2010, WHCL has used SARS for more efficient scheduling of counseling appointments and tracking purposes. In fall 2010, eSARS was then implemented enabling students to check in for their counseling appointments. NASL staff has SARS capability, but eSARS is not available or needed due to the volume of scheduling. The ability to offer student services online has led to more equitable access to these resources at the college. For example, students can submit their application, complete an orientation online, and register online for classes. In addition, students with disabilities are able to access assistive technology, on the main campus in the Disabled Students Programs and Services lab, library and career center, as well as on site at Naval Air Station Lemoore. (II.B.3.a)

Planning Agenda Items

- By the fall of 2011, the district webmaster will have updated the college webpage with current information to ensure accuracy of all college information. (II.B.3.a)
- In the spring of 2011, the college will work with the district Registrar and the IT department to implement degree audit and electronic student educational plans. (II.B.3.a)

II.B.3.b

The institution provides an environment that encourages personal and civic responsibility, as well as intellectual, aesthetic, and

Descriptive Summary

WHCL provides an environment that encourages personal and civic responsibility, as well as intellectual, aesthetic, and personal development for all of its students, such as student clubs. Student clubs represent a wide variety of interests and needs. These clubs include Alpha Gamma Sigma for honor students, Students in Free Enterprise for entrepreneurs, and the Student Government Association, which is directly involved in the college's governance process by having its members sit on

personal development for all of its students.

college-wide committees.

In addition, the college provides a number of avenues for encouraging personal and civic responsibility and development of students through students clubs, activities, and targeted activities for specific student groups. For example, workshops were offered in the English Lab during the 2008-2009 school year to help students with specific needs such as how to use Microsoft Word and how to prepare for finals. The Career Center offers monthly events such as job interview workshops and utilizes the talents of community leaders. The student services staff, along with teaching faculty, is exploring structured service learning venues and student ambassador programs for the 2010-11 academic year.

WHCL's Student Government Association (SGA) has grown to become an active and vibrant student organization that is uniquely involved in many campus committees and activities. SGA is committed to increasing student participation in all aspects of the college community. The SGA leadership has been a catalyst for student use of technology on campus, as evidenced by the launching of electronic elections in spring 2010 and a student-run portal team site which contain essential information for student clubs. Through the student governance group and Student Services, the college has celebrated numerous cultural and ethnic celebrations such as: Women's History Month, African American Month, Hispanic Heritage Month, Disabilities Awareness Week, Constitution Day, 9-11 Remembrance Celebration, Veteran's Recognition Luncheon, Honor's Brunch, Athletic Awards Banquet, Student Athlete Orientation, Special Program Banquets, and Welcome Week/Spirit Day. All of these are designed to bring awareness and appreciation for the diversity of the campus.

Self Evaluation

Since 2006, there has been a gradual increase in student participation and activities on the campus. Student participation in the shared governance process has also increased. In the past, students would begin the academic year joining a club in the fall and participating in an activity or two, but by the end of the year, they were non-participatory. With continued support from faculty and staff encouraging students to become active and involved on the campus, there has been a significant increase in student participation in all aspects of the campus. Specifically, members of the Student Government, Students in Free

Enterprise, and the Alpha Gamma Sigma honor society have all increased their involvement and support. Beginning in 2009-10, the leadership of the Student Government has promoted and participated in the shared governance process on the campus on a regular basis throughout the year. This involvement has continued into the 2010-11 academic year wherein the leadership of the SGA has been instrumental in ensuring student participation in the shared governance committees and has been in attendance at campus events such as the President's Scholars Reception and student orientations. The increase in student participation in clubs is a welcomed change along with the faculty support; however, more student involvement is necessary to strengthen as a college. While some training has occurred with students on understanding the shared governance process and parliamentary procedures, this is an area that needs to be strengthened. In all, the student voice on the campus has been very active and the college has responded and been held accountable as evidence in the student Town Hall Matrix. This has created a platform for students for future growth.

Also, the president of the SGA has worked with the ITS department to create a SharePoint portal team site for students where electronic voting can take place, shared calendars exist and shared documents are housed. This is another example of student growth and development. Another example is the student leadership in the Welcome Week Activities. Prior to the 2010-11 academic year, Welcome Week Activities were largely arranged, facilitated and implemented through the student services administration. While student assistance was always present, students did not take the leadership role in these activities. In the fall 2010 semester, students assisted in planning, organizing and implementing three days of activities that included President's BBQ, Deans Donuts, Club Day and orientations during the day as well as the evening hours. Beginning in the 2009-10 academic year, students mobilized as a team to host fundraising activities such as the Haiti Relief efforts, "A Day Without Shoes," Black Heritage Month Activities, and Cinco de Mayo events. Students are planning in Spring 2011 Heritage Week campus wide activities. Faculty, staff, and students have discussed the many activities that students participate in, the work-experience program, and a desire to unite students in service learning. As a result, staff is investigating developing a comprehensive service learning program in the fall of 2011. (II.B.3.b)

II.B.3.c

The institution designs, maintains, and evaluates counseling and/or academic advising programs to support student development and success and prepares faculty and other personnel responsible for the advising function.

Planning Agenda Items

- In the spring of 2011, the Dean of Students will provide training for student club and government leaders on shared governance process and parliamentary procedures and implement campus wide activities to increase student participation. (II.B.3.b)
- In the spring of 2011, counseling faculty will develop and submit to curriculum committee, courses that will support service learning. (II.B.3.b)

Descriptive Summary

WHCL has developed a comprehensive counseling/advising program that includes academic, transfer, career, and personal counseling. Services are delivered via appointments, workshops, interdisciplinary/guidance studies courses, and presentations. Services are provided by counselors, advisors, and student services staff. Services are continuously evaluated through the program review process, assessment of student learning outcomes, student satisfaction surveys, and individual staff member evaluations. In addition, student services personnel regularly evaluate and access services to students through regularly scheduled planning meetings.

Students are expected to identify a specific educational goal during the term after which they complete 12 units. Once they have identified a specific goal, the student is expected to meet with a counselor or advisor to complete a Student Educational Plan (SEP). During the 2009-10 academic year, 1,120 students created educational plans. Beginning in the 2010-2011 academic year, counselors and advisors have set a goal to increase the number of SEPS by targeting priority registration students, athletes, categorical students, and first year students. The Scheduling and Reporting Systems (SARS) has enabled the college to capture accurate and current data that reflects the number of SEPs completed. (2.43, 2.44)

Beginning in spring 2007, the college offered an event called Xtreme Registration which was a service that contributed to student access. It was offered from 6p.m. until midnight on the Friday prior to the start of each semester. Xtreme Registration provided a one-stop shop approach for students to take advantage of all the services necessary for enrolling for the semester, including application assistance, new student orientation, assessment, and counseling and advising. As a

result of the reduction of the course schedule, this service has been suspended. However, as a result of a review of data on high school participation rates and college effectiveness data, the counseling and advising staff will be modifying this program to target high school students in spring 2011.

Orientation is available online and face-to-face during the first week of the semester. The online format is closed-captioned with continuous Spanish language translation. Orientation consists of all matriculation components necessary for successful transition to college.

There is strong coordination of services between categorical programs and general counseling services. The majority of categorical programs are housed in the same location as most of the matriculation services; this allows for increased communication, easy accessibility, and a strategic and efficient approach to services for students.

Counseling and advising training occurs regularly; the mechanism is the bi-monthly counseling and advising staff meetings. (2.45) Annual trainings for student services staff are provided by the matriculation coordinator via these counseling and advising meetings. Instructional faculty and in-house content specialists are invited to the counseling and advising meetings to provide information that is related to student success. The college cross-trains counselors and advisors so that there is a comprehensive understanding of all programs and less reliance on individuals.

Self Evaluation

Throughout the 2009-10 academic year, the student services staff continue to discuss and identify problems that needed to be addressed. For example, in the October 6, 2009, Student Services Matriculation meeting (SSM), staff engaged in a lengthy discussion regarding the role of the counselors and advisors and the responsibility of completing student educational plans as well as the impact on student success when a student has an educational plan. This conversation resulted in clarification that the counselors would complete the student educational plans and subsequently were supported by the advisers. However there was much discussion that we needed to have to insure that all students have a plans completed.

In the fall of 2009, the SARS program was launched. In the

December Student Services Matriculation meeting, the staff reviewed data regarding the number of students that they saw between October and November, 2009. Prior to implementing SARS, data regarding student appointments, types of appointments, times allocated, students who did not show, and other significant data was not available. With the implementation of SARS, staff was able to examine their activities and areas needing improvement. One such improvement implemented as a result of this data, was a clarification regarding uniform allocation of certain types of appointments. Specifically, one hour was allocated for financial aid appeals. Based on a review of the data regarding how staff were utilizing SARS, how they could expand the use of SARS and the need to ensure timely and accurate data entry, staff received training on those elements and an expanded color coding was used. The result has been a more accurate reflection of staff time and more current data in Datatel, which is the centralized warehouse for student data, some of which is uploaded from SARS.

Throughout the 2009-2010 academic year, a lot of information regarding issues and concerns were discussed and brought forward during the Student Services Matriculation meetings. One such conversation had to do with the walk-in procedures. In the 2009 school year and earlier, the week prior to school starting, the first week of school and the week after school started had a “walk-in” procedure wherein students came in at any time, signed in on a clipboard and waited, often times for hours, hoping to be seen by a counselor or advisor. What was observed was that many students would sit for hours in anticipation of hoping to get a 30 minute appointment with a counselor or advisor to register for classes. A discussion was held in the Student Services Matriculation meeting regarding how to streamline this process, how to become more students friendly, and how to improve service to students. It was decided that in spring 2010, students would be given an appointment that same day. Specifically, students are allowed to call or come in for an appointment on the day they came in or called. No appointments are made for the next day during this three week window. This new procedure allowed 100% of students with an appointment to be seen on that day. No longer did student have to wait indefinitely for an appointment. Students now can make an appointment in the morning for a time in the afternoon and have freedom to take care of other business during the day and arrive ten to fifteen minutes before their appointment time. (II.B.3.c)

II.B.3.d

The institution designs and maintains appropriate programs, practices, and services that support and enhance student understanding and appreciation of diversity

Planning Agenda Items

- None

Descriptive Summary

WHCL is committed to promoting diversity on campus and supports activities and events that build cultural awareness and empathy. The Student Equity Plan was updated in fall 2010.

The number of student clubs has increased from four in 2006 to nine in 2010. There is a need for additional marketing and recruitment to increase club membership and solicit opportunities for new student organizations. The Technology Committee has discussed a mechanism for marketing and promoting student organizations and clubs, including a process for monitoring and updating student organizations and club pages on the college website. The SGA launched a SGA MyWestHills portal team site. All students are team members to the site and able to view events, use electronic voting options, and find a list of active clubs. To strengthen student participation and understanding of governance, the SGA president will serve as the student trustee for the West Hills Community College District Board of Trustees. In addition, the college will develop and provide orientation, training, and professional development activities for faculty advisors of student organizations or clubs.

Classes are offered that promote cultural sensitivity and awareness such as Contemporary Native American, Cultural History of the Chicano, Introduction to Black Studies, and Women's Roles in History. In general, faculty incorporate cultural awareness via textbook selection, presentations, and student projects. In addition to these classes, students participate in Black History month, Hispanic Cultural Awareness month, Disability Awareness month, and Women's History month. In 2009, activities for Black History month included "Gospel and Gumbo," art exhibits, a guest speaker at the leadership breakfast, and other events. The college's honor society, Alpha Gamma Sigma, has helped to coordinate an Annual Leadership Conference in partnership with the college's Latina Leadership Network and Student Town Hall. The dean of student services oversees the development of the full-year cultural events calendar, created by input from the Inter-club Council on an annual basis. This allows for staff and student support,

coordination, and allocation of resources for these events. (2.46)

Self Evaluation

WHCL is committed to promoting diversity on campus and supports activities and events that build cultural awareness and empathy. The college is committed to providing the highest quality educational experience and services that promote and enhance student understanding and appreciation of diversity. In order to design and maintain appropriate programs, practices, and services that support and enhance student learning and understanding of diversity, the college Student Equity task group completed their plan addressing these issues in fall 2010.

Several key college and student-led groups have been instrumental in bringing cultural programming, activities, and raising cultural awareness on campus. These groups include CAMP, Student Support Services, SPLAAT art club, history classes, T.E.A.M. Teach, SIFE, and the Culinary Club. A series of speakers have presented on campus delivering a variety of messages ranging from politics (candidates forum, fall 2010), domestic violence and women's issues (Denise Brown, sister of Nicole Simpson), to noted authors like Gary Soto (fall 2008). Annual Disability Awareness activities showcase the diversity and support for students on the campus. This year was particularly noteworthy due to the displays in the DSP&S lab, including the display of two books published by a WHCL student with art work from another student. This venue will continue to be a trademark for WHCL, especially after 2011 with the completion of the new Event Center.

The College Strategic Plan 2009-2012 addresses diversity as a Guiding Principle but not in its Institutional Outcomes with regards to improving access and improving on appreciation of diversity on campus. In spring 2011, WHCL will sponsor a campus and community event addressing this. Heritage Week will attract and promote the richness of the valley by conducting cultural events on campus and inviting the public to attend.

Campus programs like EOPS, CARE, CalWORKs, and DSP&S continue to hold the belief that all special populations of students, regardless of their limitations due to economics, ability, and or barriers, are entitled to an education in order to break the cycle of poverty and disenfranchisement.

Classes that promote cultural sensitivity and awareness such as

Contemporary Native American, Cultural History of the Chicano, Introduction to Black Studies, and Women's Roles in History are active and printed in the college catalog. Because of statewide economic conditions, the above classes have been offered on a limited basis. In general, faculty incorporate cultural awareness via textbook selection, presentations, and student projects. In addition to these classes, students participate in Black History month, Hispanic Cultural Awareness month, Disability Awareness month, and Women's History month. In 2009, activities for Black History month included "Gospel and Gumbo," art exhibits, a guest speaker at the leadership breakfast, and other events. The dean of students services oversees the development of the full-year cultural events calendar, created by input from the Inter-Club Council on an annual basis. This allows for staff and student support, coordination, and allocation of resources for these events. (2.46) (II.B.3.d)

II.B.3.e

The institution regularly evaluates admissions and placement instruments and practices to validate their effectiveness while minimizing biases.

Descriptive Summary

WHCL consistently reviews admissions and placement instruments to validate their effectiveness. Admission applications are available in paper format and online. The online application is available in both English and Spanish; at any time a student can switch between languages by clicking a button. The online application is fast and convenient.

The current assessment instruments used by the district were implemented in spring 2005. The college ensures that the cultural and linguistic biases in the placement instruments are minimized by using assessment instruments that are sanctioned by the California Community College Chancellor's Office. English placement level scores were most recently validated in the spring of 2007 and math was last validated in fall of 2008. Assessment at the college is an organized institutional process that facilitates proper and well-informed course placement and selection.

Individuals with disabilities are provided with the resources necessary to complete the admissions application and the placement test, such as text-to-speech technology. In addition, students are able to receive these accommodations in the college's DSPP lab.

The Combined English Language Skills Assessment (CELSA) is used to determine English proficiency for non-native speakers.

The placement test is offered at multiple locations. Students are able to take the placement test on a walk-in basis in the Career Center and NASL or by appointment during the week and on Saturdays. Students get immediate results.

Self Evaluation

West Hills College Lemoore is an open enrollment institution. Students may submit their application to the college online via the West Hills College web site or in person at the college admissions office during traditional hours. Applications are also accepted by staff at NASL.

WHCL consistently reviews admissions and placement instruments to validate their effectiveness. Admission applications are available in paper format and online. The online application is available in both English and Spanish; at any time a student can switch between languages by clicking a button.

The current assessment instruments used by the district were implemented in spring 2005. The college ensures that the cultural and linguistic biases in the placement instruments are minimized by using assessment instruments that are sanctioned by the California Community College Chancellor's Office. English placement level scores were most recently validated in the spring of 2007 and math was last validated in fall of 2008. Currently (fall 2010) another validation study is being conducted with results expected by December 2010. Assessment at the college is an organized institutional process that facilitates proper and well-informed course placement and selection. Students' placement scores are based upon a combination of test scores and other data ensuring that multiple measures are included. The college uses English and math exams which are administered via computer; students may also elect to take a "paper and pencil" version upon request. The placement test is offered at multiple locations on campus throughout the year. During the 2010 spring semester, students were able to take the placement test on a "walk-in" basis at the Career Center. Placement testing is also available at NASL and on alternate Saturdays for all students on the main campus. Students get immediate results for admissions processing. The Ability to Benefit Test (ATB) is offered to students who do not have a high

school diploma or GED and are applying for Financial Aid. Individuals with disabilities are provided with the resources necessary to complete the admissions application and the placement test, such as text-to-speech technology. In addition, students are able to receive these accommodations in the college's DSPS lab.

Results from the current validation study are not complete and available for public use. Once those results are available, the college will make needed adjustments. The college plans to further develop the Career Center walk-in testing schedule to include expanded hours and additional equipment. Planning will begin in 2011 or upon better economic conditions.

What is also needed is to fully utilize the Combined English Language Skills Assessment (CELSA) for proper placement of students and ensure success. While the recent validations are still being examined, preliminary results indicate a disproportionate gap in identification and service for ESL students.

Also, assessment instruments can only be accessed electronically on the campus or paper-pencil on the campus or during high school outreach activities. Attention to support testing options for students during non-traditional hours and in alternative locations is necessary. (II.B.3.e)

Planning Agenda Items

- In the spring of 2011, the dean of students will identify and implement strategies to improve access and efficiency of placement testing, while ensuring the needs of ESL students are met. (II.B.3.e)

II.B.3.f

The institution maintains student records permanently, securely, and confidentially, with provision for secure backup of all files, regardless of the form in which

Descriptive Summary

WHCL is in accordance with the provisions of the Family Education Rights and Privacy Act of 1974. Students' records are kept in a hard copy and electronic format. Student consent is needed for the release of records covered by the Act to outside parties (e.g., prospective employers), except for those agencies entitled to access under the provisions of the Act (campus officials, other schools, federal educational and auditing officers, and requests in connection with the application or receipt of financial aid). To inspect, review, or challenge any of their records, students must make a request in writing to the vice

those files are maintained. The institution publishes and follows established policies for release of student records.

president of student services. Students can access their student records online through the secure MyWestHills portal login. Staff members are given appropriate training on electronic access of student's records and access is granted through the district Office of Institutional Effectiveness and Enrollment Management.

Self Evaluation

West Hills College Lemoore complies with the Family Educational Rights and Privacy Act of 1974 (Public Law 93-380) and Title 5 of the California Code of Regulations regarding the management of student records. Creation, maintenance, and storage of student records are kept securely, confidentially, and in close physical proximity to the program offices where they are generated, used, and stored. Student consent is needed for the release of the records covered by the Act to outside parties (e.g. prospective employers or military clearance) except for those agencies entitled to access under the provisions of the Act (campus officials, other schools, federal educational and auditing officers, and requests in connection with the application or receipt of financial aid). Hard copies are kept securely under locked cabinets. DSPS, EOP&S, Counseling, and Veterans Affairs also comply with mandated program requirements governing student records for those student cohorts. Improved scanning methods and optical imaging have been implemented to improve immediacy of access and help alleviate storage issues.

The district mainframe/database records are routinely backed up to maintain redundancy and security. Students can access their student records online through the secure MyWestHills portal login. Staff members are given appropriate training on electronic access of student's records and access is granted through the district Office of Institutional Effectiveness and Enrollment Management.

The college continues to work with the district office to ensure that student records are kept on a password protected programs and the information is released to the appropriate person with the proper form of consent. The college continues to improve its practices by developing a Records, Retention and Disposition Manual. The college meets this standard. (II.B.3.f)

II.B.4

The institution evaluates student support services to assure their adequacy in meeting identified student needs. Evaluation of these services provides evidence that they contribute to the achievement of student learning outcomes. The institution uses the results of these evaluations as the basis for improvement.

Planning Agenda Items

- None

Descriptive Summary

Student Services is scheduled to regularly review its programs in accordance with the program review schedule. As a result, all areas of Student Services are reviewed at least once during a four-year period. Program reviews are approved through the local governance process. For example, Upward Bound Classic and Upward Bound Math/Science programs completed separate program reviews in the fall of 2009. The program reviews went through the Institutional Effectiveness and Program Review Committee first for technical review. Later, the program reviews were given to the primary participatory governance committee, the Planning and Governance Council, for approval. The program reviews of the Upward Bound Classic and Upward Bound Math/Science programs were exemplary in that both have exceeded expectations in the number of students attending two-year and four-year institutions. (2.47, 2.48, 2.49)

In the fall of 2008, categorical program staff underwent an extensive evaluation of student services in preparation for a spring 2009 state California Community College Chancellor's Office categorical program site review visit. The result of the visit identified numerous accommodations and some minor recommendations. (2.36)

Students who petition to graduate are encouraged to complete an exit survey to assess the effectiveness of student services and instructional programs. (2.39) Students Town Hall meetings are also conducted each semester to gather input from students about the effectiveness of student services and instructional programs.

Self Evaluation

In 2009-2010 academic year, the college went through a reorganization. In that reorganization the position of vice president of student services was added to the administrative team. Throughout the 2009-10 year, the VP Student Services spent much time meeting with each staff member in student services to identify issues, concerns, and areas for improvement. At the first meeting with the counselors and advisers, following the reorganization, staff examined what is the mission of student services as it relates to the college mission. This discussion

resulted in the following mission statement for student services: “To provide comprehensive and coordinated services and activities that reflects the needs and diversity of the West Hills College Lemoore student and supports them in realizing their educational goals.” At this same meeting, a discussion regarding the role and function of counseling and advising was also discussed. Recognizing that the meeting was not about individual groups but rather what was necessary to assist student in being successful, the meeting’s name was changed to the Student Services Matriculation meeting (SSM).

At this same time, the vice president of student services launched a Student Services SharePoint portal team site. This team site was initiated in order to ensure every student services staff member, regardless of location, had access to information. The team site serves as a vehicle for communication, notices, and sharing of essential information. Before implementation, the geographic locations of some staff limited them getting the information in a timely manner. This portal team site allows everyone to have equal access to the same information. Information such as “on and off campus activities,” outreach events, registration and timeline procedures, and other critical information is archived and available immediately. In addition, the president, vice president of educational services, deans, and directors are also able to receive this needed information. Since October 2009, there have been 110 on and off campus events posted, 189 outreach actives posted, and 35 shared documents This information archive allows for analysis of services and activities provided though Student Services and serves as an opportunity for improvement. (II.B.4)

Planning Agenda Items

- None

**II.C
Library and
Learning
Support Services**

Library and other learning support services for students are sufficient to support the institution's instructional programs and intellectual, aesthetic, and cultural activities in whatever format and wherever they are offered. Such services include library services and collections, tutoring, learning centers, computer laboratories, and learning technology development and training. The institution provides access and training to students so that library and other learning support services may be used effectively and efficiently. The institution systematically assesses these services using student learning outcomes, faculty input, and other

The WHCL Library/Learning Resource Center's (L/LRC) resources are based on the development of a core collection of print volumes relevant to the curriculum offered. This core collection of print materials is fairly new, with the average publication date being 1996. Most new additions have publication dates between 2000 and 2006. Focusing on student learning, regardless of time and geographical boundaries, the core library collection of print materials is enhanced with state of the art subscription databases and electronic or e-books. The library is increasing its collection with a focus on the curriculum offered at WHCL and with faculty input into resources needed by students to complete assignments.

The L/LRC encompasses over 30,000 square feet. The library is staffed with 1 full-time librarian, 1 adjunct librarian, 1 full-time library specialist, 2 part-time library specialists, a part-time tutoring coordinator, and student worker hours funded by federal work study. Library operations are under the administration of the Associate Dean of Educational Services, the Educational Services office, and the librarian.

The primary mission of the WHCL L/LRC is the creation of a collection of intellectual value for the student, faculty, and community population we serve. The goal is to give the populations served a scholarly atmosphere with materials and knowledge necessary for them to become literate in information resources and retrieval for success in today's highly technological society. Consistent with the mission and the institutional outcomes of WHCL, the library staff strives to provide a positive environment committed to student learning and empowering students to achieve their educational goals.

The Library/Learning Resource Center offers exemplary access to programs and services. The L/LRC is open Monday-Thursday from 7:30 a.m. to 8 p.m. and Fridays from 7:30 a.m. to 4 p.m. Students enrolled at the Naval Air Station Lemoore, as well as students from the on-campus Middle College High School, University Charter School, and the community, have the same access as traditional students to library resources and databases.

The Library/Learning Resource Center offers the following

appropriate measures in order to improve the effectiveness of the services.

II.C.1.

The institution supports the quality of its instructional programs by providing library and other learning support services that are sufficient in quantity, currency, depth, and variety to facilitate educational offerings, regardless of location or means of delivery.

services: library collection and services, open computer lab, classrooms, wireless laptops, free newspapers, an English Lab, tutoring services, faculty offices, group study rooms, video conferencing room, media/AV support, distance learning offices, displays, and online databases.

The computer lab currently consists of 48 desktop computers that provide software and printing capabilities to support student research and course-related assignments. There are also 60 laptops available for check-out and student use. An assistive technology station is also available. (II.C)

Descriptive Summary

WHCL supports the quality of its instructional programs by providing Library/Learning Resource Center support services that are sufficient in quantity, currency, depth, and variety to facilitate educational offerings, regardless of location or means of delivery.

The Library/Learning Resource Center services are essential to student success at WHCL. The library collects, maintains, and provides access to print and electronic information that supports the academic programs at WHCL. The librarian offers assistance to students and faculty in person, via e-mail, by phone, or by appointment.

The librarian provides individual, hour-long course orientations about library resources to classes upon faculty request. Reference interviews are conducted by the library staff to assist students to ensure appropriate materials are provided. These interviews can be conducted in person, via e-mail, telephone, or instant messaging to reinforce information competency skills.

Support for the L/LRC is provided by personnel and infrastructure, as well as district, lottery, and grant funding. The average publication dates for the collection is in the late 1990s. The collection development policy for WHCL L/LRC clearly pursues breadth overall with depth to support our stronger academic programs. (2.50) Sciences and information technology are targeted for currency, while social science and humanities are targeted for breadth. Electronic databases, as well as the e-book collection grow when funding permits in relation to academic program needs in assisting students on and off campus in a 24-hour format.

The DSPS lab is also a learning resource and has 2 full time Learning Skills Program Assistants. The DSPS lab primarily serves the college's DSPS population but is available to all students. The DSPS lab provides a place for DSPS students to take proctored tests as required by their accommodations.

Self Evaluation

WHCL meets this standard by providing sufficient library and other learning resources to support the needs of students and staff. However, obtaining additional resources over the last three years have been extremely hampered by the lack of a stable funding source. The library general fund book budget has been at zero for three years with only small book purchases taking place with grant and lottery funds. The collection currently consists of approximately 28,000 volumes with the Association of College and Research Libraries (ACRL) recommending 40,000 volumes for a college with FTES less than 3,000.

Collection development, cataloging, circulation procedures, bibliographic records, and proper book stack management is limited due to current staffing levels. Expansion of the library staff is necessary for future growth.

Providing online resources is currently sufficient to meet the needs of distance education learners. However, additional staff would need to be hired to further develop electronic resources.
(II.C.1)

Planning Agenda Items

- None

Descriptive Summary

WHCL relies on the expertise of the faculty, library staff, and support services personnel in choosing educational equipment and materials. For example, the librarian asks faculty to recommend books and materials for the library that specifically support what they are teaching. Faculty expertise is used to increase the number of closed-captioned titles for the DVD collection. Faculty seek the expertise of the librarian in the use of data bases for assistance on research projects, specialized library tours, and other case-by-case needs for instruction. (2.50) The librarian has informal communication with staff and faculty on a regular basis and also has formal dialogue about

II.C.1.a
Relying on appropriate expertise of faculty, including librarians and other learning support services professionals, the institution selects and maintains educational equipment and

materials to support student learning and enhance the achievement of the mission of the institution.

library-related issues, including the selection of books, periodicals, electronic resources, and non-print materials.

In addition to the library print collection, databases are also available via the web page or by using the computers on campus. The librarian and library specialists maintain the e-library, e-resources, databases, web site, video collection, and CD collection. In order to access electronic resources, 68 stationary computers are available in the open access tutorial center and 60 laptops, equipped with wireless internet, are available for checkout and use in the L/LRC.

Because of the current budget crisis, the library has struggled to maintain its material collection, including the library management system (Sirsi/Dynix Symphony) and the subscription research databases. In previous years, the Telecommunications Technology Infrastructure Program (TTIP) funds were used to support these, but this allocation was deleted in 2009/2010. (2.53) Beginning the 10/11 budget year, funds were made available for the subscription research databases within the library budget. Stable funding for the Sirsi/Dynix Symphony library management system is still lacking and was paid for with lottery dollars in the 09/10 budget year. (2.51) The library staff at West Hills College Lemoore is dedicated and service-oriented. This is reflected in an ongoing survey where approximately 70% of respondents are very satisfied or satisfied with services and resources provided.

All course outlines have a “learning resource statement and collection survey,” which must be completed by the course originator. The purpose of the survey is to make sure library holdings are adequate to support the course and recommended materials are procured. An example of this is the American Sign Language I course. The course requires some specific resources, and the faculty member who originated the course included this information in the “learning resource and collection survey” (2.6). If the learning resource and collection survey indicates a deficiency, then the form is forwarded to the librarian. Because the WHCL L/LRC is building a core undergraduate collection, the librarian is able to focus directly on WHCL programs, as well as on building general education resources. This is accomplished formally by evaluating collection data in subject areas, researching course syllabi, and meeting with faculty to generate collection recommendations. An additional best practice is informal faculty input and student contact at the reference desk. Informal monitoring of student research

demands also gives library staff an indication of areas of the collection that may be deficient.

The sufficient quantity, currency, depth, and variety of materials added to the collection over the last three years have been extremely hampered by the lack of a stable funding source. The library general fund book budget has been at zero for three years with only small book purchases taking place as a result of grant and lottery funds. The collection currently consists of approximately 28,000 volumes with the Association of College and Research Libraries (ACRL) recommending 40,000 volumes for a college with FTES less than 3,000. Even with a reinstatement of the previous book budget from 2006-2007 (\$26,500 per year), it will take approximately twenty years to reach recommended levels. The quality of the original start-up collection in 2002 is also questionable, because it consisted of sub-standard materials that need to be weeded from the collection.

Collection development, cataloging, circulation procedures, and proper book stacks management is limited due to current staffing levels. The current lack of professional library staff has also had a detrimental effect on the bibliographic records of the collection. The original start-up collection in 2002 had poor quality bibliographic records; books with no records in the catalog are still found on a routine basis.

Providing resources in the online environment to meet the needs of distance learners is problematic with current staffing constraints.

Current library staffing consists of two part-time Library Specialists, one full-time Library Specialist, one part-time Tutor Coordinator, one full-time Librarian, and one adjunct Librarian. This is below half of the recommended staffing levels. (II.C.1.a)

Planning Agenda Items

- The college's librarian, during the college's budget planning and allocation process, will continue to request adequate funding to improve collection purchases, staffing increases, and additional hours of operation to meet the needs of the student population. (II.C.1.a)

II.C.1.b

The institution provides ongoing instruction for users of library and other learning support services so that students are able to develop skills in information competency.

Descriptive Summary

The WHCL Library/Learning Resource Center currently has a mission statement to provide students with scholarly resources and the instruction in their use:

The West Hills College Lemoore Library/Learning Resource Center is committed to the creation of a collection of intellectual value for the student, faculty, and community population we serve. It is the goal of the L/LRC to give the population served a scholarly atmosphere with the materials and knowledge necessary for them to become literate in information resources and retrieval for success in today's advanced technological society. Primarily the L/LRC will create an atmosphere of academic and intellectual pursuit for the staff, faculty, and students of West Hills College Lemoore. The secondary goal is the enrichment of the lives of the district population through cultural and social activities. In order to have an environment conducive to the pursuit of knowledge, access to the collection is open to all. Access to resources which allow for the examination of ideas is of the utmost importance while still maintaining the integrity of the collection.

Current information competency instruction is provided for students who take part in library orientations, but this is a small percentage of total students. The college does not currently specify that this sort of competency is required to obtain associate degrees at this institution, so there is no assurance that these competencies are being developed by all students. The curriculum committee has begun conversation regarding the possible addition of a section to all course outlines that addresses how information competency is addressed in each course. (2.52, 2.53)

Limited assistance for students with software application, printing, and other related problems are handled by the librarian, library staff, and student workers. There is limited support for the immediate resolution of student software issues (e.g., how to merge an Excel document) as they occur in the open setting of the L/LRC. The district Information Technology Support Department is responsible for the purchase, installation, and upgrade of software and hardware campus-wide; it is not for resolving operator-related problems.

Students using the library computers have been accessing non-academic and social networking sites for personal use. There is currently no monitoring software to ensure resources are being solely used for academic purposes.

Students are given a brief library orientation when they receive their identification cards from library staff. In addition, the librarian provides individualized, hour-long library orientations to classes upon faculty members' requests. The library gives an average of fifteen orientations per semester, reaching approximately 600 students per academic year. (2.54) The librarian also provides responses to students' research questions via instant messaging.

Self Evaluation

The current method of information competency provides instruction to too few students illustrated by the fact that fewer than five percent of courses offered in the 2009-2010 year received an hour-long library orientation.

One-on-one training is available in the DSPS lab from the Learning Skills Program Assistants and the High Technology Access Specialist. Also, Blackboard trainings and Assistive Technology trainings are held in the DSPS lab by qualified staff. Attendance for these trainings has been poor. (II.C.1.b)

Planning Agenda Items

- The librarian will work with the Academic Senate and Curriculum Committee to develop an across-the-curriculum information competency program no later than 2012. (II.C.1.b)
- The librarian will develop online tutorials to assist distance learners with information competency concepts no later than the end of 2011. (II.C.1.b)
- DSPS program staff will meet and discuss methods for increasing attendance to student training sessions in 2011. (II.C.1.b)

II.C.1.c

The institution provides students and personnel

Descriptive Summary

WHCL provides exemplary learning resource access to programs and services. The L/LRC is open Monday-Thursday 7:30 a.m.

responsible for student learning programs and services adequate access to the library and other learning support services, regardless of the location or means of delivery.

to 8 p.m. and Fridays from 7:30 a.m. to 4 p.m. Students enrolled at the Naval Air Station Lemoore have the same access as traditional students in terms of visiting the library and accessing its online databases. WHCL Library/Learning Resource Center is available and highly utilized by the University Charter School and the Middle College High School programs that are located on the college campus. In addition, the L/LRC is utilized by the community at large.

The services offered by the L/LRC include the following: library collection and services, open computer lab, classrooms, wireless laptops, free newspapers, English Lab, tutoring services, faculty offices, group study rooms, video conferencing room, media/AV support, distance learning offices, displays, and online databases. The computer lab currently consists of 48 desktop computers that provide software and printing capabilities to support student research and course-related assignments. There are also 60 wireless laptops. There is assistive technology available in the English Lab. The assistive technology includes Kurzweil, Read and Write Gold, Dragon, Zoomtext, and Dolphin Easy Reader. The library page on the college website includes a catalog of library materials for check-out (books, DVD's, etc.). It also includes tutorials for databases, inter-library loan information, general L/LRC information, electronic research databases, citation information, and instant messaging for reference questions.

The front door to the library is equipped with a patron counter that tracks the number of visits each day. During the spring 2010 semester, for example, the L/LRC had an average 1,223 visiting patron count compared to 991 during the fall of 2008.

Tutoring services provide three hours per week of peer tutoring or group tutoring depending on the subject. The evaluation process for the program comes directly from student and tutor feedback. This feedback comes in many forms, including evaluation forms which are requested once per semester. This provides valuable short and long-term information on the effectiveness of the program. Ten to fifteen tutors work with as many as 190 students each semester. (2.55) All tutors are required to attend general training and regular workshops to develop their tutoring skills. Students seeking tutoring must be referred by a faculty member or counselor. WHCL has also implemented an Early Alert System whereby faculty identify students in need of tutoring support. When faculty identify an individual who need additional support, they link to the Early

Alert referral form located on the college's website and input student information, such as excessive absences, failing grades, or personal issues affecting success in the classroom. This information is forwarded to the Early Alert counselor who follows up with the student. As a result, the counselor many recommend tutoring services as well as other services, including DSPS and outside referrals. (2.56)

The L/LRC has a collection of eBooks through Netlibrary that is directly accessible on campus and off-campus through the MyWestHills portal. In addition to the college's library resources, there is a memorandum of understanding with CSU Fresno for inter-library loans.

Self Evaluation

Tutoring is currently limited for students in online courses.

Due to increasing use of the DSPS lab, it was moved in the Summer of 2009 to a larger room. This allowed the number of workstations to be increased from 23 to 30, and more room is available for test proctoring. (II.C.1.c)

Planning Agenda Items

- The tutor coordinator, librarian, and associate dean of educational services will create a method of resolving the deficiency of online tutoring by 2012. (II.C.1.c)

II.C.1.d

The institution provides effective maintenance and security for its library and other learning support services.

Descriptive Summary

The WHCL L/LRC has adequate maintenance and security. Maintenance and security of the WHCL L/LRC is provided by the district Information Technology Support department and by the college's Maintenance & Operations staff.

The building is secured with key card security for external doors that allows access only to authorized personnel during set time periods. Lost cards can be deactivated immediately. Timers automatically lock and unlock doors. There are traditional keyed locks for classrooms and offices.

An electric gate drops to secure the technical processing area where laptops are housed in secured cases. The section of the library where the faculty offices and book stacks are located was designed to be made inaccessible by dropping a gate. These

gates can only be lowered by L/LRC staff or Maintenance and Operations staff. Faculty offices are still accessible through an alternate key-locked door when the gate is down.

Magnetic tags on laptops, books, and DVDs trigger an alarm on the 3M Security System that all students must pass through when entering or exiting the building. If properly checked out, these items are deactivated and do not set off the alarm. Identification cards generated by WHCL act as library cards and are collaterally held while laptops are checked out.

Minor book-binding is done by a library specialist; more involved binding is sent to a bindery.

Maintenance of the technology hardware, software, and infrastructure is handled by the district Information Technology Systems (ITS) Department. Library staff works directly with ITS to solve problems with the circulating laptops and desktop computers. ITS has an easy-to-use online request system for maintenance of technology. An outside vendor is contracted for maintenance of the copy machines. Integrated library circulation management system, Sirsi/Dynix Symphony, is maintained via a service contract.

Security at night (5 p.m.-1 a.m.) is provided by a security guard who helps close the library and patrols throughout the night around the campus. M&O staff and administration is available on call to address disruptive behavior in the library. All phones dial 911 directly.

Self Evaluation

The college meets this standard. (II.C.1.d)

Planning Agenda Items

- None

Descriptive Summary

WHCL subscribes to recommended and evaluated research databases through the Community College League of California. Usage statistics for these databases are provided by the Council of Chief Librarians-California Community Colleges. Library staff evaluates these statistics when making development decisions. The librarian and staff can monitor the statistics

II.C.1.e

When the institution relies on or collaborates with other institutions or other sources for library and other

learning support services for its instructional programs, its documents that formal agreements exist and that such resources and services are adequate for the institution's intended purposes, are easily accessible, and utilized. The performance of the services is evaluated on a regular basis. The institution takes responsibility for and assures the reliability of all services provided either directly or through contractual arrangement.

II.C.2

The institution evaluates library and other learning support services to assure their adequacy in

relevant to WHCL students and instructors. Some database subscriptions include CQ Researcher, CountryWatch, EBooks (WHCL eContent collection), EBSCOHost, Gale Virtual Reference, and SIRS Knowledge Source. These tools for online and face-to-face student research provide reliable scholarly resources that would otherwise be unavailable.

The Library/Learning Resource Center carries numerous subscriptions to research databases for on and off campus use. Monitoring statistical analysis of the use of these contracts can be performed by library staff and evaluations/recommendations are made more globally through the Community College League of California. The effectiveness of these programs was taken into consideration, allowing the library staff to make more informed decisions about electronic collection development. Library computers and the library website provide access to contracted partners. The librarian is a volunteer on the CCLEAR eBook selection subcommittee. WHCL has collaborated with the on campus University Charter School to house the print collection for seventh and eighth grade students. InterLibrary Loan (ILL) services are established with the college district, which extends to UCLA, CSU Fresno, and Fresno Pacific University. ILL helps the college avoid wasteful spending and increases support of collective resources. The Netlibrary makes offline access to digital resources (and organizing print media loans) easy. A procedure is in place so that whenever an identification card is created, the student being issued the card is orientated on the use of library subscriptions. Software licensing and memorandums of agreement are kept with the district's Business Office and ITS.

Self Evaluation

The college meets this standard. (II.C.1.e)

Planning Agenda Items

- None

Descriptive Summary

WHCL library staff adheres to collection management principles that ensure resources relevant to the curriculum are acquired and made available to the community served. This is accomplished by weighing available resources against course syllabi to evaluate relevancy and to highlight areas of needed resource

meeting identified student needs. Evaluation of the services provides evidence that they contribute to the achievement of student learning outcomes. The institution uses the results of these evaluations as the basis of improvement.

acquisition. Items added to the collection are selected based on reviews, publications, peer suggestions, faculty and student requests, and other criteria deemed significant by the library staff headed by the librarian. In addition, statistics are gathered on patron visits, circulation of materials, number of reference questions asked, number of library orientations given, and database usage. (2.57)

Librarian and faculty dialogue is an important part of collection management with student assignments being a key component in the development of a strong undergraduate library collection. Student and staff interaction at the reference desk and suggestions received during classroom orientations also give library staff an informal gauge as to the state of services provided. In addition, library resources are evaluated when new curriculum is developed or reviewed. For example, as the nursing program was being developed there was close collaboration with the faculty and administrators to assure adequate resources. The process involved working with a medical librarian from a Fresno hospital to gain expert advice; ongoing evaluation is necessary to meet nursing program accreditation standards.

New collection/circulation management software allows library staff to quickly and accurately track collection usage. Subscription database use is monitored via the Community College Library Consortium with new or alternative databases being evaluated on a regular basis for possible acquisition. Library website “hits” are tracked by the vice chancellor of institutional effectiveness and enrollment management. Computer lab and circulation laptop usage is also tracked. Resources seeing the most activity is a guiding factor in future resource allocation decisions.

The tutorial program at WHCL is accredited every five years through the College Reading and Learning Association. A series of tutor/client surveys given on a regular basis also allow for ongoing self-evaluation of the ability of this program to meet the needs of students.

There is one part-time tutor coordinator who develops, implements, and supervises the tutoring program. The Tutor Coordinator hires tutors, maintains schedules, and places students with tutors based on the needs of the student. The coordinator serves as a liaison between tutor and student.

Tutoring services are provided in the Library/Learning Resource Center. There is an increasing need for tutors each semester, and the tutoring program typically expends all of its funds each year; in such cases, funds are transferred to the tutoring program from other college resources. The tutorial program is informally assessed each semester by tutors and clients.

Self Evaluation

The college meets this standard. However, the college may need to increase the current tutoring coordinator position to full-time from the current 19 hours per week. This move would improve on outreach services to students and to assist with the overall increasing demand of the program. (II.C.2)

Standard III – Resources: A Thematic Overview

Dialogue

Dialogue is evident in the area of human resources through the college's activities, which foster campus-wide input into professional development and teaching needs. Flex and Duty days are designed to meet learning requests from faculty, staff, and the administration. Staff development committees and monthly training ensure professional development. Representative budget committees pass human resource recommendations, in regards to staffing needs, to the Planning and Governance Council for action via the Academic Senate. Physical resources are assessed by various discipline area staff who communicate with area administrators or directors for planning and implementation. Technological resources are addressed campus-wide by individual areas' program reviews. Dialogue, in regards to financial resources, is represented in the college's budget development process and annual program reviews. Annual financial reports and audits are also disseminated throughout the college for observation and comment.

Institutional Commitments

Institutional commitments are evident in the college's physical facilities, which illustrate a commitment to ensuring access, safety, security, and a healthy environment for the students and staff at WHCL. There are emergency plans in place, and the college is in compliance with the Americans with Disabilities Act. The college also provides support in its commitment to learning by providing classified staff to guide students in the use of the available resources. These positions include a district high technology access specialist to teach the use of assistive technology and a help-desk coordinator to aid in online classes and registration

Evaluation, Planning, and Improvements

Evaluation, planning, and improvement are evident in the planning process that allows for input from all levels of faculty, staff, administrators, and students. Where there is need for constant improvement to maintain current technologies, the Academic Technology and Training staff within Educational Planning provides support and training. Flex and Duty days are also designed to meet the improvement needs recommended by faculty and staff. Program review is the main planning and evaluation tool available to the various departments and educational support areas. Program reviews are evaluated by the Planning and Governance Council for approval.

Organization

Organization is monitored by the Planning and Governance Council, which is informed by various other representative sub-committees. Student learning is supported by realistic short and long-range financial priorities developed by Area Budget Committees. The long-term financial and contractual agreements and external audits are handled at the district level. Auxiliary services and grants are organized and maintained by the district

vice chancellor of business and human resources and the grants accounting supervisor. The WHCCD Foundation is the primary fund-raising body with its own set of bylaws and guiding principles.

Standard III.

Resources

The institution effectively uses its human, physical, technology, and financial resources to achieve its broad educational purposes, including stated student learning outcomes, and to improve institutional effectiveness.

West Hills College Lemoore prides itself on being an institution that effectively utilizes human, physical, technological, and financial resources to achieve its broad educational purposes, including stated student learning outcomes, and to improve institutional effectiveness. Working as a cohesive team, the campus and district office administration, faculty, staff, and students utilize formal and informal mechanisms to improve institutional effectiveness in order to ensure student learning outcomes are met and the college mission is fulfilled.

West Hills College Lemoore, as an institution within the West Hills Community College District, utilizes adopted district-approved human resource policies and procedures in the hiring of all faculty, classified staff, and administrators. In accordance with state mandated regulations, all faculty must meet minimum qualifications or possess the necessary education and experience, which is verified through the equivalency process by the Academic Senate. Faculty members lead the student learning outcomes (SLO) and assessment process and view SLO assessment as an important component of their professional responsibilities. The college, in conjunction with the district, seeks to adhere to fair employment procedures and seeks diversity in its faculty and staff. A professional code of ethics exists and is followed. Further, there is a systematic process for the evaluation of faculty and staff, including those employed on a part-time basis.

III.A Human Resources

The institution employs qualified personnel to support student learning programs and services wherever offered and by whatever means delivered, and to improve institutional effectiveness. Personnel are treated

WHCL assures the integrity and quality of its programs and services by employing personnel who are qualified by appropriate education, training, and experience to provide and support these programs and services. The college hires faculty that meet or exceed minimum requirements as determined by the California Community College Board of Governors. Interview committees are used when it is necessary to hire new or replacement faculty. These committees consist of two or more full-time faculty members, as determined by the Academic Senate; an instructional administrator; and an equal employment representative appointed by human resources. Interview committees are used when hiring all staff. Classified staff and administrators meet or exceed the minimum qualifications as stated in the job descriptions.

WHCCD Board Policy 316, Complaint Policy, was developed and approved by the Board of Trustees to provide a proactive, reasonable, and effective means of resolving conflict pertaining to certificated staff. (3.1) In addition, the district aggressively

equitably, are evaluated regularly and systematically, and are provided opportunities for professional development. Consistent with its mission, the institution demonstrates its commitment to the significant educational role played by persons of diverse backgrounds by making positive efforts to encourage such diversity. Human resources planning is integrated with institutional planning.

III.A.1

The institution ensures the integrity and quality of its programs and services by employing personnel who are qualified by appropriate education, training, and experience to provide and support these

practices Equal Employment Opportunities. The district's commitment to upholding this practice is evidenced in the required participation of an Equal Employment representative on every interview committee. (III.A)

Descriptive Summary

WHCCD Board Policy 7120 on recruitment and selection and Administrative Procedure 7120 on recruitment and hiring are posted on the district website and are housed at the district office of human resources and office of the district chancellor. The college hires faculty, staff, and administrators that meet or exceed the minimum requirements as determined by the California Community College Board of Governors based on education, training, and experience. (3.2, 3.3)

The initial screening of applications is completed by human resources to ensure minimum qualifications are met. In the case of a faculty applicant that has not met the minimum qualifications, the application is sent to the college's Equivalency Committee for evaluation; the Equivalency Committee relies primarily on the

programs and services.

Academic Senate for its membership and can be dynamic based on the discipline being evaluated.

Qualified applications are forwarded to an interview committee for consideration of an interview. The interview committee conducts a paper screening to determine how many applicants will be considered for an interview. Following initial interviews by the committee, the top candidates are documented to advance to the next level of interviews, which may include the department manager, for non-faculty positions, and the college president. The president makes the final determination of the successful candidate to be recommended to the district chancellor and the WHCCD Board of Trustees.

Self Evaluation

Through Board Policy 7120 and Administrative Procedure 7120, the district follows a well-defined process for recruiting, screening, and hiring all categories of personnel. In making personnel decisions, the mission of the college is always considered, and employees are selected based on the degree they exhibit the qualities to be productive in the college community. This process ensures the integrity and quality of the college's programs. (III.A.1)

Planning Agenda Items

- None

III.A.1.a
Criteria, qualifications, and procedures for selection of personnel are clearly and publicly stated. Job descriptions are directly related to institutional mission and goals and accurately reflect position duties, responsibilities, and authority.

Descriptive Summary

Criteria, qualifications, and procedures for selection of personnel are clearly and publicly stated. Job descriptions are directly related to institutional mission and goals and accurately reflect position duties, responsibilities, and authority. Board Policy 7120 and Administrative Procedure 7120 on recruitment and hiring are posted on the district website and are housed at the district Office of Human Resources and the office of the district chancellor. (3.2, 3.3)

WHCL hires faculty, staff, and administrators that meet or exceed minimum requirements as determined by the California Community College Board of Governors based on education, training, and experience. In addition, the college ensures the integrity and quality of its programs and services by employing personnel who are qualified by appropriate education, training, and experience to provide and support these programs and services. All applications and forms are available on the district website and by mail, upon

Criteria for selection of faculty include knowledge of the subject matter or service to be performed (as determined by individuals with discipline expertise), effective teaching, scholarly activities, and potential to contribute to the mission of the institution. Institutional faculty play a significant role in selection of new faculty. Degrees held by faculty and administrators are from institutions accredited by recognized U.S. accrediting agencies. Degrees from non-U.S. institutions are recognized only after equivalence has been established.

request, through the district Office of Human Resources. (3.4, 3.5)

Interview committees for faculty consist of two or more full-time faculty members as determined by the college's Academic Senate, an instructional administrator, and an equal employment representative appointed by human resources. During the interview, each candidate is given the same interview questions. Each committee member is given the same rubric to evaluate responses. The committee documents the preferred candidates and advances these names to the college president for the next level of interviews. The president makes the final determination of the successful candidate to be presented to the district chancellor. The chancellor then approves the final recommendation and presents that individual to the WHCCD Board of Trustees. (3.6, 3.7)

The WHCCD Board of Trustees takes careful deliberation to approve, upon the recommendation of the district chancellor, all personnel transactions, which includes hiring, termination, reclassification, salary advancement, and assignment. Board Policy 320, Minimum Qualifications, outlines the minimum qualifications for instructors of credit courses, counselors, and librarians. This practice is strictly adhered to in the recruitment and selection phase. (3.8)

Board Policy 321, Equivalency, delineates the processes to ensure each faculty member maintains the necessary skills in order to teach in their respective areas. As stated in Board Policy 321, it is the policy of WHCCD that faculty hiring procedures and guidelines be established to provide for college faculty who are experts in their subject areas, skilled in teaching and serving the needs of a varied student postulations, able to foster overall college effectiveness, and represent the racial and cultural diversity of the college population. (3.9)

Self Evaluation

The district has a strong policy and procedure in place to ensure that only the most qualified administrator, faculty, and staff members are hired. In addition, there is a thoughtful and deliberate process used in the evaluation of employees. The strength the college and the district is the written and established levels and criteria for competency. There are also written policies for the hiring and interviewing of employees. Each new employee is required to participate in the new employee orientation provided by the Human Resources Office. (III.A.1.a)

III.A.1.b

The institution assures the effectiveness of its human resources by evaluating all personal systematically and at stated intervals. The institution establishes written criteria for evaluating all personnel, including performance of assigned duties and participation in institutional responsibilities and other activities appropriate to their expertise. Evaluation processes seek to assess effectiveness of personnel and encourage improvement. Actions taken following evaluations are formal, timely, and documented.

Planning Agenda Items

- None

Descriptive Summary

WHCCD ensures the effectiveness of its Human Resources by evaluating its personnel systematically and at regular intervals. The type of evaluations varies for administrators, classified management, tenured full-time faculty, non-tenured full-time faculty, part-time faculty, and classified staff. Faculty members are evaluated according to the procedures outlined in Article 4 of the Collective Bargaining Agreement between the district and West Hills College Faculty Association. Classified employees are evaluated according to Article 14 in the CSEA Collective Bargaining Agreement. (3.10, 3.11)

The evaluation process for confidential and classified management employees as well as administrators is established in Board Policy 214. The process begins with a written self-assessment for the previous year and the establishment of written goals for the upcoming year. In the fall of 2009, administrators and the classified management team received training on the “7 Habits of Highly Effective People” from the Franklin Covey Institute. Early in the spring 2010 semester, the confidential and classified management employees received additional training on the “7 Habits of Highly Effective People,” as well as the 360-Degree Evaluation instrument and process. The 360-Degree Evaluation instrument is a tool that assesses leaders, supervisors, colleagues, and subordinates perceptions of a manager’s leadership and management skills. This has been an additional evaluation tool for the management team.

To complete the survey, each manager identified a list of individuals from across the district that they would like to have complete an evaluation of them using the 360-Degree Evaluation tool. The list included the employee’s supervisor, other managers on their campus, individuals from the sister campus, district office, and subordinates. This list of names was given to the manager’s supervisors, who then selected seven individuals from the list submitted to complete the 360-Degree Evaluation. This process helped to ensure that the manager being evaluated was not able to identify who gave what score. From those names submitted, each individual was provided a confidential, electronic copy of the 360-Degree Evaluation tool to complete. Later, the leadership team convened to review the results of their personal 360-Degree Evaluations.

Through this comprehensive training from the Franklin Covey team, each administrator was able to gain a reflective and introspective review of their leadership skills as perceived by themselves, their subordinates, colleagues, and supervisors. Each team member was given time to analyze the results and create an action plan that reflected the feedback they had received and was aligned to the district goals. Later in the year, each administrator created personal and professional goals that were submitted to his or her supervisor. The supervisor completed a written evaluation of the administrator's performance and discussed it with the administrator. This evaluation, along with the personal and professional goals using the Franklin Covey model, was forwarded to the president and chancellor for review. Once the supervising administrator, the president, and the chancellor signed the document, the materials were filed in the administrator's personnel file in Human Resources. (3.12, 3.13)

In addition to the 360-Degree Evaluation, part of the traditional evaluation requires that the supervisor submit a written evaluation of the subordinate's performance and discusses it with the subordinate before sending the materials to the president and district chancellor for review. Once the supervising administrator, the president, and the chancellor have signed the document, the materials are filed in the administrator's personnel file in Human Resources.

Faculty members are evaluated according to the procedures outlined in Article 4 of the Collective Bargaining Agreement between the district and the West Hills College Faculty Association. The Vice President of Educational Services provides each administrator with an evaluation schedule for each full-time faculty member. Periodically throughout the year, both the President and the Vice President of Educational Services follow-up with administrators to ensure that full-time faculty are being evaluated on a regular schedule. The instructional administrator summarizes the results of the process and discusses the narrative with the faculty member. (3.14)

Administrators use the part-time faculty evaluation instrument to assess part-time faculty performance. Part-time faculty are evaluated by students each semester and by the area administrator during the first year of employment and every three years thereafter. Full-time faculty are sometimes utilized during the classroom observation aspect of the adjunct instructor evaluation. (3.15)

The evaluation procedure for classified employees is described in

the Collective Bargaining Agreement between the district and the California School Employees Association. The supervisor evaluates the classified employees under his/her supervision three times the first year (fourth month, eighth month, and twelfth month), and yearly thereafter. The evaluation form is completed and discussed with the employee before being placed in their personnel file in the human resources office. (3.16, 3.10))

Self Evaluation

The processes for evaluating personnel (full-time and adjunct faculty, staff, managers, and administrators) are well-established, detailed, and comprehensive. The established procedure follows contractual, Board Policies and procedures. The established criteria, timelines, and procedures are determined by the collective bargaining agreement. (III.A.1.b)

Planning Agenda Items

- None

III.A.1.c

Faculty and others directly responsible for student progress toward achieving stated student learning outcomes have, as a component of their evaluation, effectiveness in producing those learning outcomes.

Descriptive Summary

All employees of the college, full-time or part-time, administration, faculty, or classified, are responsible for student learning outcomes in some capacity. It is the responsibility of the administration to provide the opportunity and environment for faculty and staff to develop, assesses, analyze, and re-evaluate student learning outcomes. In this fashion, the college is best able to allow students achieve their educational goals and for the college to fulfill its mission.

The development of course and program SLOs is an aspect of full time faculty evaluations, most frequently included in the narrative summary. As a result of a faculty based concern that faculty would be evaluated on the achievement by students of course level SLOs, a Hold Harmless Policy was negotiated between the collective bargaining unit and district. (3.17) Not all disciplines have full-time faculty to assess SLOs, and part-time faculty participation in SLO assessment is inconsistent.

Self Evaluation

While faculty are regularly evaluated for producing course and program level SLOs, the remainder of the college employees are not consistently evaluated on SLOs in any capacity. Administrators,

managers, and classified staff should be held to the same expectation as the faculty in regards to developing SLOs; further, administrators should be held accountable for SLO development by the individuals they manage. (III.A.1.c)

Planning Agenda Items

- The college will strengthen the participation of part-time faculty in the assessment of SLOs led by the associate dean of educational services. (III.A.1.c)
- The district will develop a procedure in the faculty evaluation that includes the assessment of SLOs that will be consistent throughout the district. (III.A.1.c)
- Led by the college president, WHCL will begin to evaluate all administrators, managers, and classified staff on the development of SLOs by fall 2011. (III.A.1.c)

III.A.1.d.

The institution upholds a written code of professional ethics for all of its personnel.

Descriptive Summary

The district is currently developing a policy for code of ethics for all employees that should be finalized by 2011. The ethics of college employees is governed by Board bylaws, Article 7, “conflict of interest code.” Further Board policies apply to certificated staff and classified staff. The vice chancellor of business and human resources monitors and administers these appropriate Board policies as they apply to professional ethics. These Board policies are available for reviewing upon request. (3.18)

Self Evaluation

The district is in the process of developing a code of ethics policy for all employees. The policy will be in place in 2011. (III.A.1.d)

Planning Agenda Items

- A code of ethics policy will be developed by the Board of Trustees for all employees in the spring of 2011. (III.A.1.d)

III.A.2

The institution maintains a sufficient number of qualified faculty with full-time responsibility to

Descriptive Summary

WHCL assures the integrity and quality of its programs and services by employing personnel who are qualified by appropriate education, training, and experience to provide and support these programs and services. Job descriptions are directly related to institutional mission and goals and accurately reflect position duties, responsibilities, and authority. Criteria, qualifications, and procedures for selection of

the institution. The institution has a sufficient number of staff and administrators with appropriate preparation and experience to provide the administrative services necessary to support the institution's mission and its purposes

III.A.3

The institution systematically develops personnel policies and procedures that are available for information and review. Such policies and procedures are equitably and consistently administered.

personnel are clearly defined and publicly stated. (3.19)

The college assures the effectiveness of its human resources by evaluating all personnel systematically and at stated intervals. There are sufficient administrators as well as certificated and classified staff to perform the duties necessary for the college. However, these last few fiscal years have limited the college's ability to replace unfilled positions. The vice chancellor of business and human resources annually reports to the state the district's fulltime obligation number; the district has always exceeded the required full-time faculty obligation number. (3.20, 3.21)

Self Evaluation

The district continues to exceed the required full-time faculty obligation. (III.A.2)

Planning Agenda Items

- None

Descriptive Summary

The WHCCD Board of Trustees has the ultimate responsibility for developing and establishing written policies and procedures that are equitable and consistently administered for employment procedures. The college has input through the Planning and Governance Council and through the Academic Senate. The approved Board policies and procedures are in accordance with the California Education Code and other applicable laws. The policies and procedures are kept in the district Human Resource Office and are available to view on the district website. (3.22)

All members of interview committees are given guidelines regarding their roles on the committee. Each committee includes an equal employment representative who has received special training on equal employment practices. This training has not been provided on a regular basis; however, all EEOs that serve on committees have received the proper training. (3.23, 3.24, 3.25)

Self Evaluation

All policies are available to the public on the district website under Human Resources and Board Policies and Procedures. The college has input through the Planning and Governance Council and the Academic Senate. All policies and procedures are in accordance

with the California Education Code and other applicable laws. Roles of members on interview committees are clearly defined. Training is available on demand for individuals serving as the EEO. (III.A.3)

Planning Agenda Items

III.A.3.a.

The institution establishes and adheres to written policies ensuring fairness in all employment procedures.

Descriptive Summary

The WHCCD Board of Trustees has the ultimate responsibility for developing and establishing written policies and procedures that are equitable and consistently administered for employment procedures. The college has input through the Planning and Governance Council and through the Academic Senate. The college's review process relies upon all constituents, including faculty, for formal review and input into the development and establishment of written policies and procedures. The policies are in accordance with California Education Code and other applicable laws.

Self Evaluation

The district has a thorough procedure in place to ensure qualified personnel are hired. All representative bodies are involved in the process. (III.A.3.a)

Planning Agenda Items

- Human Resources should establish a schedule for ongoing training for equal employment practices. (III.A.3.a)

III.A.3.b

The institution makes provision for the security and confidentiality of personnel records. Each employee has access to his/her personal records in accordance with the law.

Descriptive Summary

WHCL personnel records are maintained in locked cabinets in the district office under the supervision of the vice chancellor of business and human resources. The Human Resources staff and administrative supervisors are the only ones with authority to access personnel files. The district has an established disaster plan, the Emergency Response Plan, which was established two years ago. This plan ensures the security of personnel files.

In accordance with the law, college employees have access to their confidential personnel files upon request and scheduling an appointment. Human Resources staff must be present during the review of personnel records. Only supervising managers or

III.A.4

The institution demonstrates through policies and practices an appropriate understanding of and concern for issues of equity and diversity.

administrators can access an employee's personnel file other than their own. An Academic Senate representative may also review faculty files before recommending tenure to the board of trustees. The vice chancellor of business and human resources, as required by law, reviews fingerprints of all new employees with the exception of students and temporary employees. Likewise, criminal history reports are received and reviewed by the vice chancellor of business and human resources.

Self Evaluation

Employees have access to view their personnel files upon request and scheduling of an appointment. Personnel files are locked in the district office for security purposes. Only supervising administrators and Human Resources personnel may view employees' files

The district has established a disaster plan called the Emergency Response Plan which has been in effect for two years. (III.A.3.b)

Planning Agenda Items

- None

Descriptive Summary

Policies and practices implemented at WHCL demonstrate an appropriate understanding of and concern for issues of equity and diversity. The college attempts to hire faculty and staff who demographically represent the communities the college serves. These efforts to be responsive to diverse cultural and ethnic needs have been recognized at the state level and continue to be monitored and evaluated. In 2004, WHCCD received the California Community College Chancellor's Diversity Award for Excellence. The district continues to maintain a diverse workplace as evidenced by the diversity analysis conducted by the Human Resources Office the fall of every year. (3.26)

Self Evaluation

Understanding of and appreciation for diversity is a core value at WHCL. WHCL strives for more diversity in the hiring of faculty, staff, and administration. (III.A.4)

Planning Agenda Items

- None

III.A.4.a

The institution creates and maintains appropriate programs, practices, and services that support its diverse personnel.

Descriptive Summary

Programs and training addressing diversity issues have been offered to personnel through the district Human Resources Office. At the August 24, 2007 Administrative Retreat, administrators received training on the Diversity Plan for Recruitment for New Faculty. At this retreat, administrators discussed ideas, activities, and avenues that could be used to further expand the diversity in the district. (3.27)

The college provides opportunities for diversity awareness to faculty, staff, and students through events such as Black Heritage Month, Hispanic Heritage Month, Women's History Month, Disability Awareness Month, and Migrant Fairs. (3.28)

The vice chancellor of business and human resources reviews employment equity and staff diversity through submission of federal and state required reports. Information regarding gender, ethnicity, classification by salary, benefits, and all categories of employees is reported to the integrated postsecondary education data systems (IPEDS). An annual IPEDS report is generated each year to submit to the federal government. (3.29)

Self Evaluation

The district evaluates its diversity in employment on a yearly basis. Opportunities are provided for diversity awareness to faculty, staff, and students through events such as African-American History Month, Hispanic Heritage Month, Women's History Month, Disability Awareness Month, and Migrant Fairs.

The vice chancellor of business and human resources reviews employment equity and staff diversity through the submission of federal and state required reports. (III.A.4.a)

Planning Agenda Items

- None

III.A.4.b

The institution regularly assesses its record in employment

Descriptive Summary

WHCL prides itself upon ensuring that it makes opportunities for employment available to all as reflected in Board Policy 301, Affirmative Action Employment Program. In BP 301, the district supports the policy that states that affirmative action requires the

equity and diversity consistent with its mission.

employer to make additional efforts to recruit, employ, and promote qualified members of groups formally excluded, even if that exclusion cannot be traced to particular discriminatory actions on the part of the employer. The district also follows equal employment practices and ensures that each interview committee has an Equal Employment Officer represented. (3.30)

Self Evaluation

The college's mission is to "enrich the lives of students and the community we serve by being dedicated to quality educational learning opportunities and partnerships." Therefore, the district and the college make additional efforts to recruit, employ, and promote qualified members of groups that reflect the diversity of the college and the community it serves.

The district human resources staff and the college monitor screening committees to make sure that they include gender and ethnic balance; positions are advertised in a variety of outlets and positions are not forwarded without sufficient diverse pools. (III.A.4.b)

Planning Agenda Items

- None

III.A.4.c

The institution subscribes to, advocates, and demonstrates integrity in the treatment of its administration, faculty, staff and students.

Descriptive Summary

WHCL's sincerity in the treatment of its administration, faculty, staff, and students is displayed through accessibility to supervisors, staff development opportunities, collaborative decision-making, and the ample resources, including advanced technology, to meet the learning needs of students.

The college provides collaborative opportunities to its faculty, staff, students, and administrators through the development of various planning and governance committees. These committees consist of faculty, staff, administrators, and students. They are responsible for recommendations for staff development, budget, technology, evaluation, planning, research, student learning outcomes, and program review. (3.31)

The college is committed to personal, professional, and institutional development for the growth of its employees, as stated in Board Policy and Administrative Procedure 7135, through the Employee Scholars Program. Reimbursement of up to \$3000 per year is available. (3.32, 3.33)

Self Evaluation

Relations between faculty and staff advocacy groups and the administration at WHCL are collegial and respectful. Shared governance committees on campus are inclusive operate on a consensus basis. Students are also invited to participate in shared governance and their voices are equitable. (III.A.4.c)

Planning Agenda Items

- None

III.A.5

The institution provides all personnel with appropriate opportunities for continued professional development, consistent with the institutional mission and based on identified teaching and learning needs.

Descriptive Summary

WHCL is committed to fostering employee development that is closely aligned with its mission and vision. Therefore, the college is committed to the concept of personal, professional, and institutional development of all employees. The college believes all employees must have the opportunity to receive professional development support and maintain proficiency in their respective fields in order to be able to deliver quality educational services to its students.

The college's Employee Development and Success Committee (EDSC) develops, implements, and monitors issues and activities related to helping all college employees maximize their success in the workplace. Areas of responsibility include professional development activities, training needs, employee recognition activities, and employee social activities and celebrations. (3.34, 3.35, 3.36, 3.37)

Board Policy 315, Professional Growth Requirements, delineates an opportunity that the WHCCD Board provides to support development opportunities for staff, including graduate study and travel reimbursement in special fields of study. Any full-time employee is eligible to participate in the Employee Scholars Program. Article 5 of the CSEA Collective Bargaining Agreement allows for unit members to receive a monthly stipend based on units completed. Since its inception, over 25 staff members have taken advantage of the professional growth opportunities. For some it has meant taking a refresher course, for others, obtaining their first associate's degree. Still others obtained their doctorates. (3.38, 3.39, 3.40)

III.A.5.a
The institution plans professional development and activities to meet the needs of its personnel.

WHCL is committed to the concept of personal, professional, and institutional development of all employees. The college's Employee Development and Success Committee develops, implements, and monitors issues and activities related to helping all college employees maximize their success in the workplace. The EDSC sponsors professional development activities, training needs, employee recognition activities, training needs, and social activities.

Diverse speakers have been brought to campus for employee development to speak on topics such as "Dealing with Difficult Students" and "Are you Healthy Enough to Serve?" (III.A.5)

Planning Agenda Items

- None

Descriptive Summary

WHCL is committed to professional development by its activities and the coordination of those activities. The college values inclusive and diverse opportunities for staff to advance their professional development. The college provides Flex and Duty days for faculty and staff. Governance and planning groups notify employees of programs and events planned. In addition, financial assistance is provided through the Employee Scholars Program as an incentive for employees seeking further education. The Human Resources Office also provides opportunities for professional development to all employees; for example, training has been provided on sexual harassment awareness and appropriate actions. (3.41, 3.42, 3.43)

Self Evaluation

WHCL's commitment to professional development is shown through activities and workshops planned by the Employee Development and Success Committee, Flex and Duty days for faculty and staff, and the district's Employee Scholars Program. (III.A.5.a)

Planning Agenda Items

- None

Descriptive Summary

WHCL is committed to fostering the continued professional growth

assistance of the participants, the institution systematically evaluates professional development programs and uses the results of these evaluations as the basis for improvement.

of its faculty and staff. The Educational Development and Success Committee regularly surveys college personnel for future staff development training needs. The college promotes employee success by the development, implementation, and monitoring of issues and activities related to helping all employees maximize their success. Some examples of staff development training include: One-Note training, Blackboard v.9, Tips for Meeting Minutes training, how to handle difficult students training, grant writing training, and systems thinking training. Evaluation of these programs is conducted through a survey given to participants following the professional development opportunity. (3.44, 3.45, 3.46, 3.47, 3.48, 3.49, 3.50)

In response to the Annual Staff Development Day held in the spring of each year, classified staff are able to indicate how they rated the presentations for that day and to indicate topics for future presentations. For example, in the spring of 2009, staff indicated they wanted to have additional training on handling difficult people. In the spring of 2010, the vice president of student services conducted training on handling difficult people at the classified staff development day. (3.51, 3.52)

Additionally, faculty and administration are afforded professional development time to attend conferences that are sponsored by their professional associations.

Self-Evaluation

Assessment of staff development is structured through evaluation forms and evaluations are used to determine future training needs by the WHCL Employee Development and Success Committee and the Human Resources Office. (III.A.5.b)

Planning Agenda Items

III.A.6

Human resource planning is integrated with institutional planning. The institution systematically assesses the

Descriptive Summary

The college's Budget Allocation Committee is comprised of classified staff, faculty, students, and administrators who evaluate and prioritize needs in order to meet the college's commitments. Area Budget Committee (ABC) representatives meet with their areas to create a list of needs within their areas. The needs list is based on the completed program reviews within that instructional or non-instructional area. The lists prepared by the ABC representatives are

effective use of human resources and uses the results of evaluation as the basis for improvement.

sent to the Budget Allocation Committee where all items are ranked by its membership for possible funding. These recommendations are then forwarded in prioritized order to for approval in the next fiscal budget request. The request is forwarded to the Chancellor's Executive Cabinet and, if approved, they are included in the next annual fiscal budget request.

The Budget Allocation Committee begins meeting in the fall for the following fiscal year budget. The Planning and Governance Council meets twice monthly. The Chancellor's Executive Cabinet meets every other month or more frequently if necessary. The first reading of the budget occurs in May, and it is finalized in June. However, recommendations are made too late for the effective faculty hiring for the upcoming academic year. The state budget is usually in flux until August. (3.53, 3.54)

Self Evaluation

Decisions for prioritizing new positions are rooted in the college's shared governance and program review process. (III.A.6)

Planning Agenda Items

- The college will examine the timeline for requesting new faculty to avoid the implementation of recommendations being made too late for the effective faculty hiring for the upcoming academic year, even though the state budget is usually in flux until August. (III.A.6)

III.B Physical Resources

Physical resources, which include facilities, equipment, land, and other assets, support student learning programs and services and improve institutional effectiveness. Physical resource planning is integrated with institutional planning.

West Hills College Lemoore is located on a 107-acre campus in Lemoore, a city with approximately 25,000 residents. Although envisioned much earlier, formal planning for the new college began as early as 1990. The Pederson and Semas families, longtime residents of the area, first proposed the donation of land to the district in 1998. With input from the college and surrounding communities in the services area, the planning for facilities design continued. Planning was substantially strengthened through the support of the long established West Hills College Coalinga. In 1998, Phases 1, 2A, and parts of 2B were funded through a local bond initiative (passed by 67% of voters) and state capital projects funding. Phases 1 and 2A of the new college were completed in 2002, with classes first held in the new facilities in January 2002. Since that time, the campus has continued to grow. In November 2008, the college passed a general obligation bond in support of new college facilities. The bond will primarily be used for the future construction of a student center, additional on-site classroom buildings, and classrooms in rural communities within the district boundaries. Some of the bond proceeds are being used to provide infrastructure in support of the new multi-use sports complex that is currently under construction. Bond money has also been designated for the improvement of technology on campus, such as updating video conference equipment. WHCL maintains a comprehensive Facilities Master Plan for physical resources development. The Facilities Master Plan is driven by the educational program and service needs of the communities served by the college. This planning process is tied directly to the Educational Master Plan and college's Strategic Plan. (3.58, 3.59)

The college's Facilities Committee plans for new construction, while the district Risk Management Committee maintains safety, in part by conducting a bi-annual inspection of the facilities. The district's architect has a five-year facilities plan. This plan includes the multi-use sports complex, which is currently under construction. Unfortunately, despite the college's master plan, the state's budget crisis prohibits the maximum potential use of facilities, including the funding of sports teams. (3.60) (III.B)

III.B.1

The institution provides safe and sufficient physical resources that

Descriptive Summary

The shared governance process at WHCL facilitates communication, discussion, and decision making with all constituents to provide input into the campus wide facility needs, both on and off site. For example, when grant funds were received to create a new nursing

support and assure the integrity and quality of its programs and services, regardless of location or means of delivery.

simulation lab, this request was taken forward to the Facilities Committee for a solution which resulted in room 711 becoming a new Simulation Lab for student and area nurse training. The criteria used to ensure the safety of the college's facilities is a shared responsibility between the district Risk Management Committee and the college's Facilities Committee. The requirements used to evaluate facility safety are based on the requirements of the Department of State Architect (DSA) and other federal, state, and local requirements. (3.61, 3.62)

The Risk Management Committee reviews incident reports as well as schedules inspections through the Joint Powers of Authority (JPA) for safety issues. The JPA conducts a bi-annual inspection to ensure that the latest regulations are being followed. (3.63, 3.64)

The Facilities Committee plans for new buildings as well as scheduled maintenance projects and considers best practices incorporating any recommendations from the Risk Management Committee. The evaluation process includes calculations of the college's capacity load ratios to determine if there is an underutilization of space or overutilization. This process forwards the request to the California Community College Chancellor's Office for matching construction dollars. (3.65)

The same capacity load ratios are used for all of the sites. The off-campus site located at the Naval Air Station Lemoore is safe and sufficient according to federal and Department of Navy guidelines.

Self Evaluation

Input from shared governance members has resulted in several practical and concrete results. From information received from the Risk Management Committee and through the analysis of Incident Reports it was determined that sharps disposal containers needed to be mounted on the walls of the Nursing Skills Lab. Improvements were made to the duct work system in the Nursing Department. Work was completed on the fume hoods in the Chemistry Lab. Maintenance was done to existing lights on the campus, and additional lights were added to ensure the safety of the students. Roofing repairs were done to the 200 building. From the analysis of the Incident Reports it was determined that golf cart training and certification of the staff and faculty was needed. Also storm drains were added to the existing buildings.

From information gathered from community advisory meetings and the assessment of industry needs the Nursing and Health Careers

Department expanded the enrollment of the LVN to RN Bridge Program by 100 percent. In order to accommodate this expansion the college reallocated classroom 711 to be re-designed into a high fidelity simulation lab. The lab will provide quality clinical exposure and improve Student Learning Outcomes. (III.B.1)

Planning Agenda Items

- None

III.B.1.a

The institution plans, builds, maintains, and upgrades or replaces its physical resources in a manner that ensures effective utilization and the continuing quality necessary to support its programs and services.

Descriptive Summary

The facility planning process is an integral part of WHCL education planning activities. The college's Facilities Committee meets bimonthly with the district architect/facilities manager to provide information that maximizes institutional resources while meeting student learning needs. With input from faculty, staff, students, community, and administration, the facilities planning process determines the type of facility projects to be pursued based on educational and vocational program growth and planning. The Facilities Committee also looks at new construction or modernization, size, when the facility should be changed, cost of facility projects, and how projects should be funded. This process also includes the preparation and submission of state project proposals and planning documents. Based on information from the college's Facilities Committee, the district architect's recommendations, and the recommendation from the district chancellor and Board of Trustees, the California Community College Chancellor's Office allocates funding to optimize facility utilization.

In addition, the bi-monthly meetings of the Facilities Committee are used to plan future construction projects, such as a Student Center and another classroom building to include a new location for Allied Health based on program review. The president has regularly scheduled student, and staff, Town Hall meetings, strategic planning sessions, and campus wide forums to obtain input from stakeholders concerning institutional effectiveness. Faculty regularly provide feedback on facility and program needs through learning area meetings. In the fall of 2009, the first Measure E Bond Oversight committee met to provide guidance and review of new building construction. The five-year Facility Master Plan outlines the district and college guidelines for efficient plan and space utilization. Current capacity and load data demonstrates the college optimizes room usage. The college has not exceeded the capacity to serve the student population based on current data. (3.66, 3.67, 3.68, 3.69,

3.58)

The results from facilities planning are used in the ongoing planning process to determine sufficiency of facility utilization. During this process areas due for an upgrade are discussed and placed in the master plan for facilities. The same process occurs for safety upgrades and equipment. The evaluation process includes calculations of the college's capacity load ratios to determine if there is an underutilization or overutilization of space to demonstrate effective utilization of its physical resources. As an example of effective use of physical resources, classes are scheduled in rooms according to projected enrollment capacities. In addition, the vice president of educational services collects room allocation usage each semester. (3.70)

Self Evaluation

From identifying the characteristics of a rural student population, all classrooms have been installed with internet and upgraded the hardwiring of the system. Wireless modems have been installed in the 200 building, and capital expenditures have been used to upgrade two classrooms to provide distance learning opportunities for rural, isolated, and underserved students. From information gained from the facilities PGC Meetings equipment has been upgraded in the EMS (the Security HIRSCH System). The irrigation system has been improved. (III.B.1.a)

Planning Agenda Items

- None

Descriptive Summary

The Risk Management Committee proactively reviews incident reports and other data to evaluate current and future safety problems. The college responds effectively to safety hazards using a similar proactive approach to minimize risk. Safety hazards are reported to Maintenance and Operations (M & O) informally via phone calls or formally through "School Dudes." Any area that may be identified as in need of repair is communicated to M & O, who will then take necessary steps to repair or replace equipment. In the fall of the 2008-09 academic year, a traffic safety concern was presented by students regarding the congestion upon entering and exiting the campus. This concern was addressed through the Facilities Committee, who in turn worked with the City of Lemoore to alleviate the traffic congestion leading to the entrance of the campus.

III.B.1.b

The institution assures that physical resources at all locations where it offers courses, programs, and services are constructed and maintained to assure access, safety, security, and a healthful learning and

working environment.

Specifically, the City of Lemoore added additional lanes and removed a stop sign to provide better access to the college. (3.71)

M & O staff reductions limit response time for preventative maintenance. As a part of the overall analysis of the college, facilities have a master plan for scheduled maintenance to ensure facilities are well maintained and safe.

In addition, the district has an established Emergency Response Plan. The college's Incident Command System (ICS) team is well established and equipped for the college's response to major incidents. Initial ICS team training consisted of college-wide table top drills and a full campus multi-casualty incident simulation. This drill and training included area responders from city and county emergency personnel. The ICS team underwent table top training sessions in May 2010. (3.72, 3.73, 3.74, 3.75)

The off-campus site located on the Naval Air Station Lemoore (NASL) is safe and sufficient according to Department of Defense and Navy guidelines. Military requirements to access NASL provide for a safe and secure environment.

Self Evaluation

For accessibility, the college has installed automatic doors to all restrooms and entrances to the Library and Administration. Key card entry for classrooms has been installed for security. It was determined that concrete sidewalks around the administration building were damaged due to alkali in the soil. Sidewalks were repaired and brought up to Safety Standards.

The rejuvenation of the all the parking lots are scheduled to occur. Additional temporary parking is also being planned to accommodate the parking demands of the multi use sports complex that is scheduled to be completed March of 2011.

The access ramps for the portable sites are scheduled for recoating with a non-slip epoxy. Additional night lighting is slated to be installed to address identified safety issues. (III.B.1.b)

Planning Agenda Items

- The college needs to continue the evaluation and assessment of various security systems and protocols to meet the expanding college campus. This will be accomplished by the director of maintenance & operations along with the

Facilities Committee. (III.B.1.b)

- The director of maintenance & operations will monitor the parking lot for future rejuvenation and to examine temporary parking needs due to the new construction. (III.B.1.b)
- Campus safety issues, such as lighting and classroom ramp coatings for slippage, will be monitored by the director of maintenance & operations. (III.B.1.b)

III.B.2

To assure the feasibility and effectiveness of physical resources in supporting institutional programs and services, the institution plans and evaluates its facilities and equipment on a regular basis, taking utilization and other relevant data into account.

Descriptive Summary

The college has a system in place to evaluate efficient use of facilities. The vice president of educational services tracks room allocation and usage, which provides information on each room in use and total hours used per week. Future planning and construction needs are based on the degree that classrooms are used, based on the Department of State Architecture's standard of 54 lecture hours of use per week. Each area director and/or dean coordinates the selection, maintenance, inventory, and replacement plan for facilities and equipment. Faculty and staff in the discipline areas are asked to assess their existing equipment and project or program development needs as part of program review. Equipment and budget support and approval decisions have often occurred after post-submission review. However, guaranteed operating budget support for each discipline is needed. Student learning outcomes (SLOs) are generated by the end-users, whether in the classroom or from a service function. In addition to the information-technology structure support, SLOs are often generated by use of the proper laboratory or activity equipment. The discipline and users know what is needed to get the desired outcome. Each discipline area needs both an ongoing planned equipment replacement mechanism and an ongoing five-year equipment addition and modernization program based on justified and ranked end-user input. These plans should be a balance of guaranteed availability and funding level. (3.76)

Self Evaluation

From the evaluation of classroom space usage, routine inspections of the equipment, and request for School Dude M&O services, an effective maintenance schedule has been developed and is continually being revised as the campus needs change and evolve. For example the campus is currently in the process of a campus wide filter replacement to ensure a healthy and safe learning environment for the faculty and students. The seven boilers that are on the campus have just finished a preventive maintenance program that has revitalized them to an almost new state. (III.B.2)

III.B.2.a

Long-range capital plans support institutional improvement goals and reflect projections of the total cost of ownership of new facilities and equipment.

Planning Agenda Items

- None

Descriptive Summary

WHCL's Facilities Committee, in conjunction with the district's architect, produces a five-year construction plan to generate projected facility requirements. The recommendations of the committee are forwarded to the district Chancellor's Office and WHCCD Board of Trustees for implementation. General Obligation Bond initiatives are incorporated into these plans; however, new buildings cannot begin until the state releases matching funds.

Scheduling analysis is used to assess facilities each year with respect to space utilization. Long range forecasting for future growth is done on a rolling, five-year basis for new programs under consideration, as well as for expansion of existing programs. State lottery funds are available to support equipment purchases. With the assistance of the district architect, the college convenes its Facilities Committee and begins the process of identifying new programs' needs and the expansion of existing programs. These plans are then reviewed with the overall needs of the institution and prioritized. Once these have been identified, the next step is to specify required funding and how it will be implemented with available funds from the state bonds and what the requirements will be for matching funds locally. This allows the college to plan the use of the most recent bond funds for additional construction. (3.77, 3.78)

When considering the necessary total cost of ownership, the college must look at the depreciation of the equipment to come up with a date when those will need to be replaced, and then amortize those costs over the life of the equipment. Additionally, labor needed to provide ongoing maintenance as well as necessary cleaning of the buildings has to be analyzed in order to obtain an accurate cost for labor and demands that may be placed on existing staff. The college takes the recommendations from the Facilities Committee and compares them with overall needs within the college to ensure that the most effective use of those resources support the college's Educational Master Plan.

The college's mission and vision are imbedded in the Educational Master Plan, which guides facilities planning for capital projects. The budget process is used to identify priorities for equipment purchases; however, in the event of equipment breaking before

scheduled replacement, the list of priorities may change.

During the Facilities Committee meetings, information is provided about the needs of programs at the college. This is discussed in the Activity Report for each Facilities Committee meeting. These projects are then prioritized by the committee and included in the overall review of other capital projects. This process allows for long-range planning to be staged in an organized manner, and the demands on capital resources can then be included in the resources generated from the local bond measures as well as the state matching funds.

The college's program review process, vocational advisory committees' input, and the annual review of the college's mission statement all guide the need for consideration of future capital outlay projects and equipment replacement.

Self Evaluation

There were no full-service colleges in the area to meet the educational needs of the surrounding communities until WHC Lemoore opened. The residents of the area, responding to need and usage, passed a bond in 2008 to increase access for college education. The funding from the bond has allowed the college to expand its instructional offering with addition of new buildings and the modification of existing space. In addition the college has shown its commitment by supporting the plans for capital investment and institutional improvements with the allocation of funds from the general fund. The modification of the DSPS lab has increase the capacity of the college's program to expand and better serve and help more students.

The college is currently in construction of a 53,000 square foot multi use sports complex. The building will provide an expanded venue for its sport programs, special events, and an increase in classroom space for other class offering. The student center is the next building that is scheduled for construction. This building will house the bookstore, student lounge, and dining facilities. The building is designed to comfortably house 400 students.

There are plans for future bond campaigns to obtain funding to construct the 500 academic building. This building will house the Nursing and Health Careers program as well as provide the classroom space for other academic disciplines to use. (III.B.2.a)

III.B.2.b

Physical resource planning is integrated with institutional planning. The institution systematically assesses the effective use of physical resources and uses the results of the evaluation as the basis of improvement.

Planning Agenda Items

- None

Descriptive Summary

The comprehensive Facilities Master Plan for physical resource development calls for space utilization and improved use of existing facilities. (3.58)

With the support of the district architect, the Facilities Committee conducts an annual space utilization analysis to review the current effectiveness of college resources. The president's cabinet agenda, minutes, and discussions concerning class schedules provide input into space utilization each semester. The effectiveness of facilities and equipment is evaluated on a regular basis through the Facilities Committee and budget process. The physical resources of the college are used effectively by maximization of space and time slots to provide the greatest access for students. There is an analysis done through the five-year facilities plan that demonstrates a cap load ratio to target areas that are in need of expansion. For example, the under-utilization of the Open-Entry (OE) lab and over-utilization of the Disabled Students Programs and Services (DSPS) lab resulted in the locations of these labs being exchanged. Current capacity load ratios show improved space usage. (3.80, 3.81)

Additionally, the Planning and Governance Council (PGC) approves program review. Programs needs and services are evaluated through program review and recommendations are brought forth for consideration at PGC. (3.82)

Town Hall meetings provide valuable feedback about the needs of the students and subsequent facility decisions. In addition, the Student Services Matriculation (SSM) team meetings, which include counselors and advisors, provide input into the design of planned projects. Most recently, two representatives from the SSM team, one counselor and one advisor, have been regularly attending the facilities meeting to present facility needs of the counseling/advising staff to the Facilities Committee. (3.83, 3.84)

During the Facilities Committee meeting, information is provided for the needs of all programs at the college. These projects are then prioritized by the committee and included in the overall review of other capital projects. This process allows for the long-range planning to be staged in an organized manner and the demands on capital resources can then be included in the resources generated

from the local general obligation bond measures as well as the state's matching funds.

College-based planning and prioritizing of new facilities produced the following projects: construction of phase 2B, a \$12 million project, and adding an additional 36,000 square feet of facilities that includes space for culinary art classes, an art gallery, and aerobics and weight facilities for physical education classes. In addition, the first phase of a new child development center serves 40 children as part of a lab setting for college students studying early childhood education. It houses observation rooms, a parent education center, and an infant care program. (3.85)

Self Evaluation

Facilities' planning is an integral part of the participatory/shared governance process, with bi-monthly Facilities Committee meetings and a standing item on the Planning and Governance Council agendas. All constituencies are given an opportunity to be made aware of and provide input into the facilities planning needs of the campus.

Campus facilities requirements are identified through the college's Facilities Plan and Educational Master Plan and the program review process. Buildings are constructed based on the availability of funds from both local bond measures and state matching funds.

Classrooms have been changed and modified to meet the needs of the community, college, and student populations. Modification of the space for the casino and gaming classes was made to meet the demands for the wrestling program and other physical education activities. Storage space in the 800C building has been modified to meet the needs for various vocational training courses. These courses include maintenance mechanic, robotics, industrial maintenance and solar energy classes.

The college also recognizes the importance of maintenance in the design and construction process so that state-of-the-art facilities are designed to alleviate costly repairs and upgrades. The School Dude program is systematically analyzed to determine patterns, trends, and needs for physical resources. This analysis has objectively shown the need for a freestanding shipping and receiving area.

Using scheduled maintenance dollars, when available, the campus continues to be well-maintained. Construction projects and the Five-year Facilities Construction Plan reflect the long-term needs of

the college. (III.B.2.b)

Planning Agenda Items

- The college needs to establish a guaranteed operating budget for an equipment replacement cycle. (III.B.2.b)
- The college needs to identify resources to establish a freestanding shipping and receiving area. The addition of more delivery vehicles has also been identified as future capital expenditure need. The director of maintenance & operations will be responsible for recommending appropriate resource requirements. (III.B.2.b)

III.C Technology Resources

Technology resources are used to support student learning programs and services and to improve institutional effectiveness. Technology planning is integrated with institutional planning.

III.C.1

The institution assures that any technology support it provides is designed to meet the needs of learning, teaching, college-wide communications, research, and operational systems.

WHCL receives administrative technology support from the Information Technology Services (ITS) Department in the way of infrastructure, hardware, and software support. Through on-campus IT staff, the ITS department provides continuous monitoring and support of technology needs for students, staff, and faculty. This includes refresh, cascading, and new equipment designed to improve institutional effectiveness and strengthen communication. A sufficient number of computers support the use of technology for these purposes.

WHCL receives academic technology support from Educational Planning through the Academic Technology and Training (ATT) Department. ATT provides students, faculty, and staff training. ATT supports faculty in deployment of online courses with an Education Technology Specialist, training and support to faculty for videoconference courses, and Help Desk support to students, faculty, and staff through the Help Desk Coordinator. (III.C)

Descriptive Summary

West Hills College Lemoore receives technology support and services from district-based departments including information technology services (ITS), academic and information systems, academic technology and training (ATT), and web services.

The district's information technology services include the following: infrastructure and maintenance of voice, video, and data networks; central computing servers and other data center systems; approval and purchase of all computers and peripheral hardware; mission-critical business applications (including Datatel Colleague); Blackboard, e-mail, SIRSI, and information management; data management; data warehousing; administration of web servers; web services; emergency notification system; helpdesk services; learning resources assistance; and end user technical services.

Self Evaluation

In spring 2008, the district purchased the Microsoft MyWestHills Portal. In the fall of 2008, the district launched MyWestHills allowing end users streamlined communication vehicles and an active directory. In an effort to enhance curriculum and content delivery, and to improve the teaching and learning environment, the academic technology and training conducted a learning management

system evaluation process. With input from faculty and staff district wide, the Blackboard v.9 learning management system was purchased. WHCCD provides technology support to staff and students who use MyWestHills, email, Blackboard, web registration, orientation, fee payment, transcripts request, online library resources, and online ordering of textbooks.

Using electronic communication through the WHCL MyWestHills portal site, staff are able to communicate technology needs. This MyWestHills portal allows for expanded intra communication between and amongst students and staff.

The district and college is committed to providing access to technology and to ensuring that the technology resources it provides support every aspect of the teaching and learning process

The college utilizes a Technology Committee as part of the Planning and Governance Council. The Technology Committee has the responsibility of assessing Information Technology Services related policies, procedures, and planning, as they relate to WHCL. The central focus is the intersection of instruction, administrative support, and technology in regards to students meeting their educational goals. The district Technology Advisory Team (TAT) is comprised of faculty, administrators, and students. The TAT relies on information from the college's Technology Committee to problem solve technology related needs for the college. When appropriate, information from the TAT is forwarded to the District Technology Council for the purpose of prioritization and action. These committees are comprised of faculty, administrators, and a limited number of students. Students' participation in campus technology committees is infrequent. (3.89, 3.90, 3.91) (III.C.1)

Planning Agenda Items

- The college will increase student participation on the college's Technology Committee and the district Technology Advisory Team. (III.C.1)

Descriptive Summary

The district's Information Technology Services (ITS) Department is available to provide professional support in all areas related to technology communications, including the planning and development of compatible facilities. In addition, the district's ITS staff regularly attends Facilities Committee meetings, which ensures the necessary infrastructure of construction projects are considered

III.C.1.a

Technology services, professional support, facilities, hardware, and software are

designed to enhance the operation and effectiveness of the institution.

and met.

ITS supports the Datatel enterprise resource planning system, the Blackboard course management system, the CISCO AVVID (video/voice/data) system, employee and student email systems, Microsoft Office 2007 applications, SIRSI library management system, campus printing infrastructure, information and decision support, and computer end-users. (3.92)

The district ITS staff consists of six full-time employees: one director, four PC/LAN specialists, and one customer support operations manager. The ITS department provides one technician to the college on a daily basis with a weekly rotation. The college provides dedicated office space to the ITS staff, which enables them to be more readily available to trouble shoot, and remain integrated into the fabric of the campus.

Classroom technology is standard across the district. Each instructional space is outfitted with a video data projector, DVD player, amplifier, speakers, and IP telephone. Videoconference classrooms also include the necessary components to support two-way audio and video communication controlled by a PLC, a document camera, fax machine, and microphones.

Self Evaluation

The college is committed to providing computer access to serve the campus community's information needs. Through its technology governance process, the college continues to ensure that computers labs, library, offices, tutoring centers, and classrooms have adequate technology support. As an example, the Library/Learning Resources Center provides approximately 100 desktop and laptop computers for student use.

In October of 2009, as a result of district reorganization, the Department of Academic and Information Systems (AIS) was established. AIS is responsible for overseeing the development, maintenance, and operation of the systems used in support of business services, academic services, student support services, student records, and other administrative operations of the district. The AIS department consists of one director and one full-time programmer.

When faculty or staff experience a technical problem, the individual submits a request for technical assistance through the electronic ITS Tech Support on MyWestHills. A case number is immediately sent

to the individual who submitted the request, with a notification of who the request was assigned to within the ITS department. Once the work has been completed, a follow-up status notice is sent to the individual via email. A similar system is in place for academic technology and web services issues. (3.93)

All technology purchases must be approved by ITS to assure compatibility, usability, and industry support. ITS maintains an inventory of all computer equipment for replacement, and replacement occurs when funding allows. In fall of 2009 and spring 2010, the WHCCD Business Office collected data on the printer/copier usage district-wide in order to determine the efficiency of printer/copier use. As a result, the district discovered inefficiencies and eliminated some individual printers, replacing them with multi-user, higher-level copiers. The district expects to see a reduction in the cost for toners, and thereby a savings. (3.99)

In spring 2006, WHCCD installed a storage array network (SAN) system. The system allows for adaptability, virtual servers, redundancy, and complete backups. District-wide there are 9.2 terabytes of data storage. The SQL data warehouse is functioning at the phase III level providing data critical to measuring institutional outcomes. Under the auspices of the offices of both the ITS director and the vice chancellor of institutional effectiveness, systems have been put into operation to create a reporting system that provides the district and colleges with key information that goes well beyond program review reports, such as enrollment management reports, and student success reports. The district has also implemented a document imaging system that allows all departments to store and index any chosen documents.

In support of Student Services, the Hershey document system has been in place on the campus for several years; however; it has not been fully utilized. The counselors and advisors discussed the need to increase accessibility of key documents. The vice president of student services placed a target to have all student education plans, transcripts, and petitions to graduate scanned into HERSEY by December 2010. As of November 2010, eighty percent of the documents have been scanned.

In the 2008-09 academic year, the college began using the Scheduling and Reporting System (SARS) warehouse. SARS is an automatic system that supports counseling appointments, open entry, and other student services systems.

As the college continues to grow its programs and services, campus

based IT support will need to be increased to meet the demand to maintain institutional effectiveness. For example, an increase of on campus technical support staff will be required to provide operational support and participation in campus technology planning. (III.C.1.a)

Planning Agenda Items

- The college's technology committee will survey campus needs and future technology requirements and forward recommendations through the college and district shared governance processes. The college will work with campus categorical programs and district grants office to identify funding sources to meet its future technology needs. (III.C.1.a)

III.C.1.b

The institution provides quality training in the effective application of its information technology to students and personnel.

Descriptive Summary

Educational Planning's Academic Technology and Training (ATT) is proactive in its efforts to use technology to improve the educational experience for students, faculty, and staff. For the student, technology training enables wider access to resources, learning, interaction with faculty and other students, as well as making the college accessible to anyone with a computer and internet access. Technology training allows faculty to use technology more effectively, creatively, productively, and responsively in dealing with students and staff, both inside and outside the classroom. For administration and staff, technology training provides better access to information and resources needed to make productive, timely, and informed decisions and use of college assets and funds, in an effort to provide the best student experience.

Faculty and staff training for online instruction takes place both online and in the Faculty Development Lab, a 290-square-foot facility that opened in 2005 located in the Library/Learning Resources Center. The Faculty Development Lab is equipped with state-of-the-art technology, such as a video data projector and screen, media conversion hardware and software to provide accessible streaming video to online students, and desktop computers and laptop stations with wireless internet access for faculty and staff to use during training or while developing content. Training has also been conducted in computer labs and is available using the web, online chat, or telephone conference for those who are unable to come to one of the physical campus locations. Many training sessions are recorded and posted on MyWestHills to provide

on-demand training for those unable to attend scheduled workshops.

For distance education students, training on how to use the tools in Blackboard v.9.1 is provided through the Online Student Orientation. Faculty are encouraged to have students complete the orientation prior to the start of any online class, and training for students has been provided through ATT, both face-to-face and online. Individuals with disabilities have been able to receive training in the Disabled Students Programs and Services Lab, where access to assistive technology is available. However, despite the opportunities, a limited number of students have participated in the trainings. The online readiness quiz is available to students on the college website and has been added to the online student orientation, which is accessible to all students. (3.97)

The distance learning operations manager is in charge of video conference equipment installations, programming, and maintenance district wide. This position provides both individual and group training to faculty teaching via two-way video/two-way audio technology on an ongoing basis. This training takes place in one of the twelve video conference classrooms currently used by faculty and students throughout the district. (3.96)

Self Evaluation

There have been numerous training opportunities for students on how to use the MyWestHills portal as well as for faculty on ways to enhance Blackboard v. 9, which was launched in Spring 2010. In the past, students had to sign in three different times to gain full access to “MyWestHills,” once for the portal, once for e-mail, and again to access Blackboard. Since the MyWestHills portal launch in 2008, a large number of students continue to need assistance. In response to this IT and academic and information systems (AIS) a single sign on was provided. With feedback from the student Town Hall meetings the district/college launched the “live Help Desk” feature and student Blackboard and MyWestHills training. (3.88, 3.48, 3.66)

Periodically the Academic Technology and Training (ATT) department disseminates surveys to determine training needs. Faculty, staff, and students who undergo training are surveyed to attain their level of satisfaction and to determine what training can be added and improved. Survey results are generally positive and are used to improve training and services. In addition, all training proved by ATT incorporates an evaluation component for continuous improvement.

In addition, WHCL provides technology training seminars during Flex and Duty days. The office of the associate vice chancellor for educational planning through ATT has provided training to faculty and staff through scheduled workshops, one-on-one sessions, or by disseminating information through the web and institutional email services. ATT staff, consisting of two educational technology specialists, a distance learning operations manager (video conference), and the help desk coordinator train faculty on a variety of instructional technology topics, such as pedagogical best practices, designing online courses, designing hybrid and web-enhanced courses, and integrating technology into the curriculum. Much of the training centers around Blackboard v.9.1, the college's course management system, but it also includes tools and skill sets for developing multimedia instructional content that can be delivered online or in face-to-face classroom settings. The associate vice chancellor works with faculty to help them master online teaching best practices, create a community of integrity by implementing the principle of academic honesty, and familiarize them with the college's computer and network policies via webinars using the web, online chat, and telephone features of CCC Confer. Each semester, online adjunct faculty, as well as many full-time faculty members, receive training in best practices for teaching online. (3.94, 3.95)

The college's educational technology specialist trains faculty on how to use technology to create and deliver course content. The educational technology specialist researches new technologies, implements them, and trains faculty and staff on how to use them to enhance instruction and support students. In fall 2008 and spring 2009, ATT provided training to faculty and staff on MyWestHills basics, announcements, campus events, and team sites. Support and basic training is also available to faculty, staff, and students via a service called the Help Desk. This service is available by telephone, email, or chat and provides help with learning management system tools, Microsoft Office applications, email, and general computer techniques; recent hiring of adjunct technology staff has allowed for expanded hours of support.

After each training session, ATT satisfaction surveys are administered to participants as a means of assessing the effectiveness of the training session. In general, satisfaction surveys have been very positive and supportive of ATT's training programs. ATT also utilizes the results of student evaluations of online faculty to determine training needs to enhance and improve online instruction. (3.98) (III.C.1.b)

III.C.1.c

The institution systematically plans, acquires, maintains, and upgrades or replaces technology infrastructure and equipment to meet institutional needs.

Planning Agenda Items

- The college will improve student technology training. (III.C.1.b)
- The college will explore ways to make the “Online Readiness” quiz more visible. (III.C.1.b)

Descriptive Summary

The Technology Strategic Plan determines the most appropriate way to guide the district and college in enhancing its ability to achieve certain critical outcomes, including improved teaching and learning, strong support for marketing and admission programs, increased retention, increased productivity of students, faculty, and staff, especially through the use of information technology. The goal is to maximize the district’s/college’s return on the investment that is made in information technology.

WHCL has procedures and personnel in place that address technology planning, implementation, and maintenance. Technology resources and support are provided by the district Information Technology Services (ITS) Department. ITS includes infrastructure support and maintenance, mission-critical business applications, information management, web infrastructure services, the emergency notification system (BERBEE), and end-user technical services. ITS supports Datatel, Blackboard, CISCO AVVID (video/voice/data), employee and student email systems, information and decision support in the form of the data warehouse, and end-use computing.

Currently, WHCCD has six distinct and separate sites; three are connected by data 45 meg DS3s, one by 25 meg wireless, and two are connected by T1s. Sites are interconnected by CISCO 3845 routers with CISCO EIGRP, allowing for failover connectivity. The Local Area Networks (LAN) are mixed 1gig/100megabyte switched networks, with 10 gigabit fiber connections between Intermediate Distribution Frames (IDF). All sites and all ports have power over Ethernet (POE). The main Gigaman connection to the Internet is protected by a CISCO Enterprise ASA 5520 firewall and VPN concentrator, with a secondary DS3 for failover. West Hills College Lemoore has its own DS3 protected by a CISCO Enterprise Pix 525.

In spring 2006, WHCCD installed a SAN system. The system allows for adaptability, virtual servers, redundancy, and complete

III.C.1.d
The distribution and utilization of technology resources support the development, maintenance, and enhancement of its programs and services.

backups. District wide, there are 9.2 terabytes of data storage.

The district has implemented the Hershey Document System that allows all departments to store and index documents.

Self Evaluation

The college continues to explore mechanisms to enhance the retrieval of student information and the registration process. Based on feedback from students, the district moved to improve the registration process, priority registration options, and relocated where the “search” for classes was listed. Prior to the spring of 2010, students had no other option but to go into the Datatel system to search and register for classes. When the open window became available for students to register, all eligible students could log onto the system, which greatly slowed the system down. Students now enter the MyWestHills portal to search for classes, and once they are ready to register, they enter the Datatel site. This process is seamless and invisible to students; however, it has significantly improved the registration process by making it more user friendly and efficient. (III.C.1.c)

Planning Agenda Items

- None

Descriptive Summary

The purpose of WHCL’s technology resources is to support the development, maintenance, and enhancement of the college’s programs and services. There is a classroom standard for face-to-face instruction as well as video conference classrooms.

Student technology needs are met in the Disabled Students Program and Services. Online classes and programs as well as training are supported by an on campus educational technology specialist.

The library has desktop and laptop computers, as well as a printer, copier, and television/DVD units for student use.

Self Evaluation

In May 2009 as well as August 2009 Flex Day, faculty had an opportunity to examine various instructional media, such as Troxell’s Interactive Tablet and Epson Powerlight. As a result of those technology displays and faculty evaluations, a new classroom

standard was approved by the WHCL facilities committee. Video conference classrooms are send-and-receive sites with AMX touchpad technologies, Wolf Vision cameras, focus students' cameras, and open microphones, in accordance with established standards. In order to maximize use and efficiency, video conference technology is commonly used for meetings between colleges and district employees. (3.100)

A district Technology Access Specialist supports the technology needs of students in the Disabled Students Program and Services (DSPS) Program. The specialist provides instructors with individual training in disabled student accessibility in the classroom, including Internet accessibility and adding captions to audio/visual materials. Best practices for purchasing and deploying technology solutions are implemented through the professional development of the Technology Access Specialist acquiring currency in the field and dialoging with peers through the High Tech Center located at DeAnza College. In addition, anecdotal data is collected from students in the DSPS Lab for acquisitions. (3.101)

There is one full-time educational technology specialist from the WHCCD Academic Training and Technology department. The specialist is located on the college campus and trains faculty on how to use technology to create and deliver course content. The educational technology specialist researches new technologies, implements them, and trains faculty, staff, and students on how to use them to enhance instruction and support students.

Library technology is robust and includes all software applications required for WHCL classroom instruction. Upgrades, replacements, as well as ongoing maintenance is supported by the WHCCD Information Technology staff.

In addition, the college continues to explore mechanisms to enhance the retrieval of student information and the registration process. Based on feedback from students, the district moved to improve the registration process, priority registration options, and relocated where the "search" for classes was listed. Prior to the spring of 2010, students had no other option but to go into the Datatel system to search and register for classes. When the open window became available for student to register, all eligible students could log onto the system, which greatly slowed the system down. Students now enter the MyWestHills portal to search for classes, and once they are ready to register, they enter the Datatel site. This process is seamless and invisible to students; however, it has significantly improved the registration process by making it more user friendly

III.C.2

Technology planning is integrated with institutional planning. The institution systematically assesses the effective use of technology resources and uses the results of evaluation as the basis for improvement.

and efficient. (III.C.1.d)

Planning Agenda Items

- None

Descriptive Summary

Technology planning is integrated with WHCL planning through the District Strategic Plan, the WHCL Master Plan, the Technology Strategic Plan, and the Distance Education Strategic Plan. All plans are linked and systematically assess the effectiveness of technology resources. Program reviews are the primary planning tools for virtually all campus activities and are prepared at least once every four years by program. Vocational/Career Technical Education programs complete program review every two years. Technology, staffing, and budget concerns are evaluated and suggestions for improved allocation of resources are made in these program reviews. (3.102)

The college maintains a technology committee that makes recommendations, where appropriate, to the WHCCD Technology Advisory Team (TAT). The TAT makes recommendations, where appropriate to the WHCCD District Technology Council (DTC). The DTC makes recommendations to the Chancellors Executive Cabinet for discussion and next steps.

Technology issues related only to WHCL are handled by the college Technology Committee and move as recommendations to the WHCL President's Governance Committee.

Self Evaluation

College plans and district plans are linked to provide direction and strategies that result in enhanced institutional effectiveness and to support the overall operations of the college. The District Strategic Plan, with its identified goals, guides the development of the college's Educational Master Plan, which provides direction and guidelines for future program development at the campus program level. The District Strategic Plan provides direction and strategies that enhance the effectiveness and operations of the college's technology resources. The college's Education Master Plan complements the District Strategic Plan.

As an ancillary plan, the District Technology Strategic Plan guides and supports the technology needs at both the district and the

college. In fall 2008, revisions to the Distance Education Strategic Plan began and included drafting a mission statement, vision statement, and strategic initiatives for distance learning. It also provided a framework for assessing student services on the website, as well as an eCampus initiative.

The college's Technology Committee makes recommendations to the Technology Advisory Team (TAT), which makes recommendations to the District Technology Committee (DTC). There is no clear delineation in the responsibilities of each committee.

The District Technology Committee (DTC) prioritizes technology projects district wide. The committee updates the project list regularly to verify project completion, update timelines, reprioritize needs, or add new projects. The current committee structure of the DTC is focused on college representation at the management level. However, the DTC currently lacks representation from faculty and classified staff. (3.103)

An audit of online student services for the Coalinga campus began in February 2009. The results of the online student services audit conducted by WICHE were shared with WHCL. Due to the common threads on both campuses, a similar online audit was not done for the Lemoore webpage. Beginning in the summer of 2010, teams from both the Lemoore and Coalinga campus have begun to address areas needed for improvement. (3.104)

The use of technology and supporting infrastructures is pervasive across the campus. It is apparent that the college deems technology important and necessary, as reflected in the Shared Governance structure, whereby the campus Technology Committee is a standing subcommittee of the PGC. In addition, the campus works collaboratively with other departments to explore ways to enhance services to students, improve communications, and become more efficient.

This was particularly evident with the launching of the MyWestHills portal. The portal has become a vehicle for fast and efficient information and a repository for essential documents. Prior to the portal, an essential document that was for internal use, such as the list of students who had petitioned to graduate, could only be viewed as a hard copy on one person's individual computer or was made available for multiple people to access on an external "V" drive that was approved by the ITS department. Now, the MyWestHills site owner can grant permissions to individuals for certain documents.

(III.C.2)

Planning Agenda Items

- The college will expand the composition of the DTC to include faculty and classified staff. (III.C.2)
- The college will clarify roles and responsibilities of the college Technology Committee and Technology Advisory Team. (III.C.2)

III.D Financial Resources

Financial Resources are sufficient to support student learning programs and services and to improve institutional effectiveness. The distribution of resources supports the development, maintenance, and enhancement of programs and services. The institution plans and manages its financial affairs with integrity and in a manner that ensures financial stability. The level of financial resources provides a reasonable expectation of both short-term and long-term financial solvency. Financial resources planning is integrated with institutional planning.

Financial resources for West Hills College Lemoore are primarily based on state apportionment of the district, which is then allocated to the college according to the WHCCD Board of Trustees' adopted allocation procedure. In fiscal year 2009-2010, West Hills College Lemoore's budget was approximately 5.4 million dollars. Additionally, the district has been very successful in obtaining grant funding, which supports the development of new programs. Financial planning for the college is the responsibility of the Planning and Governance Council, which involves all constituents and receives recommendations and requests from the other college committees. External audits are conducted annually for all funds, and audits are reported to the WHCCD Board of Trustees and posted on the district website. (3.105)

The college's processes for managing fiscal resources are responsible and driven by the educational needs of the college. Through the efforts of district office staff, the financial needs of the college are maintained in a stable, sustainable way. (III.D)

III.D.1

The institution relies upon its mission and goals as the foundation for financial planning.

Descriptive Summary

WHCL's budget planning process is directly tied to its mission, goals, and performance indicators. The district resource allocation procedure and the college's budget planning process ensure that the college's mission and goals are achieved.

Each college program goes through a program review process that identifies program needs for expansion, maintenance, and/or reduction that are directly aligned to the college's missions and goals.

Individual program reviews are first reviewed by the Institutional Effectiveness and Program Review Committee and then sent forward to the Planning and Governance Council (PGC) for approval. After approval by the PGC, program budgetary requests are sent to the Budget Allocation Committee by the originator of the program review for prioritization and budget allocation. The vice president of educational services works with learning areas, departments, and programs to identify their budget priorities. Budget requests are sent back to PGC for review and approval. During the process, the vice chancellor of business and human resources at the district office communicates the estimated general fund budget to the president for the next fiscal year. In normal years, the college would receive additional dollars in the form of COLA and/or growth and would be able to fund requests on the prioritized list. However, recently this process has been focused on budget reductions. (3.106, 3.107, 3.108, 3.109)

Self Evaluation

In 2009-2010, the WHCL expenditure budget was \$5.4M. However, the college's FTES apportionment was \$12M. The shared governance structure is adequate for identifying budgetary needs through the program review process. (III.D.1)

Planning Agenda Items

- None

III.D.1.a

Financial planning is integrated with and supports all institutional

Descriptive Summary

Financial planning is integrated into WHCL's planning processes, as evidenced by the development of district strategic planning, which is aligned to the college's Educational Master Plan and drives the creation of the college's facilities, technology, and distance

planning.

education plans. The college reviews the mission and goals during the budget process to make sure that programs are being supported appropriately and input is received from all stakeholder groups. Goals are identified for each budget cycle; long range goals for future budget cycles are also identified. (3.52, 3.58, 3.86, 3.87, 3.110)

In normal years, funding priorities are established across the district from the college's prioritized requests. These requests are then used to identify future funding requirements for both the short and long-term demands. Additionally, the Educational Master Plan provides a guide for resources that may be needed to accomplish those goals. In the past two budget development years, the district has received no new funding; therefore, the colleges were only able to reallocate funds within individual budgets. These shortfalls have led to a reliance of state and federal grant allocations to maintain current staffing and service levels.

The planning process is tied directly to the district's budget development calendar, and each college is required to meet those timelines in order to allow for the total budget and financial planning process to be completed. The vice chancellor of business and human resources provides monthly financial status presentations as to the current fiscal status of the district to the WHCCD Board of Trustees, administrators, managers, and the community during WHCCD Board of Trustees meetings. The budget process, from the planning through the tentative and adopted budget stages, is made available to the trustees as well as the district leadership. (3.111, 3.112, 3.113, 3.114)

Self Evaluation

The institutional mission drives the fiscal planning process and program review process identifies goals for specific budget cycles. Future spending priorities are aligned to the educational Master Plan through the governance structure. The Planning and Governance Council and other planning committees in coordination with the program review process develop fiscal priorities that are sensitive to both the fiscal and program/services needs of the college. All of these processes coordinate with the district budget planning calendar as outlined in Administrative Procedure 6225. The college meets this standard. (III.D.1.a)

Planning Agenda Items

- None

III.D.1.b

Institutional planning reflects realistic assessment of financial resources, availability, development of financial resources, partnerships, and expenditure requirements.

Descriptive Summary

Each program goes through a program review process that identifies program needs for expansion, maintenance, and/or reduction that are directly aligned to the college's mission and goals. Program reviews are first reviewed by the Institutional Effectiveness and Program Review Committee before being sent to the Planning and Governance Council (PGC). After approval by the PGC, budgetary related program requests are sent to the Budget Allocation Committee by the program review originator for prioritization and possible budget allocation. The vice president of educational services works with learning areas, departments, and programs to identify their budget priorities. Budget requests are sent back to PGC for review and approval.

Funding priorities are established at WHCL during the college's budget development process. The college's priorities are submitted and reviewed at the district chancellor's Executive Cabinet to ensure that the college is able to accomplish them in a timely fashion. Student learning is given the first priority when considering those goals. The Budget Priority document that identifies priorities is provided by the colleges from their planning meetings. (3.102, 3.107)

In addition to these college procedures, individuals from the district's Business Office meet with key staff members on a regular basis to review expenditures and allocations. President's Cabinet meetings, President's Forums, and Student Town Hall meetings also provide input into funding priorities.

Self Evaluation

The college meets this standard. As evidence of broad-based planning for resource allocation, the college partners with other outside agencies such as: City of Lemoore, Kings County Office of Human Services, Kings County Jobs Training Office, Kings Community Action Organization, Naval Air Station Lemoore, Kings County Office of Education, Fresno County Workforce Investment Board, Lemoore High School, Lemoore Elementary School District, and other agencies, as reflected by memorandums of understanding to support student learning. (3.115, 3.116) (III.D.1.b)

Planning Agenda Items

- None

III.D.1.c

When making short-range financial plans, the institution considers its long-range financial priorities to assure financial stability. The institution clearly identifies and plans for payment of liabilities and future obligations.

Descriptive Summary

WHCCD Board of Trustees mandates a five percent minimum general fund reserve to meet economic uncertainties. The general fund budget for 2009-2010 was \$35 million dollars. Over the last few years, the district has transferred \$6 Million to fund local matches for capital outlay projects for which the state has delayed providing required matching funds. Due to the significant delays, these resources were used to fund capital outlay projects for which reimbursements were delayed as long as twelve months. Additionally, the district used TRANS and other funds to address cash flow shortages. (3.117)

Long-term liabilities and obligations have been identified and are planned for by the district. The district belongs to a joint powers authority to and funds their GASB 45 post-employment retirement benefits. The district must have an annual budget to fund future liability of \$5.3. To this end, the district has funded \$1.4 million to date and budgets another \$500 thousand per year to cover the remainder of the balance. Contractual, insurance, and other short-term and long-term debt expenses are identified and planning occurs with respect to these funding obligations. For example, the district maintains a five-year construction plan. This plan helps the district to identify when bond issues may need to be issued for building or facility renovation. Additionally, the state provides a forecast of the economic trends that are used to help plan for future growth. In November 2008, the communities of Lemoore, Avenal, and Riverdale approved Measure E, a \$31 million dollar general obligation bond to bring additional facilities to the college campus and educational centers in Avenal and Riverdale. Prior to the bond election, the college's facilities planning committee identified potential new construction projects to meet future growth. A Measure E bond oversight committee has been created and held its first meeting in December 2009 with a second meeting in June 2010. The purpose of the Bond Oversight Committee is to review bond expenditures in accordance with State Proposition 39 and the requirements of Measure E. (3.118, 3.58, 3.119, 3.120)

Self Evaluation

Program review under the oversight of the Institutional Effectiveness and Program Review Committee is an ongoing work of the institution as we consider the best uses of new funding as well as new future uses of current and frequently diminished sources of funding. The current climate of funding in the California

Community college challenging at best, but West Hills College Lemoore is finding ways to utilize the funds available to us in ways that are creative and effective. The college meets this standard. (III.D.1.c)

Planning Agenda Items

- None

III.D.1.d

The institution clearly defines and follows its guidelines and processes for financial planning and budget development, with all constituencies having appropriate opportunities to participate in the development of institutional plans and budgets.

Descriptive Summary

Funding priorities are established by each college as a result of program review and input from all constituency groups. There are three levels of funding priorities: priority one is contractual and lease obligations, priority two is instruction, and priority three is student support services. In order to ensure that fiscal planning, college goals, and appropriate timelines are met, the district chancellor's Executive Cabinet adopted a timeline for Board Policy review. This timeline was approved per Board of Trustee Administrative Procedure 2410. (3.121, 3.122)

Each program goes through a program review process that identifies program needs for expansion, maintenance, and/or reduction that are directly aligned to the college's mission and goals. Program reviews originate at the learning area and program level and are reviewed by the Institutional Effectiveness and Program Review Committee and then sent forward to the Planning and Governance Council (PGC) for approval. After approval by the PGC, budgetary related program requests are presented to the Budget Allocation Committee (BAC) by the program review originator for prioritization and budget allocation. The BAC is represented by all constituency groups. Budget requests are then sent back to PGC for review and approval.

Self Evaluation

The college has appropriate, clearly defined, guidelines and processes for financial planning. The governance structure provides avenues for all stakeholders to participate in financial planning. The college meets the standard in this area. (III.D.1.d)

Planning Agenda Items

- None

III.D.2

To assure the financial integrity of the institution and responsible use of financial resources, the financial management system has appropriate control mechanisms and widely disseminates dependable and timely information for sound financial decision-making.

Descriptive Summary

The financial management system has appropriate control mechanisms and widely disseminates dependable and timely information for sound financial decision-making. WHCCD uses the Datatel Colleague financial data management system, and all college administrators and budget managers have budget inquiry, lookup, and report ability via Datatel and the MyWestHills portal. Each administrator, along with the district's Business Office, is responsible for monitoring his or her budget. The Business Office develops a budget timeline and ensures all timelines are met. (3.112)

In the spring of each year, the vice chancellor of business and human resources disseminates information through the college president to other college administrators regarding budget items. Each administrator works with his or her department to identify needs. This information is then brought to the Budget Allocation Committee (BAC) for review. Once reviewed at the BAC, the requests are brought to the Planning and Governance Council (PGC). After the PGC approves the requests, the president takes the items to the district for review and consideration. (3.123)

Prior to new administrators being allowed to generate purchase orders and requisitions, they must first go through training and approval by district office staff. For example, in the summer of 2006 an associate dean of categorical programs was hired and trained. Evidence of competency was required before access was granted to the Datatel live account. Unfortunately, while a training manual exists, distribution does not appear to be consistent (3.124, 3.125).

The Datatel system for purchasing requires an account balance before a requisition can be approved; requisitions require approval by the budget manager, department or program supervisor, and district office before a purchase order can be issued.

Self Evaluation

West Hills Community College District's annual audits speak directly to the issue of internal controls. The report from these audits is available to the public through the district's web site. There have been no material findings in these audits in the years that West Hills College Lemoore has been in existence. These systems are solid and meet the standard.

Additionally, even as the system in place meets the accreditation standard, it also seems clear that better mechanisms for disseminating the operational procedures to appropriate staff still need attention. (III.D.2)

Planning Agenda Items

- None

Descriptive Summary

Funds are allocated, as shown in the budget, in a manner that will realistically achieve WHCL's stated goals for student learning. The program review process serves as a guide for fund allocation. Audits of the District have been consistently positive with no notable exceptions. (3.111)

The district has had annual audits for all general and special funds. There have been no negative findings over the past six years. Multi-funded personnel are required to complete time-accounting sheets, which are signed by the employee and supervisor. Categorical programs are required to submit program and budget reports, which are signed by the program supervisor, president, and vice chancellor of business and human resources. (3.126, 3.127)

During the 2006-2007 academic year, the Disabled Students Program and Services (DSPS) program completed a program review and identified additional staff needed for the DSPS Lab. This request for additional staffing was sent to the Budget Allocation Committee for review and allocation. As a result of the program review recommendations, an additional full-time learning skills program assistant was hired for the lab. (3.128, 3.129)

Self Evaluation

West Hills College Lemoore meets this standard. College audit functions are consistent and thorough. There have been no material findings in the past six years. (III.D.2.a)

Planning Agenda Items

- None

Descriptive Summary

WHCCD provides the appropriate financial information to the

III.D.2.a

Financial documents, including the budget and independent audit, reflect appropriate allocation and use of financial resources to support student learning programs and services. Institutional responses to external audit findings are comprehensive, timely, and communicated appropriately.

III.D.2.b

Appropriate financial

information is provided throughout the institution.

district, staff, students, and public on a timely basis. The tentative budget, final budget, and all audited financial statements for the District are available in the district Business Office as well as online. The Business Office provides all of the information in a timely fashion, and students, faculty, and the community can review any audited financial statements or any other budget information.

Self Evaluation

This institution's financial information distribution system is adequate and appropriate to the standard; however, staff, students, and the public may not know that the financial information is available on the college website or how to access it there. (III.D.2.b)

Planning Agenda Items

- The district director of marketing will identify appropriate mechanisms to inform the college community about current financial status of the district. (III.D.2.b)

III.D.2.c

The institution has sufficient cash flow and reserves to maintain stability, strategies for appropriate risk management, and realistic plans to meet financial emergencies and unforeseen occurrences.

Descriptive Summary

The WHCCD Board of Trustees mandates, through Board policy, that the district budgets for and maintains a minimum reserve of five percent, which is sufficient to maintain stability and to meet financial emergencies and unforeseen occurrences. The district maintains all required lines of liability, property, crime, and errors and omissions insurance to protect itself and its assets from risk or damage. The ending balances of the past three fiscal years have been \$5.4 million in 2006-2007, \$3.9 million in 2007-2008, and \$1.9 million (5.4%) in 2008-2009. The trend towards reduced ending balance led the district to implement furloughs, budget freezes and salary freezes (through negotiations) in 2009-2010 to ensure fiscal solvency of the district. For the 2009-2010, the district anticipates an unaudited ending balance of \$4.1 million. These ending balances are sufficient to maintain reserves above the Board of Trustees required five percent. (3.130, 3.131, 3.132, 3.133, 3.134)

Over the past few years, the district has funded \$6 million dollars in transfers to the capital outlay fund to build reserves to finance required local matching monies needed for state supported capital projects. The district also uses TRANs and other resources to fund cash flow shortages.

Revenues are allocated to the district from the California Community College Chancellor's Office based on the funded full

III.D.2.d

The institution practices effective oversight of finances, including management of financial aid, grants, externally funded programs, contractual relationships, auxiliary organizations or

time equivalent student (FTES) apportionment. These funds are transferred into the Fresno County Treasurer's Office and placed in the district's account to draw on to meet payroll and accounts payable obligations. Until recently, there have not been any issues with regards to cash flow, but during the 2008-2009 and 2009-2010 fiscal years the state began deferring several monthly apportionment payments until the next fiscal year. Deferments during the 2008-2009 fiscal year, totaled over \$4 million dollars, which created a drain on the cash reserves of the district. As a result, the district used the TRANS and a 60-day loan from the Fresno County Treasurer's Office to cover these cash flow shortages. Both the TRANS and Fresno County Treasurer's Office loans required repayment within the same fiscal year.

Self Evaluation

The college and district have been expressly proactive regarding the cash flow and fiscal stability. In the 2009-2010 academic year, all campus groups participated in voluntary furloughs, some 24, some 12, some 10. The college also cut back the course offerings for budget reasons and cut off purchasing to prepare for cash shortages. The district also prepared an early retirement package that saved another \$1.4 million. All of this amounts to preparation for hard times. And while not easy, the measures have been effective and evidence well that the college meets this standard. (III.D.2.c)

Planning Agenda Items

- None

Descriptive Summary

WHCCD has procedures in place to identify expenditure areas to monitor, as well as other agencies who routinely review activities in various programs. (3.123) The district Business Office and college categorical program staff are assigned to account for various programs that have been placed in trust with the district. These become part of the audit process that the district engages in each year. The auditors hired by the district provide a summary at the beginning of the audit as well as an executive summary that states the findings and speaks to the overall fiscal integrity of the district. The Business Office has a program review completed for the previous three fiscal years from 2004 through 2007.

foundations, and institutional investments and assets.

III.D.2.e

All financial resources, including those from auxiliary activities, fund-raising efforts, and grants are used with integrity in a manner consistent with the mission and goals of the institution.

Self Evaluation

The district has implemented and followed appropriate fiscal controls that ensure the financial stability of the colleges. The college uses revenues solely to support instructional programs, student services, and college operations. (III.D.2.d.)

Planning Agenda Items

- None

Descriptive Summary

The district has had annual audits for all general and special funds. There have been no negative findings over the past six years. Multi-funded personnel are required to complete time-accounting sheets, which are signed by the employee and supervisor. Categorical programs are required to submit program and budget reports, which are signed by the program supervisor, president, and vice chancellor of business and human resources. Grant funding agencies at the state and federal level also conduct on-site audits, some quarterly, annually, or bi-annually. (3.127)

The West Hills College Foundation supports campus events, student scholarships, and other appropriate programs. Funds raised through college events and donations support such items as scholarships, student activities, athletics, summer youth programs, and campus outreach activities. The fiscal accountability of the foundation is as rigorous as all other funds. The foundation hires an independent audit firm to conduct an annual audit. (3.136) The foundation also has an independent Board of Directors who ensure expenditures are aligned with the mission and goals of the foundation.

Self Evaluation

All audits of the district, general fund, categorical and foundation, have demonstrated that the management practices are done with integrity. This fact combined with the consistently applied practices related to financial planning and priority development; demonstrate compliance with the spirit and letter of this standard. (3.137, 3.138) (III.D.2.e)

Planning Agenda Items

- None

III.D.2.f

Contractual agreements with external entities are consistent with the mission and goals of the institution, governed by institutional policies, and contain appropriate provisions to maintain the integrity of the institution.

Descriptive Summary

West Hills College Lemoore collaborates with the district office to ensure all college contracts with external entities maintain the integrity of the college. All contracts with outside agencies are consistent with the goals of the college. The college works with the vice chancellor of business and human resources to determine the process and contract language and standards to be used. (3.139) Agreements with external agencies must have the approval of the supervisor, president, and, at times, the vice chancellor of business and human resources or the WHCCD Board of Trustees.

Contract complaints are handled according to the type of contract and the complaint provisions therein. Board Policy 3517 and Administrative Policy 3517 outline the process for anonymous complaint reporting process and procedures. (3.140, 3.141)

Self Evaluation

The college follows WHCCD Board Policies and California Community College Chancellor's Office Budget Accounting Manual requirements. This is evidenced in the independent annual audit. The District Technology Council encourages dialogue among Datatel users who are responsible for the purchase requisition process. Results of dialogue are used to improve financial management systems such as electronic input of timecards and purchase requisition creation. However, the procedure outlined in the District Business Procedures Manual has not been regularly communicated to all staff. (III.D.2.f)

Planning Agenda Items

- The district Business Procedures Manual needs to be more widely distributed and training needs to occur. (III.D.2.f)

III.D.2.g

The institution regularly evaluates its financial management processes, and the results of evaluation are used to improve financial

Descriptive Summary

At the end of each fiscal year, the college's financial processes are evaluated by contracted external agencies as well as district auditors. The results allow for the planning of future fiscal needs. For example, in the 2008-2009 academic year, the district decided to implement an independent payroll system. This decision was based on improved financial management and required approval from the District Technology Committee.

Employees now receive payroll checks that are generated from the

management systems.

district office and not from the Fresno County Office of Education. This change has allowed for more expedient generation of payroll checks and other payments generated by the district.

Prior to the 2009-2010 academic year, students waited in long lines for financial aid disbursements. At the start of the 2009-2010 academic year students were given the option of direct deposit, which has resulted in a decrease in lines in that year. With the aggressive attention paid to the financial aid check distribution process in the spring of 2010, no student received their checks by hand. Students had all either signed up for direct deposit or had their checks mailed to their homes. This action resulted in students being able to quickly access their financial checks to purchase books and supplies. (3.142)

Additionally, staff no longer receives payroll check or stubs by mail. They, too, utilize direct deposit. Access to their electronic payroll stub is available 24/7 through the MyWestHills portal. Staff are able to review their payroll and accrued leave on the MyWestHills portal.

Self Evaluation

In July 2009, 51% of monthly pay cycle employees were paid by direct deposit. By June of 2010, 96% of the same groups received their pay by direct deposit. Students have also begun to receive financial aid via direct deposit as well and, while the transition is somewhat slower, approximately 60% student financial aid disbursements are by direct deposit. This responds to historical problems with student addresses in Datatel and is evidence of the college's careful evaluation of financial processes and improvements thereto. (III.D.2.g)

Planning Agenda Items

- None

Descriptive Summary

Program reviews are reviewed by the Institutional Effectiveness and Program Review Committee before being sent to the Planning and Governance Council (PGC). After approval by the PGC, budgetary related items are forwarded to the Budget Allocation Committee by the program review originator for prioritization of staffing, equipment, supplies, or other expenditure requests. This process is seamless as the vice president of educational services is a member of the PGC, chair of the Budget Allocation Committee, and works with

III.D.3

The institution systematically assesses the effective use of financial resources and uses the results of evaluation as the basis for

improvement.

learning areas, departments, and programs to identify their budget priorities. Budget requests, once finalized by the Budget Allocation Committee, are sent back to PGC for review and approval.

After approval by the PGC, the president brings the fiscal planning needs of the college, as provided, through the college's shared governance structures and to the district Chancellor's Executive Cabinet. The president retains the authority to recommend additional hiring needs or budget modifications as appropriate. In the case of major budget modifications, the president reports his decisions to the appropriate group.

Discussion occurs at the district Chancellor's Executive Cabinet to review the ending balance and reserves. On a monthly basis, the district Business Office reports budget expenses and the percent of funds expended at the WHCCD Board of Trustee meetings. (3.113)

Self Evaluation

The current state budget crisis brings a double problem of having less funds to work with and more students coming to us for service. In times like these it is more important than ever to consider the effective use of funding. The processes in use at West Hills College Lemoore do this well. The college's well-organized, clear governance structure ensures that we fulfill the mission with the funds we have. The system is multi layered and inclusive providing multiple checks and balances along the way. (III.D.3)

Planning Agenda Items

Standard IV – Leadership and Governance: A Thematic Overview

Dialogue

Institutional leaders create an environment for empowerment, innovation, and institutional excellence, providing encouragement, involving staff on various committees, conducting monthly President's Forums, working with Academic Senate in shared governance, and working with a cross-representation of all groups to develop and update the college master plan and organizational structure. Dialogue was used in the planning process to transition to a two-college district as evidenced by the planning retreats, Strategic Planning Task Force, and the collaborative and inclusive approach in establishing the governance processes.

The Board of Trustees encourages communication from district employees and community members by maintaining accessibility and by providing an opportunity to address public comments at regular board meetings. Constituency groups, such as the Academic Senate, West Hills College Faculty Association, CSEA, and students, are given opportunity at all Board meetings to address issues and to keep the Board apprised of their activities and accomplishments. The WHCL Student Government Association president will serve as the Board's Student Trustee during the 2010-11 academic year.

The college president's management style reflects one of open communication. The president attempts to keep the college community informed of all events and activities on campus through his weekly updates. The president participates in various student and staff activities. The president serves on various community boards and organizations to maintain an active dialogue with the community served by the college.

Institutional Integrity

Institutional integrity is demonstrated by the involvement of a cross-representation from all groups, including staff, faculty, administrators, students, community groups, CSEA, West Hills College Faculty Association, and Academic Senate, in the planning processes and participatory/shared governance. The administration supports a decision-making process involving people affected by the decision. Faculty members perform a central role in developing, implementing, and evaluating educational programs. Integrity is also demonstrated by the current governance process which was developed collaboratively with all college constituencies. Reassigned time is granted for faculty members with significant responsibilities in governance, such as the Academic Senate president and the Curriculum Committee chair. The Academic Senate has a strong role in college governance through representation on numerous college committees.

The Board of Trustees is comprised of seven public members who are elected at large and who represent the six geographical regions of the West Hills Community College District. Board biographical sketches, which are posted on the district website, reflect diversity in the group's representation. All board policies are continually being revised

and updated on the website for public review. The board has established a policy for assessing the performance of the board through annual self evaluations.

The budget development process is tied to program review, providing the impetus for budgets to be developed in relationship to student learning outcomes, advisory committee recommendations, and the ongoing educational needs of the community.

It is the philosophy of both the district chancellor and WHCCD Board of Trustees that local autonomy be provided to the colleges. The district office functions as a “service center” for the colleges. Additionally, the district organizational chart clearly depicts the structure of the district and colleges and the authority each is given for daily operations. The resource allocation model, reviewed annually, provides long-term financial stability for a multi-college district.

Evaluation, Planning, and Improvement

In 1991, the Board of Governors of the California Community Colleges adopted a staff recommendation naming the Kings County Center of West Hills College as the official, permanent educational center to serve the Lemoore/Hanford area and requested concurrence to this action from the California Postsecondary Education Commission (CPEC). The decision was made, knowing that growth would occur, and that designation would assist the college in Coalinga to achieve financial stability. During the period of growth in the ‘90s, the Superintendent/President and Board of Trustees considered the concept of one college with two campuses, or one district with separate colleges. The Board agreed to the latter and support from the communities was received through the passage of Measure G. Through this process, it was also agreed that many of the district functions would remain centrally located, providing greater efficiency to the colleges. Rather than providing duplicate services at multiple locations, functions such as human resources, payroll, and accounting remain a district function, serving each of the colleges and centers.

Evaluation, planning, and improvement are on-going processes of West Hills Community College District as outlined in the governance structure and board policy. The Board of Trustees annually evaluates the chancellor who in turns annually evaluates the college president. The chancellor informs the Board of Trustees of the evaluation status of the college Presidents. The president annually evaluates the campus administrators and holds bimonthly cabinet meetings to check on the status, progress, and quality of the institution in relationship to student outcomes and quality instruction. An annual self-assessment and review of past year accomplishments, challenges, and goals achievement are components of the administrative evaluation. All administrators, faculty, and classified staff are evaluated regularly as per contract or collective bargaining agreements. Board policy has been implemented for assessing the performance of the Board of Trustees.

Program reviews are completed by each instructional area, categorical program, and auxiliary program as a means for evaluation, planning, and improvement. Through the administration, the college president ensures an ongoing process of program review and

implementation. Statistics are maintained to monitor program and student success. Evaluation is also utilized in the committee process in the form of review and dialogue. Meetings are held at the various levels of governance. Documents, meeting minutes, manuals, announcements, and agendas are routinely posted either in the MyWestHills portal or on the district/college website to promote communication, dissemination of information, and participatory governance.

Organization

The president, in collaboration with all college constituencies, has established a college-wide governance and decision-making process that includes the following: President's Cabinet; Planning and Governance Council; Student Success Committee; Institutional Effectiveness and Program Review Committee; Employee Development and Success Committee; Budget Allocation Committee; and Facilities and Safety Committee, and Technology Committee. The governance structure works in conjunction with the Academic Senate in a shared/participatory governance process. Participants include students, administrators, faculty, staff, community, and business and industry. The participatory governance process enables all constituents of the college to be represented in the decision-making process. The evaluation process, the allocation of resources, and the justification of those decisions are based on organizational reports, due process, and participation by faculty, staff, and students. Actions, recommendations, and requests move through the committees to the Planning and Governance Council, which will then review, amend, guide, recommend, and, if appropriate, refer to the President's Cabinet and to the Board of Trustees.

The district office's primary purpose is to provide operational and logistical support and services to the colleges which include: 1) Human Resources, 2) Administrative Services, 3) Marketing and Public Information Services, 4) Contract Education and Economic Development, 5) Facilities Management, 6) Learning Resources, 7) Information Technology Services, 8) Institutional Research, 9) Web Services, 10) Foundation, 11) Enrollment Services, 12) Grants and Resource Development Office, 13) Child Development Centers, and 14) Business Services. Policies have been developed to clearly delineate the roles of district and college.

Standard IV. Leadership and Governance

The institution recognizes and utilizes the contributions of leadership throughout the organization for continuous improvement of the institution. Governance roles are designed to facilitate decisions that support student learning programs and services and improve institutional effectiveness, while it acknowledges the designated responsibilities of the governing board and the chief administrator.

IV.A Decision- Making Roles and Process

The institution recognizes that ethical and effective leadership throughout the

Institutional leadership at WHCL creates an environment that encourages participation and leadership at every level. The effectiveness and transparency of this is enhanced through the process of the college's shared/participatory governance system. This process offers opportunities for reorganizing, analyzing, and integrating institutional values and goals while focusing on continuous improvement. The college has developed clearly defined roles at all levels of decision making to further support student learning. The WHCCD Board of Trustees, chancellor, and college presidents provide the leadership. The Board of Trustees encourages communication, and the college president's style reflects that of an "open door" approach.

The college's administrative structure is experienced, small in size, and shares a common vision of putting the needs and interests of students first. Besides the president, there are two vice presidents who are in charge of student services and educational services (instruction). Student services also includes a dean (with responsibilities including admissions, records, student grievances, student government, and student clubs) as well as directors with specific supervision of categorical programs. The college also has an athletic director that reports to the vice president of student services. The vice president of educational services is assisted by an associate dean, who has direct leadership over some instructional areas, the library/learning resource center, high school articulations, and other various functions. Several functions are centrally located at the district office to include services such as business/administrative services, human resources, financial aid, grants, research, web services, distance education, foundation, workforce development, bookstore (outsourced), marketing, and registrar.

The college mission statement defines the broad educational purposes and commitment to students at WHCL. The college president sets the tone in relation to how the college achieves its goals, identifies institutional values, and maintains institutional integrity and values. The college president has established a culture of collegiality,

organization enables the institution to identify institutional values, set and achieve goals, learn, and improve.

communication, and leadership through formal and informal venues utilizing the expertise of faculty and staff. The president encourages and fosters the participatory governance process which is evidenced by the high level of involvement by all campus constituency groups. For example, the student Town Hall meetings held periodically during the year have increased in participation over time and have resulted in an instrument for a call to action. As well, staff have opportunities for candid input to the president during Campus Forums and Strategic Planning Meetings.

The Planning and Governance Council has over-arching responsibility to approve all college related decision making for the college. The President serves as chair of the Planning and Governance Council (PGC) and has final authority for making decisions for the college or forwarding recommendations to the district Chancellor. The Planning and Governance Council is the penultimate campus committee with all shared governance committees reporting to it and from it.

Since the last accreditation visit in 2006, the primary participatory governance committee, the Planning and Governance Council (PGC), has updated its Planning and Governance Manual, streamlined its membership and altered standing committees by renaming some, changing responsibilities, and adding committees when necessary. These changes were to make the governance process more clear and accessible. In addition, the PGC has maximized the use of technology through the use of the MyWestHills portal to post documents for ease of access. Constituency representatives report back to the group they represent. (IV.A)

IV.A.1

Institutional leaders create an environment for empowerment, innovation, and institutional excellence. They encourage staff, faculty, administrators, and students, no matter what their official titles, to take initiative in improving the

Descriptive Summary

WHCL continues to change and evolve since becoming a center to now being a fully accredited college. At this point in the college's history, the college embarks on a path of recognition, sustainability, and continued dialogue, along with creating its own identity within the district. WHCL started this process with partnerships and commitments almost two decades ago and continues to support and maintain those key roles and players that have made the college what it is today. This is not to say that the college has accomplished all of its goals, but rather that it embraces a philosophy of renewal and self-evaluation that continues to promote growth and improved institutional effectiveness.

The college has created a culture of ethical leadership and institutional effectiveness with its current leadership structure which

practices, programs, and services in which they are involved. When ideas for improvement have policy or significant institution-wide implications, systematic participative processes are used to assure effective discussion, planning, and implementation.

consists of an overarching shared governance committee involving all campus constituencies. The established constituents are represented via student participation through the SGA (Student Government Association), classified staff through CSEA, and certificated staff through the WHC Faculty Association and the Academic Senate. These bodies and the administrative team provide the thrust for continued efforts to make WHCL a premier institution in the San Joaquin Valley.

The college's Planning and Governance Council serves as the approval and decision making unit for the college where all campus groups are represented and are provide equal voting opportunities. This equal representation provides each group the ability to provide input which enables the college to learn and improve. As an example, the college annually reviews its mission statement as proscribed by the Institutional Effectiveness Planning Calendar. The recent review was imperative due to the fact that the college recently reduced its course sections to meet budget reductions. As a result of the review, it was determined that the college's current mission was still serving its identified student population by retaining courses in basic skills, workforce development, degree, and transfer.

In 2005, the district started to develop its first comprehensive Strategic Plan. Since 2006, WHCL has developed its Educational Master Plan, revised its Student Equity Plan, updated the governance manual, completed SLOs, and started assessment processes. As a result of SLO assessment, the college has identified improvements and is in the sustainable continuous quality improvement stage. In addition, the Student Town Hall Matrix was developed as a tool in WHCL's evaluation process to provide an avenue for the growing student voice (Student Government Association) on campus. Under the strong leadership of the president, the college has demonstrated continuous improvement and ambitiously achieves many of its goals in the quiet western region of the San Joaquin Valley. Consequently, the college is striving to be innovative and a model for the 21st century as a means of enriching the lives of the community it serves through learning opportunities and partnerships.

Since becoming fully accredited in 2006, WHCL continues to evaluate and develop how it implements its mission statement and makes it the driving force of the college's vision. WHCL proudly displays the mission statement in the lobby of the administration building to motivate the college community and remind all staff of how the college serves the community, thus enriching the lives of its students and serving its community.

The college's administrative structure also demonstrates its commitment to ethical and effective leadership by providing by assigning direct responsibilities to all facets of the organization. The administrative structure consists of a president, two vice presidents (one for instruction and one for student services) a dean of students, an associate dean for instruction, and several directors that provide leadership to areas such as allied health, athletics, categorical programs, and maintenance and operations. Also the district director of financial aid maintains an office at the college and is on the campus two days per week.

By centralizing several functions to the district office, the district is able to provide cohesive and consistent services to each of the colleges. A positive outcome of having a centralized structure is that the district is able to maintain personnel costs to approximately 70% of its general fund budget. This has resulted in the district maintaining its goal of a five percent reserve during difficult budgetary times.

WHCL leaders create an environment for empowerment, innovation, and institutional excellence through institutionalized processes such as planning retreats, student forums, and review of the mission statement and the Educational Master Plan.

In accordance with Board Policy and Administrative Procedure 2510 (Participation in Local Decision Making), the faculty, staff, students, and administration are provided opportunities to participate in the formulation and development of policies, procedures, planning, and budget planning by way of committee voice and participation. (4.1, 4.2) A policy and procedure review schedule is distributed each fall and is used as the guideline for policy and procedure review throughout the year. The college's Planning and Governance Council is the college's body to approve proposed policies and procedures. Budget development begins at the college level and progresses through the governance process, ending with the Board of Trustees. Faculty and staff have additional opportunities to participate in the decisions of the college through the faculty Academic Senate, the Faculty Association, CSEA, and their individual learning areas. Students have participatory opportunities through their Student Government Association (SGA). Students, through their SGA, serve on the Planning and Governance Council and serve on college shared governance committees. The college's SGA has held Student Town Hall meetings to express ideas and concerns as a means to make improvements and enhance institutional effectiveness.

The Student Town Hall meeting in spring 2009 brought nearly 50 students together to consider college functions in the various areas of operation as they affect students. Students divided into groups, facilitated by faculty and staff, to determine the top three concerns in the areas of scheduling, instruction, financial aid, facilities, counseling and advising, student services, registration, and records. The top three student concerns in each area, with prospective solutions developed within groups, were forwarded to the Student Success Committee where a plan for each is under development.

In the fall of 2009, a second Town Hall meeting was conducted to continue the dialogue with students and to begin to institutionalize the process of hearing from students regarding issues pertinent to the state of their college. In response to feedback from students regarding the openness of the faculty and staff-led event from the previous semester, the college conducted a completely student-run event to remove inhibition to student comments that could arise by: 1) leading of the conversation in a direction that seems important to faculty or staff, and 2) students not feeling intimidated by a faculty presence. Student facilitators were trained in the IS-7 Student Leadership class. A compilation of the commentary was developed by representatives from the class and presented to the college administration. (4.3)

Self Evaluation

Institutional leadership, through its shared/participatory governance process at WHCL, has created an environment that encourages participation and leadership at every level. The effectiveness and transparency of this is enhanced through the many avenues of our shared governance system. This process offers continuous opportunities for participation by reorganizing, analyzing, and integrating institutional values and goals while focusing on continuous improvement.

West Hills College Lemoore has developed a system of integrated planning in setting goals and making improvements of its processes. The Planning and Governance Council is represented by all constituencies of the college including students, staff, faculty, and administration. The President serves as the chair of the Planning and Governance Council whereby he receives input from all constituencies of the college. The PGC is comprised of seven standing committees which are the Budget Allocation Committee, Student Success Committee, Employee Development and Success Committee, Facilities Safety and Auxiliary Services Committee, Institutional Effectiveness and Program Review Committee, Student

Learning Outcomes Committee, and the Technology Committee. The purpose of the seven committees is to guide the college in setting and reviewing college goals, provide effective leadership, and inclusive decision making at all levels. The college also has a system of instructional and non-instructional learning areas whose purpose is to provide input and make recommendations at the unit level.

An example of involvement of a college constituency for making improvements is our Student Town Halls. The college's Student Government Association uses Student Town Halls to identify student perceptions and concerns about college processes. These ideas are recorded and tracked on a matrix for assignment to a college shared governance committee for possible resolution and implementation. These town halls empower students to voice their concerns, but also provide the college with student innovation as well as improvement for our practices, programs and facilities. One example of a student concern was in the area of security. Students identified lights that were out in the student parking lots and brought them forward as a concern. This concern was assigned to the Facilities and Safety Committee and new lights were installed.

Faculty have similar input through the West Hills College Lemoore's Academic Senate, the college's Curriculum Committee, the Faculty Association, and faculty involvement in shared governance committees. The committees listed above serve as the faculty's voice on the Planning and Governance Council.

Classified staff is represented on all college governance committees and have additional representation via its CSEA organization. Finally faculty and staff participate in campus learning opportunities through the President's Open Forums, the college's Strategic Planning Committee, and Faculty and Staff Town Halls. One area the college needs to improve upon is the inclusion of adjunct faculty and evening students in the planning and decision making process. The only time adjunct faculty are remotely involved in the planning and decisions of the college is when they participate in opening adjunct faculty meetings occurring at the beginning of each semester. Also, there are few opportunities for evening students to participate to have a voice in supporting the direction of the college. The Student Government Association has, at times, surveyed evening students for input, but these surveys have been infrequent. (IV.A.1)

Planning Agenda Items

- The college's shared governance committees and associate dean of education and evening college will develop stronger

mechanisms to involve adjunct faculty and evening students in the shared governance processes of the college. Initial reports will be developed and shared with the Planning and Governance Council by the start of the fall 2011 term. (IV.A.1)

IV.A.2

The institution establishes and implements a written policy providing for faculty, staff, administrator, and student participation in decision-making processes. The policy specifies the manner in which individuals bring forward ideas from their constituencies and work together on appropriate, planning, and special-purpose bodies.

Descriptive Summary

The shared/participatory governance process recognizes each role of membership. (4.3, 4.4) The Planning and Governance Council (PGC) works under the assumption that each member of the committee is a representative of a constituency group or the chair of a standing campus committee.

Self Evaluation

Through the college's Planning and Governance Manual and shared governance committee guidelines, West Hills College Lemoore effectively demonstrates shared participation in decision making processes. The PGC manual is regularly reviewed and updated for currency and relevancy. As an example of a recent update for improvement occurred in spring 2010 with a change to the Student Success Committee guidelines involving a revision of the goal statement, adding new products, and a revision of membership to reflect broad participation within Student Services.

There are seven shared governance committees that provide input to the college's Planning and Governance Council. These committees are the Budget Allocation Committee, the Facilities, Safety and Auxiliary Services Committee, the Institutional Effectiveness and Program Review Committee, the Employee Development and Success Committee, the Student Learning Outcomes Committee, the Student Success Committee, and the Technology Committee. Each of these committees is represented by faculty, staff, and students. In addition, the Academic Senate, the WHC Faculty Association, CSEA, and students (through the Student Government Association), have representation on PGC. West Hills College Lemoore does not have a classified senate. (IV.A.2)

Planning Agenda Items

- None

IV.A.2.a

Faculty and administrators

Descriptive Summary

WHCL has a governance process that allows for participation from

have a substantive and clearly defined role in institutional governance and exercise a substantial voice in institutional policies, planning, and budget that relate to their areas of responsibility and expertise. Students and staff also have established mechanisms or organizations for providing input into institutional decisions.

all levels—students, staff, faculty, administration, and the WHCCD Board of Trustees—in the governance of the college. Board Policy and Administrative Procedure 2510, Participation in Local Decision Making, addresses the groups that are established to carry the Board of Trustees’s intent of shared/participatory governance. The roles of each group in the governance processes are defined in the Planning and Governance Manual. (4.4)

The college continues to refine its policies, planning, and governance structures to ensure that faculty and administrators have a substantive and clearly defined role. Established committee meetings continue to occur and policy adjustments or additions are made as needed. The shared governance process allows for constituencies to voice their concerns. The Planning and Governance Manual reflects this philosophy.

The college encourages active participation by students in committee work, the Student Government Association, and forums. The involvement of students in the colleges shared governance process has significantly improved during the past academic year. The SGA president and his officers have made a concerted effort to become involved and serve as a voice for students. As an example, the SGA president and his vice president attended a district wide strategic planning session in July 2010. Through these efforts, students have demonstrated a sense of community, volunteerism, and have strengthened their leaderships skills. The shared governance process allows for constituencies to voice their concerns. The Planning and Governance Manual reflects this philosophy. (4.4)

In 2009, the Leadership Class (IS 7), in conjunction with SGA, launched the first exclusively student-led forum. As a result, a Student Town Hall Matrix of concerns and solutions was presented to the dean of students, as well as the Planning and Governance Council (PGC) and administrators. Planning and governance subcommittees were then assigned specific areas of concern to address and report back to the PGC. This resulted in a dynamic document whereby ongoing efforts to address the needs and concerns of student can be formalized. Such was the case of a traffic safety concern presented by students regarding the congestion upon entering and exiting the campus. This concern was addressed through the Facilities Committee, who in turn worked with the City of Lemoore to alleviate the congestion. (4.5)

In addition to faculty and staff participation through the Academic Senate, Faculty Association, CSEA, shared governance committees, learning areas, staff and faculty also participated on the college’s

Strategic Planning Committee. Faculty and staff also attend President's Open Forums and receive updates and are provided the opportunity to express ideas or concerns to the president.

Self Evaluation

The college's Strategic Master Plan and the college's Educational Master Plan guide the direction of the college. West Hills College Lemoore's structure of learning area committees representing instructional and non-instructional areas, its shared governance committees, and the Planning and Governance Council, provide a clearly defined role for each constituency for effective planning, improvement, and participative governance. Areas such as budget recommendations, planning goals, and policy recommendations are forwarded through learning area committees, shared governance committees, and to the PGC for approval. Students are represented through their Student Government Association representatives on PGC and are members of several shared governance and college committees.

The PGC meets semi-monthly and uses the Institutional Effectiveness Planning Calendar to guide the council to identify major college planning documents and processes that require annual review. The college also uses a Strategic Planning Committee to make recommendations concerning college processes, mission statement revisions, and institutional goal changes and reviews. Recently the Strategic Planning Committee reviewed the college's Performance Indicators/Institutional Outcomes in the review of the mission and vision statement with recommendations forwarded to the Planning and Governance Council. At that time, no changes to the mission and vision statement were recommended. The Planning and Governance Council is also charged with reviewing board policies and administrative procedures that are provided by the district office. Recommendations to Board Policies and Administrative Procedures are forwarded to The Leadership Council and to chancellor's Executive Cabinet for final approval. (IV.A.2.a)

Planning Agenda Items

- None

IV.A.2.b

The institution relies on faculty, its Academic Senate or other

Descriptive Summary

WHCL relies on faculty and administrators for recommendations on curricular and other education matters. It also relies on the Academic Senate for recommendation on programs and other services. The

appropriate faculty structures, the Curriculum Committee, and academic administrators for recommendations about student learning programs and services.

college also relies on the Curriculum Committee that establishes procedures for the creation, design, and approval of new courses.

Board Policy and Administrative Procedure AP 2410, states that “review and approval by the Academic Senate presidents will be requested only if the policy/or procedure deal(s) with academic and professional matters.” (4.6) The Academic Senate President for each college regularly attends monthly board meetings and have a standing item on the agenda whereby they report on the activities of the senate’s at each college. Board Policy 2510, Participation in Local Decision Making, further describes the official responsibilities and authority of faculty in curricular and other educational matters when it states, “The Board or its designees will consult collegially with the Academic Senate.” (4.2) Administrative Procedure 2510, Participation in Local Decision Making, states that the Board of Trustees “shall rely primarily on the advice and judgment of Academic Senate,” in curriculum matters, such as student learning programs and other services. (4.1)

Self Evaluation

Faculty have consistently been involved in the decision making processes of the college. Faculty serve on each of the shared governance committees and serve on special committees such as hiring committees. Board Policies and Administrative Procedures adequately prescribe the roles of the college’s academic senate and curriculum committees. The Academic Senate President is a member of the college’s Planning and Governance Council and regularly reports on activities of the senate. The Academic Senate has a voice, through PGC, on recommendations for Board Policies and Administrative Procedures that are sent to the colleges as part of the regular review process. The Academic Senate president also reports to the PGC decisions and recommendations from the college’s curriculum committee. The Curriculum Committee is charged with regularly reviewing course outlines and making instructional program change recommendations. A recent example of a recommendation from the Curriculum Committee and carried forward by the senate president, was the change in unit value of the college’s intercollegiate course offerings from two units to three units. This change was approved by the district’s Board of Trustees last May. (IV.A.2.b)

Planning Agenda Items

- None

IV.A.3

Through established governance structures, processes, and practices, the governing board, administrators, faculty, staff, and students work together for the good of the institution. These processes facilitate discussion of ideas and effective communication among the institution's constituencies.

Descriptive Summary

As outlined by Board Policy 2510 (Participation in Local Decision Making), WHCL's Planning and Governance Council (PGC) provides the process that gives "opportunities for students, faculty, and staff to participate in the governance of the college." (4.2) This is then made clear in the PGC's Planning and Governance Manual, which states that this "governance structure and process is designed to be inclusive and encourage" a collaborative environment. (4.4) Faculty roles are established through the Academic Senate and participation in the PGC. Classified staff also serve in the shared governance process by serving as members in the shared governance council. CSEA assists in the appointments of classified employees to committees. Student representatives are appointed through the Student Government Association.

From the PGC to periodic Town Hall meetings, five recognized constituencies (student government association, academic senate, faculty association, classified organization, and administrators) at the college provide effective communication and exchange of information through their individual venues. This process allows for communication and dialogue throughout the college's constituencies, resulting in continuous evaluation and improvement. Access to PGC and standing subcommittee information, such as minutes, meeting dates, and agendas, is available on the college's MyWestHills portal.

An adequate and effective organizational structure of shared governance exists and provides an avenue for communication and decision-making. All constituency groups, including students, are afforded opportunities to participate in the governance activities and processes on campus. It is particularly noteworthy that student participation is at its highest point in WHCL history, based on Town Hall Meetings, the number of Student Government Association members, and attendance at standing college committees. One area in need of improvement is the participation of adjunct faculty in events, activities, and planning processes of the college. (4.3, 4.7, 4.8)

Board Policies (BP) and Administrative Procedures (AP) adequately define the roles of staff and students within the college. Specifically, BP and AP 2410, Policy and Administrative Procedure, and BP and AP 2510, Participation in Local Decision Making, define the role of faculty in student educational programs and services planning. (4.6, 4.9)

The Planning and Governance Manual outlines the roles for all staff

and students who participate in the governance structure. The manual further outlines the specific responsibilities of the representatives from these constituencies. Governance structures, including those that have staff and student roles, are defined in the PGC Manual. West Hills College Lemoore's Governance Process flowchart, which is available on the WHCL website for all constituencies to view under governance and the PGC Manual, is reviewed and updated as needed and shows how the governance procedures include staff and students. (4.10)

The WHCCD Board of Trustee's membership includes a student trustee. West Hills College Lemoore and West Hills College Coalinga rotate student body representation annually. For the 2010-11 academic year, West Hills College Lemoore's Student Government Association president serves as the student trustee.

The role of classified staff, as defined in BP 2510, specifies that "classified staff shall be provided with opportunities to participate in the formulation and development of district policies and procedures that have a significant effect on staff." (4.2) Classified staff serve on numerous governance and organizational committees as voting members and have direct input into the processes and decision making of the college. Classified members also participate in planning retreats, district goal setting workshops, and a report is given by the CSEA president to the WHCCD Board of Trustees at the monthly Board meetings.

BP 2510 also defines the role of students in the decision-making processes of the district. Through the Student Government Association, students are encouraged to become involved in the governance and decision making processes of the college. For example, students participate in Strategic Planning Retreats, college committees, cultural awareness activities, and community events on campus and in the local area. A pervasive display of openness between students, staff, faculty and administrators is evidence in student dialogue and communication at all levels.

The PGC is the "principal participatory governance body of the college." This governance body "creates the processes for recommending college policies and governance committee structures," per AP 2410, and "reviews and approves actions, recommendations, and requests of committees, planning groups, and task forces." (4.6) This council facilitates communication between five constituencies, including the Student Government Association, the Academic Senate, the WHC Faculty Association, classified staff, and administrators.

The PGC consists of seven subcommittees, including the Student Success Committee, Institutional Effectiveness and Program Review Committee, Budget Allocation Committee, Employee Development and Success Committee, Student Learning Outcome Committee, Facilities and Safety Committee, and the Technology Committee, that ensure communication, planning, review, and improvements.

The District Leadership Council (DLC) is composed of faculty leaders from the Faculty Association and Academic Senates, classified employee leaders, a student leader from each college, and administrators from the colleges and district. The role of this council is to serve as a conduit for communication between the district and the colleges. This council serves to make recommendations to the district chancellor in matters affecting college operations. As an example, if there is disagreement between the two colleges, the DLC may be asked to provide a recommendation to the chancellor's executive cabinet. (4.11)

Matters of importance to the constituencies of the college and community are relayed by the college's Strategic Plan, District Strategic Plan (which contains the district score card), President's Reports at WHCCD Board of Trustees meetings, college Educational Master Plan, district Technology Plan, district Distance Education Strategic Plan, college Student Equity Plan, district Diversity Plan, district Annual Report to the Community, District Office Electronic Newsletter, and the district community newsletter called @westhills. (4.12, 4.13, 4.14, 4.15, 4.16, 4.17, 4.18, 4.19, 4.20, 4.21)

Self Evaluation

The chancellor regularly conducts district leadership planning retreats that involve all constituents of the district including students, faculty, staff, and administration. A recent district level planning retreat was held in June 2010 that included student leaders from both colleges, senate presidents from both colleges, faculty leaders from colleges, college and district staff, and college administration. Also at the retreat were selected board members and community leaders from the Coalinga, North District, and Lemoore communities. The purpose of the planning retreat was to review district goals and district/college score cards that depicted progress in obtaining district goals and to identify improvement plans for the academic year. This retreat represented broad based participation from all segments of the district. As a result, West Hills College Lemoore has refined its outreach plan to include added focus on area high school. The college president and vice president of student services recently met

with each area high school principal to identify ways to improve college-going rates. These plans continue to be refined and results will be analyzed during fall 2011 with data from newly enrolled high school graduates.

The shared governance process provides the president and WHCL with a means to provide direction and structure. (4.27) The governance process continues to be evaluated and refined, and participation has seen its greatest growth in the last two years, not only in committee work but also with student participation. Administrative leadership has not remained static. Changes have occurred and new roles evolved to meet the growing needs of the college's future. This is in concert with supporting student learning, fostering institutional effectiveness, and facilitating continued and manageable growth. (IV.A.3)

Planning Agenda Items

- The college's Employee Development and Success Committee has identified a need for staff training and understanding of the college's shared governance processes. Some employees are not fully aware of the function of the Planning and Governance Council and its shared governance committees. The EDSC will develop the training workshop and assess the results of its training to ensure staff have a better understanding of the governance process. This training will occur in spring 2011. (IV.A.3)

IV.A.4

The institution advocates and demonstrates honesty and integrity in its relationships with external agencies. It agrees to comply with Accrediting Commission standards, policies, and guidelines, and Commission requirements for public disclosure,

Descriptive Summary

WHCL encourages a culture of open dialogue as evidenced by events such as the Student Town Hall meetings, open forums, student learning outcome workshops, and strategic planning retreats. The college also hosted accreditation training provided by the Commission for the benefit of district institutions and neighboring colleges.

In spring of 2009, the college hosted the Accrediting Commission for Community and Junior Colleges for training in the standards of accreditation and for the preparation for the college's self study document. Representatives from WHCL, West Hills College Coalinga, and Merced College heard from the Commission regarding standard themes, evidence requirements, resources for self-study preparation, and special concerns and policies from the Commission. (4.22) The training served to assist the colleges in meeting accreditation standards and the understanding of events occurring

self-study and other reports, team visits, and prior approval of substantive changes. The institution moves expeditiously to respond to recommendations made by the Commission.

during a full accreditation visit. This training served as a mechanism to improve institutional effectiveness and provide in-depth understanding of the commission's requirements, policies, standards, and guidelines.

The college's vice-president of educational services serves as the accreditation liaison officer and chairs the accreditation self study report. The former Academic Senate president serves as co-chair of the accreditation self study report. The chair and co-chair provide leadership, clarity, continuity, and overall review of the accreditation process and self study document preparation. The college president takes an active role in setting the tone for the accreditation process, general guidance and support for all constituencies in the activities necessary for a thorough self study, overall review of the process, and serves as the liaison between the college and the district office.

Self Evaluation

The college complies with accrediting commission standards, policies, and guidelines for public disclosure. West Hills College Lemoore students, staff, faculty, and administrators participated in the preparation of this self study document. The Board of Trustees has been regularly comprised of the progress of the preparation for the accreditation visit via reports and updates at each board meeting. In addition, the college has made improvements to address the previous recommendations from the 2006 visiting team to include progress identified through a focused mid-term report in 2008. Also the college recently submitted a notice of substantive change for its online degree programs last summer. Through its catalog, the college demonstrates integrity and honesty to its student and the communities it serves in adherence to its mission statement. (IV.A.4)

Planning Agenda Items

- None

IV.A.5

The role of leadership and the institution's governance and decision-making structures and processes are regularly evaluated to

Descriptive Summary

The WHCCD Board of Trustees invited the President of the Western Association of School and Colleges to a Board Retreat on February 5, 2010. The purpose of her attendance was to educate and update the Board of Trustees on their role in the accreditation process and expectations. She also shared best practices on the requirements on board involvement and responsibilities as Board of Trustees. (4.23)

WHCL has developed an evaluation of its shared governance and

assure their integrity and effectiveness. The institution widely communicates the results of these evaluations and uses them as the basis for improvement.

decision-making processes that includes faculty, staff, and student participation. One process has been the district/college function mapping survey that is distributed to all staff to assess their understanding of college and district functions. The survey was administered in 2006 and again in 2009. Results of the latest survey were reviewed by the college's Planning and Governance Council (PGC) and then distributed to all relevant constituencies. The college uses the results of the function mapping survey to identify areas of responsibility that are confusing to constituencies and take steps necessary to clarify role and function of staff and departments. (4.24)

In spring 2010, the college solicited the services of the Office of Institutional Effectiveness and Enrollment Management to survey members of the Strategic Planning Committee and the Planning and Governance Council as to the effectiveness and the understanding of their roles and responsibilities. The purpose of these surveys was to provide information for improvement of the college's planning and governance structures. (4.25, 4.26)

Based on committee self-evaluation regarding roles and responsibilities, some committees have changed their titles to represent their function. For example the Student Learning Committee has changed its title to the Institutional Effectiveness and Program Review Committee (IEPRC). The IEPRC focuses primarily on program review and the application of those reviews to the Educational Master Plan. The Student Success Committee explored the essential role and function of the committee and its relationship to institutional effectiveness. As a result, the role, function, and committee composition was broadened and essential documents were aligned to improve student learning. A tool for shared governance was created through the MyWestHills portal team site.

Self Evaluation

Through assessment surveys the college has evaluated college personnel for their understanding of college versus district functions, the functionality of its Strategic Planning Committee and processes, and the overall perception of the Planning and Governance Council. As a result of the college's assessment of its shared governance survey in spring 2010 the vast majority of respondents agreed or strongly agreed that each constituency has a defined role in shared governance, minutes are disseminated and available to all staff, and the shared governance process supports the quality, integrity, and effectiveness of student learning programs and services. The college's assessment survey of its effectiveness in strategic planning showed that constituencies feel the college is committed and

succeeding in achieving the vast majority of its goals of providing quality education, empowering students, and effectively maintaining productivity. (IV.A.5)

Planning Agenda Items

- None

IV.B Board and Administrative Organization

In addition to the leadership of individuals and constituencies, institutions recognize the designated responsibilities of the governing board for setting policies and of the chief administrator for the effective operation of the institution. Multi-college districts/systems clearly define the organizational roles of the district/system and the colleges.

IV.B.1

The institution has a governing board that is responsible for establishing policies to assure the quality, integrity, and effectiveness of the student learning

The governing body for West Hills Community College District is comprised of a seven member Board of Trustees along with one Student Trustee. Board members are elected at large for a term of four years. The terms of office for the members elected from the local district communities are staggered with biennial elections in accordance with California Education Code. The essential responsibilities of the Board of Trustees are to provide and facilitate the best possible learning environment for students; to assure that the district and colleges are effectively managed and fiscally responsible; to maintain fair and equitable policies for employees and students of the colleges; to be knowledgeable and supportive of the district and colleges mission statement; and to support the education programs and curriculum development, program review, and Student Learning Outcomes from each college.

The Board of Trustees assures that the district is financially sound and responsible through careful budget planning and ongoing reporting from committees, staff, and administrators and from the district office of the Vice Chancellor of Business and Human Resources. Monthly financial reports are discussed during WHCCD Board of Trustee Meetings. The annual audits have also been administered and WHCCD has been in compliance over the past review cycle.

Annually, the Board conducts an evaluation of the district chancellor and, in conjunction with the Board of Trustees, the chancellor conducts an evaluation of the college president. The president in turn evaluates his administrative staff on an annual basis. This year's evaluations were focused on the Franklin Covey principle of "7 Habits of Highly Effective People." (4.28, 4.29) (IV.B)

Descriptive Summary

The WHCCD Board of Trustees established Board Policy 2430, which addresses the delegation of authority to the district chancellor. By way of this policy, the Board of Trustees delegates to the chancellor the responsibility of administering policies adopted by the Board of Trustees and executing all decisions of the Board requiring administrative action. BP 2430 delegates responsibilities to the chancellor, whose duties include, but are not limited to, the power to make decisions when Board policy is silent, the authority to delegate, the interpretation of Board policy, and ensure compliance with relevant laws. (4.28)

programs and services and the financial stability of the institution. The governing board adheres to a clearly defined policy for selecting and evaluating the chief administrator for the college or the district/system.

In addition BP 2431 delineates authority to the chancellor and to the respective college presidents. BP 2510, entitled Participation in Local Decision Making, describes the college governance structures and processes. BP 2433, Chancellor Selection, outlines the process to fill the vacancy of a chancellor's position. (4.2, 4.27, 4.29)

The WHCCD Mission Statement directs the actions of the Board of Trustees to support student effectiveness of student learning programs and services and the financial stability of the institution.

The Board may adopt such policies as are authorized by law where determined by the Board to be necessary for the efficient operation of the District. Board policies are intended to be statements of intent by the Board on a specific issue within its subject matter jurisdiction. The policies have been written to be consistent with provisions of law, but do not encompass all laws relating to district activities. All district employees are expected to know of and observe all provisions of law pertinent to their job responsibilities. (4.6)

Policies of the Board may be adopted, revised, added to, or amended at any regular board meeting by a majority vote. When applicable, proposed changes or additions shall be introduced not less than one regular meeting prior to the meeting at which action is recommended. All board policies and administrative procedures relevant to the operations of the colleges are first reviewed by appropriate shared governance groups and recommendations are forwarded through the college governance councils to the chancellor and finally to the Board of Trustee for adoptions. Board policies and administrative procedures are available for review in the district office, president's office or district website. (4.8)

Administrative procedures are to be issued by the chancellor as statements of method to be used in implementing Board policy. Such administrative procedures shall be consistent with the intent of Board policy. Administrative procedures may be revised as deemed necessary by the chancellor. Board Policy and Administrative Procedures are subject to review and final approval by the Board.

Self Evaluation

The Board of Trustees has been a member of the Community College League's Policy and Procedure Service since 2000. Since that time, nearly 100 policies and 70 procedures have been reviewed and approved by the Board of Trustees. A Policy and Procedure Review Schedule is also in place which outlines the review schedule each

academic year.

A policy for the selection of the chief administrator for the district – the Chancellor – has been in place since November 2003, and was most recently reviewed and revised in February 2009. The existing policy with regard to the Chancellor’s evaluation by the Board of Trustees is currently on the Policy and Procedure Review Schedule and will be reviewed in February 2011. (IV.B.1)

Planning Agenda Items

- None

IV.B.1.a

The governing board is an independent policy-making body that reflects the public interest in board activities and decisions. Once the board reaches a decision, it acts as a whole. It advocates for and defends the institution and protects it from undue influence or pressure.

Descriptive Summary

The WHCCD Board of Trustees operates under a clearly defined Code of Ethics/Standards of Practice, which states that it makes decisions that give priority to the students. The Board is consistent with the District’s Mission Statement and is responsible for educational quality, legal matters, and financial integrity. The Board of Trustees established Board Policy 2430 to address the delegation of authority of the chancellor. By way of this policy, the Board of Trustees delegates to the chancellor the responsibility of administering policies adopted by the Board and executing all decisions of the Board requiring administrative action. (4.28, 4.30, 4.31)

The shortest term of current Board members is 13 years. One member has represented her community for longer than 40 years. Members have established a relationship of trust within the communities from which they are elected, and there have been no conflicts of interest. Board policies are in place to clearly define a trustee code of ethics (BP 2715) and conflicts of interest (2710). (4.30, 4.31)

Self Evaluation

The Board of Trustees discussed its code of ethics/standards of practice policy most recently at its Board meeting in April 2010. Code of ethics training was also discussed at that time. Since that time, it has been discovered that code of ethics training is not legally required for the Board; however, the Board has agreed that an occasional ethics review would be beneficial for all members. Although not scheduled for a formal annual review, the Board’s code of ethics is posted on their web page and is also available to the Board of Trustees in their agenda binders each month.

IV.B.1.b

The governing board establishes policies consistent with the mission statement to ensure the quality, integrity, and improvement of student learning programs and services and the resources necessary to support them.

The district's Conflict of Interest Code was updated in the spring of 2010 during the biennial review by the Fair Political Practices Commission. In turn, the Conflict of Interest procedure was updated and approved by the Board of Trustees. Board members have been diligent in completing their conflict of interest statements each year. (IV.B.1.a)

Planning Agenda Items

- None

Descriptive Summary

The WHCCD Board establishes policies consistent with WHCL's Mission Statement to ensure the quality, integrity, and improvement of student learning programs and services and the resources necessary to support them. Policy is currently in place that deals with quality, integrity, and improvement of student learning programs and services being consistent with the District Mission Statement. The Board of Trustees demonstrates responsible concern for the quality of the college's academic and co-curricular programs, and provides appropriate oversight to ensure fiscal soundness. (4.32, 4.33) Board Policy 4020 states, "The programs and curricula of the District shall be of high quality, relevant to the community and student needs, and evaluated regularly to ensure quality and currency." (4.34)

The WHCL Mission Statement is in alignment with the Board's Mission Statement in that its mission demonstrates quality, integrity, and commitment to improvement of student learning. Board members routinely interact with and ask questions of college and district representatives at board meetings in addition to hearing special reports and presentations on various programs, projects and issues. The Board approves curricular and academic policies, intending to ensure the high quality of educational programs at the college and throughout the district. Board policies address such issues as curriculum development and approval, course outline review, academic and student services policies, and related subjects. The Board approves new courses and programs, changes to existing courses, and academic policy changes. The Board is kept informed about other academic and regular issues through program review, accreditation, partnerships, contacts, and student and employee honors and awards.

At the District Board's Annual Retreat, held on February 5 and 6, 2010, the Board reviewed its goals and performance indicators for

currency, progress, and relevancy in an effort to ensure the quality, integrity, and improvements of student learning programs and services and the resources necessary to support them. In addition, this review encompassed the results of the ARCC (Accountability Report for Community Colleges) for areas such as a success, retention, and graduation rates. This review and previous reviews indicated areas of low performance and resulted in the college making adjustments to one of its instructional programs (Open Entry/Open Exit BUS and CIS Education) that provided for more traditional instruction. (4.35)

Self Evaluation

A Policy and Procedure Review Schedule is established in July of each year and Board policies and procedures are developed and reviewed consistent with that schedule. In the last three years, specific policies and procedures ensuring the quality, integrity and improvement of student learning programs and services were approved by the Board including: program and curriculum development, graduation requirements, matriculation, student rights, attendance, student records, prerequisite, enrollment, and resources. Prior to formal approval by the Board of Trustees, policies and procedures are routed to the various college governance groups for review and approval. The Board of Trustees receives their comments through the routing forms which accompany each policy and procedure. The process of routing policies and procedures has been streamlined over the past couple of years, allowing for a better flow of communication between the colleges, district, and Board of Trustees. (IV.B.1.b)

Planning Agenda Items

- None

Descriptive Summary

The WHCCD Board of Trustees is ultimately responsible for educational quality, legal matters, and in the financial integrity of the district, BP 6200, Budget Preparation. The WHCCD Board of Trustees receives input from constituencies, legal counsel, financial audit reports, architectural planners, campus shared governance groups, and college administration; they make independent decisions that demonstrate their responsibility to ensure educational quality and financial integrity to support student learning. Board Policy 4020 outlines the Board's responsibility for educational quality, as stated, "the programs and curricula of the District shall be of high quality,

IV.B.1.c

The governing board has ultimate responsibility for educational quality, legal matters, and financial integrity.

relevant to community and student needs, and evaluated regularly to ensure quality and currency.” Furthermore, “all new courses, programs, and program deletions shall be recommended by the Curriculum Committee to the Chief Instructional Officer who shall make a recommendation to the college president. The college president shall then submit a recommendation to the Chancellor for consideration by the Board and Trustees.” (4.36)

The financial integrity of the District is ensured through a review of the preliminary budget, tentative budget, and final budget. Thorough financial reports are provided to the Board on a monthly basis, and a financial audit is conducted and presented to the board each year. (4.37, 4.38, 4.39) Board Policy 6200 states that each college has developed a budget based on the master and educational plans of the District. It further states that the budget is presented to the Board for review, showing the Board's ultimate responsibility for financial integrity. (4.36)

At each Board meeting, representatives from collective bargaining groups, Academic Senate, and student government are given an opportunity to share with the Board information they feel is important. The Board considers this information in their decision-making process.

Self Evaluation

The Board of Trustees is committed to enhancing its knowledge of academic, legal and financial matters of the district. In addition to the monthly reports heard at each Board meeting, the Board of Trustees conducts a minimum of two study sessions and one day-long retreat each year. At these study sessions and retreats, the focus of the topics is on the quality of education and finances of the district. With regard to the quality of education, the Board has heard presentations on topics including accreditation, accountability and performance measures, and strategic planning. With regard to finances, bond counsel and investment advisors have educated the Board on long term planning and investing to support the district in the years to come. Legal counsel has also been brought in to discuss matters concerning the Brown Act and Conflicts of Interest. (IV.B.1.c)

Planning Agenda Items

- None

IV.B.1.d

The institution or the governing board publishes the board bylaws and policies specifying the board's size, duties, responsibilities, structure, and operating procedures.

Descriptive Summary

After approval by the WHCCD Board of Trustees, policies and procedures are posted on the District's website (http://www.westhillscollge.com/district/about/board_trustees/policies/index.asp). The policies and procedures are further made accessible to the public as they are housed in printed format in the WHCL Library/Learning Resource Center. These policies and procedures include the size and composition of the Board, and its duties, responsibilities, structure, and operating procedures, which conform to state law. The college has a committee structure that is responsible for recommending changes to policies and procedures to assure the quality, integrity, and effectiveness of the student learning programs and services and the financial stability of the institution.

The WHCCD Board of Trustees is comprised of seven members elected by the voters of the district to represent the trustee areas in which they reside. Trustee areas include Avenal, Coalinga, Firebaugh, Lemoore, Riverdale, and Tranquility. The Board regularly reviews and revises its policies. Board policies are brought to the Board after approval from the appropriate college shared governance committees, District Leadership Council, and Chancellor's Executive Cabinet. The Board has established policies for selecting and evaluating the chancellor and the college presidents (BP 210, Evaluation of Chancellor, and BP 214, Confidential and Management Evaluation). A student trustee also serves on the board and is selected by the respective college campus on rotating biases. The current student trustee is from Lemoore. (4.40, 4.41)

Self Evaluation

Policies and procedures relating specifically to the Board of Trustees, its duties, responsibilities, structure, and operations are available on the Board of Trustees web page and accessible by the public. These policies and procedures are also referenced and outlined in the Board of Trustees Handbook and are reviewed and updated as necessary. (IV.B.1.d)

Planning Agenda Items

- The board will review and update its Board of Trustees Handbook at its February 2011 retreat. This update will allow for current procedures to be incorporated in the board's handbook and serve as a guide should a new member come on the board in the future. (IV.B.1.d)

IV.B.1.e

The governing board acts in a manner consistent with its policies and bylaws. The board regularly evaluates its policies and practices and revises them as necessary.

Descriptive Summary

The minutes and agendas from WHCCD Board of Trustee meetings indicate that it acts in a manner which is consistent with its policies. These agendas and minutes are public and accessible on the district website or available in the office of the chancellor or college president. The minutes of previous board meetings are archived on the district website.

The Board has a system for evaluating and revising Board Policies and Administrative Procedures as reflected in Board Policy 2410, which results in review, updates, and approvals of its policies and procedures. Board minutes and agendas also offer evidence of regular review of Board Policies and Administrative Procedures that reflect the Board's support of student learning. (4.6, 4.9)

The District has instituted a Policy and Procedure Review Schedule for regular Board policy review. This ensures that Board policies are evaluated and revised on a regular and ongoing schedule. The Policy and Procedures Routing Form is used for tracking the progress of new and revised policies and administrative procedures. (4.39, 4.42)

For example, during the fiscal year of 2009-2010, many Board policies and Administrative Procedures were evaluated and revised. The evaluation process can begin at either the Board level or through established institutional governance bodies. This process is tracked through the use of the District's Routing Form. (4.39) This process resulted in the evaluation, revision, and implementation of 15 policies and procedures in 2009-2010. The district maintains a schedule that delineates the policies and procedures that are to be reviewed each academic year. (4.42) The Policy and Procedure Routing Form, which was developed, revised, and implemented in 2006, tracks the progress of new and revised Board policies.

Self Evaluation

The role of the Board of Trustees in reviewing and approving policies and procedures is clearly defined in Board Policy and Administrative Procedure 2410, which was most recently reviewed and revised in October 2010. Following the Policy and Procedure Review Schedule, the Board of Trustees regularly reviews its policies and procedures to ensure consistency with accreditation standards, Education Code and Government Code. Within 48 hours of Board approval, new or revised policies and procedures are posted to the Board of Trustees web page. This web page is accessible by the public. (IV.B.1.e)

IV.B.1.f

The governing board has a program for board development and new member orientation. It has a mechanism for providing for continuity of board membership and staggered terms of office.

Planning Agenda Items

- None

Descriptive Summary

The WHCCD Board has a program for Board development and new member orientation, as is reflected in Board Policy 2740; this program includes the Board's need to learn about accreditation standards and expectations. This policy states, "the Board is committed to its ongoing development as a board and to a trustee education program that includes new trustee orientation." (4.43, 4.44) Though no new members have joined the Board of Trustees since 1997, the orientation process is still available. The Board of Trustees handbook contains information that helps orient new members of the Board. (4.44) Members of the Board also self-evaluate annually and continue to educate themselves via their participation in the AACC (American Association of Community Colleges) Annual Convention, the CCLC (Community College League of California) Annual Trustees Conference, and the ACCT (Association of Community College Trustees) Conference, which include information on fiscal accountability, accreditation, and shared governance. Administrative Policy 2740 provides the opportunity and encourages the Board to attend these conferences on trusteeship. (4.43) In addition, the Board maintains currency with the accreditation process, as reflected in Board Policy 3200, through trainings provided by the ACCJC, as well as through periodic reports from the chancellor. (4.23, 4.45)

Board retreats and study sessions, which provide topics of varying interest pertaining to Board development, are conducted throughout the year. The Board has three retreat/study sessions a year that are designed to be extended opportunities to discuss relevant topics of particular board interest. Representative topics included facilities and fiscal planning, district workforce investment training opportunities, and Board's roles in the accreditation process. In addition, Board members attend many college activities that may be used as informational opportunities.

Board Policy 2100 states that Board elections are held in odd-numbered years and are staggered so that no more than four members are elected at one time. Annual Board reorganization and election of officers occurs in December of each year. (4.46)

IV.B.1.g
The governing board's self-evaluation processes for assessing board performance are clearly defined, implemented, and published in its policies or bylaws.

Self Evaluation

The Association of Community College Trustees (ACCT) recognized the longest serving member of the West Hills Community College District Board of Trustees at their Leadership Congress in Toronto, Canada in October 2010. All totaled, current members of the Board of Trustees have served a combined 151 years for the district. The shortest length of service at this time is 13 years. While new member orientation has not been necessary for several years because of the longevity of its members, the Board of Trustees has been provided with a Board of Trustees handbook and some members have been active participants in conferences and workshops including the Datatel Fall Executive Forum, ACCT Leadership Congress, CCLC Annual Convention, and accreditation training. (IV.B.1.f)

Planning Agenda Items

- None

Descriptive Summary

The WHCCD Board's current self-evaluation process is clearly defined by Board Policy and Administrative Procedure 2745 (4.47, 4.48) and is implemented on an annual basis during the Board's retreat. The board underwent its annual self-evaluation at the February 5 and 6, 2010 retreat. (4.23) The results were reviewed and presented in open session at the February 16, 2010 Board meeting and included code of ethics training and review of the Board of Trustees handbook. In general, the Board had high remarks for each other and how they generally function as individual Board members. (4.49) Still, at the March 8, 2010 regularly scheduled Board meeting, the Board received a presentation on Robert's Rules of Order, which was identified during the 2010 self-evaluation process as an area needing further education. (4.50)

Self Evaluation

In an effort to improve its self evaluation process, the Board of Trustees is scheduled to review Board Policy and Administrative Procedure 2745, Board Self-Evaluation, beginning in February 2011. The current self evaluation tool has been in place and utilized annually since 2004. (IV.B.1.g)

Planning Agenda Items

- None

IV.B.1.h

The governing board has a code of ethics that includes a clearly defined policy for dealing with behavior that violates its code.

Descriptive Summary

The WHCCD Board currently has both a Board Policy (BP 2715) outlining its code of ethics and an Administrative Policy (AP 2715) that deal with appropriate Board behavior that violates its code. BP 2715 outlines the code of ethics for the Board. Board members are entrusted to provide evidence of good citizenship in community and state affairs; refrain from making any decisions or commitments concerning community college governance, except in Board meetings or when designated by the Board to do so; avoid situations leading to conflicts of interest; bring credit to the District through personal effort, either directly or indirectly, in business, social, professional, and personal relationships; make decisions which are responsive to the geographic distribution and social, ethnic, economic, and minority makeup of the community; make decisions which give priority to the students; keep informed on matters pertaining to the community college movement; and to fill the responsibilities of their commission without regard to prejudice or partisanship. (4.30, 4.51)

Administrative Policy 2715 (Code of Ethics/Standards) further outlines the code of ethics and the consequences of violations. AP 2715 notes that the Board fosters awareness of ethical expectation by ensuring that all trustees are aware of the Board's ethical expectation by providing the policy to all trustees and having it available at Board meetings. A review of Board ethics is part of the orientation of new trustees. The Board uses the standards in the code of ethics as criteria in the Board's self-evaluation process. Identifying consequences for violations of the code of ethics is also part of the orientation process. There have been no formal violations of the Board's policy. (4.44)

At the Annual Board Retreat on February 5 and 6, 2010, the Board reviewed the results of its self-evaluation. During that review, the Board discussed the results of several questions pertaining to Board ethics and its individual behaviors as they represent the District. In addition, there was a code of ethics discussion at the April 20, 2010 Board meeting. (4.52)

Self Evaluation

The Board of Trustees' Code of Ethics is posted on the Board's web page. Administrative Procedure 2715 specifically addresses violations of the code of ethics and consequences of those violations. Board members are reminded of the code of ethics within their self-evaluation process and provide comments and input for discussion

IV.B.1.i

The governing board is informed about and involved in the accreditation process.

during its review. (IV.B.1.h)

Planning Agenda Items

- None

Descriptive Summary

WHCCD Board policy is in place to ensure that the Board is informed of and involved with the accreditation process. Board Policy 3200 states that, “the Chancellor shall keep the Board informed of approved accrediting organizations and the status on accreditations.” It further states that “the Chancellor shall ensure that the Board is involved in any accreditation process in which Board participation is required.” (4.45) The Board receives monthly progress reports via the college presidents. The college presidents regularly keep the board informed on the progress of the development of the self-study, midterm, or follow-up reports, and meeting recommendations from previous visiting teams. The Board also reviews and provides final approval for the college’s self-study document prior to the accreditation visit. (4.14)

The Board receives training for understanding the accreditation process and standards, as evidenced by the annual Board retreat held on February 5 and 6, 2010. During the February 2010 retreat, the President of the Western Association of Schools and Colleges presented information on the involvement and responsibilities of the Board of Trustees in the accreditation process. (4.23)

Self Evaluation

In February 2010 the Board of Trustees held their annual retreat at which the President of the Accrediting Commission for Community and Junior Colleges was invited to speak. The topic was “Accreditation Expectations”. Dialogue between the ACCJC President and Board Members included discussions about the Board’s role in accreditation. In addition to this formal presentation, Board members are provided with minutes of various district and college meetings which typically include a time for updates on accreditation matters. The Board is also given the opportunity to read each college’s self study and provide comments and input prior to its final approval. (IV.B.1.i)

Planning Agenda Items

- None

IV.B.1.j

The governing board has the responsibility for selecting and evaluating the district/system chief administrator (most often known as the chancellor) in a multi-college district/system or the college chief administrator (most often known as the president) in the case of a single college. The governing board delegates full responsibility and authority to him/her to implement and administer board policies without board interference and holds him/her accountable for the operation of the district/system or college, respectively. In multi-college districts/systems, the governing board establishes a clearly defined policy for selecting and

Descriptive Summary

WHCCD Board Policy and Administrative Procedure 2433 are written to ensure that the Board selects the district's chancellor. (4.29) Board Policy 2431 defines a clear delegation of responsibility and authority to implement and administer Board policies to the district's chancellor. (4.27) Board Policy 2430 "delegates to the Chancellor the executive responsibility for administering the policies adopted by the Board and executing all decisions for the Board requiring administrative action." Board Policy 2430 further holds the chancellor "responsible to the Board." (4.28) This policy further holds the chancellor accountable for the operation of the District. Currently Board Policy 210, which addresses the evaluation process of the chancellor, is being reviewed. (4.40) Regular reports from the chancellor on district performance are a standing item on the Board of Trustees monthly agenda. The Board reviews college progress using performance indicators, which are provided by data gathered by the Office of Institutional Research and Enrollment Management. The Board is also involved in the development of the District's Strategic Plan, which guides the development of the college's Educational Master Plan.

Self Evaluation

Due to the employment longevity of the district's Chancellor, the Board of Trustees has not gone through the process of selecting someone for this position in quite some time; however, the Board of Trustees annually reviews the Chancellor's performance and has established policies and procedures delineating authority to the Chancellor, along with policies and procedures for the succession and selection of the Chancellor. Acknowledging the fact that the district's current Chancellor will likely retire within the next few years, the Board of Trustees embarked upon a series of "Succession Planning" discussions with a consultant to begin planning for the future. (IV.B.1.j)

Planning Agenda Items

- None

evaluating the presidents of the colleges.

IV.B.2

The president has primary responsibility for the quality of the institution he/she leads. He/she provides effective leadership in planning, organizing, budgeting, selecting and developing personnel, and assessing institutional effectiveness.

Descriptive Summary

The college president is responsible to the chancellor to carry out the district policies and is the final authority at the college level. The Board of Trustees establishes institutional policies and delegates responsibility to implement these evaluation policies. Each president carries out the policies of the board as well as the board's and chancellor's recommendations on a continuing basis. The philosophy of both the chancellor and the Board of Trustees has been in the direction of "providing the college's with local autonomy." The president is in the best position to determine how to exercise this on his/her campus most effectively.

WHCL's president receives his authority from the chancellor and sets the course and direction of the college providing leadership for fiscal accountability, professional development, strategic planning, educational master planning, facilities planning, community relations, program development, campus development, institutional effectiveness, and the accreditation process. The president has been employed with the district since 1986, was selected as the interim WHCL president in 2004, and became the permanent president in 2005, providing for historical perspective and campus continuity.

Self Evaluation

The President meets with his executive cabinet twice a month to keep his administrative team current on areas such as directions and tasks assigned from the Chancellor, community updates, areas needing administrative recommendation, recommendations from the Planning and Governance Council, review progress on achieving college/district goals, and student success. The President's Executive Cabinet meetings are also a venue for administrative staff to report on events or activities from their respective areas, requests for direction or support, update on enrollment and course scheduling, and recommendations for new service initiatives or program offerings.

The President also holds monthly information meeting with District staff and his college leadership team. In addition to college administration, college faculty and classified leadership also attend. These meetings are known as the President's Intercommunication Team (PIT) and are usually through videoconference with district personnel located at the district office. Through these meetings

IV.B.2.a

The president plans, oversees, and evaluates an administrative structure organized and staffed to reflect the institution's purposes, size, and complexity. He/she delegates authority to administrators and others consistent with their responsibilities, as appropriate.

district personnel and college staff are able to communicate in areas such as budget updates, district updates, technology updates, marketing updates, and areas specific to district initiatives.

The President is also a member of the District Leadership Committee (DTC) which is comprised of the Chancellor, college presidents, college academic senate presidents, and district vice-chancellors. This group meets monthly and reviews board policies and administrative procedures prior to board approval and any other items of interest to the group. The Chancellor chairs this committee. (IV.B.2)

Planning Agenda Items

- None

Descriptive Summary

WHCL's president plans, oversees, and evaluates an administrative structure that is organized and staffed to reflect the college's purposes, size, and complexity. The college recently underwent a reorganization of its structure resulting in the creation of a new position of Vice-President of Student Services and realignment of its instructional and non-instructional learning areas as a result of an administrative vacancy. Instructional learning areas were reconfigured to improve college effectiveness by balancing staff and responsibilities. Student services were reorganized to enhance services to students to reflect the dynamic growing population and to be responsive to campus diversity.

Through the president's leadership of the college's Planning and Governance Council (PGC) and the President's Executive Cabinet, the tone for communicating the values, goals, and direction of the college, expected performance, accountability, culture of evidence, and data-driven and fiscally sound decision-making is set. The college regularly communicates with district office personnel through scheduled President's Intercommunications Team meetings (PIT). These meetings are regularly video conferenced between WHCL and the district office. The purpose of these meetings is to update each office with current decisions, activities, and recommendations from the respective offices. (4.8, 4.53)

WHCL's Institutional Effectiveness Planning Calendar, which is developed by the President's Office, ensures a cycle of planning, oversight, and evaluative efforts. (4.54) The college's president is also involved in a scheduled program review cycle that determines

the needs for the college's organization and staffing. The president delegates authority to administrators through the President's Executive Cabinet as appropriate to their administrative role. The president further delegates authority to others through the Planning and Governance Council. The administrators exemplify the expertise, quality, and integrity needed to support the college's mission, vision, and daily function.

Self Evaluation

The college has not undergone a formal evaluation of its administrative structure for a means of evaluating the structure in meeting the college mission and goals. The most recent change for the administrative team was the creation of the position of Vice President of Student Services and a reallocation of the supervision responsibilities in the area of student services. The administrative team is down one position with the resignation of the Dean of Educational Services in fall 2009. This position has not been staffed due to the recent state budget reductions; however, the responsibilities of the position have been distributed amongst remaining administrators. (IV.B.2.a)

Planning Agenda Items

- The president will work with the director of institutional effectiveness and enrollment management to develop an assessment tool for the evaluation of the college's administrative structure. This assessment will occur in spring 2011. (IV.B.2.a)

IV.B.2.b

The president guides institutional improvement of the teaching and learning environment by the following:

- *establishing a collegial process that sets of values, goals, and priorities;*

Descriptive Summary

WHCL's president plans, oversees, and evaluates an administrative structure that is organized and staffed to reflect the college's purposes, size, and complexity via the Educational Master Plan and the college's Strategic Plan. These were created in conjunction with the established constituents of the college via committees, forums, and councils, like the Planning and Governance Council, the President's Forum, the President's Executive Cabinet, Student Learning Outcomes Committee, and the President's Weekly Updates. These venues also allow the president to communicate college values, goals, and directions. (4.55) As a result of Strategic Planning Retreats and Student Town Hall Forums, the matrix has been developed to track progress on identified issues or areas for improvement. This matrix also identifies areas of responsibility and timelines. The president delegates authority through an established

- *ensuring that evaluation planning rely on high quality research and analysis on external and internal conditions;*
- *ensuring that educational planning is integrated with resource planning and distribution to achieve student learning outcomes; and*
- *establishing procedures to evaluate overall institutional planning and implementation efforts.*

governance process, which includes various committees and dialogue with the constituents of the college. The president further establishes a link to college research through the Office of Institutional Effectiveness and Enrollment Management. Through his leadership, the president makes every effort to inform all constituencies with updates, newsletters, publications, forums, and face-to-face contacts to address values and goals in the direction of the college.

College values and goals are further defined and evaluated through quarterly Strategic Planning Retreats, which also set the tone and direction of the college. Results of planning retreats are received by the Planning and Governance Council for review, adoption, and approval. The president also receives the results of the annual ARCC that guides program improvement and institutional effectiveness. Through the president's open forum and administrative committee meetings, communication is provided to emphasize the importance of student learning and learning outcomes.

As evidenced through the Institutional Planning Calendar, the president ensures assessment and evaluation of the College's goals and performance indicators by the District Office of Institutional Effectiveness and Enrollment Management. The president also ensures progression on the assessment of student learning outcomes through continuous progress reports by individual learning areas and the Student Learning Outcomes Coordinator. As a result of the president's leadership, robust dialogue in shared governance committees he leads the way for improved institutional effectiveness and enhanced standards for student learning.

Self Evaluation

The President has established a culture of evidence and decision making that effectively guides the planning processes of the college. He has provided and encouraged effective and consistent communication across all groups to include a venue for district office staff to be involved. He relies on data provided by the Vice Chancellor of Institutional Effectiveness and Enrollment Services for assessment of goals, institutional outcomes/performance indicators. The president ensures regular reports from college committees via the Planning and Governance Council and includes reports from those serving on district committees. As an example, college personnel serve on the District Technology Committee, The District Educational Coordinating Council, and the District Leadership Team. The President regularly invites leaders from faculty, staff, and students to attend the district Leadership Retreats, led by the Chancellor, which are held quarterly.

IV.B.2.c

The president assures the implementation of statutes, regulations, and governing board policies and assures that institutional practices are consistent with institutional mission and policies.

Finally, The President ensures a process of effective integrated planning, not only of district and college planning processes, but also for college based planning. This is exemplified by the structure of committee/councils (unit level), Learning Areas (department level), shared governance committees (division level), and PGC (college level).

As further evidence of evaluation of the college's planning and governance processes, the college recently (spring 2010) conducted an assessment of its strategic planning process via a survey to the strategic planning committee membership. Another survey was also administered to the members of the Planning and Governance Council to ascertain their perceptions of the transparency of governance on the campus. Overall, the results of the surveys were strongly positive. (4.25, 4.26) (IV.B.2.b)

Planning Agenda Items

- None

Descriptive Summary

Board Policy 2431 delineates authority to the college president. It states that the president is "responsible for carrying out the district policies." The president regularly reports to the Board about college progress, initiatives, and results from programmatic and curriculum changes at monthly Board meetings. (4.27) The president acts as a liaison between the district and the college through his participation on the District Leadership Council. This assures that the president is up-to-date with the Board's policies. The president regularly attends the Chancellor's Executive Cabinet meetings where Board Policies and Administrative Procedures are identified for review.

WHCL has developed its own Strategic Plan and Educational Master Plan, which serve as guides for the president and college personnel to adhere to State statutes and regulations, as well as Board policies. The president assures that college practices are consistent with its mission and policies through continuous planning decisions, updates, amendments, and changes. The College's Planning and Governance Council, the President's Executive Cabinet, the President's Intercommunications Team (PIT), the District Leadership Council, Academic Senate, learning area meetings, and one-on-one meetings with leaders of college constituency groups ensure that practices are consistent with the college's mission and policies.

The college's Strategic Plan, revised in 2008 and 2010, outlines the Mission Statement, Vision Statement, and Guiding Principles for West Hills College Lemoore. The Educational Master Plan further outlines the Mission Statement, Vision Statement, and Guiding Principles and provides direction for the implementation of new programs or services that further enhance the college's mission. (4.56, 4.57)

The Planning and Governance Council provides a venue for all constituents to consider college issues in light of the specific statutes, regulations, and Board Policies pertinent to each group. The Planning and Governance Council regularly receives updates and revisions to Board Policies and Administrative Procedures and has the opportunity to provide suggested improvements.

Through the Strategic Planning and Student Town Hall Matrix, the president and governing groups are able to report and monitor progress that is consistent with the College's mission. This progress includes adherence to the college's institutional outcomes, making improvements, ensuring alignment with accreditation standards, and adherence to Board Policies. The college has identified responsible governance groups to implement improvements to enhance college effectiveness. (4.5, 4.12)

The President's Executive Cabinet provides a venue for the president to assure that college practices are consistent with the mission and policies, as well as statutes, regulations, and Board policies, as they pertain to college programs and learning areas. (4.58)

Self Evaluation

The president assures the implementation of statutes, regulations, governing board policies, and administrative procedures. In addition, the president follows institutional practices consistent with the mission and goals of the college. The president and the administration constantly refer to the relevant statutes and the governing board policies when making important decisions at the college. These guidelines may also include federal and state guidelines for areas such as grant and categorical funded programs. One example of assuring the implementation of statutes and following board policies is when hiring committees are formed, members are trained in board policy for proper procedures to not only protect the district but to also protect the rights of the candidate. (IV.B.2.c)

IV.B.2.d

The president effectively controls budget and expenditures.

Planning Agenda Items

- None

Descriptive Summary

The president effectively controls the budget and expenditures of the college through the Budget Allocation Committee and to the Area Budget Committees, which are tied to the instructional areas and learning areas program review process. In the last few years, there has been no new income allocated to the college due to the State budget crisis. As a result, the college has only been allowed to move funds within its overall budget allocation. West Hills College Lemoore generated, in 2009-2010, approximately 58% of the district's overall income and has an expenditure budget of 32% of the district's overall expenditure. As a result, the college is fiscally responsible in meeting its budget obligations. The college, in conjunction with district office staff, has been very successful in obtaining outside funding through state and federal grants in categorical allocations. (4.59)

Because the budget development process is tied to program review, budgets are developed in relation to student learning outcomes (SLO), advisory committee recommendations, and are responsive to the current educational needs of the community. Program Review identifies fiscal needs and priorities by assessing the results of SLO assessments, program mission statements, performance indicators, and program data. (4.60) The results of the Program Review regarding fiscal needs are presented to the Budget Allocation Committee with oversight from the Planning and Governance Council. The president reviews and approves all budgetary recommendations and forwards them to the District Vice Chancellor of Business and Human Resources. (4.58, 4.59, 4.60)

Beginning in January of each year, the president begins the budgetary process by identifying funding sources, budgetary needs, and long-end projections for the next academic year. These conversations allow for early identification of potential budgetary shortfalls and begin the planning process in order to meet potential problems while ensuring that the college's mission is fulfilled. (4.61)

In the spring of 2010, the college was forced to reduce its course offerings by 40% of the 2009 offerings; effective scheduling resulted in maintaining the college's full time equivalent student target.

The president provides updates on the state, district, and college

budgets during the bi-annual President's Forum, Planning and Governance Council meetings, the President's Executive Cabinet, Duty Day Presentations, and via the president's Weekly Updates. (4.14, 4.38, 4.55, 4.58, 4.62, 4.63)

Self Evaluation

Although there has been no new funding for general fund categories, the president continues to direct his leadership team to conduct the budget planning process using the results of program review. As an example, the president directed that the process of identifying new faculty and staff positions continue in order that the district office was made aware of needs for the college. The college expects to open its new Golden Eagle Arena in spring 2011 and with 55,000 new additional square footage, custodial and maintenance staffing positions will be required. The president assured that these positions were identified in last spring's budget planning process. (IV.B.2.d)

Planning Agenda Items

- None

Descriptive Summary

The president works with the communities served by the college through participation in various community related organizations and programs. The president is a member of the Executive Council of the Central Valley Higher Education Consortium (CVHEC), which includes CSU Fresno; Fresno Pacific University; University of California, Merced; and other area community colleges. The mission of the CVHEC is to promote transfer and a college going culture to underrepresented groups. This Consortium meets biannually to review progress and develop new initiatives to meet their stated mission. (4.64)

The college president is a board member of the Lemoore Chamber of Commerce. This position allows the president to ensure a direct connection between the college and the local community. The college and Chamber have entered into partnerships of mutual benefit, such as offering entrepreneur training workshops and serving as a host for the recent Lemoore Chamber of Commerce Pizza Festival. (4.65)

The president is a member and past-president of the Lemoore Kiwanis Club. The Lemoore Kiwanis is dedicated to providing service to the local community and in particular the youth of

IV.B.2.e

The president works and communicates effectively with the communities served by the institution.

Lemoore. Specifically, the president partners with the Kiwanis Club to provide scholarships to college students. (4.66)

The president attends off-campus advisory committee and workforce training meetings, which include community members with specific vocational and program expertise, in order to develop programs of instruction that better serve the needs of the communities served by the college. (4.67)

The president is a member of the Executive Board of the Kings County Economic Development Corporation (EDC). The Kings County EDC is the venue for attracting industry and businesses to the local area and has frequently called upon WHCL to provide training for local businesses. For example, the college hosted a seminar for an Algerian Trade Commission that was visiting the Central Valley. (4.68)

The president and the college have a commitment to providing facilities for local educational entities, community, and county uses for conferences, conventions, trainings, fundraisers, and community events; as an example, the college recently hosted the League of Cities dinner meeting, the UC Merced Medical School Planning meeting, and the Partnership for the San Joaquin Valley Committee meeting. All of these are examples of how the college has become a community hub for outside organization to utilize for their individual needs. (4.69)

The president has incorporated membership from the local area on the Bond Oversight Committee, which ensures oversight of the college's expenditures for new facilities in conjunction with Measure E. The college's Bond Oversight Committee is responsible for ensuring that construction funds are spent in accordance with the Measure E Ballot description. This committee first met in December 2009, following the passage of Measure E in November of 2008, and had a follow-up meeting in June 2010. (4.70)

Self Evaluation

Through his participation in the above identified groups, the president keeps the Chancellor and college community informed of local, area, and regional events concerning the college. The president also is asked to speak at local service clubs, make high school board presentations, and meets with local high school administrators to promote the college and its services. The college has also been host to regional and state intercollegiate athletics championships with is a testament to willingness of the college to be of service to community

and state organizations.

The President along with the Vice President of Student Services recently completed visitations to area high schools in the college's service area. The President and Vice President met with Principals to assess the effectiveness of West Hills College's outreach services and the role the college is playing in meeting their needs for improving their college going rates. In all eight high schools were visited and many ideas and suggestions for reports were identified. As an example, many principals requested additional support for their parents in understanding the college application process and additional reporting on how their students are fairing once they enroll at West Hills. During the college's next Strategic Planning Retreat in December, these same principals will be invited to attend to present their ideas to the college's planning team with a goal to strengthen the partnership and service to our local high schools. (IV.B.2.e)

Planning Agenda Items

- West Hills College Lemoore and its Student Success Committee will continue to enhance the college's service to its area high schools and continue the regular dialogue with high school principals and others to assess the quality of its outreach and services. The Student Success Committee will provide a plan to PGC and the college president by spring 2011 for approval. (IV.B.2.e)

IV.B.3

In multi-college districts or systems, the district/system provides primary leadership in setting and communicating expectations of educational excellence and integrity throughout the district/system and assures support for the effective

Descriptive Summary

WHCCD provides primary leadership through a hierarchical process of governance that starts with the Board of Trustees. The Board provides leadership in setting and communicating expectations of educational excellence and integrity throughout the district through Board Policies that dictate the expectations of quality, integrity, equity, and effectiveness of the student learning programs and services and the financial stability of the college. The Board also defines roles of authority and responsibility between the colleges and the district with the delineation of authority of the chancellor of the district to the college presidents. Board Policies 2430, 2431, and 210 outline and delineate this authority. (4.27, 4.28, 4.40) The district acts as a liaison between the colleges and the governing board through the Office of the Chancellor.

operation of the colleges. It establishes clearly defined roles of authority and responsibility between the colleges and the district/system and acts as the liaison between the colleges and the governing board.

IV.B.3.a

The district/system clearly delineates and communicates the operational responsibilities and functions of the district/system from those of the colleges and consistently adheres to this delineation in practice.

Self Evaluation

In November 2003 the Board of Trustees approved Board Policy 2430, Delegation of Authority to Chancellor. This policy outlined the authority given to the Chancellor to administer the responsibilities of the district.

In November 2005, the Board of Trustees approved Board Policy 2431, Delineation of Authority to District Chancellor and College Presidents. This policy outlined the relationship between the Chancellor and Presidents, stating that an essential element is a mutual understanding of their roles and responsibilities. It also determined the flow of authority, powers and duties. This policy was reviewed by the Board in February 2006 and again in May 2007. (IV.B.3)

Planning Agenda Items

- None

Descriptive Summary

Board Policy 2431 clearly defines the roles and responsibilities of the chancellor and the college presidents. Authority flows from the Board of Trustees through the chancellor to the college president. The college president is responsible for carrying out district policies. The college president's administrative organization is the established authority on campus. The college president is the final authority at the college level. (4.27)

The district clearly delineates and communicates the operational responsibilities and functions of the district from those of the colleges and consistently adheres to the delineation in practice. The District Office was developed as a service center to serve the colleges with periodic training and participation in college functions and activities, while adhering to internal and external practices.

In addition, the District Office completed a function mapping survey in the spring of 2010 to address campus awareness of operational responsibilities between the district and colleges. Generally, the survey results were strongly positive. (4.24)

Self Evaluation

Since becoming a two-college district in 2006, the Board of Trustees and administrative staff have continuously reviewed the

responsibilities and functions within the district to provide for a delineation of those functions that would best serve the needs of students and staff. In October 2009 a reorganization of the administrative staff took place which served to enhance the reporting lines at both the district and college levels. While keeping the same number of administrators, the responsibilities and reporting lines were refocused, allowing for a more streamlined approach to academic matters which involve both district and college staff. The daily, routine functions of departments such as business services, human resources, and information technology services were kept centralized at the district level. This structure allows for the colleges to focus on staffing and services that benefit students, leaving the overall business functions at the District Office. (IV.B.3.a)

Planning Agenda Items

- None

IV.B.3.b

The district/system provides effective services that support the colleges in their missions and functions.

Descriptive Summary

The District provides support and services to the College that includes human resources, grants support, foundation support, marketing, payroll and business services, information technology, learning resources, and research and planning. District personnel regularly meet and communicate with college staff to provide information, support, and data to assist the college in meeting its mission and goals. College staff serve on District level committees to represent the needs of the college. District personnel also communicate with the college via the President's Intercommunications Team. District administration and leaders of constituent groups regularly attend District Leadership Retreats. These retreats provide a venue for professional development discussion regarding new initiatives affecting community colleges and students, an opportunity for professional inquiry, and development and design of institutional initiatives that affect the Educational Master Plan, as well as other plans.

In 2010, the Function Mapping Survey to measure staff awareness and understanding of District and College functions, and the perceived effectiveness of those functions, was completed. The survey results indicated a strongly favorable opinion by all constituencies. (4.24)

Effective and continuous communication and planning by the college and the district, such as strategic planning, assessment of college goals, data for program review, best practices, personnel

management, budget accountability, categorical programs support, financial aid processing, assists the college in providing effective services and support for its educational programs and allow the leveraging of resources

The cooperation and collegial relationship between the District Office and college was commended in a 2009 report from the California Community College Chancellor's Office Categorical Program Site Review Report. (4.71) The 2009 California Community College Chancellor's Office Student Services Program Review and Technical Assistance site visit commended the college and district for its exemplary cooperation in providing services to students. The team also commended the college for its categorical “programs [which] have integrated and collaborated with all areas of the college, including the business office, fiscal services, instructional technology, and student services. There is constant communication and collaboration within the programs and services, both at the college level and the district office.”

Self Evaluation

District wide services include business, human resources, information technology, Foundation, research and planning, grants, and marketing. The district provides these services for the colleges and there is no duplication of these services on the college campuses. Administrators from each of these areas play a supporting role by their attendance and participation in various college meetings. Being informed of the needs of the colleges, the administrators for the various service areas are able to provide support for the mission and function by responding to their identified needs. (IV.B.3.b)

Planning Agenda Items

- None

Descriptive Summary

The District has a resource allocation procedure that provides for the distribution of resources that support the operations of the colleges. Administrative Policy 6225 outlines the distribution of fiscal resources. The Resource Allocation Procedure is a mechanism to control check balances within the college. (4.72)

The president effectively manages budget items by prioritizing them based upon availability of funding. West Hills College Lemoore generates approximately 58% of the district's overall income and has

IV.B.3.c

The district/system provides fair distribution of resources that are adequate to support the effective operations of the colleges.

an expenditure budget of 32% of the District's overall expenditure. As a result the college is fiscally responsible in meeting its budget obligations.

Due to the state's recent budget shortfalls, the college has worked with the district to ensure adequate fiscal support for its operations. Although the college has regularly requested additional funding that it believes is needed to meet its educational commitments, funding has not been available to provide for new programs and staffing. The District Allocation Model provides for basic funding for each of the district's colleges. While at times the college expresses the desire to have additional funds, the procedure for allocation of funds is outlined in AP 6225, Resource Allocation, which is reviewed annually. The college is hopeful that additional funding will be made available to the college as the state's budget situation improves. (4.72)

The district delegates all the daily operations and services to the college presidents. (4.6, 4.27) The College's primary responsibility is to establish, promote, and to fulfill the college mission and follow all district, local, state, and federal policies and regulations. (4.12, 4.32) District office staff regularly support the daily college operations specific to their area of expertise.

Self Evaluation

Resource allocation is an important mechanism used by the district and colleges on an annual basis through the budget planning and development process. Input into the resource allocation procedure is provided at all levels throughout the district (classified, faculty and administrative staff). This input most recently occurred in January 2010 when the administrative procedure was reviewed by all constituent groups. The procedure is scheduled again for an annual review in 2011. (IV.B.3.c)

Planning Agenda Items

- None

Descriptive Summary

The district chancellor is responsible to the Board of Trustees for the administration of the district in accordance with the provisions of Education Code and the policies of the district. As such, the responsibility and accountability for resource management, budget developments, and controlled expenditures ultimately reside at this

IV.B.3.d
The district/system effectively controls its expenditures.

level; however, the college president is independently responsible for managing the college's budget. At each Board meeting, updated budget status reports are provided for Board review, and the Board monitors the proportionate amount of spending relative to the time remaining in the fiscal year. (4.37)

The college's financial control mechanisms include authorization through the purchase requisition process that requires multiple approvals. The district's Datatel MIS financial system prohibits the creation of a purchase requisition where the funds are not available.

The district's annual audit report confirms that the District's 311 report is a true representation of the fund balance at the end of the fiscal year. This report becomes a source document for the districts auditors to use to verify that balances and accounts are in order. (4.73, 4.74)

The district's payroll system includes employee timecards that reflect accurate reporting of staff time so that there are not any overpayments. (4.74) Some employee timecards are electronic which allows for accuracy and efficiency.

Bond project funds are frontloaded with the district's resources prior to reimbursements from the State of California. The district monitors this cash flow to meet its financial obligations. (4.75)

Recent audits reveal no exceptions or material findings that would warrant substantial recommendations concerning fiscal accountability. The most recent audit was rated unqualified and represented that the district ended with a fund balance greater than the required 5% reserve. In addition, the district's categorical and grant programs undergo annual audit review to ensure fiscal accountability. There were no audit exceptions reported over the last six years. (4.74, 4.76)

Self Evaluation

Controlling expenditures during a time of budget crisis throughout the state has become an ongoing theme in the past few years. Beginning in June 2009 discussions were initiated with the Board of Trustees with regard to the recommended adoption of a declaration of emergency based on the overall fiscal condition of the State; the impact of the fiscal crisis on the district to date; pending program reduction; no action by the Legislature; and non-payment of apportionment and construction costs from the State. The Board of Trustees was asked to consider a fiscal emergency as the outlined

events would severely impair the health and safety of the district and its colleges. After several discussions the Board voted, instead, to implement mandatory furlough days for all classified, faculty, management, confidential, and administrative employees. The furloughs were in effect throughout the 2009-2010 fiscal year. As a result of the furloughs, the district avoided potential layoffs of 22 employees and more than \$1.4 million was saved. At the conclusion of the fiscal year, employees were informed that the furloughs would not be necessary in the ensuing year because of the sacrifices made for the benefit of the district. (IV.B.3.d)

Planning Agenda Items

- None

IV.B.3.e

The chancellor gives full responsibility and authority to the presidents of the colleges to implement and administer delegated district/system policies without his/her interference and holds them accountable for the operation of the colleges.

Descriptive Summary

The president plans, oversees, and evaluates administrative structure that is organized and staffed to reflect the college's purposes, size, and complexity. Through the president's leadership in the college's Planning and Governance Council and the President's Executive Cabinet, he sets the tone for communicating the values (goals), and direction of the college, expected performance, accountability, a culture of evidence, data driven decisions, and fiscally sound decision-making. The president communicates the importance of a culture of evidence and a focus on student learning through student learning outcome assessment and evaluation. The president has put in place several mechanisms to link institutional research, such as program review for resource allocation and the Educational Master Plan.

Board Policy 2431 states, "Authority flows from the governing board through the chancellor to the college presidents. [The] college president is responsible for carrying out the district policies. [The] college president's administrative organization shall be the established authority on campus. The college president is the final authority at the college level." (4.27)

In the Fall of 2009, the president developed an administrative reorganization plan to improve college effectiveness. The plan was adopted in September of 2009. (4.77)

The college president is also involved in a scheduled program review cycle that reviews the office of the president and educational services. The president determines the needs for the college's organization and staffing. (4.78) The president delegates authority

to administrators through the President's Executive Cabinet as appropriate to their administrative role. The president further delegates authority to others through the Planning and Governance Council. The administrators exemplify the expertise, quality, and integrity needed to support the college mission vision and daily functions.

Self Evaluation

Each College President is provided with the authority to administer the operations of their respective college as outlined in Board Policy 2431. The Chancellor's Executive Cabinet team, comprised of the Chancellor, Vice Chancellors, College Presidents, and Executive Director of the Foundation, meets on a monthly basis to review and discuss issues and areas of importance for both the colleges and district. At these meetings, guidance is provided by the Chancellor to the College Presidents concerning the topics at hand. The College Presidents were recently asked to review their college organizational structure and provide recommendations to the Chancellor. They also took the lead on a Board requested report concerning their athletic program and provided data for review and discussion. Budget planning cycles begin at the college level and each college adheres to its own process when developing the budget. (IV.B.3.e)

Planning Agenda Items

- None

Descriptive Summary

The chancellor and president serve as liaisons between the Board and the college as a final step in effective communication. Representatives of the various constituencies communicate issues and concerns to the president and at the district level through the governance process. All reports and policies are available to the public via the WHCCD website. (4.14, 4.61, 4.63)

The district and colleges use various levels and forms of communication and committees that function to ensure that communication remains timely and accurate. The chancellor sends budget update letters to all employees electronically with news concerning the state, system, and college financial situations. The District Employee Newsletter regularly informs college and district personnel of events and happenings throughout the district. The WHCL college newspaper, *The Screaming Eagle*, is a venue to provide staff and students information about news and events. The

IV.B.3.f

The district/system acts as the liaison between the colleges and the governing board. The district/system and the colleges use effective methods of communication, and they exchange information in a timely manner.

college president distributes a weekly college update and the chancellor periodically communicates a district commentary, letter/newsletter, or presentation on the district's website (<http://www.westhillscollge.com/district/about/chancellor.asp>). In addition, the president provides the Board a monthly update of college events and activities, which are supplied by area personnel. (4.79)

College personnel participate in Duty Days and classified staff development days, are members of district-wide committees, and attend district level leadership retreats. At Duty Day the chancellor gives a state of the district report. In addition, college personnel regularly participate in district strategic planning sessions and assist with the development of college plans. Both college and district personnel regularly collaborate and exchange information through individual meetings and through the Presidents Intercommunications Team meetings. (4.53, 4.62)

All Board policies scheduled for review, before final Board approval, are routed through the governance process committee structure at each college. The WHCL Planning and Governance Council and its standing subcommittees review all Board policies before they go to the Board for approval.

Self Evaluation

The offices of the College Presidents provide a monthly President's Report to the Chancellor's Office which is included in the Board of Trustees' agenda binders each month. Also included in the binders are minutes of the Chancellor's Executive Cabinet meetings and District Leadership Council (DLC) meetings. In addition, the minutes of the quarterly Leadership Retreats are included. These retreats are attended by all administrative employees at the college and district level. The active participation in these meetings by all administrative employees at the college and district level is a good example of the communication and information exchange which occurs on an ongoing basis. (IV.B.3.f)

Planning Agenda Items

- None

Descriptive Summary

WHCCD regularly evaluates its role, delineation, and governance and decision-making structures and processes to assure their integrity

IV.B.3.g
The district/system regularly

evaluates district/system role delineation and governance and decision-making structures and processes to assure their integrity and effectiveness in assisting the colleges in meeting educational goals. The district/system widely communicates the results of these evaluations and uses them as the basis for improvement.

and effectiveness in assisting the colleges in meeting its educational goals. The Office of Institutional Effectiveness and Enrollment Management uses a function map assessment survey to assess the staff's understanding of the role and function of the district and college. It also assesses the perceived effectiveness of each of those functions. The district widely communicates the results of those evaluations and uses them as the basis for improvement. The function mapping survey assesses the level of understanding of district and college functions as well as perceived effectiveness of those functions. The Office of Institutional Effectiveness and Enrollment Management disseminates results to college presidents.

The results of district-level program reviews are submitted to the Board of Trustees for approval. Examples of district-level programs that undergo review are child development, financial aid, institutional effectiveness, marketing, distance learning, grants, work force development, business services, human resources, foundation, web services, chancellor's office, ITS, and learning resources. The district also reviews and analyzes its performance indicators. Results of district-level program reviews are shared at the Planning and Governance Council for review and approval. (4.8)

The district-level operations and services undergo a regular program review assessment, which is integrated with the college planning process. The programs are reviewed at the district-level through the chancellor's cabinet, and then forwarded to the college's Planning and Governance Council for review. As a result of the program review, each district function is evaluated to see its relevancy as a district function or college function.

Self Evaluation

The most recent function mapping survey was conducted in Spring 2010. The results of this survey were used to assess the perception of employees concerning the roles and functions of the services provided by the college and district. Program review is conducted in non-academic areas at the district level and results are shared with the colleges and Board of Trustees. District level program reviews are part of an ongoing cycle every four years. (IV.B.3.g)

Planning Summary

West Hills College Lemoore Report of the Institutional Self Study Spring 2011

West Hills College Lemoore administration, community members, faculty, staff, and a cross-section of constituencies, have produced this self-study report. Analysis and introspection has resulted in describing the overall practices, processes, and effectiveness of how the college conducts itself as an institution of higher learning, fully cognizant of the activities that need to be addressed. The college formally recognizes these areas of concern as planning agenda items following each standard as appropriate. The college will accomplish these planning agenda items over the short term.

Planning agenda items compiled within this report have similarities (themes) that are parallel with the goals listed in the college's Strategic Plan:

- 1) **Institutional Commitments**—to provide high quality educational programs and services consistent with the college mission by focusing on student learning.
- 2) **Evaluation, Planning, and Improvement**—is an ongoing process that includes goal setting, distribution of funding, facilities, staffing, implementation, and re-evaluation.
- 3) **Student Learning Outcomes**—demonstrate the college's effectiveness to produce and support student learning by developing student learning outcomes at the course, program, certificate, and degree level.
- 4) **Organization**—is demonstrated by having adequate staff, resources, and a shared governance decision-making process to identify and make public student learning outcomes, to evaluate the effectiveness of programs in producing those outcomes, and to make improvements.
- 5) **Dialogue**—is open and honest in the college's process of self- reflection based on reliable information about the college's programs and services, and evidence on how well the institution is meeting student needs.
- 6) **Institutional Integrity**—is demonstrated by concern with honesty, truthfulness, and the manner in which the college represents itself to all communities, internal and external.

Self Study Planning Agendas by Standard

Standard One: Institutional Mission and Effectiveness

- Utilize email and other electronic means to improve the dissemination of the annual results of institutional outcomes achievement. The Office of

Institutional Effectiveness and Enrollment Management will be responsible for disseminating these results no later than the fall 2011. (I.B.5)

Standard Two: Student Learning Programs and Services

- Led by the Institutional Effectiveness and Program Review Committee, the college will demonstrate how program review is used to improve student learning and progress in achieving SLOs by the fall 2012. (II.A.1.a)
- Led primarily by the SLOC and administration, the college will fully implement the course and program level assessment cycle. The college will be in full compliance with this standard by 2012. (II.A.1.c)
- The associate dean of educational services will work with the district office to determine the best method to better include adjunct faculty in the SLO communication loop. This will occur before the spring 2012 term. (II.A.1.c)
- The college will review data (state and local labor market information and institutional effectiveness data) to determine most urgent skills needed for local market to develop a five-year plan for the contract education program. (II.A.2)
- The college will examine fiscal allocation resources to determine the timetable when a full-time ESL instructor can be hired. (II.A.2)
- Led by the Curriculum Committee Chair and the Vice President of Educational Services, all course outlines will be no older than five years by the spring 2012. (II.A.2.a)
- The college will continue to assess and evaluate course level student learning outcomes. Appropriate changes to student learning outcomes will occur upon analysis of results. This activity will be led by the Student Learning Outcomes Committee and all members of the administrative team. (II.A.2.b)
- The college will develop all program level student learning outcomes by following its implementation plan. This activity will be led by the Student Learning Outcomes Committee and all members of the administrative team. (II.A.2.b)
- The college will place course, program, and certificate sheets on the MyWestHills portal to increase access for students and staff. (II.A.6)
- The college leadership will work with its sister college and district office to develop a program discontinuation policy by Spring 2012. (II.A.6.b)
- By the fall of 2011, the vice chancellor of institutional effectiveness and enrollment management will develop electronic student educational plans. (II.B.1)
- By the spring of 2011, the dean of students will improve the customer service provided to students from the front counter staff. (II.B.1)
- By the fall of 2011, the dean of students will increase student awareness of electronic resources on the web, such as the catalog. (II.B.1)
- In the fall of 2011, the vice president of educational services will provide orientation and training to staff and students on catalog content and how to find changes. (II.B.2)
- In the fall of 2011, the vice president of student services will provide the handbook and other essential documents in Spanish. (II.B.2)

- By the fall of 2011, the district webmaster will have updated the college webpage with current information to ensure accuracy of all college information. (II.B.3.a)
- In the spring of 2011, the college will work with the district Registrar and the IT department to implement degree audit and electronic student educational plans. (II.B.3.a)
- In the spring of 2011, the dean of students will identify and implement strategies to improve access and efficiency of placement testing, while ensuring the needs of ESL students are met. (II.B.3.e)
- The college's librarian, during the college's budget planning and allocation process, will continue to request adequate funding to improve collection purchases, staffing increases, and additional hours of operation to meet the needs of the student population. (II.C.1.a)
- The librarian will work with the Academic Senate and Curriculum Committee to develop an across-the-curriculum information competency program no later than 2012. (II.C.1.b)
- The librarian will develop online tutorials to assist distance learners with information competency concepts no later than the end of 2011. (II.C.1.b)
- DSPS program staff will meet and discuss methods for increasing attendance to student training sessions in 2011. (II.C.1.b)
- The tutor coordinator, librarian, and associate dean of educational services will create a method of resolving the deficiency of online tutoring by 2012. (II.C.1.c)

Standard Three: Resources

- The college will strengthen the participation of part-time faculty in the assessment of SLOs led by the associate dean of educational services. (III.A.1.c)
- The district will develop a procedure in the faculty evaluation that includes the assessment of SLOs that will be consistent throughout the district. (III.A.1.c)
- Led by the college president, WHCL will begin to evaluate all administrators, managers, and classified staff on the development of SLOs by fall 2011. (III.A.1.c)
- A code of ethics policy will be developed by the Board of Trustees for all employees in the spring of 2011. (III.A.1.d)
- Human Resources should establish a schedule for ongoing training for equal employment practices. (III.A.3.a)
- The college will examine the timeline for requesting new faculty to avoid the implementation of recommendations being made too late for the effective faculty hiring for the upcoming academic year, even though the state budget is usually in flux until August. (III.A.6)
- The college needs to continue the evaluation and assessment of various security systems and protocols to meet the expanding college campus. This will be accomplished by the director of maintenance & operations along with the Facilities Committee. (III.B.1.b)

- The director of maintenance & operations will monitor the parking lot for future rejuvenation and to examine temporary parking needs due to the new construction. (III.B.1.b)
- Campus safety issues, such as lighting and classroom ramp coatings for slippage, will be monitored by the director of maintenance & operations. (III.B.1.b)
- The college needs to establish a guaranteed operating budget for an equipment replacement cycle. (III.B.2.b)
- The college needs to identify resources to establish a freestanding shipping and receiving area. The addition of more delivery vehicles has also been identified as future capital expenditure need. The director of maintenance & operations will be responsible for recommending appropriate resource requirements. (III.B.2.b)
- The college will increase student participation on the college's Technology Committee and the district Technology Advisory Team. (III.C.1)
- The college's technology committee will survey campus needs and future technology requirements and forward recommendations through the college and district shared governance processes. The college will work with campus categorical programs and district grants office to identify funding sources to meet its future technology needs. (III.C.1.a)
- The college will improve student technology training. (III.C.1.b)
- The college will explore ways to make the "Online Readiness" quiz more visible. (III.C.1.b)
- The college will expand the composition of the DTC to include faculty and classified staff. (III.C.2)
- The college will clarify roles and responsibilities of the college Technology Committee and Technology Advisory Team. (III.C.2)
- The district director of marketing will identify appropriate mechanisms to inform the college community about current financial status of the district. (III.D.2.b)
- The district Business Procedures Manual needs to be more widely distributed and training needs to occur. (III.D.2.f)

Standard Four: Leadership and Governance

- The college's shared governance committees and associate dean of education and evening college will develop stronger mechanisms to involve adjunct faculty and evening students in the shared governance processes of the college. Initial reports will be developed and shared with the Planning and Governance Council by the start of the fall 2011 term. (IV.A.1)
- The college's Employee Development and Success Committee has identified a need for staff training and understanding of the college's shared governance processes. Some employees are not fully aware of the function of the Planning and Governance Council and its shared governance committees. The EDSC will develop the training workshop and assess the results of its training to ensure staff have a better understanding of the governance process. This training will occur in spring 2011. (IV.A.3)

- The board will review and update its Board of Trustees Handbook at its February 2011 retreat. This update will allow for current procedures to be incorporated in the board's handbook and serve as a guide should a new member come on the board in the future. (IV.B.1.d)
- The president will work with the director of institutional effectiveness and enrollment management to develop an assessment tool for the evaluation of the college's administrative structure. This assessment will occur in spring 2011. (IV.B.2.a)
- West Hills College Lemoore and its Student Success Committee will continue to enhance the college's service to its area high schools and continue the regular dialogue with high school principals and others to assess the quality of its outreach and services. The Student Success Committee will provide a plan to PGC and the college president by spring 2011 for approval. (IV.B.2.e)

Acronyms/Abbreviations

The following acronyms/abbreviations have been used within this document:

- AA**—Associate of Arts
- AB**—Assembly Bill
- ABC**—Area Budget Committee
- ACCJC**—Accrediting Commission for Community and Junior Colleges
- ACRL**—Association of College and Research Libraries
- ACT**—American College Testing
- ADA**—Americans with Disabilities Act
- AOJ**—Administration of Justice
- AS**—Associate of Science
- AVVID**—Audio Voice Video

- BA**—Bachelor’s of Art
- BOG**—California Community College Board of Governors
- BS**—Bachelor’s of Science
- BUS**—Business

- CA**—California
- CAMP**—College Assistance Migrant Program
- CAN**—Common Articulation Number
- CCCCO**—California Community College Chancellor’s Office
- CCLC**—Community College Library Consortium
- CCLCCC**—Council of Chief Librarians of California Community Colleges
- CCLEAR**—Community College Library Electronic Access Resources
- CELSA**—Combined English Language Skills Assessment
- CIO**—Chief Instructional Officer
- CIS**—Computer Information Systems
- CLEP**—College Level Examination Program
- COP**—Certificates of Deposit
- CPEC**—California Post-Secondary Education Commission
- CPOST**—Correctional Peace Officers Standards and Training
- CSEA**—California School Employee Association
- CSSO**—Chief Student Services Officer
- CSU**—California State University
- CTA**—California Teacher’s Association
- CTEP**—College Test of English Placement
- CVC**—California Virtual Campus

- DLC**—District Leadership Council
- DSPS**—Disabled Students Program and Services
- DTS**—Data Transfer Service

EDD—Educational Doctorate
EOPS—Equal Opportunity Program and Services
ESL—English as a Second Language
ETS—Educational Talent Search

FA—Fall
FAFSA—Free Application for Federal Student Aid
FTES—Full Time Equivalent Student
FY—Fiscal Year

GED—General Education Development
GPA—Grade Point Average

HRCM—Hotel, Restaurant, and Casino Management

IGETC—Intersegmental General Education Transfer Curriculum
IMPAC—Intersegmental Major Preparation Articulated Curriculum
IMS—Instructional Media Services
IPEDS—Integrated Postsecondary Education Data System
ITS—Information Technology Services

JPA—Joint Powers Agreement

KART—Kings Area Regional Transit
KCC—Kings County Center

L/LRC—Library/Learning Resource Center
LNAS—Lemoore Naval Air Station
LVN—Licensed Vocational Nurse

M&O—Maintenance and Operations
MDTP—Math Diagnostic Testing Project
MECHA—Movimiento Estudiantil Chicano de Aztlan
MOU—Memorandum of Understanding

NA—Not Applicable
NAS—Naval Air Station
NASL—Naval Air Station Lemoore
NCTE—National Council of Teachers of English
NISOD—National Institute for Staff & Organizational Development

PC&LAN—Personal Computer and Local Area Network
PGC—Planning and Governance Council
PHD—Doctorate in Philosophy
POST—Peace Officers Standards and Training

RN—Registered Nurse
RSP—Remedial Skills Program

SAN—Storage Area Network

SOCIAL SCIENCES LEARNING AREA MEETING WEST HILLS COLLEGE LEMOORE

JANUARY 25, 2010

2pm

TENTATIVE MEETING AGENDA

Ron, Pat, Vera, Rene, Veronica

- 1. Call to order**

- 2. Changes to the agenda**

- 3. Future meetings dates/times**
Mondays at 2pm

- 4. Curriculum report**
First Meeting is next week
Issues with portal
District Curriculum Coordinating Committee—discussion followed

- 5. SLO update**
Assessment—Hist 17ab, Geog 1,3, Soc 7
Analysis—Soc 1,2, Geog 1,3,2a
Evaluation—Soc 1,2, Hist (all), Geog 1,3,2a, CD 17c, 12a
Modification—
91% of non instructional have defined SLOs, analysis only 18%

- 6. Program review**
CD at next PGC

- 7. Academic senate report**
Tenure
DCCC
NISOD

- 8. Classroom issues**
1000 lighting
VC rooms—remote is needed from Joe
Camera to show whiteboard at Coalinga site
Library leaks—M&O has been informed
Door locks in library—use of plan “B”
Most classroom clocks—needs adjustments

9. Faculty evaluations

No FT but adjuncts—Brady, Bellamy, Sievers, Dr. X

10. Possible new faculty positions

Psychology?

11. Other

12. Next meeting

FEBRUARY 22, 2010
2pm

Pat, Bob, Vera, Veronica

1. Call to order
2. Changes to the agenda
3. Curriculum report
Portal transition
Lib Arts update
4. SLO update
Vera provided an update
SLO Cycle
Share during
Each faculty will present a SLO assessment, results, and analysis
5. Program review
CD was passed by PGC
6. Academic senate report
Proposed Tenure
Elections
New policies
7. Classroom issues
1000 lights
Instructor station cleanliness—send an email on methods to make it look cleaner
8. Faculty evaluations
Squaring away assignments
9. Possible new faculty positions
CD, Psychology
10. Other
11. Next meeting—March 15 @ 2pm

MATH/SCIENCE LEARNING AREA MEETING

WEST HILLS COLLEGE LEMOORE

MARCH 12, 2010

12:00NOON

MEETING AGENDA

Dave, Frieda, Maria, Brian, David, Kurt, Bob, Shawn, Cliff

- 1. Call to order**
- 2. Changes to the agenda**
- 3. Curriculum report**
Shawn has accepted the opportunity to serve.
- 4. SLO update**
Math 1A—SLO 3: use of test results to review SLO
Bio 38—SLO 1: use of final exam to look at SLO
Brian, Bob, Shawn for next meeting
- 5. Program review**
Collection of completed program reviews this next month; e-versions, too
Upcoming program reviews to be due in fall will be announced by May
- 6. Academic senate report**
Weapons on campus
All other AP/BP have been sent out; prerequisite topic is “hot”
Elections
Tenure folk have been sent to the pres
Updating bylaws and constitution
- 7. Classroom issues**
Scheduling issues for MW or TTH classes and working around holidays
Clock batteries—711 719, 209, 274
- 8. Faculty evaluations**
Cliff, Bob, David, Brian
- 9. Other**
Relocate the financial comparison to the website, away from portal
- 10. Next meeting—April 9th @ noon**

SOCIAL SCIENCES LEARNING AREA MEETING

WEST HILLS COLLEGE LEMOORE

April 19, 2010

2pm

Bob, Ron, Vera, Pat

- 1. Call to order**
- 2. Changes to the agenda**
- 3. Curriculum report**
District Curriculum Committee Representation
Curriculum training for electronic submission of curriculum
- 4. SLO update**
Remember to assessment, review, and modify SLOs
Emphasis next fall will be on Lib Arts
- 5. Program review**
New program review booklet
Roll out in May
- 6. Academic senate report**
District Curriculum Committee was passed
New president and vice president
BP and AP approvals
New faculty positions—Ranking? Process to be determined.
Flex Day input
Accreditation visit is week of March 7th
Faculty Senate Awards at graduation
- 7. Classroom issues**
Library closed door issues
Food in library
Closed captioning wrt video conferencing
Theft of media equipment—DVD remote, cabling in 236; Scott has been informed
- 8. Faculty evaluations**
Kudos to Pat and Vera

9. End of the Year Business
Spring 2011 schedule input
Library hours reduced in summer

10. Other

Social Sciences/Math/Science Learning Areas

West Hills College Lemoore

August 13, 2010

Minutes

Present: Gibson, Ganter, Birrell, Sanchez, Hall, Kraft-Chapman, Harris, Jackson, Castagna, Babb, Sterling, Fortune, Abela, Kennedy

1. Changes to the agenda
Several items were added to the agenda—see agenda item #9
2. Campus issues and highlights
*Introduction of Allen Fortune
USDA Grant Update
New S-STEM NSF Grant*
3. Beginning of the school year business
*Submission of course syllabi to Ed Services Office
Update rosters
Waitlist was discussed
Syllabi to contain SLOs*
4. Curriculum Committee report
 - Representation
*Social Science—Vera
M/S—Shawn
Expectation that a report to be given at each Learning Area Meeting*
 - Five year review of course outlines
Curriculum reps will work with faculty to ensure currency
5. SLO update
 - Representation
*Social Science—Allen
M/S—Frieda
Expectation that a report to be given at each Learning Area Meeting*
 - Course level
*Faculty were complimented on developing SLOs and assessment
Adjunct faculty were given extensive information during their orientation*
 - Program level
This is the area of SLO work that should be the emphasis this year
 - Assessments—Documentation; Evidence that SLOs have led to changes in student learning
Provide documentation evidence to SLO Rep or D. Babb

6. Program review for 2010
 - Biology *Cliff*
 - Liberal Arts—Math and Science ??
 - Liberal Arts—Social Science *Bob H.*
 - Chemistry *Brian*
 - Mathematics *Frieda*

7. Academic senate report
 - Representation
Social Science—*Ron O.*
M/S—*Jameson*
Expectation that a report to be given at each Learning Area Meeting

8. Budget update
 - Equipment/Supplies
\$59K in lottery money will pass through the Budget Allocation Committee
Staff need to submit requests now for possible emergency funding
 - Schedule implications
25 additional sections were added to fall schedule upon presidential request
 - Staffing implications
Staffing in some disciplines is difficult and may hamper future schedule

9. Other business/discussion
 - 2 year schedule
Use form to submit conservative estimate on when courses should be offered
 - Spring 2011 schedule
Submit ASAP
 - Testing Center
Useful for make-up tests and placement exams
Need a computer lab; maybe DSPS lab?
Dave will discuss with Student Services staff

10. Next meeting—TBD

MATH/SCIENCE LEARNING AREA MEETING

WEST HILLS COLLEGE LEMOORE

FEBRUARY 19, 2010

12:00NOON

TENTATIVE MEETING AGENDA

Brian, David, Shawn, Kurt, Jameson, Angela, Bob, Cliff, Frieda, Kim

1. Call to order
2. Changes to the agenda
3. Curriculum report
*Up for grabs since Cliff is unable to attend. More discussion.
Status of biology and chemistry is likely to remain.
District level curriculum committee? Voice opinions to S. Droker.*
4. SLO update
Assignment—Report on an SLO being assessed, present results for next meeting.
5. Program review
Chemistry and Biology likely for fall 2010.
6. Academic senate report
*District curriculum discussion—faculty are encouraged to attend the first district curriculum committee meeting
Senate elections
Tenure nominations—Rodriquez, L. Hall, Rogers, Raia*
7. Classroom issues
*Lights outside 700
Lights outside 200 go off too early
Whiteboard in conf. center?
Theft of pencil sharpeners—replacement?
Updates on computers untimely
Hard key for cabinets within 700B for JB
Key cards—see Amber or Kyle
Projectors and media centers are left on after class*
8. Faculty evaluations

Full timers: Babb (Rengh, Abela), Ganter (Jackson, Birrell), Gibson (Birrell, Abela)

Adjuncts: Hartman (Birrell), Ford (Abela), Griffiths (Gibson), Gradis (Abela), Crain-Peltzer (Babb/Harris), Thomas (Birrell)

Full time faculty evaluators are to await word from Dave B. that is okay to evaluate.

9. Other

10. Next meeting—March 12 @ noon

Minutes-A & L Meeting

March 8, 2010

Present: M. Hall, T. McGee, N. Daniels, M. McDowell, J. Shehorn,

L. Howard, J. Preston, K. Sheffield, L. Beloof

1. Call to order at 12:02 pm.
2. Additions to the agenda-none.
3. Approval of minutes- no minutes to approve.
4. New Business
 - a. Teleconference meeting with Coalinga English Teachers- M. Hall was going to set up a meeting on March 22, but it was pointed out that we already have a meeting set up on March 15th. At the March 15th meeting, we will address English 1A, English 89 change to 100, and GS 61. M. Hall suggested T. Winters and J. Milianta be invited to the March 15th meeting. M. Hall also cancelled the March 22 meeting with the Coalinga English Teachers, and we will not be meeting for an A & L meeting on March 22nd either.
 - b. Spring 2010 Schedule- was passed around for everyone to provide input.
 - c. Adjunct Evaluations- J. Preston will evaluate Drew in Education, K. Sheffield will evaluate J. Milianta in GS and Wu in Linguistics, M. Ennes will evaluate Prelip and Johnson in Communications.
5. Old Business
 - a. SLO Assessments-faculty asked about the deadline for the SLO chair to submit an annual report. The deadline is in April. M. Mc Dowell is going to work on SLOs for Humanities. J. Shehorn suggested that he take SLOs from the "old" Humanities form and put them into the new format.
 - b. Program Review- M. Hall asked if any were due. There was a bit of discussion on Liberal Arts degree going through the curriculum process again.
 - c. Kaleidoscope-M. McDowell has received submissions. He wanted to know if students submitting visual and written pieces could use the same release form. L. Howard and N. Daniels agreed. M. Mc Dowell will forward copies of release forms to N. Daniels. M. Mc Dowell hopes to get the product to All Valley by April 30th. If done by then, we will have copies to distribute before graduation. M. Mc Dowell asked if we would rather cut pages or copies if the All Valley quote was higher than the budget allotted. Faculty suggests fewer pages because we do give out all 300 copies. SPLAAT students are organizing a "Battle of the Bands."
 - d. Bookstore- There have been no changes. Bookstore responded to email regarding issues with "need specifics" before he can address. M. Hall suggests that faculty CC him with book orders next semester. Faculty also stated the difficulties of giving a book order by the bookstore's deadline when we don't know which class sections we have been

assigned. In terms of art supplies, the mark up is higher, so students go to Michaels or Allards instead.

6. Senate Report- L. Belooof read an email from S. Droker in regards to tenure resolutions. It stated the Chancellor was holding them until the April meeting to approve Lemoore and Coalinga requests at the same time. Faculty wanted to know who was up for tenure. T. Mc Gee stated M. Rodriguez, L. Hall, and J. Rodgers, but there are others.
7. Curriculum Report- English 1B was tabled by R. Sanchez because she wasn't sure that Coalinga had been included. J. Shehorn said S. Sutherland had been contacted on at least 3 occasions to relay information to his Coalinga colleagues. He did tell J. Shehorn to go ahead, J. Shehorn told R. Sanchez to put it through as well, but it was still tabled.
8. Classroom Ideas/Issues- Faculty discussed the inappropriate furniture in the classrooms. Concerns included: set up determined pedagogy, furniture inhibits interaction with students, "Modesty Shields" are useless and falling off, teachers found it difficult to get to students sitting on the far end next to the wall, and there were other issues/concerns. J. Shehorn did research the furniture and shared the information with D. Warkentin at one point. However, he turned down the request to use BSI funds to change furniture in a classroom. Faculty wonders why it's acceptable for science to have a collaboratory that only they use, but we can't have a room better designed for students in English classes. J. Preston asked what could be done to put forward requests in future buildings. It was suggested that we relay concerns to: Senate, Student Success Committee, Facilities Committee, and BSI. J. Shehorn was going to ask S. Droker if we could have more than one faculty on Facilities just in case the designated faculty was teaching at the time the meetings are held.
9. Other-none.
10. Agenda items for next meeting-nothing new was suggested.

Adjourned

Minutes-A & L Meeting

April 26, 2010

Present: M. Hall, L. Howard, J. Preston, M. McDowell, K. Sheffield, R. Oxford, L. Beloof, M. Ennes

1. Call to order at 12:00 pm.
2. Additions to the agenda- Learning Area Awards
3. Approval of minutes-Minutes approved (Marty moved to approve, Kim seconded). All were in favor.
4. New Business
 - a. Don announced, at an administrative meeting, that we are now going to a one-year schedule. Don wants this discussed at Learning Area Meetings. A&L has already been working on this. Probably won't happen until next spring (one full year of suggestions). It was suggested that an activity/discussion be planned for Flex Day regarding the one-year schedule. Marlon is going to follow-through with Kurt regarding this.
 - b. "Battle of the Arts" at Kings Art Center. Students are excited. Mike mentioned the possibility of honoring Sue Westover. A plaque in the sidewalk was mentioned. Question was asked as to whether or not we can provide Sue's children with an honorary degree for their mother. Marty will take information, from Mike (regarding Sue), to PGC. Other items discussed included Food and Follies. Time, location? Attendance, and enthusiasm, are declining. It was mentioned that everyone might need to be included in the planning. Too staff driven.
 - c. SLO Assessments: 101B (Kim and Jacqui are working on this). 51B (Libra). 1B (Is this being assessed?) It should be this semester. Ed 5 (James). Mike checking his schedule.
 - d. Program Review: Nothing currently.
 - e. Ron Oxford shared his concern regarding different style guides and their updates. He asked what the library should use to help students. There have been contradictions in format (MLA, APA, CMS). He wants the library staff to know how to direct the students. Do they go by the edition required in the class? Do they go by the most updated information on the MLA website? How should the library, and English Lab, handle this? Continue this discussion in A&L. Ron will also discuss this concern with other learning areas.
 - f. Learning Area Awards: English-Laura "Stormy" Minero, Art-Heaven Annie McGrath, Communication-Raechelle Bema, Education-Gina Luis, Humanities-Bryan Eskew
5. Old Business
 - a. Changing English 89 to English 100: No updates. A&L had a meeting with Coalinga. No words since. Marlon sent information, from the chancellor, to Scott Sutherland. Marty asked Mike to bring the issue up in Curriculum. Should we move forward even though we haven't heard more from Coalinga?
 - b. Changing GS 61 to GS 101 (See 5a).

- c. Kaleidoscope: At the printer. Mike gave flash drive back to Marty. Ahead of schedule. Hope is to pick it up May 7. Kim and Libra will proof. Check layout, line endings. It was noted that people are pleased we pushed for print rather than online. Tangible reward. Does not read as well on screen.
 - d. Bookstore: No communication, yet, regarding Fall 2010 book orders. Libra noted that she hadn't been contacted about Summer 2010. Others said they had been. Email Amber for follow-through. Concern regarding books being used later in the semester. Students wait to purchase, and by the time the book is utilized, the bookstore has sent them back. It was suggested that the bookstore keep the copies in store, especially when the instructor uses the same title/edition every year.
6. Senate: Larry provided an email handout, from Stephanie Droker, regarding recommendations for faculty positions. Priority is ESL. Spanish Instructor is also needed. Other positions discussed included Communication Instructor, Art Faculty, Humanities, Performing Arts, Music, and Journalism.
 7. Curriculum: Ed 5 needs to be sent to A&L for approval and, then, to TRC. May 3 is the last day to submit new material.
 8. Classroom Ideas/Issues: None discussed.
 9. Other-None

Agenda items for next meeting were suggested-Marlon wrote those down.

Meeting adjourned at 12:52 pm

Next meeting is the last meeting of the semester (May 10).

**WEST HILLS COLLEGE LEMOORE
HEALTH, WELLNESS & NURSING
LEARNING AREA MEETING
WEDNESDAY, OCTOBER 20, 2010
8:30am – 10:00am**

- 13. Good of the Order**
- 14. Adjournment**

WHCL Health, Wellness, & Nursing Learning Area
Meeting Minutes
October 20, 2010

Room# 124

8:30 a.m.

Members Present: R. Clement, C. Freeman, M. Hendrickson, D. Neer, K. Olson,
T. Quilici, R. Ragsdale & M. Unzueta

Members Absent: A. Fortune & J. Rogers

Minutes recorded by: A. Avitia

1) Call to Order-

8:30 a.m.

2) Changes/Additions to the Agenda-

None Stated.

3) Approval of Minutes-

K. Olson motioned to approve September 8, 2010 meeting minutes; D. Neer seconded the motion, the motion was approved unanimously.

4) Health & Nursing Area Report- Charles Freeman

C. Freeman reported that the medical assisting course is going through the curriculum process for credit. He added that the EMT course expanded its seats from 30 to 40 students and that a sterile processing course may be offered in the spring. He also announced that the CNA course started today, October 20, 2010 and that the nursing area is trying to hire a CNA instructor. C. Freeman exits at 9:50a.m.

5) Counselors Report- Marta Hendrickson

No report given at this time.

6) SLO Program Review Assessment Report- Joel Rogers

A. Program Level

B. Course Level

No report given at this time. J. Rogers absent.

7) Curriculum Report- Kent Olson

K. Olson reported that PE-005 Intercollegiate Women's Volleyball and PE-25A Introductory Soccer were recently passed in curriculum.

8) Academic Senate Report- Dave Neer

(Handout: E-mail: SB 1440 Implementation: Associate Degree's for Transfer)

D. Neer informed the learning area of the recent e-mail all faculty should have received regarding the new bill that passed that would help students transfer with an associate degree. He asked the learning area to review the e-mail for their information.

9) Athletic Academic Advisor Report- Teresa Quilici

T. Quilici informed the learning area of the recent progress reports sent out by Elva Torres and, as of today, October 20, 2010 she has received only four progress reports and expressed the importance of receiving these back from the instructors. The learning area had an open discussion regarding the progress report template and faculty involvement. R. Clement will have Sylvia Dorsey-Robinson at the next learning area to help clear up this process.

10) Golden Eagle Arena-

A. Continued Discussion- Course Curriculum Development

B. Clement asked the learning area to continue brainstorming of potential courses that could be offered in the arena.

11) Kinesiology Curriculum Report- Dave Neer/Joel Rogers

(Handout: Student Learning Outcomes Tracking Form)

No report at this time. J. Rogers absent. B. Clement shared with the learning area that a representative was needed for the area to be a part of the Strategic Planning Meeting. D. Neer volunteered, in addition to K. Olson to be D. Neer's backup.

12) Classroom/Campus Concerns-

No issues or concerns at this time.

13) Good of the Order-

(Handout: E-mail regarding spring schedule)

B. Clement shared with the learning area of proposed course changes for the spring from R. Ragsdale. No issues or concerns at this time.

14) Adjournment

Meeting Adjourned: 9:40 a.m.

**WEST HILLS COLLEGE LEMOORE
HEALTH, WELLNESS, & NURSING
LEARNING AREA MEETING
FRIDAY, AUGUST 13, 2010
3:00pm – 4:00pm
WHCC LIBRARY**

A G E N D A

1. Restricted and Unrestricted Funds Expenditure
 - Lottery
2. Two –Year Schedule
 - To be placed on the college website and/or portal (Handout)
3. 2011 Spring Schedule
 - Work on the premise that the schedule will mimic 2010 spring schedule “Moving Target”
 - Schedule development team for our Learning Area
4. Program Review
 - Program review schedule (Handout)
 - Timelines for completion
5. Evaluations of Faculty
 - Fulltime
 - Adjunct
6. Accreditation Updates (Handout)
7. Learning Area Faculty Representation
 - Curriculum, SLOC, Academic Senate, PGC
8. Course Repetition
9. SLO Update
 - Course Level & Program level assessment (4% of program SLO assessed to date)
 - Implementation Plan – Portal (Handout)
10. Golden Eagle Arena
 - Fitness Equipment Update (Handout)
 - Course Curriculum Development
11. Removal of W’s & F’s from transcripts
12. Learning Area meetings schedule for 2010 fall semester
13. Campus issues and highlights
14. Adjournment

RFP 010-01 WHC WELLNESS - AEROBICS, EXERCISE & WEIGHT TRAINING EQUIPMENT:

Subject: Student Education Plans (SEP) for Athletes

Hello esteemed coaches,

I have been charged with having student education plans on file for all of the student athletes by September 3rd. I am emailing you to inform you of my plan and request your support and assistance in implementing it.

The plan

I have scheduled a group academic counseling session on Tuesday, August 24 from 3-5 pm. (Hopefully this is not news to you and you have already been notified of this date.)

A different counselor will be available at each table. I will begin the session with a 15 minute overview of the advising sheets, educational goals and the SEP form; the goal of this presentation is to provide the information necessary to the students to be able to identify their educational goal and know what forms to follow and fill out. The students will then begin completing their own SEP forms and will include on it the sport for which they participate. There will be catalogs at each table for them to review course descriptions and majors. Once the student has completed the form (with the assistance of the counselor as necessary) the form will be given to the counselor who will check it, make any necessary changes/revisions, write in any appropriate notes or information and collect it. All SEPs will be copied and the student's copy will be sent to you to be distributed to them later.

How you can provide support and assistance

- Please provide me with a list of the courses your athletes need to participate in for your sport. **I will need this list by noon on Monday, August 23.**
- Please emphasize with your athletes the value of the student educational plan (from a success viewpoint it is the most important counseling activity they can participate in to help them meet their educational goals).
- Please require those students who do not have a SEP on file to attend; let them know that having a SEP impacts their eligibility.
- Please stress to your athletes that they need to be on time- the instructions are explained in the beginning. The counselors are extending their work day for this event and I'd like to demonstrate respect for their time by beginning on time.
- Consider encouraging all your athletes to be there for the overview at the beginning (although not required for those students who already have a SEP on file, it is excellent information that can only positively enhance their knowledge for their education).
- Check your mailboxes and when you receive the copies of the SEPs, distribute them to the athletes as soon as possible.

I think this is going to be a great event and I look forward to working with you and your student athletes. If you have any questions, concerns, or suggestions please don't hesitate to contact me; I welcome feedback.

Thanks
Angela Tos

Planning and Governance Council
Wednesday – November 21, 2007 - 1:30 p.m.
Conference Rm. 124**

Minutes

Members Present:

Don Warkentin, President
Marty Ennes, CTA/Faculty Representative
Angela Tos, CTA/Faculty Representative
Kyalo Mativo, Curriculum Committee Chair
Ron Oxford, Librarian
Jan Young, Counselor/Advisor
Jose Lopez, Dean of Students
Allen Moore, Interim Director of Facilities & Auxiliary Services
James Preston, Academic Senate President
America Infante, CSEA/Classified Representative

Members Absent:

Rene Sanchez, Curriculum Committee Chair
Teresa Macias-Quilici, CSEA/Classified Representative
Dave Bolt, Vice President of Educational Services
Marlon Hall, Associate Dean of Educational Services, Evening College
Yarely Herrera, Student Government Association Representative

Call to Order

Mr. Warkentin called the meeting to order at 1:32 p.m.

Approval of minutes

The minutes of the November 7, 2007 meeting were approved on a motion by Marty Ennes, seconded by Ron Oxford, all in favor, motion passed.

Action items

- **Employee Development and Success Committee Governance Group Request (revised).** In the absence of Marlon Hall, this item will be postponed.

- **Program Review – Education/Education Assistant (EDUC/EA) Arts and Letters**

James Preston recommends that this program review remain status quo. They will continue to seek grant funds. Marty Ennes asked about the status of the counselor position. James responded that they are working on designating someone 40% but no one has been formally designated. The majority of allocated monies will go to Angela Tos and Marta Hendrickson. The grant funds are only for one year. Marty asked if it would be helpful to make a recommendation for someone to be designated? James responded negatively. There are funds for this position, even if it is an increase to a current person. Is there enough money to identify someone full-time temporary? Mr. Warkentin announced the budget expenditure cutoff date is as of February 1 in anticipation of budget cuts from the Governor. He recommended the use of general funds prior to restricted funds. Ken Stoppenbrink has stated that with contract obligations for next year, \$1.9 million district-wide are needed. The restricted monies deadline is May 1, 2008. A caveat, Mr. Warkentin stated, could be the Governor's budget. We cannot hire permanent staff, only temporary. Dave recommended a

program review schedule. Mr. Warkentin reported that as part of institutional effectiveness we want program reviews to come to this body to be reviewed and approved. Angela Tos announced that she has the program review for Student Services completed and it will be brought to the next meeting. James believes a schedule would be helpful. Marta asked if we could come up with a similar schedule process as in the Curriculum Committee. James recommended that this program review remain status quo. Marty Ennes motioned to approve the Education/Education Assistant (EDUC/EA) Arts and Letters Program Review, it was seconded by Angela Tos, all in favor, motion passed.

Information/discussion items

1. Mid Term Report Final Draft (first reading)

Mr. Warkentin stated that the Report will need to go to the board in January for final approval at the February board meeting. He suggested that all members read the Report closely and question as they read if it answers the recommendation. James announced that this is on the agenda for Senate this Monday.

2. Student Learning Outcomes

Dr. Mativo reported on behalf of Rene Sanchez. The next meeting is scheduled on November 28 at 12:00 noon in the Senate office. Rene has requested all faculty to attend if possible as this is a general education curriculum meeting for identification for articulation requirements to CSU's and UC's. Next semester they will contact instructors about courses to be deleted or revised. 71% of the slo's are complete. This does not include non instructional programs which have been turned into Angela Tos. Ten percent have been assessed. Half of the staff are writing assessments. 29% are without slo's at this time. Some of the courses may not be offered and may be inactivated. There are still a large number in areas that do not have full-time faculty. You cannot inactivate a course that is part of the program, i. e. Chem 55, if it is listed in the major. There are some issues and they are being identified. Angela believes these have to be submitted to the State Chancellor's office. The percentages may be off. Mr. Warkentin is concerned about courses we now teach that don't have slo's. If it is a part-time faculty or full-time faculty they need to be contacted.

3. Library Positions

Ron Oxford explained that they are attempting to stabilize the staffing in the library. Russell Bellamy has moved to an adjunct position to free up funds for one 19 hr. library specialist. The new position will be paid more than the full-time person (Frances Andrade) and they are trying to figure out the path to bring these positions into alignment, therefore, Dave Bolt has referred Ron to this Council. There are not funds currently, but the amount of monthly increase to Frances' position amounts to \$79-100 more. Frances has the same responsibilities. Mr. Warkentin responded that he is aware of many positions in this situation and consultants have been hired for a classification study to look positions and re-classifications. Until the study is complete re-classifications will not be approved. This may be positive for some staff, but could also result negatively for some. Ron asked if they look at the structure of the positions. Mr. Warkentin responded affirmatively, as was done in a previous study. Upon completion of the study the effective date would most likely be July 1, 2008 for any reflected

changes. Budget requests will be submitted in the spring as per the process and requests will be prioritized.

4. Academic Senate Report

James reported that at their last meeting they approved AP 3435. BP 3435 is currently being revised at the Chancellor's level. The Senate has asked that the black out resolution be adhered to. This specifies that college meetings not be scheduled during finals week and the first week of each semester. James passed out a draft of flex day activities and updated faculty committee involvement appointments. He also passed out a list of the new learning area realignment model. Administrators assigned to each learning area is still to be discussed. James was pleased to announce that counseling faculty are adopting a learning area and will attend the meetings. This builds a bridge between instruction and student services with many perspectives, placement testing, course scheduling, where to refer students, etcetera. The last Senate meeting for the semester is this Monday with focus to be on the Basic Skills Initiative (BSI).

5. Accreditation Rubric for Institutional Effectiveness

This item will be postponed. This is rubric of the planning, slo's, and program review. We are beyond the awareness stage, through development stage, and through the proficient stage with a report due on March 10.

6. Report from Committee Representative

a) Student Learning Committee

In the absence of Dave Bolt, Mr. Warkentin provided input sent from Chairman Bolt via his e-mail to state that this committee recommends changing their role regarding program reviews. The SLC recommends that program reviews now be sent directly to the Planning and Governance Council and then on through the budget development process.

b) Budget Allocation Committee

In the absence of Dave Bolt, Mr. Warkentin read some comments from Chairman Bolt via his email. James asked the status of the electronic bulletin board for the front area. Mr. Warkentin stated that he has asked the company, Datronics, to provide a quote for an electronic bulletin board. Angela reported that after conversation with several students they had commented that the current administration bldg. lobby screens are not in the best location. Ron stated that the library's screens are not up as yet and he intends to check at UC Merced to see their flat screens and where they are located. The architect has been asked to address this issue. James referred to the Lemoore High electronic board which is place at the corner of their lot. Marty likes the idea of the Student Learning Committee's role change. Angela concurred. Program reviews will now go to PGC, then through the budget allocation process.

c) Facilities, Safety and Auxiliary Services Committee

Allen Moore reported the broken blue call center had been repaired. The Health Department was on campus for an inspection last week. Fly control is a concern in both the snack bar and culinary lab areas, Scheduled maintenance will be used to purchase fans for fly control, also a refrigerator needs to be fixed. There was a central plant problem where the chiller starts on its own. The vendor was called and a switch needed replacement. Allen is looking into a performance contract to step side huge expenses concerning the heating/cooling system. The CDC landscape has been maintained by

two companies and this has caused concern between the two companies regarding the sprinklers, ect. A drain has been listed for scheduled maintenance dollars at the CDC, then a lawn to be rolled in. The maintenance schedule plan has 15 items and has been submitted. Allen may propose training opportunities for his staff to this committee to enhance some of their skills, i.e. sprinkler system training, key access systems, and weed control. Marty commented that dusting needs to be done. The carpets are being cleaned in the library. A couple of 19 hour positions have been approved and hours have been changed around which will lend to more work completed. There have been no incidents to report. Mr. Lopez reported a couple of students disruptive in a night class. There was also an incident in the library in which a under age student had stepped off campus with an adult. Mr. Rosas of the charter school is looking into this. Also, the Police Dept. is investigating a possible drug sale. Ron would like to look at who gets staff i.d. cards. There has been some confusion between students and staff. Jose reported the possibility of counterfeit \$100 bills being passed on campus. This was caught by the bank.

d) Student Success Committee

Jose would like to have Tammy Larsen report on what has been accumulated in retention studies.

e) Employee Success and Development Committee

Jan Young reported a big evening planned for the Christmas party. Thanksgiving was a success and \$215 raised from the centerpiece silent auction. The employee newsletter is being revamped and a short staff development activity is being planned before end of the semester.

f) Technology Committee

Ron Oxford reported that had held a meeting on November 13. Membership is being discussed and representation is needed. They reviewed norms. The intent is to maintain an environment of openness and productivity; putting students first. Michelle Kozlowski attended to provide a history of TAT and WHCIST. A future agenda item is budget for the replacement cost of computers. They plan to map communication flow to TAT to WHCIST. Allen asked if computer leasing had been considered.

g) Student Learning Outcomes Committee

In the absence of Rene Sanchez, no report was given.

7. Student Government Association

Mr. Lopez reported that the subcommittee is setting up meetings. A workshop for the student services site visit is scheduled on December 3 for ½ day workshop. March 9, 2008 is the date of the site visit.

8. WHCIST

In the absence of Dave Bolt, no report was given.

9. Strategic Planning Committee Meeting

Mr. Warkentin reminded all of the Strategic Planning Committee Meeting is on November 30, 2007 10:00 a.m. This meeting will occur twice per semester. Topics of discussion will be what went right this semester and future planning.

10. Agenda items for next meeting

- Program review – Student Services, Angela Tos
- Learning Communities – James

- Mid Term Report
- Retention Report - Tammy Larsen

11. Other

Mr. Warkentin reported that an administrative internship program has been developed and the consensus is to have one instructional internship position. The job description will be finalized to advertise in January with a selection to be made by April and a start date of July 1, 2008 for one year. The normal application process will occur with a selection committee and formal interviews. There will be an intern in Lemoore and also one in Coalinga. The original plan was to have two internship positions at each college. The pitfalls are backfill concerns. Hopefully an adjunct can be found. Also a possible pitfall is should there be a budget crisis and no monies to backfill. Should this be a concern it may be put on hold. James stated that the district was also to have an internship. Mr. Warkentin replied that there is no more information learned on this as yet. They will recommend this to the Chancellor. Colleges can develop a timeline. America questioned that if a classified staff member could apply. Mr. Warkentin responded that if the staff member meets the qualifications that can indeed apply. It is easier for classified position as they are most likely a 12 month employee. James stated that the State Academic Senate is also advocating this type of internship.

12. Adjournment

Mr. Warkentin adjourned the meeting at 2:52 p.m.

Next Meeting – December 5, 2007

Counseling Faculty Learning Area Meeting

Agenda: 5/12/10

6. Agenda items for next meeting

Next meeting is scheduled for May 26th??????

Counseling Faculty Learning Area Meeting

Minutes: 3/24/10

1. Call to Order:
2. Changes to Agenda
3. Members
 - a. Present: Tiffani McGee, Mike Rodriguez, Ann Barr, Marta Hendrickson, Sylvia Dorsey-Robinson, Angela Tos, Linda Amaya, Veronica Grijalva, Rupinder Rai, Maria Gonzalez, Lataria Hall
4. Absent: Gary Sedgwick
5. Reports
 - a. Senate:
 - i. Discussed new faculty list: 1. Psych 2. ESL 3. Humanities 4. Developmental English 5. Nursing
 - b. Curriculum
 - i. PE 45 was approved
 - ii. Education 5 was approved for 5 year review
 - iii. English 89 to 100/GS 61 to 101 were both approved for a second reading
 - iv. Intro to nursing courses was approved for second reading
 - v. Deleted Humanities degree because of new liberal arts degree
 - vi. Program revision for LVN to RN and RN were approved
 - c. Student Success
 - i. Prioritized student town hall matrix
 - ii. Reviewed Student Equity Plan
 - iii. Revised governance statement
 - d. Student Learning Outcomes
 - i. Discussed that adjunct faculty need to assess SLO's because we are not getting credit through WASC for the assessment unless every section of the course is assessed.
 - e. Basic Skills
 - i. Discussed goals for next semester
 - f. Transfer/Career
 - i. Transfer Dinner on May 20th
 - ii. UC Merced is opening doors for Spring 2011. Also accepting TAG agreements for Spring 2011
 - g. Articulation
 - i. Marta went to DeVry University presentation. They offer 16 week sessions with 8 week session incorporated. They also have degree completion programs. The cost to attend is \$580 per unit for the first 11 units and \$350 per unit for the 12th unit and above. See Marta for the catalog
 - ii. Online Biology 10 lab is being rescinded (online part)
 - iii. Update on Bio 35L-only students who have take our Bio 35 online or currently taking our Bio 35 online and plan to transfer to CSUF

or another campus that does not take our Bio 35 online should take this one unit lab course.

- iv. Geol 9 Update-will not be cross-listed with Geog 1. B. Hall plans to create geology as a new stand alone class (earth science)
- h. PGC
 - i. Discussed program review for Snack Bar and UBMS-approved
 - ii. Middle College Accreditation-received an "A" letter grade-suggestion to get separate campus
 - iii. Evelyn Sue Westover-honorary degree/PGC approved-going to Board for final approval
 - iv. Relay for Life update-made \$1500 and received a bronze medal
 - v. SGA elections were held on May 12th
- i. Technology Committee
 - i. Has not met
- j. Advisor Meeting Update
 - i. Not met yet since last meeting-SDR provided update
 - ii. Met w/Cindy Homburg from HHS-discussed concerns and protocol for next semester
 - iii. A few advisors and SDR are going on a field trip next Monday to visit a few local high schools-plans to get a sense of their needs and we can do to improve our services to their campuses.
 - iv. LHS has not responded to our invitation for a meeting to discuss concerns
- k. Learning Areas
 - i. A & L-Discussed new faculty list
 - ii. Social Science-has not met since last meeting
 - iii. Career Technical Education-Discussed AOJ and SLO's
 - iv. Health and Wellness-Discussed nominations for new faculty
 - v. Math and Science-has not met
- 6. Action Items
 - a. Give comp time usage for remaining of the semester to SDR ASAP
 - b. Transcript evaluations
 - i. Commitment to students-transcripts will be evaluated and posted w/in 10 days of receiving them.
 - ii. SDR gathering funds-had conversation w/Jewel—take over Fall 2010 transcript evaluation process w/front counter(stamped, dated)
 - c. Request for conferences
 - i. SDR will post excel spreadsheet on portal for requests. She wants to honor as many requests as possible
 - d. Summer Coverage
 - i. Calendars to SDR by 6/1/10
 - e. Next SSM meeting is 5/21/10 from 8:30-10:00 with all student services staff
 - f. Lunch schedule for next year
 - i. Will stagger lunches (11:30-12:30, 12:00-1:00, 12:30-1:30) Monday through Thursday only

ii. Will discuss at flex day when discussing committee responsibilities

7. Items for next meeting:

- a. Flex Day 8/10/10-committee assignments/coordinate lunch schedule
- b. Discuss position for dual enrollment
- c. Petition to graduate changes (2 campuses)
- d. Review of progress on SLO's and assessment cycle
- e. What does Early Alert look like next year?

August 20, 2010

Greetings:

Welcome back to a new academic year! I think we all survived the first week without too much stress even though we had our typical long lines in the administration building, phones ringing off the hook, counselors and advisors booked to the max, and standing room only in many of our classes. Even after adding additional sections and juggling seats, we still have approximately 32% of our course sections closed (116 sections). Our enrollment headcount at the end of the first week is up 7.2% compared to this time last year and Pedro reports that we will meet our FTES target for the year, barring any major crisis. Specifically, we exceeded our summer FTE target by 89 FTE or 2.4% and he is projecting we will easily meet our fall target when we include our positive attendance at the end of the semester.

Ken keeps yelling at us for enrolling more students than we will get paid for, but Willard and I keep reminding him that we are within our budget and our goal is to serve as many students as possible. This is a pleasant conundrum!

I want to thank our faculty for their patience and willingness to take more students and for their assistance in guiding students to open sections. I also want to thank our counselors/advisors, registration, and financial aid staff for their patience and willingness to work long hours to assist students.

Ron Oxford reports that the library is busting at the seams. Students are requesting more laptops than we have available and his staff are busy creating student photo IDs. Ron keeps asking for more money and I keep reminding him that it's coming ...someday.

- **Rumor Control and an item for the end of the year bloopers** – Christian is on an extended contract due to the needs of the Culinary Program and when he turned in his calendar for the year. Marlon noticed he again included his furlough days as Christian had listed 10 furlough days for 2010/2011. I'm sure Christian has been keenly focused on menu development and fine dining, but somehow he must have thought the ending of furloughs was only a rumor.
- **Welcome Week** – Thanks to Sylvia, Jose, and our Student Services staff for a great Welcome Week. I had the pleasure of barbecuing hamburgers and hotdogs yesterday for our students. We served 350 hamburgers, 80 hotdogs, and 60 linguica links for almost 500 students. This was a record and we still had students in line after we ran out. It was a great event and we'll know to order more next year. Good job all!

- **Accreditation** – We have completed the draft of our self study document and Dave has distributed copies to key faculty, staff members and also to district office staff. We are using this time for making changes and updates and will begin the formal review and approval process next month. Thanks to all standard team members and to everyone who have contributed to this task. Also, I have been asked to serve as team chair for Evergreen Valley College's accreditation visit in October. Evergreen is part of the San Jose/Evergreen Community College District and is located in east San Jose. Sylvia will serve as team assistant. I attended team chair training in Oakland this week and am reminded about the focus from WASC concerning our progress as we prepare for our visit in March 2011. I believe we will be in good shape for our visit. Dave and Sylvia are working with faculty and staff to complete our remaining tasks.
- **Evening Dean** – Dr. Marlon Hall will be serving as our evening dean this year. As you may recall we experimented with rotating evening coverage amongst our administrators, but with one person serving in this role, we will be able to provide continuity and better direction for our evening students. Marlon will be able to focus on evening student success and retention as he develops the evening schedule for the campus and LNAS. Thanks Marlon, for agreeing to assume this role again.
- **Athletic Orientation** – A big thank you goes out to Bob, his coaches, and his athletic support staff for a job well done. Yesterday afternoon and evening we held our annual student-athlete orientation and coaches/staff in-service training. Bob invited our Central Valley Conference Commissioner, Logan McKechnie, to address the staff concerning the COA constitution and by-laws. Logan, in his former life, served as the attorney for the San Diego Padres. The orientation is an annual requirement in that athletic staff receives training and serves as a means to clarify specific issues with our sport teams. A thank you goes out to Teresa, Elva, Lataria, Maria, Sylvia, and Angela for attending. Also thanks to Ron, Rose, Angela, Teresa, Mike, Sylvia, Ryan Cardoza and Maleny Rodriquez (SGA reps.) for serving as presenters during the athlete portion of the orientation. This evening, our women's soccer team kicks off the season with a scrimmage vs. our Golden Eagle alumni on our Golden Eagle field. Also our men's soccer team has a scrimmage tomorrow night in Fresno against Fresno Pacific at 7:00pm at Fresno Pacific. Tomorrow morning Dave Neer and Coach Wahl are having their annual Golden Eagle Golf Tournament at the Lemoore Golf Course. Tee off is 8:00 am and proceeds help support the men and women's golf teams. Go Eagles!

Have a great weekend!

August 27, 2010

Greetings:

I want to thank Angela Tos for organizing our first Engineering Scholars reception last evening in the conference center. We have sixteen new Engineering Scholars and Angela invited them, their families, and fellow engineering students to a welcome reception. Our featured speaker was Dale Melville, an engineer in the firm of Provost & Pritchard, who discussed his career field and some of the projects he has designed over the year. Angela also had a student panel of current engineering students who described their experiences at West Hills. It was a great evening and something that made our new scholars welcomed at West Hills. Thanks Angel!

- **USDA Grant** – As a requirement of receiving our United States Department of Agriculture grant, Dave Bolt will be traveling with student Nathaniel Issacson to Washington D.C. on September 26-29. Nathaniel has been selected to represent West Hills College Lemoore for the Agricultural Sciences Leadership Program sponsored by USDA. While in Washington, Nathaniel will meet with Agriculture Department staff to discuss relevant California issues and participate in a policy seminar.
- **Anniversary of Women's Suffrage** – I suspect many of us didn't know that yesterday was the 90th anniversary of Women's Suffrage. Rene Sanchez, Vera Kennedy, Stephanie Droker presented special lessons in their classes informing students about women's suffrage (the right to vote for women). Rene added a special touch by dressing up as Elizabeth Cady Stanton who was the founder of the Women's Suffrage movement in the U.S. Rene was dressed in period garb and brought the movement to life in her classes. Thanks Rene, Vera, and Stephanie for keeping students abreast of great events in our history.
- **Accreditation** – It is my intent to update everyone each week on the progress of our self study document and our preparation for our accreditation visit in March. We have sent copies of our draft self study to district office staff and asked for their input. Standard chairs are busy gathering our evidence documents and have begun the scanning process to create links in the document that our reviewers can refer to. We have distributed copies of our self study to key staff and campus shared governance members for their review. Finally, we are waiting for the results of our various campus surveys assessing our effectiveness and will be incorporating those results into our document. Our goal is to have a quality document that fully describes all the great things that you do. More to come!
- **Program Review and SLOs** – Last week David Babb and Ron Oxford gave an update to the President's Executive Cabinet on our progress with course level and program level SLOs. Although we have much work this semester at the program SLO level, I feel optimistic that we have a comprehensive plan and that faculty

and staff are busy completing their assessments. Dave is planning a program review session for next Friday and this will provide an additional training session for faculty and staff to complete their program reviews and their program level SLO assessments. Again more to come!

- **Student Educational Plans** – Thank you to our counseling staff for taking an afternoon Tuesday to assist student athletes to complete their Student Educational Plans. Counselors worked with our coaching staff to bring in all new athletes who have not yet completed an ed plan or wanted to update their educational plan. Approximately 70 Student Ed Plans were completed. Sylvia and counseling/advising staff will coordinate additional workshops this semester to ensure our freshman students have completed ed plans on file. Our goal is that all freshmen will have student educational plans.
- **MAA Week** – Today marks the end of our first time survey week for Medi-Cal Administrative Activities. I want to thank all our MAA time survey participants for their efforts this past week. Not only are we providing a service to our students/parents, but we are also generating dollars for the campuses that will allow us to continue all the great opportunities we provide. Our vendor, MBT, informed Kyle and I that West Hills is the model they refer to when they work with other community colleges throughout the state. Thank you for a job well done!
- **Athletics** – We have almost 100 student athletes enrolled in our fall program. Bob and his coaches have spent numerous hours getting everyone enrolled in the mandatory 12 units, getting their eligibility forms complete, and completing their educational plans. We anticipate a great season in all our sports and we thank our faculty and registration staff for their assistance given to our athletes. Today our men's and women's soccer teams are in action against Ohlone College on our Golden Eagle soccer fields. The women begin at 3:00pm and the men at 5:00pm. Come out and root for your team. By the way, our women's soccer team beat our Eagle alumni last Friday by a score of 1-0 and our men beat Fresno Pacific College by a score of 2-0. These actually were scrimmages so no official score was kept, but both teams looked great.

Have a great weekend!

Sending on behalf of President Warkentin:

September 3, 2010

Greetings;

I had the opportunity to attend our counselor and advisors meeting this morning and provided a state of the college update. Our campus enrollment is down approximately 200 headcount from this time last year; however, our FTES is on or exceeds our target. As you may recall, our district generated approximately 500 FTES last year more than we were paid for. Thus our course offerings for this fall semester have been reduced from previous fall semesters. However, our counseling, registration, and library staff doesn't think our headcount is down due to the traffic they have experienced the past few weeks. They still had long lines. But, I appreciate everyone's hard work these past few weeks.

I also reiterated to our counselors and advisors that we have two major goals this year. Our first goal is to increase our high school participation rates and our second goal is to significantly increase the number of students with Student Educational Plans. Sylvia and our counselors/advisors have already been working on these goals with increased outreach opportunities and targeting our freshmen students for educational plans. We have already been asked to visit Kingsburg High School this month to participate in the college night activity. Sylvia and her staff have met with our student athletes and completed ed. plans for this group. Our veterans have already completed their educational plans.

I believe we will meet our goals and I appreciate everyone's dedication and efforts in this endeavor.

- **Program Review** – Following the counselors/advisors meeting, I had the opportunity to attend Dave's Program Review Party. I want to thank Pedro and Priscilla for attending and helping our faculty begin the program review process for this year. Program faculty in attendance represented Nursing, Liberal Arts, Art, Culinary, Biology, Chemistry, Social Science, CIS, and Psychology. These programs are due for review this year along with AOJ. This was also an opportunity for these areas to develop or update their Program Level SLOs. Thanks go to Dave for organizing this workshop and future workshops.
- **Nursing** – Charles, Marleen, and Cynthia report that three of our current nursing students have received the Aetna Scholarship with Adventist Health Hospitals. This scholarship allows them to train with Adventist Health and when they complete the program they will give two years to Adventist Health Hospital. Congratulations to Angela Rosati, Kathleen Chapa, and Victoria Weeks. Our

Nursing staff also report that our pass rate for the state Licensing exam from our May graduates is at 91% overall and at 92.3% for the LVN to RN Bridge program. We still have a few more students to take their "boards" so we hope to have even higher numbers. The state requires programs to be at the 75% pass rate or higher. Congratulations to all!

- **PGC** – Our Planning and Governance Council met yesterday for the first meeting of the year. We had a lengthy discussion on revising our membership's voting members and non voting members who serve as chairs of governance committees. For example, our Academic Senate President is a voting member and since the Curriculum Committee Chair and the Student Learning Outcomes Committee Chair are subcommittees of the Senate, they **may** (and I emphasize **may**) be non-voting members. One of the suggestions was that each group has two voting members – 2 admin, 2- faculty, 2- classified, and 2 students. Our governance groups have been asked to take these suggestions back to their membership and we will be discussing this again at the next meeting. Other items on the agenda were the approval of the Student Success Committee governance form changes and the improvements to our Strategic Planning document and our Planning and Governance Manual. I want to thank Stephanie Droker for her efforts to provide improvements to our planning documents. Also, David Baab reports he is still accepting SLO assessment results from several of our programs. We need to increase these assessment numbers as we get closer to our accreditation visit this spring.
- **Accreditation** – District office staff are still reviewing their portions of the standards and we should be getting their input this week. Some have already submitted their suggestions and Dave is incorporating those into our document. Our standard chairs are also reviewing our document and key shared governance leaders are doing likewise.
- **Athletics** – Our women's soccer team has played three contests thus far and has a record of 1-2. Our sole victory was over Monterey Peninsula College yesterday by a score of 6-0. We previously lost to Ohlone College 4-2 and lost to Skyline 1-0. Our men's team has played only one game thus far and was victorious over Skyline 4-2. Our women's golf team traveled to Modesto last Tuesday to compete in a pre-conference tournament. Our women played the tough Del Rio Country Club and only one team member was able to break a 100 for 18 holes. Dave says they have lots of potential and some more work to do as they prepare for conference play.

Have a great weekend and be sure to take Monday off!

September 10, 2010

Greetings,

This coming Monday Sylvia and I will be visiting Evergreen Valley College and the San Jose/Evergreen Community College District for our pre-accreditation visit. I will be chairing a visiting team to Evergreen scheduled for the week of October 18 and Sylvia will be my team assistant. We have had several communications with Evergreen's accreditation liaison and key staff and I can report they are as nervous as we will be in March prior to our visit. The Evergreen folks have been very cooperative and are bending over backwards to accommodate all of our requests.

Following our meeting with Evergreen, Sylvia and I will be traveling to Los Angeles for WASC accreditation team training on Tuesday. We will be meeting with our Evergreen team and undergo training for each of the standards. Also this week Jose is attending team training in preparation for his visit to San Diego Miramar College next month. Susan is also on a visiting team for Oxnard College and just returned from her team training. The point of all this is to inform everyone that we are doing all we can to be well informed about our accreditation requirements and be well prepared for our accreditation visit.

- **9/11 Ceremony** - Many thanks to Jody Ruble and our WHCL Veterans Club for organizing our September 11 Remembrance Ceremony today. Our Veterans Club had several members offer insight about their experiences in the military and how 9/11 has affected their lives. Dr. Hall also offered his thoughts about commitment and sacrifice and respect for our veteran students. Lemoore Police Chief Jeff Laws also spoke and offered a poem summarizing his thoughts and remembrances about that tragic day. The day culminated in a BBQ lunch provided by the Culinary Program. Next year will be the 10th anniversary and we are already making plans for great ceremony.
- **Facilities Construction** – I spoke with the construction superintendent today and can report that our Golden Eagle Arena is about 50% complete. Roads and hard-scape (curbs and walkways) have been installed and landscaping is beginning today with trenching work. Also next week the construction crew will be pouring concrete on the upper level for the second story seating and running track area. The steel framers will be finishing their work within the next two weeks and then we will see exterior Dineglass (sheetrock) erected around the exterior walls. We are still targeting March as the completion date.

- **Athletics** - Our women's soccer team was victorious last Tuesday at Hartnell College in Salinas by a score of 7-0. Our women are now 2-2 for the year and next compete against Modesto this afternoon. Come out and support our Lady Eagles. Our men's team was victorious against Gavilan College in Gilroy last Wednesday by a score of 3-1. Our men are undefeated with a record of 2-0. They travel to Santa Maria today to compete in the Allan Hancock Tournament. Our wrestling team will be having their annual Blue & Gold Inter-squad Scrimmage tonight at 5:00pm in front of the Library. Our lady golfers open the conference with a match at Fig Garden CC in Fresno Tuesday and posted a team score of 433. Unfortunately that earned them fifth out of five teams competing. Other teams competing were Canada College from San Bruno, Fresno City, Reedley and COS. Go Eagles!

Have a great weekend!

September 17, 2010

Greetings:

Today we were host to the annual training of the Tri-County Virtual Enterprise teams. Teams from area high schools such as Kingsburg, Laton, Lemoore, Oroshi, McLane, Roosevelt, Fresno, Fowler, Parlier, Reedley, Golden West, and Liberty from Madera Ranchos were all on our campus learning about business, banking, accounting, advertising, salesmanship, invoicing, and website development in order to create a new business. One team developed a printing business and their motto was “**You think it, We print it.**” These folks will definitely be our next entrepreneurs. We were fortunate to have a great bunch of kids on our campus. Thanks Jody for assisting with this event.

- **President’s Scholars Reception** - Last night we welcomed our incoming and returning President’s Scholars with a reception to introduce them to key college faculty and staff and to demonstrate our commitment to their success as President’s Scholars. Sylvia and her staff had organized an event in the conference center to include music provided by the Hanford West High School Jazz Band and hors d’oeuvres by Dan Beeler and culinary students. Our faculty and administrators were able to meet each of our scholars and interact with them about what our roles are at the college. Approximately 15 of our scholars were in attendance and I think they went away feeling very welcomed and that West Hills really cares about their success.
- **Corcoran High School Visit** - Yesterday Sylvia, Angela Tos, and I traveled to Corcoran to meet with Superintendent Rich Merlo and Principal Chuck Gent to discuss how West Hills can better serve students at Corcoran High School. Corcoran has a goal that every student who graduates will have completed two college level courses. We will be providing them a suggested course schedule using our online program beginning with College Success that we hope to implement this spring semester. Using online classes eliminates the issue of college boundaries. Jan Young and Eva Jimenez were out there that same day providing advising services for several students planning on attending West Hills.
- **Athletics** – Our men’s and women’s soccer teams were victorious this past Tuesday with victories over Cabot College in Hayward. Our women won by a score of 3-0 and our men won by a score of 1-0. Our lady golfers placed fourth in their third conference meet yesterday at Kings Country Club. Janice Geide led the Eagles with a score of 91. Our wrestlers travel to Mt. San Antonio College this weekend with a tournament on Saturday. Our men’s and women’s cross country team travel to Cuesta College for the Cuesta College Invitational also on Saturday. **Go Eagles!**

Have a great weekend!

**West Hills Community College District
Strategic Planning Committee**

April 28, 2010

MINUTES

Committee members present:

Pedro Avila, Anita Bart, Jana Cox, Carole Goldsmith, Frank Gornick, Edna Ivans, Susan Whitener, Michelle Kozlowski, Willard Lewallen, Nina Oxborrow, Phyllis Roberts, Sylvia Dorsey-Robinson, Frances Squire, Jill Stearns, Keith Stearns, Don Warkentin, John Wright

Welcome and Introductions

Pedro Avila welcomed those in attendance and announced that we have had some changes among the group. He announced that Susan Whitener is now an Associate Vice Chancellor, Carole Goldsmith and I are now Vice Chancellor's, Sylvia Dorsey-Robinson is now Vice President of Student Services in Lemoore, Frances Squire is now Director of Foundation and Marketing and Jill Stearns is now Vice President of Educational Services.

Pedro announced that this committee has been meeting now for five years. He stated that today we are going to go over our goals and performance indicators and talk about what we have learned over the last five years. We also want to identify key questions for our next cycle of strategic planning. We will be looking at our scorecard and take a look at a comprehensive assessment model. We will go over what our next steps will be to increase participation from industry and community members so that we can conduct a new strategic planning initiative in fall 2010.

Review Goals and Performance Indicators

Pedro distributed a hand out of a power point presentation to everyone on The Strategic Plan 2006 – 2010 Five Year Review Cycle.

FTES Growth Target

Pedro reviewed the FTES growth targets with the group. Pedro asked Jill if she wanted to make any comments about next year's schedule. Jill responded that there should be a better balance between fall and spring then we experienced this year. Don commented that we are forced to reduce our schedule due to funding. In our location we are starting to have concerns about classroom utilization. Don stated we are starting to see competition from our sister college COS in Hanford. Don expressed that the one thing we have to be cognizant of is that word doesn't get out that West Hills doesn't have anything to offer. Sylvia stated that one of the things we are doing is meeting one on one with the counselors and career technicians to find out how we can support them and help them. We recognized that COS is there and we are going in with

District Strategic Planning Committee – Minutes

April 28, 2010

Page 2

a systemic point of view trying to grow this piece realizing over time we will have solidified ourselves.

Enrollment Efficiencies

Pedro discussed the enrollment efficiencies. He stated that the reduction in budget is not a direct impact on FTES and even though we have fewer sections we have more students in our classrooms. He explained that three years ago the average class size was 26 students and now its 35 students. Keep in mind that a lot of it has to do with online classes which have an average class size of 40 to 45 students.

Pedro asked Anita Bart to talk about her class sizes. Anita explained that almost all of her classes are video conference between Coalinga and Firebaugh. She stated that this year both classes on both campuses are full and already have students asking how soon can I get into the classes for fall. She stated that the increase in students in her classes have been explosive.

Pedro expressed that one of the requests from faculty was a waitlist process to help faculty and staff coordinate how to get students into a classroom after the first day of class. He stated that we were able to implement a waitlist process. He stated starting April 20, whenever a class is full students can now add themselves to a waitlist.

Pedro asked Keith Stearns to give an update on the waitlist process.

Keith responded that the first day of registration was on April 20 and that day we had a class in Firebaugh fill up with three people on the waitlist and then we had a student drop so that opened up the class for the waitlist. He stated up until today we have 89 students with permission to register so far 49 of those have enrolled. Keith stated that the automated part of the waitlist system seems to be working well.

Pedro explained that with registration we always have a number of issues because everyone is utilizing the system, the system can get really slow. He stated what we did for this registration period we broke up students into three groups. The first group was the priority registration groups which is the categorical and special groups. The second group, early registration, was based on a recommendation from the colleges, students who had 45 to 70 units and that were currently enrolled in spring. The third group was based on 12 to 44.9 units. Pedro indicated that they have seen some improvements. The system is slow on the first day of each group but it hasn't been as slow as in the past. Don questioned if we keep experiencing system slow down what would be the next solution. Pedro explained that the next solution would be to spread it out even more or have enrollment by appointment. The group discussed including high school students into the priority enrollment.

Pedro asked the group if our goal, Meet or Exceed FTES Growth would still be a relevant goal for our next phase of strategic planning. Dr. Gornick responded that it may not be our number one goal like it was our first five years but I think it's an indicator that we have to look at particularly what is occurring in the national level.

Focus Marketing Efforts on District-Wide Stories

Pedro explained that there was a group that met and were concerned that there was a negative perception of the district from our communities. This is the reason why

District Strategic Planning Committee – Minutes

April 28, 2010

Page 3

marketing was our second goal. This is why we focused so much on district wide stories so that we could improve the perception of the district.

Frances stated that the nice thing about the newsletter is that Dennis Gallegos who is a consultant that we have worked with it the past year or two. Dennis did a lot of one on one interviews throughout the communities to talk to people about dialogue. Dennis talked to a lot of people about the dialogue and got a lot of feedback on what people were thinking about dialogue. Dennis made a number of suggestions that we then incorporated into this new format that you see. Pedro stated that our marketing focus has changed. One of the new things that we have come out with in marketing is the new post card. It's basically a way to communicate with the communities to let them know what activities are occurring at the colleges.

Willard shared that he has had a lot of positive feedback on the design of the post card. He thinks it's an attractive and informative and very eye catching design.

Pedro stated another thing you will see will be billboards. The billboards are coming out in May. He stated that we are putting up billboards with students on the billboards from their particular community. Frances stated the billboards will be going up in Firebaugh, Mendota, Five Points, Hanford and Lemoore. She indicated that right now there are not any billboards available in Coalinga.

Pedro expressed that our marketing focus has shifted from increasing enrollment to building a presence. Pedro briefly went over the lessons learned with the group.

Frances expressed that we need a way for students to engage in reading the portal postings. Michelle stated that there are too many postings, we need to focus are a very few that are relevant. The students will look at two or three not ten or twelve at least that is the issue that comes up a lot. Frank Gornick questioned is there a way for us to track how the students are using the portal. Pedro stated that is a good question and we will look into that. Sylvia suggested that we have a conversation with the students they are the users and they are very savvy with what is in and what isn't.

Frank Gornick expressed that everything that we use like our iphones have icons. He thinks that is the way everything is moving is towards icons. He suggested maybe we need an app for West Hills. Pedro indicated that what he is hearing is outreach being the goal. Pedro stated that there are a lot of different groups. We have future students, current students, parents of students and former students.

WHCCD Will Annually Increase Community Participation Rates

Pedro indicated that proximity has a lot to do with participation. He stated that the closer the city is to one of our colleges the higher the participation rate and the cities with the farthest proximity have the lowest rates of participation.

Pedro questioned do we want to develop specific strategies to target those communities. Carole stated we are doing a lot with our cities and local high schools. She stated that the colleges are to really be commended because they do an extremely amount of work with limited resources. Carole indicated that since we have been providing classes through the WIT we have served close to 2000 students.

Carole stated that in terms of preliminary discussion, which will probably be various levels of discussion. I know that Jill, Willard and I have had discussions on how we can better serve Tranquility and San Joaquin. Willard stated that the center we are trying to

Page 4

establish in San Joaquin is already on the way. We just recently signed the MOU with them to use a facility that they have given us. We will be making improvements to it. He stated our goal is to be in there in the fall. Don stated that they are working with Riverdale. We have a million dollars earmarked for Riverdale with our measure E bond and we have met a couple of times with their Superintendent to the unified school district to see what we could do as far as a presence for West Hills in Riverdale. So far they have been focused on upgrading their facilities because the high school is the focus for the community for recreational activities. Don stated that we are looking at a regular educational center in Avenal. We have had several discussions with the city manager and her staff, the mayor and the high school unified district. Everybody is on board.

Carole asked Jill to speak a little bit about the position we are going to try and bring on. Jill explained the position combines a generalized student services assistant with an instructional assistant. So when someone walks in through the door of one of the outreach centers they can be the face of West Hills College and help the student through the application enrollment and payment process and also be there to assist them with any technology regarding distance learning whatever it takes to help facilitate them in getting engaged. Carole stated that Ken will be meeting with CSEA to bring this new position on. Carole that tomorrow we are taking a bus load of faculty and a few key staff to Cisco. Susan and Michelle have been putting together looking at different venues on how to do distance education, video conferencing and web streaming.

Maintain Success Rates Within the CA CC Statewide Average

Susan reported that our face-to-face success rates are identical to California Community College face-to-face rates. The online success rates are below not comparable to the California Community College success rates and we want to address that. We have held strategic planning processes for distance learning and we are going to continue to do that. Susan indicated our lessons learned retention rates are lower and must be analyzed separately than our face-to-face for online as well as the success rates. She stated that we have also experienced issues with our success rates our career technical education. We went through the distance Ed strategic planning process and that is going to the Board of Trustees as an informational item. We have just approved a help desk specialist and what that is will be someone to answer the phone and not only reset your password but interject with the student and head them in the right direction to help them with their online success and retention. It's for every student, not just online students that call the help desk. Susan explained that we had an online student services audit. So that the student could see where they need to go if they are a DSPS student, can they see who they need to call if they want child care services. We have a list of items that will help the students understand this is what I need. Susan stated that the updated learning management system, blackboard 9 we implemented it in the spring of this year. We have implemented the student portal the portal is live and active.

Carole reported that one of the issues we are having is success rates in our technical programs. She stated that one of our core missions is making sure that we are preparing our workforce, for the student who can make a good living and for our

community members who are our employers so they will have qualified people taking those jobs. Carole reported that specifically looking at our CTE courses; we are looking at data from our ARCC report. Carole stated that our program review, we have the Chancellor's website page where we can look at our reports and it drills down by course and program. It shows how our students are succeeding. The Chancellor's office brings that information from EDD and looks at it. One of the problems is that not all the employers report information to EDD. A prime example would be the Psych Tech program. The state hospital does not report a lot of their commission to EDD so our numbers look skewed. So it also brings up what can we do to get that information into the system. So we are going to look into ways to do better follow up. Our program review is a key to how we go back and look at ways to improve. She stated that how do we keep people successful. One of the things that we have done and will continue to do is work with our workforce investment boards. We have been very successful in Fresno and Kings and now we are expanding it to Tulare and Madera.

Maintain Transfer Rates Within the CA CC Average

Pedro reported that they still haven't released the new cohort rates. He stated that one thing we have learned is that transfer rates are very sensitive to tuition rates. He stated that he is going to go quickly through these and if anyone has any questions to let him know. He stated that we now have access to instate, out of state and private transfer rates. This is information that is coming from the national clearing house. He stated that based on the last eight years the majority of students transfer to four year institutions. Pedro stated that what we have learned is that our rates are within the state average. Our transfer rates are very sensitive to CSU tuition increases. The number of students transferring has increased and we have acquired access to data on transfers to out of state and private institutions.

Pedro explained that one of the questions we need to ask ourselves is how are students doing at the next level. He indicated that one of the reports we now have access to is a Fresno State Report where they actually compare student transfer from both colleges against each other. We have a lot of information from Fresno State that we can utilize on how well the students are doing.

Maintain Graduation Rates Within the CA CC Average

Pedro explained that considering the reduction in sections some of the questions we may want to ask is what is the average number of semesters and units it takes a WHCCD student to complete a degree certificate. What percent of our first-term students are provided with an educational plan? This would be critical to make sure they are taking the right classes and graduate in a timely manner. What percent of all students are provided with an educational plan? He stated that these are all good questions that support degreed completions. Can we convert some of our internal certificates to official certificates and increase completion rates. There may be a way that we can tweak those certificates like add a couple more units so that we can increase our completion rates.

District Strategic Planning Committee – Minutes

April 28, 2010

Page 6

Become the Preferred Choice of Students Through Ongoing and Active Recruitment

Pedro reported that high schools with the closest proximity to our colleges have the highest participation rates. He stated that Riverdale sends many of their high school graduates to four year schools. It is difficult to collect data from the high schools and the CA department of education in a timely fashion. He stated that about half of our feeder high schools have agreed to upload data to the Cal-Pass system.

Pedro indicated that some questions to look at for the next strategic planning process would be how has the reduction of courses impacted enrollment from high school graduates? What strategies can we implement to increase high school graduates participation rates? Do we need high school counselors to be part of our strategic planning committee? How can we encourage or assist our feeder high schools to share data with Cal-Pass? How can Cal-Pass assist us in strengthening relationships with our feeder high schools?

West Hills Community College District Score Card

Pedro indicated the areas where we are struggling are Community Participation Rates, Online Success Rates and High School Participation Rates.

Comprehensive Effectiveness Model

Pedro expressed that he would like to introduce the Comprehensive Effectiveness Model that is from a book called Core Indicators of Effectiveness that was published by the American Association of Community Colleges. He stated that what is interesting is we are doing a lot of what is in the book already. This would be something for us to think about for our next strategic planning process.

Next Steps

Pedro announced that we need to update our strategic planning membership to increase participation from the working industry and community members. Pedro stated that we will conduct our new strategic planning initiative in fall 2010.

Survey

Pedro announced the last item on our agenda is the West Hills Community College District Strategic Planning Evaluation. Pedro asked the group to please fill out the survey and provide the name of three people that you feel should be a part of this committee. He suggested community members, industry members and co-workers.

Meeting was adjourned at 1:57 p.m.

WEST HILLS COMMUNITY COLLEGE DISTRICT

STRATEGIC PLAN 2006-2010

Five Year Review Cycle

Agenda

1. Final review of goals and performance indicators
 - a. Lessons learned from our five year strategic planning cycle.
 - b. Identify key questions to help drive our next cycle of strategic planning.
2. Final review of strategic planning scorecard
3. Comprehensive Assessment Model
4. Next steps
5. Five year cycle evaluation

Goal 1 – Meet or Exceed FTES Growth Targets

■ Full-Time Equivalent Students (FTES) Reported ■ FTES Generated ■ Unduplicated Headcount

Source: WHCCD Data Warehouse

Enrollment Efficiencies

Goal 1 – Questions for next strategic planning process

1. What impact did the reduction of courses have on the following:
 - a. Retention Rates
 - b. Success Rates
 - c. Degree and Certificate Completion Rates
 - d. Transfer Rates
 - e. Student groups (Gender, Age, Ethnicity)
2. Is this goal still relevant to strategic planning?
3. Would productivity (WSCH/FTEF) be a more appropriate goal?

Source: WHCCD Data Warehouse

Goal 2 – Focus Marketing Efforts on District-Wide Stories

westhillscollge.com

Goal 2 – Focus Marketing Efforts on District-Wide Stories

Lessons Learned:

1. The district newsletter format was revamped after extensive interviews with community members and the name changed to @West Hills College.
2. Budget cuts changed our marketing strategy from "increasing enrollment" to "promoting activities" and "maintaining our presence."
3. Social media has become the preferred method of communication for students (Facebook and YouTube).
4. It is difficult to measure the effects of marketing based solely on published stories and distribution of newsletters.

Questions for next strategic planning process:

1. This goal was established to improve community perception of WHCCD. Is this goal still relevant?
2. Can marketing help the district generate revenue?
3. Are we utilizing the right channels of communication?
4. How well are we maintaining our internal and external branding (image)?
5. Are we utilizing the appropriate measures to evaluate the effectiveness of marketing efforts?

Goal 3 – WHCCD Will Annually Increase Community Participation Rates

Percent of Population Enrolled at WHCCD

City	2007-2008	2008-2009	2009-2010
Tranquillity	3.40	3.73	1.88
San Joaquin	3.25	2.60	2.27
Mendota	2.71	3.28	2.66
Kettleman City	2.50	3.20	2.69
Huron	3.18	3.36	3.17
Avenal**	3.78	4.13	4.00
Hanford	4.42	4.78	4.05
Armona	5.22	5.55	4.49

Coalinga**	10.75	12.33	12.73

** Removed Inmate population

Sources: WHCCD Data Warehouse, Department of Finance Population Growth Estimate, CityData.com

Goal 3 – WHCCD Will Annually Increase Community Participation Rates

Lessons Learned:

1. Communities with the closest proximity have the highest level of participation.
2. Communities with the farthest proximity have the highest rates of participation in distance education.

Questions for next strategic planning process:

1. Do we want to develop outreach strategies for cities with the lowest participation rates?
2. How can we use distance education and Career Technical Education (CTE) initiatives to increase community participation rates?
 - a. Mendota WIT
 - b. Preliminary discussion about opening a community centers in Avenal, Riverdale, and San Joaquin.
 - c. Distance Ed Partnership with three rural high schools: Tranquillity, Firebaugh and Mendota.
 - d. Establishing e-Campus and services. *(More info under goal 4)*
 - e. Implement Community Education module into student system – will help capture additional students into our participation rates.

Goal 4.1 – Maintain Success Rates Within the CA CC Statewide Average

WHCCD Face-to-Face Success Rates

WHCCD Online Success Rates

Source: WHCCD Data Warehouse; CA Chancellor's Office Data Mart

Goal 4.1 – Maintain Success Rates Within the CA CC Statewide Average

Lessons Learned:

1. Online courses' retention rates are lower than face-to-face and must be analyzed separately and compared to different benchmarks
2. Experienced issues with success rates in some of our Career Technical Education (CTE) courses.

Questions for next strategic planning process:

1. What are we doing to improve online retention rates?
 - a. Distance Education Strategic Plan
 - b. E-campus
 - c. Help Desk Specialist
 1. Online Student Services Audit
 2. Updated Learning Management System
 3. Implemented Student Portal
2. What are we doing to improve CTE success rates?
 1. Reviewing program data from ARCC
 2. CTE Performance Indicators Review (Faculty, Deans, and VC)
 3. Program Review
 4. Created partnerships with Workforce Investment Boards that provide additional supportive services to students.

Goal 4.2 – Maintain Transfer Rates Within the CA CC Average

WHCCD First-Term Students' Cohort Transfer Rates

Source: California Community College Systems Office Student Right to Know

Note: Cohort based on a group of first time freshmen who are enrolled full-time in a fall term and are seeking transfer. The tracking period of the cohorts is three years.

NSCH Data – WHCCD Transfers to Four Year Institutions

NSCH Data – WHCCD Transfers to Four Year Institutions

Rank	Top 10 Transfer Four-Year Institutions - 2001 to 2009	Transfers
1	CALIFORNIA STATE UNIVERSITY - FRESNO	1,900
2	CHAPMAN UNIVERSITY	460
3	UNIVERSITY OF PHOENIX	427
4	FRESNO PACIFIC UNIVERSITY	411
5	NATIONAL UNIVERSITY	172
6	COLUMBIA COLLEGE	169
7	CHAPMAN UNIVERSITY-ORANGE	149
8	CALIFORNIA POLYTECHNIC STATE UNIVERSITY	110
9	CALIFORNIA STATE UNIVERSITY - BAKERSFIELD	68
10	EMBRY-RIDDLE AERONAUTICAL UNIV.-WORLDWIDE CAMPUS	68

Goal 4.2 – Maintain Transfer Rates Within the CA CC Average

Lessons Learned:

1. Rates are within the state average.
2. Transfer rates are very sensitive to CSU tuition increases.
3. Number of students transferring has continuously increased.
4. Acquired access to data on transfers to out-of-state and private institutions.

Questions for next strategic planning process:

1. How are our students performing at transfer institutions? (Fresno State Report)
2. How are capacity issues at CSU impacting our students who intend to transfer?

Source: California Community College Systems Office Student Right to Know

Note: Cohort based on a group of first time freshmen who are enrolled full-time in a fall term and are seeking transfer. The tracking period of the cohorts is three years.

Goal 4.3 – Maintain Graduation Rates Within the CA CC Average

Degree & Certificate Completion Rates by Freshmen Cohorts

Source: California Community College Systems Office Student Right to Know

Note: Cohort based on group of students who are first-time freshmen, who are enrolled full-time in a fall term, and are seeking a degree. The tracking period of cohorts is three years.

Goal 4.3 – Maintain Graduation Rates Within the CA CC Average

Questions for next strategic planning process:

1. What is the average number of semesters and units it takes a WHCCD student to complete a degree?
2. What percent of our first-term students are provided with an educational plan?
3. What percent of all students are provided with an educational plan?
4. Can we convert some of our internal certificates to official certificates and increase completion rates?

Goal 5 – Become the Preferred Choice of Students Through Ongoing and Active Recruitment

Percent of High School Graduates Enrolled at WHCCD

High School	Fall 2005	Fall 2006	Fall 2007	Fall 2008	Fall 2009
Tranquillity	17%	13%	6%	7%	7%
Laton	30%	9%	15%	12%	?
Hanford West	22%	15%	19%	31%	15%
Hanford	19%	30%	31%	17%	20%
Firebaugh	33%	32%	33%	25%	23%
Riverdale	9%	18%	24%	9%	23%

State Rate (Benchmark)					30%
Mendota	25%	28%	26%	31%	32%
Coalinga	39%	52%	43%	39%	32%
WHCCD Total	27%	32%	31%	21%	22%
Total Graduates	1,814	1,817	1,697	1,794	1,862

Source: California Department of Education; WHCCD Data Warehouse; Local HS Data

Goal 5 – Become the Preferred Choice of Students Through Ongoing and Active Recruitment

Lessons Learned:

1. High schools with closest proximity to our colleges have highest participation rates.
2. Riverdale sends many of their HS graduates to four year schools.
3. It is difficult to collect data from the high schools or the CA Department of Education in a timely fashion.
4. After schools programs have an impact on recruitment (Avenal After School Program)
5. It is critical to create and maintain good relationships with high school counselors.
6. Half of our feeder high schools have agreed to upload data to the Cal-Pass system.

Questions for next strategic planning process:

1. How has the reduction of courses impacted enrollment from high school graduates?
2. What strategies can we implement to increase high school graduates' participation rates?
3. Do we need high school counselors to be part of our strategic planning committee?
4. How can we encourage/assist our feeder high schools to share data with Cal-Pass?
5. How can Cal-Pass assist us in strengthening relationships with our feeder high schools? (Custom reports & Professional Learning Councils)

Introduction

The West Hills Community College District (WHCCD) is charting its next five years in service to students and the community. Three priorities stand out:

- Student success,
- K-12 partnerships, and
- Workforce development in support of the Valley's residents, employers and overall regional economic development.

These priorities are the outgrowth of collaborative dialogue involving the WHCC District Office, the District's two Colleges, West Hills College Coalinga and West Hills College Lemoore, and the West Hills North District Center. Within the West Hills mission these priorities are considered likely to have the greatest positive influence on the future vitality of the Central Valley and its residents.

With economic uncertainty more pronounced than ever in the Central Valley, the role of local initiative in building a robust economic future is critical. With emphasis on the three priorities, the WHCCD seeks to energize faculty/staff and formal and informal leaders to work aggressively in support of an improved future for the Central Valley.

Each of the priorities listed above has been subjected to intense review, first by district-wide leadership and then by planning teams carefully selected to bring special expertise and useful insight to the task. The planning teams have specified the scope and meaning of each priority and identified the most productive next steps in moving the WHCCD agenda forward.

Planning Approach

Planning sessions for each of the priorities were held on July 14 and 15, 2010. Student Success was addressed during the morning of July 14th, K-12 Partnerships during the afternoon of July 14th and Workforce Development and Economic Development in a daylong session on July 15th. All sessions involved a high level of participant interaction organized around structured group work dealing with specific topics relating to the West Hills role in each of the three priority area listed above. Participants in the three planning sessions were frequently recombined in work groups in order to ensure that all had an opportunity to benefit from the range of insight, intuition and impressive expertise represented by participants.

This report chronicles the work of the three planning sessions and summarizes participants' insights regarding the future role of the WHCCD and its institutions together with recommendations for immediate next steps. The material is presented with minimal editing in order to preserve the integrity of participant discussions and decisions.

During the planning sessions no effort was made to fully confirm facts or evidence presented. As appropriate, recommendations from these planning sessions should be further vetted in light of relevant data, market research and the opinion of those considered essential to the future success of WHCCD.

The names of those in attendance are listed in Attachment A of this report. Drs. Kathleen Guy and William Craft of the Eaton Cummings Group facilitated the planning sessions.

Goals for the Three Planning Sessions

- Engage participants in a facilitated dialogue about the future of the WHCCD – its mission, values and future vision with specific reference to: Student success, K-12 partnerships, and Workforce development in support of the Valley's residents, employers and overall economic development.
- Give each participant an opportunity to benefit from the full range of experience and expertise of those present
- Establish a future vision for WHCCD in reference to the three priorities
- Establish a priority list of next steps focusing on high yield strategies likely to move WHCCD forward as a robust contributor to the Central Valley – its people, its culture and its economy.

SS. Student Success Workshop

July 14, 2010

9:00 a.m.-12 noon

SS 1. Goals and Agenda

SS 1.1 Goals

- Focus attention and confirm strategies to strengthen WHCCD's student success culture
- Briefly review accomplishments since the last strategic planning session
- Achieve common definition/understanding of student success
- Engage best thinking of participants
- Understand strategies and related metrics tied to improve student success

SS 1.2. Agenda

- Welcome Dr. Gornick
 - What is student success?
 - Why does student success demand our attention?
 - We need your help to strengthen our thinking as we formulate the most effective strategies, focus attention, and seek to enhance student success.
- Introductions/brief warm up Facilitators/All
- Review of goals and accomplishments - Dr. Gornick, Pedro Avila
 - Scorecard review
 - New metrics related to student success
- Distance Education Trends (opportunities to support student success in a world of reduced resources) - Susan Whitener

Student Success Workshop – Agenda (continued)

- Facilitated Group Discussions Facilitators/All
 - Identify barriers to student success [informed by IR data]
 - Identify strategies to reduce/eliminate barriers
 - What should we be doing more of?
 - What should we be doing differently?
 - What should we stop doing?
 - Prioritize student success strategies/goals and refine metrics as appropriate
- Next Steps Facilitators/All
- Close Dr. Gornick

SS 2. Student Success – As Defined by Participants

Working in table groups, participants reflected on their personal interpretation of the phrase “student success” as it relates to formal education in order to identify and reach consensus regarding characteristics that describe student success and help to provide an operational definition. For the purposes of the planning session “student success” may encompass a range of meanings including:

- Personal growth: enhanced self-esteem, socialization skills, improved critical thinking skills and content mastery
- Becoming self sufficient, contributing member of society
 - Employed or otherwise productively engaged with the world
 - Active and inquiring mind
- Accomplishing individual goals as enumerated by each student: graduate with degree, transfer, successful participation in selected courses, gaining a certificate, advancing in career or broadened employment opportunities
- Completion of a specific degree or certificate program
- Transfer to a 4-year institution
- Detailed exploration of a student’s interest in a specific subject or body of knowledge
- Completing a specific course or courses for personal, career or academic reasons

SS 3. Individualize Educational Planning

Clearly, for WHCCD and for WHCCD students, “student success” means many things. Institutionally, student success tends to be measured in persistence – at the micro level course to course, semester to semester and at the macro level, degree or certificate completion. At a deeper level, the key to understanding and assisting students to achieve their definition of success is knowledge of their individualized educational plans. Currently an underutilized mechanism exists to assist students to think through and create their individualized educational plans. Although the details of the individualized educational planning process were not fully explored in the planning session, there was general agreement that more students could benefit from the process. WHCCD should seek to increase the number of students developing personalized education plans with the support of trained WHCCD personnel. Key elements of the educational planning process include:

- Identifying personal goals—each student defines his/her own
- A viable educational pathway to reaching individual goals
- A delineation of and access to appropriate support services
- An emphasis on lifelong learning with encouragement to continue to the next level
- Consideration of certificate and degree options including transfer to upper division programs
- Personal growth/education
- Leadership development

SS 4. Student Success—New Ideas and Opportunities for Improvement at WHCCD

Following the work on defining student success and the role of individualized student educational planning, attention was directed to a consideration of new ideas (brainstorming) and opportunities for WHCCD to positively influence student success. Briefly stated, the results of these discussions suggest the following opportunities:

- Creating/emphasizing a culture that is fixated on student success,
- Employing technology to a greater degree to promote and monitor individualized student educational plans,
- Establishing systems/processes that reinforce the need for and uses of individualized student educational plans,
- Expanding opportunities for partnerships, tutoring, and advising in support of the educational planning process, providing periodic review and updating of student plans – encouraging the talented to excel, engaging those at risk to help them persist and managing a process that encourages greater numbers to complete degree and certificate requirements.

SS 5. Topics for Further Consideration

1. **Open access vs. more rigorous criteria for student placement in programs.** Is it time to re-think/establish entrance criteria for admission to certain programs?
2. **Clarify the definition of student success:** Externally imposed (degree and certificate completion) vs. student success goals generated through the educational planning process. Which is the priority for WHCCD?
3. **Enhanced tools to support student success.** Determine priority and necessary investment in order to:
 - a. Enhance orientation to programs of study.
 - b. Increase student participation in the educational planning process. Currently 80% of WHCCD student lack individual educational plans. Do these plans correlate with persistence and degree/certificate attainment? Does there need to be a process that engages students in face-to-face relationship-building leading to individualized educational planning with trained West Hills professionals?
 - c. Encourage all students to participate in an educational assessment process in order to guide appropriate course placement. Does the management of this process need to be improved? Are there opportunities for students to assume responsibility through online assessment strategies?
 - d. Clarify the role of individualized assistance and follow-up regarding individual educational plans.
 - e. Strengthen the early warning alert system regarding student persistence and performance.
 - f. Re-design appropriate orientation programs based on age, stage in educational process.
 - g. Provide more opportunities for career planning including service learning internships, work experience, etc.
 - h. Enhance tutoring and mentoring services.
 - i. Create a more formal “first year” experience.
 - j. Ensure adequate resources to address student financial aid needs.
 - k. Re-think the role of the college catalog – consider its current form and ensure consistency of information about programs and services in all modes of WHC information dissemination.
 - l. Expand extracurricular opportunities to emphasize student life and reasons to engage outside of class.
4. **Improved systems and processes internal to WHCCD**
 - a. Ensure access to courses needed to graduate—including expanded access to on-line courses.
 - b. Establish a 1-year schedule/calendar of courses.
 - c. Enhance collaboration between instruction and student services.
 - d. Expand hours for support services: counseling, financial aid, help desk, food service.
 - e. As processes change (due to technology) be sure that key constituents, internally and externally, knows what the changes are and how to access/use them.

5. College going culture

- a. Strengthen K-12 relationships to develop early identification system for likely West Hills students in order to begin outreach to potential 1st generation students and families; be culturally sensitive; encourage gifted and talented students to choose and then be well served by WHCCD.

6. Customer Service

- a. First impressions are key to continuing positive relationships.
- b. Need mechanisms to respond to those who are lost, intimidated, confused, unsure.
- c. Student ambassador program.
- d. Welcome week.
- e. Name badges.
- f. Emphasize customer-friendly approaches through communications and personal interaction.

7. Partnerships

- a. Engage in more extensive collaboration with K-12 systems.
- b. Coordinate student support programs for prospective students and current students.

SS 6. Priority List – Areas for Improvement

Participants ranked the totality of items identified by the table groups and identified the following as priorities most likely to strengthen student success at WHCCD.

1. Emphasize the “First Year Experience”-think beyond “this semester.”
2. Build comprehensive one-year course schedules/calendars.
3. Create a “process map” to assist students in drafting individualized educational plans.
4. Design and resource a student-to-student ambassador program.
5. Expand placement testing and associated academic counseling – support developmental programming, general programming and specially targeted efforts for the gifted and talented.
6. Streamline processes for financial aid and identify additional funding sources for emergency and special purpose financial aid.
7. Expand and introduce more effective applications involving social media – communicating the look and feel of WHCCD institutions; engage prospective students in individualized, user friendly efforts to construct educational plans; build a broader-based virtual community of persisting WHCCD students.

8. Cultivate a culture of connections/relationships—make it “cool” to be connected with the WHCCD community – face to face and virtually – emphasizing the benefits of student-to-student, faculty-to-student networks.

SS 7. Immediate Next Steps – As identified by participants using the open-space planning technique

1. Develop metrics relevant to WHCCD definitions of student success – with targets set through 2015. Examples include: number of students working from individualized educational plans, relative success of those following educational plans, persistence measures (course to course and semester to semester), measures of degree and certification completion, individualized transfer and transfer success data
2. Prioritize opportunities for “program and process improvement and new ideas” identified in previous sections of this report and create implementation plans.
3. Communicate results of Student Success Planning to all faculty/staff – identify and distribute a short list of talking points to be used/referred to by workshop participants.
4. Establish and continue to strengthen a detailed inventory of the tools available to promote student success – oversee and coordinate their use – provide training and supportive technology to faculty and staff.
5. Clarify assignments – make it clear who is responsible for each element of the student success strategy – establish the longer term goals and intermediate milestones – provide conspicuous support and encouragement to the formal and informal leaders charged with moving WHCCD to a demonstrably higher level of student success.

HSO. High School Outreach Workshop
July 14, 2010
1:00-4:00 p.m.

HSO 1. Goals and Agenda

HSO 1.1. Goals

- Focus attention and practical action on increasing the college-going culture among high school students/graduates in the Central Valley
- Identify and share what WHCCD and high schools are currently doing to encourage college enrollment in general and, more specifically, enrollment at WHCCD colleges—the “IS MAP”
- Engage the best thinking of participants to outline strategies to strengthen the college-going culture in the Valley
- Co-create strategies and related metrics to increase enrollment of area high school graduates at WHCCD colleges

HSO 1.2. Agenda

- Welcome Dr. Gornick
 - Why education beyond high school is important—to students, families, economic development, and the Valley
 - WHCCD is a partner with the public schools, helping students to succeed beyond high school; increased college attendance and student success is our bottom line goal
 - We are eager to work with you to increase the college-going culture of the Valley and to make WHCCD colleges a top choice for your graduates
- Introductions/brief warm up Facilitators/All
- Current high school participation data and Cal Pass Pedro Avila
- What are we currently doing to encourage college attendance?
 - WHC outreach strategies including Early Registration for High School Graduates Sylvia Dorsey/Jill Stearns
 - High school strategies High School Principals

High School Outreach Workshop Agenda Continued

- Break
- Facilitated Work Topics Facilitators/All
 - Identify barriers to college enrollment anywhere and at WHCCD colleges
 - Identify collaborative strategies to reduce/eliminate barriers.
 - What should we be doing more of?
 - What should we be doing differently?
 - What should we stop doing?
 - Prioritize strategies/goals and define metrics
 - Determine how/how often to communicate results/issues
- Next Steps Facilitators/All
- Close Dr. Gornick

HSO 2. “IS MAP” of High School efforts (outline of current school/college initiatives as described by principals and superintendents attending the workshop)

HSO 2.1. Lemoore High School (LCS)

General

- Cal State Fresno president’s scholarship
- Fresno State—weekly mentoring at LHS

Specific to WHCCD

- LHS all seniors apply to WHC
- LHS works actively with WHC counselors to do on-site advising with LHS students
- Attend WHC classes while in high school
- WHC faculty visit high school campus
- Raised questions regarding Cal-PASS. Is data complete? Who is responsible?

HSO 2.2. Coalinga High School

Specific to WHCCD

- Pathways-Perkins—just starting to collaborate with WHC on this
- Established lists of students going to WHC—work with WHC advisors
- Articulations/dual enrollment
- Need “IS MAP” of informal activities in place with faculty and other personnel

HSO 2.3. Faith Christian Academy (FCA) - Independent (Private)

Specific to WHCCD

- WHC administers placement test at FCA, discusses curriculum pathways
- Enroll 8th graders at WHC—removes fear of unknown
- WHC administers placement test at FCA, discusses curriculum pathways
- Students take field trips to WHC
- Dual credit—college is free while students are still in high school

HSO 3. Addressing High School Outreach Goals

HSO 3.1. Participants working in table groups confirmed the importance of the following goals:

- Improving the College Going Culture in the Valley, and
- Benchmarking the participation rate at WHCCD of students from feeder schools in the WHCCD service region at or above the state average for California community colleges

HSO 3.2. With specific reference to WHCCD table groups recommended:

- WHCCD increase efforts to learn from K-12 systems what they are doing now to encourage a college-going culture, and
- Prioritize approaches identified in HSO 2 (above) together with additional new ideas in order to determine where to increase emphasis and focus resources.

HSO 3.3. Priorities identified include:

- 1) Website (29 votes) - enhance the WHCCD website (including the Colleges and Centers) making the presentation more user-friendly, creative, interesting and useful. Include a “student planning” application to try out various programs and also a twelve month calendar of courses for use in students’ individual educational planning as suggested in the Student Success portion of the WHCCD plan.
- 2) Communications (28 votes)—
 - Emphasize enhanced communication with K-12 systems including:
 - a. Engagement with professional colleagues in K-12 schools
 - b. Students starting at the middle schools – identify prospective students early, encourage all to enroll in college, make special efforts with the gifted and talented with regard to opportunities and choices in higher education, etc.
 - c. Parents – cultivate and involve parents in encouraging students to move on to WHCCD colleges and centers.
 - Employ the full range of communications tools including:
 - a. Surveys/focus groups of students and other key audiences to determine WHCCD features to emphasize, best modes/times of communication, etc.
 - b. Establish capability to “Know” when a student enters the WHCCD data system (initial inquiry) and then enable the system to automatically create a systematic follow-up process
 - c. Develop protocols to effectively engage the full range of communications tools—social media, web, print, email, phone, FTF, etc. at tolerable cost to the system
 - d. Ensure that timely, up-to-date, consistent and accurate information is available across WHCCD, reinforce the need for regular contact and share information appropriate to various target audiences
 - e. Enhanced E-Team capability (materials, presentations, communications skills, and always dressed for success).
- 3) Road Map (22 votes)
 - a. Invest in a comprehensive enrollment management process
 - b. Design straightforward pathways that make clear and accessible the way from High School to West Hills to certificates, associate degrees and bachelor’s degrees – emphasize that support is available along the way to enhance the likelihood of student success and completion
 - c. Make the pathways easy to navigate electronically, including simplified search and find

- d. Build cohort groups—package degree programs to be completed in two years leading to transfer
 - e. Ensure that everyone in the region’s high schools completes an application and takes placement tests—build momentum with sophomore/junior outreach
 - f. Streamline all WHCCD policies, procedures and curriculum before mapping success pathways
 - g. Exaggerate the user-friendliness of WHCCD—simplify the processes required to get information and transact business
- 4) Field Trips to West Hills colleges (20 votes)
 - a. Organize or provide transportation to and from WHCCD campuses – partner with K-12s
 - b. Create “breathtaking” College Day Programs for visiting secondary school students
 - 5) Connect High School Counselors to WHCCD Portal (15 votes)
 - 6) Enhanced presence of West Hills in the public schools and independent schools (11 votes)
 - a. Be present on K-12 campuses—via technology and in person
 - b. Attend school and community events—be visible and approachable and able to share the WHCCD story

HSO 4. Immediate Next Steps (responsible party noted in () as identified by session participants)

- HSO 4.1. Start now to provide portal access to high schools (Pedro Avila)*
- HSO 4.2. Complete “IS MAP” of formal and informal processes that contribute to WHCCD/high school outreach – Create matrix describing who is doing what (Chancellor/Presidents to determine assignments and oversee liaison with the school systems)*
- HSO 4.3. Hold strategic planning session between WHCCD and high schools in early-mid August (Chancellor/Presidents and superintendents) to strengthen current efforts and outline steps to implement additional WHCCD/high school efforts*
- HSO 4.4. Improve communication with students who are in the pipeline now (Registrar/IT)*
- HSO 4.5. Examine project management tools and select one that may help with this process (Pedro Avila)*
- HSO 4.6. Communicate WHCCD goals/metrics for enrollment of high school students at WHCCD—expectation is to enroll numbers at or above the state average of college-going students from area high schools at West Hills (Pedro Avila)*
- HSO 4.7. Identify process to implement early registration with high school students—criteria, timing, etc. (As assigned by Presidents)*
- HSO 4.8. Provide summary of today’s goals, work and next steps to all who need to know (Chancellor)*

EWD. Economic and Workforce Development Workshop

July 15, 2010

9:00 a.m.- 4:00 p.m.

EWD 1. Goals and Agenda

EWD 1.1. Goals

- Identify Strengths and Opportunities that may exist in the Central Valley
- Envision the “new or emerging economy” in the Central Valley
- Identify workforce development requirements for the new economy
- Focus attention and identify practical action steps – by engaging the best thinking of participants
- Co-create strategies to effectively shape the new economy
- Co-create strategies for meeting related workforce development needs

EWD 1.2. Agenda

- Welcome Dr. Gornick
 - The Central Valley must be prepared to shape and respond to the new economy in order for the region and families to survive and thrive
 - WHCCD and its colleges are strategic partners in planning for and helping to create road maps to provide hope as our economy is transformed
 - We’re partners in workforce development, helping students and businesses to succeed
 - We want to draw on your best thinking today to help envision our economic and workforce future
- Today’s Central Valley Economy WIB and EDC Representatives
- Brief Overview: Current WHCCD Workforce Development Activity Carole Goldsmith

Economic and Workforce Development Workshop Agenda (continued)

- Introductions and Table Discussions
Valley Strengths and Opportunities Facilitators/All
- Working Groups: Trends that will Impact
the Future of the Central Valley
- Working Groups: Comparing the current Central Valley Workforce
with what will be needed in three to five years
- Working Groups: Workforce Gaps/Needs/Social Consequences
- Working Groups: Our Future Vision for Economic Development
in the Central Valley
- Working Groups: Our Vision in Action
- Working Groups: Roles and Opportunities
 - Who does what?
 - Who else needs to be at the Table?
- Working Groups: Communications Strategies
- Working Groups: Next Steps
- Close Dr. Gornick

EWD 2. Strengths inherent in the Central Valley

Working in table groups participants were asked to identify the strengths common to the Central Valley. The question posed was “What Central Valley attributes would you stress in order to convince friends and relatives to invest in or relocate here?” The responses are as follows:

- Affordable cost of living
- Quality of life
- Diversity – people
- Willing and effective collaboration among post-secondary institutions
- Geographic location – ease of access to many resources – reasonable distance to Pacific beaches, major cities, outdoor recreation,
- Temperate weather/climate – number of “sun days” and the connection to solar power generation
- Workable population density – the ratio of people to land area is relatively low and attractive to those seeking fewer people and more space
- Agriculture - abundance of locally produced, high quality food
 - Crop diversity
 - Resources in support of agriculture
 - Research –technology (industry driven)
 - Workforce
- The region has the ability to accommodate growth
- The people of the Valley are community oriented
- Abundance of educational access – quality institutions, wide variety of programs and effective supportive services
- Values held and expressed in practice—strong work ethic, neighborly, welcoming.

EWD 3. Opportunities inherent in the Central Valley

Working in table groups participants were asked to identify the opportunities inherent in the Central Valley. The question posed was “What opportunities are most apparent for economic development in the Central Valley? The responses are as follows:

- Capacity to absorb and deal effectively with growth
- Branding the Valley—what do we want people to know and remember about us; telling our story
- Strengthen collaboration between colleges, universities, public schools, local, state and federal agencies, WIBs, and business
- Changing workforce needs in agriculture
- Environmental issues that have potential to create jobs (e.g. water)
- Collaboration to seek funding from federal/state sources
- Large and willing workforce
- Attract businesses from high cost urban areas
- Opportunities to add value to commodities
- NAS Lemoore high tech industries
- Develop water and energy resources
- Diverse population available for training
- Basic skills training with technical training integrated
- Educational infrastructure
- Diversity of employment opportunities
- Accessible via interstate, air
- Vertical integration of agriculture
- Alternative energy – “Solar Sun Days a Valley Energy Resource”
- Business retention and expansion

EWD 4. Trends –Identified by participants as most likely to influence the future success of WHCCD in contributing to workforce and economic development– either as a helping trend or as a hurting trend

Working in small task groups, participants identified a broad range of trends in assigned categories including “Environment/natural resources,” “Social/demographic,” “Government/regulatory,” “Investment opportunities,” “Technology,” and “Competition.” Trends identified were in turn, prioritized using a three choice open voting system. Trends perceived by participants to have the greatest influence on the future contribution of WHCCD to workforce and economic development are summarized as follows.

EWD 4.1. Social/Demographic

Helping Trend

- Aging population—the region may be a target for retirement living. (6 votes)

Hurting Trend

- Lack of basic academic skills among students. (6 votes)
- Negative consequences of state economic condition. (11 votes)

EWD 4.2. Government/regulatory

Hurting

- More regulation, much of it focusing on air quality (11 votes)

EWD 4.3. Investment opportunities

Helping Trend

- Energy efficiency and renewable energy resources (solar) (18 votes)

Hurting Trend

- Lack of capital availability (5 votes)
- Land use balancing (4 votes)

EWD 4.4. Competition

Helping Trend (How the Valley is meeting the competition)

- WHCCD on-line distance learning (17 votes)
- Quality of WHCCD education in general (4 votes)
- WHCCD workforce training (1 vote)
- The Valley has readily available, strong educational resources (3 votes)
Total of 25 votes recognizing the various forms of education at WHCCD and the availability of quality educational resources throughout the Valley – “educational opportunity - a sustaining asset for the valley”
- The Valley is becoming more conscious of its positive attributes and adept at perfecting and broadly sharing the positive Valley story (4 votes)

EWD 5. Future Vision

The Future Central Valley will:

- Offer a seamless web of education: K-12, community college, universities –in support of economic development
- Provide a culture of support for businesses and entrepreneurs
- Keep the knowledge base here
- Be a global hub for agricultural education; advancing agricultural technology
- Be California’s center for renewable resource industries and training; there is a role for education in teaching people about impending consequences of regulation and legislation
- Be a center for entrepreneurial activity—with special emphasis on environmental innovations
- The place where today’s workforce meets tomorrow’s technology
- Be a great place to live, work and play
- Be California’s economic experiment in building the future economy—a tax and regulation free zone (like charter schools) in coordination with the region’s tribal governments

EWD 6. Vision in Action

The Central Valley will focus on:

- 1) Becoming California's center for renewable resource industries and training
- 2) Educating
 - a) Employers/business and employees
 - b) Contractors—residential and commercial
 - c) Residents
- 3) Retaining business—providing support for business lifecycle training—introducing new methods and processes, attracting new technologies
- 4) Communicating
 - a) What is our economic development vision? Our Central Valley “brand promise?”
 - b) Who is the audience?
 - c) What do we want them to do?
 - d) Where/how do we reach them?
- 5) Aligning resources around the vision
- 6) Becoming the global hub for agricultural education – the Valley will host visiting delegations from countries worldwide who come to learn about vertical integration of farm to market, low water crops and 21st century use of minimal pesticides, water and fertilizers
- 7) Training health care workers for the aging population; cultural sensitivity; collaborate with health care organizations re: current needs in health care training, e.g. educational reform

- 8) Creating a culture of expectation among faculty/staff—help students to “see” that the classes they are taking lead to job readiness and employment
- 9) Supporting employer retention strategies through incumbent worker training
- 10) Considering technology applications as part of tool kit for education and training
- 11) Communicating internally the process for employer feedback—identify ways in which the process can be improved
- 12) Developing a plan to acquire the educational lead role in the California center for renewable resource industries and training
- 13) Providing appropriate advocacy for partners who are seeking grant funding for related projects
- 14) Defining WHCCD’s role in promoting the “centers of excellence” concept (agriculture, energy, entrepreneurship), including consideration of incubation and technology transfer
- 15) Identifying resources for entrepreneurial education

EWD 7. Immediate Next Steps

EWD 7.1. Share results of planning day with internal and appropriate external audiences—in summary form

EWD 7.2. Provide executive cabinet report for Board of Trustees

EWD 7.3. Develop strategies, time lines, etc. for 5-year plan

EWD 7.4. WTB-EDC - share and communicate more regularly to foster alignment of vision and plans

Mission

The mission of West Hills Community College District is enhancing student learning and enriching the lives of the populations we serve by:

- Ensuring the vitality of its institutions;
- Encouraging the vision of strong leaders able to see and interpret the present and future needs of students and communities;
- Supporting the colleges in the provision of world class learning environments;
- Providing for appropriate allocation and management of human, fiscal and capital resources.
- Acting as a catalyst for collaboration with outside organizations and agencies; and
- Sharing the story by marketing a positive image.

Vision

West Hills Community College District, a trusted steward, actively engages, encourages, enriches and empowers students, faculty, staff and the communities it serves to reach their full potential (academically, socially and economically) as evidenced by:

- Its status as the preferred choice of students, and the employer of choice for faculty and staff;
 - The highest percentage of students completing courses;
 - Its recognized excellence; and
 - The generally ascribed accolade, "heartbeat of the community."
-

District Timeline 2008-2009

Aug

- WHCC bid approval for \$10 million for wellness center
- Xtreme Registration at WHCL
- West Hills' enrollment up 20% since previous year

Jan.

- Construction starts on the WHCC gym and wellness complex

Feb.

- West Hills Chancellor Frank Gornick honored at state level

Mar.

- Bridge Out of Poverty conference with guest speaker Ruby Payne
- Valley Fever Forum at WHCC

Sept.

- Noted Author Gary Soto speaks at WHCL
- WHCL trike-a-thon raises funds for St. Jude's Children's Hospital

April

- Phyllis Roberts donates \$25,000 for scholarship endowment.

May

- Vince Motte donates \$12,593 to help fund a new weather station for Coalinga

Oct.

- WHCC 12th Annual Athletic Hall of Fame
- UC Merced Chancellor Sung-Mo "Steve" Kang visits WHCC
- Third Annual WHCL Veterans Appreciation Luncheon

- WHCC and WHCL awarded more than 700 degrees and certificates

Nov.

- School facilities improvement districts approved by local voters providing \$11.6 million for WHCC and \$31 million for WHCL. Firebaugh passed its bond measure June of 2008.

Dec.

- West Hills College wins \$792,920 grant to serve veterans

- Sandy Cavins, the district's longest-term employee, retires after 40 years

West Hills College Coalinga

Mission Statement

To commit college-wide staff and resources to the student learning process. To provide educational, cultural, and economic development opportunities to our current and future students and the local and global communities that we serve.

Vision Statement

West Hills College Coalinga strives to become a premiere interactive learner-centered community college recognized for its contribution to the educational, social, cultural, and economic vitality of the region and the state.

Achieving goals despite economic challenges

The economic challenges of these past few years have not deterred us from achieving our mission. Despite significant budget reductions, our enrollment for 2008-09 was 13 percent higher compared to 2007-08. This is directly attributable to our talented faculty and staff who have found ways to be more efficient and productive with fewer resources to ensure student access and success.

In June 2008, citizens in the northern part of the district passed Measure Q, an \$11.8 million general obligation bond measure. In November 2008, citizens in the Coalinga-Huron area passed Measure C, an \$11.6 million general obligation bond measure. These bond measures will provide resources for facilities improvements that will impact current and future generations.

General obligation bond funds have already made a difference. Significant improvements have been completed at the North District Center in Firebaugh. A facilities planning team has been working with campus architects to design a new building to replace the existing campus center.

Major improvements have also been completed on the Coalinga campus. The men's residence hall (Gordon Hall) received a facelift. Two new relocatable buildings were added to the child development center. Bond funds have been used to assist with the wellness center project (gym renovation and additional 10,000 sf building) and the ag science facility. The wellness center is scheduled for occupancy in the fall 2010.

Providing access to high quality education opportunities for all residents in our service area continues to be the focus of our overall mission. In 2010-11 we will open learning/outreach centers in several of the smaller communities within our service area.

Improvements to institutional effectiveness processes have taken center stage. We are now utilizing measurable outcomes on a regular basis to guide planning and resource allocation decisions. Results from the assessment of performance indicators, program review, and other evaluative processes are being used to make improvements to student learning. The results of some of these assessments can be found at http://www.westhillscollege.com/coalinga/about/governance_planning/college_consultation/index.asp.

Our vision of becoming "a premiere interactive learner-centered community college" continues to guide our efforts in making a difference in the lives of our students and in contributing to the vitality of the communities we serve.

Willard Lewallen
President, West Hills College Coalinga

Grants:

Total grant funding in 2008-09 exceeded \$5 million for WHCC.

President's Scholars:

A total of 22 students received President's Scholars scholarships for 2008-09. This scholarship covers enrollment fees and provides a book allowance each term.

Successful Transfer:

The number of students transferring to four-year institutions in 2008 increased by 58% from 2007.

West Hills College Lemoore

Mission

West Hills College Lemoore enriches the lives of our students and the community we serve by being dedicated to quality educational learning opportunities and partnerships. The college provides a positive environment that is committed to student learning and empowering students to achieve their educational goals.

Vision

Learning Through Excellence and Innovation

WHCL planning for the future with new programs, facilities

The academic years 2008-09 and 2009-10 will have seen extraordinary cuts to community colleges as the result of the state's recent economic downturn. West Hills College Lemoore will have reduced its operating budget by over \$2.2 million while at the same time maintaining its priority and focus on students.

Course offerings were reduced yet we were able to maintain our commitment to general education, basic skills, workforce development, and degree level courses.

With all the reductions to the general fund, WHC Lemoore still celebrated its groundbreaking for the new \$24 million multi-use sports complex that begins phase three of the college's master plan. It is scheduled to open in March 2011.

Our Allied Health program has been able to withstand budget reductions and will expand its offerings with new courses. Highly skilled technical program training will remain a strong demand throughout the state and West Hills is positioned to provide training.

Our newly developed Engineering Scholars Program provides financial support to more students by providing full tuition and books to qualified students. WHCL will play a key role in preparing students for great career opportunities.

All this is just a small list of the many ways West Hills is a leader in providing quality educational opportunities for the communities that we serve. Even in times of great difficulty, with hard work and teamwork, great things can still happen.

West Hills College Lemoore will continue to be a leader in assisting the state to recover from its economic downturn.

Don Warkentin
President, West Hills College Lemoore

Grants:

Total grant funding in 2008-09 exceeded \$3 million for WHCL.

President's Scholars:

A total of 48 students received President's Scholars scholarships for 2008-09. This scholarship covers enrollment fees and provides a book allowance each term.

Successful Transfer:

The number of students transferring to four-year institutions in 2008 increased by 22% from 2007.

Foundation helps students realize dreams

The students at West Hills College are our future. Helping them realize their dreams of a college education will positively impact our communities and enhance the quality of life we appreciate now and in the years ahead.

As a proud member of the foundation board of directors, I've been privileged to work with a dedicated team of individuals who support the students of West Hills through their time, energy, leadership and philanthropy. Our foundation board consists of community members, civic leaders, businesswomen and men and agriculturalists from across our service area who value education and want to expand the higher educational opportunities for our children and local residents.

Special thanks go to three individuals who made substantial gifts to the foundation during 2009. Phyllis Roberts donated \$25,000 for an endowed scholarship at WHCC. Vince Motte contributed \$12,500 to help fund a new weather station at the WHCC Farm of the Future. George Ollikkala donated a substantial art collection to libraries throughout the district. We thank them and the many others who contributed to help our students realize their dream of a college education.

Ernest "Ernie" Drewry
President, WHCC Foundation

Interim Executive Director

Foundation Mission

The West Hills Community College Foundation enthusiastically engages residents, corporations, foundations and communities of the San Joaquin Valley in financial support and advocacy for the West Hills Community College District. We are entrepreneurial partners with the colleges as we plan and implement programs to build relationships and raise funds.

The Foundation Vision

Our vision is to be a dynamic, legacy organization recognized for:

- The Foundation's \$5 million endowment (by 2008),
- 140 new scholarship funds,
- Establishment of a successful "new alumni" fundraising program,
- An effective and engaged board,
- Significant contributions to the "K-16 Dream" (creating a college-going culture among K-12 students) and,
- Sponsorship of cultural, educational and economic development programs.

The Foundation— Guiding Principles

The West Hills Community College Foundation applies the following guiding principles in its conduct of business:

- Advocate for education and its ability to change lives,
- Practice responsible stewardship,
- Maintain respect for others,
- Conduct business in an open and transparent manner,
- Support diversity and inclusiveness,
- Demonstrate reliability and accountability; and
- Exemplify a commitment to serve students and the community

Enrollment

Source: WHCCD Data Warehouse

Note: Adding WHCL and WHCC exceed the total of students enrolled at WHCCD due to duplication from students who are enrolled at both institutions.

District Technology Council
November 19, 2009
District Office Board Room/Lemoore Rm 124
10:00 a.m.

Minutes

Members Present: Pedro Avila, Carole Goldsmith, Susan Whitener, Keith Stearns, Tammy Weatherman, Ken Stoppenbrink, Jana Cox, Michelle Kozlowski, Jill Stearns, Jose Lopez, Elaine Howard

Members Absent: Richard Post, Dave Bolt

Guest: No Guests

1. **Call to order:** 10:17 a.m. by Carole Goldsmith

2. **Approval of Minutes:**

Jill Stearns moved to approve minutes of October 22, 2009 as corrected. Motion seconded by Carole Goldsmith

Action on Motion: Passed unanimously

3. **New Projects**

3.1. Follett Book Look – Ken Stoppenbrink – Brief Update

Ken reported that the book store now has a list of the books to provide students in excel document format. Ken forwarded the information to Greg Kiryakakis, the Follett Regional Manager.

This will be looked at again after the first of the year.

Carole indicated that before moving on to project updates that she would like for the group to have discussion on reviewing the priority items and the definitions of the priorities. Carole explained that a priority 1a is a mandatory priority; a 1b is an urgent or in process priority and 1c is a standard priority.

Carole stated that she would also like to have a discussion on aligning DTC projects to the district strategic goals. Michelle asked if our college goals are pretty much the same as the district goals. Jill answered yes, the college goals are tied to the district goals. Jose stated that aligning is a good idea. Jana also stated that it is a good idea.

Action: Re-visit this at the next meeting.

4. **Project Updates**

4.1. Review Project List

Datatel Server Upgrade to 64bit – Michelle Kozlowski

Michelle reported that they are working on security issues and that they will be testing extensively.

Michelle stated that their goal is to get tested and tried by December and January.

Target Date: February 2010

Datatel User Interface 4.0 – John Wright

Not present to report.

Target Date: Spring 2010

Textbook Compliance – Ken Stoppenbrink

Ken reported that they should have a solution by the first of the year.

Target Date: In progress

CB21-Below College Level Basic Skills – Jill Stearns/Dave Bolt

Jill reported that the final training was December 3, 2009 that they were not ready for the colleges. Keith stated that the codes have to be recoded into Datatel. Jill stated that the target date was pushed to March.

Target Date: March 2010

P/NP Grading

Action: Add Pedro Avila as a manager.

Target Date: Ongoing

Blackboard 9 Upgrade – Susan Whitener

Susan reported that it is on target and that students will be trained as well.

There will be some online training and on campus training. Susan stated that this will be ongoing for quite some time.

Target Date: January 2010

Address Review & Update – Keith Stearns

Keith suggested that the name of the project be changed to Address Review & Update. Keith reported that there are six components to this project:

- **Usernames**
It has been cleaned up for students and employees.
- **Constituencies**
It has been cleaned up for staff. The students clean up is still ongoing.
- **Email Addresses**
Staff has been cleaned up. Students have been cleaned up. We are working on types and policies for when to use types.
- **Phone Numbers**
Not started yet.
- **Naming Conventions**
Not started yet.
- **Street Addresses**
Not started yet.

Portal Tab Redesign – Pedro Avila
Pedro was assigned as manager.

Website Redesign – Pedro Avila
Pedro was assigned as manager.

Portal 2.0 – Michelle Kozlowski
Michelle reported that the test system is up and when Tanner returns from vacation he will be able to work on it. Change the target date to ongoing.
Target Date: Ongoing

VTEA Project Import – Carole Goldsmith
Carole reported that there appears to be a gap in the collected data in regards to student demographics. Additionally, our current method of collecting data does not have a high response rate. This is negatively impacting our VTEA funding and possible other categorical areas too. Accurate data and increased response rates will lead to get extra funds. Carole stated that Sacramento City uses a form of a supplemental application to update information every semester, in order to keep information current. Michelle suggested that we should update every semester. There was discussion about re-naming this project and making it a new project – Student Demographic Acquisition with a priority 1a. Carole volunteered herself for a new project.

Drop Dates Publication – Pedro Avila
Ongoing project

HR Workflow – Ken Stoppenbrink
Ken requested that this project be removed from the project list it has been completed.

Datatel Access Profile – Pedro Avila
In progress.

Class Roster Format – Pedro Avila
Status is in progress.

Waitlist – Pedro Avila
Pedro reported that this project is in progress. He now has a full team and will have a quick meeting to touch basis with everyone. Pedro stated that Elaine is working on a meeting date.

SARS Grid – Jose Lopez/Jill Stearns
Jose reported that there are still some glitches but over all going really smooth. Jill stated the only dislike is that they have to sync it at the end of every day. SARS Grid is completed.

The group decided that they need to add three new projects associated with SARS.

- **E-SARS** – So students can go in and make their own appointments. This project was given a priority 1b. The following leaders/managers assigned were Jose Lopez, Jill Stearns and Pedro Avila.
Target Date: May 2010
- **SARS Track for Grid**
Leaders assigned to this project were Jill Stearns and Jose Lopez. This project was given a priority 1c.
Target Date: May 2010
- **SARS Import** – Takes the data in SARS and puts it into Datatel. The leader assigned is John Wright, with a priority 1a.
Target Date: May 2010

WEB Time Card Entry – Ken Stoppenbrink/Tammy Weatherman

Ken reported that they are still testing.

Tammy stated that everything is moving along, the biggest issue is getting people in.

Technology Strategic Plan – Michelle Kozlowski

Michelle reported that the plan is completed. It hasn't been routed yet there are a few minor revisions that need to be made. She asked that it be removed from active project list to complete. She and Carole will be routing it in the spring.

e-Brochure – Frances Squire

Pedro reported that they are very close to finalizing it, that they have received some good reviews from their group. Pedro also reported that they are about 80% complete. The group decided to change the name of this project to e-Brochure for Prospective Students.

Online Degree Audit – Pedro Avila/Sandy McGlothlin

Susan Whitener asked that she be removed from this project.

Pedro stated that they are working on making some corrections.

Target Date: March 2010

Graduation Petitions Online – Angela Tos/Marlene Roton/Pedro Avila

Pedro stated that he will give an update at the next meeting.

Waiting on Events

Live@EDU – Michelle Kozlowski

Michelle reported that they are waiting on Microsoft to release some enhancements.

Document Imaging – Hershey Transcript Importing – Michelle Kozlowski
Michelle stated that she will need to revisit this and that this would be a discussion for the next meeting.

Automatic Approvals – Tammy Weatherman
Tammy reported that this project is on hold. Move to on hold status.

On Hold

Faculty Section Change Forms – Pedro Avila
Susan stated that this needs to be an active project. Pedro is the leader.

eAdvertising/Ed Plans – Jose Lopez

As is, on hold.

Carole stated that we will take a look at this in April. Carole asked Jana to give an update at the April 2010 meeting.

Reporting Solution – Zogotech – Pedro Avila
Move this project up, is still looking for funding source.

BOGG Waiver through CCCApply – Jana Cox
Move this project up to active list. Need more research.

Position Budgeting Module – Ken Stoppenbrink
Ken stated that this doesn't work well. Remove.

Positive Attendance Entry on Web
Remove.

CCC Apply Electronic Transcripts – Carole Goldsmith
Remove Michelle as leader and put Carole as leader. Carole stated she would like to take a look at it again. Move this project to the Active list. There will be a presentation at the next meeting.

Faculty Drop Students Online – Dave Bolt/ Susan Whitener/Carole Goldsmith
Move this project up to Active.

6. Announcements

Carole announced to remove number five, Team Updates from the Agenda.

Carole asked Susan to give a Project overview on Web Streaming and Classroom Capture.

Susan reported that the project is for the Westside and Lemoore. Willard asked her to come up with a solution that will service the off campus sites with web streaming and classroom capture. Ken stated that what has not been identified to him yet is on the line item – multiple components, how much is specifically dedicated for technology? Ken stated he is waiting for that answer. Susan stated a commitment was made to Coalinga and District to provide educational services. There will need to be a presentation to the facilities committee. Ken stated the committee will need to be aware of the impact it will have on the bond money. Susan stated that they have two vendors. Carole requested to have a meeting off line with Susan on the details of this project.

7. **Adjourn:** Meeting was adjourned at 11:58 a.m.

/eh

District Technology Council
February 25, 2010
Coalinga Sam B /Lemoore Rm 124 via Video Conference
10:00 a.m.

Minutes

Members Present: Pedro Avila, Dave Bolt, Carole Goldsmith, Susan Whitener, Keith Stearns, Jana Cox, Michelle Kozlowski, Jill Stearns, Sylvia Dorsey-Robinson, Stephanie Droker, Elaine Howard

Members Absent: Richard Post, Ken Stoppenbrink, Tammy Weatherman

Guest: Lenny Robinson Project Manager, eTranscript

1. Call to order: 10:15 a.m. by Carole Goldsmith

Lenny Robinson gave a presentation to the group via CCC Confer on CCC Apply Electronic Transcripts. Lenny explained that eTranscript California is the statewide internet-based system for requesting, transmitting, tracking, downloading and viewing academic transcripts among authorized educational institutions and their trading partners. The power point presentation is posted on the Portal.

The meeting reconvened at 11:09 a.m. via video conference after the presentation.

2. Approval of Minutes:

Susan Whitener moved to approve minutes of November 19, 2009. Motion seconded by Jill Stearns

Action on Motion: Passed unanimously

3. Discussion regarding e-Presentation

Carole asked the group for comments or thoughts on e-Transcript.

Susan commented that it sounds good. Keith stated that most of our institutions are not using it. At this time none of the community colleges receive transcripts into Datatel. Jill shared that the state needs to release a concept. Keith stated that he thinks that we would be able to push it through to Fresno State. Pedro expressed that it would be a huge savings in Maria's time. Carole asked Keith who we would talk to in regard to the process and how it's working. Keith responded that we need to talk with other Datatel schools.

Carole announced that the new project leader for this project is now Keith Stearns, registrar.

4.1. Follett Booklook

Carole asked Jill and Dave to give an update on Follett booklook system.

Jill expressed that if the responsibility falls on Follett to keep the spread sheet current every time a book price changes and doesn't fall back on us to keep it current, it would be a good thing. Jill also stated that if the solution clearly puts it in their ball park once that connection is made and Follett has that responsibility spelled out that it is theirs; I think it is the way to go.

Dave stated that he and Jill have talked with Ken and Ken supported the position. Dave expressed the need to let Greg at Follett know the deadline date of when we were going to be on board with the Follett plan. Carole asked Jill and Dave if they would remind Ken to get the deadline date information to Greg at Follett.

Susan asked Keith what his thoughts were on the Datatel Solution, has anything come out? Keith responded, Datatel has released their solution and the issue with Datatel Solution is that someone has to go in and update the information which means typing in ISBN numbers. It is difficult to do.

Susan stated her concern was that Follett their book prices may change but I think what is really going to change is the cost that the service has and I think we are just going to have to pay it.

Carole stated that right now I don't think they have talked about charging a fee have they?

Susan responded that once it is implemented and we have done our code and we have done everything to integrate it. Carole stated then it is going to cost one way or the other.

Keith explained that he has gone to a couple of places actually Lee University that has implemented the booklook solution into Datatel and they basically have had to add another column that has a link to booklook. The other issue is that Datatel has come out with a Portal class search which we are looking into so we will have to find a place there to put it into also. This is a whole different ball of wax. Keith gave the website if you want to find it; it is web.leeuniversity.edu and search for classes.

Dave asked Keith if that is the link to another page with all the book prices on it.

Keith responded, the way booklook works from what I can tell is that you provide a link to their booklook software and you tell it what section it is and it pops up with the book information and the cost for that particular section.

Dave stated that it is convenient for the student but if the link went to a general page that required the student to navigate around a little bit to find it that would satisfy the requirements as well.

Dave expressed that the method that Keith just identified still requires tremendous amount of linking the link to the specific page.

Keith explained that the way their booklook solution works is that you pass it section information it shows you book information for that section. That is the advantage of their solution.

Jill stated, I think this solution helps us in terms of the number of students we have that take courses across campuses and particular online because once they click a specific section it gets them the correct textbook for that section.

6. Announcements

Carole announced that the next DTC meeting will be held on April 15, 2010 and at that meeting we will go over team updates and also Carole would like to go over how we assign our priority on projects.

7. Adjourn

Meeting was adjourned at 11:29 a.m.

District Technology Council
September 17, 2009
District Boardroom/Lemoore Rm. 124
10:00 AM

Minutes

Members Present: Pedro Avila, Susan Whitener, Priscilla Balcazar, Jill Stearns, Keith Stearns, Dave Bolt, Michelle Kozlowski, Jose Lopez

Members Absent: Tammy Weatherman, Richard Post, Dolores Smith, Ken Stoppenbrink, Jana Cox

Guest: Carole Goldsmith

1. **Call to order:** 10:01 by Pedro Avila

2. **Approval of Minutes:**

M. Kozlowski moved to approve minutes of August 27, 2009. Motion seconded by S. Whitener.
Action on Motion: Passed unanimously.

3. **New Project:**

3.1 **AlertU Emergency Notification – S. Whitener**

S. Whitener stated Frances Squire is not on this committee but has sat in on discussions regarding the emergency alert system. We currently have Call-All but there is no way to alert students elsewhere on campus or off-campus. Some members thought a committee has already studied this issue and P. Avila clarified that the committee originally talked about a text messaging system to communicate with students and it was dropped from the projects list due to a lack of student interest. The other piece was AlertU in which Frances and Anne Jorgens would work with college representatives and they have not returned to this committee with a decision. There was some confusion as to whether a decision had been made and S. Whitener responded, if there has been a decision it was made without the college presidents' approval.

P. Avila added we need to make sure Frances has met with the Emergency Response Team on both campuses and S. Whitener asked why Frances is responsible for this project as this is clearly a technology issue. P. Avila responded that Frances is the Public Information Officer and she expressed an interest in this topic.

ACTION: Check back with Frances and Anne to meet with presidents and colleges.
Frances Squire attend next meeting.

3.2 **Follett Booklook – K. Stoppenbrink**

- To the question of who was responsible for this project, S. Whitener stated K. Stoppenbrink forwarded message to her and she forwarded it to M. Kozlowski. M. Kozlowski reported there are new requirements regarding textbooks and at this time

she doesn't know if this program will work for us. D. Bolt and J. Stearns will stay on top of this.

- J. Stearns stated an incredible burden is being put on colleges to include textbook prices on class schedules. She would like the college to be aware of all that is in the Follett contract and put the burden of making this information available on them. She stated K. Stoppenbrink is the official owner of this project so he needs to be significantly involved in the project.
- M. Kozlowski indicated this is a complex, confusing issue for us now and the mandate does offer alternatives.
- D. Bolt asked if this needed to be made a project and M. Kozlowski stated it needs to be a project as we have to do something by next summer. K. Stearns stated this project needs to be added to our projects list but needs to be evaluated.
- S. Whitener asked if anyone from IT had sat in on the webinars and M. Kozlowski replied, "No". S. Whitener requested she be included on project.

ACTION: **Project Name**—Textbook Compliance **Priority**—1A
Project Manager—K. Stoppenbrink, J. Stearns and D. Bolt – co-project leaders.
Committee Member – S. Whitener

4 **Project Updates.**

4.1 **VTEA Survey Import** – P. Avila

P. Avila reported that previous minutes had been reviewed to see what decisions had been made about this project and that due its similarity to placement test score import it had not been made a separate project.

ACTION: **Project Name**—VTEA Project Import **Priority**—1B
Project Manager—C. Goldsmith

At this point M. Kozlowski stated she would like to add new projects to our list due the new role the District Technology Council has taken.

1. **Datatel User Interface 4.0**
Project Manager—John Wright **Priority**—1A
Target Date—Launch in spring 2010
2. **Datatel Server Upgrade** to 64bit server. **Priority**—1A
Project Manager—M. Kozlowski
Target Date—Hope to complete prior to January 2010. Will be implemented either during Thanksgiving or Christmas holidays.
3. **Portal 2.0** soon to be released and needs to be evaluated. **Priority**—1B
Project Manager—M. Kozlowski
M. Kozlowski asked S. Whitener if Tanner Naeher needed this information.
K. Stearns stated he would send Tanner the documentation.
4. **Website Redesign** – this project is ongoing and never completed.
Project Manager—S. Whitener **Priority**—1B

5. **Portal Tab Redesign**—this project consists of substantial redesign of portal and how it will work. Communication needed so everyone understands what they are supposed to do.

Project Manager—S. Whitener

Priority—1B

4.2 Review Project List

- **CB21** (K. Stearns): Final rubrics not yet released. Once released will meet with faculty.
ACTION: Change Project Manager to **J. Stearns and D. Bolt**

- **P/NP** – K. Stearns: Catalogs and transcripts need to be updated. More information needed before project can be completed but we are making progress.
ACTION: Delete K. Stearns as Project Manager. **Target Date:** Dec. 15, 2009
Status: Update catalog and transcripts.

- **BlackBoard 9** (S. Whitener): Project on target.
ACTION: Change Target Date to **January 2010**.

- **Foundation (Alumni)** – P. Avila asked if project should be named Colleague Advancement. M. Kozlowski reported there are continual ongoing enhancements being implemented. Designate as completed.
ACTION: Change project name to **Advancement Implementation**.
Change status: To Completed.

- **Address Review & Update/Naming Conventions** (K. Stearns): Working on email address as it is the simplest task. Have fixed 500 email accounts as of this morning. Project deals with getting standards in place & documentation. It is hoped this project will take no longer than a year to complete.
ACTION: **Project Manager-** K. Stearns **Target Date:** Open

- **SharePoint Workflow** (S. Whitener): This is an ongoing project which will be picked up again after October.
ACTION: Change project name to **Faculty Section Change Forms**
Change status: To Hold

- **Drop Dates on Class Schedule** (M. Kozlowski): Project needs project manager and still working on pieces of the project. P. Avila stated that in last discussion it was suggested to show drop date information in “MySchedule”.
ACTION: Change project name to **Drop Dates Publication**.
Project Manager: P. Avila

- **HR Workflow** (J. Cox): Not present to report.

- **Graduation Petitions Online** (P. Avila): In the July minutes it was noted that a form needed to be created and that has been done.

- **SARS Grid (J. Lopez):** M. Kozlowski reported that the training schedule is moving along. J. Lopez added that Lemoore has training dates and those will be distributed. J. Stearns reported the same for the Coalinga campus.
ACTION: Project Managers – J. Lopez and J. Stearns
- **Web Time Card Entry (J. Cox):** Not present to report. K. Stearns reported this system will be going live in a week or two for part-time and temporary employees who turn in timecards on the 10th or 11th of each month.
- **Technology Strategic Plan (P. Avila):** Asked that the plan be routed to Donna Isaac for distribution to the Planning and Governance Councils at Coalinga and Lemoore.
- **Admission Application Communications (eBrochure) (K. Stearns):** K. Stearns asked that the project manager be changed to Tanner Naehar. This project involves three discussion port projects—admission application, inquiry (F. Squire), and follow-up (registrar).
ACTION: Leave project as is and wait for clarification. **Project Manager:** Delete K. Stearns' name
- **Web Portal/New Student Email System (S. Whitener):** Project on target for fall 2010.
ACTION: Change project name to **Live@EDU**
- **Online Degree Audit (P. Avila):** Waiting as degree audit system needs to be updated with new catalog information.
ACTION: Change status to **ACTIVE**
- **Document Imaging – Hershey transcript importing (M. Kozlowski):** Project continues on waiting.
- **CCC Apply Electronic Transcripts (M. Kozlowski):** Changing partners and program currently not being used so continue project on hold.

5. Announcements

- A. D. Bolt reported that faculty has renewed their interest on having a waitlist based on full classes.
During discussion K. Stearns reported current system was written in 2005 and issue is that a registrar is needed to run it. P. Avila asked how long it would take to implement and added that in a year from now with an improved economy, this may no longer be an issue. K. Stearns asked who would be responsible for doing this work. M. Kozlowski stated K. Stearns could give an update and explain waitlist process at next months' meeting.
ACTION: Include **Waitlist** on next month's agenda.
- B. M. Kozlowski asked the committee to again consider the Maintenance Window for ITS. Currently maintenance is performed the 4th Friday from 6-9 p.m. and more time needed for all the servers. Windows for maintenance have been explored and options were

proposed at the Technology Advisory Team meeting. M. Kozlowski would like the maintenance to occur on a Saturday morning so staff could flex their schedules, thereby making overtime unnecessary. Maintenance could occur from 6am to 11am or noon and would take 30 minutes to an hour to complete. There is the question of blackboard interruption and midterm week. There is no perfect time but a change needs to occur and more time is needed to perform the maintenance.

7. **Adjourn: 11:00**

District Technology Council
October 22, 2009
District Boardroom/Lemoore Rm. 124
10:00 AM

Minutes

Members Present: Pedro Avila, Carole Goldsmith, Susan Whitener, Priscilla Balcazar, Keith Stearns, Dave Bolt, Tammy Weatherman, Ken Stoppenbrink, Maria Lourenco, Jana Cox,

Members Absent: Richard Post, Dolores Smith, Jill Stearns, Michelle Kozlowski, Jose Lopez,

Guest: Frances Squire, Anne Jorgens

1. **Call to order:** 10:05 by Pedro Avila
2. **Approval of Minutes:**
K. Stearns moved to approve minutes of August 27, 2009, as corrected. Motion seconded by P. Avila.
Action on Motion: Passed unanimously.
3. **Transition of DTC Responsibilities – Pedro Avila/Carole Goldsmith:**
P. Avila explained that due to the reorganization at the District Level responsibility for DTC was now given to C. Goldsmith. At this point Carole assumed conducting of the meeting.
4. **New Project**
 - 4.1 **Emergency Alert – Frances Squire/Anne Jorgens**
F. Squire reported she had attended the Lemoore Cabinet meeting this week and made a presentation on Emergency Alert and President Don Warkentin wanted to implement an emergency alert system but this item was going to another committee for discussion. Who will be responsible for this system at each campus and where will the funding come from is needed. F. Squire would like to involve the Grants office for possible funding resources and would like to check with Homeland Security as well. F. Squire has explored six different systems and indicated a need to identify what we want to accomplish with this system. Pre-tested messages are favored and Child Development indicated 50% of the parents do not speak English. C. Goldsmith indicated she would like both parents to sign-on. F Squire stated she is willing to do the research but will need help with the technology part. C. Goldsmith expressed that she would like F. Squire to take the lead on this project. She would like a vendor list and when a vendor is selected that it be taken to IT.

J. Lopez and F. Squire will be meeting with a billboard vendor.
ACTION: Discuss at next meeting. Waiting for presidents approvals.

4.2 Wait List – Dave Bolt/Pedro Avila:

P. Avila reported that faculty Marty Ennes and Stephanie Droker are requesting a waitlist, not necessarily a Datatel waitlist. They would like control—if student is attending class, would like faculty to have ability to add student into a class. An issue could be if there is a waitlist and a week later there is an opening and student is added into the class. What happens if the student is no longer interested in that class? We need a process and we need to look at our technology. D. Bolt stated faculty wants flexibility in drop a student. P. Avila suggested a committee of two CIO (S. Whitener volunteered), counselor/faculty from each college, Maria Lourenco and Pedro. When he asked if anyone else was interested D. Bolt nominated Bob Gibson. Members were reminded that the Academic Senate would have to approve faculty membership and D. Bolt stated he would talk with Academic Senate.

At this point K. Stearns suggested “Enrollment Management” as a new title for this project. D. Bolt suggested “Roster Management”. C. Goldsmith requested a registration task force.

ACTION: Priority 1b

4.3 Prerequisites Issues and Registration – P. Avila:

Another issue arose at this point about students who failed a prerequisite still being able to enroll in a class. K. Stearns stated there is a Datatel report that lists students who have failed a prerequisite. This report was difficult to read so D. Georgatos had him rewrite it. K. Stearns stated 50% of students want an override in order to enroll in a class and automation does not allow for that so perhaps manual process is better for this.

4.4 Class Rosters Format – P. Avila:

P. Avila requested this issue be made a project. It was reported that faculty have complained of the difficulty in downloading their rosters from Datatel. K. Stearns responded that is easy to fix and should be brought forward as a project.

ACTION: In progress

4.5 SharePoint Test Server – C. Goldsmith:

ACTION: Table until next meeting when M. Kozlowski can be present.

4.6 Direct Loan Program – C. Goldsmith:

The federal government wants to get rid of the FFEL program. We need to have the direct loan program implemented by July 1, 2010. This will require business office and IT involvement. Relatively simple setup and testing will need to be done.

4.7 Datatel Gradebook – K. Stearns:

K. Stearns reported that Datatel changed the grading with a new module called “Gradebook”. Online courses would use this new gradebook and traditionally-taught courses can use their preference. P. Avila asked if we own this module.

ACTION: Table until next meeting when J. Stearns can be present.

Manager: Carole Goldsmith

4.8 Bookstore – K. Stoppenbrink:

The Higher Opportunity Act mandates that colleges publish prices and titles and putting this information on the class schedule could be an option. It must be published, perhaps in the catalog, at some time as Follett can provide a link to help us with this. The onus will be on faculty to make book choices available so Follett can build a list of prices. K. Stoppenbrink asked if he still needed to be project manager and D. Bolt stated K. Stoppenbrink is the liaison with Follett at District. S. Whitener stated this project had been discussed at the TAT committee and it was felt book price information needed to be left out of the catalog. She stated only 5% of faculty would not get their information in on time and felt 95% compliance would be okay. K. Stoppenbrink stated he will need an ITS person on this task force.

5. Team Updates

- 5.1 ST – Pedro Avila: P. Avila stated he is now leading this committee. Meetings have not been held regularly and he will be contacting both colleges for membership.
- 5.2 TAT – Susan Whitener: This committee met on September 30th and discussed Follett, the Library reported 53,000 sheets of paper were printed within three weeks. K. Stoppenbrink stated the best way to track the count of copies would be standalone PC counting. An accurate count will be made by December 10th and recommendations will be made based on that data.
- 5.3 AR/CF – Tammy Weatherman: T. Weatherman had nothing to report. Work is currently being done with Datatel on GL/PO issues – nothing major.
- 5.4 FA – Jana Cox: J. Cox reported she had not had an opportunity to meet with Dolores Smith and they are still working on FA committee meeting schedule.
- 5.5 HR – K. Stoppenbrink: Trial run of Web-time entry, for the most part, went well. There are still some glitches. The committee is meeting next week and is working on solutions. Paper for those timecards is a somewhat expensive and they are considering electronic timecards. A number of supervisors said they had not been aware of training that was offered. There will be retraining next week. Jana Cox has helped employees and supervisors on the Lemoore campus. Tammy Weatherman added that there are leave and overtime issues. **Direct Deposit** will go into effect January 2010 and want 100% compliance. Pay Advices will soon be available on the portal. Employees will be able to view and print their check stubs for all of 2009. An email was sent to all supervisors asking them to share this news with the temporary employees and work study students. The committee asked K. Stoppenbrink to make Pay Advice access instructions available on the portal we well. K. Stoppenbrink stated that approximately \$500 will be saved in printing costs by going Direct Deposit.

- 5.6 Cross Team – All: P. Avila asked that two projects be added. The purpose of the Datatel Access Profile project will be to see that everyone in Datatel has access to screens they need to perform their jobs.

ACTION:

- 1) **Name:** Datatel Access Profile **Priority:** 1b
Status: In progress **Target Date:** December 2009
- 2) **Name:** Online Grading Fix **Priority:** 1b
Status: In progress

6. **Other**

- 6.1 **Update Team Memberships – Pedro Avila:**

ACTION: Tabled until next meeting as key members missing today.

K. Stearns reported on the Address Review and Update project: Have started working on email addresses and is working on address updates. A small group of representatives from student areas is needed to work with him on this project. Keith will send an email. S. Whitener suggested Idelle Mahrt be part of that group.

5. **Announcements**

7. **Adjourn:** 11:30

DTC Leaders

February 25, 2010

10:00 am

Sam B/Room 124 - Lemoore

Revised Abridged - A G E N D A

CCC Apply Electronic Transcripts Presentation at 10:15 am via CCC Confer

DTC will reconvene via video-conference after e-Transcript Presentation.

1. Call to order
2. Approval of minutes
3. Discussion regarding e-Presentation
4. New Projects – Brief Update
 - 4.1. Follett booklook – K. Stoppenbrink
5. Brief Team updates
 - 5.1. ST – Pedro
 - 5.2. TAT - Susan
 - 5.3. AR/CF – Tammy
 - 5.4. FA - Jana
 - 5.5. HR - Ken
 - 5.6. Cross Team - All
6. Announcements
7. Adjourn

District Technology Council

May 13, 2010

Revised Time 11:00 am

WHC Coalinga SAM B/WHC Lemoore Room 124 Via Video Conferencing

AGENDA

1. Call to order
2. Discussion – DTC Priorities - Alignment to Goals
3. New Projects – Brief Update
4. Project Updates – Review Task Log
5. Old Business
 - 5.1. Cisco Visit
 - 5.2. Booklist Project
6. Announcements
7. Adjourn

INSTRUCTIONAL PROGRAM REVIEW

West Hills College Lemoore

I. General Information

- A. Instructional Program: _____
B. List of Full Time Program Faculty and Staff:

II. Program Overview

- A. State the program mission. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. The program mission must align with the college's mission and goals. *(200 word limit)*
- B. List any recommendations from the most recent college/program/department accreditation and/or previous review. *(250 words or less)*
- C. Identify all personnel, including the number of certificated, classified professionals and volunteers.

Employee Classification:

Certificated _____ Classified Professional _____ Volunteer _____
Student Workers _____

Diversity (Race/Ethnicity)

- | | |
|---|--|
| <input type="checkbox"/> Native Am. /Alaskan Nat. | <input type="checkbox"/> African/African-American/Non-Hispanic |
| <input type="checkbox"/> Asian/Pacific Islander | <input type="checkbox"/> Caucasian/Non-Hispanic |
| <input type="checkbox"/> Hispanic | <input type="checkbox"/> Filipino |
| <input type="checkbox"/> Mixed | |

III. Qualitative and Quantitative Data Review

- A. Attach dashboard statistics here.
- B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific program. *(250 words or less)*
- C. Attach any other data maintained by your program or at the division level: (e.g. budget information regarding costs per program on personnel, equipment, supplies, delivery of services).
- D. What resources are required to maintain the program, and what additional resources are necessary to improve or expand it?

IV. Professional Development

- A. What professional development activities have faculty participated in? Have any of these professional development activities been technology related? Please specify.
- B. Relate how the professional development activities have improved student learning outcome attainment.
- C. Describe the program's plans for staff development over the next four years.

V. Curriculum and Student Learning Outcomes

- A. List your Instructional Program-Level Student Learning Outcomes.
 - 1. Have any Instructional Program-Level Student Learning Outcomes been changed from the completion of the previous program review? What are the changes? Attach documentation.
 - 2. Describe the assessment used to improve student learning. Cite a specific example.
- B. Explain how Instructional Program-Level Student Learning Outcomes are used to measure quality and success of this department/service area.
- C. Review course outlines and prerequisites. List all courses that apply to this program requiring a five-year course outline review.
 - 1. Describe the curriculum changes anticipated in the next two years. (These changes would include major course revisions, deletions, new courses, revised or new options within a program, or a proposed new program).
- D. To what extent is technology being used in the program?
- E. How does the program ensure that the current curriculum is adequately meeting the needs of the students?

VI. Career Technical Education Only

- A. Does your program result in providing licensing or certification to its program graduates which will enhance opportunities for employment? If yes, list.
- B. Discuss the opportunities available to students who plan to transfer to an institution of higher learning.
- C. Discuss the effectiveness of your program in terms of:
 - 1. Entry-level job placement as a result of training.

2. Effectiveness of continuing education to meet the need for advanced training and/or training in emerging technologies.
 3. State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).
 4. Comment on how the success rate compares to the success rate of the same program at other colleges in the region. *(250 words or less)*
- D. What would be the preferred sequence of courses to be taken to achieve your program's goal of a degree or certificate?
 - E. How does the program ensure that the current curriculum is adequately meeting the needs of students?
 - F. Excluding curriculum validation, discuss community involvement in the program.
 - G. List any special accreditations, external regulations, or advisory committees that have oversight to your program.
 - H. List any special regulations, space requirements, staff training, etc. required by your program.
 - I. List any program initiatives to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical, mental disabilities, re-entry, gender, etc.).
 - H. Discuss the program's use of external funding, including grants, if applicable.

VII. Summary and Recommendations

- A. Based on analysis of the information provided in Sections I through VI above, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.
 1. Program strengths:
 2. Areas that need improvement:
 3. Strategies and actions for program enhancement and improvement:
- B. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

NON-INSTRUCTIONAL PROGRAM REVIEW
West Hills College Lemoore

I. General Information

- A. Non-Instructional Program: _____
- B. List of Full Time Program Faculty and Staff:

II. Program Overview

- A. State the program mission. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. The program mission must align with the college's mission and goals. *(200 word limit)*
- B. List any recommendations from the most recent college/program/department accreditation and/or previous review. *(250 words or less)*
- C. Identify all personnel, including the number of certificated, classified professionals and volunteers.

III. Qualitative and Quantitative Data Review

- A. Attach dashboard statistics here.
- B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific course/program/service. *(250 words or less)*
- C. Attach any other data maintained by your program or at the division level: (e.g. budget information regarding costs per program on personnel, equipment, supplies, delivery of services)
- D. What resources are required to maintain the program, and what additional resources are necessary to improve or expand it?

IV. Professional Development

- A. What professional development activities have faculty participated in? Have any of these professional development activities been technology related? Please specify.
- B. Relate how the professional development activities have improved student learning outcome attainment.
- C. Describe the program's plans for staff development over the next four years.

V. Curriculum and Student Learning Outcomes

- A. List your Non-Instructional Program-Level Student Learning Outcomes.
 - 1. Have any Non-Instructional Program-Level Student Learning Outcomes been changed from the previous program review? What are the changes? Attach documentation.
 - 2. Describe the assessment used to improve student learning. Cite a specific example.
- B. Explain how Non-Instructional Program-Level Student Learning Outcomes are used to measure quality and success of this department/service area.
- C. To what extent is technology being used in the program?
- D. How does the program ensure that current delivery of service is adequately meeting the needs of students?
- E. State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).
- F. Comment on how the success rate compares to the success rate of the same program at other colleges in the region. *(250 words or less)*
- G. Excluding curriculum validation, discuss community involvement in the program.
- H. Do special accreditations, external regulations, or advisory committees regulate the program? Yes No (if yes, list)
- I. Does the program have any special regulations, space requirements, staff training, etc.? Yes No (if yes, elaborate)
- J. Is there evidence of unmet student needs in the program? Yes No (if yes, elaborate)

- K. Describe the initiatives the program has implemented to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical, mental disabilities, re-entry, gender, etc.)
- L. Discuss the program's use of external funding, including grants, if applicable.

VI. Summary and Recommendations

- A. What actions have been taken to address the assessment and improvements of program learning outcomes?
- B. Based on analysis of the information provided in I through VII, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.
 - 1. Program strengths
 - 2. Areas that need improvement
 - 3. Strategies and actions for program enhancement and improvement.
- C. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

Ken Stoppenbrink

The following agenda item deals with confidential personnel and/or budget issues. The Chancellor will determine who is to be present for this discussion.

Reorganization Proposals

TASKS ASSIGNED AT CHANCELLOR'S EXECUTIVE CABINET MEETINGS

	Task	Responsible Individual(s)	Date Assigned	Notes/Progress
1.	Work with Christian Raia on point of sale	Ken Stoppenbrink	4/14/10	<p>5/12/10 – Ken has not yet met with Christian.</p> <p>6/9/10 – Ken met with Christian and identified stakeholders who need to be involved with the point of sale process. The group will need to meet and determine overall needs.</p> <p>7/19/10 – Ken to follow up with Christian on point of sale and provide more information at next Chancellor's Executive Cabinet meeting.</p> <p>7/20/10 – Ken sent email to Christian and have not received any response back yet.</p> <p>8/14/10 – Christian is meeting with ABC Director of Operations on September 10, 11 and 13; is also meeting with Disney Executive Chef and can plan a sight visit following the meeting. Will keep Ken informed.</p>
2.	Incorporate suggested changes in evaluation checklist document for further discussion	Donna Isaac	4/14/10	<p>5/12/10 – Additional changes were suggested. Document to be reviewed again at an upcoming Chancellor's Executive Cabinet meeting.</p> <p>7/8/10 – This item will be reviewed at the August Chancellor's Executive Cabinet meeting.</p> <p>8/3/10 – Need to contact Key Writing for draft document.</p> <p>8/11/10 – Draft document to be reviewed by Presidents before submitting to Key Writing for further comments. Review to occur at September Chancellor's Executive Cabinet meeting.</p> <p>** THIS ITEM WILL BE ON SEPTEMBER AGENDA **</p>
3.	Designate appropriate administrator on campus to extract references in faculty evaluation concerning success and retention data. Instructors to review and sign revised evaluations. Evaluations to be sent to Ken Stoppenbrink for Human Resources files. To be completed by the end of August.	Willard Lewallen Don Warkentin	8/11/10	
4.	Arrange for Microsoft training to occur throughout the district	Carole Goldsmith	5/12/10	7/19/10 – A trainer has been identified and training will begin in September. Susan Whitener's office will be coordinating this effort.

	Task	Responsible Individual(s)	Date Assigned	Notes/Progress
5.	Work on legal ramifications with regard to traffic school and the access to traffic school on the west side	Frances Squire Ken Stoppenbrink	5/12/10	7/19/10 – Frances reported that cost to get program running again is between \$5,000 and \$10,000. Need to determine if we want to do this. 8/3/10 – Frances provided an update via email. We have applied to the court for a new traffic school and have ordered the lesson plans. We are still awaiting word from DMV on cancelled check balance due. 8/11/10 – Frances to provide an update at September Chancellor's Executive Cabinet meeting.
6.	Work with Susan Whitener on lists of equipment and prices for Cisco equipment. Carole Goldsmith and Michelle Kozlowski to be involved in the process	Ken Stoppenbrink	7/19/10	8/3/10 – Ken met with Susan. Need to ask Cisco to provide us a demonstration with our bandwidth before making any recommendations. 8/11/10 – Ken reported more information is needed before a decision can be made. Frank reported Susan is working on this task.
7.	Coordinate notifications to colleges regarding adjustments in inventory for equipment provided by AOS	Ken Stoppenbrink	7/19/10	7/20/10 – Ken Contacted AOS. They are working with Mark Millett to coordinate the moving of equipment. Waiting for this to be fit into other priorities. 8/11/10 – Task in progress.
8.	Develop a plan based on retiree health benefits survey responses	Ken Stoppenbrink	7/19/10	7/28/10 – Ken completed draft and sent to legal counsel for review 8/11/10 – Legal counsel is reviewing draft.
9.	Ask Kevin Cobb to provide some benchmarks on savings with regard to energy and sustainability for inclusion in the proposed Board policy	Ken Stoppenbrink	7/19/10	7/20/10 – Sent email to Kevin Cobb. Waiting for response. 8/11/10 – Waiting for response.
10.	Provide information to Ken Stoppenbrink on where copiers for student use are to be located	College Presidents	7/19/10	8/11/10 – Ken is waiting for information from Presidents
11.	Follow up with AOS to implement RouteXpress at the colleges	Ken Stoppenbrink	7/19/10	7/28/10 – Ken had discussion with AOS and both librarians about software. Fees for RouteXpress have increased tenfold and there are other options that may be more viable and less cumbersome for us to consider. AOS will be providing us with an update as to these options. 8/11/10 – New software coming out. AOS, ITS and college librarians will discuss and review.

November 2, 2010**

MINUTES

Members present:

Pedro Avila, Vice Chancellor of Institutional Effectiveness and Enrollment Management
Anita Bart, Academic Senate President, West Hills College Coalinga
Marty Ennes, CTA Representative
Carole Goldsmith, Vice Chancellor of Educational Services and Workforce Development
Frank Gornick, Chancellor
Jill Stearns, Vice President of Educational Services, West Hills College Coalinga
(for Willard Lewallen, President, West Hills College Coalinga)
Kurt Sterling, Academic Senate President, West Hills College Lemoore
Ken Stoppenbrink, Vice Chancellor of Business Services
Don Warkentin, President, West Hills College Lemoore

Others present:

Donna Isaac, Executive Assistant

Members absent:

John Ieronimo, CSEA President

Update and Progress on Accreditation

Frank Gornick briefly commented on the Leadership Retreat held on Friday, October 29 and the presentation by Norval Wellsfry with regard to the colleges' accreditation self studies.

Don Warkentin stated that it was interesting to have a Commissioner from the Accrediting Commission make comments about the self studies. He stated that he thinks there is a disconnect between the training that is provided to colleges and what the Commissioners are looking for when they read the reports. Don reported that he has Norv's annotated comments and has shared them with his staff and they will now be reviewing the report in their specific areas of expertise. The self study will be ready for a first reading by the Board of Trustees in December, with approval to follow in January. Don explained that one of the areas of the self study for West Hills College Lemoore that needs attention is to emphasize the importance of the self evaluation piece.

Jill Stearns reported that she and Sarah Shepard will be meeting later in the week to determine how to reevaluate the work that has been done on the self study. West Hills College Coalinga was hoping to be able to have the final bound document for the Board of Trustees at their January meeting.

Discussion took place concerning the evidence that will be linked to the self study. It was agreed that a CD of the documentation will be an easy way to handle this.

Don initiated discussion on the need for a code of ethics for employees. He stated that this needs to be in place prior to the visit. Frank stated that this policy can be added to the Policy and Procedure Review Schedule.

SB 1440 Implementation

Anita Bart reported that a webinar is being held on Wednesday, November 3 for the Academic Senate. Frank stated that the webinar should provide good information for faculty, counselors and advisors. Kurt Sterling discussed information on the course identification program (C-ID). He stated that agriculture and communication courses are done and sociology has been finalized.

Board Policies and Administrative Procedures

The following Board Policies and Administrative Procedures were reviewed by the group:

- BP 4030, Academic Freedom – Kurt reported that he sent out a request to Academic Senate Presidents asking for examples of updated policies and the faculty are actively working on this. Marty Ennes stated that the language in the current policy is out of date. Frank stated that a first reading of the policy by the Board of Trustees is scheduled for December 7, 2010. Consideration is scheduled for January 18, 2011.
- AP 4045, College Library Fines – The group agreed to the proposed changes. Frank stated that the procedure is currently under review by the various college groups.
- BP & AP 4110, Honorary Degrees – The group agreed to the proposed new policy and procedure. Frank reported that the policy and procedure are currently under review by the various college groups. A first reading by the Board of Trustees is scheduled for January 18, 2011. Consideration is scheduled for February 15, 2011.

District Mission and Vision Statement

Frank explained that the district mission and vision statements are in the process of being reviewed. The goals will also need to be updated. Pedro Avila reported that he and Carole Goldsmith will be working on the new goals that were determined as a result of the Strategic Planning Retreat and should have them ready before the end of the year.

Marty requested that the draft revision be sent electronically.

Other Business

Completion by Design – Frank reported that staff are working with a consultant and are in the process of pulling together the application for the Gates Foundation grant. West Hills will serve as the lead agency and several other colleges will join us. He explained that we are going to try to do things based on research including first generation, low income and underserved populations.

District Leadership Council

October 5, 2010

Page 3

Frank reported that a One Year Schedule Task Force is being formed and he will keep the group updated on their progress.

The next meeting of the District Leadership Council is scheduled for Monday, December 6.

WEST HILLS COMMUNITY COLLEGE DISTRICT

STRATEGIC PLAN 2006-2010

Five Year Review Cycle

Agenda

1. Final review of goals and performance indicators
 - a. Lessons learned from our five year strategic planning cycle.
 - b. Identify key questions to help drive our next cycle of strategic planning.
2. Final review of strategic planning scorecard
3. Comprehensive Assessment Model
4. Next steps
5. Five year cycle evaluation

Goal 1 – Meet or Exceed FTES Growth Targets

Enrollment Efficiencies

Goal 1 – Questions for next strategic planning process

1. What impact did the reduction of courses have on the following:
 - a. Retention Rates
 - b. Success Rates
 - c. Degree and Certificate Completion Rates
 - d. Transfer Rates
 - e. Student groups (Gender, Age, Ethnicity)
2. Is this goal still relevant to strategic planning?
3. Would productivity (WSCH/FTEF) be a more appropriate goal?

Goal 2 – Focus Marketing Efforts on District-Wide Stories

West Hills College
Congratulates

2010
The Class of

Once You Go Here, You Can Go Anywhere.™
Coalinga • Lemoore • Firebaugh • Online
westhillscollge.com

Goal 2 – Focus Marketing Efforts on District-Wide Stories

Lessons Learned:

1. The district newsletter format was revamped after extensive interviews with community members and the name changed to @West Hills College.
2. Budget cuts changed our marketing strategy from "increasing enrollment" to "promoting activities" and "maintaining our presence."
3. Social media has become the preferred method of communication for students (Facebook and YouTube).
4. It is difficult to measure the effects of marketing based solely on published stories and distribution of newsletters.

Questions for next strategic planning process:

1. This goal was established to improve community perception of WHCCD. Is this goal still relevant?
2. Can marketing help the district generate revenue?
3. Are we utilizing the right channels of communication?
4. How well are we maintaining our internal and external branding (image)?
5. Are we utilizing the appropriate measures to evaluate the effectiveness of marketing efforts?

Goal 3 – WHCCD Will Annually Increase Community Participation Rates

Percent of Population Enrolled at WHCCD

City	2007-2008	2008-2009	2009-2010
Tranquillity	3.40	3.73	1.88
San Joaquin	3.25	2.60	2.27
Mendota	2.71	3.28	2.66
Kettleman City	2.50	3.20	2.69
Huron	3.18	3.36	3.17
Avenal**	3.78	4.13	4.00
Hanford	4.42	4.78	4.05
Armona	5.22	5.55	4.49
Riverdale	4.84	5.76	5.09
Cantua Creek	7.08	5.18	5.21
Laton	5.70	6.64	5.59
Stratford	6.14	6.35	5.75
WHCCD Average	5.94	6.53	5.82
Firebaugh	7.32	8.25	6.22
CCC Statewide			8.90
Lemoore	10.00	11.19	9.90
Coalinga**	10.75	12.33	12.73

** Removed inmate population

Goal 3 – WHCCD Will Annually Increase Community Participation Rates

Lessons Learned:

1. Communities with the closest proximity have the highest level of participation.
2. Communities with the farthest proximity have the highest rates of participation in distance education.

Questions for next strategic planning process:

1. Do we want to develop outreach strategies for cities with the lowest participation rates?
2. How can we use distance education and Career Technical Education (CTE) initiatives to increase community participation rates?
 - a. Mendota WIT
 - b. Preliminary discussion about opening a community centers in Avenal, Riverdale, and San Joaquin.
 - c. Distance Ed Partnership with three rural high schools: Tranquillity, Firebaugh and Mendota.
 - d. Establishing e-Campus and services. *(More info under goal 4)*
 - e. Implement Community Education module into student system – will help capture additional students into our participation rates.

Goal 4.1 – Maintain Success Rates Within the CA CC Statewide Average

WHCCD Face-to-Face Success Rates

WHCCD Online Success Rates

Source: WHCCD Data Warehouse; CA Chancellor's Office Data Mart

Goal 4.1 – Maintain Success Rates Within the CA CC Statewide Average

Lessons Learned:

1. Online courses' retention rates are lower than face-to-face and must be analyzed separately and compared to different benchmarks
2. Experienced issues with success rates in some of our Career Technical Education (CTE) courses.

Questions for next strategic planning process:

1. What are we doing to improve online retention rates?
 - a. Distance Education Strategic Plan
 - b. E-campus
 - c. Help Desk Specialist
 1. Online Student Services Audit
 2. Updated Learning Management System
 3. Implemented Student Portal
2. What are we doing to improve CTE success rates?
 1. Reviewing program data from ARCC
 2. CTE Performance Indicators Review (Faculty, Deans, and VC)
 3. Program Review
 4. Created partnerships with Workforce Investment Boards that provide additional supportive services to students.

Goal 4.2 – Maintain Transfer Rates Within the CA CC Average

WHCCD First-Term Students' Cohort Transfer Rates

—●— WHCCD Transfer Rates —■— CCC Statewide Transfer Rates (Benchmark)

Source: California Community College Systems Office Student Right to Know

Note: Cohort based on a group of first time freshmen who are enrolled full-time in a fall term and are seeking transfer. The tracking period of the cohorts is three years.

NSCH Data – WHCCD Transfers to Four Year Institutions

NSCH Data – WHCCD Transfers to Four Year Institutions

Rank	Top 10 Transfer Four-Year Institutions - 2001 to 2009	Transfers
1	CALIFORNIA STATE UNIVERSITY - FRESNO	1,900
2	CHAPMAN UNIVERSITY	460
3	UNIVERSITY OF PHOENIX	427
4	FRESNO PACIFIC UNIVERSITY	411
5	NATIONAL UNIVERSITY	172
6	COLUMBIA COLLEGE	169
7	CHAPMAN UNIVERSITY-ORANGE	149
8	CALIFORNIA POLYTECHNIC STATE UNIVERSITY	110
9	CALIFORNIA STATE UNIVERSITY - BAKERSFIELD	68
10	EMBRY-RIDDLE AERONAUTICAL UNIV.-WORLDWIDE CAMPUS	68

Goal 4.2 – Maintain Transfer Rates Within the CA CC Average

Lessons Learned:

1. Rates are within the state average.
2. Transfer rates are very sensitive to CSU tuition increases.
3. Number of students transferring has continuously increased.
4. Acquired access to data on transfers to out-of-state and private institutions.

Questions for next strategic planning process:

1. How are our students performing at transfer institutions? (Fresno State Report)
2. How are capacity issues at CSU impacting our students who intend to transfer?

Source: California Community College Systems Office Student Right to Know

Note: Cohort based on a group of first time freshmen who are enrolled full-time in a fall term and are seeking transfer. The tracking period of the cohorts is three years.

Goal 4.3 – Maintain Graduation Rates Within the CA CC Average

Degree & Certificate Completion Rates by Freshmen Cohorts

● WHCCD Completion Rates
 ■ CCC Statewide Completion Rates (Benchmark)

Source: California Community College Systems Office Student Right to Know

Note: Cohort based on group of students who are first-time freshmen, who are enrolled full-time in a fall term, and are seeking a degree. The tracking period of cohorts is three years.

Goal 4.3 – Maintain Graduation Rates Within the CA CC Average

Questions for next strategic planning process:

1. What is the average number of semesters and units it takes a WHCCD student to complete a degree?
2. What percent of our first-term students are provided with an educational plan?
3. What percent of all students are provided with an educational plan?
4. Can we convert some of our internal certificates to official certificates and increase completion rates?

Goal 5 – Become the Preferred Choice of Students Through Ongoing and Active Recruitment

Percent of High School Graduates Enrolled at WHCCD

High School	Fall 2005	Fall 2006	Fall 2007	Fall 2008	Fall 2009
Tranquillity	17%	13%	6%	7%	7%
Laton	30%	9%	15%	12%	?
Hanford West	22%	15%	19%	31%	15%
Hanford	19%	30%	31%	17%	20%
Firebaugh	33%	32%	33%	25%	23%
Riverdale	9%	18%	24%	9%	23%
Avenal	36%	69%	40%	38%	26%
Lemoore	35%	39%	44%	30%	27%
State Rate (Benchmark)					30%
Mendota	25%	28%	26%	31%	32%
Coalinga	39%	52%	43%	39%	32%
WHCCD Total	27%	32%	31%	21%	22%
Total Graduates	1,814	1,817	1,697	1,794	1,862

Source: California Department of Education; WHCCD Data Warehouse; Local HS Data

Goal 5 – Become the Preferred Choice of Students Through Ongoing and Active Recruitment

Lessons Learned:

1. High schools with closest proximity to our colleges have highest participation rates.
2. Riverdale sends many of their HS graduates to four year schools.
3. It is difficult to collect data from the high schools or the CA Department of Education in a timely fashion.
4. After schools programs have an impact on recruitment (Avenal After School Program)
5. It is critical to create and maintain good relationships with high school counselors.
6. Half of our feeder high schools have agreed to upload data to the Cal-Pass system.

Questions for next strategic planning process:

1. How has the reduction of courses impacted enrollment from high school graduates?
2. What strategies can we implement to increase high school graduates' participation rates?
3. Do we need high school counselors to be part of our strategic planning committee?
4. How can we encourage/assist our feeder high schools to share data with Cal-Pass?
5. How can Cal-Pass assist us in strengthening relationships with our feeder high schools? (Custom reports & Professional Learning Councils)

WHCCD SCORE CARD

Introduction

The West Hills Community College District (WHCCD) is charting its next five years in service to students and the community. Three priorities stand out:

- Student success,
- K-12 partnerships, and
- Workforce development in support of the Valley's residents, employers and overall regional economic development.

These priorities are the outgrowth of collaborative dialogue involving the WHCC District Office, the District's two Colleges, West Hills College Coalinga and West Hills College Lemoore, and the West Hills North District Center. Within the West Hills mission these priorities are considered likely to have the greatest positive influence on the future vitality of the Central Valley and its residents.

With economic uncertainty more pronounced than ever in the Central Valley, the role of local initiative in building a robust economic future is critical. With emphasis on the three priorities, the WHCCD seeks to energize faculty/staff and formal and informal leaders to work aggressively in support of an improved future for the Central Valley.

Each of the priorities listed above has been subjected to intense review, first by district-wide leadership and then by planning teams carefully selected to bring special expertise and useful insight to the task. The planning teams have specified the scope and meaning of each priority and identified the most productive next steps in moving the WHCCD agenda forward.

Planning Approach

Planning sessions for each of the priorities were held on July 14 and 15, 2010. Student Success was addressed during the morning of July 14th, K-12 Partnerships during the afternoon of July 14th and Workforce Development and Economic Development in a daylong session on July 15th. All sessions involved a high level of participant interaction organized around structured group work dealing with specific topics relating to the West Hills role in each of the three priority area listed above. Participants in the three planning sessions were frequently recombined in work groups in order to ensure that all had an opportunity to benefit from the range of insight, intuition and impressive expertise represented by participants.

This report chronicles the work of the three planning sessions and summarizes participants' insights regarding the future role of the WHCCD and its institutions together with recommendations for immediate next steps. The material is presented with minimal editing in order to preserve the integrity of participant discussions and decisions.

During the planning sessions no effort was made to fully confirm facts or evidence presented. As appropriate, recommendations from these planning sessions should be further vetted in light of relevant data, market research and the opinion of those considered essential to the future success of WHCCD.

The names of those in attendance are listed in Attachment A of this report. Drs. Kathleen Guy and William Craft of the Eaton Cummings Group facilitated the planning sessions.

Goals for the Three Planning Sessions

- Engage participants in a facilitated dialogue about the future of the WHCCD – its mission, values and future vision with specific reference to: Student success, K-12 partnerships, and Workforce development in support of the Valley's residents, employers and overall economic development.
- Give each participant an opportunity to benefit from the full range of experience and expertise of those present
- Establish a future vision for WHCCD in reference to the three priorities
- Establish a priority list of next steps focusing on high yield strategies likely to move WHCCD forward as a robust contributor to the Central Valley – its people, its culture and its economy.

SS. Student Success Workshop

July 14, 2010

9:00 a.m.-12 noon

SS 1. Goals and Agenda

SS 1.1 Goals

- Focus attention and confirm strategies to strengthen WHCCD's student success culture
- Briefly review accomplishments since the last strategic planning session
- Achieve common definition/understanding of student success
- Engage best thinking of participants
- Understand strategies and related metrics tied to improve student success

SS 1.2. Agenda

- Welcome Dr. Gornick
 - What is student success?
 - Why does student success demand our attention?
 - We need your help to strengthen our thinking as we formulate the most effective strategies, focus attention, and seek to enhance student success.

- Introductions/brief warm up Facilitators/All

- Review of goals and accomplishments - Dr. Gornick, Pedro Avila
 - Scorecard review
 - New metrics related to student success

- Distance Education Trends (opportunities to support student success in a world of reduced resources) - Susan Whitener

Student Success Workshop – Agenda (continued)

- Facilitated Group Discussions Facilitators/All
 - Identify barriers to student success [informed by IR data]
 - Identify strategies to reduce/eliminate barriers
 - What should we be doing more of?
 - What should we be doing differently?
 - What should we stop doing?
 - Prioritize student success strategies/goals and refine metrics as appropriate
- Next Steps Facilitators/All
- Close Dr. Gornick

SS 2. Student Success – As Defined by Participants

Working in table groups, participants reflected on their personal interpretation of the phrase “student success” as it relates to formal education in order to identify and reach consensus regarding characteristics that describe student success and help to provide an operational definition. For the purposes of the planning session “student success” may encompass a range of meanings including:

- Personal growth: enhanced self-esteem, socialization skills, improved critical thinking skills and content mastery
- Becoming self sufficient, contributing member of society
 - Employed or otherwise productively engaged with the world
 - Active and inquiring mind
- Accomplishing individual goals as enumerated by each student: graduate with degree, transfer, successful participation in selected courses, gaining a certificate, advancing in career or broadened employment opportunities
- Completion of a specific degree or certificate program
- Transfer to a 4-year institution
- Detailed exploration of a student’s interest in a specific subject or body of knowledge
- Completing a specific course or courses for personal, career or academic reasons

SS 3. Individualize Educational Planning

Clearly, for WHCCD and for WHCCD students, “student success” means many things. Institutionally, student success tends to be measured in persistence – at the micro level course to course, semester to semester and at the macro level, degree or certificate completion. At a deeper level, the key to understanding and assisting students to achieve their definition of success is knowledge of their individualized educational plans. Currently an underutilized mechanism exists to assist students to think through and create their individualized educational plans. Although the details of the individualized educational planning process were not fully explored in the planning session, there was general agreement that more students could benefit from the process. WHCCD should seek to increase the number of students developing personalized education plans with the support of trained WHCCD personnel. Key elements of the educational planning process include:

- Identifying personal goals—each student defines his/her own
- A viable educational pathway to reaching individual goals
- A delineation of and access to appropriate support services
- An emphasis on lifelong learning with encouragement to continue to the next level
- Consideration of certificate and degree options including transfer to upper division programs
- Personal growth/education
- Leadership development

SS 4. Student Success—New Ideas and Opportunities for Improvement at WHCCD

Following the work on defining student success and the role of individualized student educational planning, attention was directed to a consideration of new ideas (brainstorming) and opportunities for WHCCD to positively influence student success. Briefly stated, the results of these discussions suggest the following opportunities:

- Creating/emphasizing a culture that is fixated on student success,
- Employing technology to a greater degree to promote and monitor individualized student educational plans,
- Establishing systems/processes that reinforce the need for and uses of individualized student educational plans,
- Expanding opportunities for partnerships, tutoring, and advising in support of the educational planning process, providing periodic review and updating of student plans – encouraging the talented to excel, engaging those at risk to help them persist and managing a process that encourages greater numbers to complete degree and certificate requirements.

SS 5. Topics for Further Consideration

1. **Open access vs. more rigorous criteria for student placement in programs.** Is it time to re-think/establish entrance criteria for admission to certain programs?
2. **Clarify the definition of student success:** Externally imposed (degree and certificate completion) vs. student success goals generated through the educational planning process. Which is the priority for WHCCD?
3. **Enhanced tools to support student success.** Determine priority and necessary investment in order to:
 - a. Enhance orientation to programs of study.
 - b. Increase student participation in the educational planning process. Currently 80% of WHCCD student lack individual educational plans. Do these plans correlate with persistence and degree/certificate attainment? Does there need to be a process that engages students in face-to-face relationship-building leading to individualized educational planning with trained West Hills professionals?
 - c. Encourage all students to participate in an educational assessment process in order to guide appropriate course placement. Does the management of this process need to be improved? Are there opportunities for students to assume responsibility through online assessment strategies?
 - d. Clarify the role of individualized assistance and follow-up regarding individual educational plans.
 - e. Strengthen the early warning alert system regarding student persistence and performance.
 - f. Re-design appropriate orientation programs based on age, stage in educational process.
 - g. Provide more opportunities for career planning including service learning internships, work experience, etc.
 - h. Enhance tutoring and mentoring services.
 - i. Create a more formal “first year” experience.
 - j. Ensure adequate resources to address student financial aid needs.
 - k. Re-think the role of the college catalog – consider its current form and ensure consistency of information about programs and services in all modes of WHC information dissemination.
 - l. Expand extracurricular opportunities to emphasize student life and reasons to engage outside of class.
4. **Improved systems and processes internal to WHCCD**
 - a. Ensure access to courses needed to graduate—including expanded access to on-line courses.
 - b. Establish a 1-year schedule/calendar of courses.
 - c. Enhance collaboration between instruction and student services.
 - d. Expand hours for support services: counseling, financial aid, help desk, food service.
 - e. As processes change (due to technology) be sure that key constituents, internally and externally, knows what the changes are and how to access/use them.

5. **College going culture**
 - a. Strengthen K-12 relationships to develop early identification system for likely West Hills students in order to begin outreach to potential 1st generation students and families; be culturally sensitive; encourage gifted and talented students to choose and then be well served by WHCCD.
6. **Customer Service**
 - a. First impressions are key to continuing positive relationships.
 - b. Need mechanisms to respond to those who are lost, intimidated, confused, unsure.
 - c. Student ambassador program.
 - d. Welcome week.
 - e. Name badges.
 - f. Emphasize customer-friendly approaches through communications and personal interaction.
7. **Partnerships**
 - a. Engage in more extensive collaboration with K-12 systems.
 - b. Coordinate student support programs for prospective students and current students.

SS 6. Priority List – Areas for Improvement

Participants ranked the totality of items identified by the table groups and identified the following as priorities most likely to strengthen student success at WHCCD.

1. Emphasize the “First Year Experience”-think beyond “this semester.”
2. Build comprehensive one-year course schedules/calendars.
3. Create a “process map” to assist students in drafting individualized educational plans.
4. Design and resource a student-to-student ambassador program.
5. Expand placement testing and associated academic counseling – support developmental programming, general programming and specially targeted efforts for the gifted and talented.
6. Streamline processes for financial aid and identify additional funding sources for emergency and special purpose financial aid.
7. Expand and introduce more effective applications involving social media – communicating the look and feel of WHCCD institutions; engage prospective students in individualized, user friendly efforts to construct educational plans; build a broader-based virtual community of persisting WHCCD students.

8. Cultivate a culture of connections/relationships—make it “cool” to be connected with the WHCCD community – face to face and virtually – emphasizing the benefits of student-to-student, faculty-to-student networks.

SS 7. Immediate Next Steps – As identified by participants using the open-space planning technique

1. Develop metrics relevant to WHCCD definitions of student success – with targets set through 2015. Examples include: number of students working from individualized educational plans, relative success of those following educational plans, persistence measures (course to course and semester to semester), measures of degree and certification completion, individualized transfer and transfer success data
2. Prioritize opportunities for “program and process improvement and new ideas” identified in previous sections of this report and create implementation plans.
3. Communicate results of Student Success Planning to all faculty/staff – identify and distribute a short list of talking points to be used/referred to by workshop participants.
4. Establish and continue to strengthen a detailed inventory of the tools available to promote student success – oversee and coordinate their use – provide training and supportive technology to faculty and staff.
5. Clarify assignments – make it clear who is responsible for each element of the student success strategy – establish the longer term goals and intermediate milestones – provide conspicuous support and encouragement to the formal and informal leaders charged with moving WHCCD to a demonstrably higher level of student success.

HSO. High School Outreach Workshop
July 14, 2010
1:00-4:00 p.m.

HSO 1. Goals and Agenda

HSO 1.1. Goals

- Focus attention and practical action on increasing the college-going culture among high school students/graduates in the Central Valley
- Identify and share what WHCCD and high schools are currently doing to encourage college enrollment in general and, more specifically, enrollment at WHCCD colleges—the “IS MAP”
- Engage the best thinking of participants to outline strategies to strengthen the college-going culture in the Valley
- Co-create strategies and related metrics to increase enrollment of area high school graduates at WHCCD colleges

HSO 1.2. Agenda

- Welcome Dr. Gornick
 - Why education beyond high school is important—to students, families, economic development, and the Valley
 - WHCCD is a partner with the public schools, helping students to succeed beyond high school; increased college attendance and student success is our bottom line goal
 - We are eager to work with you to increase the college-going culture of the Valley and to make WHCCD colleges a top choice for your graduates
- Introductions/brief warm up Facilitators/All
- Current high school participation data and Cal Pass Pedro Avila
- What are we currently doing to encourage college attendance?
 - WHC outreach strategies including Early Registration for High School Graduates Sylvia Dorsey/Jill Stearns
 - High school strategies High School Principals

High School Outreach Workshop Agenda Continued

- Break
- Facilitated Work Topics Facilitators/All
 - Identify barriers to college enrollment anywhere and at WHCCD colleges
 - Identify collaborative strategies to reduce/eliminate barriers.
 - What should we be doing more of?
 - What should we be doing differently?
 - What should we stop doing?
 - Prioritize strategies/goals and define metrics
 - Determine how/how often to communicate results/issues
- Next Steps Facilitators/All
- Close Dr. Gornick

HSO 2. “IS MAP” of High School efforts (outline of current school/college initiatives as described by principals and superintendents attending the workshop)

HSO 2.1. Lemoore High School (LCS)

General

- Cal State Fresno president’s scholarship
- Fresno State—weekly mentoring at LHS

Specific to WHCCD

- LHS all seniors apply to WHC
- LHS works actively with WHC counselors to do on-site advising with LHS students
- Attend WHC classes while in high school
- WHC faculty visit high school campus
- Raised questions regarding Cal-PASS. Is data complete? Who is responsible?

HSO 2.2. Coalinga High School

Specific to WHCCD

- Pathways-Perkins—just starting to collaborate with WHC on this
- Established lists of students going to WHC—work with WHC advisors
- Articulations/dual enrollment
- Need “IS MAP” of informal activities in place with faculty and other personnel

HSO 2.3. Faith Christian Academy (FCA) - Independent (Private)

Specific to WHCCD

- WHC administers placement test at FCA, discusses curriculum pathways
- Enroll 8th graders at WHC—removes fear of unknown
- WHC administers placement test at FCA, discusses curriculum pathways
- Students take field trips to WHC
- Dual credit—college is free while students are still in high school

HSO 3. Addressing High School Outreach Goals

HSO 3.1. Participants working in table groups confirmed the importance of the following goals:

- Improving the College Going Culture in the Valley, and
- Benchmarking the participation rate at WHCCD of students from feeder schools in the WHCCD service region at or above the state average for California community colleges

HSO 3.2. With specific reference to WHCCD table groups recommended:

- WHCCD increase efforts to learn from K-12 systems what they are doing now to encourage a college-going culture, and
- Prioritize approaches identified in HSO 2 (above) together with additional new ideas in order to determine where to increase emphasis and focus resources.

HSO 3.3. Priorities identified include:

- 1) Website (29 votes) - enhance the WHCCD website (including the Colleges and Centers) making the presentation more user-friendly, creative, interesting and useful. Include a “student planning” application to try out various programs and also a twelve month calendar of courses for use in students’ individual educational planning as suggested in the Student Success portion of the WHCCD plan.
- 2) Communications (28 votes)—
 - Emphasize enhanced communication with K-12 systems including:
 - a. Engagement with professional colleagues in K-12 schools
 - b. Students starting at the middle schools – identify prospective students early, encourage all to enroll in college, make special efforts with the gifted and talented with regard to opportunities and choices in higher education, etc.
 - c. Parents – cultivate and involve parents in encouraging students to move on to WHCCD colleges and centers.
 - Employ the full range of communications tools including:
 - a. Surveys/focus groups of students and other key audiences to determine WHCCD features to emphasize, best modes/times of communication, etc.
 - b. Establish capability to “Know” when a student enters the WHCCD data system (initial inquiry) and then enable the system to automatically create a systematic follow-up process
 - c. Develop protocols to effectively engage the full range of communications tools—social media, web, print, email, phone, FTF, etc. at tolerable cost to the system
 - d. Ensure that timely, up-to-date, consistent and accurate information is available across WHCCD, reinforce the need for regular contact and share information appropriate to various target audiences
 - e. Enhanced E-Team capability (materials, presentations, communications skills, and always dressed for success).
- 3) Road Map (22 votes)
 - a. Invest in a comprehensive enrollment management process
 - b. Design straightforward pathways that make clear and accessible the way from High School to West Hills to certificates, associate degrees and bachelor’s degrees – emphasize that support is available along the way to enhance the likelihood of student success and completion
 - c. Make the pathways easy to navigate electronically, including simplified search and find

- d. Build cohort groups—package degree programs to be completed in two years leading to transfer
 - c. Ensure that everyone in the region’s high schools completes an application and takes placement tests—build momentum with sophomore/junior outreach
 - f. Streamline all WHCCD policies, procedures and curriculum before mapping success pathways
 - g. Exaggerate the user-friendliness of WHCCD—simplify the processes required to get information and transact business
- 4) Field Trips to West Hills colleges (20 votes)
- a. Organize or provide transportation to and from WHCCD campuses – partner with K-12s
 - b. Create “breathtaking” College Day Programs for visiting secondary school students
- 5) Connect High School Counselors to WHCCD Portal (15 votes)
- 6) Enhanced presence of West Hills in the public schools and independent schools (11 votes)
- a. Be present on K-12 campuses—via technology and in person
 - b. Attend school and community events—be visible and approachable and able to share the WHCCD story

HSO 4. Immediate Next Steps (responsible party noted in () as identified by session participants)

- HSO 4.1. Start now to provide portal access to high schools (Pedro Avila)***
- HSO 4.2. Complete “IS MAP” of formal and informal processes that contribute to WHCCD/high school outreach – Create matrix describing who is doing what (Chancellor/Presidents to determine assignments and oversee liaison with the school systems)***
- HSO 4.3. Hold strategic planning session between WHCCD and high schools in early-mid August (Chancellor/Presidents and superintendents) to strengthen current efforts and outline steps to implement additional WHCCD/high school efforts***
- HSO 4.4. Improve communication with students who are in the pipeline now (Registrar/IT)***
- HSO 4.5. Examine project management tools and select one that may help with this process (Pedro Avila)***
- HSO 4.6. Communicate WHCCD goals/metrics for enrollment of high school students at WHCCD—expectation is to enroll numbers at or above the state average of college-going students from area high schools at West Hills (Pedro Avila)***
- HSO 4.7. Identify process to implement early registration with high school students—criteria, timing, etc. (As assigned by Presidents)***
- HSO 4.8. Provide summary of today’s goals, work and next steps to all who need to know (Chancellor)***

EWD. Economic and Workforce Development Workshop

July 15, 2010

9:00 a.m.- 4:00 p.m.

EWD 1. Goals and Agenda

EWD 1.1. Goals

- Identify Strengths and Opportunities that may exist in the Central Valley
- Envision the “new or emerging economy” in the Central Valley
- Identify workforce development requirements for the new economy
- Focus attention and identify practical action steps – by engaging the best thinking of participants
- Co-create strategies to effectively shape the new economy
- Co-create strategies for meeting related workforce development needs

EWD 1.2. Agenda

- Welcome Dr. Gornick
 - The Central Valley must be prepared to shape and respond to the new economy in order for the region and families to survive and thrive
 - WHCCD and its colleges are strategic partners in planning for and helping to create road maps to provide hope as our economy is transformed
 - We’re partners in workforce development, helping students and businesses to succeed
 - We want to draw on your best thinking today to help envision our economic and workforce future
- Today’s Central Valley Economy WIB and EDC Representatives
- Brief Overview: Current WHCCD Workforce Development Activity Carole Goldsmith

Economic and Workforce Development Workshop Agenda (continued)

- Introductions and Table Discussions
Valley Strengths and Opportunities Facilitators/All
- Working Groups: Trends that will Impact
the Future of the Central Valley
- Working Groups: Comparing the current Central Valley Workforce
with what will be needed in three to five years
- Working Groups: Workforce Gaps/Needs/Social Consequences
- Working Groups: Our Future Vision for Economic Development
in the Central Valley
- Working Groups: Our Vision in Action
- Working Groups: Roles and Opportunities
 - Who does what?
 - Who else needs to be at the Table?
- Working Groups: Communications Strategies
- Working Groups: Next Steps
- Close Dr. Gornick

EWD 2. Strengths inherent in the Central Valley

Working in table groups participants were asked to identify the strengths common to the Central Valley. The question posed was “What Central Valley attributes would you stress in order to convince friends and relatives to invest in or relocate here?” The responses are as follows:

- Affordable cost of living
- Quality of life
- Diversity – people
- Willing and effective collaboration among post-secondary institutions
- Geographic location – ease of access to many resources – reasonable distance to Pacific beaches, major cities, outdoor recreation,
- Temperate weather/climate – number of “sun days” and the connection to solar power generation
- Workable population density – the ratio of people to land area is relatively low and attractive to those seeking fewer people and more space
- Agriculture - abundance of locally produced, high quality food
 - Crop diversity
 - Resources in support of agriculture
 - Research –technology (industry driven)
 - Workforce
- The region has the ability to accommodate growth
- The people of the Valley are community oriented
- Abundance of educational access – quality institutions, wide variety of programs and effective supportive services
- Values held and expressed in practice—strong work ethic, neighborly, welcoming.

EWD 3. Opportunities inherent in the Central Valley

Working in table groups participants were asked to identify the opportunities inherent in the Central Valley. The question posed was “What opportunities are most apparent for economic development in the Central Valley? The responses are as follows:

- Capacity to absorb and deal effectively with growth
- Branding the Valley—what do we want people to know and remember about us; telling our story
- Strengthen collaboration between colleges, universities, public schools, local, state and federal agencies, WIBs, and business
- Changing workforce needs in agriculture
- Environmental issues that have potential to create jobs (e.g. water)
- Collaboration to seek funding from federal/state sources
- Large and willing workforce
- Attract businesses from high cost urban areas
- Opportunities to add value to commodities
- NAS Lemoore high tech industries
- Develop water and energy resources
- Diverse population available for training
- Basic skills training with technical training integrated
- Educational infrastructure
- Diversity of employment opportunities
- Accessible via interstate, air
- Vertical integration of agriculture
- Alternative energy – “Solar Sun Days a Valley Energy Resource”
- Business retention and expansion

EWD 4. Trends –Identified by participants as most likely to influence the future success of WHCCD in contributing to workforce and economic development– either as a helping trend or as a hurting trend

Working in small task groups, participants identified a broad range of trends in assigned categories including “Environment/natural resources,” “Social/demographic,” “Government/regulatory,” “Investment opportunities,” “Technology,” and “Competition.” Trends identified were in turn, prioritized using a three choice open voting system. Trends perceived by participants to have the greatest influence on the future contribution of WHCCD to workforce and economic development are summarized as follows.

EWD 4.1. Social/Demographic

Helping Trend

- Aging population—the region may be a target for retirement living. (6 votes)

Hurting Trend

- Lack of basic academic skills among students. (6 votes)
- Negative consequences of state economic condition. (11 votes)

EWD 4.2. Government/regulatory

Hurting

- More regulation, much of it focusing on air quality (11 votes)

EWD 4.3. Investment opportunities

Helping Trend

- Energy efficiency and renewable energy resources (solar) (18 votes)

Hurting Trend

- Lack of capital availability (5 votes)
- Land use balancing (4 votes)

EWD 4.4. Competition

Helping Trend (How the Valley is meeting the competition)

- WHCCD on-line distance learning (17 votes)
- Quality of WHCCD education in general (4 votes)
- WHCCD workforce training (1 vote)
- The Valley has readily available, strong educational resources (3 votes)
Total of 25 votes recognizing the various forms of education at WHCCD and the availability of quality educational resources throughout the Valley – “educational opportunity - a sustaining asset for the valley”
- The Valley is becoming more conscious of its positive attributes and adept at perfecting and broadly sharing the positive Valley story (4 votes)

EWD 5. Future Vision

The Future Central Valley will:

- Offer a seamless web of education: K-12, community college, universities –in support of economic development
- Provide a culture of support for businesses and entrepreneurs
- Keep the knowledge base here
- Be a global hub for agricultural education; advancing agricultural technology
- Be California’s center for renewable resource industries and training; there is a role for education in teaching people about impending consequences of regulation and legislation
- Be a center for entrepreneurial activity—with special emphasis on environmental innovations
- The place where today’s workforce meets tomorrow’s technology
- Be a great place to live, work and play
- Be California’s economic experiment in building the future economy—a tax and regulation free zone (like charter schools) in coordination with the region’s tribal governments

EWD 6. Vision in Action

The Central Valley will focus on:

- 1) Becoming California's center for renewable resource industries and training
- 2) Educating
 - a) Employers/business and employees
 - b) Contractors—residential and commercial
 - c) Residents
- 3) Retaining business—providing support for business lifecycle training—introducing new methods and processes, attracting new technologies
- 4) Communicating
 - a) What is our economic development vision? Our Central Valley “brand promise?”
 - b) Who is the audience?
 - c) What do we want them to do?
 - d) Where/how do we reach them?
- 5) Aligning resources around the vision
- 6) Becoming the global hub for agricultural education – the Valley will host visiting delegations from countries worldwide who come to learn about vertical integration of farm to market, low water crops and 21st century use of minimal pesticides, water and fertilizers
- 7) Training health care workers for the aging population; cultural sensitivity; collaborate with health care organizations re: current needs in health care training, e.g. educational reform

- 8) Creating a culture of expectation among faculty/staff—help students to “see” that the classes they are taking lead to job readiness and employment
- 9) Supporting employer retention strategies through incumbent worker training
- 10) Considering technology applications as part of tool kit for education and training
- 11) Communicating internally the process for employer feedback—identify ways in which the process can be improved
- 12) Developing a plan to acquire the educational lead role in the California center for renewable resource industries and training
- 13) Providing appropriate advocacy for partners who are seeking grant funding for related projects
- 14) Defining WHCCD’s role in promoting the “centers of excellence” concept (agriculture, energy, entrepreneurship), including consideration of incubation and technology transfer
- 15) Identifying resources for entrepreneurial education

EWD 7. Immediate Next Steps

EWD 7.1. Share results of planning day with internal and appropriate external audiences—in summary form

EWD 7.2. Provide executive cabinet report for Board of Trustees

EWD 7.3. Develop strategies, time lines, etc. for 5-year plan

EWD 7.4. WIB-EDC - share and communicate more regularly to foster alignment of vision and plans

Community College Survey of Student Engagement
Means Summary Report: All Students

West Hills College Lemoore

Item	Class	Your College		Other Small Colleges		2008 CCSSE Cohort	
		Mean	Std. Dev.	Mean	Std. Dev.	Mean	Std. Dev.
		All Student N = 423		All Other Small N = 11700		All Other Colleges N = 247000	

COLLEGE ACTIVITIES

Academic, Intellectual and Social Experiences

4. In your experiences at this college during the current school year, about how often have you done each of the following? *1=Never 2=Sometimes 3=Often 4=Very often*

Item	Class	Mean	Std. Dev.	Effect Size	Significance
a. Asked questions in class or contributed to class discussions	All Students	2.93	2.96		
b. Made a class presentation	All Students	2.18	2.05		
c. Prepared two or more drafts of a paper or assignment before turning it in	All Students	2.56	2.47		
d. Worked on a paper or project that required integrating ideas or information from various sources	All Students	2.82	2.71		
e. Came to class without completing readings or assignments	All Students	1.83	1.84		
f. Worked with other students on projects during class	All Students	2.65	2.49		* 0.21
g. Worked with classmates outside of class to prepare class assignments	All Students	1.96	1.96		
h. Tutored or taught other students (paid or voluntary)	All Students	1.33	1.38		
i. Participated in a community-based project as a part of a regular course	All Students	1.31	1.32		
j. Used the Internet or instant messaging to work on an assignment	All Students	3.00	2.84		
k. Used email to communicate with an instructor	All Students	2.53	2.52		
l. Discussed grades or assignments with an instructor	All Students	2.55	2.56		
m. Talked about career plans with an instructor or advisor	All Students	2.10	2.09

COLLEGE ACTIVITIES

Academic, Intellectual, and Social Experiences continued

1=Never, 2=Sometimes, 3=Often, 4=Very often

n. Discussed ideas from your readings or classes with instructors outside of class	All Students	1.77	1.78	1.73		
o. Received prompt feedback (written or oral) from instructors on your performance	All Students	2.76	2.68	2.66		
p. Worked harder than you thought you could to meet an instructor's standards or expectations	All Students	2.55	2.56	2.53		
q. Worked with instructors on activities other than coursework	All Students	1.37	1.44	1.40		
r. Discussed ideas from your readings or classes with others outside of class (students, family members, coworkers, etc.)	All Students	2.68	2.57	2.56		
s. Had serious conversations with students of a different race or ethnicity than your own	All Students	2.70	2.29	2.37	0.40	0.32
t. Had serious conversations with students who differ from you in terms of their religious beliefs, political opinions, or personal values	All Students	2.48	2.30	2.33		
u. Skipped class	All Students	1.61	1.54	1.57		

Character of Mental Activities

5. During the current school year, how much has your coursework at this college emphasized the following mental activities?

1=Very little, 2=Some, 3=Quite a bit, 4=Very much

a. Memorizing facts, ideas, or methods from your courses and readings so you can repeat them in pretty much the same form	All Students	2.82	2.81	2.82		
b. Analyzing the basic elements of an idea, experience, or theory	All Students	2.85	2.82	2.84		
c. Synthesizing and organizing ideas, information, or experiences in new ways	All Students	2.72	2.70	2.71		
d. Making judgments about the value or soundness of information, arguments, or methods	All Students	2.66	2.54	2.55		
e. Applying theories or concepts to practical problems or in new situations	All Students	2.83	2.85	2.84		
f. Using information you have read or heard to perform a new skill	All Students	2.77	2.78	2.75

West Hills College Lemoore

Educational Master Plan
2008

V.4.2
December 2, 2008

President's Message

West Hills College Lemoore, one of California's newest community colleges, is well prepared to meet the educational needs of the twenty-first century. Our Educational Master Plan will demonstrate that we are on the cutting edge and have the capacity to adapt to new and emerging educational technologies to serve a wide variety of student needs.

Our facilities, instructional programs, support services, and technology are state of the art and will allow us to keep pace in an ever-changing environment. As you read through our Educational Master Plan, you will see how we value our demographic and student data in the decision making processes. We also utilize information from our area employers in job forecasting and training needs. Information is vital to keeping our offerings current and providing the support mechanisms and resources to ensure our students are the best educated and prepared to reach their educational goals.

The development of a comprehensive educational master plan requires many hours of planning, discussions, meetings, and research involving all constituents throughout the college and also district office personnel. A plan of this nature not only informs us about who we are, but where we will be heading for the next several years. Our plan will serve as a foundation, but it also will be a template for many future updates as the college continues to grow and serve the communities of the south valley.

We hope you will find this document to be both informative and also a guide to our continued growth and expansion of the campus. You will continue to see new facilities emerge and new programs come online, adhering to our processes outlined in our Educational Master Plan.

I look forward with great anticipation to the next several years with West Hills College Lemoore.

Don Warkentin
President
West Hills College Lemoore

Acknowledgements

The WHC Lemoore Educational Master Plan (EMP) development process was facilitated by GKK Works planning consultants and by the WHCCD Office of Institutional Effectiveness and Planning. The Office of Institutional Effectiveness was responsible for providing data and coordinated communication between GKK and the college. GKK consultants were responsible for the design of the document, data analysis, key findings and recommendations. The WHC Lemoore EMP framework is based on the Cypress Community College EMP which has been identified as a best practice by the CA Research and Planning group.

The process began with a kick-off meeting on April 18, 2008 to discuss the EMP framework. A follow-up meeting took place on May 13, 2008 where faculty representatives and administrators reviewed the first draft of the EMP and provided feedback and direction. A third meeting was held on July 28, 2008 where a preliminary draft of the EMP was presented to faculty representatives and college administrators. It is important to note that the program goals, found under the instructional section of the EMP, were directly derived from the college's program review documents. During the fall 2008 Duty Day (August 8, 2008), the instructional section of the EMP was reviewed by Lemoore faculty in attendance. The preliminary draft of the EMP is scheduled for a first reading by the Board of Trustees on October 28, 2008 and by the Lemoore Planning and Governance Council on November 6, 2008.

WHC Lemoore is immensely grateful to these individuals who have volunteered to assist with this important plan. Their work will continue as we implement and refine our plan in the coming years. Participants are as follows:

Stephanie Atkinson-Alston - Dean of Educational Services, WHCL
Pedro Avila – Director of Institutional Effectiveness & Planning, WHCCD
Dave Bolt – VP of Educational Services, WHCL
David Babb – Biology Instructor/SLO Coordinator, WHCL
Robert Clement – Director of Athletics, WHCL
Sylvia Dorsey-Robinson – Associate Dean of Categorical Programs, WHCL
Stephanie Droker – Work Experience Instructor/Academic Senate President, WHCL
Dr. Carole Goldsmith – Director of Title V/Workforce Connection, WHCCD
Dr. Frank Gornick – Chancellor, WHCCD
Lataria Hall – DSPS Counselor, WHCL
Dr. Marlon Hall – Associate Dean of Educational Services, WHCL
Marta Hendrickson – Counselor, WHCL
Jose Lopez – Dean of Students, WHCL
Dave Neer – Instructor/Golf Coach, WHCL
Rene Sanchez – History Instructor/Curriculum President, WHCL
Don Warkentin – President, WHCL
Susan Whitener – Dean of Learning Resources & Web Services, WHCCD

Intent of the Educational Master Plan

The West Hills College Lemoore Educational Master Plan (EMP) provides a reference point and framework for the future of the college. It includes a thorough data review of the recent past and present of the college's overall instructional program. While maintaining the integrity of the college's vision, mission and strategic goals, the EMP draws a blueprint for implementing emerging educational objectives.

More specifically, the EMP focuses on the service area, students, staff, and programs of West Hills College Lemoore. Matriculation rates from regional high schools provide a basis for enrollment projections. An analysis of economic trends in the area and a review of emerging labor market information inform the consideration of new programs. An examination of instructional programs and disciplines along with student performance assess current effectiveness and point the way for change.

Utilizing this quantitative and qualitative data, key findings have been identified to inform the process for rational planning to occur in a culture of evidence and history. Unanticipated events, emerging issues in the region, and changing demographics in the service area demand that the Educational Master Plan be treated as a living, fluid document that will guide decisions regarding the educational programs of the college.

The EMP is conceived to exist in a cycle of six years. The current iteration comes at the midpoint of the college's accreditation cycle -- following the submittal of the college's Midterm Focused Report to the Accrediting Commission for Community and Junior Colleges. That midterm report was a summary of the college's institutional actions and progress made in response to the prior recommendations of the Accrediting Commission. West Hills College Lemoore is in the process of implementing actions and plans described in the report.

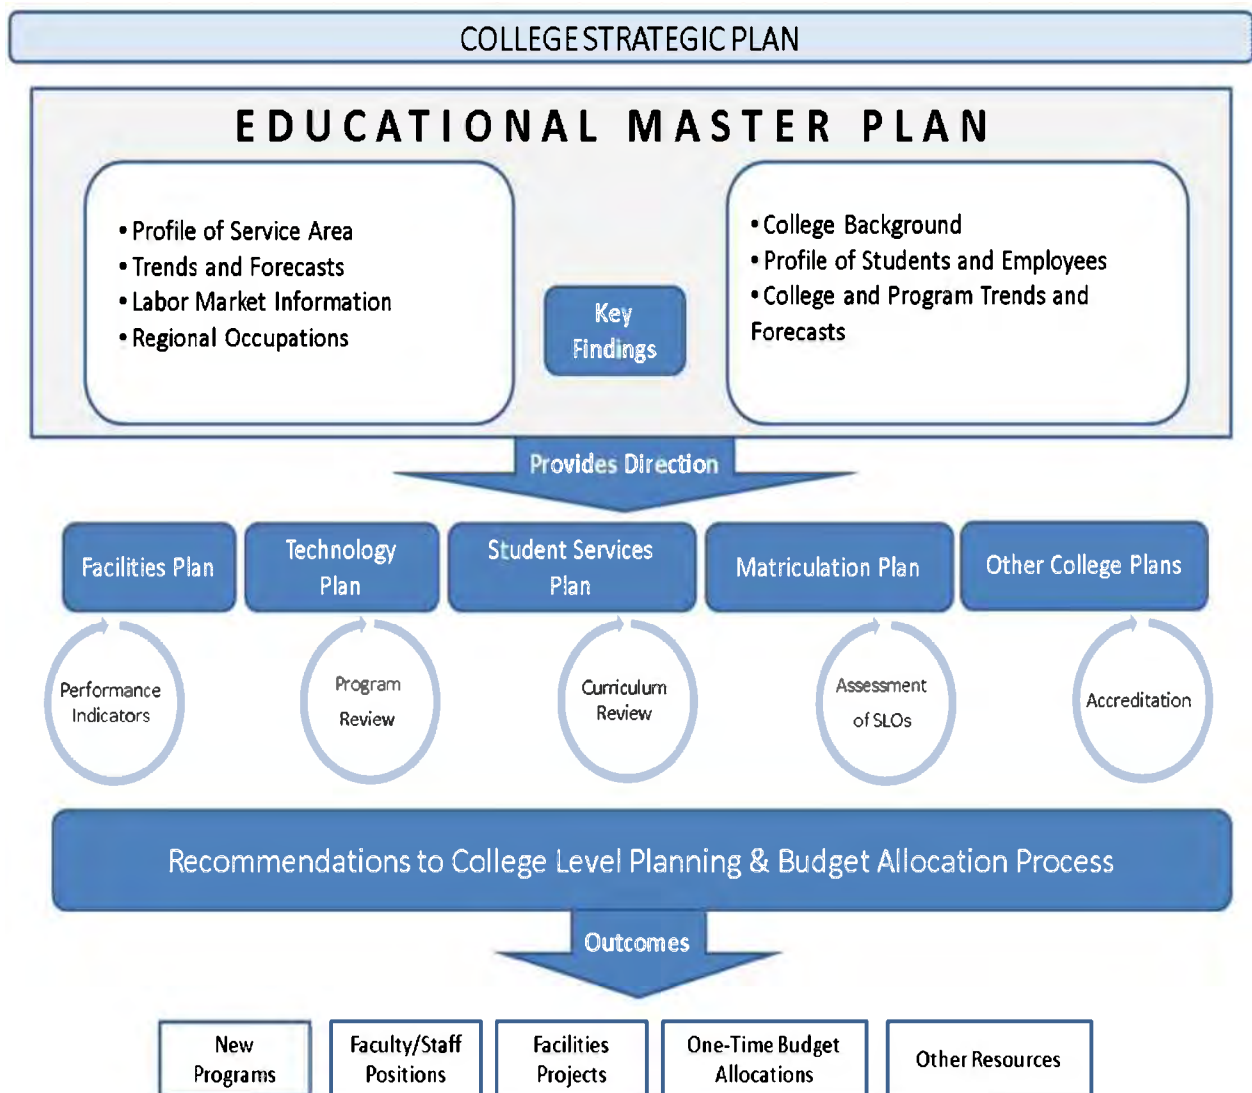

The Educational Master Plan for West Hills College Lemoore is directed by the college's strategic plan and the strategic plan of West Hills Community College District. Both of these plans are cited in the EMP as they provide the overarching direction and core values that guide the college.

Master Plan Framework

This Educational Master Plan of West Hills College Lemoore is being constructed at a particularly important juncture in our history as a college. WHC Lemoore received initial accreditation from the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges in June 2006. As one of the newest colleges in the California community college system, we are poised to realize our vision as a premiere, interactive learner-centered college.

Our Educational Master Plan gives direction to the planning processes of the college by providing a clear snapshot of our educational programs. It provides a thorough examination of internal and external trends. It serves as a primary resource for the development and update of other college plans. And it helps to identify our strengths, limitations, and capabilities -- and offer possibilities for the future.

The framework of this plan provides for an Educational Master Plan that is fluid and vital so we can respond to the community we serve.

Section I: College Background

COLLEGE HISTORY

The establishment of a college for the Coalinga Union High School District was proposed in the spring of 1932. The official beginning of the Coalinga Extension Center of Fresno State College dates from October 3, 1932. In September 1941, Coalinga Junior College became an independent unit under the direction of the Governing Board of the Coalinga Union High School District. Construction of a new campus on Cherry Lane near the northern limit of the City of Coalinga was begun on October 3, 1955, and the buildings were occupied on September 13, 1956.

In November of 1961, the voters of Coalinga Union High School District approved the formation of a separate junior college district, and in June of 1962, the voters of Lemoore High School District voted to annex to the college district, as did voters of Riverdale and Tranquillity High School Districts in December of 1962. Effective July 1, 1969, the official name of the college was changed to West Hills College in keeping with the nature of the expanded district.

In order to effectively serve the college district, West Hills College built the North District Center in the city of Firebaugh in 1971. In 1979, the District purchased land in the City of Lemoore, and in 1981, a classroom building and an office were erected. This was the Kings County Center until January 2002. On September 26, 2000, the Board of Trustees signed and accepted the "Agreement of Donation of Land for the West Hills College Lemoore" a generous donation from Robert and Mardell Pedersen and Lionel and Lola Simas.

Opening its doors to students on January 14, 2002, West Hills College Lemoore featured 18 classrooms, a state-of-the-art science wing called a Collaboratory, the largest and most technologically advanced library in Kings County, a multipurpose conference center, a full-service student services and administration building, as well as an outdoor amphitheater for students and community members.

COLLEGE MISSION

WEST HILLS COLLEGE LEMOORE ENRICHES THE LIVES OF OUR STUDENTS AND THE COMMUNITY WE SERVE BY BEING DEDICATED TO QUALITY EDUCATIONAL LEARNING OPPORTUNITIES AND PARTNERSHIPS. THE COLLEGE PROVIDES A POSITIVE ENVIRONMENT THAT IS COMMITTED TO STUDENT LEARNING AND EMPOWERING STUDENTS TO ACHIEVE THEIR EDUCATIONAL GOALS.

COLLEGE VISION

LEARNING THROUGH EXCELLENCE AND INNOVATION.

COLLEGE GOALS

1. WHCL IS COMMITTED TO PROVIDE QUALITY EDUCATION TO STUDENTS AND THE COMMUNITY.
2. WHCL IS COMMITTED TO EMPOWER STUDENTS TO ACHIEVE THEIR EDUCATIONAL GOALS.
3. TO SUPPORT STUDENT LEARNING, WHCL WILL EFFECTIVELY MAINTAIN AND INCREASE ITS RESOURCES AND PRODUCTIVITY.

GUIDING PRINCIPLES

WEST HILLS COLLEGE LEMOORE IS STUDENT-CENTERED AND IS DEDICATED TO PROVIDING HIGH QUALITY LEARNING OPPORTUNITIES. WE ARE GUIDED BY OUR CORE VALUES:

- **ACCESS:** ENSURE ACCESSIBILITY TO ALL OUR PROGRAMS AND SERVICES.
- **COLLABORATION:** EMPHASIZE EFFORTS TO UNDERSTAND AND MEET COMMUNITY NEEDS AND GARNER COMMUNITY SUPPORT. SUPPORT COLLABORATIVE DECISION-MAKING PROCESSES.
- **COMMUNITY:** DEVELOP AND FOSTER A SENSE OF COMMUNITY WITHIN THE COLLEGE.
- **DIVERSITY:** RESPECT AND EMBRACE DIVERSITY IN OUR PROGRAMS AND LEARNING ENVIRONMENTS.
- **EXCELLENCE:** PROVIDE HIGH QUALITY LEARNING, TEACHING, AND SERVICE OPPORTUNITIES.
- **INNOVATION:** SUPPORT INNOVATION AND TECHNOLOGY TO ENHANCE LEARNING ENVIRONMENTS, SERVICES, AND COMMUNICATION.
- **INTEGRITY:** ADVOCATE AND DEMONSTRATE HONESTY, TRUTHFULNESS, EQUITY, AND ETHICS.
- **MUTUAL RESPECT:** PROMOTE AN ENVIRONMENT OF OPEN COMMUNICATION

Section II: Profile of Students, Employees, and Service Area

This internal scan of West Hills College Lemoore is an opportunity to assess, over academic years, the demographics and characteristics of our students and their educational goals. We use this data to discern patterns and trends and review our institutional educational plans to best serve our students.

WEST HILLS COLLEGE LEMOORE, OVERALL STUDENT DEMOGRAPHICS

During the 2007-08 academic year, West Hills College Lemoore, including the students on its campus on College Avenue, at the Naval Air Station, and students enrolled in online classes, totaled 7,091 unduplicated students, a 9.62% increase in students served from the previous academic year. The growth in student population at West Hills College Lemoore is expected to continue on its upward trend.

Unduplicated Student Headcount

Year	Count	% Change
2002-03	5,468	-9.24
2003-04	5,010	-8.38
2004-05	5,512	10.02
2005-06	5,817	5.53
2006-07	6,469	11.21
2007-08	7,091	9.62

Source: WHCCD Data Warehouse

- Overall distribution of age is stable over the six years observed.

Summary of Overall Student Characteristics:

Students at WHCL are increasingly Hispanic and decreasingly white. Gender distribution has remained relatively consistent over the six years observed at about 62% female and 38% male. The distribution of age is also relatively stable with over 55% of students in '07-'08 24 years or under, and 38% 25-49 years old – fairly consistent with the ages of students during the five years prior.

Note: In the following section, the 2002-2008 data for the individual college entities -- Lemoore campus, Naval Air Station Lemoore (NASL), and online classes -- is broken out into separate sections. This separation provides a comparison of student demographics among the three different entities.

WEST HILLS COLLEGE LEMOORE CAMPUS, 2002-2008 DEMOGRAPHICS

Unduplicated Student Headcount

- The majority of the students at the WHC Lemoore campus are 24 years old and younger.
- The age distribution of students at the WHC Lemoore campus has been fairly consistent over the years observed, similar to the overall pattern of enrollment.

Summary of WHC Lemoore Campus Student Demographics:

The demographics of the 5,276 students at the WHC Lemoore campus are generally reflective of the overall college. 42% of students are Hispanic, 34% are white – with a trend reflecting a diminishing number of white students during the six years observed. 62% are female and 57% of the student population in '07-'08 are 24 years or younger. 22% of students on campus are 30-49 years of age. Head count of students on campus has increased during the last four years.

- Age distribution remains older than Main Campus.

Summary of Naval Air Station Lemoore (NASL) Student Demographics

The number of students taking classes at NASL has declined from 462 students in '02-'03 to 143 in '07-'08. The ethnicity of students varies from the main campus, with a larger percentage of white and African American students making up the composition of students taking classes at NASL. More females than males take classes on site, and the age distribution of students is older than that on the Main Campus.

ONLINE INSTRUCTION 2002-2008 DEMOGRAPHICS

WHC Lemoore Unduplicated Online Enrollment

Year	WHCL Online Enrollment	% Change	*Enrolled in Online & Face-to-Face	% Concurrently Enrolled
2002-03	2,068	24.5	1,368	66.2%
2003-04	1,792	-13.3	1,246	69.5%

2007-08	3,161	4.7	1,702	53.9%

*Students enrolled at any WHCCD face-to-face location

Source: WHCCD Data Warehouse

- Over the last five years observed, there is a consistent downward trend in the percentage of students concurrently enrolled in online and face-to-face classes. During the same period, there is a consistent upward trend of the numbers of students enrolled in online classes.
- The ratio between students enrolled in online classes versus students enrolled concurrently in online and face to face classes has widened over the last five years, with more students enrolled solely online.
- The number of students taking classes online solely or concurrently has grown in total number, reflective of the growth at the college and the accessibility of the online delivery system.

As a point of comparison the following table shows the online and face-to-face enrollment in the entire West Hills Community College District.

WHCC District Unduplicated Online Enrollment

Year	WHCCD Online Enrollment	*Enrolled in Online & Face-to-Face	% Concurrently Enrolled
2002-03	2,068	1,368	66.2%
2003-04	1,792	1,246	69.5%
2004-05	2,557	1,729	67.6%
2005-06	2,979	1,878	63.0%
2006-07	3,998	2,258	56.5%
2007-08	4,497	2,312	51.4%

*Students enrolled at any WHCCD face-to-face location

Source: WHCCD Data Warehouse

- In '02-'03, 700 students were solely enrolled in online courses in the district. By '07-'08, the number of students who were only enrolled in online courses had grown to 2,185.
- There is a consistent downward trend during the last five years observed in the percentage of students who are concurrently enrolled in online and face-to-face classes. There is a consistent upward trend during the same period of students who are enrolled online.
- Total number of all students taking online classes solely or concurrently has grown in number reflective of the growth at the district and the accessibility of the online delivery system.

The table below shows the city of residence for online only students at WHCCD.

City	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08

- In 2007-08, 57 percent of online students were below the age of 24 years old
- The online student age distribution has remained constant since 2003 which is consistent with overall college pattern.

Summary of Online Student Demographics

There is significant growth in the district and at the college among students who only take online classes. In '02-'03, 66% of the district's students who took online classes were also enrolled in classes on a campus or at a center. By '07-'08, throughout the district the percentage of students who were enrolled concurrently had dropped to 51.4%. At Lemoore, the same trend is reflected – by '07-'08, 53.9% of students were enrolled concurrently, dropping from the 66% concurrent students in '02-'03.

Online students are 39% white and 36% Hispanic which differs from main campus students in which the ethnic predominance is reversed. Age and gender of students parallel those of the main campus, being predominantly young and female. The majority of online students come from our service area.

Source: WHCCD Admission Application; Data Warehouse

- The highest percentage of students identify as their goal the desire to obtain an associate degree and transfer to a four year institution.
- 40% of students identify transfer to a four year institution as their educational goal.

Admission Survey

As part of the admissions application, students are requested to participate in a supplemental survey. This survey identifies family income levels, as well as level of education attained by the parents. It provides a more in depth look into the student's characteristics and provides information for future planning.

Highest Education Level Attained by Mother or Father, Fall 2007	%
Below College or University	67
College or University Degree	33

Source: WHCCD 2007-2008 admission application supplemental survey

Survey participation rate: 42%; Margin of error: 1.3%

- 67% of WHC Lemoore students are first-generation students.

Source: WHCCD 2007-2008 admission application supplemental survey

Survey participation rate: 40%; Margin of error: 1.4%

- 45% of students have family income of \$25,000 or less
- According to the US Census Bureau, the median household income for the State of California is \$56,645 and nationally is \$48,451.

- 7% of students indicate Fresno and Coalinga as their cities of residence. These may be online students or students coming to the college for a particular program.

Summary of Student Characteristics

40% of students express a goal of transferring to a four year institution. 67% of students do not have a parent who attended college. 45% of students have a family income of \$25,000 or less and in '07-'08 this compares to a median household income in California of \$56,645. Over 50% of students work more than 20 hours a week. 66% of our students identify Lemoore and Hanford as their cities of residence.

FULL-TIME EMPLOYEE CHARACTERISTICS

The following tables describe employee characteristics by job classifications.

Administration

Age	n	%	Ethnicity	n	%	Gender	n	%
35-54	5	55.6%	African-American	3	33.3%	Female	2	22.2%
55-59	2	22.2%	Hispanic	1	11.1%	Male	7	77.8%
60-64	2	22.2%	White	5	55.6%	Total	9	100.0%
Total	9	100.0%	Total	9	100.0%			

- 44% of administrators are 55 years or older.

Classified Management

Age	n	%	Ethnicity	n	%	Gender	n	%
35-54	4	80.0%	African-American	1	20.0%	Female	4	80.0%
65+	1	20.0%	White	4	80.0%	Male	1	20.0%
Total	5	100.0%	Total	5	100.0%	Total	5	100.00%

- N is too small to warrant generalization

Faculty

Age	n	%	Ethnicity	n	%	Gender	n	%
25-34	9	19.1%	African-American	2	4.3%	Female	22	46.8%
35-54	25	53.2%	Filipino	1	2.1%	Male	25	53.2%
55-59	4	8.5%	Hispanic	6	12.8%	Total	47	100.0%

Total	45	100.0%						

- 93% of classified staff is 54 years and below, predominantly Hispanic and female.

Summary

An overall scan of employee age, ethnicity, and gender reveals:

- There is a high probability of significant retirement in the next 10 years in the administrative ranks.
- Faculty is relatively young, although 27% are 55 and above.
- Faculty ethnicity does not reflect that of region.
- Classified staff is predominantly young, female, and Hispanic.

WEST HILLS COMMUNITY COLLEGE DISTRICT REGIONAL AREA

A regional scan was performed by Economic Modeling Specialists, Inc. on ten counties that are a part of and surround the West Hills Community College District. These ten counties include: Fresno, Kern, Kings, Madera, Mariposa, Merced, San Benito, San Joaquin, Stanislaus, and Tulare. The region covered was identified by the district as the region where students are most likely to obtain jobs and establish residency. A scan of the ten counties revealed:

- Total regional attainment of a college degree is below average compared to the state and the nation (See Regional Educational Level, Age 25+ below)
- The educational attainment of individual ethnic groups of the region is below average compared to the state and nation (See Race/Ethnicity below)
- By 2012, the age group of 30 to 34 year olds is expected to experience the highest growth
- Racial/ethnic groups with the highest expected growth are Hispanics
- Total population is expected to change ten percent, double the expected change of the State (5 percent)

Regional Education Level, Age 25+	2007 Total	% of Region	% of State	% of Nation
Less than 9th Grade	327,883	14.0	9.8	5.5
9th Grade to 12th Grade	291,573	12.5	9.5	9.0
High School Diploma	591,750	25.3	20.0	28.7
Some College	569,142	24.3	23.2	22.1

WEST HILLS COMMUNITY COLLEGE DISTRICT SERVICE AREA

The West Hills Community College District was first started in 1932 as a college for the Coalinga Union High School District. It now has a total area of 3,464 square miles and includes portions of five counties: Fresno, Kings, Madera, Monterey and San Benito. The West Hills College Coalinga campus on Cherry Lane in Coalinga opened in 1956 and in 1971, the North District Center was established in Firebaugh, in the most northern part of the district. In 1962 Lemoore High School District residents voted to annex to the college district. From 1962 to 1979 classes were offered primarily at the Lemoore Naval Air station and Lemoore High School. The facility was called The Kings County Center in 1981 when it operated in portable buildings on five acres in the city of Lemoore. In 1998, approved by 70% of the voters in Kings County, a \$19 million bond was passed for the new construction of the Lemoore campus. The construction was completed in 2002. WHC Lemoore became fully accredited as a college in West Hills Community College District in 2006.

West Hills Community College District Map

WEST HILLS COLLEGE LEMOORE SERVICE AREA

While the West Hills Community College District is comprised of parts of five counties, the service area for West Hills College Lemoore primarily includes ten cities-- Armona, Avenal, Hanford, Helm, Kettleman City, Laton, Lemoore, Stratford, Five Points, and Riverdale.

The West Hills College Lemoore service area is relatively young, with 34 percent of its population between 20-39 years old. The ethnic demographics reveal that 49 percent of the population is Hispanic and 39 percent is white, with considerably lower percentages for all other ethnicities.

Age	WHCL Service Area (10 Cities in 5 Counties)		WHCCD Regional Area (10 Counties)

Source: California Department of Education

- Ethnicity of high school students in the service area differs from college student ethnicity
- 25.2% of [feeder] high school students are white, 36% of WHCL students are white.
- 64% of [feeder] high school students are Hispanic, the college's student population is 38% Hispanic.
- CCCCO asserts that by 2011 Hispanics are projected to be the state's largest ethnic group, the majority population in public schools by 2013 and the overall majority by 2040.

Projected Ethnicity of District Feeder High Schools – Class of 2015

Source: CA Department of Education
Based on 6th grade enrollments for service area schools.

Assessment:

- The projected ethnicity of students from district feeder high schools shows a growing Hispanic student population and a declining white student population.

Top 10 Feeder High Schools - Fall 2007		Enrolled	% of WHCL Student Enrollment
1	Lemoore High School	767	18.5%
2	Hanford High	590	14.2%
3	Unknown/Decline to State	569	13.7%

Test Scores for Selected Schools

The California Standards Tests (CST) is administered to students in California Public Schools in English/Language Arts, mathematics, science, and history/social science. They are also referred to as the STAR tests. CST scores are used in calculating each school's Academic Performance Index (API). The test is administered in the 11th grade. The data below regarding students in our feeder high schools reveals the majority of feeder high schools exhibit a low percentage of students at the proficient or advanced level in English and math.

Note: The California High School Exit Exam (CAHSEE) is a completely different test. It can be taken by students at any time during their high school career. While the CAHSEE is required for high school graduation, students can pass the test with 8th grade math skills and 9th grade writing and language skills.

High School	CST English/Language Arts (2007) Percent Proficient or Advanced	CST Summative High School Math (Grade 9-11) (2007) Percent Proficient or Advanced
Avenal High School*	24%	0%
Coalinga High School*	28%	34%
Corcoran High School	26%	61%
Hanford High West	28%	32%
Hanford High School*	33%	15%
Laton High School**	31%	0%
Lemoore High School*	35%	30%
Riverdale High School	34%	75%

Source: California Department of Education

- Many 11th graders from the high schools in the service area do not test at a proficient level or higher in English.
- However Corcoran High and Riverdale High school have exceedingly high proficiency scores in math.
- Schools with 0 percent proficient or advanced CST Summative High School Math may be due to non-testing conditions.

Summary

The feeder high schools of Lemoore and Hanford send the college more students than other high schools in the area. The Hispanic student population at the college is significantly smaller than their numbers in our feeder schools. Students test at a low level of proficiency with two startling exceptions in math – Corcoran High and Riverdale High. The projected number of high school graduates is static for the next 7 years.

Section III: Educational Programs Trends and Forecasts

INTRODUCTION

This data provides us with an ability to examine our students' success in a quantitative manner. It allows us to measure the strategies we have employed against general key performance indicators. From this we ascertain key findings and develop strategies to meet our goals.

DEFINITION OF TERMS

Duplicated Enrollment

This is the number of actual enrollments in any given class or program. Under this definition, a student enrolled in multiple courses is counted multiple times at the program, campus, or institutional level.

Unduplicated Enrollment, (Headcount)

This is the number of actual students. One student, taking five classes, is counted as one student. If there are 20 students in a program in which all students are enrolled in five classes, there are 100 duplicated enrollments, but a 20 student headcount.

Full Time Equivalent Student (FTES)

A full time equivalent student is one student taking 15 hours of instruction per week for two semesters of 17.5 weeks. While most of our students do not necessarily enroll in 15 hours of instruction per week, we calculate aggregated student attendance in this manner for both funding purposes as well as a measure for the college of how many full time equivalent students are participating in any given class or program, or are enrolled at the college.

Weekly Student Contact Hours (WSCH)

This is a measure of the number of students enrolled in a course multiplied by the number of hours the course meets per week. If a class meets for three hours a week and has 30 students enrolled, the WSCH is 90.

Full Time Equivalent Faculty (FTEF)

One full time faculty member teaching the equivalent of a full load of classes equals 1.0 FTEF. Most often FTEF is aggregated to provide the college with a measure of the number of faculty teaching. The loads of adjunct faculty and full time faculty are summed to provide an aggregate number for the program or college.

WSCH per FTEF

This calculation, sometimes called 'productivity,' is the number of weekly student contact hours (WSCH) per Full Time Equivalent Faculty (FTEF). Some colleges establish a target number to ensure fiscal viability.

The college community is made up of departments and programs with a wide variety of needs. Some disciplines have mandates from external sources that keep class size low. A college supports this diversity of discipline needs and strives for general support and cooperation to best serve students in meeting their educational needs while understanding the fiscal pressures of the institution. That is the purpose of understanding this formula.

Environmental Scan

An environmental scan considers present and future factors that can influence the direction and goals of an organization. Environmental scans include both external elements (e.g., service area demographics, state requirements, industry demands, marketing trends, etc) and internal elements (e.g., infrastructure, personnel, programs, abilities, etc). These are evaluated in terms of their potential impact on the organization and its ability to meet its present and future strategic goals.

Course Retention Rate

This is a measure of the number/percent of students who remain in the course after the census date until the end of the term.

Course Success Rate

This is a measure of the number/percent of students who earn a grade of A, B, C, or CR in the class. Course grades of NC, D, F, I or W are considered to be unsuccessful.

AVERAGE COURSE SUCCESS, COURSE RETENTION, AND WSCH PER FTEF

Notes:

In 2003-2004, the college responded to the statewide budget crisis and reduced the number of sections it offered. This drop in enrollment is seen significantly in some departments. It should be noted that some departments responded to the cutback in sections by enrolling larger number of students in their classes (see Basic Skills Math). This significantly increased their productivity ratio or WSCH per FTE.

Prior to 2004-2005, online instruction was offered by WHC Lemoore. Coalinga students enrolled in online courses but headcount was attributed to WHC Lemoore.

The information included in the program sections is based on submitted program reviews. The college has a developed program review process that is still being refined, but one in which a template and process are in place. Any editing was done for clarity and brevity and was not intended to change the intent of the review or plans of the program. Items under the heading “Program Plans” were derived from the program reviews. Items under the heading “Challenges and Opportunities” are not from the program reviews but have been selectively added to suggest strategic options for programs.

If a program does not offer a degree, the listing under Degrees Awarded is stated as “N/A.” If a program offers a degree but none were awarded, the listing under Degrees Awarded is stated as “0.”

INSTRUCTIONAL PROGRAMS

Discipline Area

Administration of Justice

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	976	853	925	889	1,299
FTEF	6.75	4.56	5.14	5.95	8.35
WSCH per FTEF	412	533	507	419	443

	02-03	03-04	04-05	05-06	06-07
Sections	40	28	29	33	46
% of Online Enrollment	60%	37%	40%	32%	38%
Degrees/Certificates Awarded		15	29	28	30

Description:

The AOJ program offers the student a variety of educational and career pathways. The student may elect to enroll in a program leading to an Associate Degree with the emphasis on the Law Enforcement Option or the Corrections Option. Both provide a path to a four year institution. Presently, CSU Fresno offers classes on the Lemoore campus for those seeking a Baccalaureate Degree in Criminology.

Assessment

- FTES growth in 2006-2007 corresponds to increase in number of sections offered
- Online enrollment decreased over years observed
- Increase in numbers of degrees awarded
- Retention rate is stable and above college average
- Success rate is at college average

Program Goals from 2004 and 2006

Program Review

- Continue to update all curriculum and create six new courses.
- Develop more short term and online courses so employed individuals can quickly update their skills or obtain job ready skills.
- Include learning activities with specific learning outcomes in all curricula.
- Market the program at high school job fairs and utilize AOJ students as ambassadors.

Discipline Area

Art

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	379	399	536	567	594
FTEF	7.44	5.98	4.70	4.80	5.99
WSCH per FTEF	195	269	441	484	424

	02-03	03-04	04-05	05-06	06-07
Sections	59	74	111	96	73
% of Online Enrollment	0.0%	0.0%	0.0%	0.0%	7.4%
Degrees/Certificates Awarded		1	0	1	1

Description:

The Art program provides classes which meet the General Education requirement and course work that prepares art students for transfer. Classes also serve as enrichment experiences for many students. Students from diverse backgrounds work in an environment that affords a common, visual language.

Assessment

- High growth in FTES in years observed
- Number of sections offered in Art declined after the 2004-2005 academic year, but FTES has continued to increase, as has the WSCH per FTEF.
- Online courses begin in '06-'07, note FTES increase in that year
- Retention rate is fairly stable and exceeds college average
- Success rate is strong, fairly stable, and exceeds college average

Program Goals from 2006 Program Review

- Curricula is being developed for several computer generated Arts courses, including Photoshop, Illustrator, and others
- Art 15A Painting is being revised to articulate transferability to Fresno State University
- Student learning outcomes will be addressed

Challenges and Opportunities

- High enrollment, strong retention and success rates suggest opportunities for further growth, for example, expanded online offerings.

Discipline Area

Biology

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	782	991	1301	1496	1,460
FTEF	10.36	12.32	16.37	17.97	18.20
WSCH per FTEF	401	436	438	460	445

	02-03	03-04	04-05	05-06	06-07
Sections	68	80	106	126	132
% of Online Enrollment	14.6%	17.0%	11.8%	14.4%	27.1%
Degrees/Certificates Awarded		0	1	1	1

Description:

The main courses offered by the Biology department include general biology, human anatomy, human physiology, and microbiology. These primarily serve as prerequisites for students going into teaching or the allied health professions. The department offers majors-level biology courses as well as courses for non science majors to fulfill the life science general education requirement.

Assessment

- FTES in years observed is increasing
- Percentage of online enrollment fluctuates, highest 2006-2007
- WSCH per FTEF has fluctuated but remained productive
- Success rate is stable and at the college average
- Retention rate is stable and at the college average
- Degree and certificates awarded are minimal because courses primarily serve as requirements for the allied health programs

Program Goals from 2007 Program Review

- Schedule biology major preparation courses once a year and work on maintaining transferability.
- Continue to add new transferable courses for the non biology major
- Offer field trips and out of classroom experience in Biology

Discipline Area

Business Administration

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	1.101	1.212	1,075	992	1,008
FTEF	10.80	7.69	5.76	7.75	7.13
WSCH per FTEF	282	460	537	399	419

	02-03	03-04	04-05	05-06	06-07
Sections	94	85	84	80	89
% of Online Enrollment	0.0%	7.5%	5.8%	10.8%	19.8%
Degrees/Certificates Awarded		29	32	37	48

Description:

Business Administration is an integral part of the CIS, Business, and HRCM service area. The curriculum is intended for those interested in transferring to a four year college or university to earn a baccalaureate degree.

Assessment

- FTES increase in '03-'04 academic year with decline following
- WSCH per FTEF has been erratic
- Success rates below college average
- High number of degrees awarded
- Retention rate rising and matches college average in '06-'07

Program Goals from 2007 Program Review

- Work toward providing students with placement services
- Follow up on recently submitted certificate options
- Follow up on faculty development, particularly in regards to SLOs
- Address diversity of staff

Challenges and Opportunities

- Develop strategies to increase success rate

Discipline Area

Chemistry

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	106	91	177	275	122
FTEF	1.83	1.48	2.37	3.21	2.55
WSCH per FTEF	257	396	330	346	308

	02-03	03-04	04-05	05-06	06-07
Sections	10	8	14	21	14
% of Online Enrollment	0.0%	0.0%	0.0%	0.0%	0.0%
Degrees/Certificates Awarded		N/A	N/A	N/A	N/A

Description:

The chemistry department provides the initial training in chemistry for a broad range of careers and focuses as well on chemical education for the public sector. The careers include the traditional sciences, engineering, pre-professional, allied health professions, agriculture, forestry, and the many emerging cross-disciplinary or interdisciplinary programs such as oceanography, aqua-culture, environmental health, and atmospheric science.

Assessment

- FTES shows steady increase then drops in 2006-2007
- WSCH per FTEF has been stable over the five year observed but is below the college average
- Success rate is unstable and below college average
- Retention is unstable and below college average

Program Goals from 2004 Program Review

- Shift the design of the Chem 2A/B sequence for allied health students to include more directly related allied health applications.
- Maintain and extend recently acquired modern analytical instrumentation and add additional software licensing for simulations
- Expand and integrate the “Collaboratory” computerized lab platform
- Stabilize current enrollment to establish offering patterns that allow completion of an AS degree in chemistry.
- Increase student retention in all offerings
- Initiate T1 link capability so students can download data from their graphing calculators into the “Collaboratory” platform to bridge their math skills to practical applications.
- Extend software licensing to provide students with take home versions of software used in class
- Develop initial course offerings at the NDC site, complete with labs.

Challenges and Opportunities

- Develop strategies to increase retention and success rates

Discipline Area

Child Development

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	714	572	766	680	660
FTEF	4.04	3.06	3.77	4.29	4.85
WSCH per FTEF	407	502	476	410	368

	02-03	03-04	04-05	05-06	06-07
Sections	31	23	28	31	33
% of Online Enrollment	0.0%	0.0%	0.0%	0.0%	5.0%
Degrees/Certificates Awarded		19	2	0	7

Description:

The Child Development program offers a comprehensive background in the field of child growth and development. Students are offered information and skills for potential employment in federal, state, non-profit, or privately owned early childhood educational programs or schools. Courses help students qualify for a Child Development Certificate and partially qualify the student for a Child Development Permit from the State of California, Commission for Teacher Preparation and Licensing.

Assessment

- Growth in FTES in years observed
- Number of sections offered in Child Development is steady
- Retention is steady and slightly higher than college average
- Success rate dropped in '06-'07 but is higher than the college average

Program Goals from 2007 Program Review

- Student learning outcomes and their measurement are being addressed with adjunct faculty.
- Update of 2+2 agreement with Hanford High and the Naval Base child care program for module credit transfer to specific courses.
- Create a math and possibly music and science courses for young children
- Potentially offer online classes
- Explore ways to gather information on where our students are employed

Discipline Area

Communications

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	407	386	509	465	440
FTEF	3.00	3.00	4.00	4.40	4.20

	02-03	03-04	04-05	05-06	06-07
Sections	15	15	20	22	21
% of Online Enrollment	0.0%	0.0%	0.0%	0.0%	0.0%
Degrees/Certificates Awarded		N/A	N/A	N/A	N/A

Description:

Provides the College with speech communication courses that parallel lower division classes at four year colleges and universities. Speech 1 is required within Area A of designated transfer courses. Speech 51 is an applied communications course emphasizing communication in the work place.

Assessment

- Retention rate is higher than college average
- Success rate is generally 10% higher than college average
- WSCH/per FTEF decreased in the last two years

Program Goals from 2004 Program Review

- Develop a course in organizational communications
- Develop a course in voice and diction
- Revise and update Speech 5, Interpersonal Communications
- Explore distance learning options

From Program Review 2004

Challenges and Opportunities

- Develop strategies to improve productivity

Discipline Area

Computer Information Systems

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	1,237	996	858	711	671
FTEF	10.96	7.49	5.74	7.52	6.20
WSCH per FTEF	465	506	591	368	421

	02-03	03-04	04-05	05-06	06-07
Sections	78	61	60	61	64
% of Online Enrollment	38.5%	29.1%	19.2%	21.7%	28.0%
Degrees/Certificates Awarded		13	7	10	10

Description:

The Computer Information Systems program teaches concepts, procedures, and terminology, as well as the skills and applications necessary to operate computers and network systems.

Assessment

- FTES in years observed is declining significantly
- WSCH per FTEF has fluctuated, but remains at a productive level
- Success stable and improved in 2006-2007 when it exceeded the college average
- Retention rate is stable but slightly below the college average

Program Goals from 2007 Program Review

- Maintain and revise CIS Open Entry/Open Exit entry level courses to provide students with marketable job skills specifically geared toward the needs of reentry, traditional, and lifelong learning students. The department is in the process of changing its core curriculum from Office 2000 to Office 2007.
- Maintain and revise Comp-TIA (A+), WOW Web Development and reestablish the MOU certification programs.
- Continue the ongoing development of the Web Developer Certification program to include a Cyber Forensic, and Project Management components with current, emerging web technologies.
- Infusion of information technology components into established curricula, such as Administration of Justice, Math, Geography, etc.
- Revise curricula to implement in conjunction with the OE Department, the MOU certification program.
- Develop, maintain, and revise Internet-based courses
- Establish a full CIS AA degree online.

Challenges and Opportunities

Develop strategies to raise retention rate

Discipline Area**Culinary Arts**

*Waiting for Approval from CA Community College
Chancellor's Office*

Description:

The Culinary Arts department has developed a full range of curricula which is available to students. Certifications from this program exist in the areas of ServSafe, Deli Cook and Baker certification, Baker Certification, Bartending Certification, Dining Room Staff Certification, and Chef Apprentice Certification. Courses provide a knowledge base that allows students to more easily obtain entry level or higher positions in this field.

Assessment

No data available

Program Goals from 2006 Program Review

- Additional curricula will be developed including Commercial Food prep as the prerequisite to most courses.
- The program will seek American Culinary Federation accreditations
- More community outreach
- Develop a job placement program

From Program Review September 2006

Discipline Area Engineering

Description:

A new Engineering Program was launched Fall 2008.

Assessment

TBA

Program Goals:

% of Online Enrollment	23%	22%	17%	15%	26%
Degrees/Certificates Awarded		N/A	N/A	N/A	N/A

Description:

The Geography department offers a wide variety of introductory classes including Cultural Geography and Physical Geography. Cultural Geography introduces students to the spatial and diverse cultural milieu that is the basis for the Social Sciences and Humanities. Physical Geography focuses on the spatial relations of the various physical and earth sciences.

Assessment

- Growth in FTES
- Number of sections offered in Geography has increased
- Retention is steady and exceeds college average
- Success rate was steady but fell below college average in 2006-2007
- There is an observed increase in % of online enrollment that same year

Program Goals from 1998-99 Program Review

- Continue to build on the base courses
- Bring electronic learning into the program, using more computers in lab and lecture
- Insure course articulation for all types of teaching techniques
- Promote collaboration in lab settings
- Add to the online course offerings

Challenges and Opportunities

- Consider strategies to address lower success rates that began in '06-'07
- Develop strategies for a degree program

Discipline Area

Geology

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	N/A	52	99	123	165
FTEF	N/A	0.70	1.05	1.40	2.45

Degrees/Certificates Awarded		N/A	N/A	N/A	N/A

Description:

Program review needed.

Assessment

- High growth in FTES in years observed with a large percentage of online enrollment
- From 2004-2005 to 2005-2006 % of online enrollment almost doubled
During the same timeframe, success and retention tended to decrease
- Large increase in FTES in '06-'07 and the WSCH per FTEF decreases
- Success rate is strong and consistently higher than college average
- Retention rate is steady and exceeds college average

Program Goals

TBA

Discipline Area

Health Science (General)

Description:

Program review needed.

Assessment

- FTES in years observed is increasing
- Increase in online courses in years observed
- WSCH per FTEF has remained steady
- Success rate steady and near the college average
- Retention rate is steady but slightly below the college average
- The number of degrees awarded is substantial

Program Goals

TBA

Challenges and Opportunities

- Develop strategies to increase retention rate

Degrees/Certificates Awarded		1	0	0	1

Description:

This is a program to certify students to work in the fields of hotel, restaurant, and casino management. All courses offered promote practical job skills and have resulted in students receiving certificates in Dining Room Management, Pastry and Bakery Arts, and Beverage Management.

Assessment

- FTES in years observed is increasing
- WSCH per FTEF has been erratic, but productive
- Success rate high in 2005-2006 and exceeds college average
- Retention rate high and steady and exceeds college average

Program Goals from 2008 Program Review

- Sequence course work to articulate with 4 year institutions
- Achieve accreditation for the program
- Build new course curricula
- Modify current courses as needed to improve student learning outcomes

Challenges and Opportunities

- Develop strategies to increase degrees awarded

Discipline Area

Humanities

	02-03	03-04	04-05	05-06	06-07

Degrees/Certificates Awarded		1	0	1	2

Description:

This program serves students seeking AA degrees in Humanities and Social Sciences. It is an interdisciplinary program.

Assessment

- High growth in FTES in years observed
- Large percentage of online enrollment
- Online enrollment more than doubled from 2005-2006 to 2006-2007
- Success rate is unstable, fell below college average by 8% in '06-'07
- Retention rate is stable

Program Goals from 2006 Program Review

- Begin a Native American course
- Begin a cross cultural course
- Put Women's Studies under the Ethnic Studies program
- Participate in recruitment events at high schools in our service area

Challenges and Opportunities

- Review variances in success rates and seek to increase

Discipline Area**Liberal Studies/Liberal Arts**

	02-03	03-04	04-05	05-06	06-07

% of Online Enrollment	26.8%	19.4%	16.4%	20.2%	29.2%
Degrees/Certificates Awarded		2	4	2	2

Description:

The Math program consists of a full spectrum of courses ranging from developmental to advanced level mathematics. Courses are designed to satisfy the certificate, associate degree, and transfer level needs for both the technical and non-technical student.

Assessment

- FTES increased until '05-'06
- Significant increase in sections during the years observed
- WSCH per FTEF has decreased overall
- Success rate is decreasing and is below the college average
- Retention is relatively stable but below college average

Program Goals from 2004 Program Review

- Add student learning outcomes to all course outlines
- Increase number of Math 64 sections
- Establish an effective assessment test that accurately places students in Math 101, 61, 63 or Math 15.
- Create an assessment policy for online classes

Challenges and Opportunities

- Develop strategies to increase success and retention rates

Discipline Area

Nursing

Description:

A new Nursing Program was launched Fall 2008.

Assessment

No Data Available

Program Goals

TBA

% of Online Enrollment	7.0%	14.1%	11.4%	20.6%	31.3%
Degrees/Certificates Awarded	N/A	6	3	3	3

Description:

The Office Management and Technologies program offers a variety of options that guide students toward successful employment in business and government. The certificate programs include an Office Management and Technology Certificate, a Clerk Typist Certificate, and a Secretary/Word Processing Certificate. Completion of the Certificate program and the general education and District requirements qualifies students for an associate degree.

Assessment

- FTES in years observed is decreasing
- Percentage of online courses is steadily increasing
- WSCH per FTEF has been erratic, but generally productive
- Success rate well below the college average
- Retention is improved but below the college average

Program Goals from 2004 Program Review

- Increase business community involvement in the design of classes and certificates/degrees
- Improve the business community's perception of the college's certificates/degrees
- Develop a path for students' transition from education to employment
- Investigate cross discipline course offerings to enhance employability
- Integrate certificates and degrees to articulate a path to four year institutions
- Improve student access with convenient course designs
- Develop more short term and online courses so employed individuals can quickly update their skills or the unemployed can obtain job ready skills

Challenges and Opportunities

- Develop strategies to raise retention and success rates

Discipline Area

Physical Education

	02-03	03-04	04-05	05-06	06-07

WSCH per FTEF	386	429	423	425	383

	02-03	03-04	04-05	05-06	06-07
Sections	98	58	68	78	106
% of Online Enrollment	0.0%	0.0%	0.0%	2.7%	19.3%
Degrees/Certificates Awarded		N/A	N/A	N/A	N/A

Description:

The Physical Education curriculum is designed to provide the opportunity to achieve an associate degree in the student's area of specialization.

Assessment

- FTES in years observed is increasing
- WSCH per FTEF had been steady, but decreased in 2006-2007 and is below the college average
- Success rate is stable and slightly above college average
- Retention has slightly declined but at college average

Program Goals from 2007 Program Review

- Increase course offerings
- Standardize tests between instructors to be more consistent in grading
- Develop and revise the degree

Challenges and Opportunities:

- Develop strategies to increase productivity of classes
- Develop strategies to increase degrees awarded

Discipline Area

Physics

Description:

Program review needed

Assessment

- Sections increasing
- FTES increasing
- Success & retention high in 2006-2007 and both exceed the college averages that year
- WSCH per FTEF is low relative to other programs on campus

Program Goals

% of Online Enrollment	46.0%	28.0%	31.0%	36.8%	48.6%
Degrees/Certificates Awarded		6	14	13	18

Description:

The Psychology Associate Degree program is designed to provide entry-level skills and knowledge for the student transferring to a four year institution with a major in psychology. The psychology major prepares students for programs with emphasis in psychology, counseling, child development, educational psychology, education, social work, sociology, human services, and nursing.

Assessment

- No [overall] growth in FTES in years observed
- FTES dipped in 2004-2005 and increased by 2006-2007
- Large percentage of online enrollment
- Substantial number of degrees awarded.
- Success rate is relatively stable and at the college average
- Retention rate has been stable then declined and in '06-'07 fell 14% below the college average

Program Goals from 2004 Program Review

- Develop hybrid Psychology courses
- Revise curriculum to ensure currency with statewide curricular trends
- Develop student learning outcomes for Psych 1
- Expand Learning Community course offerings
- Expand offerings of hybrid Psych courses

Challenges and Opportunities

- Develop strategies to address recent retention rate decrease

Discipline Area

Social Science

	02-03	03-04	04-05	05-06	06-07

% of Online Enrollment	49.8%	47.6%	41.6%	44.0%	51.4%
Degrees/Certificates Awarded		3	4	8	12

Description:

The Social Science Associate Degree program is designed to provide the transfer social science major the opportunity to achieve an associate degree with specialization of the student's choice. The major is made up of 24 units in the fields of Economics, Geography, History, Political Science, Psychology, and Sociology.

Assessment

- Slight growth in FTES in years observed
- FTES dropped in 2004-2005 and has been steadily increasing
- Large percentage of online enrollment
- Retention rate is stable and higher than the college average
- Success rate is stable and higher than the college average

Program Goals from 2004 Program Review

- Bring Social Science 32A and B into the history department
- Develop a cultural/ethnic studies program
- Develop courses such as Native American and Asian Pacific Islander history, with potential to expand into family and gender studies

Discipline Area

Teaching Assistant (Education Assistant)

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	250	246	190	156	142
FTEF	1.86	1.81	1.24	1.25	1.27
WSCH per FTEF	271	299	270	253	245

	02-03	03-04	04-05	05-06	06-07
Sections	18	14	11	12	11
% of Online Enrollment	34.8%	41.5%	59.5%	46.8%	38.0%
Degrees/Certificates Awarded		1	0	0	1

Description:

The Education/Education Assistant (EDUC/EA) program provides courses and experiences for prospective teachers. The program awards a certificate as a Teaching Assistant. It is a program that has been actively involved in partnerships with Upward Bound Math and Science, Educational Talent Search, University Charter School, and Middle College High School. The teacher preparation effort is now called T.E.A.M. Teach and comes out of the Education/Education Assistant program.

Assessment

- Number of FTES as well as sections offered in Teaching Assistant declined over past five academic years
- Retention and success rates are above college average
- WSCH per FTEF is below college average.

Program Goals from 2007 Program Review

- Identify a counselor who will work specifically with T.E.A.M Teach students
- Write student learning outcomes for all remaining EDUC/EA courses
- Review and revise education assistant certificate to meet current needs of workplace and students
- Implement student learning outcome evaluation cycle in EDUC 1
- Write curriculum for CBEST prep classes to offer as nontransferable one unit courses in test preparation, reading, writing, and math
- Develop stronger articulation agreements at local high schools
- Develop strong student learning outcome assessment cycles for EDUC 1 and EDUC 5 that include adjunct faculty

Challenges and Opportunities

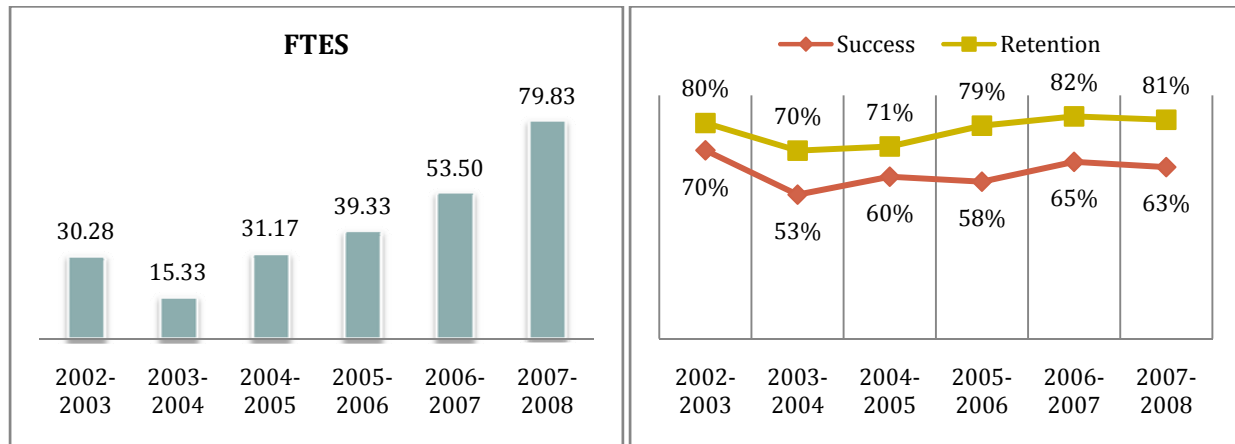

- Develop strategies to increase enrollment, retention, and success rates, and increase productivity

BASIC SKILLS

Basic Skills are the foundation for student success. Sometimes called developmental education or pre-collegiate skills, they are needed by many students entering all segments of higher education in order to be successful in college coursework. The statewide course success rate at community colleges in Basic Skills is 60.5%, about 10 % lower than that for other courses.

At Lemoore, students in Basic Skills classes are successful at a rate close to or above the statewide average. All Basic Skills classes have grown in enrollment over the six years represented below.

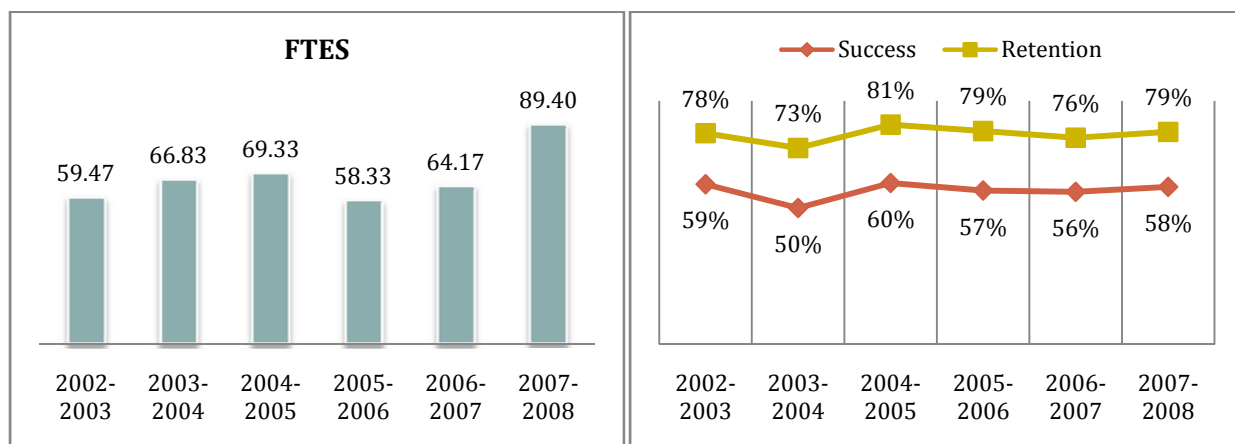

Basic Skills Math

	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
Sections	8	4	5	7	9	13
Duplicated Enrollment	188	92	187	236	321	479
FTEF	2.46	1.32	1.65	2.32	3.00	4.33
WSCH per FTEF	359	339	551	494	520	537

- Math Basic Skills classes have increased both in sections and enrollment. Students are more successful than the statewide average of 52%. (Source: Board of Governor’s Report on System’s Basic Skills)
- The program has high productivity and strong retention

Basic Skills English

	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
Sections	35	19	22	19	22	31
Duplicated Enrollment	360	401	416	350	385	648
FTEF	7.71	4.76	6.16	5.34	5.93	7.13
WSCH per FTEF	225	410	328	318	315	366

- English Basic Skills classes are building back from '02-'03. Note that with fewer sections in '07-08 they have significantly surpassed the number of enrollments they had in '02-'03 with more sections, a sign of a productive efficient program -- particularly considering that the success and retention of their students have remained steady.
- Success rates are generally comparable to statewide average of 59.3%. (Source: Board of Governor's Report on System's Basic Skills).

English as a Second Language (ESL)

	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
Sections	15	6	6	6	6	7
Duplicated Enrollment	52	41	39	30	40	66
FTEF	1.27	1.40	1.12	0.56	0.85	0.67
WSCH per FTEF	145	142	169	259	229	411

- Notable drop in sections after '02-'03, but enrollments now surpass the enrollment when the program had double the number of sections.
- No ESL courses scheduled during the day were offered between 2002-03 to 2007-08
- Success rates are mostly above statewide average of 70.6%. (Source: Board of Governor's Report on System's Basic Skills)

Basic Skills Placement

Students who enroll in courses that are appropriate for their preparation levels are much more likely to succeed in college. The assessment process should provide information and support to students so they can make appropriate educational choices. Below are charts that reveal the number of first term students who were assessed and placed into Basic Skills classes in English and math. The ESL program does not have a formal assessment mechanism.

WHC Lemoore Campus				Placed into Basic Skills			
Year	First-Term Students	Assessed	% Assessed	English	% of Assessed	Math	% of Assessed
2004-2005	1,534	575	37.5%	203	35%	223	39%
2005-2006	1,702	927	54.5%	349	38%	413	45%
2006-2007	1,613	798	49.5%	317	40%	355	44%
2007-2008	1,843	859	46.6%	411	48%	437	51%

- In the four years observed, an average of 47 percent first term students at the WHC Lemoore campus were assessed for course placement
- Of the numbers assessed, an average of 48 percent of students were placed into Basic Skills English
- Approximately 45 percent of students assessed were placed in Basic Skills Math, with the greatest percentage (51%) in the 2007-08 academic year

NASL Campus				Placed into Basic Skills			
Year	First-Term Students	Assessed	% Assessed	English	% of Assessed	Math	% of Assessed
2004-2005	40	16	40.0%	2	13%	4	25%
2005-2006	25	14	56.0%	3	21%	9	64%
2006-2007	22	11	50.0%	3	27%	3	27%
2007-2008	19	5	26.3%	0	0%	1	20%

- A declining number of students are being assessed at NASL.

Online Campus				Placed into Basic Skills			
Year	First-Term Students	Assessed	% Assessed	English	% of Assessed	Math	% of Assessed
2004-2005	519	204	39.3%	23	11%	48	24%
2005-2006	695	382	55.0%	54	14%	118	31%
2006-2007	988	459	46.5%	48	10%	119	26%
2007-2008	1162	313	26.9%	80	26%	125	40%

- The percentage of students assessed for the online campus has been declining over three years
- An average of 15 percent of students assessed for the online campus were placed into Basic Skills English
- An average of 30 percent of students assessed for the online campus were placed into Basic Skills Math

TOP TEN INSTRUCTIONAL DISCIPLINES BY FTES, 2003-2007

2003-2004		2004-2005		2005-2006		2006-2007	
Program	FTES	Program	FTES	Program	FTES	Program	FTES
Math	261	Math	290	Biology	283	Biology	278
Social Science	228	Biology	246	Math	274	Math	274
Biology	184	Health Science (General)	218	Health Science (General)	261	Health Science (General)	267
Health Science (General)	136	Social Science	206	Social Science	236	Social Science	262
Computer Information Systems	130	Physical Education	119	Physical Education	129	Physical Education	163
Business	121	Computer Information Systems	116	Business	106	AOJ	127
AOJ	83	Business	106	Computer Information Systems	95	Business	103

Psychology	77	Geography	79	Geography	85	Computer Information Systems	89
Geography	72	Art	71	Art	80	Art	87

- Math, Biology and Health Science are among the three largest FTES generators in the past four years observed. Social Science has remained in the top five.
- The top ten programs have remained consistent during this time.

AVERAGE WSCH PER FTEF, 2002-2007

Program	Average	Program	Average
Office Management	510	Child Development	433
Social Science	493	HRCM	427
Geography	477	Business	420
Geology	472	Physical Education	409
Computer Information Systems	470	Art	363
AOJ	463	Chemistry	327
Psychology	454	Communications	306
Math	447	Teaching Assistant	268
Humanities	447	Health Science (Pre-Professional)	192
COLLEGE AVERAGE, 2002-07	441	Physics	134
Health Science (General)	438	Engineering*	44
Biology	436		

*New Engineering program started in fall 2008

AVERAGE SUCCESS 2002-2007

Program	Success	Program	Success
Art	78%	Humanities	65%
Geology	77%	Psychology	65%
Physics	77%	Biology	64%
HRCM	75%	COLLEGE AVERAGE, 2002-07	64%
Child Development	71%	Computer Information Systems	63%
Communications	71%	Health Science (General)	63%
Teaching Assistant	69%	Math	60%
STATEWIDE AVERAGE, 2003-08	68%	Health Science (Pre-Professional)	57%
Physical Education	68%	Business	51%
Geography	66%	Chemistry	50%
Social Science	66%	Office Management	50%
AOJ	65%	Engineering	33%

- Students are least successful in Business, Chemistry, and Office Management over a 5 year span. Business and Chemistry also fall below the college average in WSCH/FTEF; Office Management has the highest WSCH/FTEF at the college.
- Students are most successful in Art, Geology, HRCM, and Physics.

AVERAGE RETENTION, 2002-2007

Program	Retention	Program	Retention
HRCM	90%	Physical Education	80%
Geology	88%	Biology	79%
Art	86%	COLLEGE AVERAGE, 2002-07	79%
Geography	85%	Psychology	78%
Physics	85%	Computer Information Systems	77%
STATEWIDE AVERAGE, 2003-08	84%	Health Science (General)	76%
AOJ	84%	Math	75%
Child Development	82%	Business	71%
Communications	82%	Office Management	69%
Humanities	82%	Engineering	67%
Social Science	82%	Health Science (Pre-Professional)	66%
Teaching Assistant	81%	Chemistry	61%

- Student retention is highest in programs that also reflect a high success rate – HRCM, Geology, Art, and Physics.
- Student retention is lowest in programs that reflect a lower success rate – Business, Office Management, Health Science, and Chemistry.
- The California Community Colleges System Strategic Plan of January 2006 notes that efforts are needed to improve semester to semester persistence, especially into the second year of college study.

DEGREES AND CERTIFICATES

From Fall 2003 to Fall 2007, West Hills College Lemoore conferred a total of 1,276 degrees and certificates in various disciplines. Over 50 percent of these were Associate of Arts in Liberal Arts. The Liberal Arts Program has been renamed Liberal Studies and is currently under review and modification.

The total number of degrees and certificates conferred by West Hills College Lemoore has been steadily increasing over the past four years.

TRANSFERS TO FOUR YEAR INSTITUTIONS

Data Source: National Student Clearing House; WHCCD Data Warehouse

Definition: The annual numbers of transfers to four-year institutions were determined by students who completed at least 12 units in the WHCCD system and stopped attending WHCCD prior to transferring to a four year institution.

Assessment:

- In '07, 92 students transferred to public four year institutions; 148 students transferred to private four year institutions.
- In the six years observed, more students transferred to California private institutions each year than transferred to California public institutions.
- The number of students transferring continues to increase with the most significant gains occurring at California private four year institutions.

Data Source: National Student Clearing House; WHCCD Data Warehouse

Definition: Based on WHCCD students who completed at least 12 units primarily online from a combination of online courses from WHCC and WHCL and stopped attending WHCCD prior to transferring to a four year institution.

Assessment:

- The number of online transfers has significantly increased over the six years observed.
- Significant gains have been made in the number of students transferring to out of state public institutions.

Data Source: National Student Clearing House; WHCCD Data Warehouse

TRANSFERS TO TWO YEAR INSTITUTIONS

Data Source: National Student Clearing House; WHCCD Data Warehouse

Totals includes In State Public, Out of State Public, In State Private and Out of State Private Two Year institutions.

Definitions

- Lemoore Total:** The annual number of transfers to two-year institutions was determined by students who completed at least 12 units in the WHCCD system and stopped attending WHCCD prior to transferring to a two year institution.

Assessment

- The number of students transferring to two year institutions has increased over the six years observed.
- Exit interviews could reveal reasons for these transfers that will assist the college in educational planning.

Section IV: Student Services

Student services are an important and integral function at West Hills College Lemoore. The college develops and offers a wide scope of support services that are dedicated to supplementing and complementing instructional programs and providing educational and cultural resources to students, faculty, and the community.

For the purposes of this Educational Master Plan, the student services included are those dealing with the Department of Learning Resources, Financial Aid, the Matriculation process and the following categorical programs: CalWorks, CARE, DSP&S, and EOPS.

Department of Learning Resources

Description: The Department of Learning Resources is responsible for supporting the colleges in their teaching/learning and service process through the development and administration of an academic online and video conference program that provides faculty training, help desk support, and videoconference technology installation and support.

Note: Prior to 2003-2004, all online courses were offered by WHCL

- There is significant growth in the online FTES and headcount at each campus.

- The number of video conference courses offered at Lemoore has been decreasing

- While the number of disciplines available online has remained steady, the number of sections has increased significantly.

Department Plans:

- Provide online students with active, hands-on, concrete experiences through technological media through collaboration of Learning Resources online staff and online instructors
- Develop and implement Student Technology and Online Readiness Self Assessment Tools
- Increase student technology literacy and independence through enhanced online orientations, student-friendly sites, and online training in courses
- Research and work with CENIC on all aspects of captioning for video conference courses
- Research and present to faculty new classroom mediated technologies
- Provide consultation and research services to the college academic communities.

From Program Review of Spring 2007

Matriculation

Description: The matriculation Process at WHC Lemoore provides an admission process, an orientation to college programs, services, and procedures; pre-enrollment assessment and counseling for course selection, a suitable curriculum, and a continuous follow up on student progress with referral to support services.

* Matriculation is based on students receiving assessment and counseling or orientation services.

Extended Opportunity Program and Services (EOPS)

Description: The EOPS program and services is a state funded program that provides supplemental support services to students with financial and educational needs. Eligibility is determined by income level and demonstration of need.

2006-07	EOPS (Non-CARE)	% of EOPS	% of All (6,469)
Enrolled in CREDIT	221	100%	4%
Credit FTES	216	100%	8%
Enrolled in NONCREDIT	18	8.1%	5%
Noncredit FTES	0	0%	0%

- The primary age group served by EOPS is students 20 to 24 years of age
- The majority of the students are Hispanic

Cooperative Agencies Resources for Education (CARE)

Description: The CARE Program is a cooperative effort between Kings County Human Services System, the Employment Development Department, and the college’s EOPS program. The focus of the program is to assist single parents on AFDC via supplemental grants and workshops that will provide them support for their academic success and retention.

2006-07	CARE	% of CARE	% of All (6,469)
Enrolled in CREDIT	75	100%	1%
Credit FTES	75	100%	1%
Enrolled in NONCREDIT	66	100%	3%
Noncredit FTES	6	8%	2%

- The majority of students in CARE are below 30 years of age
- The ethnic composition of CARE students varies from the college ethnic composition: CARE: 52% Hispanic, college: 39% Hispanic, CARE: 25% white, college: 36% white, CARE: 16% African American, college 7% African American

Disabled Students Programs and Services (DSPS)

Description: The DSPS program provides equal access to education for disabled persons. The college's office provides services to students with physical, learning, and psychological disabilities with a large range of support services.

2006-07	DSP&S	% of DSP&S	% of All (6,469)
Enrolled in CREDIT	234	55%	4%
Credit FTES	154	32%	6%
Enrolled in NONCREDIT	215	51%	60%
Noncredit FTES	327	68%	95%

- The largest percentage of any age group in the DSPS program is 30 to 49 years
- The ethnic composition in DSPS varies from the college: DSPS: 42% white, college: 36% white; DSPS: 36% Hispanic, college: 39% Hispanic; DSPS: 13% African American, college: 7% African American

Cal WORKs

Description: The Cal WORKs program is a state funded program to assist families who have received state aid. It provides an opportunity to return to college and receive education and training to become employable.

2006-07	Cal WORKs	% of Cal WORKs	% of All (6,469)
Enrolled in CREDIT	201	98%	3%
Credit FTES	144	100%	5%
Enrolled in NONCREDIT	19	9%	5%
Noncredit FTES	0.70	0%	0%

- 50% of Cal Works students are 24 years of age or below and 50% are 25 to 49
- The ethnic composition varies from the overall college: Cal Works: 48% Hispanic, college 39%, Cal Works: 29% white, college: 36% white, Cal Works: 14% African American, college: 7% African American

Financial Aid

Description: This department assists students through the various financial aid programs administered by the college. Financial aid is funding provided by federal and state governments and institutional sources to help students with their educational expenses. The funding is made up of grants, scholarships, and loans. Loans have several repayment options.

WHC Lemoore	Enrolled	Received Financial Aid	% of Students Receiving Financial Aid
2002-2003	5,468	1,692	31%
2003-2004	5,010	1,828	36%
2004-2005	5,512	2,153	39%
2005-2006	5,817	2,361	41%
2006-2007	6,469	2,583	40%
2007-2008	7,091	2,721	38%

- The number of students receiving financial aid has increased over the six years observed.
- The percentage of students receiving financial aid has decreased while the student population has grown.

WHCCD Enrollment of Students Receiving Financial Aid Awards

Academic Year	Students Awarded Financial Aid	Enrolled at WHCCD	% Enrolled
2002-2003	3,494	2,563	73.4%
2003-2004	3,500	2,720	77.7%
2004-2005	4,007	3,146	78.5%
2005-2006	4,371	3,359	76.8%
2006-2007	4,614	3,645	79.0%
2007-2008	4,848	3,903	80.5%

Source: Datatel; WHCCD Data Warehouse

- The number of students receiving financial aid awards has increased over the six years observed.
- The percentage of students who were awarded financial aid and enrolled at WHCCD has increased during six years observed.

- The gender of students receiving financial aid differs from student population which is 61.94% female, 37.37% male.
- The age of students receiving financial aid differs slightly from the student population: 25.62% are under 19; 30.94% are 20-24; 15.36% are 25-29; 23.28% are 30-49.

Section V: Labor Market Information

INTRODUCTION

The college is committed to providing students with relevant education and training for career technical and professional programs. Consequently, we examine labor market information for this region and compare it to the programs we offer. We use this information to plan for the development of new programs.

ECONOMY OF THE SAN JOAQUIN REGION, OVERVIEW

The Educational Master Plan for West Hills College Lemoore primarily utilizes our district service area that encompasses parts of five counties (Fresno, Kings, Madera, Monterey, San Benito) for demographic data. However, for the economic and labor market section we have also included the counties of Tulare, Kern, Merced, Stanislaus and San Joaquin. The reason for this is the impact of the larger geographical region's economy on college planning for the West Hills Community College District. Employment options for our students also take into consideration a greater area than the college district.

Among the ten counties under consideration by West Hills Community College District for its Educational Master Plan, six are among the top ten counties in the state in the value of their agricultural production: Fresno, Tulare, Kern, Merced, Stanislaus and San Joaquin. Of the ten counties drawing students to the West Hills colleges, only Mariposa County, with nearly half of its land on Federal lands, has an economy not based on agriculture.

While farming and agriculture define the region to a great extent, the counties of the San Joaquin Valley differ considerably in their economic make-ups. Madera and Tulare County have about three times the proportion of employment in agriculture as San Joaquin and Stanislaus. The others fall in between. Likewise, manufacturing is a more prominent part of the employment picture in Merced and Stanislaus counties than in other counties and government is a larger sector of employment in Kings County than in the others. This suggests that educational planners need to consider the diverse employment options in the region as well as the large distances in the rural landscape.

Population Growth

The population of the region is expected to grow approximately ten percent between 2007 and 2012, compared to the state's projected growth of five percent during the same period. The greatest growth will occur among adults aged 30 to 34 years and children under ten years of age (106,284). (Source: *Regional Scan and Program Demand Report, 2007*) This growth will have an impact on the need for job training and re-training and for education of children, and related services.

Income Levels and Unemployment

Per capita personal income varies in the San Joaquin Valley counties, but is below the state average in each. For comparison, the average per capita personal income in California for 2006 was \$39,626. Among the ten counties of the San Joaquin region, Fresno had the highest per capita income, \$27,081; Kings had the lowest at \$22,771. (Source: Table CA1-3, Regional Economic Accounts, Bureau of Economic Analysis, April 2008)

A recent survey of student applications for admission to West Hill College Lemoore and West Hills College Coalinga shows 45 and 48 percent of applicants, respectively, have family incomes of \$25,000 or less. (Source: WHCCD 2007-2008 admission application supplemental survey) The lower than average incomes in the region are consistent with agricultural regions across the country.

Unemployment also reflects the agricultural economic base of the region. Unemployment tends to be higher in the San Joaquin Valley region than the state average. The seasonality of agriculture and the relatively low wage scale account for some of the disparity between this region and other parts of the state. Counties in the San Joaquin Valley also have higher than average poverty rates.

Employment

The top industry sectors in the region, those with over 100,000 jobs, were government, agriculture (including forestry, fishing and hunting), retail trade, health and social assistance, manufacturing, construction, and accommodation and food services in 2007. Construction ranked at the top in earnings per worker (\$54,440) and accommodation and food services ranked last in the group (\$16,554). The greatest growth among all industry sectors by 2012 is projected to be in health care and social assistance. (Source: Chart of Industry Sectors, Region and State, 2007-2012).

Those occupations requiring training and/or education and showing the most growth across all industries in the region in 2007 include:

- Registered nurses
- First-line supervisors/managers of retail sales workers
- Elementary school teachers, except special education
- Business operation specialists
- Truck drivers, heavy and tractor-trailer
- Medical assistants
- Customer service representatives
- Accountants and auditors
- Nursing aides, orderlies, and attendants
- Carpenters

(Source: EMSI Top-Ranked Occupations by Total Growth, 2007-2012. *Note: The list above includes the top ten occupations, all with over 17,000 employees.*)

At the time of the *Regional Scan and Program Demand Report*, West Hills Community College District offered curriculum directly related to six of the twelve high-demand occupations.

Planning for future educational programs and services at the college will take into account the agricultural character of the region, the needs of its growing population for general education and workforce training, and the need to keep pace with demands of the economy.

REGIONAL REPORT

The following information was obtained from the Regional Scan & Program Demand Report prepared for West Hills Community College District by Economic Modeling Specialist Inc.

The Regional Scan included data from ten counties: Fresno, Kern, Kings, Madera, Mariposa, Merced, San Benito, San Joaquin, Stanislaus, and Tulare. The industry and occupation employment numbers are based on numerous published sources from the federal Bureau of Labor Statistics, Bureau of Economic Analysis, Bureau of the Census, and the National Center for Education Statistics. These ten counties span a region where the West Hills Community College District students are likely to seek work.

Occupation Demand and Program Enrollment Comparison

This section compares regional occupations with the most annual openings to the college's current enrollment by program, with the goal of indicating where the college might look to increase its capacity. The occupations are taken directly from the "Top-Ranked Occupations by New + Replacement Jobs" table. "Related programs" associated with occupations are identified using a crosswalk developed by the U.S. Department of Education with some customization by EMSI. College enrollment numbers by Classification of Instructional Programs (CIP) code are provided by West Hills Community College District.

Note that many occupations have multiple related programs and vice versa, so students enrolled in a program may be included in more than one row in the table above. "Average annual openings" is total new and replacement jobs divided by the number of years in the given timeframe.

Description	2007-2012 Avg. Annual Openings	Median Hourly Earnings	Annual Enrollment at WHCCD, All Related Programs
Registered Nurses	1,715	\$34.79	36
Elementary School Teacher, Except Special Education	1,426	\$26.07	225
Truck Drivers, Heavy and Tractor-Trailer	1,047	\$17.08	60
Business Operation Specialists, All Other	945	\$27.01	107
First-line Supervisors/Managers of Retail Sales of Workers	848	\$15.29	107
Medical Assistants (Psychiatric Technicians)	735	\$12.28	37
Customer Service Representatives	735	\$14.23

Top 25 Critical Occupations in High Growth Industries

The following table shows the top 30 highest growth occupations (in top 10 industries) from 2007-2012. They provide a business oriented view of the most in-demand jobs over that timeframe, and the demand-driven college will seek to align its offerings accordingly. Many jobs found here, especially with an education level of “short-term” or “moderate-term-on the job training” (ST OJT or MT OJT) are likely to be good candidates for industry oriented continuing education programs. * (other abbreviations are decoded below)

Industry	Occupation	Job Growth (In Industry)	Median Hourly Wage (All Industries)	Average Education
Child day care services	Child care workers	6,634	\$8.69	ST OJT
Support activities for crop production	Farmworkers and laborers, crop, nursery, and greenhouse	2,924	\$7.72	ST OJT
Local Government	Elementary school teachers, except special education	2,117	\$26.07	Bachelor's
Department stores	Retail salespersons	2,001	\$9.29	ST OJT
General medical and surgical hospitals	Registered nurses	1,748	\$34.79	Associate's
Offices of physicians	Medical assistants	1,060	\$12.28	MT OJT
Limited-service eating places	Combined food preparation and serving workers, including fast food	1,039	\$7.96	ST OJT
Accounting and bookkeeping services	Accountants and auditors	990	\$24.85	Bachelor's
Offices of physicians	Physicians and surgeons	858	\$74.93	Prof. DG
Other activities related to real estate	Real estate sales agents	788	\$25.08	PS Award
Other activities related to real estate	Real estate brokers	786	\$30.99	Exp. In Field
Local Government	Teacher assistants	750	\$12.34	ST OJT
Temporary help services	Laborers and freight stock, & material movers, hand	720	\$10.12	ST OJT
Local Government	Secondary school teachers, except special and vocational education	717	\$29.03	Bachelor's
Child day care services	Preschool teachers, except special education	689	\$12.08	PS Award
Limited-service eating places	Cooks, fast food	667	\$7.74	ST OJT
Local Government	Postsecondary teachers	650	\$27.43	N/A
Department stores	Cashiers, except gaming	619	\$8.64	ST OJT
Department stores	Stock clerks and order fillers	565	\$10.21	ST OJT
Local Government	Middle school teachers, except special and vocational education	530	\$28.77	Bachelor's
Other activities related to real estate	Property, real estate, and community association managers	488	\$12.47	Bachelor's
Offices of physicians	Registered nurses	471	\$34.79	Associate's
Temporary help services	Office clerks, general	454	\$11.65	ST OJT
Local Government	Police and sheriff's patrol officers	402	\$29.57	LT OJT
Local Government	Teachers and instructors, all other	367	\$19.95	Bachelor's

2007 FRESNO COUNTY EMPLOYMENT STUDY

In 2007 the Fresno County Workforce Investment Board conducted a survey of Fresno County employers to collect data relevant to guide the county's potential and job growth and employment trends. A total of 1,004 surveys were completed. They included small, medium, and large employers from seven sectors.

Below is a summary of the findings. The original data set was sorted to include only those occupations with 20 or more Projected Positions in Year 1. Occupations with no employers requiring High School Diplomas or Certification were then removed. The top 25 occupations remaining are listed below sorted by the Projected Positions in Year 3.

Salaries reported are based on the employers in the Fresno County region.

Occupation	Projected Positions (Yr.1)	Projected Positions (Yr.3)	High School Diploma Required	Certification Required	Salary Estimate (Low)	Salary Estimate (Mid)	Salary Estimate (High)
Production Laborers	1662	3946	33%	0%	\$8.54	\$0.00	\$11.50
Sales Representatives, Wholesale/Manufacturing, Except Technical & Scientific Products	266	456	53%	10%	\$17.70	\$0.00	\$24.98
Registered Nurses	379	418	86%	81%	\$23.35	\$29.39	\$33.74
Psychiatric Technicians	386	386	100%	0%	\$12.00	\$14.00	\$16.00
Farmworkers, Farm and Ranch Animals	235	374	33%	0%	\$7.75	\$9.00	\$10.00
Licensed Practical and Licensed Vocational Nurses	281	320	92%	84%	\$15.35	\$18.96	\$22.69
Computer Programmers	228	298	74%	20%	\$18.32	\$29.05	\$30.00
Automotive Service Technicians and Mechanics	185	290	32%	41%	\$12.15	\$14.38	\$23.22
Farmworkers and Laborers, Crop, Nursery, and Greenhouse	193	280	4%	0%	\$8.23	\$0.00	\$11.33
Truck Drivers, Heavy and Tractor-Trailer	178	256	36%	60%	\$12.60	\$14.69	\$17.90
Office Clerks, General	125	236	59%	1%	\$10.18	\$12.27	\$14.17
Automotive Specialty Technicians	129	222	20%	18%	\$8.62	\$12.38	\$15.19

Section VI: Key Findings and Strategies

STRENGTHS OF WEST HILLS COLLEGE LEMOORE

West Hills College Lemoore's fully accredited college status that was granted by the Accrediting Commission for Community and Junior Colleges in 2006 was well deserved. The campus features the largest and most technologically advanced library in Kings County, 18 lecture classrooms, computer labs, and three science collaboratories. Working in this state of the art facility contributes to the high morale and 'can do' attitude of the faculty and staff. In the accreditation self study the college describes itself as having a "healthy governance environment."

The partnerships that have been developed with other educational segments have been significant and positive. The partnership with University Charter School on the Lemoore campus brings in 5th through 8th grade students who are seeking a non-traditional educational setting. The Lemoore High School Middle College program is exemplary and continues to increase in scope and size. The alliance with Cal State University, Fresno, which allows students to earn a bachelor's degree while attending classes at the Lemoore site, is a partnership that every community college in the state should have. A program with Americorps has provided tutors. In 2008, a nursing program that had been the result of a partnership with Fresno City College will break out as a stand alone nursing program. The teacher preparation program T.E.A.M. Teach addresses the need for well prepared educators in our communities.

The college has responded well to the demands of business and industry. The region's emerging hotel, restaurant, and Casino management industry resulted in the development of a program to train managers in these areas. A new engineering program was started in fall 2008.

Naval Air Station Lemoore, located five miles from the Lemoore campus has a rich and enduring presence with the college. Faculty and staff have noted that the presence of students from NASL has enriched their classes and the college community because of a global knowledge base and experiences. Its proximity to the Lemoore campus influences the college and provides a unique perspective not available to many community colleges.

Student Services: New leadership in the student services area has resulted in innovative and effective approaches to serving students. An example of this is X-treme Registration that provides students with a unique college event and services to register at the last possible moment. Another example is bilingual orientation that was scheduled to be in place in 2007 and online orientation planned for implementation by spring '08.

Instructional Services: A consensus was reached on the definition of an instructional program that has facilitated the implementation of the program review process. There has been a concerted amount of effort in working toward a college wide completion of student learning outcomes for each course, projected to be in place by the end of 2008.

The college's continued focus on improving and refining all aspects of the curriculum development process will be important to the creation of classes, programs, and services that will lead the way to an educated work force in this region. Its state of the art technology and physical plant, the growth in the area surrounding the college, and its vital faculty and staff are hallmarks of West Hills College Lemoore.

KEY FINDINGS & STRATEGIES FOR WEST HILLS COLLEGE LEMOORE

COLLEGE WIDE: MULTIPLE DELIVERY SYSTEMS – ONLINE, VIDEO CONFERENCE, WEB BASED

Key Findings

The West Hills Community College District service area spans a wide swath of the San Joaquin Valley and encompasses five counties in mostly rural environments. The area is large and the need for educational access to the population is great. Students facing time and geographical barriers to education must have their needs met through the access provided by online courses and programs and video conference courses.

Online enrollments across the district continue to grow. The majority of the students who are enrolling in online classes are from our service area, although approximately 40% are from outside the service area. The success and retention rates for students in online classes throughout the district is below classroom rates, but remains fairly consistent for Lemoore students at 55% success rate and 73% retention.

At WHC Lemoore during the '07-'08 academic year, there were 3,155 unduplicated students enrolled in online classes. On the campus at Lemoore there are 5,276 students enrolled.

With high school graduation rates projected to be static for the next 7 years, increased offerings of classes and programs in multiple delivery systems, will be a major factor for growth at the college.

Recommended strategies to address key findings:

- More development of multiple delivery methods for classes and programs throughout the curriculum, including online, video conference, web based classes, hybrid classes and traditional classes utilizing new formats.
- Development of an array of Basic Skills classes in multiple delivery methods to provide access for students in need of pre collegiate work.
- More development of degrees and certificates that can be earned online.
- Increase student services and support for online students
- Research on staffing levels needed to support growth and development of online and video conference classes
- Close attention to the technological resources and facilities needed to maintain and increase online and video conference classes.
- Develop and market programs targeting non-traditional students.

The findings and strategies address goals from:

- District strategic plan: #1 Achieve growth targets, #4 improve transfer, completion and graduation rates
- College guiding principle: Access
- State strategic plan: College awareness and access

COLLEGE WIDE: NAVAL AIR STATION

Key Findings

The enrollment at the Naval Air Station (NASL) has been in a steep decline for the last five years, with a slight uptick in 2007-2008.

Among the factors that may have contributed to the decline are the opening of the new Lemoore campus which has attracted military students to enroll on campus, changes to military tuition assistance, deployment during the Iraq war, and the increased availability of online courses.

Students at NASL have preferred evening courses. Some student characteristics are notably different from other entities – students are older, and there are generally more white students and fewer Hispanics.

In 2007-2008, the Naval Air Station center had 143 students, down from a high of 462 in 2002-2003.

The Lemoore Naval Air Station is important to the college and the region. The Naval Air Station is a unique resource with a stable population of 10,200 employees plus 5,335 affiliated dependents that have educational needs.

Recommended strategies to address key findings:

- Formation of a widely representative advisory committee to discuss the issues of enrollment at NASL.
- Discussions with leadership at NASL in regards to their concerns, forecasted changes and/or program development, resource sharing
- Involvement of campus leadership for ideas, concerns
- Brainstorm ideas in regards to adult learners, under skilled workers, retraining and reentry training
- Offer alternative scheduling, short term curricular modes, weekend classes
- Consider new joint use ideas, non credit, and focused programs with cohorts

Addresses Goals From:

- District Strategic Plan:# 3 Community participation rates
- College Guiding Principle: Collaboration, community
- State Strategic Plan: Goal: A#3 Innovative programs and outreach

COLLEGE WIDE: COORDINATION OF PROGRAM AND COURSE DEVELOPMENT

Key Findings

There has been coordination between WHC Lemoore and WHC Coalinga in the development and offering of courses and programs.

A number of factors make coordination in coming years even more complex. Among them are the substantial and growing offerings online and the fully accredited status of the college.

In the data regarding students' identification of city of residence, a significant percentage of students come from cities such as Fresno, Coalinga, Visalia, and Avenal. While some of these residents may only be enrolled in online classes, we can also infer that these students may be willing to take classes some distance from their homes because of the desirability of a specific program.

The alignment of courses and programs within the college district and with all segments of education are essential to student access and success. Coordination would allow the college to maximize the development of courses and programs unique to its community, area, and facilities – and provide students with more choices and venues. These are essential to student access and success.

Recommended strategies to address key findings:

- Continue to coordinate the development of courses and programs with WHC Coalinga to ensure comprehensive offerings to all students in the service area.
- Interface Lemoore's Student Learning Committee with Coalinga's Instructional Services Council on a regular basis to discuss and make recommendations for approval of new courses and programs.
- Consider the formation of a district committee for review, coordination, and recommendation for approval of courses and programs.
- Develop a process to ensure colleges adhere to the Rule of 5 in which course number, title, prefix, units, and transferability are coordinated and discussion and coordination take place that ensure students have a seamless experience in their access to curriculum at WHCCD.

Addresses goals from:

- District Strategic Plan:#4 Improve transfer, completion, and graduation rates
- College Guiding Principle: Access
- State Strategic Plan: #1 College awareness and access

COLLEGE WIDE: ADDRESS THE CHANGING DEMOGRAPHICS

Key Findings:

An analysis of the demographic data for WHC Lemoore reveals that students in the age group of 30-49 have increased slightly at the college from 1,566 in '02-'03 to 1,651 in '07-'08. On the Lemoore campus, this group has dropped slightly from 1,179 to 1,157 during this time frame. But the number of online students in this age group has risen from 629 in '02-'03 to 750 in '07-'08.

The Regional Scan and Program Demand Report from Economic Modeling Specialist Inc. (EMSI) projects that the greatest growth in our region will occur among adults aged 30 to 34 years and children under 10 years of age during the period of '07-'12.

The female student population at WHC Lemoore continues to be significantly greater than the male population reflecting a state and national trend. In '07-'08 females comprised 62% of the student body.

The Bureau of Labor Statistics reports that for the first time since the modern women's movement came to life, an economic recovery has come and gone, and the percentage of women at work has fallen, not risen. A congressional study released on July 23, 2008, offers the explanation that women are dropping out of the workforce for awhile as jobs and wages shrink, to return to the family and to potentially retrain. At WHC

Lemoore 30-49 year olds are a larger proportion of the student population than those 25-29.

With the projected service area high school graduates remaining static into 2015, the college needs to focus on the demographic that may offer the most growth and also have a growing educational need in this region – students, primarily women, in the 30-49 year old age group.

Recommended strategies to address key findings:

- Consider workforce programs that would attract students who are seeking retraining for the next stage of their work life.
- Query students in this age group about their needs – scheduling of classes, academic support, child care, programs that they seek, etc.
- Target marketing to this group of potential students in the community

Addresses goals from:

- District strategic plan: #1 Achieve growth targets, #4 Improve transfer, completion, and graduation rates
- College Guiding Principle: Access, Diversity
- State Strategic Plan: College awareness and readiness

INSTRUCTIONAL PROGRAMS: BASIC SKILLS

Key Findings

Levels of proficiency in English/Language Arts and Mathematics of students at the 11th grade level in feeder high schools to WHC Lemoore are low. This implies a potential need for more Basic Skills sections available to first term students matriculating to the college.

Of first term students who were assessed, 48% assessed into Basic Skills English and 51% assessed into Basic Skills Math.

Data from the California Community College Chancellor's Office reports that when students do not receive the Basic Skills education they need, less than 10 % will survive the college experience.

Successful participation at the college level is dependent on preparation math and English skills. According to the CCCCCO, more than half of entering community college students require some Basic Skills education due in part to the fact that K-12 curriculum and assessments do not always adequately prepare students for college level work.

Students at Lemoore are generally successful in Basic Skills classes. In math and English the college has continued to increase sections after the reduction in '03-04, showing programs committed to Basic Skills offerings. Math and ESL have high productivity levels, and the success rate in both programs is above the California Community College average. English, math, and ESL Basic Skills classes all have high retention rates.

Recommended strategies to address key findings:

- Offer more sections of Basic Skills Classes in English, ESL, and math
- Consider a college wide committee to address Basic Skills and preparedness for college level curricula
- Work to ensure that all general education and vocational courses include specific activities designed to reinforce key reading, writing, speaking, and computational competencies
- Offer alternative pathways to Basic Skills preparation – e.g., intensive short-term courses, open skill building tutorials, etc.
- Focus professional development on student success, providing faculty with incentives to integrate the development of essential academic skills in their students
- Track students success from Basic Skills through college level curriculum
- Seek innovative ways to offer and deliver Basic Skills classes.

Addresses goals from:

- District Strategic Plan: #4 Improve transfer, completion, graduation rates
- College guiding principle: Access
- State Strategic Plan: Goal B, Student success and readiness, Basic Skills as the foundation for student success

INSTRUCTIONAL PROGRAMS: ENGLISH AS A SECOND LANGUAGE

Key Findings

Even with a significant reduction in ESL class sections that occurred after '02-'03 and little growth in additional sections following that, the enrollment has remained high. In '07-08, there are more enrollments in the 7 sections offered than the 15 sections in '02-03.

The retention rates are high in classes with success rates of 67% slightly below the statewide average of 70.6%.

The college does not offer college-level ESL classes. ESL offerings have had limited scheduling, primarily offered in the evening, although expansion into day time slots occurred in fall '08.

Hispanics are projected to become the State's largest ethnic group by 2011 and the majority population in public schools by 2013. The college's predominantly Hispanic student body, which is also reflected in the region, strongly suggests that a fully developed ESL program that leads to success in college level transfer classes and programs is essential.

Data from the Public Policy Institute of California notes that the educational attainment of Hispanics

falls short of residents overall and short of what the economy will demand by 2015.

Recommended strategies to address key findings:

- Develop a full curriculum of ESL courses that lead to college level offerings
- Develop an assessment and placement system for ESL students
- Offer more sections of Basic Skills classes in ESL in multiple delivery methods and time slots throughout the schedule
- Track ESL students into college level classes

Addresses goals from:

- District Strategic Plan:#4 Improve transfer, completion and graduation
- College guiding principles: Access, Diversity
- State Strategic Plan: Goal B, Basic Skills as the foundation for student success

INSTRUCTIONAL PROGRAMS: THE ARTS

Key Findings

Art classes at Lemoore are among the highest in retention and success rates, and FTES at the college.

The location of Lemoore and the resources it provides the community suggests that it will develop as a cultural center in the community.

A recent community survey revealed that approximately 65% of respondents indicated that they would be somewhat-to-much-more-likely to vote for a local higher education bond if funds were used to construct a performing arts center for college and community use.

Music programs exist in the community and at selected high schools.

Recommended strategies to address key findings:

- Develop a program in the arts and performing arts
- Develop an advisory committee from the community to determine interests and needs

Addresses goals from:

- District Strategic Plan: #3 Increase community participation
- College guiding principles: Community, Excellence
- State Strategic Plan: #1 College awareness and access

INSTRUCTIONAL PROGRAMS: LOWER DIVISION TRANSFER CURRICULUM

Key Findings

On the admission application 39% of West Hills College Lemoore students state that their primary goal is to transfer to a 4 year institution.

The geographic distances inherent in West Hills Community College District make access to educational opportunities challenging. The college's partnership with CSU Fresno and Fresno Pacific University are significant as students interested in going on to a baccalaureate degree can do so by completing requirements on the Lemoore campus. Access to a wide array of lower division transfer curriculum, articulation agreements and transfer agreements facilitate a student's continued educational pursuits.

The community survey revealed a priority interest in university classes. Close to 90% of respondents indicated that they would be somewhat-to-much-more-likely to vote for the bond if funds were used to construct a university center where university classes would be offered to complete advanced college degrees.

Graduating seniors from public high schools in this region are 7 per cent less likely to attend a community college and 4 per cent are less likely to attend a UC than graduating seniors statewide.

Lemoore student transfers to four year institutions continue to grow, with CSU Fresno

being a main transfer site. Notably, an increasing number of WHCCD online students are transferring. With the opening of the UC Merced campus, more articulation and transfer agreements for Lemoore students should be forged. In addition, many students from Lemoore transfer to in state private colleges and universities – in fact, more students go on to private institutions than matriculate to public institutions.

Recommended strategies to address key findings:

- Increase the development of lower division transfer classes that fulfill IGETC requirements
- Align student learning outcomes in critical course sequences
- Discuss and coordinate with like discipline areas across the district
- Meet regularly to align curriculum with high school partners and 4 year partners, including both public and private institutions.

Addresses goals from:

- District Strategic Plan:#4 Improve transfer, completion, graduation rates
- College Guiding Principles: Excellence
- State Strategic Plan: Goal B, #4 Intersegmental transfer

INSTRUCTIONAL PROGRAMS: ECONOMIC TRENDS and WHC LEMOORE PROGRAMS

Key Findings

In a scan of the economic forecasts and the projected labor market for the region against the backdrop of existing instructional programs at the college, a number of occupations in a handful of areas continue to surface.

Examples of these areas are: medically related health careers, management/supervision in the areas of retail and government, teacher education, and child care workers.

At Lemoore, the child development program is particularly well developed with its certificates and degrees. The program is layered with many options. Agreements with Hanford High and the NASL child care programs are creative. Online classes are being considered. The Education/Education Assistant program has been actively involved in partnerships with the University Charter School and highly successful Middle College High School, but appears to be shrinking. These programs can play an important role in the economic development of the region placing their graduates in the growing field of education and child care.

WHC Lemoore is well positioned to provide timely education and job training in health related fields. The new nursing program started in fall '08 and other programs are being explored.

The college has been proactive in partnering with the Health and Human Services Department of Kings County, which is with the college to provide workforce training programs for the CalWorks population in fields such as office technology.

The importance of the Naval Air Station to the college is obvious. Declining enrollment at NASL requires a fresh look at possibilities in terms of workforce training. Discussions with the NASL, college faculty and staff, environmental scans, and labor market projections should provide a foundation for the decision-making process.

In environmental scans of any region, projects or areas surface that haven't yet made the radar screens of labor market surveys. One such project is the Quay Valley Ranch, a proposed planned community consisting of about 12,000 acres in unincorporated Kings County. It is planned to be a new, sustainable, solar-powered model town of about 150,000 people. The potential for partnership, the development of programs in sustainable energy, the need for education, jobs, and services is large. The college must play a role.

Recommended strategies to address key findings:

- WHC Lemoore has already forged many strategies to respond to labor market needs. But the process to find ways to collaborate with local, regional, and state partners takes constant attention & effort.
- Monitoring economic trends and corresponding program development and expansion must continue. Employee demographics suggest that significant administrative and faculty retirements may occur in the next ten years. Staffing decisions must be considered.
- Program review and coordination at the college and district level may reveal areas of collaboration or unique pursuit because of geography, program interest or expertise, or facilities.
- Work force training is as important as the preparation of students in the Basic Skills. Contextualization – the concept that students learn essential skills best in practical, experiential contexts is ideal in that environment. Links with Basic Skills and work force training can be employed in programs at a college like Lemoore, where collegiality and communication are stated values.

Addresses goals from:

- District Strategic Plan: #4 Improve transfer, completion, graduation rates
- College guiding principles: Excellence, Collaboration
- State strategic plan: Goal C Partnerships for economic and workforce development

STUDENT SERVICES: ASSESSMENT PLACEMENT SERVICES

Key Findings

In '07-08, 46% of first-term students were assessed and 48% of them placed into Basic Skills English and 51% placed into Basic Skills math.

District wide, about 14% of students who did not receive assessment had educational goals that required assessment in order to succeed at the college level.

A small percentage of 11th grade students at feeder high schools to WHC Lemoore test as proficient or advanced in English or math.

Assessment and placement are a foundation for college success and students most at risk are those who have not been assessed.

Recommended strategies to address key findings:

- Develop programs to ensure that the majority of incoming students receive assessment placement services to provide them with information to access classes that will prepare them to succeed academically.
- Work across the curriculum to insure that classes that will help students succeed academically are available to them.
- Students in categorical programs compose about 63% of Basic Skills English enrollment. Develop collaboration between categorical programs and Basic Skills English faculty to improve success rates

Addresses goals from:

- District Strategic Plan:#4 Improve transfer, completion, graduation rates
- College Guiding Principles: Access, Excellence
- State Strategic Plan: Goal B, Student success and readiness, Assessment and placement

STUDENT SERVICES: MULTIPLE DELIVERY SYSTEMS FOR STUDENT SERVICES

Key Findings

The remarkable growth in students taking online classes necessitates a rethinking throughout the college about new ways to support their learning and success.

The college has an unduplicated head count of online students that is equal to 49% of on-campus students. There were 3,161 online students in the '07-'08 school year. The projected development and growth of multiple delivery systems for classes will necessitate new strategies for student services.

With relatively new leadership in student services at Lemoore, new perspectives and ideas are being implemented. The goal to provide online and bilingual orientation, counseling, testing and guidance service to new and continuing students is being implemented. (Institutional self study report, '06)

Although 49% of first term students received assessment placement, 18% of all students used assessment placement services in '06-'07, with only 8% of the college's students using follow up academic services.

The success and retention rates for students taking classes online are below the rates of students taking classes on campus. Online students in '07-'08 had a success rate at Lemoore of 55% and a retention rate of 73%. On campus

students had a success rate of 63% and a retention rate of 78%.

Recommended strategies to address key findings:

- Develop a means to provide more students with matriculation services, with a focus on students who are enrolled in online and video conference classes
- Develop methods to more effectively assess the student preparedness levels of online students
- Develop a student services strategic plan with multiple delivery systems as a main theme. Because of the existing initiative to start online and bilingual services, the college may already be developing a model program to be replicated.
- Consider the efficacy of joint online student services with WHC Coalinga so students at either college would have seamless, well supported services available in an expansive time frame.

Addresses goals from:

- District Strategic Plan: Goal #4 Improve transfer, completion, graduation rates
- College Guiding Principles: Access, Innovation
- State Strategic Plan: Goal B, Student Success and Readiness

WEST HILLS COLLEGE LEMOORE

PROGRAM REVIEW/PLANNING AND EVALUATION PROCESS UNIT PLANNING GUIDE - NON-INSTRUCTIONAL DEPARTMENTS & AREAS TO BE COMPLETED BY UNIT/DEPARTMENT COMMITTEE

I. General Information

Department/Service: Educational Services / LIFE After School Program

Date Prepared: 10/14/2008

Prepared By: Riley Talford

Staff: Riley Talford, Jorge Pulido, Laura Santillan, (49 staff at 8 school sites)

II. Program Overview

A. State the program mission.

West Hills College LIFE After School Program enriches lives, builds community, and enhances educational growth and development through quality learning opportunities. We provide a quality enrichment environment that fosters learning, sparks creativity, enhances social skills, and bridges the gap between home and school. It is our belief that all students can gain an understanding of and reach their full potential by providing structure, discipline, creative expression, and nurturing. As a new program we realize that by encouraging students to dedicate themselves to academic achievement they can utilize education as a vehicle to propel them to future life endeavors.

B. Briefly describe the current state of the program/department/service area.

The LIFE Program is in its 7th year of operation. Since its inception in 2002 the program has grown from being in operation at 3 schools to now serving 7 elementary schools and 1 high school program. Each school day the program serves approximately 760 elementary to high school students between the hours of 2-6 p.m. Students enrolled in the program receive a daily regiment of home work assistance, curriculum based educational programs, and various fun and learning filled enrichment activities.

Program operations at our elementary schools remain consistent and effective. The program has maintained 100% attendance at each school site since its inception. To achieve this mark 77- 84 students must attend the program daily at each school site. Our average daily attendance at each school site ranges from 85 – 100 students. Our newest program operating at Avenal High School will challenge us to maintain this record. The approach towards high school students differs from that of elementary students.

Our approach towards high school students is to provide them with: 1) opportunities to earn credit towards graduation, 2) skills to prepare them for work

force, and 3) activities that will excite their appetite for further education in a specific field of study.

Program staffing now includes 4 full time staff and approximately 49 part-time employees. The bulk of our employment ranks consist of West Hills College graduates and current students.

C. Describe how the program/department/service area goals and objectives are aligned to the advancement of the college mission, goals and objectives.

The LIFE After School Program advances the mission of WHCCD in the following ways: providing powerful and effective on the job learning opportunities for students working towards careers in teaching, promoting education as a vehicle to future life endeavors to the young students we supervise, and providing a safe and enriching environment that parents and school district administrators can feel safe entrusting their children to.

Many of our student workers have identified teaching as their career field of choice. As a member of the LIFE team they get first hand experience as managers of classrooms. Many of our staff members learn and practice the following teacher related activities: writing effective lesson plans based upon California Content Standards for the grades they teach, lesson delivery and evaluation, time management, organization, and behavior management.

School age students under our care are routinely encouraged to do well in school. Students who excel in our setting (perfect homework completion, activity participation, perfect attendance, etc) are routinely rewarded and receive recognition for their accomplishments.

Each year the program conducts surveys of students and parents. The overwhelming majority rated that they feel students are safe in the program. Furthermore, school site principals and teachers have commended program staff for the work performed with students and the care/respect shown to the school sites.

D. List any recommendations from the most recent college/program/department accreditation and/or previous review.

Not applicable.

III. Qualitative and Quantitative Data Review

A. Attach the following Non-Instructional Program Review data (as provided):

- Enrollment Trends
- Student Retention Rates/Student Success Rates (if applicable)
- WSCH/FTEF (if applicable)
- Full-time to Part-time Faculty Ratio

- Number of Students Earning Degrees (if applicable)
 - Number of Students Earning Certificates (if applicable)
 - Job Market Analysis (if applicable)
 - Student Demographics
 - Grade Distribution (if applicable)
 - Student Survey Data (if applicable)
1. **Enrollment Trends** – The program operates on a first come / first serve basis. Enrollment at all elementary school sites routinely reaches max capacity by the first week of school. There is currently no data available for the high school program
 2. **Student Retention/Success Rates** – Not applicable
 3. **WSCH/FTEF** – Not applicable
 4. **Full-time to Part-Time Faculty Ratio** – 4 full time staff to 49 part time staff. 7 of the 49 part time staff positions are designated as part time – permanent.
 5. **Number of Students Earning Degrees / Certificates** – Not applicable.
 6. **Job Market Analysis** – Not applicable.
 7. **Student Demographics** – data is not tabulated as it is not applicable to the LIFE After School program
 8. **Grade Distribution** – Not applicable
 9. **Student Survey Data:** Data not available at time of submission; Data will be available for review on 11/25/08

B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific course/program/service.

The LIFE Program has been a consistent pillar in the communities served. The enrollment trends and retention rates displayed provides a strong indication of program success. There is also a high degree of satisfaction reported among students and parents served in the program. The success of the LIFE program has led to healthy and sustained growth which extends WHCCD's sphere of influence throughout the Central Valley.

C. Attach the following data maintained for your program/department/service area:

1. Budget information regarding costs per program/department/service area on personnel, equipment, supplies, delivery of services (where applicable), and any other direct or indirect costs connected with the service as reflected by student enrollment.

2. Identify all personnel, including the number of certificated, classified professionals and volunteers. Discuss the diversity of faculty and staff.

Employee Classification:

Certificated _____ Class. Professional 11 Student Worker 41
Volunteers _____

Diversity (Race/Ethnicity)

1 Native Am. /Alaskan Nat.	3 African/African-American/Non-Hispanic
1 Asian/Pacific Islander	3 Caucasian/Non-Hispanic
44 Hispanic	Filipino
Mixed	

3. Describe the certificated and classified staffing requirements of the existing program/department/service area, as well as the effect any proposed curricular or instructional changes would have in the next three years.

The LIFE Program currently consists of 1 full time program Director (upgraded from program Coordinator), 1 full time Assistant Coordinator, 1 full time Senior Secretary, 1 full time Site Supervisor the high school program, 7 part-time (soon to be classified as part-time permanent) Site Supervisors, and 41 part time Activity Leader positions. An abbreviated account of these positions is provided below:

Program Director

Directs and oversees the operations of the after school program department that consists of 8 schools, 52 full and part-time staff, and over 760 primary grade school students.

Assistant Coordinator

As a direct managerial assistant to the program director, the assistant coordinator plays an active role with the logistics of program operations. In addition to those duties this position also supervises Site Supervisors and assists with daily operations at program school sites.

Senior Secretary

The Senior Secretary serves in a vital supportive role to the program Director. This position handles the procurement of supplies and materials, handles the hiring process of potential program employees, maintains employee files, and other duties as assigned.

Site Supervisors

Program Site Supervisors manage the daily operations at assigned school sites. They directly supervise 5 staff and approximately 100 students at assigned school sites.

Activity Leaders

Program Activity Leaders supervise classes of up to 20 students per activity leader. Persons serving in this capacity carry-out the daily program plan that consists of homework help/supervision, educational lessons, and enrichment electives.

Going forward the following positions have been identified as being necessary if the program continues to grow as expected:

District Coordinator

I envision the title and role of the Assistant Coordinator to change to District Coordinator and adding a second District Coordinator. Under the direction of the Program Director the District Coordinator would be responsible for the operations of all programs within an assigned district and would directly supervise program Site Supervisors within their district.

Trainer

1 Program trainer with a teaching background would be hired to conduct on going staff development training. This position would also collaborate with regular school day teachers to ensure that students receive follow up activities during the extended after school program day.

Program Counselor

Contingent with funding the person filling this role would conduct family workshops, and student group counseling sessions at program school sites.

D. Identify and discuss the effect that trends may have on the program/department/services area's organization, structure, and nature over the next two to four years.

Funding for After School Programs has been consistent for the past 7 years; however there have been challenges to its guaranteed funding as outlined in Proposition 49. Attempts to change legislation that directly impacts program funding levels have thus far been thwarted, but with the ever changing climate of the nation's economic woes funding in the future can once again be threatened. As the program continues to grow with the procurement of new grants and or contracts to facilitate programs for new school districts the size of the department could grow to by another 20 – 40 full and part time employees. West Hills Community College District will continue to have an influence on where families that are served choose to continue their education.

E. What resources are required to maintain program/department/service area, and what additional resources are necessary to improve or expand it? The LIFE Program is funded by state (Prop. 49 ASES) and federal (21st Century ASSETS) grants for After School programs. As additional revenue sources become available (primarily other grants supporting after school programs) the program will seek to expand its operations to other surrounding school districts and or current schools within our current districts that are not presently served.

F. Discuss staff training, academic and professional currency.

Program employees receive professional development training primarily during two distinct times of the year: end of summer and spring. Most trainings are conducted at WHC Lemoore by leading professionals in the field of After School education. Employees also receive training on the implementation of new curriculum, as well as update training on CPR and First aid. All training is contingent upon funding within the program's budget.

G. Excluding curriculum validation, discuss community involvement in the operation of the program/department/service area.

The LIFE program has received generous donations from businesses within our surrounding communities'. The program has also hosted community based events such as plays, carnivals, and community food drives. Avenal hosted a Christmas play in 2008, spring carnival joint community organizations effort also in Avenal, most of staff reside in the communities they serve.

IV. Professional Development

A. What professional development activities have staff participated in?

Employees in the LIFE program receive 24 hours of training prior to the beginning of each program year. Employees receive training in classroom management, writing effective lesson plans, learning and teaching strategies, and program specific operations.

B. How does this professional development affect Student Learning Outcomes for your program/department/service area?

Training provided to program employees provides them with the tools necessary to affect growth in the students we served. Program staff are more confident in delivering program content which has a direct impact on student academic improvement.

C. Describe the program/department/service area's plans for staff development over the next four years. Staff development within the program is ongoing. Each year management and supervisory staff attend Conferences and workshops that are geared to increasing the academic performance/effectiveness of after school programs operated at local school sites. Conferences provide training on "Best Practice" approaches for delivering student learning activities, Effective Management of Programs, Building Effective Partnerships, Grant Writing, and other professional development themed topics. Line level staff receive quarterly training on the following topics that are geared for equipping them with tools for effective delivery of LIFE program offerings: Classroom Management, Effective Tutoring Tactics, Lesson Planning, Working with Students with Special Needs, CPR/First Aid, and Incorporating Behaviors that Effect Positive Change.

C. Discuss the effectiveness of continuing education requirement to meet the need for advanced training and/or training in emerging technologies.

V. Student Learning Outcomes

A. List all Student Learning Outcomes for this program/department/service. Student Learning Outcomes for the LIFE program are as followed:

1. To improve Baseline California Standardized Test Scores in English Language Arts and Mathematics from previous year
2. To promote to next grade level

During the 2007-2008 academic year, over 880 K-6th grade students were served 1 day more in LIFE After School Programs operated at Lemoore Union & Reef Sunset Unified School Districts. 580 of those students were serviced at Lemoore schools. Out of those 580 students, 428 attended the program for at least 90 days. Out of those 428 students 214 improved their CST ELA scores and 218 improved their CST Math scores. Promotion to next grade rates for students, according to affiliated school district personnel, was well above 95%. (*CST data for individual students attending Reef-Sunset Schools was not available at time for this report, but overall CST scores for the Reef-Sunset District showed at least a 30% improvement for all students within the district). The Evaluation Report for programs operated in Lemoore has been submitted with this report.

B. Explain how Student Learning Outcomes are used to measure quality and success of this program/department/service area.

The LIFE Program is funded by California's Prop. 49 which provide After School Funding for Title I Schools that show a need for improvement. To remain eligible for funding each program is evaluated on its effectiveness. Program effectiveness is measured by student utilization of the program (attendance), and student achievement (CST scores, academic performance, promotion rates, home work completion). Attendance and CST data is tabulated for each student and submitted to California Department of Education (CDE) After School Programs Office yearly. The LIFE Program has been noted for its effectiveness achieving the goals of the grant.

C. Based upon the results of the program SLO assessments, what improvements have been identified?

Current program operation is effective in achieving student learning outcomes.

VI. General Operations

A. How does the program/department/service area ensure that current curriculum/delivery of service is adequately meeting the needs of students?

The LIFE Program is judged upon its ability to maintain a robust enrollment, and its ability to increase student proficiency with quality homework completion and reading. As a result of program staff hard work and dedication many students who attended the program for at least 6 months showed marked improvement in their state standardized tests scores (see attached document).

B. Do special accreditations, external regulations, or advisory committees regulate the program/department/service area? Yes No (if yes, elaborate.)

The LIFE program is regulated by state and federal standards for after school programs. The program must submit an annual report on its performance. The program is also subjected to Categorical Program Management (CPM) audits conducted by California Department of Education (CDE).

C. Does the program/department/service area have any special regulations, space requirements, staff training, etc.? Yes No (if yes, elaborate.)

The LIFE Program must abide by regulations set forth by state and federal standards set forth for after school program operations. Some of the more common regulations are as followed:

- Programs must operate all 180 school days.
- All programs must operate until 6:00 p.m. each school day.
- Programs must start as soon as the regular school day ends which includes early out days.
- Student enrollment in after school programs are on a first come, first serve basis.
- Program staff must meet the minimum requirements set forth by the local school district for an educational assistant.

D. Is there evidence of unmet student needs caused by your program/department/service area? Yes No (if yes, elaborate.)

E. How does the program/department/service area address cultural diversity?

Students enrolled in the program participate in activities that promote cultural diversity and recognize the accomplishments of others. The programs celebrate and promote events like Black History Month, Hispanic Heritage Month, Cesar Chavez and Martin Luther King Day's are only a few examples.

F. Describe the initiatives the program/department/service area has implemented to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical mental disabilities, re-entry, gender, etc.).

The LIFE Program promotes equal access to all students regardless of social-economic status, ability level, or physical/mental limitations. The program enrolls students on a first come first serve basis. All activities within the program practice inclusion – in

other words all students are expected / encouraged to participate. Accommodations are made as necessary to meet the needs of students with special needs.

G. Discuss the program/department/service area's use of external funding, including grants and collaborative partnerships, if applicable.

The LIFE Program receives its funding for all elementary school operations from the state After School Education & Safety Grant. Funding for high school operations is provided by the federal governments After School Safety Enrichment Training grant. These grants provide sufficient funding for the following after school related services: tutoring, home assistance, educational enrichment activities, physical fitness, and or job training (high school only). Collaborative partnerships with multiple agencies have been established that provide support for staff training/development, program technical assistance, curriculum offerings, and or supportive services for students and their families. Other partnerships have been established with local businesses that provide financial or supplies support for program related activities.

H. To what extent is technology being used in the program/department/service area?

Students attending LIFE programs at affiliated school sites are provided access to computers. Students utilize these computers to work with educational enrichment software programs or web based educational programs that promote reading comprehension. Program Site Coordinators utilize a program specific database that aids in the collection of data on the LIFE Program's effectiveness. This data includes but not limited to attendance records, state test scores, and participation in program activities.

I. Describe the supply requirements for your existing program/department/service area, as well as the effect that any proposed changes would have on the supplies in the next four years. This statement should include the kinds and amounts of supplies needed, any anticipated costs, and the need for any computer software/technology.

As previously stated, the LIFE program's needs are met by state and federal grants that provide sufficient funding for program activities. Each year the LIFE program's department head budgets appropriately for supplies needed for projected program operations. These supplies consist of arts-n-crafts material, educational curriculum, workbooks, reading books, enrichment materials, and other supplies as needed. Supplies cost per site range on average between \$10,000 - \$15,000 per year.

J. Describe the need for facility modifications within your existing program/department/service area or the effect that any proposed curricular or instructional changes would have on the existing facilities in the next four years. This statement should include a description of the desired changes, the rationale for the changes, and a rough estimate of the costs.

All LIFE programs are operated at Lemoore Elementary Unified and Reef-Sunset Unified District schools. Facility usage at these schools is at the discretion of school site administrators. Although facility usage at most school sites are adequate for program

needs, an expansion of facilities at Avenal elementary and Avenal High school would be of tremendous benefit for students enrolled in the program at these schools.

VIII. Summary and Recommendations

A. What actions have been taken to address the assessment and improvements of program learning outcomes?

Program employees have been provided training in areas deemed critical to achieve the goals of student learning outcomes. Program curriculum additions were made based upon the educational, emotional, and physiological needs of students

B. Based on analysis of the information provided in I through VII, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.

1. Program strengths:

Well rounded curriculum and a great team of careering staff members that strive to help students improve academically and socially.

2. Areas that need improvement:

Additional professional development training for employees in the area of classroom management, new and exciting educational practices that activate student desire for learning, and refresher courses in upper level math (geometry, algebra I, algebra II).

3. Strategies and actions for program enhancement and improvement.

The LIFE Program as an organization is operating at a very high level in its primary mission of meeting the needs of program students.

Upon the receipt of additional funds program services will be extended to assess and meet the needs of not only students, but their families'.

C. Attach your Program Planning and Evaluation Assessment Grid. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

Planning and Governance Council Membership as of September 15, 2010

Voting Members:

Don Warkentin, Chairperson/President (votes in case of a tie)

Jose Lopez, Dean of Students

Marlon Hall, Associate Dean of Educational Services, Evening College

Ryan Cardoza, Student Government Association Representative

Brittany Burkhardt, Student Government Association Representative

Kurt Sterling, Academic Senate President

Marty Ennes, WHC Faculty Association Representative

Keith Brock, Classified School Employees Association Representative

Lenore Simonson, Classified School Employees Association Representative

Non Voting/Reporting Members:

David Babb, Student Learning Outcomes Committee Chair

Sylvia Dorsey-Robinson, Student Success Committee Chair

Marlon Hall, Employee Development and Success Committee Chair

John Bernal, Facilities, Safety and Auxiliary Committee Chair

Ron Oxford, Technology Committee Chair

Dave Bolt, Budget Allocation Committee Chair

Dave Bolt, Institutional Effectiveness and Program Review Committee Chair

Eva Jimenez, Advisor/Counselor

Rene Sanchez, Curriculum Committee Chair

Ron Oxford, Librarian

Linda Amaya-Guenon, WHC Faculty Association Representative

Governance Structure

Introduction

The West Hills College Lemoore governance structure and process is designed to be inclusive and collaborative. It involves faculty, staff, students, community members and administrators in the planning and operation of the college. The governance structure and practices were developed collaboratively and support the participatory approach to decision-making. The Board of Trustees is the final authority for governance at West Hills College Lemoore, and delegates its authority to the District Chancellor who in turn delegates authority to the College Presidents. The College President then solicits and receives input through the participatory governance decision-making process at the college level.

Organization

The Planning and Governance Council (PGC), as the principal participatory governance body of the College, creates the processes for recommending College policies and governance committee structures (see AP 2410). The PGC reviews recommendations and requests of committees, planning groups, and task forces in order to determine appropriate actions. The PGC amends and guides the planning processes and recommends policies and procedures to respond to the changing needs of the student population and the internal and external environments. The PGC develops, implements, evaluates, and revises, if necessary, the College's plans and initiatives, both long-term and short-term. All decision making is based on the college's mission and vision statements, as well as the strategic plan and educational master plan.

The Strategic Plan (developed and revised by the WHCL Strategic Planning Committee) outlines the tasks and actions to be accomplished during the upcoming year. The PGC reviews the Strategic Plan and evaluates progress toward achieving the college goals. Each governance committee is responsible for achieving the tasks and actions as outlined for each committee within its goals, roles, and products. The governance committees report directly to the PGC and each has a representative on the PGC. The College President serves as the chair of the PGC. All governance committee representatives on the PGC report progress on their assigned goal, objectives, and activities at the PGC meetings.

Representation

The governance structure provides for representation from five recognized constituencies at West Hills College Lemoore: Students, Academic Senate, Faculty Association (WHCFA), Classified Staff (CSEA), and administrators.

Planning and Governance meetings are public. In addition, to representation afforded to individuals through constituencies, other individuals and groups may be heard in any governance meeting by requesting and receiving permission from the chair to participate and/or have items added to the agenda.

Appointments from the constituencies, when not specified by position, are made by the following:

- SGA – students
- Academic Senate – faculty
- WHCFA – faculty
- CSEA – classified staff
- President – administrators

The constituent appointees serve the length of term designated by the constituency group and/or the President.

Responsibilities of Representatives

The primary responsibilities of representatives are as follows:

- Prepare for and attend meetings
- Communicate with individual constituencies. All representatives are responsible for keeping their respective constituencies informed of the proceedings and recommendations
- Contribute to informed decision-making

Meetings and Actions

The agenda of each meeting shall be prepared by the chair (College President or his/her designee) and shall be posted (on the college website and intranet team site) at least 72 hours in advance of the meeting. All meeting minutes will be posted following approval of the council.

The latest edition of Robert's Rules of Order shall be the authority on parliamentary procedure in all PGC meetings.

The chair or his/her designee and a simple majority of the members of the council shall constitute a quorum.

The council shall attempt to achieve consensus for any and all actions. When consensus cannot be reached, a majority of members shall determine the recommendation.

The process for presenting items first for information, then for action at a subsequent meeting shall be followed. The PGC will have 60 days in which to complete the review and approval process of board policies and administrative procedures at the college level and submit final comments, recommendations or actions taken with regard to the policy/procedure to the Chancellor's Office (AP 2410). Allowance will be made for suspending this process when deemed appropriate by a majority.

Definitions

Council: A group of constituency representatives designated or selected to act in an advisory capacity that meets on a regular basis. The charge of a council entails college-wide issues and is the designated governance group.

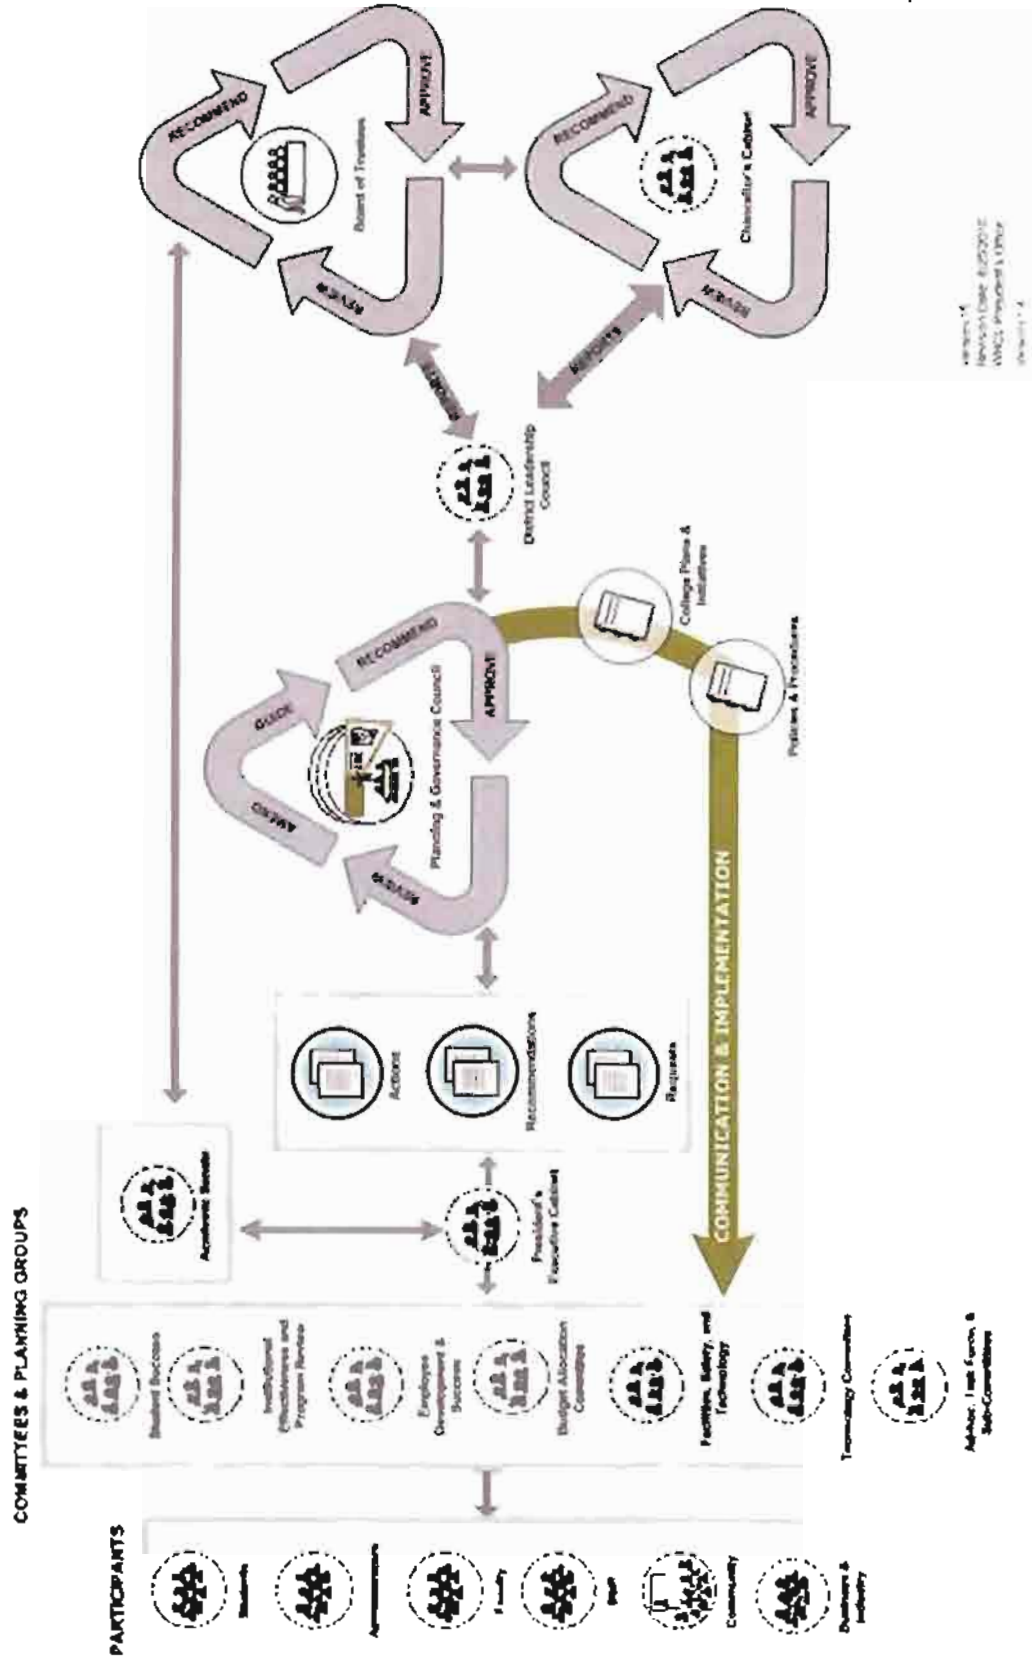

Standing Committee: A permanent committee of constituency representatives intended to consider all matters pertaining to a designated subject that meets on a regular basis. A standing committee is part of the governance structure and reports to a Council.

Permanent Sub-Committee: A permanent sub group of a standing committee designated to consider specific subjects in detail for recommendations back to the standing committee. The chair must be a member of the committee to which it reports. Other members need not be members of the committee to which it reports.

Ad Hoc Committee: A committee created by a council or standing committee to address and make recommendations on a particular subject as needed and meets until a task is completed. The members need not be from a council or standing committee.

Task Force: A constituency-represented group created to address a special college-wide subject/issue and meets until the subject/issue is resolved.

West Hills College Lemoore Governance Process

Planning and Governance Council

Role: The PGC represents all constituent groups of WHCL, develops or revises and approves governance policies and communicates with the respective groups. The strategic planning process guides budget priorities. Recommendations made by the PGC reflect the values and support the mission of the College and are in the best interest of improving student success and serving the community. The PGC, as the recognized participatory governance body of the College, creates the processes for recommending College policies and governance committee structures. The PGC amends and guides the planning processes and recommends policies and procedures to respond to the changing needs of the student population and the internal external environments. The PGC develops, implements, evaluates continuously and revises, if necessary, the College plans and initiatives, both long-term and short-term. A three-year planning cycle is used to implement the Master Plan. The PGC has oversight of college standing committees and receives and monitors reports. Communication with individual constituencies and participation in the Council meetings are primary responsibilities of the PGC members.

Products: Annual evaluation of the institutional outcomes, Strategic Plan and program reviews, annual progress report, policies and procedures recommendations.

Diversity Statement: The PGC will review all new committee structures, policies, or procedures for the diversity statements, holding the "requesting" individual or group accountable for including the consideration of appropriate diversity issues into their processes.

PGC Membership (Approved: 9/15/2010)

Voting Members

- 1 - Chairperson - College President (votes only in case of a tie)
- 1 - WHC Faculty Association (WHCFA)
- 1 - Academic Senate
- 2 - Classified School Employees Association (CSEA)
- 2 - Administrators
- 2 - Student Government Association (SGA)

Non Voting Members

- | | |
|--------------------------------|-----------------|
| 1 - Counselor/Advisor | 1 - Chair, SLOC |
| 1 - Curriculum Committee Chair | 1 - Chair, SSC |
| 1 - Librarian | 1 - Chair, EDSC |
| 1 - Chair, BAC | 1 - Chair FSAC |
| 1 - Chair, IEPRC | 1 - Chair TC |

Reporting Relationship: The PGC Chairperson reports to the District Leadership Council, Chancellor, and Board of Trustees.

Meeting Schedule: Twice per month; first and third Wednesday.

Council/Committees

The following councils/committees' are represented on the Planning and Governance Council. All input derived from these groups is incorporated into the college's decision making and planning processes.

Budget Allocation Committee

Goal: To build and foster a strong commitment to the use and development of community, technology, education, and funding in order to effectively increase the resources and productivity at West Hills College Lemoore.

Role: The WHCL Budget Allocation Committee has the responsibility of soliciting budget proposals from its staff for the purposes of conducting business. Area Budget Sub-Committees from: 1) Arts and Sciences 2) Occupational Education 3) Student Services and 4) Maintenance and Operations will provide input to the Budget Allocation Committee. Once received, the Budget Allocation Committee will prioritize these requests based on their impact on student success and the college's mission and vision statements. The college's budget recommendations and priorities will be sent to the Planning and Governance Council.

Products: Prioritized list of budget recommendations to be sent to the Planning and Governance Council.

Diversity Statement: WHCL is committed to the appropriation of resources that includes thoughtful consideration of the special needs of its diverse students, faculty, staff, and community populations. It is expected that the Budget Allocation Committee will actively implement diversity issues into their budget processes. When forwarding action and/or information items to the PGC, the Budget Allocation Committee will identify the items addressed in each item.

Membership: (Chairperson to be elected by the committee membership)

- 2 – Administrators
- 2 – WHC Faculty Association (WHCFA)
- 2 – Classified School Employees Association (CSEA)
- 1 – Student Government Association (SGA)

Reporting Relationship: Planning and Governance Council

Meeting Schedule: Every two weeks beginning in January and continuing until April.

Employee Development and Success Committee

Goal: West Hills College Lemoore recognizes the importance of institutional development. To this end, Institutional Development will act as a catalyst to support and enhance the other four goals.

Role: The Employee Development and Success Committee (EDSC) will develop, implement, and monitor issues and activities related to helping all WHCL employees maximize their success in the workplace. Areas of responsibility include professional development activities, training needs, employee recognition activities, and employee social activities and celebrations. The EDSC will survey college employees bi-annually for training and professional development needs resulting in an annual schedule of programs and events. The EDSC will plan and implement these programs and events in collaboration with the Academic Senate, CSEA, and college administration. The EDSC will plan and coordinate various college employee social activities, including end-of-year celebration of programs and events and prepare an annual report.

Products: Annual professional development plan; employee notification of programs and events; evaluation of programs and events; annual plan.

Diversity Statement: The EDSC will actively address issues of diversity in the workplace including but not limited to: access, gender, age, culture, race, religion, experience and education.

Membership: (Chairperson to be elected by committee membership)

- 3 – Classified School Employees Association (CSEA)
- 1 – Student Government Association (SGA)
- 3 – WHC Faculty Association (WHCFA) (one from Educational Services)
- 3 – Student Services Representatives
- 1 - Associate Dean of Educational Services, Evening College

Reporting Relationship: Planning and Governance Council

Meeting Schedule: First and third Thursdays of every month August to May

Facilities, Safety and Auxiliary Services Committee

Goal: To support the mission of the college by maintaining the appearance, functionality, accessibility, safety, technology, and cleanliness of current and future facilities conducive to a quality educational environment.

Role: The FSAC, representing all constituent groups of WHCL, develops, monitors, and has implementation oversight of the Facilities Master Plan, Site Safety, and Emergency Preparedness Plan. The FSAC evaluates and recommends revision of plans and standards and communicates with the respective groups involved. The aforementioned planning process guides budget priorities. Recommendations made by the FSAC reflect the values and support the mission of the College and are in the best interest of improving student success and serving the community. The FSAC develops, implements, evaluates continuously, and revises if necessary, the FSAC plans and initiatives, both long-term and short-term. A three-year planning cycle is used to implement all FSAC plans. The individual constituencies and participation in the committee meetings are primary responsibilities of the FSAC members.

Products: Facilities Master Plan, Site Safety, Emergency Preparedness Plan

Diversity Statement: The Facilities, Safety and Auxiliary Services Committee will address diversity into all planning and implementation processes as appropriate. Diversity issues will include but are not limited to access, use, learning experience, and indoor/outdoor environment. When forwarding action and/or information items to the Planning and Governance Council. The Facilities and Safety Committee will identify the diversity items addressed in each item.

Membership: (Chairperson to be elected by the committee membership)

- 1 – Director of Facilities Services
- 1 – Media Services Representative
- 1 – DSPS Representative
- 1 – ITS Representative
- 1 – Student Government Association (SGA)
- 1 – WHC Faculty Association (WHCFA)
- 1 – Classified School Employees Association (CSEA)
- 1 – Administrative Representative

Reporting Relationship: Planning Governance Council

Meeting Schedule: Monthly/first Friday of the month

Institutional Effectiveness and Program Review Committee

Goal: To provide positive and energetic teaching and learning environments to further our commitment to student-centered, outcome based education using relevant goals, innovations, strategies, and partnerships.

Role: The Institutional Effectiveness and Program Review Committee (IEPRC) monitors Program Review process Representation on this committee is from all constituency groups of WHC Lemoore.

Products: Program Review and accreditation reports

Diversity Statement: It is expected that the Institutional Effectiveness and Program Review Committee will actively incorporate all facets of diversity in the systematic evaluation and planning processes. When forwarding action and/or information items to the Planning and Governance Council, the Institutional Effectiveness and Program Review Committee will identify the diversity items addressed in each item.

Membership:

- 1 - Vice President of Educational Services – Chairperson
- 1 - Dean of Educational Services
- 2 - WHC Faculty Association (WHCFA)
- 2 - Classified School Employees Association (CSEA)
- 1 – Student Government Association (SGA)
- 1 - Accreditation Liaison
- 1 - Student Services Representative
- 1 - Director of Admissions/Records (Ad Hoc)

Reporting Relationship: Planning and Governance Council

Meeting Schedule: Monthly with more frequent meetings as needed

Student Learning Outcomes Committee

Goal: To support faculty and staff in the development and assessment of learning outcomes.

Role: The purpose of the Student Learning Outcomes Committee is to coordinate the various efforts on the West Hills College-Lemoore campus to create, implement, assess, and implement student learning on our campus. The SLOC will facilitate discussion among the various interested parties including, but not limited to: faculty, administration, and support staff regarding student learning.

Products: WASC Student Learning Outcomes reports, support and training to faculty and staff in creating, implementing, assessing, and evaluating results of student learning.

Diversity Statement: Ethnic and gender diversity will be taken into account when organizing the SLOC and creating, implementing, assessing, and evaluating student learning outcomes.

Chair: Faculty Student Learning Outcomes Coordinator

Reporting Relationship: College Administration

Membership:

- 1- Student Learning Outcomes Coordinator—faculty—Chair
- 1- Student Learning Outcomes Coordinator—non-teaching faculty—Co-Chair/Vice-Chair
- 6- Six faculty from the following learning areas as chosen by the Academic Senate: Arts and Letters (1), CIS/Business/CTE (1), Math/Science/PE (1), Health and Wellness (1), Social Science (1), Counseling (1)
- 4- Staff members to represent support programs
 - 1-Student Government Association (SGA)
 - 1- Instructional Administrator
 - 1- Non Instructional Administrator

Meeting Schedule: To be determined

Student Success Committee

Goal: To support the mission of the college by providing the services and supports necessary to students for them to achieve their educational goals.

Role: The Student Success Committee develops, implements, and monitors campus-wide services and activities necessary to ensure WHCL students maximize their success. This includes student services, academic support and recognition activities. This will be accomplished by making data driven decisions, incorporating essential planning documents and ensuring alignment with applicable regulations.

Products: Matriculation Plan, Student Equity Plan, Student Handbook, Transfer Plan, and other documents affecting institutional effectiveness.

Diversity Statement: We promote the exploration and celebration of differences and uniqueness in people, languages, and cultures. The Student Success Committee will actively address student diversity at every level of service including but not limited to enrollment trends, outreach, registration/enrollment access, advising, retention, and student clubs and associations. When forwarding action and/or information items to the Planning and Governance Council, the Student Success Committee will identify the diversity items addressed in each item.

Membership:

- 1 - Vice President of Student Services - Chair
- 1 - Dean of Student Services
- 1 - WHC Faculty Association (WHCFA)
- 1 - Classified School Employees Association (CSEA)
- 1 - Counselor
- 1 - Representative from Student Support Services
- 1 - Director of Categorical Programs
- 1 - Matriculation Coordinator
- 1 - Transfer Counselor
- 1 - Financial Aid Coordinator
- 1 - Representative from Office of Institutional Effectiveness and Enrollment Management
- 1 - Front Counter Representative
- 2 - Student Government Association (SGA)

Reporting Relationship: Planning and Governance Council

Meeting Schedule: Monthly/Second Friday 1:30-3:30

Revised/approved: 10/6/2010

Technology Committee

Goal: To support the mission of the college by maintaining technology conducive to a quality educational environment.

Role: The technology committee has the responsibility of assessing IT related policies, procedures, and planning, as they relate to WHC Lemoore. The central focus is the intersection of instruction, administrative support and technology in regards to students and their ability to meet their educational goals. WHCL has a student-centered environment that relies heavily on technology and the committee's objective will be increasing communication among the various constituencies in order to meet this goal. Open communication, collaboration and feedback related to technology needs and availability will be a key function. The committee will be representative of all campus constituencies and align to the Mission and Vision statements of the College.

Products: Technology plan (annually) in coordination with the Budget Allocation Committee.

Diversity Statement: The Technology Committee will actively address issues of diversity in the workplace including but not limited to: access, gender, age, culture, race, religion, experience and education.

Chair: Recommended by the President

Membership:

- 1- Librarian
- 1- Maintenance and Operations Representative
- 1- Student Services Assistant/Office Manager
- 1- Counselor/Advisor
- 2 - WHCA Faculty Association (WHCFA)
- 1- Student
- 1- Media Technician
- 1- DSPS Assistive Technology Specialist

Reporting Relationship: Reports to the Planning and Governance Council

Meeting Schedule: Every two weeks initially, and then upon committee consensus

Revised/Approved: 10/6/2010

Administrative Procedure 2410

Policy and Administrative Procedure

Reference: *Education Code Section 70902*

Board Policies and Administrative Procedures are regularly reviewed by the Chancellor's Office. The Chancellor makes recommendations to the Board of Trustees concerning revisions to existing policies and procedures or the development of new policies and procedures to ensure that they are current and comply with state and federal laws.

Any employee, student, or member of the public may initiate a review or development of any policy or procedure by submitting a request or recommendation in writing to the Chancellor's Office.

Review and Approval Process

Upon receipt of the request or recommendation, the Chancellor's Office may refer to the Community College League's Policy and Procedure Service for recommended or legally advised language. The Chancellor's Office may also use the Policy and Procedure listserv to query other districts for related Board Policies or Administrative Procedures. In some instances, the Chancellor's Office may request that legal counsel review the policy or procedure language. Other employees with expertise in specific areas governed by a Board Policy or Administrative Procedure may also be consulted during the review process.

After initial review by the Chancellor's Office, the policy and/or procedure will be routed to the supervisor, manager or Dean of the appropriate department, if applicable, for review (i.e. Student Services, Human Resources, Business Office, etc.). Following the applicable review, the policy and/or procedure will be routed as follows:

1. Policy and/or procedure to be reviewed and discussed by the Chancellor's Executive Cabinet.
2. After review by the Chancellor's Executive Cabinet, the policy and/or procedure will be sent to the College Consultation Council (CCC) at West Hills College Coalinga and the Planning and Governance Council (PGC) at West Hills College Lemoore (through the College Presidents) for review and approval, if applicable. Simultaneously, the policy and/or procedure will be sent to the Academic Senate Presidents and the Faculty Association President as a courtesy.
3. Review and approval by the Academic Senate Presidents will be requested only if the policy and/or procedure deal(s) with academic and professional matters. Review and approval by the Faculty Association President will only be requested if the policy and/or procedure has or will have a significant effect on faculty.
4. After review by the CCC and the PGC, any comments, recommendations or actions taken with regard to the policy and/or procedure shall be sent to the Chancellor's Office by the College Presidents. In the case of review and approval by the Academic Senate Presidents or Faculty Association President, any comments, recommendations or actions taken with regard to the policy and/or procedure shall be sent to the Chancellor's Office by the individuals

serving in those capacities. As a courtesy, the comments, recommendations or actions taken should also be sent to the College Presidents.

5. The Chancellor's Office will take the policy and/or procedure to the District Leadership Council (DLC) for review and approval.

6. After DLC review, and upon final review by the Chancellor, the policy and/or procedure will be placed on the Board of Trustees agenda for a first reading, with consideration to follow at a subsequent meeting.

Submission of Policies and Procedures for Review

When submitted to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President, and the DLC, the policy and/or procedure shall be accompanied by a routing form which will include the following information:

- Policy/Procedure Number
- Policy/Procedure Name
- Indication of new or revised policy/procedure
- Initiator of proposed new or revised policy/procedure
- Purpose for new or revised policy/procedure
- Anticipated timeline for review and approval process

New policies and procedures will be submitted to the appropriate groups as a "clean" copy.

Revised policies and procedures will be submitted to the appropriate groups using the following editing marks:

- Deleted text to be shown in
- Added text to be shown in bold print

Nonsubstantive ("clean up" or "housekeeping") revisions to policies and procedures (i.e. names, title changes, addition or deletion of references) that do not change the intent or meaning of the policy or procedure may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President and the DLC as a courtesy.

Policies and procedures dealing strictly with the Board of Trustees may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents ~~and~~, the Faculty Association President and the DLC as a courtesy. New or revised procedures that outline an existing process may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President and the DLC as a courtesy.

Timeline

In most instances, policy and procedure review and approval will be based on a two-month cycle at the college level. Once the Chancellor's Executive Cabinet agrees to move new or revised policies and/or procedures forward to the CCC, PGC, the Academic Senate Presidents and the Faculty Association President, the review and approval process timeline officially begins. The groups will have 60 days in which to complete the review and approval process at the college level and submit final comments, recommendations or actions taken with regard to the policy and/or procedure to the Chancellor's Office.

At the completion of the 60 days (or sooner if the appropriate groups have completed their review and approval process), the policy and/or procedure will be placed on the DLC agenda for review and approval if applicable. Following DLC review, the policy and/or procedure will be placed on the Board of Trustees agenda for a first reading, with consideration to follow at a subsequent meeting. The Board of Trustees will be provided with the Chancellor's final recommendation, along with the completed routing form which will include the comments, recommendations and actions taken by the appropriate groups.

The timeline may be shorted due to various circumstances including, but not limited to, changes in law or urgent need. However, the Chancellor's Office shall notify all applicable groups of the shortened timeline.

After approval by the Board of Trustees, policies and procedures will be posted to the District's website. The College Presidents and Academic Senate Presidents will also be notified as to the status of the proposed or revised policies and procedures.

Board approval date: 3/7/06

Revised policy approval date: 6/26/07

Administrative Procedure 2510 Participation in Local Decision Making

Reference: *Education Code Section 70902(b)(7); Title 5, Sections 53200 et seq; 51023.5; 51023.7 Accreditation Standard IV.A.2; IV.A.5*

The Board directs the Chancellor to develop operating procedures to facilitate the process of the work of the District Leadership Council (DLC), the College Consultation Council (CCC) at West Hills College Coalinga and the Planning and Governance Council (PGC) at West Hills College Lemoore. The procedures shall recognize the following relationships among the participating groups:

1. The Board – The Board retains all powers implied or granted by the law. The members of the Governing Board, as elected officials, recognize their accountability to the electorate with the District and their responsibility under law to make policy decisions affecting the District.

2. Faculty

- a. West Hills College Faculty Association

1. The West Hills College Faculty Association shall be provided opportunities to participate in the formulation and development of District policies and procedures which the Board determines, in consultation with faculty, has or will have a significant effect on faculty.

2. Except in unforeseeable or emergency situations, the Board shall not take action

on matters significantly affecting faculty until it has provided faculty an opportunity to participate in the formulation and development of those matters through appropriate structures and procedures as determined by the Board.

b. The Academic Senate

The Academic Senate shall have two (2) representatives on the DLC (the Academic Senate President from each college). However, the Board recognizes that the Academic Senate has a special role with the Board when adopting policies and procedures on academic and professional matters. This relationship provides for the Board of Trustees or their representative to consult collegially and to rely primarily on the advice and judgment of the Academic Senate.

1. The curriculum matters for which the Board shall rely primarily upon the Academic Senate include the following:
 - a. Curriculum development;
 - b. Establishing prerequisites and placement of courses within disciplines;
 - c. Standards or policies regarding student preparation and success;
 - d. Degree and certificate requirements;
 - e. Grading policies.

In keeping with the spirit and intent of the Board and the concept of sharing the governance of the college, the Academic Senate shall provide, as an information item to the DLC, any action taken by the Senate on the above listed curriculum matters. Once reviewed by the DLC, the policy shall be sent to the Chancellor to be placed on the Board's next meeting agenda. The recommendations of the Academic Senate will normally be accepted. The Board of Trustees may refuse to adopt the recommendations of the Academic Senate on these matters only in exceptional circumstances or for compelling reasons. If a recommendation is not accepted, the Board, through its designee, shall promptly communicate its reasons for rejection of the recommendation in writing to the Academic Senate. The Board shall also provide the Academic Senate the opportunity to respond in writing prior to final action by the Board.

2. In all other academic and professional matters, the DLC shall be the forum where the Academic Senate has mutually agreed to meet with the appropriate administrators and constituent groups, when appropriate, to formulate recommendations, review policy, and provide the mechanism for shared governance. The other matters that shall be considered by the DLC are defined as follows:

- a. Educational program development;
- b. Faculty roles and involvement in accreditation processes including self study and annual reports;
- c. Establishing policies for faculty professional development;
- d. Process for program review;
- e. Processes for institutional planning and budget development;
- f. Hiring policies, procedures, and criteria for contract faculty and administration;
- g. District and college governance structures as related to faculty roles;
- h. Other academic and professional matters as mutually agreed upon between the Governing Board and the Academic Senates. In all non-academic and professional matters, the Board shall retain its traditional authority as prescribed by law.

3. Staff

- a. Staff shall be defined as classified employees who are eligible to be members of the bargaining unit represented by CSEA.
- b. Staff shall be provided opportunities to participate in the formulation and development of District policies and procedures which the Board determines, in consultation with Staff, has or will have a significant effect on Staff.
- c. Except in unforeseeable or emergency situations, the Board shall not take action on matters significantly affecting Staff until it has provided Staff an opportunity to participate in the formulation and development of those matters through appropriate structures and procedures as determined by the Board.

4. Students

- a. Students shall have the opportunity to participate in the formulation and development of District policies which will have a significant effect on students, including the opportunity to participate in jointly developing recommendations to the Board as enumerated in Title V.
- b. Except in unforeseeable or emergency situations, the Board shall not take action on matters significantly affecting students until it has provided students an opportunity to participate in the formulation and development of those matters through appropriate structures and procedures as determined by the Board.
- c. The Board shall give reasonable consideration to any written recommendations or positions developed by students regarding District policies and procedures pertaining to the hiring and evaluation of faculty, administration, and staff.

5. Administration

- a. Administration shall be provided opportunities to participate in the formulation and development of District policies and procedures which the Board determines, in consultation with Administration, has or will have a significant effect on Administration.
- b. Except in unforeseeable or emergency situations, the Board shall not take action on matters significantly affecting Administration until it has provided Administration an opportunity to participate in the formulation and development of those matters through appropriate structures and procedures as determined by the Board.

6. Rights and Responsibilities – Nothing in this policy shall be construed to impinge on the rights and responsibilities of the Governing Board, the Chancellor and administration, or on the rights of faculty, staff, or students, not to detract from any negotiations or negotiated agreement between collective bargaining agents and the Board of Trustees as to how they will consult, collaborate, share, or delegate among themselves the responsibilities that are or may be delegated to the Academic Senate or to staff by this policy.

7. Status of DLC – The DLC shall only have the powers and duties set forth in these policies and procedures or applicable law and regulations. The DLC shall not be a legally constituted entity.

President's Intercommunication Team

September 9, 2010 –10:00 – 11:00 a.m.

WHCL Conference Rm. 124

Coalinga, District Office Bd. Rm.

MINUTES

Members Present:

Don Warkentin, President

Marlon Hall, Associate Dean of Educational Services, Evening College

Susan Whitener, Associate Vice Chancellor of Educational Planning

Cathy Barabe, Director of Grants (by phone)

Ken Stoppenbrink, Vice Chancellor of Administrative Services (by phone)

Bob Clement, Athletic Director

John Bernal, Director of Maintenance & Operations

Frances Squire, WHCCD Foundation Executive Director, Director of Marketing

Members Absent:

Pedro Avila, Vice Chancellor of Institutional Effectiveness & Enrollment Services

Dave Bolt, Vice President of Educational Services

Jana Cox, WHCL Financial Aid Director

Sylvia Dorsey-Robinson, Vice President of Student Services

Kurt Sterling, Academic Senate President

Charles Freeman, Director of Nursing

Carole Goldsmith, Vice Chancellor of Educational Services and Workforce Development

Michelle Kozlowski, Director of ITS

Jose Lopez, Dean of Student Services

Jody Ruble, Director ETS/UB/Americorp

John Ieronimo, CSEA President Representative

Ryan Cardoza, Student Representative

Mr. Warkentin called the meeting to order at 10:13 a.m.

1.0 Accreditation Update

Mr. Warkentin reported that the WHCL accreditation visit will be March 7 – 10. The team members will arrive on Sunday and make a visit to the district office on Monday morning. Both WHCC and WHCL will be visited. WHCC's team chair will be the president from the Ventura College District. WHCL's team chair will be Rosa Carlson, president of Porterville College. The WHCC team will stay at Harris Ranch and the WHCL team will stay at the Tachi Hotel. A month prior to the visit the team chairs and their assistants will meet with the colleges and district office. One aspect the team will look at is how we communicate with our district office staff. Mr. Warkentin reiterated that this committee, President's Intercommunication Team (PIT), conducts monthly meetings to dialogue with the district offices. He reviewed the PIT mission statement and its membership.

The WHCL self study draft has been sent out and we are awaiting feedback from the district office staff. The WHCL Planning and Governance Council (PGC) will take action on the self study in October with Board of Trustees action to follow in October/November. The Study will need to be mailed out to the team in January. Evidence documents will be scanned and accessible via links through the website. The WHCL team room will be in the conference center room 256. It will be partitioned off for individual meetings and opened up for the larger meetings.

Susan announced that she will be participating on an accrediting team in Oxnard and she has just returned from training. A few of the issues WASC has concern with are: Resource allocation (whether it is integrated into resource planning) also, whether colleges have a plan in place for reimbursement to reserves. SLO will not be a sanction; however, proficiency is expected by 2012; continuous quality improvement is the next level. Non proficiency by 2012 will be a recommendation. Mr. Warkentin added that recommendations may bring a follow up visit which he intends to avoid. Susan will send a bulleted list of her observations from the training. Additionally, she reported that she learned that the data we present should also be analyzed. Another issue concerns international students and if colleges are meeting their special needs. The data about incoming students should include international students. The international program at WHCCD generates about the equivalent of 200 FTES per year. WASC wants to see that SLO for online programs are managed the same as face to face and that success, retention, and persistence rates are comparative to face to face student achievement. Student achievement is certificates, degrees, and SLO (what they walk away with in their head).

Mr. Warkentin announced that he is chairing an accreditation team to Evergreen Valley College and Jose Lopez is on a team at Miramar College in San Diego in October. After all have participated on teams they will convene for dialogue.

2.0 Budget Update

Ken Stoppenbrink stated that the district budget for 2010-2011 was approved in August despite the fact the state does not have a budget. Communication from the chancellor's office is that there is a budget eminent. Apportionment has not been received and currently we are using reserves which should take us to October. The state is paying IOU's with the challenge being how long the banks will honor the IOU'S. Ken does not expect an approved budget soon. All districts will be in the same situation. Mr. Warkentin reported that he had spoken with EECU Manager, Lisa Franks, and EECU is preparing to provide interest free payroll loans. The loans would also be available to elementary and high schools in the valley. Frances interjected that there is speculation that a budget will be approved after the November elections are over. Ken stated that there are monies in capital outlay projects that could be pulled to put in the general fund if necessary. Frances will contact Lisa Franks to question the details. Bob asked if there would be concern with the bond monies and the continuance of construction. Ken does not see any delays in construction. Bob asked if budgets would be frozen. Ken responded that the same procedure as in past will likely be in place which would freeze budgets before the end of the fiscal year. He reiterated that the state is holding \$6 million a year out of our apportionment and will pay it next fiscal year. This is why a

freeze has to be put on our spending. Mr. Warkentin stated that he had been informed that we will not receive MAA checks until the state budget passes even though MAA is federal monies. Ken reported that WHCCD is in excellent shape. The normal budget planning process will continue in the spring.

Ken questioned if in WHCL'S perspective on budget if there is a flow or are there areas that need to improve. Mr. Warkentin replied that aside from no budget in the last few years, an area to strengthen is the need for a formal response from the district to acknowledge prioritized budget requests. Currently, when Anne Jorgens reports lottery dollars have been received, the Budget Allocation Committee revisits the priority lists. There needs to be a response form. As new monies become available we need a communication piece. Ken responded in agreement and recommends this be further discussed at the Chancellor's Executive Cabinet as it is needed district-wide. Cathy stated that she would like to see priority 3 lists to know what has been requested.

3.0 Program Review Schedule

Mr. Warkentin reviewed the district office program review schedule. If there are reviews not showing please let he or Dave Bolt know.

4.0 New Grants Program

Cathy Barabe reported that she had informed Mr. Warkentin about CTE equipment monies available. Additionally, she has found monies for two child development classes for spring and fall. She has talked to Dave Bolt about adding science classes for spring as there is funding for online and/or face to face classes. She is working with the Avenal school districts regarding the educational center and she needs feedback on signage, i.e. WHC Center at Avenal, WHC Avenal Learning Center. There will be staff stationed at the outreach sites. It is expected that the students will be nontraditional. Susan asked about the Title V grant approval. Cathy responded that she had not heard. The Student Services Grant will not be received.

5.0 FTES Update

In the absence of Mr. Avila, no report was given.

6.0 Other

Frances Squire made event announcements as follows:

- Washington Monthly magazine has named NDC the 34th best college in American based on SICEE survey rates. There will be a celebration on 9/23 at 5:00 p.m. in Firebaugh.
- On October 10th Karl Rove will be speaking at WHCC. This will be announced on KMJ. Rove's visit will be advertised in Paso Robles also. Tickets are \$30 in advance. Doors open at 5:00 p.m. with Rove to speak at 6:15 p.m. Seating will be on a first come, first served basis.
- On October 11th there will be an pianist/organist concert at WHCC.

- On October 16th is the Hall of Fame dinner at WHCC. A dedication of the gym will also be held that day.
- Veteran Student Club Association will hold a 9/11 event today (9/9/2010) with lunch provided and Dr. Marlon Hall will be the keynote speaker.

The next meeting is scheduled on October 14, 2010.

Members of your organization understand how the shared governance process works.	3.52	32	

2010 WHCL Evaluation of Policies & Shared Governance Survey

Are there areas of the shared governance process that can be made more productive or effective? Explain.

- Curriculum Committee is very difficult to work in. While the individuals involved understand the process, the rules make it very difficult to implement anything related to curriculum.
- At the end of almost every semester the Board floods the processes with items they want instant answers on thereby circumventing the process. I.e. New or changes policies and procedures.
- All meeting minutes should be posted in the appropriate area on the WHCL website. A current flow chart showing how the shared governance process works with links to the areas on the website where more information can be found would be helpful.
- I don't know if it's considered part of the shared governance process, but I strongly believe that the process by which instructors receive tenure is highly flawed and is in desperate need of reform! Instructors are getting tenured who should NOT be teaching for us!
- The process isn't always followed; this is something we could and should work on.

2010 WHCL Evaluation of Policies & Shared Governance Survey

 1 = Strongly Disagree

Board policy 2510 - Participation in local decision making through the District Council on Student Learning.	Overall Average	Response Count
The District Council on Student Learning serves as an effective communication channel among the colleges and the district office to clarify decisions made regarding programming, staffing, and resources at the college level.	3.70	31
I am familiar with this board policy	3.52	32
Board policy and administrative procedure 2431 - Delineation of Authority to College Presidents and District Chancellor		
Board policy and administrative procedure 2431 clarify the roles and responsibilities of the chancellor and college president in the decision making process.	3.96	31
I am familiar with this board policy.	3.64	32

2010 WHCL Evaluation of Policies & Shared Governance Survey

5 = Strongly Agree
 4 = Agree
 3 = Neutral
 2 = Disagree
 1 = Strongly Disagree

Board policy 3250 - District Strategic Planning	Overall Average	Response Count
The district strategic planning process acknowledges membership and input from the colleges.	4.00	30
I am familiar with this board policy.	3.93	32
The district strategic planning process serves as a guide for strategic planning at the college level.	3.92	30
Board policy 6225 - Resource Allocation		
The resource allocation policy clearly defines the process for distributing fiscal resources among the college campuses and district office.	3.78	30
I am familiar with this board policy.	3.75	32
The resource allocation policy is fair and reasonable.	3.63	31

2010 WHCL Evaluation of Policies & Shared Governance Survey

Do you have any comments regarding the policies mentioned above?

- Yes there is participation. However is recommendation from faculty are routinely disregarded then the process is flawed. Which it is.
- No I do not, but as I previously mentioned, our tenure process is flawed and needs to be fixed so that we can actually build a stronger faculty base.
- No
- You could share the concepts of these policies during duty day as a way to educate all staff, faculty, and administration.

**West Hills Community College District
Strategic Planning
July 14, 2010
Harris Ranch**

**Student Success Workshop
9:00 a.m.-12 noon**

Goals

- **Focus attention and confirm strategies to strengthen WHC's student success culture**
- Briefly review accomplishments since last strategic planning session
- Achieve common definition/understanding of student success
- Engage best thinking of participants
- Understand strategies and related metrics tied to improve student success

Agenda

- Welcome Dr. Gornick
 - What is student success?
 - Why does student success demand our attention?
 - We need your help to strengthen our thinking – as we formulate the most effective strategies, focus attention, and seek to enhance student success.
- Introductions/brief warm up Facilitators/All
- Review of goals and accomplishments - Dr. Gornick, Pedro Avila
 - Scorecard review
 - New metrics related to student success
- Distance Education Trends (opportunities to support student success in a world of reduced resources) Susan Whitener
-
- Break 10 min.
- Facilitated Group Discussions Facilitators/All
 - Identify barriers to student success [informed by IR data]
 - Identify strategies to reduce/eliminate barriers.
 - What should we be doing more of?
 - What should we be doing differently?
 - What should we stop doing?
 - Prioritize student success strategies/goals and refine metrics as appropriate
- Next Steps Facilitators/All
- Close Dr. Gornick

Strategic Planning
July 14, 2010
High School Outreach Workshop
1:00-4:00 p.m.**

Goals

- Focus attention and practical action on increasing the college-going culture among high school students/graduates in the Central Valley
- Sharing the “IS” map—what WHCCD and high schools are doing now to encourage college enrollment in general, and specifically at WHCCD colleges
- Engage best thinking of participants
- Co-create strategies and related metrics to improve student enrollment by area high school graduates at WHCCD colleges

Agenda

- Welcome Dr. Gornick
 - Why education beyond high school is important in today’s world—to students, families, economic development, the Valley
 - WHCCD is a partner with the public schools, helping students to succeed beyond high school; enhanced college attendance and student success is our bottom line goal
 - We are eager to work with you to increase the college-going culture and to encourage confidence in WHCCD colleges as a top choice of your graduates
- Introductions/brief warm up Facilitators/All
- Current high school participation data and Cal Pass Pedro Avila
- What are we currently doing to encourage college attendance?
 - WHC outreach strategies Sylvia Dorsey/Jill Stearns
 - Early Registration for High School Graduates
 - High school strategies High School Principals
- Break
- Facilitated Group Discussions Facilitators/All
 - Identify barriers to college enrollment anywhere and at WHCCD colleges
 - Identify collaborative strategies to reduce/eliminate barriers.
 - What should we be doing more of?
 - What should we be doing differently?
 - What should we stop doing?
 - Prioritize strategies/goals and define metrics
 - Determine how/how often to communicate results/issues
- Next Steps Facilitators/All
- Close Dr. Gornick

**West Hills Community College District
Strategic Planning
July 15, 2010

**Workforce Development Workshop
9:00 a.m.-4:00 p.m.**

Goals

- Identify Strengths and Opportunities that may exist in the Central Valley
- Envision the “new or emerging economy” in the Central Valley
- Identify workforce development requirements for the new economy
- Focus attention and identify practical action steps – by engaging the best thinking of participants
- Co-create strategies to effectively shape the new economy
- Co-create strategies for meeting related workforce development needs

Agenda

- Welcome Dr. Gornick
 - The Central Valley must be prepared to shape and respond to the new economy in order for the region and families to survive and thrive
 - WHCCD and its colleges are strategic partners in planning for and helping to create road maps to provide hope as our economy is transformed
 - We’re partners in workforce development, helping students and businesses to succeed
 - We want to draw on your best thinking today to help envision our economic and workforce future -

- Introductions and Table Discussions Facilitators/All
 - Valley Strengths and Opportunities

- Today’s Central Valley Economy WIB and EDC Experts

- Brief Overview: Current WHCCD Carole Goldsmith
 - Workforce Development Activity

- Working Groups: Trends that will Impact the Future of the Central Valley

- Working Groups: Comparing the current Central Valley Workforce with what will be needed in three to five years

- Working Groups: Workforce Gaps/Needs/Social Consequences

Lunch

WHCCD

Mission

The mission of West Hills Community College District is enhancing student learning and enriching the lives of the populations we serve by:

- Ensuring the vitality of its institutions;
- Encouraging the vision of strong leaders able to see and interpret the present and future needs of students and communities;
- Supporting the colleges in the provision of world class learning environments;
- Providing for appropriate allocation and management of human, fiscal and capital resources.
- Acting as a catalyst for collaboration with outside organizations and agencies; and
- Sharing the story by marketing a positive image.

Vision

West Hills Community College District, a trusted steward, actively engages, encourages, enriches and empowers students, faculty, staff and the communities it serves to reach their full potential (academically, socially and economically) as evidenced by:

- Its status as the preferred choice of students, and the employer of choice for faculty and staff;
- The highest percentage of students completing courses;
- Its recognized excellence; and
- The generally ascribed accolade, "heartbeat of the community."

District Timeline 2008-2009

Aug

- WHCC bid approval for \$10 million for wellness center
- Xtreme Registration at WHCL
- West Hills' enrollment up 20% since previous year

Jan.

- Construction starts on the WHCC gym and wellness complex

Feb.

- West Hills Chancellor Frank Gornick honored at state level

Mar.

- Bridge Out of Poverty conference with guest speaker Ruby Payne
- Valley Fever Forum at WHCC

Sept.

- Noted Author Gary Soto speaks at WHCL
- WHCL trike-a-thon raises funds for St. Jude's Children's Hospital

April

- Phyllis Roberts donates \$25,000 for scholarship endowment.

May

- Vince Motte donates \$12,593 to help fund a new weather station for Coalinga

Oct.

- WHCC 12th Annual Athletic Hall of Fame
- UC Merced Chancellor Sung-Mo "Steve" Kang visits WHCC
- Third Annual WHCL Veterans Appreciation Luncheon

- WHCC and WHCL awarded more than 700 degrees and certificates

Nov.

- School facilities improvement districts approved by local voters providing \$11.6 million for WHCC and \$31 million for WHCL. Firebaugh passed its bond measure June of 2008.

Dec.

- West Hills College wins \$792,920 grant to serve veterans

- Sandy Cavins, the district's longest-term employee, retires after 40 years

West Hills College Coalinga

Mission Statement

To commit college-wide staff and resources to the student learning process. To provide educational, cultural, and economic development opportunities to our current and future students and the local and global communities that we serve.

Vision Statement

West Hills College Coalinga strives to become a premiere interactive learner-centered community college recognized for its contribution to the educational, social, cultural, and economic vitality of the region and the state.

Achieving goals despite economic challenges

The economic challenges of these past few years have not deterred us from achieving our mission. Despite significant budget reductions, our enrollment for 2008-09 was 13 percent higher compared to 2007-08. This is directly attributable to our talented faculty and staff who have found ways to be more efficient and productive with fewer resources to ensure student access and success.

In June 2008, citizens in the northern part of the district passed Measure Q, an \$11.8 million general obligation bond measure. In November 2008, citizens in the Coalinga-Huron area passed Measure C, an \$11.6 million general obligation bond measure. These bond measures will provide resources for facilities improvements that will impact current and future generations.

General obligation bond funds have already made a difference. Significant improvements have been completed at the North District Center in Firebaugh. A facilities planning team has been working with campus architects to design a new building to replace the existing campus center.

Major improvements have also been completed on the Coalinga campus. The men's residence hall (Gordon Hall) received a facelift. Two new relocatable buildings were added to the child development center. Bond funds have been used to assist with the wellness center project (gym renovation and additional 10,000 sf building) and the ag science facility. The wellness center is scheduled for occupancy in the fall 2010.

Providing access to high quality education opportunities for all residents in our service area continues to be the focus of our overall mission. In 2010-11 we will open learning/outreach centers in several of the smaller communities within our service area.

Improvements to institutional effectiveness processes have taken center stage. We are now utilizing measurable outcomes on a regular basis to guide planning and resource allocation decisions. Results from the assessment of performance indicators, program review, and other evaluative processes are being used to make improvements to student learning. The results of some of these assessments can be found at http://www.westhillscollege.com/coalinga/about/governance_planning/college_consultation/index.asp.

Our vision of becoming "a premiere interactive learner-centered community college" continues to guide our efforts in making a difference in the lives of our students and in contributing to the vitality of the communities we serve.

Willard Lewallen
President, West Hills College Coalinga

Grants:

Total grant funding in 2008-09 exceeded \$5 million for WHCC.

President's Scholars:

A total of 22 students received President's Scholars scholarships for 2008-09. This scholarship covers enrollment fees and provides a book allowance each term.

Successful Transfer:

The number of students transferring to four-year institutions in 2008 increased by 58% from 2007.

West Hills College Lemoore

Mission

West Hills College Lemoore enriches the lives of our students and the community we serve by being dedicated to quality educational learning opportunities and partnerships. The college provides a positive environment that is committed to student learning and empowering students to achieve their educational goals.

Vision

Learning Through Excellence and Innovation

WHCL planning for the future with new programs, facilities

The academic years 2008-09 and 2009-10 will have seen extraordinary cuts to community colleges as the result of the state's recent economic downturn. West Hills College Lemoore will have reduced its operating budget by over \$2.2 million while at the same time maintaining its priority and focus on students.

Course offerings were reduced yet we were able to maintain our commitment to general education, basic skills, workforce development, and degree level courses.

With all the reductions to the general fund, WHC Lemoore still celebrated its groundbreaking for the new \$24 million multi-use sports complex that begins phase three of the college's master plan. It is scheduled to open in March 2011.

Our Allied Health program has been able to withstand budget reductions and will expand its offerings with new courses. Highly skilled technical program training will remain a strong demand throughout the state and West Hills is positioned to provide training.

Our newly developed Engineering Scholars Program provides financial support to more students by providing full tuition and books to qualified students. WHCL will play a key role in preparing students for great career opportunities.

All this is just a small list of the many ways West Hills is a leader in providing quality educational opportunities for the communities that we serve. Even in times of great difficulty, with hard work and teamwork, great things can still happen.

West Hills College Lemoore will continue to be a leader in assisting the state to recover from its economic downturn.

Don Warkentin
President, West Hills College Lemoore

Grants:

Total grant funding in 2008-09 exceeded \$3 million for WHCL.

President's Scholars:

A total of 48 students received President's Scholars scholarships for 2008-09. This scholarship covers enrollment fees and provides a book allowance each term.

Successful Transfer:

The number of students transferring to four-year institutions in 2008 increased by 22% from 2007.

Foundation helps students realize dreams

The students at West Hills College are our future. Helping them realize their dreams of a college education will positively impact our communities and enhance the quality of life we appreciate now and in the years ahead.

As a proud member of the foundation board of directors, I've been privileged to work with a dedicated team of individuals who support the students of West Hills through their time, energy, leadership and philanthropy. Our foundation board consists of community members, civic leaders, businesswomen and men and agriculturalists from across our service area who value education and want to expand the higher educational opportunities for our children and local residents.

Special thanks go to three individuals who made substantial gifts to the foundation during 2009. Phyllis Roberts donated \$25,000 for an endowed scholarship at WHCC. Vince Motte contributed \$12,500 to help fund a new weather station at the WHCC Farm of the Future. George Ollikkala donated a substantial art collection to libraries throughout the district. We thank them and the many others who contributed to help our students realize their dream of a college education.

Foundation Mission

The West Hills Community College Foundation enthusiastically engages residents, corporations, foundations and communities of the San Joaquin Valley in financial support and advocacy for the West Hills Community College District. We are entrepreneurial partners with the colleges as we plan and implement programs to build relationships and raise funds.

The Foundation Vision

Our vision is to be a dynamic, legacy organization recognized for:

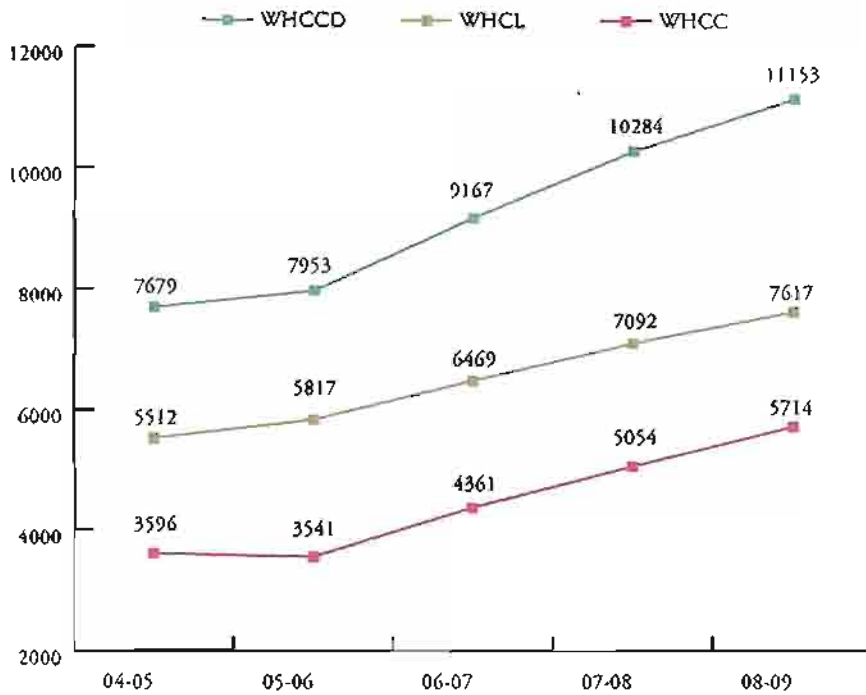

- The Foundation's \$5 million endowment (by 2008),
- 140 new scholarship funds,
- Establishment of a successful "new alumni" fundraising program,
- An effective and engaged board,
- Significant contributions to the "K-16 Dream" (creating a college-going culture among K-12 students) and,
- Sponsorship of cultural, educational and economic development programs.

The Foundation— Guiding Principles

The West Hills Community College Foundation applies the following guiding principles in its conduct of business:

- Advocate for education and its ability to change lives,
- Practice responsible stewardship,
- Maintain respect for others,
- Conduct business in an open and transparent manner,
- Support diversity and inclusiveness,
- Demonstrate reliability and accountability; and
- Exemplify a commitment to serve students and the community

Enrollment

DIALOGUE

A WEST HILLS COLLEGE QUARTERLY

JANUARY 2008

VOL. 10 NO. 1

West Hills College All Class Reunion, Celebrating 75 years

West Hills Community College District will host an all class reunion on Saturday, April 26, 2008, in the West Hills College Coalinga gymnasium from 10 a.m. to 4 p.m.

"We are really excited about the all class reunion," said Barbara Caganich, executive director of the West Hills Community College Foundation. "Our hope is to create an event where individuals affiliated with West Hills can come together and celebrate the history of our district."

The reunion will include tours of the two campuses and the North District Center, Firebaugh, lunch and key note speakers. All West Hills' alumni, faculty, staff and friends are invited to participate in this day of celebrating 75 years of service to the San Joaquin Valley.

Admission to the all class reunion is free. A buffet style lunch will be served. Lunch tickets are on sale now and can be purchased through the West Hills Community College Foundation by calling Karen at (559) 934-2127. There is a discounted price for early bird purchases until Feb. 29, 2008. The last day to purchase lunch tickets is April 11, 2008.

The all class reunion is sponsored by Educational Employees Credit Union, Pepsi and West Hills Community College Foundation.

Coalinga College Class of 1939, graduates pose in front of Coalinga High School, the college's home until 1954

WHCCD Considering School Facility Districts

Making plans for the future is always on the agenda for the West Hills Community College District Board of Trustees and, as one of the fastest growing districts in the state, those plans include new buildings and facilities.

Paying for those new improvements is a challenge that the district is exploring with the help of possible school facility improvement districts, according to Mark McKean, a Riverdale farmer and president of the board.

Essentially, McKean said, a SFID is a designated area of the district where voters decide on a possible tax increase in their area with all funds generated staying in that area.

"At this point," McKean said, "the board is considering creating three SFIDs in WHCCD district—one centered in Firebaugh, another in Lemoore and one in Coalinga."

At its November and December meetings, the board heard presentations by representatives of Dale Scott & Company, a firm from San Francisco specializing in SFIDs.

Ray Giles outlined the process for trustees and presented a timeline for actions that would take the district up to a June 8, 2008, election.

McKean said that if the SFID method is pursued, the district would probably place the measure on the Firebaugh/Mendota area ballot first. If approved at a projected tax rate of \$18.75 per \$100,000 of assessed valuation, the district could raise \$12 million. That money would be used for a local match, which would probably be combined with State higher education bond monies to provide \$36 million for construction at the North District Center, Firebaugh and in other communities in the area.

The board heard additional information at its December meeting from Jon Isom from Dale Scott but no action was taken. Board members asked for additional information from Isom.

Mark McKean, Riverdale farmer and president of the WHCCD board

Stratford Women Share Journey to Become Teachers

Four Stratford women have an exceptional, and emotional, tale to tell about their road to becoming teachers for the Reef-Sunset School District, which serves Avenal and Kerleman City.

Zariana Camacho, Rafaela Llamas, Adelina Mora and Christina Meza are all neighbors and related not just by blood and marriage but also by their voyage to become teachers—a voyage with a send off that they attribute to Tom Hewitt, the now-retired principal at Stratford Elementary School where they all worked as teachers' aides.

A fifth woman, Cynthia Mora, is mid-way through the process of becoming a teacher and is a close part of the group.

Rafaela, the first to begin the journey, was working as an aide when Mr. Hewitt encouraged her to apply for a Kings County para-professional program that would pay all college expenses for her to become a teacher.

With two young children and a husband who counted on her being available, she was hesitant—but Mr. Hewitt persisted. She enrolled in classes at West Hills College Lemoore, found success in the education classes taught by James Preston and the rest is history—repeated four more times.

Adelina was next. She missed the deadline for applying for the para-professional program and Mr. Hewitt reminded her the following application cycle.

She, the group contends, is the rock. Through the tough times of dealing with marriages, small children, working long hours in two and sometimes three jobs at a time, Adelina was the shoulder to cry on, the person who took extra notes, or the one who drove them when they had car trouble.

"No matter how tired she was," Rafaela says, "she was always there for us."

She was also the least confident that she could succeed in college.

"I knew I wanted to be a teacher but I didn't think I could do it," she said. "I took classes right out of high school and I didn't succeed."

But succeed she did.

She said she kept hearing about this Mr. Preston. "Mr. Preston did this and Mr. Preston did that. I didn't think I was ever going to be able to take a class from him because I worked mornings when he taught."

But Mr. Hewitt stepped in and allowed her the flexibility to take a class from Mr. Preston and she joined the chorus of Mr. Preston's singers of praise.

Mr. Hewitt held graduation parties for the women and even sent them money when times were tough.

"I couldn't quit because of Mr. Hewitt," Adelina said.

Zariana says she always knew she wanted to be a teacher.

"My grandmother was a teacher in Mexico," she says. Now her son aspires to be an astronaut and she tells him that college makes anything possible.

Stratford teachers (l. to r.) Zariana Camacho, Cynthia Mora, Rafaela Llamas, Adelina Mora and Christina Meza.

Christina, the quietest of the group, says that she and her friends are now giving back some of what they got.

"Our teachers cared about us. They stayed in touch. We became a family and now it's time to give some of that back."

"We knew we were going to be good teachers because we cared so much. We are so much more than teachers out in that community (Avenal). It feels good to be that way."

"We love the kids and the community. The parents are appreciative. We understand them because we came from the same place—our parents were low income farm workers. We want to give back."

Cynthia, the youngest in the group, is now enrolled in an 18-month liberal arts program offered by Fresno Pacific University on the campus of West Hills

College Lemoore. No surprise. Mr. Preston told her about it.

"My goal was to go to Chico State," she says. She did go to San Francisco State for a while but came back to Stratford. After all, it's home. And it's where her sister, Adelina; her sister-in-law Zariana and her cousin, Christina, are all there to support her in her quest to be a teacher.

Spring semester classes start Jan. 14th—enroll today

A new semester kicks off Monday, January 14th, at West Hills College but there's still time to apply for admission and enroll in classes.

The district website, westhillscollege.com, offers 24/7 service to students including admissions applications, college catalogs and class schedules.

For those who need a more personal touch, Xtreme Registration is planned for Friday, Jan. 11th from 6 p.m. to midnight at West Hills College Lemoore. Faculty and staff members will be on hand to assist students with the enrollment process and counselors and advising specialists will meet with students on a first come/first serve basis. Placement tests will also be given that night.

This will be the third Xtreme Registration event at WHCL. As with the previous two, food and entertainment will also be featured along with a host of prizes including iPods, gift certificates and pen drives.

Comedian Phil Van Tee will appear at 7:30 and 9:30 p.m.

Discover the enriching experience of learning and improve your Spanish in

ng a Difference

h "There is potential within every human being. We should teach this."

He talks of dealing with troubled students on a daily basis and using the words of the code to empower them and give them hope for a better future.

"I saw dead bodies as I walked to school in Harlem," he adds, "and I had students recite the code."

His Coalinga students are also challenged with hurdles in life. On a daily basis, he says, he tries to help students whose families are impacted by drugs and alcohol, physical abuse and poverty.

"There is potential within every human being," he says, noting that his Delano's Code is a foundation for teaching. "Our job is to inspire students and plant seeds. It's wonderful to have your students surpass you."

Notes from current and former students give a hint of his gift in the classroom.

"I want to tell you thank you for being such a great teacher and encouraging me to be better than I thought I could be...I hope your students value the rare instruction they are receiving from you."-Avril, now a Ph.D. student at the University of Memphis who is taking courses on Kant's Critique of Pure Reason, Global Ethics and Plato's Republic.

"Thank you for giving us the ability to feel like an adult, and for everything you are teaching us,"-Amber.

But Delano claims to be no different from his peers.

"I can't differentiate myself from other members of the staff (at Coalinga High School). They have energy, a love of learning, depth to their study and they pursue excellence."

Abel Camarena remembers the 60s at WHCC

to New Mexico in 1994, he served for six rvisor of Gila National Forest, one of the yest and most scenic year-round recreation famous for being the home of Apache leader

He started his current assignment in the regional Forest Service office in 2000 and plans to continue to live in the area after retirement.

"New Mexico has become our home," he said, "but we have seven grandchildren and spend time with them in Tucson and Mesa, Arizona."

Camarena said they also frequently visit the San Joaquin Valley. His mother, Mary Nevarez, lives in

Lemoore now and Kathryn's parents, Mary Lou and Hillis Chase, live in Hanford.

And he also plans to pursue his musical passion. He's taken up fiddling and looks forward to taking his talent to shut-ins in nursing homes.

And then there are the "his and hers" motorcycles.

"There are lots of open roads," he says of New Mexico.

West Hills provided a good launching ground for

Abel Camarena Hard work and determination have taken him over many miles in a career of public service. Retirement offers new adventures.

"Once you go here, you can go anywhere," has certainly held true.

Enjoy Small College Atmosphere

government leadership team at West Hills College: Coalings and they represent a group that is becoming

a little older than most of the 120 WHCC international students but their ages reflect the average local of education," Jozef says.

st friend, Frank Sjoberg, who graduated from WHCC and is a now a student at the University of sint there.

says. "Being involved with associated student body, planning events, making new friends, meeting new

s like the saying (Once you go here, you can go anywhere), says, "I'm ready for the next step."

Future of Special Needs Children is WHCL Workshop Topic

Planning for the future of special needs children will be the topic of a workshop at West Hills College Lemoore on Saturday Feb. 23rd from 9 a.m. until noon. Sylvia Dorsey-Robinson, associate dean at WHCL, says that the workshop is aimed at parents of children who are disabled.

The six topic areas that will be discussed are:

1. Overview of government benefits
2. Future planning including government benefits and eligibility for SSI and Medi-Cal
3. Legal aspects including wills, trusts, probate, guardianship, special needs trusts and conservatorship, client self-determination and advocacy issues
4. Financial aspects including housing needs and appropriate funding vehicles to guarantee quality of life
5. Guardian ad litem/letter of intent.
6. How to get started and the process.

Guest speaker at the event will be Helen Kim Bass, a financial representative with New England Financial and the mother of a special needs child.

With more than 20 years experience in the financial services industry, Bass is a specialist for MetLife's Division of Estate Planning for Special Kids. Her work with the special needs community stems from a traumatic brain injury to her youngest child, Daniel, in 1986.

To RSVP for the free workshop, contact Elva Torrez at (559) 924-3333. Reservations are limited to 100 people.

New AOJ Course Helps Students Identify Careers

Troy Holsonbake, AOJ Instructor

Beyond the Badge—a new administration of justice class (AOJ 12) at West Hills College has been designed to help students identify career opportunities in law enforcement, according to AOJ instructor Troy Holsonbake.

"Basically it is an introductory course set up for students coming into AOJ who don't have the slightest idea about the many different fields and the jobs within those fields that are available," he said. "The main objective is to have a student identify a position in an agency or area that interests them and map out the path to obtaining that goal. Whether that position is a

head cook supervisor in a maximum security prison or a sniper/spotter on the Secret Service's Counter Sniper Team, I want the student to understand they can achieve their goal, their "dream job." All they need is a determined mind, the right training and education, and the will to see it through.

"Sometimes, students are told by friends, family and advisors that they need to complete A, B, and C in order to do a certain job when in actuality the job requirements have changed. I am hoping this course will start them in the right direction and give them a plan and a contact person.

"I wish I had been given access to a class like this when I went through college," Holsonbake concluded.

For spring semester, the class will be offered in Coalinga, online and at WHC centers in Firebaugh and at Naval Air Station Lemoore.

For details visit the class schedule at westhillscollge.com.

NEWS AND NOTES

Skyler Norris, was named to the 2007 JC Grid-Wire Academic All-American Football Team. This is the 11th year in a row WHCC has had at least one player named to the team. Skyler was also the "Dick Woodson Academic Champion" this year for WHCC.

North District Center, Firebaugh hosts a new automated teller machine operated by Educational Employees Credit Union. WHC students now access their financial aid through debit cards at EECU and the ATM offers a full range of services to community members. Similar machines are in operation on the campuses of WHCC and WHCL.

WHCL's wrestling team finished 12th in the state in only their second year of competition. Bret Land was fourth at 133 pounds and Matt Garcia was fourth at 184 pounds.

Both qualified as All-Americans. John Newson was seventh at heavyweight.

Team members are (front row, l. to r.) Brett Land, Ramon Cabrera, Johnny Coronado,

Daniel Navarro, Luis Perez, Vincent Uribe. (middle row) Jonathan Luna, Matt Garcia,

Josh Newman, T.J. Weil, Michael Henderson, Mitchell Morales. (back row) Asst. Coach Justin McLeod,

Armando Gomez, Leonard Brown, Derek Sanchez, Adam Taylor, Asst. Coach Jim Macedo and Head Coach Kent

Olson. Not pictured is team member Mike Adams.

Not Everything is Pink *By Andres Zamudio*

Not everything is pink for the girls of our small communities. Just ask Laura, a young lady who just finished high school last June. Laura's difficult situation is rather singular, but no less adverse than what other girls are going through: teenage pregnancy, drugs, etc.

It is difficult for me to see that our small communities (communities that any stranger would think of as close and united) face very similar problems as those of the big city. But we can solve them; at least we try.

Laura has had to face a twofold crisis: her family and herself. On one hand, her father, a relatively young man in his 40s, is on disability and cannot work. Physical impotency can make a man explode, and such tension can fragment his family and kids.

On the other hand, now that Laura has finished high school she has to think of the unknown future. She has to think about what she must do and what she wants to do. She can do what many others do-- find a part time job, take it easy at the college and find a significant other to walk with at the park.

Laura has no time for all these. She has to help out with the finances of the family and the rest of the kids. And most importantly, Laura wants to be a children's physical therapist. A long way to go, no doubt about it, but not impossible either.

All of us at Workforce Connection know that Laura has a strong character and can strive to reach her goal. But how can someone do such a thing without being indifferent to her immediate family needs? In all honesty, I do not know. What I do

Andres Zamudio and Laura Montaño

know is that Laura can take one step at a time and start at West Hills College where plenty of people will help her.

Her personal situation is difficult. I know Laura. She's a great person. We'll see what we can do for her. But only she can make her dream come true.

No todo es color de rosa

Así es, no todo es color de rosa para las niñas de nuestras pequeñas comunidades. Basta con preguntarle a Laura, una chica que recién terminó la High School en junio. El difícil caso de Laura es muy singular pero no menos adverso al de las otras niñas, quienes a sus escasos 15 años de edad resultan embarazadas o adictas a las drogas. Caray, me

West Hills College Workforce Connection team includes (from row, 1. to r.) Omar Mendoza, Ana Espinoza, April Chavarria, Mary Ann Rodgers, Maria Bernal. (back row) Robert Pimentel, Andres Zamudio, Jahel Esparz and Gerardo "Jerry" Escalante

resulta difícil saber que en nuestras pequeñas comunidades (que cualquier extraño pensaría muy unidas) tenemos los problemas de las grandes ciudades. Pero también podemos darles solución.

Sigamos hablando de Laura. Ella más bien ha tenido que enfrentarse a una crisis familiar y personal. Por una parte su papá, un hombre relativamente joven de no más de 50 años de edad, se encuentra deshabilitado y por lo tanto no puede trabajar como algún día lo habrá hecho. Estos casos no son nada fáciles, cobran un caro saldo a las familias afectadas. La tensión de la impotencia física a menudo explota y sobrevienen los problemas familiares que tanto fragmentan a los hijos. Por otra parte la incertidumbre después de terminar algo, en este caso la escuela, ahora tiene a Laura pensando en lo que debe y quiere hacer con su vida. Se puede hacer lo que medio mundo hace: buscarse un trabajo de medio turno, sobrevolar los estudios en el Colegio y buscarse por allí una parejita con quien salir a pasear por las tardes.

Laura no tiene tiempo para todo esto. Tiene que aportar dinero para los gastos de la familia pues hay hermanitos que mantener. Aparte del deber Laura también tiene un sueño: quiere estudiar terapia física infantil. Sin duda alguna un largo camino por recorrer, pero no imposible. Nosotros los que trabajamos para Workforce Connection sabemos que Laura tiene el carácter y empeño para lograr su meta. ¿Cómo hacer tal cosa a pesar de

tanta dificultad, a pesar de no poder ser indiferente a las necesidades inmediatas de su familia? Pues yo no lo sé. Lo que sí sé es que Laura puede empezar el camino académico en West Hills College y dar un paso a la vez.

Es obvio que su actual situación familiar y personal es adversa. Yo en lo personal no creo en esa frase que dice que lo que no te mata te hace más fuerte. La persona humana ya es fuerte en tanto que es persona, simplemente tiene que vivir condiciones adversas que no hacen otra cosa más que humanizar. Conozco a Laura y sé que ella es un gran ser humano.

Editor's note: Andres Zamudio is a graduate of West Hills and Fresno Pacific University. He is now studying at Jesuit University, Guadalajara, Mexico, working on master's degrees in philosophy and social sciences. During vacations, he is a part of the Workforce Connection staff at West Hills College.

Celebrating 75 Years—A Profile of Students from the Past

Prii Patel is living an American dream. Born in London, the young woman arrived in Coalinga in 1987 when her parents, natives of South Africa, were hired to manage the Royal Lodge in Coalinga.

Prii, who considers Coalinga her second home, graduated from West Hills College in 1998 with an AA in liberal studies. She transferred to Fresno State and then to the University of California, San Francisco (UCSF).

The daughter of a family that treasures education, she completed a doctorate in pharmacy at UCSF in May 2004, and then did a one-year pharmacy residency at the Lucile Packard Children's Hospital at the Stanford Medical Center in pediatrics. She then took a position as a pediatrics clinical specialist pharmacist at Kaiser Permanente in Oakland.

Even with the specialized training in an exciting field, the Coalinga woman credits WHCC with part of her success. "I had a great time at West Hills and obtained an excellent education— an

education that enabled me to be successful at Fresno State and UCSF."

Prii attended West Hills College Coalinga during a time, she remembers, "when programs were expanding,

Prii Patel

the college was on the upswing. The sports programs were back and there was a lot of construction on campus, but the library and other major buildings were in place."

"One of these days I'll take the time to return to see what the campus looks like now and to see the new campus in Lemoore."

"The instructors at West Hills are dedicated and care about their students," Prii said. "Much of the instruction was one-on-one which provided the essential tools for a student to thrive and succeed. In addition

to the classroom, I had the opportunity to be a tutorial

specialist for Upward Bound and as a tutor helping high school students with their classes and providing motivation to obtain a college education."

Some of the instructors Prii remembered as outstanding included Dave Bolt, now vice president of educational services for West Hills College Lemoore; Mary Forth, retired sociology instructor; the late Dr. Bob Holmes, chemistry; the late Norine Oliver, poly sci and history; David Hedgecock, geography and Dr. Jeff Vaughn, retired humanities instructor. She also mentioned counselors Saundra McGloshlin, in Coalinga and Maria Henderickson, in Lemoore.

Apparently Prii's love of teaching continues as she holds an adjunct professor's position with the Thomas J. Long School of Pharmacy and Health Sciences at the University of the Pacific and works with pharmacy students as a preceptor.

Prii, now 28 and engaged to a fellow professional in Cleveland, Ohio, said she would pick West Hills College once again to start her path to her profession.

"Yes, I definitely would start with West Hills and I would continue to push younger people into getting an education— it's the key to a successful future. Education provides you with the essential skills and training to achieve your goals."

The young woman currently enjoys running, hiking, snowboarding and traveling, but deep down it seems that somewhere in her future the love of teaching — perhaps started with her mentors at West Hills — will move her back into the classroom.

WEST HILLS COLLEGE LEMOORE

Friday, January 11, 2008

Xtreme Registration

6:00 p.m. to 12:00 a.m.

- ◆ Comedian Phil Van Tee, show times 7:30 and 9:30

Don Warkentin, President

The meeting began at 2:14 p.m.

1. Accountability Report Community Colleges (ARCC)

Dave Bolt stated that this report (ARCC) comes from the State Chancellor's Office. It compares the CA Community Colleges. WHC Lemoore is above in some areas and below in some areas. Yearly we are asked to review our ARCC data. Mr. Bolt distributed copies of the ARCC 2009 College Self-Assessment/Response and the ARCC 2010 Report and made review of each. The report reflects data collected one year in arrears. The fact that we are a new college, we only have WHCL data for recent years to compare to data that was collected as a district. This has created a problem. Page 3 shows enrollment patterns, FTES generated and demographics. Peer grouping on page 5 is how we compare to others: Fresno City, College of Sequoias, Modesto, Merced, Porterville, and Taft. For each indicator the groups slightly change. The peer group average is 74% and we have 66.3%. The highest is 77.5%. We have to deal with the fact that we are the lowest in our peer group and decide what our plan is to

become higher. We may need to look at how we drop students and/or how to retain them. Jameson Birrell stated that he would like to see some policies. We have an early alert system and it needs to be used. We look at the success rates of our vocational classes and also look at the patterns. One program that had issues was Open Entry and this year we changed it. The 2009-2010 report may show a better result due to this. The faculty also analyzed the problems in their program review as a solution. There have been problems with sections in AOJ, specifically, students would take the firearms class but did not own a gun and they would drop out. Instruction had to buy fire arms. A narrative will be prepared to explain page 5. There are 3 levels of vocational education. CWEE has separate sections for each. Mr. Bolt stated that he likes to see each section broken out. Jameson Birrell asked how we compare with outside peer groups throughout the state. Is Basic Skills both English and math and what's an improvement rate? Pedro Avila stated that ESL has a much higher success rate. Coalinga has a large ESL class and we do not. The ESL success rate is 80-90%. Pedro is not favorable of the way this is calculated. The improvement rate is how they check by following the student over a 3 yr. period. James Preston asked if the English faculty could receive a breakdown. Pedro responded that these are reflected in the performance indicators. Math 61 is now considered basic skills. The report comes from the chancellor's office due to a requirement by the California Department of Finance. Stephanie Droker stated that she noticed that retention is not addressed on this report. Low retention impacts success rates. Retention defined is the percent of students who remain in class after census week.

2. Performance Indicators

Mr. Warkentin announced that our performance indicators are mapped back to our mission statement. Performance indicators are a way to measure and link to our goals. There is a lot of redundancy with the ARCC report. Goal 1 deals with quality education. We keep an eye on a percentage of population by city. Fluctuation might be demographic differences in each community. Part of it is out of our control. When we get to the 2010 census data this will reveal the accuracy of the data. This is mapped back to our educational plan, student equity, place, etc. Does it pick up the population who do not live in the city? It is tracked by zip code. These are reference points to keep in mind as compared to other colleges. Goal 1.b looks at high school graduates. The data is one yr. behind. 1.c looks at success and retention rates. We have a large online program

which drives down our success rate. Persistence is defined as what percentage of students returns from fall to fall; we have declined. Spring semester starting students are not traditional students so we want to compare apples to apples. Goal 2 breaks out changes made in basic skills that have had a positive impact, specifically on retention. ESL is a lot higher. Goal 2d reflects degrees and certificates conferred which has gone down and it is suspected it will go down more for the next year. This is something to monitor. Goal 2d refers to transfers to four-year institutions. Bob Clement asked how we know where students transfer. Pedro Avila responded that the info comes from the national data warehouse; they provide GPA and the student's major. 2e reflects the results of a national survey and a benchmark in 2007-08. We did very well. The benchmark was composed of over 500 community colleges across the nation. Stephanie Droker asked why the difference in 2007-08 could be the benchmark moved. We had very few underperforming questions from the 2007. One underperforming was Tutoring. These are use of service questions and customer satisfaction. The survey is on the portal on the program review team site. Goal 3: Even though there was a reduction in sections we generated more FTE. We had two sections of math generate 30 FTES, we cut to one and saved ½ and still kept enrollment. Bob Hall questioned if there is a problem if FTES increase with less money if the state would cut us back. We now have to grow FTE again. Student Services has to be funded and they do not cause FTES but are needed for services to support Instruction. Goals 3c refers to nearly \$5million in grants generated last year. 3d is revenue generated by outside capital and it is carry over money. MAA for 08-09 only reflects on the 1st quarter check. Overall we are doing good. Two areas of focus are: outreach & vocational classes.

3. Mission Statement

Mr. Warkentin stated that we need to look at our mission statement and if we feel it is still relevant it will go to the Planning and Governance Council (PGC) and then Board of Trustees. All were in consensus; the WHCL mission statement is relevant as is. It will be on the PGC and Board agendas for approval.

4. Institutional Effectiveness Calendar

Mr. Warkentin explained that this is a planning calendar as a matter of record outlining when various actions are to be taken toward institutional effectiveness, including some regulated reports, i.e. WASC report, etc.

5. Other

David Babb review the SLO's

Counseling: Represents IS and NC courses. David does not know who teaches this. If there is a course that is not taught then David recommends inactivating it. Who do we talk to about getting portal training? . Tom Robb can assist with portal concerns. This can be done with flows through the portal.

Don reported that at the recent board retreat Barbara Beno touched on SLO's. When we have our visit we need to show evidence that we have gone through one cycle of SLO's. If we cannot show this then we will have a follow-up visit. Many courses are taught by adjuncts and he believes learning areas need to determine when they are done. Courses not taught cannot be assessed, i.e. Political Science and Psych are taught by adjunct. If adjunct instructors are teaching the same learning area as full-time then the adjunct can join in to work on SLO's. Stephanie Droker is willing to write SLO's for Political Science courses that are needed. Submission will soon be made through the portal.

Program reviews show sustainable quality improvement.

NON-INSTRUCTIONAL PROGRAM REVIEW
West Hills College Lemoore

I. General Information

- A. Non-Instructional Program: _____
- B. List of Full Time Program Faculty and Staff:

II. Program Overview

- A. State the program mission. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. The program mission must align with the college's mission and goals. *(200 word limit)*
- B. List any recommendations from the most recent college/program/department accreditation and/or previous review. *(250 words or less)*
- C. Identify all personnel, including the number of certificated, classified professionals and volunteers.

Employee Classification:

Certificated _____ Classified Professional _____ Volunteer _____
Student Workers _____

Diversity (Race/Ethnicity)

- | | |
|---|--|
| <input type="checkbox"/> Native Am. /Alaskan Nat. | <input type="checkbox"/> African/African-American/Non-Hispanic |
| <input type="checkbox"/> Asian/Pacific Islander | <input type="checkbox"/> Caucasian/Non-Hispanic |
| <input type="checkbox"/> Hispanic | <input type="checkbox"/> Filipino |
| <input type="checkbox"/> Mixed | |

III. Qualitative and Quantitative Data Review

- A. Attach dashboard statistics here.
- B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific course/program/service. *(250 words or less)*
- C. Attach any other data maintained by your program or at the division level: (e.g. budget information regarding costs per program on personnel, equipment, supplies, delivery of services)
- D. What resources are required to maintain the program, and what additional resources are necessary to improve or expand it?

IV. Professional Development

- A. What professional development activities have faculty participated in? Have any of these professional development activities been technology related? Please specify.
- B. Relate how the professional development activities have improved student learning outcome attainment.
- C. Describe the program's plans for staff development over the next four years.

V. Curriculum and Student Learning Outcomes

- A. List your Non-Instructional Program-Level Student Learning Outcomes.
 - 1. Have any Non-Instructional Program-Level Student Learning Outcomes been changed from the previous program review? What are the changes? Attach documentation.
 - 2. Describe the assessment used to improve student learning. Cite a specific example.
- B. Explain how Non-Instructional Program-Level Student Learning Outcomes are used to measure quality and success of this department/service area.
- C. To what extent is technology being used in the program?
- D. How does the program ensure that current delivery of service is adequately meeting the needs of students?
- E. State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).
- F. Comment on how the success rate compares to the success rate of the same program at other colleges in the region. *(250 words or less)*
- G. Excluding curriculum validation, discuss community involvement in the program.
- H. Do special accreditations, external regulations, or advisory committees regulate the program? Yes No (if yes, list)
- I. Does the program have any special regulations, space requirements, staff training, etc.? Yes No (if yes, elaborate)
- J. Is there evidence of unmet student needs in the program? Yes No (if yes, elaborate)

- K. Describe the initiatives the program has implemented to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical, mental disabilities, re-entry, gender, etc.)
- L. Discuss the program's use of external funding, including grants, if applicable.

VI. Summary and Recommendations

- A. What actions have been taken to address the assessment and improvements of program learning outcomes?
- B. Based on analysis of the information provided in I through VII, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.
 - 1. Program strengths
 - 2. Areas that need improvement
 - 3. Strategies and actions for program enhancement and improvement.
- C. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

Revised: 4/10

INSTRUCTIONAL PROGRAM REVIEW
West Hills College Lemoore

I. General Information

- A. Instructional Program: _____
B. List of Full Time Program Faculty and Staff:

II. Program Overview

- A. State the program mission. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. The program mission must align with the college's mission and goals. *(200 word limit)*
- B. List any recommendations from the most recent college/program/department accreditation and/or previous review. *(250 words or less)*
- C. Identify all personnel, including the number of certificated, classified professionals and volunteers.

Employee Classification:

Certificated _____ Classified Professional _____ Volunteer _____
Student Workers _____

Diversity (Race/Ethnicity)

- | | |
|---|--|
| <input type="checkbox"/> Native Am. /Alaskan Nat. | <input type="checkbox"/> African/African-American/Non-Hispanic |
| <input type="checkbox"/> Asian/Pacific Islander | <input type="checkbox"/> Caucasian/Non-Hispanic |
| <input type="checkbox"/> Hispanic | <input type="checkbox"/> Filipino |
| <input type="checkbox"/> Mixed | |

III. Qualitative and Quantitative Data Review

- A. Attach dashboard statistics here.
- B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific program. *(250 words or less)*
- C. Attach any other data maintained by your program or at the division level: (e.g. budget information regarding costs per program on personnel, equipment, supplies, delivery of services).
- D. What resources are required to maintain the program, and what additional resources are necessary to improve or expand it?

IV. Professional Development

- A. What professional development activities have faculty participated in? Have any of these professional development activities been technology related? Please specify.
- B. Relate how the professional development activities have improved student learning outcome attainment.
- C. Describe the program's plans for staff development over the next four years.

V. Curriculum and Student Learning Outcomes

- A. List your Instructional Program-Level Student Learning Outcomes.
 - 1. Have any Instructional Program-Level Student Learning Outcomes been changed from the completion of the previous program review? What are the changes? Attach documentation.
 - 2. Describe the assessment used to improve student learning. Cite a specific example.
- B. Explain how Instructional Program-Level Student Learning Outcomes are used to measure quality and success of this department/service area.
- C. Review course outlines and prerequisites. List all courses that apply to this program requiring a five-year course outline review.
 - 1. Describe the curriculum changes anticipated in the next two years. (These changes would include major course revisions, deletions, new courses, revised or new options within a program, or a proposed new program).
- D. To what extent is technology being used in the program?
- E. How does the program ensure that the current curriculum is adequately meeting the needs of the students?

VI. Career Technical Education Only

- A. Does your program result in providing licensing or certification to its program graduates which will enhance opportunities for employment? If yes, list.
- B. Discuss the opportunities available to students who plan to transfer to an institution of higher learning.
- C. Discuss the effectiveness of your program in terms of:
 - 1. Entry-level job placement as a result of training.

2. Effectiveness of continuing education to meet the need for advanced training and/or training in emerging technologies.
 3. State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).
 4. Comment on how the success rate compares to the success rate of the same program at other colleges in the region. *(250 words or less)*
- D. What would be the preferred sequence of courses to be taken to achieve your program's goal of a degree or certificate?
- E. How does the program ensure that the current curriculum is adequately meeting the needs of students?
- F. Excluding curriculum validation, discuss community involvement in the program.
- G. List any special accreditations, external regulations, or advisory committees that have oversight to your program.
- H. List any special regulations, space requirements, staff training, etc. required by your program.
- I. List any program initiatives to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical, mental disabilities, re-entry, gender, etc.).
- H. Discuss the program's use of external funding, including grants, if applicable.

VII. Summary and Recommendations

- A. Based on analysis of the information provided in Sections I through VI above, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.
1. Program strengths:
 2. Areas that need improvement:
 3. Strategies and actions for program enhancement and improvement:
- B. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

1.

We are evaluating the Library/Learning Resources Center and its website in order to provide you with the best services. Please take a few minutes to complete this survey. Thank you.

*** 1. Which of the following best describes you?**

- West Hills College-Lemoore (WHCL) student
- University Charter School student
- Middle College High School student
- Faculty
- Staff
- Member of the Community

*** 2. How often do you visit the WHCL Library/Learning Resource Center on campus?**

- Daily
- Two or more times per week
- Once a week
- Once a month
- Once or twice throughout the semester
- Never

*** 3. Please check all the reasons you visit the Library/Learning Resource Center in person. (Check ALL that apply)**

- | | |
|---|---|
| <input type="checkbox"/> Checkout, renew, or return library materials | <input type="checkbox"/> Use Internet for recreation (myspace/YouTube, games, etc.) |
| <input type="checkbox"/> Checkout a DVD or VHS | <input type="checkbox"/> Use study rooms for group work |
| <input type="checkbox"/> Checkout a laptop | <input type="checkbox"/> Use Disability Services Lab (OSPS) |
| <input type="checkbox"/> Use a Reserved Textbook or course material | <input type="checkbox"/> Use English Lab |
| <input type="checkbox"/> Access electronic databases | <input type="checkbox"/> See a tutor or tutor someone |
| <input type="checkbox"/> Access electronic books | <input type="checkbox"/> Get research assistance from library staff |

Copying and printing assistance.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Processing of student ID cards.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

*** 9. Do you feel students should be able to use computers for:**

	Yes	No
Myspace	<input type="radio"/>	<input type="radio"/>
Gaming	<input type="radio"/>	<input type="radio"/>
YouTube	<input type="radio"/>	<input type="radio"/>
Other recreational sites	<input type="radio"/>	<input type="radio"/>

*** 10. Have you received a Library/Learning Resource Center orientation in any of your classes?**

Yes

No

*** 11. If you received an orientation, did it fully explain the resources available?**

- Yes
- No
- Not applicable

*** 12. In general, how do you rank the WHCL Library/Learning Resource Center?**

- Very satisfied
- Satisfied
- Neutral
- Dissatisfied
- Very Dissatisfied
- Does Not Apply

13. (FACULTY ONLY) How satisfied are you that your students are having their information needs met by the Library/Learning Resource Center?

- Very satisfied
- Satisfied
- Neutral
- Dissatisfied
- Very Dissatisfied
- Does Not Apply

*** 14. Please describe your feelings about the Library/Learning Resource Center Website?**

- Easy to use, with useful information.
- Useful information, somewhat difficult to navigate
- Not very useful
- Very difficult to use

15. Do you have any questions or suggestions for the Library/Learning Resource Center to serve you better?

Board Policy 2410 Policy and Administrative Procedure

Reference: *Education Code Section 70902; Accreditation Standard IV.B.1.b and e*

The Board may adopt such policies as are authorized by law or determined by the Board to be necessary for the efficient operation of the District. Board policies are intended to be statements of intent by the Board on a specific issue within its subject matter jurisdiction.

The policies have been written to be consistent with provisions of law, but do not encompass all laws relating to district activities. All district employees are expected to know of and observe all provisions of law pertinent to their job responsibilities.

Policies of the Board may be adopted, revised, added to or amended at any regular board meeting by a majority vote. Proposed changes or additions shall be introduced not less than one regular meeting prior to the meeting at which action is recommended.

Administrative procedures are to be issued by the Chancellor as statements of method to be used in implementing Board Policy. Such administrative procedures shall be consistent with the intent of Board Policy. Administrative procedures may be revised as deemed necessary by the Chancellor.

The Chancellor shall, annually, provide each member of the Board with copies of the policies and administrative procedures or any revisions since the last time they were provided. The Board reserves the right to direct revisions of the administrative procedures should they, in the Board's judgment, be inconsistent with the Board's own policies.

All policies and administrative procedures shall be readily available through the Chancellor's Office and/or the District website.

Board approval date: 9/23/03

Revisions approved by the Board: 3/7/06

Administrative Procedure 2410 Policy and Administrative Procedure

Reference: *Education Code Section 70902*

Board Policies and Administrative Procedures are regularly reviewed by the Chancellor's Office. The Chancellor makes recommendations to the Board of Trustees concerning revisions to existing policies and procedures or the development of new policies and procedures to ensure that they are current and comply with state and federal laws.

Any employee, student, or member of the public may initiate a review or development of any policy or procedure by submitting a request or recommendation in writing to the Chancellor's Office.

Review and Approval Process

Upon receipt of the request or recommendation, the Chancellor's Office may refer to the Community College League's Policy and Procedure Service for recommended or legally advised language. The Chancellor's Office may also use the Policy and Procedure listserv to query other districts for related Board Policies or Administrative Procedures. In some instances, the Chancellor's Office may request that legal counsel review the policy or procedure language. Other employees with expertise in specific areas governed by a Board Policy or Administrative Procedure may also be consulted during the review process.

After initial review by the Chancellor's Office, the policy and/or procedure will be routed to the supervisor, manager or Dean of the appropriate department, if applicable, for review (i.e. Student Services, Human Resources, Business Office, etc.). Following the applicable review, the policy and/or procedure will be routed as follows:

1. Policy and/or procedure to be reviewed and discussed by the Chancellor's Executive Cabinet.
2. After review by the Chancellor's Executive Cabinet, the policy and/or procedure will be sent to the College Consultation Council (CCC) at West Hills College Coalinga and the Planning and Governance Council (PGC) at West Hills College Lemoore (through the College Presidents) for review and approval, if applicable. Simultaneously, the policy and/or procedure will be sent to the Academic Senate Presidents and the Faculty Association President as a courtesy.
3. Review and approval by the Academic Senate Presidents will be requested only if the policy and/or procedure deal(s) with academic and professional matters. Review and approval by the Faculty Association President will only be requested if the policy and/or procedure has or will have a significant effect on faculty.
4. After review by the CCC and the PGC, any comments, recommendations or actions taken with regard to the policy and/or procedure shall be sent to the Chancellor's Office by the College Presidents.

Administrative Procedure 2410 Policy and Administrative Procedure

5. In the case of review and approval by the Academic Senate Presidents or Faculty Association President, any comments, recommendations or actions taken with regard to the policy and/or procedure shall be sent to the Chancellor's Office by the individuals serving in those capacities. As a courtesy, the comments, recommendations or actions taken should also be sent to the College Presidents.
6. The Chancellor's Office will take the policy and/or procedure to the District Leadership Council (DLC) for review and approval.
7. After DLC review, and upon final review by the Chancellor, the policy and/or procedure will be placed on the Board of Trustees agenda for a first reading, with consideration to follow at a subsequent meeting.

Submission of Policies and Procedures for Review

When submitted to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President, and the DLC, the policy and/or procedure shall be accompanied by a routing form which will include the following information:

- Policy/Procedure Number
- Policy/Procedure Name
- Indication of new or revised policy/procedure
- Initiator of proposed new or revised policy/procedure
- Purpose for new or revised policy/procedure
- Anticipated timeline for review and approval process

New policies and procedures will be submitted to the appropriate groups as a "clean" copy.

Revised policies and procedures will be submitted to the appropriate groups using the following editing marks:

- Deleted text to be shown in ~~striketrough print~~
- Added text to be shown in **bold print**

Nonsubstantive ("clean up" or "housekeeping") revisions to policies and procedures (i.e. names, title changes, addition or deletion of references) that do not change the intent or meaning of the policy or procedure may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President and the DLC as a courtesy.

Policies and procedures dealing strictly with the Board of Trustees may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President and the DLC as a courtesy. New or revised procedures that outline an existing process may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and

Administrative Procedure 2410
Policy and Administrative Procedure

approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President and the DLC as a courtesy.

Timeline

In most instances, policy and procedure review and approval will be based on a two-month cycle at the college level. Once the Chancellor's Executive Cabinet agrees to move new or revised policies and/or procedures forward to the CCC, PGC, the Academic Senate Presidents and the Faculty Association President, the review and approval process timeline officially begins. The groups will have 60 days in which to complete the review and approval process at the college level and submit final comments, recommendations or actions taken with regard to the policy and/or procedure to the Chancellor's Office.

At the completion of the 60 days (or sooner if the appropriate groups have completed their review and approval process), the policy and/or procedure will be placed on the DLC agenda for review and approval if applicable. Following DLC review, the policy and/or procedure will be placed on the Board of Trustees agenda for a first reading, with consideration to follow at a subsequent meeting. The Board of Trustees will be provided with the Chancellor's final recommendation, along with the completed routing form which will include the comments, recommendations and actions taken by the appropriate groups.

The timeline may be shorted due to various circumstances including, but not limited to, changes in law or urgent need. However, the Chancellor's Office shall notify all applicable groups of the shortened timeline.

After approval by the Board of Trustees, policies and procedures will be posted to the District's website. The College Presidents and Academic Senate Presidents will also be notified as to the status of the proposed or revised policies and procedures.

Board approval date: 3/7/06
Revised policy approval date: 6/26/07

Indicates final Board of Trustees approval

**Chancellor's Executive Cabinet Meeting
March 10, 2010**

MINUTES

Members present:

Pedro Avila, Vice Chancellor of Institutional Effectiveness and Enrollment Management
Carole Goldsmith, Vice Chancellor of Educational Services and Workforce Development
Frank Gorrnick, Chancellor
Donna Isaac, Executive Assistant to the Chancellor
Willard Lewallen, President, West Hills College Coalinga
Ken Stoppenbrink, Vice Chancellor of Business Services
Don Warkentin, President, West Hills College Lemoore

Others present at various times:

Susan Whitener, Vice Chancellor of Educational Planning

Task Log

The task log was reviewed as follows:

- Item 1 – Ken Stoppenbrink reported that Kevin Cobb is still working on developing a policy with regard to energy and sustainability. Carole Goldsmith volunteered to get some information from San Joaquin Valley Clean Energy Coalition. Frank Gornick directed her to work with Ken on this information.
- Item 2 – This item is on the agenda for discussion.
- Item 3 – This item is on the agenda for discussion.
- Item 4 – This item is on the agenda for discussion.
- Item 5 – This item is on the agenda for discussion.
- Item 6 – This item is on the agenda for discussion.
- Item 7 – Carole reported that she is working on a submission to ACCJC for both colleges. The substantive change information will be written separately for each college, but will be submitted at the same time. Frank stated that he wants to write a cover letter to go with the substantive change submittals.
- Item 8 – Ken reported that he has not talked to the campus bookstores yet as he was unclear on the task. Brief discussion took place regarding the possibility of students making purchases at the bookstores for additional print copies made in the libraries. Ken stated that he will talk to the bookstores.
- Item 9 – This item is on the agenda for discussion.
- Item 10 – Complete.

Chancellor's Executive Cabinet

MINUTES – March 10, 2010

Page 2

- Item 11 – A portion of the task has been completed. Discussion took place regarding the need for further information on the emergency loan process. Carole commented on following up with Rick with regard to the allied health emergency scholarship. The task will be revised to direct a process for establishing emergency funds with specific criteria for emergency loans.
- Item 12 – Complete. A meeting was held last Friday that included Carole, Pedro Avila, Ken and the College Presidents.
- Item 13 – Carole reported that Susan Whitener has been working with the college CIOs to review the existing schedule. The online schedule is almost complete. Pedro reported that West Hills College Coalinga has submitted summer and fall face to face classes. West Hills College Lemoore has submitted their summer classes. He stated that we are still on track. Pedro discussed the recent issue with loan disbursements with regard to financial aid.
- Item 14 – Complete.
- Item 15 – Complete.

Registration Priorities – Update

Pedro distributed the Summer/Fall 2010 Registration Schedule, stating that he has received good feedback. Discussion took place regarding the new tool that is being implemented for searching classes. Discussion also took place regarding high school graduates. Pedro stated that he will send out this information to the CIOs and the marketing department. Pedro stated that Administrative Procedure 5055, Enrollment Priorities, will need to be modified based on the new registration schedule.

Action Item

- ✓ Pedro Avila to send high school graduate information to CIOs and the marketing department
- ✓ Administrative Procedure 5055, Enrollment Priorities, to be modified based on the new registration schedule.

Process to Encumber Wages – Update

Ken and Carole reported that they are still working on the process to encumber wages. Carole commented on budget changes and identifying a solution to create a workflow. Frank suggested that we may need to call Rose & Tuck back in for consultation. Carole reported that she is making sure the information being put into Datatel is accurate. She stated that she will follow up with Rose and Tuck on the encumbrance model.

Action Item

- ✓ Carole Goldsmith to follow up with Rose and Tuck, consultants, on the encumbrance model.

District Educational Coordinating Council (DECC) – Update

Carole reported that the DECC proposal is being routed through the various college groups. It will be brought back to the Chancellor's Executive Cabinet for review at their next meeting.

Action Item

- ✓ Carole Goldsmith to provide review of DECC proposal at the Chancellor's Executive Cabinet meeting in April.

Student Debt / Online Payment Process – Update

Carole reported that she has not worked on this project yet; however, she will be bringing information to the next Chancellor's Executive Cabinet meeting.

Action Item

- ✓ Carol Goldsmith to provide information on student debt/online payment process at the Chancellor's Executive Cabinet meeting in April.

Residence Halls Registration – Update

Willard Lewallen stated that he will be providing information at the April Chancellor's Executive Cabinet meeting. Frank stated that he wants a year or two of demonstrated accountability on the registration made with funds in the black. He stated that this will be a positive step toward acquiring funding based on the income stream.

Action Item

- ✓ Willard Lewallen to provide information on the residence halls registration system at the Chancellor's Executive Cabinet meeting in April.

Copy Limits/Process for Students – Update

Ken stated that he will need feedback from the colleges about the number of copies that will be allowed for students. Frank stated that he wants this information provided at the next Chancellor's Executive Cabinet meeting. Willard commented on copy limits for faculty as well. Frank commented on the amount of paper we use and how this ties into an energy policy.

Action Item

- ✓ Copy limit information to be provided at the Chancellor's Executive Cabinet meeting in April.

Leadership Retreat/FranklinCovey 360 Evaluations

Donna reported that the FranklinCovey 360 Evaluations have been completed. A workshop will be held at the next Leadership Retreat on May 7 to learn how to interpret the evaluation reports. Frank stated that administrative evaluations will be moved to a calendar year (January – December) cycle. 2009-2010 will be a transition year. Administrative evaluations will be completed in June 2010 and then administrative evaluations will be completed again beginning in January 2011. Frank stated that he will talk to the Board about using a calendar year evaluation cycle versus a fiscal year cycle.

Evaluation Script

Frank distributed copies of an evaluation script prepared by legal counsel. Discussion took place concerning the script, along with the Presidential Expectations. Frank stated that he wants to review the script with Marty Ennes, Faculty Association President.

Discussion took place regarding email being the official form of communication.

Frank discussed the need to develop an administrative procedure in terms of faculty evaluation. He stated that he would also like to provide training on the evaluation script at the May 7 Leadership Retreat. Frank stated that he will be asking Key Writing to develop an online form for the script. He will be arranging for a meeting with Joe Zampi to discuss the script and will also share it with the Board of Trustees.

The following changes to page 1 of the script were discussed and agreed to:

- Include Presidential Expectations under "Review ingredients and objectives of evaluation"
- Remove the word 'possibly' from first bullet under "Review ingredients and objectives of evaluation"
- Remove the third bullet which begins "...review Presidential Expectations and determine if there are questions..."

Fast Track Degree

Frank questioned if we should develop a fast track associate degree for the fall as a way to save costs for students and families. He stated that if we can identify a way of getting the 64 units in three semesters, students can be finished sooner. The point is that we might be able to advertise it as a way of parents saving money. Don Warkentin commented on previous issues with this idea (i.e. block of classes were scheduled, but not enough enrollment in those classes). Frank stated that he wants to think out of the box a little. Carole commented on discussions with Jill Stearns and Dave Bolt

concerning moving to a cohort model. Discussion took place regarding selecting the menu for students and tracking them. Frank commented on focusing on 4 or 5 degrees. Don stated that it is not difficult on the schedule side, but is difficult on the student services side. We would need to identify someone to track the students and follow up with them to make sure students don't fall off track. We need to be able to provide the services. Frank stated that just because we are in down times doesn't mean we should stop thinking about how to benefit our students.

eCampus

Susan Whitener was invited to the meeting at this time. Susan reported that Pedro provided a list of faculty load for last fall and spring and it was determined how much was part of load and how much was overload. A preliminary schedule has been developed and we are going to work through what the CIOs want on their respective schedules. Susan stated that she worked with Lenore Simonson because she used to be an advisor. Lenore looked at all degrees and determined if what we offer online will meet all of the degrees. We want to meet the broadest range of students for the broadest range of degrees. Frank questioned the need for hiring and Susan responded that once we determine the full time faculty and sections available, we will then look at the need for adjunct faculty. She is currently having this discussion with both colleges. Frank stated that he does not want to hurt the integrity of our eCampus. Susan stated that we know who the faculty are. She discussed providing moderate feedback as to why some instructors shouldn't teach online, stating that online isn't for everyone. She also discussed training opportunities. Frank stated that the eCampus has to maximize our FTE. Susan stated that the summer schedule for both colleges is being finalized and we are maximizing what we can offer. The schedule should be finished by the end of the day tomorrow (March 11). Frank stated that there should be no expectation that anyone who retires as a teacher is going to teach online. Further discussion took place regarding training for teaching online courses. Susan distributed a distance education article from the most recent accreditation newsletter. Frank commented on Barbara Beno's recent visit.

Distance Education Strategic Plan

Susan reported that the Distance Education Strategic Plan is ready to go to the next step which will be an informational item to the Board of Trustees. She stated that this item can be taken in April or May.

Susan stated that a lot of conversations have been held on the campuses with regard to web streaming. A vendor presentation was provided in February, a visit has been made to Cisco headquarters, and staff participated in a webinar (Sonic Foundry). A good meeting was held yesterday between the IT and distance learning departments and they discussed vendor presentations. Susan stated that Cisco's product looks great but is not quite ready yet. Frank reported that he and Michelle Kozlowski met with Cisco's regional vice president. We provided him with the ROI numbers on VOIP and discussed developing a regional partnership. We want visibility and marketing. Frank stated that he wants to take another trip to Cisco for additional staff, faculty, and possibly a board member or two to view their products. We need to articulate what we

want to have in terms of a strategic partnership. Susan stated that Cisco is about six months away from release and thinks we have a temporary solution with using CCC Confer technology until we can get the Cisco products. Frank stated that we can do a couple of things. We can sell the existing equipment in Firebaugh and move to a Cisco solution. Pedro discussed the possibility of being a beta test site. He questioned if we could use the partnership to be a test site if we are concerned about a timeline. Frank stated that he wants it to be a comprehensive solution at all locations. If we are going to be a Cisco house, we minimize the number of people we need to have supporting it. He wants to keep it simple and there are some real benefits.

Job Descriptions

- Activities Specialist – After School Program – Ken stated that CSEA has agreed to incorporate the position into the collective bargaining agreement. Additional changes were made to the job description after meeting with them. The major change deals with education. The job description has been reviewed by Riley Talford. The salary grade was changed based on education. Ken stated that he will send the revised version to Nancy Vogel, CSEA Representative. He wants to put this job description on the agenda for the April Board meeting.
- After School Program Instructor – Ken stated that this job description has been reviewed and approved by CSEA. It is a part time position. Changes were made to the job description after the initial meeting with CSEA. The changes deal with credentialing and a lower salary grade. CSEA wanted credentialing to come out of the job description. Ken wants to put this job description on the agenda for the April Board meeting.
- Help Desk Advisor – Carole stated that this job description closely mirrors the job description for a regular advisor. Ken stated that this position would be on the adult/student temporary salary schedule. Susan stated that the position is integral to the eCampus. The salary grade was increased to \$22.50. This item will be placed on the agenda for the April Board meeting.

Don initiated discussion regarding the loss of TTIP funds and how it impacts library databases. Carole stated that VTEA dollars helped out last year. Don stated that the librarian says it is essential. Susan stated that we need this now as it is important for distance education as it relates to accreditation. Frank directed Susan to provide the information to Ken. Susan stated that she will list it as an augmented line item under the eCampus budget.

- Director of Special Grant Programs – Discussion took place regarding the changes made to the job description which include the education level. This is an administrative position. It was agreed by the group to include information in the job description that the position would handle multiple programs and initiatives. The job description will be on the April Board meeting agenda for a range change.

Chancellor's Executive Cabinet

MINUTES – March 10, 2010

Page 7

- Coordinator of Special Grant Programs – Discussion took place regarding making changes to the summary section to include leadership and oversight for no more than two grant programs. Carole stated that she will make the changes. The job description will be on the April Board meeting agenda.

Susan Whitener left the meeting at this time.

At this time the group took a lunch break.

Following the lunch break, the group reconvened.

Equipment Coordinator Position

Willard stated that the recently resigned equipment manager was also receiving a stipend as assistant coach for football. Discussion took place regarding the issue of classified positions and additional compensation. Frank stated that the word 'coordinator' needs to be taken out of the position title, stating that we need an equipment manager. Frank stated that he does not want this position to be doing any coaching. Willard discussed rewriting the job description to include equipment and facilities. Ken stated that he needs direction on the current person in the position and if that person can also receive a coaching stipend and do the job on a temporary basis. Frank stated that he will allow for this to occur until June 30, 2010.

Don commented on the athletic trainer position being a certificated position. He stated that he only needs an athletic trainer for the fall semester at this time. He questioned if he can hire a temporary, one semester trainer. Ken stated that there is also an athletic trainer position in the classified ranks and suggested that this may be the way to go for Don's position.

Tenure Recommendations

Willard stated that he has three faculty that will be recommended for tenure at the April Board meeting. Discussion took place regarding tenure for faculty members who have had multiple years on a temporary contract. Ken stated that the Board of Trustees has the ability to allow all of the temporary contract years to count toward tenure if the faculty member is given a regular, tenure track contract.

Workflow Projects

Pedro stated that we have a consultant who can take care of workflow projects for us. He stated that Keith Stearns can also do this. They are going to start with Carole's workflows for budget change forms and section forms. Carole is going to put together the business rules and will submit them to the consultant for an approximate amount. Staff are also looking at grade changes, add/drops, student complaints, petitions to graduate, grievance, etc. Frank stated that he wants to have an update on workflow projects discussed at the next Chancellor's Executive Cabinet meeting. Pedro stated

Chancellor's Executive Cabinet

MINUTES – March 10, 2010

Page 8

that he will put together a list of the forms that need workflows so that they can be prioritized.

Other Business

- Board Presentations – Frank stated that a couple of the Board members commented on the way the budget information was presented at the most recent Board meeting. Not only do they want to be made aware of the problem, they want to see the solution. We need to be more clear in the way we present the information.
- Athletic Report for June Board Meeting – Don stated that the Board of Trustees wants to hear about the current status of athletics; future plans; philosophy on athletics; and how the philosophy meshes with the college mission. Frank stated that he wants each president to develop a history of athletics at their respective college. We can't deny what has happened with physical education (degree requirements, etc.). There used to be a lot more physical education classes and inter mural activities.

Ken left the meeting at this time.

Discussion took place concerning wellness. Frank stated that the presidents need to integrate the concept of wellness in their report. The Board needs to see how it is reconciled with their mission and if there is still a place for wellness and intercollegiate athletics. He also directed the presidents to cover where are we going with athletics (i.e. fee based; taking over community recreational aspects) and stated that we need to take a look at how many student athletes transfer. This information needs to be compared to the student population. He stated that this could be a precursor to developing a strategic plan for athletics and wellness.

Board Policies and Administrative Procedures

- BP & AP 5520, Student Discipline – It was agreed to move this policy and procedure forward to the various college groups for review and approval.
- BP 5500, Standards of Conduct – Changes were suggested to include the language from the original draft version. Donna Isaac was directed to make the changes and forward to the various college groups for review and approval.
- AP 5530, Student Rights and Grievance – It was agreed to move this procedure forward to the various college groups for review and approval.
- BP 6816, Hearing Conservation Program – It was agreed to move this policy forward to the various college groups for review and approval.
- BP 6817, Transportation and Driver Selection – It was agreed to move this policy forward to the various college groups for review and approval.

Chancellor's Executive Cabinet

MINUTES – March 10, 2010

Page 9

- AP 6700, Facilities Use – Several changes to the procedure were suggested. Frank directed Ken to continue his review of the procedure and bring it back to the next Chancellor's Executive Cabinet meeting.

Action Item

- ✓ Ken Stopperbrink to continue review of AP 6700, Facilities Use, and bring it back to the Chancellor's Executive Cabinet meeting in April.

Susan was invited back to the meeting at this time.

- BP & AP 5070, Attendance – It was agreed to change the last paragraph of the policy to read as follows:

*Attendance records shall be recorded and kept by faculty and the Office of Admissions and Records according to rules and regulations prescribed by the Board of Governors of the California Community Colleges. **The only official rosters for all classes are the records stored on the district student information system.** Therefore, prior to census date, each faculty member shall verify class rosters and no later than seven days after census date provide the Office of Admissions and Records a roster of currently enrolled students who meet the district policy on attendance.*

Several changes to the procedure were suggested. It was agreed to incorporate the changes and forward both the policy and procedure to the various college groups for review and approval.

Susan left the meeting at this time.

Other Business

- Cisco Visit – Frank directed Carole to work with Michelle on another trip to Cisco headquarters in San Jose. He stated that he wants to include some district and college staff, directors, deans, and faculty who will use the technology.
- Strategic Plan Update – Frank stated that the current strategic plan expires this year. Pedro reported that he and Carole are meeting on March 11 for a brainstorming session. They want to take what we have learned and determine what we want to keep and what we need to replace with regard to the strategic plan goals. Carole questioned if we still want to use our current goals and measurements. Frank stated that we want to revise them. Don stated that we need to review the educational master plan. Discussion took place regarding strategies for communities that have low participation rates. Frank stated that he wants to focus on student success and retention in the areas that are access related (math, English, basic skills). Discussion took place regarding goals and being a leader in the state with regard to retention, access and transfer. We have learned that we need more information; we are doing some things okay; we got the process started; and now we need to

Chancellor's Executive Cabinet
MINUTES – March 10, 2010
Page 10

determine how we want to become better. Pedro stated that the idea is to drill down a little deeper. He wants Carole to bring in the employment and vocational element. Willard questioned if we really have an understanding of the needs of the communities we serve as we have not done a formal assessment of this. Pedro stated that a meeting will be held in April to close the loop and talk about next steps. Frank stated that we have done a great job in terms of the budget and enrollment. Pedro stated that he wants to see some of the administrators at the college level be more involved with the strategic plan. Frank stated that lessons learned would be a good start to the new strategic plan. He wants to take results on the road and present at conferences.

Ken returned to the meeting at this time.

- Athletic Report – Frank stated that he wants the presidents to include Title IX as an area in the athletic report. Title IX is not the numbers, it is interest, experience and ability.

Action Item

- ✓ Title IX information to be included in the athletic report to the Board of Trustees in June
- Bookstore – Frank stated that he wants the bookstore to carry first rate, high quality apparel and that we should look at providing merchandise at the local grocery stores, K-Mart, Walgreens, etc.
- Summer Program – Willard announced that West Hills College Coalinga is getting close to finalizing an exciting program for the summer. Twenty educators from China will be spending 7-8 weeks on the campus. They teach English as a second language in China and want to learn about American culture.

/di

**Chancellor's Executive Cabinet Meeting
April 14, 2010**

MINUTES

Members present:

Pedro Avila, Vice Chancellor of Institutional Effectiveness and Enrollment Management
Carole Goldsmith, Vice Chancellor of Educational Services and Workforce Development
Frank Gornick, Chancellor
Donna Isaac, Executive Assistant to the Chancellor
Willard Lewallen, President, West Hills College Coalinga
Frances Squire, Executive Director of West Hills Community College Foundation
Ken Stoppenbrink, Vice Chancellor of Business Services
Don Warkentin, President, West Hills College Lemoore

Others present at various times:

Cathy Barabe, Director of Marketing
Susan Whitener, Vice Chancellor of Educational Planning

Task Log

The task log was reviewed as follows:

- Item 1 – Ken Stoppenbrink reported that Kevin Cobb is still working on the policy.
- Item 2 – Carole Goldsmith reported that she has talked with representatives at the energy group and will pick up the information this week to give to Ken.
- Item 3 – Pedro Avila commented that the task was incorrectly stated and should have been to send priority registration information to the CIOs and marketing department. The task is complete and information was sent out to currently enrolled students.
- Item 4 – This item is on the agenda for discussion.
- Item 5 – Carole reported that she and Ken have talked about using the services of Rose & Tuck. Ken has talked to Darren Rose and he is available to help us do some programming. It will cost \$15,000 - \$20,000 to get it done. It was stated that Keith Stearns has the skill set, but may not have the time. Carole recommended that we move forward with Rose & Tuck and roll out the encumbrance model for the new fiscal year. Rose & Tuck have recommended not going to position budgeting as it will cause too many problems. We will be better off with programming for a report. Pedro stated that he and Keith want to be involved in the discussion with regard to the report as they want to make sure it is a report that we all want. He also wants to make sure that we have something that is flexible and usable by us. Frank stated what we want to have is a report that is accurate with regard to budget codes. He directed that Pedro, Keith, Carole, Tammy Weatherman, Ken, Cathy Barabe, and senior administrators from the colleges be involved in the process of developing the report. Pedro questioned the use of Rose & Tuck for this particular project. Carole questioned if we need a reporting solution or a customization of Datatel. Ken stated

Chancellor's Executive Cabinet
MINUTES – April 14, 2010
Page 2

that we need to tell Rose & Tuck exactly what we need and find out what solution they give us. Pedro stated that he wants to back up and review what route to take. He questioned if Rose & Tuck are the best solution if what we need is a reporting solution. Frank stated that Michelle Kozlowski introduced us to Rose & Tuck and he has not been dissatisfied with them as they have delivered for us. Frank directed Ken to follow up on this project.

- Item 6 – This item is on the agenda for discussion.
- Item 7 – This item is on the agenda for discussion.
- Item 8 – This item is on the agenda for discussion.
- Item 9 – Carole reported that the substantive change has been submitted. This item will need to be voted on at the June Board meeting.
- Item 10 – Ken stated that he has received a response from Follett. Their solution is to go with a debit card and the bookstore are willing and able to do this for us. Discussion took place regarding the AOS solution and a student ID card. It was stated that a lot of data entry may be required. Ken commented on bringing AOS back in for this solution. Discussion took place regarding charging an instructional fee to get around all of the issues. Frank stated that he wants to pursue AOS for their thoughts and also research Chafee College's procedure of charging a general services fee. Willard stated that he will take a look the fee issue. Ken stated that he will reconvene with AOS.

Action Item

- ✓ Willard Lewallen to research instructional fees with regard to issue with the number of copies and print jobs being done by students
- ✓ Ken Stoppenbrink to reconvene with AOS for possible solutions.
- Item 11 – This item is on the agenda for discussion.
- Item 12 – Pedro reported that Jana has modified the process for emergency loans. What used to be a 10-day processing period, is now down to one day. The process begins in financial aid, but the business office cuts the check. Ken commented on emergency loans that he has denied. Discussion took place regarding who is making the determination about the loan – financial aid or business office. It was stated that the responsibility lies with the business office. Discussion took place regarding mixed messages that students receive with regard to the process starting with them. Pedro stated that the original issue was resolved but other issues have been discovered that need to be addressed. Frank stated that we need to make sure the criteria we have is very clear. An emergency is for food, transportation and books. It was suggested that child care should be included. Pedro stated that the approval has to start with financial aid and there should be a couple levels of review. Pedro stated that he will continue discussions with Jana about this matter.

Action Item

- ✓ Pedro Avila to have further discussions with Jana Cox about the process and review for emergency loans.
- Item 13 – This item is on the agenda for discussion.
- Item 14 – Willard and Don stated that they are working on their reports. Willard reported that he has laid out a plan for what should be included. Frank suggested that Pedro provide to the Presidents the amount of student debt by student, by sport as compared to other students.

NIFA Funds for HSI Agriculture Colleges

Cathy Barabe was invited to the meeting at this time.

Cathy reported that NIFA (National Institute of Food and Agriculture) is a new source of funding passed by federal legislation. West Hills College Coalinga is an HSI (Hispanic Serving Institution) ag college; however, West Hills College Lemoore is not yet. Cathy explained that food safety and culinary will count towards agriculture. She stated that we need to position ourselves now for West Hills College Lemoore to become an ag college. Frank questioned the amount of funding. Cathy stated that there will be \$10-12 million available annually for HSI ag colleges. The funding will probably be available next year. West Hills College Lemoore may miss the first funding cycle. Frank questioned the reason for the discussion and Cathy responded that she really wants us to participate so we can get more funding. Discussion took place regarding TOP codes for ag courses. Frank stated that maybe we focus on what we already have up and running and then begin researching possibilities for culinary. He directed Cathy to work with current faculty and staff at West Hills College Coalinga. Don questioned if we want West Hills College Lemoore to become an ag college. Cathy stated that she will work on researching the criteria.

Action Item

- ✓ Cathy Barabe to work with current faculty and staff at West Hills College Coalinga for possible receipt of NIFA funding.
- ✓ Cathy Barabe to work on researching criteria for West Hills College Lemoore to become an ag college.

Cathy left the meeting at this time.

Franklin University Commissions

Discussion took place concerning the commission funds that have been received from Franklin University. The money has been going to miscellaneous revenue. Frank questioned where the presidents want the funds to go. Willard stated that he would like for West Hills College Coalinga's portion to be placed in a foundation account and used

Chancellor's Executive Cabinet

MINUTES – April 14, 2010

Page 4

for campus operations and events. Frank suggested that the funds be placed in the Presidents' Foundation accounts beginning with this fiscal year. Commission funds from previous years will not be included.

WICHE Audit

Susan Whitener was invited to the meeting at this time.

Susan reported that the presentation has been pared down but still needs some work. She stated that she needs feedback from the group. Discussion took place concerning only sharing the findings with the Leadership Retreat Group; where are we at and what are we going to do with the information; and branding and website navigation. Susan was directed to continue working on the presentation with Carole and Pedro. It was suggested that the presentation be given to smaller groups at the college level before providing the presentation to the Leadership Retreat group.

One Year Schedule

Susan stated that a schedule is being developed. As she talks with the CIOs, they determine what to offer based on what is being offered in the next semester. Logically, they want to develop a one year schedule. Frank stated that it is supported by the research. We can begin looking at cohort groups. Willard stated that given the compression of the schedule and limited opportunities for students, they can help us by providing their input. Frank stated that it allows us to begin looking at getting students out of here in four semesters. We can then get into a guaranteed schedule. Frank stated that this item will be discussed again at the May Chancellor's Executive Cabinet meeting. He directed the group to talk about it in their own areas and come to the meeting with feedback.

Action Item

- ✓ Chancellor's Executive Cabinet members to discuss the possibility of a one year schedule in their own areas and provide feedback at the May meeting.

Susan left the meeting at this time.

District Educational Coordinating Council (DECC) – Update

Carole distributed the DECC proposal and stated that this is not a new committee. One of the concerns of the groups is that the document looks different than when particular groups saw it. She stated that it was sent out to all of the groups and input was received and incorporated. The purpose of the committee is to make sure we are all on the same page. Frank questioned the process if we can't come to consensus. Carole stated that some issues will be related to Title V, but there will be others to which they will have to come to consensus. Discussion took place regarding how things get to the DECC. It was suggested that the group may need a flow chart. Carole stated her preference is to take a look at addressing issues that are going to the curriculum committees as they are being reviewed, not after the fact. The group will be looking at

models of other colleges. Frank questioned the flow of information to the committee and where it goes after. He stated that we can't be afraid of making recommendations. The committee will reach consensus to recommend the appropriate action. He prefers the recommendation come to the Chancellor's Executive Cabinet where the CEOs can talk about the issues.

Online Payment Process – Update

Carole stated that Ken has worked with the campuses to look at student debt. Jana has taken a look at what the student debt really is as it relates to financial aid. She is also looking at how disbursements can be made more frequently. Ken stated that he wants to know what decisions have been/are made without his consultation. Pedro stated that we are discovering the debt deals mostly with financial aid and residence halls, not students who aren't paying when they register. Carole stated that the process of workflows is really going to change how we do business. This project (online payment process), needs to be referred to as debt management as the online piece is working very well and is not an issue.

Residence Halls Registration – Update

Willard distributed a draft of eligibility requirements and steps for reserving a room on campus. Discussion took place regarding the procedure and deadlines. The next step is to get the website information updated for the residence halls.

Copy Limits/Process for Students – Update

See discussion on Task Log, Item 10.

Culinary/Food Service Budget and Programs

Frank stated that he has had discussions with the college presidents. This item has to do with keeping the director at West Hills College Lemoore in place and allowing him to oversee and coordinate some internships. Carole stated that the culinary program currently receives VTEA funds. In the future, additional VTEA funds can be given, but something else will suffer. Frank stated we need to get the appropriate people charged to the right place. Carole reported that she has had discussion with Ken about work experience opportunities in the snack bar. It was suggested that we offer a course. The staff in the current snack bar might be able to be an instructional aid. Frank stated we are getting sophomore students out of the culinary department. The director tries to give them catering and restaurant experience. Frank stated that the task is to look at funds for culinary and make sure a budget is set up. He directed Ken to work with Christian Raia on point of sale. Carole stated that we may be able to use some CTE dollars to make it a vocational program.

Action Item

- ✓ Review funds for culinary program and make sure a budget is in place.
- ✓ Ken Stoppenbrink to work with Christian Raia on point of sale.

Willard left the meeting at this time.

Missing Student Regulations

Ken stated that we need a policy/procedure on missing students. He distributed a summary of the federal laws and a draft policy and procedure. This information will be placed in the standard policy and procedure format and routed through the review and approval process.

Application Processing Fee for Foreign Citizens

Donna Isaac stated that the application processing fee for foreign citizens is on the April 20 Board of Trustees agenda for approval.

At this time the group took a lunch break.

Following the lunch break, the group reconvened.

Evaluation Script, Draft Form

Frank stated that the evaluation checklist document is a result of the evaluation script document received from Joe Zampi's office. For accreditation and quality control aspects, it was important to develop a checklist for administrators to use in the evaluation process. Discussion took place regarding suggested changes and additions to the checklist. Frank stated that he will discuss this draft document with Marty. Donna will incorporate the suggested changes in the draft document and it will be provided for further discussion. Discussion took place concerning the checklist being an appendix to an administrative procedure.

Action Item

- ✓ Donna Isaac to incorporate suggested changes in evaluation checklist document for further discussion.

Adult Temporary Tracking

Ken stated that we are beginning to have numerous issues and are beginning to own staff after the 194 days. The tracking tool gives advance notice for planning purposes and is distributed on a monthly basis. He stated that he does not know what else to do at this point. Frank stated this will be a topic on the Leadership Retreat agenda.

Job Descriptions

- Equipment and Event Coordinator – Willard commented on the current position being underutilized. The new proposed job description incorporates assistance with

coordinating events, physical education and wellness. Discussion took place regarding requirements. It was stated that this position has been used in the past to bring in assistant coaches. Frank stated that we will not be doing that anymore. The group agreed to move the job description to the union and then the Board of Trustees for approval.

- Summer Youth Program Staff – Carole stated that the job description was requested by the funding agency. The program runs May through September. These are temporary positions to be included on the adult/student temporary salary schedule. The department would be Workforce Investment and the WIA Coordinator would be the direct report. Don questioned how this is different from the 5Cs camp. Carol stated it is more job focused and includes a lot of case management, referrals, follow up with employers, etc. The group agreed to move the position forward to the Board of Trustees for approval.

Potential Layoff Notifications

Frank stated that the Board of Trustees will be presented with a layoff resolution on grant funded classified positions. In addition, letters will be sent to faculty who are on temporary contracts and are grant funded. Discussion took place and Ken stated that the intent is to inform the faculty that the grant funding is running out and we are doing our best to cover the costs. If funding cannot be found, they will be laid off. Don asked if it is prudent to have a meeting with the faculty prior to their receipt of a letter. Frank responded in the affirmative, stating that the worst case scenario is that they will not have a job when the grant runs out and the best case scenario is that they will be funded. Discussion took place regarding the Faculty Obligation Number (FON). Ken stated that the number is currently 94.5.

Board Policies and Administrative Procedures

- BP & AP 5055, Enrollment Priorities – Changes were suggested. The group agreed to move the procedure forward.

Action Item

- ✓ Donna Isaac to make changes as suggested and move policy and procedure forward.
- BP & AP 6700, Facilities Use – Discussion took place regarding facilities use. Ken stated that he looked at what other college districts do for facilities. He distributed information on the data he collected. Frank stated that we need to capture money for the use of our facilities. Discussion took place regarding charging those that have been using our facilities. Discretion is left up to the college presidents. Ken stated he thinks the rates need to be doubled. Fees were discussed. Ken reported that he will continue working on this policy and procedure. Frank stated that he wants to have something in 60 to 90 days for the colleges. They need to develop a brochure and post information on the website that incorporates the facilities use information for advertising purposes. Willard stated the facilities use policy and

Chancellor's Executive Cabinet

MINUTES – April 14, 2010

Page 8

procedure do not currently include information about the use of the residence halls. Frank stated that this information needs to be included for groups that use the residence halls in the summer.

Action Item

- ✓ Ken Stoppenbrink to continue working on Facilities Use policy and procedure and include information about the use of the residence halls.

Frank discussed having a rededication ceremony for the Wellness Center at West Hills College Coalinga and a dedication ceremony for the Multi Use Sports Complex at West Hills College Lemoore.

- District Provided Cellular Telephones – Ken stated that his recommendation is to have two stipend levels (\$100/\$75). We need to look at what we are currently spending. The level for each individual would be determined by the Vice Chancellors and Presidents. The district is currently paying for many cell phones and plans. Frank commented that he is more comfortable settling on one number across the Board for all employees who are determined to be necessary. He stated that he wants to have a plan in place effective July 1, 2010. Ken stated that the IRS is looking at several areas of expenditure and if they look at this area, then we will be covered. Frank stated that the Presidents and Vice Chancellors need to take a look at this for their staff. He directed Ken to move forward with a policy and procedure regarding stipends for cellular telephones to be in place effective July 1, 2010.

Action Item

- ✓ Ken Stoppenbrink to develop a policy and procedure regarding stipends for cellular telephones to be in place effective July 1, 2010.
- BP & AP 5800, Prevention of Identity Theft in Student Financial Transactions – Frank directed Ken and Carole to work on this policy and procedure and bring it back to the May Chancellor's Executive Cabinet meeting for further discussion.

Action Item

- ✓ Ken Stoppenbrink and Carole Goldsmith to work on Board Policy and Administrative Procedure 5800, Prevention of Identity Theft in Student Financial Transactions.

Other Business

Frances Squire shared draft information on the billboards that will soon be going up around the district which express congratulations to the class of 2010.

Frank stated that the next Board meeting will be held at the North District Center in Firebaugh on April 20. He stated that when we close the books this year he wants to

Chancellor's Executive Cabinet

MINUTES – April 14, 2010

Page 9

provide the Board with a summary of all auxiliary accounts and how they compare to three years ago.

Frances reminded the group of the Foundation's annual golf tournament which is scheduled for Monday, May 10.

/di

Program Review Summary Sheet for Planning/Institutional Effectiveness

I. General Information

Unit/Department/Service: Office of the President

Date Prepared: 9/19/2008

Prepared By: Don Warkentin

II. Summary and Recommendations

A. What actions have been taken to address the assessment and improvements of program learning outcomes?
 The Office of the President participates in the annual review of the college's institutional performance indicators for meeting desired goals. In addition, the college evaluates its performance as indicated in the state chancellor's ARCC report.

Strengths: Effectively organized to provide adequate supervision and direction to all areas of college operations. Diversity and experience of Administration and support staff.

Areas for Improvement: First program review, prior results not available for assessment.

Strategies for Program Enhancement: continue evaluation of performance indicators; continue review of programs and services; meet WASC rubric goals.

III.

	Training/Professional Development	Equipment	Facilities	Personnel/Staffing	Budget
	Accreditation Workshops, Professional workshops				Dues/Memberships: \$15,000 Supplies: \$12,000 Equipment: \$12,000 Travel: \$5,000

WEST HILLS COLLEGE LEMOORE
OFFICES OF THE PRESIDENT AND EDUCATIONAL SERVICES
PROGRAM REVIEW/PLANNING AND EVALUATION PROCESS
UNIT PLANNING GUIDE - NON-INSTRUCTIONAL
DEPARTMENTS & AREAS
TO BE COMPLETED BY UNIT/DEPARTMENT COMMITTEE

I. General Information

Department/Service: Offices of the President and Educational Services

Date Prepared: September 19, 2008

Prepared By: Don Warkentin, Glenda Oliver-Smith, Amber Avitia, Kyle Crider,
Donna Jimenez

II. Program Overview

A. State the program mission. If you don't have one, create one. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. (200 word limit)

The mission of the Offices of the President and Educational Services is to provide effective and quality leadership, decision-making, and superior faculty, staff and support services to assist learners to achieve their educational goals.

Goal: To employ highly qualified faculty and staff to assist students in completing requirements for an associate degree or certificate.

Goal: To ensure the college offers adequate transfer level courses to assist students in meeting their transfer requirements to two year and four year universities and colleges.

Goal: To provide quality job training programs to assist students who desire to improve job skills or seek new employment or personal enrichment.

B. Briefly describe the current state of the program/department/service area. (250 words or less)

The Office of the President provides supervision of the overall college operation to include Student Services, Administrative Services, Athletics and Academic Services. The President provides leadership that promotes the growth of the college in areas such as enrollment, facilities, and programs and services. The college has grown in enrollment averaging nine percent in each of the last six academic years. Current headcount enrollment has exceeded 12,000 students for the academic year. Full Time Equivalent Students (FTES) has increased approximately 4.5% over the previous academic year to approximately 3,100 FTES.

The college was recently successful in seeking voter approval for the passage of a general obligation bond (Measure E) that will bring approximately \$100 million in new facility

construction projects that will keep the college in construction mode to the year 2020. Additional programs, staff, and faculty positions will be added to meet student needs.

The Office of Educational Services oversees the academic and instructional programs of the college. Currently 46 full time certificated faculty are employed at the college. In addition, approximately 80 adjunct instructors are employed each semester. Educational Services provides staff development, evaluation, program review, catalog development, curriculum and schedule development, and accreditation oversight for the college. Educational Services assign administrative supervision to each of the colleges' academic learning areas and ensures regular monthly meetings to develop curriculum, budgets, and staffing requests.

C. Describe how the program/department/service area goals and objectives are aligned to the advancement of the college mission, goals and objectives. (250 words or less)

Highly qualified faculty and staff ensure student educational goals are met whether they be to earn a certificate or associate degree, transfer, or seek training to improve job skills. This is aligned to the college's mission and goals of providing quality education, assisting students to achieve their educational goals, and assisting the college to increase its productivity.

Providing adequate transfer level curriculum insures students the ability to meet their educational goals if transfer is their desired outcome. Articulation agreements with several four- year colleges and universities insure transparency in the transfer process. This is aligned with the college's mission and goals of empowering students to achieve their educational goals.

Quality job training programs assists students in obtaining jobs and provides a better educated workforce for the community. This is aligned to the college's goal of providing quality educational opportunities to the community.

D. List any recommendations from the most recent college/program/department accreditation and/or previous review. (250 words or less)

Recommendation 2: That the College integrate periodic review and update of the mission statement into other key College planning documents, such as the Planning and Governance Manual and the Institutional Student Outcomes Indicators plan, so that the institution's evolving educational purposes, intended student population, and commitment to achieving student learning are aligned with the mission statement. (Standard I.A, I.A.3)

Recommendation 3: That the College ensure that all programs, instructional and non-instructional, identify measureable goals and objectives, including those goals and objectives that support student learning; that these goals are incorporated in program review reports; that assessment of progress incorporates appropriate research data; that users of research data are properly trained; and that an effective mechanism for the timely implementation of improvements is in place for all programs. (Standard I.B.3, I.B.5, I.B.7)

Recommendation 4:

That the College implement a well-defined plan outlining the steps to identify and assess student learning outcomes for all courses, programs, degrees, and certificates and, as applicable, appropriate support

areas. The plan should establish a specific timeline for the completion of all tasks, including: identifying student learning outcomes; assessing student learning; training faculty; defining the role of institutional research in the process; and describing procedures for implementing improvements. (Standard II.A.1.c)

III. Qualitative and Quantitative Data Review

A. Attach the following Non-Instructional Program Review data (as provided):

- Enrollment Trends – (see Attachment I)
- Student Retention Rates/Student Success Rates (if applicable) - (see Attachment II)
- WSCH/FTEF (if applicable) – (see Attachment III)

Lemoore College

02-03 to 03-04 = +114 WSCH/FTEF

03-04 to 04-05 = -26 WSCH/FTEF

04-05 to 05-06 = -67 WSCH/FTEF

05-06 to 06-07 = - 33 WSCH/FTEF

06-07 to 07-08 = +15 WSCH/FTEF

Lemoore Online

02-03 to 03-04 = +173 WSCH/FTEF

03-04 to 04-05 = -70 WSCH/FTEF

04-05 to 05-06 = -44 WSCH/FTEF

05-06 to 06-07 = -47 WSCH/FTEF

06-07 to 07-08 = -12 WSCH/FTEF

NAS

02-03 to 03-05 = +62 WSCH/FTEF

03-04 to 04-05 = -86 WSCH/FTEF

04-05 to 05-06 = -94 WSCH/FTEF

05-06 to 06-07 = -32 WSCH/FTEF

06-07 to 07-08 = +34 WSCH/FTEF

- Full-time to Part-time Faculty Ratio – 75/25 as required
- Number of Students Earning Degrees (if applicable) - (see Attachment IV)
- Number of Students Earning Certificates (if applicable) - (see Attachment IV)
- Job Market Analysis (if applicable) - (see Attachment V)
- Student Demographics (see Attachment I)
- Grade Distribution (if applicable) – Not applicable
- Student Survey Data (if applicable) - (see Attachment VI)

B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific course/program/service. (250 words or less)

1) State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).

The enrollment data indicate that the college has increased an average of 9% in student headcount each of the last four years. The college's FTES has increased 2005-2006 to

2006-2007 = Increased by 9.1%, 2006-2007 to 2007-2008 = Increased by 4.6%. The college's WSCH per FTEF has also increased as follows:

The total numbers of degrees and certificates has increased from 254 in 2003-2004 to 390 in 2006-2007 for an increase of 54 percent.

C. Attach the following data maintained for your program/department/service area:

1. Budget information regarding costs per program/department/service area on personnel, equipment, supplies, delivery of services (where applicable), and any other direct or indirect costs connected with the service as reflected by student enrollment.

Lemoore Revenue **\$18,877,140**

Lemoore Expenses **\$13,180.441**

2. Identify all personnel, including the number of certificated, classified professionals and volunteers. Discuss the diversity of faculty and staff.

Employee Classification:

Administrative 4 Certificated 0 Confidential 1 Classified 3
Student Workers 2

Diversity (Race/Ethnicity)

Native Am. /Alaskan Nat. 2 African/African-American/Non-Hispanic
 Asian/Pacific Islander 5 Caucasian/Non-Hispanic
1 Hispanic Filipino
 Mixed

3. Describe the certificated and classified staffing requirements of the existing program/department/service area, as well as the effect any proposed curricular or instructional changes would have in the next three years. This statement should include the need to retrain, or to add staffing for new specialties. Finally, this statement should include the need to retrain or to add staff for clerical assistance, for maintaining equipment, or for serving as an instructional assistant.

Certificated and instructional administrators are required to possess a master's degree at the minimum. Classified administrators and classified staff are required to have a high school diploma as a minimum and an associate degree for some areas. As the college grows and develops new programs additional administrative and classified staff will be required to provide supervision and operational support. Staff will be required to keep current with the district's management information systems (Datatel) and new software programs as they are developed.

D. Identify and discuss the effect that trends may have on the program/department/services area's organization, structure, and nature over the next two to four years.

The addition of new facilities as a result of the passage of Measure E most likely will result in the addition of new programs and services for the college. As these new programs and services come online the Office of the President and the Office of Educational Services will be required to devote additional time for the supervision and development of these new programs and services.

E. What resources are required to maintain program/department/service area, and what additional resources are necessary to improve or expand it?

Human resources include a campus president, vice president, academic deans and support staff along with an adequate budget to maintain the operation of the college. Additional resources have not yet been identified; however, as the college continues to grow additional administrative and support staff will be required to maintain and improve institutional effectiveness. For example, as the college develops new athletic and academic/vocational programs additional staffing may be necessary.

F. Discuss staff training, academic and professional currency.

All administrative staff meets or exceeds minimum qualifications. Support staff is adequately trained with the district's management information system. Some staff have undergone NIMS/SIMS Emergency Safety training.

G. Excluding curriculum validation, discuss community involvement in the operation of the program/department/service area.

Community members assist the college in its development by serving on advisory committees, ad hoc committees, and bond election steering committees. In addition, members of the program belong to several community organizations and participate in numerous community activities throughout the year.

IV. Professional Development

A. What professional development activities have staff participated in?

Administrative staff attends various state-wide conferences relevant to their areas of assignment, as well duty and flex days each semester, safety training/sexual harassment training as required. Classified staff have participated in various leadership conferences, time management conferences, portal training, adjunct instructor workshops, and classified staff development day.

B. How does this professional development affect Student Learning Outcomes for your program/department/service area?

By attending regional, state, and national conferences members of the departments keep current in areas such as accreditation, career and technical education, changes in laws and regulations, etc. All of the above helps the department support and improve student learning.

C. Describe the program/department/service area's plans for staff development over the next four years.

Members of the departments will continue to attend regional, state and national workshops and or conferences. In addition; relevant training opportunities will be brought to the campus for all to partake. For example, in March WASC will be on campus to train those involved in the accreditation self study preparation. Also all staff recently attended campus-wide training on the new district portal and received training in NIMS and SIMS.

D. Discuss the effectiveness of continuing education requirement to meet the need for advanced training and/or training in emerging technologies.

As new technologies emerge the department will continue to provide opportunities for members to maintain currency.

V. Student Learning Outcomes

A. List all Student Learning Outcomes for this program/department/service.

- Seventy percent of all students who indicate transfer as an educational goal will become transfer ready.
- Seventy percent of all students who indicate the attainment of an associate degree as an educational goal with meet all requirements for the associate degree.
- Seventy percent of all students who indicate the attainment of a certificate as an educational goal will meet all requirements for their individual certificate program.

These goals are to be measured annually.

B. Explain how Student Learning Outcomes are used to measure quality and success of this program/department/service area.

The above student learning outcomes, in part, determine the success of the college.

C. Based upon the results of the program SLO assessments, what improvements have been identified?

Assessments have not currently been conducted.

VI. General Operations

A. How does the program/department/service area ensure that current curriculum/delivery of service is adequately meeting the needs of students?

The CIO is an active member of the Curriculum Committee and as such ensures that curriculum and delivery of services meets the needs of students in obtaining their educational goals. In addition, academic deans regularly hold learning area meetings to evaluate curriculum delivery and schedule development. Faculty evaluations are utilized to improve the quality of instruction.

B. Do special accreditations, external regulations, or advisory committees regulate the program/department/service area? Yes No (if yes, elaborate.)

The college is accredited by the WASC and receives a visit every six years along with a mid-term report every three years. The Office of the President ensures that all vocational programs meet external agency requirements as applicable.

C. Does the program/department/service area have any special regulations, space requirements, staff training, etc.? Yes No (if yes, elaborate.)

D. Is there evidence of unmet student needs caused by your program/department/service area? Yes No (if yes, elaborate.)

E. How does the program/department/service area address cultural diversity?

The department serves as an example of cultural diversity for the college in that staff members represent many diverse ethnic groups.

F. Describe the initiatives the program/department/service area has implemented to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical mental disabilities, re-entry, gender, etc.)

The department works closely with faculty and staff as well as categorical programs within the college to ensure that these students are provided with opportunities to be successful regardless of their challenges.

G. Discuss the program/department/service area's use of external funding, including grants and collaborative partnerships, if applicable.

Several grant funded programs exist on the campus and add value and program support to the entire college. The college is also a leader in supporting instructional technology advancements in several areas across the campus.

H. To what extent is technology being used in the program/department/service area?

The college has a reputation in being a leader in the area of technology and continues to implement and develop new and advanced technology driven programs.

I. Describe the supply requirements for your existing program/department/service area, as well as the effect that any proposed changes would have on the supplies in the next four years. This statement should include the kinds and amounts of supplies needed, any anticipated costs, and the need for any computer software/technology.

The department provides adequate funding in the area of supplies and equipment across the campus. In difficult budget periods the department reallocates resources to meet individual program needs and/or finds alternative sources of funding to maintain quality. As the college continues to grow, additional supplies will be required and the department will need to make decisions regarding prioritizing of supply and equipment needs.

J. Describe the need for facility modifications within your existing program/department/service area or the effect that any proposed curricular or instructional changes would have on the existing facilities in the next four years. This statement should include a description of the desired changes, the rationale for the changes, and a rough estimate of the costs.

With continued growth and the passage of Measure E it is anticipated that an additional administrative building will be constructed to meet the needs of an expanding department.

Additional Information (optional)

Please provide any other information to describe, explain, justify, analyze, or clarify prospective program/department/service area changes or needs anticipated in the next four years.

A. What factors did you use in determining the quality and success of this program/department/service area?

The overall success of the department is based on the outcomes assessment of the institutional performance indicators.

B. Identify the best ways to measure the quality and success of this program/department/service area. Conduct an evaluation of the program/department/service area. Use a survey or questionnaire when appropriate to address questions. (Examples: How do the persons served by this program/department/service area evaluate its adequacy or effectiveness? How do services compare to similar departments/service areas outside the College? By what processes does the program/department/service area deal with complaints and continually up-grade services? Other methods might include matching or exceeding nation-wide productivity measures, i.e., full-time staffing equivalent per square foot for

M & O and per number of employees for Human resources, feedback from campus “clients”, etc.)

C. Describe the annual scheduling patterns for courses impact your program/department/service areas. Consider interaction with other programs/departments/service areas, use of facilities and flexibility for students.

VII. Summary and Recommendations

A. What actions have been taken to address the assessment and improvements of program learning outcomes?

The department participates in the annual review of the college’s institutional performance indicators for meeting desired goals. In addition, the college evaluates its performance as indicated in the state chancellor’s ARCC report.

B. Based on analysis of the information provided in I through VII, describe the program’s strengths, areas that need improvement, and strategies and actions to make those improvements.

1. Program strengths

The college is effectively organized to provide adequate supervision and direction to all areas of the college. The diversity of experience and ethnic backgrounds of the administrators and support staff lends to variety of strengths.

2. Areas that need improvement

This is the first program review report prepared by the department. As such, prior results are not available to provide adequate assessment.

3. Strategies and actions for program enhancement and improvement.

- Continued evaluation of the college’s institutional performance indicators.
- Continued review of all programs and services.
- Continued participation in the accreditation process to reach a level of continuous sustainable improvement.

D. Attach your Program Planning and Evaluation Assessment Grid. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

Program Review, Planning and Evaluation

West Hills College Lemoore

Mission:

West Hills College Lemoore enriches the lives of our students and the community we serve by being dedicated to quality educational learning opportunities and partnerships. The college provides a positive environment that is committed to student learning and empowering students to achieve their educational goals.

Assessment Grid

Program: Offices of the President and Educational Services

Contact Person/ext. Mr. Don Warkentin, President, Ext.3217

Mission: State the program/unit’s mission. If you don’t have one, create one. The mission statement should include the purpose of your program/unit, the ideals the program strives to attain, and whom the program/unit serves (student, staff, public, etc.). 200 words limit.

To provide direction for the total operation of the college in order to serve our students and community with their educational goals.

Submission Date: December 17, 2008

Midterm Report Date (2 years from submission/ 1 year CTE):

Program Goals/ Objectives	Program Activities/Actions	Necessary Resources (Including Funding)	Outcomes	
At least 3 short-term and up to 2 long-term goals. Instruction: At least three of your goals must be program specific student-learning outcome oriented.	The specific activities you will implement to accomplish the goals (e.g. implement a new course) and intended outcomes.	Any additional resources you will need to accomplish the activity. Please be specific and realistic.	Means of Assessment/Criteria for Success including timeline (Measurable)	
1. Goal: To employ highly qualified faculty and staff to assist students in completing	1. The CIO and President interview and select applicants for instructional openings.	1. Adequate funding to support instructional offerings.	1. Budget allocation process.	1. Timeline: Annually

<p>requirements for an associate degree or certificate.</p> <p>2. Goal: To ensure the college offers adequate transfer level courses to assist students in meeting their transfer requirements to two year and four year universities and colleges.</p> <p>3. Goal: To provide quality job training programs to assist students who desire to improve job skills or seek new employment or personal enrichment.</p>	<p>2. The CIO supervises the evaluation of instructional staff.</p> <p>3. Instructional administrators conduct learning area meetings to improve instructional quality.</p>	<p>2. **West Hills College Lemoore
Planning and Governance Council
Wednesday – April 21, 2010, 2:00 p.m.
Conference Center, Rm. 256**

MINUTES

Members Present:

Dave Bolt, Vice President of Educational Services
America Bryant, CSEA/Classified Representative
Sylvia Dorsey-Robinson, Vice President of Student Services
Stephanie Droker, Academic Senate President
Marty Ennes, CTA/Faculty Representative
Jose Lopez, Dean of Students
Keith Brock, CSEA/Classified Representative
John Bernal, Director of Facilities & Auxiliary Services
Ron Oxford, Librarian
Tiffani McGee for Angela Tos, CTA/Faculty Representative
Don Warkentin, President
Ryan Cardoza for Angel Isidoro, Student Government Association Representative

Members Absent:

David Babb, Student Learning Outcomes Chair
Marlon Hall, Associate Dean of Educational Services, Evening College
Rene Sanchez, Curriculum Committee Chair
Linda Amaya-Guenon, Counselor/Advisor

Call to Order

Mr. Warkentin called the meeting to order at 2:03 p.m.

Roll Call

A silent roll call was taken and a quorum was present.

Approval of minutes

The minutes of the April 7, 2010 meeting were approved by on a motion by Marty Ennes (with corrections as noted by Stephanie Droker), it was seconded by Stephanie Droker, all were in favor, motion passed.

Action Items

• **WHCL Mission/Vision Statements and Goals**

Stephanie Droker commented that the recommended changes from Myeisha Johnson were not electronically sent as she understood they would be after the last meeting. Stephanie expressed that the changes brought forward by Myeisha should have gone through the Student Government Association (SGA) as a cooperative recommendation, rather than from Myeisha personally. The mission statement was reviewed at the previous Strategic Planning Committee meeting which is the formal process. Marty Ennes motioned to approve the mission and vision statements as recommended by the Strategic Planning Committee, it was seconded by Stephanie Droker; all were in favor, the motion passed. America Bryant commented that she thought Myeisha's ideas for changes to the mission statement were really good and innovative; however, she agreed that they needed to be brought forward in the proper manner. Sylvia Dorsey-Robinson stated that Dean Lopez will be working with students to help them better understand

the participatory process. The WHCL Mission/Vision statements will be forwarded to the Board of Trustees for their May agenda.

- **Lottery Fund Budget Allocation Expenditure Request**

Stephanie Droker motioned to approve the Lottery Fund Budget Allocation Expenditure Report, it was seconded by Ron Oxford; all were in favor, the motion passed. Mr. Warkentin asked if there was further discussion. Dave Bolt reported that he had learned that the monies can now be rolled over for next year. Mr. Warkentin stated that these dollars have to be used for direct instruction items.

Information/Discussion Items

1. Board Policies and Administrative Procedures: (first reading)

- Revised BP 5520, Student Discipline (Replacement for BP 520, Student Discipline)
- New AP 5520, Student Discipline
- New BP 5500, Standards of Student Conduct
- Revised AP 5530, Student Rights and Grievances (Replacement for AP 523, Student Grievances)

Mr. Warkentin stated that these policies and procedures will need to go out to the constituency groups as part of the formal process. Marty Ennes stated that these have now been taken to the Faculty Association and comments are being received. She will e-mail the comments to all on the respective routing forms prior to the next meeting. Stephanie Droker reported that the Academic Senate had completed their review.

2. Program Review (second reading)

- **Snack Bar**

Dave Bolt reported that program reviews will remain on the PGC agenda for three consecutive meetings. An extra meeting has been being allowed for adequate review time. At the last meeting there were comments on the Snack Bar Program Review concerning the student learning outcomes. Ron Oxford stated that he had worked with Debra Christy, the originator, on the SLO'S. It was difficult to come up with SLO'S for this area; however, Ron feels we need to be consistent with each program review to include SLO'S. Marty Ennes commented that not every program is necessarily tied to student learning. Sylvia Dorsey-Robinson reflected on the survey taken and the data revealing that students wanted more variety and healthier choices offered in the snack bar. Mr. Warkentin commented that a recommendation may be that WHC Lemoore does not have to do program review for certain areas. There seems to be some disconnect between instructional and non instructional SLO'S. In this area we could easily evaluate this process, and if it fits, we will make it a SLO'S, but if not then a program outcome will be reflected. WASC is most concerned that program reviews are done and it is up to us how to go about it. Sylvia Dorsey-Robinson stated that a concern she has is if these outcomes may create a burden on the originator to track information. Discussion ensued regarding the need for the program review originator to attend a PGC meeting. Marty commented that she believes it should be up to the originator. This will be an action item at the next meeting.

- **Upward Bound Math & Science (UBM&S)**

There were no comments on the UBM & S Program Review. Action will be taken at the next meeting.

- **Upward Bound Math & Science (UBM&S) Classic**

Action will be taken on the UBM&S Classic Program Review at the next meeting.

3. WHCIST

Dave Bolt reported that the last WHCIST meeting was cancelled. Sylvia Dorsey-Robinson reported that at the meeting she last attended they went through the tasks that had been assigned. E-SARS was discussed which is the electronic version of SARS and allows students to make counseling appointments. Angela Tos will work on the implementation of e-SARS. Sylvia plans to coordinate an ad hoc committee. Ron Oxford expressed concern about the potential of SARS to be used for tutoring. Sylvia stated that e-SARS is expected to be in place in the fall.

4. Student Government Association (SGA)

Ryan Cardoza, SGA representative, reported that the Pizza Festival was held this past weekend and it was a great event. SGA had a donation box for the Relay for Life event to be held this weekend. Ryan stated, on behalf of Angel Isidoro, SGA President, he would like to ask for a donation from the PGC for Relay for Life. Sylvia Dorsey-Robinson responded that PGC could not donate monies, but West Hills College may be able to donate. Mr. Warkentin reported that WHCL had already donated \$500 for this event through our Medical Administrative Activities (MAA) dollars. Ryan reported that the SGA elections have been postponed due to the start of registration, and they will be rescheduled. Ron Oxford explained that there has been a great amount of work put into allowing elections via "My West Hills" and Ryan had experienced a significant amount of difficulty. Sylvia stated that this is the first year that SGA has taken a leadership role to allow access via the internet and there was bound to be glitches. She commended Ryan for his efforts and stated that he has done a fantastic job. Ryan reported that there is an SGA scholarship currently available for students to apply.

5. Curriculum Committee Report

Dave Bolt stated that he did not attend the Curriculum meeting today but he reported that there will be a training session at the next meeting regarding electronic submissions. Stephanie Droker reported that there are new course titles.

6. Academic Senate Report

a) Faculty resolution – two year schedule

Stephanie Droker reported that this resolution, coming from the Academic Senate, addresses the faculty's support of a two-year course schedule. It is college specific. This will come to the PGC council for approval. Dave Bolt stated that we have had a two-year schedule in the past; however, budget limitations prevented its adherence. Marty questioned if the old two-year schedule is something faculty could go through on a duty day and come up with a skeleton two-year schedule. Dave will bring the old two-year schedule to the next meeting. Tiffani McGee stated that she was involved in the creation of this resolution and they were more concerned about classes being offered. Stephanie announced that at yesterday's board meeting tenure was granted to Christian Raia, Joel Rogers, and Lataria Hall. Additionally she reported that Kurt Sterling had

been elected as the new Academic Senate president and Tammy Larson as the vice president. Kurt will be shadowing Stephanie for the remainder of the year as possible. Learning area awards have been determined in each discipline and will be presented at the Honors Brunch.

7. Accreditation

Dave Bolt reported that the substantive change report had been submitted. The accreditation self study standards are continuing to be reviewed by the President's Executive Cabinet (PEC). Dave stated that he is responsible for the self study introduction and eligibility requirements, including the history of the college. The accreditation visitation date has been determined and is March 7-10, 2011. Dave has received the annual report from WASC which relies on Dave Babb, Pedro Avila and Susan Whitener for information. The deadline is June 30. There are 31 questions to answer. Mr. Warkentin explained that the accrediting team members will arrive on Sunday, make a visit to the district office on Monday, and then be on campus Tuesday through Thursday. The team room will be conference room 256. Open forums will be held, and an exit interview will be on Thursday afternoon. Mr. Warkentin recalled that at the last accreditation visit there was several community members who came to express their appreciation of having a community college in Lemoore. The team member composition will be learned in December and January. The team will want to visit our college meetings.

8. Report from Committee Representative

a) Student Learning Outcomes Committee (SLO'SC)

In the absence of David Babb, Ron Oxford reported that there had not been a meeting.

b) Institutional Effectiveness and Program Review Committee (IEPRC)

Dave Bolt reported that IEPRC is re-writing the program review booklets, and they are close to completion.

c) Budget Allocation Committee (BAC)

Dave Bolt thanked all for approving the lottery fund budget. The BAC is currently reviewing the budget.

d) Employee Development and Success Committee (EDSC)

In the absence of Marlon Hall, Mr. Warkentin reported that the district is looking at forming a partnership with Cisco for video-conferencing. Staff will be going to San Jose for another visit to Cisco on April 29th.

e) Student Success Committee (SSC)

Sylvia Dorsey-Robinson reported that SSC has gone through the Strategic Planning Matrix and amended the document. They have identified the area of standards and where the area fell. Additionally, they have worked on the Student Town Hall Matrix. They are now working on the student equity plan. Sylvia and Dean Lopez conducted a conference call with Tammy Weatherman on the SGA account funds collected. They now have information on training student clubs on how to collect, deposit, and access the funds.

f) Facilities, Safety and Auxiliary Services Committee (FSAC)

John Bernal distributed the four-week construction schedule. The parking southeast entrance and exit will be closed until the construction in this area is done. College Avenue will be blocked just past the administration bldg. entrance within the next two weeks. There was an incident today with a student who backed into a pole. Also during

the Pizza Festival a lady vendor slipped and fell. Ryan Cardoza stated that he had learned that the steps in the amphitheatre are not visible in daylight. He recommended that they be painted for visibility. Victor Rosa, principal of the middle college would like the pot holes fixed. John is looking for suggestions for concerts to be held in the Multi-use Sports Complex. There will be 2,500 seats.

g) Technology Committee (TC)

Ron Oxford reported that the TC had met last Friday. They reviewed TAT minutes. An issue with faculty is when computers update; they shut down. There is a way to update and ITS can provide a cheat sheet for faculty to update prior to beginning their presentations. They additionally looked at the wait list. Ryan Cardoza reported that he has made a screen cast on how to use the search and register feature. Dean Lopez will check into getting information regarding assistance as a better contact for SGA is needed. There was also discussion about when the new wireless will go in, and there's concern regarding log on for non students.

9. Graduation Committee

Dean Lopez reported that the main graduation speaker will stay at the palace. The student speaker has become ill and they have a back up speaker. The Honors Dinner is on May 13th for scholarship recipients and their families. The Honors Brunch is on May 14th for program award recipients and their families. The Student Government Association (SGA) will also be recognized. Tiffani McGee questioned if the bookstore is in charge of the cap and gowns. Dean Lopez responded affirmatively. The bookstore does not have a list as yet. Petitions are just being finished and are in process. Jim Marvin will need the list for the student newspaper.

10. Other

Mr. Warkentin announced that the next Strategic Planning Committee (SPC) meeting is scheduled for April 30th and the focus will be on the College Strategic Plan. The Plan will first go to the SPC for review with recommendations to be sent to the PGC for their review and approval.

Mr. Warkentin gave a brief update on plans for the event center. He stated that we do not want to be in competition with Tachi Palace for the same type of events they might hold. A budget will be needed for operation costs. Ryan Cardoza asked when we will know how much money is needed. For example, using the Student Government Association (SGA), they could possibly charge every student each semester for discounted tickets to the event center activities. Dean Lopez asked if we were going to have the Pizza Festival on campus next year as he recommends we have an event similar to be coordinated by the college as a fund raiser. Mr. Warkentin replied that the Lemoore Chamber of Commerce sponsors the Pizza Fest and this year it was a cooperative outreach effort; although, we could do something similar. Marty Ennes commented that faculty was unaware that the parking lot would be closed off for the Pizza Festival, and there was one faculty member who was concerned about the grass. Mr. Warkentin reported that he had also been asked to host the July 4th event. America Bryant reported that the Financial Aid Department had a booth at Pizza Festival and they received positive feedback regarding the Pizza Festival being held at the college.

Dean Lopez reported that the Alpha Gamma Sigma club is planning to host the 2011 Alpha Gamma Sigma Society at WHC Lemoore and there will be 46 schools represented. This is the first time for this event to be held in the central valley.

Ryan Cardoza stated that he is concerned with the membership of the Lemoore group of students on the server as it is not up to date and needs to be. He would like to know if there is any way to get SharePoint updated. Students who are not included cannot access the Student Government Association's election.

11. Agenda items for next meeting

- Two Year Schedule
- Board policies procedures
- Program Reviews

12. Adjournment

Mr. Warkentin adjourned the meeting at 3:25 p.m.

Bob Clement, Director of Athletics, West Hills College Lemoore
Jana Cox, Director of Financial Aid

Introduction of Guests

There were no guests introduced at this time.

Public Comments

There were no public comments made at this time.

REPORTS FROM ORGANIZATIONS / COLLEGES / DISTRICT OFFICE

Academic Senate Report – Ms. Anita Bart, Academic Senate President for West Hills College Coalinga, was not present to report at this time.

Ms. Stephanie Droker, Academic Senate President for West Hills College Lemoore, reported that the Senate's comments on the Board Policies and Administrative Procedures are included on the routing forms. The Senate has been working on flex day activities for the fall. Ms. Droker introduced Mr. Kurt Sterling, new Academic Senate President.

WHCFA Report – Ms. Marty Ennes, WHCFA President, reported that the Faculty Association's comments are also included on the routing forms for the Board Policies and Administrative Procedures. She stated that the Faculty Association very much appreciates the time that Mr. Ken Stoppenbrink and Dr. Willard Lewallen spent on meetings to discuss a revised agreement for the psychiatric technician contract reductions. The language has been ironed out and all sides are happy with the new agreement. She thanked the district for meeting halfway and stated that the students will not be in jeopardy because of the changes. Ms. Ennes reported that the year will end on a positive note and she appreciates this.

CSEA Report – Mr. John Ieronimo, CSEA President, was not present to report at this time.

Student Trustee Report – Mr. Yohan Maeda, Student Trustee, was not present to report at this time. Dr. Willard Lewallen reported that Mr. Maeda had to work today. He will be in Coalinga through the end of June and will then return to Japan as he will be finished with his education at West Hills College.

Trustee Cantu arrived at this time.

West Hills College Coalinga and North District Center, Firebaugh – Dr. Willard Lewallen, President, provided an update on summer activities occurring at West Hills College Lemoore. He stated that although the class schedule is significantly reduced, many groups will be on the campus this summer for various programs including a migrant student groups; an instructor group from China; a Hmong high school group for English immersion; and a group of 4th through 6th graders from the Fresno County Office of Education for a day program (another group will be at the North District Center in Firebaugh). Trustee Minnite questioned if these programs will be repeated

next year. Dr. Lewallen responded in the affirmative, stating that Fresno County Office of Education wants to lock in their dates now for next year.

West Hills College Lemoore – Mr. Don Warkentin, President, introduced Mr. Bob Clement, Athletic Director, and Mr. Dave Neer, Instructor/Golf Coach. Mr. Clement thanked the Board of Trustees for their support. He stated that the significance of yesterday's honor is difficult to put into words. The men's golf team accomplished the highest honor for community college athletics by finishing ahead of the elite top eight teams in the state to win the coveted men's state golf title. This honor goes along with the conference and regional championship accomplishments of the team earlier in the season. The team is made up of local students and to see their progress is truly a joy. Mr. Clement stated that he gives a lot of credit to Coach Dave Neer, Assistant Coach Tim Wahl, and the athletes. Mr. Neer thanked everyone for the congratulations. He stated that it has been a dream season and the students did a great job. The golf coach at Cal State East Bay (formerly Cal State Hayward) is very interested in a couple of the students. Mr. Clement announced that a ceremony will be held at a restaurant in Lemoore at 5:30 p.m. on Wednesday, May 19 to recognize the team.

Chancellor's Report - Dr. Frank Gornick, Chancellor, reported that Conne Cleveland, Site Supervisor at West Hills College Coalinga Child Development Center, was recognized in The Fresno Bee earlier this week for her work in the First 5 Fresno County Early Care and Education category.

Dr. Gornick invited the Board of Trustees to attend the Employee Scholars Program brunch that is being held on Monday, May 24 to recognize and honor those employees who have participated in the program.

Trustee Henry commented on the workshop sessions he recently attended at the California Community College Trustees (CCCT) Conference in Long Beach. The workshop sessions covered topics such as a fee schedule for classes (i.e. nursing); federal aid and aid for students; funding rates for transfer level courses; assessment issues; and the Brown Act. With regard to the Brown Act, Mr. Henry commented on some of the items he found interesting including serial meetings; requesting copies of the Board agenda; placing items on the agenda; comments made before the Board of Trustees; and closed sessions. A handout on the Brown Act workshop was distributed.

Dr. Gornick stated that it has been five years since we established district strategic planning goals and it is interesting to look back at what was identified as a goal and what we have accomplished. Mr. Pedro Avila reported that we have spent five years going through the strategic planning process. The strategic planning committee has met approximately three times each year. He summarized the goals, stating that the information is a summary of what we know now.

-
- Goal 1 - Meet or Exceed FTES Growth Targets. Mr. Avila commented on the FTES numbers from 2005-2006 through 2009-2010. Discussion took place regarding the goal and changing it to read "Meet FTES Targets". The Board agreed that this would be a good change. Trustee Minnite questioned where we are getting input on growth or non-growth. Mr. Avila explained that discussions are held at the Chancellor's Executive Cabinet level and the numbers are based on the budget. Discussion took place regarding accreditation as it relates to growth targets.
 - Goal 2 - Focus Marketing Efforts on District-Wide Stories. Mr. Avila discussed perceptions in the communities and the change in marketing efforts. The Dialogue publication has been changed to @ west hills college and has been re-formatted. It is printed twice per year and is sent to 76,000 homes in the district. The marketing efforts were changed from promoting enrollment to instead focus on promoting events on campus and presence-building.
 - Goal 3 - WHCCD Will Annually Increase Community Participation Rates. Dr. Carole Goldsmith commented on outreach to the communities. She stated that because of the successful bonds, we will have outreach community centers in the rural cities (Mendota; Tranquillity; San Joaquin). A facility has been selected in San Joaquin; the memorandum of understanding is in place, and the funds have been identified that will expand distance education opportunities. Dr. Goldsmith commented on the Bridges Out of Poverty grant and stated that the WIT (Westside Institute of Technology) participation numbers are forthcoming. Discussion took place regarding participation rates and Dr. Goldsmith stated that we need to take a look at the rates of those with higher than a high school degree. Ms. Susan Whitener stated that one of the things we are doing is to look at webcasting, which is live web streaming with lecture capture. It is ADA compliant and is the way we are going to reach the rural locations. Discussion took place regarding the courses that would be offered and Ms. Whitener stated that they would be rolled out a little bit at a time.
 - Goal 4.1 - Maintain Success Rates Within the California Community College Statewide Average. Mr. Avila stated that separate benchmarks were developed for face-to-face and online success rates. Ms. Whitener commented on the audit that was conducted for online student services. She stated that we are working on making this component more robust.
 - 4.2 - Maintain Transfer Rates Within the California Community College Average. Mr. Avila commented on the transfer rates following the trend with fees at the UC and CSU systems. He also commented on West Hills Community College District transfers to four year institutions.

- 4.3 - Maintain Graduation Rates Within the California Community College Average. Mr. Avila reported on the degree and certificate rates by freshmen cohorts, comparing district completion rates to California Community College statewide completion rates.
- Goal 5 - Become the Preferred Choice of Students Through Ongoing and Active Recruitment. Mr. Avila stated that staff have been focusing a lot on this area in the past few months. A declining trend has been noticed with high school participation rates. Either students are not going anywhere or someone is beating us to them. We are going to begin finalizing our project with CalPASS which will provide us with more detailed information about where students are going. What we know is that the relationship with the counselors at the high schools is very critical. It is very important that we create and maintain the relationships. The college deans have been working hard to address the issue of participation rates. Mr. Avila stated that there is an overall trend and he is mostly concerned with the reduced number of sections and the priority registration process and how this affects the incoming high school students. There are a lot of questions and we are trying to find the answers. It is difficult to give a conclusion at this time. Dr. Gornick stated that he thinks we need to fight a little harder to maintain the percentages.

In addition to the goals, Mr. Avila commented on the District Score Card which summarizes the progress on each of the goals since 2005-2006. He also shared the Comprehensive Effectiveness Model with the Board.

Dr. Gornick questioned if the Board wants to include distance education, basic skills, and workforce in the new goals. The Board agreed and discussion took place concerning maintaining financial integrity. Mr. Avila commented on the strategic planning process that has been occurring at the college level, stating that they include basic skills and workforce in their planning. The Comprehensive Effectiveness Model would align with the colleges.

CONSENT AGENDA

The following consent agenda items were approved on a motion by Trustee Ivans, seconded by Trustee Levinson, and carried unanimously:

- CA-50** Minutes - The minutes of the April 20, 2010 Board of Trustees study session and Board of Trustees meeting were approved as submitted.
- CA-51** Warrants - The warrants were approved as submitted.
- CA-52** Surplus Property - The list of surplus property was approved as submitted.

CA-53 Adult/Student Temporary Salary Schedule - The changes to the adult/student temporary salary schedule were approved as submitted.

CA-54 Personnel Transactions - The list of personnel transactions were approved as submitted.

Trustee Cantu questioned when additional information would be received on the solar farm. Dr. Gornick stated that a lot of information is being collected and will be provided at a later date.

CHANCELLOR'S OFFICE

CO-31 Honorary Degrees - Mr. Warkentin reported that the recommendation to award an honorary degree to Ms. Evelyn Sue Westover was brought forward by the faculty. Ms. Westover passed away but was close to receiving her degree.

The following honorary degrees were awarded on a motion by Trustee Levinson, seconded by Trustee Minnite, and carried unanimously:

- Dolores Crabtree, West Hills College Coalinga
- Evelyn Sue Westover, West Hills College Lemoore

CO-32 West Hills College Coalinga Mission and Vision Statements and Goals - The West Hills College Coalinga Mission and Vision Statements and Goals were approved on a motion by Trustee Minnite, seconded by Trustee Cantu, and carried unanimously.

CO-33 West Hills College Lemoore Mission and Vision Statements - The West Hills College Lemoore Mission and Vision Statements were approved on a motion by Trustee Minnite, seconded by Trustee Ivans, and carried unanimously.

CO-34 Board of Trustees Meeting Schedule - The proposed Board of Trustees meeting schedule for 2010-2011 was approved on a motion by Trustee Cantu, seconded by Trustee Minnite, and carried unanimously.

CO-35 Board Policies and Administrative Procedures - Trustee Cantu questioned the issue with regard to the storage of firearms. Mr. Ken Stoppenbrink stated that staff are still working on resolving the memorandum of understanding with City of Lemoore with regard to storage. At this time they have possession of the firearms.

The following Board Policies and Administrative Procedure were approved on a motion by Trustee Cantu, seconded by Trustee Minnite, and carried unanimously:

- Board Policy and Administrative Procedure 3530, Weapons on Campus
- Board Policy and Administrative Procedure 4260, Prerequisites and Co-requisites
- Board Policy and Administrative Procedure 5040, Student Records, Directory Information and Privacy
- Administrative Procedure 5045, Student Records - Challenging Content and Access Log
- Board Policy 6816, Hearing Conservation Program
- Board Policy 6817, Transportation and Driver Selection

CO-36 Substantive Change Submittals to ACCJC - The submission of substantive changes to the Accrediting Commission for Community and Junior Colleges (ACCJC) for West Hills College Coalinga and West Hills College Lemoore was approved on a motion by Trustee Ivans, seconded by Trustee Minnite, and carried unanimously.

CO-37 Child Development Centers Annual Report - Ms. Kathy Watts, Director of Child Development Centers, provided a report on the child development centers. She stated that the child development center I sending 340 children ready for kindergarten to the local school districts. The child development centers currently have 10 4-year old student classrooms that focus on cognitive development; 7 3-year old student classrooms that focus on socio-emotional development; and 10 3- and 4-year old student blended classrooms. She reviewed the desired result indicators and the progress made from fall 2009 to spring 2010, along with the summary of findings from the fall 2009 assessment. Ms. Watts also reviewed the action plan and results with the Board.

Dr. Goldsmith stated that the child development program is an exemplary program as identified by First 5 Fresno County and is recognized throughout the state. She congratulated Ms. Watts for the success of the program.

The child development centers annual report was approved on a motion by Trustee Ivans, seconded by Trustee Oxborrow, and carried unanimously.

FISCAL SERVICES

FS-44 Fiscal Services Report - Mr. Ken Stoppenbrink, Vice Chancellor of Business Services, provided the fiscal services report. He stated that we are 83.4% through the fiscal year. General fund revenues are at 74.3% and general fund expenditures are at 71.5%.

Mr. Stoppenbrink reported on the budget outlook for the May Revise. We are not going to budget any COLA or growth and no new revenue will be built into the budget. The budget will be built on no furloughs and will include step increases. The budget will also include a 12% increase in health and welfare benefits. PERS and STRS increases are unknown at this time. The actual budget is subject to legislative action and the state is still short \$20 billion.

Trustee Cantu questioned the cost of PERS and STRS. Mr. Stoppenbrink responded that the district's contribution for PERS will increase to a little over 10% for 2010-2011 and STRS is at 8.25%.

Mr. Stoppenbrink summarized the 2010-2011 budget outlook and commented on the ending balance, revenue changes, expenses, and the 5% reserve. Discussion took place regarding cash flow and it was stated that we will have cash flow to meet payroll. We are in a much healthier cash flow position than we were last year. Mr. Stoppenbrink discussed cuts to the CalWORKs program; -.38% COLA; and \$1.2 million deferred apportionment. He stated that we are very well positioned in our district to deal with the cuts. Dr. Gornick thanked everyone for their sacrifices and willingness to make changes.

FS-45 Resolution - Mitigated Negative Declaration for North District Center - Trustee Cantu questioned how much the report cost. Mr. Kevin Cobb, district architect, responded that it was approximately \$35,000.

The resolution certifying the completion of the mitigated negative declaration for the North District Center expansion and adopting a mitigation monitoring plan was adopted on a motion by Trustee Cantu, seconded by Trustee Minnite, and carried unanimously.

PERSONNEL SERVICES

PS-9 Job Descriptions - Trustee Cantu stated that the position appears to be very important. It was explained that the position will be very important for the coordinating of the new Wellness Center facility in Coalinga and the Multi Use Sports Complex facility in Lemoore.

The following new classified job description was approved on a motion by Trustee Ivans, seconded by Trustee Cantu, and carried unanimously:

- Equipment and Event Coordinator

PS-10 Resolution – Reduction of Extended Contract Days – Mr. Stoppenbrink explained that the resolution is a result of the recent negotiations with the Faculty Association.

The revised resolution in the matter of the reduction of extended contract days for the psychiatric technician faculty for the 2010-2011 and 2011-2012 academic years was adopted on a motion by Trustee Minnite, seconded by Trustee Ivans, and carried unanimously.

BOARD REPORTS / COMMENTS / REQUESTS AND ANNOUNCEMENTS

Trustee Cantu congratulated the golf team for their success. Also thanked Mr. Avila for his presentation on strategic planning. He stated that he looks forward to coming to every meeting and seeing that we are still operating in the black.

Trustee Minnite echoed the comments made by Trustee Cantu. He expressed his thanks to Ms. Droker for her service as Academic Senate President at West Hills College Lemoore and stated that she will be missed. He expressed his appreciation to Mr. Avila, Ms. Whitener, Dr. Goldsmith and Ms. Watts for their reports. He congratulated the golf team, coaches and staff on their success and thanked everyone for their work.

Trustee Ivans expressed her congratulations to the golf team. She thanked Trustee Henry for attending the CCCT conference and stated that it is important for the Board members to attend these types of events. Trustee Ivans thanked Ms. Droker for her work as Senate President and thanked Mr. Avila and Ms. Watts for their reports, stating that she appreciates them. She also thanked Mr. Dave Bolt and Ms. Jill Stearns for their work on the substantive change reports submitted to the Accrediting Commission. Trustee Ivans expressed her appreciation to everyone for their hard work.

Trustee Henry echoed the comments made by his fellow Board members and stated that he finds the webcasting topic interesting. He commented on the CCCT conference and the issues that are discussed in the various workshops. He stated that it is a good feeling to know that with West Hills College, all phases of our institution are exemplary.

Trustee Oxborrow also echoed the comments made by the other Board members and stated that everyone has done a wonderful job. She stated that we are a family and we

take care of each other and she is proud to be a part of it. She thanked everyone for their hard work and stated that she will miss Ms. Droker.

Trustee Levinson expressed his thanks to Ms. Droker. He commented on the budget, stating that furlough are not fun and it is good to see that we will not be doing that in 2010-2011. He stated that the sacrifices everyone has made are appreciated.

President McKean echoed the comments made by the Board members. He expressed his thanks to Ms. Droker and thanked everyone for their great efforts. He congratulated the golf team, stating that it is a huge accomplishment.

President McKean announced that the next meeting of the Board of Trustees is scheduled for June 22, 2010.

CLOSED SESSION

The meeting was adjourned to closed session at 5:36 p.m.

- Public Employee Discipline/Dismissal/Release (as per Government Code Section 54957)
- Discussion of Land Acquisition/Disposition of Property (as per Government Code Section 54956.8). Property: Coalinga, California; Firebaugh, California; Lemoore, California
- Conference with Legal Counsel - Potential Litigation (as per Government Code Section 54956.9). 2 potential cases
- Conference with Legal Counsel - Pending Litigation (as per Government Code Section 54956.9). Caganich v. West Hills Community College District; CSEA and its Chapter 429 v. West Hills Community College District

ADJOURNMENT

There being no further business before the Board of Trustees, the meeting was adjourned at 6:26 p.m.

Nina Oxborrow
Clerk of the Board of Trustees

- 6) Other

WHCL Leadership Retreat
Strategic Planning Committee
September 28, 2007, 10:00 a.m. – 1:00 p.m.
Conference Center, Rm. 256

NOTES

- 1) Mission Statement – BOT Approved July 2007
 - b) Review Cycle for Mission/Vision, Goals, Institutional Outcomes

The meeting began at 10:08 a.m. Mr. Warkentin stated that this group had last met in June for a retreat and it was discussed and approved at PGC to meet twice per semester. This is the first meeting of the fall semester. This body was previously referred to as the WHCL Leadership Team but will not become the Strategic Planning Committee. Ideas/suggestions and brainstorming take place at these meetings and are then moved forward to the Planning and Governance Council (PGC). As a new college, we are constantly evolving. As per a recommendation from the Accrediting Commission we need to have a formal review cycle statement for our mission/vision statements, institutional outcomes and learning indicators. Rene Sanchez stated that she believes outcomes and goals should be evaluated annually, but not necessarily the mission/vision statement. Marty asked if any had checked how often other colleges review. Other colleges are reviewing annually to three years. Marty suggested an annual review initially and then a three year cycle. James asked when the review should take place and what group should make the review. Mr. Warkentin replied at the fall retreats by the Strategic Planning Committee we could look at the previous year's data and then annually review in the spring and make recommended changes after action by the PGC. The following review cycle statement will be an action item on the October 3rd PGC agenda and if approved will be placed in the PGC Manual:

WHCL mission/vision, goals and performance indicators shall be reviewed by the Strategic Planning Committee each fall semester. Recommendations will be forwarded to the respective governance groups and then brought to the PGC for revision and adoption.

Pedro recommends that we stop referring to institutional outcomes as performance indicators.

2) Performance Indicators

Pedro stated that the Accreditation Recommendation Two Committee had met and come up with indicators that will evaluate our goals. Some are mandated by the state and others are part of the district strategic planning goals. We want to also have them as a college. We took our cities and counted the adult population our baseline is back in 04-05 and our benchmark 6.6% of all adults in CA participate in a community college annually. We want to be above the benchmark. In the case of Stratford, if we got five more students we could jump 10%. Pedro will include a total participation rate for Lemoore as a college. Angela recommended that Corcoran be included. Pedro will include Corcoran. Angela has a plan to improve this indicator (Hanford West rates). This is why it is important to have meetings and take minutes with all these ideas and suggestions which show evidence of trying to improve. Angela's experience has been the economy improves workforce. Both high schools will be visited on a weekly basis.

Mr. Warkentin stated that this body recommends that the Student Success Committee develop a plan to improve our participation rates. The Strategic Planning Committee applauds the efforts of the Student Success Committee in sustaining and improving high school participation rates. Angela suggested showing this to the high school superintendents/principals at the upcoming luncheon. Pedro is on the agenda for this purpose.

Our annual success rates we have been 5 points below the state average. Retention also needs to be considered. If we improve retention by 5% we would also improve our success. This has been discussed at various levels, due to retention rates. They are studying why students are dropping. Rosters need to be kept clear. This needs dialogue at the campus level and a recommendation. Angela – the mechanism for the prerequisite issue is huge. Pedro asked if counselors and faculty are informed about the way withdrawals work.

We need a recommendation from this body. Marty recommended that we have a rule in Datatel and students who have not completed prerequisites be automatically removed from classes. There is no mechanism in place to dis-enroll if not successful in a pre requisite. Instructors have no way of knowing if the student successfully completed the prerequisite. 1) The Strategic Planning Committee recommends that the Student Learning Committee (SLC) examine ways to have Datatel dis-enroll students who do not successfully complete prerequisite requirements. 2) The Strategic Planning Committee recommends that the SLC review student withdrawal data to determine ways to improve student success and retention rates.

3) The Strategic Planning Committee recommends that the Student Success Committee analyze financial aid data to determine what effect the financial aid processes have on student retention.

James questioned what is next. Do these recommendations go out to respective bodies and then come to PGC for adoption?

After today, recommendations go to the shared governance respective groups, then PGC.

Student persistence is following the methodology that the state uses. He has come up with rates for the college freshmen with 6 units in the fall semester. 61% of students return. We are below the State benchmark. The benchmark put us in a group with other community colleges. Marty asked if we will have transfer rate data in the future. Pedro replied that we do have a transfer rate. The State tracks it and by next year we can compare to the benchmark as we will have persistence rates.

1d): SLO's are 54% complete. Pedro is still missing data. He does not know about course level SLO. Angela is coordinating the non instructional program reviews. The last spring report to WASC reflected 46% programs, plus two. Angela will update the Office of Research and Planning with information on non instructional program reviews. Rene will refer to the WASC report and add two.

Goal 2: Pedro explained that he had included the college's success rates and the combined success rate is reflected. We are above the group average. He is using the highest peer group rate. We need to monitor these to make sure they stay here. Perhaps he needs to use a benchmark that is just for English, rather than State average. This data is just for Lemoore. If we look at our withdrawals, we can improve upon these rates. A recommendation coming from the Basic Skills folks is that we hire an ESL instructor. Each college gets its own report.

2b: When we look at success rates for vocational courses. The group average is 75.7% we were the lowest last year. What has lowered our success rates are the open entry labs. It is a retention issue due to the format. He thinks we need a recommendation. Incompletes do not affect success rate, only W's. Recommendation: The SPC recommends that SLC review vocational programs data for improvement of success and retention.

3d: We need to look at the rates instead of numbers, but they won't be available until next year. This is coming from the Chancellor's office.

CPEC keeps track of transfers.

3a: We have had good growth. Students were counted only once. District-wide we have the highest enrollment in history.

FTES goals: We won't know actual until we finish the semester. These are based on a 2% growth. The state allocated 2% for growth for every community college.

3c: These are Lemoore grants \$3 million in grants.

3d. MAA has brought dollars through outside capital activities. 5C is funded through college grants and school districts that sponsor students to attend.

Outcomes: What should our students be able to do when they leave?

Maybe information competency could be an institutional outcome. Institutional outcome (Marty) more umbrella i.e. certificates, program level outcomes that would include critical thinking outcomes.

SLO' are goals – Rene

Marty – Maybe we need to look at goals in order to write institutional outcomes appropriate for the institution as a whole. These should all be interlocked.

Angela – Matriculation SLO increase the number of students who have ed plans in place.

Pedro - All needs to support each other (course, program, institutional level)

James stated that a SLO college committee could address these issues.

Definition of a Program

It is the recommendation of the SPC that an instructional program be those programs that leads toward a degree or certificate. 11 non instructional programs. All have a funding source.

4) Accreditation Mid-Term Report

a) Planning Agendas

Mr. Warkentin distributed a letter from the Commission telling what we have to do to prepare a mid-term report.

Dave has found out from other schools that they have successfully submitted as to how the college plans to address the agenda items. We have thirty items.

Identify key events that have happened or a recommended plan.

Standard One:

- We have an annual review cycle. The SPC will review the mission statement on an annual basis.
- Pedro and Frances are beginning to help us with our annual report. The five governance committee's annual activities will be included in the annual report.
- We have an assessment cycle for course level programs; a course level SLO assessment cycle has been implemented.

Standard Two:

- The minutes from these minutes will prove regular meetings and topics. It has been recommended by SPC.

- We are doing program review and the definition of programs was defined by the Strategic Planning Committee at a retreat held on 9/28/07. Program reviews are reviewed by the Student Learning Committee.
- We are doing part of this as represented by the report for liberal studies. This can be cited. This planning agenda has been partially met by this report, and further review. UC Office of the President requires that individual schools supply this info. We need further work on this particular item.
- This has been answered in recommendation three.
- How will we do this? Marty stated that maybe we need to lump these two together and this is an area we need to work on. We have some information, but not all.
- Marta's time has been increased since three years ago. The articulation officer's assign time has increased from 10 to 50 percent.
- This has been Mr. Warkentin.
- A survey was added at the end of the application supplemental information was asked. Also a survey was created for a match for on-line classes. This was probably to assess or cause students to assess whether they are a good candidate for on-line classes. The college will do a yearly survey about staff and faculty diversity. Rene would question the numbers from the yearly survey. How did the numbers come? It came from HR from the initial application. This is optional information.
- This was conducted this year 2007. This will occur every semester. Pedro stated that 80% of the on-line bilingual orientation is complete.
- This was done July 2006.
- This has been changed to an on-line repository for on-line instructors for their use, rather than students. On-line students learn about the on-line library from their instructors.
- Librarian is not involved with, but he has cooperation.
- This cannot be Mr. Warkentin according to the librarian due to the licensing agreement with these databases.
- This has been Mr. Warkentin with Facilities, Safety and Technology Committee. The Incident Command Systems and committee to address the development of the first drill on 10/16.
- This is being done by Mr. Warkentin through our SLO and program review for the non instructional programs.

Standard Three:

- Flex day has been moved to the college level. Duty day is a shared event.
- This has not occurred. This is being discussed at WHCIST. There are problems within Datatel that this cannot occur. The current version does not support this.
- Regular budget meetings are held. They meet in Sept. and then December they meet frequently through April. The meet in August to review status, reassemble in December and then meet every two weeks through April.

Standard Four:

- This is being done by Mr. Warkentin
- We have revised our mission statement, goals, and performance indicators. The governance flow chart was revised at June retreat.
- A student worker was hire to help with file maintenance. We need someone beyond a student worker. Our course outlines are now available electronically. The minutes and agendas are on Blackboard.
- This is occurring.
- This has been developed last spring.
- There is a timeline for the district area program reviews.

5) Student Learning Outcomes

a) Timeline

A report was done for WASC last spring.

b) Assessment Process

There was no discussion.

6) Other

Tulare-Kings articulation day is October 9. Carole Goldsmith is going. Articulation agreements have been updated with local high schools. This is at Holiday Inn in Visalia.

Mr. Warkentin distributed the draft mid-term report. This will go to PGC in mid October for first reading.

Formal approval of the new name Strategic Planning Committee will be adopted at the October 3, PGC meeting.

Next Retreat: December 7, 2007 at 11:00 – 2:00 p.m.

**West Hills College Lemoore
Planning and Governance Council
Wednesday – October 17, 2007 - 1:30 p.m.
Conference Center Rm. 256**

MINUTES

Members Present:

Don Warkentin, President
Rene Curriculum, Curriculum Committee Chair
Marty Ennes, CTA/Faculty Representative
Marta Hendrickson, CTA/Faculty Representative
Teresa Macias-Quilici, CSEA/Classified Representative
America Infante, CSEA/Classified Representative
Ron Oxford, Librarian
Jan Young, Counselor/Advisor
Dave Bolt, Vice President of Educational Services
Marlon Hall, Associate Dean of Educational Services, Evening College
Jose Lopez, Dean of Students
Vince Montoya, Director of Facilities & Auxiliary Services
James Preston, Academic Senate President
Yarely Herrera, Student Government Association Representative

Members Absent:

No members were absent.

Others Present:

Susie Briones, Advising Specialist

Call to Order

Mr. Warkentin called the meeting to order at 1:34 p.m.

Approval of minutes - October 3, 2007

The minutes of the October 3, 2007 meeting were approved on a motion by Marty Ennes, seconded by Jan Young, all in favor, motion passed.

ACTION ITEMS

PGC Membership

Mr. Warkentin stated that a proposed membership was distributed at the last meeting with the directive to members to have discussion with each contingency group (see attached membership list). Jan stated that the CSEA consensus was to add one counselor/advisor in addition to the two CSEA representatives. Mr. Warkentin commented that a technology representative would need to be added with the new technology committee proposal. Marta stated that typically librarians are knowledgeable of technology and therefore the Librarian/technology chair could be combined. Marty asked if the chair is not the same person who would then make the determination of librarian or someone else. Mr. Warkentin responded that this committee would make the determination. Marty stated that she serves as a representative of CTA, questioning the desired perspective wanted on this committee. Mr. Warkentin asked if there was consensus to line out the Academic Senate representation assigned to the librarian/technology position and approve the membership with the recommended changes. Marlon Hall motioned to approve the PGC membership with the recommended changes, Ron Oxford seconded, all in favor, with one abstention (Teresa Macias), motion passed.

Approval of SLO Committee

Mr. Warkentin asked if there were questions or discussion about the addition of a Student Learning Outcomes committee to our governance structure. Rene Sanchez explained that the SLO committee is not a subcommittee of the Senate and is intended to be a campus wide committee, with each learning area represented, and the SLO coordinator as chairperson. The

concern of the committee will include course and program level student learning outcomes. Marty motioned to approve the addition of a SLO Committee, it was seconded by Marlon Hall, all in favor, motion passed. Mr. Bolt asked who would be responsible to complete the governance group request. Mr. Warkentin recommended that the responsible person be the current SLO Coordinator, Rene. Rene stated that she is working with David Babb to transition him into the role of the SLO coordinator. David will assume the SLO coordinator role beginning with the spring semester this January. Rene will complete the request form and get the committee off the ground and work with David to take over in January. First, the form will come to PGC for review and approval. Marty suggested that Rene coordinate with the deans to complete the governance group request.

Technology Committee

Marta suggested that the position of the DSPTS Assistive Technology Specialist be a representative on the Technology Committee. James asked if there needs to be someone from the audio/visual department. Ron responded that the audio/visual department is a district level department. The committee will work with TAT and WHCIST. Ron will take the approval of the new Technology Committee to TAT and discuss the membership makeup. He intends to invite the IT staff to the first couple of meetings. Scott Young, media technician, may agree to be a committee representative. Rene motioned to approve the governance group request to add a Technology Committee to our governance structure, along with the two recommended committee representatives (DSPTS Assistive Technology Specialist – 1 and Media Technician – 1), it was seconded by Marta, all in favor, motion passed.

Definition of a Program

Mr. Warkentin explained that a recommendation from one of the accreditation response teams was to formalize a definition of a program. This was achieved at the WHCL Leadership Retreat on September 28, 2007. James stated that these were discussed by Senate with no objections. Mr. Bolt motioned to approve the following definition of a program, it was seconded by Marlon Hall, all in favor, motion passed.

An instructional program is one that leads to a degree or certificate. A non instructional program is one that does not lead to a degree or certificate but has an ongoing identifiable funding source or a specified budget code.

Review Cycle (Mission/Vision, Goals, Institutional Outcomes)

Mr. Warkentin stated that it was recommended by the accreditation team to establish a review cycle for our mission/vision statements, goals and institutional outcomes. Review will be made in the fall semester of each year, annually, to include data from our institutional researcher, Pedro Avila. Marty motioned to approve the review cycle, it was seconded by James, all in favor, motion passed. The following statement will be included in the PGC Manual on page 9.

WHC Lemoore's mission/vision, goals and performance indicators shall be reviewed by the Strategic Planning Committee each fall semester. Recommendations will be forwarded to the respective governance groups and returned to the PGC for recommended revision/s and/or adoption.

Recommendations to Student Success Committee

Mr. Warkentin stated that at the WHCL Leadership Retreat on September 28, 2007, the following recommendations were made to the Student Success Committee. Mr. Bolt motioned to approve the following recommendations to the Student Success Committee, it was seconded by Mr. Lopez, all in favor, motion passed.

- i. SPC recommends that the SSC continue efforts to sustain and improve high school participation rates.***

- ii. SPC recommends that the SSC analyze financial aid data to determine what effects the financial aid processes have on student retention.*

Recommendations to Student Learning Committee

Mr. Warkentin stated that at the WHCL Leadership Retreat on September 28, 2007, the following recommendations were made to the Student Learning Committee. Marty moved to approved the recommendations to the Student Learning Committee, it was seconded by Jan Young, all in favor, motion passed.

- i. SPC recommends that the SLC examine ways to have Datatel disenroll students who do not successfully complete prerequisite requirements.*
- ii. SPC recommends that the SLC review student withdrawal data to determine ways to improve student success and retention rates.*

Formalize the name of WHCL Leadership Group to Strategic Planning Committee

Mr. Warkentin recommends that the name of the WHCL Leadership Group be changed to the Strategic Planning Committee. Marlon Hall motioned to approve, it was seconded by James Preston, all in favor, motion passed.

AP 2510 Participation in Local Decision Making

James Preston stated that the Senate would like another week to discuss this procedure. Mr. Warkentin would like to see this approved at this meeting with the recommended PGC membership changes. James asked if when the document comes back if it would reflect the recommended changes. Our new membership has been approved. James stated that he will abstain from voting on this. Marty suggested that this be approved today and forwarded on with the recommended membership changes. Marty motioned that AP 2510 be approved and forwarded on with the new membership to be inserted into Board Policy 2510, it was seconded by Mr. Bolt, all in favor, motion passed. James asked if it is still necessary for Senate to discuss and approve AP 2510. Mr. Warkentin responded in the affirmative and stated that this will come back on the agenda with the recommended changes after discussion at the Chancellor's Cabinet.

INFORMATION/DISCUSSION ITEMS

1. Mid Term Report Update

Mr. Bolt reported that Jacqui had received all the input for the report and has compiled a complete draft. He has sent the draft to many of the members of this committee with a two week period to return comments. Based on their input the information would go back to Jacqui with approval to occur by this Council in November or December. He has not as yet received any comments. Marty stated that she had had a request from faculty to review the report and they are trying to figure out how best to distribute the report. One suggestion is to convert it to a PDF file and send it out electronically. Hard copies have been distributed. The deadline is Monday of next week as Jacqui needs time to incorporate the changes. Mr. Bolt will work with Lenore to save the report to PDF. He believes the report needs to include more of a historical perspective. He does not want to leave to chance the possibility of it not including answers to the Commission's questions. Jose commented that now the document can be looked at as a whole and other response teams can contribute to the entire report. The November timeline is to allow time for printing, and for review by the Board, at two meetings, and to time for mailing to the Commission by mid March. Mr. Warkentin suggested that Jacqui and Dave schedule

meetings with the recommendation teams and fill in the blanks. Dave reported that Jacqui feels good about the content but more information is needed.

2. Program Review - Education

Mr. Warkentin explained that we need to show evidence of institutional effectiveness and communication for accreditation. One way to show evidence of communication is by bringing completed program reviews for approval to this body. The district office program reviews that were completed last year came to this body as a courtesy. Mr. Warkentin would like the program review preparer to attend the PGC meeting to review their specific program review. This process has not yet occurred as yet on our campus. The program review on the agenda today is the incorrect one. The correct one will be on the next agenda. James commented that when the program review is complete it is sent to the Student Learning Committee; they approve it, and then ask that the preparer to come to present it to the PGC. If we begin this process this year by our next accreditation visit we will be able to show the visiting team that these are being reviewed and approved. Mr. Bolt will prepare a program review schedule of the due dates of program review.

3. Academic Senate Report

James reviewed the faculty committee appointments made at their last meeting. He questioned if there needed to be a separate representative for the SLO Committee. Mr. Warkentin responded that a SLO representative will be needed beginning next semester. They have also completed the alignment for learning areas. An e-mail has been sent to faculty asking for responses to the learning areas alignment. To date, James has received twenty-two responses and is awaiting eighteen more.

4. Report from Committee Representative

a) Student Learning Committee

Mr. Bolt reported they had their first meeting. The discussion was on how program review is tied into staffing and facilities. The members of the committee did not see the connection until it was explained. The next meeting is scheduled in November.

b) Budget Allocation Committee

Mr. Bolt reported that they have had several meetings with the meetings consisting of review of the 07-08 adopted budget. The next meeting is tomorrow at 3:00 p.m. Ken Stoppenbrink and Anne Jorgens have been invited to discuss individual line items. Some funds have not yet been received and the lottery allocation is still unknown. The governor did approve the basic skills legislation and our school will receive \$100,000. DSPS has been notified that they will receive an additional \$370,000. Mr. Lopez stated that Matriculation had also received a \$125,000 additional allocation.

c) Facilities, Safety, and Auxiliary Services Committee

Vince reported that he had last met with the Incident Command Team on October 5 prior to the drill. Incident reports he reported were: A faculty member fainted on campus. On October 15 at 4:00 p.m. a car was vandalized in the 700 building parking lot, a police report was completed and a picture was taken. The drill was held yesterday. What went right: Much was learned about the process and the communication flow that transpires. The ICS team interacted with the press and the local jurisdictions quite well. The drill was to involve a plane crash to the east side of the library, however, there was some confusion and the crisis led to a fire scenario rather than a plane crash. All areas were videotaped. This was a good experience for the college and it will continue to be an annual activity with improvements each year.

d) Student Success Committee

Mr. Lopez reported that they had met last week. Tammy Larsen is leading a sub committee to look into the area of retention. They are gathering information and looking at what other schools are doing. The end result will be a retention plan. Susie Briones is working on the student handbook. Angela Tos is working on the Matriculation Plan.

e) Employee Development and Success Committee

Dr. Hall reported that they had met last Friday for a strategic planning retreat. They have made some changes to their membership and set the goal to plan a major event each semester. The newsletter name will be changed to the Eagle's Eye. They will reinstitute an employee of the month activity. December 7 is the date set for the Christmas celebration. Staff development, PERS and STRS activities are also to be planned. The sign language instructor has offered to provide some staff room lessons. They are planning two major staff development events per year; one each semester. Vince commented that he had observed that support staff are too busy on duty day to attend staff development activities. He believe there would be more support staff to attend if activities were held at a different time of year. Mr. Warkentin asked that the committees making changes to their roles to bring a revised governance group request to the PGC. EDSC will develop a staff development request procedure. James commented that he would like to see more faculty go to conferences. He believes faculty don't know the process to request conference/seminar attendance. For staff who do attend conferences a report needs to be given and how their conference attendance has benefited our staff and/or students. James reported on the success of a brown bag lunch, book read, that some faculty had participated in.

5. Student Government Association

Yarely reported that there would be a wrestling match at 5:00 p.m. and 7:00 p.m. this evening. There is also a car wash this coming Sunday in front of K-mart. SIFE is in charge of the Haunted House this year. Jan asked who would be assisting with the Haunted House activity in the absence of Dean Atkinson-Alston. Mr. Warkentin stated that it may be Stephanie Droker.

6. WHCIST

In the absence of Dave Bolt at this time in the meeting, no report was given.

7. Agenda items for next meeting:

- Education Program Review
- Employee Development and Success Committee revised governance request form
- SLO Governance Group Request (new)

8. Other

Marty commented that suspension of classes on the evening of Thanksgiving had been disallowed by a previous president. The agreement is that all classes be suspended from 4:00 p.m. on the evening before Thanksgiving as specified in a memorandum of understanding between CTA and the District. Marty will send a copy of the memorandum to Mr. Warkentin.

9. Adjournment

The meeting was adjourned at 3:10 p.m.

TRANSFERS TO FOUR YEAR INSTITUTIONS

Data Source: National Student Clearing House; WHCCD Data Warehouse

Definition: The annual numbers of transfers to four-year institutions were determined by students who completed at least 12 units in the WHCCD system and stopped attending WHCCD prior to transferring to a four year institution.

Assessment:

- In '07, 92 students transferred to public four year institutions; 148 students transferred to private four year institutions.
- In the six years observed, more students transferred to California private institutions each year than transferred to California public institutions.
- The number of students transferring continues to increase with the most significant gains occurring at California private four year institutions.

Data Source: National Student Clearing House; WHCCD Data Warehouse

Definition: Based on WHCCD students who completed at least 12 units primarily online from a combination of online courses from WHCC and WHCL and stopped attending WHCCD prior to transferring to a four year institution.

Assessment:

- The number of online transfers has significantly increased over the six years observed.
- Significant gains have been made in the number of students transferring to out of state public institutions.

Introduction

West Hills College Lemoore (WHCL) opened its doors in January 2002 with initial facilities that included a library/learning resource center, academic learning center, and administrative/student services building. In 2005, the college added phase two facilities which included additional classrooms, vocational laboratories, and a child development center.

WHCL received its initial accreditation in June 2006 making it the only full service accredited college in Kings County. In November, 2008, the voters approved Measure E in the amount of \$31 million which is being used as matching funds to construct phase three facilities. These projects include a multiuse sports complex, additional field sports, an additional academic center, a performing arts center, and additional administrative offices. Phase three construction began in October 2009 with the ground breaking of the multiuse sports complex.

The College's Strategic Plan serves as the roadmap to guide the development of the college's Educational Master Plan, Facilities Master Plan, the Technology Master Plan, and the Distance Education Master Plan. Combined these plans assist the college in meeting its goals and evaluating its programs and services.

Each year, a broadly represented group of faculty, staff, students, community members and administration meet to review and revise the College's Strategic Plan to better identify and address the needs of the community we serve.

WHCL's mission statement appropriately identifies who our students are and signifies a commitment to student learning outcomes utilizing innovation, goal orientated strategies, and community partnerships to provide excellent learning opportunities. We have identified institutional outcomes that will ensure that our students are prepared with the skills and experiences needed to succeed in the world of work or to transfer to four year institutions of higher learning. These outcomes and their methods of assessments (including data, interpretations, and strategies for improvement) are detailed in this document (see the WHCL Institutional Outcome Short Form, pp. 21 - 24).

Through a process of regular evaluation and review, we will be able to constantly update and revise programs or develop new programs to meet current demand. Our faculty will be provided with the latest technology and means of delivery to provide high quality instructional experiences to our students. Faculty will have access to the latest training opportunities to further enhance their curriculum and course delivery modalities. Our administrators will have the tools and information available to make effective and reliable decisions that are based on sound leadership practices. Together, all of these efforts will provide our students with high quality learning and success toward their individual goals.

Executive Summary

From the beginning WHCL has recognized the importance of responding to the community. Through advisory committees meetings and meetings with public sector representatives, private industry, and neighboring institutions of higher learning, the college has developed programs and services that are proactively addressing community educational and workforce requirements. Not only do such programs meet the employer needs of the area, but they also offer work training opportunities to students who are underrepresented, many of whom struggle academically.

WHCL's collaborating partners are vital to our students' success. WHCL has on-going partnerships with the local hospitals, workforce investments boards (WIBS), county administrative offices, local feeder high schools, four year universities, as well as many industry representatives.

The development of recent educational programs such as the associate degree in nursing, culinary arts certificates, maintenance mechanic certificate, health and human services certificates, and the associate's degree in web development are shining examples of WHCL's commitment to collaboration, developing career pathways, and exceeding our local community's workforce development needs.

WHCL's commitment to the community is strengthened by supporting various programs and services on and off campus. These programs and services include a grant funded by Kings County to offer GED Preparation Classes to assist adults who have not yet graduated from high school, local business events like the Chamber of Commerce Pizza Festival to increase local business visibility, upper division and post baccalaureate courses from Fresno Pacific University and CSU Fresno, and community education courses that provide learning enrichment for our neighboring citizens.

In addition, the college is responsive to the needs of Naval Air Station Lemoore. With a base resident population of approximately 7,000 active military personnel and dependents, the college is a valued source of education for the base. The college maintains an office and classrooms on the base, but most base students also come to the college campus. The needs of these personnel are varied, ranging from newly enlisted servicemen who may have little education and are in need of basic classes, to highly educated military personnel and dependents. WHCL seeks to offer courses to meet the spectrum of requirements, and works closely with base officials to select and design these courses.

WHCL faculty, staff, and administrators also know that education does not only occur within the classroom. In order to enhance the learning opportunities of the community we serve, WHCL provides outreach services and brings local events to broaden social awareness of diverse socio-economic issues. Previous events have included nationally recognized authors, cultural celebrations, visiting delegates from other nations, and political activists.

Strategic Planning Process

As a result of the West Hills Community College District's strategic planning process, West Hills College Lemoore has developed its own strategic plan to align with the district's mission, vision, and strategic goals.

The strategic planning process begins each fall semester with the identification of administrators, faculty, staff, students, and community members who will make up the Strategic Planning Committee. The purpose of this committee is to evaluate, revise, and improve the college's strategic plan. Although this plan is a long term commitment to the college's mission and vision, annual review is required to keep our institution focused on current trends and changes that affect our students' total development. This annual review ensures accuracy, relevancy, and alignment with the district's overall mission. The college's performance indicators are assessed annually to ensure adherence to the college's mission and vision statements.

Planning meetings consist of information gathering sessions which include an internal and external scan. The internal scan includes discussion of student demographics (current and anticipated), student success indicators, college needs and challenges, and an assessment of our successes and our opportunities for growth. The external scan includes discussion of population trends, economic growth, job training needs, impact of the Lemoore Naval Air Station, and other external factors that will affect the college.

The success of the strategic planning process is dependent upon the college's shared governance system. Responses from the strategic planning sessions are tracked and mapped to specific committee or department personnel for implementation. Timelines are determined and a communication network has been developed to inform the college shareholders of these outcomes.

The Strategic Planning Committee (its participating students, faculty, staff, administrators, and community members) are to be commended for their commitment to our college and for their collaborative efforts in support of our comprehensive planning process. Successful implementation of the college strategic plan and its evaluation will require the ongoing participation of the shared governance process (councils/committees, college students, faculty and staff, and the community) as we work together to achieve our mission, vision, and goals.

Mission/Vision and Institutional Outcomes

Mission Statement

West Hills College Lemoore enriches the lives of our students and the community we serve by being dedicated to quality educational learning opportunities and partnerships. The college provides a positive environment that is committed to student learning and empowering students to achieve their educational goals.

Vision Statement

Learning Through Excellence and Innovation.

Institutional Outcome 1 - *WHCL is committed to provide quality education to students and the community.*

Measurements:

1. Community Participation Rates
2. High School Graduates Participation Rates
3. Overall Success Rates
4. Overall Retention Rates
5. Persistence Rates (continuous enrollment)
6. Student Learning Outcomes Implementation and assessment

Institutional Outcome 2 - *WHCL is committed to empower students to achieve their educational goals.*

Measurements:

1. Basic skills math successful course completion & retention
2. Basic skills ESL successful course completion & retention
3. Basic skills English successful course completion & retention
4. Vocational courses successful course completion & retention
5. Degree and certificate completion
6. Transfers to four year institutions

Institutional Outcome 3 - *WHCL will effectively maintain and increase its resources and productivity.*

Measurements:

1. Monitor Student Headcount
2. Meet Full-Time Equivalent Students (FTES) Goals
3. Successful Grant Acquisitions
4. Increase Revenue Generated by Outside Capitol Campaign Activities

Guiding Principles

West Hills College Lemoore is student-centered and is dedicated to providing high quality learning opportunities. We are guided by our core values:

- Access: *Ensure accessibility to all our programs and services.*
- Collaboration: *Emphasize efforts to understand and meet community needs and garner community support. Support collaborative decision-making processes.*
- Community: *Develop and foster a sense of community within the college.*
- Diversity: *Respect and embrace diversity in our programs and learning environments*
- Excellence: *Provide high quality learning, teaching, and service opportunities.*
- Innovation: *Support innovation and technology to enhance learning environments, services, and communication.*
- Integrity: *Advocate and demonstrate honesty, truthfulness, equity, and ethics.*
- Mutual Respect: *Promote an environment of open communication.*

Themes

There are several “themes” woven into each of the Institutional Outcomes and their respective success indicators.

Institutional Commitments to provide high quality educational programs and services consistent with the institutional and college mission by focusing on student learning;

Evaluation, Planning, and Improvement is an ongoing process that includes goal setting; distribution of funding, facilities and staffing; implementation, and reevaluation;

Student Learning Outcomes demonstrates the college’s effectiveness to produce and support student learning by developing student learning outcomes at the course, program, certificate, and degree level;

Organization is demonstrated by having adequate staff, resources and a shared governance decision-making process to identify and make public: student learning outcomes, to evaluate the effectiveness of programs in producing those outcomes, and to make improvements;

Dialogue is open and honest participation in the college’s process of self-reflection based on reliable information about the college’s programs and services and evidence on how well the institution is meeting student needs;

Institutional Integrity is demonstrated by concern with honesty, truthfulness, and the manner in which the college represents itself to all communities, internal and external.

Data Analysis

Strategic Planning provides an opportunity to evaluate the demographics and characteristics of our students and their educational goals. We use this data (performance indicators) to discern patterns and trends. This information also provides different modalities of assessment to ensure that we are achieving our institutional outcomes.

WHCL's performance indicators are mapped back to our mission statement and institutional outcomes. Data is collected annually to address and measure each institutional outcome.

Institutional Outcome 1 - WHCL is committed to provide quality education to students and the community. Providing quality education is the mission of West Hills College Lemoore. In order to evaluate our performance for this institutional outcome, data is collected from different sources and used as key measurements to determine the college's level of achievement. Measurements include: Community Participation Rates, High School Graduates Participation Rates, Overall Success Rates, Overall Retention Rates, Persistence Rates (continuous enrollment), and Student Learning Outcomes Implementation and Assessment.

For the 2008 – 2009 academic year, it was noted that Avenal and Kettleman City have the lowest population participation rates (1.a). These two cities are located farthest from the WHCL campus. This data supports the idea that a campus center is needed in Avenal. *Strategy:* Funds from the recent bond measure have been allocated to develop a center (to provide classes and support programs) in Avenal.

Another trend to note concerns retention rates (1.c). Retention rates have been on a declining trend for the past four years. Retention has a direct impact on student success rates; therefore, success rates have declined at almost the same rate as retention. Online retention rates are about 5 percentage points below face-to-face retention rates. *Strategy:* This issue was discussed at the Distance Education Strategic Planning retreat and has become a top priority for the Distance Education program.

Student Learning Outcomes (SLO) Assessment (1.d) continues to drive the college's curricula evaluation review process. SLO have been written for all college courses, and faculty and staff have persisted to develop and assess outcomes for programs and services. *Strategy:* Continue SLO development and assessment to ensure curricula and support services are evaluated consistently and accurately.

Institutional Outcome 2 - WHCL is committed to empower students to achieve their educational goals. Empowering students is the mission of West Hills College Lemoore. Institutional outcome measurements are: Basic Skills Math Successful Course Completion and Retention Rates, Basic Skills English as a Second Language (ESL) Successful Course

Completion and Retention Rates, Basic Skills English Successful Course Completion and Retention Rates, Vocational Courses Successful Course Completion and Retention Rates, and Degree and Certificate Completion Rates, and Transfers Rates to Four Year Institutions.

For this institutional outcome, it is noted that Basic Skills English Success Rates are comparable to the statewide average. In addition, English as a Second Language (ESL) and Math success rates are well above the state wide average. It should be noted that about 50% of first-term students are placing into basic skills English and Math. WHCL's commitment to students who meet basic skills academic levels is commendable. Data supports the idea that WHCL's English Lab (a tutoring lab to support basic skills programs in this discipline) assists students to achieve their academic goals.

Vocational Courses Success and Retention Rates (2.b) continue to be below our peer group benchmark average. For the past three years, our vocational success rates have been one of the lowest in the state. It has become apparent that the classroom format (open entry lab) for the Business and Computer Science courses have consistently generated low success rates. Data supports the idea that an open entry classroom lab must be adjusted to a more traditional classroom format in order to promote student success. **Strategy:** Change Business and Computer Science courses from open entry lab format to traditional classroom format.

Institutional Outcome 3 - WHCL will effectively maintain and increase its resources and productivity. Measurements for this institutional outcome are: Monitor Student Headcount, Meet Full-Time Equivalent Students (FTES) Goals, Successful Grant Acquisitions, and Increase Revenue Generated by Outside Capitol Campaign Activities.

WHCL (and the district as a whole) has steadily increased student head count and full time equivalency rates (FTES). In fact, with the current state budget issues, the California Community College Chancellor's Office (system office), has *decreased* WHCL's FTES generation quota in order to meet the state budget cuts. These cuts are in spite of the increasing student enrollment that all California Community Colleges are facing.

WHCL has also been very successful with increasing access to soft money funding through grants and in-kind services. In the 2008 – 2009 academic year alone, WHCL received nearly \$5 million in soft money funding. **Strategy:** Continue to work with the district's grant and marketing departments to capitalize on additional grant acquisitions and in kind service donations to augment district budget cuts where possible.

Goal 1 - WHCL is committed to provide quality education to students and the community.

West Hills College Lemoore

Institutional Outcomes

Originator(s): Stephanie Droker – Faculty/Strategic Planning Committee

Date: 8/18/10

I. Expected Outcomes Defined

IO 1: WHCL is committed to provide quality education to students and the community.

IO 2: WHCL is committed to empower students to achieve their educational goals.

IO 3: WHCL will effectively maintain and increase its resources and productivity.

II. Mapping Institutional Outcomes to the College Mission Statement

West Hills College Lemoore enriches the lives of our students and the community we serve by being dedicated to quality educational learning opportunities and partnerships. The college provides a positive environment that is committed to student learning and empowering students to achieve their educational goals.

Institutional Outcome 1: WHCL is committed to provide quality education to students and the community. Mapping: “quality educational learning opportunities.”

Institutional Outcome 2: WHCL is committed to empower students to achieve their educational goals. Mapping: “empowering students to achieve their educational goals.”

Institutional Outcome 3: WHCL will effectively maintain and increase its resources and productivity. Mapping: “The college provides a positive environment that is committed to student learning.”

III. Defining Assessment of Institutional Outcomes

Identify appropriate assessment methodologies for the outcomes, including summative assessments where appropriate.

1.)

1. Community Participation Rates
2. High School Graduates Participation Rates
3. Overall Success Rates
4. Overall Retention Rates
5. Persistence Rates (continuous enrollment)
6. Student Learning Outcomes Implementation and assessment.

2.)

1. Basic skills math successful course completion & retention
2. Basic skills ESL successful course completion & retention
3. Basic skills English successful course completion & retention
4. Vocational courses successful course completion & retention
5. Degree and certificate completion
6. Transfers to four year institutions

3.)

1. Monitor Student Headcount
2. Meet Full-Time Equivalent Students (FTES) Goals
3. Successful Grant Acquisitions
4. Increase Revenue Generated by Outside Capitol Campaign Activities

IV. Assessing Institutional Outcomes, Planning, and Improvements

Assessments for all institutional outcomes are reviewed annually by the Strategic Planning Committee. Assessment data, results, interpretations, and resulting modifications are located within the Strategic Planning Manual.

Additionally, the college mission and vision statements (the originating document in which these institutional outcomes are derived), are reviewed annually by the Strategic Planning Committee. Suggestions for modifications of these statements are then forwarded to the Planning and Governance Council (which seeks input from all college constituencies) for approval, and if so moved, forwarded to the Board of Trustees for approval and implementation.

Strategic Planning Committee Membership

Linda Amaya-Guenon	EOPS Counselor
Frances Andrade	Library Technician
David Babb	Biology Instructor
Jameson Birrell	Math Instructor
Dave Bolt	Vice President of Educational Services
Sylvia Dorsey-Robinson	Vice President of Student Services
Stephanie Droker	Instructor CWEE/Political Science
Charles Freeman	Director of Nursing
Garrett Gudge	Student Representative
Marlon Hall	Associate Dean of Evening College
Robert Hall	Instructor Geography
Angel Isidoro	SGA President
Myeisha Johnson	SGA Vice President
Tammy Larson	Instructor Basic Skills
Jose Lopez	Dean of Students
Tiffani McGee	Student Support Services Counselor
Jose Murrieta	Advising Specialist
Dave Neer	Instructor/Golf Coach
James Preston	Instructor/TEAM Teach Director
Christian Raia	Culinary Instructor
Rebecca Riddle	Student/Financial Aid Assistant
Joel Rogers	Instructor/Biology/Health/Kinesiology
Joel Ruble	Director of Categorical Programs
Rene Sanchez	History Instructor/ Curriculum Committee
Kimberly Sheffield	Instructor/Basic Skills English
Anna Silvestre	Office Manager Student Services
Kurt Sterling	Instructor/Biology
Elva Torres	EOPS Secretary
Don Warkentin	President

INSTRUCTIONAL PROGRAM REVIEW

West Hills College Lemoore

I. General Information

- A. Instructional Program: _____
B. List of Full Time Program Faculty and Staff:

II. Program Overview

- A. State the program mission. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. The program mission must align with the college's mission and goals. *(200 word limit)*
- B. List any recommendations from the most recent college/program/department accreditation and/or previous review. *(250 words or less)*
- C. Identify all personnel, including the number of certificated, classified professionals and volunteers.

Employee Classification:

Certificated _____ Classified Professional _____ Volunteer _____
Student Workers _____

Diversity (Race/Ethnicity)

- | | |
|---|--|
| <input type="checkbox"/> Native Am. /Alaskan Nat. | <input type="checkbox"/> African/African-American/Non-Hispanic |
| <input type="checkbox"/> Asian/Pacific Islander | <input type="checkbox"/> Caucasian/Non-Hispanic |
| <input type="checkbox"/> Hispanic | <input type="checkbox"/> Filipino |
| <input type="checkbox"/> Mixed | |

III. Qualitative and Quantitative Data Review

- A. Attach dashboard statistics here.
- B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific program. *(250 words or less)*
- C. Attach any other data maintained by your program or at the division level: (e.g. budget information regarding costs per program on personnel, equipment, supplies, delivery of services).
- D. What resources are required to maintain the program, and what additional resources are necessary to improve or expand it?

IV. Professional Development

- A. What professional development activities have faculty participated in? Have any of these professional development activities been technology related? Please specify.
- B. Relate how the professional development activities have improved student learning outcome attainment.
- C. Describe the program's plans for staff development over the next four years.

V. Curriculum and Student Learning Outcomes

- A. List your Instructional Program-Level Student Learning Outcomes.
 - 1. Have any Instructional Program-Level Student Learning Outcomes been changed from the completion of the previous program review? What are the changes? Attach documentation.
 - 2. Describe the assessment used to improve student learning. Cite a specific example.
- B. Explain how Instructional Program-Level Student Learning Outcomes are used to measure quality and success of this department/service area.
- C. Review course outlines and prerequisites. List all courses that apply to this program requiring a five-year course outline review.
 - 1. Describe the curriculum changes anticipated in the next two years. (These changes would include major course revisions, deletions, new courses, revised or new options within a program, or a proposed new program).
- D. To what extent is technology being used in the program?
- E. How does the program ensure that the current curriculum is adequately meeting the needs of the students?

VI. Career Technical Education Only

- A. Does your program result in providing licensing or certification to its program graduates which will enhance opportunities for employment? If yes, list.
- B. Discuss the opportunities available to students who plan to transfer to an institution of higher learning.
- C. Discuss the effectiveness of your program in terms of:
 - 1. Entry-level job placement as a result of training.

2. Effectiveness of continuing education to meet the need for advanced training and/or training in emerging technologies.
 3. State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).
 4. Comment on how the success rate compares to the success rate of the same program at other colleges in the region. *(250 words or less)*
- D. What would be the preferred sequence of courses to be taken to achieve your program's goal of a degree or certificate?
- E. How does the program ensure that the current curriculum is adequately meeting the needs of students?
- F. Excluding curriculum validation, discuss community involvement in the program.
- G. List any special accreditations, external regulations, or advisory committees that have oversight to your program.
- H. List any special regulations, space requirements, staff training, etc. required by your program.
- I. List any program initiatives to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical, mental disabilities, re-entry, gender, etc.).
- H. Discuss the program's use of external funding, including grants, if applicable.

VII. Summary and Recommendations

- A. Based on analysis of the information provided in Sections I through VI above, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.
1. Program strengths:
 2. Areas that need improvement:
 3. Strategies and actions for program enhancement and improvement:
- B. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

NON-INSTRUCTIONAL PROGRAM REVIEW
West Hills College Lemoore

I. General Information

- A. Non-Instructional Program: _____
- B. List of Full Time Program Faculty and Staff:

II. Program Overview

- A. State the program mission. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. The program mission must align with the college's mission and goals. *(200 word limit)*
- B. List any recommendations from the most recent college/program/department accreditation and/or previous review. *(250 words or less)*
- C. Identify all personnel, including the number of certificated, classified professionals and volunteers.

III. Qualitative and Quantitative Data Review

- A. Attach dashboard statistics here.
- B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific course/program/service. *(250 words or less)*
- C. Attach any other data maintained by your program or at the division level: (e.g. budget information regarding costs per program on personnel, equipment, supplies, delivery of services)
- D. What resources are required to maintain the program, and what additional resources are necessary to improve or expand it?

IV. Professional Development

- A. What professional development activities have faculty participated in? Have any of these professional development activities been technology related? Please specify.
- B. Relate how the professional development activities have improved student learning outcome attainment.
- C. Describe the program's plans for staff development over the next four years.

V. Curriculum and Student Learning Outcomes

- A. List your Non-Instructional Program-Level Student Learning Outcomes.
 - 1. Have any Non-Instructional Program-Level Student Learning Outcomes been changed from the previous program review? What are the changes? Attach documentation.
 - 2. Describe the assessment used to improve student learning. Cite a specific example.
- B. Explain how Non-Instructional Program-Level Student Learning Outcomes are used to measure quality and success of this department/service area.
- C. To what extent is technology being used in the program?
- D. How does the program ensure that current delivery of service is adequately meeting the needs of students?
- E. State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).
- F. Comment on how the success rate compares to the success rate of the same program at other colleges in the region. *(250 words or less)*
- G. Excluding curriculum validation, discuss community involvement in the program.
- H. Do special accreditations, external regulations, or advisory committees regulate the program? Yes No (if yes, list)
- I. Does the program have any special regulations, space requirements, staff training, etc.? Yes No (if yes, elaborate)
- J. Is there evidence of unmet student needs in the program? Yes No (if yes, elaborate)

- K. Describe the initiatives the program has implemented to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical, mental disabilities, re-entry, gender, etc.)
- L. Discuss the program's use of external funding, including grants, if applicable.

VI. Summary and Recommendations

- A. What actions have been taken to address the assessment and improvements of program learning outcomes?
- B. Based on analysis of the information provided in I through VII, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.
 - 1. Program strengths
 - 2. Areas that need improvement
 - 3. Strategies and actions for program enhancement and improvement.
- C. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

 Dave Bolt, Budget Allocation Committee Chair
 Dave Bolt, Institutional Effectiveness and Program Review Committee Chair
 Eva Jimenez, Advisor/Counselor
 Rene Sanchez, Curriculum Committee Chair
 Ron Oxford, Librarian
 Linda Aznaya-Guennon, WHC Faculty Association Representative

Governance Structure

Introduction

The West Hills College Lemoore governance structure and process is designed to be inclusive and collaborative. It involves faculty, staff, students, community members and administrators in the planning and operation of the college. The governance structure and practices were developed collaboratively and support the participatory approach to decision-making. The Board of Trustees is the final authority for governance at West Hills College Lemoore, and delegates its authority to the District Chancellor who in turn delegates authority to the College Presidents. The College President then solicits and receives input through the participatory governance decision-making process at the college level.

Organization

The Planning and Governance Council (PGC), as the principal participatory governance body of the College, creates the processes for recommending College policies and governance committee structures (see AP 2410). The PGC reviews recommendations and requests of committees, planning groups, and task forces in order to determine appropriate actions. The PGC amends and guides the planning processes and recommends policies and procedures to respond to the changing needs of the student population and the internal and external environments. The PGC develops, implements, evaluates, and revises, if necessary, the College's plans and initiatives, both long-term and short-term. All decision making is based on the college's mission and vision statements, as well as the strategic plan and educational master plan.

The Strategic Plan (developed and revised by the WHCL Strategic Planning Committee) outlines the tasks and actions to be accomplished during the upcoming year. The PGC reviews the Strategic Plan and evaluates progress toward achieving the college goals. Each governance committee is responsible for achieving the tasks and actions as outlined for each committee within its goals, roles, and products. The governance committees report directly to the PGC and each has a representative on the PGC. The College President serves as the chair of the PGC. All governance committee representatives on the PGC report progress on their assigned goal, objectives, and activities at the PGC meetings.

Representation

The governance structure provides for representation from five recognized constituencies at West Hills College Lemoore: Students, Academic Senate, Faculty Association (WHCFA), Classified Staff (CSEA), and administrators.

Planning and Governance meetings are public. In addition, to representation afforded to individuals through constituencies, other individuals and groups may be heard in any governance meeting by requesting and receiving permission from the chair to participate and/or have items added to the agenda.

Appointments from the constituencies, when not specified by position, are made by the following:

- SGA – students
- Academic Senate – faculty
- WHCFA – faculty
- CSEA – classified staff
- President – administrators

The constituent appointees serve the length of term designated by the constituency group and/or the President.

Responsibilities of Representatives

The primary responsibilities of representatives are as follows:

- Prepare for and attend meetings
- Communicate with individual constituencies. All representatives are responsible for keeping their respective constituencies informed of the proceedings and recommendations
- Contribute to informed decision-making

Meetings and Actions

The agenda of each meeting shall be prepared by the chair (College President or his/her designee) and shall be posted (on the college website and intranet team site) at least 72 hours in advance of the meeting. All meeting minutes will be posted following approval of the council.

The latest edition of Robert's Rules of Order shall be the authority on parliamentary procedure in all PGC meetings.

The chair or his/her designee and a simple majority of the members of the council shall constitute a quorum.

The council shall attempt to achieve consensus for any and all actions. When consensus cannot be reached, a majority of members shall determine the recommendation.

The process for presenting items first for information, then for action at a subsequent meeting shall be followed. The PGC will have 60 days in which to complete the review and approval process of board policies and administrative procedures at the college level and submit final comments, recommendations or actions taken with regard to the policy/procedure to the Chancellor's Office (AP 2410). Allowance will be made for suspending this process when deemed appropriate by a majority.

Definitions

Council: A group of constituency representatives designated or selected to act in an advisory capacity that meets on a regular basis. The charge of a council entails college-wide issues and is the designated governance group.

Standing Committee: A permanent committee of constituency representatives intended to consider all matters pertaining to a designated subject that meets on a regular basis. A standing committee is part of the governance structure and reports to a Council.

Permanent Sub-Committee: A permanent sub group of a standing committee designated to consider specific subjects in detail for recommendations back to the standing committee. The chair must be a member of the committee to which it reports. Other members need not be members of the committee to which it reports.

Ad Hoc Committee: A committee created by a council or standing committee to address and make recommendations on a particular subject as needed and meets until a task is completed. The members need not be from a council or standing committee.

Task Force: A constituency-represented group created to address a special college-wide subject/issue and meets until the subject/issue is resolved.

West Hills College Lemoore Governance Process

Planning and Governance Council

Role: The PGC represents all constituent groups of WHCL, develops or revises and approves governance policies and communicates with the respective groups. The strategic planning process guides budget priorities. Recommendations made by the PGC reflect the values and support the mission of the College and are in the best interest of improving student success and serving the community. The PGC, as the recognized participatory governance body of the College, creates the processes for recommending College policies and governance committee structures. The PGC amends and guides the planning processes and recommends policies and procedures to respond to the changing needs of the student population and the internal external environments. The PGC develops, implements, evaluates continuously and revises, if necessary, the College plans and initiatives, both long-term and short-term. A three-year planning cycle is used to implement the Master Plan. The PGC has oversight of college standing committees and receives and monitors reports. Communication with individual constituencies and participation in the Council meetings are primary responsibilities of the PGC members.

Products: Annual evaluation of the institutional outcomes, Strategic Plan and program reviews, annual progress report, policies and procedures recommendations.

Diversity Statement: The PGC will review all new committee structures, policies, or procedures for the diversity statements, holding the “requesting” individual or group accountable for including the consideration of appropriate diversity issues into their processes.

PGC Membership (Approved: 9/15/2010)

Voting Members

- 1 - Chairperson - College President (votes only in case of a tie)
- 1 - WHC Faculty Association (WHCFA)
- 1 - Academic Senate
- 2 - Classified School Employees Association (CSEA)
- 2 - Administrators
- 2 - Student Government Association (SGA)

Non Voting Members

- | | |
|--------------------------------|-----------------|
| 1 - Counselor/Advisor | 1 - Chair, SLOC |
| 1 - Curriculum Committee Chair | 1 - Chair, SSC |
| 1 - Librarian | 1 - Chair, EDSC |
| 1 - Chair, BAC | 1 - Chair FSAC |
| 1 - Chair, IEPRC | 1 - Chair TC |

Reporting Relationship: The PGC Chairperson reports to the District Leadership Council, Chancellor, and Board of Trustees.

Meeting Schedule: Twice per month; first and third Wednesday.

Council/Committees

The following councils/committees' are represented on the Planning and Governance Council. All input derived from these groups is incorporated into the college's decision making and planning processes.

Budget Allocation Committee

Goal: To build and foster a strong commitment to the use and development of community, technology, education, and funding in order to effectively increase the resources and productivity at West Hills College Lemoore.

Role: The WHCL Budget Allocation Committee has the responsibility of soliciting budget proposals from its staff for the purposes of conducting business. Area Budget Sub-Committees from: 1) Arts and Sciences 2) Occupational Education 3) Student Services and 4) Maintenance and Operations will provide input to the Budget Allocation Committee. Once received, the Budget Allocation Committee will prioritize these requests based on their impact on student success and the college's mission and vision statements. The college's budget recommendations and priorities will be sent to the Planning and Governance Council.

Products: Prioritized list of budget recommendations to be sent to the Planning and Governance Council.

Diversity Statement: WHCL is committed to the appropriation of resources that includes thoughtful consideration of the special needs of its diverse students, faculty, staff, and community populations. It is expected that the Budget Allocation Committee will actively implement diversity issues into their budget processes. When forwarding action and/or information items to the PGC, the Budget Allocation Committee will identify the items addressed in each item.

Membership: (Chairperson to be elected by the committee membership)

- 2 – Administrators
- 2 – WHC Faculty Association (WHCFA)
- 2 – Classified School Employees Association (CSEA)
- 1 – Student Government Association (SGA)

Reporting Relationship: Planning and Governance Council

Meeting Schedule: Every two weeks beginning in January and continuing until April.

Employee Development and Success Committee

Goal: West Hills College Lemoore recognizes the importance of institutional development. To this end, Institutional Development will act as a catalyst to support and enhance the other four goals.

Role: The Employee Development and Success Committee (EDSC) will develop, implement, and monitor issues and activities related to helping all WHCL employees maximize their success in the workplace. Areas of responsibility include professional development activities, training needs, employee recognition activities, and employee social activities and celebrations. The EDSC will survey college employees bi-annually for training and professional development needs resulting in an annual schedule of programs and events. The EDSC will plan and implement these programs and events in collaboration with the Academic Senate, CSEA, and college administration. The EDSC will plan and coordinate various college employee social activities, including end-of-year celebration of programs and events and prepare an annual report.

Products: Annual professional development plan; employee notification of programs and events; evaluation of programs and events; annual plan.

Diversity Statement: The EDSC will actively address issues of diversity in the workplace including but not limited to: access, gender, age, culture, race, religion, experience and education.

Membership: (Chairperson to be elected by committee membership)

- 3 – Classified School Employees Association (CSEA)
- 1 – Student Government Association (SGA)
- 3 – WHC Faculty Association (WHCFA) (one from Educational Services)
- 3 – Student Services Representatives
- 1 - Associate Dean of Educational Services, Evening College

Reporting Relationship: Planning and Governance Council

Meeting Schedule: First and third Thursdays of every month August to May

Facilities, Safety and Auxiliary Services Committee

Goal: To support the mission of the college by maintaining the appearance, functionality, accessibility, safety, technology, and cleanliness of current and future facilities conducive to a quality educational environment.

Role: The FSAC, representing all constituent groups of WHCL, develops, monitors, and has implementation oversight of the Facilities Master Plan, Site Safety, and Emergency Preparedness Plan. The FSAC evaluates and recommends revision of plans and standards and communicates with the respective groups involved. The aforementioned planning process guides budget priorities. Recommendations made by the FSAC reflect the values and support the mission of the College and are in the best interest of improving student success and serving the community. The FSAC develops, implements, evaluates continuously, and revises if necessary, the FSAC plans and initiatives, both long-term and short-term. A three-year planning cycle is used to implement all FSAC plans. The individual constituencies and participation in the committee meetings are primary responsibilities of the FSAC members.

Products: Facilities Master Plan, Site Safety, Emergency Preparedness Plan

Diversity Statement: The Facilities, Safety and Auxiliary Services Committee will address diversity into all planning and implementation processes as appropriate. Diversity issues will include but are not limited to access, use, learning experience, and indoor/outdoor environment. When forwarding action and/or information items to the Planning and Governance Council. The Facilities and Safety Committee will identify the diversity items addressed in each item.

Membership: (Chairperson to be elected by the committee membership)

- 1 – Director of Facilities Services
- 1 – Media Services Representative
- 1 – DSPS Representative
- 1 – ITS Representative
- 1 – Student Government Association (SGA)
- 1 – WHC Faculty Association (WHCFA)
- 1 – Classified School Employees Association (CSEA)
- 1 – Administrative Representative

Reporting Relationship: Planning Governance Council

Meeting Schedule: Monthly/first Friday of the month

Institutional Effectiveness and Program Review Committee

Goal: To provide positive and energetic teaching and learning environments to further our commitment to student-centered, outcome based education using relevant goals, innovations, strategies, and partnerships.

Role: The Institutional Effectiveness and Program Review Committee (IEPRC) monitors Program Review process Representation on this committee is from all constituency groups of WHC Lemoore.

Products: Program Review and accreditation reports

Diversity Statement: It is expected that the Institutional Effectiveness and Program Review Committee will actively incorporate all facets of diversity in the systematic evaluation and planning processes. When forwarding action and/or information items to the Planning and Governance Council, the Institutional Effectiveness and Program Review Committee will identify the diversity items addressed in each item.

Membership:

- 1 - Vice President of Educational Services – Chairperson
- 1 - Dean of Educational Services
- 2 - WHC Faculty Association (WHCFA)
- 2 - Classified School Employees Association (CSEA)
- 1 – Student Government Association (SGA)
- 1 - Accreditation Liaison
- 1 - Student Services Representative
- 1 - Director of Admissions/Records (Ad Hoc)

Reporting Relationship: Planning and Governance Council

Meeting Schedule: Monthly with more frequent meetings as needed

Student Learning Outcomes Committee

Goal: To support faculty and staff in the development and assessment of learning outcomes.

Role: The purpose of the Student Learning Outcomes Committee is to coordinate the various efforts on the West Hills College-Lemoore campus to create, implement, assess, and implement student learning on our campus. The SLOC will facilitate discussion among the various interested parties including, but not limited to: faculty, administration, and support staff regarding student learning.

Products: WASC Student Learning Outcomes reports, support and training to faculty and staff in creating, implementing, assessing, and evaluating results of student learning.

Diversity Statement: Ethnic and gender diversity will be taken into account when organizing the SLOC and creating, implementing, assessing, and evaluating student learning outcomes.

Chair: Faculty Student Learning Outcomes Coordinator

Reporting Relationship: College Administration

Membership:

- 1- Student Learning Outcomes Coordinator—faculty—Chair
- 1- Student Learning Outcomes Coordinator—non-teaching faculty—Co-Chair/Vice-Chair
- 6- Six faculty from the following learning areas as chosen by the Academic Senate: Arts and Letters (1), CIS/Business/CTE (1), Math/Science/PE (1), Health and Wellness (1), Social Science (1), Counseling (1)
- 4- Staff members to represent support programs
- 1-Student Government Association (SGA)
- 1- Instructional Administrator
- 1- Non Instructional Administrator

Meeting Schedule: To be determined

Student Success Committee

Goal: To support the mission of the college by providing the services and supports necessary to students for them to achieve their educational goals.

Role: The Student Success Committee develops, implements, and monitors campus-wide services and activities necessary to ensure WHCL students maximize their success. This includes student services, academic support and recognition activities. This will be accomplished by making data driven decisions, incorporating essential planning documents and ensuring alignment with applicable regulations.

Products: Matriculation Plan, Student Equity Plan, Student Handbook, Transfer Plan, and other documents affecting institutional effectiveness.

Diversity Statement: We promote the exploration and celebration of differences and uniqueness in people, languages, and cultures. The Student Success Committee will actively address student diversity at every level of service including but not limited to enrollment trends, outreach, registration/enrollment access, advising, retention, and student clubs and associations. When forwarding action and/or information items to the Planning and Governance Council, the Student Success Committee will identify the diversity items addressed in each item.

Membership:

- 1 - Vice President of Student Services - Chair
- 1 - Dean of Student Services
- 1 - WHC Faculty Association (WHCFA)
- 1 - Classified School Employees Association (CSEA)
- 1 - Counselor
- 1 - Representative from Student Support Services
- 1 - Director of Categorical Programs
- 1 - Matriculation Coordinator
- 1 - Transfer Counselor
- 1 - Financial Aid Coordinator
- 1 - Representative from Office of Institutional Effectiveness and Enrollment Management
- 1 - Front Counter Representative
- 2 - Student Government Association (SGA)

Reporting Relationship: Planning and Governance Council

Meeting Schedule: Monthly/Second Friday 1:30-3:30

Revised/approved: 10/6/2010

Technology Committee

Goal: To support the mission of the college by maintaining technology conducive to a quality educational environment.

Role: The technology committee has the responsibility of assessing IT related policies, procedures, and planning, as they relate to WHC Lemoore. The central focus is the intersection of instruction, administrative support and technology in regards to students and their ability to meet their educational goals. WHCL has a student-centered environment that relies heavily on technology and the committee's objective will be increasing communication among the various constituencies in order to meet this goal. Open communication, collaboration and feedback related to technology needs and availability will be a key function. The committee will be representative of all campus constituencies and align to the Mission and Vision statements of the College.

Products: Technology plan (annually) in coordination with the Budget Allocation Committee.

Diversity Statement: The Technology Committee will actively address issues of diversity in the workplace including but not limited to: access, gender, age, culture, race, religion, experience and education.

Chair: Recommended by the President

Membership:

- 1- Librarian
- 1- Maintenance and Operations Representative
- 1- Student Services Assistant/Office Manager
- 1- Counselor/Advisor
- 2 - WHCA Faculty Association (WHCFA)
- 1- Student
- 1- Media Technician
- 1- DSPS Assistive Technology Specialist

Reporting Relationship: Reports to the Planning and Governance Council

Meeting Schedule: Every two weeks initially, and then upon committee consensus

Revised/Approved: 10/6/2010

Administrative Procedure 2410

Policy and Administrative Procedure

Reference: *Education Code Section 70902*

Board Policies and Administrative Procedures are regularly reviewed by the Chancellor's Office. The Chancellor makes recommendations to the Board of Trustees concerning revisions to existing policies and procedures or the development of new policies and procedures to ensure that they are current and comply with state and federal laws.

Any employee, student, or member of the public may initiate a review or development of any policy or procedure by submitting a request or recommendation in writing to the Chancellor's Office.

Review and Approval Process

Upon receipt of the request or recommendation, the Chancellor's Office may refer to the Community College League's Policy and Procedure Service for recommended or legally advised language. The Chancellor's Office may also use the Policy and Procedure listserv to query other districts for related Board Policies or Administrative Procedures. In some instances, the Chancellor's Office may request that legal counsel review the policy or procedure language. Other employees with expertise in specific areas governed by a Board Policy or Administrative Procedure may also be consulted during the review process.

After initial review by the Chancellor's Office, the policy and/or procedure will be routed to the supervisor, manager or Dean of the appropriate department, if applicable, for review (i.e. Student Services, Human Resources, Business Office, etc.). Following the applicable review, the policy and/or procedure will be routed as follows:

1. Policy and/or procedure to be reviewed and discussed by the Chancellor's Executive Cabinet.
2. After review by the Chancellor's Executive Cabinet, the policy and/or procedure will be sent to the College Consultation Council (CCC) at West Hills College Coalinga and the Planning and Governance Council (PGC) at West Hills College Lemoore (through the College Presidents) for review and approval, if applicable. Simultaneously, the policy and/or procedure will be sent to the Academic Senate Presidents and the Faculty Association President as a courtesy.
3. Review and approval by the Academic Senate Presidents will be requested only if the policy and/or procedure deal(s) with academic and professional matters. Review and approval by the Faculty Association President will only be requested if the policy and/or procedure has or will have a significant effect on faculty.
4. After review by the CCC and the PGC, any comments, recommendations or actions taken with regard to the policy and/or procedure shall be sent to the Chancellor's Office by the College Presidents. In the case of review and approval by the Academic Senate Presidents or Faculty Association President, any comments, recommendations or actions taken with regard to the policy and/or procedure shall be sent to the Chancellor's Office by the individuals

serving in those capacities. As a courtesy, the comments, recommendations or actions taken should also be sent to the College Presidents.

5. The Chancellor's Office will take the policy and/or procedure to the District Leadership Council (DLC) for review and approval.

6. After DLC review, and upon final review by the Chancellor, the policy and/or procedure will be placed on the Board of Trustees agenda for a first reading, with consideration to follow at a subsequent meeting.

Submission of Policies and Procedures for Review

When submitted to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President, and the DLC, the policy and/or procedure shall be accompanied by a routing form which will include the following information:

- Policy/Procedure Number
- Policy/Procedure Name
- Indication of new or revised policy/procedure
- Initiator of proposed new or revised policy/procedure
- Purpose for new or revised policy/procedure
- Anticipated timeline for review and approval process

New policies and procedures will be submitted to the appropriate groups as a "clean" copy.

Revised policies and procedures will be submitted to the appropriate groups using the following editing marks:

- Deleted text to be shown in
- Added text to be shown in bold print

Nonsubstantive ("clean up" or "housekeeping") revisions to policies and procedures (i.e. names, title changes, addition or deletion of references) that do not change the intent or meaning of the policy or procedure may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President and the DLC as a courtesy.

Policies and procedures dealing strictly with the Board of Trustees may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents ~~and~~, the Faculty Association President and the DLC as a courtesy. New or revised procedures that outline an existing process may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President and the DLC as a courtesy.

Timeline

In most instances, policy and procedure review and approval will be based on a two-month cycle at the college level. Once the Chancellor's Executive Cabinet agrees to move new or revised policies and/or procedures forward to the CCC, PGC, the Academic Senate Presidents and the Faculty Association President, the review and approval process timeline officially begins. The groups will have 60 days in which to complete the review and approval process at the college level and submit final comments, recommendations or actions taken with regard to the policy and/or procedure to the Chancellor's Office.

At the completion of the 60 days (or sooner if the appropriate groups have completed their review and approval process), the policy and/or procedure will be placed on the DLC agenda for review and approval if applicable. Following DLC review, the policy and/or procedure will be placed on the Board of Trustees agenda for a first reading, with consideration to follow at a subsequent meeting. The Board of Trustees will be provided with the Chancellor's final recommendation, along with the completed routing form which will include the comments, recommendations and actions taken by the appropriate groups.

The timeline may be shorted due to various circumstances including, but not limited to, changes in law or urgent need. However, the Chancellor's Office shall notify all applicable groups of the shortened timeline.

After approval by the Board of Trustees, policies and procedures will be posted to the District's website. The College Presidents and Academic Senate Presidents will also be notified as to the status of the proposed or revised policies and procedures.

Board approval date: 3/7/06

Revised policy approval date: 6/26/07

Administrative Procedure 2510 Participation in Local Decision Making

Reference: *Education Code Section 70902(b)(7); Title 5, Sections 53200 et seq; 51023.5; 51023.7 Accreditation Standard IV.A.2; IV.A.5*

The Board directs the Chancellor to develop operating procedures to facilitate the process of the work of the District Leadership Council (DLC), the College Consultation Council (CCC) at West Hills College Coalinga and the Planning and Governance Council (PGC) at West Hills College Lemoore. The procedures shall recognize the following relationships among the participating groups:

1. The Board – The Board retains all powers implied or granted by the law. The members of the Governing Board, as elected officials, recognize their accountability to the electorate with the District and their responsibility under law to make policy decisions affecting the District.

2. Faculty

- a. West Hills College Faculty Association

1. The West Hills College Faculty Association shall be provided opportunities to participate in the formulation and development of District policies and procedures which the Board determines, in consultation with faculty, has or will have a significant effect on faculty.

2. Except in unforeseeable or emergency situations, the Board shall not take action

on matters significantly affecting faculty until it has provided faculty an opportunity to participate in the formulation and development of those matters through appropriate structures and procedures as determined by the Board.

b. The Academic Senate

The Academic Senate shall have two (2) representatives on the DLC (the Academic Senate President from each college). However, the Board recognizes that the Academic Senate has a special role with the Board when adopting policies and procedures on academic and professional matters. This relationship provides for the Board of Trustees or their representative to consult collegially and to rely primarily on the advice and judgment of the Academic Senate.

1. The curriculum matters for which the Board shall rely primarily upon the Academic Senate include the following: a. Curriculum development; b. Establishing prerequisites and placement of courses within disciplines; c. Standards or policies regarding student preparation and success; d. Degree and certificate requirements; e. Grading policies.

In keeping with the spirit and intent of the Board and the concept of sharing the governance of the college, the Academic Senate shall provide, as an information item to the DLC, any action taken by the Senate on the above listed curriculum matters. Once reviewed by the DLC, the policy shall be sent to the Chancellor to be placed on the Board's next meeting agenda. The recommendations of the Academic Senate will normally be accepted. The Board of Trustees may refuse to adopt the recommendations of the Academic Senate on these matters only in exceptional circumstances or for compelling reasons. If a recommendation is not accepted, the Board, through its designee, shall promptly communicate its reasons for rejection of the recommendation in writing to the Academic Senate. The Board shall also provide the Academic Senate the opportunity to respond in writing prior to final action by the Board.

2. In all other academic and professional matters, the DLC shall be the forum where the Academic Senate has mutually agreed to meet with the appropriate administrators and constituent groups, when appropriate, to formulate recommendations, review policy, and provide the mechanism for shared governance. The other matters that shall be considered by the DLC are defined as follows:

- a. Educational program development;
- b. Faculty roles and involvement in accreditation processes including self study and annual reports;
- c. Establishing policies for faculty professional development;
- d. Process for program review;
- e. Processes for institutional planning and budget development;
- f. Hiring policies, procedures, and criteria for contract faculty and administration;
- g. District and college governance structures as related to faculty roles;
- h. Other academic and professional matters as mutually agreed upon between the Governing Board and the Academic Senates. In all non-academic and professional matters, the Board shall retain its traditional authority as prescribed by law.

3. Staff

- a. Staff shall be defined as classified employees who are eligible to be members of the bargaining unit represented by CSEA.
- b. Staff shall be provided opportunities to participate in the formulation and development of District policies and procedures which the Board determines, in consultation with Staff, has or will have a significant effect on Staff.
- c. Except in unforeseeable or emergency situations, the Board shall not take action on matters significantly affecting Staff until it has provided Staff an opportunity to participate in the formulation and development of those matters through appropriate structures and procedures as determined by the Board.

4. Students

- a. Students shall have the opportunity to participate in the formulation and development of District policies which will have a significant effect on students, including the opportunity to participate in jointly developing recommendations to the Board as enumerated in Title V.
- b. Except in unforeseeable or emergency situations, the Board shall not take action on matters significantly affecting students until it has provided students an opportunity to participate in the formulation and development of those matters through appropriate structures and procedures as determined by the Board.
- c. The Board shall give reasonable consideration to any written recommendations or positions developed by students regarding District policies and procedures pertaining to the hiring and evaluation of faculty, administration, and staff.

5. Administration

- a. Administration shall be provided opportunities to participate in the formulation and development of District policies and procedures which the Board determines, in consultation with Administration, has or will have a significant effect on Administration.
- b. Except in unforeseeable or emergency situations, the Board shall not take action on matters significantly affecting Administration until it has provided Administration an opportunity to participate in the formulation and development of those matters through appropriate structures and procedures as determined by the Board.

6. Rights and Responsibilities – Nothing in this policy shall be construed to impinge on the rights and responsibilities of the Governing Board, the Chancellor and administration, or on the rights of faculty, staff, or students, not to detract from any negotiations or negotiated agreement between collective bargaining agents and the Board of Trustees as to how they will consult, collaborate, share, or delegate among themselves the responsibilities that are or may be delegated to the Academic Senate or to staff by this policy.

7. Status of DLC – The DLC shall only have the powers and duties set forth in these policies and procedures or applicable law and regulations. The DLC shall not be a legally constituted entity.

Strategic Planning Committee
Friday, February 19, 2010, 2:00 p.m. – 4:00 p.m.
Conference Center

Minutes

Attendees:

Pedro Avila, Vice Chancellor of Enrollment Services
David Babb, Faculty
Dave Bolt, Vice President of Educational Services
Bob Clement, Athletic Director
Bob Hall, Faculty
Tammy Larson, Faculty
Jose Lopez, Dean of Students
Stephanie Droker, Academic Senate President
James Preston, Faculty
Joel Rogers, Faculty
Rene Sanchez, Faculty
Kim Sheffield, Faculty
Elva Torres, Classified Staff
Rebecca Riddle, Classified Staff
Don Warkentin, President

The meeting began at 2:14 p.m.

1. Accountability Report Community Colleges (ARCC)

Dave Bolt stated that this report (ARCC) comes from the State Chancellor's Office. It compares the CA Community Colleges. WHC Lemoore is above in some areas and below in some areas. Yearly we are asked to review our ARCC data. Mr. Bolt distributed copies of the ARCC 2009 College Self-Assessment/Response and the ARCC 2010 Report and made review of each. The report reflects data collected one year in arrears. The fact that we are a new college, we only have WHCL data for recent years to compare to data that was collected as a district. This has created a problem. Page 3 shows enrollment patterns, FTES generated and demographics. Peer grouping on page 5 is how we compare to others: Fresno City, College of Sequoias, Modesto, Merced, Porterville, and Taft. For each indicator the groups slightly change. The peer group average is 74% and we have 66.3%. The highest is 77.5%. We have to deal with the fact that we are the lowest in our peer group and decide what our plan is to

become higher. We may need to look at how we drop students and/or how to retain them. Jameson Birrell stated that he would like to see some policies. We have an early alert system and it needs to be used. We look at the success rates of our vocational classes and also look at the patterns. One program that had issues was Open Entry and this year we changed it. The 2009-2010 report may show a better result due to this. The faculty also analyzed the problems in their program review as a solution. There have been problems with sections in AOJ, specifically, students would take the firearms class but did not own a gun and they would drop out. Instruction had to buy fire arms. A narrative will be prepared to explain page 5. There are 3 levels of vocational education. CWEE has separate sections for each. Mr. Bolt stated that he likes to see each section broken out. Jameson Birrell asked how we compare with outside peer groups throughout the state. Is Basic Skills both English and math and what's an improvement rate? Pedro Avila stated that ESL has a much higher success rate. Coalinga has a large ESL class and we do not. The ESL success rate is 80-90%. Pedro is not favorable of the way this is calculated. The improvement rate is how they check by following the student over a 3 yr. period. James Preston asked if the English faculty could receive a breakdown. Pedro responded that these are reflected in the performance indicators. Math 61 is now considered basic skills. The report comes from the chancellor's office due to a requirement by the California Department of Finance. Stephanie Droker stated that she noticed that retention is not addressed on this report. Low retention impacts success rates. Retention defined is the percent of students who remain in class after census week.

2. Performance Indicators

Mr. Warkentin announced that our performance indicators are mapped back to our mission statement. Performance indicators are a way to measure and link to our goals. There is a lot of redundancy with the ARCC report. Goal 1 deals with quality education. We keep an eye on a percentage of population by city. Fluctuation might be demographic differences in each community. Part of it is out of our control. When we get to the 2010 census data this will reveal the accuracy of the data. This is mapped back to our educational plan, student equity, place, etc. Does it pick up the population who do not live in the city? It is tracked by zip code. These are reference points to keep in mind as compared to other colleges. Goal 1.b looks at high school graduates. The data is one yr. behind. 1.c looks at success and retention rates. We have a large online program

which drives down our success rate. Persistence is defined as what percentage of students returns from fall to fall; we have declined. Spring semester starting students are not traditional students so we want to compare apples to apples. Goal 2 breaks out changes made in basic skills that have had a positive impact, specifically on retention. ESL is a lot higher. Goal 2d reflects degrees and certificates conferred which has gone down and it is suspected it will go down more for the next year. This is something to monitor. Goal 2d refers to transfers to four-year institutions. Bob Clement asked how we know where students transfer. Pedro Avila responded that the info comes from the national data warehouse; they provide GPA and the student's major. 2e reflects the results of a national survey and a benchmark in 2007-08. We did very well. The benchmark was composed of over 500 community colleges across the nation. Stephanie Droker asked why the difference in 2007-08 could be the benchmark moved. We had very few underperforming questions from the 2007. One underperforming was Tutoring. These are use of service questions and customer satisfaction. The survey is on the portal on the program review team site. Goal 3: Even though there was a reduction in sections we generated more FTE. We had two sections of math generate 30 FTES, we cut to one and saved ½ and still kept enrollment. Bob Hall questioned if there is a problem if FTES increase with less money if the state would cut us back. We now have to grow FTE again. Student Services has to be funded and they do not cause FTES but are needed for services to support Instruction. Goals 3c refers to nearly \$5million in grants generated last year. 3d is revenue generated by outside capital and it is carry over money. MAA for 08-09 only reflects on the 1st quarter check. Overall we are doing good. Two areas of focus are: outreach & vocational classes.

3. Mission Statement

Mr. Warkentin stated that we need to look at our mission statement and if we feel it is still relevant it will go to the Planning and Governance Council (PGC) and then Board of Trustees. All were in consensus; the WHCL mission statement is relevant as is. It will be on the PGC and Board agendas for approval.

4. Institutional Effectiveness Calendar

Mr. Warkentin explained that this is a planning calendar as a matter of record outlining when various actions are to be taken toward institutional effectiveness, including some regulated reports, i.e. WASC report, etc.

5. Other

David Babb review the SLO's

Counseling: Represents IS and NC courses. David does not know who teaches this. If there is a course that is not taught then David recommends inactivating it. Who do we talk to about getting portal training? . Tom Robb can assist with portal concerns. This can be done with flows through the portal.

Don reported that at the recent board retreat Barbara Beno touched on SLO's. When we have our visit we need to show evidence that we have gone through one cycle of SLO's. If we cannot show this then we will have a follow-up visit. Many courses are taught by adjuncts and he believes learning areas need to determine when they are done. Courses not taught cannot be assessed, i.e. Political Science and Psych are taught by adjunct. If adjunct instructors are teaching the same learning area as full-time then the adjunct can join in to work on SLO's. Stephanie Droker is willing to write SLO's for Political Science courses that are needed. Submission will soon be made through the portal.

Program reviews show sustainable quality improvement.

**West Hills College Lemoore
Planning and Governance Council
Wednesday – April 21, 2010, 2:00 p.m.
Conference Center, Rm. 256**

MINUTES

Members Present:

Dave Bolt, Vice President of Educational Services
America Bryant, CSEA/Classified Representative
Sylvia Dorsey-Robinson, Vice President of Student Services
Stephanie Droker, Academic Senate President
Marty Ennes, CTA/Faculty Representative
Jose Lopez, Dean of Students
Keith Brock, CSEA/Classified Representative
John Bernal, Director of Facilities & Auxiliary Services
Ron Oxford, Librarian
Tiffani McGee for Angela Tos, CTA/Faculty Representative
Don Warkentin, President
Ryan Cardoza for Angel Isidoro, Student Government Association Representative

Members Absent:

David Babb, Student Learning Outcomes Chair
Marlon Hall, Associate Dean of Educational Services, Evening College
Rene Sanchez, Curriculum Committee Chair
Linda Amaya-Guenon, Counselor/Advisor

Call to Order

Mr. Warkentin called the meeting to order at 2:03 p.m.

Roll Call

A silent roll call was taken and a quorum was present.

Approval of minutes

The minutes of the April 7, 2010 meeting were approved by on a motion by Marty Ennes (with corrections as noted by Stephanie Droker), it was seconded by Stephanie Droker, all were in favor, motion passed.

Action Items

• **WHCL Mission/Vision Statements and Goals**

Stephanie Droker commented that the recommended changes from Myeisha Johnson were not electronically sent as she understood they would be after the last meeting. Stephanie expressed that the changes brought forward by Myeisha should have gone through the Student Government Association (SGA) as a cooperative recommendation, rather than from Myeisha personally. The mission statement was reviewed at the previous Strategic Planning Committee meeting which is the formal process. Marty Ennes motioned to approve the mission and vision statements as recommended by the Strategic Planning Committee, it was seconded by Stephanie Droker; all were in favor, the motion passed. America Bryant commented that she thought Myeisha's ideas for changes to the mission statement were really good and innovative; however, she agreed that they needed to be brought forward in the proper manner. Sylvia Dorsey-Robinson stated that Dean Lopez will be working with students to help them better understand

the participatory process. The WHCL Mission/Vision statements will be forwarded to the Board of Trustees for their May agenda.

- **Lottery Fund Budget Allocation Expenditure Request**

Stephanie Droker motioned to approve the Lottery Fund Budget Allocation Expenditure Report, it was seconded by Ron Oxford; all were in favor, the motion passed. Mr. Warkentin asked if there was further discussion. Dave Bolt reported that he had learned that the monies can now be rolled over for next year. Mr. Warkentin stated that these dollars have to be used for direct instruction items.

Information/Discussion Items

1. Board Policies and Administrative Procedures: (first reading)

- Revised BP 5520, Student Discipline (Replacement for BP 520, Student Discipline)
- New AP 5520, Student Discipline
- New BP 5500, Standards of Student Conduct
- Revised AP 5530, Student Rights and Grievances (Replacement for AP 523, Student Grievances)

Mr. Warkentin stated that these policies and procedures will need to go out to the constituency groups as part of the formal process. Marty Ennes stated that these have now been taken to the Faculty Association and comments are being received. She will e-mail the comments to all on the respective routing forms prior to the next meeting. Stephanie Droker reported that the Academic Senate had completed their review.

2. Program Review (second reading)

- **Snack Bar**

Dave Bolt reported that program reviews will remain on the PGC agenda for three consecutive meetings. An extra meeting has been being allowed for adequate review time. At the last meeting there were comments on the Snack Bar Program Review concerning the student learning outcomes. Ron Oxford stated that he had worked with Debra Christy, the originator, on the SLO'S. It was difficult to come up with SLO'S for this area; however, Ron feels we need to be consistent with each program review to include SLO'S. Marty Ennes commented that not every program is necessarily tied to student learning. Sylvia Dorsey-Robinson reflected on the survey taken and the data revealing that students wanted more variety and healthier choices offered in the snack bar. Mr. Warkentin commented that a recommendation may be that WHC Lemoore does not have to do program review for certain areas. There seems to be some disconnect between instructional and non instructional SLO'S. In this area we could easily evaluate this process, and if it fits, we will make it a SLO'S, but if not then a program outcome will be reflected. WASC is most concerned that program reviews are done and it is up to us how to go about it. Sylvia Dorsey-Robinson stated that a concern she has is if these outcomes may create a burden on the originator to track information. Discussion ensued regarding the need for the program review originator to attend a PGC meeting. Marty commented that she believes it should be up to the originator. This will be an action item at the next meeting.

- **Upward Bound Math & Science (UBM&S)**

There were no comments on the UBM & S Program Review. Action will be taken at the next meeting.

- **Upward Bound Math & Science (UBM&S) Classic**

Action will be taken on the UBM&S Classic Program Review at the next meeting.

3. WHCIST

Dave Bolt reported that the last WHCIST meeting was cancelled. Sylvia Dorsey-Robinson reported that at the meeting she last attended they went through the tasks that had been assigned. E-SARS was discussed which is the electronic version of SARS and allows students to make counseling appointments. Angela Tos will work on the implementation of e-SARS. Sylvia plans to coordinate an ad hoc committee. Ron Oxford expressed concern about the potential of SARS to be used for tutoring. Sylvia stated that e-SARS is expected to be in place in the fall.

4. Student Government Association (SGA)

Ryan Cardoza, SGA representative, reported that the Pizza Festival was held this past weekend and it was a great event. SGA had a donation box for the Relay for Life event to be held this weekend. Ryan stated, on behalf of Angel Isidoro, SGA President, he would like to ask for a donation from the PGC for Relay for Life. Sylvia Dorsey-Robinson responded that PGC could not donate monies, but West Hills College may be able to donate. Mr. Warkentin reported that WHCL had already donated \$500 for this event through our Medical Administrative Activities (MAA) dollars. Ryan reported that the SGA elections have been postponed due to the start of registration, and they will be rescheduled. Ron Oxford explained that there has been a great amount of work put into allowing elections via "My West Hills" and Ryan had experienced a significant amount of difficulty. Sylvia stated that this is the first year that SGA has taken a leadership role to allow access via the internet and there was bound to be glitches. She commended Ryan for his efforts and stated that he has done a fantastic job. Ryan reported that there is an SGA scholarship currently available for students to apply.

5. Curriculum Committee Report

Dave Bolt stated that he did not attend the Curriculum meeting today but he reported that there will be a training session at the next meeting regarding electronic submissions. Stephanie Droker reported that there are new course titles.

6. Academic Senate Report

a) Faculty resolution – two year schedule

Stephanie Droker reported that this resolution, coming from the Academic Senate, addresses the faculty's support of a two-year course schedule. It is college specific. This will come to the PGC council for approval. Dave Bolt stated that we have had a two-year schedule in the past; however, budget limitations prevented its adherence. Marty questioned if the old two-year schedule is something faculty could go through on a duty day and come up with a skeleton two-year schedule. Dave will bring the old two-year schedule to the next meeting. Tiffani McGee stated that she was involved in the creation of this resolution and they were more concerned about classes being offered. Stephanie announced that at yesterday's board meeting tenure was granted to Christian Raia, Joel Rogers, and Lataria Hall. Additionally she reported that Kurt Sterling had

been elected as the new Academic Senate president and Tammy Larson as the vice president. Kurt will be shadowing Stephanie for the remainder of the year as possible. Learning area awards have been determined in each discipline and will be presented at the Honors Brunch.

7. Accreditation

Dave Bolt reported that the substantive change report had been submitted. The accreditation self study standards are continuing to be reviewed by the President's Executive Cabinet (PEC). Dave stated that he is responsible for the self study introduction and eligibility requirements, including the history of the college. The accreditation visitation date has been determined and is March 7-10, 2011. Dave has received the annual report from WASC which relies on Dave Babb, Pedro Avila and Susan Whitener for information. The deadline is June 30. There are 31 questions to answer. Mr. Warkentin explained that the accrediting team members will arrive on Sunday, make a visit to the district office on Monday, and then be on campus Tuesday through Thursday. The team room will be conference room 256. Open forums will be held, and an exit interview will be on Thursday afternoon. Mr. Warkentin recalled that at the last accreditation visit there was several community members who came to express their appreciation of having a community college in Lemoore. The team member composition will be learned in December and January. The team will want to visit our college meetings.

8. Report from Committee Representative

a) Student Learning Outcomes Committee (SLO'SC)

In the absence of David Babb, Ron Oxford reported that there had not been a meeting.

b) Institutional Effectiveness and Program Review Committee (IEPRC)

Dave Bolt reported that IEPRC is re-writing the program review booklets, and they are close to completion.

c) Budget Allocation Committee (BAC)

Dave Bolt thanked all for approving the lottery fund budget. The BAC is currently reviewing the budget.

d) Employee Development and Success Committee (EDSC)

In the absence of Marlon Hall, Mr. Warkentin reported that the district is looking at forming a partnership with Cisco for video-conferencing. Staff will be going to San Jose for another visit to Cisco on April 29th.

e) Student Success Committee (SSC)

Sylvia Dorsey-Robinson reported that SSC has gone through the Strategic Planning Matrix and amended the document. They have identified the area of standards and where the area fell. Additionally, they have worked on the Student Town Hall Matrix. They are now working on the student equity plan. Sylvia and Dean Lopez conducted a conference call with Tammy Weatherman on the SGA account funds collected. They now have information on training student clubs on how to collect, deposit, and access the funds.

f) Facilities, Safety and Auxiliary Services Committee (FSAC)

John Bernal distributed the four-week construction schedule. The parking southeast entrance and exit will be closed until the construction in this area is done. College Avenue will be blocked just past the administration bldg. entrance within the next two weeks. There was an incident today with a student who backed into a pole. Also during

the Pizza Festival a lady vendor slipped and fell. Ryan Cardoza stated that he had learned that the steps in the amphitheatre are not visible in daylight. He recommended that they be painted for visibility. Victor Rosa, principal of the middle college would like the pot holes fixed. John is looking for suggestions for concerts to be held in the Multi-use Sports Complex. There will be 2,500 seats.

g) Technology Committee (TC)

Ron Oxford reported that the TC had met last Friday. They reviewed TAT minutes. An issue with faculty is when computers update; they shut down. There is a way to update and ITS can provide a cheat sheet for faculty to update prior to beginning their presentations. They additionally looked at the wait list. Ryan Cardoza reported that he has made a screen cast on how to use the search and register feature. Dean Lopez will check into getting information regarding assistance as a better contact for SGA is needed. There was also discussion about when the new wireless will go in, and there's concern regarding log on for non students.

9. Graduation Committee

Dean Lopez reported that the main graduation speaker will stay at the palace. The student speaker has become ill and they have a back up speaker. The Honors Dinner is on May 13th for scholarship recipients and their families. The Honors Brunch is on May 14th for program award recipients and their families. The Student Government Association (SGA) will also be recognized. Tiffani McGee questioned if the bookstore is in charge of the cap and gowns. Dean Lopez responded affirmatively. The bookstore does not have a list as yet. Petitions are just being finished and are in process. Jim Marvin will need the list for the student newspaper.

10. Other

Mr. Warkentin announced that the next Strategic Planning Committee (SPC) meeting is scheduled for April 30th and the focus will be on the College Strategic Plan. The Plan will first go to the SPC for review with recommendations to be sent to the PGC for their review and approval.

Mr. Warkentin gave a brief update on plans for the event center. He stated that we do not want to be in competition with Tachi Palace for the same type of events they might hold. A budget will be needed for operation costs. Ryan Cardoza asked when we will know how much money is needed. For example, using the Student Government Association (SGA), they could possibly charge every student each semester for discounted tickets to the event center activities. Dean Lopez asked if we were going to have the Pizza Festival on campus next year as he recommends we have an event similar to be coordinated by the college as a fund raiser. Mr. Warkentin replied that the Lemoore Chamber of Commerce sponsors the Pizza Fest and this year it was a cooperative outreach effort; although, we could do something similar. Marty Ennes commented that faculty was unaware that the parking lot would be closed off for the Pizza Festival, and there was one faculty member who was concerned about the grass. Mr. Warkentin reported that he had also been asked to host the July 4th event. America Bryant reported that the Financial Aid Department had a booth at Pizza Festival and they received positive feedback regarding the Pizza Festival being held at the college.

Dean Lopez reported that the Alpha Gamma Sigma club is planning to host the 2011 Alpha Gamma Sigma Society at WHC Lemoore and there will be 46 schools represented. This is the first time for this event to be held in the central valley.

Ryan Cardoza stated that he is concerned with the membership of the Lemoore group of students on the server as it is not up to date and needs to be. He would like to know if there is any way to get SharePoint updated. Students who are not included cannot access the Student Government Association's election.

11. Agenda items for next meeting

- Two Year Schedule
- Board policies procedures
- Program Reviews

12. Adjournment

Mr. Warkentin adjourned the meeting at 3:25 p.m.

MINUTES OF THE REGULAR MEETING OF THE GOVERNING BOARD

May 18, 2010

CALL TO ORDER / OPEN SESSION

President McKean called the meeting of the Board of Trustees to order at 3:00 p.m.

Board members present:

Mark McKean, President
Bill Henry, Vice President
Nina Oxborrow, Clerk
Jeff Levinson
Edna Ivans
Jack Munnite
Steve Cantu

Board members absent:

Yohan Maeda, Student Trustee

Administrators present:

Frank Gornick, Chancellor
Ken Stoppenbrink, Vice Chancellor of Business Services
Pedro Avila, Vice Chancellor of Institutional Effectiveness and Enrollment Management
Carole Goldsmith, Vice Chancellor of Educational Services and Workforce Development
Willard Lewallen, President, West Hills College Coalinga
Don Warkentin, President, West Hills College Lemoore
Frances Squire, Executive Director of West Hills Community College Foundation
Susan Whitener, Associate Vice Chancellor of Educational Planning
Sylvia Dorsey-Robinson, Vice President of Student Services, West Hills College Lemoore
Jill Stearns, Vice President of Educational Services, West Hills College Coalinga
Dave Bolt, Vice President of Educational Services, West Hills College Lemoore
David Reynolds, Associate Dean of Student Services, West Hills College Coalinga
Kathy Watts, Director of Child Development Centers
Marcel Hetu, Director of North District Center, Firebaugh
Richard Larson, Director of Farm of the Future, West Hills College Coalinga
Bob Clement, Director of Athletics, West Hills College Lemoore
Jana Cox, Director of Financial Aid

Introduction of Guests

There were no guests introduced at this time.

Public Comments

There were no public comments made at this time.

REPORTS FROM ORGANIZATIONS / COLLEGES / DISTRICT OFFICE

Academic Senate Report – Ms. Anita Bart, Academic Senate President for West Hills College Coalinga, was not present to report at this time.

Ms. Stephanie Droker, Academic Senate President for West Hills College Lemoore, reported that the Senate's comments on the Board Policies and Administrative Procedures are included on the routing forms. The Senate has been working on flex day activities for the fall. Ms. Droker introduced Mr. Kurt Sterling, new Academic Senate President.

WHCFA Report – Ms. Marty Ennes, WHCFA President, reported that the Faculty Association's comments are also included on the routing forms for the Board Policies and Administrative Procedures. She stated that the Faculty Association very much appreciates the time that Mr. Ken Stoppenbrink and Dr. Willard Lewallen spent on meetings to discuss a revised agreement for the psychiatric technician contract reductions. The language has been ironed out and all sides are happy with the new agreement. She thanked the district for meeting halfway and stated that the students will not be in jeopardy because of the changes. Ms. Ennes reported that the year will end on a positive note and she appreciates this.

CSEA Report – Mr. John Ieronimo, CSEA President, was not present to report at this time.

Student Trustee Report – Mr. Yohan Maeda, Student Trustee, was not present to report at this time. Dr. Willard Lewallen reported that Mr. Maeda had to work today. He will be in Coalinga through the end of June and will then return to Japan as he will be finished with his education at West Hills College.

Trustee Cantu arrived at this time.

West Hills College Coalinga and North District Center, Firebaugh – Dr. Willard Lewallen, President, provided an update on summer activities occurring at West Hills College Lemoore. He stated that although the class schedule is significantly reduced, many groups will be on the campus this summer for various programs including a migrant student groups; an instructor group from China; a Hmong high school group for English immersion; and a group of 4th through 6th graders from the Fresno County Office of Education for a day program (another group will be at the North District Center in Firebaugh). Trustee Minnite questioned if these programs will be repeated

next year. Dr. Lewallen responded in the affirmative, stating that Fresno County Office of Education wants to lock in their dates now for next year.

West Hills College Lemoore – Mr. Don Warkentin, President, introduced Mr. Bob Clement, Athletic Director, and Mr. Dave Neer, Instructor/Golf Coach. Mr. Clement thanked the Board of Trustees for their support. He stated that the significance of yesterday's honor is difficult to put into words. The men's golf team accomplished the highest honor for community college athletics by finishing ahead of the elite top eight teams in the state to win the coveted men's state golf title. This honor goes along with the conference and regional championship accomplishments of the team earlier in the season. The team is made up of local students and to see their progress is truly a joy. Mr. Clement stated that he gives a lot of credit to Coach Dave Neer, Assistant Coach Tim Wahl, and the athletes. Mr. Neer thanked everyone for the congratulations. He stated that it has been a dream season and the students did a great job. The golf coach at Cal State East Bay (formerly Cal State Hayward) is very interested in a couple of the students. Mr. Clement announced that a ceremony will be held at a restaurant in Lemoore at 5:30 p.m. on Wednesday, May 19 to recognize the team.

Chancellor's Report – Dr. Frank Gornick, Chancellor, reported that Conne Cleveland, Site Supervisor at West Hills College Coalinga Child Development Center, was recognized in The Fresno Bee earlier this week for her work in the First 5 Fresno County Early Care and Education category.

Dr. Gornick invited the Board of Trustees to attend the Employee Scholars Program brunch that is being held on Monday, May 24 to recognize and honor those employees who have participated in the program.

Trustee Henry commented on the workshop sessions he recently attended at the California Community College Trustees (CCCT) Conference in Long Beach. The workshop sessions covered topics such as a fee schedule for classes (i.e. nursing); federal aid and aid for students; funding rates for transfer level courses; assessment issues; and the Brown Act. With regard to the Brown Act, Mr. Henry commented on some of the items he found interesting including serial meetings; requesting copies of the Board agenda; placing items on the agenda; comments made before the Board of Trustees; and closed sessions. A handout on the Brown Act workshop was distributed.

Dr. Gornick stated that it has been five years since we established district strategic planning goals and it is interesting to look back at what was identified as a goal and what we have accomplished. Mr. Pedro Avila reported that we have spent five years going through the strategic planning process. The strategic planning committee has met approximately three times each year. He summarized the goals, stating that the information is a summary of what we know now.

-
- Goal 1 - Meet or Exceed FTES Growth Targets. Mr. Avila commented on the FTES numbers from 2005-2006 through 2009-2010. Discussion took place regarding the goal and changing it to read "Meet FTES Targets". The Board agreed that this would be a good change. Trustee Minnite questioned where we are getting input on growth or non-growth. Mr. Avila explained that discussions are held at the Chancellor's Executive Cabinet level and the numbers are based on the budget. Discussion took place regarding accreditation as it relates to growth targets.
 - Goal 2 - Focus Marketing Efforts on District-Wide Stories. Mr. Avila discussed perceptions in the communities and the change in marketing efforts. The Dialogue publication has been changed to @ west hills college and has been re-formatted. It is printed twice per year and is sent to 76,000 homes in the district. The marketing efforts were changed from promoting enrollment to instead focus on promoting events on campus and presence-building.
 - Goal 3 - WHCCD Will Annually Increase Community Participation Rates. Dr. Carole Goldsmith commented on outreach to the communities. She stated that because of the successful bonds, we will have outreach community centers in the rural cities (Mendota; Tranquillity; San Joaquin). A facility has been selected in San Joaquin; the memorandum of understanding is in place, and the funds have been identified that will expand distance education opportunities. Dr. Goldsmith commented on the Bridges Out of Poverty grant and stated that the WIT (Westside Institute of Technology) participation numbers are forthcoming. Discussion took place regarding participation rates and Dr. Goldsmith stated that we need to take a look at the rates of those with higher than a high school degree. Ms. Susan Whitener stated that one of the things we are doing is to look at webcasting, which is live web streaming with lecture capture. It is ADA compliant and is the way we are going to reach the rural locations. Discussion took place regarding the courses that would be offered and Ms. Whitener stated that they would be rolled out a little bit at a time.
 - Goal 4.1 - Maintain Success Rates Within the California Community College Statewide Average. Mr. Avila stated that separate benchmarks were developed for face-to-face and online success rates. Ms. Whitener commented on the audit that was conducted for online student services. She stated that we are working on making this component more robust.
 - 4.2 - Maintain Transfer Rates Within the California Community College Average. Mr. Avila commented on the transfer rates following the trend with fees at the UC and CSU systems. He also commented on West Hills Community College District transfers to four year institutions.

- 4.3 - Maintain Graduation Rates Within the California Community College Average. Mr. Avila reported on the degree and certificate rates by freshmen cohorts, comparing district completion rates to California Community College statewide completion rates.
- Goal 5 - Become the Preferred Choice of Students Through Ongoing and Active Recruitment. Mr. Avila stated that staff have been focusing a lot on this area in the past few months. A declining trend has been noticed with high school participation rates. Either students are not going anywhere or someone is beating us to them. We are going to begin finalizing our project with CalPASS which will provide us with more detailed information about where students are going. What we know is that the relationship with the counselors at the high schools is very critical. It is very important that we create and maintain the relationships. The college deans have been working hard to address the issue of participation rates. Mr. Avila stated that there is an overall trend and he is mostly concerned with the reduced number of sections and the priority registration process and how this affects the incoming high school students. There are a lot of questions and we are trying to find the answers. It is difficult to give a conclusion at this time. Dr. Gornick stated that he thinks we need to fight a little harder to maintain the percentages.

In addition to the goals, Mr. Avila commented on the District Score Card which summarizes the progress on each of the goals since 2005-2006. He also shared the Comprehensive Effectiveness Model with the Board.

Dr. Gornick questioned if the Board wants to include distance education, basic skills, and workforce in the new goals. The Board agreed and discussion took place concerning maintaining financial integrity. Mr. Avila commented on the strategic planning process that has been occurring at the college level, stating that they include basic skills and workforce in their planning. The Comprehensive Effectiveness Model would align with the colleges.

CONSENT AGENDA

The following consent agenda items were approved on a motion by Trustee Ivans, seconded by Trustee Levinson, and carried unanimously:

- CA-50** Minutes - The minutes of the April 20, 2010 Board of Trustees study session and Board of Trustees meeting were approved as submitted.
- CA-51** Warrants - The warrants were approved as submitted.
- CA-52** Surplus Property - The list of surplus property was approved as submitted.

CA-53 Adult/Student Temporary Salary Schedule - The changes to the adult/student temporary salary schedule were approved as submitted.

CA-54 Personnel Transactions - The list of personnel transactions were approved as submitted.

Trustee Cantu questioned when additional information would be received on the solar farm. Dr. Gornick stated that a lot of information is being collected and will be provided at a later date.

CHANCELLOR'S OFFICE

CO-31 Honorary Degrees - Mr. Warkentin reported that the recommendation to award an honorary degree to Ms. Evelyn Sue Westover was brought forward by the faculty. Ms. Westover passed away but was close to receiving her degree.

The following honorary degrees were awarded on a motion by Trustee Levinson, seconded by Trustee Minnite, and carried unanimously:

- Dolores Crabtree, West Hills College Coalinga
- Evelyn Sue Westover, West Hills College Lemoore

CO-32 West Hills College Coalinga Mission and Vision Statements and Goals - The West Hills College Coalinga Mission and Vision Statements and Goals were approved on a motion by Trustee Minnite, seconded by Trustee Cantu, and carried unanimously.

CO-33 West Hills College Lemoore Mission and Vision Statements - The West Hills College Lemoore Mission and Vision Statements were approved on a motion by Trustee Minnite, seconded by Trustee Ivans, and carried unanimously.

CO-34 Board of Trustees Meeting Schedule - The proposed Board of Trustees meeting schedule for 2010-2011 was approved on a motion by Trustee Cantu, seconded by Trustee Minnite, and carried unanimously.

CO-35 Board Policies and Administrative Procedures - Trustee Cantu questioned the issue with regard to the storage of firearms. Mr. Ken Stoppenbrink stated that staff are still working on resolving the memorandum of understanding with City of Lemoore with regard to storage. At this time they have possession of the firearms.

The following Board Policies and Administrative Procedure were approved on a motion by Trustee Cantu, seconded by Trustee Minnite, and carried unanimously:

- Board Policy and Administrative Procedure 3530, Weapons on Campus
- Board Policy and Administrative Procedure 4260, Prerequisites and Co-requisites
- Board Policy and Administrative Procedure 5040, Student Records, Directory Information and Privacy
- Administrative Procedure 5045, Student Records - Challenging Content and Access Log
- Board Policy 6816, Hearing Conservation Program
- Board Policy 6817, Transportation and Driver Selection

CO-36 Substantive Change Submittals to ACCJC - The submission of substantive changes to the Accrediting Commission for Community and Junior Colleges (ACCJC) for West Hills College Coalinga and West Hills College Lemoore was approved on a motion by Trustee Ivans, seconded by Trustee Minnite, and carried unanimously.

CO-37 Child Development Centers Annual Report - Ms. Kathy Watts, Director of Child Development Centers, provided a report on the child development centers. She stated that the child development center I sending 340 children ready for kindergarten to the local school districts. The child development centers currently have 10 4-year old student classrooms that focus on cognitive development; 7 3-year old student classrooms that focus on socio-emotional development; and 10 3- and 4-year old student blended classrooms. She reviewed the desired result indicators and the progress made from fall 2009 to spring 2010, along with the summary of findings from the fall 2009 assessment. Ms. Watts also reviewed the action plan and results with the Board.

Dr. Goldsmith stated that the child development program is an exemplary program as identified by First 5 Fresno County and is recognized throughout the state. She congratulated Ms. Watts for the success of the program.

The child development centers annual report was approved on a motion by Trustee Ivans, seconded by Trustee Oxborrow, and carried unanimously.

FISCAL SERVICES

FS-44 Fiscal Services Report – Mr. Ken Stoppenbrink, Vice Chancellor of Business Services, provided the fiscal services report. He stated that we are 83.4% through the fiscal year. General fund revenues are at 74.3% and general fund expenditures are at 71.5%.

Mr. Stoppenbrink reported on the budget outlook for the May Revise. We are not going to budget any COLA or growth and no new revenue will be built into the budget. The budget will be built on no furloughs and will include step increases. The budget will also include a 12% increase in health and welfare benefits. PERS and STRS increases are unknown at this time. The actual budget is subject to legislative action and the state is still short \$20 billion.

Trustee Cantu questioned the cost of PERS and STRS. Mr. Stoppenbrink responded that the district's contribution for PERS will increase to a little over 10% for 2010-2011 and STRS is at 8.25%.

Mr. Stoppenbrink summarized the 2010-2011 budget outlook and commented on the ending balance, revenue changes, expenses, and the 5% reserve. Discussion took place regarding cash flow and it was stated that we will have cash flow to meet payroll. We are in a much healthier cash flow position than we were last year. Mr. Stoppenbrink discussed cuts to the CalWORKs program; -.38% COLA; and \$1.2 million deferred apportionment. He stated that we are very well positioned in our district to deal with the cuts. Dr. Gornick thanked everyone for their sacrifices and willingness to make changes.

FS-45 Resolution – Mitigated Negative Declaration for North District Center – Trustee Cantu questioned how much the report cost. Mr. Kevin Cobb, district architect, responded that it was approximately \$35,000.

The resolution certifying the completion of the mitigated negative declaration for the North District Center expansion and adopting a mitigation monitoring plan was adopted on a motion by Trustee Cantu, seconded by Trustee Minnite, and carried unanimously.

PERSONNEL SERVICES

PS-9 Job Descriptions – Trustee Cantu stated that the position appears to be very important. It was explained that the position will be very important for the coordinating of the new Wellness Center facility in Coalinga and the Multi Use Sports Complex facility in Lemoore.

The following new classified job description was approved on a motion by Trustee Ivans, seconded by Trustee Cantu, and carried unanimously:

- Equipment and Event Coordinator

PS-10 Resolution – Reduction of Extended Contract Days – Mr. Stoppenbrink explained that the resolution is a result of the recent negotiations with the Faculty Association.

The revised resolution in the matter of the reduction of extended contract days for the psychiatric technician faculty for the 2010-2011 and 2011-2012 academic years was adopted on a motion by Trustee Minnite, seconded by Trustee Ivans, and carried unanimously.

BOARD REPORTS / COMMENTS / REQUESTS AND ANNOUNCEMENTS

Trustee Cantu congratulated the golf team for their success. Also thanked Mr. Avila for his presentation on strategic planning. He stated that he looks forward to coming to every meeting and seeing that we are still operating in the black.

Trustee Minnite echoed the comments made by Trustee Cantu. He expressed his thanks to Ms. Droker for her service as Academic Senate President at West Hills College Lemoore and stated that she will be missed. He expressed his appreciation to Mr. Avila, Ms. Whitener, Dr. Goldsmith and Ms. Watts for their reports. He congratulated the golf team, coaches and staff on their success and thanked everyone for their work.

Trustee Ivans expressed her congratulations to the golf team. She thanked Trustee Henry for attending the CCCT conference and stated that it is important for the Board members to attend these types of events. Trustee Ivans thanked Ms. Droker for her work as Senate President and thanked Mr. Avila and Ms. Watts for their reports, stating that she appreciates them. She also thanked Mr. Dave Bolt and Ms. Jill Stearns for their work on the substantive change reports submitted to the Accrediting Commission. Trustee Ivans expressed her appreciation to everyone for their hard work.

Trustee Henry echoed the comments made by his fellow Board members and stated that he finds the webcasting topic interesting. He commented on the CCCT conference and the issues that are discussed in the various workshops. He stated that it is a good feeling to know that with West Hills College, all phases of our institution are exemplary.

Trustee Oxborrow also echoed the comments made by the other Board members and stated that everyone has done a wonderful job. She stated that we are a family and we

take care of each other and she is proud to be a part of it. She thanked everyone for their hard work and stated that she will miss Ms. Droker.

Trustee Levinson expressed his thanks to Ms. Droker. He commented on the budget, stating that furlough are not fun and it is good to see that we will not be doing that in 2010-2011. He stated that the sacrifices everyone has made are appreciated.

President McKean echoed the comments made by the Board members. He expressed his thanks to Ms. Droker and thanked everyone for their great efforts. He congratulated the golf team, stating that it is a huge accomplishment.

President McKean announced that the next meeting of the Board of Trustees is scheduled for June 22, 2010.

CLOSED SESSION

The meeting was adjourned to closed session at 5:36 p.m.

- Public Employee Discipline/Dismissal/Release (as per Government Code Section 54957)
- Discussion of Land Acquisition/Disposition of Property (as per Government Code Section 54956.8). Property: Coalinga, California; Firebaugh, California; Lemoore, California
- Conference with Legal Counsel – Potential Litigation (as per Government Code Section 54956.9). 2 potential cases
- Conference with Legal Counsel – Pending Litigation (as per Government Code Section 54956.9). Caganich v. West Hills Community College District; CSEA and its Chapter 429 v. West Hills Community College District

ADJOURNMENT

There being no further business before the Board of Trustees, the meeting was adjourned at 6:26 p.m.

Nina Oxborrow
Clerk of the Board of Trustees

WHCL Leadership Retreat
Strategic Planning Committee
September 28, 2007, 10:00 a.m. – 1:00 p.m.
Conference Center, Rm. 256

NOTES

- 1) Mission Statement – BOT Approved July 2007
 - b) Review Cycle for Mission/Vision, Goals, Institutional Outcomes

The meeting began at 10:08 a.m. Mr. Warkentin stated that this group had last met in June for a retreat and it was discussed and approved at PGC to meet twice per semester. This is the first meeting of the fall semester. This body was previously referred to as the WHCL Leadership Team but will not become the Strategic Planning Committee. Ideas/suggestions and brainstorming take place at these meetings and are then moved forward to the Planning and Governance Council (PGC). As a new college, we are constantly evolving. As per a recommendation from the Accrediting Commission we need to have a formal review cycle statement for our mission/vision statements, institutional outcomes and learning indicators. Rene Sanchez stated that she believes outcomes and goals should be evaluated annually, but not necessarily the mission/vision statement. Marty asked if any had checked how often other colleges review. Other colleges are reviewing annually to three years. Marty suggested an annual review initially and then a three year cycle. James asked when the review should take place and what group should make the review. Mr. Warkentin replied at the fall retreats by the Strategic Planning Committee we could look at the previous year's data and then annually review in the spring and make recommended changes after action by the PGC. The following review cycle statement will be an action item on the October 3rd PGC agenda and if approved will be placed in the PGC Manual:

WHCL mission/vision, goals and performance indicators shall be reviewed by the Strategic Planning Committee each fall semester. Recommendations will be forwarded to the respective governance groups and then brought to the PGC for revision and adoption.

Pedro recommends that we stop referring to institutional outcomes as performance indicators.

2) Performance Indicators

Pedro stated that the Accreditation Recommendation Two Committee had met and come up with indicators that will evaluate our goals. Some are mandated by the state and others are part of the district strategic planning goals. We want to also have them as a college. We took our cities and counted the adult population our baseline is back in 04-05 and our benchmark 6.6% of all adults in CA participate in a community college annually. We want to be above the benchmark. In the case of Stratford, if we got five more students we could jump 10%. Pedro will include a total participation rate for Lemoore as a college. Angela recommended that Corcoran be included. Pedro will include Corcoran. Angela has a plan to improve this indicator (Hanford West rates). This is why it is important to have meetings and take minutes with all these ideas and suggestions which show evidence of trying to improve. Angela's experience has been the economy improves workforce. Both high schools will be visited on a weekly basis.

Mr. Warkentin stated that this body recommends that the Student Success Committee develop a plan to improve our participation rates. The Strategic Planning Committee applauds the efforts of the Student Success Committee in sustaining and improving high school participation rates. Angela suggested showing this to the high school superintendents/principals at the upcoming luncheon. Pedro is on the agenda for this purpose.

Our annual success rates we have been 5 points below the state average. Retention also needs to be considered. If we improve retention by 5% we would also improve our success. This has been discussed at various levels, due to retention rates. They are studying why students are dropping. Rosters need to be kept clear. This needs dialogue at the campus level and a recommendation. Angela – the mechanism for the prerequisite issue is huge. Pedro asked if counselors and faculty are informed about the way withdrawals work.

We need a recommendation from this body. Marty recommended that we have a rule in Datatel and students who have not completed prerequisites be automatically removed from classes. There is no mechanism in place to dis-enroll if not successful in a pre requisite. Instructors have no way of knowing if the student successfully completed the prerequisite. 1) The Strategic Planning Committee recommends that the Student Learning Committee (SLC) examine ways to have Datatel dis-enroll students who do not successfully complete prerequisite requirements. 2) The Strategic Planning Committee recommends that the SLC review student withdrawal data to determine ways to improve student success and retention rates.

3) The Strategic Planning Committee recommends that the Student Success Committee analyze financial aid data to determine what effect the financial aid processes have on student retention.

James questioned what is next. Do these recommendations go out to respective bodies and then come to PGC for adoption?

After today, recommendations go to the shared governance respective groups, then PGC.

Student persistence is following the methodology that the state uses. He has come up with rates for the college freshmen with 6 units in the fall semester. 61% of students return. We are below the State benchmark. The benchmark put us in a group with other community colleges. Marty asked if we will have transfer rate data in the future. Pedro replied that we do have a transfer rate. The State tracks it and by next year we can compare to the benchmark as we will have persistence rates.

1d): SLO's are 54% complete. Pedro is still missing data. He does not know about course level SLO. Angela is coordinating the non instructional program reviews. The last spring report to WASC reflected 46% programs, plus two. Angela will update the Office of Research and Planning with information on non instructional program reviews. Rene will refer to the WASC report and add two.

Goal 2: Pedro explained that he had included the college's success rates and the combined success rate is reflected. We are above the group average. He is using the highest peer group rate. We need to monitor these to make sure they stay here. Perhaps he needs to use a benchmark that is just for English, rather than State average. This data is just for Lemoore. If we look at our withdrawals, we can improve upon these rates. A recommendation coming from the Basic Skills folks is that we hire an ESL instructor. Each college gets its own report.

2b: When we look at success rates for vocational courses. The group average is 75.7% we were the lowest last year. What has lowered our success rates are the open entry labs. It is a retention issue due to the format. He thinks we need a recommendation. Incompletes do not affect success rate, only W's. Recommendation: The SPC recommends that SLC review vocational programs data for improvement of success and retention.

3d: We need to look at the rates instead of numbers, but they won't be available until next year. This is coming from the Chancellor's office.

CPEC keeps track of transfers.

3a: We have had good growth. Students were counted only once. District-wide we have the highest enrollment in history.

FTES goals: We won't know actual until we finish the semester. These are based on a 2% growth. The state allocated 2% for growth for every community college.

3c: These are Lemoore grants \$3 million in grants.

3d. MAA has brought dollars through outside capital activities. 5C is funded through college grants and school districts that sponsor students to attend.

Outcomes: What should our students be able to do when they leave?

Maybe information competency could be an institutional outcome. Institutional outcome (Marty) more umbrella i.e. certificates, program level outcomes that would include critical thinking outcomes.

SLO' are goals – Rene

Marty – Maybe we need to look at goals in order to write institutional outcomes appropriate for the institution as a whole. These should all be interlocked.

Angela – Matriculation SLO increase the number of students who have ed plans in place.

Pedro - All needs to support each other (course, program, institutional level)

James stated that a SLO college committee could address these issues.

Definition of a Program

It is the recommendation of the SPC that an instructional program be those programs that leads toward a degree or certificate. 11 non instructional programs. All have a funding source.

4) Accreditation Mid-Term Report

a) Planning Agendas

Mr. Warkentin distributed a letter from the Commission telling what we have to do to prepare a mid-term report.

Dave has found out from other schools that they have successfully submitted as to how the college plans to address the agenda items. We have thirty items.

Identify key events that have happened or a recommended plan.

Standard One:

- We have an annual review cycle. The SPC will review the mission statement on an annual basis.
- Pedro and Frances are beginning to help us with our annual report. The five governance committee's annual activities will be included in the annual report.
- We have an assessment cycle for course level programs; a course level SLO assessment cycle has been implemented.

Standard Two:

- The minutes from these minutes will prove regular meetings and topics. It has been recommended by SPC.

- We are doing program review and the definition of programs was defined by the Strategic Planning Committee at a retreat held on 9/28/07. Program reviews are reviewed by the Student Learning Committee.
- We are doing part of this as represented by the report for liberal studies. This can be cited. This planning agenda has been partially met by this report, and further review. UC Office of the President requires that individual schools supply this info. We need further work on this particular item.
- This has been answered in recommendation three.
- How will we do this? Marty stated that maybe we need to lump these two together and this is an area we need to work on. We have some information, but not all.
- Marta's time has been increased since three years ago. The articulation officer's assign time has increased from 10 to 50 percent.
- This has been Mr. Warkentin.
- A survey was added at the end of the application supplemental information was asked. Also a survey was created for a match for on-line classes. This was probably to assess or cause students to assess whether they are a good candidate for on-line classes. The college will do a yearly survey about staff and faculty diversity. Rene would question the numbers from the yearly survey. How did the numbers come? It came from HR from the initial application. This is optional information.
- This was conducted this year 2007. This will occur every semester. Pedro stated that 80% of the on-line bilingual orientation is complete.
- This was done July 2006.
- This has been changed to an on-line repository for on-line instructors for their use, rather than students. On-line students learn about the on-line library from their instructors.
- Librarian is not involved with, but he has cooperation.
- This cannot be Mr. Warkentin according to the librarian due to the licensing agreement with these databases.
- This has been Mr. Warkentin with Facilities, Safety and Technology Committee. The Incident Command Systems and committee to address the development of the first drill on 10/16.
- This is being done by Mr. Warkentin through our SLO and program review for the non instructional programs.

Standard Three:

- Flex day has been moved to the college level. Duty day is a shared event.
- This has not occurred. This is being discussed at WHCIST. There are problems within Datatel that this cannot occur. The current version does not support this.
- Regular budget meetings are held. They meet in Sept. and then December they meet frequently through April. The meet in August to review status, reassemble in December and then meet every two weeks through April.

Standard Four:

- This is being done by Mr. Warkentin
- We have revised our mission statement, goals, and performance indicators. The governance flow chart was revised at June retreat.
- A student worker was hire to help with file maintenance. We need someone beyond a student worker. Our course outlines are now available electronically. The minutes and agendas are on Blackboard.
- This is occurring.
- This has been developed last spring.
- There is a timeline for the district area program reviews.

5) Student Learning Outcomes

a) Timeline

A report was done for WASC last spring.

b) Assessment Process

There was no discussion.

6) Other

Tulare-Kings articulation day is October 9. Carole Goldsmith is going. Articulation agreements have been updated with local high schools. This is at Holiday Inn in Visalia.

Mr. Warkentin distributed the draft mid-term report. This will go to PGC in mid October for first reading.

Formal approval of the new name Strategic Planning Committee will be adopted at the October 3, PGC meeting.

Next Retreat: December 7, 2007 at 11:00 – 2:00 p.m.

**West Hills College Lemoore
Planning and Governance Council
Wednesday – October 17, 2007 - 1:30 p.m.
Conference Center Rm. 256**

MINUTES

Members Present:

Don Warkentin, President
Rene Curriculum, Curriculum Committee Chair
Marty Ennes, CTA/Faculty Representative
Marta Hendrickson, CTA/Faculty Representative
Teresa Macias-Quilici, CSEA/Classified Representative
America Infante, CSEA/Classified Representative
Ron Oxford, Librarian
Jan Young, Counselor/Advisor
Dave Bolt, Vice President of Educational Services
Marlon Hall, Associate Dean of Educational Services, Evening College
Jose Lopez, Dean of Students
Vince Montoya, Director of Facilities & Auxiliary Services
James Preston, Academic Senate President
Yarely Herrera, Student Government Association Representative

Members Absent:

No members were absent.

Others Present:

Susie Briones, Advising Specialist

Call to Order

Mr. Warkentin called the meeting to order at 1:34 p.m.

Approval of minutes - October 3, 2007

The minutes of the October 3, 2007 meeting were approved on a motion by Marty Ennes, seconded by Jan Young, all in favor, motion passed.

ACTION ITEMS

PGC Membership

Mr. Warkentin stated that a proposed membership was distributed at the last meeting with the directive to members to have discussion with each contingency group (see attached membership list). Jan stated that the CSEA consensus was to add one counselor/advisor in addition to the two CSEA representatives. Mr. Warkentin commented that a technology representative would need to be added with the new technology committee proposal. Marta stated that typically librarians are knowledgeable of technology and therefore the Librarian/technology chair could be combined. Marty asked if the chair is not the same person who would then make the determination of librarian or someone else. Mr. Warkentin responded that this committee would make the determination. Marty stated that she serves as a representative of CTA, questioning the desired perspective wanted on this committee. Mr. Warkentin asked if there was consensus to line out the Academic Senate representation assigned to the librarian/technology position and approve the membership with the recommended changes. Marlon Hall motioned to approve the PGC membership with the recommended changes, Ron Oxford seconded, all in favor, with one abstention (Teresa Macias), motion passed.

Approval of SLO Committee

Mr. Warkentin asked if there were questions or discussion about the addition of a Student Learning Outcomes committee to our governance structure. Rene Sanchez explained that the SLO committee is not a subcommittee of the Senate and is intended to be a campus wide committee, with each learning area represented, and the SLO coordinator as chairperson. The

concern of the committee will include course and program level student learning outcomes. Marty motioned to approve the addition of a SLO Committee, it was seconded by Marlon Hall, all in favor, motion passed. Mr. Bolt asked who would be responsible to complete the governance group request. Mr. Warkentin recommended that the responsible person be the current SLO Coordinator, Rene. Rene stated that she is working with David Babb to transition him into the role of the SLO coordinator. David will assume the SLO coordinator role beginning with the spring semester this January. Rene will complete the request form and get the committee off the ground and work with David to take over in January. First, the form will come to PGC for review and approval. Marty suggested that Rene coordinate with the deans to complete the governance group request.

Technology Committee

Marta suggested that the position of the DSPS Assistive Technology Specialist be a representative on the Technology Committee. James asked if there needs to be someone from the audio/visual department. Ron responded that the audio/visual department is a district level department. The committee will work with TAT and WHCIST. Ron will take the approval of the new Technology Committee to TAT and discuss the membership makeup. He intends to invite the IT staff to the first couple of meetings. Scott Young, media technician, may agree to be a committee representative. Rene motioned to approve the governance group request to add a Technology Committee to our governance structure, along with the two recommended committee representatives (DSPS Assistive Technology Specialist – 1 and Media Technician – 1), it was seconded by Marta, all in favor, motion passed.

Definition of a Program

Mr. Warkentin explained that a recommendation from one of the accreditation response teams was to formalize a definition of a program. This was achieved at the WHCL Leadership Retreat on September 28, 2007. James stated that these were discussed by Senate with no objections. Mr. Bolt motioned to approve the following definition of a program, it was seconded by Marlon Hall, all in favor, motion passed.

An instructional program is one that leads to a degree or certificate. A non instructional program is one that does not lead to a degree or certificate but has an ongoing identifiable funding source or a specified budget code.

Review Cycle (Mission/Vision, Goals, Institutional Outcomes)

Mr. Warkentin stated that it was recommended by the accreditation team to establish a review cycle for our mission/vision statements, goals and institutional outcomes. Review will be made in the fall semester of each year, annually, to include data from our institutional researcher, Pedro Avila. Marty motioned to approve the review cycle, it was seconded by James, all in favor, motion passed. The following statement will be included in the PGC Manual on page 9.

WHC Lemoore's mission/vision, goals and performance indicators shall be reviewed by the Strategic Planning Committee each fall semester. Recommendations will be forwarded to the respective governance groups and returned to the PGC for recommended revision/s and/or adoption.

Recommendations to Student Success Committee

Mr. Warkentin stated that at the WHCL Leadership Retreat on September 28, 2007, the following recommendations were made to the Student Success Committee. Mr. Bolt motioned to approve the following recommendations to the Student Success Committee, it was seconded by Mr. Lopez, all in favor, motion passed.

- i. SPC recommends that the SSC continue efforts to sustain and improve high school participation rates.***

- ii. SPC recommends that the SSC analyze financial aid data to determine what effects the financial aid processes have on student retention.*

Recommendations to Student Learning Committee

Mr. Warkentin stated that at the WHCL Leadership Retreat on September 28, 2007, the following recommendations were made to the Student Learning Committee. Marty moved to approved the recommendations to the Student Learning Committee, it was seconded by Jan Young, all in favor, motion passed.

- i. SPC recommends that the SLC examine ways to have Datatel disenroll students who do not successfully complete prerequisite requirements.*
- ii. SPC recommends that the SLC review student withdrawal data to determine ways to improve student success and retention rates.*

Formalize the name of WHCL Leadership Group to Strategic Planning Committee

Mr. Warkentin recommends that the name of the WHCL Leadership Group be changed to the Strategic Planning Committee. Marlon Hall motioned to approve, it was seconded by James Preston, all in favor, motion passed.

AP 2510 Participation in Local Decision Making

James Preston stated that the Senate would like another week to discuss this procedure. Mr. Warkentin would like to see this approved at this meeting with the recommended PGC membership changes. James asked if when the document comes back if it would reflect the recommended changes. Our new membership has been approved. James stated that he will abstain from voting on this. Marty suggested that this be approved today and forwarded on with the recommended membership changes. Marty motioned that AP 2510 be approved and forwarded on with the new membership to be inserted into Board Policy 2510, it was seconded by Mr. Bolt, all in favor, motion passed. James asked if it is still necessary for Senate to discuss and approve AP 2510. Mr. Warkentin responded in the affirmative and stated that this will come back on the agenda with the recommended changes after discussion at the Chancellor's Cabinet.

INFORMATION/DISCUSSION ITEMS

1. Mid Term Report Update

Mr. Bolt reported that Jacqui had received all the input for the report and has compiled a complete draft. He has sent the draft to many of the members of this committee with a two week period to return comments. Based on their input the information would go back to Jacqui with approval to occur by this Council in November or December. He has not as yet received any comments. Marty stated that she had had a request from faculty to review the report and they are trying to figure out how best to distribute the report. One suggestion is to convert it to a PDF file and send it out electronically. Hard copies have been distributed. The deadline is Monday of next week as Jacqui needs time to incorporate the changes. Mr. Bolt will work with Lenore to save the report to PDF. He believes the report needs to include more of a historical perspective. He does not want to leave to chance the possibility of it not including answers to the Commission's questions. Jose commented that now the document can be looked at as a whole and other response teams can contribute to the entire report. The November timeline is to allow time for printing, and for review by the Board, at two meetings, and to time for mailing to the Commission by mid March. Mr. Warkentin suggested that Jacqui and Dave schedule

meetings with the recommendation teams and fill in the blanks. Dave reported that Jacqui feels good about the content but more information is needed.

2. Program Review - Education

Mr. Warkentin explained that we need to show evidence of institutional effectiveness and communication for accreditation. One way to show evidence of communication is by bringing completed program reviews for approval to this body. The district office program reviews that were completed last year came to this body as a courtesy. Mr. Warkentin would like the program review preparer to attend the PGC meeting to review their specific program review. This process has not yet occurred as yet on our campus. The program review on the agenda today is the incorrect one. The correct one will be on the next agenda. James commented that when the program review is complete it is sent to the Student Learning Committee; they approve it, and then ask that the preparer to come to present it to the PGC. If we begin this process this year by our next accreditation visit we will be able to show the visiting team that these are being reviewed and approved. Mr. Bolt will prepare a program review schedule of the due dates of program review.

3. Academic Senate Report

James reviewed the faculty committee appointments made at their last meeting. He questioned if there needed to be a separate representative for the SLO Committee. Mr. Warkentin responded that a SLO representative will be needed beginning next semester. They have also completed the alignment for learning areas. An e-mail has been sent to faculty asking for responses to the learning areas alignment. To date, James has received twenty-two responses and is awaiting eighteen more.

4. Report from Committee Representative

a) Student Learning Committee

Mr. Bolt reported they had their first meeting. The discussion was on how program review is tied into staffing and facilities. The members of the committee did not see the connection until it was explained. The next meeting is scheduled in November.

b) Budget Allocation Committee

Mr. Bolt reported that they have had several meetings with the meetings consisting of review of the 07-08 adopted budget. The next meeting is tomorrow at 3:00 p.m. Ken Stoppenbrink and Anne Jorgens have been invited to discuss individual line items. Some funds have not yet been received and the lottery allocation is still unknown. The governor did approve the basic skills legislation and our school will receive \$100,000. DSPS has been notified that they will receive an additional \$370,000. Mr. Lopez stated that Matriculation had also received a \$125,000 additional allocation.

c) Facilities, Safety, and Auxiliary Services Committee

Vince reported that he had last met with the Incident Command Team on October 5 prior to the drill. Incident reports he reported were: A faculty member fainted on campus. On October 15 at 4:00 p.m. a car was vandalized in the 700 building parking lot, a police report was completed and a picture was taken. The drill was held yesterday. What went right: Much was learned about the process and the communication flow that transpires. The ICS team interacted with the press and the local jurisdictions quite well. The drill was to involve a plane crash to the east side of the library, however, there was some confusion and the crisis led to a fire scenario rather than a plane crash. All areas were videotaped. This was a good experience for the college and it will continue to be an annual activity with improvements each year.

d) Student Success Committee

Mr. Lopez reported that they had met last week. Tammy Larsen is leading a sub committee to look into the area of retention. They are gathering information and looking at what other schools are doing. The end result will be a retention plan. Susie Briones is working on the student handbook. Angela Tos is working on the Matriculation Plan.

e) Employee Development and Success Committee

Dr. Hall reported that they had met last Friday for a strategic planning retreat. They have made some changes to their membership and set the goal to plan a major event each semester. The newsletter name will be changed to the Eagle's Eye. They will reinstitute an employee of the month activity. December 7 is the date set for the Christmas celebration. Staff development, PERS and STRS activities are also to be planned. The sign language instructor has offered to provide some staff room lessons. They are planning two major staff development events per year; one each semester. Vince commented that he had observed that support staff are too busy on duty day to attend staff development activities. He believe there would be more support staff to attend if activities were held at a different time of year. Mr. Warkentin asked that the committees making changes to their roles to bring a revised governance group request to the PGC. EDSC will develop a staff development request procedure. James commented that he would like to see more faculty go to conferences. He believes faculty don't know the process to request conference/seminar attendance. For staff who do attend conferences a report needs to be given and how their conference attendance has benefited our staff and/or students. James reported on the success of a brown bag lunch, book read, that some faculty had participated in.

5. Student Government Association

Yarely reported that there would be a wrestling match at 5:00 p.m. and 7:00 p.m. this evening. There is also a car wash this coming Sunday in front of K-mart. SIFE is in charge of the Haunted House this year. Jan asked who would be assisting with the Haunted House activity in the absence of Dean Atkinson-Alston. Mr. Warkentin stated that it may be Stephanie Droker.

6. WHCIST

In the absence of Dave Bolt at this time in the meeting, no report was given.

7. Agenda items for next meeting:

- Education Program Review
- Employee Development and Success Committee revised governance request form
- SLO Governance Group Request (new)

8. Other

Marty commented that suspension of classes on the evening of Thanksgiving had been disallowed by a previous president. The agreement is that all classes be suspended from 4:00 p.m. on the evening before Thanksgiving as specified in a memorandum of understanding between CTA and the District. Marty will send a copy of the memorandum to Mr. Warkentin.

9. Adjournment

The meeting was adjourned at 3:10 p.m.

TRANSFERS TO FOUR YEAR INSTITUTIONS

Data Source: National Student Clearing House; WHCCD Data Warehouse

Definition: The annual numbers of transfers to four-year institutions were determined by students who completed at least 12 units in the WHCCD system and stopped attending WHCCD prior to transferring to a four year institution.

Assessment:

- In '07, 92 students transferred to public four year institutions; 148 students transferred to private four year institutions.
- In the six years observed, more students transferred to California private institutions each year than transferred to California public institutions.
- The number of students transferring continues to increase with the most significant gains occurring at California private four year institutions.

Data Source: National Student Clearing House; WHCCD Data Warehouse

Definition: Based on WHCCD students who completed at least 12 units primarily online from a combination of online courses from WHCC and WHCL and stopped attending WHCCD prior to transferring to a four year institution.

Assessment:

- The number of online transfers has significantly increased over the six years observed.
- Significant gains have been made in the number of students transferring to out of state public institutions.

Data Source: National Student Clearing House; WHCCD Data Warehouse

SOCIAL SCIENCES LEARNING AREA MEETING WEST HILLS COLLEGE LEMOORE

JANUARY 25, 2010

2pm

TENTATIVE MEETING AGENDA

Ron, Pat, Vera, Rene, Veronica

- 1. Call to order**

- 2. Changes to the agenda**

- 3. Future meetings dates/times**
Mondays at 2pm

- 4. Curriculum report**
First Meeting is next week
Issues with portal
District Curriculum Coordinating Committee—discussion followed

- 5. SLO update**
Assessment—Hist 17ab, Geog 1,3, Soc 7
Analysis—Soc 1,2, Geog 1,3,2a
Evaluation—Soc 1,2, Hist (all), Geog 1,3,2a, CD 17c, 12a
Modification—
91% of non instructional have defined SLOs, analysis only 18%

- 6. Program review**
CD at next PGC

- 7. Academic senate report**
Tenure
DCCC
NISOD

- 8. Classroom issues**
1000 lighting
VC rooms—remote is needed from Joe
Camera to show whiteboard at Coalinga site
Library leaks—M&O has been informed
Door locks in library—use of plan “B”
Most classroom clocks—needs adjustments

9. Faculty evaluations

No FT but adjuncts—Brady, Bellamy, Sievers, Dr. X

10. Possible new faculty positions

Psychology?

11. Other

12. Next meeting

3. Curriculum report
Portal transition
Lib Arts update
4. SLO update
Vera provided an update
SLO Cycle
Share during
Each faculty will present a SLO assessment, results, and analysis
5. Program review
CD was passed by PGC
6. Academic senate report
Proposed Tenure
Elections
New policies
7. Classroom issues
1000 lights
Instructor station cleanliness—send an email on methods to make it look cleaner
8. Faculty evaluations
Squaring away assignments
9. Possible new faculty positions
CD, Psychology
10. Other
11. Next meeting—March 15 @ 2pm

MATH/SCIENCE LEARNING AREA MEETING WEST HILLS COLLEGE LEMOORE

MARCH 12, 2010

12:00NOON

MEETING AGENDA

Dave, Frieda, Maria, Brian, David, Kurt, Bob, Shawn, Cliff

- 1. Call to order**
- 2. Changes to the agenda**
- 3. Curriculum report**
Shawn has accepted the opportunity to serve.
- 4. SLO update**
Math 1A—SLO 3: use of test results to review SLO
Bio 38—SLO 1: use of final exam to look at SLO
Brian, Bob, Shawn for next meeting
- 5. Program review**
Collection of completed program reviews this next month; e-versions, too
Upcoming program reviews to be due in fall will be announced by May
- 6. Academic senate report**
Weapons on campus
All other AP/BP have been sent out; prerequisite topic is "hot"
Elections
Tenure folk have been sent to the pres
Updating bylaws and constitution
- 7. Classroom issues**
Scheduling issues for MW or TTH classes and working around holidays
Clock batteries—711 719, 209, 274
- 8. Faculty evaluations**
Cliff, Bob, David, Brian
- 9. Other**
Relocate the financial comparison to the website, away from portal
- 10. Next meeting—April 9th @ noon**

SOCIAL SCIENCES LEARNING AREA MEETING

April 19, 2010

2pm

Bob, Ron, Vera, Pat

1. **Call to order**
2. **Changes to the agenda**
3. **Curriculum report**
District Curriculum Committee Representation
Curriculum training for electronic submission of curriculum
4. **SLO update**
Remember to assessment, review, and modify SLOs
Emphasis next fall will be on Lib Arts
5. **Program review**
New program review booklet
Roll out in May
6. **Academic senate report**
District Curriculum Committee was passed
New president and vice president
BP and AP approvals
New faculty positions—Ranking? Process to be determined.
Flex Day input
Accreditation visit is week of March 7th
Faculty Senate Awards at graduation
7. **Classroom issues**
Library closed door issues
Food in library
Closed captioning wrt video conferencing
Theft of media equipment—DVD remote, cabling in 236; Scott has been informed
8. **Faculty evaluations**
Kudos to Pat and Vera

9. End of the Year Business
Spring 2011 schedule input
Library hours reduced in summer

10. Other

Social Sciences/Math/Science Learning Areas

West Hills College Lemoore

August 13, 2010

Minutes

Present: Gibson, Ganter, Birrell, Sanchez, Hall, Kraft-Chapman, Harris, Jackson, Castagna, Babb, Sterling, Fortune, Abela, Kennedy

1. Changes to the agenda
Several items were added to the agenda—see agenda item #9
2. Campus issues and highlights
Introduction of Allen Fortune
USDA Grant Update
New S-STEM NSF Grant
3. Beginning of the school year business
Submission of course syllabi to Ed Services Office
Update rosters
Waitlist was discussed
Syllabi to contain SLOs
4. Curriculum Committee report
 - Representation
Social Science—Vera
M/S—Shawn
Expectation that a report to be given at each Learning Area Meeting
 - Five year review of course outlines
Curriculum reps will work with faculty to ensure currency
5. SLO update
 - Representation
Social Science—Allen
M/S—Frieda
Expectation that a report to be given at each Learning Area Meeting
 - Course level
Faculty were complimented on developing SLOs and assessment
Adjunct faculty were given extensive information during their orientation
 - Program level
This is the area of SLO work that should be the emphasis this year
 - Assessments—Documentation; Evidence that SLOs have led to changes in student learning
Provide documentation evidence to SLO Rep or D. Babb

6. Program review for 2010
 - Biology *Cliff*
 - Liberal Arts—Math and Science ??
 - Liberal Arts—Social Science *Bob H.*
 - Chemistry *Brian*
 - Mathematics *Frieda*

7. Academic senate report
 - Representation
Social Science—*Ron O.*
M/S—*Jameson*
Expectation that a report to be given at each Learning Area Meeting

8. Budget update
 - Equipment/Supplies
\$59K in lottery money will pass through the Budget Allocation Committee
Staff need to submit requests now for possible emergency funding
 - Schedule implications
25 additional sections were added to fall schedule upon presidential request
 - Staffing implications
Staffing in some disciplines is difficult and may hamper future schedule

9. Other business/discussion
 - 2 year schedule
Use form to submit conservative estimate on when courses should be offered
 - Spring 2011 schedule
Submit ASAP
 - Testing Center
Useful for make-up tests and placement exams
Need a computer lab; maybe DSPS lab?
Dave will discuss with Student Services staff

10. Next meeting—TBD

MATH/SCIENCE LEARNING AREA MEETING

WEST HILLS COLLEGE LEMOORE

FEBRUARY 19, 2010

12:00NOON

TENTATIVE MEETING AGENDA

Brian, David, Shawn, Kurt, Jameson, Angela, Bob, Cliff, Frieda, Kim

1. **Call to order**

2. **Changes to the agenda**

3. **Curriculum report**
*Up for grabs since Cliff is unable to attend. More discussion.
Status of biology and chemistry is likely to remain.
District level curriculum committee? Voice opinions to S. Droker.*

4. **SLO update**
Assignment—Report on an SLO being assessed, present results for next meeting.

5. **Program review**
Chemistry and Biology likely for fall 2010.

6. **Academic senate report**
*District curriculum discussion—faculty are encouraged to attend the first district curriculum committee meeting
Senate elections
Tenure nominations—Rodriquez, L. Hall, Rogers, Raia*

7. **Classroom issues**
*Lights outside 700
Lights outside 200 go off too early
Whiteboard in conf. center?
Theft of pencil sharpeners—replacement?
Updates on computers untimely
Hard key for cabinets within 700B for JB
Key cards—see Amber or Kyle
Projectors and media centers are left on after class*

8. **Faculty evaluations**

Full timers: Babb (Rengh, Abela), Ganter (Jackson, Birrell), Gibson (Birrell, Abela)

Adjuncts: Hartman (Birrell), Ford (Abela), Griffiths (Gibson), Gradis (Abela), Crain-Peltzer (Babb/Harris), Thomas (Birrell)

Full time faculty evaluators are to await word from Dave B. that is okay to evaluate.

9. Other

10. Next meeting—March 12 @ noon

Minutes-A & L Meeting

March 8, 2010

Present: M. Hall, T. McGee, N. Daniels, M. McDowell, J. Shehorn,

L. Howard, J. Preston, K. Sheffield, L. Beloof

1. Call to order at 12:02 pm.
2. Additions to the agenda-none.
3. Approval of minutes- no minutes to approve.
4. New Business
 - a. Teleconference meeting with Coalinga English Teachers- M. Hall was going to set up a meeting on March 22, but it was pointed out that we already have a meeting set up on March 15th. At the March 15th meeting, we will address English 1A, English 89 change to 100, and GS 61. M. Hall suggested T. Winters and J. Milianta be invited to the March 15th meeting. M. Hall also cancelled the March 22 meeting with the Coalinga English Teachers, and we will not be meeting for an A & L meeting on March 22nd either.
 - b. Spring 2010 Schedule- was passed around for everyone to provide input.
 - c. Adjunct Evaluations- J. Preston will evaluate Drew in Education, K. Sheffield will evaluate J. Milianta in GS and Wu in Linguistics, M. Ennes will evaluate Prelip and Johnson in Communications.
5. Old Business
 - a. SLO Assessments-faculty asked about the deadline for the SLO chair to submit an annual report. The deadline is in April. M. Mc Dowell is going to work on SLOs for Humanities. J. Shehorn suggested that he take SLOs from the "old" Humanities form and put them into the new format.
 - b. Program Review- M. Hall asked if any were due. There was a bit of discussion on Liberal Arts degree going through the curriculum process again.
 - c. Kaleidoscope-M. McDowell has received submissions. He wanted to know if students submitting visual and written pieces could use the same release form. L. Howard and N. Daniels agreed. M. Mc Dowell will forward copies of release forms to N. Daniels. M. Mc Dowell hopes to get the product to All Valley by April 30th. If done by then, we will have copies to distribute before graduation. M. Mc Dowell asked if we would rather cut pages or copies if the All Valley quote was higher than the budget allotted. Faculty suggests fewer pages because we do give out all 300 copies. SPLAAT students are organizing a "Battle of the Bands."
 - d. Bookstore- There have been no changes. Bookstore responded to email regarding issues with "need specifics" before he can address. M. Hall suggests that faculty CC him with book orders next semester. Faculty also stated the difficulties of giving a book order by the bookstore's deadline when we don't know which class sections we have been

assigned. In terms of art supplies, the mark up is higher, so students go to Michaels or Allards instead.

6. Senate Report- L. Belooof read an email from S. Droker in regards to tenure resolutions. It stated the Chancellor was holding them until the April meeting to approve Lemoore and Coalinga requests at the same time. Faculty wanted to know who was up for tenure. T. Mc Gee stated M. Rodriguez, L. Hall, and J. Rodgers, but there are others.
7. Curriculum Report- English 1B was tabled by R. Sanchez because she wasn't sure that Coalinga had been included. J. Shehorn said S. Sutherland had been contacted on at least 3 occasions to relay information to his Coalinga colleagues. He did tell J. Shehorn to go ahead, J. Shehorn told R. Sanchez to put it through as well, but it was still tabled.
8. Classroom Ideas/Issues- Faculty discussed the inappropriate furniture in the classrooms. Concerns included: set up determined pedagogy, furniture inhibits interaction with students, "Modesty Shields" are useless and falling off, teachers found it difficult to get to students sitting on the far end next to the wall, and there were other issues/concerns. J. Shehorn did research the furniture and shared the information with D. Warkentin at one point. However, he turned down the request to use BSI funds to change furniture in a classroom. Faculty wonders why it's acceptable for science to have a collaboratory that only they use, but we can't have a room better designed for students in English classes. J. Preston asked what could be done to put forward requests in future buildings. It was suggested that we relay concerns to: Senate, Student Success Committee, Facilities Committee, and BSI. J. Shehorn was going to ask S. Droker if we could have more than one faculty on Facilities just in case the designated faculty was teaching at the time the meetings are held.
9. Other-none.
10. Agenda items for next meeting-nothing new was suggested.

Adjourned

Minutes-A & L Meeting
April 26, 2010

Present: M. Hall, L. Howard, J. Preston, M. McDowell, K. Sheffield, R. Oxford, L. Beloof, M. Ennes

1. Call to order at 12:00 pm.
2. Additions to the agenda- Learning Area Awards
3. Approval of minutes-Minutes approved (Marty moved to approve, Kim seconded). All were in favor.
4. New Business
 - a. Don announced, at an administrative meeting, that we are now going to a one-year schedule. Don wants this discussed at Learning Area Meetings. A&L has already been working on this. Probably won't happen until next spring (one full year of suggestions). It was suggested that an activity/discussion be planned for Flex Day regarding the one-year schedule. Marlon is going to follow-through with Kurt regarding this.
 - b. "Battle of the Arts" at Kings Art Center. Students are excited. Mike mentioned the possibility of honoring Sue Westover. A plaque in the sidewalk was mentioned. Question was asked as to whether or not we can provide Sue's children with an honorary degree for their mother. Marty will take information, from Mike (regarding Sue), to PGC. Other items discussed included Food and Follies. Time, location? Attendance, and enthusiasm, are declining. It was mentioned that everyone might need to be included in the planning. Too staff driven.
 - c. SLO Assessments: 101B (Kim and Jacqui are working on this). 51B (Libra). 1B (Is this being assessed?) It should be this semester. Ed 5 (James). Mike checking his schedule.
 - d. Program Review: Nothing currently.
 - e. Ron Oxford shared his concern regarding different style guides and their updates. He asked what the library should use to help students. There have been contradictions in format (MLA, APA, CMS). He wants the library staff to know how to direct the students. Do they go by the edition required in the class? Do they go by the most updated information on the MLA website? How should the library, and English Lab, handle this? Continue this discussion in A&L. Ron will also discuss this concern with other learning areas.
 - f. Learning Area Awards: English-Laura "Stormy" Minero, Art-Heaven Annie McGrath, Communication-Raechelle Berna, Education-Gina Luis, Humanities-Bryan Eskew
5. Old Business
 - a. Changing English 89 to English 100: No updates. A&L had a meeting with Coalinga. No words since. Marlon sent information, from the chancellor, to Scott Sutherland. Marty asked Mike to bring the issue up in Curriculum. Should we move forward even though we haven't heard more from Coalinga?
 - b. Changing GS 61 to GS 101 (See 5a).

- c. Kaleidoscope: At the printer. Mike gave flash drive back to Marty. Ahead of schedule. Hope is to pick it up May 7. Kim and Libra will proof. Check layout, line endings. It was noted that people are pleased we pushed for print rather than online. Tangible reward. Does not read as well on screen.
 - d. Bookstore: No communication, yet, regarding Fall 2010 book orders. Libra noted that she hadn't been contacted about Summer 2010. Others said they had been. Email Amber for follow-through. Concern regarding books being used later in the semester. Students wait to purchase, and by the time the book is utilized, the bookstore has sent them back. It was suggested that the bookstore keep the copies in store, especially when the instructor uses the same title/edition every year.
6. Senate: Larry provided an email handout, from Stephanie Droker, regarding recommendations for faculty positions. Priority is ESL. Spanish Instructor is also needed. Other positions discussed included Communication Instructor, Art Faculty, Humanities, Performing Arts, Music, and Journalism.
 7. Curriculum: Ed 5 needs to be sent to A&L for approval and, then, to TRC. May 3 is the last day to submit new material.
 8. Classroom Ideas/Issues: None discussed.
 9. Other-None

Agenda items for next meeting were suggested-Marlon wrote those down.

Meeting adjourned at 12:52 pm

Next meeting is the last meeting of the semester (May 10).

**WEST HILLS COLLEGE LEMOORE
HEALTH, WELLNESS & NURSING
LEARNING AREA MEETING
WEDNESDAY, OCTOBER 20, 2010
8:30am – 10:00am**

A G E N D A

- 1. Call to Order**
- 2. Additions to the Agenda**
- 3. Approval of Minutes**
- 4. Health & Nursing Area Report – Charles Freeman**
- 5. Counselors Report – Marta Hendrickson**
- 6. SLO Program Review Assessment Report– Joel Rogers**
 - A. Program Level
 - B. Course Level
- 7. Curriculum Report – Kent Olson**

- 12. Classroom/Campus Concerns**
- 13. Good of the Order**
- 14. Adjournment**

WHCL Health, Wellness, & Nursing Learning Area
Meeting Minutes
October 20, 2010

Room# 124

8:30 a.m.

Members Present: R. Clement, C. Freeman, M. Hendrickson, D. Neer, K. Olson, T. Quilici, R. Ragsdale & M. Unzueta

Members Absent: A. Fortune & J. Rogers

Minutes recorded by: A. Avitia

1) Call to Order-

8:30 a.m.

2) Changes/Additions to the Agenda-

None Stated.

3) Approval of Minutes-

K. Olson motioned to approve September 8, 2010 meeting minutes; D. Neer seconded the motion, the motion was approved unanimously.

4) Health & Nursing Area Report- Charles Freeman

C. Freeman reported that the medical assisting course is going through the curriculum process for credit. He added that the EMT course expanded its seats from 30 to 40 students and that a sterile processing course may be offered in the spring. He also announced that the CNA course started today, October 20, 2010 and that the nursing area is trying to hire a CNA instructor. C. Freeman exits at 9:50a.m.

5) Counselors Report- Marta Hendrickson

No report given at this time.

6) SLO Program Review Assessment Report- Joel Rogers

A. Program Level

B. Course Level

No report given at this time. J. Rogers absent.

7) Curriculum Report- Kent Olson

K. Olson reported that PE-005 Intercollegiate Women's Volleyball and PE-25A Introductory Soccer were recently passed in curriculum.

8) Academic Senate Report- Dave Neer

(Handout: E-mail: SB 1440 Implementation: Associate Degree's for Transfer)

D. Neer informed the learning area of the recent e-mail all faculty should have received regarding the new bill that passed that would help students transfer with an associate degree. He asked the learning area to review the e-mail for their information.

9) Athletic Academic Advisor Report- Teresa Quilici

T. Quilici informed the learning area of the recent progress reports sent out by Elva Torres and, as of today, October 20, 2010 she has received only four progress reports and expressed the importance of receiving these back from the instructors. The learning area had an open discussion regarding the progress report template and faculty involvement. R. Clement will have Sylvia Dorsey-Robinson at the next learning area to help clear up this process.

10) Golden Eagle Arena-

A. Continued Discussion- Course Curriculum Development

B. Clement asked the learning area to continue brainstorming of potential courses that could be offered in the arena.

11) Kinesiology Curriculum Report- Dave Neer/Joel Rogers

(Handout: Student Learning Outcomes Tracking Form)

No report at this time. J. Rogers absent. B. Clement shared with the learning area that a representative was needed for the area to be a part of the Strategic Planning Meeting. D. Neer volunteered, in addition to K. Olson to be D. Neer's backup.

12) Classroom/Campus Concerns-

No issues or concerns at this time.

13) Good of the Order-

(Handout: E-mail regarding spring schedule)

B. Clement shared with the learning area of proposed course changes for the spring from R. Ragsdale. No issues or concerns at this time.

14) Adjournment

Meeting Adjourned: 9:40 a.m.

**WEST HILLS COLLEGE LEMOORE
HEALTH, WELLNESS, & NURSING
LEARNING AREA MEETING
FRIDAY, AUGUST 13, 2010
3:00pm – 4:00pm
WHCC LIBRARY**

A G E N D A

1. Restricted and Unrestricted Funds Expenditure
 - Lottery
2. Two –Year Schedule
 - To be placed on the college website and/or portal (Handout)
3. 2011 Spring Schedule
 - Work on the premise that the schedule will mimic 2010 spring schedule “Moving Target”
 - Schedule development team for our Learning Area
4. Program Review
 - Program review schedule (Handout)
 - Timelines for completion
5. Evaluations of Faculty
 - Fulltime
 - Adjunct
6. Accreditation Updates (Handout)
7. Learning Area Faculty Representation
 - Curriculum, SLOC, Academic Senate, PGC
8. Course Repetition
9. SLO Update
 - Course Level & Program level assessment (4% of program SLO assessed to date)
 - Implementation Plan – Portal (Handout)
10. Golden Eagle Arena
 - Fitness Equipment Update (Handout)
 - Course Curriculum Development
11. Removal of W’s & F’s from transcripts
12. Learning Area meetings schedule for 2010 fall semester
13. Campus issues and highlights
14. Adjournment

Subject: Student Education Plans (SEP) for Athletes

Hello esteemed coaches,

I have been charged with having student education plans on file for all of the student athletes by September 3rd. I am emailing you to inform you of my plan and request your support and assistance in implementing it.

The plan

I have scheduled a group academic counseling session on Tuesday, August 24 from 3-5 pm. (Hopefully this is not news to you and you have already been notified of this date.)

A different counselor will be available at each table. I will begin the session with a 15 minute overview of the advising sheets, educational goals and the SEP form; the goal of this presentation is to provide the information necessary to the students to be able to identify their educational goal and know what forms to follow and fill out. The students will then begin completing their own SEP forms and will include on it the sport for which they participate. There will be catalogs at each table for them to review course descriptions and majors. Once the student has completed the form (with the assistance of the counselor as necessary) the form will be given to the counselor who will check it, make any necessary changes/revisions, write in any appropriate notes or information and collect it. All SEPs will be copied and the student's copy will be sent to you to be distributed to them later.

How you can provide support and assistance

- Please provide me with a list of the courses your athletes need to participate in for your sport. **I will need this list by noon on Monday, August 23.**
- Please emphasize with your athletes the value of the student educational plan (from a success viewpoint it is the most important counseling activity they can participate in to help them meet their educational goals).
- Please require those students who do not have a SEP on file to attend; let them know that having a SEP impacts their eligibility.
- Please stress to your athletes that they need to be on time- the instructions are explained in the beginning. The counselors are extending their work day for this event and I'd like to demonstrate respect for their time by beginning on time.
- Consider encouraging all your athletes to be there for the overview at the beginning (although not required for those students who already have a SEP on file, it is excellent information that can only positively enhance their knowledge for their education).
- Check your mailboxes and when you receive the copies of the SEPs, distribute them to the athletes as soon as possible.

I think this is going to be a great event and I look forward to working with you and your student athletes. If you have any questions, concerns, or suggestions please don't hesitate to contact me; I welcome feedback.

Thanks
Angela Tos

West Hills College Lemoore
Student Services Matriculation
Meeting Minutes
Date: December 13, 2010

Attending: Linda Amaya-Guenon, Lupe Banales, Susie Briones-Aceron, Veronica Grijalva, Mariadelaluz Gonzalez, Lataria Hall, Marta Hendrickson, Eva Jimenez, Jose Lopez, Teresa Quilici, Mike Rodriguez, Joel Ruble, Gary Sedgwick, Angela Tos, Jan Young, Wendy Denny, Sylvia Dorsey-Robinson

Absent: Tiffani McGee, Jose Murrieta, Rupinder Rai, Oscar Villarreal

-
1. Discuss key points from:
 - a. SB 1440
 - b. Completion By Design
 - c. Winning by degrees: the strategies of highly productive higher-education institutionsStaff was previously given copies of documents on SB 1440, Completion by Design and Winning by Degrees and instructed to be prepared to discuss the contents. With regard to SB 1440, staff discussed the importance and implications of the legislation and the urgency of implication. With regard to Completion by Design, staff discussed the loss and momentum points in the proposal of the Completion By design from the Bill and Melinda Gates Foundation and the WHCCD involvement of the grant. With regard to the Winning by Degrees, staff discussed the practices for raising degree completion.
 2. Discuss interpreting transcripts for military students - Susie and Gary
G. Sedgwick and S.B-Aceron reviewed with staff how to interpret transcripts for veterans who have transcripts from all over the country. He highlighted the need to determine if we were going to accept the courses from local proprietary schools. There appears to be an influx of students who are enrolling with transcripts from these colleges as there is no current articulation agreement. This item will be revisited in the next meeting.
 3. Hear update on H.O.P.E. Project
SDR distributed copies of the Having Opportunity and Promise through Education (H.O.P.E.) project. J. Ruble, walked staff through the plan that outlines the college's involvement at the K-12 level and parent involvement
 4. Review Developed Checklist and identify essential documents to provide to students during counseling/advising appointments in order enhance student success
Staff reviewed the "Student Check List" created by the team in a previous meeting. Some changes were made and some items were eliminated as staff realized that some items will be addressed in orientation and some items exist on the website.
T. Quilici and S. B-Aceron gave an update to the staff of the Lemoore office.
 6. Receive AP S011 - Admission and Concurrent Enrollment of High School and Younger Students
Staff was give a copy of the proposed AP 5011 and asked to read over and be prepared to give feedback to Eva for PGC in January.

December 3, 2010

Sunday, November 28, 2010

3:30 PM

Student Services Matriculation Meeting

Agenda

December 3, 2010

1. Discuss key points from:
 - a. SB 1440
 - b. Completion By Design
 - c. Winning by degrees: the strategies of highly productive higher-education institutions
2. Discuss interpreting transcripts for military students - Susie and Gary
3. Hear update on H.O.P.E. Project
4. Review Developed Checklist and identify essential documents to provide to students during counseling/advising appointments in order enhance student success
5. Standing Items:
 - a. On and Off Campus event need
 - b. PGC Update
 - c. Counselor Learning Areas:
 - i. Arts and Letters - Tiffani
 - ii. Math/Science - Angela
 - iii. CTE - Mike
 - iv. Health/ Wellness - Marta
 - v. Social Science - Veronica
6. Receive AP 5011 - Admission and Concurrent Enrollment of High School and Younger Students
7. Hear update on "2010-11 Task List"

**West Hills College Lemoore
Planning and Governance Council
Wednesday – November 21, 2007 - 1:30 p.m.
Conference Rm. 124**

Minutes

Members Present:

Don Warkentin, President
Marty Ennes, CTA/Faculty Representative
Angela Tos, CTA/Faculty Representative
Kyalo Mativo, Curriculum Committee Chair
Ron Oxford, Librarian
Jan Young, Counselor/Advisor
Jose Lopez, Dean of Students
Allen Moore, Interim Director of Facilities & Auxiliary Services
James Preston, Academic Senate President
America Infante, CSEA/Classified Representative

Members Absent:

Rene Sanchez, Curriculum Committee Chair
Teresa Macias-Quilici, CSEA/Classified Representative
Dave Bolt, Vice President of Educational Services
Marlon Hall, Associate Dean of Educational Services, Evening College
Yarely Herrera, Student Government Association Representative

Call to Order

Mr. Warkentin called the meeting to order at 1:32 p.m.

Approval of minutes

The minutes of the November 7, 2007 meeting were approved on a motion by Marty Ennes, seconded by Ron Oxford, all in favor, motion passed.

Action items

- **Employee Development and Success Committee Governance Group Request (revised).** In the absence of Marlon Hall, this item will be postponed.
- **Program Review – Education/Education Assistant (EDUC/EA) Arts and Letters**

James Preston recommends that this program review remain status quo. They will continue to seek grant funds. Marty Ennes asked about the status of the counselor position. James responded that they are working on designating someone 40% but no one has been formally designated. The majority of allocated monies will go to Angela Tos and Marta Hendrickson. The grant funds are only for one year. Marty asked if it would be helpful to make a recommendation for someone to be designated? James responded negatively. There are funds for this position, even if it is an increase to a current person. Is there enough money to identify someone full-time temporary? Mr. Warkentin announced the budget expenditure cutoff date is as of February 1 in anticipation of budget cuts from the Governor. He recommended the use of general funds prior to restricted funds. Ken Stoppenbrink has stated that with contract obligations for next year, \$1.9 million district-wide are needed. The restricted monies deadline is May 1, 2008. A caveat, Mr. Warkentin stated, could be the Governor's budget. We cannot hire permanent staff, only temporary. Dave recommended a

program review schedule. Mr. Warkentin reported that as part of institutional effectiveness we want program reviews to come to this body to be reviewed and approved. Angela Tos announced that she has the program review for Student Services completed and it will be brought to the next meeting. James believes a schedule would be helpful. Marta asked if we could come up with a similar schedule process as in the Curriculum Committee. James recommended that this program review remain status quo. Marty Ennes motioned to approve the Education/Education Assistant (EDUC/EA) Arts and Letters Program Review, it was seconded by Angela Tos, all in favor, motion passed.

Information/discussion items

1. Mid Term Report Final Draft (first reading)

Mr. Warkentin stated that the Report will need to go to the board in January for final approval at the February board meeting. He suggested that all members read the Report closely and question as they read if it answers the recommendation. James announced that this is on the agenda for Senate this Monday.

2. Student Learning Outcomes

Dr. Mativo reported on behalf of Rene Sanchez. The next meeting is scheduled on November 28 at 12:00 noon in the Senate office. Rene has requested all faculty to attend if possible as this is a general education curriculum meeting for identification for articulation requirements to CSU's and UC's. Next semester they will contact instructors about courses to be deleted or revised. 71% of the slo's are complete. This does not include non instructional programs which have been turned into Angela Tos. Ten percent have been assessed. Half of the staff are writing assessments. 29% are without slo's at this time. Some of the courses may not be offered and may be inactivated. There are still a large number in areas that do not have full-time faculty. You cannot inactivate a course that is part of the program, i. e. Chem 55, if it is listed in the major. There are some issues and they are being identified. Angela believes these have to be submitted to the State Chancellor's office. The percentages may be off. Mr. Warkentin is concerned about courses we now teach that don't have slo's. If it is a part-time faculty or full-time faculty they need to be contacted.

3. Library Positions

Ron Oxford explained that they are attempting to stabilize the staffing in the library. Russell Bellamy has moved to an adjunct position to free up funds for one 19 hr. library specialist. The new position will be paid more than the full-time person (Frances Andrade) and they are trying to figure out the path to bring these positions into alignment, therefore, Dave Bolt has referred Ron to this Council. There are not funds currently, but the amount of monthly increase to Frances' position amounts to \$79-100 more. Frances has the same responsibilities. Mr. Warkentin responded that he is aware of many positions in this situation and consultants have been hired for a classification study to look positions and re-classifications. Until the study is complete re-classifications will not be approved. This may be positive for some staff, but could also result negatively for some. Ron asked if they look at the structure of the positions. Mr. Warkentin responded affirmatively, as was done in a previous study. Upon completion of the study the effective date would most likely be July 1, 2008 for any reflected

changes. Budget requests will be submitted in the spring as per the process and requests will be prioritized.

4. Academic Senate Report

James reported that at their last meeting they approved AP 3435. BP 3435 is currently being revised at the Chancellor's level. The Senate has asked that the black out resolution be adhered to. This specifies that college meetings not be scheduled during finals week and the first week of each semester. James passed out a draft of flex day activities and updated faculty committee involvement appointments. He also passed out a list of the new learning area realignment model. Administrators assigned to each learning area is still to be discussed. James was pleased to announce that counseling faculty are adopting a learning area and will attend the meetings. This builds a bridge between instruction and student services with many perspectives, placement testing, course scheduling, where to refer students, etcetera. The last Senate meeting for the semester is this Monday with focus to be on the Basic Skills Initiative (BSI).

5. Accreditation Rubric for Institutional Effectiveness

This item will be postponed. This is rubric of the planning, slo's, and program review. We are beyond the awareness stage, through development stage, and through the proficient stage with a report due on March 10.

6. Report from Committee Representative

a) Student Learning Committee

In the absence of Dave Bolt, Mr. Warkentin provided input sent from Chairman Bolt via his e-mail to state that this committee recommends changing their role regarding program reviews. The SLC recommends that program reviews now be sent directly to the Planning and Governance Council and then on through the budget development process.

b) Budget Allocation Committee

In the absence of Dave Bolt, Mr. Warkentin read some comments from Chairman Bolt via his email. James asked the status of the electronic bulletin board for the front area. Mr. Warkentin stated that he has asked the company, Datronics, to provide a quote for an electronic bulletin board. Angela reported that after conversation with several students they had commented that the current administration bldg. lobby screens are not in the best location. Ron stated that the library's screens are not up as yet and he intends to check at UC Merced to see their flat screens and where they are located. The architect has been asked to address this issue. James referred to the Lemoore High electronic board which is place at the corner of their lot. Marty likes the idea of the Student Learning Committee's role change. Angela concurred. Program reviews will now go to PGC, then through the budget allocation process.

c) Facilities, Safety and Auxiliary Services Committee

Allen Moore reported the broken blue call center had been repaired. The Health Department was on campus for an inspection last week. Fly control is a concern in both the snack bar and culinary lab areas. Scheduled maintenance will be used to purchase fans for fly control, also a refrigerator needs to be fixed. There was a central plant problem where the chiller starts on its own. The vendor was called and a switch needed replacement. Allen is looking into a performance contract to step side huge expenses concerning the heating/cooling system. The CDC landscape has been maintained by

two companies and this has caused concern between the two companies regarding the sprinklers, ect. A drain has been listed for scheduled maintenance dollars at the CDC, then a lawn to be rolled in. The maintenance schedule plan has 15 items and has been submitted. Allen may propose training opportunities for his staff to this committee to enhance some of their skills, i.e. sprinkler system training, key access systems, and weed control. Marty commented that dusting needs to be done. The carpets are being cleaned in the library. A couple of 19 hour positions have been approved and hours have been changed around which will lend to more work completed. There have been no incidents to report. Mr. Lopez reported a couple of students disruptive in a night class. There was also an incident in the library in which a under age student had stepped off campus with an adult. Mr. Rosas of the charter school is looking into this. Also, the Police Dept. is investigating a possible drug sale. Ron would like to look at who gets staff i.d. cards. There has been some confusion between students and staff. Jose reported the possibility of counterfeit \$100 bills being passed on campus. This was caught by the bank.

d) Student Success Committee

Jose would like to have Tammy Larsen report on what has been accumulated in retention studies.

e) Employee Success and Development Committee

Jan Young reported a big evening planned for the Christmas party. Thanksgiving was a success and \$215 raised from the centerpiece silent auction. The employee newsletter is being revamped and a short staff development activity is being planned before end of the semester.

f) Technology Committee

Ron Oxford reported that had held a meeting on November 13. Membership is being discussed and representation is needed. They reviewed norms. The intent is to maintain an environment of openness and productivity; putting students first. Michelle Kozlowski attended to provide a history of TAT and WHCIST. A future agenda item is budget for the replacement cost of computers. They plan to map communication flow to TAT to WHCIST. Allen asked if computer leasing had been considered.

g) Student Learning Outcomes Committee

In the absence of Rene Sanchez, no report was given.

7. Student Government Association

Mr. Lopez reported that the subcommittee is setting up meetings. A workshop for the student services site visit is scheduled on December 3 for 1/2 day workshop. March 9, 2008 is the date of the site visit.

8. WHCIST

In the absence of Dave Bolt, no report was given.

9. Strategic Planning Committee Meeting

Mr. Warkentin reminded all of the Strategic Planning Committee Meeting is on November 30, 2007 10:00 a.m. This meeting will occur twice per semester. Topics of discussion will be what went right this semester and future planning.

10. Agenda items for next meeting

- Program review – Student Services, Angela Tos
- Learning Communities – James

- Mid Term Report
- Retention Report - Tammy Larsen

11. Other

Mr. Warkentin reported that an administrative internship program has been developed and the consensus is to have one instructional internship position. The job description will be finalized to advertise in January with a selection to be made by April and a start date of July 1, 2008 for one year. The normal application process will occur with a selection committee and formal interviews. There will be an intern in Lemoore and also one in Coalinga. The original plan was to have two internship positions at each college. The pitfalls are backfill concerns. Hopefully an adjunct can be found. Also a possible pitfall is should there be a budget crisis and no monies to backfill. Should this be a concern it may be put on hold. James stated that the district was also to have an internship. Mr. Warkentin replied that there is no more information learned on this as yet. They will recommend this to the Chancellor. Colleges can develop a timeline. America questioned that if a classified staff member could apply. Mr. Warkentin responded that if the staff member meets the qualifications that can indeed apply. It is easier for classified position as they are most likely a 12 month employee. James stated that the State Academic Senate is also advocating this type of internship.

12. Adjournment

Mr. Warkentin adjourned the meeting at 2:52 p.m.

Next Meeting – December 5, 2007

Counseling Faculty Learning Area Meeting

Agenda: 5/12/10

1. Call to Order
2. Changes to Agenda
3. Approval of Minutes
4. Reports
 - a. Senate
 - b. Curriculum
 - c. Student Success
 - d. Student Learning Outcomes
 - e. Basic Skills
 - f. Transfer/Career
 - g. Articulation
 - h. PGC
 - i. Technology Committee
 - j. Advisor Meeting Update
 - k. Learning Areas
 - i. Arts and Letters
 - ii. Social Science
 - iii. Career Technical Education
 - iv. Health and Wellness
 - v. Math and Science
5. Action Items

6. Agenda items for next meeting

Next meeting is scheduled for May 26th??????

Counseling Faculty Learning Area Meeting

Minutes: 3/24/10

1. Call to Order:
2. Changes to Agenda
3. Members
 - a. Present: Tiffani McGee, Mike Rodriguez, Ann Barr, Marta Hendrickson, Sylvia Dorsey-Robinson, Angela Tos, Linda Amaya, Veronica Grijalva, Rupinder Rai, Maria Gonzalez, Lataria Hall
4. Absent: Gary Sedgwick
5. Reports
 - a. Senate:
 - i. Discussed new faculty list: 1. Psych 2. ESL 3. Humanities 4. Developmental English 5. Nursing
 - b. Curriculum
 - i. PE 45 was approved
 - ii. Education 5 was approved for 5 year review
 - iii. English 89 to 100/GS 61 to 101 were both approved for a second reading
 - iv. Intro to nursing courses was approved for second reading
 - v. Deleted Humanities degree because of new liberal arts degree
 - vi. Program revision for LVN to RN and RN were approved
 - c. Student Success
 - i. Prioritized student town hall matrix
 - ii. Reviewed Student Equity Plan
 - iii. Revised governance statement
 - d. Student Learning Outcomes
 - i. Discussed that adjunct faculty need to assess SLO's because we are not getting credit through WASC for the assessment unless every section of the course is assessed.
 - e. Basic Skills
 - i. Discussed goals for next semester
 - f. Transfer/Career
 - i. Transfer Dinner on May 20th
 - ii. UC Merced is opening doors for Spring 2011. Also accepting TAG agreements for Spring 2011
 - g. Articulation
 - i. Marta went to DeVry University presentation. They offer 16 week sessions with 8 week session incorporated. They also have degree completion programs. The cost to attend is \$580 per unit for the first 11 units and \$350 per unit for the 12th unit and above. See Marta for the catalog
 - ii. Online Biology 10 lab is being rescinded (online part)
 - iii. Update on Bio 35L-only students who have take our Bio 35 online or currently taking our Bio 35 online and plan to transfer to CSUF

or another campus that does not take our Bio 35 online should take this one unit lab course.

- iv. Geol 9 Update-will not be cross-listed with Geog 1. B. Hall plans to create geology as a new stand alone class (earth science)
- h. PGC
 - i. Discussed program review for Snack Bar and UBMS-approved
 - ii. Middle College Accreditation-received an "A" letter grade-suggestion to get separate campus
 - iii. Evelyn Sue Westover-honorary degree/PGC approved-going to Board for final approval
 - iv. Relay for Life update-made \$1500 and received a bronze medal
 - v. SGA elections were held on May 12th
- i. Technology Committee
 - i. Has not met
- j. Advisor Meeting Update
 - i. Not met yet since last meeting-SDR provided update
 - ii. Met w/Cindy Homburg from HHS-discussed concerns and protocol for next semester
 - iii. A few advisors and SDR are going on a field trip next Monday to visit a few local high schools-plans to get a sense of their needs and we can do to improve our services to their campuses.
 - iv. LHS has not responded to our invitation for a meeting to discuss concerns
- k. Learning Areas
 - i. A & L-Discussed new faculty list
 - ii. Social Science-has not met since last meeting
 - iii. Career Technical Education-Discussed AOJ and SLO's
 - iv. Health and Wellness-Discussed nominations for new faculty
 - v. Math and Science-has not met
- 6. Action Items
 - a. Give comp time usage for remaining of the semester to SDR ASAP
 - b. Transcript evaluations
 - i. Commitment to students-transcripts will be evaluated and posted w/in 10 days of receiving them.
 - ii. SDR gathering funds-had conversation w/Jewel—take over Fall 2010 transcript evaluation process w/front counter(stamped, dated)
 - c. Request for conferences
 - i. SDR will post excel spreadsheet on portal for requests. She wants to honor as many requests as possible
 - d. Summer Coverage
 - i. Calendars to SDR by 6/1/10
 - e. Next SSM meeting is 5/21/10 from 8:30-10:00 with all student services staff
 - f. Lunch schedule for next year
 - i. Will stagger lunches (11:30-12:30, 12:00-1:00, 12:30-1:30) Monday through Thursday only

ii. Will discuss at flex day when discussing committee responsibilities

7. Items for next meeting:

- a. Flex Day 8/10/10-committee assignments/coordinate lunch schedule
- b. Discuss position for dual enrollment
- c. Petition to graduate changes (2 campuses)
- d. Review of progress on SLO's and assessment cycle
- e. What does Early Alert look like next year?

August 20, 2010

Greetings:

Welcome back to a new academic year! I think we all survived the first week without too much stress even though we had our typical long lines in the administration building, phones ringing off the hook, counselors and advisors booked to the max, and standing room only in many of our classes. Even after adding additional sections and juggling seats, we still have approximately 32% of our course sections closed (116 sections). Our enrollment headcount at the end of the first week is up 7.2% compared to this time last year and Pedro reports that we will meet our FTES target for the year, barring any major crisis. Specifically, we exceeded our summer FTE target by 89 FTE or 2.4% and he is projecting we will easily meet our fall target when we include our positive attendance at the end of the semester.

Ken keeps yelling at us for enrolling more students than we will get paid for, but Willard and I keep reminding him that we are within our budget and our goal is to serve as many students as possible. This is a pleasant conundrum!

I want to thank our faculty for their patience and willingness to take more students and for their assistance in guiding students to open sections. I also want to thank our counselors/advisors, registration, and financial aid staff for their patience and willingness to work long hours to assist students.

Ron Oxford reports that the library is busting at the seams. Students are requesting more laptops than we have available and his staff are busy creating student photo IDs. Ron keeps asking for more money and I keep reminding him that it's coming ...someday.

- **Rumor Control and an item for the end of the year bloopers** – Christian is on an extended contract due to the needs of the Culinary Program and when he turned in his calendar for the year. Marlon noticed he again included his furlough days as Christian had listed 10 furlough days for 2010/2011. I'm sure Christian has been keenly focused on menu development and fine dining, but somehow he must have thought the ending of furloughs was only a rumor.
- **Welcome Week** – Thanks to Sylvia, Jose, and our Student Services staff for a great Welcome Week. I had the pleasure of barbecuing hamburgers and hotdogs yesterday for our students. We served 350 hamburgers, 80 hotdogs, and 60 linguica links for almost 500 students. This was a record and we still had students in line after we ran out. It was a great event and we'll know to order more next year. Good job all!

- **Accreditation** – We have completed the draft of our self study document and Dave has distributed copies to key faculty, staff members and also to district office staff. We are using this time for making changes and updates and will begin the formal review and approval process next month. Thanks to all standard team members and to everyone who have contributed to this task. Also, I have been asked to serve as team chair for Evergreen Valley College's accreditation visit in October. Evergreen is part of the San Jose/Evergreen Community College District and is located in east San Jose. Sylvia will serve as team assistant. I attended team chair training in Oakland this week and am reminded about the focus from WASC concerning our progress as we prepare for our visit in March 2011. I believe we will be in good shape for our visit. Dave and Sylvia are working with faculty and staff to complete our remaining tasks.
- **Evening Dean** – Dr. Marlon Hall will be serving as our evening dean this year. As you may recall we experimented with rotating evening coverage amongst our administrators, but with one person serving in this role, we will be able to provide continuity and better direction for our evening students. Marlon will be able to focus on evening student success and retention as he develops the evening schedule for the campus and LNAS. Thanks Marlon, for agreeing to assume this role again.
- **Athletic Orientation** – A big thank you goes out to Bob, his coaches, and his athletic support staff for a job well done. Yesterday afternoon and evening we held our annual student-athlete orientation and coaches/staff in-service training. Bob invited our Central Valley Conference Commissioner, Logan McKechnie, to address the staff concerning the COA constitution and by-laws. Logan, in his former life, served as the attorney for the San Diego Padres. The orientation is an annual requirement in that athletic staff receives training and serves as a means to clarify specific issues with our sport teams. A thank you goes out to Teresa, Elva, Lataria, Maria, Sylvia, and Angela for attending. Also thanks to Ron, Rose, Angela, Teresa, Mike, Sylvia, Ryan Cardoza and Maleny Rodriquez (SGA reps.) for serving as presenters during the athlete portion of the orientation. This evening, our women's soccer team kicks off the season with a scrimmage vs. our Golden Eagle alumni on our Golden Eagle field. Also our men's soccer team has a scrimmage tomorrow night in Fresno against Fresno Pacific at 7:00pm at Fresno Pacific. Tomorrow morning Dave Neer and Coach Wahl are having their annual Golden Eagle Golf Tournament at the Lemoore Golf Course. Tee off is 8:00 am and proceeds help support the men and women's golf teams. Go Eagles!

Have a great weekend!

August 27, 2010

Greetings:

I want to thank Angela Tos for organizing our first Engineering Scholars reception last evening in the conference center. We have sixteen new Engineering Scholars and Angela invited them, their families, and fellow engineering students to a welcome reception. Our featured speaker was Dale Melville, an engineer in the firm of Provost & Pritchard, who discussed his career field and some of the projects he has designed over the year. Angela also had a student panel of current engineering students who described their experiences at West Hills. It was a great evening and something that made our new scholars welcomed at West Hills. Thanks Angel!

- **USDA Grant** – As a requirement of receiving our United States Department of Agriculture grant, Dave Bolt will be traveling with student Nathaniel Issacson to Washington D.C. on September 26-29. Nathaniel has been selected to represent West Hills College Lemoore for the Agricultural Sciences Leadership Program sponsored by USDA. While in Washington, Nathaniel will meet with Agriculture Department staff to discuss relevant California issues and participate in a policy seminar.
- **Anniversary of Women's Suffrage** – I suspect many of us didn't know that yesterday was the 90th anniversary of Women's Suffrage. Rene Sanchez, Vera Kennedy, Stephanie Droker presented special lessons in their classes informing students about women's suffrage (the right to vote for women). Rene added a special touch by dressing up as Elizabeth Cady Stanton who was the founder of the Women's Suffrage movement in the U.S. Rene was dressed in period garb and brought the movement to life in her classes. Thanks Rene, Vera, and Stephanie for keeping students abreast of great events in our history.
- **Accreditation** – It is my intent to update everyone each week on the progress of our self study document and our preparation for our accreditation visit in March. We have sent copies of our draft self study to district office staff and asked for their input. Standard chairs are busy gathering our evidence documents and have begun the scanning process to create links in the document that our reviewers can refer to. We have distributed copies of our self study to key staff and campus shared governance members for their review. Finally, we are waiting for the results of our various campus surveys assessing our effectiveness and will be incorporating those results into our document. Our goal is to have a quality document that fully describes all the great things that you do. More to come!
- **Program Review and SLOs** – Last week David Babb and Ron Oxford gave an update to the President's Executive Cabinet on our progress with course level and program level SLOs. Although we have much work this semester at the program SLO level, I feel optimistic that we have a comprehensive plan and that faculty

and staff are busy completing their assessments. Dave is planning a program review session for next Friday and this will provide an additional training session for faculty and staff to complete their program reviews and their program level SLO assessments. Again more to come!

- **Student Educational Plans** – Thank you to our counseling staff for taking an afternoon Tuesday to assist student athletes to complete their Student Educational Plans. Counselors worked with our coaching staff to bring in all new athletes who have not yet completed an ed plan or wanted to update their educational plan. Approximately 70 Student Ed Plans were completed. Sylvia and counseling/advising staff will coordinate additional workshops this semester to ensure our freshman students have completed ed plans on file. Our goal is that all freshmen will have student educational plans.
- **MAA Week** – Today marks the end of our first time survey week for Medi-Cal Administrative Activities. I want to thank all our MAA time survey participants for their efforts this past week. Not only are we providing a service to our students/parents, but we are also generating dollars for the campuses that will allow us to continue all the great opportunities we provide. Our vendor, MBT, informed Kyle and I that West Hills is the model they refer to when they work with other community colleges throughout the state. Thank you for a job well done!
- **Athletics** – We have almost 100 student athletes enrolled in our fall program. Bob and his coaches have spent numerous hours getting everyone enrolled in the mandatory 12 units, getting their eligibility forms complete, and completing their educational plans. We anticipate a great season in all our sports and we thank our faculty and registration staff for their assistance given to our athletes. Today our men's and women's soccer teams are in action against Ohlone College on our Golden Eagle soccer fields. The women begin at 3:00pm and the men at 5:00pm. Come out and root for your team. By the way, our women's soccer team beat our Eagle alumni last Friday by a score of 1-0 and our men beat Fresno Pacific College by a score of 2-0. These actually were scrimmages so no official score was kept, but both teams looked great.

Have a great weekend!

Sending on behalf of President Warkentin:

September 3, 2010

Greetings;

I had the opportunity to attend our counselor and advisors meeting this morning and provided a state of the college update. Our campus enrollment is down approximately 200 headcount from this time last year; however, our FTES is on or exceeds our target. As you may recall, our district generated approximately 500 FTES last year more than we were paid for. Thus our course offerings for this fall semester have been reduced from previous fall semesters. However, our counseling, registration, and library staff doesn't think our headcount is down due to the traffic they have experienced the past few weeks. They still had long lines. But, I appreciate everyone's hard work these past few weeks.

I also reiterated to our counselors and advisors that we have two major goals this year. Our first goal is to increase our high school participation rates and our second goal is to significantly increase the number of students with Student Educational Plans. Sylvia and our counselors/advisors have already been working on these goals with increased outreach opportunities and targeting our freshmen students for educational plans. We have already been asked to visit Kingsburg High School this month to participate in the college night activity. Sylvia and her staff have met with our student athletes and completed ed. plans for this group. Our veterans have already completed their educational plans.

I believe we will meet our goals and I appreciate everyone's dedication and efforts in this endeavor.

- **Program Review** – Following the counselors/advisors meeting, I had the opportunity to attend Dave's Program Review Party. I want to thank Pedro and Priscilla for attending and helping our faculty begin the program review process for this year. Program faculty in attendance represented Nursing, Liberal Arts, Art, Culinary, Biology, Chemistry, Social Science, CIS, and Psychology. These programs are due for review this year along with AOJ. This was also an opportunity for these areas to develop or update their Program Level SLOs. Thanks go to Dave for organizing this workshop and future workshops.
- **Nursing** – Charles, Marleen, and Cynthia report that three of our current nursing students have received the Aetna Scholarship with Adventist Health Hospitals. This scholarship allows them to train with Adventist Health and when they complete the program they will give two years to Adventist Health Hospital. Congratulations to Angela Rosati, Kathleen Chapa, and Victoria Weeks. Our

Nursing staff also report that our pass rate for the state Licensing exam from our May graduates is at 91% overall and at 92.3% for the LVN to RN Bridge program. We still have a few more students to take their “boards” so we hope to have even higher numbers. The state requires programs to be at the 75% pass rate or higher. Congratulations to all!

- **PGC** – Our Planning and Governance Council met yesterday for the first meeting of the year. We had a lengthy discussion on revising our membership’s voting members and non voting members who serve as chairs of governance committees. For example, our Academic Senate President is a voting member and since the Curriculum Committee Chair and the Student Learning Outcomes Committee Chair are subcommittees of the Senate, they **may** (and I emphasize **may**) be non-voting members. One of the suggestions was that each group has two voting members – 2 admin, 2- faculty, 2- classified, and 2 students. Our governance groups have been asked to take these suggestions back to their membership and we will be discussing this again at the next meeting. Other items on the agenda were the approval of the Student Success Committee governance form changes and the improvements to our Strategic Planning document and our Planning and Governance Manual. I want to thank Stephanie Droker for her efforts to provide improvements to our planning documents. Also, David Baab reports he is still accepting SLO assessment results from several of our programs. We need to increase these assessment numbers as we get closer to our accreditation visit this spring.
- **Accreditation** – District office staff are still reviewing their portions of the standards and we should be getting their input this week. Some have already submitted their suggestions and Dave is incorporating those into our document. Our standard chairs are also reviewing our document and key shared governance leaders are doing likewise.
- **Athletics** – Our women’s soccer team has played three contests thus far and has a record of 1-2. Our sole victory was over Monterey Peninsula College yesterday by a score of 6-0. We previously lost to Ohlone College 4-2 and lost to Skyline 1-0. Our men’s team has played only one game thus far and was victorious over Skyline 4-2. Our women’s golf team traveled to Modesto last Tuesday to compete in a pre-conference tournament. Our women played the tough Del Rio Country Club and only one team member was able to break a 100 for 18 holes. Dave says they have lots of potential and some more work to do as they prepare for conference play.

Have a great weekend and be sure to take Monday off!

September 10, 2010

Greetings,

This coming Monday Sylvia and I will be visiting Evergreen Valley College and the San Jose/Evergreen Community College District for our pre-accreditation visit. I will be chairing a visiting team to Evergreen scheduled for the week of October 18 and Sylvia will be my team assistant. We have had several communications with Evergreen's accreditation liaison and key staff and I can report they are as nervous as we will be in March prior to our visit. The Evergreen folks have been very cooperative and are bending over backwards to accommodate all of our requests.

Following our meeting with Evergreen, Sylvia and I will be traveling to Los Angeles for WASC accreditation team training on Tuesday. We will be meeting with our Evergreen team and undergo training for each of the standards. Also this week Jose is attending team training in preparation for his visit to San Diego Miramar College next month. Susan is also on a visiting team for Oxnard College and just returned from her team training. The point of all this is to inform everyone that we are doing all we can to be well informed about our accreditation requirements and be well prepared for our accreditation visit.

- **9/11 Ceremony** - Many thanks to Jody Ruble and our WHCL Veterans Club for organizing our September 11 Remembrance Ceremony today. Our Veterans Club had several members offer insight about their experiences in the military and how 9/11 has affected their lives. Dr. Hall also offered his thoughts about commitment and sacrifice and respect for our veteran students. Lemoore Police Chief Jeff Laws also spoke and offered a poem summarizing his thoughts and remembrances about that tragic day. The day culminated in a BBQ lunch provided by the Culinary Program. Next year will be the 10th anniversary and we are already making plans for great ceremony.
- **Facilities Construction** – I spoke with the construction superintendent today and can report that our Golden Eagle Arena is about 50% complete. Roads and hard-scape (curbs and walkways) have been installed and landscaping is beginning today with trenching work. Also next week the construction crew will be pouring concrete on the upper level for the second story seating and running track area. The steel framers will be finishing their work within the next two weeks and then we will see exterior Dineglass (sheetrock) erected around the exterior walls. We are still targeting March as the completion date.

- **Athletics** - Our women's soccer team was victorious last Tuesday at Hartnell College in Salinas by a score of 7-0. Our women are now 2-2 for the year and next compete against Modesto this afternoon. Come out and support our Lady Eagles. Our men's team was victorious against Gavilan College in Gilroy last Wednesday by a score of 3-1. Our men are undefeated with a record of 2-0. They travel to Santa Maria today to compete in the Allan Hancock Tournament. Our wrestling team will be having their annual Blue & Gold Inter-squad Scrimmage tonight at 5:00pm in front of the Library. Our lady golfers open the conference with a match at Fig Garden CC in Fresno Tuesday and posted a team score of 433. Unfortunately that earned them fifth out of five teams competing. Other teams competing were Canada College from San Bruno, Fresno City, Reedley and COS. Go Eagles!

Have a great weekend!

September 17, 2010

Greetings:

Today we were host to the annual training of the Tri-County Virtual Enterprise teams. Teams from area high schools such as Kingsburg, Laton, Lemoore, Oroshi, McLane, Roosevelt, Fresno, Fowler, Parlier, Reedley, Golden West, and Liberty from Madera Ranchos were all on our campus learning about business, banking, accounting, advertising, salesmanship, invoicing, and website development in order to create a new business. One team developed a printing business and their motto was “**You think it, We print it.**” These folks will definitely be our next entrepreneurs. We were fortunate to have a great bunch of kids on our campus. Thanks Jody for assisting with this event.

- **President’s Scholars Reception** - Last night we welcomed our incoming and returning President’s Scholars with a reception to introduce them to key college faculty and staff and to demonstrate our commitment to their success as President’s Scholars. Sylvia and her staff had organized an event in the conference center to include music provided by the Hanford West High School Jazz Band and hors d’oeuvres by Dan Beeler and culinary students. Our faculty and administrators were able to meet each of our scholars and interact with them about what our roles are at the college. Approximately 15 of our scholars were in attendance and I think they went away feeling very welcomed and that West Hills really cares about their success.
- **Corcoran High School Visit** - Yesterday Sylvia, Angela Tos, and I traveled to Corcoran to meet with Superintendent Rich Merlo and Principal Chuck Gent to discuss how West Hills can better serve students at Corcoran High School. Corcoran has a goal that every student who graduates will have completed two college level courses. We will be providing them a suggested course schedule using our online program beginning with College Success that we hope to implement this spring semester. Using online classes eliminates the issue of college boundaries. Jan Young and Eva Jimenez were out there that same day providing advising services for several students planning on attending West Hills.
- **Athletics** – Our men’s and women’s soccer teams were victorious this past Tuesday with victories over Cabot College in Hayward. Our women won by a score of 3-0 and our men won by a score of 1-0. Our lady golfers placed fourth in their third conference meet yesterday at Kings Country Club. Janice Geide led the Eagles with a score of 91. Our wrestlers travel to Mt. San Antonio College this weekend with a tournament on Saturday. Our men’s and women’s cross country team travel to Cuesta College for the Cuesta College Invitational also on Saturday. **Go Eagles!**

Have a great weekend!

**West Hills Community College District
Strategic Planning Committee**

April 28, 2010

MINUTES

Committee members present:

Pedro Avila, Anita Bart, Jana Cox, Carole Goldsmith, Frank Gornick, Edna Ivans, Susan Whitener, Michelle Kozlowski, Willard Lewallen, Nina Oxborrow, Phyllis Roberts, Sylvia Dorsey-Robinson, Frances Squire, Jill Stearns, Keith Stearns, Don Warkentin, John Wright

Welcome and Introductions

Pedro Avila welcomed those in attendance and announced that we have had some changes among the group. He announced that Susan Whitener is now an Associate Vice Chancellor, Carole Goldsmith and I are now Vice Chancellor's, Sylvia Dorsey-Robinson is now Vice President of Student Services in Lemoore, Frances Squire is now Director of Foundation and Marketing and Jill Stearns is now Vice President of Educational Services.

Pedro announced that this committee has been meeting now for five years. He stated that today we are going to go over our goals and performance indicators and talk about what we have learned over the last five years. We also want to identify key questions for our next cycle of strategic planning. We will be looking at our scorecard and take a look at a comprehensive assessment model. We will go over what our next steps will be to increase participation from industry and community members so that we can conduct a new strategic planning initiative in fall 2010.

Review Goals and Performance Indicators

Pedro distributed a hand out of a power point presentation to everyone on The Strategic Plan 2006 – 2010 Five Year Review Cycle.

FTES Growth Target

Pedro reviewed the FTES growth targets with the group. Pedro asked Jill if she wanted to make any comments about next year's schedule. Jill responded that there should be a better balance between fall and spring then we experienced this year.

Don commented that we are forced to reduce our schedule due to funding. In our location we are starting to have concerns about classroom utilization. Don stated we are starting to see competition from our sister college COS in Hanford. Don expressed that the one thing we have to be cognizant of is that word doesn't get out that West Hills doesn't have anything to offer. Sylvia stated that one of the things we are doing is meeting one on one with the counselors and career technicians to find out how we can support them and help them. We recognized that COS is there and we are going in with

District Strategic Planning Committee – Minutes

April 28, 2010

Page 2

a systemic point of view trying to grow this piece realizing over time we will have solidified ourselves.

Enrollment Efficiencies

Pedro discussed the enrollment efficiencies. He stated that the reduction in budget is not a direct impact on FTES and even though we have fewer sections we have more students in our classrooms. He explained that three years ago the average class size was 26 students and now its 35 students. Keep in mind that a lot of it has to do with online classes which have an average class size of 40 to 45 students.

Pedro asked Anita Bart to talk about her class sizes. Anita explained that almost all of her classes are video conference between Coalinga and Firebaugh. She stated that this year both classes on both campuses are full and already have students asking how soon can I get into the classes for fall. She stated that the increase in students in her classes have been explosive.

Pedro expressed that one of the requests from faculty was a waitlist process to help faculty and staff coordinate how to get students into a classroom after the first day of class. He stated that we were able to implement a waitlist process. He stated starting April 20, whenever a class is full students can now add themselves to a waitlist.

Pedro asked Keith Stearns to give an update on the waitlist process.

Keith responded that the first day of registration was on April 20 and that day we had a class in Firebaugh fill up with three people on the waitlist and then we had a student drop so that opened up the class for the waitlist. He stated up until today we have 89 students with permission to register so far 49 of those have enrolled. Keith stated that the automated part of the waitlist system seems to be working well.

Pedro explained that with registration we always have a number of issues because everyone is utilizing the system, the system can get really slow. He stated what we did for this registration period we broke up students into three groups. The first group was the priority registration groups which is the categorical and special groups. The second group, early registration, was based on a recommendation from the colleges, students who had 45 to 70 units and that were currently enrolled in spring. The third group was based on 12 to 44.9 units. Pedro indicated that they have seen some improvements. The system is slow on the first day of each group but it hasn't been as slow as in the past. Don questioned if we keep experiencing system slow down what would be the next solution. Pedro explained that the next solution would be to spread it out even more or have enrollment by appointment. The group discussed including high school students into the priority enrollment.

Pedro asked the group if our goal, Meet or Exceed FTES Growth would still be a relevant goal for our next phase of strategic planning. Dr. Gornick responded that it may not be our number one goal like it was our first five years but I think it's an indicator that we have to look at particularly what is occurring in the national level.

Focus Marketing Efforts on District-Wide Stories

Pedro explained that there was a group that met and were concerned that there was a negative perception of the district from our communities. This is the reason why

District Strategic Planning Committee – Minutes

April 28, 2010

Page 3

marketing was our second goal. This is why we focused so much on district wide stories so that we could improve the perception of the district.

Frances stated that the nice thing about the newsletter is that Dennis Gallegos who is a consultant that we have worked with it the past year or two. Dennis did a lot of one on one interviews throughout the communities to talk to people about dialogue. Dennis talked to a lot of people about the dialogue and got a lot of feedback on what people were thinking about dialogue. Dennis made a number of suggestions that we then incorporated into this new format that you see. Pedro stated that our marketing focus has changed. One of the new things that we have come out with in marketing is the new post card. It's basically a way to communicate with the communities to let them know what activities are occurring at the colleges.

Willard shared that he has had a lot of positive feedback on the design of the post card. He thinks it's an attractive and informative and very eye catching design.

Pedro stated another thing you will see will be billboards. The billboards are coming out in May. He stated that we are putting up billboards with students on the billboards from their particular community. Frances stated the billboards will be going up in Firebaugh, Mendota, Five Points, Hanford and Lemoore. She indicated that right now there are not any billboards available in Coalinga.

Pedro expressed that our marketing focus has shifted from increasing enrollment to building a presence. Pedro briefly went over the lessons learned with the group.

Frances expressed that we need a way for students to engage in reading the portal postings. Michelle stated that there are too many postings, we need to focus are a very few that are relevant. The students will look at two or three not ten or twelve at least that is the issue that comes up a lot. Frank Gornick questioned is there a way for us to track how the students are using the portal. Pedro stated that is a good question and we will look into that. Sylvia suggested that we have a conversation with the students they are the users and they are very savvy with what is in and what isn't.

Frank Gornick expressed that everything that we use like our iphones have icons. He thinks that is the way everything is moving is towards icons. He suggested maybe we need an app for West Hills. Pedro indicated that what he is hearing is outreach being the goal. Pedro stated that there are a lot of different groups. We have future students, current students, parents of students and former students.

WHCCD Will Annually Increase Community Participation Rates

Pedro indicated that proximity has a lot to do with participation. He stated that the closer the city is to one of our colleges the higher the participation rate and the cities with the farthest proximity have the lowest rates of participation.

Pedro questioned do we want to develop specific strategies to target those communities. Carole stated we are doing a lot with our cities and local high schools. She stated that the colleges are to really be commended because they do an extremely amount of work with limited resources. Carole indicated that since we have been providing classes through the WIT we have served close to 2000 students.

Carole stated that in terms of preliminary discussion, which will probably be various levels of discussion. I know that Jill, Willard and I have had discussions on how we can better serve Tranquility and San Joaquin. Willard stated that the center we are trying to

District Strategic Planning Committee – Minutes

April 28, 2010

Page 4

establish in San Joaquin is already on the way. We just recently signed the MOU with them to use a facility that they have given us. We will be making improvements to it. He stated our goal is to be in there in the fall. Don stated that they are working with Riverdale. We have a million dollars earmarked for Riverdale with our measure E bond and we have met a couple of times with their Superintendent to the unified school district to see what we could do as far as a presence for West Hills in Riverdale. So far they have been focused on upgrading their facilities because the high school is the focus for the community for recreational activities. Don stated that we are looking at a regular educational center in Avenal. We have had several discussions with the city manager and her staff, the mayor and the high school unified district. Everybody is on board.

Carole asked Jill to speak a little bit about the position we are going to try and bring on. Jill explained the position combines a generalized student services assistant with an instructional assistant. So when someone walks in through the door of one of the outreach centers they can be the face of West Hills College and help the student through the application enrollment and payment process and also be there to assist them with any technology regarding distance learning whatever it takes to help facilitate them in getting engaged. Carole stated that Ken will be meeting with CSEA to bring this new position on. Carole that tomorrow we are taking a bus load of faculty and a few key staff to Cisco. Susan and Michelle have been putting together looking at different venues on how to do distance education, video conferencing and web streaming.

Maintain Success Rates Within the CA CC Statewide Average

Susan reported that our face-to-face success rates are identical to California Community College face-to-face rates. The online success rates are below not comparable to the California Community College success rates and we want to address that. We have held strategic planning processes for distance learning and we are going to continue to do that. Susan indicated our lessons learned retention rates are lower and must be analyzed separately than our face-to-face for online as well as the success rates. She stated that we have also experienced issues with our success rates our career technical education. We went through the distance Ed strategic planning process and that is going to the Board of Trustees as an informational item. We have just approved a help desk specialist and what that is will be someone to answer the phone and not only reset your password but interject with the student and head them in the right direction to help them with their online success and retention. It's for every student, not just online students that call the help desk. Susan explained that we had an online student services audit. So that the student could see where they need to go if they are a DSPS student, can they see who they need to call if they want child care services. We have a list of items that will help the students understand this is what I need. Susan stated that the updated learning management system, blackboard 9 we implemented it in the spring of this year. We have implemented the student portal the portal is live and active.

Carole reported that one of the issues we are having is success rates in our technical programs. She stated that one of our core missions is making sure that we are preparing our workforce, for the student who can make a good living and for our

community members who are our employers so they will have qualified people taking those jobs. Carole reported that specifically looking at our CTE courses; we are looking at data from our ARCC report. Carole stated that our program review, we have the Chancellor's website page where we can look at our reports and it drills down by course and program. It shows how our students are succeeding. The Chancellor's office brings that information from EDD and looks at it. One of the problems is that not all the employers report information to EDD. A prime example would be the Psych Tech program. The state hospital does not report a lot of their commission to EDD so our numbers look skewed. So it also brings up what can we do to get that information into the system. So we are going to look into ways to do better follow up. Our program review is a key to how we go back and look at ways to improve. She stated that how do we keep people successful. One of the things that we have done and will continue to do is work with our workforce investment boards. We have been very successful in Fresno and Kings and now we are expanding it to Tulare and Madera.

Maintain Transfer Rates Within the CA CC Average

Pedro reported that they still haven't released the new cohort rates. He stated that one thing we have learned is that transfer rates are very sensitive to tuition rates. He stated that he is going to go quickly through these and if anyone has any questions to let him know. He stated that we now have access to instate, out of state and private transfer rates. This is information that is coming from the national clearing house. He stated that based on the last eight years the majority of students transfer to four year institutions. Pedro stated that what we have learned is that our rates are within the state average. Our transfer rates are very sensitive to CSU tuition increases. The number of students transferring has increased and we have acquired access to data on transfers to out of state and private institutions.

Pedro explained that one of the questions we need to ask ourselves is how are students doing at the next level. He indicated that one of the reports we now have access to is a Fresno State Report where they actually compare student transfer from both colleges against each other. We have a lot of information from Fresno State that we can utilize on how well the students are doing.

Maintain Graduation Rates Within the CA CC Average

Pedro explained that considering the reduction in sections some of the questions we may want to ask is what is the average number of semesters and units it takes a WHCCD student to complete a degree certificate. What percent of our first-term students are provided with an educational plan? This would be critical to make sure they are taking the right classes and graduate in a timely manner. What percent of all students are provided with an educational plan? He stated that these are all good questions that support degree completions. Can we convert some of our internal certificates to official certificates and increase completion rates. There may be a way that we can tweak those certificates like add a couple more units so that we can increase our completion rates.

District Strategic Planning Committee – Minutes

April 28, 2010

Page 6

Become the Preferred Choice of Students Through Ongoing and Active Recruitment

Pedro reported that high schools with the closest proximity to our colleges have the highest participation rates. He stated that Riverdale sends many of their high school graduates to four year schools. It is difficult to collect data from the high schools and the CA department of education in a timely fashion. He stated that about half of our feeder high schools have agreed to upload data to the Cal-Pass system.

Pedro indicated that some questions to look at for the next strategic planning process would be how has the reduction of courses impacted enrollment from high school graduates? What strategies can we implement to increase high school graduates participation rates? Do we need high school counselors to be part of our strategic planning committee? How can we encourage or assist our feeder high schools to share data with Cal-Pass? How can Cal-Pass assist us in strengthening relationships with our feeder high schools?

West Hills Community College District Score Card

Pedro indicated the areas where we are struggling are Community Participation Rates, Online Success Rates and High School Participation Rates.

Comprehensive Effectiveness Model

Pedro expressed that he would like to introduce the Comprehensive Effectiveness Model that is from a book called Core Indicators of Effectiveness that was published by the American Association of Community Colleges. He stated that what is interesting is we are doing a lot of what is in the book already. This would be something for us to think about for our next strategic planning process.

Next Steps

Pedro announced that we need to update our strategic planning membership to increase participation from the working industry and community members. Pedro stated that we will conduct our new strategic planning initiative in fall 2010.

Survey

Pedro announced the last item on our agenda is the West Hills Community College District Strategic Planning Evaluation. Pedro asked the group to please fill out the survey and provide the name of three people that you feel should be a part of this committee. He suggested community members, industry members and co-workers.

Meeting was adjourned at 1:57 p.m.

District Strategic Planning Committee – Minutes

April 28, 2010

Page 7

WEST HILLS COMMUNITY COLLEGE DISTRICT

STRATEGIC PLAN 2006-2010

Five Year Review Cycle

Agenda

1. Final review of goals and performance indicators
 - a. Lessons learned from our five year strategic planning cycle.
 - b. Identify key questions to help drive our next cycle of strategic planning.
2. Final review of strategic planning scorecard
3. Comprehensive Assessment Model
4. Next steps
5. Five year cycle evaluation

Goal 1 – Meet or Exceed FTES Growth Targets

Enrollment Efficiencies

Goal 1 – Questions for next strategic planning process

1. What impact did the reduction of courses have on the following:
 - a. Retention Rates
 - b. Success Rates
 - c. Degree and Certificate Completion Rates
 - d. Transfer Rates
 - e. Student groups (Gender, Age, Ethnicity)
2. Is this goal still relevant to strategic planning?
3. Would productivity (WSCH/FTEF) be a more appropriate goal?

westhillscollege.com

The logo for West Hills Community College District, featuring a stylized landscape with a sun, hills, and a winding path, with the text "WEST HILLS COMMUNITY COLLEGE DISTRICT" to the right.

Goal 2 – Focus Marketing Efforts on District-Wide Stories

Lessons Learned:

1. The district newsletter format was revamped after extensive interviews with community members and the name changed to @West Hills College.
2. Budget cuts changed our marketing strategy from "increasing enrollment" to "promoting activities" and "maintaining our presence."
3. Social media has become the preferred method of communication for students (Facebook and YouTube).
4. It is difficult to measure the effects of marketing based solely on published stories and distribution of newsletters.

Questions for next strategic planning process:

1. This goal was established to improve community perception of WHCCD. Is this goal still relevant?
2. Can marketing help the district generate revenue?
3. Are we utilizing the right channels of communication?
4. How well are we maintaining our internal and external branding (image)?
5. Are we utilizing the appropriate measures to evaluate the effectiveness of marketing efforts?

Goal 3 – WHCCD Will Annually Increase Community Participation Rates

Percent of Population Enrolled at WHCCD

City	2007-2008	2008-2009	2009-2010
Tranquillity	3.40	3.73	1.88
San Joaquin	3.25	2.60	2.27
Mendota	2.71	3.28	2.66
Kettleman City	2.50	3.20	2.69
Huron	3.18	3.36	3.17
Avenal**	3.78	4.13	4.00
Hanford	4.42	4.78	4.05
Armona	5.22	5.55	4.49
Riverdale	4.84	5.76	5.09

Laton	5.70	6.64	5.59
Stratford	6.14	6.35	5.75
WHCCD Average	5.94	6.53	5.82
Firebaugh	7.32	8.25	6.22
CCC Statewide			8.90
Lemoore	10.00	11.19	9.90
Coalinga**	10.75	12.33	12.73

** Removed inmate population

Sources: WHCCD Data Warehouse; Department of Finance Population Growth Estimate; CityData.com

Goal 3 – WHCCD Will Annually Increase Community Participation Rates

Lessons Learned:

1. Communities with the closest proximity have the highest level of participation.
2. Communities with the farthest proximity have the highest rates of participation in distance education.

Questions for next strategic planning process:

1. Do we want to develop outreach strategies for cities with the lowest participation rates?
2. How can we use distance education and Career Technical Education (CTE) initiatives to increase community participation rates?
 - a. Mendota WIT
 - b. Preliminary discussion about opening a community centers in Avenal, Riverdale, and San Joaquin.
 - c. Distance Ed Partnership with three rural high schools: Tranquillity, Firebaugh and Mendota.
 - d. Establishing e-Campus and services. *(More info under goal 4)*
 - e. Implement Community Education module into student system – will help capture additional students into our participation rates.

Goal 4.1 – Maintain Success Rates Within the CA CC Statewide Average

WHCCD Face-to-Face Success Rates

WHCCD Online Success Rates

Source: WHCCD Data Warehouse; CA Chancellor's Office Data Mart

Goal 4.1 – Maintain Success Rates Within the CA CC Statewide Average

Lessons Learned:

1. Online courses' retention rates are lower than face-to-face and must be analyzed separately and compared to different benchmarks
2. Experienced issues with success rates in some of our Career Technical Education (CTE) courses.

Questions for next strategic planning process:

1. What are we doing to improve online retention rates?
 - a. Distance Education Strategic Plan
 - b. E-campus
 - c. Help Desk Specialist
 1. Online Student Services Audit
 2. Updated Learning Management System
 3. Implemented Student Portal
2. What are we doing to improve CTE success rates?
 1. Reviewing program data from ARCC
 2. CTE Performance Indicators Review (Faculty, Deans, and VC)
 3. Program Review
 4. Created partnerships with Workforce Investment Boards that provide additional supportive services to students.

Goal 4.2 – Maintain Transfer Rates Within the CA CC Average

WHCCD First-Term Students' Cohort Transfer Rates

—●— WHCCD Transfer Rates —■— CCC Statewide Transfer Rates (Benchmark)

8	CALIFORNIA POLYTECHNIC STATE UNIVERSITY	110
9	CALIFORNIA STATE UNIVERSITY - BAKERSFIELD	68
10	EMBRY-RIDDLE AERONAUTICAL UNIV.-WORLDWIDE CAMPUS	68

Goal 4.2 – Maintain Transfer Rates Within the CA CC Average

Lessons Learned:

1. Rates are within the state average.
2. Transfer rates are very sensitive to CSU tuition increases.
3. Number of students transferring has continuously increased.
4. Acquired access to data on transfers to out-of-state and private institutions.

Questions for next strategic planning process:

1. How are our students performing at transfer institutions? (Fresno State Report)
2. How are capacity issues at CSU impacting our students who intend to transfer?

Source: California Community College Systems Office Student Right to Know

Note: Cohort based on a group of first time freshmen who are enrolled full-time in a fall term and are seeking transfer. The tracking period of the cohorts is three years.

Goal 4.3 – Maintain Graduation Rates Within the CA CC Average

Degree & Certificate Completion Rates by Freshmen Cohorts

Source: California Department of Education; WHCCD Data Warehouse; Local HS Data

Goal 5 – Become the Preferred Choice of Students Through Ongoing and Active Recruitment

Lessons Learned:

1. High schools with closest proximity to our colleges have highest participation rates.
2. Riverdale sends many of their HS graduates to four year schools.
3. It is difficult to collect data from the high schools or the CA Department of Education in a timely fashion.
4. After schools programs have an impact on recruitment (Avenal After School Program)
5. It is critical to create and maintain good relationships with high school counselors.
6. Half of our feeder high schools have agreed to upload data to the Cal-Pass system.

Questions for next strategic planning process:

1. How has the reduction of courses impacted enrollment from high school graduates?
2. What strategies can we implement to increase high school graduates' participation rates?
3. Do we need high school counselors to be part of our strategic planning committee?
4. How can we encourage/assist our feeder high schools to share data with Cal-Pass?
5. How can Cal-Pass assist us in strengthening relationships with our feeder high schools? (Custom reports & Professional Learning Councils)

Introduction

The West Hills Community College District (WHCCD) is charting its next five years in service to students and the community. Three priorities stand out:

- Student success,
- K-12 partnerships, and
- Workforce development in support of the Valley's residents, employers and overall regional economic development.

These priorities are the outgrowth of collaborative dialogue involving the WHCC District Office, the District's two Colleges, West Hills College Coalinga and West Hills College Lemoore, and the West Hills North District Center. Within the West Hills mission these priorities are considered likely to have the greatest positive influence on the future vitality of the Central Valley and its residents.

With economic uncertainty more pronounced than ever in the Central Valley, the role of local initiative in building a robust economic future is critical. With emphasis on the three priorities, the WHCCD seeks to energize faculty/staff and formal and informal leaders to work aggressively in support of an improved future for the Central Valley.

Each of the priorities listed above has been subjected to intense review, first by district-wide leadership and then by planning teams carefully selected to bring special expertise and useful insight to the task. The planning teams have specified the scope and meaning of each priority and identified the most productive next steps in moving the WHCCD agenda forward.

Planning Approach

Planning sessions for each of the priorities were held on July 14 and 15, 2010. Student Success was addressed during the morning of July 14th, K-12 Partnerships during the afternoon of July 14th and Workforce Development and Economic Development in a daylong session on July 15th. All sessions involved a high level of participant interaction organized around structured group work dealing with specific topics relating to the West Hills role in each of the three priority area listed above. Participants in the three planning sessions were frequently recombined in work groups in order to ensure that all had an opportunity to benefit from the range of insight, intuition and impressive expertise represented by participants.

This report chronicles the work of the three planning sessions and summarizes participants' insights regarding the future role of the WHCCD and its institutions together with recommendations for immediate next steps. The material is presented with minimal editing in order to preserve the integrity of participant discussions and decisions.

During the planning sessions no effort was made to fully confirm facts or evidence presented. As appropriate, recommendations from these planning sessions should be further vetted in light of relevant data, market research and the opinion of those considered essential to the future success of WHCCD.

The names of those in attendance are listed in Attachment A of this report. Drs. Kathleen Guy and William Craft of the Eaton Cummings Group facilitated the planning sessions.

Goals for the Three Planning Sessions

- **Engage participants in a facilitated dialogue about the future of the WHCCD – its mission, values and future vision with specific reference to: Student success, K-12 partnerships, and Workforce development in support of the Valley's residents, employers and overall economic development.**
- **Give each participant an opportunity to benefit from the full range of experience and expertise of those present**
- **Establish a future vision for WHCCD in reference to the three priorities**
- **Establish a priority list of next steps focusing on high yield strategies likely to move WHCCD forward as a robust contributor to the Central Valley – its people, its culture and its economy.**

SS. Student Success Workshop

July 14, 2010

9:00 a.m.-12 noon

SS 1. Goals and Agenda

SS 1.1 Goals

- Focus attention and confirm strategies to strengthen WHCCD's student success culture
- Briefly review accomplishments since the last strategic planning session
- Achieve common definition/understanding of student success
- Engage best thinking of participants
- Understand strategies and related metrics tied to improve student success

SS 1.2. Agenda

- Welcome Dr. Gornick
 - o What is student success?
 - o Why does student success demand our attention?
 - o We need your help to strengthen our thinking as we formulate the most effective strategies, focus attention, and seek to enhance student success.
- Introductions/brief warm up Facilitators/All
- Review of goals and accomplishments - Dr. Gornick, Pedro Avila
 - o Scorecard review
 - o New metrics related to student success
- Distance Education Trends (opportunities to support student success in a world of reduced resources) - Susan Whitener

Student Success Workshop – Agenda (continued)

- Facilitated Group Discussions Facilitators/All
 - Identify barriers to student success [informed by IR data]
 - Identify strategies to reduce/eliminate barriers
 - What should we be doing more of?
 - What should we be doing differently?
 - What should we stop doing?
 - Prioritize student success strategies/goals and refine metrics as appropriate
- Next Steps Facilitators/All
- Close Dr. Gornick

SS 2. Student Success – As Defined by Participants

Working in table groups, participants reflected on their personal interpretation of the phrase “student success” as it relates to formal education in order to identify and reach consensus regarding characteristics that describe student success and help to provide an operational definition. For the purposes of the planning session “student success” may encompass a range of meanings including:

- Personal growth: enhanced self-esteem, socialization skills, improved critical thinking skills and content mastery
- Becoming self sufficient, contributing member of society
 - Employed or otherwise productively engaged with the world
 - Active and inquiring mind
- Accomplishing individual goals as enumerated by each student: graduate with degree, transfer, successful participation in selected courses, gaining a certificate, advancing in career or broadened employment opportunities
- Completion of a specific degree or certificate program
- Transfer to a 4-year institution
- Detailed exploration of a student’s interest in a specific subject or body of knowledge
- Completing a specific course or courses for personal, career or academic reasons

SS 3. Individualize Educational Planning

Clearly, for WHCCD and for WHCCD students, “student success” means many things. Institutionally, student success tends to be measured in persistence – at the micro level course to course, semester to semester and at the macro level, degree or certificate completion. At a deeper level, the key to understanding and assisting students to achieve their definition of success is knowledge of their individualized educational plans. Currently an underutilized mechanism exists to assist students to think through and create their individualized educational plans. Although the details of the individualized educational planning process were not fully explored in the planning session, there was general agreement that more students could benefit from the process. WHCCD should seek to increase the number of students developing personalized education plans with the support of trained WHCCD personnel. Key elements of the educational planning process include:

- Identifying personal goals—each student defines his/her own
- A viable educational pathway to reaching individual goals
- A delineation of and access to appropriate support services
- An emphasis on lifelong learning with encouragement to continue to the next level
- Consideration of certificate and degree options including transfer to upper division programs
- Personal growth/education
- Leadership development

SS 4. Student Success—New Ideas and Opportunities for Improvement at WHCCD

Following the work on defining student success and the role of individualized student educational planning, attention was directed to a consideration of new ideas (brainstorming) and opportunities for WHCCD to positively influence student success. Briefly stated, the results of these discussions suggest the following opportunities:

- Creating/emphasizing a culture that is fixated on student success,
- Employing technology to a greater degree to promote and monitor individualized student educational plans,
- Establishing systems/processes that reinforce the need for and uses of individualized student educational plans,
- Expanding opportunities for partnerships, tutoring, and advising in support of the educational planning process, providing periodic review and updating of student plans – encouraging the talented to excel, engaging those at risk to help them persist and managing a process that encourages greater numbers to complete degree and certificate requirements.

SS 5. Topics for Further Consideration

1. **Open access vs. more rigorous criteria for student placement in programs.** Is it time to re-think/establish entrance criteria for admission to certain programs?
2. **Clarify the definition of student success:** Externally imposed (degree and certificate completion) vs. student success goals generated through the educational planning process. Which is the priority for WHCCD?
3. **Enhanced tools to support student success.** Determine priority and necessary investment in order to:
 - a. Enhance orientation to programs of study.
 - b. Increase student participation in the educational planning process. Currently 80% of WHCCD student lack individual educational plans. Do these plans correlate with persistence and degree/certificate attainment? Does there need to be a process that engages students in face-to-face relationship-building leading to individualized educational planning with trained West Hills professionals?
 - c. Encourage all students to participate in an educational assessment process in order to guide appropriate course placement. Does the management of this process need to be improved? Are there opportunities for students to assume responsibility through online assessment strategies?
 - d. Clarify the role of individualized assistance and follow-up regarding individual educational plans.
 - e. Strengthen the early warning alert system regarding student persistence and performance.
 - f. Re-design appropriate orientation programs based on age, stage in educational process.
 - g. Provide more opportunities for career planning including service learning internships, work experience, etc.
 - h. Enhance tutoring and mentoring services.
 - i. Create a more formal “first year” experience.
 - j. Ensure adequate resources to address student financial aid needs.
 - k. Re-think the role of the college catalog – consider its current form and ensure consistency of information about programs and services in all modes of WHC information dissemination.
 - l. Expand extracurricular opportunities to emphasize student life and reasons to engage outside of class.
4. **Improved systems and processes internal to WHCCD**
 - a. Ensure access to courses needed to graduate—including expanded access to on-line courses.
 - b. Establish a 1-year schedule/calendar of courses.
 - c. Enhance collaboration between instruction and student services.
 - d. Expand hours for support services: counseling, financial aid, help desk, food service.
 - e. As processes change (due to technology) be sure that key constituents, internally and externally, knows what the changes are and how to access/use them.

5. College going culture
 - a. Strengthen K-12 relationships to develop early identification system for likely West Hills students in order to begin outreach to potential 1st generation students and families; be culturally sensitive; encourage gifted and talented students to choose and then be well served by WHCCD.
6. Customer Service
 - a. First impressions are key to continuing positive relationships.
 - b. Need mechanisms to respond to those who are lost, intimidated, confused, unsure.
 - c. Student ambassador program.
 - d. Welcome week.
 - e. Name badges.
 - f. Emphasize customer-friendly approaches through communications and personal interaction.
7. Partnerships
 - a. Engage in more extensive collaboration with K-12 systems.
 - b. Coordinate student support programs for prospective students and current students.

SS 6. Priority List – Areas for Improvement

Participants ranked the totality of items identified by the table groups and identified the following as priorities most likely to strengthen student success at WHCCD.

1. Emphasize the “First Year Experience”-think beyond “this semester.”
2. Build comprehensive one-year course schedules/calendars.
3. Create a “process map” to assist students in drafting individualized educational plans.
4. Design and resource a student-to-student ambassador program.
5. Expand placement testing and associated academic counseling – support developmental programming, general programming and specially targeted efforts for the gifted and talented.
6. Streamline processes for financial aid and identify additional funding sources for emergency and special purpose financial aid.
7. Expand and introduce more effective applications involving social media – communicating the look and feel of WHCCD institutions; engage prospective students in individualized, user friendly efforts to construct educational plans; build a broader-based virtual community of persisting WHCCD students.

8. Cultivate a culture of connections/relationships—make it “cool” to be connected with the WHCCD community – face to face and virtually – emphasizing the benefits of student-to-student, faculty-to-student networks.

SS 7. Immediate Next Steps – As identified by participants using the open-space planning technique

1. Develop metrics relevant to WHCCD definitions of student success – with targets set through 2015. Examples include: number of students working from individualized educational plans, relative success of those following educational plans, persistence measures (course to course and semester to semester), measures of degree and certification completion, individualized transfer and transfer success data
2. Prioritize opportunities for “program and process improvement and new ideas” identified in previous sections of this report and create implementation plans.
3. Communicate results of Student Success Planning to all faculty/staff – identify and distribute a short list of talking points to be used/referred to by workshop participants.
4. Establish and continue to strengthen a detailed inventory of the tools available to promote student success – oversee and coordinate their use – provide training and supportive technology to faculty and staff.
5. Clarify assignments – make it clear who is responsible for each element of the student success strategy – establish the longer term goals and intermediate milestones – provide conspicuous support and encouragement to the formal and informal leaders charged with moving WHCCD to a demonstrably higher level of student success.

HSO. High School Outreach Workshop
July 14, 2010
1:00-4:00 p.m.

HSO 1. Goals and Agenda

HSO 1.1. Goals

- Focus attention and practical action on increasing the college-going culture among high school students/graduates in the Central Valley
- Identify and share what WHCCD and high schools are currently doing to encourage college enrollment in general and, more specifically, enrollment at WHCCD colleges—the “IS MAP”
- Engage the best thinking of participants to outline strategies to strengthen the college-going culture in the Valley
- Co-create strategies and related metrics to increase enrollment of area high school graduates at WHCCD colleges

HSO 1.2. Agenda

- Welcome Dr. Gornick
 - Why education beyond high school is important—to students, families, economic development, and the Valley
 - WHCCD is a partner with the public schools, helping students to succeed beyond high school; increased college attendance and student success is our bottom line goal
 - We are eager to work with you to increase the college-going culture of the Valley and to make WHCCD colleges a top choice for your graduates
- Introductions/brief warm up Facilitators/All
- Current high school participation data and Cal Pass Pedro Avila
- What are we currently doing to encourage college attendance?
 - WHC outreach strategies including Early Registration for High School Graduates Sylvia Dorsey/Jill Stearns
 - High school strategies High School Principals

High School Outreach Workshop Agenda Continued

- Break
- Facilitated Work Topics Facilitators/All
 - Identify barriers to college enrollment anywhere and at WHCCD colleges
 - Identify collaborative strategies to reduce/eliminate barriers.
 - What should we be doing more of?
 - What should we be doing differently?
 - What should we stop doing?
 - Prioritize strategies/goals and define metrics
 - Determine how/how often to communicate results/issues
- Next Steps Facilitators/All
- Close Dr. Gornick

HSO 2. “IS MAP” of High School efforts (outline of current school/college initiatives as described by principals and superintendents attending the workshop)

HSO 2.1. Lemoore High School (LCS)

General

- Cal State Fresno president’s scholarship
- Fresno State—weekly mentoring at LHS

Specific to WHCCD

- LHS all seniors apply to WHC
- LHS works actively with WHC counselors to do on-site advising with LHS students
- Attend WHC classes while in high school
- WHC faculty visit high school campus
- Raised questions regarding Cal-PASS. Is data complete? Who is responsible?

HSO 2.2. Coalinga High School

Specific to WHCCD

- Pathways-Perkins—just starting to collaborate with WHC on this
- Established lists of students going to WHC—work with WHC advisors
- Articulations/dual enrollment
- Need “IS MAP” of informal activities in place with faculty and other personnel

HSO 2.3. Faith Christian Academy (FCA) - Independent (Private)

Specific to WHCCD

- WHC administers placement test at FCA, discusses curriculum pathways
- Enroll 8th graders at WHC—removes fear of unknown
- WHC administers placement test at FCA, discusses curriculum pathways
- Students take field trips to WHC
- Dual credit—college is free while students are still in high school

HSO 3. Addressing High School Outreach Goals

HSO 3.1. Participants working in table groups confirmed the importance of the following goals:

- Improving the College Going Culture in the Valley, and
- Benchmarking the participation rate at WHCCD of students from feeder schools in the WHCCD service region at or above the state average for California community colleges

HSO 3.2. With specific reference to WHCCD table groups recommended:

- WHCCD increase efforts to learn from K-12 systems what they are doing now to encourage a college-going culture, and
- Prioritize approaches identified in HSO 2 (above) together with additional new ideas in order to determine where to increase emphasis and focus resources.

HSO 3.3. Priorities identified include:

- 1) Website (29 votes) - enhance the WHCCD website (including the Colleges and Centers) making the presentation more user-friendly, creative, interesting and useful. Include a “student planning” application to try out various programs and also a twelve month calendar of courses for use in students’ individual educational planning as suggested in the Student Success portion of the WHCCD plan.
- 2) Communications (28 votes)—
 - Emphasize enhanced communication with K-12 systems including:
 - a. Engagement with professional colleagues in K-12 schools
 - b. Students starting at the middle schools – identify prospective students early, encourage all to enroll in college, make special efforts with the gifted and talented with regard to opportunities and choices in higher education, etc.
 - c. Parents – cultivate and involve parents in encouraging students to move on to WHCCD colleges and centers.
 - Employ the full range of communications tools including:
 - a. Surveys/focus groups of students and other key audiences to determine WHCCD features to emphasize, best modes/times of communication, etc.
 - b. Establish capability to “Know” when a student enters the WHCCD data system (initial inquiry) and then enable the system to automatically create a systematic follow-up process
 - c. Develop protocols to effectively engage the full range of communications tools—social media, web, print, email, phone, FTF, etc. at tolerable cost to the system
 - d. Ensure that timely, up-to-date, consistent and accurate information is available across WHCCD, reinforce the need for regular contact and share information appropriate to various target audiences
 - e. Enhanced E-Team capability (materials, presentations, communications skills, and always dressed for success).
- 3) Road Map (22 votes)
 - a. Invest in a comprehensive enrollment management process
 - b. Design straightforward pathways that make clear and accessible the way from High School to West Hills to certificates, associate degrees and bachelor’s degrees – emphasize that support is available along the way to enhance the likelihood of student success and completion
 - c. Make the pathways easy to navigate electronically, including simplified search and find

- d. Build cohort groups—package degree programs to be completed in two years leading to transfer
 - e. Ensure that everyone in the region’s high schools completes an application and takes placement tests—build momentum with sophomore/junior outreach
 - f. Streamline all WHCCD policies, procedures and curriculum before mapping success pathways
 - g. Exaggerate the user-friendliness of WHCCD—simplify the processes required to get information and transact business
- 4) Field Trips to West Hills colleges (20 votes)
 - a. Organize or provide transportation to and from WHCCD campuses – partner with K-12s
 - b. Create “breathtaking” College Day Programs for visiting secondary school students
 - 5) Connect High School Counselors to WHCCD Portal (15 votes)
 - 6) Enhanced presence of West Hills in the public schools and independent schools (11 votes)
 - a. Be present on K-12 campuses—via technology and in person
 - b. Attend school and community events—be visible and approachable and able to share the WHCCD story

HSO 4. Immediate Next Steps (responsible party noted in () as identified by session participants)

- HSO 4.1. Start now to provide portal access to high schools (Pedro Avila)*
- HSO 4.2. Complete “IS MAP” of formal and informal processes that contribute to WHCCD/high school outreach – Create matrix describing who is doing what (Chancellor/Presidents to determine assignments and oversee liaison with the school systems)*
- HSO 4.3. Hold strategic planning session between WHCCD and high schools in early-mid August (Chancellor/Presidents and superintendents) to strengthen current efforts and outline steps to implement additional WHCCD/high school efforts*
- HSO 4.4. Improve communication with students who are in the pipeline now (Registrar/IT)*
- HSO 4.5. Examine project management tools and select one that may help with this process (Pedro Avila)*
- HSO 4.6. Communicate WHCCD goals/metrics for enrollment of high school students at WHCCD—expectation is to enroll numbers at or above the state average of college-going students from area high schools at West Hills (Pedro Avila)*
- HSO 4.7. Identify process to implement early registration with high school students—criteria, timing, etc. (As assigned by Presidents)*
- HSO 4.8. Provide summary of today’s goals, work and next steps to all who need to know (Chancellor)*

EWD. Economic and Workforce Development Workshop
July 15, 2010
9:00 a.m.- 4:00 p.m.

EWD 1. Goals and Agenda

EWD 1.1. Goals

- Identify Strengths and Opportunities that may exist in the Central Valley
- Envision the “new or emerging economy” in the Central Valley
- Identify workforce development requirements for the new economy
- Focus attention and identify practical action steps – by engaging the best thinking of participants
- Co-create strategies to effectively shape the new economy
- Co-create strategies for meeting related workforce development needs

EWD 1.2. Agenda

- Welcome Dr. Gornick
 - The Central Valley must be prepared to shape and respond to the new economy in order for the region and families to survive and thrive
 - WHCCD and its colleges are strategic partners in planning for and helping to create road maps to provide hope as our economy is transformed
 - We’re partners in workforce development, helping students and businesses to succeed
 - We want to draw on your best thinking today to help envision our economic and workforce future
- Today’s Central Valley Economy WIB and EDC Representatives
- Brief Overview: Current WHCCD Workforce Development Activity Carole Goldsmith

Economic and Workforce Development Workshop Agenda (continued)

- Introductions and Table Discussions
Valley Strengths and Opportunities Facilitators/All
- Working Groups: Trends that will Impact
the Future of the Central Valley
- Working Groups: Comparing the current Central Valley Workforce
with what will be needed in three to five years
- Working Groups: Workforce Gaps/Needs/Social Consequences
- Working Groups: Our Future Vision for Economic Development
in the Central Valley
- Working Groups: Our Vision in Action
- Working Groups: Roles and Opportunities
 - Who does what?
 - Who else needs to be at the Table?
- Working Groups: Communications Strategies
- Working Groups: Next Steps
- Close Dr. Gornick

EWD 2. Strengths inherent in the Central Valley

Working in table groups participants were asked to identify the strengths common to the Central Valley. The question posed was “What Central Valley attributes would you stress in order to convince friends and relatives to invest in or relocate here?” The responses are as follows:

- Affordable cost of living
- Quality of life
- Diversity – people
- Willing and effective collaboration among post-secondary institutions
- Geographic location – ease of access to many resources – reasonable distance to Pacific beaches, major cities, outdoor recreation,
- Temperate weather/climate – number of “sun days” and the connection to solar power generation
- Workable population density – the ratio of people to land area is relatively low and attractive to those seeking fewer people and more space
- Agriculture - abundance of locally produced, high quality food
 - Crop diversity
 - Resources in support of agriculture
 - Research –technology (industry driven)
 - Workforce
- The region has the ability to accommodate growth
- The people of the Valley are community oriented
- Abundance of educational access – quality institutions, wide variety of programs and effective supportive services
- Values held and expressed in practice—strong work ethic, neighborly, welcoming.

EWD 3. Opportunities inherent in the Central Valley

Working in table groups participants were asked to identify the opportunities inherent in the Central Valley. The question posed was “What opportunities are most apparent for economic development in the Central Valley? The responses are as follows:

- Capacity to absorb and deal effectively with growth
- Branding the Valley—what do we want people to know and remember about us; telling our story
- Strengthen collaboration between colleges, universities, public schools, local, state and federal agencies, WIBs, and business
- Changing workforce needs in agriculture
- Environmental issues that have potential to create jobs (e.g. water)
- Collaboration to seek funding from federal/state sources
- Large and willing workforce
- Attract businesses from high cost urban areas
- Opportunities to add value to commodities
- NAS Lemoore high tech industries
- Develop water and energy resources
- Diverse population available for training
- Basic skills training with technical training integrated
- Educational infrastructure
- Diversity of employment opportunities
- Accessible via interstate, air
- Vertical integration of agriculture
- Alternative energy – “Solar Sun Days a Valley Energy Resource”
- Business retention and expansion

EWD 4. Trends –Identified by participants as most likely to influence the future success of WHCCD in contributing to workforce and economic development– either as a helping trend or as a hurting trend

Working in small task groups, participants identified a broad range of trends in assigned categories including “Environment/natural resources,” “Social/demographic,” “Government/regulatory,” “Investment opportunities,” “Technology,” and “Competition.” Trends identified were in turn, prioritized using a three choice open voting system. Trends perceived by participants to have the greatest influence on the future contribution of WHCCD to workforce and economic development are summarized as follows.

EWD 4.1. Social/Demographic

Helping Trend

- Aging population—the region may be a target for retirement living. (6 votes)

Hurting Trend

- Lack of basic academic skills among students. (6 votes)
- Negative consequences of state economic condition. (11 votes)

EWD 4.2. Government/regulatory

Hurting

- More regulation, much of it focusing on air quality (11 votes)

EWD 4.3. Investment opportunities

Helping Trend

- Energy efficiency and renewable energy resources (solar) (18 votes)

Hurting Trend

- Lack of capital availability (5 votes)
- Land use balancing (4 votes)

EWD 4.4. Competition

Helping Trend (How the Valley is meeting the competition)

- WHCCD on-line distance learning (17 votes)
- Quality of WHCCD education in general (4 votes)
- WHCCD workforce training (1 vote)
- The Valley has readily available, strong educational resources (3 votes)
Total of 25 votes recognizing the various forms of education at WHCCD and the availability of quality educational resources throughout the Valley – “educational opportunity - a sustaining asset for the valley”
- The Valley is becoming more conscious of its positive attributes and adept at perfecting and broadly sharing the positive Valley story (4 votes)

EWD 5. Future Vision

The Future Central Valley will:

- Offer a seamless web of education: K-12, community college, universities –in support of economic development
- Provide a culture of support for businesses and entrepreneurs
- Keep the knowledge base here
- Be a global hub for agricultural education; advancing agricultural technology
- Be California’s center for renewable resource industries and training; there is a role for education in teaching people about impending consequences of regulation and legislation
- Be a center for entrepreneurial activity—with special emphasis on environmental innovations
- The place where today’s workforce meets tomorrow’s technology
- Be a great place to live, work and play
- Be California’s economic experiment in building the future economy—a tax and regulation free zone (like charter schools) in coordination with the region’s tribal governments

EWD 6. Vision in Action

The Central Valley will focus on:

- 1) Becoming California's center for renewable resource industries and training
- 2) Educating
 - a) Employers/business and employees
 - b) Contractors—residential and commercial
 - c) Residents
- 3) Retaining business—providing support for business lifecycle training—introducing new methods and processes, attracting new technologies
- 4) Communicating
 - a) What is our economic development vision? Our Central Valley “brand promise?”
 - b) Who is the audience?
 - c) What do we want them to do?
 - d) Where/how do we reach them?
- 5) Aligning resources around the vision
- 6) Becoming the global hub for agricultural education – the Valley will host visiting delegations from countries worldwide who come to learn about vertical integration of farm to market, low water crops and 21st century use of minimal pesticides, water and fertilizers
- 7) Training health care workers for the aging population; cultural sensitivity; collaborate with health care organizations re: current needs in health care training, e.g. educational reform

- 8) Creating a culture of expectation among faculty/staff—help students to “see” that the classes they are taking lead to job readiness and employment
- 9) Supporting employer retention strategies through incumbent worker training
- 10) Considering technology applications as part of tool kit for education and training
- 11) Communicating internally the process for employer feedback—identify ways in which the process can be improved
- 12) Developing a plan to acquire the educational lead role in the California center for renewable resource industries and training
- 13) Providing appropriate advocacy for partners who are seeking grant funding for related projects
- 14) Defining WHCCD’s role in promoting the “centers of excellence” concept (agriculture, energy, entrepreneurship), including consideration of incubation and technology transfer
- 15) Identifying resources for entrepreneurial education

EWD 7. Immediate Next Steps

EWD 7.1. Share results of planning day with internal and appropriate external audiences—in summary form

EWD 7.2. Provide executive cabinet report for Board of Trustees

EWD 7.3. Develop strategies, time lines, etc. for 5-year plan

EWD 7.4. WIB-EDC - share and communicate more regularly to foster alignment of vision and plans

Mission

The mission of West Hills Community College District is enhancing student learning and enriching the lives of the populations we serve by:

- Ensuring the vitality of its institutions;
- Encouraging the vision of strong leaders able to see and interpret the present and future needs of students and communities;
- Supporting the colleges in the provision of world class learning environments;
- Providing for appropriate allocation and management of human, fiscal and capital resources;
- Acting as a catalyst for collaboration with outside organizations and agencies; and
- Sharing the story by marketing a positive image.

Vision

West Hills Community College District, a trusted steward, actively engages, encourages, enriches and empowers students, faculty, staff and the communities it serves to reach their full potential (academically, socially and economically) as evidenced by:

- Its status as the preferred choice of students, and the employer of choice for faculty and staff;
- The highest percentage of students completing courses;
- Its recognized excellence; and
- The generally ascribed accolade, "heartbeat of the community."

District Timeline 2008-2009

Aug

- WHCC bid approval for \$10 million for wellness center
- Xireme Registration at WHCL
- West Hills' enrollment up 20% since previous year

Jan.

- Construction starts on the WHCC gym and wellness complex

Feb.

- West Hills Chancellor Frank Gornick honored at state level

Mar.

- Bridge Out of Poverty conference with guest speaker Ruby Payne
- Valley Fever Forum at WHCC

Sept.

- Noted Author Gary Soto speaks at WHCL
- WHCL trike-a-thon raises funds for St. Jude's Children's Hospital

April

- Phyllis Roberts donates \$25,000 for scholarship endowment.

May

- Vince Morre donates \$12,593 to help fund a new weather station for Coalinga

Oct.

- WHCC 12th Annual Athletic Hall of Fame
- UC Merced Chancellor Sung-Mo "Steve" Kang visits WHCC
- Third Annual WHCL Veterans Appreciation Luncheon

- WHCC and WHCL awarded more than 700 degrees and certificates

Nov.

- School facilities improvement districts approved by local voters providing \$11.6 million for WHCC and \$31 million for WHCL. Firebaugh passed its bond measure June of 2008.

Dec.

- West Hills College wins \$792,920 grant to serve veterans

- Sandy Cavins, the district's longest-term employee, retires after 40 years

West Hills College Coalinga

Mission Statement

To commit college-wide staff and resources to the student learning process. To provide educational, cultural, and economic development opportunities to our current and future students and the local and global communities that we serve.

Vision Statement

West Hills College Coalinga strives to become a premiere interactive learner-centered community college recognized for its contribution to the educational, social, cultural, and economic vitality of the region and the state.

Achieving goals despite economic challenges

The economic challenges of these past few years have not deterred us from achieving our mission. Despite significant budget reductions, our enrollment for 2008-09 was 13 percent higher compared to 2007-08. This is directly attributable to our talented faculty and staff who have found ways to be more efficient and productive with fewer resources to ensure student access and success.

In June 2008, citizens in the northern part of the district passed Measure Q, an \$11.8 million general obligation bond measure. In November 2008, citizens in the Coalinga-Huron area passed Measure C, an \$11.6 general obligation bond measure. These bond measures will provide resources for facilities improvements that will impact current and future generations.

General obligation bond funds have already made a difference. Significant improvements have been completed at the North District Center in Firebaugh. A facilities planning team has been working with campus architects to design a new building to replace the existing campus center.

Major improvements have also been completed on the Coalinga campus. The men's residence hall (Gordon Hall) received a facelift. Two new relocatable buildings were added to the child development center. Bond funds have been used to assist with the wellness center project (gym renovation and additional 10,000 sf building) and the ag science facility. The wellness center is scheduled for occupancy in the fall 2010.

Providing access to high quality education opportunities for all residents in our service area continues to be the focus of our overall mission. In 2010-11 we will open learning/outreach centers in several of the smaller communities within our service area.

Improvements to institutional effectiveness processes have taken center stage. We are now utilizing measurable outcomes on a regular basis to guide planning and resource allocation decisions. Results from the assessment of performance indicators, program review, and other evaluative processes are being used to make improvements to student learning. The results of some of these assessments can be found at http://www.westhillscollege.com/coalinga/about/governance_planning/college_consultation/index.asp.

Our vision of becoming "a premiere interactive learner-centered community college" continues to guide our efforts in making a difference in the lives of our students and in contributing to the vitality of the communities we serve.

Willard Lewallen
President, West Hills College Coalinga

Grants:

Total grant funding in 2008-09 exceeded \$5 million for WHCC.

President's Scholars:

A total of 22 students received President's Scholars scholarships for 2008-09. This scholarship covers enrollment fees and provides a book allowance each term.

Successful Transfer:

The number of students transferring to four-year institutions in 2008 increased by 58% from 2007.

West Hills College Lemoore

Mission

West Hills College Lemoore enriches the lives of our students and the community we serve by being dedicated to quality educational learning opportunities and partnerships. The college provides a positive environment that is committed to student learning and empowering students to achieve their educational goals.

Vision

Learning Through Excellence and Innovation

WHCL planning for the future with new programs, facilities

The academic years 2008-09 and 2009-10 will have seen extraordinary cuts to community colleges as the result of the state's recent economic downturn. West Hills College Lemoore will have reduced its operating budget by over \$2.2 million while at the same time maintaining its priority and focus on students.

Course offerings were reduced yet we were able to maintain our commitment to general education, basic skills, workforce development, and degree level courses.

With all the reductions to the general fund, WHC Lemoore still celebrated its groundbreaking for the new \$24 million multi-use sports complex that begins phase three of the college's master plan. It is scheduled to open in March 2011.

Our Allied Health program has been able to withstand budget reductions and will expand its offerings with new courses. Highly skilled technical program training will remain a strong demand throughout the state and West Hills is positioned to provide training.

Our newly developed Engineering Scholars Program provides financial support to more students by providing full tuition and books to qualified students. WHCL will play a key role in preparing students for great career opportunities.

All this is just a small list of the many ways West Hills is a leader in providing quality educational opportunities for the communities that we serve. Even in times of great difficulty, with hard work and teamwork, great things can still happen.

West Hills College Lemoore will continue to be a leader in assisting the state to recover from its economic downturn.

Don Warkentin
President, West Hills College Lemoore

Grants:

Total grant funding in 2008-09 exceeded \$3 million for WHCL.

President's Scholars:

A total of 48 students received President's Scholars scholarships for 2008-09. This scholarship covers enrollment fees and provides a book allowance each term.

Successful Transfer:

The number of students transferring to four-year institutions in 2008 increased by 22% from 2007.

Foundation helps students realize dreams

The students at West Hills College are our future. Helping them realize their dreams of a college education will positively impact our communities and enhance the quality of life we appreciate now and in the years ahead.

As a proud member of the foundation board of directors, I've been privileged to work with a dedicated team of individuals who support the students of West Hills through their time, energy, leadership and philanthropy. Our foundation board consists of community members, civic leaders, businesswomen and men and agriculturalists from across our service area who value education and want to expand the higher educational opportunities for our children and local residents.

Ernest "Ernie" Drewry
President, WHCC Foundation

Special thanks go to three individuals who made substantial gifts to the foundation during 2009. Phyllis Roberts donated \$25,000 for an endowed scholarship at WHCC. Vince Motte contributed \$12,500 to help fund a new weather station at the WHCC Farm of the Future. George Ollikkala donated a substantial art collection to libraries throughout the district. We thank them and the many others who contributed to help our students realize their dream of a college education.

Interim Executive Director

Foundation Mission

The West Hills Community College Foundation enthusiastically engages residents, corporations, foundations and communities of the San Joaquin Valley in financial support and advocacy for the West Hills Community College District. We are entrepreneurial partners with the colleges as we plan and implement programs to build relationships and raise funds.

The Foundation Vision

Our vision is to be a dynamic, legacy organization recognized for:

- The Foundation's \$5 million endowment (by 2008),
- 140 new scholarship funds,
- Establishment of a successful "new alumni" fundraising program,
- An effective and engaged board,
- Significant contributions to the "K-16 Dream" (creating a college-going culture among K-12 students) and,
- Sponsorship of cultural, educational and economic development programs.

The Foundation— Guiding Principles

The West Hills Community College Foundation applies the following guiding principles in its conduct of business:

- Advocate for education and its ability to change lives,
- Practice responsible stewardship,
- Maintain respect for others,
- Conduct business in an open and transparent manner,
- Support diversity and inclusiveness,
- Demonstrate reliability and accountability, and
- Exemplify a commitment to serve students and the community.

Enrollment

Source: WHCCD Data Warehouse

Note: Adding WHCL and WHCC exceed the total of students enrolled at WHCCD due to duplication from students who are enrolled at both institutions.

**District Technology Council
November 19, 2009
District Office Board Room/Lemoore Rm 124
10:00 a.m.**

Minutes

Members Present: Pedro Avila, Carole Goldsmith, Susan Whitener, Keith Stearns, Tammy Weatherman, Ken Stoppenbrink, Jana Cox, Michelle Kozlowski, Jill Stearns, Jose Lopez, Elaine Howard

Members Absent: Richard Post, Dave Bolt

Guest: No Guests

1. **Call to order:** 10:17 a.m. by Carole Goldsmith

2. **Approval of Minutes:**

Jill Stearns moved to approve minutes of October 22, 2009 as corrected. Motion seconded by Carole Goldsmith

Action on Motion: Passed unanimously

3. **New Projects**

3.1. Follett Book Look – Ken Stoppenbrink – Brief Update

Ken reported that the book store now has a list of the books to provide students in excel document format. Ken forwarded the information to Greg Kiryakakis, the Follett Regional Manager.

This will be looked at again after the first of the year.

Carole indicated that before moving on to project updates that she would like for the group to have discussion on reviewing the priority items and the definitions of the priorities. Carole explained that a priority 1a is a mandatory priority; a 1b is an urgent or in process priority and 1c is a standard priority.

Carole stated that she would also like to have a discussion on aligning DTC projects to the district strategic goals. Michelle asked if our college goals are pretty much the same as the district goals. Jill answered yes, the college goals are tied to the district goals. Jose stated that aligning is a good idea. Jana also stated that it is a good idea.

Action: Re-visit this at the next meeting.

4. **Project Updates**

4.1. Review Project List

Datatel Server Upgrade to 64bit – Michelle Kozlowski

Michelle reported that they are working on security issues and that they will be testing extensively.

Michelle stated that their goal is to get tested and tried by December and January.

Target Date: February 2010

Datatel User Interface 4.0 – John Wright

Not present to report.

Target Date: Spring 2010

Textbook Compliance – Ken Stoppenbrink

Ken reported that they should have a solution by the first of the year.

Target Date: In progress

CB21-Below College Level Basic Skills – Jill Stearns/Dave Bolt

Jill reported that the final training was December 3, 2009 that they were not ready for the colleges. Keith stated that the codes have to be recoded into Datatel. Jill stated that the target date was pushed to March.

Target Date: March 2010

P/NP Grading

Action: Add Pedro Avila as a manager.

Target Date: Ongoing

Blackboard 9 Upgrade – Susan Whitener

Susan reported that it is on target and that students will be trained as well.

There will be some online training and on campus training. Susan stated that this will be ongoing for quite some time.

Target Date: January 2010

Address Review & Update – Keith Stearns

Keith suggested that the name of the project be changed to Address Review & Update. Keith reported that there are six components to this project:

- **Usernames**
It has been cleaned up for students and employees.
- **Constituencies**
It has been cleaned up for staff. The students clean up is still ongoing.
- **Email Addresses**
Staff has been cleaned up. Students have been cleaned up. We are working on types and policies for when to use types.
- **Phone Numbers**
Not started yet.
- **Naming Conventions**
Not started yet.
- **Street Addresses**
Not started yet.

Portal Tab Redesign – Pedro Avila
Pedro was assigned as manager.

Website Redesign – Pedro Avila
Pedro was assigned as manager.

Portal 2.0 – Michelle Kozlowski
Michelle reported that the test system is up and when Tanner returns from vacation he will be able to work on it. Change the target date to ongoing.
Target Date: Ongoing

VTEA Project Import – Carole Goldsmith
Carole reported that there appears to be a gap in the collected data in regards to student demographics. Additionally, our current method of collecting data does not have a high response rate. This is negatively impacting our VTEA funding and possible other categorical areas too. Accurate data and increased response rates will lead to get extra funds. Carole stated that Sacramento City uses a form of a supplemental application to update information every semester, in order to keep information current. Michelle suggested that we should update every semester. There was discussion about re-naming this project and making it a new project – Student Demographic Acquisition with a priority 1a. Carole volunteered herself for a new project.

Drop Dates Publication – Pedro Avila
Ongoing project

HR Workflow – Ken Stoppenbrink
Ken requested that this project be removed from the project list it has been completed.

Datatel Access Profile – Pedro Avila
In progress.

Class Roster Format – Pedro Avila
Status is in progress.

Waitlist – Pedro Avila
Pedro reported that this project is in progress. He now has a full team and will have a quick meeting to touch basis with everyone. Pedro stated that Elaine is working on a meeting date.

SARS Grid – Jose Lopez/Jill Stearns
Jose reported that there are still some glitches but over all going really smooth. Jill stated the only dislike is that they have to sync it at the end of every day. SARS Grid is completed.

The group decided that they need to add three new projects associated with SARS.

- **E-SARS** – So students can go in and make their own appointments. This project was given a priority 1b. The following leaders/managers assigned were Jose Lopez, Jill Stearns and Pedro Avila.
Target Date: May 2010
- **SARS Track for Grid**
Leaders assigned to this project were Jill Stearns and Jose Lopez. This project was given a priority 1c.
Target Date: May 2010
- **SARS Import** – Takes the data in SARS and puts it into Datatel. The leader assigned is John Wright, with a priority 1a.
Target Date: May 2010

WEB Time Card Entry – Ken Stoppenbrink/Tammy Weatherman

Ken reported that they are still testing.

Tammy stated that everything is moving along, the biggest issue is getting people in.

Technology Strategic Plan – Michelle Kozlowski

Michelle reported that the plan is completed. It hasn't been routed yet there are a few minor revisions that need to be made. She asked that it be removed from active project list to complete. She and Carole will be routing it in the spring.

e-Brochure – Frances Squire

Pedro reported that they are very close to finalizing it, that they have received some good reviews from their group. Pedro also reported that they are about 80% complete. The group decided to change the name of this project to e-Brochure for Prospective Students.

Online Degree Audit – Pedro Avila/Sandy McGlothlin

Susan Whitener asked that she be removed from this project.

Pedro stated that they are working on making some corrections.

Target Date: March 2010

Graduation Petitions Online – Angela Tos/Marlene Roton/Pedro Avila

Pedro stated that he will give an update at the next meeting.

Waiting on Events

Live@EDU – Michelle Kozlowski

Michelle reported that they are waiting on Microsoft to release some enhancements.

Document Imaging – Hershey Transcript Importing – Michelle Kozlowski
Michelle stated that she will need to revisit this and that this would be a discussion for the next meeting.

Automatic Approvals – Tammy Weatherman
Tammy reported that this project is on hold. Move to on hold status.

On Hold

Faculty Section Change Forms – Pedro Avila
Susan stated that this needs to be an active project. Pedro is the leader.

eAdvertising/Ed Plans – Jose Lopez

As is, on hold.

Carole stated that we will take a look at this in April. Carole asked Jana to give an update at the April 2010 meeting.

Reporting Solution – Zogotech – Pedro Avila
Move this project up, is still looking for funding source.

BOGG Waiver through CCCApply – Jana Cox
Move this project up to active list. Need more research.

Position Budgeting Module – Ken Stoppenbrink
Ken stated that this doesn't work well. Remove.

Positive Attendance Entry on Web
Remove.

CCC Apply Electronic Transcripts – Carole Goldsmith
Remove Michelle as leader and put Carole as leader. Carole stated she would like to take a look at it again. Move this project to the Active list. There will be a presentation at the next meeting.

Faculty Drop Students Online – Dave Bolt/ Susan Whitener/Carole Goldsmith
Move this project up to Active.

6. Announcements

Carole announced to remove number five, Team Updates from the Agenda.

Carole asked Susan to give a Project overview on Web Streaming and Classroom Capture.

Susan reported that the project is for the Westside and Lemoore. Willard asked her to come up with a solution that will service the off campus sites with web streaming and classroom capture. Ken stated that what has not been identified to him yet is on the line item – multiple components, how much is specifically dedicated for technology? Ken stated he is waiting for that answer. Susan stated a commitment was made to Coalinga and District to provide educational services. There will need to be a presentation to the facilities committee. Ken stated the committee will need to be aware of the impact it will have on the bond money. Susan stated that they have two vendors. Carole requested to have a meeting off line with Susan on the details of this project.

7. **Adjourn:** Meeting was adjourned at 11:58 a.m.

/eh

District Technology Council
February 25, 2010
Coalinga Sam B /Lemoore Rm 124 via Video Conference
10:00 a.m.

Minutes

Members Present: Pedro Avila, Dave Bolt, Carole Goldsmith, Susan Whitener, Keith Stearns, Jana Cox, Michelle Kozlowski, Jill Stearns, Sylvia Dorsey-Robinson, Stephanie Droker, Elaine Howard

Members Absent: Richard Post, Ken Stoppenbrink, Tammy Weatherman

Guest: Lenny Robinson Project Manager, eTranscript

1. Call to order: 10:15 a.m. by Carole Goldsmith

Lenny Robinson gave a presentation to the group via CCC Confer on CCC Apply Electronic Transcripts. Lenny explained that eTranscript California is the statewide internet-based system for requesting, transmitting, tracking, downloading and viewing academic transcripts among authorized educational institutions and their trading partners. The power point presentation is posted on the Portal.

The meeting reconvened at 11:09 a.m. via video conference after the presentation.

2. Approval of Minutes:

Susan Whitener moved to approve minutes of November 19, 2009. Motion seconded by Jill Stearns

Action on Motion: Passed unanimously

3. Discussion regarding e-Presentation

Carole asked the group for comments or thoughts on e-Transcript.

Susan commented that it sounds good. Keith stated that most of our institutions are not using it. At this time none of the community colleges receive transcripts into Datatel. Jill shared that the state needs to release a concept. Keith stated that he thinks that we would be able to push it through to Fresno State. Pedro expressed that it would be a huge savings in Maria's time. Carole asked Keith who we would talk to in regard to the process and how it's working. Keith responded that we need to talk with other Datatel schools.

Carole announced that the new project leader for this project is now Keith Stearns, registrar.

4.1. Follett Booklook

Carole asked Jill and Dave to give an update on Follett booklook system.

Jill expressed that if the responsibility falls on Follett to keep the spread sheet current every time a book price changes and doesn't fall back on us to keep it current, it would be a good thing. Jill also stated that if the solution clearly puts it in their ball park once that connection is made and Follett has that responsibility spelled out that it is theirs; I think it is the way to go.

Dave stated that he and Jill have talked with Ken and Ken supported the position. Dave expressed the need to let Greg at Follett know the deadline date of when we were going to be on board with the Follett plan. Carole asked Jill and Dave if they would remind Ken to get the deadline date information to Greg at Follett.

Susan asked Keith what his thoughts were on the Datatel Solution, has anything come out? Keith responded, Datatel has released their solution and the issue with Datatel Solution is that someone has to go in and update the information which means typing in ISBN numbers. It is difficult to do.

Susan stated her concern was that Follett their book prices may change but I think what is really going to change is the cost that the service has and I think we are just going to have to pay it.

Carole stated that right now I don't think they have talked about charging a fee have they?

Susan responded that once it is implemented and we have done our code and we have done everything to integrate it. Carole stated then it is going to cost one way or the other.

Keith explained that he has gone to a couple of places actually Lee University that has implemented the booklook solution into Datatel and they basically have had to add another column that has a link to booklook. The other issue is that Datatel has come out with a Portal class search which we are looking into so we will have to find a place there to put it into also. This is a whole different ball of wax. Keith gave the website if you want to find it; it is web.leeuniversity.edu and search for classes.

Dave asked Keith if that is the link to another page with all the book prices on it.

Keith responded, the way booklook works from what I can tell is that you provide a link to their booklook software and you tell it what section it is and it pops up with the book information and the cost for that particular section.

Dave stated that it is convenient for the student but if the link went to a general page that required the student to navigate around a little bit to find it that would satisfy the requirements as well.

Dave expressed that the method that Keith just identified still requires tremendous amount of linking the link to the specific page.

Keith explained that the way their booklook solution works is that you pass it section information it shows you book information for that section. That is the advantage of their solution.

Jill stated, I think this solution helps us in terms of the number of students we have that take courses across campuses and particular online because once they click a specific section it gets them the correct textbook for that section.

6. Announcements

Carole announced that the next DTC meeting will be held on April 15, 2010 and at that meeting we will go over team updates and also Carole would like to go over how we assign our priority on projects.

7. Adjourn

Meeting was adjourned at 11:29 a.m.

**District Technology Council
September 17, 2009
District Boardroom/Lemoore Rm. 124
10:00 AM**

Minutes

Members Present: Pedro Avila, Susan Whitener, Priscilla Balcazar, Jill Stearns, Keith Stearns, Dave Bolt, Michelle Kozlowski, Jose Lopez

Members Absent: Tammy Weatherman, Richard Post, Dolores Smith, Ken Stoppenbrink, Jana Cox

Guest: Carole Goldsmith

1. **Call to order:** 10:01 by Pedro Avila
2. **Approval of Minutes:**
M. Kozlowski moved to approve minutes of August 27, 2009. Motion seconded by S. Whitener.
Action on Motion: Passed unanimously.
3. **New Project:**
 - 3.1 **AlertU Emergency Notification – S. Whitener**
S. Whitener stated Frances Squire is not on this committee but has sat in on discussions regarding the emergency alert system. We currently have Call-All but there is no way to alert students elsewhere on campus or off-campus. Some members thought a committee has already studied this issue and P. Avila clarified that the committee originally talked about a text messaging system to communicate with students and it was dropped from the projects list due to a lack of student interest. The other piece was AlertU in which Frances and Anne Jorgens would work with college representatives and they have not returned to this committee with a decision. There was some confusion as to whether a decision had been made and S. Whitener responded, if there has been a decision it was made without the college presidents' approval.

P. Avila added we need to make sure Frances has met with the Emergency Response Team on both campuses and S. Whitener asked why Frances is responsible for this project as this is clearly a technology issue. P. Avila responded that Frances is the Public Information Officer and she expressed an interest in this topic.

ACTION: Check back with Frances and Anne to meet with presidents and colleges. Frances Squire attend next meeting.
 - 3.2 **Follett Booklook – K. Stoppenbrink**
 - To the question of who was responsible for this project, S. Whitener stated K. Stoppenbrink forwarded message to her and she forwarded it to M. Kozlowski. M. Kozlowski reported there are new requirements regarding textbooks and at this time

she doesn't know if this program will work for us. D. Bolt and J. Stearns will stay on top of this.

- J. Stearns stated an incredible burden is being put on colleges to include textbook prices on class schedules. She would like the college to be aware of all that is in the Follett contract and put the burden of making this information available on them. She stated K. Stoppenbrink is the official owner of this project so he needs to be significantly involved in the project.
- M. Kozlowski indicated this is a complex, confusing issue for us now and the mandate does offer alternatives.
- D. Bolt asked if this needed to be made a project and M. Kozlowski stated it needs to be a project as we have to do something by next summer. K. Stearns stated this project needs to be added to our projects list but needs to be evaluated.
- S. Whitener asked if anyone from IT had sat in on the webinars and M. Kozlowski replied, "No". S. Whitener requested she be included on project.

ACTION: **Project Name**—Textbook Compliance **Priority**—1A
Project Manager—K. Stoppenbrink, J. Stearns and D. Bolt – co-project leaders.
Committee Member – S. Whitener

4 **Project Updates.**

4.1 **VTEA Survey Import** – P. Avila

P. Avila reported that previous minutes had been reviewed to see what decisions had been made about this project and that due its similarity to placement test score import it had not been made a separate project.

ACTION: **Project Name**—VTEA Project Import **Priority**—1B
Project Manager—C. Goldsmith

At this point M. Kozlowski stated she would like to add new projects to our list due the new role the District Technology Council has taken.

1. **Datatel User Interface 4.0**
Project Manager—John Wright **Priority**—1A
Target Date—Launch in spring 2010
2. **Datatel Server Upgrade** to 64bit server. **Priority**—1A
Project Manager—M. Kozlowski
Target Date—Hope to complete prior to January 2010. Will be implemented either during Thanksgiving or Christmas holidays.
3. **Portal 2.0** soon to be released and needs to be evaluated. **Priority**—1B
Project Manager—M. Kozlowski
M. Kozlowski asked S. Whitener if Tanner Naeher needed this information.
K. Stearns stated he would send Tanner the documentation.
4. **Website Redesign** – this project is ongoing and never completed.
Project Manager—S. Whitener **Priority**—1B

5. **Portal Tab Redesign**—this project consists of substantial redesign of portal and how it will work. Communication needed so everyone understands what they are supposed to do.

Project Manager—S. Whitener

Priority—1B

4.2 **Review Project List**

- **CB21** (K. Stearns): Final rubrics not yet released. Once released will meet with faculty.
ACTION: Change Project Manager to **J. Stearns and D. Bolt**

- **P/NP** – K. Stearns: Catalogs and transcripts need to be updated. More information needed before project can be completed but we are making progress.
ACTION: Delete K. Stearns as Project Manager. **Target Date:** Dec. 15, 2009
Status: Update catalog and transcripts.

- **BlackBoard 9** (S. Whitener): Project on target.
ACTION: Change Target Date to **January 2010**.

- **Foundation (Alumni)** – P. Avila asked if project should be named Colleague Advancement. M. Kozlowski reported there are continual ongoing enhancements being implemented. Designate as completed.
ACTION: Change project name to **Advancement Implementation**.
Change status: To Completed.

- **Address Review & Update/Naming Conventions** (K. Stearns): Working on email address as it is the simplest task. Have fixed 500 email accounts as of this morning. Project deals with getting standards in place & documentation. It is hoped this project will take no longer than a year to complete.
ACTION: **Project Manager-** K. Stearns **Target Date:** Open

- **SharePoint Workflow** (S. Whitener): This is an ongoing project which will be picked up again after October.
ACTION: Change project name to **Faculty Section Change Forms**
Change status: To Hold

- **Drop Dates on Class Schedule** (M. Kozlowski): Project needs project manager and still working on pieces of the project. P. Avila stated that in last discussion it was suggested to show drop date information in “MySchedule”.
ACTION: Change project name to **Drop Dates Publication**.
Project Manager: P. Avila

- **HR Workflow** (J. Cox): Not present to report.

- **Graduation Petitions Online** (P. Avila): In the July minutes it was noted that a form needed to be created and that has been done.

- **SARS Grid (J. Lopez):** M. Kozlowski reported that the training schedule is moving along. J. Lopez added that Lemoore has training dates and those will be distributed. J. Stearns reported the same for the Coalinga campus.
ACTION: Project Managers – J. Lopez and J. Stearns
- **Web Time Card Entry (J. Cox):** Not present to report. K. Stearns reported this system will be going live in a week or two for part-time and temporary employees who turn in timecards on the 10th or 11th of each month.
- **Technology Strategic Plan (P. Avila):** Asked that the plan be routed to Donna Isaac for distribution to the Planning and Governance Councils at Coalinga and Lemoore.
- **Admission Application Communications (eBrochure) (K. Stearns):** K. Stearns asked that the project manager be changed to Tanner Naehar. This project involves three discussion port projects—admission application, inquiry (F. Squire), and follow-up (registrar).
ACTION: Leave project as is and wait for clarification. **Project Manager:** Delete K. Stearns' name
- **Web Portal/New Student Email System (S. Whitener):** Project on target for fall 2010.
ACTION: Change project name to **Live@EDU**
- **Online Degree Audit (P. Avila):** Waiting as degree audit system needs to be updated with new catalog information.
ACTION: Change status to **ACTIVE**
- **Document Imaging – Hershey transcript importing (M. Kozlowski):** Project continues on waiting.
- **CCC Apply Electronic Transcripts (M. Kozlowski):** Changing partners and program currently not being used so continue project on hold.

5. Announcements

- A. D. Bolt reported that faculty has renewed their interest on having a waitlist based on full classes.
During discussion K. Stearns reported current system was written in 2005 and issue is that a registrar is needed to run it. P. Avila asked how long it would take to implement and added that in a year from now with an improved economy, this may no longer be an issue. K. Stearns asked who would be responsible for doing this work. M. Kozlowski stated K. Stearns could give an update and explain waitlist process at next months' meeting.
ACTION: Include **Waitlist** on next month's agenda.
- B. M. Kozlowski asked the committee to again consider the Maintenance Window for ITS. Currently maintenance is performed the 4th Friday from 6-9 p.m. and more time needed for all the servers. Windows for maintenance have been explored and options were

proposed at the Technology Advisory Team meeting. M. Kozlowski would like the maintenance to occur on a Saturday morning so staff could flex their schedules, thereby making overtime unnecessary. Maintenance could occur from 6am to 11am or noon and would take 30 minutes to an hour to complete. There is the question of blackboard interruption and midterm week. There is no perfect time but a change needs to occur and more time is needed to perform the maintenance.

7. **Adjourn:** 11:00

District Technology Council
October 22, 2009
District Boardroom/Lemoore Rm. 124
10:00 AM

Minutes

Members Present: Pedro Avila, Carole Goldsmith, Susan Whitener, Priscilla Balcazar, Keith Stearns, Dave Bolt, Tammy Weatherman, Ken Stoppenbrink, Maria Lourenco, Jana Cox,

Members Absent: Richard Post, Dolores Smith, Jill Stearns, Michelle Kozlowski, Jose Lopez,

Guest: Frances Squire, Anne Jorgens

1. **Call to order:** 10:05 by Pedro Avila
2. **Approval of Minutes:**
K. Stearns moved to approve minutes of August 27, 2009, as corrected. Motion seconded by P. Avila.
Action on Motion: Passed unanimously.
3. **Transition of DTC Responsibilities – Pedro Avila/Carole Goldsmith:**
P. Avila explained that due to the reorganization at the District Level responsibility for DTC was now given to C. Goldsmith. At this point Carole assumed conducting of the meeting.
4. **New Project**
 - 4.1 **Emergency Alert – Frances Squire/Anne Jorgens**
F. Squire reported she had attended the Lemoore Cabinet meeting this week and made a presentation on Emergency Alert and President Don Warkentin wanted to implement an emergency alert system but this item was going to another committee for discussion. Who will be responsible for this system at each campus and where will the funding come from is needed. F. Squire would like to involve the Grants office for possible funding resources and would like to check with Homeland Security as well. F. Squire has explored six different systems and indicated a need to identify what we want to accomplish with this system. Pre-tested messages are favored and Child Development indicated 50% of the parents do not speak English. C. Goldsmith indicated she would like both parents to sign-on. F Squire stated she is willing to do the research but will need help with the technology part. C. Goldsmith expressed that she would like F. Squire to take the lead on this project. She would like a vendor list and when a vendor is selected that it be taken to IT.

J. Lopez and F. Squire will be meeting with a billboard vendor.
ACTION: Discuss at next meeting. Waiting for presidents approvals.

4.2 Wait List – Dave Bolt/Pedro Avila:

P. Avila reported that faculty Marty Ennes and Stephanie Droker are requesting a waitlist, not necessarily a Datatel waitlist. They would like control—if student is attending class, would like faculty to have ability to add student into a class. An issue could be if there is a waitlist and a week later there is an opening and student is added into the class. What happens if the student is no longer interested in that class? We need a process and we need to look at our technology. D. Bolt stated faculty wants flexibility in drop a student. P. Avila suggested a committee of two CIO (S. Whitener volunteered), counselor/faculty from each college, Maria Lourenco and Pedro. When he asked if anyone else was interested D. Bolt nominated Bob Gibson. Members were reminded that the Academic Senate would have to approve faculty membership and D. Bolt stated he would talk with Academic Senate.

At this point K. Stearns suggested “Enrollment Management” as a new title for this project. D. Bolt suggested “Roster Management”. C. Goldsmith requested a registration task force.

ACTION: Priority 1b

4.3 Prerequisites Issues and Registration – P. Avila:

Another issue arose at this point about students who failed a prerequisite still being able to enroll in a class. K. Stearns stated there is a Datatel report that lists students who have failed a prerequisite. This report was difficult to read so D. Georgatos had him rewrite it. K. Stearns stated 50% of students want an override in order to enroll in a class and automation does not allow for that so perhaps manual process is better for this.

4.4 Class Rosters Format – P. Avila:

P. Avila requested this issue be made a project. It was reported that faculty have complained of the difficulty in downloading their rosters from Datatel. K. Stearns responded that is easy to fix and should be brought forward as a project.

ACTION: In progress

4.5 SharePoint Test Server – C. Goldsmith:

ACTION: Table until next meeting when M. Kozlowski can be present.

4.6 Direct Loan Program – C. Goldsmith:

The federal government wants to get rid of the FFEL program. We need to have the direct loan program implemented by July 1, 2010. This will require business office and IT involvement. Relatively simple setup and testing will need to be done.

4.7 Datatel Gradebook – K. Stearns:

K. Stearns reported that Datatel changed the grading with a new module called “Gradebook”. Online courses would use this new gradebook and traditionally-taught courses can use their preference. P. Avila asked if we own this module.

ACTION: Table until next meeting when J. Stearns can be present.

Manager: Carole Goldsmith

4.8 Bookstore – K. Stoppenbrink:

The Higher Opportunity Act mandates that colleges publish prices and titles and putting this information on the class schedule could be an option. It must be published, perhaps in the catalog, at some time as Follett can provide a link to help us with this. The onus will be on faculty to make book choices available so Follett can build a list of prices. K. Stoppenbrink asked if he still needed to be project manager and D. Bolt stated K. Stoppenbrink is the liaison with Follett at District. S. Whitener stated this project had been discussed at the TAT committee and it was felt book price information needed to be left out of the catalog. She stated only 5% of faculty would not get their information in on time and felt 95% compliance would be okay. K. Stoppenbrink stated he will need an ITS person on this task force.

5. Team Updates

- 5.1 ST – Pedro Avila: P. Avila stated he is now leading this committee. Meetings have not been held regularly and he will be contacting both colleges for membership.
- 5.2 TAT – Susan Whitener: This committee met on September 30th and discussed Follett, the Library reported 53,000 sheets of paper were printed within three weeks. K. Stoppenbrink stated the best way to track the count of copies would be standalone PC counting. An accurate count will be made by December 10th and recommendations will be made based on that data.
- 5.3 AR/CF – Tammy Weatherman: T. Weatherman had nothing to report. Work is currently being done with Datatel on GL/PO issues – nothing major.
- 5.4 FA – Jana Cox: J. Cox reported she had not had an opportunity to meet with Dolores Smith and they are still working on FA committee meeting schedule.
- 5.5 HR – K. Stoppenbrink: Trial run of Web-time entry, for the most part, went well. There are still some glitches. The committee is meeting next week and is working on solutions. Paper for those timecards is a somewhat expensive and they are considering electronic timecards. A number of supervisors said they had not been aware of training that was offered. There will be retraining next week. Jana Cox has helped employees and supervisors on the Lemoore campus. Tammy Weatherman added that there are leave and overtime issues. **Direct Deposit** will go into effect January 2010 and want 100% compliance. Pay Advices will soon be available on the portal. Employees will be able to view and print their check stubs for all of 2009. An email was sent to all supervisors asking them to share this news with the temporary employees and work study students. The committee asked K. Stoppenbrink to make Pay Advice access instructions available on the portal we well. K. Stoppenbrink stated that approximately \$500 will be saved in printing costs by going Direct Deposit.

- 5.6 Cross Team – All: P. Avila asked that two projects be added. The purpose of the Datatel Access Profile project will be to see that everyone in Datatel has access to screens they need to perform their jobs.

ACTION:

- 1) **Name:** Datatel Access Profile **Priority:** 1b
Status: In progress **Target Date:** December 2009
- 2) **Name:** Online Grading Fix **Priority:** 1b
Status: In progress

6. **Other**

- 6.1 **Update Team Memberships – Pedro Avila:**

ACTION: Tabled until next meeting as key members missing today.

K. Stearns reported on the Address Review and Update project: Have started working on email addresses and is working on address updates. A small group of representatives from student areas is needed to work with him on this project. Keith will send an email. S. Whitener suggested Idelle Mahrt be part of that group.

5. **Announcements**

7. **Adjourn:** 11:30

DTC Leaders

February 25, 2010

10:00 am

Sam B/Room 124 - Lemoore

Revised Abridged - A G E N D A

CCC Apply Electronic Transcripts Presentation at 10:15 am via CCC Confer

DTC will reconvene via video-conference after e-Transcript Presentation.

1. Call to order
2. Approval of minutes
3. Discussion regarding e-Presentation
4. New Projects – Brief Update
 - 4.1. Follett booklook – K. Stoppenbrink
5. Brief Team updates
 - 5.1. ST – Pedro

Ken Stoppenbrink

The following agenda item deals with confidential personnel and/or budget issues. The Chancellor will determine who is to be present for this discussion.

Reorganization Proposals

TASKS ASSIGNED AT CHANCELLOR'S EXECUTIVE CABINET MEETINGS

	Task	Responsible Individual(s)	Date Assigned	Notes/Progress
1.	Work with Christian Raia on point of sale	Ken Stoppenbrink	4/14/10	<p>5/12/10 – Ken has not yet met with Christian.</p> <p>6/9/10 – Ken met with Christian and identified stakeholders who need to be involved with the point of sale process. The group will need to meet and determine overall needs.</p> <p>7/19/10 – Ken to follow up with Christian on point of sale and provide more information at next Chancellor's Executive Cabinet meeting.</p> <p>7/20/10 – Ken sent email to Christian and have not received any response back yet.</p> <p>8/14/10 – Christian is meeting with ABC Director of Operations on September 10, 11 and 13; is also meeting with Disney Executive Chef and can plan a sight visit following the meeting. Will keep Ken informed.</p>
2.	Incorporate suggested changes in evaluation checklist document for further discussion	Donna Isaac	4/14/10	<p>5/12/10 – Additional changes were suggested. Document to be reviewed again at an upcoming Chancellor's Executive Cabinet meeting.</p> <p>7/8/10 – This item will be reviewed at the August Chancellor's Executive Cabinet meeting.</p> <p>8/3/10 – Need to contact Key Writing for draft document.</p> <p>8/11/10 – Draft document to be reviewed by Presidents before submitting to Key Writing for further comments. Review to occur at September Chancellor's Executive Cabinet meeting.</p> <p>** THIS ITEM WILL BE ON SEPTEMBER AGENDA **</p>
3.	Designate appropriate administrator on campus to extract references in faculty evaluation concerning success and retention data. Instructors to review and sign revised evaluations. Evaluations to be sent to Ken Stoppenbrink for Human Resources files. To be completed by the end of August.	Willard Lewallen Don Warkentin	8/11/10	
4.	Arrange for Microsoft training to occur throughout the district	Carole Goldsmith	5/12/10	<p>7/19/10 – A trainer has been identified and training will begin in September. Susan Whitener's office will be coordinating this effort.</p>

	Task	Responsible Individual(s)	Date Assigned	Notes/Progress
5.	Work on legal ramifications with regard to traffic school and the access to traffic school on the west side	Frances Squire Ken Stoppenbrink	5/12/10	7/19/10 – Frances reported that cost to get program running again is between \$5,000 and \$10,000. Need to determine if we want to do this. 8/3/10 – Frances provided an update via email. We have applied to the court for a new traffic school and have ordered the lesson plans. We are still awaiting word from DMV on cancelled check balance due. 8/11/10 – Frances to provide an update at September Chancellor's Executive Cabinet meeting
6.	Work with Susan Whitener on lists of equipment and prices for Cisco equipment. Carole Goldsmith and Michelle Kozlowski to be involved in the process	Ken Stoppenbrink	7/19/10	8/3/10 – Ken met with Susan. Need to ask Cisco to provide us a demonstration with our bandwidth before making any recommendations. 8/11/10 – Ken reported more information is needed before a decision can be made. Frank reported Susan is working on this task.
7.	Coordinate notifications to colleges regarding adjustments in inventory for equipment provided by AOS	Ken Stoppenbrink	7/19/10	7/20/10 – Ken Contacted AOS. They are working with Mark Millett to coordinate the moving of equipment. Waiting for this to be fit into other priorities. 8/11/10 – Task in progress.
8.	Develop a plan based on retiree health benefits survey responses	Ken Stoppenbrink	7/19/10	7/28/10 – Ken completed draft and sent to legal counsel for review 8/11/10 – Legal counsel is reviewing draft
9.	Ask Kevin Cobb to provide some benchmarks on savings with regard to energy and sustainability for inclusion in the proposed Board policy	Ken Stoppenbrink	7/19/10	7/20/10 – Sent email to Kevin Cobb. Waiting for response 8/11/10 – Waiting for response
10.	Provide information to Ken Stoppenbrink on where copiers for student use are to be located	College Presidents	7/19/10	8/11/10 – Ken is waiting for information from Presidents
11.	Follow up with AOS to implement RouteXpress at the colleges	Ken Stoppenbrink	7/19/10	7/28/10 – Ken had discussion with AOS and both librarians about software. Fees for RouteXpress have increased tenfold and there are other options that may be more viable and less cumbersome for us to consider. AOS will be providing us with an update as to these options. 8/11/10 – New software coming out. AOS, ITS and college librarians will discuss and review.

**West Hills Community College District
District Leadership Council (DLC) Meeting**

**November 2, 2010
2:00 p.m.**

**Meeting to be held at
West Hills Community College District

MINUTES

Members present:

Pedro Avila, Vice Chancellor of Institutional Effectiveness and Enrollment Management
Anita Bart, Academic Senate President, West Hills College Coalinga
Marty Ennes, CTA Representative
Carole Goldsmith, Vice Chancellor of Educational Services and Workforce Development
Frank Gornick, Chancellor
Jill Stearns, Vice President of Educational Services, West Hills College Coalinga
(for Willard Lewallen, President, West Hills College Coalinga)
Kurt Sterling, Academic Senate President, West Hills College Lemoore
Ken Stoppenbrink, Vice Chancellor of Business Services
Don Warkentin, President, West Hills College Lemoore

Others present:

Donna Isaac, Executive Assistant

Members absent:

John Ieronimo, CSEA President

Update and Progress on Accreditation

Frank Gornick briefly commented on the Leadership Retreat held on Friday, October 29 and the presentation by Norval Wellsfry with regard to the colleges' accreditation self studies.

Don Warkentin stated that it was interesting to have a Commissioner from the Accrediting Commission make comments about the self studies. He stated that he thinks there is a disconnect between the training that is provided to colleges and what the Commissioners are looking for when they read the reports. Don reported that he has Norv's annotated comments and has shared them with his staff and they will now be reviewing the report in their specific areas of expertise. The self study will be ready for a first reading by the Board of Trustees in December, with approval to follow in January. Don explained that one of the areas of the self study for West Hills College Lemoore that needs attention is to emphasize the importance of the self evaluation piece.

Jill Stearns reported that she and Sarah Shepard will be meeting later in the week to determine how to reevaluate the work that has been done on the self study. West Hills College Coalinga was hoping to be able to have the final bound document for the Board of Trustees at their January meeting.

Discussion took place concerning the evidence that will be linked to the self study. It was agreed that a CD of the documentation will be an easy way to handle this.

Don initiated discussion on the need for a code of ethics for employees. He stated that this needs to be in place prior to the visit. Frank stated that this policy can be added to the Policy and Procedure Review Schedule.

SB 1440 Implementation

Anita Bart reported that a webinar is being held on Wednesday, November 3 for the Academic Senate. Frank stated that the webinar should provide good information for faculty, counselors and advisors. Kurt Sterling discussed information on the course identification program (C-ID). He stated that agriculture and communication courses are done and sociology has been finalized.

Board Policies and Administrative Procedures

The following Board Policies and Administrative Procedures were reviewed by the group:

- BP 4030, Academic Freedom – Kurt reported that he sent out a request to Academic Senate Presidents asking for examples of updated policies and the faculty are actively working on this. Marty Ennes stated that the language in the current policy is out of date. Frank stated that a first reading of the policy by the Board of Trustees is scheduled for December 7, 2010. Consideration is scheduled for January 18, 2011.
- AP 4045, College Library Fines – The group agreed to the proposed changes. Frank stated that the procedure is currently under review by the various college groups.
- BP & AP 4110, Honorary Degrees – The group agreed to the proposed new policy and procedure. Frank reported that the policy and procedure are currently under review by the various college groups. A first reading by the Board of Trustees is scheduled for January 18, 2011. Consideration is scheduled for February 15, 2011.

District Mission and Vision Statement

Frank explained that the district mission and vision statements are in the process of being reviewed. The goals will also need to be updated. Pedro Avila reported that he and Carole Goldsmith will be working on the new goals that were determined as a result of the Strategic Planning Retreat and should have them ready before the end of the year.

Marty requested that the draft revision be sent electronically.

Other Business

Completion by Design – Frank reported that staff are working with a consultant and are in the process of pulling together the application for the Gates Foundation grant. West Hills will serve as the lead agency and several other colleges will join us. He explained that we are going to try to do things based on research including first generation, low income and underserved populations.

Frank reported that a One Year Schedule Task Force is being formed and he will keep the group updated on their progress.

The next meeting of the District Leadership Council is scheduled for Monday, December 6.

MINUTES

Members present:

Pedro Avila, Vice Chancellor of Institutional Effectiveness and Enrollment Management
Cathy Barabe, Director of Grants
Anita Bart, Academic Senate President, WHC Coalinga
Dave Bolt, Vice President of Educational Services, WHC Lemoore
David Castillo, Director of Westside Institute of Technology (WIT)
Bob Clement, Director of Athletics, WHC Lemoore
Jana Cox, Director of Financial Aid
Sylvia Dorsey-Robinson, Vice President of Student Services, WHC Lemoore
Bertha Felix-Mata, Director of Title IV Projects, WHC Coalinga
Charles Freeman, Director of Nursing, WHC Lemoore
Eliseo Gamino, Director of CAMP Grant, WHC Coalinga
Carole Goldsmith, Vice Chancellor of Educational Services and Workforce Development
Frank Gornick, Chancellor
Marlon Hall, Associate Dean of Educational Services, WHC Lemoore
Verna Hernandez, Director of Health Careers, WHC Coalinga
Michelle Kozlowski, Director of Information Technology Services
Richard Larson, Director of Farm of the Future, WHC Coalinga
Willard Lewallen, President, WHC Coalinga
Jose Lopez, Dean of Students, WHC Lemoore
David Reynolds, Associate Dean of Student Services, WHC Coalinga
Raquel Rodriguez, Associate Dean of Student Learning, WHC Coalinga
Joel Ruble, Dir. of Ed. Talent Search, Upward Bound Math & Science, WHC Lemoore
Frances Squire, Executive Director of West Hills Community College Foundation
Jill Stearns, Vice President of Educational Services, WHC Coalinga
Keith Stearns, Director of Academics Information Systems/Registrar
Ken Stoppenbrink, Vice Chancellor of Business Services
Kurt Sterling, Academic Senate President, WHC Lemoore
Don Warkentin, President, WHC Lemoore
Kathy Watts, Director of Child Development Centers
Tammy Weatherman, Director of Fiscal Services
Susan Whitener, Associate Vice Chancellor of Educational Services

Members absent:

Marty Ennes, West Hills College Faculty Association President
Mark Gritton, Director of Athletics, West Hills College Coalinga
Marcel Hetu, Director of North District Center, Firebaugh
John Ieronimo, CSEA President
Daniel Tamayo, Director of International Student Services, WHC Coalinga

Other participants:

Elaine Cash, Consultant
Lorna Davis, Administrative Assistant, WHC Coalinga
Elaine Howard, Administrative Secretary
Staci Mosher, Psychology Instructor/Softball Coach, WHC Coalinga
Glenda Oliver-Smith, Administrative Assistant, WHC Lemoore
Marlese Roton, Counselor, North District Center, Firebaugh

Leadership Retreat Minutes

October 29, 2010

Page 2

Norv Wellsfry, Consultant
Anita Wright, Director of Special Grant Programs

Welcome and Opening Remarks

Frank Gornick welcomed the group and introduced Norv Wellsfry, a consultant who was asked to review and provide feedback on the accreditation self study for each college. Self introductions were made by those in attendance and Frank briefly reviewed the agenda for the day.

Succession Planning

Frank provided a PowerPoint presentation on succession planning. The topics discussed with the group were the following core elements of succession planning:

- Focus on Mission – Things do change and we need to review and modify. We need to make sure the mission is understood by the Board of Trustees and all employees. The district strategic plan will need to include activities to modify the plan such as conducting program review, evaluating staff, aligning community needs and students needs (closing the gap), articulation agreements, and the implementation of SB1440 (guaranteed transfer degree).
- Focus on People – We need to identify talent from within the organization. We will look at reorganization and putting employees in positions at which they will succeed. We need to recognize employees as our greatest resource at the college and district level. Frank discussed professional development, the Employee Scholars Program, leadership retreats, ACCCA's Administration 101 program, participation in accreditation visits, and classified staff development.
- Focus on Fiscal Stability – We need to adhere to sound fiscal policies, maintain a minimum of a 5% reserve, provide competitive salary schedules and benefits, and maintain strategic fiscal planning congruent with, and supportive of, college missions. We need to have a long term strategy for additional or supplemental revenue. The development of endowments through the West Hills Community College Foundation will be important. Frank discussed the judicious use of general obligation bonds and Certificates of Participation (COPs), and securing state matching dollars to maximize state bonds and aggressively pursuing federal and state dollars for personnel, equipment, and innovation.
- Focus on Appropriate "Tools" to Meet the Mission – Frank discussed world class facilities, use of technology in the support of faculty and students, and the need for modern and efficient equipment that is maintained and attractive. He also discussed the expansion of facilities, bonds and SFID's, five year facilities plan, solar initiative, green technologies, online education, exploring university partnerships, and exploring the four-year degree option.

Leadership Retreat Minutes

October 29, 2010

Page 3

- Focus on Continuous Improvement – Frank discussed the annual review of the strategic plan, Key Performance Indicators at the district and college level, student satisfactory survey, economic development, adult participation rates, and the accreditation self study cycle.

Frank stated that this presentation will be available on the district's website.

Accreditation Self Study Discussion

Frank explained that Norv is present today to help us look at the accreditation self study for both West Hills College Coalinga and West Hills College Lemoore. He stated that Norv will share his thoughts on the good, the bad, and the ugly.

Norv discussed the positive and negative elements in each self study. He stated that what really jumped out at him for West Hills College Coalinga is Student Learning Outcomes (SLOs). He explained that the college needs to have more documentation or planning, connect the planning agenda to the evaluation, and be specific in the process of SLOs. He stated that an SLO assessment metric is needed. With regard to West Hills College Lemoore, the issue he sees with their self study is the topic of ESL. He questioned the offering of ESL for a large Latino community. Norv expressed that both colleges need to include more examples. The structure of the self study is very important so that it reads well. He indicated that some standards are more important than others, especially I.B, II.A, II.B and III.A.1.c. He indicated that self evaluation is critical. The colleges need to be more descriptive on issues of strength or issues of values. The self evaluation leads to a planning agenda. When writing a plan, it has to say what is going to be done and how and when it will be done. The profile of the curriculum should be addressing the community. When reviewing the mission statement, the population should be considered. Norv stated that the colleges need to close the loop on assessment and talk more about feedback. Both colleges need to reference evidence to the self study. The visiting team will want to look at the evidence beforehand. Norv suggested including the evidence on the same disk as the self study. With regard to Standard II.A.7.b (academic honesty), Norv questioned how students are informed. He stated that the ethics code applies to everyone, not just the Board of Trustees.

Norv concluded his comments by stating that he has prepared a CD for each college to review. The CD includes his comments on each self study.

SB 1140 Implementation Discussion (Guaranteed Transfer Degree)

Frank reported that the Central Valley Higher Education Consortium hosted a Degree Completion Summit meeting on October 17, 2010 at the Tenaya Lodge in Yosemite. 27 colleges attended the summit, along with Senator Padilla who is the author of SB 1440. A hand out was provided to the group concerning SB 1440. Frank stated that it requires community colleges to develop and grant associate degrees for transfer with certain stipulations. He stated that there was great representation from the CSUs and community colleges at the meeting. We need to think about the best way to get this information out. Some of the issues will be cut and dry but we will need to develop the

Leadership Retreat Minutes

October 29, 2010

Page 4

core. We need to have this ready by Fall 2011 so we need to begin thinking about what is a good time to come together. He stated that he has asked the College Presidents to work on determining a meeting date and he thinks it is really important to get a head start for ourselves. Anita Bart expressed her thoughts from a faculty point of view. She stated that maybe we can have small groups of faculty meet and explain the process to them before having the big meeting. Frank stated that we need to make sure we are doing everything we can for our community.

Accreditation Update

Willard Lewallen reported that the visiting team will be here March 6-10, 2011. The Commission is searching for a new team chair as the original chair is now unable to participate. The team will be staying at Harris Ranch Inn. The on campus team room will be SAM A/B and the team will be at the district office on Monday, March 7, 2011.

Don Warkentin reported that the visiting team for West Hills College Lemoore will also be here March 6-10, 2011. Their team chair is Dr. Rosa Carlson, President of Porterville College. The team will stay at the Tachi Palace Hotel. The on campus team room will be in Conference Center, Room 256, and the team will be at the district office on Monday, March 7, 2011.

Closing the Gap Project Update

Frank introduced Elaine Cash who has been hired as a project director for the Closing the Gap project. Elaine is the former superintendent of the Riverdale Unified School District. She provided a PowerPoint presentation on the Closing the Gap project and discussed the following key topics with the group:

- What's Changed? – SB 1440 is a bill that enacts the Student Transfer Achievement Reform Act. Commencing with the 2011-2012 will require a student that receives an associate degree for transfer to be deemed eligible for transfer into a California State University baccalaureate program when the student meets prescribed requirements. It would also prohibit remedial non-collegiate level coursework from being counted toward the units required for the associate degree for transfer.
- The Challenge – Elaine reviewed the 2009-2010 placement test results for math and English placement. She also provided information on basic skills math improvement rates.
- Original Assumptions for our Work – Elaine explained the need to lead/motivate/encourage our K-12 districts to raise the level of rigor for all students and ignite a conscious commitment to students beyond grade 12.
- Original Solution – Data was provided on the pass rate for college level English among various ethnic groups.

Leadership Retreat Minutes

October 29, 2010

Page 5

- College Readiness vs. CA Standards – Elaine provided charts and data for CST tests and EAP.
- New Assumption for our Work – Elaine explained that in addition to the original assumptions, we will also need to lead/motivate/encourage our K-12 Districts to identify and include college ready standards and curriculum; transform the K-12/Community College relationship; and transform public high schools.
- Plan of Action 100 Days – In the next 30 days, Elaine reported that she will be meeting with key stakeholders; looking at WHC – K-12 data; gathering supporting information; and establishing a lead advisory team. The first followers will need to be willing to learn from each other without finger pointing. The goal of the team will be to determine next steps, both short and long term.

The second 30 days will include setting up lead team meetings (2), dates, and venue; identifying students for interviews and completing interviews; continuing to gather data, options, and research; and holding the first team meeting.

The third 30 days will include a second team meeting; establishing a short term course of action; and creating the next 100 day plan.

Elaine stated that we really need to keep kids college ready. Frank stated that he would like to have Elaine attend our quarterly meetings. Elaine stated that if anyone in the group has any ideas or wants to discuss the project, they are free to call or email her. She stated that Donna Isaac has all of her contact information.

Meeting Wrap Up

Frank thanked Norv and Elaine for their participation and presentations and stated that the information they provided was very helpful to the group.

COLLEGE ACTIVITIES

Academic, Intellectual and Social Experiences

4. In your experiences at this college during the current school year, about how often have you done each of the following? 1=Never, 2=Sometimes, 3=Often, 4=Very often

a. Asked questions in class or contributed to class discussions	All Students	2.93	2.96	2.91		
b. Made a class presentation	All Students	2.18	2.05	2.04		
c. Prepared two or more drafts of a paper or assignment before turning it in	All Students	2.58	2.47	2.47		
d. Worked on a paper or project that required integrating ideas or information from various sources	All Students	2.82	2.71	2.71		
e. Came to class without completing readings or assignments	All Students	1.82	1.84	1.87		
f. Worked with other students on projects during class	All Students	2.65	2.49	2.47	*	0.21
g. Worked with classmates outside of class to prepare class assignments	All Students	1.90	1.90	1.88		
h. Tutored or taught other students (paid or voluntary)	All Students	1.33	1.38	1.37		
i. Participated in a community-based project as a part of a regular course	All Students	1.31	1.32	1.30		
j. Used the Internet or instant messaging to work on an assignment	All Students	3.00	2.84	2.84		
k. Used email to communicate with an instructor	All Students	2.53	2.52	2.52		
l. Discussed grades or assignments with an instructor	All Students	2.55	2.56	2.52		
m. Talked about career plans with an instructor or advisor	All Students	2.10	2.08	2.02

West Hills College Lemoore

Educational Master Plan
2008

V.4.2
December 2, 2008

President's Message

West Hills College Lemoore, one of California's newest community colleges, is well prepared to meet the educational needs of the twenty-first century. Our Educational Master Plan will demonstrate that we are on the cutting edge and have the capacity to adapt to new and emerging educational technologies to serve a wide variety of student needs.

Our facilities, instructional programs, support services, and technology are state of the art and will allow us to keep pace in an ever-changing environment. As you read through our Educational Master Plan, you will see how we value our demographic and student data in the decision making processes. We also utilize information from our area employers in job forecasting and training needs. Information is vital to keeping our offerings current and providing the support mechanisms and resources to ensure our students are the best educated and prepared to reach their educational goals.

The development of a comprehensive educational master plan requires many hours of planning, discussions, meetings, and research involving all constituents throughout the college and also district office personnel. A plan of this nature not only informs us about who we are, but where we will be heading for the next several years. Our plan will serve as a foundation, but it also will be a template for many future updates as the college continues to grow and serve the communities of the south valley.

We hope you will find this document to be both informative and also a guide to our continued growth and expansion of the campus. You will continue to see new facilities emerge and new programs come online, adhering to our processes outlined in our Educational Master Plan.

I look forward with great anticipation to the next several years with West Hills College Lemoore.

Don Warkentin
President
West Hills College Lemoore

Acknowledgements

The WHC Lemoore Educational Master Plan (EMP) development process was facilitated by GKK Works planning consultants and by the WHCCD Office of Institutional Effectiveness and Planning. The Office of Institutional Effectiveness was responsible for providing data and coordinated communication between GKK and the college. GKK consultants were responsible for the design of the document, data analysis, key findings and recommendations. The WHC Lemoore EMP framework is based on the Cypress Community College EMP which has been identified as a best practice by the CA Research and Planning group.

The process began with a kick-off meeting on April 18, 2008 to discuss the EMP framework. A follow-up meeting took place on May 13, 2008 where faculty representatives and administrators reviewed the first draft of the EMP and provided feedback and direction. A third meeting was held on July 28, 2008 where a preliminary draft of the EMP was presented to faculty representatives and college administrators. It is important to note that the program goals, found under the instructional section of the EMP, were directly derived from the college's program review documents. During the fall 2008 Duty Day (August 8, 2008), the instructional section of the EMP was reviewed by Lemoore faculty in attendance. The preliminary draft of the EMP is scheduled for a first reading by the Board of Trustees on October 28, 2008 and by the Lemoore Planning and Governance Council on November 6, 2008.

WHC Lemoore is immensely grateful to these individuals who have volunteered to assist with this important plan. Their work will continue as we implement and refine our plan in the coming years. Participants are as follows:

Stephanie Atkinson-Alston - Dean of Educational Services, WHCL
Pedro Avila – Director of Institutional Effectiveness & Planning, WHCCD
Dave Bolt – VP of Educational Services, WHCL
David Babb – Biology Instructor/SLO Coordinator, WHCL
Robert Clement – Director of Athletics, WHCL
Sylvia Dorsey-Robinson – Associate Dean of Categorical Programs, WHCL
Stephanie Droker – Work Experience Instructor/Academic Senate President, WHCL
Dr. Carole Goldsmith – Director of Title V/Workforce Connection, WHCCD
Dr. Frank Gornick – Chancellor, WHCCD
Lataria Hall – DSPS Counselor, WHCL
Dr. Marlon Hall – Associate Dean of Educational Services, WHCL
Marta Hendrickson – Counselor, WHCL
Jose Lopez – Dean of Students, WHCL
Dave Neer – Instructor/Golf Coach, WHCL
Rene Sanchez – History Instructor/Curriculum President, WHCL
Don Warkentin – President, WHCL
Susan Whitener – Dean of Learning Resources & Web Services, WHCCD

Intent of the Educational Master Plan

The West Hills College Lemoore Educational Master Plan (EMP) provides a reference point and framework for the future of the college. It includes a thorough data review of the recent past and present of the college's overall instructional program. While maintaining the integrity of the college's vision, mission and strategic goals, the EMP draws a blueprint for implementing emerging educational objectives.

More specifically, the EMP focuses on the service area, students, staff, and programs of West Hills College Lemoore. Matriculation rates from regional high schools provide a basis for enrollment projections. An analysis of economic trends in the area and a review of emerging labor market information inform the consideration of new programs. An examination of instructional programs and disciplines along with student performance assess current effectiveness and point the way for change.

Utilizing this quantitative and qualitative data, key findings have been identified to inform the process for rational planning to occur in a culture of evidence and history. Unanticipated events, emerging issues in the region, and changing demographics in the service area demand that the Educational Master Plan be treated as a living, fluid document that will guide decisions regarding the educational programs of the college.

The EMP is conceived to exist in a cycle of six years. The current iteration comes at the midpoint of the college's accreditation cycle -- following the submittal of the college's Midterm Focused Report to the Accrediting Commission for Community and Junior Colleges. That midterm report was a summary of the college's institutional actions and progress made in response to the prior recommendations of the Accrediting Commission. West Hills College Lemoore is in the process of implementing actions and plans described in the report.

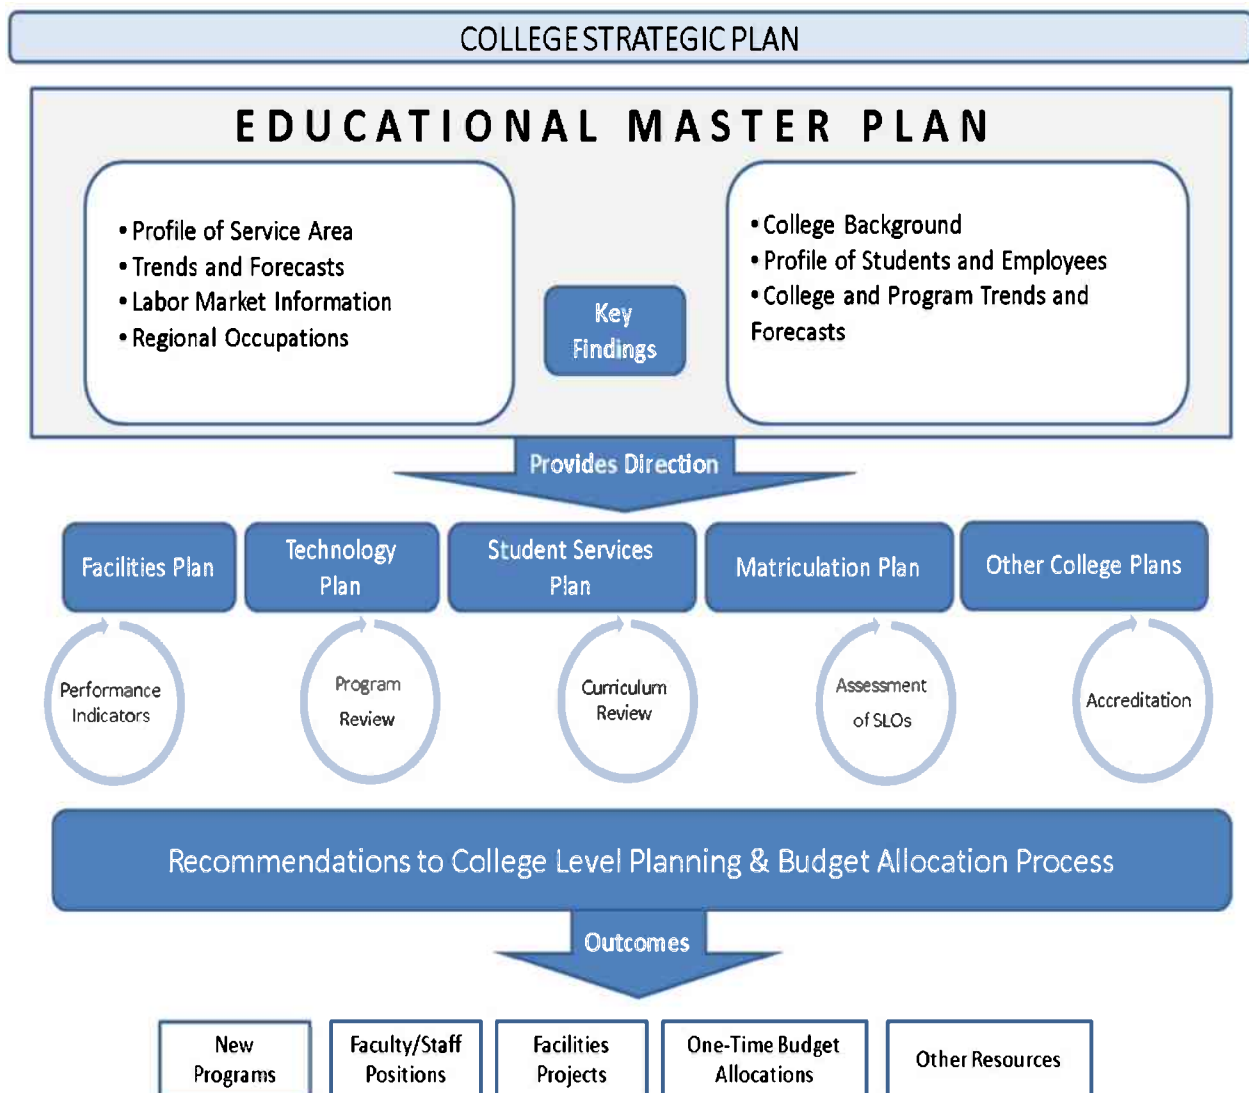

The Educational Master Plan for West Hills College Lemoore is directed by the college's strategic plan and the strategic plan of West Hills Community College District. Both of these plans are cited in the EMP as they provide the overarching direction and core values that guide the college.

Master Plan Framework

This Educational Master Plan of West Hills College Lemoore is being constructed at a particularly important juncture in our history as a college. WHC Lemoore received initial accreditation from the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges in June 2006. As one of the newest colleges in the California community college system, we are poised to realize our vision as a premiere, interactive learner-centered college.

Our Educational Master Plan gives direction to the planning processes of the college by providing a clear snapshot of our educational programs. It provides a thorough examination of internal and external trends. It serves as a primary resource for the development and update of other college plans. And it helps to identify our strengths, limitations, and capabilities -- and offer possibilities for the future.

The framework of this plan provides for an Educational Master Plan that is fluid and vital so we can respond to the community we serve.

Section I: College Background

COLLEGE HISTORY

The establishment of a college for the Coalinga Union High School District was proposed in the spring of 1932. The official beginning of the Coalinga Extension Center of Fresno State College dates from October 3, 1932. In September 1941, Coalinga Junior College became an independent unit under the direction of the Governing Board of the Coalinga Union High School District. Construction of a new campus on Cherry Lane near the northern limit of the City of Coalinga was begun on October 3, 1955, and the buildings were occupied on September 13, 1956.

In November of 1961, the voters of Coalinga Union High School District approved the formation of a separate junior college district, and in June of 1962, the voters of Lemoore High School District voted to annex to the college district, as did voters of Riverdale and Tranquillity High School Districts in December of 1962. Effective July 1, 1969, the official name of the college was changed to West Hills College in keeping with the nature of the expanded district.

In order to effectively serve the college district, West Hills College built the North District Center in the city of Firebaugh in 1971. In 1979, the District purchased land in the City of Lemoore, and in 1981, a classroom building and an office were erected. This was the Kings County Center until January 2002. On September 26, 2000, the Board of Trustees signed and accepted the "Agreement of Donation of Land for the West Hills College Lemoore" a generous donation from Robert and Mardell Pedersen and Lionel and Lola Simas.

Opening its doors to students on January 14, 2002, West Hills College Lemoore featured 18 classrooms, a state-of-the-art science wing called a Collaboratory, the largest and most technologically advanced library in Kings County, a multipurpose conference center, a full-service student services and administration building, as well as an outdoor amphitheater for students and community members.

COLLEGE MISSION

WEST HILLS COLLEGE LEMOORE ENRICHES THE LIVES OF OUR STUDENTS AND THE COMMUNITY WE SERVE BY BEING DEDICATED TO QUALITY EDUCATIONAL LEARNING OPPORTUNITIES AND PARTNERSHIPS. THE COLLEGE PROVIDES A POSITIVE ENVIRONMENT THAT IS COMMITTED TO STUDENT LEARNING AND EMPOWERING STUDENTS TO ACHIEVE THEIR EDUCATIONAL GOALS.

COLLEGE VISION

LEARNING THROUGH EXCELLENCE AND INNOVATION.

COLLEGE GOALS

1. WHCL IS COMMITTED TO PROVIDE QUALITY EDUCATION TO STUDENTS AND THE COMMUNITY.
2. WHCL IS COMMITTED TO EMPOWER STUDENTS TO ACHIEVE THEIR EDUCATIONAL GOALS.
3. TO SUPPORT STUDENT LEARNING, WHCL WILL EFFECTIVELY MAINTAIN AND INCREASE ITS RESOURCES AND PRODUCTIVITY.

GUIDING PRINCIPLES

WEST HILLS COLLEGE LEMOORE IS STUDENT-CENTERED AND IS DEDICATED TO PROVIDING HIGH QUALITY LEARNING OPPORTUNITIES. WE ARE GUIDED BY OUR CORE VALUES:

- **ACCESS:** ENSURE ACCESSIBILITY TO ALL OUR PROGRAMS AND SERVICES.
- **COLLABORATION:** EMPHASIZE EFFORTS TO UNDERSTAND AND MEET COMMUNITY NEEDS AND GARNER COMMUNITY SUPPORT. SUPPORT COLLABORATIVE DECISION-MAKING PROCESSES.
- **COMMUNITY:** DEVELOP AND FOSTER A SENSE OF COMMUNITY WITHIN THE COLLEGE.
- **DIVERSITY:** RESPECT AND EMBRACE DIVERSITY IN OUR PROGRAMS AND LEARNING ENVIRONMENTS.
- **EXCELLENCE:** PROVIDE HIGH QUALITY LEARNING, TEACHING, AND SERVICE OPPORTUNITIES.
- **INNOVATION:** SUPPORT INNOVATION AND TECHNOLOGY TO ENHANCE LEARNING ENVIRONMENTS, SERVICES, AND COMMUNICATION.
- **INTEGRITY:** ADVOCATE AND DEMONSTRATE HONESTY, TRUTHFULNESS, EQUITY, AND ETHICS.
- **MUTUAL RESPECT:** PROMOTE AN ENVIRONMENT OF OPEN COMMUNICATION

Section II: Profile of Students, Employees, and Service Area

This internal scan of West Hills College Lemoore is an opportunity to assess, over academic years, the demographics and characteristics of our students and their educational goals. We use this data to discern patterns and trends and review our institutional educational plans to best serve our students.

WEST HILLS COLLEGE LEMOORE, OVERALL STUDENT DEMOGRAPHICS

During the 2007-08 academic year, West Hills College Lemoore, including the students on its campus on College Avenue, at the Naval Air Station, and students enrolled in online classes, totaled 7,091 unduplicated students, a 9.62% increase in students served from the previous academic year. The growth in student population at West Hills College Lemoore is expected to continue on its upward trend.

Unduplicated Student Headcount

Year	Count	% Change

- Overall distribution of age is stable over the six years observed.

Summary of Overall Student Characteristics:

Students at WHCL are increasingly Hispanic and decreasingly white. Gender distribution has remained relatively consistent over the six years observed at about 62% female and 38% male. The distribution of age is also relatively stable with over 55% of students in '07-'08 24 years or under, and 38% 25-49 years old – fairly consistent with the ages of students during the five years prior.

Note: In the following section, the 2002-2008 data for the individual college entities -- Lemoore campus, Naval Air Station Lemoore (NASL), and online classes -- is broken out into separate sections. This separation provides a comparison of student demographics among the three different entities.

- The majority of the students at the WHC Lemoore campus are 24 years old and younger.
- The age distribution of students at the WHC Lemoore campus has been fairly consistent over the years observed, similar to the overall pattern of enrollment.

Summary of WHC Lemoore Campus Student Demographics:

The demographics of the 5,276 students at the WHC Lemoore campus are generally reflective of the overall college. 42% of students are Hispanic, 34% are white – with a trend reflecting a diminishing number of white students during the six years observed. 62% are female and 57% of the student population in '07-'08 are 24 years or younger. 22% of students on campus are 30-49 years of age. Head count of students on campus has increased during the last four years.

- Age distribution remains older than Main Campus.

Summary of Naval Air Station Lemoore (NASL) Student Demographics

The number of students taking classes at NASL has declined from 462 students in '02-'03 to 143 in '07-'08. The ethnicity of students varies from the main campus, with a larger percentage of white and African American students making up the composition of students taking classes at NASL. More females than males take classes on site, and the age distribution of students is older than that on the Main Campus.

ONLINE INSTRUCTION 2002-2008 DEMOGRAPHICS

WHC Lemoore Unduplicated Online Enrollment

Year	WHCL Online Enrollment	% Change	*Enrolled in Online & Face-to-Face	% Concurrently Enrolled

*Students enrolled at any WHCCD face-to-face location

Source: WHCCD Data Warehouse

- Over the last five years observed, there is a consistent downward trend in the percentage of students concurrently enrolled in online and face-to-face classes. During the same period, there is a consistent upward trend of the numbers of students enrolled in online classes.
- The ratio between students enrolled in online classes versus students enrolled concurrently in online and face to face classes has widened over the last five years, with more students enrolled solely online.
- The number of students taking classes online solely or concurrently has grown in total number, reflective of the growth at the college and the accessibility of the online delivery system.

As a point of comparison the following table shows the online and face-to-face enrollment in the entire West Hills Community College District.

WHCC District Unduplicated Online Enrollment

Year	WHCCD Online Enrollment	*Enrolled in Online & Face-to-Face	% Concurrently Enrolled
2002-03	2,068	1,368	66.2%
2003-04	1,792	1,246	69.5%
2004-05	2,557	1,729	67.6%
2005-06	2,979	1,878	63.0%
2006-07	3,998	2,258	56.5%
2007-08	4,497	2,312	51.4%

*Students enrolled at any WHCCD face-to-face location

Source: WHCCD Data Warehouse

- In '02-'03, 700 students were solely enrolled in online courses in the district. By '07-'08, the number of students who were only enrolled in online courses had grown to 2,185.
- There is a consistent downward trend during the last five years observed in the percentage of students who are concurrently enrolled in online and face-to-face classes. There is a consistent upward trend during the same period of students who are enrolled online.
- Total number of all students taking online classes solely or concurrently has grown in number reflective of the growth at the district and the accessibility of the online delivery system.

The table below shows the city of residence for online only students at WHCCD.

City	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08

- In 2007-08, 57 percent of online students were below the age of 24 years old
- The online student age distribution has remained constant since 2003 which is consistent with overall college pattern.

Summary of Online Student Demographics

There is significant growth in the district and at the college among students who only take online classes. In '02-'03, 66% of the district's students who took online classes were also enrolled in classes on a campus or at a center. By '07-'08, throughout the district the percentage of students who were enrolled concurrently had dropped to 51.4%. At Lemoore, the same trend is reflected – by '07-'08, 53.9% of students were enrolled concurrently, dropping from the 66% concurrent students in '02-'03.

Online students are 39% white and 36% Hispanic which differs from main campus students in which the ethnic predominance is reversed. Age and gender of students parallel those of the main campus, being predominantly young and female. The majority of online students come from our service area.

STUDENT CHARACTERISTICS – FALL 2007

- The highest percentage of students identify as their goal the desire to obtain an associate degree and transfer to a four year institution.
- 40% of students identify transfer to a four year institution as their educational goal.

Admission Survey

As part of the admissions application, students are requested to participate in a supplemental survey. This survey identifies family income levels, as well as level of education attained by the parents. It provides a more in depth look into the student's characteristics and provides information for future planning.

Highest Education Level Attained by Mother or Father, Fall 2007	%
Below College or University	67
College or University Degree	33

Source: WHCCD 2007-2008 admission application supplemental survey

Survey participation rate: 42%; Margin of error: 1.3%

- 67% of WHC Lemoore students are first-generation students.

Source: WHCCD 2007-2008 admission application supplemental survey

Survey participation rate: 40%; Margin of error: 1.4%

- 45% of students have family income of \$25,000 or less
- According to the US Census Bureau, the median household income for the State of California is \$56,645 and nationally is \$48,451.

Hours Worked Per Week

Source: Community College Survey of Student Engagement

+/- 5% margin of error

- 76% of students work while attending college.
- 51% of students work over 20 hours a week.

City of Residence - Fall 2007	%		%

Total	45	100.0%						

- 93% of classified staff is 54 years and below, predominantly Hispanic and female.

Summary

An overall scan of employee age, ethnicity, and gender reveals:

- There is a high probability of significant retirement in the next 10 years in the administrative ranks.
- Faculty is relatively young, although 27% are 55 and above.
- Faculty ethnicity does not reflect that of region.
- Classified staff is predominantly young, female, and Hispanic.

WEST HILLS COMMUNITY COLLEGE DISTRICT REGIONAL AREA

A regional scan was performed by Economic Modeling Specialists, Inc. on ten counties that are a part of and surround the West Hills Community College District. These ten counties include: Fresno, Kern, Kings, Madera, Mariposa, Merced, San Benito, San Joaquin, Stanislaus, and Tulare. The region covered was identified by the district as the region where students are most likely to obtain jobs and establish residency. A scan of the ten counties revealed:

- Total regional attainment of a college degree is below average compared to the state and the nation (See Regional Educational Level, Age 25+ below)
- The educational attainment of individual ethnic groups of the region is below average compared to the state and nation (See Race/Ethnicity below)
- By 2012, the age group of 30 to 34 year olds is expected to experience the highest growth
- Racial/ethnic groups with the highest expected growth are Hispanics
- Total population is expected to change ten percent, double the expected change of the State (5 percent)

Regional Education Level, Age 25+	2007 Total	% of Region	% of State	% of Nation
Less than 9th Grade	327,883	14.0	9.8	5.5
9th Grade to 12th Grade	291,573	12.5	9.5	9.0
High School Diploma	591,750	25.3	20.0	28.7
Some College	569,142	24.3	23.2	22.1
Associate’s Degree	160,073	6.8	6.9	6.5
Bachelor’s Degree	272,916	11.7	19.6	18.0
Graduate Degree and Higher	126,555	5.4	11.0	10.3

WEST HILLS COMMUNITY COLLEGE DISTRICT SERVICE AREA

The West Hills Community College District was first started in 1932 as a college for the Coalinga Union High School District. It now has a total area of 3,464 square miles and includes portions of five counties: Fresno, Kings, Madera, Monterey and San Benito. The West Hills College Coalinga campus on Cherry Lane in Coalinga opened in 1956 and in 1971, the North District Center was established in Firebaugh, in the most northern part of the district. In 1962 Lemoore High School District residents voted to annex to the college district. From 1962 to 1979 classes were offered primarily at the Lemoore Naval Air station and Lemoore High School. The facility was called The Kings County Center in 1981 when it operated in portable buildings on five acres in the city of Lemoore. In 1998, approved by 70% of the voters in Kings County, a \$19 million bond was passed for the new construction of the Lemoore campus. The construction was completed in 2002. WHC Lemoore became fully accredited as a college in West Hills Community College District in 2006.

West Hills Community College District Map

WEST HILLS COLLEGE LEMOORE SERVICE AREA

While the West Hills Community College District is comprised of parts of five counties, the service area for West Hills College Lemoore primarily includes ten cities-- Armona, Avenal, Hanford, Helm, Kettleman City, Laton, Lemoore, Stratford, Five Points, and Riverdale.

The West Hills College Lemoore service area is relatively young, with 34 percent of its population between 20-39 years old. The ethnic demographics reveal that 49 percent of the population is Hispanic and 39 percent is white, with considerably lower percentages for all other ethnicities.

Age	WHCL Service Area (10 Cities in 5 Counties)		WHCCD Regional Area (10 Counties)

Source: California Department of Education

- Ethnicity of high school students in the service area differs from college student ethnicity
- 25.2% of [feeder] high school students are white, 36% of WHCL students are white.
- 64% of [feeder] high school students are Hispanic, the college's student population is 38% Hispanic.
- CCCCO asserts that by 2011 Hispanics are projected to be the state's largest ethnic group, the majority population in public schools by 2013 and the overall majority by 2040.

Projected Ethnicity of District Feeder High Schools – Class of 2015

Source: CA Department of Education
Based on 6th grade enrollments for service area schools.

Assessment:

- The projected ethnicity of students from district feeder high schools shows a growing Hispanic student population and a declining white student population.

Top 10 Feeder High Schools - Fall 2007		Enrolled	% of WHCL Student Enrollment
1	Lemoore High School	767	18.5%
2	Hanford High	590	14.2%
3	Unknown/Decline to State	569	13.7%
4	Hanford West High	356	8.6%
5	Coalinga High School	144	3.5%
6	Avenal High School	109	2.6%
7	Riverdale High School	92	2.2%

8	Corcoran High School	78	1.9%
9	Out of State High School	64	1.5%
10	All Other	1,377	33.2%

Source: WHCCD Data Warehouse

Test Scores for Selected Schools

The California Standards Tests (CST) is administered to students in California Public Schools in English/Language Arts, mathematics, science, and history/social science. They are also referred to as the STAR tests. CST scores are used in calculating each school's Academic Performance Index (API). The test is administered in the 11th grade. The data below regarding students in our feeder high schools reveals the majority of feeder high schools exhibit a low percentage of students at the proficient or advanced level in English and math.

Note: The California High School Exit Exam (CAHSEE) is a completely different test. It can be taken by students at any time during their high school career. While the CAHSEE is required for high school graduation, students can pass the test with 8th grade math skills and 9th grade writing and language skills.

High School	CST English/Language Arts (2007) Percent Proficient or Advanced	CST Summative High School Math (Grade 9-11) (2007) Percent Proficient or Advanced
Avenal High School*	24%	0%
Coalinga High School*	28%	34%
Corcoran High School	26%	61%
Hanford High West	28%	32%
Hanford High School*	33%	15%
Laton High School**	31%	0%
Lemoore High School*	35%	30%
Riverdale High School	34%	75%

Source: California Department of Education

- Many 11th graders from the high schools in the service area do not test at a proficient level or higher in English.
- However Corcoran High and Riverdale High school have exceedingly high proficiency scores in math.
- Schools with 0 percent proficient or advanced CST Summative High School Math may be due to non-testing conditions.

Summary

The feeder high schools of Lemoore and Hanford send the college more students than other high schools in the area. The Hispanic student population at the college is significantly smaller than their numbers in our feeder schools. Students test at a low level of proficiency with two startling exceptions in math – Corcoran High and Riverdale High. The projected number of high school graduates is static for the next 7 years.

Section III: Educational Programs Trends and Forecasts

INTRODUCTION

This data provides us with an ability to examine our students' success in a quantitative manner. It allows us to measure the strategies we have employed against general key performance indicators. From this we ascertain key findings and develop strategies to meet our goals.

DEFINITION OF TERMS

Duplicated Enrollment

This is the number of actual enrollments in any given class or program. Under this definition, a student enrolled in multiple courses is counted multiple times at the program, campus, or institutional level.

Unduplicated Enrollment, (Headcount)

This is the number of actual students. One student, taking five classes, is counted as one student. If there are 20 students in a program in which all students are enrolled in five classes, there are 100 duplicated enrollments, but a 20 student headcount.

Full Time Equivalent Student (FTES)

A full time equivalent student is one student taking 15 hours of instruction per week for two semesters of 17.5 weeks. While most of our students do not necessarily enroll in 15 hours of instruction per week, we calculate aggregated student attendance in this manner for both funding purposes as well as a measure for the college of how many full time equivalent students are participating in any given class or program, or are enrolled at the college.

Weekly Student Contact Hours (WSCH)

This is a measure of the number of students enrolled in a course multiplied by the number of hours the course meets per week. If a class meets for three hours a week and has 30 students enrolled, the WSCH is 90.

Full Time Equivalent Faculty (FTEF)

One full time faculty member teaching the equivalent of a full load of classes equals 1.0 FTEF. Most often FTEF is aggregated to provide the college with a measure of the number of faculty teaching. The loads of adjunct faculty and full time faculty are summed to provide an aggregate number for the program or college.

WSCH per FTEF

This calculation, sometimes called 'productivity,' is the number of weekly student contact hours (WSCH) per Full Time Equivalent Faculty (FTEF). Some colleges establish a target number to ensure fiscal viability.

The college community is made up of departments and programs with a wide variety of needs. Some disciplines have mandates from external sources that keep class size low. A college supports this diversity of discipline needs and strives for general support and cooperation to best serve students in meeting their educational needs while understanding the fiscal pressures of the institution. That is the purpose of understanding this formula.

Environmental Scan

An environmental scan considers present and future factors that can influence the direction and goals of an organization. Environmental scans include both external elements (e.g., service area demographics, state requirements, industry demands, marketing trends, etc) and internal elements (e.g., infrastructure, personnel, programs, abilities, etc). These are evaluated in terms of their potential impact on the organization and its ability to meet its present and future strategic goals.

Course Retention Rate

This is a measure of the number/percent of students who remain in the course after the census date until the end of the term.

Course Success Rate

This is a measure of the number/percent of students who earn a grade of A, B, C, or CR in the class. Course grades of NC, D, F, I or W are considered to be unsuccessful.

AVERAGE COURSE SUCCESS, COURSE RETENTION, AND WSCH PER FTEF

Notes:

In 2003-2004, the college responded to the statewide budget crisis and reduced the number of sections it offered. This drop in enrollment is seen significantly in some departments. It should be noted that some departments responded to the cutback in sections by enrolling larger number of students in their classes (see Basic Skills Math). This significantly increased their productivity ratio or WSCH per FTE.

Prior to 2004-2005, online instruction was offered by WHC Lemoore. Coalinga students enrolled in online courses but headcount was attributed to WHC Lemoore.

The information included in the program sections is based on submitted program reviews. The college has a developed program review process that is still being refined, but one in which a template and process are in place. Any editing was done for clarity and brevity and was not intended to change the intent of the review or plans of the program. Items under the heading “Program Plans” were derived from the program reviews. Items under the heading “Challenges and Opportunities” are not from the program reviews but have been selectively added to suggest strategic options for programs.

If a program does not offer a degree, the listing under Degrees Awarded is stated as “N/A.” If a program offers a degree but none were awarded, the listing under Degrees Awarded is stated as “0.”

INSTRUCTIONAL PROGRAMS

Discipline Area

Administration of Justice

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	976	853	925	889	1,299
FTEF	6.75	4.56	5.14	5.95	8.35
WSCH per FTEF	412	533	507	419	443

	02-03	03-04	04-05	05-06	06-07
Sections	40	28	29	33	46
% of Online Enrollment	60%	37%	40%	32%	38%
Degrees/Certificates Awarded		15	29	28	30

Description:

The AOJ program offers the student a variety of educational and career pathways. The student may elect to enroll in a program leading to an Associate Degree with the emphasis on the Law Enforcement Option or the Corrections Option. Both provide a path to a four year institution. Presently, CSU Fresno offers classes on the Lemoore campus for those seeking a Baccalaureate Degree in Criminology.

Assessment

- FTES growth in 2006-2007 corresponds to increase in number of sections offered
- Online enrollment decreased over years observed
- Increase in numbers of degrees awarded
- Retention rate is stable and above college average
- Success rate is at college average

Program Goals from 2004 and 2006

Program Review

- Continue to update all curriculum and create six new courses.
- Develop more short term and online courses so employed individuals can quickly update their skills or obtain job ready skills.
- Include learning activities with specific learning outcomes in all curricula.
- Market the program at high school job fairs and utilize AOJ students as ambassadors.

Discipline Area

Art

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	379	399	536	567	594
FTEF	7.44	5.98	4.70	4.80	5.99
WSCH per FTEF	195	269	441	484	424

	02-03	03-04	04-05	05-06	06-07
Sections	59	74	111	96	73
% of Online Enrollment	0.0%	0.0%	0.0%	0.0%	7.4%
Degrees/Certificates Awarded		1	0	1	1

Description:

The Art program provides classes which meet the General Education requirement and course work that prepares art students for transfer. Classes also serve as enrichment experiences for many students. Students from diverse backgrounds work in an environment that affords a common, visual language.

Assessment

- High growth in FTES in years observed
- Number of sections offered in Art declined after the 2004-2005 academic year, but FTES has continued to increase, as has the WSCH per FTEF.
- Online courses begin in '06-'07, note FTES increase in that year
- Retention rate is fairly stable and exceeds college average
- Success rate is strong, fairly stable, and exceeds college average

Program Goals from 2006 Program Review

- Curricula is being developed for several computer generated Arts courses, including Photoshop, Illustrator, and others
- Art 15A Painting is being revised to articulate transferability to Fresno State University
- Student learning outcomes will be addressed

Challenges and Opportunities

- High enrollment, strong retention and success rates suggest opportunities for further growth, for example, expanded online offerings.

Discipline Area

Biology

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	782	991	1301	1496	1,460
FTEF	10.36	12.32	16.37	17.97	18.20
WSCH per FTEF	401	436	438	460	445

	02-03	03-04	04-05	05-06	06-07
Sections	68	80	106	126	132
% of Online Enrollment	14.6%	17.0%	11.8%	14.4%	27.1%
Degrees/Certificates Awarded		0	1	1	1

Description:

The main courses offered by the Biology department include general biology, human anatomy, human physiology, and microbiology. These primarily serve as prerequisites for students going into teaching or the allied health professions. The department offers majors-level biology courses as well as courses for non science majors to fulfill the life science general education requirement.

Assessment

- FTES in years observed is increasing
- Percentage of online enrollment fluctuates, highest 2006-2007
- WSCH per FTEF has fluctuated but remained productive
- Success rate is stable and at the college average
- Retention rate is stable and at the college average
- Degree and certificates awarded are minimal because courses primarily serve as requirements for the allied health programs

Program Goals from 2007 Program Review

- Schedule biology major preparation courses once a year and work on maintaining transferability.
- Continue to add new transferable courses for the non biology major
- Offer field trips and out of classroom experience in Biology

Discipline Area

Business Administration

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	1.101	1.212	1,075	992	1,008
FTEF	10.80	7.69	5.76	7.75	7.13
WSCH per FTEF	282	460	537	399	419

	02-03	03-04	04-05	05-06	06-07
Sections	94	85	84	80	89
% of Online Enrollment	0.0%	7.5%	5.8%	10.8%	19.8%
Degrees/Certificates Awarded		29	32	37	48

Description:

Business Administration is an integral part of the CIS, Business, and HRCM service area. The curriculum is intended for those interested in transferring to a four year college or university to earn a baccalaureate degree.

Assessment

- FTES increase in '03-'04 academic year with decline following
- WSCH per FTEF has been erratic
- Success rates below college average
- High number of degrees awarded
- Retention rate rising and matches college average in '06-'07

Program Goals from 2007 Program Review

- Work toward providing students with placement services
- Follow up on recently submitted certificate options
- Follow up on faculty development, particularly in regards to SLOs
- Address diversity of staff

Challenges and Opportunities

- Develop strategies to increase success rate

Discipline Area

Chemistry

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	106	91	177	275	122
FTEF	1.83	1.48	2.37	3.21	2.55
WSCH per FTEF	257	396	330	346	308

	02-03	03-04	04-05	05-06	06-07
Sections	10	8	14	21	14
% of Online Enrollment	0.0%	0.0%	0.0%	0.0%	0.0%
Degrees/Certificates Awarded		N/A	N/A	N/A	N/A

Description:

The chemistry department provides the initial training in chemistry for a broad range of careers and focuses as well on chemical education for the public sector. The careers include the traditional sciences, engineering, pre-professional, allied health professions, agriculture, forestry, and the many emerging cross-disciplinary or interdisciplinary programs such as oceanography, aqua-culture, environmental health, and atmospheric science.

Assessment

- FTES shows steady increase then drops in 2006-2007
- WSCH per FTEF has been stable over the five year observed but is below the college average
- Success rate is unstable and below college average
- Retention is unstable and below college average

Program Goals from 2004 Program Review

- Shift the design of the Chem 2A/B sequence for allied health students to include more directly related allied health applications.
- Maintain and extend recently acquired modern analytical instrumentation and add additional software licensing for simulations
- Expand and integrate the “Collaboratory” computerized lab platform
- Stabilize current enrollment to establish offering patterns that allow completion of an AS degree in chemistry.
- Increase student retention in all offerings
- Initiate T1 link capability so students can download data from their graphing calculators into the “Collaboratory” platform to bridge their math skills to practical applications.
- Extend software licensing to provide students with take home versions of software used in class
- Develop initial course offerings at the NDC site, complete with labs.

Challenges and Opportunities

- Develop strategies to increase retention and success rates

Discipline Area

Child Development

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	714	572	766	680	660
FTEF	4.04	3.06	3.77	4.29	4.85
WSCH per FTEF	407	502	476	410	368

	02-03	03-04	04-05	05-06	06-07
Sections	31	23	28	31	33
% of Online Enrollment	0.0%	0.0%	0.0%	0.0%	5.0%
Degrees/Certificates Awarded		19	2	0	7

Description:

The Child Development program offers a comprehensive background in the field of child growth and development. Students are offered information and skills for potential employment in federal, state, non-profit, or privately owned early childhood educational programs or schools. Courses help students qualify for a Child Development Certificate and partially qualify the student for a Child Development Permit from the State of California, Commission for Teacher Preparation and Licensing.

Assessment

- Growth in FTES in years observed
- Number of sections offered in Child Development is steady
- Retention is steady and slightly higher than college average
- Success rate dropped in '06-'07 but is higher than the college average

Program Goals from 2007 Program Review

- Student learning outcomes and their measurement are being addressed with adjunct faculty.
- Update of 2+2 agreement with Hanford High and the Naval Base child care program for module credit transfer to specific courses.
- Create a math and possibly music and science courses for young children
- Potentially offer online classes
- Explore ways to gather information on where our students are employed

Discipline Area

Communications

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	407	386	509	465	440
FTEF	3.00	3.00	4.00	4.40	4.20
WSCH per FTEF	398	375	371	308	306

Sections	15	15	20	22	21
% of Online Enrollment	0.0%	0.0%	0.0%	0.0%	0.0%
Degrees/Certificates Awarded		N/A	N/A	N/A	N/A

Description:

Provides the College with speech communication courses that parallel lower division classes at four year colleges and universities. Speech 1 is required within Area A of designated transfer courses. Speech 51 is an applied communications course emphasizing communication in the work place.

Assessment

- Retention rate is higher than college average
- Success rate is generally 10% higher than college average
- WSCH/per FTEF decreased in the last two years

Program Goals from 2004 Program Review

- Develop a course in organizational communications
- Develop a course in voice and diction
- Revise and update Speech 5, Interpersonal Communications
- Explore distance learning options

From Program Review 2004

Challenges and Opportunities

- Develop strategies to improve productivity

Discipline Area

Computer Information Systems

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	1,237	996	858	711	671
FTEF	10.96	7.49	5.74	7.52	6.20
WSCH per FTEF	465	506	591	368	421

	02-03	03-04	04-05	05-06	06-07
Sections	78	61	60	61	64
% of Online Enrollment	38.5%	29.1%	19.2%	21.7%	28.0%
Degrees/Certificates Awarded		13	7	10	10

Description:

The Computer Information Systems program teaches concepts, procedures, and terminology, as well as the skills and applications necessary to operate computers and network systems.

Assessment

- FTES in years observed is declining significantly
- WSCH per FTEF has fluctuated, but remains at a productive level
- Success stable and improved in 2006-2007 when it exceeded the college average
- Retention rate is stable but slightly below the college average

Program Goals from 2007 Program Review

- Maintain and revise CIS Open Entry/Open Exit entry level courses to provide students with marketable job skills specifically geared toward the needs of reentry, traditional, and lifelong learning students. The department is in the process of changing its core curriculum from Office 2000 to Office 2007.
- Maintain and revise Comp-TIA (A+), WOW Web Development and reestablish the MOU certification programs.
- Continue the ongoing development of the Web Developer Certification program to include a Cyber Forensic, and Project Management components with current, emerging web technologies.
- Infusion of information technology components into established curricula, such as Administration of Justice, Math, Geography, etc.
- Revise curricula to implement in conjunction with the OE Department, the MOU certification program.
- Develop, maintain, and revise Internet-based courses
- Establish a full CIS AA degree online.

Challenges and Opportunities

Develop strategies to raise retention rate

Discipline Area**Culinary Arts**

*Waiting for Approval from CA Community College
Chancellor's Office*

Description:

The Culinary Arts department has developed a full range of curricula which is available to students. Certifications from this program exist in the areas of ServSafe, Deli Cook and Baker certification, Baker Certification, Bartending Certification, Dining Room Staff Certification, and Chef Apprentice Certification. Courses provide a knowledge base that allows students to more easily obtain entry level or higher positions in this field.

Assessment

No data available

Program Goals from 2006 Program Review

- Additional curricula will be developed including Commercial Food prep as the prerequisite to most courses.
- The program will seek American Culinary Federation accreditations
- More community outreach
- Develop a job placement program

From Program Review September 2006

Discipline Area Engineering

Description:

A new Engineering Program was launched Fall 2008.

Assessment

Sections	25	22	27	32	34
% of Online Enrollment	23%	22%	17%	15%	26%
Degrees/Certificates Awarded		N/A	N/A	N/A	N/A

Description:

The Geography department offers a wide variety of introductory classes including Cultural Geography and Physical Geography. Cultural Geography introduces students to the spatial and diverse cultural milieu that is the basis for the Social Sciences and Humanities. Physical Geography focuses on the spatial relations of the various physical and earth sciences.

Assessment

- Growth in FTES
- Number of sections offered in Geography has increased
- Retention is steady and exceeds college average
- Success rate was steady but fell below college average in 2006-2007
- There is an observed increase in % of online enrollment that same year

Program Goals from 1998-99 Program Review

- Continue to build on the base courses
- Bring electronic learning into the program, using more computers in lab and lecture
- Insure course articulation for all types of teaching techniques
- Promote collaboration in lab settings
- Add to the online course offerings

Challenges and Opportunities

- Consider strategies to address lower success rates that began in '06-'07
- Develop strategies for a degree program

Discipline Area

Geology

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	N/A	52	99	123	165

% of Online Enrollment	N/A	0%	36%	60%	74%
Degrees/Certificates Awarded		N/A	N/A	N/A	N/A

Description:

Program review needed.

Assessment

- High growth in FTES in years observed with a large percentage of online enrollment
- From 2004-2005 to 2005-2006 % of online enrollment almost doubled During the same timeframe, success and retention tended to decrease
- Large increase in FTES in '06-'07 and the WSCH per FTEF decreases
- Success rate is strong and consistently higher than college average
- Retention rate is steady and exceeds college average

Program Goals

TBA

Discipline Area

Health Science (General)

Description:

Program review needed.

Assessment

- FTES in years observed is increasing
- Increase in online courses in years observed
- WSCH per FTEF has remained steady
- Success rate steady and near the college average
- Retention rate is steady but slightly below the college average
- The number of degrees awarded is substantial

Program Goals

TBA

Challenges and Opportunities

- Develop strategies to increase retention rate

Degrees/Certificates Awarded		1	0	0	1

Description:

This is a program to certify students to work in the fields of hotel, restaurant, and casino management. All courses offered promote practical job skills and have resulted in students receiving certificates in Dining Room Management, Pastry and Bakery Arts, and Beverage Management.

Assessment

- FTES in years observed is increasing
- WSCH per FTEF has been erratic, but productive
- Success rate high in 2005-2006 and exceeds college average
- Retention rate high and steady and exceeds college average

Program Goals from 2008 Program Review

- Sequence course work to articulate with 4 year institutions
- Achieve accreditation for the program
- Build new course curricula
- Modify current courses as needed to improve student learning outcomes

Challenges and Opportunities

- Develop strategies to increase degrees awarded

Discipline Area

Humanities

	02-03	03-04	04-05	05-06	06-07

Degrees/Certificates Awarded		1	0	1	2

Description:

This program serves students seeking AA degrees in Humanities and Social Sciences. It is an interdisciplinary program.

Assessment

- High growth in FTES in years observed
- Large percentage of online enrollment
- Online enrollment more than doubled from 2005-2006 to 2006-2007
- Success rate is unstable, fell below college average by 8% in '06-'07
- Retention rate is stable

Program Goals from 2006 Program Review

- Begin a Native American course
- Begin a cross cultural course
- Put Women's Studies under the Ethnic Studies program
- Participate in recruitment events at high schools in our service area

Challenges and Opportunities

- Review variances in success rates and seek to increase

Discipline Area**Liberal Studies/Liberal Arts**

	02-03	03-04	04-05	05-06	06-07

% of Online Enrollment	26.8%	19.4%	16.4%	20.2%	29.2%
Degrees/Certificates Awarded		2	4	2	2

Description:

The Math program consists of a full spectrum of courses ranging from developmental to advanced level mathematics. Courses are designed to satisfy the certificate, associate degree, and transfer level needs for both the technical and non-technical student.

Assessment

- FTES increased until '05-'06
- Significant increase in sections during the years observed
- WSCH per FTEF has decreased overall
- Success rate is decreasing and is below the college average
- Retention is relatively stable but below college average

Program Goals from 2004 Program Review

- Add student learning outcomes to all course outlines
- Increase number of Math 64 sections
- Establish an effective assessment test that accurately places students in Math 101, 61, 63 or Math 15.
- Create an assessment policy for online classes

Challenges and Opportunities

- Develop strategies to increase success and retention rates

Discipline Area

Nursing

Description:

A new Nursing Program was launched Fall 2008.

Assessment

Discipline Area

Office Management and Technology

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	655	645	545	520	499
FTEF	4.58	3.26	2.10	3.80	3.26
WSCH per FTEF	415	574	717	380	462

	02-03	03-04	04-05	05-06	06-07
Sections	48	41	39	42	44
% of Online Enrollment	7.0%	14.1%	11.4%	20.6%	31.3%
Degrees/Certificates Awarded	N/A	6	3	3	3

Description:

The Office Management and Technologies program offers a variety of options that guide students toward successful employment in business and government. The certificate programs include an Office Management and Technology Certificate, a Clerk Typist Certificate, and a Secretary/Word Processing Certificate. Completion of the Certificate program and the general education and District requirements qualifies students for an associate degree.

Assessment

- FTES in years observed is decreasing
- Percentage of online courses is steadily increasing
- WSCH per FTEF has been erratic, but generally productive
- Success rate well below the college average
- Retention is improved but below the college average

Program Goals from 2004 Program Review

- Increase business community involvement in the design of classes and certificates/degrees
- Improve the business community's perception of the college's certificates/degrees
- Develop a path for students' transition from education to employment
- Investigate cross discipline course offerings to enhance employability
- Integrate certificates and degrees to articulate a path to four year institutions
- Improve student access with convenient course designs
- Develop more short term and online courses so employed individuals can quickly update their skills or the unemployed can obtain job ready skills

Challenges and Opportunities

- Develop strategies to raise retention and success rates

Discipline Area

Physical Education

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	1,158	879	1,136	1,244	1,735
FTEF	7.94	5.67	8.18	8.83	12.37
WSCH per FTEF	386	429	423	425	383

	02-03	03-04	04-05	05-06	06-07
Sections	98	58	68	78	106
% of Online Enrollment	0.0%	0.0%	0.0%	2.7%	19.3%
Degrees/Certificates Awarded		N/A	N/A	N/A	N/A

Description:

The Physical Education curriculum is designed to provide the opportunity to achieve an associate degree in the student's area of specialization.

Assessment

- FTES in years observed is increasing
- WSCH per FTEF had been steady, but decreased in 2006-2007 and is below the college average
- Success rate is stable and slightly above college average
- Retention has slightly declined but at college average

Program Goals from 2007 Program Review

- Increase course offerings
- Standardize tests between instructors to be more consistent in grading
- Develop and revise the degree

Challenges and Opportunities:

- Develop strategies to increase productivity of classes
- Develop strategies to increase degrees awarded

Discipline Area

Physics

Description:

Program review needed

Assessment

- Sections increasing
- FTES increasing
- Success & retention high in 2006-2007 and both exceed the college averages that year
- WSCH per FTEF is low relative to other programs on campus

Program Goals

TBA

% of Online Enrollment	46.0%	28.0%	31.0%	36.8%	48.6%
Degrees/Certificates Awarded		6	14	13	18

Description:

The Psychology Associate Degree program is designed to provide entry-level skills and knowledge for the student transferring to a four year institution with a major in psychology. The psychology major prepares students for programs with emphasis in psychology, counseling, child development, educational psychology, education, social work, sociology, human services, and nursing.

Assessment

- No [overall] growth in FTES in years observed
- FTES dipped in 2004-2005 and increased by 2006-2007
- Large percentage of online enrollment
- Substantial number of degrees awarded.
- Success rate is relatively stable and at the college average
- Retention rate has been stable then declined and in '06-'07 fell 14% below the college average

Program Goals from 2004 Program Review

- Develop hybrid Psychology courses
- Revise curriculum to ensure currency with statewide curricular trends
- Develop student learning outcomes for Psych 1
- Expand Learning Community course offerings
- Expand offerings of hybrid Psych courses

Challenges and Opportunities

- Develop strategies to address recent retention rate decrease

Discipline Area

Social Science

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	2,298	2,281	2,061	2,359	2,623

WSCH per FTEF	481	564	501	465	456

	02-03	03-04	04-05	05-06	06-07
Sections	70	59	60	74	84
% of Online Enrollment	49.8%	47.6%	41.6%	44.0%	51.4%
Degrees/Certificates Awarded		3	4	8	12

Description:

The Social Science Associate Degree program is designed to provide the transfer social science major the opportunity to achieve an associate degree with specialization of the student's choice. The major is made up of 24 units in the fields of Economics, Geography, History, Political Science, Psychology, and Sociology.

Assessment

- Slight growth in FTES in years observed
- FTES dropped in 2004-2005 and has been steadily increasing
- Large percentage of online enrollment
- Retention rate is stable and higher than the college average
- Success rate is stable and higher than the college average

Program Goals from 2004 Program Review

- Bring Social Science 32A and B into the history department
- Develop a cultural/ethnic studies program
- Develop courses such as Native American and Asian Pacific Islander history, with potential to expand into family and gender studies

Discipline Area

Teaching Assistant (Education Assistant)

	02-03	03-04	04-05	05-06	06-07
Duplicated Enrollment	250	246	190	156	142
FTEF	1.86	1.81	1.24	1.25	1.27
WSCH per FTEF	271	299	270	253	245

	02-03	03-04	04-05	05-06	06-07
Sections	18	14	11	12	11
% of Online Enrollment	34.8%	41.5%	59.5%	46.8%	38.0%
Degrees/Certificates Awarded		1	0	0	1

Description:

The Education/Education Assistant (EDUC/EA) program provides courses and experiences for prospective teachers. The program awards a certificate as a Teaching Assistant. It is a program that has been actively involved in partnerships with Upward Bound Math and Science, Educational Talent Search, University Charter School, and Middle College High School. The teacher preparation effort is now called T.E.A.M. Teach and comes out of the Education/Education Assistant program.

Assessment

- Number of FTES as well as sections offered in Teaching Assistant declined over past five academic years
- Retention and success rates are above college average
- WSCH per FTEF is below college average.

Program Goals from 2007 Program Review

- Identify a counselor who will work specifically with T.E.A.M Teach students
- Write student learning outcomes for all remaining EDUC/EA courses
- Review and revise education assistant certificate to meet current needs of workplace and students
- Implement student learning outcome evaluation cycle in EDUC 1
- Write curriculum for CBEST prep classes to offer as nontransferable one unit courses in test preparation, reading, writing, and math
- Develop stronger articulation agreements at local high schools
- Develop strong student learning outcome assessment cycles for EDUC 1 and EDUC 5 that include adjunct faculty

Challenges and Opportunities

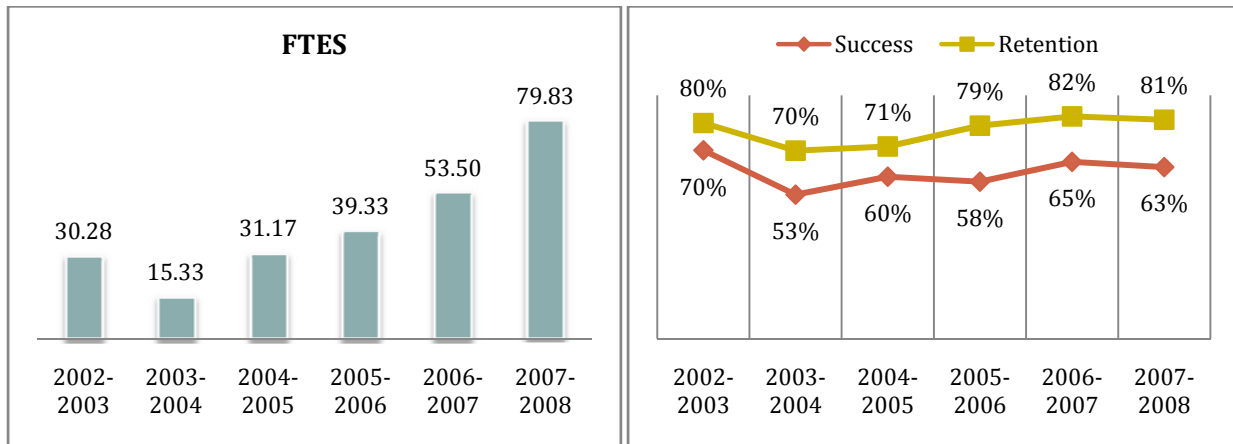

- Develop strategies to increase enrollment, retention, and success rates, and increase productivity

BASIC SKILLS

Basic Skills are the foundation for student success. Sometimes called developmental education or pre-collegiate skills, they are needed by many students entering all segments of higher education in order to be successful in college coursework. The statewide course success rate at community colleges in Basic Skills is 60.5%, about 10 % lower than that for other courses.

At Lemoore, students in Basic Skills classes are successful at a rate close to or above the statewide average. All Basic Skills classes have grown in enrollment over the six years represented below.

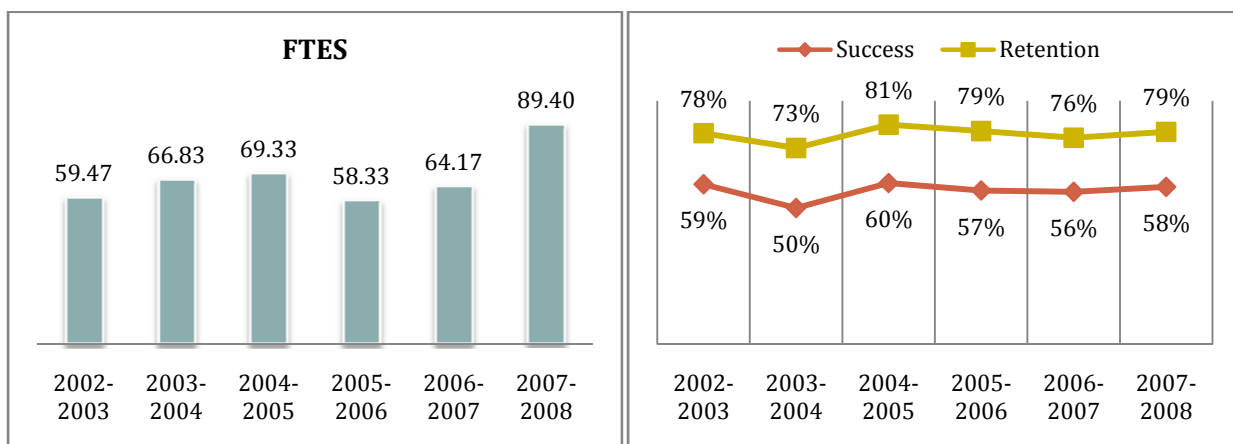

Basic Skills Math

	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
Sections	8	4	5	7	9	13
Duplicated Enrollment	188	92	187	236	321	479
FTEF	2.46	1.32	1.65	2.32	3.00	4.33
WSCH per FTEF	359	339	551	494	520	537

- Math Basic Skills classes have increased both in sections and enrollment. Students are more successful than the statewide average of 52%. (Source: Board of Governor’s Report on System’s Basic Skills)
- The program has high productivity and strong retention

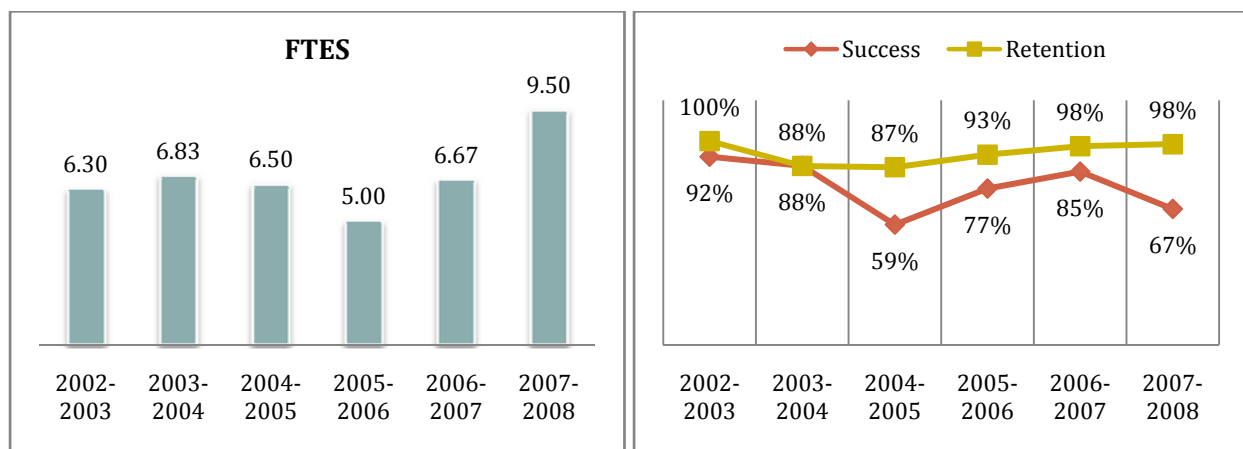

Basic Skills English

	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
Sections	35	19	22	19	22	31
Duplicated Enrollment	360	401	416	350	385	648
FTEF	7.71	4.76	6.16	5.34	5.93	7.13
WSCH per FTEF	225	410	328	318	315	366

- English Basic Skills classes are building back from '02-'03. Note that with fewer sections in '07-08 they have significantly surpassed the number of enrollments they had in '02-'03 with more sections, a sign of a productive efficient program -- particularly considering that the success and retention of their students have remained steady.
- Success rates are generally comparable to statewide average of 59.3%. (Source: Board of Governor's Report on System's Basic Skills).

English as a Second Language (ESL)

	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
Sections	15	6	6	6	6	7
Duplicated Enrollment	52	41	39	30	40	66
FTEF	1.27	1.40	1.12	0.56	0.85	0.67
WSCH per FTEF	145	142	169	259	229	411

- Notable drop in sections after '02-'03, but enrollments now surpass the enrollment when the program had double the number of sections.
- No ESL courses scheduled during the day were offered between 2002-03 to 2007-08
- Success rates are mostly above statewide average of 70.6%. (Source: Board of Governor's Report on System's Basic Skills)

Basic Skills Placement

Students who enroll in courses that are appropriate for their preparation levels are much more likely to succeed in college. The assessment process should provide information and support to students so they can make appropriate educational choices. Below are charts that reveal the number of first term students who were assessed and placed into Basic Skills classes in English and math. The ESL program does not have a formal assessment mechanism.

WHC Lemoore Campus				Placed into Basic Skills			
Year	First-Term Students	Assessed	% Assessed	English	% of Assessed	Math	% of Assessed
2004-2005	1,534	575	37.5%	203	35%	223	39%
2005-2006	1,702	927	54.5%	349	38%	413	45%
2006-2007	1,613	798	49.5%	317	40%	355	44%
2007-2008	1,843	859	46.6%	411	48%	437	51%

- In the four years observed, an average of 47 percent first term students at the WHC Lemoore campus were assessed for course placement
- Of the numbers assessed, an average of 48 percent of students were placed into Basic Skills English
- Approximately 45 percent of students assessed were placed in Basic Skills Math, with the greatest percentage (51%) in the 2007-08 academic year

NASL Campus				Placed into Basic Skills			
Year	First-Term Students	Assessed	% Assessed	English	% of Assessed	Math	% of Assessed
2004-2005	40	16	40.0%	2	13%	4	25%
2005-2006	25	14	56.0%	3	21%	9	64%
2006-2007	22	11	50.0%	3	27%	3	27%
2007-2008	19	5	26.3%	0	0%	1	20%

- A declining number of students are being assessed at NASL.

Online Campus				Placed into Basic Skills			
Year	First-Term Students	Assessed	% Assessed	English	% of Assessed	Math	% of Assessed
2004-2005	519	204	39.3%	23	11%	48	24%
2005-2006	695	382	55.0%	54	14%	118	31%
2006-2007	988	459	46.5%	48	10%	119	26%
2007-2008	1162	313	26.9%	80	26%	125	40%

- The percentage of students assessed for the online campus has been declining over three years
- An average of 15 percent of students assessed for the online campus were placed into Basic Skills English
- An average of 30 percent of students assessed for the online campus were placed into Basic Skills Math

Psychology	77	Geography	79	Geography	85	Computer Information Systems	89
Geography	72	Art	71	Art	80	Art	87

- Math, Biology and Health Science are among the three largest FTES generators in the past four years observed. Social Science has remained in the top five.
- The top ten programs have remained consistent during this time.

AVERAGE WSCH PER FTEF, 2002-2007

Program	Average	Program	Average
Office Management	510	Child Development	433
Social Science	493	HRCM	427
Geography	477	Business	420
Geology	472	Physical Education	409
Computer Information Systems	470	Art	363
AOJ	463	Chemistry	327
Psychology	454	Communications	306
Math	447	Teaching Assistant	268
Humanities	447	Health Science (Pre-Professional)	192
COLLEGE AVERAGE, 2002-07	441	Physics	134
Health Science (General)	438	Engineering*	44
Biology	436		

*New Engineering program started in fall 2008

AVERAGE SUCCESS 2002-2007

Program	Success	Program	Success
Art	78%	Humanities	65%
Geology	77%	Psychology	65%
Physics	77%	Biology	64%
HRCM	75%	COLLEGE AVERAGE, 2002-07	64%
Child Development	71%	Computer Information Systems	63%
Communications	71%	Health Science (General)	63%
Teaching Assistant	69%	Math	60%
STATEWIDE AVERAGE, 2003-08	68%	Health Science (Pre-Professional)	57%
Physical Education	68%	Business	51%
Geography	66%	Chemistry	50%
Social Science	66%	Office Management	50%
AOJ	65%	Engineering	33%

- Students are least successful in Business, Chemistry, and Office Management over a 5 year span. Business and Chemistry also fall below the college average in WSCH/FTEF; Office Management has the highest WSCH/FTEF at the college.
- Students are most successful in Art, Geology, HRCM, and Physics.

AVERAGE RETENTION, 2002-2007

Program	Retention	Program	Retention
HRCM	90%	Physical Education	80%
Geology	88%	Biology	79%
Art	86%	COLLEGE AVERAGE, 2002-07	79%
Geography	85%	Psychology	78%
Physics	85%	Computer Information Systems	77%
STATEWIDE AVERAGE, 2003-08	84%	Health Science (General)	76%
AOJ	84%	Math	75%
Child Development	82%	Business	71%
Communications	82%	Office Management	69%
Humanities	82%	Engineering	67%
Social Science	82%	Health Science (Pre-Professional)	66%
Teaching Assistant	81%	Chemistry	61%

- Student retention is highest in programs that also reflect a high success rate – HRCM, Geology, Art, and Physics.
- Student retention is lowest in programs that reflect a lower success rate – Business, Office Management, Health Science, and Chemistry.
- The California Community Colleges System Strategic Plan of January 2006 notes that efforts are needed to improve semester to semester persistence, especially into the second year of college study.

DEGREES AND CERTIFICATES

From Fall 2003 to Fall 2007, West Hills College Lemoore conferred a total of 1,276 degrees and certificates in various disciplines. Over 50 percent of these were Associate of Arts in Liberal Arts. The Liberal Arts Program has been renamed Liberal Studies and is currently under review and modification.

The total number of degrees and certificates conferred by West Hills College Lemoore has been steadily increasing over the past four years.

TRANSFERS TO FOUR YEAR INSTITUTIONS

Data Source: National Student Clearing House; WHCCD Data Warehouse

Definition: The annual numbers of transfers to four-year institutions were determined by students who completed at least 12 units in the WHCCD system and stopped attending WHCCD prior to transferring to a four year institution.

Assessment:

- In '07, 92 students transferred to public four year institutions; 148 students transferred to private four year institutions.
- In the six years observed, more students transferred to California private institutions each year than transferred to California public institutions.
- The number of students transferring continues to increase with the most significant gains occurring at California private four year institutions.

Data Source: National Student Clearing House; WHCCD Data Warehouse

Definition: Based on WHCCD students who completed at least 12 units primarily online from a combination of online courses from WHCC and WHCL and stopped attending WHCCD prior to transferring to a four year institution.

Assessment:

- The number of online transfers has significantly increased over the six years observed.
- Significant gains have been made in the number of students transferring to out of state public institutions.

Data Source: National Student Clearing House; WHCCD Data Warehouse

TRANSFERS TO TWO YEAR INSTITUTIONS

Data Source: National Student Clearing House; WHCCD Data Warehouse

Totals includes In State Public, Out of State Public, In State Private and Out of State Private Two Year institutions.

Definitions

- Lemoore Total:** The annual number of transfers to two-year institutions was determined by students who completed at least 12 units in the WHCCD system and stopped attending WHCCD prior to transferring to a two year institution.

Assessment

- The number of students transferring to two year institutions has increased over the six years observed.
- Exit interviews could reveal reasons for these transfers that will assist the college in educational planning.

Section IV: Student Services

Student services are an important and integral function at West Hills College Lemoore. The college develops and offers a wide scope of support services that are dedicated to supplementing and complementing instructional programs and providing educational and cultural resources to students, faculty, and the community.

For the purposes of this Educational Master Plan, the student services included are those dealing with the Department of Learning Resources, Financial Aid, the Matriculation process and the following categorical programs: CalWorks, CARE, DSP&S, and EOPS.

Department of Learning Resources

Description: The Department of Learning Resources is responsible for supporting the colleges in their teaching/learning and service process through the development and administration of an academic online and video conference program that provides faculty training, help desk support, and videoconference technology installation and support.

Note: Prior to 2003-2004, all online courses were offered by WHCL

- There is significant growth in the online FTES and headcount at each campus.

- The number of video conference courses offered at Lemoore has been decreasing

- While the number of disciplines available online has remained steady, the number of sections has increased significantly.

Department Plans:

- Provide online students with active, hands-on, concrete experiences through technological media through collaboration of Learning Resources online staff and online instructors
- Develop and implement Student Technology and Online Readiness Self Assessment Tools
- Increase student technology literacy and independence through enhanced online orientations, student-friendly sites, and online training in courses
- Research and work with CENIC on all aspects of captioning for video conference courses
- Research and present to faculty new classroom mediated technologies
- Provide consultation and research services to the college academic communities.

From Program Review of Spring 2007

Matriculation

Description: The matriculation Process at WHC Lemoore provides an admission process, an orientation to college programs, services, and procedures; pre-enrollment assessment and counseling for course selection, a suitable curriculum, and a continuous follow up on student progress with referral to support services.

* Matriculation is based on students receiving assessment and counseling or orientation services.

Extended Opportunity Program and Services (EOPS)

Description: The EOPS program and services is a state funded program that provides supplemental support services to students with financial and educational needs. Eligibility is determined by income level and demonstration of need.

2006-07	EOPS (Non-CARE)	% of EOPS	% of All (6,469)
Enrolled in CREDIT	221	100%	4%
Credit FTES	216	100%	8%
Enrolled in NONCREDIT	18	8.1%	5%
Noncredit FTES	0	0%	0%

- The primary age group served by EOPS is students 20 to 24 years of age
- The majority of the students are Hispanic

Cooperative Agencies Resources for Education (CARE)

Description: The CARE Program is a cooperative effort between Kings County Human Services System, the Employment Development Department, and the college’s EOPS program. The focus of the program is to assist single parents on AFDC via supplemental grants and workshops that will provide them support for their academic success and retention.

2006-07	CARE	% of CARE	% of All (6,469)
Enrolled in CREDIT	75	100%	1%
Credit FTES	75	100%	1%
Enrolled in NONCREDIT	66	100%	3%
Noncredit FTES	6	8%	2%

- The majority of students in CARE are below 30 years of age
- The ethnic composition of CARE students varies from the college ethnic composition: CARE: 52% Hispanic, college: 39% Hispanic, CARE: 25% white, college: 36% white, CARE: 16% African American, college 7% African American

Disabled Students Programs and Services (DSPS)

Description: The DSPS program provides equal access to education for disabled persons. The college's office provides services to students with physical, learning, and psychological disabilities with a large range of support services.

2006-07	DSP&S	% of DSP&S	% of All (6,469)
Enrolled in CREDIT	234	55%	4%
Credit FTES	154	32%	6%
Enrolled in NONCREDIT	215	51%	60%
Noncredit FTES	327	68%	95%

- The largest percentage of any age group in the DSPS program is 30 to 49 years
- The ethnic composition in DSPS varies from the college: DSPS: 42% white, college: 36% white; DSPS: 36% Hispanic, college: 39% Hispanic; DSPS: 13% African American, college: 7% African American

Cal WORKs

Description: The Cal WORKs program is a state funded program to assist families who have received state aid. It provides an opportunity to return to college and receive education and training to become employable.

2006-07	Cal WORKs	% of Cal WORKs	% of All (6,469)
Enrolled in CREDIT	201	98%	3%
Credit FTES	144	100%	5%
Enrolled in NONCREDIT	19	9%	5%
Noncredit FTES	0.70	0%	0%

- 50% of Cal Works students are 24 years of age or below and 50% are 25 to 49
- The ethnic composition varies from the overall college: Cal Works: 48% Hispanic, college 39%, Cal Works: 29% white, college: 36% white, Cal Works: 14% African American, college: 7% African American

Financial Aid

Description: This department assists students through the various financial aid programs administered by the college. Financial aid is funding provided by federal and state governments and institutional sources to help students with their educational expenses. The funding is made up of grants, scholarships, and loans. Loans have several repayment options.

WHC Lemoore	Enrolled	Received Financial Aid	% of Students Receiving Financial Aid
2002-2003	5,468	1,692	31%
2003-2004	5,010	1,828	36%
2004-2005	5,512	2,153	39%
2005-2006	5,817	2,361	41%
2006-2007	6,469	2,583	40%
2007-2008	7,091	2,721	38%

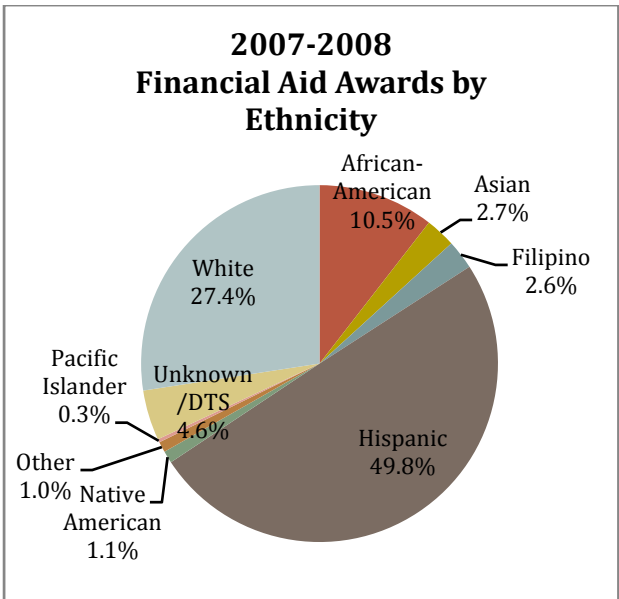

- The number of students receiving financial aid has increased over the six years observed.
- The percentage of students receiving financial aid has decreased while the student population has grown.

WHCCD Enrollment of Students Receiving Financial Aid Awards

Academic Year	Students Awarded Financial Aid	Enrolled at WHCCD	% Enrolled
2002-2003	3,494	2,563	73.4%
2003-2004	3,500	2,720	77.7%
2004-2005	4,007	3,146	78.5%
2005-2006	4,371	3,359	76.8%
2006-2007	4,614	3,645	79.0%
2007-2008	4,848	3,903	80.5%

Source: Datatel; WHCCD Data Warehouse

- The number of students receiving financial aid awards has increased over the six years observed.
- The percentage of students who were awarded financial aid and enrolled at WHCCD has increased during six years observed.

- The gender of students receiving financial aid differs from student population which is 61.94% female, 37.37% male.
- The age of students receiving financial aid differs slightly from the student population: 25.62% are under 19; 30.94% are 20-24; 15.36% are 25-29; 23.28% are 30-49.

Section V: Labor Market Information

INTRODUCTION

The college is committed to providing students with relevant education and training for career technical and professional programs. Consequently, we examine labor market information for this region and compare it to the programs we offer. We use this information to plan for the development of new programs.

ECONOMY OF THE SAN JOAQUIN REGION, OVERVIEW

The Educational Master Plan for West Hills College Lemoore primarily utilizes our district service area that encompasses parts of five counties (Fresno, Kings, Madera, Monterey, San Benito) for demographic data. However, for the economic and labor market section we have also included the counties of Tulare, Kern, Merced, Stanislaus and San Joaquin. The reason for this is the impact of the larger geographical region's economy on college planning for the West Hills Community College District. Employment options for our students also take into consideration a greater area than the college district.

Among the ten counties under consideration by West Hills Community College District for its Educational Master Plan, six are among the top ten counties in the state in the value of their agricultural production: Fresno, Tulare, Kern, Merced, Stanislaus and San Joaquin. Of the ten counties drawing students to the West Hills colleges, only Mariposa County, with nearly half of its land on Federal lands, has an economy not based on agriculture.

While farming and agriculture define the region to a great extent, the counties of the San Joaquin Valley differ considerably in their economic make-ups. Madera and Tulare County have about three times the proportion of employment in agriculture as San Joaquin and Stanislaus. The others fall in between. Likewise, manufacturing is a more prominent part of the employment picture in Merced and Stanislaus counties than in other counties and government is a larger sector of employment in Kings County than in the others. This suggests that educational planners need to consider the diverse employment options in the region as well as the large distances in the rural landscape.

Population Growth

The population of the region is expected to grow approximately ten percent between 2007 and 2012, compared to the state's projected growth of five percent during the same period. The greatest growth will occur among adults aged 30 to 34 years and children under ten years of age (106,284). (Source: *Regional Scan and Program Demand Report, 2007*) This growth will have an impact on the need for job training and re-training and for education of children, and related services.

Income Levels and Unemployment

Per capita personal income varies in the San Joaquin Valley counties, but is below the state average in each. For comparison, the average per capita personal income in California for 2006 was \$39,626. Among the ten counties of the San Joaquin region, Fresno had the highest per capita income, \$27,081; Kings had the lowest at \$22,771. (Source: Table CA1-3, Regional Economic Accounts, Bureau of Economic Analysis, April 2008)

A recent survey of student applications for admission to West Hill College Lemoore and West Hills College Coalinga shows 45 and 48 percent of applicants, respectively, have family incomes of \$25,000 or less. (Source: WHCCD 2007-2008 admission application supplemental survey) The lower than average incomes in the region are consistent with agricultural regions across the country.

Unemployment also reflects the agricultural economic base of the region. Unemployment tends to be higher in the San Joaquin Valley region than the state average. The seasonality of agriculture and the relatively low wage scale account for some of the disparity between this region and other parts of the state. Counties in the San Joaquin Valley also have higher than average poverty rates.

Employment

The top industry sectors in the region, those with over 100,000 jobs, were government, agriculture (including forestry, fishing and hunting), retail trade, health and social assistance, manufacturing, construction, and accommodation and food services in 2007. Construction ranked at the top in earnings per worker (\$54,440) and accommodation and food services ranked last in the group (\$16,554). The greatest growth among all industry sectors by 2012 is projected to be in health care and social assistance. (Source: Chart of Industry Sectors, Region and State, 2007-2012).

Those occupations requiring training and/or education and showing the most growth across all industries in the region in 2007 include:

- Registered nurses
- First-line supervisors/managers of retail sales workers
- Elementary school teachers, except special education
- Business operation specialists
- Truck drivers, heavy and tractor-trailer
- Medical assistants
- Customer service representatives
- Accountants and auditors
- Nursing aides, orderlies, and attendants
- Carpenters

(Source: EMSI Top-Ranked Occupations by Total Growth, 2007-2012. *Note: The list above includes the top ten occupations, all with over 17,000 employees.*)

At the time of the *Regional Scan and Program Demand Report*, West Hills Community College District offered curriculum directly related to six of the twelve high-demand occupations.

Planning for future educational programs and services at the college will take into account the agricultural character of the region, the needs of its growing population for general education and workforce training, and the need to keep pace with demands of the economy.

REGIONAL REPORT

The following information was obtained from the Regional Scan & Program Demand Report prepared for West Hills Community College District by Economic Modeling Specialist Inc.

The Regional Scan included data from ten counties: Fresno, Kern, Kings, Madera, Mariposa, Merced, San Benito, San Joaquin, Stanislaus, and Tulare. The industry and occupation employment numbers are based on numerous published sources from the federal Bureau of Labor Statistics, Bureau of Economic Analysis, Bureau of the Census, and the National Center for Education Statistics. These ten counties span a region where the West Hills Community College District students are likely to seek work.

Occupation Demand and Program Enrollment Comparison

This section compares regional occupations with the most annual openings to the college's current enrollment by program, with the goal of indicating where the college might look to increase its capacity. The occupations are taken directly from the "Top-Ranked Occupations by New + Replacement Jobs" table. "Related programs" associated with occupations are identified using a crosswalk developed by the U.S. Department of Education with some customization by EMSI. College enrollment numbers by Classification of Instructional Programs (CIP) code are provided by West Hills Community College District.

Note that many occupations have multiple related programs and vice versa, so students enrolled in a program may be included in more than one row in the table above. "Average annual openings" is total new and replacement jobs divided by the number of years in the given timeframe.

Description	2007-2012 Avg. Annual Openings	Median Hourly Earnings	Annual Enrollment at WHCCD, All Related Programs
Registered Nurses	1,715	\$34.79	36
Elementary School Teacher, Except Special Education	1,426	\$26.07	225
Truck Drivers, Heavy and Tractor-Trailer	1,047	\$17.08	60
Business Operation Specialists, All Other	945	\$27.01	107
First-line Supervisors/Managers of Retail Sales of Workers	848	\$15.29	107
Medical Assistants (Psychiatric Technicians)	735	\$12.28	37
Customer Service Representatives	735	\$14.23	
Carpenters	649	\$20.03	
Nursing Aides, Orderlies and Attendants	646	\$10.72	36
Maintenance and Repair Workers, General	642	\$16.40	50
Secondary School Teachers, Except Special and Vocational Education	613	\$29.03	225
Accountants and Auditors	612	\$24.85	50
Bookkeeping, Accounting and Auditing Clerks	585	\$14.83	50
First-Line Supervisors/Managers of Office and Administrative Support Workers	581	\$20.61	96
Sales Representatives, Wholesale and Manufacturing, Except Technical and Scientific Products	565	\$24.34	107
Dental Assistants	507	\$13.40	
Executive Secretaries and Administrative Assistants	490	\$17.73	107
Automotive Service Technicians and Mechanics	461	\$17.66	50
Preschool Teachers, Except Special Education	454	\$12.08	225
First-Line Supervisors/Managers of Food Preparation and Serving Workers	428	\$11.20	27
Team Assemblers	409	\$11.36	

Source: Economic Modeling Specialists Inc. (9/2007).

Enrollment totals are based on programs that might lead students into the occupation of demand.

Color Key:

	Occupations with programs or training available at WHCL and WHCC are highlighted yellow.
	Occupations with programs or training available at WHCC are highlighted green.
	Occupations with programs or training available at WHCL are highlighted blue.
	Occupations with programs or training <u>not</u> available at WHCCD .

Highest-Growth Regional Industries, 2007-2012

These industries are projected to add the most total jobs in the ten county region. The Earning Per Worker (EPW) is an average of occupations throughout all industries in 2006.

Description	2007 Jobs	2012 Jobs	Change	% Change	2006 EPW
Local Government	202,525	214,695	12,170	6%	\$54,832
Child Day Care Services	28,142	36,277	8,135	29%	\$13,429

Top 25 Critical Occupations in High Growth Industries

The following table shows the top 30 highest growth occupations (in top 10 industries) from 2007-2012. They provide a business oriented view of the most in-demand jobs over that timeframe, and the demand-driven college will seek to align its offerings accordingly. Many jobs found here, especially with an education level of “short-term” or “moderate-term-on the job training” (ST OJT or MT OJT) are likely to be good candidates for industry oriented continuing education programs. * (other abbreviations are decoded below)

Industry	Occupation	Job Growth (In Industry)	Median Hourly Wage (All Industries)	Average Education
Child day care services	Child care workers	6,634	\$8.69	ST OJT
Support activities for crop production	Farmworkers and laborers, crop, nursery, and greenhouse	2,924	\$7.72	ST OJT
Local Government	Elementary school teachers, except special education	2,117	\$26.07	Bachelor's

Based on programs offered by WHCCD that might lead students into the occupation of demand.

Color Key:

	Occupations with programs or training available at WHCL and WHCC are highlighted yellow.
	Occupations with programs or training available at WHCC are highlighted green.
	Occupations with programs or training available at WHCL are highlighted blue.
	Occupations with programs or training <u>not</u> available at WHCCD .

2007 FRESNO COUNTY EMPLOYMENT STUDY

In 2007 the Fresno County Workforce Investment Board conducted a survey of Fresno County employers to collect data relevant to guide the county's potential and job growth and employment trends. A total of 1,004 surveys were completed. They included small, medium, and large employers from seven sectors.

Below is a summary of the findings. The original data set was sorted to include only those occupations with 20 or more Projected Positions in Year 1. Occupations with no employers requiring High School Diplomas or Certification were then removed. The top 25 occupations remaining are listed below sorted by the Projected Positions in Year 3.

Salaries reported are based on the employers in the Fresno County region.

Occupation	Projected Positions (Yr.1)	Projected Positions (Yr.3)	High School Diploma Required	Certification Required	Salary Estimate (Low)	Salary Estimate (Mid)	Salary Estimate (High)
Production Laborers	1662	3946	33%	0%	\$8.54	\$0.00	\$11.50
Sales Representatives, Wholesale/Manufacturing, Except Technical & Scientific Products	266	456	53%	10%	\$17.70	\$0.00	\$24.98
Registered Nurses	379	418	86%	81%	\$23.35	\$29.39	\$33.74
Psychiatric Technicians	386	386	100%	0%	\$12.00	\$14.00	\$16.00
Farmworkers, Farm and Ranch Animals	235	374	33%	0%	\$7.75	\$9.00	\$10.00
Licensed Practical and Licensed Vocational Nurses	281	320	92%	84%	\$15.35	\$18.96	\$22.69
Computer Programmers	228	298	74%	20%	\$18.32	\$29.05	\$30.00
Automotive Service Technicians and Mechanics	185	290	32%	41%	\$12.15	\$14.38	\$23.22
Farmworkers and Laborers, Crop, Nursery, and Greenhouse	193	280	4%	0%	\$8.23	\$0.00	\$11.33
Truck Drivers, Heavy and Tractor-Trailer	178	256	36%	60%	\$12.60	\$14.69	\$17.90
Office Clerks, General	125	236	59%	1%	\$10.18	\$12.27	\$14.17
Automotive Specialty Technicians	129	222	20%	18%	\$8.62	\$12.38	\$15.19
Heating, Air Conditioning, & Refrigeration Mechanics & Installers	170	207	25%	50%	\$10.43	\$15.33	\$20.80
Electricians	81	168	76%	30%	\$15.30	\$19.20	\$27.15
Operating Engineers and Other Construction Equipment Operators	158	158	61%	17%	\$13.63	\$0.00	\$17.83
Parts Salespersons	89	158	72%	2%	\$8.82	\$15.35	\$16.47

Section VI: Key Findings and Strategies

STRENGTHS OF WEST HILLS COLLEGE LEMOORE

West Hills College Lemoore's fully accredited college status that was granted by the Accrediting Commission for Community and Junior Colleges in 2006 was well deserved. The campus features the largest and most technologically advanced library in Kings County, 18 lecture classrooms, computer labs, and three science collaboratories. Working in this state of the art facility contributes to the high morale and 'can do' attitude of the faculty and staff. In the accreditation self study the college describes itself as having a "healthy governance environment."

The partnerships that have been developed with other educational segments have been significant and positive. The partnership with University Charter School on the Lemoore campus brings in 5th through 8th grade students who are seeking a non-traditional educational setting. The Lemoore High School Middle College program is exemplary and continues to increase in scope and size. The alliance with Cal State University, Fresno, which allows students to earn a bachelor's degree while attending classes at the Lemoore site, is a partnership that every community college in the state should have. A program with Americorps has provided tutors. In 2008, a nursing program that had been the result of a partnership with Fresno City College will break out as a stand alone nursing program. The teacher preparation program T.E.A.M. Teach addresses the need for well prepared educators in our communities.

The college has responded well to the demands of business and industry. The region's emerging hotel, restaurant, and Casino management industry resulted in the development of a program to train managers in these areas. A new engineering program was started in fall 2008.

Naval Air Station Lemoore, located five miles from the Lemoore campus has a rich and enduring presence with the college. Faculty and staff have noted that the presence of students from NASL has enriched their classes and the college community because of a global knowledge base and experiences. Its proximity to the Lemoore campus influences the college and provides a unique perspective not available to many community colleges.

Student Services: New leadership in the student services area has resulted in innovative and effective approaches to serving students. An example of this is X-treme Registration that provides students with a unique college event and services to register at the last possible moment. Another example is bilingual orientation that was scheduled to be in place in 2007 and online orientation planned for implementation by spring '08.

Instructional Services: A consensus was reached on the definition of an instructional program that has facilitated the implementation of the program review process. There has been a concerted amount of effort in working toward a college wide completion of student learning outcomes for each course, projected to be in place by the end of 2008.

The college's continued focus on improving and refining all aspects of the curriculum development process will be important to the creation of classes, programs, and services that will lead the way to an educated work force in this region. Its state of the art technology and physical plant, the growth in the area surrounding the college, and its vital faculty and staff are hallmarks of West Hills College Lemoore.

KEY FINDINGS & STRATEGIES FOR WEST HILLS COLLEGE LEMOORE

COLLEGE WIDE: MULTIPLE DELIVERY SYSTEMS – ONLINE, VIDEO CONFERENCE, WEB BASED

Key Findings

The West Hills Community College District service area spans a wide swath of the San Joaquin Valley and encompasses five counties in mostly rural environments. The area is large and the need for educational access to the population is great. Students facing time and geographical barriers to education must have their needs met through the access provided by online courses and programs and video conference courses.

Online enrollments across the district continue to grow. The majority of the students who are enrolling in online classes are from our service area, although approximately 40% are from outside the service area. The success and retention rates for students in online classes throughout the district is below classroom rates, but remains fairly consistent for Lemoore students at 55% success rate and 73% retention.

At WHC Lemoore during the '07-'08 academic year, there were 3,155 unduplicated students enrolled in online classes. On the campus at Lemoore there are 5,276 students enrolled.

With high school graduation rates projected to be static for the next 7 years, increased offerings of classes and programs in multiple delivery systems, will be a major factor for growth at the college.

Recommended strategies to address key findings:

- More development of multiple delivery methods for classes and programs throughout the curriculum, including online, video conference, web based classes, hybrid classes and traditional classes utilizing new formats.
- Development of an array of Basic Skills classes in multiple delivery methods to provide access for students in need of pre collegiate work.
- More development of degrees and certificates that can be earned online.
- Increase student services and support for online students
- Research on staffing levels needed to support growth and development of online and video conference classes
- Close attention to the technological resources and facilities needed to maintain and increase online and video conference classes.
- Develop and market programs targeting non-traditional students.

The findings and strategies address goals from:

- District strategic plan: #1 Achieve growth targets, #4 improve transfer, completion and graduation rates
- College guiding principle: Access
- State strategic plan: College awareness and access

COLLEGE WIDE: NAVAL AIR STATION

Key Findings

The enrollment at the Naval Air Station (NASL) has been in a steep decline for the last five years, with a slight uptick in 2007-2008.

Among the factors that may have contributed to the decline are the opening of the new Lemoore campus which has attracted military students to enroll on campus, changes to military tuition assistance, deployment during the Iraq war, and the increased availability of online courses.

Students at NASL have preferred evening courses. Some student characteristics are notably different from other entities – students are older, and there are generally more white students and fewer Hispanics.

In 2007-2008, the Naval Air Station center had 143 students, down from a high of 462 in 2002-2003.

The Lemoore Naval Air Station is important to the college and the region. The Naval Air Station is a unique resource with a stable population of 10,200 employees plus 5,335 affiliated dependents that have educational needs.

Recommended strategies to address key findings:

- Formation of a widely representative advisory committee to discuss the issues of enrollment at NASL.
- Discussions with leadership at NASL in regards to their concerns, forecasted changes and/or program development, resource sharing
- Involvement of campus leadership for ideas, concerns
- Brainstorm ideas in regards to adult learners, under skilled workers, retraining and reentry training
- Offer alternative scheduling, short term curricular modes, weekend classes
- Consider new joint use ideas, non credit, and focused programs with cohorts

Addresses Goals From:

- District Strategic Plan:# 3 Community participation rates
- College Guiding Principle: Collaboration, community
- State Strategic Plan: Goal: A#3 Innovative programs and outreach

COLLEGE WIDE: COORDINATION OF PROGRAM AND COURSE DEVELOPMENT

Key Findings

There has been coordination between WHC Lemoore and WHC Coalinga in the development and offering of courses and programs.

A number of factors make coordination in coming years even more complex. Among them are the substantial and growing offerings online and the fully accredited status of the college.

In the data regarding students' identification of city of residence, a significant percentage of students come from cities such as Fresno, Coalinga, Visalia, and Avenal. While some of these residents may only be enrolled in online classes, we can also infer that these students may be willing to take classes some distance from their homes because of the desirability of a specific program.

The alignment of courses and programs within the college district and with all segments of education are essential to student access and success. Coordination would allow the college to maximize the development of courses and programs unique to its community, area, and facilities – and provide students with more choices and venues. These are essential to student access and success.

Recommended strategies to address key findings:

- Continue to coordinate the development of courses and programs with WHC Coalinga to ensure comprehensive offerings to all students in the service area.
- Interface Lemoore's Student Learning Committee with Coalinga's Instructional Services Council on a regular basis to discuss and make recommendations for approval of new courses and programs.
- Consider the formation of a district committee for review, coordination, and recommendation for approval of courses and programs.
- Develop a process to ensure colleges adhere to the Rule of 5 in which course number, title, prefix, units, and transferability are coordinated and discussion and coordination take place that ensure students have a seamless experience in their access to curriculum at WHCCD.

Addresses goals from:

- District Strategic Plan:#4 Improve transfer, completion, and graduation rates
- College Guiding Principle: Access
- State Strategic Plan: #1 College awareness and access

COLLEGE WIDE: ADDRESS THE CHANGING DEMOGRAPHICS

Key Findings:

An analysis of the demographic data for WHC Lemoore reveals that students in the age group of 30-49 have increased slightly at the college from 1,566 in '02-'03 to 1,651 in '07-'08. On the Lemoore campus, this group has dropped slightly from 1,179 to 1,157 during this time frame. But the number of online students in this age group has risen from 629 in '02-'03 to 750 in '07-'08.

The Regional Scan and Program Demand Report from Economic Modeling Specialist Inc. (EMSI) projects that the greatest growth in our region will occur among adults aged 30 to 34 years and children under 10 years of age during the period of '07-'12.

The female student population at WHC Lemoore continues to be significantly greater than the male population reflecting a state and national trend. In '07-'08 females comprised 62% of the student body.

The Bureau of Labor Statistics reports that for the first time since the modern women's movement came to life, an economic recovery has come and gone, and the percentage of women at work has fallen, not risen. A congressional study released on July 23, 2008, offers the explanation that women are dropping out of the workforce for awhile as jobs and wages shrink, to return to the family and to potentially retrain. At WHC

Lemoore 30-49 year olds are a larger proportion of the student population than those 25-29.

With the projected service area high school graduates remaining static into 2015, the college needs to focus on the demographic that may offer the most growth and also have a growing educational need in this region – students, primarily women, in the 30-49 year old age group.

Recommended strategies to address key findings:

- Consider workforce programs that would attract students who are seeking retraining for the next stage of their work life.
- Query students in this age group about their needs – scheduling of classes, academic support, child care, programs that they seek, etc.
- Target marketing to this group of potential students in the community

Addresses goals from:

- District strategic plan: #1 Achieve growth targets, #4 Improve transfer, completion, and graduation rates
- College Guiding Principle: Access, Diversity
- State Strategic Plan: College awareness and readiness

INSTRUCTIONAL PROGRAMS: BASIC SKILLS

Key Findings

Levels of proficiency in English/Language Arts and Mathematics of students at the 11th grade level in feeder high schools to WHC Lemoore are low. This implies a potential need for more Basic Skills sections available to first term students matriculating to the college.

Of first term students who were assessed, 48% assessed into Basic Skills English and 51% assessed into Basic Skills Math.

Data from the California Community College Chancellor's Office reports that when students do not receive the Basic Skills education they need, less than 10 % will survive the college experience.

Successful participation at the college level is dependent on preparation math and English skills. According to the CCCCCO, more than half of entering community college students require some Basic Skills education due in part to the fact that K-12 curriculum and assessments do not always adequately prepare students for college level work.

Students at Lemoore are generally successful in Basic Skills classes. In math and English the college has continued to increase sections after the reduction in '03-04, showing programs committed to Basic Skills offerings. Math and ESL have high productivity levels, and the success rate in both programs is above the California Community College average. English, math, and ESL Basic Skills classes all have high retention rates.

Recommended strategies to address key findings:

- Offer more sections of Basic Skills Classes in English, ESL, and math
- Consider a college wide committee to address Basic Skills and preparedness for college level curricula
- Work to ensure that all general education and vocational courses include specific activities designed to reinforce key reading, writing, speaking, and computational competencies
- Offer alternative pathways to Basic Skills preparation – e.g., intensive short-term courses, open skill building tutorials, etc.
- Focus professional development on student success, providing faculty with incentives to integrate the development of essential academic skills in their students
- Track students success from Basic Skills through college level curriculum
- Seek innovative ways to offer and deliver Basic Skills classes.

Addresses goals from:

- District Strategic Plan: #4 Improve transfer, completion, graduation rates
- College guiding principle: Access
- State Strategic Plan: Goal B, Student success and readiness, Basic Skills as the foundation for student success

INSTRUCTIONAL PROGRAMS: ENGLISH AS A SECOND LANGUAGE

Key Findings

Even with a significant reduction in ESL class sections that occurred after '02-'03 and little growth in additional sections following that, the enrollment has remained high. In '07-08, there are more enrollments in the 7 sections offered than the 15 sections in '02-03.

The retention rates are high in classes with success rates of 67% slightly below the statewide average of 70.6%.

The college does not offer college-level ESL classes. ESL offerings have had limited scheduling, primarily offered in the evening, although expansion into day time slots occurred in fall '08.

Hispanics are projected to become the State's largest ethnic group by 2011 and the majority population in public schools by 2013. The college's predominantly Hispanic student body, which is also reflected in the region, strongly suggests that a fully developed ESL program that leads to success in college level transfer classes and programs is essential.

Data from the Public Policy Institute of California notes that the educational attainment of Hispanics

falls short of residents overall and short of what the economy will demand by 2015.

Recommended strategies to address key findings:

- Develop a full curriculum of ESL courses that lead to college level offerings
- Develop an assessment and placement system for ESL students
- Offer more sections of Basic Skills classes in ESL in multiple delivery methods and time slots throughout the schedule
- Track ESL students into college level classes

Addresses goals from:

- District Strategic Plan:#4 Improve transfer, completion and graduation
- College guiding principles: Access, Diversity
- State Strategic Plan: Goal B, Basic Skills as the foundation for student success

INSTRUCTIONAL PROGRAMS: THE ARTS

Key Findings

Art classes at Lemoore are among the highest in retention and success rates, and FTES at the college.

The location of Lemoore and the resources it provides the community suggests that it will develop as a cultural center in the community.

A recent community survey revealed that approximately 65% of respondents indicated that they would be somewhat-to-much-more-likely to vote for a local higher education bond if funds were used to construct a performing arts center for college and community use.

Music programs exist in the community and at selected high schools.

Recommended strategies to address key findings:

- Develop a program in the arts and performing arts
- Develop an advisory committee from the community to determine interests and needs

Addresses goals from:

- District Strategic Plan: #3 Increase community participation
- College guiding principles: Community, Excellence
- State Strategic Plan: #1 College awareness and access

INSTRUCTIONAL PROGRAMS: LOWER DIVISION TRANSFER CURRICULUM

Key Findings

On the admission application 39% of West Hills College Lemoore students state that their primary goal is to transfer to a 4 year institution.

The geographic distances inherent in West Hills Community College District make access to educational opportunities challenging. The college's partnership with CSU Fresno and Fresno Pacific University are significant as students interested in going on to a baccalaureate degree can do so by completing requirements on the Lemoore campus. Access to a wide array of lower division transfer curriculum, articulation agreements and transfer agreements facilitate a student's continued educational pursuits.

The community survey revealed a priority interest in university classes. Close to 90% of respondents indicated that they would be somewhat-to-much-more-likely to vote for the bond if funds were used to construct a university center where university classes would be offered to complete advanced college degrees.

Graduating seniors from public high schools in this region are 7 per cent less likely to attend a community college and 4 per cent are less likely to attend a UC than graduating seniors statewide.

Lemoore student transfers to four year institutions continue to grow, with CSU Fresno

being a main transfer site. Notably, an increasing number of WHCCD online students are transferring. With the opening of the UC Merced campus, more articulation and transfer agreements for Lemoore students should be forged. In addition, many students from Lemoore transfer to in state private colleges and universities – in fact, more students go on to private institutions than matriculate to public institutions.

Recommended strategies to address key findings:

- Increase the development of lower division transfer classes that fulfill IGETC requirements
- Align student learning outcomes in critical course sequences
- Discuss and coordinate with like discipline areas across the district
- Meet regularly to align curriculum with high school partners and 4 year partners, including both public and private institutions.

Addresses goals from:

- District Strategic Plan:#4 Improve transfer, completion, graduation rates
- College Guiding Principles: Excellence
- State Strategic Plan: Goal B, #4 Intersegmental transfer

INSTRUCTIONAL PROGRAMS: ECONOMIC TRENDS and WHC LEMOORE PROGRAMS

Key Findings

In a scan of the economic forecasts and the projected labor market for the region against the backdrop of existing instructional programs at the college, a number of occupations in a handful of areas continue to surface.

Examples of these areas are: medically related health careers, management/supervision in the areas of retail and government, teacher education, and child care workers.

At Lemoore, the child development program is particularly well developed with its certificates and degrees. The program is layered with many options. Agreements with Hanford High and the NASL child care programs are creative. Online classes are being considered. The Education/Education Assistant program has been actively involved in partnerships with the University Charter School and highly successful Middle College High School, but appears to be shrinking. These programs can play an important role in the economic development of the region placing their graduates in the growing field of education and child care.

WHC Lemoore is well positioned to provide timely education and job training in health related fields. The new nursing program started in fall '08 and other programs are being explored.

The college has been proactive in partnering with the Health and Human Services Department of Kings County, which is with the college to provide workforce training programs for the CalWorks population in fields such as office technology.

The importance of the Naval Air Station to the college is obvious. Declining enrollment at NASL requires a fresh look at possibilities in terms of workforce training. Discussions with the NASL, college faculty and staff, environmental scans, and labor market projections should provide a foundation for the decision-making process.

In environmental scans of any region, projects or areas surface that haven't yet made the radar screens of labor market surveys. One such project is the Quay Valley Ranch, a proposed planned community consisting of about 12,000 acres in unincorporated Kings County. It is planned to be a new, sustainable, solar-powered model town of about 150,000 people. The potential for partnership, the development of programs in sustainable energy, the need for education, jobs, and services is large. The college must play a role.

Recommended strategies to address key findings:

- WHC Lemoore has already forged many strategies to respond to labor market needs. But the process to find ways to collaborate with local, regional, and state partners takes constant attention & effort.
- Monitoring economic trends and corresponding program development and expansion must continue. Employee demographics suggest that significant administrative and faculty retirements may occur in the next ten years. Staffing decisions must be considered.
- Program review and coordination at the college and district level may reveal areas of collaboration or unique pursuit because of geography, program interest or expertise, or facilities.
- Work force training is as important as the preparation of students in the Basic Skills. Contextualization – the concept that students learn essential skills best in practical, experiential contexts is ideal in that environment. Links with Basic Skills and work force training can be employed in programs at a college like Lemoore, where collegiality and communication are stated values.

Addresses goals from:

- District Strategic Plan: #4 Improve transfer, completion, graduation rates
- College guiding principles: Excellence, Collaboration
- State strategic plan: Goal C Partnerships for economic and workforce development

STUDENT SERVICES: ASSESSMENT PLACEMENT SERVICES

Key Findings

In '07-08, 46% of first-term students were assessed and 48% of them placed into Basic Skills English and 51% placed into Basic Skills math.

District wide, about 14% of students who did not receive assessment had educational goals that required assessment in order to succeed at the college level.

A small percentage of 11th grade students at feeder high schools to WHC Lemoore test as proficient or advanced in English or math.

Assessment and placement are a foundation for college success and students most at risk are those who have not been assessed.

Recommended strategies to address key findings:

- Develop programs to ensure that the majority of incoming students receive assessment placement services to provide them with information to access classes that will prepare them to succeed academically.
- Work across the curriculum to insure that classes that will help students succeed academically are available to them.
- Students in categorical programs compose about 63% of Basic Skills English enrollment. Develop collaboration between categorical programs and Basic Skills English faculty to improve success rates

Addresses goals from:

- District Strategic Plan:#4 Improve transfer, completion, graduation rates
- College Guiding Principles: Access, Excellence
- State Strategic Plan: Goal B, Student success and readiness, Assessment and placement

STUDENT SERVICES: MULTIPLE DELIVERY SYSTEMS FOR STUDENT SERVICES

Key Findings

The remarkable growth in students taking online classes necessitates a rethinking throughout the college about new ways to support their learning and success.

The college has an unduplicated head count of online students that is equal to 49% of on-campus students. There were 3,161 online students in the '07-'08 school year. The projected development and growth of multiple delivery systems for classes will necessitate new strategies for student services.

With relatively new leadership in student services at Lemoore, new perspectives and ideas are being implemented. The goal to provide online and bilingual orientation, counseling, testing and guidance service to new and continuing students is being implemented. (Institutional self study report, '06)

Although 49% of first term students received assessment placement, 18% of all students used assessment placement services in '06-'07, with only 8% of the college's students using follow up academic services.

The success and retention rates for students taking classes online are below the rates of students taking classes on campus. Online students in '07-'08 had a success rate at Lemoore of 55% and a retention rate of 73%. On campus

students had a success rate of 63% and a retention rate of 78%.

Recommended strategies to address key findings:

- Develop a means to provide more students with matriculation services, with a focus on students who are enrolled in online and video conference classes
- Develop methods to more effectively assess the student preparedness levels of online students
- Develop a student services strategic plan with multiple delivery systems as a main theme. Because of the existing initiative to start online and bilingual services, the college may already be developing a model program to be replicated.
- Consider the efficacy of joint online student services with WHC Coalinga so students at either college would have seamless, well supported services available in an expansive time frame.

Addresses goals from:

- District Strategic Plan: Goal #4 Improve transfer, completion, graduation rates
- College Guiding Principles: Access, Innovation
- State Strategic Plan: Goal B, Student Success and Readiness

Institutional Effectiveness Planning Calendar 2008-2009

ID	Task Name	Accountability	Start	Finish	Duration	2008						2009								
						Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	
1	Update Accountability Documents (EMP, Program Review, Performance Indicators, Goals)	IE Office	6/13/2008	7/31/2008	7w	■														
2	Complete Instructional and Non-instructional Program Reviews	CIO, CSSO, and IE Office (Distric)	8/15/2008	11/28/2008	15.2w			■	■	■	■									
3	Review CCSSE Findings	Presidents, CIO, CCSO, IE Office	10/1/2008	10/15/2008	2.2w				■

Subject: District Program Reviews

Jill and Dave,

We have four district departments that are ready to submit program reviews for a first reading to your program review committees. We will need approximately 15 minutes for each department to provide a brief presentation. I'm hoping we can do at least two first reading presentations at your December meetings and another two at your January meetings. Keep in mind that a second reading will be required for each department in order to collect feedback from your committee. Please let me know if this is possible and we will begin to plan accordingly.

For your information, below is the district's program review routing process.

1. Review with immediate supervisor and Vice Chancellor of Institutional Effectiveness.
2. Submit for review to WHC Coalinga Instructional Services Council and WHC Lemoore Planning and Governance Council.
3. Implement feedback from colleges and route to Chancellor's Executive Cabinet for review and approval.
