WEST HILLS COLLEGE LEMOORE

**PROGRAM REVIEW/PLANNING AND EVALUATION PROCESS
UNIT PLANNING GUIDE - NON-INSTRUCTIONAL
DEPARTMENTS & AREAS
TO BE COMPLETED BY UNIT/DEPARTMENT COMMITTEE**

I. General Information

Department/Service: Educational Services / LIFE After School Program

Date Prepared: 10/14/2008

Prepared By: Riley Talford

Staff: Riley Talford, Jorge Pulido, Laura Santillan, (49 staff at 8 school sites)

II. Program Overview

A. State the program mission.

West Hills College LIFE After School Program enriches lives, builds community, and enhances educational growth and development through quality learning opportunities. We provide a quality enrichment environment that fosters learning, sparks creativity, enhances social skills, and bridges the gap between home and school. It is our belief that all students can gain an understanding of and reach their full potential by providing structure, discipline, creative expression, and nurturing. As a new program we realize that by encouraging students to dedicate themselves to academic achievement they can utilize education as a vehicle to propel them to future life endeavors.

B. Briefly describe the current state of the program/department/service area.

The LIFE Program is in its 7th year of operation. Since its inception in 2002 the program has grown from being in operation at 3 schools to now serving 7 elementary schools and 1 high school program. Each school day the program serves approximately 760 elementary to high school students between the hours of 2-6 p.m. Students enrolled in the program receive a daily regiment of home work assistance, curriculum based educational programs, and various fun and learning filled enrichment activities.

Program operations at our elementary schools remain consistent and effective. The program has maintained 100% attendance at each school site since its inception. To achieve this mark 77- 84 students must attend the program daily at each school site. Our average daily attendance at each school site ranges from 85 – 100 students. Our newest program operating at Avenal High School will challenge us to maintain this record. The approach towards high school students differs from that of elementary students.

Our approach towards high school students is to provide them with: 1) opportunities to earn credit towards graduation, 2) skills to prepare them for work

force, and 3) activities that will excite their appetite for further education in a specific field of study.

Program staffing now includes 4 full time staff and approximately 49 part-time employees. The bulk of our employment ranks consist of West Hills College graduates and current students.

C. Describe how the program/department/service area goals and objectives are aligned to the advancement of the college mission, goals and objectives.

The LIFE After School Program advances the mission of WHCCD in the following ways: providing powerful and effective on the job learning opportunities for students working towards careers in teaching, promoting education as a vehicle to future life endeavors to the young students we supervise, and providing a safe and enriching environment that parents and school district administrators can feel safe entrusting their children to.

Many of our student workers have identified teaching as their career field of choice. As a member of the LIFE team they get first hand experience as managers of classrooms. Many of our staff members learn and practice the following teacher related activities: writing effective lesson plans based upon California Content Standards for the grades they teach, lesson delivery and evaluation, time management, organization, and behavior management.

School age students under our care are routinely encouraged to do well in school. Students who excel in our setting (perfect homework completion, activity participation, perfect attendance, etc) are routinely rewarded and receive recognition for their accomplishments.

Each year the program conducts surveys of students and parents. The overwhelming majority rated that they feel students are safe in the program. Furthermore, school site principals and teachers have commended program staff for the work performed with students and the care/respect shown to the school sites.

D. List any recommendations from the most recent college/program/department accreditation and/or previous review.

Not applicable.

III. Qualitative and Quantitative Data Review

A. Attach the following Non-Instructional Program Review data (as provided):

- Enrollment Trends
- Student Retention Rates/Student Success Rates (if applicable)
- WSCH/FTEF (if applicable)
- Full-time to Part-time Faculty Ratio

- Number of Students Earning Degrees (if applicable)
 - Number of Students Earning Certificates (if applicable)
 - Job Market Analysis (if applicable)
 - Student Demographics
 - Grade Distribution (if applicable)
 - Student Survey Data (if applicable)
1. **Enrollment Trends** – The program operates on a first come / first serve basis. Enrollment at all elementary school sites routinely reaches max capacity by the first week of school. There is currently no data available for the high school program
 2. **Student Retention/Success Rates** – Not applicable
 3. **WSCH/FTEF** – Not applicable
 4. **Full-time to Part-Time Faculty Ratio** – 4 full time staff to 49 part time staff. 7 of the 49 part time staff positions are designated as part time – permanent.
 5. **Number of Students Earning Degrees / Certificates** – Not applicable.
 6. **Job Market Analysis** – Not applicable.
 7. **Student Demographics** – data is not tabulated as it is not applicable to the LIFE After School program
 8. **Grade Distribution** – Not applicable
 9. **Student Survey Data:** Data not available at time of submission; Data will be available for review on 11/25/08

B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific course/program/service.

The LIFE Program has been a consistent pillar in the communities served. The enrollment trends and retention rates displayed provides a strong indication of program success. There is also a high degree of satisfaction reported among students and parents served in the program. The success of the LIFE program has led to healthy and sustained growth which extends WHCCD's sphere of influence throughout the Central Valley.

C. Attach the following data maintained for your program/department/service area:

1. Budget information regarding costs per program/department/service area on personnel, equipment, supplies, delivery of services (where applicable), and any other direct or indirect costs connected with the service as reflected by student enrollment.

2. Identify all personnel, including the number of certificated, classified professionals and volunteers. Discuss the diversity of faculty and staff.

Employee Classification:

Certificated _____ Class. Professional 11 Student Worker 41
Volunteers _____

Diversity (Race/Ethnicity)

1 Native Am. /Alaskan Nat.	3 African/African-American/Non-Hispanic
1 Asian/Pacific Islander	3 Caucasian/Non-Hispanic
44 Hispanic	Filipino
Mixed	

3. Describe the certificated and classified staffing requirements of the existing program/department/service area, as well as the effect any proposed curricular or instructional changes would have in the next three years.

The LIFE Program currently consists of 1 full time program Director (upgraded from program Coordinator), 1 full time Assistant Coordinator, 1 full time Senior Secretary, 1 full time Site Supervisor the high school program, 7 part-time (soon to be classified as part-time permanent) Site Supervisors, and 41 part time Activity Leader positions. An abbreviated account of these positions is provided below:

Program Director

Directs and oversees the operations of the after school program department that consists of 8 schools, 52 full and part-time staff, and over 760 primary grade school students.

Assistant Coordinator

As a direct managerial assistant to the program director, the assistant coordinator plays an active role with the logistics of program operations. In addition to those duties this position also supervises Site Supervisors and assists with daily operations at program school sites.

Senior Secretary

The Senior Secretary serves in a vital supportive role to the program Director. This position handles the procurement of supplies and materials, handles the hiring process of potential program employees, maintains employee files, and other duties as assigned.

Site Supervisors

Program Site Supervisors manage the daily operations at assigned school sites. They directly supervise 5 staff and approximately 100 students at assigned school sites.

Activity Leaders

Program Activity Leaders supervise classes of up to 20 students per activity leader. Persons serving in this capacity carry-out the daily program plan that consists of homework help/supervision, educational lessons, and enrichment electives.

Going forward the following positions have been identified as being necessary if the program continues to grow as expected:

District Coordinator

I envision the title and role of the Assistant Coordinator to change to District Coordinator and adding a second District Coordinator. Under the direction of the Program Director the District Coordinator would be responsible for the operations of all programs within an assigned district and would directly supervise program Site Supervisors within their district.

Trainer

1 Program trainer with a teaching background would be hired to conduct on going staff development training. This position would also collaborate with regular school day teachers to ensure that students receive follow up activities during the extended after school program day.

Program Counselor

Contingent with funding the person filling this role would conduct family workshops, and student group counseling sessions at program school sites.

D. Identify and discuss the effect that trends may have on the program/department/services area's organization, structure, and nature over the next two to four years.

Funding for After School Programs has been consistent for the past 7 years; however there have been challenges to its guaranteed funding as outlined in Proposition 49. Attempts to change legislation that directly impacts program funding levels have thus far been thwarted, but with the ever changing climate of the nation's economic woes funding in the future can once again be threatened. As the program continues to grow with the procurement of new grants and or contracts to facilitate programs for new school districts the size of the department could grow to by another 20 – 40 full and part time employees. West Hills Community College District will continue to have an influence on where families that are served choose to continue their education.

E. What resources are required to maintain program/department/service area, and what additional resources are necessary to improve or expand it? The LIFE Program is funded by state (Prop. 49 ASES) and federal (21st Century ASSETS) grants for After School programs. As additional revenue sources become available (primarily other grants supporting after school programs) the program will seek to expand its operations to other surrounding school districts and or current schools within our current districts that are not presently served.

F. Discuss staff training, academic and professional currency.

Program employees receive professional development training primarily during two distinct times of the year: end of summer and spring. Most trainings are conducted at WHC Lemoore by leading professionals in the field of After School education. Employees also receive training on the implementation of new curriculum, as well as update training on CPR and First aid. All training is contingent upon funding within the program's budget.

G. Excluding curriculum validation, discuss community involvement in the operation of the program/department/service area.

The LIFE program has received generous donations from businesses within our surrounding communities'. The program has also hosted community based events such as plays, carnivals, and community food drives. Avenal hosted a Christmas play in 2008, spring carnival joint community organizations effort also in Avenal, most of staff reside in the communities they serve.

IV. Professional Development

A. What professional development activities have staff participated in?

Employees in the LIFE program receive 24 hours of training prior to the beginning of each program year. Employees receive training in classroom management, writing effective lesson plans, learning and teaching strategies, and program specific operations.

B. How does this professional development affect Student Learning Outcomes for your program/department/service area?

Training provided to program employees provides them with the tools necessary to affect growth in the students we served. Program staff are more confident in delivering program content which has a direct impact on student academic improvement.

C. Describe the program/department/service area's plans for staff development over the next four years. Staff development within the program is ongoing. Each year management and supervisory staff attend Conferences and workshops that are geared to increasing the academic performance/effectiveness of after school programs operated at local school sites. Conferences provide training on "Best Practice" approaches for delivering student learning activities, Effective Management of Programs, Building Effective Partnerships, Grant Writing, and other professional development themed topics. Line level staff receive quarterly training on the following topics that are geared for equipping them with tools for effective delivery of LIFE program offerings: Classroom Management, Effective Tutoring Tactics, Lesson Planning, Working with Students with Special Needs, CPR/First Aid, and Incorporating Behaviors that Effect Positive Change.

C. Discuss the effectiveness of continuing education requirement to meet the need for advanced training and/or training in emerging technologies.

V. Student Learning Outcomes

A. List all Student Learning Outcomes for this program/department/service. Student Learning Outcomes for the LIFE program are as followed:

1. To improve Baseline California Standardized Test Scores in English Language Arts and Mathematics from previous year
2. To promote to next grade level

During the 2007-2008 academic year, over 880 K-6th grade students were served 1 day more in LIFE After School Programs operated at Lemoore Union & Reef Sunset Unified School Districts. 580 of those students were serviced at Lemoore schools. Out of those 580 students, 428 attended the program for at least 90 days. Out of those 428 students 214 improved their CST ELA scores and 218 improved their CST Math scores. Promotion to next grade rates for students, according to affiliated school district personnel, was well above 95%. (*CST data for individual students attending Reef-Sunset Schools was not available at time for this report, but overall CST scores for the Reef-Sunset District showed at least a 30% improvement for all students within the district). The Evaluation Report for programs operated in Lemoore has been submitted with this report.

B. Explain how Student Learning Outcomes are used to measure quality and success of this program/department/service area.

The LIFE Program is funded by California's Prop. 49 which provide After School Funding for Title I Schools that show a need for improvement. To remain eligible for funding each program is evaluated on its effectiveness. Program effectiveness is measured by student utilization of the program (attendance), and student achievement (CST scores, academic performance, promotion rates, home work completion). Attendance and CST data is tabulated for each student and submitted to California Department of Education (CDE) After School Programs Office yearly. The LIFE Program has been noted for its effectiveness achieving the goals of the grant.

C. Based upon the results of the program SLO assessments, what improvements have been identified?

Current program operation is effective in achieving student learning outcomes.

VI. General Operations

A. How does the program/department/service area ensure that current curriculum/delivery of service is adequately meeting the needs of students?

The LIFE Program is judged upon its ability to maintain a robust enrollment, and its ability to increase student proficiency with quality homework completion and reading. As a result of program staff hard work and dedication many students who attended the program for at least 6 months showed marked improvement in their state standardized tests scores (see attached document).

B. Do special accreditations, external regulations, or advisory committees regulate the program/department/service area? Yes No (if yes, elaborate.)

The LIFE program is regulated by state and federal standards for after school programs. The program must submit an annual report on its performance. The program is also subjected to Categorical Program Management (CPM) audits conducted by California Department of Education (CDE).

C. Does the program/department/service area have any special regulations, space requirements, staff training, etc.? Yes No (if yes, elaborate.)

The LIFE Program must abide by regulations set forth by state and federal standards set forth for after school program operations. Some of the more common regulations are as followed:

- Programs must operate all 180 school days.
- All programs must operate until 6:00 p.m. each school day.
- Programs must start as soon as the regular school day ends which includes early out days.
- Student enrollment in after school programs are on a first come, first serve basis.
- Program staff must meet the minimum requirements set forth by the local school district for an educational assistant.

D. Is there evidence of unmet student needs caused by your program/department/service area? Yes No (if yes, elaborate.)

E. How does the program/department/service area address cultural diversity?

Students enrolled in the program participate in activities that promote cultural diversity and recognize the accomplishments of others. The programs celebrate and promote events like Black History Month, Hispanic Heritage Month, Cesar Chavez and Martin Luther King Day's are only a few examples.

F. Describe the initiatives the program/department/service area has implemented to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical mental disabilities, re-entry, gender, etc.).

The LIFE Program promotes equal access to all students regardless of social-economic status, ability level, or physical/mental limitations. The program enrolls students on a first come first serve basis. All activities within the program practice inclusion – in

other words all students are expected / encouraged to participate. Accommodations are made as necessary to meet the needs of students with special needs.

G. Discuss the program/department/service area's use of external funding, including grants and collaborative partnerships, if applicable.

The LIFE Program receives its funding for all elementary school operations from the state After School Education & Safety Grant. Funding for high school operations is provided by the federal governments After School Safety Enrichment Training grant. These grants provide sufficient funding for the following after school related services: tutoring, home assistance, educational enrichment activities, physical fitness, and or job training (high school only). Collaborative partnerships with multiple agencies have been established that provide support for staff training/development, program technical assistance, curriculum offerings, and or supportive services for students and their families. Other partnerships have been established with local businesses that provide financial or supplies support for program related activities.

H. To what extent is technology being used in the program/department/service area?

Students attending LIFE programs at affiliated school sites are provided access to computers. Students utilize these computers to work with educational enrichment software programs or web based educational programs that promote reading comprehension. Program Site Coordinators utilize a program specific database that aids in the collection of data on the LIFE Program's effectiveness. This data includes but not limited to attendance records, state test scores, and participation in program activities.

I. Describe the supply requirements for your existing program/department/service area, as well as the effect that any proposed changes would have on the supplies in the next four years. This statement should include the kinds and amounts of supplies needed, any anticipated costs, and the need for any computer software/technology.

As previously stated, the LIFE program's needs are met by state and federal grants that provide sufficient funding for program activities. Each year the LIFE program's department head budgets appropriately for supplies needed for projected program operations. These supplies consist of arts-n-crafts material, educational curriculum, workbooks, reading books, enrichment materials, and other supplies as needed. Supplies cost per site range on average between \$10,000 - \$15,000 per year.

J. Describe the need for facility modifications within your existing program/department/service area or the effect that any proposed curricular or instructional changes would have on the existing facilities in the next four years. This statement should include a description of the desired changes, the rationale for the changes, and a rough estimate of the costs.

All LIFE programs are operated at Lemoore Elementary Unified and Reef-Sunset Unified District schools. Facility usage at these schools is at the discretion of school site administrators. Although facility usage at most school sites are adequate for program

needs, an expansion of facilities at Avenal elementary and Avenal High school would be of tremendous benefit for students enrolled in the program at these schools.

VIII. Summary and Recommendations

A. What actions have been taken to address the assessment and improvements of program learning outcomes?

Program employees have been provided training in areas deemed critical to achieve the goals of student learning outcomes. Program curriculum additions were made based upon the educational, emotional, and physiological needs of students

B. Based on analysis of the information provided in I through VII, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.

1. Program strengths:

Well rounded curriculum and a great team of career staff members that strive to help students improve academically and socially.

2. Areas that need improvement:

Additional professional development training for employees in the area of classroom management, new and exciting educational practices that activate student desire for learning, and refresher courses in upper level math (geometry, algebra I, algebra II).

3. Strategies and actions for program enhancement and improvement.

The LIFE Program as an organization is operating at a very high level in its primary mission of meeting the needs of program students.

Upon the receipt of additional funds program services will be extended to assess and meet the needs of not only students, but their families'.

C. Attach your Program Planning and Evaluation Assessment Grid. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

Program Review, Planning and Evaluation

West Hills College Lemoore

Mission: West Hills College Lemoore enriches the lives of our students and the community we serve by being dedicated to quality educational learning opportunities and partnerships. The college provides a positive environment that is committed to student learning and empowering students to achieve their educational goals.

Assessment Grid

<p>Program: Mission: The mission of the Art Department at West Hills College Lemoore is to enhance student learning and to enrich the lives of the populations we serve by stimulating cultural understanding through the visual arts. Critical thinking skills and the ability to access personal creativity are also developed through various art courses offered. The department strives to offer courses that stimulate student interest and encourages strong student success and retention rates. Two associate degrees, Studio Art and Art History, are offered, which allow students to pursue specialized interests.</p>			<p>Contact Person/ext.: Michael McDowell/x3745</p>

President's Intercommunication Team

September 9, 2010 –10:00 – 11:00 a.m.

WHCL Conference Rm. 124

Coalinga, District Office Bd. Rm.

MINUTES

Members Present:

Don Warkentin, President

Marlon Hall, Associate Dean of Educational Services, Evening College

Susan Whitener, Associate Vice Chancellor of Educational Planning

Cathy Barabe, Director of Grants (by phone)

Ken Stoppenbrink, Vice Chancellor of Administrative Services (by phone)

Bob Clement, Athletic Director

John Bernal, Director of Maintenance & Operations

Frances Squire, WHCCD Foundation Executive Director, Director of Marketing

Members Absent:

Pedro Avila, Vice Chancellor of Institutional Effectiveness & Enrollment Services

Dave Bolt, Vice President of Educational Services

Jana Cox, WHCL Financial Aid Director

Sylvia Dorsey-Robinson, Vice President of Student Services

Kurt Sterling, Academic Senate President

Charles Freeman, Director of Nursing

Carole Goldsmith, Vice Chancellor of Educational Services and Workforce Development

Michelle Kozlowski, Director of ITS

Jose Lopez, Dean of Student Services

Jody Ruble, Director ETS/UB/Americorp

John Ieronimo, CSEA President Representative

Ryan Cardoza, Student Representative

Mr. Warkentin called the meeting to order at 10:13 a.m.

1.0 Accreditation Update

Mr. Warkentin reported that the WHCL accreditation visit will be March 7 – 10. The team members will arrive on Sunday and make a visit to the district office on Monday morning. Both WHCC and WHCL will be visited. WHCC's team chair will be the president from the Ventura College District. WHCL's team chair will be Rosa Carlson, president of Porterville College. The WHCC team will stay at Harris Ranch and the WHCL team will stay at the Tachi Hotel. A month prior to the visit the team chairs and their assistants will meet with the colleges and district office. One aspect the team will look at is how we communicate with our district office staff. Mr. Warkentin reiterated that this committee, President's Intercommunication Team (PIT), conducts monthly meetings to dialogue with the district offices. He reviewed the PIT mission statement and its membership.

The WHCL self study draft has been sent out and we are awaiting feedback from the district office staff. The WHCL Planning and Governance Council (PGC) will take action on the self study in October with Board of Trustees action to follow in October/November. The Study will need to be mailed out to the team in January. Evidence documents will be scanned and accessible via links through the website. The WHCL team room will be in the conference center room 256. It will be partitioned off for individual meetings and opened up for the larger meetings.

Susan announced that she will be participating on an accrediting team in Oxnard and she has just returned from training. A few of the issues WASC has concern with are: Resource allocation (whether it is integrated into resource planning) also, whether colleges have a plan in place for reimbursement to reserves. SLO will not be a sanction; however, proficiency is expected by 2012; continuous quality improvement is the next level. Non proficiency by 2012 will be a recommendation. Mr. Warkentin added that recommendations may bring a follow up visit which he intends to avoid. Susan will send a bulleted list of her observations from the training. Additionally, she reported that she learned that the data we present should also be analyzed. Another issue concerns international students and if colleges are meeting their special needs. The data about incoming students should include international students. The international program at WHCCD generates about the equivalent of 200 FTES per year. WASC wants to see that SLO for online programs are managed the same as face to face and that success, retention, and persistence rates are comparative to face to face student achievement. Student achievement is certificates, degrees, and SLO (what they walk away with in their head).

Mr. Warkentin announced that he is chairing an accreditation team to Evergreen Valley College and Jose Lopez is on a team at Miramar College in San Diego in October. After all have participated on teams they will convene for dialogue.

2.0 Budget Update

Ken Stoppenbrink stated that the district budget for 2010-2011 was approved in August despite the fact the state does not have a budget. Communication from the chancellor's office is that there is a budget eminent. Apportionment has not been received and currently we are using reserves which should take us to October. The state is paying IOU's with the challenge being how long the banks will honor the IOU'S. Ken does not expect an approved budget soon. All districts will be in the same situation. Mr. Warkentin reported that he had spoken with EECU Manager, Lisa Franks, and EECU is preparing to provide interest free payroll loans. The loans would also be available to elementary and high schools in the valley. Frances interjected that there is speculation that a budget will be approved after the November elections are over. Ken stated that there are monies in capital outlay projects that could be pulled to put in the general fund if necessary. Frances will contact Lisa Franks to question the details. Bob asked if there would be concern with the bond monies and the continuance of construction. Ken does not see any delays in construction. Bob asked if budgets would be frozen. Ken responded that the same procedure as in past will likely be in place which would freeze budgets before the end of the fiscal year. He reiterated that the state is holding \$6 million a year out of our apportionment and will pay it next fiscal year. This is why a

freeze has to be put on our spending. Mr. Warkentin stated that he had been informed that we will not receive MAA checks until the state budget passes even though MAA is federal monies. Ken reported that WHCCD is in excellent shape. The normal budget planning process will continue in the spring.

Ken questioned if in WHCL'S perspective on budget if there is a flow or are there areas that need to improve. Mr. Warkentin replied that aside from no budget in the last few years, an area to strengthen is the need for a formal response from the district to acknowledge prioritized budget requests. Currently, when Anne Jorgens reports lottery dollars have been received, the Budget Allocation Committee revisits the priority lists. There needs to be a response form. As new monies become available we need a communication piece. Ken responded in agreement and recommends this be further discussed at the Chancellor's Executive Cabinet as it is needed district-wide. Cathy stated that she would like to see priority 3 lists to know what has been requested.

3.0 Program Review Schedule

Mr. Warkentin reviewed the district office program review schedule. If there are reviews not showing please let he or Dave Bolt know.

4.0 New Grants Program

Cathy Barabe reported that she had informed Mr. Warkentin about CTE equipment monies available. Additionally, she has found monies for two child development classes for spring and fall. She has talked to Dave Bolt about adding science classes for spring as there is funding for online and/or face to face classes. She is working with the Avenal school districts regarding the educational center and she needs feedback on signage, i.e. WHC Center at Avenal, WHC Avenal Learning Center. There will be staff stationed at the outreach sites. It is expected that the students will be nontraditional. Susan asked about the Title V grant approval. Cathy responded that she had not heard. The Student Services Grant will not be received.

5.0 FTES Update

In the absence of Mr. Avila, no report was given.

6.0 Other

Frances Squire made event announcements as follows:

- Washington Monthly magazine has named NDC the 34th best college in American based on SICEE survey rates. There will be a celebration on 9/23 at 5:00 p.m. in Firebaugh.
- On October 10th Karl Rove will be speaking at WHCC. This will be announced on KMJ. Rove's visit will be advertised in Paso Robles also. Tickets are \$30 in advance. Doors open at 5:00 p.m. with Rove to speak at 6:15 p.m. Seating will be on a first come, first served basis.
- On October 11th there will be an pianist/organist concert at WHCC.

- On October 16th is the Hall of Fame dinner at WHCC. A dedication of the gym will also be held that day.
- Veteran Student Club Association will hold a 9/11 event today (9/9/2010) with lunch provided and Dr. Marlon Hall will be the keynote speaker.

The next meeting is scheduled on October 14, 2010.

2010 WHCL Evaluation of Policies & Shared Governance Survey

The WHCL Shared Governance Process	Overall Average	Response Count	
Faculty senate has a defined role in the shared governance process.	4.16	32	5 = Strongly Agree 4 = Agree 3 = Neutral 2 = Disagree 1 = Strongly Disagree
WHC Faculty Association has a defined role in the shared governance process.	4.10	32	
CSEA has a defined role in the shared governance process.	4.07	31	
Drives institutional planning	4.06	32	
Administrators have a defined role in the shared governance process.	4.03	32	
Student government (SGA) has a defined role in the shared governance process.	4.00	32	
Follows agendas and disseminates minutes regularly via the web or public folders.	3.97	32	
The shared governance process supports the quality, integrity and effectiveness of student learning programs and services.	3.94	32	
Has clear and easy to follow procedures	3.87	31	
Provides an environment that encourages honesty.	3.84	32	
Follows set procedures and rules.	3.84	32	
I feel I have the opportunity to voice my concerns within the framework of the shared governance process.	3.78	32	
All shared governance committees have clear goals and objectives.	3.71	32	
Members of your organization are satisfied with the ideas and recommendations provided to the college by the different shared governance committees.	3.71	32	
Members of your organization are kept informed about the work and the accomplishments of the shared governance process.	3.68	32	
Provides an environment that values different opinions.	3.65	32	
Reports recommendations and actions to appropriate committees within the system in a timely manner.	3.61	32	
Members of your organization understand how the shared governance process works.	3.52	32	

2010 WHCL Evaluation of Policies & Shared Governance Survey

Are there areas of the shared governance process that can be made more productive or effective? Explain.

- Curriculum Committee is very difficult to work in. While the individuals involved understand the process, the rules make it very difficult to implement anything related to curriculum.
- At the end of almost every semester the Board floods the processes with items they want instant answers on thereby circumventing the process. i.e. New or changes policies and procedures.
- All meeting minutes should be posted in the appropriate area on the WHCL website. A current flow chart showing how the shared governance process works with links to the areas on the website where more information can be found would be helpful.
- I don't know if it's considered part of the shared governance process, but I strongly believe that the process by which instructors receive tenure is highly flawed and is in desperate need of reform! Instructors are getting tenured who should NOT be teaching for us!
- The process isn't always followed; this is something we could and should work on.

2010 WHCL Evaluation of Policies & Shared Governance Survey

5 = Strongly Agree
 4 = Agree
 3 = Neutral
 2 = Disagree
 1 = Strongly Disagree

Board policy 2510 - Participation in local decision making through the District Council on Student Learning.	Overall Average	Response Count
The District Council on Student Learning serves as an effective communication channel among the colleges and the district office to clarify decisions made regarding programming, staffing, and resources at the college level.	3.70	31
I am familiar with this board policy.	3.52	32
Board policy and administrative procedure 2431 - Delineation of Authority to College Presidents and District Chancellor		
Board policy and administrative procedure 2431 clarify the roles and responsibilities of the chancellor and college president in the decision making process.	3.96	31
I am familiar with this board policy.	3.64	32

2010 WHCL Evaluation of Policies & Shared Governance Survey

5 = Strongly Agree
 4 = Agree
 3 = Neutral
 2 = Disagree
 1 = Strongly Disagree

Board policy 3250 - District Strategic Planning	Overall Average	Response Count
The district strategic planning process acknowledges membership and input from the colleges.	4.00	30
I am familiar with this board policy.	3.93	32
The district strategic planning process serves as a guide for strategic planning at the college level.	3.92	30
Board policy 6225 - Resource Allocation		
The resource allocation policy clearly defines the process for distributing fiscal resources among the college campuses and district office.	3.78	30
I am familiar with this board policy.	3.75	32
The resource allocation policy is fair and reasonable.	3.63	31

2010 WHCL Evaluation of Policies & Shared Governance Survey

Do you have any comments regarding the policies mentioned above?

- Yes there is participation. However is recommendation from faculty are routinely disregarded then the process is flawed. Which it is.
- No I do not, but as I previously mentioned, our tenure process is flawed and needs to be fixed so that we can actually build a stronger faculty base.
- No
- You could share the concepts of these policies during duty day as a way to educate all staff, faculty, and administration.

West Hills College Lemoore
Student Success
Meeting Minutes
Date: December 10, 2010

Attending: America Bryant, S. Dorsey-Robinson, Tammy Larson, Jose Lopez, Tiffani McGee, Mike Rodriguez, Joel Ruble, Angela Tos, Ryan Cardoza (student), Brittany Burkhardt (student)

Absent: Susie Briones-Aceron, Priscilla Balcazar

1. Hear Update from Student Activities Committee - Lopez

J. Lopez gave an update from the Student Activities Committee. He stated they were having a meeting next Thursday and they were off to a good start. He also stated that having student, like Brittany, on the committee was good. They were working on identifying students for next year to sign up for the IS 7 class that can also assist with Heritage Day. He stated that in April 2011, a week before spring break, there will be Heritage week activities.

J. Lopez discussed a fall Scholarship Gala Night to raise money, something he will work on. More information will follow.

2. Hear Update of Student Services – Robinson

- High School Principal Contact and Follow-up meeting
- High school Outreach
- H.O.P.E.

SDR shared information on collaboration with high schools and initiatives and the work that the advisors are doing. J. Ruble shared the "Having Opportunity and Promise through Education" (H.O.P.E.) project

3. Review WCHL Crest

J. Lopez shared a copy of the proposed WCHL Crest. A discussion regarding the timeline for completion and bringing it back to Student Success Committee was discussed. SDR shared that the timeline was important in order to have things ready by graduation. SDR will place item on next Student Success agenda for action and J. Lopez will take to SGA for portal vote.

4. Discuss Result of placement test

Angela Tos shared work that is being done on the placement test

5. Follow-up to Student Success Conference

Team shared what they learned from the Strengthening Student Success Conference, T. McGee shared that she was impressed with information she learned about supplemental instruction, tutors, and assigned tutors to basic skills classes. A. Bryant shared the wealth of information she received from the Financial Aid sessions, and the notation of Financial Aid I.Q., SDR shared information on the CalPASS sessions and "Ask Lane" robust online serves at Lane Community College in Oregon; A. Tos shared information on the data on Completion by Design, Loss Points, Momentum Points, Achieving the Dream, "It is not Over in October" and Stay until May campaign at Sacramento Community College, learning community about how

effective retention is, and how to make it universal. All committee members that attended felt it was one of the best conferences and should be something that members are able to attend next year.

6. Receive Updated Strategic Planning Grid on progress made

SDR distributed copies of the revised Strategic planning grid with changes made from last Student Success Committee meeting. A small 3 hole punch was requested by team members so that can punch holes in their documents and put in their binders. SDR stated she would get them.

7. Receive Proposed WHCCD Strategic Plan Goals 2011-2016

SDR distributed copies 2011-2016 Strategic Planning which focused new goals and targets/

8. Tasks to be completed

- a. Revised Student Equity Plan
- b. Revised Student Transfer Plan
- c. Follow-Up to Student Town Hall Matrix

SDR shared that the goals of the activity was to have members break off into teams, with J. Lopez facilitating the Student Town Hall matrix revisions, M. Rodriguez facilitating the revision to the Transfer Plan and SDR facilitating revising to the Equity Plan. Members were given additional data and using the data in their binders to examine the following:

1. What does the data say
2. What does this mean
3. What is the goal
4. How will we get there
5. Timeline
6. Who is responsible
7. Where to for to get more information
8. Resources and Funding

Team members were assigned to work in groups and share back. Based on the discussins, team members felt the need to come back together to finish in January.

9. Other:

- a. WISE-Up- T. McGee and M. Rodriguez shared that they were working with the local credit union to deliver a WISE-UP session to there is students on April 8th from 9:00-12. The purpose is to help student understand how to manage their money

**West Hills Community College District
Strategic Planning
July 14, 2010
Harris Ranch**

**Student Success Workshop
9:00 a.m.-12 noon**

Goals

- **Focus attention and confirm strategies to strengthen WHC's student success culture**
- Briefly review accomplishments since last strategic planning session
- Achieve common definition/understanding of student success
- Engage best thinking of participants
- Understand strategies and related metrics tied to improve student success

Agenda

- Welcome Dr. Gornick
 - What is student success?
 - Why does student success demand our attention?
 - We need your help to strengthen our thinking – as we formulate the most effective strategies, focus attention, and seek to enhance student success.
- Introductions/brief warm up Facilitators/All
- Review of goals and accomplishments - Dr. Gornick, Pedro Avila
 - Scorecard review
 - New metrics related to student success
- Distance Education Trends (opportunities to support student success in a world of reduced resources) Susan Whitener
- Break 10 min.
- Facilitated Group Discussions Facilitators/All
 - Identify barriers to student success [informed by IR data]
 - Identify strategies to reduce/eliminate barriers.
 - What should we be doing more of?
 - What should we be doing differently?
 - What should we stop doing?
 - Prioritize student success strategies/goals and refine metrics as appropriate
- Next Steps Facilitators/All
- Close Dr. Gornick

**West Hills Community College District
Strategic Planning
July 14, 2010
High School Outreach Workshop
1:00-4:00 p.m.**

Goals

- Focus attention and practical action on increasing the college-going culture among high school students/graduates in the Central Valley
- Sharing the “IS” map—what WHCCD and high schools are doing now to encourage college enrollment in general, and specifically at WHCCD colleges
- Engage best thinking of participants
- Co-create strategies and related metrics to improve student enrollment by area high school graduates at WHCCD colleges

Agenda

- Welcome Dr. Gornick
 - Why education beyond high school is important in today’s world—to students, families, economic development, the Valley
 - WHCCD is a partner with the public schools, helping students to succeed beyond high school; enhanced college attendance and student success is our bottom line goal
 - We are eager to work with you to increase the college-going culture and to encourage confidence in WHCCD colleges as a top choice of your graduates
- Introductions/brief warm up Facilitators/All
- Current high school participation data and Cal Pass Pedro Avila
- What are we currently doing to encourage college attendance?
 - WHC outreach strategies Sylvia Dorsey/Jill Stearns
 - Early Registration for High School Graduates
 - High school strategies High School Principals
- Break
- Facilitated Group Discussions Facilitators/All
 - Identify barriers to college enrollment anywhere and at WHCCD colleges
 - Identify collaborative strategies to reduce/eliminate barriers.
 - What should we be doing more of?
 - What should we be doing differently?
 - What should we stop doing?
 - Prioritize strategies/goals and define metrics
 - Determine how/how often to communicate results/issues
- Next Steps Facilitators/All
- Close Dr. Gornick

**West Hills Community College District
Strategic Planning
July 15, 2010
Harris Ranch**

**Workforce Development Workshop
9:00 a.m.-4:00 p.m.**

Goals

- Identify Strengths and Opportunities that may exist in the Central Valley
- Envision the “new or emerging economy” in the Central Valley
- Identify workforce development requirements for the new economy
- Focus attention and identify practical action steps – by engaging the best thinking of participants
- Co-create strategies to effectively shape the new economy
- Co-create strategies for meeting related workforce development needs

Agenda

- Welcome Dr. Gornick
 - The Central Valley must be prepared to shape and respond to the new economy in order for the region and families to survive and thrive
 - WHCCD and its colleges are strategic partners in planning for and helping to create road maps to provide hope as our economy is transformed
 - We’re partners in workforce development, helping students and businesses to succeed
 - We want to draw on your best thinking today to help envision our economic and workforce future -

- Introductions and Table Discussions Facilitators/All
 - Valley Strengths and Opportunities

- Today’s Central Valley Economy WIB and EDC Experts

- Brief Overview: Current WHCCD Carole Goldsmith
 - Workforce Development Activity

- Working Groups: Trends that will Impact the Future of the Central Valley

- Working Groups: Comparing the current Central Valley Workforce with what will be needed in three to five years

- Working Groups: Workforce Gaps/Needs/Social Consequences

Lunch

WHCCD

Eaton Cummings Group

Workforce Development Workshop
July 15, 2010
9:00 a.m.-4:00 p.m.

Agenda-Continued

- Working Groups: Our Future Vision for Economic Development in the Central Valley
- Our Vision in Action
- Roles and Opportunities
 - Who does what?
 - Who else needs to be at the Table?
- Communications Strategies
- Next Steps
- Close

Mission

The mission of West Hills Community College District is enhancing student learning and enriching the lives of the populations we serve by:

- Ensuring the vitality of its institutions;
- Encouraging the vision of strong leaders able to see and interpret the present and future needs of students and communities;
- Supporting the colleges in the provision of world class learning environments;
- Providing for appropriate allocation and management of human, fiscal and capital resources;
- Acting as a catalyst for collaboration with outside organizations and agencies; and
- Sharing the story by marketing a positive image.

Vision

West Hills Community College District, a trusted steward, actively engages, encourages, enriches and empowers students, faculty, staff and the communities it serves to reach their full potential (academically, socially and economically) as evidenced by:

- Its status as the preferred choice of students, and the employer of choice for faculty and staff;
- The highest percentage of students completing courses;
- Its recognized excellence; and
- The generally ascribed accolade, "heartbeat of the community."

District Timeline 2008-2009

Aug

- WHCC bid approval for \$10 million for wellness center
- Xireme Registration at WHCL
- West Hills' enrollment up 20% since previous year

Jan.

- Construction starts on the WHCC gym and wellness complex

Feb.

- West Hills Chancellor Frank Gornick honored at state level

Mar.

- Bridge Out of Poverty conference with guest speaker Ruby Payne
- Valley Fever Forum at WHCC

Sept.

- Noted Author Gary Soto speaks at WHCL
- WHCL trike-a-thon raises funds for St. Jude's Children's Hospital

April

- Phyllis Roberts donates \$25,000 for scholarship endowment.

May

- Vince Morre donates \$12,593 to help fund a new weather station for Coalinga

Oct.

- WHCC 12th Annual Athletic Hall of Fame
- UC Merced Chancellor Sung-Mo "Steve" Kang visits WHCC
- Third Annual WHCL Veterans Appreciation Luncheon

- WHCC and WHCL awarded more than 700 degrees and certificates

Nov.

- School facilities improvement districts approved by local voters providing \$11.6 million for WHCC and \$31 million for WHCL. Firebaugh passed its bond measure June of 2008.

Dec.

- West Hills College wins \$792,920 grant to serve veterans

- Sandy Cavins, the district's longest-term employee, retires after 40 years

West Hills College Coalinga

Mission Statement

To commit college-wide staff and resources to the student learning process. To provide educational, cultural, and economic development opportunities to our current and future students and the local and global communities that we serve.

Vision Statement

West Hills College Coalinga strives to become a premiere interactive learner-centered community college recognized for its contribution to the educational, social, cultural, and economic vitality of the region and the state.

Achieving goals despite economic challenges

The economic challenges of these past few years have not deterred us from achieving our mission. Despite significant budget reductions, our enrollment for 2008-09 was 13 percent higher compared to 2007-08. This is directly attributable to our talented faculty and staff who have found ways to be more efficient and productive with fewer resources to ensure student access and success.

In June 2008, citizens in the northern part of the district passed Measure Q, an \$11.8 million general obligation bond measure. In November 2008, citizens in the Coalinga-Huron area passed Measure C, an \$11.6 general obligation bond measure. These bond measures will provide resources for facilities improvements that will impact current and future generations.

General obligation bond funds have already made a difference. Significant improvements have been completed at the North District Center in Firebaugh. A facilities planning team has been working with campus architects to design a new building to replace the existing campus center.

Major improvements have also been completed on the Coalinga campus. The men's residence hall (Gordon Hall) received a facelift. Two new relocatable buildings were added to the child development center. Bond funds have been used to assist with the wellness center project (gym renovation and additional 10,000 sf building) and the ag science facility. The wellness center is scheduled for occupancy in the fall 2010.

Providing access to high quality education opportunities for all residents in our service area continues to be the focus of our overall mission. In 2010-11 we will open learning/outreach centers in several of the smaller communities within our service area.

Improvements to institutional effectiveness processes have taken center stage. We are now utilizing measurable outcomes on a regular basis to guide planning and resource allocation decisions. Results from the assessment of performance indicators, program review, and other evaluative processes are being used to make improvements to student learning. The results of some of these assessments can be found at http://www.westhillscollege.com/coalinga/about/governance_planning/college_consultation/index.asp.

Our vision of becoming "a premiere interactive learner-centered community college" continues to guide our efforts in making a difference in the lives of our students and in contributing to the vitality of the communities we serve.

Willard Lewallen
President, West Hills College Coalinga

Grants:

Total grant funding in 2008-09 exceeded \$5 million for WHCC.

President's Scholars:

A total of 22 students received President's Scholars scholarships for 2008-09. This scholarship covers enrollment fees and provides a book allowance each term.

Successful Transfer:

The number of students transferring to four-year institutions in 2008 increased by 58% from 2007.

West Hills College Lemoore

Mission

West Hills College Lemoore enriches the lives of our students and the community we serve by being dedicated to quality educational learning opportunities and partnerships. The college provides a positive environment that is committed to student learning and empowering students to achieve their educational goals.

Vision

Learning Through Excellence and Innovation

WHCL planning for the future with new programs, facilities

The academic years 2008-09 and 2009-10 will have seen extraordinary cuts to community colleges as the result of the state's recent economic downturn. West Hills College Lemoore will have reduced its operating budget by over \$2.2 million while at the same time maintaining its priority and focus on students.

Course offerings were reduced yet we were able to maintain our commitment to general education, basic skills, workforce development, and degree level courses.

With all the reductions to the general fund, WHC Lemoore still celebrated its groundbreaking for the new \$24 million multi-use sports complex that begins phase three of the college's master plan. It is scheduled to open in March 2011.

Our Allied Health program has been able to withstand budget reductions and will expand its offerings with new courses. Highly skilled technical program training will remain a strong demand throughout the state and West Hills is positioned to provide training.

Our newly developed Engineering Scholars Program provides financial support to more students by providing full tuition and books to qualified students. WHCL will play a key role in preparing students for great career opportunities.

All this is just a small list of the many ways West Hills is a leader in providing quality educational opportunities for the communities that we serve. Even in times of great difficulty, with hard work and teamwork, great things can still happen.

West Hills College Lemoore will continue to be a leader in assisting the state to recover from its economic downturn.

Don Warkentin
President, West Hills College Lemoore

Grants:

Total grant funding in 2008-09 exceeded \$3 million for WHCL.

President's Scholars:

A total of 48 students received President's Scholars scholarships for 2008-09. This scholarship covers enrollment fees and provides a book allowance each term.

Successful Transfer:

The number of students transferring to four-year institutions in 2008 increased by 22% from 2007.

Foundation helps students realize dreams

The students at West Hills College are our future. Helping them realize their dreams of a college education will positively impact our communities and enhance the quality of life we appreciate now and in the years ahead.

As a proud member of the foundation board of directors, I've been privileged to work with a dedicated team of individuals who support the students of West Hills through their time, energy, leadership and philanthropy. Our foundation board consists of community members, civic leaders, businesswomen and men and agriculturalists from across our service area who value education and want to expand the higher educational opportunities for our children and local residents.

Ernest "Ernie" Drewry
President, WHCC Foundation

Special thanks go to three individuals who made substantial gifts to the foundation during 2009. Phyllis Roberts donated \$25,000 for an endowed scholarship at WHCC. Vince Morre contributed \$12,500 to help fund a new weather station at the WHCC Farm of the Future. George Ollikkala donated a substantial art collection to libraries throughout the district. We thank them and the many others who contributed to help our students realize their dream of a college education.

Foundation Mission

The West Hills Community College Foundation enthusiastically engages residents, corporations, foundations and communities of the San Joaquin Valley in financial support and advocacy for the West Hills Community College District. We are entrepreneurial partners with the colleges as we plan and implement programs to build relationships and raise funds.

The Foundation Vision

Our vision is to be a dynamic, legacy organization recognized for:

- The Foundation's \$5 million endowment (by 2008),
- 140 new scholarship funds,
- Establishment of a successful "new alumni" fundraising program,
- An effective and engaged board,
- Significant contributions to the "K-16 Dream" (creating a college-going culture among K-12 students) and,
- Sponsorship of cultural, educational and economic development programs.

The Foundation— Guiding Principles

The West Hills Community College Foundation applies the following guiding principles in its conduct of business:

- Advocate for education and its ability to change lives,
- Practice responsible stewardship,
- Maintain respect for others,
- Conduct business in an open and transparent manner,
- Support diversity and inclusiveness,
- Demonstrate reliability and accountability, and
- Exemplify a commitment to serve students and the community.

Enrollment

DIALOGUE

A WEST HILLS COLLEGE QUARTERLY

JANUARY 2008

VOL. 10 NO. 1

West Hills College All Class Reunion, Celebrating 75 years

West Hills Community College District will host an all class reunion on Saturday, April 26, 2008, in the West Hills College Coalinga gymnasium from 10 a.m. to 4 p.m.

"We are really excited about the all class reunion," said Barbara Caganich, executive director of the West Hills Community College Foundation. "Our hope is to create an event where individuals affiliated with West Hills can come together and celebrate the history of our district."

The reunion will include tours of the two campuses and the North District Center, Firebaugh, lunch and key note speakers. All West Hills' alumni, faculty, staff and friends are invited to participate in this day of celebrating 75 years of service to the San Joaquin Valley.

Admission to the all class reunion is free. A buffet style lunch will be served. Lunch tickets are on sale now and can be purchased through the West Hills Community College Foundation by calling Karen at (559) 934-2127. There is a discounted price for early bird purchases until Feb. 29, 2008. The last day to purchase lunch tickets is April 11, 2008.

The all class reunion is sponsored by Educational Employees Credit Union, Pepsi and West Hills Community College Foundation.

Coalinga College Class of 1939, graduates pose in front of Coalinga High School, the college's home until 1954

WHCCD Considering School Facility Districts

Making plans for the future is always on the agenda for the West Hills Community College District Board of Trustees and, as one of the fastest growing districts in the state, those plans include new buildings and facilities.

Paying for those new improvements is a challenge that the district is exploring with the help of possible school facility improvement districts, according to Mark McKean, a Riverdale farmer and president of the board.

Essentially, McKean said, a SFID is a designated area of the district where voters decide on a possible tax increase in their area with all funds generated staying in that area.

"At this point," McKean said, "the board is considering creating three SFIDs in WHCCD district—one centered in Firebaugh, another in Lemoore and one in Coalinga."

At its November and December meetings, the board heard presentations by representatives of Dale Scott & Company, a firm from San Francisco specializing in SFIDs.

Ray Giles outlined the process for trustees and presented a timeline for actions that would take the district up to a June 8, 2008, election.

McKean said that if the SFID method is pursued, the district would probably place the measure on the Firebaugh/Mendota area ballot first. If approved at a projected tax rate of \$18.75 per \$100,000 of assessed valuation, the district could raise \$12 million. That money would be used for a local match, which would probably be combined with State higher education bond monies to provide \$36 million for construction at the North District Center, Firebaugh and in other communities in the area.

The board heard additional information at its December meeting from Jon Isom from Dale Scott but no action was taken. Board members asked for additional information from Isom.

Mark McKean, Riverdale farmer and president of the WHCCD board

Stratford Women Share Journey to Become Teachers

Four Stratford women have an exceptional, and emotional, tale to tell about their road to becoming teachers for the Reef-Sunset School District, which serves Avenal and Kettleman City.

Zariana Camacho, Rafaela Llamas, Adelina Mora and Christina Meza are all neighbors and related not just by blood and marriage but also by their voyage to become teachers—a voyage with a send off that they attribute to Tom Hewitt, the now-retired principal at Stratford Elementary School where they all worked as teachers' aides.

A fifth woman, Cynthia Mora, is mid-way through the process of becoming a teacher and is a close part of the group.

Rafaela, the first to begin the journey, was working as an aide when Mr. Hewitt encouraged her to apply for a Kings County para-professional program that would pay all college expenses for her to become a teacher.

With two young children and a husband who counted on her being available, she was hesitant—but Mr. Hewitt persisted. She enrolled in classes at West Hills College Lemoore, found success in the education classes taught by James Preston and the rest is history—repeated four more times.

Adelina was next. She missed the deadline for applying for the para-professional program and Mr. Hewitt reminded her the following application cycle.

She, the group contends, is the rock. Through the tough times of dealing with marriages, small children, working long hours in two and sometimes three jobs at a time, Adelina was the shoulder to cry on, the person who took extra notes, or the one who drove them when they had car trouble.

"No matter how tired she was," Rafaela says, "she was always there for us."

She was also the least confident that she could succeed in college.

"I knew I wanted to be a teacher but I didn't think I could do it," she said. "I took classes right out of high school and I didn't succeed."

But succeed she did.

She said she kept hearing about this Mr. Preston. "Mr. Preston did this and Mr. Preston did that. I didn't think I was ever going to be able to take a class from him because I worked mornings when he taught."

But Mr. Hewitt stepped in and allowed her the flexibility to take a class from Mr. Preston and she joined the chorus of Mr. Preston's singers of praise.

Mr. Hewitt held graduation parties for the women and even sent them money when times were tough.

"I couldn't quit because of Mr. Hewitt," Adelina said.

Zariana says she always knew she wanted to be a teacher.

"My grandmother was a teacher in Mexico," she says. Now her son aspires to be an astronaut and she tells him that college makes anything possible.

Stratford teachers (l. to r.) Zariana Camacho, Cynthia Mora, Rafaela Llamas, Adelina Mora and Christina Meza.

Christina, the quietest of the group, says that she and her friends are now giving back some of what they got.

"Our teachers cared about us. They stayed in touch. We became a family and now it's time to give some of that back."

"We knew we were going to be good teachers because we cared so much. We are so much more than teachers out in that community (Avenal). It feels good to be that way."

"We love the kids and the community. The parents are appreciative. We understand them because we came from the same place—our parents were low income farm workers. We want to give back."

Cynthia, the youngest in the group, is now enrolled in an 18-month liberal arts program offered by Fresno Pacific University on the campus of West Hills

College Lemoore. No surprise. Mr. Preston told her about it.

"My goal was to go to Chico State," she says. She did go to San Francisco State for a while but came back to Stratford. After all, it's home. And it's where her sister, Adelina; her sister-in-law Zariana and her cousin, Christina, are all there to support her in her quest to be a teacher.

Spring semester classes start Jan. 14th—enroll today

A new semester kicks off Monday, January 14th, at West Hills College but there's still time to apply for admission and enroll in classes.

The district website, westhillscollge.com, offers 24/7 service to students including admissions applications, college catalogs and class schedules.

For those who need a more personal touch, Xtreme Registration is planned for Friday, Jan. 11th from 6 p.m. to midnight at West Hills College Lemoore. Faculty and staff members will be on hand to assist students with the enrollment process and counselors and advising specialists will meet with students on a first come/first serve basis. Placement tests will also be given that night.

This will be the third Xtreme Registration event at WHCL. As with the previous two, food and entertainment will also be featured along with a host of prizes including iPods, gift certificates and pen drives.

Comedian Phil Van Tee will appear at 7:30 and 9:30 p.m.

Discover the enriching experience of learning and improve your Spanish in

Costa Rica

March 13th - March 22nd

Immerse yourself in the beauty, history, culture and language of Spanish in Spring 2008. Short term classes will begin at West Hills College Lemoore, Coalinga/Firebaugh and continue in Heredia, Costa Rica.

ing a Difference

h "There is potential within every human being. We should teach this."

He talks of dealing with troubled students on a daily basis and using the words of the code to empower them and give them hope for a better future.

"I saw dead bodies as I walked to school in Harlem," he adds, "and I had students recite the code."

His Coalinga students are also challenged with hurdles in life. On a daily basis, he says, he tries to help students whose families are impacted by drugs and alcohol, physical abuse and poverty.

"There is potential within every human being," he says, noting that his Delano's Code is a foundation for teaching. "Our job is to inspire students and plant seeds. It's wonderful to have your students surpass you."

Notes from current and former students give a hint of his gift in the classroom:

"I want to tell you thank you for being such a great teacher and encouraging me to be better than I thought I could be...I hope your students value the rare instruction they are receiving from you." -Avni, now a Ph.D. student at the University of Memphis who is taking courses on Kant's Critique of Pure Reason, Global Ethics and Plato's Republic.

"Thank you for giving us the ability to feel like an adult, and for everything you are teaching us." -Amber.

But Delano claims to be no different from his peers.

"I can't differentiate myself from other members of the staff (at Coalinga High School). They have energy, a love of learning, depth to their study and they pursue excellence."

WHCC Life

Abel Camarena was a Coal miner who ventured far from home. In 1960, he went to college, West Hills College, where he found a good fit.

"My family didn't travel in the home body and so it was good for me to get out just right for me."

"It was a place where I could do what I wanted to do."

But the college motto, "Outdoors anywhere," certainly held true for Camarena who was very competitive and wanted to take on the world.

West Hills helped launch Camarena's career with the U.S. Forest Service. He worked as a biologist and manager. He is now a deputy regional forester—overseeing members watching over forest lands in national forests covering 21 million acres in Texas, Oklahoma and his home state of Mexico.

Camarena reminisced about attending his hometown college.

"It was the late 60s," he said. "It was a homey environment. Several of my classmates were also there but I had the opportunity to connect with people from all over the world."

"There were these two guys from China, who were real pistol whippers and I tried hard to keep up."

"There were Hawaiians who were a memory he recalls while at West Hills. The Falconaires, a musical group that performed at the college."

International

Jozef Mondec and Martina are becoming more and more visible on campus.

Far from their homes in Sweden, they are now students at West Hills College. Jozef is 27. "When I was 17, I moved to Colorado in Colorado Springs."

"I have had one of the best experiences here. It has far surpassed my expectations."

"Even though it's a small college, I want to experience American culture."

International students Jozef and Martina.

Life of U.S. Forest Service Manager

He is now showcasing West Hills and its impact on his career.

Music has always been important to Camarena and he has introduced his passion for music to his wife of 38 years, the former Kathryn Chase, who grew up in Avenal and was a singer at West Hills.

Camarena married her for her voice but she sure can play the guitar.

Camarena worked for the U.S. Forest Service for a number of years in the western U.S. He worked as a biologist and manager. He is now a deputy regional forester—overseeing members watching over forest lands in national forests covering 21 million acres in Texas, Oklahoma and his home state of Mexico.

Abel Camarena remembers the 60s at WHCC.

Camarena moved to New Mexico in 1994, he served six years as supervisor of Gila National Forest, one of the most scenic year-round recreation areas famous for being the home of Apache leader Geronimo.

He started his current assignment in the regional Forest Service office in 2000 and plans to continue to live in the area after retirement.

"New Mexico has become our home," he said, "but we have seven grandchildren and spend time with them in Tucson and Mesa, Arizona."

Camarena said they also frequently visit the San Joaquin Valley. His mother, Mary Nevarez, lives in Lemoore now and Kathryn's parents, Mary Lou and Hillis Chase, live in Hanford.

And he also plans to pursue his musical passion. He's taken up fiddling and looks forward to taking his talent to shut-ins in nursing homes.

And then there are the "his and hers" motorcycles. "There are lots of open roads," he says of New Mexico.

West Hills provided a good launching ground for Abel Camarena. Hard work and determination have taken him over many miles in a career of public service. Retirement offers new adventures.

"Once you go here, you can go anywhere," he certainly held true.

Enjoy Small College Atmosphere

The government leadership team at West Hills College. Coalinga and they represent a group that is becoming a little older than most of the 120 WHCC international students but their ages reflect the average local level of education," Jozef says.

Jozef's friend, Frank Sjöberg, who graduated from WHCC and is now a student at the University of California, San Diego, says, "Being involved with associated student body, planning events, making new friends, meeting new people, and working on campus are all things that make the West Hills' experience special. She also notes that working on campus has been a good experience for her.

Jozef and Martina, who first met in Sweden, has also enjoyed the opportunity to go on field trips—Gilroy for wine, San Francisco, Los Angeles, Yosemite. "These are places I've read about but I just couldn't imagine that I could be there. We've experienced so much in 2 years," Martina says.

"What I'm going to remember are the people," she adds. "I will be in touch with them for a long time. We were invited to Thanksgiving with a local family—you can never replace that."

Jozef, who hopes to one day own his own company, says that his business classes at WHCC have been helpful. He is listing several favorite instructors—Sarah Shepard, Scott Sutherland, Jim Grant, David Reynolds, Arce and Ken Sowden. Jozef and Martina say that all teachers have given them something, like the saying (Once you go here, you can go anywhere), says," Jozef notes, "I'm ready for the next step."

Martina adds, "This is a good school because classes are small and you get a lot of help if you want it." Jozef and Martina say that all teachers have given them something, like the saying (Once you go here, you can go anywhere), says," Jozef notes, "I'm ready for the next step."

Future of Special Needs Children is WHCL Workshop Topic

Planning for the future of special needs children will be the topic of a workshop at West Hills College Lemoore on Saturday Feb. 23rd from 9 a.m. until noon. Sylvia Dotsey-Robinson, associate dean at WHCL, says that the workshop is aimed at parents of children who are disabled.

The six topic areas that will be discussed are:

1. Overview of government benefits
2. Future planning including government benefits and eligibility for SSI and Medi-Cal.
3. Legal aspects including wills, trusts, probate, guardianship, special needs trusts and conservatorship, client self-determination and advocacy issues.
4. Financial aspects including housing needs and appropriate funding vehicles to guarantee quality of life.
5. Guardian ad litem/letter of intent.
6. How to get started and the process.

Guest speaker at the event will be Helen Kim Bass, a financial representative with New England Financial and the mother of a special needs child.

With more than 20 years experience in the financial services industry, Bass is a specialist for MetLife's Division of Estate Planning for Special Kids. Her work with the special needs community stems from a traumatic brain injury to her youngest child, Daniel, in 1986.

To RSVP for the free workshop, contact Elva Torrez at (559) 924-3333. Reservations are limited to 100 people.

New AOJ Course Helps Students Identify Careers

Troy Holsonbake, AOJ Instructor

Beyond the Badge—a new administration of justice class (AOJ 12) at West Hills College has been designed to help students identify career opportunities in law enforcement, according to AOJ instructor Troy Holsonbake.

"Basically it is an introductory course set up for students coming into AOJ who don't have the slightest idea about the many different fields and the jobs within those fields that are available," he said. "The main objective is to have a student identify a position in an agency or area that interests them and map out the path to obtaining that goal. Whether that position is a

head cook supervisor in a maximum security prison or a sniper/spotter on the Secret Service's Counter Sniper Team, I want the student to understand they can achieve their goal, their "dream job." All they need is a determined mind, the right training and education, and the will to see it through.

"Sometimes, students are told by friends, family and advisors that they need to complete A, B, and C in order to do a certain job when in actuality the job requirements have changed. I am hoping this course will start them in the right direction and give them a plan and a contact person.

"I wish I had been given access to a class like this when I went through college," Holsonbake concluded.

For spring semester, the class will be offered in Coalinga, online and at WHC centers in Firebaugh and at Naval Air Station Lemoore.

For details visit the class schedule at westhillscollege.com.

NEWS AND NOTES

Skyler Norris, was named to the 2007 JC Grid-Wire Academic All-American Football Team. This is the 11th year in a row WHCC has had at least one player named to the team. Skyler was also the "Dick Woodson Academic Champion" this year for WHCC.

North District Center, Firebaugh hosts a new automated teller machine operated by Educational Employees Credit Union. WHC students now access their financial aid through debit cards at EECU and the ATM offers a full range of services to community members. Similar machines are in operation on the campuses of WHCC and WHCL.

WHCL's wrestling team finished 12th in the state in only their second year of competition.

Bret Land was fourth at 133 pounds and Matt Garcia was fourth at 184 pounds.

Both qualified as All-Americans. John Newton was seventh at heavyweight.

Team members are (front row, l. to r.) Brett Land, Ramon Cabrera, Johnny Coronado, Daniel Navarro, Luis Perez, Vincent Uribe. (middle row) Jonathan Luna, Matt Garcia, Josh Newman, T.J. Weir, Michael Henderson, Mitchell Moralez, (back row) Asst. Coach Justin McIend, Armando Gomez, Leonard Brown, Derek Sanchez, Adam Taylor, Asst. Coach Jim Macedo and Head Coach Kent Olson. Not pictured is team member Mike Adams.

Not Everything is Pink *By Andres Zamudio*

Not everything is pink for the girls of our small communities. Just ask Laura, a young lady who just finished high school last June. Laura's difficult situation is rather singular, but no less adverse than what other girls are going through: teenage pregnancy, drugs, etc.

It is difficult for me to see that our small communities (communities that any stranger would think of as close and united) face very similar problems as those of the big city. But we can solve them; at least we try.

Laura has had to face a twofold crisis: her family and herself. On one hand, her father, a relatively young man in his 40s, is on disability and cannot work. Physical impotency can make a man explode, and such tension can fragment his family and kids.

On the other hand, now that Laura has finished high school she has to think of the unknown future. She has to think about what she must do and what she wants to do. She can do what many others do—find a part time job, take it easy at the college and find a significant other to walk with at the park.

Laura has no time for all these. She has to help out with the finances of the family and the rest of the kids. And most importantly, Laura wants to be a children's physical therapist. A long way to go, no doubt about it, but not impossible either.

All of us at Workforce Connection know that Laura has a strong character and can strive to reach her goal. But how can someone do such a thing without being indifferent to her immediate family needs? In all honesty, I do not know. What I do

Andres Zamudio and Laura Montaño

know is that Laura can take one step at a time and start at West Hills College where plenty of people will help her.

Her personal situation is difficult. I know Laura. She's a great person. We'll see what we can do for her. But only she can make her dream come true.

No todo es color de rosa

Así es, no todo es color de rosa para las niñas de nuestras pequeñas comunidades. Basta con preguntarle a Laura, una chica que recién terminó la High School en junio. El difícil caso de Laura es muy singular pero no menos adverso al de las otras niñas, quienes a sus escasos 15 años de edad resultan embarazadas o adictas a las drogas. Caray, me

West Hills College Workforce Connection team includes (front row, l. to r.) Omar Mendoza, Ana Espinoza, April Chavarria, Mary Ann Rodgers, María Bernal, (back row) Robert Pimentel, Andres Zamudio, Jahel Esparz and Gerardo "Jerry" Escalante

resulta difícil saber que en nuestras pequeñas comunidades (que cualquier extraño pensaría muy unidas) tenemos los problemas de las grandes ciudades. Pero también podemos darles solución.

Sigamos hablando de Laura. Ella más bien ha tenido que enfrentarse a una crisis familiar y personal. Por una parte su papá, un hombre relativamente joven de no más de 50 años de edad, se encuentra deshabilitado y por lo tanto no puede trabajar como algún día lo habrá hecho. Estos casos no son nada fáciles, cobran un caro saldo a las familias afectadas. La tensión de la impotencia física a menudo explota y sobrevienen los problemas familiares que tanto fragmentan a los hijos. Por otra parte la incertidumbre después de terminar algo, en este caso la escuela, ahora tiene a Laura pensando en lo que debe y quiere hacer con su vida. Se puede hacer lo que medio mundo hace: buscarse un trabajo de medio turno, sobrevolar los estudios en el Colegio y buscarse por allí una pareja con quien salir a pasear por las tardes.

Laura no tiene tiempo para todo esto. Tiene que aportar dinero para los gastos de la familia pues hay hermanos que mantener. Aparte del deber Laura también tiene un sueño: quiere estudiar terapia física infantil. Sin duda alguna un largo camino por recorrer, pero no imposible. Nosotros los que trabajamos para Workforce Connection sabemos que Laura tiene el carácter y empeño para lograr su meta. ¿Cómo hacer tal cosa a pesar de

tanta dificultad, a pesar de no poder ser indiferente a las necesidades inmediatas de su familia? Pues yo no lo sé. Lo que sí sé es que Laura puede empezar el camino académico en West Hills College y dar un paso a la vez.

Es obvio que su actual situación familiar y personal es adversa. Yo en lo personal no creo en esa frase que dice que lo que no te mata te hace más fuerte. La persona humana ya es fuerte en tanto que es persona, simplemente tiene que vivir condiciones adversas que no hacen otra cosa más que humanizar. Conozco a Laura y sé que ella es un gran ser humano.

Editor's note: Andres Zamudio is a graduate of West Hills and Fresno Pacific University. He is now studying at Jesuit University, Guadalajara, Mexico, working on master's degrees in philosophy and social sciences. During vacations, he is a part of the Workforce Connection staff at West Hills College.

Celebrating 75 Years—A Profile of Students from the Past

Priti Patel is living an American dream. Born in London, the young woman arrived in Coalinga in 1987 when her parents, natives of South Africa, were hired to manage the Royal Lodge in Coalinga.

Priti, who considers Coalinga her second home, graduated from West Hills College in 1998 with an AA in liberal studies. She transferred to Fresno State and then to the University of California, San Francisco (UCSF).

The daughter of a family that treasures education, she completed a doctorate in pharmacy at UCSF in May 2004, and then did a one-year pharmacy residency at the Lucile Packard Children's Hospital at the Stanford Medical Center in pediatrics. She then took a position as a pediatrics clinical specialist pharmacist at Kaiser Permanente in Oakland.

Even with the specialized training in an exacting field, the Coalinga woman credits WHCC with part of her success. "I had a great time at West Hills and obtained an excellent education-- an

education that enabled me to be successful at Fresno State and UCSF."

Priti attended West Hills College Coalinga during a time, she remembers, "when programs were expanding,

Priti Patel

the college was on the upswing. The sports programs were back and there was a lot of construction on campus, but the library and other major buildings were in place."

"One of these days I'll take the time to return to see what the campus looks like now and to see the new campus in Lemoore.

"The instructors at West Hills are dedicated and care about their students," Priti said. "Much of the instruction was one-on-one which provided the essential tools for a student to thrive and succeed. In addition

to the classroom, I had the opportunity to be a tutorial

specialist for Upward Bound and as a tutor helping high school students with their classes and providing motivation to obtain a college education."

Some of the instructors Priti remembered as outstanding included Dave Bolt, now vice president of educational services for West Hills College Lemoore, Mary Forth, retired sociology instructor; the late Dr. Bob Holmes, chemistry; the late Norine Oliver, poly sci and history; David Hedgecock, geography and Dr. Jeff Vaughn, retired humanities instructor. She also mentioned counselors Sandra McGlorthlin, in Coalinga and Maria Henderickson, in Lemoore.

Apparently Priti's love of teaching continues as she holds an adjunct professor's position with the Thomas J. Long School of Pharmacy and Health Sciences at the University of the Pacific and works with pharmacy students as a preceptor.

Priti, now 28 and engaged to a fellow professional in Cleveland, Ohio, said she would pick West Hills College once again to start her path to her profession.

"Yes, I definitely would start with West Hills and I would continue to push younger people into getting an education-- it's the key to a successful future. Education provides you with the essential skills and training to achieve your goals."

The young woman currently enjoys running, hiking, snowboarding and traveling, but deep down it seems that somewhere in her future the love of teaching -- perhaps started with her mentors at West Hills -- will move her back into the classroom

WEST HILLS COLLEGE LEMOORE

Friday, January 11, 2008 Xtreme Registration 6:00 p.m. to 12:00 a.m.

- ◆ Comedian Phil Van Tee, show times 7:30 and 9:30
- ◆ Placement Testing
- ◆ Application Assistance
- ◆ Student Orientation
- ◆ Financial Aid Assistance
- ◆ Academic Counseling
- ◆ Drawings (gift cards, IPODS, Pen Drives, and much more)
- ◆ Music
- ◆ Snacks and Fun

Make this an evening with the whole family

NON-INSTRUCTIONAL PROGRAM REVIEW
West Hills College Lemoore

I. General Information

- A. Non-Instructional Program: _____
- B. List of Full Time Program Faculty and Staff:

II. Program Overview

- A. State the program mission. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. The program mission must align with the college's mission and goals. *(200 word limit)*
- B. List any recommendations from the most recent college/program/department accreditation and/or previous review. *(250 words or less)*
- C. Identify all personnel, including the number of certificated, classified professionals and volunteers.

Employee Classification:

Certificated _____ Classified Professional _____ Volunteer _____
Student Workers _____

Diversity (Race/Ethnicity)

- | | |
|---|--|
| <input type="checkbox"/> Native Am. /Alaskan Nat. | <input type="checkbox"/> African/African-American/Non-Hispanic |
| <input type="checkbox"/> Asian/Pacific Islander | <input type="checkbox"/> Caucasian/Non-Hispanic |
| <input type="checkbox"/> Hispanic | <input type="checkbox"/> Filipino |
| <input type="checkbox"/> Mixed | |

III. Qualitative and Quantitative Data Review

- A. Attach dashboard statistics here.
- B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific course/program/service. *(250 words or less)*
- C. Attach any other data maintained by your program or at the division level: (e.g. budget information regarding costs per program on personnel, equipment, supplies, delivery of services)
- D. What resources are required to maintain the program, and what additional resources are necessary to improve or expand it?

IV. Professional Development

- A. What professional development activities have faculty participated in? Have any of these professional development activities been technology related? Please specify.
- B. Relate how the professional development activities have improved student learning outcome attainment.
- C. Describe the program's plans for staff development over the next four years.

V. Curriculum and Student Learning Outcomes

- A. List your Non-Instructional Program-Level Student Learning Outcomes.
 - 1. Have any Non-Instructional Program-Level Student Learning Outcomes been changed from the previous program review? What are the changes? Attach documentation.
 - 2. Describe the assessment used to improve student learning. Cite a specific example.
- B. Explain how Non-Instructional Program-Level Student Learning Outcomes are used to measure quality and success of this department/service area.
- C. To what extent is technology being used in the program?
- D. How does the program ensure that current delivery of service is adequately meeting the needs of students?
- E. State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).
- F. Comment on how the success rate compares to the success rate of the same program at other colleges in the region. *(250 words or less)*
- G. Excluding curriculum validation, discuss community involvement in the program.
- H. Do special accreditations, external regulations, or advisory committees regulate the program? Yes No (if yes, list)
- I. Does the program have any special regulations, space requirements, staff training, etc.? Yes No (if yes, elaborate)
- J. Is there evidence of unmet student needs in the program? Yes No (if yes, elaborate)

- K. Describe the initiatives the program has implemented to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical, mental disabilities, re-entry, gender, etc.)
- L. Discuss the program's use of external funding, including grants, if applicable.

VI. Summary and Recommendations

- A. What actions have been taken to address the assessment and improvements of program learning outcomes?
- B. Based on analysis of the information provided in I through VII, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.
 - 1. Program strengths
 - 2. Areas that need improvement
 - 3. Strategies and actions for program enhancement and improvement.
- C. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

Revised: 4/10

V. Curriculum and Student Learning Outcomes

- A. List your Instructional Program-Level Student Learning Outcomes.
 - 1. Have any Instructional Program-Level Student Learning Outcomes been changed from the completion of the previous program review? What are the changes? Attach documentation.
 - 2. Describe the assessment used to improve student learning. Cite a specific example.
- B. Explain how Instructional Program-Level Student Learning Outcomes are used to measure quality and success of this department/service area.
- C. Review course outlines and prerequisites. List all courses that apply to this program requiring a five-year course outline review.
 - 1. Describe the curriculum changes anticipated in the next two years. (These changes would include major course revisions, deletions, new courses, revised or new options within a program, or a proposed new program).
- D. To what extent is technology being used in the program?
- E. How does the program ensure that the current curriculum is adequately meeting the needs of the students?

VI. Career Technical Education Only

- A. Does your program result in providing licensing or certification to its program graduates which will enhance opportunities for employment? If yes, list.
- B. Discuss the opportunities available to students who plan to transfer to an institution of higher learning.
- C. Discuss the effectiveness of your program in terms of:
 - 1. Entry-level job placement as a result of training.

2. Effectiveness of continuing education to meet the need for advanced training and/or training in emerging technologies.
 3. State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).
 4. Comment on how the success rate compares to the success rate of the same program at other colleges in the region. *(250 words or less)*
- D. What would be the preferred sequence of courses to be taken to achieve your program's goal of a degree or certificate?
- E. How does the program ensure that the current curriculum is adequately meeting the needs of students?
- F. Excluding curriculum validation, discuss community involvement in the program.
- G. List any special accreditations, external regulations, or advisory committees that have oversight to your program.
- H. List any special regulations, space requirements, staff training, etc. required by your program.
- I. List any program initiatives to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical, mental disabilities, re-entry, gender, etc.).
- H. Discuss the program's use of external funding, including grants, if applicable.

VII. Summary and Recommendations

- A. Based on analysis of the information provided in Sections I through VI above, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.
1. Program strengths:
 2. Areas that need improvement:
 3. Strategies and actions for program enhancement and improvement:
- B. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

1.

We are evaluating the Library/Learning Resources Center and its website in order to provide you with the best services. Please take a few minutes to complete this survey. Thank you.

* 1. Which of the following best describes you?

- West Hills College-Lemoore (WHCL) student
- University Charter School student
- Middle College High School student
- Faculty
- Staff
- Member of the Community

* 2. How often do you visit the WHCL Library/Learning Resource Center on campus?

- Daily
- Two or more times per week
- Once a week
- Once a month
- Once or twice throughout the semester
- Never

* 3. Please check all the reasons you visit the Library/Learning Resource Center in person. (Check ALL that apply)

Board Policy 2410 Policy and Administrative Procedure

Reference: *Education Code Section 70902; Accreditation Standard IV.B.1.b and e*

The Board may adopt such policies as are authorized by law or determined by the Board to be necessary for the efficient operation of the District. Board policies are intended to be statements of intent by the Board on a specific issue within its subject matter jurisdiction.

The policies have been written to be consistent with provisions of law, but do not encompass all laws relating to district activities. All district employees are expected to know of and observe all provisions of law pertinent to their job responsibilities.

Policies of the Board may be adopted, revised, added to or amended at any regular board meeting by a majority vote. Proposed changes or additions shall be introduced not less than one regular meeting prior to the meeting at which action is recommended.

Administrative procedures are to be issued by the Chancellor as statements of method to be used in implementing Board Policy. Such administrative procedures shall be consistent with the intent of Board Policy. Administrative procedures may be revised as deemed necessary by the Chancellor.

The Chancellor shall, annually, provide each member of the Board with copies of the policies and administrative procedures or any revisions since the last time they were provided. The Board reserves the right to direct revisions of the administrative procedures should they, in the Board's judgment, be inconsistent with the Board's own policies.

All policies and administrative procedures shall be readily available through the Chancellor's Office and/or the District website.

Board approval date: 9/23/03

Revisions approved by the Board: 3/7/06

Administrative Procedure 2410 Policy and Administrative Procedure

Reference: *Education Code Section 70902*

Board Policies and Administrative Procedures are regularly reviewed by the Chancellor's Office. The Chancellor makes recommendations to the Board of Trustees concerning revisions to existing policies and procedures or the development of new policies and procedures to ensure that they are current and comply with state and federal laws.

Any employee, student, or member of the public may initiate a review or development of any policy or procedure by submitting a request or recommendation in writing to the Chancellor's Office.

Review and Approval Process

Upon receipt of the request or recommendation, the Chancellor's Office may refer to the Community College League's Policy and Procedure Service for recommended or legally advised language. The Chancellor's Office may also use the Policy and Procedure listserv to query other districts for related Board Policies or Administrative Procedures. In some instances, the Chancellor's Office may request that legal counsel review the policy or procedure language. Other employees with expertise in specific areas governed by a Board Policy or Administrative Procedure may also be consulted during the review process.

After initial review by the Chancellor's Office, the policy and/or procedure will be routed to the supervisor, manager or Dean of the appropriate department, if applicable, for review (i.e. Student Services, Human Resources, Business Office, etc.). Following the applicable review, the policy and/or procedure will be routed as follows:

1. Policy and/or procedure to be reviewed and discussed by the Chancellor's Executive Cabinet.
2. After review by the Chancellor's Executive Cabinet, the policy and/or procedure will be sent to the College Consultation Council (CCC) at West Hills College Coalinga and the Planning and Governance Council (PGC) at West Hills College Lemoore (through the College Presidents) for review and approval, if applicable. Simultaneously, the policy and/or procedure will be sent to the Academic Senate Presidents and the Faculty Association President as a courtesy.
3. Review and approval by the Academic Senate Presidents will be requested only if the policy and/or procedure deal(s) with academic and professional matters. Review and approval by the Faculty Association President will only be requested if the policy and/or procedure has or will have a significant effect on faculty.
4. After review by the CCC and the PGC, any comments, recommendations or actions taken with regard to the policy and/or procedure shall be sent to the Chancellor's Office by the College Presidents.

Administrative Procedure 2410
Policy and Administrative Procedure

5. In the case of review and approval by the Academic Senate Presidents or Faculty Association President, any comments, recommendations or actions taken with regard to the policy and/or procedure shall be sent to the Chancellor's Office by the individuals serving in those capacities. As a courtesy, the comments, recommendations or actions taken should also be sent to the College Presidents.
6. The Chancellor's Office will take the policy and/or procedure to the District Leadership Council (DLC) for review and approval.
7. After DLC review, and upon final review by the Chancellor, the policy and/or procedure will be placed on the Board of Trustees agenda for a first reading, with consideration to follow at a subsequent meeting.

Submission of Policies and Procedures for Review

When submitted to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President, and the DLC, the policy and/or procedure shall be accompanied by a routing form which will include the following information:

- Policy/Procedure Number
- Policy/Procedure Name
- Indication of new or revised policy/procedure
- Initiator of proposed new or revised policy/procedure
- Purpose for new or revised policy/procedure
- Anticipated timeline for review and approval process

New policies and procedures will be submitted to the appropriate groups as a "clean" copy.

Revised policies and procedures will be submitted to the appropriate groups using the following editing marks:

- Deleted text to be shown in ~~striketrough print~~
- Added text to be shown in **bold print**

Nonsubstantive ("clean up" or "housekeeping") revisions to policies and procedures (i.e. names, title changes, addition or deletion of references) that do not change the intent or meaning of the policy or procedure may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President and the DLC as a courtesy.

Policies and procedures dealing strictly with the Board of Trustees may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President and the DLC as a courtesy. New or revised procedures that outline an existing process may be recommended by the Chancellor to the Board of Trustees for review and consideration without being routed through the review and

Administrative Procedure 2410
Policy and Administrative Procedure

approval process. However, the revised policies and procedures will be sent to the CCC, PGC, the Academic Senate Presidents, the Faculty Association President and the DLC as a courtesy.

Timeline

In most instances, policy and procedure review and approval will be based on a two-month cycle at the college level. Once the Chancellor's Executive Cabinet agrees to move new or revised policies and/or procedures forward to the CCC, PGC, the Academic Senate Presidents and the Faculty Association President, the review and approval process timeline officially begins. The groups will have 60 days in which to complete the review and approval process at the college level and submit final comments, recommendations or actions taken with regard to the policy and/or procedure to the Chancellor's Office.

At the completion of the 60 days (or sooner if the appropriate groups have completed their review and approval process), the policy and/or procedure will be placed on the DLC agenda for review and approval if applicable. Following DLC review, the policy and/or procedure will be placed on the Board of Trustees agenda for a first reading, with consideration to follow at a subsequent meeting. The Board of Trustees will be provided with the Chancellor's final recommendation, along with the completed routing form which will include the comments, recommendations and actions taken by the appropriate groups.

The timeline may be shorted due to various circumstances including, but not limited to, changes in law or urgent need. However, the Chancellor's Office shall notify all applicable groups of the shortened timeline.

After approval by the Board of Trustees, policies and procedures will be posted to the District's website. The College Presidents and Academic Senate Presidents will also be notified as to the status of the proposed or revised policies and procedures.

Board approval date: 3/7/06
Revised policy approval date: 6/26/07

Board Policy 2410 Policy and Administrative Procedure

Reference: Education Code Section 70902; Accreditation Standard IV.B.1.b and e

The Board may adopt such policies as are authorized by law or determined by the Board to be necessary for the efficient operation of the District. Board policies are intended to be statements of intent by the Board on a specific issue within its subject matter jurisdiction.

The policies have been written to be consistent with provisions of law, but do not encompass all laws relating to district activities. All district employees are expected to know of and observe all provisions of law pertinent to their job responsibilities.

Policies of the Board may be revised, added to or amended at any regular board meeting by a majority vote. Proposals shall be introduced not less than one regular meeting prior to the meeting.

Administrative procedures implementing Board Policy shall be consistent with Board Policy. Administrative procedures shall be consistent with the intent of Board Policy. Administrative procedures shall be consistent with the intent of Board Policy.

The Chancellor shall, in the implementation of administrative procedures, reserves the right to modify or amend administrative procedures, in his or her judgment, be inconsistent with Board Policy.

All policies and administrative procedures shall be maintained in the District Office and/or the District Office.

Stan Z
1.45

Methods of method to be used in implementing Board Policy shall be consistent with the intent of Board Policy. Methods of method to be used in implementing Board Policy shall be consistent with the intent of Board Policy.

Five copies of the policies and administrative procedures shall be provided. The Board shall provide five copies of the policies and administrative procedures should they, in the Board's judgment, be inconsistent with Board Policy.

All policies and administrative procedures shall be maintained through the Chancellor's Office.

Board approval date: 9/23/03
Revisions approved by the Board: 3/7/06

**Chancellor's Executive Cabinet Meeting
March 10, 2010**

MINUTES

Members present:

Pedro Avila, Vice Chancellor of Institutional Effectiveness and Enrollment Management
Carole Goldsmith, Vice Chancellor of Educational Services and Workforce Development
Frank Gorrnick, Chancellor
Donna Isaac, Executive Assistant to the Chancellor
Willard Lewallen, President, West Hills College Coalinga
Ken Stoppenbrink, Vice Chancellor of Business Services
Don Warkentin, President, West Hills College Lemoore

Others present at various times:

Susan Whitener, Vice Chancellor of Educational Planning

Task Log

The task log was reviewed as follows:

- Item 1 – Ken Stoppenbrink reported that Kevin Cobb is still working on developing a policy with regard to energy and sustainability. Carole Goldsmith volunteered to get some information from San Joaquin Valley Clean Energy Coalition. Frank Gornick directed her to work with Ken on this information.
- Item 2 – This item is on the agenda for discussion.
- Item 3 – This item is on the agenda for discussion.
- Item 4 – This item is on the agenda for discussion.
- Item 5 – This item is on the agenda for discussion.
- Item 6 – This item is on the agenda for discussion.
- Item 7 – Carole reported that she is working on a submission to ACCJC for both colleges. The substantive change information will be written separately for each college, but will be submitted at the same time. Frank stated that he wants to write a cover letter to go with the substantive change submittals.
- Item 8 – Ken reported that he has not talked to the campus bookstores yet as he was unclear on the task. Brief discussion took place regarding the possibility of students making purchases at the bookstores for additional print copies made in the libraries. Ken stated that he will talk to the bookstores.
- Item 9 – This item is on the agenda for discussion.
- Item 10 – Complete.

Chancellor's Executive Cabinet

MINUTES – March 10, 2010

Page 2

- Item 11 – A portion of the task has been completed. Discussion took place regarding the need for further information on the emergency loan process. Carole commented on following up with Rick with regard to the allied health emergency scholarship. The task will be revised to direct a process for establishing emergency funds with specific criteria for emergency loans.
- Item 12 – Complete. A meeting was held last Friday that included Carole, Pedro Avila, Ken and the College Presidents.
- Item 13 – Carole reported that Susan Whitener has been working with the college CIOs to review the existing schedule. The online schedule is almost complete. Pedro reported that West Hills College Coalinga has submitted summer and fall face to face classes. West Hills College Lemoore has submitted their summer classes. He stated that we are still on track. Pedro discussed the recent issue with loan disbursements with regard to financial aid.
- Item 14 – Complete.
- Item 15 – Complete.

Registration Priorities – Update

Pedro distributed the Summer/Fall 2010 Registration Schedule, stating that he has received good feedback. Discussion took place regarding the new tool that is being implemented for searching classes. Discussion also took place regarding high school graduates. Pedro stated that he will send out this information to the CIOs and the marketing department. Pedro stated that Administrative Procedure 5055, Enrollment Priorities, will need to be modified based on the new registration schedule.

Action Item

- ✓ Pedro Avila to send high school graduate information to CIOs and the marketing department
- ✓ Administrative Procedure 5055, Enrollment Priorities, to be modified based on the new registration schedule.

Process to Encumber Wages – Update

Ken and Carole reported that they are still working on the process to encumber wages. Carole commented on budget changes and identifying a solution to create a workflow. Frank suggested that we may need to call Rose & Tuck back in for consultation. Carole reported that she is making sure the information being put into Datatel is accurate. She stated that she will follow up with Rose and Tuck on the encumbrance model.

**Chancellor's Executive Cabinet
MINUTES – March 10, 2010
Page 3**

Action Item

- ✓ Carole Goldsmith to follow up with Rose and Tuck, consultants, on the encumbrance model.

District Educational Coordinating Council (DECC) – Update

Carole reported that the DECC proposal is being routed through the various college groups. It will be brought back to the Chancellor's Executive Cabinet for review at their next meeting.

Action Item

- ✓ Carole Goldsmith to provide review of DECC proposal at the Chancellor's Executive Cabinet meeting in April.

Student Debt / Online Payment Process – Update

Carole reported that she has not worked on this project yet; however, she will be bringing information to the next Chancellor's Executive Cabinet meeting.

Action Item

- ✓ Carol Goldsmith to provide information on student debt/online payment process at the Chancellor's Executive Cabinet meeting in April.

Residence Halls Registration – Update

Willard Lewallen stated that he will be providing information at the April Chancellor's Executive Cabinet meeting. Frank stated that he wants a year or two of demonstrated accountability on the registration mode with funds in the black. He stated that this will be a positive step toward acquiring funding based on the income stream.

Action Item

- ✓ Willard Lewallen to provide information on the residence halls registration system at the Chancellor's Executive Cabinet meeting in April.

Copy Limits/Process for Students – Update

Ken stated that he will need feedback from the colleges about the number of copies that will be allowed for students. Frank stated that he wants this information provided at the next Chancellor's Executive Cabinet meeting. Willard commented on copy limits for faculty as well. Frank commented on the amount of paper we use and how this ties into an energy policy.

Action Item

- ✓ Copy limit information to be provided at the Chancellor's Executive Cabinet meeting in April.

Leadership Retreat/FranklinCovey 360 Evaluations

Donna reported that the FranklinCovey 360 Evaluations have been completed. A workshop will be held at the next Leadership Retreat on May 7 to learn how to interpret the evaluation reports. Frank stated that administrative evaluations will be moved to a calendar year (January – December) cycle. 2009-2010 will be a transition year. Administrative evaluations will be completed in June 2010 and then administrative evaluations will be completed again beginning in January 2011. Frank stated that he will talk to the Board about using a calendar year evaluation cycle versus a fiscal year cycle.

Evaluation Script

Frank distributed copies of an evaluation script prepared by legal counsel. Discussion took place concerning the script, along with the Presidential Expectations. Frank stated that he wants to review the script with Marty Ennes, Faculty Association President.

Discussion took place regarding email being the official form of communication.

Frank discussed the need to develop an administrative procedure in terms of faculty evaluation. He stated that he would also like to provide training on the evaluation script at the May 7 Leadership Retreat. Frank stated that he will be asking Key Writing to develop an online form for the script. He will be arranging for a meeting with Joe Zampi to discuss the script and will also share it with the Board of Trustees.

The following changes to page 1 of the script were discussed and agreed to:

- Include Presidential Expectations under "Review ingredients and objectives of evaluation"
- Remove the word 'possibly' from first bullet under "Review ingredients and objectives of evaluation"
- Remove the third bullet which begins "...review Presidential Expectations and determine if there are questions..."

Fast Track Degree

Frank questioned if we should develop a fast track associate degree for the fall as a way to save costs for students and families. He stated that if we can identify a way of getting the 64 units in three semesters, students can be finished sooner. The point is that we might be able to advertise it as a way of parents saving money. Don Warkentin commented on previous issues with this idea (i.e. block of classes were scheduled, but not enough enrollment in those classes). Frank stated that he wants to think out of the box a little. Carole commented on discussions with Jill Stearns and Dave Bolt

concerning moving to a cohort model. Discussion took place regarding selecting the menu for students and tracking them. Frank commented on focusing on 4 or 5 degrees. Don stated that it is not difficult on the schedule side, but is difficult on the student services side. We would need to identify someone to track the students and follow up with them to make sure students don't fall off track. We need to be able to provide the services. Frank stated that just because we are in down times doesn't mean we should stop thinking about how to benefit our students.

eCampus

Susan Whitener was invited to the meeting at this time. Susan reported that Pedro provided a list of faculty load for last fall and spring and it was determined how much was part of load and how much was overload. A preliminary schedule has been developed and we are going to work through what the CIOs want on their respective schedules. Susan stated that she worked with Lenore Simonson because she used to be an advisor. Lenore looked at all degrees and determined if what we offer online will meet all of the degrees. We want to meet the broadest range of students for the broadest range of degrees. Frank questioned the need for hiring and Susan responded that once we determine the full time faculty and sections available, we will then look at the need for adjunct faculty. She is currently having this discussion with both colleges. Frank stated that he does not want to hurt the integrity of our eCampus. Susan stated that we know who the faculty are. She discussed providing moderate feedback as to why some instructors shouldn't teach online, stating that online isn't for everyone. She also discussed training opportunities. Frank stated that the eCampus has to maximize our FTE. Susan stated that the summer schedule for both colleges is being finalized and we are maximizing what we can offer. The schedule should be finished by the end of the day tomorrow (March 11). Frank stated that there should be no expectation that anyone who retires as a teacher is going to teach online. Further discussion took place regarding training for teaching online courses. Susan distributed a distance education article from the most recent accreditation newsletter. Frank commented on Barbara Beno's recent visit.

Distance Education Strategic Plan

Susan reported that the Distance Education Strategic Plan is ready to go to the next step which will be an informational item to the Board of Trustees. She stated that this item can be taken in April or May.

Susan stated that a lot of conversations have been held on the campuses with regard to web streaming. A vendor presentation was provided in February, a visit has been made to Cisco headquarters, and staff participated in a webinar (Sonic Foundry). A good meeting was held yesterday between the IT and distance learning departments and they discussed vendor presentations. Susan stated that Cisco's product looks great but is not quite ready yet. Frank reported that he and Michelle Kozlowski met with Cisco's regional vice president. We provided him with the ROI numbers on VOIP and discussed developing a regional partnership. We want visibility and marketing. Frank stated that he wants to take another trip to Cisco for additional staff, faculty, and possibly a board member or two to view their products. We need to articulate what we

want to have in terms of a strategic partnership. Susan stated that Cisco is about six months away from release and thinks we have a temporary solution with using CCC Confer technology until we can get the Cisco products. Frank stated that we can do a couple of things. We can sell the existing equipment in Firebaugh and move to a Cisco solution. Pedro discussed the possibility of being a beta test site. He questioned if we could use the partnership to be a test site if we are concerned about a timeline. Frank stated that he wants it to be a comprehensive solution at all locations. If we are going to be a Cisco house, we minimize the number of people we need to have supporting it. He wants to keep it simple and there are some real benefits.

Job Descriptions

- Activities Specialist – After School Program – Ken stated that CSEA has agreed to incorporate the position into the collective bargaining agreement. Additional changes were made to the job description after meeting with them. The major change deals with education. The job description has been reviewed by Riley Talford. The salary grade was changed based on education. Ken stated that he will send the revised version to Nancy Vogel, CSEA Representative. He wants to put this job description on the agenda for the April Board meeting.
- After School Program Instructor – Ken stated that this job description has been reviewed and approved by CSEA. It is a part time position. Changes were made to the job description after the initial meeting with CSEA. The changes deal with credentialing and a lower salary grade. CSEA wanted credentialing to come out of the job description. Ken wants to put this job description on the agenda for the April Board meeting.
- Help Desk Advisor – Carole stated that this job description closely mirrors the job description for a regular advisor. Ken stated that this position would be on the adult/student temporary salary schedule. Susan stated that the position is integral to the eCampus. The salary grade was increased to \$22.50. This item will be placed on the agenda for the April Board meeting.

Don initiated discussion regarding the loss of TTIP funds and how it impacts library databases. Carole stated that VTEA dollars helped out last year. Don stated that the librarian says it is essential. Susan stated that we need this now as it is important for distance education as it relates to accreditation. Frank directed Susan to provide the information to Ken. Susan stated that she will list it as an augmented line item under the eCampus budget.

- Director of Special Grant Programs – Discussion took place regarding the changes made to the job description which include the education level. This is an administrative position. It was agreed by the group to include information in the job description that the position would handle multiple programs and initiatives. The job description will be on the April Board meeting agenda for a range change.

Chancellor's Executive Cabinet

MINUTES – March 10, 2010

Page 7

- Coordinator of Special Grant Programs – Discussion took place regarding making changes to the summary section to include leadership and oversight for no more than two grant programs. Carole stated that she will make the changes. The job description will be on the April Board meeting agenda.

Susan Whitener left the meeting at this time.

At this time the group took a lunch break.

Following the lunch break, the group reconvened.

Equipment Coordinator Position

Willard stated that the recently resigned equipment manager was also receiving a stipend as assistant coach for football. Discussion took place regarding the issue of classified positions and additional compensation. Frank stated that the word 'coordinator' needs to be taken out of the position title, stating that we need an equipment manager. Frank stated that he does not want this position to be doing any coaching. Willard discussed rewriting the job description to include equipment and facilities. Ken stated that he needs direction on the current person in the position and if that person can also receive a coaching stipend and do the job on a temporary basis. Frank stated that he will allow for this to occur until June 30, 2010.

Don commented on the athletic trainer position being a certificated position. He stated that he only needs an athletic trainer for the fall semester at this time. He questioned if he can hire a temporary, one semester trainer. Ken stated that there is also an athletic trainer position in the classified ranks and suggested that this may be the way to go for Don's position.

Tenure Recommendations

Willard stated that he has three faculty that will be recommended for tenure at the April Board meeting. Discussion took place regarding tenure for faculty members who have had multiple years on a temporary contract. Ken stated that the Board of Trustees has the ability to allow all of the temporary contract years to count toward tenure if the faculty member is given a regular, tenure track contract.

Workflow Projects

Pedro stated that we have a consultant who can take care of workflow projects for us. He stated that Keith Stearns can also do this. They are going to start with Carole's workflows for budget change forms and section forms. Carole is going to put together the business rules and will submit them to the consultant for an approximate amount. Staff are also looking at grade changes, add/drops, student complaints, petitions to graduate, grievance, etc. Frank stated that he wants to have an update on workflow projects discussed at the next Chancellor's Executive Cabinet meeting. Pedro stated

that he will put together a list of the forms that need workflows so that they can be prioritized.

Other Business

- Board Presentations – Frank stated that a couple of the Board members commented on the way the budget information was presented at the most recent Board meeting. Not only do they want to be made aware of the problem, they want to see the solution. We need to be more clear in the way we present the information.
- Athletic Report for June Board Meeting – Don stated that the Board of Trustees wants to hear about the current status of athletics; future plans; philosophy on athletics; and how the philosophy meshes with the college mission. Frank stated that he wants each president to develop a history of athletics at their respective college. We can't deny what has happened with physical education (degree requirements, etc.). There used to be a lot more physical education classes and inter mural activities.

Ken left the meeting at this time.

Discussion took place concerning wellness. Frank stated that the presidents need to integrate the concept of wellness in their report. The Board needs to see how it is reconciled with their mission and if there is still a place for wellness and intercollegiate athletics. He also directed the presidents to cover where are we going with athletics (i.e. fee based; taking over community recreational aspects) and stated that we need to take a look at how many student athletes transfer. This information needs to be compared to the student population. He stated that this could be a precursor to developing a strategic plan for athletics and wellness.

Board Policies and Administrative Procedures

- BP & AP 5520, Student Discipline – It was agreed to move this policy and procedure forward to the various college groups for review and approval.
- BP 5500, Standards of Conduct – Changes were suggested to include the language from the original draft version. Donna Isaac was directed to make the changes and forward to the various college groups for review and approval.
- AP 5530, Student Rights and Grievance – It was agreed to move this procedure forward to the various college groups for review and approval.
- BP 6816, Hearing Conservation Program – It was agreed to move this policy forward to the various college groups for review and approval.
- BP 6817, Transportation and Driver Selection – It was agreed to move this policy forward to the various college groups for review and approval.

Chancellor's Executive Cabinet

MINUTES – March 10, 2010

Page 9

- AP 6700, Facilities Use – Several changes to the procedure were suggested. Frank directed Ken to continue his review of the procedure and bring it back to the next Chancellor's Executive Cabinet meeting.

Action Item

- ✓ Ken Stopperbrink to continue review of AP 6700, Facilities Use, and bring it back to the Chancellor's Executive Cabinet meeting in April.

Susan was invited back to the meeting at this time.

- BP & AP 5070, Attendance – It was agreed to change the last paragraph of the policy to read as follows:

*Attendance records shall be recorded and kept by faculty and the Office of Admissions and Records according to rules and regulations prescribed by the Board of Governors of the California Community Colleges. **The only official rosters for all classes are the records stored on the district student information system.** Therefore, prior to census date, each faculty member shall verify class rosters and no later than seven days after census date provide the Office of Admissions and Records a roster of currently enrolled students who meet the district policy on attendance.*

Several changes to the procedure were suggested. It was agreed to incorporate the changes and forward both the policy and procedure to the various college groups for review and approval.

Susan left the meeting at this time.

Other Business

- Cisco Visit – Frank directed Carole to work with Michelle on another trip to Cisco headquarters in San Jose. He stated that he wants to include some district and college staff, directors, deans, and faculty who will use the technology.
- Strategic Plan Update – Frank stated that the current strategic plan expires this year. Pedro reported that he and Carole are meeting on March 11 for a brainstorming session. They want to take what we have learned and determine what we want to keep and what we need to replace with regard to the strategic plan goals. Carole questioned if we still want to use our current goals and measurements. Frank stated that we want to revise them. Don stated that we need to review the educational master plan. Discussion took place regarding strategies for communities that have low participation rates. Frank stated that he wants to focus on student success and retention in the areas that are access related (math, English, basic skills). Discussion took place regarding goals and being a leader in the state with regard to retention, access and transfer. We have learned that we need more information; we are doing some things okay; we got the process started; and now we need to

Chancellor's Executive Cabinet
MINUTES – March 10, 2010
Page 10

determine how we want to become better. Pedro stated that the idea is to drill down a little deeper. He wants Carole to bring in the employment and vocational element. Willard questioned if we really have an understanding of the needs of the communities we serve as we have not done a formal assessment of this. Pedro stated that a meeting will be held in April to close the loop and talk about next steps. Frank stated that we have done a great job in terms of the budget and enrollment. Pedro stated that he wants to see some of the administrators at the college level be more involved with the strategic plan. Frank stated that lessons learned would be a good start to the new strategic plan. He wants to take results on the road and present at conferences.

Ken returned to the meeting at this time.

- Athletic Report – Frank stated that he wants the presidents to include Title IX as an area in the athletic report. Title IX is not the numbers, it is interest, experience and ability.

Action Item

- ✓ Title IX information to be included in the athletic report to the Board of Trustees in June
- Bookstore – Frank stated that he wants the bookstore to carry first rate, high quality apparel and that we should look at providing merchandise at the local grocery stores, K-Mart, Walgreens, etc.
- Summer Program – Willard announced that West Hills College Coalinga is getting close to finalizing an exciting program for the summer. Twenty educators from China will be spending 7-8 weeks on the campus. They teach English as a second language in China and want to learn about American culture.

/di

**Chancellor's Executive Cabinet Meeting
April 14, 2010**

MINUTES

Members present:

Pedro Avila, Vice Chancellor of Institutional Effectiveness and Enrollment Management
Carole Goldsmith, Vice Chancellor of Educational Services and Workforce Development
Frank Gornick, Chancellor
Donna Isaac, Executive Assistant to the Chancellor
Willard Lewallen, President, West Hills College Coalinga
Frances Squire, Executive Director of West Hills Community College Foundation
Ken Stoppenbrink, Vice Chancellor of Business Services
Don Warkentin, President, West Hills College Lemoore

Others present at various times:

Cathy Barabe, Director of Marketing
Susan Whitener, Vice Chancellor of Educational Planning

Task Log

The task log was reviewed as follows:

- Item 1 – Ken Stoppenbrink reported that Kevin Cobb is still working on the policy.
- Item 2 – Carole Goldsmith reported that she has talked with representatives at the energy group and will pick up the information this week to give to Ken.
- Item 3 – Pedro Avila commented that the task was incorrectly stated and should have been to send priority registration information to the CIOs and marketing department. The task is complete and information was sent out to currently enrolled students.
- Item 4 – This item is on the agenda for discussion.
- Item 5 – Carole reported that she and Ken have talked about using the services of Rose & Tuck. Ken has talked to Darren Rose and he is available to help us do some programming. It will cost \$15,000 - \$20,000 to get it done. It was stated that Keith Stearns has the skill set, but may not have the time. Carole recommended that we move forward with Rose & Tuck and roll out the encumbrance model for the new fiscal year. Rose & Tuck have recommended not going to position budgeting as it will cause too many problems. We will be better off with programming for a report. Pedro stated that he and Keith want to be involved in the discussion with regard to the report as they want to make sure it is a report that we all want. He also wants to make sure that we have something that is flexible and usable by us. Frank stated what we want to have is a report that is accurate with regard to budget codes. He directed that Pedro, Keith, Carole, Tammy Weatherman, Ken, Cathy Barabe, and senior administrators from the colleges be involved in the process of developing the report. Pedro questioned the use of Rose & Tuck for this particular project. Carole questioned if we need a reporting solution or a customization of Datatel. Ken stated

Chancellor's Executive Cabinet
MINUTES – April 14, 2010
Page 2

that we need to tell Rose & Tuck exactly what we need and find out what solution they give us. Pedro stated that he wants to back up and review what route to take. He questioned if Rose & Tuck are the best solution if what we need is a reporting solution. Frank stated that Michelle Kozlowski introduced us to Rose & Tuck and he has not been dissatisfied with them as they have delivered for us. Frank directed Ken to follow up on this project.

- Item 6 – This item is on the agenda for discussion.
- Item 7 – This item is on the agenda for discussion.
- Item 8 – This item is on the agenda for discussion.
- Item 9 – Carole reported that the substantive change has been submitted. This item will need to be voted on at the June Board meeting.
- Item 10 – Ken stated that he has received a response from Follett. Their solution is to go with a debit card and the bookstore are willing and able to do this for us. Discussion took place regarding the AOS solution and a student ID card. It was stated that a lot of data entry may be required. Ken commented on bringing AOS back in for this solution. Discussion took place regarding charging an instructional fee to get around all of the issues. Frank stated that he wants to pursue AOS for their thoughts and also research Chafee College's procedure of charging a general services fee. Willard stated that he will take a look the fee issue. Ken stated that he will reconvene with AOS.

Action Item

- ✓ Willard Lewallen to research instructional fees with regard to issue with the number of copies and print jobs being done by students
- ✓ Ken Stoppenbrink to reconvene with AOS for possible solutions.
- Item 11 – This item is on the agenda for discussion.
- Item 12 – Pedro reported that Jana has modified the process for emergency loans. What used to be a 10-day processing period, is now down to one day. The process begins in financial aid, but the business office cuts the check. Ken commented on emergency loans that he has denied. Discussion took place regarding who is making the determination about the loan – financial aid or business office. It was stated that the responsibility lies with the business office. Discussion took place regarding mixed messages that students receive with regard to the process starting with them. Pedro stated that the original issue was resolved but other issues have been discovered that need to be addressed. Frank stated that we need to make sure the criteria we have is very clear. An emergency is for food, transportation and books. It was suggested that child care should be included. Pedro stated that the approval has to start with financial aid and there should be a couple levels of review. Pedro stated that he will continue discussions with Jana about this matter.

Action Item

- ✓ Pedro Avila to have further discussions with Jana Cox about the process and review for emergency loans.
- Item 13 – This item is on the agenda for discussion.
- Item 14 – Willard and Don stated that they are working on their reports. Willard reported that he has laid out a plan for what should be included. Frank suggested that Pedro provide to the Presidents the amount of student debt by student, by sport as compared to other students.

NIFA Funds for HSI Agriculture Colleges

Cathy Barabe was invited to the meeting at this time.

Cathy reported that NIFA (National Institute of Food and Agriculture) is a new source of funding passed by federal legislation. West Hills College Coalinga is an HSI (Hispanic Serving Institution) ag college; however, West Hills College Lemoore is not yet. Cathy explained that food safety and culinary will count towards agriculture. She stated that we need to position ourselves now for West Hills College Lemoore to become an ag college. Frank questioned the amount of funding. Cathy stated that there will be \$10-12 million available annually for HSI ag colleges. The funding will probably be available next year. West Hills College Lemoore may miss the first funding cycle. Frank questioned the reason for the discussion and Cathy responded that she really wants us to participate so we can get more funding. Discussion took place regarding TOP codes for ag courses. Frank stated that maybe we focus on what we already have up and running and then begin researching possibilities for culinary. He directed Cathy to work with current faculty and staff at West Hills College Coalinga. Don questioned if we want West Hills College Lemoore to become an ag college. Cathy stated that she will work on researching the criteria.

Action Item

- ✓ Cathy Barabe to work with current faculty and staff at West Hills College Coalinga for possible receipt of NIFA funding.
- ✓ Cathy Barabe to work on researching criteria for West Hills College Lemoore to become an ag college.

Cathy left the meeting at this time.

Franklin University Commissions

Discussion took place concerning the commission funds that have been received from Franklin University. The money has been going to miscellaneous revenue. Frank questioned where the presidents want the funds to go. Willard stated that he would like for West Hills College Coalinga's portion to be placed in a foundation account and used

Chancellor's Executive Cabinet

MINUTES – April 14, 2010

Page 4

for campus operations and events. Frank suggested that the funds be placed in the Presidents' Foundation accounts beginning with this fiscal year. Commission funds from previous years will not be included.

WICHE Audit

Susan Whitener was invited to the meeting at this time.

Susan reported that the presentation has been pared down but still needs some work. She stated that she needs feedback from the group. Discussion took place concerning only sharing the findings with the Leadership Retreat Group; where are we at and what are we going to do with the information; and branding and website navigation. Susan was directed to continue working on the presentation with Carole and Pedro. It was suggested that the presentation be given to smaller groups at the college level before providing the presentation to the Leadership Retreat group.

One Year Schedule

Susan stated that a schedule is being developed. As she talks with the CIOs, they determine what to offer based on what is being offered in the next semester. Logically, they want to develop a one year schedule. Frank stated that it is supported by the research. We can begin looking at cohort groups. Willard stated that given the compression of the schedule and limited opportunities for students, they can help us by providing their input. Frank stated that it allows us to begin looking at getting students out of here in four semesters. We can then get into a guaranteed schedule. Frank stated that this item will be discussed again at the May Chancellor's Executive Cabinet meeting. He directed the group to talk about it in their own areas and come to the meeting with feedback.

Action Item

- ✓ Chancellor's Executive Cabinet members to discuss the possibility of a one year schedule in their own areas and provide feedback at the May meeting.

Susan left the meeting at this time.

District Educational Coordinating Council (DECC) – Update

Carole distributed the DECC proposal and stated that this is not a new committee. One of the concerns of the groups is that the document looks different than when particular groups saw it. She stated that it was sent out to all of the groups and input was received and incorporated. The purpose of the committee is to make sure we are all on the same page. Frank questioned the process if we can't come to consensus. Carole stated that some issues will be related to Title V, but there will be others to which they will have to come to consensus. Discussion took place regarding how things get to the DECC. It was suggested that the group may need a flow chart. Carole stated her preference is to take a look at addressing issues that are going to the curriculum committees as they are being reviewed, not after the fact. The group will be looking at

models of other colleges. Frank questioned the flow of information to the committee and where it goes after. He stated that we can't be afraid of making recommendations. The committee will reach consensus to recommend the appropriate action. He prefers the recommendation come to the Chancellor's Executive Cabinet where the CEOs can talk about the issues.

Online Payment Process – Update

Carole stated that Ken has worked with the campuses to look at student debt. Jana has taken a look at what the student debt really is as it relates to financial aid. She is also looking at how disbursements can be made more frequently. Ken stated that he wants to know what decisions have been/are made without his consultation. Pedro stated that we are discovering the debt deals mostly with financial aid and residence halls, not students who aren't paying when they register. Carole stated that the process of workflows is really going to change how we do business. This project (online payment process), needs to be referred to as debt management as the online piece is working very well and is not an issue.

Residence Halls Registration – Update

Willard distributed a draft of eligibility requirements and steps for reserving a room on campus. Discussion took place regarding the procedure and deadlines. The next step is to get the website information updated for the residence halls.

Copy Limits/Process for Students – Update

See discussion on Task Log, Item 10.

Culinary/Food Service Budget and Programs

Frank stated that he has had discussions with the college presidents. This item has to do with keeping the director at West Hills College Lemoore in place and allowing him to oversee and coordinate some internships. Carole stated that the culinary program currently receives VTEA funds. In the future, additional VTEA funds can be given, but something else will suffer. Frank stated we need to get the appropriate people charged to the right place. Carole reported that she has had discussion with Ken about work experience opportunities in the snack bar. It was suggested that we offer a course. The staff in the current snack bar might be able to be an instructional aid. Frank stated we are getting sophomore students out of the culinary department. The director tries to give them catering and restaurant experience. Frank stated that the task is to look at funds for culinary and make sure a budget is set up. He directed Ken to work with Christian Raia on point of sale. Carole stated that we may be able to use some CTE dollars to make it a vocational program.

Action Item

- ✓ Review funds for culinary program and make sure a budget is in place.
- ✓ Ken Stoppenbrink to work with Christian Raia on point of sale.

Willard left the meeting at this time.

Missing Student Regulations

Ken stated that we need a policy/procedure on missing students. He distributed a summary of the federal laws and a draft policy and procedure. This information will be placed in the standard policy and procedure format and routed through the review and approval process.

Application Processing Fee for Foreign Citizens

Donna Isaac stated that the application processing fee for foreign citizens is on the April 20 Board of Trustees agenda for approval.

At this time the group took a lunch break.

Following the lunch break, the group reconvened.

Evaluation Script, Draft Form

Frank stated that the evaluation checklist document is a result of the evaluation script document received from Joe Zampi's office. For accreditation and quality control aspects, it was important to develop a checklist for administrators to use in the evaluation process. Discussion took place regarding suggested changes and additions to the checklist. Frank stated that he will discuss this draft document with Marty. Donna will incorporate the suggested changes in the draft document and it will be provided for further discussion. Discussion took place concerning the checklist being an appendix to an administrative procedure.

Action Item

- ✓ Donna Isaac to incorporate suggested changes in evaluation checklist document for further discussion.

Adult Temporary Tracking

Ken stated that we are beginning to have numerous issues and are beginning to own staff after the 194 days. The tracking tool gives advance notice for planning purposes and is distributed on a monthly basis. He stated that he does not know what else to do at this point. Frank stated this will be a topic on the Leadership Retreat agenda.

Job Descriptions

- Equipment and Event Coordinator – Willard commented on the current position being underutilized. The new proposed job description incorporates assistance with

coordinating events, physical education and wellness. Discussion took place regarding requirements. It was stated that this position has been used in the past to bring in assistant coaches. Frank stated that we will not be doing that anymore. The group agreed to move the job description to the union and then the Board of Trustees for approval.

- Summer Youth Program Staff – Carole stated that the job description was requested by the funding agency. The program runs May through September. These are temporary positions to be included on the adult/student temporary salary schedule. The department would be Workforce Investment and the WIA Coordinator would be the direct report. Don questioned how this is different from the 5Cs camp. Carol stated it is more job focused and includes a lot of case management, referrals, follow up with employers, etc. The group agreed to move the position forward to the Board of Trustees for approval.

Potential Layoff Notifications

Frank stated that the Board of Trustees will be presented with a layoff resolution on grant funded classified positions. In addition, letters will be sent to faculty who are on temporary contracts and are grant funded. Discussion took place and Ken stated that the intent is to inform the faculty that the grant funding is running out and we are doing our best to cover the costs. If funding cannot be found, they will be laid off. Don asked if it is prudent to have a meeting with the faculty prior to their receipt of a letter. Frank responded in the affirmative, stating that the worst case scenario is that they will not have a job when the grant runs out and the best case scenario is that they will be funded. Discussion took place regarding the Faculty Obligation Number (FON). Ken stated that the number is currently 94.5.

Board Policies and Administrative Procedures

- BP & AP 5055, Enrollment Priorities – Changes were suggested. The group agreed to move the procedure forward.

Action Item

- ✓ Donna Isaac to make changes as suggested and move policy and procedure forward.
- BP & AP 6700, Facilities Use – Discussion took place regarding facilities use. Ken stated that he looked at what other college districts do for facilities. He distributed information on the data he collected. Frank stated that we need to capture money for the use of our facilities. Discussion took place regarding charging those that have been using our facilities. Discretion is left up to the college presidents. Ken stated he thinks the rates need to be doubled. Fees were discussed. Ken reported that he will continue working on this policy and procedure. Frank stated that he wants to have something in 60 to 90 days for the colleges. They need to develop a brochure and post information on the website that incorporates the facilities use information for advertising purposes. Willard stated the facilities use policy and

Chancellor's Executive Cabinet

MINUTES – April 14, 2010

Page 8

procedure do not currently include information about the use of the residence halls. Frank stated that this information needs to be included for groups that use the residence halls in the summer.

Action Item

- ✓ Ken Stoppenbrink to continue working on Facilities Use policy and procedure and include information about the use of the residence halls.

Frank discussed having a rededication ceremony for the Wellness Center at West Hills College Coalinga and a dedication ceremony for the Multi Use Sports Complex at West Hills College Lemoore.

- District Provided Cellular Telephones – Ken stated that his recommendation is to have two stipend levels (\$100/\$75). We need to look at what we are currently spending. The level for each individual would be determined by the Vice Chancellors and Presidents. The district is currently paying for many cell phones and plans. Frank commented that he is more comfortable settling on one number across the Board for all employees who are determined to be necessary. He stated that he wants to have a plan in place effective July 1, 2010. Ken stated that the IRS is looking at several areas of expenditure and if they look at this area, then we will be covered. Frank stated that the Presidents and Vice Chancellors need to take a look at this for their staff. He directed Ken to move forward with a policy and procedure regarding stipends for cellular telephones to be in place effective July 1, 2010.

Action Item

- ✓ Ken Stoppenbrink to develop a policy and procedure regarding stipends for cellular telephones to be in place effective July 1, 2010.
- BP & AP 5800, Prevention of Identity Theft in Student Financial Transactions – Frank directed Ken and Carole to work on this policy and procedure and bring it back to the May Chancellor's Executive Cabinet meeting for further discussion.

Action Item

- ✓ Ken Stoppenbrink and Carole Goldsmith to work on Board Policy and Administrative Procedure 5800, Prevention of Identity Theft in Student Financial Transactions.

Other Business

Frances Squire shared draft information on the billboards that will soon be going up around the district which express congratulations to the class of 2010.

Frank stated that the next Board meeting will be held at the North District Center in Firebaugh on April 20. He stated that when we close the books this year he wants to

Chancellor's Executive Cabinet

MINUTES – April 14, 2010

Page 9

provide the Board with a summary of all auxiliary accounts and how they compare to three years ago.

Frances reminded the group of the Foundation's annual golf tournament which is scheduled for Monday, May 10.

MINUTES OF THE REGULAR MEETING OF THE GOVERNING BOARD

March 7, 2006

CALL TO ORDER / OPEN SESSION

President McKean called the meeting of the Board of Trustees to order at 3:00 p.m.

Board members present:

Mark McKean
Jack Minnite
Nina Oxborrow
Jeff Levinson
Edna Ivans
Bill Henry
Steve Cantu

Board members absent:

Pedro Jurado, Student Trustee

Administrators present:

Frank Gornick, Chancellor
Ken Stoppenbrink, Vice Chancellor of Business Services
Anthony Tricoli, President, West Hills College Coalinga
Don Warkentin, President, West Hills College Lemoore
Dave Bolt, Vice President of Educational Services, West Hills College Lemoore
Jill Stearns, Interim Associate Dean of Educational Services, West Hills College Coalinga
Susan Kincade, Dean of Learning Resources
Keven Backman, Director of Human Resources
Frances Squire, Director of Marketing
Pedro Avila, Director of Institutional Effectiveness, Planning and Web Services
Darlene Georgatos, Director of District Enrollment
Kathy Watts, Interim Director of Child Development Centers
Larry Rathbun, Director of Farm of the Future

Introduction of Guests

There were no guests introduced at this time.

**West Hills College Lemoore
Planning and Governance Council
Wednesday – October 3, 2007 - 1:30 p.m.
Conference Center Rm. 256**

MINUTES

Members Present:

Don Warkentin, President
Rene Curriculum, Curriculum Committee Chair
Marty Ennes, CTA/Faculty Representative
Marta Hendrickson, CTA/Faculty Representative
Teresa Macias-Quilici, CSEA/Classified Representative
Ron Oxford, Librarian
Jan Young, Counselor/Advisor
Dave Bolt, Vice President of Educational Services
Jose Lopez, Dean of Students
Vince Montoya, Director of Facilities & Auxiliary Services
Yarely Herrera, Student Government Association Representative

Members Absent:

James Preston, Academic Senate President
Marlon Hall, Associate Dean of Educational Services, Evening College
America Infante, CSEA/Classified Representative

Call to Order

Mr. Warkentin called the meeting to order at 1:32 pm

Approval of minutes September 19, 2007

Ron Oxford motioned to approve the minutes of September 19, 2007, Teresa Quilici seconded, all were in favor, with two abstentions (Marty Ennes & Vince Montoya), motioned passed.

ACTION ITEMS

BP/AP 2510 Participation in Local Decision Making

Rene Sanchez reported that the senate did not take action on this due to the PGC membership still in question. James Preston and Mr. Warkentin recently discussed the membership makeup and they have a proposed membership. James has no concerns except he wants to make sure all groups are able to comment on the membership. The number of representatives from the Student Government Association was reduced from two to one. Academic senate members have been defined by position and the CSEA representatives were increased from two members to three. Marta noted that the CSEA increase represents an increase in a classified position. If CTA would appoint a counselor, this should eliminate the concern of having counselor representation. Mr. Warkentin stated that the recommendation to increase the CSEA members was to allow more balance on this council. He advised constituency groups to have discussion and bring further recommendations to the next meeting. Marty suggested listing a counselor and advisor representative.

AP 2410 Policy and Administrative Procedure

The main change on this procedure was the adding of the District Leadership Council. Marty Ennes stated that CTA would like to have the routing with check off and

recommendations as was previous. Their concern is that autonomy is being dampened by this type of procedure. Mr. Warkentin responded that the colleges would have the opportunity through the president to make recommendations, and that this body (PGC) would make recommendations to DLC. CTA feels recommendations should be going directly from the colleges and not as a district recommendation. The district should not be functioning as the voice of the college. The colleges were listed on the routing sheet and now they are not. Without the check off and comments on the routing form it disallows the board from seeing recommendations from the individual colleges. Mr. Warkentin asked for a motion to approve AP 2410. Dave Bolt motioned to approve AP 2410, it was seconded by Vince Montoya, Mr. Warkentin asked for those in favor of AP 2410 as written, three were in favor, four were opposed, with three abstentions. The motion did not pass. Mr. Warkentin will relay the issue. Marty recommends changing #6 on page 2 to the read "The chancellor's office and the two college presidents. . .". Mr. Warkentin stated that one of the issues has been that approval of policies and procedures has been delayed by the Senate. Marty believes that in this case the Senate has abstained due to non review of the policy. The new routing form is on all policies and procedures.

INFORMATION/DISCUSSION ITEMS

1. Board Policies & Administrative Procedures (first reading)

- a) BP & AP 4020 Program and Curriculum Development
- b) BP & AP 3430 Prohibition of Harassment
- c) AP 3435 Discrimination and Harassment Investigations

Mr. Warkentin announced that the above named policies and procedures were tabled at District Leadership Council this week and new versions are being prepared. These will return to our agenda at a later time.

2. Mid Term Report Update

Mr. Bolt reported that they have been working very hard to complete the report. Jacqui Shehorn has put together a thorough draft to be finalized on Monday upon comments from all constituency groups. They want all groups and individuals to be familiar with the content. This will need to be sent to the Commission in March and they are working backwards to get all the approvals necessary. Through October and November the document will be circulated for comments and possible revisions. Two readings will be held at the Planning and Governance Council. The last PGC meeting is December 5 and if the document is approved at that meeting it will be copied to be presented at the Board of Trustees meeting in January and February, then mailed on to the Commission in March. The report will be accessible at the website in "My West Hills" and/or "Public Folders". The report includes the planning agendas, and Mr. Bolt stated that he has also submitted the report preparation process to Jacqui. He plans to make a copy of the report for each constituency group and he will ask that they, in turn, make copies for their groups and/or have them electronically available. Mr. Bolt asked if there were suggestions, there were no suggestions. The more people who have knowledge of what is contained in the report; the stronger the document will be. This will be a working draft. Jacqui is pleased with the quality of what she has received from the response teams. As we make review, Mr. Bolt encouraged readers to ask themselves if we have responded to what has been asked. He expressed his appreciation to those who have been involved with this on-going process.

3. Program Review - Education (first reading)

In the absence of James Preston, Dave Bolt recommended tabling this program review. Mr. Warkentin has asked that all program reviews be presented by the preparer at this Council for the first reading. There will be 10-15 program reviews coming through this year. Mr. Warkentin asked all to read this program review for the next meeting.

4. Board Report and President's Update on Web Page

Mr. Warkentin stated that a recommendation had come from one of the accreditation response teams to have the board report and the president's weekly update in public folders. Perhaps clarification should be received from the committee. The Board report could be put in public folders. Marta stated that she believes these should be intranet accessible, rather than internet.

5. Academic Senate Report

a) Student Learning Outcomes Committee

Stephanie Droker reported that at the last Senate meeting they discussed the learning areas realignment with focus on Math/Science/PE. Jameson Birrell will gather votes from these areas as to which model is preferred. There are 8-9 faculty in each model. A Career Tech division has been developed. Arts, letters, and social sciences basically worked out to be the same with Larry Belooof in the social science learning area. Philosophy could be in arts, letters or social science. Jameson will get feedback from faculty to see what they prefer, then input from administrators and the President's Cabinet. This will impact college committees. The changes will take place in spring. The Senate suggests that the Student Learning Outcomes Committee membership makeup include a representative from each learning area and the SLO coordinator. Recommendations will be open college-wide. Mr. Warkentin stated that when the decision making procedure is finalized, and if the SLO committee chairperson is added to this body, and the technology committee is in place, there will be more alignment on with representation the PGC. The expansion of health careers, it is expected, will add many more members to the SLO committee. Mr. Warkentin asked if there were questions, there were no questions.

6. PGC Revised membership (first reading)

Mr. Warkentin stated again, that if anyone would like to add a counselor or advisor to bring a recommendation to the next meeting. This should be an action item at the next meeting.

7. Report from Committee Representative

a) Student Learning Committee

Dave Bolt reported that this committee had not met at this time.

b) Budget Allocation Committee

Dave Bolt reported that what they have done at this point is to use time to go through the adopted budget line by line. This has been beneficial. He plans to emphasize the linkage that exists between program review to the budget process. This process is not on the surface and how it all links to facilities, curriculum, hiring of staff and program review. He believes the program review process has not been understood as to the linkage. This will also be an accreditation expectation. The only allocation received is staff development. It is \$6,500 with a carry over unused in the amount of \$7,000. The

ESDC has been charged to approve staff development requests. Jan asked for clarification as she understood there was only \$1,500. This allows \$13,000 for staff development at the Lemoore campus. The ESDC needs to have a mechanism to allocate these monies. Lottery monies are still expected. There are requests received and when the money is available prioritized requests will be considered.

c) Facilities, Safety, and Technology Committee

Vince Montoya reported that FSTC had met on September 14 and discussed the ICS drill and recycling on campus. Also the smoking policy is to stay 20 ft. from access doors. There are signs but how do we enforce this? This will be discussed further. The drill is upcoming on October 16, posters will be put on campus for awareness of the drill. It will be isolated to the 400 building. Fire engines, and police cars will be on campus. The command center is in the conference center room 256 and the chill yard. Phones are in place there and they are equipped with an emergency system, specifically for emergency broadcast. The actual emergency is unknown. There will be actors to act. Coalinga had their drill which was a fire in the dorms. It will be interesting to see how we assemble. Rene asked if it would be business as normal since this is not a campus-wide drill. Vince stated that the classrooms will get a call with a prepared statement and instructors should ignore this. He reported on a recent workshop he had attended at College of Marin. There was someone there from homeland security that he had ask the question this if there something that community colleges don't know? The gentleman from homeland security addressed his question stating that California community colleges are considered soft targets. The 9/11 incident had ties to Glendale Community College and there have been other ties as well. Vince acknowledged that there is substance to this training and it is taken very seriously. We will have fun, but, the question remains, what if there were an emergency? We are ahead of most of the colleges in the State in the area of emergency preparedness. Vince was surprised to find that the College of Marin with only 800 students had two police officers. He believes police officers on campus should be on the radar screen for this college.

i. Emergency Preparedness Plan

The plan is a district plan and therefore does not need to be adopted by the college. Copies will be provided after board approval.

ii. Technology Committee

The development of a separate Technology Committee was discussed per recommendation of the Facilities, Safety and Technology Committee (FSTC). Mr. Warkentin has asked Ron Oxford to prepare a Governance Group Request in this effort. Ron will e-mail a revised version to the constituency groups. He reported that a college technology committee had been asked about at the TAT meeting. He was unsure of what to say until it is formalized. Technology needs/concerns should be determined from the college level up. Vince reported that there had been question during the accreditation visit about a technology plan at the college level and he did not have a technology plan. An IT staff member could serve as a member if they are willing.

d) Student Success Committee

Mr. Lopez reported that this committee had met last week. They have a new member, Tammy Larsen, who will be a valuable member. One of the committee targets is retention and Ms. Larsen has background in this area and will be doing research. Tasks have been assigned and the student handbook will be redone by a student intern. Upon completion they will be printed and distributed to students at the beginning of the

spring semester. Student activities and Health 1010 will soon go on the web. Health 1010 will be eventually presented to PGC.

e) Employee Success and Development Committee

Jan Young reported that they have a strategic planning session planned on October 12. They will re-evaluating this committee at that time. They will develop a process for staff development requests and they will prepare a yearly calendar. They want to tighten up the way they have been operated. Mr. Warkentin stated that minutes of all meetings are to be taken and posted on the web page. This is a part of recommendation one. Stephanie asked if this affects student clubs. Mr. Warkentin responded that it has not as yet.

8. Student Government Association

Yarely Herrera, Student Government Association Business Manager, will be the student representative on this council. She reported that they have a new president, Claudia Walthing, and Michael Navarro is the vice president. Yarely announced two new student clubs: S.P.L.A.A.T. - Student Promotion and Learning Art Appreciation and Culinary Club. S.P.L.A.A.T. will be meeting Monday at 12 noon. She reviewed the current clubs and organizations. Up coming events include a carwash, a business etiquette luncheon, and a haunted house on Saturday 27, 6 p.m. -10 p.m. Disability awareness begins on Monday, October 15, 2007.

9. WHCIST

Dave Bolt reported that the technology committee has not been resolved. Coalinga will not have a technology committee. This committee will discuss with TAT, the voice of the end users at WHCL. They have been working with a consultant for payroll to be handled locally rather than through Fresno County. This will occur in January 2009. The highest priority is Version 18 Datatel conversion. This will happen in January 2008. They have also been discussing SARs (the project to use magnetic cards to track students). The cards have been purchased with an implementation team working on this.

10. Recommendations from WHCL Retreat Strategic Planning Committee

i. Definition of a Program

Mr. Warkentin reviewed the definition as follows: ***An instructional program is one that leads to a degree or certificate. A non instructional program is one that does not lead to a degree or certificate but has an ongoing identifiable funding source, or a specified budget code.*** He would like to for this to be an action item on the next PGC agenda.

ii. Review Cycle (Mission/Vision, Goals, Institutional Outcomes)

This was a recommendation from the accreditation Recommendation #2. Each fall semester the Strategic Planning Committee will review our mission/vision, goals, and institutional outcomes. The recommended verbiage to be included in the PGC Manual is as follows: ***WHCL mission/vision, goals and performance indicators shall be reviewed by the Strategic Planning Committee each fall semester. Recommendations will be forwarded to the respective governance groups and then brought to the PGC for revision and adoption.*** This is a first reading with formal adoption at the next meeting.

iii. Recommendations to Student Success Committee

1) SPC recommends that the SSC continue efforts to sustain and improve high school participation rates. 2) SPC recommends that the SSC analyze financial aid data to determine what effects the financial aid processes have on student retention.

iv. Recommendations to Student Learning Committee

1) SPC recommends that the SLC examine ways to have Datatel dis-enroll students who do not successfully complete prerequisite requirements. 2) SPC recommends that the SLC review student withdrawal data to determine ways to improve student success and retention rates. Dave responded that the first recommendation has an easier solution, and the second recommendation will require data from the institutional researcher. Mr. Warkentin recommended that this be a first reading and an action item at the next meeting.

v. Formalize the name of WHCL Leadership Group to Strategic Planning Committee This to be a first reading and an action item at the next meeting.

11. Agenda items for next meeting

- Recommendations from the Retreat
- Approval of SLO committee chair

Rene Sanchez reiterated that the membership of the SLO Committee will need to have college-wide representation. The SLO committee will not be a subcommittee of the senate. Stephanie A.-Alston interjected that Senate recommends this be a college-wide committee, however; the Senate only deals with the instruction side of the house.

12. Other

Mr. Warkentin announced that the wrestling match will be at FCC in Fresno. He encouraged those who could to attend.

Mr. Warkentin announced that the President's Forum would be held tomorrow at noon.

13. Adjournment

The meeting adjourned at 3:13 p.m.

Next Meeting – October 17, 2007

Public Comments

There were no public comments made at this time.

REPORTS FROM ORGANIZATIONS / COLLEGES / DISTRICT OFFICE

Academic Senate Report – Ms. Anita Bart, Academic Senate President for West Hills College Coalinga, was not present to report at this time.

Mr. David Rengh, Academic Senate President for West Hills College Lemoore, was not present to report at this time.

WHCFA Report – Ms. Faye Mendenhall, WHCFA President, stated that she had nothing to report at this time.

CSEA Report – There was no CSEA representative present to report at this time.

ASB Report – Mr. Pedro Jurado, Associated Student Body President, West Hills College Coalinga, was not present to report at this time.

West Hills College Coalinga and North District Center, Firebaugh – Dr. Anthony Tricoli, President, distributed a college activities report and commented on recent and upcoming events. He reported that the first edition of the West Hills College Coalinga literary publication, “Mosaic” will soon be available. The Board members were reminded of the upcoming President’s Scholars Dinner which will be held on March 22, 2006 at 6:00 p.m.

West Hills College Lemoore – Mr. Don Warkentin, President, distributed a college activities report and commented on recent and upcoming events. He commented on the recommendations of the accreditation team which included Student Learning Outcomes; training for faculty and staff; staffing pattern in the library; and faculty diversity. Trustee Henry stated that he feels that we have done everything we could with regard to accreditation and we did our best in every area. Mr. Warkentin commented that we have been responding to accreditation recommendations for the past two years. He stated that we will soon receive a draft report from the accreditation team and we can correct any errors of fact.

Chancellor’s Report – Dr. Frank Gornick, Chancellor, congratulated Dr. Tricoli and Mr. Warkentin for their work on accreditation. He stated that it is nice to have it completed and out of the way. Dr. Gornick commented on the difference in the team. He stated that the team was impressed with our plans for the second generation of our technology and they really grasped the concept of what we are doing. He reported that the team questioned our approach with the policies and the timeline and he explained to them that we worked backward on the process. We took care of the background for the

policies and procedures before they were implemented. Dr. Gornick stated that the visit to the District Office was great and the team walked away with a good understanding of how the District staff works with the colleges.

Dr. Gornick reported that he received a call this morning from Congressman Costa's office regarding the Community College Caucus. Congressman Costa will be a member of this group and this is good news for community colleges.

CONSENT AGENDA

The following consent agenda items were approved on a motion by Trustee Henry, seconded by Trustee Cantu, and carried unanimously:

- CA-38 Minutes - The minutes of the February 21, 2006 Board meeting were approved as submitted.
- CA-39 Warrants - The warrants were approved as submitted.
- CA-40 Personnel Transactions - The list of personnel transactions was approved as submitted.

CHANCELLOR'S OFFICE

- CO-47 Administrative Procedure 7212, Employment of Part Time Faculty - Mr. Keven Backman commented that the procedure gives the colleges a great deal of guidance in the process of hiring adjunct faculty and it solves a lot of the problems that have been faced in the past.

The new Administrative Procedure 7212, Employment of Part Time Faculty, was presented for a first reading. Approval will be requested at a later date.

- CO-48 Board Policy and Administrative Procedure 7345, Catastrophic Leave Program - Dr. Gornick commented that the collective bargaining agreements allow for the donation of sick leave. However, this policy and procedure will provide the ability for donations to occur across the collective bargaining agreements.

The new Board Policy and Administrative Procedure 7345, Catastrophic Leave Program, were presented for a first reading. Approval will be requested at a later date.

- CO-49 Board Policy and Administrative Procedure 2410, Policy and Administrative Procedure - The revised Board Policy and new

Administrative Procedure 2410, Policy and Administrative Procedure, were approved on a motion by Trustee Levinson, seconded by Trustee Minnite, and carried unanimously.

FISCAL SERVICES

FS-35 Fiscal Services Report – Mr. Ken Stoppenbrink distributed the budget status report and discussed the status of the budget expenses and revenues to date. He reported that the District is currently 66.7% through the year. General fund revenue is at 71.5% and expenses are at 55.4%.

Trustee Minnite initiated discussion regarding bad debt expenses and Mr. Stoppenbrink responded that we will not know the final expenses until the end of the fiscal year. Further brief discussion took place regarding the bad debt expenses and Dr. Gornick commented that things are much better now than they were a couple of years ago.

Trustee Minnite requested that a separate revenue and expense report be prepared for the farm, cafeteria, bookstore and residence halls. It was agreed that this report would be prepared on a quarterly basis.

FS-36 Bid Award – Discussion took place regarding the bid amount for the West Hills College Coalinga campus safety lighting project and why the bid from Santa Margarita Construction was so low. Trustee Cantu made a motion to award the base bid and alternates 1 and 3. The motion was seconded by Trustee Levinson. Mr. Stoppenbrink discussed the bid and explained that the Credit Union (EECU) will be paying for bid alternates 1 and 3. Further discussion took place regarding the bid and Trustees Cantu and Levinson withdrew their motions.

Trustee Levinson made a motion to award the base bid and alternate 2 only. The motion was seconded by Trustee Cantu. Mr. Stoppenbrink explained that we cannot dissect out the process. Discussion occurred and Trustees Levinson and Cantu again withdrew their motions.

It was requested that the item be tabled until more information is given concerning the bid award. Discussion took place regarding the alternative bid that EECU received. President McKean questioned if it will cause a problem to delay action on this item. Ms. Anne Jorgens stated that scheduled maintenance funds need to be spent by May 15.

President McKean suggested that the item be tabled and a conference call Board meeting be scheduled as soon as possible for this particular item after additional information is gathered.

Trustee Levinson made a motion to table this item. The motion was seconded by Trustee Minnite and carried unanimously.

Trustee Henry questioned the purpose for the lights. It was explained that they are for safety lighting on the Coalinga Campus.

PERSONNEL SERVICES

PS-12 Resolution – Elimination of Certificated Faculty – Dr. Gornick commented on the resolution, explaining that there is a gap in service with respect to the psychiatric technician program. The resolution allows us to negotiate the effects of the layoff. Dr. Tricoli has spoken with both of the instructors and they understand and have agreed to the layoff notice. The instructors understand that they will be back in August for the next cohort. During the gap in service, Mr. Hector Dam-Mikkelsen will be reassigned and will be assisting with program administration, medical terminology and CNA courses.

Trustee Levinson questioned the success rates of the psychiatric technician program. Dr. Tricoli responded that all of the students who have graduated are getting jobs and the majority of them are at the Coalinga State Hospital.

The resolution in the matter of the elimination of certificated faculty was adopted on a motion by Trustee Levinson, seconded by Trustee Minnite, and carried unanimously.

BOARD REPORTS / COMMENTS / REQUESTS AND ANNOUNCEMENTS

Trustee Cantu expressed his congratulations to Mr. Warkentin on the completion of the accreditation visit. He stated that it sounds positive and he thanked the Board members who attended the accreditation meetings. Trustee Cantu expressed his thanks to all of the staff for their hard work.

Trustee Minnite echoed the comments made by Trustee Cantu. He thanked Ms. Frances Squire for her work on the District newsletter. Trustee Minnite commented on the accreditation visit and stated that it is very evident that we have a dedicated staff that wants to see success for the District and its students.

Trustee Oxborrow thanked Dr. Tricoli, Mr. Warkentin and their staff for the work done on accreditation. She stated that we need to continue to focus on what we do best, which is serving students.

Trustee Ivans thanked everyone for their hard work. She stated that the open forums held during the recent accreditation visit at West Hills College Lemoore were great.

Trustee Henry echoed the remarks made by his fellow Board members. He stated that he has heard good things about the open forums and it is heartwarming.

Trustee Levinson also echoed the remarks previously made. He commented on using our student and athlete scholars for recruiting purposes and stated that this would be a great tool to use.

President McKean stated that he is not against accreditation and it is justified and necessary. He stated that he only has a problem with the sole thought that we need to fit in a box. He stated that West Hills College does not fit in a box and we never have.

President McKean announced that the next meeting will be a Board study session and is scheduled for April 4, 2006 at 3:00 p.m.

CLOSED SESSION

The meeting was adjourned to closed session at 4:33 p.m.

- Public Employee Discipline/Dismissal/Release (as per Government Code Section 54957)
- Existing Litigation (as per Government Code Section 54956.9(a)). Names of cases: West Hills Community College District v. Doucette, et al
- Discussion of land acquisition/disposition of property (as per Government Code Section 54956.8). Property: Coalinga, California; Lemoore, California; Firebaugh, California
- Conference with Labor Negotiators (as per Government Code Section 54957.6). Agency negotiator: Vice Chancellor of Business Services. Employee organization: CTA

ADJOURNMENT

There being no further business before the Board of Trustees, the meeting was adjourned at 5:12 p.m.

Nina Oxborrow
Clerk of the Board of Trustees

David-Michael Rengh	Instructor	West Hills College Lemoore
Don Turner	Director	Kings Co. IHSS PA
Minerva Vasquez	Recovery Support Coordinator	Kings Co. BHA
Neil Williams	Business Retention	KCEDC

Welcome

Dean Stephanie Atkinson-Alston greeted the committee, and introduced Don Warkentin, President of West Hills College Lemoore.

Mr. Warkentin thanked the committee for attending, and gave a brief overview of the college's current projects including the sports complex, and the planned student center.

At this time the committee members were asked to introduce themselves to the committee.

ARCC Report 2009 Update

Dave Bolt, Vice President of Educational Services, pointed out that enrollment is up at West Hills College Lemoore, with an increase 11% over last year and a record 9,300 class-seats occupied in the spring semester.

Mr. Bolt went on to comment on the ARCC (Accountability Reporting for the Community Colleges) report for West Hills College Lemoore's CTE programs. The college is taking steps to remedy some of the issues brought up in this report, particularly success and retention rates in the Open Entry/Open Exit computer and business classes and Administration of Justice classes.

Changes have been implemented in the OE lab, including the addition of a lecture component to the lab. The college is addressing success and retention rates for AOJ by working to provide firearms for the P.C. 832 Firearms course (AOJ-50B) so that students taking this course will not be required to own their own firearm, and that instructors of online AOJ classes will received additional training in order to improve retention rates.

Federal Economic Stimulus Funding

Dean Atkinson-Alston commented on the recent passage of the American Recovery and Reinvestment Act, and the funds this will make available for job training and workforce development. Dean Atkinson-Alston pointed out that West Hills Community College District has had great success in receiving and using grant funds, and that the college will continue to seek these sources of funding.

Programs

Human Services

Vera Kennedy took the floor and delivered an update WHCL's Human Services program. There will be six certificates offered as part of this program, each targeting different segments of the Human Services industry. Ms. Kennedy noted that there has been considerable student interest in this program, and that the college will begin offering some of the new courses for this program during the summer session.

Ms. Kennedy pointed out that this program targets students who are currently working in Human Services or those seeking entry-level employment in the field. Because of this, the certificates have been designed so that students can complete them in about a year, allowing a student to advance in their current job or to find employment.

These certificates have been slightly modified from their original form; students will be required to take Work Experience classes. Because of this change, these certificates are now at least 18 units each, which will allow them to appear on students' transcripts when completed.

Web Degree

Mr. David Rengh gave the committee an update on WHCL's Web Development program. Currently several 6 unit certificates are available to students, with plans to offer an associate's degree in the near future. Mr. Rengh pointed out that the degree program will need local and state approval, and hopes that the program can be sent to the state for approval by the summer of 2009.

The courses in this area are generally run as short-term, 9 week classes, with introductory courses offered every semester, allowing students to quickly and easily enter the program.

Business Administration Degree and Entrepreneurship Option

Monte Paden discussed the three-year process the college is going through to re-work its Business degree and better align it with CSU Fresno's Business program. One aspect of this will be the addition of an entrepreneurship option to WHCL's A.A. and A.S. degrees in Business; this new program will include two new business courses: Introduction to Entrepreneurship which is planned to articulate with CSU Fresno's entrepreneurship course, and Collegiate Entrepreneur Organization, which would work in conjunction with a student organization to help connect students with local entrepreneurs and businesspeople in the community.

Mr. Paden also noted that this program will help students pursuing studies in other fields enhance their business skills and start their own businesses in these areas such as culinary arts and child development. Mr. Paden explained that this fits in with the Community College Entrepreneurial Pathway, which is a partnership between the Lyles Center at CSU Fresno and local community colleges to build skills leading to the creation of new businesses.

Work Keys/Non-Credit Courses

Tammy Larson pointed out that the college is now set up as a WorkKeys testing facility, and that she and others are working on developing how the test will be offered to students.

The WorkKeys test is being used as the basis for the Central California Work Readiness Certificate, which has been developed by colleges and WIBs throughout the central valley.

Three new classes have been developed to help students improve their scores on the WorkKeys test.

Culinary Arts

Christian Raia gave a brief update on WHCL's culinary arts program. Students have been placed in internships all across the county, with the goal of building their job skills so that they can find employment when they return to the Lemoore area. Mr. Raia also pointed out that he has had great

success in working with area high schools, including 9 students from Jameson High in Lemoore recently enrolling in a short term culinary arts course.

Maintenance Mechanic

Dean Atkinson-Alston gave an update on the Maintenance Mechanic program. This program is part of a collaborative grant through the Department of Labor, and is currently running in our district with great success, and that the curriculum should receive local approval in the near future.

These are survey courses that are meant to build skills and allow individuals to find entry-level positions, and later develop additional job skills.

Cooperative Work Experience Education

Stephanie Droker gave a brief presentation on the work experience program, which allows students to receive college credit for their employment.

Partnerships and Planning for Sustainability

At this point in the meeting Dean Atkinson-Alston opened the floor for questions and discussion from the committee.

Key points from the discussion session included:

- The need to bring speakers from local agencies and businesses to classes. This will open up dialogue between students, the college, and outside agencies and businesses.
- Working with local HR departments to coordinate positions where education can be used as a substitute for experience.
- The need for expanded course offerings in areas such as Business and Computer Information Systems.
- The use of IS classes such as College Success and Career Planning and the GED Preparation lab to help students make the transition into the college environment.
- Several committee members expressed a desire to see greater participation from local high schools.
- Antonio Lopez noted that exposing students to these programs before they enroll is very important. An event could be organized where students could ask questions about various occupations and about vocational programs at the college.
- It was noted that having skills and competencies listed on certificates is helpful to employers when hiring. Dean Atkinson-Alston noted that the Work Ready Certificate will be helpful in this respect.

Approval of minutes

Peggy Montgomery made a motion to approve the minutes from the CTE Advisory Meeting on 10-28-08. This motion was seconded by David Rengh, and approved by the committee.

Peggy Montgomery made a motion to approve the Entrepreneurship option for the Business program. Carolyn Leist seconded the motion, and it was approved by the committee.

Adjournment

Dean Atkinson-Alston adjourned the meeting, thanking the committee members for their time and input.

Meeting Minutes

Career Technical Education Advisory Planning Meeting

West Hills College Lemoore
Tuesday, October 20, 2009
8:30am-10:30am
Conference Center (Room 253)

Attendees

Angela Barginear	Career Technician	West Hills College Lemoore
Dave Bolt	Vice President of Educational Services	West Hills College Lemoore
Raia Christian	Culinary Arts Instructor	West Hills College Lemoore
Gary Cramer	Deputy Chief	Corcoran Police Department
Kyle Crider	Secretary	West Hills College Lemoore
Terry Davis	AOJ Instructor	West Hills College Lemoore
Stephanie Droker	CWEE Instructor	West Hills College Lemoore
Charles Freeman	Director of Nursing	West Hills College Lemoore
Shawna Glazener	Tribal Development Counselor	Picayune Rancheria of the Chukchansi Indians
Dr. Marlon Hall	Associate Dean of Educational Services	West Hills College Lemoore
Pauline Hershey-Gambino	Owner	All Valley Printing
Zona Hoggard	Teacher	Kings ROP
Sherry Hooper	Student	Business Technology Center
Pat Jerrold	Sergeant	Lemoore Police Department
Mike Jones	Sous Chef	Irwin Street Inn
Kathleen Kabbani	Director	Picayune Rancheria of the Chukchansi Indians
Vera Kennedy	Sociology Instructor	West Hills College Lemoore
Brian Kron	CIS/Business Instructor	West Hills College Lemoore
Tammy Larson	GED Prep Instructor	West Hills College Lemoore
Carolyn Leist	Personnel Technician	Kings County Human Resources
Anne Leonard	Director of Academics	Embry-Riddle Aeronautical University
Jose Lopez	Dean of Students	West Hills College Lemoore
Ed Mata	Service Center Manager	Proteus, Inc.
Peggy Montgomery	Director	Kings County Human Services Agency
Peter Munoz	Prevention Services Coordinator	Kings County Behavioral Health Administration
Monte Paden	CIS/Business Instructor	West Hills College Lemoore
David-Michael Rengh	CIS/Business Instructor	West Hills College Lemoore
Michael Rodriguez	Career Center Counselor	West Hills College Lemoore
Jay Salyer	Economic Development Manager	Kings Co. Economic Development Corporation
Larriann Torrez	Program Manager	Proteus, Inc.
Don Turner	Director	Kings IHSS PA
Don Warkentin	President	West Hills College Lemoore
Neil Williams	Business Retention Consultant	Kings Co. Economic Development Corporation

Open

Dave Bolt, Vice President of Educational Services, greeted the committee and introduced President Don Warkentin.

Welcome

President Don Warkentin discussed the budget issues facing the college, and noted that the spring 2010 semester would see fewer classes offered than last spring. Mr. Warkentin also pointed out that construction has begun on the sports complex; funding for this project comes from state bonds and cannot be used for purposes other than construction.

Introduction of Meeting

Mr. Bolt asked the attendees from West Hills Community College District to introduce themselves to the committee and thanked all present for attending the meeting.

Charles Freeman, Director of Nursing at West Hills College Lemoore, noted that several new Allied Health programs are in the works. A medical assisting program is being developed, along with expansion of the college's EMT and sterile processing programs.

State of the College

Vice President Bolt reiterated President Warkentin's comments on the budget, and noted that demand for classes remains high. Students are showing greater interest in Career Technical Education courses. However, the budget is not allowing the college to keep up with the student's demand and needs.

Programs by College Staff

- **High Expectations for Progress (HEP) Grant – Ms. Tammy Larson, GED/CalWorks/Work Keys**

Tammy Larson greeted the committee and introduced her role as the instructor for the GED Preparation program. The goal of the recently-awarded HEP grant is to assist migrant workers in completing their GED and moving them into career training. Other support offered by this grant includes assessment, orientation, advising, financial support, and health screenings for students in the migrant community.

- **Vocational Education Training – Mr. Terry Davis, Administration of Justice**

Terry Davis described the training students receive in the PC 832 courses offered at West Hills College Lemoore. These courses consist of part of the training a student would undergo at a police academy, and are certified by the California Commission for Peace Officer Standards Training.

- **Web Degree – Mr. David-Michael Rengh, CIS, Business**

David-Michael Rengh gave the committee an update on the development of an AA degree in web development. Eleven courses have been gone through the college curriculum committee, with three more pending. One key change to this program has been the addition of more transfer level courses. Mr. Rengh noted that courses from this program have been successful so far, with over 80 students currently enrolled in the two sections of the Photoshop class.

- **Summer Internships and Work Experience – Mr. Christian Raia, Culinary Arts and Ms. Stephanie Droker, Work Experience**

Christian Raia recognized the community partners who have worked closely with the West Hills College Lemoore culinary arts program, and proceeded to introduce several culinary students who had worked as interns during the summer. These students received course credit through the Cooperative Work Experience Education program (CWEE). Stephanie Droker, who oversees the CWEE program at West Hills College Lemoore, noted that she always needs employers willing to take CWEE students, and that anyone interested in taking work experience students should contact her.

- **Human Services Program – Ms. Vera Kennedy, Sociology**

Vera Kennedy introduced herself to the committee and gave an overview of the various certificates offered as part of the Human Services program at West Hills College Lemoore. Ms. Kennedy noted that students are currently working towards their certificates in Human Services, with many working towards their AA degree at the same time.

- **Entrepreneurialism – Mr. Monte Paden, CIS, Economics, Business**

Monte Paden discussed the Community College Entrepreneurial Pathways program, which is a partnership between the Lyles Center at CSU Fresno, and ten community colleges in the area. Several courses as well as a student club are being developed in conjunction with this project, and Mr. Paden noted that he is working with other departments and programs on campus that can help lead to students starting their own business; this includes areas such as child development, culinary arts and computer information systems.

- **Biotechnology and Quality Assurance – Mr. Dave Bolt, Vice President of Educational Services**

Dave Bolt stated that West Hills College Lemoore was recently awarded a federal grant to establish a Biotechnology and Quality Assurance program. This is a partnership with West Hills College Coalinga and College of the Sequoias, and will train lab assistants for the food service

and food manufacturing industries. Mr. Bolt noted that the college has been working closely with Kings County EDC, and that an advisory committee meeting specifically for this program will be held in the coming weeks.

Break-Out Sessions

The committee formed into several groups for more focused discussion on specific topics and disciplines.

Reporting of Session Highlights

The groups from the break-out session reported back to the entire committee.

Vera Kennedy reported the following related to the Human Services program:

- Develop a placement test for students to help identify the best certificate option or fit for them. Contact Cooperative Personnel Services at (916) 263-1800 to request a review copy of the Human Services Exam to use as tool for developing a placement test.
- The best time to host work experience students is during the summer months for Kings County Human Services.
- When advising students in the Human Services program, encourage them to complete the general Human Services certificate and one other vocational specific certificate.
- Conduct community outreach to educate organizations and agencies about the work experience requirements and process.

For GED preparation, Tammy Larson noted the following:

- Partnership opportunities were discussed with the personnel attending from Proteus and Kings County Business Technology Center (Kings Regional Occupational Program). The Kings County representative relayed that she knew that at least 7 or 8 of her current office technology students that did not have their GED would qualify as migrant and might be a good fit to possibly move into the HEP program at WHCL.
- A challenge or obstacle that was mentioned by one of the Proteus personnel was that the GED test would be changing in January of 2012.
- It was agreed that when we collaborate and coordinate our efforts, many more community members are served.

For Business/CIS, David Rengh reported the following:

The primary discussion centered on the Web Developer AA program and the Entrepreneur program.

Pauline Hershey Gambino started the discussion on the Web Developer program and how she thought it was a good idea that the students obtained real world experiences by assisting non-profit organizations in the creation, updating and maintaining of the web sites. She stated she already has a need for some student help in these areas. She also asked if student would be exposed to some level of graphic design in terms of printed materials. D. Rengh stated yes, but it is somewhat limited since the objective of the program is to prepare students to work on the Web. P Hershey Gambino thought that

would be ok as long as students were also getting instruction on layout and design. It was stated that students are receiving this type of training throughout the program.

Neil Williams stressed the need for students in all programs to get practice in writing especially in complete sentences and without chat room or texting slang or abbreviations. All three instructors from the CIS/Business learning area explained how that happens in their courses. Monte Paden spoke about how students write a business plan in his courses.

There was discussion on the topic of the increase in the Hispanic population but at West Hills Community College Lemoore and in the general population. D. Rengh said the biggest change he had experienced is that it appears the Hispanic students are not receiving support from home and being encouraged to advance their education levels. Brian Kron said he had begun taking Spanish to be better able to communicate with his students. Everyone agreed this was a great idea, but Anne Leonard stressed the importance of ESL students learning proper English writing and grammar skills. There was a general agreement with her statements.

It was the opinion of the CIS/Business Advisory Committee that the CIS/Business faculty was on the right track and stressing key learning points brought out by the group both in their curriculum and in their personal teaching styles. The committee joined the entire CTE advisory committee for a general wrap-up of the meeting.

Vice President Bolt once again thanked the committee members for attending, and adjourned the meeting at 10:30am.

Next Meeting: Spring 2010

Tina Souza	West Hills College Lemoore
Matthew Verhage	Student, West Hills College Lemoore
Kristin Virden	Student, West Hills College Lemoore

1. Welcome

Dean Atkinson-Alston welcomed the committee and thanked them for taking time out of their day to come. Ms. Atkinson-Alston emphasized the importance of community feedback in improving career technical education.

2. Approval of Minutes

Dean Atkinson-Alston entertained a motion to approve the minutes from the committee's previous meeting on October 19, 2007. Mike Robinson motioned to approve. Marlon Hall seconded. The minutes were approved with no objections.

3. Introductions

Committee members introduced themselves to the committee.

Dean Atkinson-Alston gave an overview of Career Technical Education programs at West Hills College Lemoore. Emphasis should be placed on high demand skills, with training beginning as early as high school and middle school in some cases.

4. CTE Discipline Specific

Business

Brian Kron introduced himself to the committee, and presented recent changes to the college's business program. One planned change is the addition of a bookkeeper certificate. There is currently a high demand for accountants, and accounting offers many opportunities for career advancement. The college currently offers a bookkeeping certificate, but would like to expand the program, with three steps: Tax Preparer, Account Clerk, and an A.S. Degree in accounting, which is currently planned to be 39 units, and would be transferable to Fresno State.

Mr. Kron stated that the addition of a medical assistant certificate is being explored at the moment. This would emphasize front office billing and insurance coding in medical offices. While this emphasis will require some classes on medical terminology and anatomy, it would not be heavy in medical-related coursework.

Computer Information Systems

Next, David Rengh presented changes that are currently being made within the CIS program. Based partly on feedback from the last advisory meeting, the Web Developer Certificate will be made up of seven smaller certificates: Web Graphics and Design, Marketing and Scripting, Dynamic Web Site Technology, Web Database Technology, Servers, Networking & Administration, Web Security, and Web Business Management.

Mr. Rengh explained that the program is set up to take place in two semesters, with classes running in 9 week blocks, and will also prepare students to take standardized exams to become a Certified Web Developer Apprentice or a Certified Web Developer

Associate. As the program expands, it will be developed into an A.A. or A.S. Degree in Computer Information Systems. According to the U.S. Department of Labor, occupations related to computer science and database administration are expected to experience 37% growth between 2006 and 2017.

Culinary Arts

Christian Raia reported to the committee that West Hills College Lemoore's Culinary Arts program continues to grow, with numerous certificates being offered to students. Certificates being offered include Bartender/Mixologist, Dining Room Management, Pastry and Bakery Arts, Culinary and Bakery Arts and the two year Chef Apprentice Certificate. The program offers a wide range of employment opportunities in the restaurant and hospitality industry, as well as transfer opportunities to those wishing to go on to earn a four year degree. Several Culinary Arts students were then recognized for being among the first to earn certificates from the program.

Cooperative Work Experience Education

Stephanie Droker greeted the committee and gave a brief overview of the Cooperative Work Experience Education program. CWEE allows students who are currently working to receive college credit for their work. Mrs. Droker encouraged employers to take on work experience students, and then gave a brief overview of the CWEE website. CWEE classes are conducted primarily as independent study, emphasizing time spent on the job, but with a total of five hours of classroom time over the course of the semester.

GED Preparation

Tammy Larson came to the floor, and thanked Kris Brown of Kings County ETS for her support of West Hills College Lemoore's GED Prep program. In this program, Mrs. Larson explained, students are able to earn their GED and move into employment of college classes; this is particularly important for college classes, as students are required to have a high school diploma or GED in order to qualify for college financial aid. The computer lab for the GED Prep program is open 32 hours a week, and utilizes two computer programs to assist in GED preparation.

Mrs. Larson pointed students have been referred by a number of agencies, including Kings County, Behavioral Health, Army recruiting, Tribal Agencies, and Kings County Hand-in-Hand. Additionally, many self-referred students have entered the program, and a \$100 GED scholarship is being developed to cover the cost of the GED test for these students.

5. Break-Out Sessions

At this point in the meeting, the committee was divided into breakout sessions for Business, Administration of Justice, Computer Information Systems, Culinary Arts and GED Prep.

6. Report Back

Computer Information Systems – David Rengh reporting

David Rengh reported back that setting curriculum for this discipline can be particularly challenging, as there is a constantly moving skill set that needs to be followed. One potential change for the future could be to split CIS into three separate disciplines: one for application skills, such as Microsoft Word, Excel, etc.; Information Technology, which could compete with local private colleges; and Web Engineering. It would also benefit students to further refine the schedule in order to better accommodate working students.

Administration of Justice – Terry Davis reporting

Many law enforcement agencies in the area have had difficulties with employment applicants who are not able to pass background checks and who are not honest about their backgrounds. One possible solution to alleviate this problem would be to hold an open forum for AOJ students and other interested community members, where they could ask questions about the hiring process for law enforcement and corrections.

Members of the committee noted that a class on report writing would be very helpful, as this is currently one of the greatest weaknesses that employers are encountering in current and potential employees. This could be a community education class targeted at current law enforcement officers, or could be integrated into the college's AOJ curriculum. Other courses that could be targeted towards law enforcement and corrections professionals include: interview & interrogation, leadership for line staff, and basic traffic accident investigation.

There has been some discussion of running the corrections officer core training, but this would require additional resources for instructors, and would most likely reduce enrollment in this course in Coalinga.

Business – Angela Barginear reporting

Students on the committee reacted favorably to the changes presented by Mr. Kron, and commented that the addition of a medical assistant program would be welcome, especially with the new hospital being built in Hanford. One difficulty often encountered in placing interns, particularly in accounting, is that companies are hesitant to allow these volunteers to work with their private financial data.

Culinary and GED Prep – Kris Brown reporting

Kris Brown emphasized the importance of support systems for students, and the need for these students to build their skills and confidence. The operating hours of the GED Prep computer lab were discussed, with the possibility of adding hours in the evenings part of

the week. This has been discussed with the college administrators and will be further explored.

7. Wrap-Up

Dean Atkinson-Alston asked if there were any further questions, thanked the committee members for their time, and called the meeting to a close. The next meeting of the Career Technical Advisory Committee will take place in the fall of 2008.

West Hills College Lemoore
Career Technical Education
Advisory Planning Committee

Meeting Minutes
 Tuesday, October 28, 2008
 Conference Center (Room 253)
 8:00 – 10:00 a.m.

Attendees

Stephanie Atkinson-Alston	Dean of Educational Services	West Hills College Lemoore
Amy Babb	Sales and Marketing Manager	Tulare Agri-Center
Marilyn Bamford	Director	Families First, Inc.
Cathy Barabe	Director of Grants	West Hills Community College District
Angela Barginear	Career Center Technician	West Hills College Lemoore
Etsel Barner	Instructor	West Hills College Lemoore
Tim Bowers	Program Director	Kings COE
Kris Brown	Program Manager	Kings County HAS
Kyle Crider	Secretary	West Hills College Lemoore
Terry Davis	Instructor	West Hills College Lemoore
Stephanie Droker	Instructor	West Hills College Lemoore
Pamela Fellows	Recovery Support Coordinator	Kings County BHA
Vera Kennedy	Instructor	West Hills College Lemoore
Brian Kron	Instructor	West Hills College Lemoore
Tammy Larson	Instructor	West Hills College Lemoore
Fanny Miranda	HR Director	KCAO
Peggy Montgomery	Director	Kings County Human Services
Monte Paden	Instructor	West Hills College Lemoore
Roger Palomino	Executive Director	Fresno County EDC
George Quilty	Chef	Orange Blossom Junction
Christian Raia	Instructor	West Hills College Lemoore
Reagan Reach	Executive Chef	John D's Steakhouse
David Rengh	Instructor	West Hills College Lemoore
Jesus Rodriguez	Rental Management	Rodriguez Enterprises
Jay Salyer	Economic Development Manager	Kings EDC
Darrell Smith	Police Captain	Hanford PD
Bob Solis	Chair, Board of Directors	Centro la Familia Advocacy
Dan Turner	Director	Kings IHSS
Neil Williams	Business Retention	Kings EDC

Welcome – Dean Stephanie Atkinson-Alston

Stephanie Atkinson-Alston, Dean of Educational Services at West Hills College Lemoore welcomed the committee and thanked them for coming to the advisory meeting.

Introductions

The committee members introduced themselves, and Dean Atkinson-Alston emphasized the importance of having representation from such a diverse group of public and private organizations.

Approval of spring 2008 minutes

Jay Salyer moved that the minutes from the April 18, 2008 meeting be approved. The motion was seconded by Tim Bowers and passed unanimously by the committee.

Programs

Work Keys – Mrs. Tammy Larson

Tammy Larson of West Hills College Lemoore presented information on Work Keys testing. Work Keys consists of both job profiling and skill assessment, and is being used as part of the Central California Work Readiness Certificate in conjunction with the Career Advancement Academy grant. West Hills College Lemoore's nursing program will be using Work Keys as part of its application process, and the college is working to be able to administer testing for businesses by contract.

Web Degree – Mr. David-Michael Rengh

David Rengh reported that a Web Developer AA degree is currently being developed, and will exist in addition to the mini-certificates that are already in place. One part of the creation of the Web Developer degree will be a reorganization of course numbers to make them more straightforward and to ensure that course titles are general, focusing on concepts and types of software, rather than focusing on specific computer programs. Mr. Rengh noted that the average age of students at the college is lower today than in the past, and these younger students are more likely to want a formal degree, rather than a certificate, though the certificates will continue to be offered as well.

Mr. Rengh stated that this degree is currently being developed, and he hopes that it can be offered beginning in the fall 2009 semester. The degree will first need to be approved by the college curriculum committee, and then will need regional and state approval before being offered.

When asked about available jobs in the central valley, Mr. Rengh mentioned that there is a healthy job market for web developers, with about 60% of those working in this field being self employed, with the remainder employed by companies and other organizations.

Culinary Arts – Mr. Christian Raia

Christian Raia gave the committee an overview of course revisions that were made since the last meeting. The curriculum for Advanced Baking, Hospitality Careers & Human Relations, and Beverage Management has been changed to increase the unit values of these courses. Additionally, Beverage Management has had the drink mixing element removed from it; this is now the basis of the new Mixology course. Two other new classes have also been added to the program: CUL-6 Culinary Excursions, and CUL-2 Food & Wine Pairing.

Students are also being encouraged to enroll in work experience courses, and this has been integrated into the new culinary arts certificates.

Mr. Raia reported that there are approximately 75 students in the program, and that job placement has been very good, especially over the past summer.

In response to a question from the committee, Mr. Raia noted that the college is working on developing closer relationships with Fresno State, including transfer opportunities.

Human Services – Ms. Vera Kennedy

Vera Kennedy gave an overview of the Human Services and Social Work program being developed at West Hills College Lemoore. This program includes certificate options for mental health, social work, and substance abuse specialists, and that these certificates are targeted at individuals who are looking to work in both public and private agencies.

It was emphasized that these are paraprofessional certificates, with the curriculum focusing on the social services that are available, as those finding employment in the field would be working in entry-level support positions.

These courses were developed with job descriptions from the state and county in mind, and preparation for Eligibility Worker tests was built into the course curriculum.

Ms. Kennedy pointed out that this program will target students who are already working in social services as well as new students who may be interested in the field.

One additional component included in these certificates is that students are required to take Work Experience courses, which will help to build job skills, and will also help to build connections to local businesses and organizations.

The program and new courses have been approved locally, and will next be presented for regional approval. It is anticipated that the college will begin offering courses for this program in fall 2009.

Maintenance Mechanic Program – Dean Stephanie Atkinson-Alston

Dean Atkinson-Alston gave an overview of the Maintenance Mechanic program that is being developed at WHC Lemoore as part of a five year collaborative grant from the Department of Labor involving three WIAs, five other community colleges in the area, ROP, and local

employers. The ultimate goal of this program is to train over 1000 workers for high demand jobs, and will leverage the combined resources of the various colleges, organizations and businesses involved.

For its part of this project, West Hills College Lemoore will be offering a 12 week program teaching entry-level skills in welding, hydraulics, and other fundamentals, in addition to soft skills and job preparation.

This program has been run at West Hills College Lemoore for three semesters as contract education, but is being developed into a certificate program.

Students who have completed the program thus far have been very successful in finding jobs, and the variety of training they receive serves as a starting point to further develop their job skills at other institutions in the area.

Entrepreneurship – Mr. Monte Paden

Mr. Monte Paden introduced himself and provided background on the Lyles Center for Innovation and Entrepreneurship at Fresno State University, which has been working with the Business program at West Hills College Lemoore.

Additionally, Mr. Paden pointed out that he and other business instructors at West Hills College Lemoore are currently working to align WHCL's business and entrepreneurship curriculum with Fresno State's to simplify the process for students transferring to CSU Fresno's Business program.

VTEA/CAA – Ms. Cathy Barabe

Ms. Cathy Barabe spoke briefly about VTEA and CAA, which both offer funding for Career Technical Education programs at West Hills College Lemoore. Career Advancement Academy (CAA) is a regional grant shared with several other colleges, and has the goal of enhancing basic skills education through vocational programs and courses such as the culinary math class offered through WHCL's Culinary Arts program, and the technical report writing segment of the Maintenance Mechanic program.

New Business

Dean Atkinson-Alston asked the committee to vote to approve the programs presented to them today, and entertained motions for these approvals.

Tim Bowers moved to approve the new Human Services program. The motion was seconded by Peggy Montgomery and passed unanimously.

Jay Salyer moved to approve the Maintenance Mechanic program, and was seconded by Neil Williams. The motion was passed unanimously.

Terry Davis moved to approve the changes to the Business program brought up by Monte Paden. This motion was seconded by Jay Salyer and passed unanimously.

Monte Paden moved to approve David Rengh's proposal for a Web Developer degree. This motion was seconded by Neil Williams and passed unanimously.

Dan Turner moved to approve the changes to the Culinary Arts program. This motion was seconded by Kris Brown, and passed unanimously.

Adjournment

Dean Atkinson-Alston thanked the committee for attending and adjourned the meeting at 10:05 a.m.

NEW COURSE PROPOSAL

West Hills Community College District

Initiated by: Kevin Wilds Dept: Social Sciences Date: 5/15/08

TO BE COMPLETED BY INITIATING FACULTY MEMBER

EXACT CATALOG LISTING:

Course Name (prefix) & Number: Political Science 4

Title: Introduction to International Relations

Units: **3** Course Can Be Taught Short Term Yes No
 Full Semester: Lecture Hrs. **54** Short Term: Lecture Hrs. **6/9 wks.**
 Full Semester: Laboratory Hrs. Short Term: Laboratory Hrs. **/** wks.

Transferability (attach evidence):

CSU: UC: Private:

1. Attach a Course Outline to this form.
2. Yes No Is the course part of a new major? If so, please explain.
3. Yes No Is the course intended for transfer? (Check all that apply.)
(See the Articulation Officer.)
 Elective General Education Major Requirement
(Submit requests for General Education separately.)
4. Yes No Is the course part of the Associate Degree?
 Elective General Education Major Requirement
5. Yes No Is the course part of a Certificate Program? If so, state the certificate:
6. Yes No Is the course vocational?
 Yes No If so, has an Advisory Committee been involved? If so, state the name(s) of the Advisory Committee(s) and the date of the last meeting. (Attach minutes)

7. Room Space Requirements: (Consider # of stations, safety regulations prescribed by law, etc.)
40 students

8. Staffing Implications: (As a result, what other course may not be offered?)
N/A

9. Equipment Requirements:
N/A

10. Learning Resources: (Will this course require special collections or additions to current holdings?) No

11. Estimated Costs:	Start Up: Staffing:	<u>\$ 3500.00</u>	Supplies:	<u>\$</u>	Equipment:	<u>\$</u>
	On-Going: Staffing:	<u>\$ 3500.00</u>	Supplies:	<u>\$</u>	Equipment:	<u>\$</u>

12. Material Fees: \$ 0 (explain in detail)

13. Yes No Is special funding available?
14. Yes No Evidence of meeting needs of District ethnic demographics? (See Associate Dean of Vocational Education)
15. Yes No Are there special safety regulations. (See Safety Officer)
16. Yes No Requires additional Information Technology Services resources. (See ITS Director)

Course Outline with Guidelines

Date: 5/15/08

Department: Social Sciences

Course Name & Number: Political Science 4

Course Title: Introduction to International Relations

Units: 3

Grading option (select one): Standard Grading Credit/No Credit
 Standard Grading/Credit/No Credit

Materials \$ 0

Fee: _____

Full Semester Lec Hours: 54 Short Term Lec Hours: 6 / 9 wks.

Full Semester Lab Hours: _____ Short Term Lab Hours: _____ / _____ wks.

(How many times may this course be taken for credit?) 1

1. PREREQUISITE(S):

ADVISORY(S): Eng 51a

2. CATALOG DESCRIPTION:

This introductory course will study how countries interact with each other. The course will study theories of international relations, balance of power, and basic concepts of politics around the world. Subjects include war and peace, economic development, power and decision making, terrorism, and American foreign policy.

3. INSTRUCTIONAL OBJECTIVES (Use measurable outcomes only):

Upon completion of the course the student will be able to:

- A. Analyze the foundational philosophy of International Relations.
- B. Differentiate between the three different theories of International Relations.
- C. Apply the three different theories of International Relations to current events.
- D. Explain the political processes of nation states.
- E. Demonstrate ability to research an issue without bias.

4. COURSE CONTENT AND SCOPE (Instructional topics or units):

A. The Historical Development of International Relations

1. The nation state.
2. Treaty of Westphalia.
3. Power and Wealth.
4. War between nation states.
5. Peace between nation states.

B. Three theories of International Relations

1. Realism
 - a. Components of Realism
 - b. Classical Realism
 - c. Neo-Realism
 - d. Goals of the nation state
2. Interdependence
 - a. Components of Realism

- b. Institutional Interdependence
 - c. Economic Interdependence
 - d. Goals of the nation state
 - 3. World Systems
 - a. Components of World Systems
 - b. Marxism
 - c. Imperialism
 - d. Dependency Theory
 - e. Core Periphery relationship
 - C. War and Peace
 - 1. Nation states and war.
 - 2. Nation states and peace.
 - 3. International governmental organizations.
 - 4. World War I and II.
 - 5. The cold war.
 - 6. Nation states and Terrorism.
 - D. Economic Development
 - 1. Economic systems.
 - 2. Building a nation states economy.
 - 3. Developmental state model.
 - E. American Foreign Policy
 - 1. America's historical role in the world.
 - 2. Cold War.
 - 3. Nuclear Triad.
 - 4. Hegemony of the world.
 - 5. War on Terrorism.
5. **INSTRUCTIONAL METHODOLOGIES (instructor initiated learning strategies):**
- A. Class Lecture
 - B. Audiovisual material
 - 1. Presentation projector
 - 2. Video Presentations
 - C. Frequent discussion of current events
 - D. Assignments for each chapter
 - E. Assignment of outside readings and handouts
6. **MULTIPLE METHODS TO EVALUATE ACHIEVMENT OF STUDENT LEARNING OUTCOME (measurements of student achievement):**
- A. Regular exams consisting of multiple choice and essay questions
 - B. Chapter quizzes
 - C. One five page research paper on a topic of instructor's choosing or five one page annotated bibliographies, or five one page summaries of a current news event illustrating a political science concept – or some combination thereof
 - D. Participation in class discussion
7. **WRITING ASSIGNMENTS/PROFICIENCY DEMONSTRATION:**
- A. The research paper, or annotated bibliographies or five one page summaries is a required component of the class
 - B. Essay questions are included in each unit test
8. **ASSIGNMENTS THAT DEMONSTRATE CRITICAL THINKING**
(Use detail when describing student assignments and state in cognitive terms):
The student will be able to

- A. organize and integrate classroom material with current events.
 - B. analyze a controversial issue without bias.
 - C. take complex issues and break them down and then explain why the issue is a controversial issue.
 - D. compare and contrast between the three theories of international relations and apply those differences to contemporary nation-states.
9. ASSIGNMENTS, METHODOLOGIES, OR OTHER EXAMPLES OF HOW CULTURAL PLURALISM IS ADDRESSED:
- A. Students will study many different countries and cultures in the class
 - B. Study of how the periphery interacts with the core and vice versa
 - C. Analyze how countries interact with each other from Asia, Europe, Africa, North and South Americas.
10. REQUIRED EXTRA CLASS ASSIGNMENTS:

Distance Education Statement

Course Number and Title: Political Science 4 Introduction to International Relations

Initiated by: Kevin Wilds

Date: 5/15/08

The department does not recommend this course be taught via distance education at this time.

Justification:

*The following must be completed for the delivery of this course via distance education technology as an addition to the original course outline:
(A textbook form will need to be completed if text differs from the original course).*

1. What distance education modality is being proposed for the delivery of this course?

Video Conference Hybrid (Traditional/Online) Online (100% Internet)

2. What strategies will be employed for effective contact between instructor and students to assure learning outcomes as specified in the courser outline are met?

Instructional Objectives	Activity
A. analyze the foundational philosophy of International Relations B. differentiate between the three different theories of International Relations C. apply the three different theories of International Relations to current events D. explain the political processes of nation states E. demonstrate ability to research an issue without bias	1. Chapter Reading and Chapter Summaries. A, B, C and D (15-25 Hours) 2. Discussion Boards on Topics; B, D, C and E(10-15 Hours) 3. Midterms and Finals; A-D(5-8 Hours) 4. Lecture Notes; A-D (5-10 Hours) 5. Term Paper; D and E (5-8 Hours) Instructor must have 54 regular and effective student contact hours

3. Are there any specific requirements for the delivery of this course? No
Please explain:

4. Provide an analysis of any additional cost factors that may be involved in offering this course:

Course Licensing:	License Fee						
	Per Student Fee						
Proctor/Technician:	Coalinga	hours	X	days	X	rate	= _____
	Lemoore	hours	X	days	X	rate	= _____
	Firebaugh	hours	X	days	X	rate	= _____

Video Duplication:

hours X copies X cost = _____

Learning Resources Statement

- Catalog Change
 Five Year Review

Course Title and Number or Discipline: PolSci 4 Introduction to International Relations

Department : Social Sciences Ext. 2765

The holdings of the LRC collection in the subject area(s) related to the proposed new/revised course/discipline have been reviewed.

- The LRC has sufficient resources presently available for support of this course/discipline.
- The LRC resources are not presently adequate to support this course/discipline. Additional needed items have been identified and should be purchased.

Comments: _____

Learning Resources Statement

It is the policy of the West Hills Community College District to ensure that every course offered in the college curriculum is supported with a basic collection of materials and to ensure that the campus libraries are used by faculty and students in the teaching and learning process. Library research assignments are effective means to teach critical thinking. An essential outcome of each course in the curriculum, and fundamental to critical thinking and self-directed learning, is the skill to find information and conduct library research.

When a new course or program is being developed, the faculty responsible should work with library faculty to review collection adequacy and recency and to recommend purchase of materials which will support the course(s). Accordingly, for every new/revised course or program proposed, a library collection survey must be completed and signed by the course originator and the college librarian. Also, to maintain currency, a survey must be completed for each discipline as part of the five year curriculum review. This above summary will be attached to and filed with the course syllabus.

The purpose of the resources survey is:

- 1) To allow the course originator to become familiar with the library holdings in the subject area.
- 2) To inform the library staff of new additions to the curriculum so that supporting materials can be acquired before offering the course.
- 3) To guide the district to build an effective library budget.
- 4) To enable the instructor to integrate library assignments into new courses offered.

While survey completion is required, there are no standards for course or program support that the LRC must meet before a new course is approved or a five year program review is completed.

Page 45

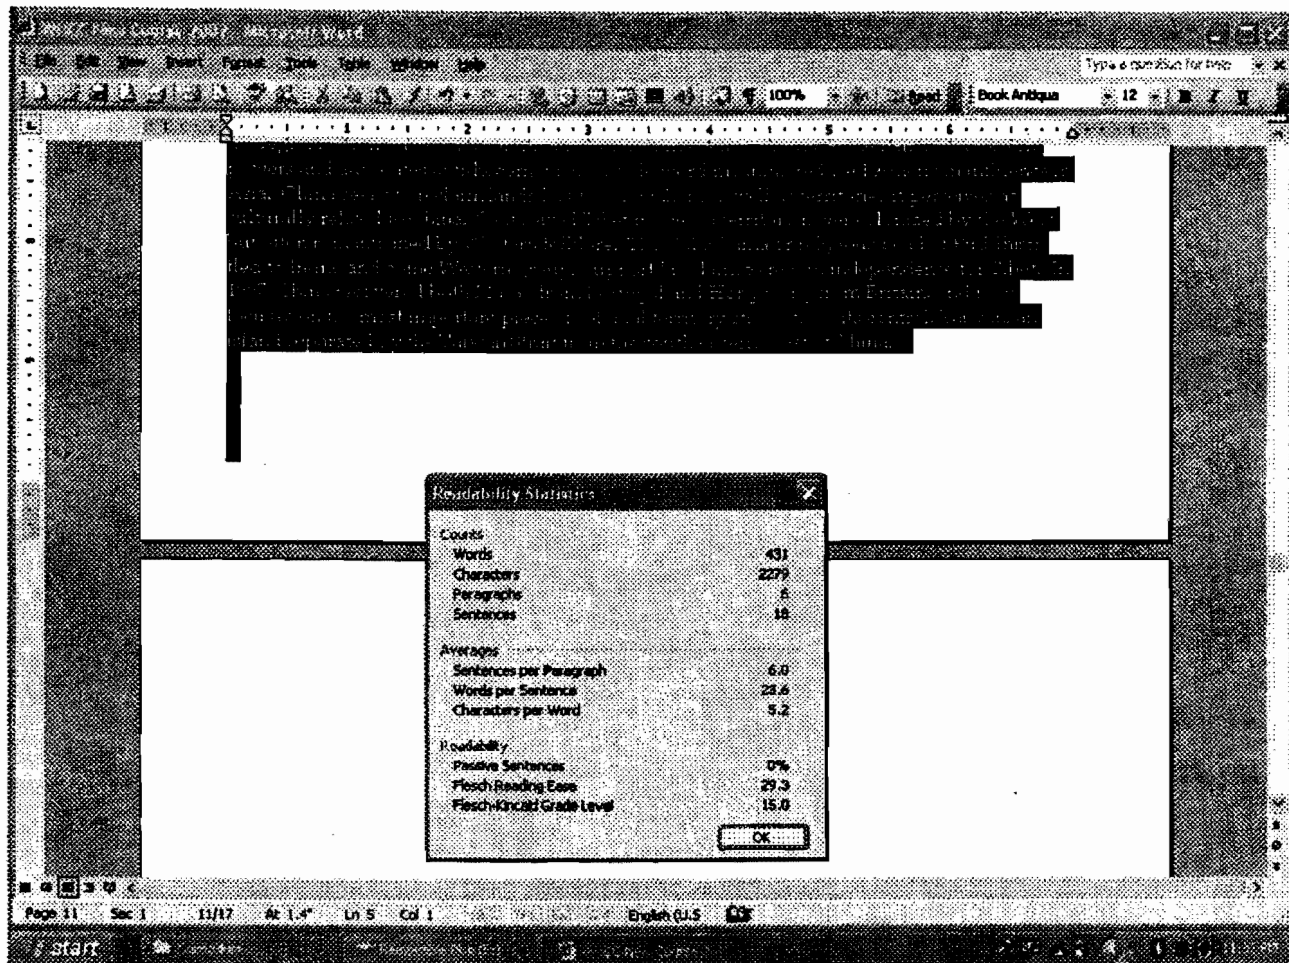

The realist perspective looks at world history through the lens of power distribution. It sees a dynamic of two major configurations of power over the past 5000 years: empire and equilibrium. These two configurations cycled back and forth, as empires consolidated dominant power and smaller powers resisted to reestablish equilibrium. From the beginning of recorded history around 3000 BCE until about 1500 CE, empires dotted the historical landscape, and in some cases lasted for hundreds of years. But after 1500 CE, Europe, and then the world as a whole, moved toward equilibrium and the decentralized system we have today of separate and more or less equal nation-states.

Page 125

To square this circle, deterrence involved many stages of escalation to resolve conflicts before they involved uses of unacceptable force. The idea was to have the capability and demonstrate the resolve to move up the ladder of escalation in an incremental and controlled fashion, eventually achieving what was called escalation dominance or compellence, that is, discouraging the adversary from going any farther up the ladder and "dominating" or "compelling" it to choose between unacceptable escalation and compromise. For instance, if Soviet armies threatened to invade Western Europe, the allies would threaten to use nuclear weapons to deter them. But that would mean nuclear war, so initially the allies would threaten to use only tactical nuclear weapons. In 1950s NATO deployed nuclear land mines as well as artillery shells in central Europe. If the Soviet Union threatened to retaliate with nuclear missiles, the United States had to be ready to retaliate against the Soviet Union with nuclear missiles.

Page 349

One of the most dangerous nationalist conflicts in Asia is between China and Taiwan with the United States caught in the middle. China has ambivalent feelings toward Western powers in the region. It remembers its colonization in the nineteenth century at the hands of Western powers and advocates anti-hegemonism, a code word meaning reduced American influence in Asia. China seeks to reclaim lands lost to colonialism as well as territories it perceives as culturally related to China. So it seized Tibet in 1949, a territory never colonized by the West but often romanticized by Western folklore. The Dalai Lama or religious head of Buddhism fled to India, and some Western groups support his claim to regain independence for Tibet. In 1997, China recovered both Macao from Portugal and Hong Kong from Britain, and now focuses on the most important piece of colonial territory still outside its control, Taiwan, an island separated by the Taiwan Strait from the southeastern coast of China.

Defining a Nation: India on the Eve of Independence, 1945

Page 11

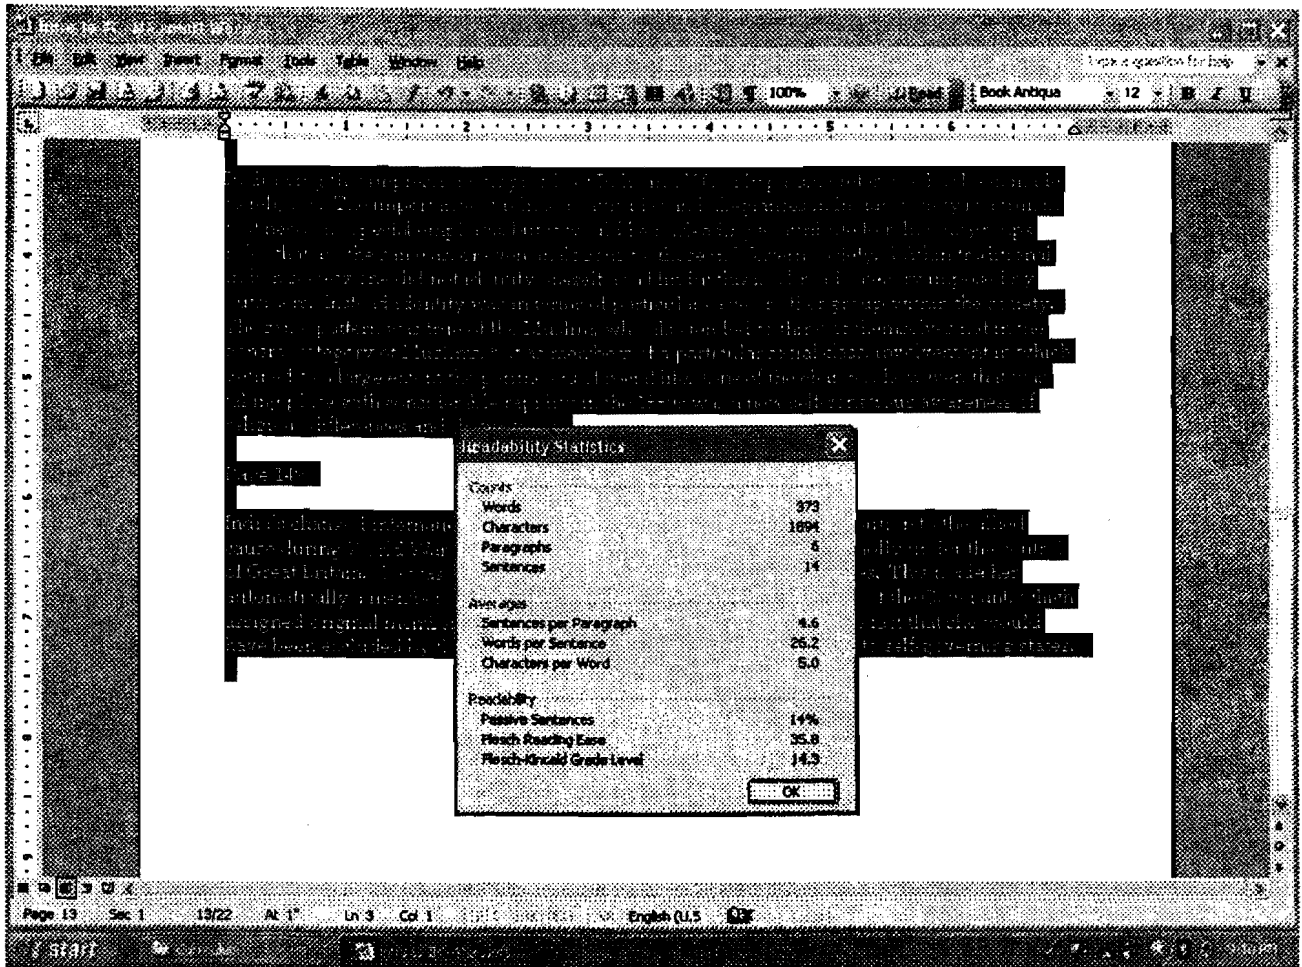

World War II is drawing to a close. Last month Nazi Germany surrendered. Japan's empire in the Pacific has collapsed, and Americans are making plans to invade Okinawa in preparation for the eventual conquest of Japan. The Soviet Union, governed by a communist hierarchy led by the formidable Josef Stalin, has filled the vacuum in Eastern Europe caused by the collapse of Nazi Germany. Many expect that communism will spread through war-ravaged Western Europe. Many, too, expect that in the wake of the inevitable withdrawal of the Japanese army, China will descend into chaos with the resumption of the civil war between the communist forces of Mao Zedong and those of nationalist leader Chiang Kai-shek.

Page 102

In drawing this impressionistic profile of India in 1880, only passing reference has been made to religion. The importance of religious attitudes and allegiances in Indian society is a truism that needs no special emphasis, but it would be misleading to attribute to religious groups roles that are the same as, or even analogous to, those in Western society. Within traditional Indian society one did not identify oneself as a Hindu; this is a broad category imposed by outsiders. Instead identity was in terms of particular caste or other group within the society. The same pattern was true of the Muslim, who also tended to think of themselves not in the general category of Muslims, but as members of a particular social class, involvement in which defined to a large extent the perimeters of social life. One of the changes, however, that was taking place with considerable rapidity in the 1880s was a new self-conscious awareness of religious differences and distinctions.

Page 149

India's changed international status was a direct outcome of her contribution to the allied cause during World War I, for even though her external affairs were wholly under the control of Great Britain, she was one of the signatories of the Treaty of Versailles. This made her automatically a member of the League of Nations under the first clause of the Covenant, which assigned original membership to the signatories of the treaty, despite the fact that she would have been excluded by the second clause, which confined membership to self-governing states.

FORM B

COURSES REQUIRING A PREREQUISITE/COREQUISITE OR ADVISORY BEYOND BASIC SKILLS

*Use this form for the content review of all courses that will have a prerequisite, corequisite or advisory of any kind beyond basic skills. Use it also to establish that no prerequisite, corequisite or advisory is needed.

CONTENT REVIEW TO ESTABLISH THAT NO PREREQUISITE/COREQUISITE OR ADVISORY IS NEEDED

Course Number: PolSci4 Course Title: Introduction to International Relations

List in Column 1 at least three specific major concepts or skills that a student will learn in the prerequisite/corequisite or advisory course(s) that are essential to the successful completion of the outcome course. In Column 2, state why the skill in Column 1 is essential to success in the outcome course.

Put each prerequisite, corequisite or advisory course on its own Form B. If you need more space, attach a second page.

Prerequisite Corequisite Advisory None

Course Title: Eng 51a	Outcome Course Title: PolSci 4
Column 1 Exit Concepts and Skills of Prerequisite/Corequisite/Advisory Course:	Column 2 Specifically How This is Necessary In the Outcome Course:
Identify the author's or theoretical point of view and supporting arguments.	The text uses theoretical frameworks in understanding International Relations. The text is a 15 grade level. The supplemental reader is a 14.3 grade level
Students will write essays of 1000 words or more. Students will have to cite these papers in the proper format.	Students will research and write two 1000 word essays with annotated bibliographies in the course

Course Title: Survey of Western Art: Renaissance to the Present

Units: 3.0

Grading option (select one): Standard Grading Only Credit/No Credit Only
 Standard Grading/Credit/No Credit

Course Can be Taught Short Term Yes No

Justification to not teach short term:

Materials Fee: \$ 0

Full Semester Lec Hours: 3 /wk. Short Term Lec Hours: 54 / wks.

Full Semester Lab Hours: /wk. Short Term Lab Hours: / wks.

How many times may this course be taken for credit? 1

1. PREREQUISITE(S):

and/or

ADVISORY(S): Completion of English 51A, or equivalent, is strongly recommended.

2. CATALOG DESCRIPTION:

Art 16B is a survey of the Arts from the Proto-Renaissance in Italy through contemporary styles. This course includes a concentrated study of individual artists and their work.
(AA, CSU, UC)

3. INSTRUCTIONAL OBJECTIVES (Use measurable objectives only):

Upon completion of the course the student will be able to:

- A. explain the relationship between these periods of art.
- B. identify the chronology of the periods studied.
- C. understand the following contextual factors with regard to the development of art during each individual period: social, political, economic, religious, philosophic, and geographic.
- D. identify the basic styles of architecture, painting, sculpture, and the major crafts for each area of study.

4. COURSE CONTENT AND SCOPE (instructional topics or units):

- A. INTRODUCTION TO ART HISTORY
 1. The basis of art history
 2. The work of art
 3. The problem of representation

B. THE PROTO-RENAISSANCE IN ITALY

1. Sculpture
 - a. Pisano, Nicolo
 - b. Pisano, Giovanni
 - c. Pisano, Andrea

2. Painting
 - a. Berlinghieri, Bonaventura
 - b. Duccio
 - c. Giotto
 - d. Cimabue
 - e. Martini, Simone
 - f. Lorenzetti, Pietro
 - g. Lorenzetti, Ambrogio

C. FIFTEENTH-CENTURY ITALIAN ART

1. First half of the fifteenth century
 - a. Sculpture
 - 1) Brunelleschi
 - 2) Ghiberti
 - 3) Quercia
 - 4) Donatello

 - b. Architecture
 - 1) Brenelleschi
 - 2) Bartolommeo

 - c. Painting
 - 1) Fabriano
 - 2) Masaccio
 - 3) Uccello
 - 4) Castagno
 - 5) Pietro Della Francesca
 - 6) Fra Angelico
 - 7) Fra Fillippo Lippi

D. SIXTEENTH-CENTURY ITALIAN ART

1. The High Renaissance
 - a. Leonardo da Vinci
 - b. Bramante
 - c. Raphael
 - d. Michelangelo
 - e. Sarto
 - f. Correggio

2. Mannerism
 - a. Painting
 - 1) Pontorno
 - 2) Parmigianino
 - 3) Bronzino

- 4) Anguissola
- b. Sculpture
 - 1) Cellini
 - 2) Bologna
- c. Architecture
 - 1) Romano
- 3. Venice
 - a. Architecture
 - 1) Sansovino
 - 2) Palladio
 - b. Painting
 - 1) Bellini
 - 2) Giorgione
 - 3) Titian
 - 4) Tintoretto
 - 5) Veronese

E. THE RENAISSANCE OUTSIDE OF ITALY

- 1. Flanders
 - a. Sluter
 - b. Broederlam
 - c. The Limbourg Brothers
 - d. Campin
 - e. Jan Van Eyck
 - f. Rogier Van Der Weyden

 - h. Bouts
 - i. Van Der Goes
 - j. Memling
 - k. Bosch
- 2. France and Germany
 - a. Fouquet
 - b. Quarton
 - c. Lochner
 - d. Witz
 - e. Stoss
 - f. Pacher
- 3. THE SIXTEENTH CENTURY
 - a. Germany
 - 1) Altdorfer
 - 2) Cranach
 - 3) Grunewald
 - 4) Wurer
 - 5) Hans Holbein the Younger

- b. Netherlands
 - 1) Metsys
 - 2) Gossaert
 - 3) Spranger
 - 4) Patiner
 - 5) Pieter Bruegel the Elder
- c. France
 - 1) Clouet
 - 2) Fiorentino
 - 3) Goujon
- d. Spain
 - 1) Machuca
 - 2) El Greco

F. BAROQUE ART

- 1. Italy
 - a. Architecture and Sculpture
 - 1) Vignola
 - 2) Maderno
 - 3) Bernini
 - 4) Borromini
 - 5) Guarini
 - b. Painting
 - 1) Carracci
 - 2) Reni
 - 3) Caravaggio
 - 4) Guercino
 - 5) Domenichino
 - 6) Gentileschi
 - 7) Rosa
- 2. Spain
 - a. Painting
 - 1) Velazquez
 - 2) de Ribera
- 3. Flanders
 - a. Painting
 - 1) Rubens
 - 2) Van Wyck
- 4. Holland
 - a. Painting
 - 1) Frans Hols
 - 2) Rembrandt
 - 3) Vermeer
 - 4) Kalf
 - 5) Van Ruisdael

5. France
 - a. Painting
 - 1) La Tour
 - 2) Le Nain
 - 3) Callot
 - 4) Poussin
 - 5) Lorrain
 - b. Architecture
 - 1) Mansart
 - 2) Le Vau
 - c. Sculpture
 - 1) Puget
 - 2) Wren
6. England
 - a. Jones
 - b. Wren

G. THE EIGHTEENTH CENTURY

1. Rococo: The French Taste
 - a. Rigaud
 - b. Watteau
 - c. Boucher
 - d. Fragonaro
 - e. Clodion
 - f. Falconet
2. Rococo and Late Baroque in Italy and Germany
 - a. Juvara
 - b. Cuvillies
 - c. Fipolo
 - d. Neuann
 - e. Asam
3. The Late Eighteenth Century: The Birth of the Modern World

 - e. Degas
 - f. Cassatt
 - g. Whistler
 - h. Rosso
9. Post-Impressionism
- a. Seurat
 - b. Cezanne
 - c. Van Gogh
 - d. Gauguin
 - e. Toulouse-Latrec
10. Late Century Romanticism Visionary Art
- a. Moreau
 - b. Redon
 - c. Rousseau
 - d. Enser
 - e. Munch
 - f. Ryder

11. Architecture in the Late Nineteenth Century

- a. Labrouste
- b. Paxton
- c. Eiffel
- d. Richardson
- e. Sullivan

I. EARLY TWENTIETH CENTURY

1. Art Nouveau and Fauvism

- a. Horta
- b. Klimt
- c. Derain
- D. Matisse

2. Cubism

- a. Picasso
- b. Braque
- c. Lipchitz
- d. Davis
- e. Boccioni
- f. Gonzalez

3. Expressionism

- a. Roualt
- b. Kolenritz
- c. Kirchner
- d. Warren
- e. Lehmbruck
- f. Barlach
- g. Beckmann

4. Dada and Surrealism

- a. Duchamp
- b. Arp
- c. Schurtters
- d. May Ray
- e. de Chirico
- f. Max Ernst
- g. Dali
- h. Miro
- i. Cornell
- j. Kahlo

5. Abstract Figuration

- a. Chagall
- b. Klee
- c. Brancusi
- d. Moore

6. Abstract Formalism

- a. Kandinsky

- b. Malevich
- c. Gabo
- d. Calder

7. Architecture – Utopian Vision

- a. Wright
- b. Le Corbusier
- c. Giropius
- d. Mies Van der Rohe
- e. Buckminster Fuller

8. Power of the Visual World

- a. Stieglitz
- b. O'Keefe
- c. Weston
- d. Adams
- e. Sheeler
- f. Hopper
- g. Hine
- h. Bresson
- i. Dorothea Lange

J. THE CONTEMPORARY WORLD

1. Abstract Expressionism

- a. Pollack
- b. Kline
- c. de Kooning
- d. Diebenkorn
- e. Smith

2. Organic and Color-Field Abstraction

- a. Louise Nevelson
- b. Newman
- c. Rothko
- d. Helen Frankenthaler
- e. Gilliam

3. Formalist Abstraction

- a. Vasarely
- b. Kelley
- c. Donald Judd
- d. Eve Hesse

4. Expressionist Figuration

- a. Manzu
- b. Giacometti
- c. Bacon
- d. Abakanowicz

- e. Archuleta
 - f. Neri
 - g. Golub
 - h. Joanne Leonard
 - i. Kiefer
5. Pop Art
- a. Hamilton
 - b. Rauschenberg
 - c. Oldenburg
 - d. Warhol
 - e. Ruscha
6. Art and Technology
- a. Tinguely
 - b. Shoffer
 - c. Larry bell
 - d. David En
 - e. Margaret Benyon
 - f. Campus
 - g. Nani June Park
 - h. Jasper Johns
 - i. Allan Kaprow
 - j. Jean-Lus Godard
 - k. David Hockney
7. Postmodernism and Deconstructionism
- a. Rogers and Piano
 - b. Portman
 - c. Behnisch
 - d. Tansey
 - e. Anderson
8. Art with social and Political Concerns
- a. Vittorio de Sica
 - b. Frank
 - c. Kienholz
 - d. Walken
 - e. Bettye Saar
 - f. Judy Chicago
 - g. Barbara Kruger
 - h. Beuys
9. Earth Art
- a. Smithson
 - b. Christo
 - c. Long
 - d. Hollis
 - e. Maya Ying Lin

5. **INSTRUCTIONAL METHODOLOGIES (instructor initiated learning strategies):**
 - A. Lecture
 - B. Multi-visual presentations
 - C. Classroom discussions of artists and time periods.
 - D. Field trips
 - E. Guest speakers

6. **MULTIPLE METHODS OF EVALUATION (measurements of student achievement):**
 - A. Chapter tests
 - B. Slide quizzes
 - C. Written reports (Gallery)
 - D. Term paper
 - E. Visual Arts Project (Collage)
 - F. Mid-term examination
 - G. Final examination

7. **WRITING ASSIGNMENTS/PROFICIENCY DEMONSTRATION:**
 - A. Research paper
 - B. Chapter tests
 - C. Mid-term examination
 - D. Final examination
 - E. Gallery reports

8. **ASSIGNMENTS THAT DEMONSTRATE CRITICAL THINKING
(use detail when describing student assignments and state in cognitive terms):**
 - A. Evaluation of artists' works in the past and how they relate in today's experience of the arts. This will be demonstrated on examinations and other written assignments.
 - B. When students critique artists, they must include references to social, political, economic, religious, philosophic, and geographic circumstances which influence their decisions.

9. **ASSIGNMENTS, METHODOLOGIES, OR OTHER EXAMPLES OF HOW CULTURAL PLURALISM IS ADDRESSED:**

Art History 16A addresses cultural pluralism by studying art movements from various cultures and time periods. Students will demonstrate this understanding by examples on exams as well as in their term papers, visual arts projects and gallery reports.

10. **REQUIRED EXTRA CLASS ASSIGNMENTS: None**

Distance Education Statement

Course Number and Title: Art 16B/Survey of Western Art: Renaissance to the Present

Initiated by: Michael McDowell

Date: 11/7/07

The department does not recommend this course be taught via distance education at this time.

Justification: The College does not currently possess an adequate digital slide collection to support online instruction. There is also a required hands-on visual art project that requires face-to-face interaction between student and instructor.

The following must be completed for the delivery of this course via distance education technology as an addition to the original course outline:

(A textbook form will need to be completed if text differs from the original course).

1. What distance education modality is being proposed for the delivery of this course?

Video Conference Hybrid (Traditional/Online) Online (100% Internet)

2. What strategies will be employed for effective contact between instructor and students to assure learning outcomes, as specified in the course outline, are met?

3. Are there any specific requirements for the delivery of this course? Yes No
Please explain:

4. Provide an analysis of any additional cost factors that may be involved in offering this course:

Course Licensing:	License Fee Per Student Fee						
Proctor/Technician:	Coalinga	hours	X	days	X	rate	= _____
	Lemoore	hours	X	days	X	rate	= _____
	Firebaugh	hours	X	days	X	rate	= _____

Learning Resources Statement

- Catalog Change
 Five Year Review

Course Title and Number or Discipline: Art 16B/Survey of Western Art: Renaissance to the Present

Department : Arts & Letters Ext. 3745

The holdings of the LRC collection in the subject area(s) related to the proposed new/ revised course/ discipline have been reviewed.

- The LRC has sufficient resources presently available for support of this course/ discipline.
- The LRC resources are not presently adequate to support this course/ discipline. Additional needed items have been identified and should be purchased.

Comments: _____

Learning Resources Statement

It is the policy of the West Hills Community College District to ensure that every course offered in the college curriculum is supported with a basic collection of materials and to ensure that the campus libraries are used by faculty and students in the teaching and learning process. Library research assignments are effective means to teach critical thinking. An essential outcome of each course in the curriculum, and fundamental to critical thinking and self-directed learning, is the skill to find information and conduct library research.

When a new course or program is being developed, the faculty responsible should work with library faculty to review collection adequacy and recency and to recommend purchase of materials which will support the course(s). Accordingly, for every new/ revised course or program proposed, a library collection survey must be completed and signed by the course originator and the college librarian. Also, to maintain currency, a survey must be completed for each discipline as part of the five year curriculum review. This above summary will be attached to and filed with the course syllabus.

The purpose of the resources survey is:

- 1) To allow the course originator to become familiar with the library holdings in the subject area.
- 2) To inform the library staff of new additions to the curriculum so that supporting materials can be acquired before offering the course.
- 3) To guide the district to build an effective library budget.
- 4) To enable the instructor to integrate library assignments into new courses offered.

While survey completion is required, there are no standards for course or program support that the LRC must meet before a new course is approved or a five year program review is completed.

ART 16B READABILITY LEVEL

Text: Gardner's Art Through the Ages, Volume 2, 12th edition
Kleiner, Fred S.; Mamiya, Christin J.; Tansey, Richard G.,

Page 555

PAINTERS, PIGMENTS, AND PANELS

The generic word *paint* or *pigment* encompasses a wide range of substances artists have used over the years. Fresco aside (see "Fresco Painting," Chapter 19, page 530), during the 14th century, egg tempera was the material of choice of most painter, both in Italy and northern Europe. Tempera consists of egg combined with a wet paste of ground pigment. In his influential guidebook *Il Libro dell'Arte*, Cennino Cennini, a contemporaneous painter mentioned that artists mixed on the egg yolk with the ground pigment, but analysis of paintings from this period has revealed that some artists chose to use the whole egg. Images painter tempera have a velvety sheen to them and exhibit a lightness of artistic touch because thick application of the pigment mixture results in premature cracking and flaking.

Page 879:

POST-IMPRESSIONISM: EXPERIMENTING WITH FORM AND COLOR

By 1886, most critics and a large segment of the public accepted the Impressionist as serious artists. Just when their images of contemporary life no longer seemed crude and unfinished, however, some of these painters and a group or younger followers came to feel Impressionists were neglecting too many of the traditional elements of picture making in their attempt to capture momentary sensations of light and color on canvas. In a conversation with the influential art dealer Ambroise Vollard in about 1883, Renoir commented: "I had wrung [I]mpressionism dry, and I finally came to the conclusion that I knew neither how to paint nor how to draw. In a word, [I]mpressionism was a blind alley, as far as I was concerned."¹⁸ By the 1880s, four artists in particular were much more systematically examining the properties and the expressive qualities of line, pattern, form, and color: Vincent van Gogh, Paul Gauguin, Georges Seurat, and Paul Cezanne. Both van Gogh and Gauguin focused their artistic efforts on exploring the expressive capabilities of formal elements, while Seurat and Cezanne were more analytical in orientation. Because their art diverged so markedly from earlier Impressionism (although each of these painters initially based their work on Impressionist precepts and methods), these four artists and others sharing their views have become known as the Post-Impressionists. This classification also signifies their chronological position in nineteenth-century Western painting.

Page 1051:

The Development of Pop Art

The prevalence of abstraction and the formal experimentation in much of postwar art had alienated the public. Pop art reintroduced all of the artistic devices—signs, symbols, metaphors, allusions, illusions, and figurative imagery—traditionally used to convey meaning in art that recent avant-garde artists, in search of purity, had purged from their abstract and often reductive works. Pop artists not only embraced representation but also produced an art resolutely grounded in consumer culture, the mass media, and popular culture, thereby making it much more accessible and understandable to the average person. Indeed, the name Pop art (credited to the British art critic Lawrence Alloway, although he is unsure of the term's initial usage) is short for *popular art* and referred to the popular mass culture and familiar imagery of the contemporary urban environment. This was an art form firmly entrenched in the sensibilities and visual language of a late-twentieth-century mass audience.

- Title
- Prerequisite
- Units
- Catalog Description Update
- Grading Option
- Prefix
- Deletion
- Textbook change
- Five Year Review
- Other

Content has been evaluated and updated. Yes or No

Significant Change - Does this change affect the course content to the degree a student could retake the course?

Yes or No

From:

English 101B is an advanced reading course which offers group and individual instruction in the development of college level reading and related skills. Students will continue to build reading comprehension skills such as identifying main ideas in paragraphs and longer pieces, understanding paragraph organization, and using context clues to understand new vocabulary through college level prose, including textbook material, fiction, and expository essays. Students will also work through self-paced software to improve reading and related skills.

2 lecture/3 lab units

To: (Write new information here for any changes checked above.)

English 101B is an intermediate reading course which offers group and individual instruction in the development of college level reading and related skills. Students will continue to build reading comprehension skills such as identifying main ideas in paragraphs and longer pieces, understanding paragraph organization, and using context clues to understand new vocabulary through college level prose, including textbook material, fiction, and expository essays. Students are required to take a Non Credit Reading Lab (NC 101) to support this course.

3 lecture units

Justification: (Reason(s) for the above changes.) Changing the units of our Basic Skills classes from 2 lecture/3 lab to 3 lecture will align these courses with our other English classes. The lab portion is going to be a separate class. Faculty practice dictates a move from the lecture/lab combination class to the more traditional lecture format.

Course Outline with Guidelines

Date: 2/1/07

Full Semester Lab Hours: _____ /wk. Short Term Lab Hours: _____ / _____ wks.

How many times may this course be taken for credit? 2

1. PREREQUISITE(S): Placement determined by assessment tests, or successful completion of English 101A or the equivalent.

COREQUISITE(S): Required co enrollment in NC 101 Reading Lab.

and/or

ADVISORY(S):

2. CATALOG DESCRIPTION: English 101B is an intermediate reading course which offers group and individual instruction in the development of college level reading and related skills. Students will continue to build reading comprehension skills such as identifying main ideas in paragraphs and longer pieces, understanding paragraph organization, and using context clues to understand new vocabulary through college level prose, including textbook material, fiction, and expository essays. Students will also work through self-paced software to improve reading and related skills. Students are required to take a Non Credit Reading Lab (NC 101) to support this course.

3. INSTRUCTIONAL OBJECTIVES (Use measurable objectives only):

Upon completion of the course the student will be able to:

- A. determine main ideas in longer pieces;
- B. identify supporting details in longer pieces and determine their importance;
- C. summarize longer pieces;
- D. write coherent paragraphs and longer pieces that adequately develop topic sentences;
- E. apply skills to reading of novel(s) of an appropriate reading level;
- F. understand and use appropriate college-level vocabulary;
- G. recognize and evaluate bias and tone in college-level resources.

4. COURSE CONTENT AND SCOPE (instructional topics or units):

I. Reading Skills

- A. Determining main ideas and recognizing their relationships to thesis statements and topic sentences.

- B. Identifying supporting details and their purposes
- C. Identifying transitions
- D. Understanding inferences and drawing logical conclusions from reading materials
- E. Differentiating between fact and opinion
- F. Reading for retention of significant details
- G. Recognizing and evaluating bias and tone

II. Writing Skills in Relationship to Reading

- A. Summarizing
- B. Reflections and/or journals about reading assignments
- C. Timed responses to readings

5. INSTRUCTIONAL METHODOLOGIES (instructor initiated learning strategies):

- A. Readings
- B. Collaborative learning
- C. Lecture
- D. Discussion
- E. Vocabulary activities and fluency building

6. MULTIPLE METHODS OF EVALUATION (measurements of student achievement):

- A. Objective exams
- B. Written exams
- C. Vocabulary quizzes
- D. Quizzes on reading assignments
- E. Writing activities, including summaries

7. WRITING ASSIGNMENTS/PROFICIENCY DEMONSTRATION:

Students will be asked to summarize essays or other longer pieces.

8. ASSIGNMENTS THAT DEMONSTRATE CRITICAL THINKING

(use detail when describing student assignments and state in cognitive terms):

In discussing or writing in response to assigned reading students are asked to express personal opinions as well as to grasp inference. Students are asked to think critically about what they read and make connections between readings and their own lives or the lives of others.

9. ASSIGNMENTS, METHODOLOGIES, OR OTHER EXAMPLES OF HOW CULTURAL PLURALISM IS ADDRESSED:

Many of the assignments serve specifically to develop greater sensitivity to and understanding of cultural diversity. Many of the optional novels explore diverse cultures, and instructors should work with students to thoroughly understand the cultural setting of the novel.

10. REQUIRED EXTRA CLASS ASSIGNMENTS:

Students may be asked to do oral presentations and group projects.

11. STUDENT LEARNING OUTCOMES

Given an assigned reading, student will create a summary and response essay with well-developed and coherent paragraphs which identifies the main idea and important supporting details of that reading.

Distance Education Statement

Course Number and Title: **English 101B/Intermediate Reading**

Initiated by: Jacqui Shehorn

Date: 2/1/07

The department does not recommend this course be taught via distance education at this time.

Justification:

The following must be completed for the delivery of this course via distance education technology as an addition to the original course outline:

(A textbook form will need to be completed if text differs from the original course).

1. What distance education modality is being proposed for the delivery of this course?

Video Conference Hybrid (Traditional/Online) Online (100% Internet)

2. What strategies will be employed for effective contact between instructor and students to assure learning outcomes, as specified in the course outline, are met?

Best practices for entry-level English courses dictate extensive contact with the instructor. This course is designed around group work and discussion, as well as in-class practice of new skills. Basic Skills students are at-risk students and require more traditional class experiences than video conference or online instruction can provide.

3. Are there any specific requirements for the delivery of this course? Yes No
Please explain:

4. Provide an analysis of any additional cost factors that may be involved in offering this course:

Course Licensing:	License Fee						
	Per Student Fee

Learning Resources Statement

- Catalog Change
- Five Year Review

Course Title and Number or Discipline: English 101B/Intermediate Reading

Department : Arts and Letters Ext. 3653

The holdings of the LRC collection in the subject area(s) related to the proposed new/ revised course/ discipline have been reviewed.

- The LRC has sufficient resources presently available for support of this course/discipline.
- The LRC resources are not presently adequate to support this course/discipline. Additional needed items have been identified and should be purchased.

Comments: When possible, copies of textbooks should be purchased for student use.

Learning Resources Statement

It is the policy of the West Hills Community College District to ensure that every course offered in the college curriculum is supported with a basic collection of materials and to ensure that the campus libraries are used by faculty and students in the teaching and learning process. Library research assignments are effective means to teach critical thinking. An essential outcome of each course in the curriculum, and fundamental to critical thinking and self-directed learning, is the skill to find information and conduct library research.

When a new course or program is being developed, the faculty responsible should work with library faculty to review collection adequacy and recency and to recommend purchase of materials which will support the course(s). Accordingly, for every new/ revised course or program proposed, a library collection survey must be completed and signed by the course originator and the college librarian. Also, to maintain currency, a survey must be completed for each discipline as part of the five year curriculum review. This above summary will be attached to and filed with the course syllabus.

The purpose of the resources survey is:

- 1) To allow the course originator to become familiar with the library holdings in the subject area.
- 2) To inform the library staff of new additions to the curriculum so that supporting materials can be acquired before offering the course.
- 3) To guide the district to build an effective library budget.
- 4) To enable the instructor to integrate library assignments into new courses offered.

While survey completion is required, there are no standards for course or program support that the LRC must meet before a new course is approved or a five year program review is completed.

1. CO/PREREQUISITE(S): Math 1B (can be taken concurrently) and/or

ADVISORY(S):

2. CATALOG DESCRIPTION: Math 3A is an introduction to the techniques and theory needed to solve systems of linear equations. Solution techniques cover row reduction, Gaussian elimination, and matrix algebra. Vector space theory includes linear transformations, determinants, eigenvalues and eigenvectors, inner-products, and orthogonality. Students will also study selected applications of linear algebra.

3. INSTRUCTIONAL OBJECTIVES (Use measurable outcomes only):

Upon completion of the course the student will be able to:

- solve systems of linear equations by Gaussian elimination.
- determine whether a linear system is consistent or inconsistent and characterize solutions of the former as unique or infinitely many.
- compute the transpose, determinant and inverse of a matrix.
- define a vector space; find a spanning set and basis.
- construct orthogonal and orthonormal bases using the Gram-Schmidt process.
- find the rank and nullity of a linear transformation and construct a basis for the kernel & image.
- compute the characteristic polynomial, eigenvalues, eigenvectors, and eigenspaces for a linear transformation.
- prove basic results in linear algebra using standard proof-writing conventions.

4. COURSE CONTENT AND SCOPE (Instructional topics or units):

- Systems of linear equations: terminology, notation, Gaussian elimination.
- Matrix algebra.
- Determinants.
- Vector spaces and linear transformations.
- Eigen values and Eigenvectors.
- Inner Product Spaces: orthogonality, Gram-Schmidt, least-squares.

G. Symmetric matrices and quadratic forms.

5. INSTRUCTIONAL METHODOLOGIES (instructor initiated learning strategies):
 - A. Instructor presentation of definitions, theory and problem solving techniques
 - B. Discussion of new concepts to elicit, clarify and resolve common misunderstandings
 - C. Collaborative learning
 - D. Student presentation and discussion of solutions to problems completed by students either individually or cooperatively

6. MULTIPLE METHODS TO EVALUATE ACHIEVEMENT OF STUDENT LEARNING OUTCOME (measurements of student achievement):
 - A. Homework
 - B. Chapter tests
 - C. Short quizzes
 - D. Individual or group projects (optional)
 - E. Comprehensive final exam (15-30% of total grade)

7. WRITING ASSIGNMENTS/PROFICIENCY DEMONSTRATION:

Students are required to answer questions and show solutions to problems on quizzes and tests in a clear and logical manner for full credit. In grading each of the above, annotations are made which critique spelling, grammar, punctuation, diction, mathematical notation, and logic.

8. ASSIGNMENTS THAT DEMONSTRATE CRITICAL THINKING
(Use detail when describing student assignments and state in cognitive terms):

On homework, tests, quizzes and projects, students must:

 - A. determine an appropriate problem solving strategy for problems
 - B. analyze and reproduce mathematical proofs
 - C. communicate solutions clearly and logically in oral or written form

9. ASSIGNMENTS, METHODOLOGIES, OR OTHER EXAMPLES OF HOW CULTURAL PLURALISM IS ADDRESSED:

The concepts and problems presented in the textbook are a collection of contributions from many cultures throughout the centuries. They are written in mathematical notation accepted by most mathematical communities throughout the world. The instructor may assign a paper in which the student is required to research and write about a topic of mathematical or historical significance including, but not limited to, the significant mathematical contributions of other cultures and/or underrepresented groups.

10. REQUIRED EXTRA CLASS ASSIGNMENTS:

None

Distance Education Statement

Course Number and Title: Math 3A Linear Algebra I

Initiated by: Frieda Ganter

Date: 3/5/08

The department does not recommend this course be taught via distance education at this time.

Justification: This is a new class with difficult material. It should be taught face to face until evidence can be obtained that it is possible to do otherwise.

The following must be completed for the delivery of this course via distance education technology as an addition to the original course outline:

(A textbook form will need to be completed if text differs from the original course).

1. What distance education modality is being proposed for the delivery of this course?

Video Conference Hybrid (Traditional/Online) Online (100% Internet)

2. What strategies will be employed for effective contact between instructor and students to assure learning outcomes as specified in the courser outline are met?
Students will be able to attend virtual office hours.

3. Are there any specific requirements for the delivery of this course?
Please explain:
No

4. Provide an analysis of any additional cost factors that may be involved in offering this course:

Course Licensing:	License Fee Per Student Fee						
Proctor/Technician:	Coalinga	hours	X	days	X	rate	= _____
	Lemoore	hours	X	days	X	rate	= _____
	Firebaugh	hours	X	days	X	rate	= _____
Video Duplication:		hours	X	copies	X	cost	= _____
Computer Hardware/Software:							
Other:

Learning Resources Statement

- New Course
 Five Year Review

Course Title and Number or Discipline: Math 3A Linear Algebra I

Department : Math & Science Ext. 3617

The holdings of the LRC collection in the subject area(s) related to the proposed new/revised course/discipline have been reviewed.

- The LRC has sufficient resources presently available for support of this course/discipline.
- The LRC resources are not presently adequate to support this course/discipline. Additional needed items have been identified and should be purchased.

Comments: _____

Learning Resources Statement

It is the policy of the West Hills Community College District to ensure that every course offered in the college curriculum is supported with a basic collection of materials and to ensure that the campus libraries are used by faculty and students in the teaching and learning process. Library research assignments are effective means to teach critical thinking. An essential outcome of each course in the curriculum, and fundamental to critical thinking and self-directed learning, is the skill to find information and conduct library research.

When a new course or program is being developed, the faculty responsible should work with library faculty to review collection adequacy and recency and to recommend purchase of materials which will support the course(s). Accordingly, for every new/revised course or program proposed, a library collection survey must be completed and signed by the course originator and the college librarian. Also, to maintain currency, a survey must be completed for each discipline as part of the five year curriculum review. This above summary will be attached to and filed with the course syllabus.

The purpose of the resources survey is:

- 1) To allow the course originator to become familiar with the library holdings in the subject area.
- 2) To inform the library staff of new additions to the curriculum so that supporting materials can be acquired before offering the course.
- 3) To guide the district to build an effective library budget.
- 4) To enable the instructor to integrate library assignments into new courses offered.

While survey completion is required, there are no standards for course or program support that the LRC must meet before a new course is approved or a five year program review is completed.

WEST HILLS COLLEGE LEMOORE
ADOPTED TEXTBOOK FORM

Course Name, Number & Title: Math 3A Linear Algebra I

1. Recommended textbook(s):

A. Title: Linear Algebra and Its Applications
Edition: 3rd ISBN #: 0321287134
Author(s): Lay
Publisher: Addison Wesley, 2006
Required Optional
Readability level: 14.7 (Attach readability materials to original.)

B. Title: Elementary Linear Algebra
Edition: 9th ISBN #: 978-0-471-66959-3
Author(s): Anton, Rorres
Publisher: Wiley, 2005
Required Optional
Readability level: 13.2 (Attach readability materials to original.)

2. Supplemental text(s):

A. Title: _____

Readability Stats:

Elementary Linear Algebra 9th ed, by Anton

Pg 115

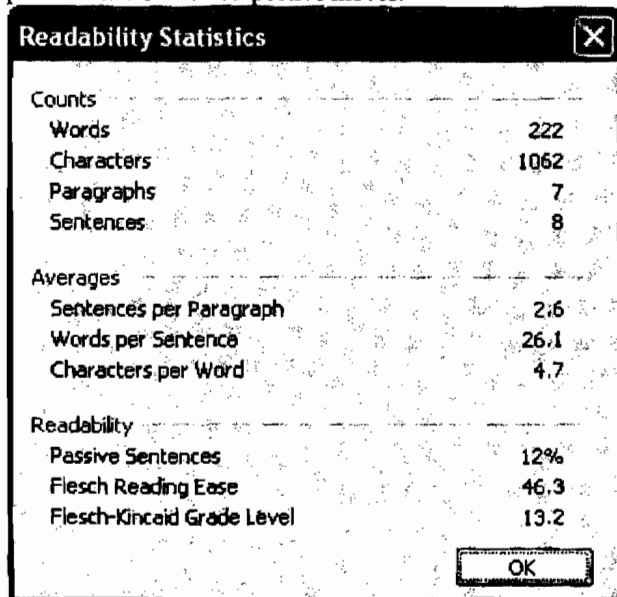

Of course, this definition of $\det(A)$ agrees with the definition in section 2.1, although we will not prove this. These expressions suggest that the mnemonic devices given in figure 2.4.2. The formula in part (a) of Example 7 is obtained from figure 2.4.2a by multiplying the entries on the rightward arrow and subtracting the product of the entries on the leftward arrow.

Pg 321

Observe that the right side of the equality in part (a) is the norm of the coordinate vector $(u)_s$ with respect to the Euclidean inner product on \mathbb{R}^n , and the right side of the equality in part (c) is the Euclidean inner product of $(u)_s$ and $(v)_s$. Thus, by working with orthonormal bases, we can reduce the computation of general norms and inner products to the computation of Euclidean norms and inner products of the coordinate vectors.

Pg 632

So far we have been discussing the situation in which each player has a predetermined strategy. We will now consider the more difficult situation in which both players may change their strategy independently. For example, in the game described in the introduction, we would allow both players to alter the areas of the sectors of their wheels and thereby control the probabilities of their respective moves.

Linear Algebra and Its Applications 3rd ed, by Lay

Pg 131

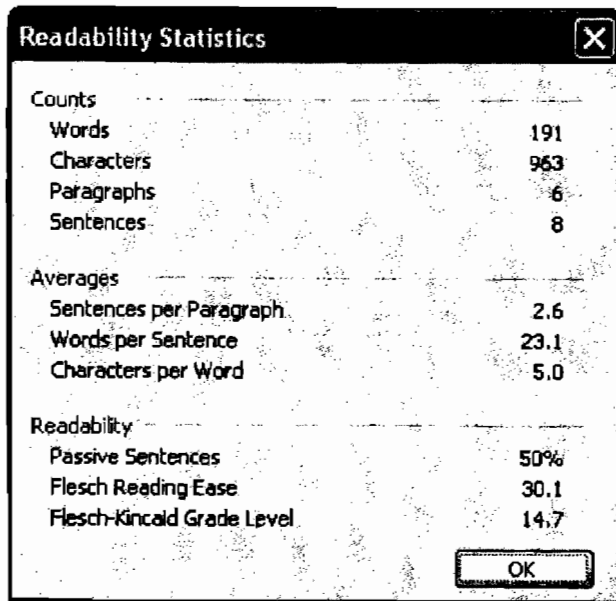

In practical work, you might occasionally encounter a “nearly singular” or ill-conditioned matrix – an invertible matrix that can become singular if some of its entries are changed ever so slightly. In this case, row reduction may produce fewer than n pivots, as a result of roundoff error. Also, roundoff error can sometimes make a singular matrix appear to be invertible.

Pg 185

A determinant is a number that is assigned to a square array of numbers in a certain way. This idea was considered as early as 1683 by the Japanese mathematician Seki Takakazu and independently in 1693 by the German mathematician Gottfried Leibniz, about 160 years before a separate theory of matrices developed. For many years, determinants appeared mainly in the discussions of systems of linear equations.

Pg 447

Around the world in a little more than 80 minutes, the two Landsat satellites streak silently across the sky in near polar orbits, recording images of terrain and coastline, in swaths of 185 kilometers wide. Every 16 days, each satellite passes over almost every square kilometer of the earth’s surface, so any location can be monitored every 8 days.

A screenshot of a 'Readability Statistics' dialog box. The dialog box has a title bar with a close button (X) on the right. It contains three sections: 'Counts', 'Averages', and 'Readability'. Each section lists a metric and its corresponding value. At the bottom right, there is an 'OK' button.

FORM B

COURSES REQUIRING A PREREQUISITE/COREQUISITE OR ADVISORY BEYOND BASIC SKILLS

*Use this form for the content review of all courses that will have a prerequisite, corequisite or advisory of any kind beyond basic skills. Use it also to establish that no prerequisite, corequisite or advisory is needed.

CONTENT REVIEW TO ESTABLISH THAT NO PREREQUISITE/COREQUISITE OR ADVISORY IS NEEDED

Course Number: **Math 3A** Course Title: **Linear Algebra I**

List in Column 1 at least three specific major concepts or skills that a student will learn in the prerequisite/corequisite or advisory course(s) that are essential to the successful completion of the outcome course. In Column 2, state why the skill in Column 1 is essential to success in the outcome course.

Put each prerequisite, corequisite or advisory course on its own Form B. If you need more space, attach a second page.

Prerequisite Corequisite Advisory None

Course Title: Calculus with Applications	Outcome Course Title: Linear Algebra I
Column 1 Exit Concepts and Skills of Prerequisite/Corequisite/Advisory Course:	Column 2 Specifically How This is Necessary In the Outcome Course:
Compute definite integrals	Definition of the inner product space $C[a,b]$
Solve a single differential equation	Find a solution set to a system of differential equations
Work with polar coordinates	Determine the matrix of a rotation

FORM C

COREQUISITE/PREREQUISITE APPROVAL FORM

*Use this form for any course that will have a prerequisite or corequisite (not for advisories) required by an external agency.

- Except for those courses within a departmental sequence, every prerequisite or corequisite requires content review plus justification of at least one of the five categories listed below.
- Every communication or computation, recency, or other measure of readiness prerequisite/corequisite requires research and statistical justification.
- Category Four is required for all course or skill requisites of communication, computation, recency and other measure of readiness.

Outcome Course Number: Math 3A Course Title: Linear Algebra I

Corequisite/Prerequisite Course Number: Math 1B Course Title: Calculus with Applications

Check the following that apply. Documentation must be attached.

- 1. The prerequisite/corequisite is required by law or government regulations.
Explain or cite regulation numbers.
- 2. The safety or equipment operation skills learned in the prerequisite course are required for the successful or safe completion of this course.
Justification: Attach Form E.
- 3. The prerequisite is required in order for the course to be accepted for transfer to the University of California or California State University systems.
Justification: Indicate how this is so.
- 4. Significant statistical evidence indicates that the absence of the prerequisite course or skill is related to unsatisfactory performance in the outcome course.
Justification: See Form D.
- 5. Three California State University/University of California campuses require an equivalent prerequisite or corequisite for a course equivalent to the outcome course. List below.
Attach photocopies of the UC and/or CSU course descriptions from the respective catalogs.

UC/CSU CAMPUS	COURSE DEPT./NO.	CO-/PREREQUISITE
CSU Northridge	Math 262	Math 150B
UC Merced	Math 24	Math 22
CSU Chico	Math 335	Math 121

See "Math 3A Prerequisites" attachment

LIT 195: Upper Division Undergraduate Research [1-5]

Supervised research. *Permission of instructor required.*

LIT 198: Upper Division Directed Group Study [1-5]

Permission of instructor required. P/NP grading only.

LIT 199: Upper Division Individual Study [1-5]

Permission of instructor required. P/NP grading only.

MANAGEMENT**Lower Division Courses****MGMT 2: Case Study Seminar on Business and Management [1]**

This seminar course surveys the field of business management. Invited speakers from local companies and public organizations will cover the business environment, human relations, technology in business, ethical behavior, global and economic forces, organization, quality, products and services, functional management, and current issues and developments. *Prerequisite: ECON 1.*

MGMT 25: Introduction to Finance and Accounting I [3]

A broad introduction to finance and accounting. Students will be equipped to draw up and interpret accounts and introduced to some key ideas of finance and auditing. The student will learn fundamental accounting concepts and how to apply them; record accounting entries, prepare accounts for different business entities and understand the differences between them and basic principles of auditing.

Prerequisite: ECON 1.

MGMT 26: Introduction to Finance and Accounting II [3]

Continuation of MGMT 25. The course also covers the basic principles of capital project evaluation, working capital management and taxation. Students must enroll in this course in the semester following the one during which MGMT 25 is taken. *Prerequisite: MGMT 25.*

MGMT 90X: Freshman Seminar [1]

Examination of a topic in management.

MGMT 95: Lower Division Undergraduate Research [1-5]

Supervised research. *Permission of instructor required.*

MGMT 98: Lower Division Directed Group Study [1-5]

Permission of instructor required. P/NP grading only.

MGMT 99: Lower Division Individual Study [1-5]

Permission of instructor required. P/NP grading only.

MATHEMATICS**Lower Division Courses****MATH 5: Preparatory Calculus [3]**

Preparation for calculus. Elementary functions, trigonometry, polynomials, rational functions, systems of equations and analytical geometry. This course is intended as preparation for MATH 21 (Calculus of a Single Variable I). Students are either self-selected into the course or are placed based on placement exam score.

MATH 15: Quantitative Literacy and Reasoning [4]

Probability and statistics, data analysis and display, mathematical reasoning to solve problems in social and physical science.

MATH 21: Calculus of a Single Variable I [4]

An introduction to differential and integral calculus of functions of one variable. Elementary functions such as the exponential and natural logarithm, rates of change and the derivative with applications to social and physical science. *Prerequisite: Pass calculus placement examination.*

MATH 22: Calculus of a Single Variable II [4]

A continuation of MATH 21. Analytical and numerical techniques of integration with applications, infinite sequences and series, first-order ordinary differential equations. *Prerequisite: MATH 21 or ICP 1 (or equivalent).*

MATH 23: Multi-Variable Calculus [4]

Calculus of several variables. Parametric equations and polar coordinates, algebra and geometry of vectors and matrices, partial derivatives, multiple integrals and introduction to the theorems of Green, Gauss, and Stokes. *Prerequisite: MATH 22.*

MATH 24: Introduction to Linear Algebra and Differential Equations [4]

Introduces ordinary differential equations, systems of linear equations, matrices, determinants, vector spaces, linear transformations and linear systems of differential equations. *Prerequisites: MATH 22. Replaces MATH 25.*

MATH 30: Mathematical Biology [4]

A version of Math 022 for students majoring in the life sciences. Analytical and numerical techniques of integration, first-order ordinary differential equations and methods in discrete math with applications to questions from biology and medicine. *Prerequisite: ICP 1 (or equivalent) or MATH 21.*

MATH 32: Probability and Statistics [3]

Concepts of probability and statistics. Conditional probability, independence, random variables, distribution functions, descriptive statistics, transformations, sampling errors, confidence intervals, least squares and maximum likelihood. Exploratory data analysis and interactive computing. *Prerequisite: MATH 21 or ICP 1 (or equivalent).*

MATH 90X: Freshman Seminar [1]

Examination of a topic in mathematics.

MATH 95: Lower Division Undergraduate Research [1-5]

Supervised research. *Permission of instructor required.*

MATH 98: Lower Division Directed Group Study [1-5]

Permission of instructor required. P/NP grading only.

MATH 99: Lower Division Individual Study [1-5]

Permission of instructor required. P/NP grading only.

Upper Division Courses**MATH 121: Applied Mathematical Methods I: Fourier Analysis and Boundary Value Problems [4]**

Introduction to Fourier series. Physical derivation of canonical partial differential equations of mathematical physics (heat, wave and Laplace's equation). Separation of variables, Fourier series, Fourier integrals and general eigenfunction expansions. *Prerequisites: MATH 23, MATH 24. Replaces MATH 126.*

CSU CHICO

MATH 121

Analytic Geometry and Calculus

4 FS

MATH 120.

The definite integral and applications to area, volume, work, differential equations, etc. Sequences and series, vectors and analytic geometry in 2 and 3-space, polar coordinates, and parametric equations.

MATH 335

Elementary Linear Algebra

3 FS

MATH 121.

Matrices, determinants, cartesian n-space (basis and dimension of a subspace, rank, change of basis), linear transformations, eigenvalues. Numerical problems will be emphasized.

included functions, systems of equations, matrices, the derivative and business-related topics in calculus. (Available for General Education, Mathematics)

MATH 104. TRIGONOMETRY AND ANALYTIC GEOMETRY (3)

Prerequisites: Passing score on or exemption from the Entry Level Mathematics Examination and a passing score on the Mathematics Placement Test, or MATH 102 with a grade of C or better. Rectangular and polar coordinates; trigonometric functions, identities and equations; inverse trigonometric functions; conic sections; complex numbers. Not open to students who have credit in MATH 103, 105, or 106.

MATH 105. PRE-CALCULUS (5)

Prerequisites: Passing score on or exemption from the Entry Level Mathematics Examination (ELM) or credit in MATH 093, and a passing score on the Mathematics Placement Test (MPT) or MATH 102 with a grade of C or better. Number systems and their algebraic properties; systems of equations and inequalities; basic analytic geometry of lines and conic sections; elementary functions including polynomial, rational, exponential, and logarithmic, with emphasis on trigonometric functions; polar equations. Graphing calculators are used and the interplay between graphical and algebraic solutions is stressed. Not open for credit to students who have successfully completed MATH 150A. (Available for General Education, Basic Skills Mathematics)

MATH 131. MATHEMATICAL IDEAS (3)

Prerequisites: Passing score on or exemption from the Entry Level Mathematics Examination, or credit in MATH 093. General Education course intended to acquaint the student with basic mathematical ideas. (Available for General Education, Basic Skills Mathematics)

MATH 140. INTRODUCTORY STATISTICS (4)

Prerequisites: Passing score on or exemption from the Entry Level Mathematics Examination, or credit in MATH 093. Methods for displaying, describing, and producing data. Normal distribution. Correlation and regression. Sampling distributions and probability. Statistical inference for means and proportions. (Available for General Education, Basic Skills Mathematics)

MATH 150A. CALCULUS I (5)

Prerequisites: Passing score on or exemption from the Entry Level Mathematics Examination or credit in MATH 093, and either a passing score on the Mathematics Placement Test or completion of MATH 105, or both MATH 102 and 104, at CSUN with grades of C or better. Students who transfer the equivalent of MATH 105, or both MATH 102 and 104, with a C or better are required to achieve a passing score on the Math Placement Test. Limits, derivatives, applications of differentiation. Definite and indefinite integrals, the Fundamental Theorem of Calculus. (Available for General Education, Basic Skills Mathematics)

MATH 150AL. CALCULUS COMPUTER LAB A (1)

Prerequisite: MATH 150A. Reinforcement of calculus concepts and applications of calculus through the use of computers. Introduction to mathematical software to prepare students for use in later courses. 3 lab hours per week.

MATH 150B. CALCULUS II (5)

Prerequisite: MATH 150A with a grade of C or better. Techniques of integration, numerical integration, improper integrals, applications of the integral. Taylor polynomials, sequences and series, power series.

MATH 150BL. CALCULUS COMPUTER LAB B (1)

Prerequisite: MATH 150B. Reinforcement of calculus concepts and applications of calculus through the use of computers. Introduction to mathematical software to prepare students for use in later courses. 3 lab hours per week.

MATH 210. BASIC NUMBER CONCEPTS (3)

Prerequisites: Passing score on or exemption from the Entry Level Mathematics Examination (ELM), or credit in MATH 093. Language of sets, systems of numeration, nature of numbers and fundamentals of operations, relations and functions, domain of integers, field of rational and real numbers. Designed primarily for students intending to teach in the elementary or junior high school. Not available for credit toward the major or minor in Mathematics.

MATH 250. CALCULUS III (3)

Prerequisite: Completion of MATH 150B with a grade of C or better. Continuation of MATH 150B. Solid analytic geometry, partial differentiation, and multiple integrals with applications.

MATH 255A. CALCULUS FOR THE LIFE SCIENCES I (3)

Prerequisites: Passing score on or exemption from the Entry Level Mathematics Examination (ELM) or credit in MATH 093, and either a passing score on the Mathematics Placement Test (MPT) or completion of MATH 105, or both MATH 102 and 104, or articulated courses from another college equivalent to MATH 105, or both MATH 102 and 104, with grades of C or better. Knowledge of trigonometry is assumed. First semester of a short course in the calculus. Topic in calculus of functions of one variable including techniques of differentiation, applications to graphing, extreme problems, and an introduction to integration. Not open for credit for students who have successfully completed MATH 150A. (Available for General Education, Basic Skills Mathematics)

MATH 255B. CALCULUS FOR THE LIFE SCIENCES II (3)

Prerequisite: Completion of MATH 255A with a grade of C or better. Continuation of MATH 255A. Techniques of integration, series, applications, functions of several variables and partial differentiation. Not open for credit to students who have successfully completed MATH 150AB.

MATH 267. INTRODUCTION TO LINEAR ALGEBRA (3)

Prerequisite: MATH 150B. Systems of linear equations, matrices, determinants, eigenvalues, vector spaces, linear transformations, introduction to inner products on R^n , spectral theorem for symmetric matrices.

MATH 280. APPLIED DIFFERENTIAL EQUATIONS (3)

Prerequisite: MATH 150B. Recommended Corequisite or Preparatory: MATH 250. Ordinary differential equations, series solutions, systems of equations, Laplace transforms, with emphasis on applications and introduction to numerical techniques. Course is not open to students who have credit for MATH 351.

UPPER-DIVISION

MATH 310. BASIC CONCEPTS OF GEOMETRY, PROBABILITY AND STATISTICS (3)

Prerequisites: Passing score on or exemption from the Entry Level Mathematics Examination (ELM) or credit in MATH 093, and completion of MATH 210 with a grade of C or better. Articulated course from another college equivalent to MATH 210 may only satisfy the course prerequisite for MATH 310. Students passing such a course with a C or better will still need to fulfill the ELM requirement. Second course for students intending to teach in elementary or junior high school. Geometry as a system; congruence and similarity through construction with straightedge and compass; transformational geometry; the nature of measurement, precision, and accuracy; basic principles of probability and statistics. Not available for credit toward the major or minor in Mathematics.

MATH 310L. GEOMETRY, PROBABILITY AND STATISTICS LAB (1)

Recommended Corequisite or Preparatory: MATH 310. Problem solving using models and simulation in mathematics appropriate for the elementary school classroom. 2 hours of activities per week. (Credit/No Credit Only)

MATH 311. BASIC GEOMETRIC CONCEPTS (3)

Prerequisites: Passing score on the Entry Level Mathematics Examination (ELM) and completion of MATH 210 and 310 with a grade of C or better or instructor consent. Continuation of the investigation of elementary geometry begun in MATH 310. Topics selected from: topology, motion geometry, metric geometry, geometry as a mathematical system, absolute geometry, Euclidean geometry, non-Euclidean geometry. Not available for credit toward the math major or minor.

MATH 312. BASIC ALGEBRAIC CONCEPTS (3)

Prerequisites: Passing score on the Entry Level Mathematics Examination (ELM) and completion of MATH 210 and 310 with a grade of C or better, or instructor consent. Topics selected from: abstract algebra and applied algebra using elementary mathematical models. Not available for credit toward the math major or minor.

**WEST HILLS COLLEGE LEMOORE
CURRICULUM/GENERAL EDUCATION COMMITTEE**

October 8, 2008

12:00p.m. - 1:00p.m.

Senate/Curriculum Office

MINUTES

Voting Members: D. Bolt, N. Gomez, V. Grijalva, R. Neves, P. Kraft-Chapman, B. Kron, M. Hendrickson, M. McDowell, R. Sanchez, K. Olson, R. Oxford

Non-Voting Members: S. Atkinson-Alston, M. Hall, J. Lopez

At-Large Non-Voting Members: D. Georgatos, S. Whitener, M. Lourenco

Members Present: V. Grijalva, M. Hendrickson, P. Kraft-Chapman, M. Lourenco, M. McDowell, R. Neves, K. Olson, R. Sanchez

Members Absent: D. Bolt, S. Atkinson-Alston, B. Kron, J. Lopez, D. Georgatos, N. Gomez, R. Oxford

Others Present: K. Crider

1.0 Call to order

Meeting called to order by R. Sanchez at 12:07p.m.

2.0 Changes to the agenda

None

3.0 Approval of Minutes

3.1 10/1 2008

The minutes of 10/1/08 were approved with corrections on a motion by R. Neves seconded by M. McDowell passed unanimously.

4.0 Items for Second Consideration

4.1 New Course

4.1.1 NURS 15X – Occupational Work Experience

The suggested changes from the last meeting have been made to the course outline. A motion to approve was made by R. Neves and seconded by M. Hendrickson; the motion passed unanimously.

5.0 Items for First Consideration

5.1 Course Revisions

5.1.1 HIST 4A – Western Europe to 1700

- Prerequisite

5.1.2 HIST 4B –Western Europe from 1700

- Prerequisite

5.1.3 HIST 20 – World History I

- Prerequisite

A motion to handle 5.1.1 HIST 4A, 5.1.2 HIST 4B, and 5.1.3 HIST 20 as one unit was made by R. Neves, seconded by M. Hendrickson; the motion passed unanimously.

R. Sanchez stated that the outcome of data compiled over the last three years shows that students are more likely to succeed in HIST 4A, HIST 20 if students are able to read and write at the college level.

R. Sanchez shared the information received from P. Avila/Director of Institutional Effectiveness and Planning and F. Ganter/Math Instructor. The information received showed that students that had successfully completed ENG 51A had higher success rates in HIST 4A and HIST 20 than students who have not completed the college level English course.

History 4B did not show the same outcome, but R. Sanchez stated it would not seem appropriate that HIST 4A, would have a prerequisite of ENG 51A but HIST 4B would not have the same prerequisite since the textbooks have the same readability level and similar assignments such as essays and research papers.

R. Sanchez is proposing that the same prerequisite be added for HIST 4B even if research does not show the need.

A motion to accept the prerequisite of successful completion of ENG 51A or equivalent for HIST 4A, HIST 4B, and HIST 20 on a 1st reading was made by M. Hendrickson, seconded by P. Kraft-Chapman; the motion passed unanimously.

6.0 Old Business

None

7.0 New Business

7.1 Local District Health Education Requirements (HE 35)

M. Hendrickson stated the WHC Lemoore will be proposing that the Local District Health Education requirement be revised to include the following statement “first year of ADN (Associate Degree Nursing) program students be exempt from taking HE 35.

M. Hendrickson also stated that communication has taken place with WHC Coalinga and they will be proposing the same change.

8.0 Adjournment

Meeting adjourned by R. Sanchez at 12:50pm.

**WEST HILLS COLLEGE LEMOORE
CURRICULUM/GENERAL EDUCATION COMMITTEE**

May 7, 2008

12:00p.m. - 1:00p.m.

Senate/Curriculum Office

MINUTES

Voting Members: D. Bolt, V. Grijalva, R. Neves, B. Kron, M. Hendrickson, S. Heskett, K. Mativo, R. Sanchez, M. Smart

Non-Voting Members: S. Atkinson-Alston, M. Hall, J. Lopez

At-Large Non-Voting Members: D. Georgatos, S. Kincade-Whitner, M. Lourenco

Members Present: D. Bolt, M. Hendrickson, S. Heskett, B. Kron, M. Lourenco, K. Mativo, R. Neves, R. Sanchez, M. Smart

Members Absent: D. Georgatos, V. Grijalva, S. Kincade-Whitner

Others Present: S. Atkinson-Alston, M. Hall, V. Kennedy, C. Raia

1.0 Call to order

Meeting called to order by R. Sanchez at 12:05p.m.

2.0 Changes to the agenda

Numbering on agenda is incorrect – B. Kron

Add HIST 4A/B, and 20 for 2nd reading – R. Sanchez

3.0 Approval of Minutes from 4/30/08

A motion to accept the minutes from 4/30/08 with corrections was made by S. Heskett, seconded by K. Mativo; the motion passed with 1 abstention by B. Kron.

4.0 Items for Second Consideration

4.1 New Programs

4.1.1 Liberal Arts with an emphasis in communication and critical Thinking

The committee reviewed the new program packet and recommendations have been incorporated.

A motion to accept the new program of Liberal Arts with an emphasis in Communication and Critical Thinking on a 2nd reading was made by B. Kron, seconded by M. Smart; the motion passed unanimously.

4.1.2 Liberal Arts with an emphasis in Math and Science

The committee reviewed the new program of packet and recommendations have been incorporated.

A motion to accept the new program of Liberal Arts with an emphasis in Math and Science on 2nd reading was made by M. Smart, seconded by M. Hendrickson; the motion passed unanimously.

4.1.3 Liberal Arts with emphasis in Elementary Teacher Preparation

The committee reviewed the new program packet for Liberal Arts with emphasis in Elementary Teacher Preparation and recommendations have been incorporated.

A motion to accept the new degree of Liberal Arts with emphasis in Elementary Teacher Preparation on a 2nd reading was made by S. Heskett, seconded by R. Neves; the motion passed unanimously.

4.2 Program Revisions

4.2.1 Child Development (Early Intervention Assistant Certificate)

A motion to accept the program revision for Child Development Early Intervention Assistant Certificate on a 2nd reading was made by M. Hendrickson, seconded by S. Heskett; the motion passed unanimously.

5.0 Items for First Consideration

5.1 New Program

5.1.1 Human Services Certificate

5.1.2 Human Services – Eligibility worker certificate

5.1.3 Human Services – Mental Health Aide Certificate

5.1.4 Human Services – Social Work Assistant Certificate

5.1.5 Human Services – Substance Abuse Specialist Certificate

5.1.6 Human Services – Youth Worker Certificate

A motion to handle 5.1.1 through 5.1.6 as one unit was made by S. Heskett, seconded by M. Hendrickson; the motion passed unanimously.

V. Kennedy stated that she took the recommendation made by the committee and several certificates have been created by using the Taxonomy of Program (TOP) code for Human Services.

M. Lourenco recommended that one program should be created using the TOP code for Human Services and within this program should have all the certificates options listed.

V. Kennedy stated that she make the revisions recommended.

A motion to move the new program of Human Services certificate with the following options Eligibility Worker Certificate, Mental Health Aide Certificate, Social Work Assistant Certificate, Substance Abuse Specialist Certificate, and

Youth Worker Certificate to a 2nd reading was made by B. Kron, seconded by M. Hendrickson; the motion passed unanimously.

5.3 Program Revision

5.3.1 Art Program (short-form)

M. Lourenco stated this revision is to have Art 3A changed to Art 6A listed on Art Program. This was an error on her part as number was assigned to the new course. The number 3A was previously used.

A motion to accept the course number change from Art 3A to Art 6A on a 1st reading was made by M. Hendrickson, seconded by S. Heskett; the motion passed unanimously.

5.4 Course Revisions

5.4.1 BUS 39 – Quantitative Analysis

B. Kron stated that this change was to incorporate an additional line on course content and scope that addressed “Application of linear programming” to gain articulation agreement with CSU Fresno.

The committee recommended the course revision packet had formatting problems that should be addressed.

A motion to move BUS 39 to a 2nd reading was made by M. Hendrickson, seconded by S. Heskett; the motion passed unanimously.

5.4.2 BUS 2 – Introductory Keyboarding (reactivation)

- **Course**
- **Advisory(s): ENG 101B or equivalent**
- **DE**

5.4.3 BUS 3 - Intermediate Keyboarding (reactivation)

- **Course**
- **Prerequisite(s): BUS 2 or the ability to key 35 NWPM**
- **Advisory(s): ENG 101B or equivalent**

A motion to handle 5.4.2 BUS 2 and 5.4.3 BUS as one unit was made by M. Hendrickson, seconded by B. Kron; the motion passed unanimously.

A discussion took place regarding the articulation with CSU Fresno. M. Hendrickson stated that she spoke with R. Stock and Ms. Stock stated that CSU Fresno is in the process of making changes to their catalog and removing keyboarding from their catalog.

The committee recommended that communication needs to take place with CSU Fresno regarding this issue.

5.4.4 BUS 74 – Computerized Accounting

- **Five-year review**
- **Prerequisite(s): BUS 1A or BUS 55**
- **DE**

The committee reviewed the five-year review and recommended that these are WHC Coalinga forms and this should be moved over to WHC Lemoore forms.

A motion to move the five-year review for BUS 74 to a 2nd reading was made by R. Neves, seconded by K. Mativo; the motion passed unanimously.

The committee reviewed the prerequisites for BUS 74 and recommendations were made. Form B should be added for each prerequisite with the outcomes for each prerequisite.

A motion to move the prerequisite of BUS 1A or BUS 55 for BUS 74 to a 2nd reading was made by S. Heskett, seconded by M. Smart; the motion passed unanimously.

A motion to accept the Distance Education Addendum for BUS 74 stating that course will not be offered in a distance educational modality on 1st reading was made by S. Heskett, seconded by R. Neves. The motion passed unanimously.

5.4.5 CD 50 – Family Day Care

- **Five-year review**
- **DE**

Removed from agenda

5.4.6 ESL 120 – Conversation practices and everyday English

- **Five-year review**
- **DE**

5.4.7 ESL 125 – conversation Practice Intermediate level

- **Five-year review**
- **DE**

5.4.8 ESL 130 – Reading, Writing, and Speaking: Beginning Level

- **Five-year review**
- **DE**

5.4.9 ESL 135 – Reading, writing, and Speaking: Intermediate Level

- **Five-year review**
- **DE**

A motion to handle 5.4.6 ESL 120, 5.4.7 ESL 125, 5.4.8 ESL 130, and 5.4.9 ESL 135 as one unit was made by R. Neves, seconded by S. Heskett; the motion passed unanimously.

S. Heskett stated that these are five-year reviews that WHC Coalinga passed it has placed on the WHC Lemoore forms.

A motion to move ESL 120, 125, 130, and 135 to a 2nd reading was made by M. Smart, seconded by K. Mativo the motion passed unanimously.

A motion to approve the Distance Education Addendum for ESL 120, 125, 130, and 135 on a 1st reading stating that courses will not to be offered in a distance education modality was made by M. smart, seconded by S. Heskett; the motion passed unanimously.

5.4.10 CUL 53 – Commercial Baking Advanced (short-form)

- **Unit Change**

C. Raia stated that the unit change from 2.0 unit course to 3.0 units is needed to meet the industry standards.

The committee recommended that the break down of units list the hours needed for lecture and laboratory.

A motion to move the short-form for CUL 53 to a 2nd reading was made by M. Smart, seconded by K. Mativo; the motion passed unanimously.

5.4.11 CUL 57 - Beverage Management (short-form)

- **Unit change**

C. Raia stated that the unit change is needed to meet the industry standards.

Same recommendations were made by committee a break down of hours should be listed.

A motion to move the short-form for CUL 57 to a 2nd reading was made by M. Smart, seconded by K. Mativo; the motion passed unanimously.

5.4.12 CUL 59 – Introduction to Hospitality Careers and Human Relations

- **Unit change**

Same recommendation as CUL 53, and 57.

A motion to move the short-form of CUL 59 to a 2nd reading was made by M. smart, seconded by S. Heskett ; the motion passed unanimously.

5.4.13 Art 6A – Introduction to 3-D Fundamentals (short-form)

- **Course number change from 3A to 6A)**

M. Lourenco stated this revision is to have Art 3A changed to Art 6A. This was an error on her part as number was assigned to the new course. The number 3A was previously used.

A motion to accept the Art 3A change to Art 6A on a 1st reading was made by S. Heskett, seconded by M. Hendrickson; the motion passed unanimously.

8.0 Adjournment

Meeting adjourned by R. Sanchez at 1:20pm.

WEST HILLS COLLEGE LEMOORE
CURRICULUM/GENERAL EDUCATION COMMITTEE
March 11, 2009
12:00 p.m. –1:00p.m.
Administration Building Conference Room 124
REVISED MINUTES

Voting Members: D. Bolt, N. Gomez, V. Grijalva, R. Neves, P. Kraft-Chapman, B. Kron, M. Hendrickson, M. McDowell, R. Sanchez, K. Olson, R. Oxford

Non-Voting Members: S. Atkinson-Alston, M. Hall, J. Lopez

At-Large Non-Voting Members: D. Georgatos, S. Whitener, M. Lourenco

Members Present: D. Georgatos, V. Grijalva, M. Hendrickson, P. Kraft-Chapman, B. Kron, M. Lourenco, M. McDowell, R. Neves, R. Sanchez

Members Absent: D. Bolt, S. Atkinson-Alston, J. Lopez, K. Olson, R. Oxford, R. Ragsdale, S. Whitener

Others: M. Smart, K. Crider

1.0 Call to order

Meeting called to order by R. Sanchez at 12:04p.m.

2.0 Changes to the agenda

Add item 6.2 to Old Business Catalog Committee.

3.0 Approval of Minutes

2.1 March 4, 2009

A motion to approve the minutes from 3/4/09 with corrections was made by R. Neves, seconded by M. McDowell; the motion passed unanimously.

4.0 Items for Second Consideration

4.1 Program Revision

4.1.1 General Education

The committee reviewed program and recommendations made by the committee have been incorporated.

A motion to accept the program revision of General Education was made by M. McDowell, seconded by P. Kraft-Chapman; the motion passed unanimously.

4.2 New Program

4.2.1 Sterile Processing

The committee reviewed new program and recommendations have been incorporated.

A motion to accept the new program Sterile Processing was made by B. Kron, seconded by M. McDowell; the motion passed unanimously.

5.0 Items for First Consideration

5.1 Course Revision

5.1.1 NATSCI 1 – Chemistry and Physics for Educators

R. Neves stated that communication with WHC Coalinga took place as committee recommended to make campus aware of the proposed prefix and number change from NATSCI 1 to PHYSCI 2. WHC Coalinga does not have this course in their course inventory and no issues were brought forward.

A motion to accept the proposed change from NATSCI 1 to PHYSCI 2 on a 1st reading was made by M. Hendrickson, 2nd by M. McDowell; the motion passed unanimously.

5.2 New Courses

5.2.1 HS 61- Nurse Assistant Training

- **Course**

M. Smart stated that this is a new course for WHC Lemoore, it has been taught at the WHC Coalinga campus with lecture and lab combined. M. Smart stated that WHC Lemoore is proposing this course as lecture and lab and in two separate outlines.

M. Smart stated that C. Goldsmith has VATEA funding available that would help with costs for this new course. M. Smart also stated that 4 qualified faculty available within the district that could teach this course.

Committee reviewed the new course outline for HS 61 and recommendations were made (remove the “WK” for course hrs. change the advisory to state successful completion of ENG 51A or equivalent).

A motion to move the new course outline for HS 61 to a 2nd reading was made by M. Hendrickson, seconded by P. Kraft-Chapman; the motion passed unanimously.

- **Prerequisite(s):** Students must be 17 years of age. Physical exam clearance, negative TB screen and negative criminal background.

A motion to accept the prerequisites of students must be 17 years of age, physical exam clearance, negative TB screen and negative criminal background for HS 61 on a 1st reading was made by M. McDowell, seconded by R. Neves; the motion passed unanimously.

- **Advisory(s):** ENG 51A or equivalent

The recommendation from the committee was to have advisory state “Successful completion of ENG 51A or equivalent.”

- **DE**

M. Smart stated that this new course and the department does not recommend distance education at this time. Some of the lecture consists of demonstration on models or in the skills lab.

A motion to accept the Distance Education Addendum for HS 61 to state that this course is not recommend to be taught as distance education modality was made by M. McDowell, seconded by P. Kraft-Chapman; the motion passed unanimously.

- **Co-requisite(s): HS 61L**

A motion to accept the co-requisite of HS 61L for HS 61 on a 1st reading was made by M. McDowell, seconded by R. Neves; the motion passed unanimously.

5.2.2 Nurses Assistant Training Lab

- **Course**

M. Smart stated that this is the lab outline. The same issues with this course outline as the lecture was recommended by the committee.

A motion to move the new course HS 61L to a 2nd reading was made by R. Neves, seconded by M. McDowell; the motion passed unanimously.

- **Prerequisite(s):** Students must be 17 years of age, physical exam clearance, negative TB screen and negative criminal background

- **Co-requisite: HS 60**

A motion to handle the Prerequisite and co-requisite as one unit was made by M. Hendrickson, seconded by M. McDowell; the motion passed unanimously.

A motion to accept the prerequisites of students must be 17 years of age, physical exam clearance, ,negative TB screen and negative criminal background, and the co-requisite of HS 60 for HS 60L on a 1st reading was made by M. McDowell, seconded by B. Kron; the motion passed unanimously.

- **Advisory(s): ENG 51A or equivalent**

The recommendation from the committee was to have advisory state “Successful completion of ENG 51A or equivalent.”

- **DE**

These courses consist of skills and clinical experience and cannot be done via Distance education.

A motion to accept the distance education addendum for HS 61L stating that this course is not recommended to be offered as distance education modality was made by R. Neves, seconded by M. McDowell; the motion passed unanimously.

6.0 Old Business

6.1 Certificate (less than 18 units) M. Hendrickson

M. Hendrickson stated that certificate of completion was recommended by P. Kraft-Chapman.

D. Georgatos stated that certificate of completion cannot be use; it's stated in Section 55070 Credit Certificates "b", CCC Credit and Noncredit Curriculum Regulations and Guidelines.

Communication took place and the following recommendations were made by the committee.

- Certificate of Accomplishment
- Certificate of Career Development

These recommendations will be forwarded to WHC Coalinga.

6.2 Catalog Committee

R. Sanchez stated that communication has taken place with S. Droker/Senate President. R. Sanchez stated that S. Droker stated that whether this committee will be a curriculum subcommittee or a senate subcommittee.

Discussion took place and curriculum committee agreed that it should be a curriculum subcommittee. The curriculum was in agreement that CIO should be the chair and CIO will appoint the membership.

CBEST Prep SEMINARS

West Hills College Lemoore will offer a series of seminars designed to prepare you to pass the **California Basic Educational Skills Test (CBEST)**. These seminars will help you in the areas of Test-Taking skills, Writing, Reading, and Math Preparation. Additionally, they will focus on test-taking strategies, techniques, and practice exercises. These non-credit workshops will be taught by college faculty and are part of the Community Education Program.

Dates and Topics

CBEST Test Prep, Writing Prep, and Reading Prep

- Saturday, October 24th - 9:00 a.m. – 3:00 p.m.
- Instructor: Mr. James Preston
- Location: WHC Lemoore- Room 209

CBEST Mathematics Preparation

- Saturday, November 7th - 9:00 a.m. – 3:00 p.m.
- Instructor: Mr. Shawn Jackson
- Location: WHC Lemoore- Room 209

Cost, Payment, Registration

- Each session is \$25 or you can pay \$40 if you enroll in both sessions.
- A CBEST Test Prep book is included in the cost of the class.
- Cash or check only (checks made payable to West Hills College Foundation).
- To pay for the class visit Donna Jimenez in the WHC Lemoore Administration building.
- Register at: http://www.westhillscollege.com/lemoore/academics/community_education/courses.asp

These seminars are not-for-credit and are offered by the Community Education Program. Seating is limited and the seminars are subject to cancellation if we do not meet minimum enrollment. If that should happen, every effort will be made to notify you by telephone but the Community Education Program is not responsible for failure to contact you.

To reserve your seat please call 559.925.3223/ donna.jimenez@whccd.edu

Hall, Marlon

From: Jimenez, Donna
Sent: Wednesday, September 16, 2009 5:29 PM
To: Hall, Marlon
Subject: 4 Community Ed Classes

Marlon,

Here is the list of the four Community Ed Classes.

Learn to Crochet Class

Instructor Tamie Pick

Monday Evenings 5:30pm-7:00pm

October 19 & 26 - November 2 & 9, 2009

Cost of Class \$20

Room 274

Come and learn how to crochet to get ready for those nice Christmas or Birthday gifts this year. Instructor Tammie Pick will teach you a variety of stitches. Learn to chain, single, half double, double and treble crochet stitches, binding off, crochet terms and how to follow a pattern all in four easy sessions. Students will crochet a set of 2 coordinating dish cloths, and learn the basics of crocheting.

Supplies you will need to bring to class: 1 crochet hook size H or I, 3 balls of coordinating colors, Peaches and Cream or other brand yarn, scissors, and a ruler or fabric measuring tape.

Learn to Knit Class

Instructor Tamie Pick

Wednesday Evenings 5:30pm-7:00pm

October 21 & 28 - November 4 & 16, 2009

Cost of Class \$20

Room 274

Come and learn in four easy sessions how to cast on, how to create knit, pearl, and stockinete stitches, binding off, gauge, knitting terms and how to follow a pattern. Students will knit a neck scarf and learn the basics of knitting.

Supplies needed for class: 2 balls of yarn, 1 set of size 11 or 12 knitting needles, scissors, ruler or fabric measuring tape. Recommended yarn is Red Heart worsted weight.

Learning Traditional Karate Class

Instructor Robert White

Thursday Evenings 5:30pm-6:30pm

October 8, 15, 22 & 29, 2009

Cost \$30

Room 801

The art that will be taught is Okinawan Shorin Ryu Karate. This Karate class will be for students ages 13-adult. Emphasis of study will be on self-defense rather than sport karate. Traditional etiquette, respect, and non-violence will be emphasized. Students will learn basic stances, techniques, and basic kata (forms). Shorin Ryu does utilize a 10-step ranking system that begins with White Belt, and ultimately leads to earning the Shodan (1st) degree Black Belt.

CBEST PREP SEMINARS

COST \$40 both sessions/ or \$25 each session

Instructors: James Preston (Reading & Writing)/Shawn Jackson (Math) - - both in Room 209

CBEST Test Prep, Writing Prep, and Reading Prep

Saturday, October 24, 2009

9:00 a.m. - 3:00 p.m.

Room 209

CBEST Mathematics Preparation

Saturday, November 7, 2009

9:00 a.m. - 3:00 p.m.

Room 209

West Hills College Lemoore offers these seminars to help you in the areas of Test-Taking skills, Writing, Reading, and Math Preparation. Additionally they will focus on test-taking strategies, techniques, and practice exercises. These non-credit workshops will be taught by college faculty and are here to help you succeed.

West Hills College Lemoore
Student Learning Outcomes Committee
Monday – October 11, 2010 – 12:00 p.m.
Room 203

MINUTES

Members Present:

David Babb, SLO Coordinator – Faculty – Chair
Jacqui Shehorn, Arts & Letters Representative
Linda Amaya-Guenon, Counseling Representative
Allen Fortune, Social Science Representative
Frieda Ganter, Math & Science Representative
Christian Raia, CTE Representative
Priscilla Balcazar, Support Programs Representative

Members Absent:

Ron Oxford, SLO Coordinator – non-teaching faculty – Co-Chair/Vice-Chair
Joel Rogers, Health & Wellness Representative
Dave Bolt, Instructional Administrator
Marlon Hall, Instructional Administrator
Jose Lopez, Non-Instructional Administrator
Sylvia Dorsey-Robinson, Non-Instructional Administrator
Staff members to represent support programs (3)
SGA Representative (1)

Call to Order

David Babb called the meeting to order at 12:05pm.

Information/Discussion Items

1. Dr. Allen's workshop

This will be discussed further at future meetings when more members are in attendance. The general consensus was that what Dr. Allen presented was very detailed and was the ideal way to do SLO assessments. But switching to her method (assessing all CLOs or PLOs each time a course or program is assessed) would not be feasible at this time. We may transition to that in the future, but doing so now would be too disruptive to faculty members.

2. SLO Portal update

David showed the committee some of the changes made to the SLO Portal site. SGA President, Ryan Cardoza, helped David with some of the design elements. The membership of the SLOC is included several times on the site because David was experimenting with different formats. That will be changed soon.

3. Assessment of PLOs

Discussion on this topic postponed until next meeting due to missing committee members.

4. Review all documents on Portal

David asked all committee members to begin reviewing all the documents on the Portal to ensure they are complete. Many of the documents are several years old and were never thoroughly reviewed before being uploaded to the Portal.

5. Upload assessments to Portal

David attempted to show everyone how to upload an assessment document to the Portal site. The file did not upload how David thought that it would. He will experiment further with the Portal and get back to the committee members on how they should proceed with archiving past assessments.

6. Adjournment

The meeting was adjourned at 12:55pm.

Call to Order

David Babb called the meeting to order at 12:05pm.

Information/Discussion Items

1. SLOs on syllabi

Discussion about why SLOs were required to be included on course syllabi starting FA2010 semester. Marlon informed the SLOC that WASC is requiring these be added to course syllabi and Dave Bolt made the decision at the beginning of the semester to make sure we were in compliance. There was discussion about any future announcements regarding SLOs would be better coming from the SLOC instead of administration.

2. Adjunct training and notification

The SLOC helps coordinate ongoing training for all faculty, full time and adjunct, in regards to SLO assessment. Some adjunct faculty, especially those teaching online, have not been receiving adequate explanation as to their roles and responsibilities in the SLO assessment process. It is the role of the SLOC reps to coordinate all SLO assessment activities in their respective learning area, including those conducted by online adjuncts. This requires the reps to figure out who is teaching courses, contact them, and offer any assistance the adjuncts may need in order to complete SLO assessments.

David Babb is now attending the Employee Development and Success Committee (EDSC) meetings to help schedule regular opportunities for faculty to work on SLOs. Tentative dates for the FA10 semester include 10/12, 10/27, 11/9.

3. Program level SLO assessments

Discussion on this topic postponed until next meeting. There is a workshop on 9/21/10 dealing with Program Level SLO assessments. The committee wanted to wait and see what was discussed in the workshop before discussing this topic further.

4. SLOC Governance Form

The SLOC reviewed the current SLOC Governance Form that is part of the Planning and Governance Manual. Some of the language was modified to more specifically define what the SLOC does and its products. Discussion regarding membership resulted in no changes to the existing membership, but there is a need to have more involvement from the non-instructional staff who have four official spots on the committee. Linda will work with Ron Oxford and Sylvia Dorsey-Robinson to increase the number of staff members representing student and instructional support programs. David will continue to request a representative from the SGA. David will send the updated Governance Form to Glenda Oliver for inclusion on the next PGC meeting agenda.

5. SLO Portal Update

David requested that the SLOC reps begin tracking down where all the past SLO assessment files are located so they can start being uploaded to the portal site this semester. David reminded the SLOC reps that they have Contribute privileges on the portal site so they can update any of the documents stored there.

6. Meeting minutes

David requested help from the SLOC in regards to taking meeting minutes. Currently, David is typing up the meeting minutes from memory after the meeting is over. This is not the best way to record what was discussed. David is responsible for leading the discussion and needs to focus on that during the meetings. He is open to suggestions and will accept any volunteers. There needs to be someone who can take the minutes for the committee and write them up as accurately as possible after the meeting has ended. These minutes will be uploaded to the SLOC portal site for archival purposes.

7. Adjournment

The meeting was adjourned at 12:55pm.

West Hills College Lemoore
Student Learning Outcomes Committee
Monday – May 17, 2010 - 12:00 p.m.
Room 209

MINUTES

Members Present:

David Babb, SLO Coordinator – Faculty - Chair
Ron Oxford, SLO Coordinator – non-teaching faculty – Co-Chair/Vice-Chair
Jacqui Shehorn, Arts & Letters Representative
Linda Amaya-Guenon, Counseling Representative
Dave Bolt, Instructional Administrator
Priscilla Balcazar, Support Programs Representative
Rodney Ragsdale, Health & Wellness Representative

Members Absent:

Jose Lopez, Non-Instructional Administrator
Christian Raia, CTE Representative
Frieda Ganter, Math & Science Representative
Vera Kennedy, Social Science Representative
Pedro Avila, Director of Institutional Effectiveness and Planning
Staff members to represent support programs (2)
SGA Representative (1)

Call to Order

David Babb called the meeting to order at 12:05pm.

Information/Discussion Items

1. Course level SLOs

David discussed the overall progress of course level assessments based on the information he has received from Learning Area SLOC reps or individual faculty members. Each learning area was looked at and some updates to the tracking form were made directly to the tracking form on the Portal site. David asked that the learning area reps begin updating the tracking form themselves when they receive an assessment from faculty members.

David updated the course level SLO tracking form to include a column titled “Rarely Offered”. This will allow courses that are active but rarely offered to be kept out of the calculations for percentage of courses that are actively being assessed. This will increase the percentage of courses assessed and also give a more accurate number since courses that are rarely offered are not able to undergo SLO assessment.

2. Program level SLOs

The committee went through the list of programs listed on the Program Level SLO tracking form maintained by David Babb. A few corrections were made regarding active versus non-active programs. There were also some updates as to which programs had written the program-level SLOs and had begun the assessment process. Those changes were made to the tracking form located on the SLOC Portal site. The changes resulted in the overall percentage of SLOs increasing.

3. Non-Instructional SLOs

Linda stated that she has talked repeatedly with the counseling department about doing SLO assessments but so far none have been done. She has had trouble getting the faculty to coordinate the assessments with one another. It was suggested that she send another reminder email where she Cc Don Warkentin to show the importance of getting the assessment process started. Ron continues to work with all the non-instructional areas to update their program level SLOs and begin assessment of those SLOs. Ron continues to update the tracking form that he uses to monitor progress with the non-instructional SLOs.

4. SLOC Portal Site

David updated the status of the Portal site. He has wanted to implement an online course level SLO submission form but since this is proving to be too much trouble, suggested creating a document library where assessments could be uploaded for archival purposes. It was decided that creating a separate document library entitled "Course Level SLOs (Archive)" would be the easiest to understand. It will be set up to where each time the same course is assessed; previous versions will remain showing a history of the assessment process for each course.

David asked committee representatives to begin updating the SLO tracking forms on the Portal themselves since they have the ability to do that. This will result in more people keeping an eye on the documents so they remain as accurate as possible.

5. Program Review Templates

The committee reviewed the SLO language in both the non-instructional and instructional Program Review documents being updated by the Institutional Effectiveness and Program Review Committee (IEPRC). Part V, sections A and B of those two documents were reviewed and wording was adjusted to avoid confusion when faculty complete their program reviews. It was suggested that the phrases "Non-Instructional Program-Level Student Learning Outcomes" and "Instructional Program-Level Student Learning Outcomes" be used instead of "program level outcomes". This will make the Program Review documents match the SLO documents and the terminology used by WASC.

6. Adjournment

The meeting was adjourned at 12:55pm.

West Hills College Lemoore

Call to Order

David Babb called the meeting to order at 11:05am.

Approval of minutes

The minutes of the 24 March 2009 and 23 September 2009 meetings were not voted on.

Action Items

None

Information/Discussion Items

1. Course level SLOs

David reviewed the Course Level SLO Assessment schedule developed during the SPO9 semester. He asked for updates from Jacqui and Rodney regarding which of their Learning Area courses were actually assessed in SPO9 and if the scheduled FA09 courses are being assessed. They both reported that they are following the assessment schedule their Learning Area created. David asked Linda to create an assessment schedule for the courses that the Counseling area oversees. She said she would do this and ask the instructors to begin assessing some of the courses this semester. David asked Ron (as proxy for Vera) to ask the Social Sciences Learning Area to provide an update on which SLOs have been assessed both in the SPO9 and FA09 semesters. There are still many courses in the CTE Learning Area that are not on the assessment schedule and the tracking of these SLO assessments remains difficult due to lack of reporting by the faculty. There was discussion about having a second SLO rep assigned to the CTE Learning Area because of the number of courses and programs in that Learning Area. David is working on getting the assessment schedules uploaded to the Portal site so the reps can monitor and inform the faculty in their Learning Area. There should be a way in which the Portal can automatically

email a reminder to faculty letting them know that a course they teach is due to be assessed. David is working to figure out this functionality in the Portal system.

2. Program level SLOs

Rodney reported that the Kinesiology Program Level SLOs had been written when the Program Review was done FA08. He stated that he would find them and send them to David as soon as possible. The Program Level SLO tracking form was reviewed. No changes were made to the tracking form.

3. Non-Instructional SLOs

The committee briefly discussed the minor change to the Program Level SLO form. Ron showed the committee on the Portal what program areas have addressed their student learning outcomes so far. There was a discussion about the causes for some areas to believe they have completed the process when there is actually a new process and form in place. Ron showed the committee a spreadsheet that he inherited from a previous co-chair and adapted for tracking purposes. The form is located on the portal under the non-instructional program level section. Ron requested that any further SLOs for non-instructional areas be ran through the committee before going to PGC to avoid the problems that developed by taking the Athletics directly to PGC with their Program Review.

4. Other

David updated the status of the Portal site. He demonstrated a method of using the Portal to track SLO assessments using customized lists. It appears this method may work for faculty to input SLO assessment data so it can be tracked. Jacqui mentioned that faculty in her Learning Area are concerned about who will have access to the SLO assessment data. David stated that it is possible to assign permissions to anything on the Portal so that only certain people can access the information. Jacqui stated that the administration does not need access to the actual assessments, they only need to see whether the assessments have been done or not. David stated that it should be possible to set up the Portal such that the administration can see the SLO tracking, but not see the actual assessments.

5. Adjournment

The meeting was adjourned at 11:55am.

Ronald Thompson	Consultant	College of the Sequoias
Louann Waldner	Director, Business & Industry	College of the Sequoias
Neil Williams	Retention Specialist	Kings County EDC

Welcome – Mrs. Sylvia Dorsey-Robinson, Vice President of Student Services

Sylvia Dorsey-Robinson welcomed the committee and thanked them for attending. Vice President Dorsey-Robinson noted that this is a critical time when everyone must make the most of their resources and focus their energies to ensure that the needs of students and the community are being met.

Introduction of the Meeting and State of the College – Mr. Jody Ruble, Director

Mr. Jody Ruble introduced himself and thanked John Lehn, Jay Salyer, and Neil Williams of Kings County Economic Development Corporation for organizing the meeting.

Mr. Ruble noted that WHCL's multi-use sports complex is under construction, and will allow the college to accommodate larger events of all types in addition to expanding its athletic offerings. Several other campus programs were highlighted including the nursing program, University Charter School, Middle College High School, and the 5C's Experience, which takes place every summer.

Pointing out the flyers on each table, Mr. Ruble gave an overview of the grant objectives, and emphasized that the focus of this meeting would be the development of curriculum for certificates in biotechnology and quality assurance technology.

Working Lunch

Committee members were asked to introduce themselves and the businesses and organizations they represent.

Christian Raia, instructor for culinary arts at West Hills College Lemoore introduced himself to the committee and noted that the Culinary Arts program now has 91 students enrolled.

Mr. Raia described the Culinary 50 Safety and Sanitation class, which is being integrated into the quality assurance portion of this grant. Currently this course is being offered in a two-day format, allowing students complete the 1 unit class on a Friday and Saturday.

Next Brian Abela, Chemistry instructor for West Hills College Lemoore addressed the committee, noting that their expertise was needed in developing curriculum for the programs, and in determining the specific subjects students would need to learn in addition to basic chemistry, microbiology and mathematics.

Round Table Discussion

Following lunch, Mr. Ruble asked the committee to discuss possible curriculum and topic to be covered in this program. Two certificates are to be developed, one focusing on biotechnology and the other on quality assurance.

Kurt Sterling, microbiology instructor for West Hills College Lemoore asked the committee to keep in mind that curriculum and subject matter would need to be kept within the scope of a two-year education, and that there should be a base of knowledge common to both certificates.

Discussion focused on the following topics:

Regulations and Industry Standards

Committee members noted that food safety is in its infancy, and that standards are continuing to be developed. International standards are of growing importance.

It was pointed out that employees should have some knowledge or regulations and industry standards; however, these standards vary between different commodities, industries and phases of production.

Because of these variables, a general knowledge of regulations would be valuable and employees would be able to obtain more specific knowledge on the job and through trainings organized by government agencies to focus on specific regulations.

Critical thinking skills were emphasized in the interpretation of regulations, and it was pointed out that students should be taught which agencies and organizations should be contacted when seeking more specific regulatory guidelines.

Specific Job Skills

As with regulations, different areas and commodities of the food safety and quality assurance industry require different job skills.

For example, quality assurance technicians in food packing tend to focus on data analysis and require computer skills, such as knowledge of databases, and the ability to look up trends and statistics.

In the healthcare and nutrition portion of the quality assurance and food safety industry, more emphasis is placed on management, bookkeeping, and knowledge of regulations.

General Job Skills

The committee pointed out that lab experience is necessary for workers in some areas of the quality assurance industry. This includes pH and salt analysis, swabbing, and then making use of the data gathered. West Hills faculty members noted that many of these basic lab skills would be covered in the college's chemistry and microbiology classes.

It was noted that often lab technicians have a high school degree and are supervised by a manager with an advanced degree, and that these positions could be the target audience for the certificates.

The committee pointed out that these positions often face high turnover rates, and that considerable time has to be spent training employees on the basics of food safety and contamination. As a result, incoming employees who are already knowledgeable in this area would be at an advantage.

This general knowledge would be valuable for employees to have and knowledge specific to certain industries or segments of the supply chain could be acquired on the job, or through further education.

Future Partners and Resources

Committee members mentioned the following companies and organizations as possible resources in the development of this program:

- Better Process Control School - through UC Davis, this program for supervisors covers training in food processing, quality issues and microorganisms.
- Food distributors such as U.S. Foods and Sysco could be excellent resources for quality assurance issues.
- Private labs and food inspectors such as the Safe Quality Food Institute (SQF) and AIB.
- Government regulatory bodies such as the FDA and various state agencies, such as the California Department of Food and Agriculture Dairy Inspector
- Evergreen Food Safety

- J.G. Boswell
- Yum Brand Foods
- Jack-in-the-Box Corporate
- Harris Ranch
- Nichol's Pistachio
- Raven Foods, Armona
- Land O' Lakes, Tulare
- It was noted that there are several beef and poultry processing facilities in the area which could serve as a resource.
- Four-year institutions such as UC Davis and Penn State

Neil Williams of Kings County EDC brought up the importance of connecting industry professionals with instructors in the classroom. Academic lessons can be linked more closely with industry needs, professionals can be brought in to speak in the classroom, and instructors can then become advocates for students in the workplace.

Adjournment

At this time Mr. Jody Ruble once again thanked the committee members for attending and called the meeting to a close.

WEST HILLS COLLEGE LEMOORE
555 College Avenue, Lemoore, CA 93245

Advisory Committee
Meeting Agenda
Friday, December 4, 2009

Introduction of Academic and Service Partners.

In attendance: Charles Freeman (Director-Nursing), Judy Terraza, Donna Jimenez, Marta Hendrickson (Counseling), Jackie Bornemann (Adventist Health), and Velda Curtis (Selma Hospital).

1. Charles Freeman presented the LVN to RN selection process and the projected curriculum flow to graduation. The progress the Traditional nursing students was also discussed.
2. Charles presented the ADN to BSN collaborative that West Hills College Nursing Program is a member. The purpose is to provide an efficient articulation process for the ADN students wanting to upgrade to the BSN degree. Marta Hendrickson answered counseling questions that the attendees had about the articulation process.
3. Charles Freeman led a discussion about technology in the nursing curriculum as well as the various upgrade programs that the industry would like to see the program adopt in the future.
4. Industry forum: Velda Curtis expressed the desire for an LVN program and limit the LVN to RN Bridge program. She expressed doubt about the level of competency of the LVN to RN upgrade students. She cited the poor NCLEX pass rate that the LVN to RN student suffer throughout the State

The next meeting is scheduled to be announced.

There being no further business, the meeting adjourned.

WEST HILLS COLLEGE LEMOORE
555 College Avenue, Lemoore, CA 93245

Advisory Committee
Meeting Agenda
Wednesday, May 13, 2009

Introductions of Academic and Service Partners.

In attendance: Charles Freeman, Velda Curtis, Tammy Larson, Marleen Smart, Cynthia Dolata, Nancy Hitchcock, Leslie Catron, Janet Young, Cynthia Moon, Jackie Bornemann, Kristen Johnson.

1. Charles Freeman presented the nursing programs progress with student admissions into the nursing program. There were 24 traditional nursing students admitted in the fall 09 semesters. The plan is to select 12 additional LVN to RN students who will enter the program during the summer session. The attrition in the program was also discussed. Two students dropped due to non academic reasons. The pre-nursing orientation program was also introduced.
2. Tammy Larson presented the WorkKeys testing and its role in the assessment of student readiness. Tammy explained the remediation program that was in place for students that needed assistance with basic skills. The WIN Solutions self paced computer program was introduced. The program provides individualized self pace learning for the student.
3. Leslie Catron introduced the Pre-Nursing course that is scheduled to run in the spring 2010 semester. The results from the previous pre-nursing were discussed. The foundations faculty noted a distinct difference with the student that took the course and those that did not.

4. Charles Freeman introduced the new nursing student selection criteria that are currently being used.
5. Cindy Dolata discussed the student academic progress. Ms. Dolata review grades, clinical performance ATI exams, Hospital feedback, and student satisfaction.
6. Leslie Catron was introduced as the Simulation Coordinator. Ms. Catron discuss the progress that has been made in the implementation of high fidelity simulation into the nursing program at WHCL. The features of the Gaumard equipment were highlighted. Gaumard has deemed WHCL's Nursing Program as a Premier site for high fidelity simulation. The future plans for simulation were also discussed. Other uses of technology in the nursing curriculum were also reported on. The addition of a Technology Assistant was also discussed.
7. Marleen Smart presented the grants that had been acquired for the department. The addition of a Certified Nursing Assistant program and a Medical Assistant Front and Back Office. .
8. Industry forum Kristen Johnson DON for Hanford Community Medical Center wanted to make sure that we were able to coordinate with her organization to utilize the 18 clinics in the region that are a part of the Adventist Health Care System. Future grant opportunities were also discussed.

Next meeting was tentatively scheduled for December 4, 2009.

There being no further business, the meeting was adjourned.

Spring 2010**

Submitted by: Dr. Marlon Hall

This faculty evaluation was conducted for [REDACTED], a tenured faculty member in the Arts and Letters Instructional Area. [REDACTED] teaches various English and Education courses. A collaborative approach was taken during this evaluation using student evaluations, peer classroom evaluations, professional development goals, and other areas of assessment.

Peer Classroom Observations

[REDACTED] observed [REDACTED] English 101B course on March 16, 2010. There were 30 students present at the time of the observation. She stated that the objective of the lesson was clearly stated, good examples were used to clarify abstract or difficult ideas, the methods of presentation (PowerPoint, YouTube, journaling, lecture, and small group discussion) were appropriate, major points were summarized, the information and materials presented were up-to-date, and the materials were presented in an organized manner at an appropriate pace.

[REDACTED] felt that [REDACTED] voice and tone were appropriate, the students were clearly comfortable contributing in class, and a positive learning environment was maintained.

Her final thoughts:

- Returning assignments to students at the beginning of class offered [REDACTED] the opportunity to greet each student
- She noticed that some students did not write for the whole ten minutes. This would be an opportunity for those students to approach the desk and speak with the instructor during the quiet time
- Students could have spent all of class working on the YouTube activity. It would be good to come back to this.
- The class is clearly comfortable with each other and [REDACTED].

[REDACTED] observed [REDACTED] English 105A class on March 16, 2010. At the time of the observation, there were 34 students present.

████████████████████

She offered these important points from the observation:

- [REDACTED] use of the PowerPoint works well because he doesn't have everything listed at once. A new slide comes up as soon as he completes a point.
- He clarified the journal topic by using an example from the show, *Lost*.
- Throughout the class, he asked students to discuss various topics with a partner. This method allowed quiet students to verbally share their ideas without being intimidated by sharing with the entire class.
- In addition to projecting the lesson, he also included major points from the book. This method seems particularly helpful to students who are absent or need a notetaker part of DSPS accommodations.
- Although the class is only 50 minutes, he did work in a quick summary at the end.
- Projecting PowerPoint notes on the board works well as his handwriting is quite small.
- [REDACTED] was able to work in lessons such as the FAFSA application and Independence Day

[REDACTED] recommends that since the students have 10-15 minutes of journal writing class, maybe they could work on the journaling at home, and use the class time to discuss how the 10 sentences could be developed into a paragraph with a topic sentence.

I observed [REDACTED] Education 5 course on March 16, 2010. At the time of the observation, there were 51 students present. During my observation, these were some of the key points:

- The agenda for the day was listed on the PowerPoint. The students know exactly what is being covered for the day
- The lesson for the day, "How to write a lesson plan?" was listed on the PowerPoint
- [REDACTED] did an outstanding job on the state of teaching jobs in the state of California. The students have a idea of what the job market is like.

I really liked [REDACTED] class being divided into teaching teams. The students get to know each other, they work together, and they learn from each other.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

In closing, I enjoyed [REDACTED] Even though the class size is large (51 students), he does an outstanding job in the classroom management, using support materials, summarizing the major points, using up-to-date materials, presenting the material in an organized manner, encouraging student participation, and maintaining a positive learning environment.

Student Evaluations

Student evaluations represent feedback from [REDACTED] classes during the spring semester. Overall, the students indicated that the course syllabus explained the objectives, grading procedures were adequately described, materials presented related to the course and the tests were a fair test of the assigned materials.

More specifically the students in [REDACTED] classes noted what they liked about his classes which included these key points:

- It's fun and very hands-on.
- The class is really interactive and hands-on it helps me grasp the material better.
- The material we learn. It is preparing me for teaching. Mr. Preston is a great teacher.
- [REDACTED] explains everything well, gives examples we can relate to, makes it fun.
- [REDACTED] is ready to teach at any given time.
- I like how the teacher is interactive with the students and gets a laugh out of the students.
- The teacher is very enthusiastic about the subject and makes it a competition to encourage us.
- [REDACTED] gets into his presentations which helps me understand

Comments that which the students listed on the evaluations that refer to what could be improved included:

- More assignments
- More examples
- The only improvement needed is the time. I would like to see this class held on Monday, Wednesday, and Friday to fit my school days.
- More writing and reading during class
- Explain the lessons more
- More group projects
- If the class was a little more longer
- Spend a little more time on topics

- More actual work in an elementary school
- Maybe some smaller classes

Reflections on Professional Development Goals and Plans

Since his last evaluation, [REDACTED] has continued his involvement with learning communities, continued development of the TEAM Teach program and the 5C's (creative, cool, community college, camp), the Basic Skills Initiative Committee.

He has attended the Basic Skills (Student Success Conference) at Santa Barbara City College and the CSUF Liberal Studies Advisory Conference to improve his teaching practice in the classroom.

He has been able to develop his leadership and communication skills by developing, promoting, and coordinating a number of conferences and events on campus such as: Teach 2008, Teach 2009, 5C's Experience 2007-10, hosting and presenting at the CSUF Annual Liberal Studies Conference in the spring of 2009.

In addition, [REDACTED] has written the midterm and final reports for the CTE Teacher Preparation Pipeline grant and is responsible for implementing the goals and objectives for this grant.

He was also featured in the March 27, 2009 issue of the Chronicle of Higher Education. This issue focused on teachers who matter. The title of Mr. Preston's feature, "Finding Ways to Hook Students Early."

Finally, [REDACTED] is one of the chairs of the Standard II Accreditation Standard for the 2011 Self-Study.

His goals are:

- Continue to develop leadership and communication skills
- Improve teaching methodologies, specifically in the area of Basic Skills instruction
- Continue to write and research with the intent to publish materials in the area of education

To achieve these goals, his plans are to:

- Attend leadership conferences and continue to accept leadership assignments. He would like the opportunity to serve on an accreditation team

—

—

—

- Attend classes of other Basic Skills instructors and observe their teaching methodologies to improve his teaching of Basic Skills students
- Continue to write and research with the intent to publish materials in the area of education

To evaluate his successes in reaching the goals,

- Self-assessment and solicit feedback from peers and administration
- Analyze SLO results from courses and ask fellow faculty to come and observe and provide feedback during evaluation and non-evaluation cycles
- Continue to research publishing options- if granted a sabbatical, a successful book proposal will follow

Other Areas for Assessment in Addition to Classroom Observation

Campus Committee Involvement:

██████████ has been involved in the following committees- Academic Senate, Basic Skills Initiative Committee, Strategic Planning Committee, Team Teach, and the 5C's.

Learning Area Involvement:

██████████ is a member of the Arts and Letters Instructional Area. He is actively involved and attends all meetings.

Program Review

██████████ completed the program review for EDUC/EA.

Accreditation

██████████ currently serves as a tri-chair of Standard II of the Accreditation Self-Study. His area is Student Support Services.

Student Learning Outcomes/Assessments/Improvements

██████████ has written and assessed SLOs for the following courses- EA 55 (General Tutoring), Education 1 (Introduction to Teaching), and Education 5 (Critical Thinking in the Classroom).

5

1

2

3

4

Curriculum Development

██████████ has developed the curriculum for the Liberal Arts degree with emphasis in Elementary Education.

Outreach

In the area of outreach, ██████████ has presented at the Liberal Studies Conference, NCTE Conference, and has coordinated Teach 2008, Teach 2009, and the 5C's Experience.

Summary

██████████ is a tenured faculty member at West Hills College Lemoore. He is passionate, knowledgeable, sincere, and persistent in his work with the Basic Skills students and the Team Teach participants. He serves on various campus committees such as the Basic Skills Initiative Committee and Strategic Planning. He is actively involved in the Arts and Letters Instructional Area and Standard of the Accreditation Self-Study.

It is always a pleasure working with ██████████. He is one of the reasons why I consider the field of Education, my mission.

Recommendation

It is my recommendation that ██████████ remain on the current evaluation schedule, which is every three years.

West Hills College Lemoore
Office of Categorical Programs

Board Update

TO: Don Warkentin
FROM: Sylvia Robinson
RE: Board Update
DATE: October 15, 2010

- Student Services
On September 20th, Sylvia attended a New Matriculation Director's Training from the Systems Office in Sacramento
- Don and Sylvia have been meeting with our local high school principals to discuss ways we can assist them in helping their students reach their educational goals and stimulate a college going culture across the campus. Principals have been very receptive and eager to expand the partnerships.
- Sylvia, Mike Rodriguez, Tammy Larson, Angela Tos, Priscilla Balcazar, Susie Briones and America Bryant attended the Strengthening Student Success Conference in Costa mesa, October 6th -8th
- Plans are underway for a fall Wellness Day
- The October Eagle Lunch and Learn was very successful, there were 80 students referred and 40 who attended.
- The 2010 Eagle Outreach, an event held annually in the fall for special education students in our high schools, was successful. There were 30 special education students that attended from, Lemoore, with another date planned for our larger high schools.

INSTRUCTIONAL PROGRAM REVIEW

West Hills College Lemoore

I. General Information

- A. Instructional Program: _____
- B. List of Full Time Program Faculty and Staff:

II. Program Overview

- A. State the program mission. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. The program mission must align with the college's mission and goals. *(200 word limit)*
- B. List any recommendations from the most recent college/program/department accreditation and/or previous review. *(250 words or less)*
- C. Identify all personnel, including the number of certificated, classified professionals and volunteers.

Employee Classification:

Certificated _____ Classified Professional _____ Volunteer _____
Student Workers _____

Diversity (Race/Ethnicity)

- | | |
|---|--|
| <input type="checkbox"/> Native Am. /Alaskan Nat. | <input type="checkbox"/> African/African-American/Non-Hispanic |
| <input type="checkbox"/> Asian/Pacific Islander | <input type="checkbox"/> Caucasian/Non-Hispanic |
| <input type="checkbox"/> Hispanic | <input type="checkbox"/> Filipino |
| <input type="checkbox"/> Mixed | |

III. Qualitative and Quantitative Data Review

- A. Attach dashboard statistics here.
- B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific program. *(250 words or less)*
- C. Attach any other data maintained by your program or at the division level: (e.g. budget information regarding costs per program on personnel, equipment, supplies, delivery of services).
- D. What resources are required to maintain the program, and what additional resources are necessary to improve or expand it?

IV. Professional Development

- A. What professional development activities have faculty participated in? Have any of these professional development activities been technology related? Please specify.
- B. Relate how the professional development activities have improved student learning outcome attainment.
- C. Describe the program's plans for staff development over the next four years.

V. Curriculum and Student Learning Outcomes

- A. List your Instructional Program-Level Student Learning Outcomes.
 - 1. Have any Instructional Program-Level Student Learning Outcomes been changed from the completion of the previous program review? What are the changes? Attach documentation.
 - 2. Describe the assessment used to improve student learning. Cite a specific example.
- B. Explain how Instructional Program-Level Student Learning Outcomes are used to measure quality and success of this department/service area.
- C. Review course outlines and prerequisites. List all courses that apply to this program requiring a five-year course outline review.
 - 1. Describe the curriculum changes anticipated in the next two years. (These changes would include major course revisions, deletions, new courses, revised or new options within a program, or a proposed new program).
- D. To what extent is technology being used in the program?
- E. How does the program ensure that the current curriculum is adequately meeting the needs of the students?

VI. Career Technical Education Only

- A. Does your program result in providing licensing or certification to its program graduates which will enhance opportunities for employment? If yes, list.
- B. Discuss the opportunities available to students who plan to transfer to an institution of higher learning.
- C. Discuss the effectiveness of your program in terms of:
 - 1. Entry-level job placement as a result of training.

2. Effectiveness of continuing education to meet the need for advanced training and/or training in emerging technologies.
 3. State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).
 4. Comment on how the success rate compares to the success rate of the same program at other colleges in the region. *(250 words or less)*
- D. What would be the preferred sequence of courses to be taken to achieve your program's goal of a degree or certificate?
 - E. How does the program ensure that the current curriculum is adequately meeting the needs of students?
 - F. Excluding curriculum validation, discuss community involvement in the program.
 - G. List any special accreditations, external regulations, or advisory committees that have oversight to your program.
 - H. List any special regulations, space requirements, staff training, etc. required by your program.
 - I. List any program initiatives to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical, mental disabilities, re-entry, gender, etc.).
 - H. Discuss the program's use of external funding, including grants, if applicable.

VII. Summary and Recommendations

- A. Based on analysis of the information provided in Sections I through VI above, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.
 1. Program strengths:
 2. Areas that need improvement:
 3. Strategies and actions for program enhancement and improvement:
- B. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

NON-INSTRUCTIONAL PROGRAM REVIEW
West Hills College Lemoore

I. General Information

- A. Non-Instructional Program: _____
- B. List of Full Time Program Faculty and Staff:

II. Program Overview

- A. State the program mission. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. The program mission must align with the college's mission and goals. *(200 word limit)*
- B. List any recommendations from the most recent college/program/department accreditation and/or previous review. *(250 words or less)*
- C. Identify all personnel, including the number of certificated, classified professionals and volunteers.

Employee Classification:

Certificated _____ Classified Professional _____ Volunteer _____
Student Workers _____

| <input type="checkbox"/> Native Am. /Alaskan Nat. | <input type="checkbox"/> African/African-American/Non-Hispanic |
| <input type="checkbox"/> Asian/Pacific Islander | <input type="checkbox"/> Caucasian/Non-Hispanic |
| <input type="checkbox"/> Hispanic | <input type="checkbox"/> Filipino |
| <input type="checkbox"/> Mixed | |

III. Qualitative and Quantitative Data Review

- A. Attach dashboard statistics here.
- B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific course/program/service. *(250 words or less)*
- C. Attach any other data maintained by your program or at the division level: (e.g. budget information regarding costs per program on personnel, equipment, supplies, delivery of services)
- D. What resources are required to maintain the program, and what additional resources are necessary to improve or expand it?

IV. Professional Development

- A. What professional development activities have faculty participated in? Have any of these professional development activities been technology related? Please specify.
- B. Relate how the professional development activities have improved student learning outcome attainment.
- C. Describe the program's plans for staff development over the next four years.

V. Curriculum and Student Learning Outcomes

- A. List your Non-Instructional Program-Level Student Learning Outcomes.
 - 1. Have any Non-Instructional Program-Level Student Learning Outcomes been changed from the previous program review? What are the changes? Attach documentation.
 - 2. Describe the assessment used to improve student learning. Cite a specific example.
- B. Explain how Non-Instructional Program-Level Student Learning Outcomes are used to measure quality and success of this department/service area.
- C. To what extent is technology being used in the program?
- D. How does the program ensure that current delivery of service is adequately meeting the needs of students?
- E. State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).
- F. Comment on how the success rate compares to the success rate of the same program at other colleges in the region. *(250 words or less)*
- G. Excluding curriculum validation, discuss community involvement in the program.
- H. Do special accreditations, external regulations, or advisory committees regulate the program? Yes No (if yes, list)
- I. Does the program have any special regulations, space requirements, staff training, etc.? Yes No (if yes, elaborate)
- J. Is there evidence of unmet student needs in the program? Yes No (if yes, elaborate)

K. Describe the initiatives the program has implemented to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical, mental disabilities, re-entry, gender, etc.)

L. Discuss the program's use of external funding, including grants, if applicable.

VI. Summary and Recommendations

A. What actions have been taken to address the assessment and improvements of program learning outcomes?

B. Based on analysis of the information provided in I through VII, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.

1. Program strengths

2. Areas that need improvement

3. Strategies and actions for program enhancement and improvement.

C. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

Revised: 4/10

Assessment Grid

West Hills College Lemoore

Agenda

5:30-5:35	Welcome	Dr. Marlon Hall Assoc. Dean-Ed Services
5:35-5:55	Opening Remarks	Don Warkentin President Dave Bolt VP-Ed. Services Sylvia Dorsey-Robinson VP-Student Services
5:55-6:00	Athletics	Bob Clement Director of Athletics
6:00-6:25	Dinner/Keycards	
6:25-6:30	Veteran's Affairs	Susie Acheron Veteran's Advisor
6:30- 6:40	Important Procedures	Staff
6:40- 6:50	Waitlist	Kyle Crider
7:00- 8:30	SLO Introduction	David Babb

Breakout Sessions

Sessions: 7:15- 8:15

1. SLO Session(Art & Letters) (Room 278) Jacqui Shehorn
2. SLO Session(Science/Math) (Room 234) David Babb
3. SLO Session(CTE) (Room 235) Christian Raia
4. SLO Session (Social Sci/CD) (Room 236) Vera Kennedy

Board Policy 5505 Academic Honesty

Reference: *Education Code Sections 66300; 70902; and 76037*

The West Hills Community College District seeks to promote and ensure academic honesty and personal integrity among students and other members of the college community. All members of the college community are responsible for knowing the policy and procedures on academic honesty.

Academic honesty is vital to the very fabric and integrity of the district. All students must comply with an appropriate and sound academic honesty policy and code of honest behavior. All members of the college community are responsible for creating and maintaining an honest environment and all must work together to ensure the success of the policy and code of behavior.

Student Honor Code

All students agree to abide by the following student honor code by signing the admissions application, which provides:

"I will be academically honest in all of my academic work and will not take part in academic dishonesty of others."

Goals

The goals of this academic honesty policy are to:

- Foster a culture of academic honesty in the college community.
- Maintain the integrity and academic reputation of the colleges and district.
- Process fairly and consistently matters related to academic dishonesty.

Definitions

For purposes of this policy, the following definitions are used:

- "Academic Honesty" means performing all academic work without plagiarism, cheating, lying, tampering, stealing, or receiving unauthorized or illegitimate assistance from any other person.
- "Academic Dishonesty" means knowingly performing, attempting to perform, or assisting any other person in performing any academic work that does not meet the above standard of academic honesty.
- "Academic Work" means any act performed in connection with work required to be submitted, being prepared to be submitted, or actually submitted for academic advancement in connection with courses and programs offered by the college. Academic work includes,

Board Policy 5505
Academic Honesty

but is not limited to, examinations, exercises, quizzes, term papers, reports, performances, presentations, artwork, laboratory work, and scientific experiments. Academic work includes, but is not limited to, written and oral work presented or recorded in any media including magnetic or electronic. Academic work includes, but is not limited to, work in connection with regular college courses, whether conducted at an on campus or off campus location), independent study courses at any location, courses offered through the college's continuing education and distance learning program at any location.

- “Advisor” means an individual who assists a faculty member or student in preparing for an academic honesty review panel meeting. The Chief Instructional Officer (CIO), in cooperation with the Academic Senate, will provide a list of individuals available to serve as advisors by request.
- “Facilitator” means a student, faculty member, or staff member certified by the CIO to assist a faculty member and student in a fair and focused discussion during a “Facilitated Discussion”, or to moderate academic honesty review panel meetings. In the case of academic honesty review panel meetings, the facilitator is not a member of the academic honesty review panel, does not vote to determine whether a violation occurred, and does not participate in the private deliberations of the panel. The facilitator is authorized to determine all procedural questions prior to and during discussions or meetings with academic honesty review panels.
- “Panelist” means any student and faculty member appointed by the Academic Senate President to serve on an academic honesty review panel. All panelists must be acknowledged by the CIO as qualified and willing to serve. All panelists must have received a copy of the Academic Honesty policy and procedure. Faculty panelists must be tenured or tenure-track. Student panelists must be currently enrolled at the college.
- “Academic Honesty Review Panel” means any group of panelists designated by the CIO and the Academic Senate President to review a particular accusation of academic dishonesty. There shall be three faculty (Academic Senate President or designee; one faculty member from discipline or closely aligned discipline in which the alleged infraction occurred; and one faculty member as determined by the Academic Senate President and the CIO); the Dean over the discipline or a designee; and one student panelist (as determined by the Academic Senate President or designee and the CIO) on each panel.
- “Chair” means a member of each academic honesty review panel selected by the panel as the presiding officer for that panel's private deliberations.
- “Day” means any calendar day in which the college operates, excluding Saturdays, Sundays and district holidays. When a certain act must be completed within a certain number of days following a specified beginning date, the beginning date shall be excluded in computing the due date.
- “Faculty member” means any member of the West Hills Community College District approved to instruct or monitor instruction of students.

- “Suspension” means a defined term in which a student is excluded from enrollment at the college. A consequence of suspension is that any classes successfully completed by the suspended student at another school or college during the period of suspension will not be credited toward a West Hills College degree or calculated in the student's overall GPA.
- “Expulsion” means permanent separation of the student from the District.

Prohibited Conduct

No student shall knowingly perform, attempt to perform, or assist another in performing any act of dishonesty in or related to academic work to be submitted for academic credit or advancement. The term "knowingly", as used in the preceding sentence, means that the student knows the dishonest nature of the conduct, and that the academic work involved will be submitted for academic credit or advancement. "Knowingly" does not mean that the student must have known that the particular act was a violation of the district's academic credit or honesty policy. A student does not have to intend to violate the honesty policy to be found in violation. For example, plagiarism – intended or unintended – is a violation of this policy. Any behavior that constitutes academic dishonesty is prohibited even if it is not specifically mentioned in the list of examples below.

Examples of Academic Dishonesty

The following acts by a student are examples of academically dishonest behavior:

- Plagiarism – Submission for academic advancement the words, ideas, opinions or theories of another without appropriate attribution to that other person. Plagiarism includes, but is not limited to, the following acts when performed without appropriate attribution:
 - Directly quoting all or part of another person's written or spoken words without quotation marks or other means, as appropriate to the discipline;
 - Paraphrasing all or part of another person's written or spoken words without notes or documentation within the body of the work indicating so;
 - Presenting an idea, theory or formula originated by another person as the original work of the person submitting that work;
 - Repeating information in academic work, such as statistics or demographics, which is not common knowledge and which was originally compiled by another person;
 - Purchasing (or receiving in any other manner) a term paper or other assignment that is the work of another person and submitting that term paper or other assignment as the student's own work.
- Unauthorized assistance – Giving or receiving assistance in connection with any examination or other academic work such that the resulting work product is not that of the student. During examinations, quizzes, lab work and similar activity, students are to assume that any assistance (such as books, notes, calculators, and conversations with others) is unauthorized unless it has been specifically authorized by a faculty member. Examples of prohibited behavior include, but are not limited to, the following when not authorized:

- Copying, or allowing another to copy, answers to an examination;
 - Transmitting or receiving, during an examination, information that is within the scope of the material to be covered by that examination (including transmission orally, in writing, by sign, electronic signal, or other manner);
 - Giving or receiving answers to an examination scheduled for a later time;
 - Completing for another, or allowing another to complete for you, all or part of an assignment (such as a paper, exercise, homework assignment, presentation, report, computer application, laboratory experiment, or computation);
 - Submitting a group assignment, or allowing that assignment to be submitted, representing that the project is the work of all of the members of the group when less than all of the group members assisted substantially in its preparation;
 - Unauthorized use of a programmable calculator or other electronic device.
- Lying/Tampering/Bribery – Bribery or an attempt to bribe a college official or employee is prohibited conduct under this policy. Lying includes, but is not limited to:
 - Providing false information in connection with the performance of any academic work or in connection with any proceeding under this policy.
 - Giving false reasons (in advance or after the fact) for failure to complete academic work. This includes, for example, giving false excuses to the faculty member or to any college official for failure to attend an exam or to complete academic work;
 - Falsifying the results of any laboratory or experimental work or fabricating any data or information;
 - Altering any academic work after it has been submitted, unless such alterations are part of an assignment (such as a request of an instructor to revise the academic work);
 - Altering grade, lab, or attendance records. This includes, for example, the forgery of university forms for registration in or withdrawal from a course;
 - Damaging computer equipment (including disks) or laboratory equipment in order to alter or prevent the evaluation of academic work, unauthorized use of another's computer password, disrupting the content or accessibility of an Internet site, or impersonating another to obtain computer resources;
 - Giving false information or testimony in connection with any investigation or hearing under this policy;
 - Submitting for academic advancement an item of academic work that has previously been submitted (even when submitted previously by that student) for academic advancement, unless done pursuant to authorization from the faculty member supervising the work or containing fair attribution to the original work.
- Theft – Stealing, taking or procuring in any other unauthorized manner (such as by physical removal from an instructor's office or unauthorized inspection of computerized material) information related to any academic work (such as exams, grade records, forms used in grading, books, papers, computer equipment and data, and laboratory materials and data).

Board Policy 5505
Academic Honesty

- Other – Failure by a student to comply with a duty imposed under this policy. However, no penalty is imposed under this policy for failure to report an act of academic dishonesty by another or failure to testify in an academic honesty proceeding concerning another.

Any behavior that constitutes academic dishonesty is prohibited even if it is not specifically mentioned in the above list of examples.

Required Conduct of Members of the College Community

Any member of the college community who has personal knowledge of facts relating to an alleged violation of this policy has a responsibility to report that alleged violation to the CIO as provided in this policy.

Required conduct includes, but is not limited to, participating in a discussion with the student believed to have violated the policy and truthfully answering questions and providing documentation of the matter to the Academic Senate President and CIO of the college.

Faculty have a responsibility to report alleged violations to the CIO as provided in this policy. Faculty shall have the responsibility to take reasonable steps to inform students of the academic honesty rules that apply to particular academic work and the specific types of academic assistance that are permissible in connection with that academic work. Additionally, each faculty member shall take reasonable steps to foster a climate of academic honesty. The failure of a faculty member to meet these responsibilities shall not be a defense to an accusation of academic dishonesty against a student.

The enrollment of a student at the college constitutes the student's agreement to be bound by this policy. Every student has an obligation to be informed concerning the terms of this policy. Lack of knowledge of the provisions of this policy is not an acceptable response to an accusation of violating this policy. Any discipline of a member of the college community, other than a student, for violation of this policy shall proceed under policies of the district applicable to faculty and staff conduct.

Board approval: 6/27/06

West Hills College

**BUS 35: Human Resource Management
Course Syllabus
Fall 2010 Semester**

Course Name and Number:	BUS -35 LO1 Human Resource Management
Semester Credit Hours:	3.0 Units
Textbook (Required):	<i>Managing Human Resources:</i> G. Bohlander & S. Snell, 15 th ed. (2010)
Prerequisites:	ENG 101B (or equivalent) is recommended
Resource List:	Must have access to computer and Internet.
Instructor: Office Hours: Voicemail: Email:	Jennifer Kelso, MBA By arrangement 720-308-6337 or 559-423-5660 jenniferkelso@whccd.edu or jenn.kelso@comcast.net
Class Schedule:	Monday & Wednesday: 7:00 p.m. – 10:00 p.m. August 19 – December 16 th
Location/Room number:	WHC Lemoore – Room 712

Catalog Description of this Course:

BUS 35 emphasizes the importance of dealing successfully with people both in “on-the-job” situations and in other contacts through the study of positive and preventative aspects of personnel management systems, organizational behavior, leadership and supervision, and related topics. (AA, CSU)

Instructional Objectives:

Upon completion of this course the student will be able to:

- Define Human Resource Management
- Identify the basic processes in HRM (Human Resource Management)
- Describe the relationship between the HRM Department and other units within the organization
- Cite key legislation affecting labor-management relations
- Describe some of the worldwide changes that are affecting the HRM environment
- Describe how downsizing and mergers relate to the changing social contract
- Identify several changes in job and work design
- Identify a number of implications of the change in proportion of women, minorities, and age groups in the work force
- List the seven categories of protected classes
- Describe at least three federal laws that are aimed at combating discrimination
- Identify the role of HRM in the development of effective work groups
- Describe the outcomes that can be used to measure organizational performance
- Define HR planning and how it is related to the overall strategic plan of the organization

West Hills College

Instructional Objectives cont.

- Define job design and how to establish job content
- List the purposes of job analysis
- Define performance standards and how they are used/developed
- Describe the role of HRM in managing work rules and schedules
- Describe the procedures commonly used for making promotion/demotion/termination decisions
- Outline some of the options organizations have for avoiding layoffs
- Define training and outline the steps involved in establishing a training program in an organization

Student Learning Objectives

- 1.) Students will identify or describe the functions of human resource management and demonstrate an understanding of human resource issues.
- 2.) Student will analyze and identify possible resolutions to applied issues in human resources.
- 3.) Student will be able to identify, analyze, explain, and apply the federal, state, and local laws governing Human Resource Management.
- 4.) Student will be able to define human resource terms including but not limited to skills inventory, succession planning, and replacement chart, job analysis, job description, and job specification.

Course Content and Scope

1. The Challenge of Human Resource Management
2. Strategy and Human Resource Planning
3. Equal Employment Opportunity and Human Resource Management
4. Job Analysis, Employee Involvement, and Flexible Work Schedules
5. Expanding the Talent Pool: Recruitment and Careers
6. Employee Selection
7. Training and Development
8. Appraising and Improving Performance
9. Managing Compensation
10. Pay-for-Performance: Incentive Rewards
11. Employee Benefits
12. Promoting Safety and Health
13. Employee Rights and Discipline
14. The Dynamics of Labor Relations
15. International Human Resources Management
16. Creating High-Performance Work Systems

Learning Experience Designed to Achieve Goals and Objectives

1. Individual / Group Activities
2. Audio / Visual
3. Textbook Activities / Case Studies
4. Web exercises and research
5. Lectures/Class Discussion

Methods of Evaluation

1. Essay and Objective Exams
2. Homework Assignments
3. Participation: Class Discussion / Class Activities
4. Application of learned knowledge through the use of business Case Studies
5. Written Assignments

West Hills College

Grade Weight and Grading Criteria (1000 points)		
Assigned Homework (8)	20%	200 points
Research Paper (1)	20%	200 points
Class Participation	10%	100 points
Case Studies (8)	20%	200 points
Midterm Exam	15%	150 points
Final Exam	15%	150 points
Total Score / Points	100%	1000 points

Grading Policy			
A	90-100%	Excellent	4 points
B	80- 89%	Good	3 points
C	70- 79%	Satisfactory	2 points
D	60- 69%	Passing, less than satisfactory	1 point
F	0- 59%	Fail	0 points

Homework = 200 Points
<p>There will be eight (8) Homework Assignments. Each homework assignment is worth 25 points totaling 200 points and 20% of your final grade.</p> <p>The homework is intended to reinforce the material that you have read and discussed in class. Homework will be used to demonstrate student's knowledge of human resource concepts and proficiency in applying methodologies.</p> <p>Homework assignments should address all aspects of the assignment (answer all questions) and include adequate detail. Students must support their thoughts with content from the textbook/assigned readings and/or outside research. Students must also include their own opinion and critical thought when requested. As a rule of thumb, I expect at least one paragraph (3-6 sentences) for each assigned homework question.</p> <p>Assignments should present a professional, neat appearance. Answers to Homework questions should be numbered and written in paragraph form. Some Homework assignments will require outside research either via the use of resources available at the library and/or online. Please remember to provide references/citations if using information obtained from an outside source (<i>see syllabus section entitled Helpful Websites for more information on referencing your work</i>). <i>As always, please contact me if you have any questions.</i></p> <p><u>See Course Outline for Assigned Homework and Due Dates.</u></p>

West Hills College

Case Studies = 200 points

There will be eight Case Study assignments. Each assigned Case Study is worth 25 points totaling 200 points and worth 20% of your final grade.

Case Studies will give you the opportunity to identify relevant human resource facts, identify critical issues and problems, apply HR concepts presented in the text and classroom discussion, generate alternative solutions, and select an appropriate course of action. The Case Studies should demonstrate creative and critical thinking.

Students are expected to read the Case Study and answer each question that follows. As a rule of thumb, I am expecting at least one paragraph (3-6 sentences) to answer each question within the Case Study. *Case Studies cont...*

Studies are to be written in long answer/paragraph format and should present a professional, neat appearance. Answers will vary and may include associated textbook content and outside research as support. If you use an outside resource as evidence or to support your thoughts, please be sure to include a reference. Most importantly, I am looking for students to demonstrate a level of critical thought.

Please remember to provide references/citations if using information obtained from an outside source (*see syllabus section entitled Helpful Websites for more information on referencing your work*)

See Course Outline for Assigned Case Studies and Due Dates.

Research Paper (1) = 200 points

There is one Research Paper worth 200 points equaling 20% of your final grade.

Due Date: December 02, 2010

Formatting:

You will be supplied with a handout that outlines the formatting requirements for your papers which are to be submitted in either APA or MLA format and must be typed and include a title page, reference page, double-spacing, headings, and introductory and concluding paragraphs.

Research:

Outside research is required (at least three sources referenced and cited appropriately). Students can also refer to associated textbook content.

Length:

The minimum length requirement is 5 pages. This is the body of the document and does not include title page, outline (optional), and reference page. Papers are to be typed in Times New Roman, 12 point font size. The maximum length is 8 pages.

Topics:

We will discuss possible topics in class.

****Please let me know if you have any questions. I'm here to help if needed. We will discuss these papers in greater detail in class.**

Participation = 100 points

Just as lectures/discussion and class activities extend your understanding of your new skills and knowledge, participation also enhances the learning experience. I prefer to call the lecture segment of the course a discussion. I encourage all students to actively contribute to discussion, share specific examples,

West Hills College

share articles relating to current events in business, or other material relating to the course content.

You will also be given opportunities to participate via class activities that will be randomly assigned and completed in class. In my experience, a student's overall learning experience, including the ability to retain course concepts, is enhanced when given the opportunity to discuss and apply course topics as a group. With that, group activities will liven up our class period as we explore, debate, and create human resource tactics and strategies. Business teams are becoming more prevalent in the ever competitive world of business. As a business leader, project manager, or human resource manager you must be able to work effectively as a team member. So, let's practice! Students will be given time in class to prepare and work with their teams. Participation is worth 10% of your final grade.

Thank you, in advance, for your participation!

Exams = 300 points

- | | | |
|-----------------|------------|---|
| ○ Midterm Exam: | 150 points | Date of exam: November 16, 2009. |
| ○ Final Exam: | 150 points | Date of exam: December 16, 2010. |

Both the Midterm and Final Exams will consist of Multiple Choice, True and False, Fill-in the Blank, and Essay Questions. Each exam is worth 15% of your final grade.

Make-Up Policy

All due dates are listed in the Course Outline. All assignments should be submitted upon arriving to class. In order to achieve the course objectives, you will need to miss no assignments. Remember, communication is the key to your success. Please don't hesitate to contact me with any concerns so that we can address any difficulties that you may be having with the material.

If you know that you are going to be absent you may submit homework assignments, case studies, or writing assignments early either in class or students may submit work to me via email (as an attachment) to jenniferkelso@whccd.edu.

Late Homework and Case Studies: Students are allowed one (1) late assignment with no late penalties. No other late work will be accepted for credit. I will accept your one late assignment in class or submitted as an attachment via email (jenniferkelso@whccd.edu). I encourage you to stay current with the Course Outline, keep organized, and be proactive. Assignments submitted after the due dates are considered late. If you are absent, please email me your assignment on or before the day it is due. Thank you for your attention to this.

Missed Exams: If a student must be absent on the day of the midterm or final exam, the student must make arrangements to take the examination before the next class period. Examinations taken late are subject to a 10% reduction from the points possible.

Late Writing Assignments: Late Writing Assignments will NOT be accepted. I must receive your Writing Assignments on or before the due date to receive credit.

Attendance Policy

Attendance is very important due to the format of this course. A great deal of information is covered in one class period. Lectures/Discussion and class activities extend your understanding and application of your new skills and knowledge. If you miss a class meeting, you are responsible for the material missed

West Hills College

in your absence. You are also expected to submit any homework that is due on the date of your absence via email. Please remember to refer to your Course Outline and review the reading and homework assignments. Ultimately, you are responsible for the content covered during your absence. The class will begin on time, and you are expected to be on time. Attendance will be taken at the beginning of the class.

Students are allowed three absences. Please plan accordingly. Students may be dropped from the course upon the fourth absence. If unusual circumstances prevent the student from attending, he/she should notify the instructor, his/her advisor, and the Admissions and Records Office. Students who do not attend the first class meeting may be dropped by the instructor as a no-show. If you are considering withdrawing from the course, please see me first so that we may discuss your situation. Ultimately, it is the student's responsibility to ensure that they are dropped from the course. No person may attend or participate in the class without being properly enrolled.

General Classroom Policies

Food and Drinks: Students may have a water container with a screw top. No other food or drink is permitted in the classroom or lab.

Trash: Please utilize the trash receptacles.

Cellular Phones / iPods: Cell phones and other technology are valuable tools when used at appropriate times and places. You are expected to have your phone off in class, just as in any other professional meeting. Please use break times for making phone calls, texting, or listening to music. Thank you in advance for your professionalism.

Extra Credit Opportunities

Due 12/14/09: 5 points – Show me your WHC library card.

Due 12/14/09: 10 points – Take Eureka test at Career Center. Print results and share with me.

Due 12/14/09: 10 points – Attend a seminar, event, or workshop at the Career Center. Bring proof of attendance.

Due 12/14/09: 5 points – Participate in a Student Organization Event. Bring proof of attendance.

Due 12/14/09: 5 points – Bring in any article (web, newspaper, magazine) or journal relating to current trends in business. Article to be shared with the class.

Academic Honesty

All students are expected to abide by the academic honesty policies of West Hills College as noted in the college catalog and the college website. There is a zero tolerance policy for cheating and/or plagiarism.

Professional Behavior

Professional behavior is expected of all students. You are expected to abide by the code of conduct, ethical behavior, and other rules/regulations as noted in the college catalog.

Students with Disabilities

Please see instructor so that we can discuss your situation and the resources available to you.

Note from Instructor

Welcome to Human Resource Management!

Congratulations on making the decision to learn more about the world of business!! Human Resource Management is an exciting topic. It's innovative, creative, organized, strategic, and constantly changing and improving!!

In addition to creating an enjoyable, professional, respectful, and fun learning atmosphere, my goal is to guide you through the basic principles of human resource management so that you will leave this class with an understanding of the essential concepts of this fundamental area of business. I will also share current events relating to the world of business and topics of discussion and encourage you to do so as well.

I am asking everyone to stay caught up with this class. Since a significant part of the learning in this class is expected to come from shared discussions, lecture, and the associated textbook content, we all need to be on the same page. Attendance, participation, and submitting work in a timely manner will ensure your success! Please plan ahead, and let me know in advance if you anticipate any difficulties with the schedule. If you are considering withdrawing from the course, please see me first so that we may discuss your situation. I am here to help you succeed!!

I look forward to discussing and exploring this subject with you. Here's to an enjoyable and fruitful semester....

Welcome!

Homework will be used to demonstrate student's knowledge of human resource concepts and proficiency in applying methodologies.</p> <p>Homework assignments should address all aspects of the assignment (answer all questions) and include adequate detail. Students must support their thoughts with content from the textbook/assigned readings and/or outside research. Students must also include their own opinion and critical thought when requested. As a rule of thumb, I expect at least one paragraph (3-6 sentences) for each assigned homework question.</p> <p>Assignments should present a professional, neat appearance. Answers to Homework questions should be numbered and written in paragraph form. Some Homework assignments will require outside research either via the use of resources available at the library and/or online. Please remember to provide references/citations if using information obtained from an outside source (<i>see syllabus section entitled Helpful Websites for more information on referencing your work</i>). <i>As always, please contact me if you have any questions.</i></p> <p><u>See Course Outline for Assigned Homework and Due Dates.</u></p>

West Hills College

Case Studies = 200 points

There will be eight Case Study assignments. Each assigned Case Study is worth 25 points totaling 200 points and worth 20% of your final grade.

Case Studies will give you the opportunity to identify relevant human resource facts, identify critical issues and problems, apply HR concepts presented in the text and classroom discussion, generate alternative solutions, and select an appropriate course of action. The Case Studies should demonstrate creative and critical thinking.

Students are expected to read the Case Study and answer each question that follows. As a rule of thumb, I am expecting at least one paragraph (3-6 sentences) to answer each question within the Case Study. *Case Studies cont...*

Studies are to be written in long answer/paragraph format and should present a professional, neat appearance. Answers will vary and may include associated textbook content and outside research as support. If you use an outside resource as evidence or to support your thoughts, please be sure to include a reference. Most importantly, I am looking for students to demonstrate a level of critical thought.

Please remember to provide references/citations if using information obtained from an outside source (*see syllabus section entitled Helpful Websites for more information on referencing your work*)

See Course Outline for Assigned Case Studies and Due Dates.

Research Paper (1) = 200 points

There is one Research Paper worth 200 points equaling 20% of your final grade.

Due Date: December 02, 2010

Formatting:

You will be supplied with a handout that outlines the formatting requirements for your papers which are to be submitted in either APA or MLA format and must be typed and include a title page, reference page, double-spacing, headings, and introductory and concluding paragraphs.

Research:

Outside research is required (at least three sources referenced and cited appropriately). Students can also refer to associated textbook content.

Length:

The minimum length requirement is 5 pages. This is the body of the document and does not include title page, outline (optional), and reference page. Papers are to be typed in Times New Roman, 12 point font size. The maximum length is 8 pages.

Topics:

We will discuss possible topics in class.

****Please let me know if you have any questions. I'm here to help if needed. We will discuss these papers in greater detail in class.**

Participation = 100 points

Just as lectures/discussion and class activities extend your understanding of your new skills and knowledge, participation also enhances the learning experience. I prefer to call the lecture segment of the course a discussion. I encourage all students to actively contribute to discussion, share specific examples,

West Hills College

share articles relating to current events in business, or other material relating to the course content.

You will also be given opportunities to participate via class activities that will be randomly assigned and completed in class. In my experience, a student's overall learning experience, including the ability to retain course concepts, is enhanced when given the opportunity to discuss and apply course topics as a group. With that, group activities will liven up our class period as we explore, debate, and create human resource tactics and strategies. Business teams are becoming more prevalent in the ever competitive world of business. As a business leader, project manager, or human resource manager you must be able to work effectively as a team member. So, let's practice! Students will be given time in class to prepare and work with their teams. Participation is worth 10% of your final grade.

Thank you, in advance, for your participation!

Exams = 300 points

- Midterm Exam: 150 points Date of exam: **November 16, 2009.**
- Final Exam: 150 points Date of exam: **December 16, 2010.**

Both the Midterm and Final Exams will consist of Multiple Choice, True and False, Fill-in the Blank, and Essay Questions. Each exam is worth 15% of your final grade.

Make-Up Policy

All due dates are listed in the Course Outline. All assignments should be submitted upon arriving to class. In order to achieve the course objectives, you will need to miss no assignments. Remember, communication is the key to your success. Please don't hesitate to contact me with any concerns so that we can address any difficulties that you may be having with the material.

If you know that you are going to be absent you may submit homework assignments, case studies, or writing assignments early either in class or students may submit work to me via email (as an attachment) to jenniferkelso@whccd.edu.

Late Homework and Case Studies: Students are allowed one (1) late assignment with no late penalties. No other late work will be accepted for credit. I will accept your one late assignment in class or submitted as an attachment via email (jenniferkelso@whccd.edu). I encourage you to stay current with the Course Outline, keep organized, and be proactive. Assignments submitted after the due dates are considered late. If you are absent, please email me your assignment on or before the day it is due. Thank you for your attention to this.

Missed Exams: If a student must be absent on the day of the midterm or final exam, the student must make arrangements to take the examination before the next class period. Examinations taken late are subject to a 10% reduction from the points possible.

Late Writing Assignments: Late Writing Assignments will NOT be accepted. I must receive your Writing Assignments on or before the due date to receive credit.

Attendance Policy

Attendance is very important due to the format of this course. A great deal of information is covered in one class period. Lectures/Discussion and class activities extend your understanding and application of your new skills and knowledge. If you miss a class meeting, you are responsible for the material missed

West Hills College

in your absence. You are also expected to submit any homework that is due on the date of your absence via email. Please remember to refer to your Course Outline and review the reading and homework assignments. Ultimately, you are responsible for the content covered during your absence. The class will begin on time, and you are expected to be on time. Attendance will be taken at the beginning of the class.

Students are allowed three absences. Please plan accordingly. Students may be dropped from the course upon the fourth absence. If unusual circumstances prevent the student from attending, he/she should notify the instructor, his/her advisor, and the Admissions and Records Office. Students who do not attend the first class meeting may be dropped by the instructor as a no-show. If you are considering withdrawing from the course, please see me first so that we may discuss your situation. Ultimately, it is the student's responsibility to ensure that they are dropped from the course. No person may attend or participate in the class without being properly enrolled.

General Classroom Policies

Food and Drinks: Students may have a water container with a screw top. No other food or drink is permitted in the classroom or lab.

Trash: Please utilize the trash receptacles.

Cellular Phones / iPods: Cell phones and other technology are valuable tools when used at appropriate times and places. You are expected to have your phone off in class, just as in any other professional meeting. Please use break times for making phone calls, texting, or listening to music. Thank you in advance for your professionalism.

Extra Credit Opportunities

Due 12/14/09: 5 points – Show me your WHC library card.

Due 12/14/09: 10 points – Take Eureka test at Career Center. Print results and share with me.

Due 12/14/09: 10 points – Attend a seminar, event, or workshop at the Career Center. Bring proof of attendance.

Due 12/14/09: 5 points – Participate in a Student Organization Event. Bring proof of attendance.

Due 12/14/09: 5 points – Bring in any article (web, newspaper, magazine) or journal relating to current trends in business. Article to be shared with the class.

Academic Honesty

All students are expected to abide by the academic honesty policies of West Hills College as noted in the college catalog and the college website. There is a zero tolerance policy for cheating and/or plagiarism.

Professional Behavior

Professional behavior is expected of all students. You are expected to abide by the code of conduct, ethical behavior, and other rules/regulations as noted in the college catalog.

Students with Disabilities

Please see instructor so that we can discuss your situation and the resources available to you.

Note from Instructor

Welcome to Human Resource Management!

Congratulations on making the decision to learn more about the world of business!! Human Resource Management is an exciting topic. It's innovative, creative, organized, strategic, and constantly changing and improving!!

In addition to creating an enjoyable, professional, respectful, and fun learning atmosphere, my goal is to guide you through the basic principles of human resource management so that you will leave this class with an understanding of the essential concepts of this fundamental area of business. I will also share current events relating to the world of business and topics of discussion and encourage you to do so as well.

I am asking everyone to stay caught up with this class. Since a significant part of the learning in this class is expected to come from shared discussions, lecture, and the associated textbook content, we all need to be on the same page. Attendance, participation, and submitting work in a timely manner will ensure your success! Please plan ahead, and let me know in advance if you anticipate any difficulties with the schedule. If you are considering withdrawing from the course, please see me first so that we may discuss your situation. I am here to help you succeed!!

I look forward to discussing and exploring this subject with you. Here's to an enjoyable and fruitful semester....

Welcome!

AOJ 29 CRIMINOLOGY SYLLABUS

- SEMESTER:** Spring 2010
- INSTRUCTOR:** Larry Orth, Chief District Attorney Investigator (Retired),
Kings County District Attorney's Office.
E-mail address: lsorth@sbeglobal.net
West Hills E-mail address: larryorth@whccd.edu
Cell Phone: 816-2733
- DATE/TIMES:** 7:00 to 10:00 P.M.
- LOCATION:** NAS Lemoore Campus
- ROOM NUMBER:**
- TEXTBOOK:** Criminology, Tenth Edition, Larry J. Siegel

COURSE DESCRIPTION

Structured to examine classical & contemporary criminological theories, this course allows students to explore the origins of criminal behavior and to apply criminological knowledge to the diversity of crime as it exists today. This course is further designed to dispel crime myths and to provide and instill students with a well-informed and critical understanding of crime as a social phenomenon with historical underpinnings within the evolving context of society and knowledge. Beyond criminology's evolutionary considerations and in keeping with socially relevant and policy-oriented perspectives, analysis and discussion regarding crime causation, strategies and purposes of crime measurement, new and future trends in crime and crime control, and the operation of the criminal justice system will be examined.

COURSE OBJECTIVES:

- Develop an informed understanding regarding the causes of crime and deviance in society and society's responses to criminal and deviant.
- Develop an informed understanding related to how societal and legal changes have affected crime causation and how these factors have been interconnected throughout society's history.
- Refine analytical, reasoning, and connective abilities...learning to see the forest and the trees – plus how each aspect of the forest (each theory and/or social variable) is connected and interdependent.
- Develop a theoretical knowledge base regarding crime and crime's role in society, which is necessary for students' future course, field, and professional work.

- Develop a positive attitude toward the study of theory & theory's role in understanding social processes and policy formation...to get you interested and excited about how theory works and how it is applied.

STUDENT LEARNING OUTCOMES

The student will identify the basic principles of classical criminology, and positivism.

The student will identify the roles of the criminologist in the study of crime.

The student will identify the basic principles of physiognomy and phrenology.

The student will compare and contrast the arguments in the nature versus nurture theories of criminality.

COURSE REQUIREMENTS

ATTENDANCE:

Students will be allowed no more than four absences. Any further absences could be cause for the student to be dropped from the course. You are expected to attend class regularly. It's the only way you can learn the material. When necessarily absent, it is your responsibility to get the notes for the class missed from another student. I will not hand out copies of outlines, lend videos watched in class, etc.

Cheating and Plagiarism:

Cheating. Cheating is the practice of fraudulent and deceptive acts for the purpose of improving a grade or obtaining course credit. Typically, such acts occur in relation to examinations. It is the intent of this definition that the term "cheating" not be limited to examination situations only, but that it includes any and all actions by a student which are intended to gain an unearned academic advantage by fraudulent and deceptive means. Cheating will generate a zero for the assignment involved.

Plagiarism. Plagiarism is a specific form of cheating which consists of the misuse of the published and/or unpublished works of another by reprinting the material so used, as one's own work. Plagiarism will result in the total points for the lowest paper being halved and divided between any two students. Thus, a paper obtaining 70 points, but representing plagiarized works, would give each student involved 35 points for the assignment.

MAKEUP POLICY

Make-up Mid-term exam will only be given to those students who notify me and receive an excused absence for the exam day. The make-up exam will be given on an arranged date and time.

COURSE FORMAT

Class sessions will consist of lectures, films, group discussions and other activities.

- Lectures are intended to supplement, not reiterate the text
- Audio/visual presentations
- Participation in class activities is required

OTHER IMPORTANT INFORMATION

- Cell phones will be turned off in class.
- Electronic listening or recording devices may not be used without prior consent of instructor.
- All textbook/class materials are your responsibility to obtain.
- Handouts will be available in class.
- Quizzes/exams will be open notes/dictionary.
- Final exam/project must be completed at time indicated on schedule of assignments.

ASSIGNMENTS

There will be an assignment for each chapter is worth 50 points. This Assignment consists of 10 questions worth 5 points for each question or a total of 50 points. There are 18 chapters, which equals a total of 900 points.

The student is responsible for completing all assignments, which including the reading of the textbook, handouts and all outside assignments. Assignments will be turned in on time or loss points from that assignment may occur.

EXERCISES:

There will be exercises in this class which are not graded, but count toward your final grade in the category of participation.

EXTRA CREDIT

Any student wishing to do extra work to enhance their grade may do so. These assignments are on a limited basis at the discretion of the instructor. If you wish to due extra credit you must contact the instructor for a subject matter. Each assignment is worth fifty (50) points. Each student will be limited to two extra credit papers.

FACE PAGE:

Name of course, Date of course (Spring 2008), title of paper, student's name, and Instructor's name. Center this information is preferred.

CONTENT:

Five typed written pages, double spaced. Graphs, charts, photos, depictions, etc., will not count as content, however should be included if needed to enhance content. The student should have the proof read the paper prior to turning in paper.

REFERENCES:

Students shall have published sources in a bibliography page, which shall be the last page of the paper and not counted as content. If your sources are from the Internet, you must list the website address. Under no circumstances will you be permitted to copy verbatim from reference material. This is your work not someone else's.

EXAMINATIONS:

There will be a total of a mid-term and a final examination. Each of these exams will cover the text and lecture, films, slide programs covered since the last exam.

Examination Dates:

Mid-Term: November 18, 2010 The Mid-term exam will encompass chapters 1-9 in the textbook, handout material and lecture. **NECESSARY MODIFICATIONS TO THE ABOVE SCHEDULE WILL BE ANNOUNCED IN CLASS.**

Final Exam: December 16, 2010 The final exam will encompass chapters 10-18 in the textbook, handout material and lecture. **NECESSARY MODIFICATIONS TO THE ABOVE SCHEDULE WILL BE ANNOUNCED IN CLASS.**

MID-TERM:

A mid-term examination may consist of multiple choice, true and false questions, fill-in and/or essay questions. This examination will be worth 100 points towards the semester total grade.

FINAL:

A final examination may consist of multiple choice, true and false, fill-in and/or essay questions. This examination will be worth 100 points toward the semester total grade points.

GRADING

Grading will be on a cumulative points system as follows:

Assignments	900 points
Mid Term Examination...	100 points
Final Examination...	<u>100</u> points
Total...	1100 points
1100 – 985	A
984 – 875	B
875 – 765	C
764 – 655	D
654 – 0	F

WARNING!

Some materials utilized in the presentation of this course, including but not limited to film, video, slides, Power Point Presentations and printed photographs may be quite graphic, as is the nature of the Criminal System.

A Final Word about Learning Criminal Justice

Without exaggeration, this course is extremely important for anyone living in the United States. All private citizens should have at least a basic understanding of the criminal justice system that is not distorted by media hype or misconception. If you are planning a criminal justice career, you will find that this course provides necessary information for learning about the system, understanding why the system operates in the way it does, and deciding which criminal justice career would be best for you.

There are two important things to keep in mind while you take this course:

You are responsible for your learning and for helping yourself and your classmates. The instructor cannot fill passive students with knowledge or with a single right answer.

There are several right answers to many criminal justice issues, especially controversial ones such as the death penalty, three-strikes laws, and the role of rehabilitation.

Learning in this course is based upon cooperation and experience. You are expected to participate in class discussions and exercises, and to apply the concepts to your own experiences.

"If you have a verified need for an academic accommodation or materials in alternate media (i.e. Braille, large print, electronic text, etc.) per the Americans With Disabilities Act or Section 504 of the Rehabilitation Act, please contact your instructor as soon as possible."

Name of course, Date of course (Spring 2008), title of paper, student's name, and Instructor's name. Center this information is preferred.

CONTENT:

Five typed written pages, double spaced. Graphs, charts, photos, depictions, etc., will not count as content, however should be included if needed to enhance content. The student should have the proof read the paper prior to turning in paper.

REFERENCES:

Students shall have published sources in a bibliography page, which shall be the last page of the paper and not counted as content. If your sources are from the Internet, you must list the website address. Under no circumstances will you be permitted to copy verbatim from reference material. This is your work not someone else's.

EXAMINATIONS:

There will be a total of a mid-term and a final examination. Each of these exams will cover the text and lecture, films, slide programs covered since the last exam.

Examination Dates:

Mid-Term: November 18, 2010 The Mid-term exam will encompass chapters 1-9 in the textbook, handout material and lecture. **NECESSARY MODIFICATIONS TO THE ABOVE SCHEDULE WILL BE ANNOUNCED IN CLASS.**

Final Exam: December 16, 2010. The final exam will encompass chapters 10-18 in the textbook, handout material and lecture. **NECESSARY MODIFICATIONS TO THE ABOVE SCHEDULE WILL BE ANNOUNCED IN CLASS.**

MID-TERM:

A mid-term examination may consist of multiple choice, true and false questions, fill-in and/or essay questions. This examination will be worth 100 points towards the semester total grade.

FINAL:

A final examination may consist of multiple choice, true and false, fill-in and/or essay questions. This examination will be worth 100 points toward the semester total grade points.

GRADING

Grading will be on a cumulative points system as follows:

Assignments	900 points
Mid Term Examination...	100 points
Final Examination...	<u>100</u> points
Total...	1100 points
1100 – 985	A
984 – 875	B
875 – 765	C
764 – 655	D
654 – 0	F

WARNING!

Some materials utilized in the presentation of this course, including but not limited to film, video, slides, Power Point Presentations and printed photographs may be quite graphic, as is the nature of the Criminal System.

A Final Word about Learning Criminal Justice

Without exaggeration, this course is extremely important for anyone living in the United States. All private citizens should have at least a basic understanding of the criminal justice system that is not distorted by media hype or misconception. If you are planning a criminal justice career, you will find that this course provides necessary information for learning about the system, understanding why the system operates in the way it does, and deciding which criminal justice career would be best for you.

There are two important things to keep in mind while you take this course:

You are responsible for your learning and for helping yourself and your classmates. The instructor cannot fill passive students with knowledge or with a single right answer.

There are several right answers to many criminal justice issues, especially controversial ones such as the death penalty, three-strikes laws, and the role of rehabilitation.

Learning in this course is based upon cooperation and experience. You are expected to participate in class discussions and exercises, and to apply the concepts to your own experiences.

"If you have a verified need for an academic accommodation or materials in alternate media (i.e. Braille, large print, electronic text, etc.) per the Americans With Disabilities Act or Section 504 of the Rehabilitation Act, please contact your instructor as soon as possible."

Vocational Programs Certification and Licensing Exams

AOJ 50 A the Arrest Control component of P.C. 832:

We have had 100% pass of the state written certification exam for at least the last seven years and probably more.

I push students to study in groups for the state exam and I feel the dynamics of group study benefits them greatly.

Re: AOJ 50 B, the Firearms component of P.C. 832

We have not failed a student (there are four criteria by which a person may fail) in at least the last five years and probably longer.

Concerning your inquiry about the nursing program and EMT program licensing & certification process.

1. Nursing Students that graduate from our program must take a National Computerized Licensing Exam for Registered Nursing (NCLEX-RN). This is a mandated process by every State in the Union and regulated by the Board of Registered Nursing which is under the Department of Consumer Affairs. As you know we graduated our first class of nursing student in May of 2010. The First time pass rate was 88%. When the repeats were factored into the overall program pass rate is officially 86.23%. Our LVN to RN Bridge program enjoys a 92.3% first time pass rate.
2. Emergency Medical Technicians students that pass our EMT course may apply to the National Registry of Emergency Medical Technicians and sit for their certification exam. If they pass the exam they will be certified as a EMT. The student is allowed 3 attempts. Not every student that passes the EMT course takes the National Certification Exam. Our program currently has a first time pass rate of 56 % pass rate over the past 5 years. This pass rate is one of the better pass rates in the region.

Business Administration (B.S.) (continued)

All business students entering Fresno State are considered Pre-Business majors and are coded as such. In order to select an option in business and enroll in upper-division business courses, pre-business students must do the following:

- a. Complete IS 52 and 52L or equivalent course(s) with a grade of "C" or better or achieve a passing score on the Craig School of Business computer competency waiver examination. See "computer competency waiver exam" at www.craig.csufresno.edu/Student_Info/USS/.
- b. Complete the following courses or their equivalents with a grade of "C" or better in each course:
ACCT 4A, ACCT 4B; BA 18; DS 71, DS 73; ECON 40 (or AGECE 1) and ECON 50.
- c. Have a cumulative grade point average of at least 2.25 ("C" average).
- d. Submit a request to declare an option in business.
Students may obtain this request form from the Craig School of Business Undergraduate Student Services Office located in the Peters Bldg., Room 185 or apply online at:
www.craig.csufresno.edu/Student_Info/USS/.

Students may apply for an option in the semester during which they will complete all work needed for enrollment qualification in upper-division business courses. Approval will be contingent upon satisfactory fulfillment of the lower-division course prerequisites and the GPA standard; international (foreign) students must achieve a minimum score of 500 on the TOEFL exam.

Transfer students will need to have their transcripts screened to see if they will receive equivalent credit for the above prerequisite courses. Transfer students must submit a complete set of transcripts (official or unofficial) or grade reports of all college-level study to the Undergraduate Student Services Office, 5254 N. Backer Ave M/S PB 7, Fresno, CA 93740-8001 for evaluation. If you are transferring from out of the region, having a copy of the catalog(s) and course syllabi from the different colleges you attended will also be required. Upon receipt of these materials, transfer students' records will be evaluated. Notification of business course credit will then be sent by e-mail.

Students who are ready to enroll in upper-division business courses, but who lack one or two of the pre-business courses, should contact the Undergraduate Student Services Office in Peters Building (PB), Room 185 for further information.

Students selecting the International Business Option must successfully demonstrate a working commercial knowledge in a language other than English.

DS 71 and ECON 50 are also used in General Education.

A grade of "C" or better must be earned for each course used to satisfy the requirements for the major.

Xtreme Registration and WOW-Week of Welcome
Minutes
June 6, 2007

Meeting called to order by **Sylvia** at approximately 1p.m.

Sylvia:

August 2, 2007- Big Meeting

Preference= Eliminate the June 27th meeting and come back on July 11th

Marlon Hall: everyone agrees to cancel the 27th and July 11th meeting, and keep the July 25th and August 2nd meeting for recap.

Clubs

Sylvia spoke about club dates

- Club date - August 16
- Add categorical program jubilee (including cal-works)
↓→Helps to make connections with students

Dean Lopez reported that **Rodney** would like to come and sell old soccer equipment

Instructional Documents

Angela suggests: Certificate Programs should include A.A. and A.S.

Survey and Technology

Speaker: **Pedro Avila**

- Asked for feedback on whole process
- If any suggestions email him
- Survey serves as a raffle tickets
- Survey needs correction on Placement Test section, should read *Placement Test Process*
- Making a requirement to have a student ID #
- If students complete process but not have an ID number, we still want feedback from them

Feedback on Technology Web page: It's Great

Sylvia suggests: color code the surveys/raffle tickets for other uses such as events like club day, ice cream, etc... and therefore we'll know for what event was the tickets used.

Melinda suggests: Admission Process on survey should read *Admission Process Application*

Melinda suggests that the survey needs to be better explained such as satisfaction of placement test service instead of asking about the placement test itself.

Raffles

-SD Cards (memory cards), IPODS, gift baskets, McDonald's gift cards, EOP&S/DSPS gift cards, or bus passes

Jan Young will ask for parking lot volunteers (students, squadron)

America suggests:

-Like Credit Union uses gift baskets to promote themselves, we can invite vendors to come and set booths to advertise themselves and us. We can use raffle tickets as well, and both the companies and the college can benefit.

Dean Lopez reported that students prefer pen drives over Ipods. Other gifts to be considered are buss passes or planners.

Logo

The logo shown to everyone (the Xtreme logo) will be used for T-shirts, flyers, etc...

Sylvia suggests that the logo would look great on a magnet for a WHCL van.

America suggests: to have banners downtown with the logo

Angela suggests: wants to use the logo for orientation flyers
Suggestions: little magnets

Susie- take advantage of more free advertising such as cable channels, etc.

Melinda- High school Advertising (about WHCL), have signs at high schools, including NAS Lemoore

Mike suggests: Advertise on the outside of buses

Angela proposed: watermark flyers

Pedro: work with videos and promote on my space, you tube, etc.

Dean Lopez reported: have video crew come and film all week (advertisements).

Sylvia- Have logos ready for Farmers Market, have online a calendar of the different events

Veronica will be in charge of Alumni

Sylvia- Logos will be on T-shirts and not on Polo shirts because T-shirts are more flexible than Polos.

- have visors and ball caps with names on the back

America proposed- to have on back of t-shirts an (X) instead of the word Staff

Sylvia suggested having blankets with the Xtreme Logo as well.

Susie- Free advertising, we want the college to be known everywhere, and spread the word

Leonore suggestions: have information of counselors such as e-mails and phone numbers on pamphlets.

Pedro will be in charge of dealing with camera.

America requested that she can solicit stuff from vendors.

Melinda requested walk in Advertisements such as having store employees wear Xtreme registration t-shirts. (e.g. given on Bestbuy). She also requested to have enough portable restrooms, and trash cans.

Sylvia Map of where will placement tests be taken at?

Library:

459	Office	467
DSPS	Financial Aid	
Computers		
Counter	Books	Entrance

And C+A stay in your offices.

Marta reported there will be 100% of C+A participation the whole week.

Placement Test Schedule

Sylvia reported that counseling appointments will be from 6:00-12:00 and anyone who comes in after 12:00, then they'll have to make appointments for 8:00-9:00 on Monday.

Angela proposed the following times for Orientation: 7:30 (Spanish), 6:30, 8:30, and 10:30(English). She also requested to have new pictures taken of C+A for the WHCL website.

Leonore and Pedro will be working on the online orientation.

- * Need wireless computers for registration
- * Perhaps use half computers for financial aid and half for registrations
- * T-SUM screens for all training

Music

America requested that we should have continuous music going on throughout the whole night.

- Ask Lora how much it will cost for D.J. music?
- Find out about satellite music, and live bands

Angela reported that she would speak to her husband about asking to have a news anchor come over

Melinda suggested we should have one of those big lights that shoot up to the sky...

BIG ISSUE

Leonore and Sylvia reported that students are having trouble being able to access their student account e-mails and blackboard.

Susie requested there should be a Blackboard Online Orientation or something should be done to help students get more acquainted with the program.

Sylvia also said that students often tend to forget what their username and password is for Blackboard, e-mail, and My West Hills, since they're dealing with probably more than one password.

Angela suggested that students who are having trouble with their application such as they're being blocked by the program or something should be given a fast pass.

Melinda: requested having stantions at least 24 of them for use in the Administration Building and the Library.

- find cheaper cost

* These will be a one time buy and will definitely be useful for future events such as graduation.

BBQ

Dean Lopez reported:

Have Christian probably help do the President's BBQ thing.

- VIP Aprons for President with Logo, suggested
- TCBY will come with cups of ice cream already prepared

Jan Young

6-7:30 radio station

Ernie G

10:30-Midnight- Music

- Explore band possibilities

*Consider getting a couple of bands or just one

America suggested: consider a FCC student's band, they charge \$400/hr, but they're really good.

Dean Lopez reported to have these on site:

-ER Vol.

-Traffic Control (Jan proposed to ask people on base for help)

-Student Workers working at Library

-Friends of West Hills to do Welcome Table

-Laminated ID cards

-List of key people we want to invite such as superintendents, etc...

They can be like VIP's of the community

-Connect with city of Lemoore

Helpers can help@ President's BBQ

Needs for Future:

Mike suggested SARS cards

Susie suggested on having an orientation survey

Tiffany talked about using web cameras for online students

Closing by Sylvia and Dean Lopez : Everyone save more ideas (future ideas) and share them on our next big meeting on August 2.

West Hills College Lemoore

Welcome Week

Welcome Week, an annual tradition at West Hills College Lemoore, fosters the Golden Eagle's Spirit for new and returning students. Take part in the fun and activities to find your place, make friends and become part of the Golden Eagle Spirit!

Welcome Week Events...

President's BBQ
FREE Hot Dogs, Hamburgers, Chips & Drinks

Between Admin. Bldg. & 200 Bldg.
11:00 am – 1:00 pm

Deans' Donuts

FREE
Donuts, Coffee & Juice

Between Admin. Bldg. & 200 Bldg.
7:30 am – 9:00 am

Deans' Diner

FREE
Sandwiches, Chips & Drinks

Quad Area
5:00 pm – 7:00 pm

Olympic Competition

Meet the Athletes
FREE Nacho Bar & Snow Cones

Between Admin. Bldg. & 200 Bldg.
11:00 am – 1:00 pm

Battle of the Bands Back to School Bash
Live Bands, 10.11 & J-Live, Guitar Hero Competition, Cash Prizes & Give-aways
Food & Drinks available

Tickets can be purchased by contacting Rich @ 559.380.8233

Location: Semas Plaza (Amphitheater)
5:00 pm – 8:00 pm

WEST HILLS COMMUNITY COLLEGE

CERTIFICATED STAFF

ACADEMIC FREEDOM

The Board believes the Academic Freedom is an essential right arising from the nature and function of education. The aims and objectives of West Hills College point to the unreserved and unqualified obligation of the instructor to pursue his/her subject and the program area surrounding it in a manner consistent with standards of scholarly objectivity as defined by academic tradition and practice.

West Hills College holds that academic freedom involves inherently the following right and responsibilities:

1. The right to explore to the limit of competence and training, the assigned teaching area and its references.
2. The responsibility within the teaching area to weigh studiously serious intellectual differences, when applicable, which rise from historical context and perceptive.
3. The right to present the democratic process with its freedoms, rights and safeguards as the sole way in which the academic community and nation can exist and establish the means for progress and the greater fulfillment of man.
4. The responsibility in solving problems to appeal only to those criteria sanctioned historically by reason as confirmed through objective discussion.
5. The right to survey, probe, and question the condition of man within the guidelines of accepted research techniques and intelligent discussion.
6. The responsibility of avoiding the intellectual error of assuming absolute answers for complex problems and presenting these answers as unquestionable truth.

WEST HILLS COMMUNITY COLLEGE
Academic Freedom

CERTIFICATED STAFF

7. The responsibility to introduce within the assigned teaching areas, controversial concepts, issues and systems, subjecting these ideas to the test of objective reasoning.
8. The responsibility of recognizing, respecting, and discussing fairly those areas of human activity not amenable as such to the scientific method.
9. The right to create an unhampered and clear intellectual atmosphere, maintained, encouraged, and supported by staff, administration, and trustees.
10. The responsibility of avoiding any teaching method which relies upon rigid authority or an implied infallibility.
11. The responsibility in challenging students, notwithstanding their ability or program, to develop a spirit of inquiry regarding all academic areas and to seek logical answers.

West Hills College considers academic freedom defined by its attendant rights and responsibilities as a vital, primary force in the achievement of the aims and objectives of the institution.

Dear WHCL Golden Eagle

Welcome to the 2010-11 academic year. As you begin this year, we recognize some of the challenges you face. One such challenge is course selection and successful matriculation. While no one could have predicted the economic downturn and subsequent impact to community colleges, we can certainly look towards the future, your bright future.

Our administrators, faculty and staff are here to assist you in achieving your educational goals. We want to encourage you to regularly visit your "MyWestHills" portal site and your e-mail, to seek out your instructors for assistance when needed, make sure you have a Student Educational Plan completed with the assistance of a counselor or advisor, take advantage of the free tutoring we offer, join your Student Government Association or other clubs and support our athletic teams.

My staff and I look forward to working with you throughout this year and are available to assist you. Working together, your educational dreams will become a reality.

Sincerely,

Sylvia Dorsey-Robinson
Vice President of Student Services

GENERAL INFORMATION

WHERE SHOULD I GO?

...to get counseling

Counselors are available each day for conferences with students in the Student Services Administration Office. Appointments are recommended. Advising Specialists are available to help with issues such as selecting a major, program planning, and degree requirements.

...to find a job

Students who seek part-time jobs and qualify for work-study should go to the Financial Aid Office.

...to apply for a loan

Financial Aid Office.

...to review the college's accreditation, license and approvals

President's Office.

...to inquire about the cost of tuition and fees

Student Services Office.

...to use a computer or review reference materials

Check the library facilities.

...to get evening classes information

See the schedule of courses at our website: www.westhillscollge.com

...to locate faculty members

Please contact the Instruction Office (Admin. Building). Faculty office hours are posted on their respective doors, or use the WHC website.

...to study

The library is open from 7:30 a.m. until 8:00 p.m. Monday through Thursday and 7:30 a.m. to 4:30 p.m. on Friday.

...lost and found

Information desk in the Administration Building.

...to use a telephone

There are pay phones near the classroom building, library, or behind the Administration Building.

...to request a transcript

The Student Services Office.

...to report a change of address

The Student Services Office.

...to obtain a college catalog

The bookstore and via our website, www.westhillscollege.com

...to find a catalog for other colleges

The Transfer Center located next to the counseling office.

ADMISSIONS

ENTRANCE REQUIREMENTS

To enroll at West Hills College Lemoore, a student must satisfy one of the following requirements:

1. High school graduation.
2. Successful completion of the California High School Equivalency Examination or G.E.D.
3. Attainment of adult status, 18 years of age.
4. Recommendation from the principal/counselor the high school student is attending and parental permission.

APPLICATION FOR ADMISSION

High school transcripts and transcripts from other colleges attended, must be on file with West Hills College Lemoore. Students with transcripts from institutions outside the United States should contact the West Hills College District Office of Admissions and Records for information on transcript evaluation. The student must notify the institution previously attended to mail official transcripts directly to the Admissions and Records Office.

FEES

The legislature of the State of California has made it mandatory for West Hills College Lemoore to charge a California Community College fee of \$26.00 per unit. This fee is subject to change by the legislature. California Education Code Section 72252 allows exemption from the enrollment fee to any dependents, or surviving spouse who has not remarried, or any member of the California Na-

tional Guard, who, in the line of duty and while in the active service of the state, was killed, died of a disability from an event that occurred while in active service of the state, or permanently disabled as a result of an event that occurred in the active service of the state. In addition, the college is mandated to charge an out-of-state tuition fee for those students who do not qualify as California residents (see non-resident tuition).

Cost of student textbooks, supplies, and membership in the associated student body may average \$250 to \$300 per semester. A considerable savings is possible through the purchase of used textbooks from the college bookstore.

Active military personnel applying for tuition assistance, which pays for 100% of the registration fees, up to 12 units per year, must submit a completed authorization form to the college prior to registration; otherwise, registration fees must be paid in full. For more information, call (559) 925-3352.

NON-RESIDENT/INTERNATIONAL STUDENT TUITION

A student classified as a non-resident/international student shall be required to pay non-resident tuition. The fee for non-residents is \$149.00 per unit. Non-resident/international students must also pay an additional \$14.89 per unit non-refundable capital outlay fee, \$26 California Community College fee per unit and a \$100.00 one-time non-refundable processing fee.

REFUND OF ENROLLMENT FEES AND TUITION

Refund or reversal of enrollment fees and tuition shall be made as follows: (refund must be requested by the student).

Full Semester Classes, 16-18 weeks

1. Withdrawal during the first two weeks of instruction: 100% refund.
2. Withdrawal after the second week of instruction: no refund.

Short-term Classes

1. Withdrawal during the first 10% of the course length: 100% refund.
2. Withdrawal after 10% of course length: no refund.

MATERIALS FEE

Required instructional materials of continuing value outside the classroom must be paid for by the student. These are tangible materials that are essential to satisfaction of course objectives, have value to the student outside the classroom, belong to the student, and may be taken home. These materials include, but are not limited to, such items as textbooks, workbooks, syllabus, computer disks, tools, uniforms, and canvases. They also include material, such as clay, that can be transformed into materials of lasting value

Students are advised to provide certain instructional materials of an optional nature that will enhance a student's learning experience in the classroom but are not essential to completion of course objectives.

Some classes require a fee for instructional materials. These fees are for the types of materials described above. When such fees are charged, the materials for which the fees are levied are supplied at district cost.

NOTE: All fees must be paid in full at registration and are subject to change without advance notice by the Board of Trustees of the West Hills Community College District.

CLASSIFICATION OF STUDENTS

- Freshmen Students who have completed fewer than 30 semester units.
- Sophomores Students who have completed 30 or more semester units, but who have not yet been awarded an Associate Degree or higher degree.
- Full-time Students enrolled for 12 or more semester units of college credit.
- Part-time Student enrolled for fewer than 12 semester units of college credit.

PLACEMENT TESTS

Placement tests to assess writing, reading, and math skills are administered to each entering student. The results of these tests are used to assist students and counselors in the selection of college classes. These tests are not entrance examinations and they will not prevent any prospective student from admission to the college.

A schedule of testing times and dates will be listed in the schedule of classes and made available prior to registration each semester. For more information on placement testing, please contact the West Hills College Lemoore at (559) 925-3317/3388 or the Lemoore Naval Air Station Center at (559) 925-3350.

Placement Testing Exemption Policy

The following students are exempt from placement testing:

1. Students who have met the prerequisites of a course they intend to enroll in by earning a grade of (C) or higher in a lower-level course at West Hills College Lemoore or in an articulated course from another educational institution.
2. In all cases, the exemption for assessment listed above is available only to students who provide official records or transcripts to the Director of Admissions and Records before registration.

Ability to test (ATB) will be provided by appointment.

RESIDENCE ELIGIBILITY

A. Adults

Resident

A "resident" is a student who has resided in the State of California for more than one year immediately preceding the residence determination date and who has demonstrated intent to be a California resident with financial independence. Students must apply for residency in the Admissions and Records Office.

Non-Resident

A "non-resident" is a student who does not have legal residence in the state at the time of the residence determination date.

B. Minors

The residence of the parent with whom the minor child resides is considered the legal residence of that minor child.

The residence of an unmarried minor who has a living parent cannot be changed by his/her own act, by the appointment of a legal guardian, or by re-

linquishment of a parent's right of control. A married minor may establish his/her own residence.

Residency status is allowed for a student who, (1) has not been an adult resident of California for more than one year, and (2) is either the dependent child of a California resident who has not had residence for more than one year prior to the residence determination date, or has a parent who has both contributed court-ordered support for the student on a continuous basis and has been a California resident for a minimum of one year. The exception continues until the student has been in the state the minimum time necessary to become a resident (one year from time of California entry), as long as continuous attendance is maintained at the college.

C. Active Duty Military

A student who is a member of the armed forces of the United States stationed in this state on active duty, except a member of the armed forces assigned for educational purposes of state-supported institutions of higher education, is entitled to resident classification.

D. Military Dependents

A student who is a natural or adopted child, stepchild or spouse who is a dependent of a member of the armed forces of the United States stationed in this state on active duty shall be entitled to resident classification until he/she has resided in the state the minimum time necessary to become a resident. The minimum time necessary to become a resident for California Community College tuition purposes is one year and one day proceeding the semester for which the student is applying. If that member of the armed forces of the United States, whose dependent natural or adopted child, stepchild, or spouse is in attendance at an institution, (1) is therefore transferred on military orders to a place outside this state where the member continues to serve in the armed forces of the United States or, (2) if thereafter retired as an active member of the armed forces of the United States, the student dependent shall not lose his or her residence classification until he or she has resided in the state the minimum time necessary to become a resident.

E. United States Bureau of Indian Affairs

California Education Code Section 68077 (amended 1993): A student who

is a graduate of any school located in California that is operated by the United States Bureau of Indian Affairs, including but not limited to, the Sherman Indian High School, shall be entitled to resident classification. This exception shall continue so long as continuous attendance is maintained by the student at an institution.

COMPLIANCE STATEMENT

West Hills College Lemoore does not discriminate on the basis of race, color, national origin, sex (including sexual harassment), handicap (or disability), or age in any of its policies, procedures, educational programs, activities or practices, in compliance with Title VI of the Civil Rights Act of 1964 pertaining to race, color, and national origin and Title IX of the Educational Amendments of 1972, 20 U.S.C. §§ 1681 et seq. (Title IX) and its implementing regulations, 34 C.F.R. Part 106.; Section 504 of the American Disabilities Act of 1990 pertaining to handicap; and the Age Discrimination Act of 1975 (pertaining to age).

This nondiscrimination policy covers admission and access to, and treatment and employment in, the College's programs and activities, including vocational education.

The lack of English language skills will not be a barrier to admission and participation in the college's vocational education programs. West Hills College recognizes its obligation to provide overall program accessibility throughout the college for handicapped persons.

Inquiries regarding Federal laws and regulations concerning nondiscrimination in education or the District's compliance with those provisions may also be directed to: Office for Civil Rights, U.S. Department of Education, Old Federal Building, 50 United Nations Plaza, Room 239, San Francisco, California 94102.

The coordinator for Title IX, Section 504/ADA is Ken Stoppenbrink, Director of Human Resources. Inquiries regarding the equal opportunity policies, the filing of grievances, or grievance procedures covering discrimination complaints may be directed to: Ken Stoppenbrink, Director of Human Resources

West Hills Community College District
9900 Cody St., Coalinga, CA. 93210
(559) 934-2160

Inquirers regarding Federal laws and regulations concerning nondiscrimination in education or the District's compliance with those provisions may also be directed to:

Office for Civil Rights, San Francisco Office
U.S. Department of Education
Old Federal Building

50 United Nations Plaza, Room 239

San Francisco, CA. 94102

Is An Equal Opportunity Employer

WHAT ABOUT?

ADVERTISING

Commercial advertising of products are generally not allowed. The Dean of Student Services must approve all advertising.

ANIMALS ON CAMPUS

The West Hills Lemoore campus is closed to dogs, cats and all animal pets (excluding guide dogs). Students are asked to cooperate by reporting presence of animals to the office of the Dean of Student Services.

AUDITING OF COURSES

The auditing of courses is permitted at West Hills College with a charge of \$15.00 per unit. Priority is given to students who are enrolled in classes for college credit. Instructor permission is necessary.

BICYCLES

Bicycles must be parked in the rack provided in designated areas. For everyone's safety, bikes are not allowed in buildings and must be walked in hallways and on lawn areas.

CHANGE OF ADDRESS

It is the responsibility of each student to see that the Records Office is advised immediately of address change or name change.

CHILDREN ON CAMPUS

Unsupervised minors are not permitted. The college is not liable for children who are brought on campus. A child development center is located on campus which provides service to students and the community. Please call (559) 925-3380.

CLASS ATTENDANCE

All students enrolled at West Hills College are expected to be punctual and attend classes regularly. Absences due to illness may be accepted as "excused absence." See instructor's syllabus for more details.

DISCRIMINATION

It shall be the policy of the West Hills Community College District not to discriminate against any student on the basis of sex in employment practices, admission requirements or participation in any college activities, as prohibited by law.

DISTRIBUTION OF LITERATURE

Freedom of expression of ideas includes the right to distribute published material without prior censorship other than libelous and obscene material or that which advocates or directs the inciting or producing of imminent lawless action. The distribution of materials must be carried on in a manner that does not impede the orderly conduct of school classes and programs.

EQUIPMENT

Equipment may not be removed from room to room or from one part of the campus to another except by authorized personnel.

FOOD

No eating or drinking is allowed in the classrooms.

LIBRARY

All library property and other materials must be checked out at the desk before being taken from the library. Conversation shall be kept at a minimum at all times. All library delinquencies must be cleared before grades and transcripts will be issued, or registration will not be permitted.

MESSAGES

Only under extreme emergency will a student be contacted in class.

NON-COLLEGE PERSONS

Persons who are not students or employees of the college, while on college property, are required to adhere to the standards of conduct applicable to college students and to abide by district-wide policies and campus regulations.

POSTERS AND NOTICES

Posters and notices publicizing college-sponsored activities only may be placed on the bulletin boards around campus after the Dean of Student Services has approved them. Notices are not to be posted or painted on glass surfaces.

PROPERTY USE RESTRICTIONS

The use of skateboards, roller blades, bicycles and powered model airplanes are prohibited from use on college property.

RECORDING DEVICES

Education Code, Section 9209, is cited regarding the student use of recorders in the classroom. This code section has been provided for the protection of instruction. Instructors must approve use of recording devices in the classroom.

SCHEDULING OF EVENTS

All student activity dates must be cleared with the Student Activities Office. Facility Use Request forms to schedule calendar events may be obtained at the Administration Office. They are due two weeks prior to the event.

SMOKING

Use of smoking and smokeless tobacco is prohibited in all district-owned buildings and prohibited within 20 feet of any building opening and in areas so designated.

STUDENT MAIL AND E-MAIL

The college does not have facilities or personnel to handle student mail. West Hills College has provided every student with an e-mail account. Visit

www.westhillscollge.com. Under the "MyWestHills" section, click on "Student E-mail."

DISCLOSURE OF RECORDS

STUDENT RECORDS

All students have the right to review any part of the college's recorded educational records pertaining to them. Records cannot be sent or the contents revealed without the student's written permission.

Currently, enrolled students may release disclosure of any category of information under The Family Education Rights and Privacy Act of 1974. To release disclosure, written notification must be received by the West Hills College Records Office prior to the beginning of the second week of the term. Forms requesting the release of "Directory Information" are available in the Records Office.

Students have the right to inspect and review any and all official records, files and data directly related to them, including all materials that are incorporated into his/her record folder, and intended for school use or to be available to parties outside the school system, and specifically including, but not necessarily limited to, identifying data, academic work completed, level of achievement (graded, standardized intelligence, aptitude, and psychological test, interest inventory results, health data, family background information, teacher or counselor rating and observation or recurring behavior patterns). The editing or withholding of any records is prohibited.

Students MAY NOT inspect and review the following as outlined by the Act: Financial information submitted by their parents; confidential letters and recommendations placed in their files prior to January 1, 1975, provided those letters were collected under established policies of confidentiality and were used only for the purpose for which they were collected.

ORGANIZATIONS

This college is not only an institution of learning but also a way of life, wherein lifetime friendships and associations are formed. The clubs listed below will help

you and your interests. We encourage all students to join at least one club. The clubs, as well as you, will benefit from your interest and membership. If you are interested in starting a club, refer to the club handbook, available at the Office of Dean of Student Services.

STUDENT GOVERNMENT ASSOCIATION (SGA)

This is the official organization of the student body. The SGA takes an active role in campus affairs, advocating student concerns, sponsoring cultural events, and managing a variety of services and projects. Students holding office earn credit while developing leadership planning and critical thinking skills. The West Hills College Lemoore Student Government Association is the official name of the student governing body that represents all West Hills College Lemoore students. The SGA's responsibilities include: representing student interests on college, district, and statewide issues and committees; participating in college governance by sharing in the development of college policies; and planning and implementing activities, programs and services for students.

The officers of SGA at the Lemoore campus are: president, vice president, secretary, treasurer, student body representative, re-entry student representative, military/VA student affairs representative, commissioner of policy, commissioner of programming and fundraisers and commissioner of publicity.

Meeting times and locations are posted each semester and all meetings are open to students, staff, and faculty.

Students involved in the SGA earn 1 or 2 units of credit (Interdisciplinary Studies 7 and 8) while developing leadership, planning, and critical thinking skills.

Students interested in becoming involved in the SGA should contact a current officer or the Student Activities Office at (559) 925-3425 or studentgovernment@whccd.net.

Student Identification Cards

All students are encouraged to join the Student Government Association (SGA). With membership, you will receive a photo SGA card that entitles the holder to free admission to all home athletic contests and away games by mutual agreement of the athletic departments, free or reduced admission to social events,

plays, concerts, community service performances, merchant discounts, participation in athletic events, annual issue of the Student Handbook, voting privileges, right to hold office in the Associated Students and the clubs, and the right to participate in all other activities sponsored by the Associated Students and its subsidiary organizations and other benefits attached to the SGA card.

The cost is \$7.50 per semester, and cards can be bought from the cashier in the Administrative Office of the Lemoore campus. The receipt is then taken to the library where the cards are made.

If you elect not to buy an SGA card, you may be required to obtain a Student Identification Card. The ID card can be used to gain access to the computer labs and to check out books, but does NOT entitle you to discounts at student games, plays, etc.

The easiest way to tell the SGA card from the ID card is to look for the Golden Eagle logo which appears on SGA cards only! Cards are the property of West Hills College Lemoore. There will be a \$10.00 replacement fee for lost or damaged cards.

STUDENTS IN FREE ENTERPRISE (SIFE)

“A Global Student Organization”

SIFE is a global, non-profit organization that is literally changing the world through highly dedicated student teams on more than 1500 university campuses in 37 countries. SIFE offers these students the opportunity to develop leadership, teamwork and communication skills through learning, practicing and teaching the principles of free enterprise, thereby improving the standard of living for millions in the process. Guided by distinguished faculty advisors and supported by businesses around the globe, SIFE teams teach important concepts through educational outreach projects, including market economics, entrepreneurship, personal and financial success, and business ethics to better themselves, their communities and their countries. Each year, SIFE competitions are held worldwide, drawing together thousands of students and business leaders to pay tribute to these extraordinary educational outreach projects. www.sife.org

Every semester SIFE requests all SIFE teams from around the nation to prepare and present a topic during a monthly competition. Each competition is based on four basic concepts:

- How the free market works in the global economy
- Entrepreneurship
- Personal financial success skills
- Business ethics

All SIFE members will be competing at an annual national conference. The team will be competing against other SIFE teams from around the United States.

ALPHA GAMMA SIGMA (AGS)

Alpha Chi Chapter

The mission of the chapter and organization shall be to foster, maintain, and recognize scholarship among members of Alpha Gamma Sigma; to develop programs offering cultural, social, and community service activities as part of the total college experience; and to encourage the members of Alpha Gamma Sigma to develop leadership skills, good character, and sound judgment.

EXTENDED OPPORTUNITY PROGRAM & SERVICES (EOPS)

The Extended Opportunity Program & Services (EOPS) was initiated in 1969 in Senate Bill 169 and authored by Senator Alfred Alquist from San Jose, CA.

EOPS was started as a means of developing programs at the community college level to ensure equal access to higher educational opportunities for persons, who because of academic, linguistic or socioeconomic limitations, have not had such access.

The following services are available to those who qualify: individual counseling, academic programming and vocational planning; grants and/or books vouchers; emergency loans, student activities/workshops, priority registration and transfer assistance to four-year schools.

CAL WORKS

California Work Opportunities and Responsibility to Kids Program

CalWORKS is a funded program designated to provide support services to students receiving cash aid from any county welfare agency. Its main focus is to provide the student with individual: Academic Counseling, Vocational Planning,

Childcare Assistance, Paid Work-Study, Job Work Experience. The Goal of the program is to empower the individual to leave public assistance and make a living for themselves and their family. Students will have the opportunity to select from various vocational certificate programs of study.

COLLEGE ASSISTANCE MIGRANT PROGRAM (CAMP)

College Assistance Migrant Program (CAMP) provides academic and support services, as well as financial assistance to eligible migrant students who are admitted and enrolled on a full-time basis within the first academic year. The criterion for becoming a CAMP student at West Hills College requires one of the following: the student has a migrant educational Identification number from high school, the student or Immediate family (parent or legal guardian) must be a migrant/seasonal farm worker, and If a parent or legal guardian of the student has worked 75 days In the past two years as a migrant/seasonal farm worker. Student interested In applying for the CAMP Program need to contact West Hills Community College District and ask to speak with CAMP personnel (559) 925-3691.

COOPERATIVE AGENCIES RESOURCES FOR EDUCATION (CARE)

The CARE Program at West Hills Community College is a cooperative effort between Fresno and Kings County Department of Social Services (DSS), Employment Development Department (EDD), and the college's Extended Opportunity Program & Services (EOPS).

The focus of the CARE Program is to assist single parents on Welfare/Cal Works with their childcare expenses and provide the necessary support for their academic success and retention.

Students are required to maintain 12 units or more. For more information call the EOPS Program, (559) 925-3330.

DISABLED STUDENTS PROGRAM AND SERVICES (DSPS)

West Hills College is committed to providing equal access to education for people with disabilities. The DSPS Office provides services to those persons with physical, psychological and learning disabilities. Services include:

- Individual, academic and vocational counseling
- Priority registration
- Note takers/readers
- Diagnostic testing
- Alternative testing services
- Mobility assistance
- Liaison with the State Department of Rehabilitation and other agencies

Our Learning Skills Program provides small group instruction and computer-assisted instruction to students with disabilities in a high-tech lab setting. For more information, call the DSPS program at (559) 925-3330 or (559) 935-3253.

INTERCLUB COUNCIL

By-laws

Inter-Club Council (ICC) at West Hills College Lemoore serves as the official student group to provide input and support to the Student Government Association (SGA). The ICC will be comprised of officers from all formally recognized student clubs and organizations. The council will:

- Develop policies for cooperation in the best interest of ALL students.
- Be an exemplary model campus citizen.
- Ensure that sponsored activities and events both on and off campus reflect the mission of the institution in a positive manner.

TEAM TEACH

If you are interested in becoming a teacher, join the TEAM Teach program, simply go online and locate the **Join the T.E.A.M. button** and submit your information. You will be assigned a level and contacted with further information. Team Teach is a program designed to assist student who wish to become teachers. It assists you with book loans, counseling, and CBEST seminars. Contact Mr. James Preston at (559) 925- 3146.

SCHOLASTIC REGULATIONS

ATTENDANCE POLICY

Since regular attendance is necessary for satisfactory achievement, a West Hills College student is expected to attend all sessions of the classes in which he/she is registered. Irregular attendance can result in exclusion from classes and eventual dismissal from the college.

The Education Code of the State of California (Section 6801 through 6806) gives the legal definition of accountable absence as being that which is due to illness, or illness-related causes.

In cases of extended illness, it is advisable to notify the Counseling Office by letter or phone call.

ACADEMIC PROBATION AND DISQUALIFICATION

At the end of any semester, a student who has failed to achieve an overall 2.0 (C) grade point average in units attempted will be placed on scholastic probation.

A student shall be subject to dismissal if he/she has failed to earn a grade point average of 1.0 (D) or higher after the completion of twelve units whether the units were earned in a semester or cumulatively.

A student transferring from another college with a grade point average of less than 2.0, with 12 or more units or who has been placed on probation by the college from which they transferred, shall be placed on academic probation.

Students dismissed for scholastic deficiency may apply for readmission after an interval of one semester. See the college catalog for further details.

A student may be removed from academic probation when their accumulated grade point average at West Hills College is 2.0 or higher

HONORS

PRESIDENT'S CITATION

A student will receive the President's Citation if twelve units or more are completed with a G.P.A. of 4.0 in one semester.

DEAN'S LIST

A student's name will be placed on the Dean's List if that student completes a total of twelve units or more with a G.P.A. of at least 3.0, and with no grade below (C) in one semester.

REGULATIONS GOVERNING STUDENT ACTIVITIES

All students should be aware of the following general regulations governing activities and organizations:

1. All extra-class events, activities, and organizations on or off campus that use the college name, or involve campus organizations are subject to the rules of the college. State law prohibits the use of alcoholic beverages at all such events.
2. No activity is to be held unless it has been approved. Approval is applied for by: completing Facilities Request Approval Form.
 - Signature of faculty advisor.
 - Signature of SGA president
 - Signature of Dean of Students.

* All programs and speakers to be presented on campus or by campus organizations must be approved by the college president or his designee, a minimum of two weeks in advance and placed on the activity calendar.
3. For protection of the general student body, a financial code of procedures has been developed for handling all SGA and club finances. This code must be observed.
4. The Dean of Student Services must approve all non-college advertising and publications.

5. Student Government Association approval must be secured whenever the campus is to be used or whenever the event is to be open to persons other than the members of an organization and their personal guests.
6. Special arrangements (including furniture, equipment, or service from the Maintenance Department) must be requested by the organization sponsor two weeks prior to the event.
7. Each social event must have a faculty/staff sponsor. The Dean of Student Services may assign sponsors, but they must be invited by the sponsoring organization both orally and in writing.
8. Approval for decoration will be dependent upon adequate provisions for clean up and for faculty/staff supervision thereof, as required by School Code.
9. Arrangements for dances, including time, duration, and facilities are the responsibility of the sponsoring organization. Ordinarily dances end at midnight.
10. Sponsors of all-college social events must arrange a discount to holders of SGA cards.

STUDENT POLITICAL ORGANIZATION ACTIVITY

Any student political organization that is affiliated with the official youth division of any political party that is on the ballot of the State of California may hold meetings on a junior college campus and may distribute bulletins and circulars concerning its meeting; provided that there is no endorsement of such organizations by the school authorities and no interference with the regularly scheduled program of the school. (Education Code 2-512: Added by Stats. 1963.Ch. 100).

SERVICES TO STUDENTS COLLEGE BOOKSTORE

The college bookstore is located in Building 5 (portables). It stocks all books required for courses scheduled on the Lemoore campus and carries stationery supplies and clothing imprinted with the college logo. There are also bookstores on the Coalinga campus and North District Center in Firebaugh. Each bookstore stocks the textbooks for courses offered at that location. NAS Lemoore students are recommended to use the Lemoore campus bookstore.

The bookstore begins selling textbooks one week before the semester begins. Used textbooks are available. However, students who want to buy used books will want to do so as early as possible because there is usually only a limited supply available.

Refund and buy-back policies are posted in the bookstore. The buy-back period is held during the week of final examinations on the Lemoore and the Coalinga campuses.

Bookstore Hours

Lemoore Campus

Spring and Fall hours: Monday-Thursday: 8:00 a.m. to 6:30 p.m., Friday:
8:00 a.m. to 4:00 p.m.

LIBRARY

West Hills College has excellent library facilities. Library facilities are operated on both the Lemoore and Coalinga campuses. The library system provides access to over 40,000 books, 150 magazines and over 650 full text periodicals; 3,500 periodicals in total, via the on-line research subscription data bases.

The Inter-Campus and Inter-Library Loan Programs allow books to be borrowed from either campus or from the San Joaquin Valley Information Service, which provides access to libraries statewide.

Library reference sections house almanacs, indexes, encyclopedias, government publications, bibliographies and other materials. The newspaper racks hold daily copies of the San Francisco Chronicle, The Fresno Bee, USA Today, the Wall Street Journal, and local papers. Computers provide Internet access. Wireless laptops can also be checked out to access the internet anywhere in the library. Typewriters, computers are available for word processing or other functions that may be assigned by faculty. A microfilm reader/printer is available. A photocopier, which students may use, is available at a cost per copy.

Orientations to the library, to learn the location of reference materials, computer lab, audio/visual room, open stacks and card files, will be conducted early in the semester.

The library is open 7:30 a.m. to 8:00 p.m. Monday - Thursday and 7:30 a.m. to 4 p.m. Friday. For more information, call (559) 925-3420. The Tutoring Program is also stationed in the library.

COUNSELING

Counseling services are available to all students at West Hills College. Counselors provide you with help in planning and choosing your academic path and/or career choice. Counselors help students define their place in the work world; and they provide personal counseling when crisis situations threaten to interfere with educational goals.

Assistance is also provided by Advising Specialists and they administer placement tests, and conduct college orientation sessions. They are also available to assist students with course selection within a specified major. Schedule your appointments with staff in student services.

Upward Bound Math and Science

The program serves eligible high school students at Lemoore, Laton, Corcoran, Caruthers and Riverdale High Schools. The purpose of the program is to generate in low-income, potential first generation college bound students, the skills and motivation necessary to complete a program of secondary education and to enter and succeed in a program of postsecondary education.

An individual is eligible to participate if the individual meets all the following requirements:

- Is a citizen or national of the United States
 - Is a permanent resident of the United States
 - Is a potential first-generation college bound student
- OR
- A low-income individual
 - The student has a need for academic support in order to pursue successfully a program of education beyond high school.

Services include academic, career, and personal counseling, tutoring, cultural awareness events, and a summer program at the West Hills College Lemoore campus. For further information, please contact the Upward Bound Director at (559) 925-3127.

MATRICULATION - YOUR ACCESS TO SUCCESS

Matriculation is the process that brings West Hills Community College and you, the student, into an agreement for the purpose of realizing your education objectives. All new, first-time students (enrolling in 12 or more units) matriculate. We ask that you participate in a partnership with us to ensure your educational success. Here is how the process works:

- Admissions - The student fills out and submits an application and a supplemental form for admission to the college.
- Assessment - The student takes English or ESL, reading, and a math placement test. Then, the student's test results, along with other criteria, are used to determine placement for level of ESL, reading, and math.
- Orientation - The new college student is provided with information on a variety of academic programs, policies, and procedures. The student learns about campus services and how to access them.
- Counseling/Advising - The student is assisted with selecting courses and is provided with information regarding transfers, certificates, and degree programs. A Student Educational Plan should be developed by the second semester.
- Registration - Eligible college students may be given priority registration privileges.
- * Follow-up - On student progress with referral to support services if necessary.

As their part of the matriculation plan, students agree to:

- Complete the assessment and orientation program
- Declare a specific educational objective within a reasonable period of enrollment
- Attend two counseling sessions during the first two semesters of college, and develop a Student Educational Plan.
- Attend classes and seek out counseling services as necessary
- Complete courses and maintain progress toward your educational goal as identified in your Student Educational Plan.

TRANSFER/CAREER CENTER

The Transfer/Career Center provides services to assist individuals in making occupational and educational decisions. Included in these services are:

- A resource center for career information material.
- Career interest testing to help students determine occupational and educational goals.
- Transfer Admission Agreements (TAG) with UC campuses.
- Contact with 4-year colleges and universities including on-campus visits by representatives, college fairs, and transfer workshops.
- A library of college catalogs including the UC and CSU systems, California community colleges, and many independent institutions.

The Career Center is YOUR career information center. Students are encouraged to visit the center as early as possible for services, which directly assist them in testing for career choices. Come in and discover all the resources available to assist you in making career and/or college choices. Title V funds provide extended hours and services to our students. The Career Center is located in Room 275 for more information, call (559) 925-3388.

STUDENT GOVERNMENT ASSOCIATION OFFICES

Lemoore Student Government Association offices are located in the portables 507 next to the snack bar and bookstore. A student lounge is located in room 256 (adjacent to the Conference Center). The Student Lounge offers excellent information about activities for the individual student. The Student Lounge belongs to all students, every effort should be made to keep it neat, clean and presentable at all times.

TUTORIAL SERVICES

The tutorial program at West Hills College serves the Lemoore campus and NASL students. The tutorial services are free to all West Hills College students, take advantage of this valuable service.

The tutors are students referred to the program by instructors because of outstanding accomplishments in their subject areas. After completing at least one workshop, the students are certified and allowed to tutor. Two workshops are

offered: one entitles a tutor to a regular certificate, and the second, to an advanced certificate.

The tutorial centers are located in the college libraries and are open weekdays.

The College Reading and Learning Association, an international organization, has certified the West Hills College Tutoring Program.

VETERANS OFFICE

The Veterans Affairs Office is located at the West Hills College Lemoore campus. The office is here to help veterans continue their education and/or training and to help with any veteran-related problem.

How to minimize hang-ups and hassles when you are receiving V.A. benefits:

If you are a new student, make sure that you have provided the office with the following:

- Certified copies of marriage certificate, and birth certificates of dependent children, (Not required for all chapters. Please ask veterans' clerk for details.)
- Certified copies of DD-214 (s)
- Transcripts from any other colleges you may have attended
- Completed V.A. application
- If you are a new or continuing student, you must see a counselor each semester you plan to attend to ensure that class choices meet degree requirements
- Notify the V.A. clerk when you register
- Take a copy of any letter you receive from the V.A. Regional Office to the campus office, if you need assistance

If your check doesn't arrive by the second day of the month, don't panic. Checks are issued throughout the month.

- The V.A. no longer allows advanced pay for all chapters. You must earn your check before it is mailed to you. (The newest chapters require a monthly self-certification.)
- Report address changes or class load changes to Veterans' Clerk - 925-3341 at Lemoore.

- If you are attending more than one college concurrently, you cannot be certified for more than one semester. You will not be certified unless a copy of the other school's transcript is on file.
- Avoid having someone else call for you when you need assistance or have questions. We need first-hand information in order to help you.

If you can't remember all the above hints, keep this one in mind: Notify the veterans office at West Hills College whenever there has been a change in address, units, or dependents. It may be a minor inconvenience, but will save a major annoyance later.

Most Common Pay Problems

No Check

- Wrong address.
- Check absorbed by overpayment.
- File located at some other Regional Office.
- Student has over 70 units and/or a degree at a junior college.

Wrong Amount

- Veteran failed to notify college V.A. office of change in units.
- Dependent child has turned 18 years of age.
- Veteran has been out of school more than two semesters, and has not recertified his/her marital status.
- Veteran and spouse have been divorced and failed to submit a final decree.

If you have any questions, please come in and see us. We are located at the West Hills College Lemoore Administration Building.

SOCIAL ACTIVITIES

While the Student Government Association through the Dean of Student Services hosts a number of social events, the recognized clubs of the college sponsors most of the social functions.

In order to promote a balanced social life on the campus and to avoid conflicts of interest, a semester Activity Calendar is developed. All events should be registered with the Inter-Club Council as far in advance as possible. Any change in schedule should be reported promptly.

Officers of all organizations should acquaint themselves with the regulations and procedures that have proved to be necessary for the successful sponsoring of social events. An outline of these regulations and procedures is available in the SGA office.

ATHLETICS

The "Golden Eagles" participate in the Central Valley Conference for women's and men's soccer as well as women's and men's golf. West Hills College Lemoore competes in:

- Men's Soccer
- Women's Soccer
- Men's Golf
- Women's Golf
- Cross Country
- Wrestling

These sports are open to all full-time students. Equipment is provided both for practice and for competition.

Students interested in managing the varsity teams should apply to the head coach of the respective team.

Athletic honors are awarded upon the recommendation of the coach and are presented at the end of each sport season.

No student shall be eligible to participate in any athletic contest unless he/she is currently enrolled in a minimum of 12 units of work in a regular or special course defined in the curriculum of the college. Any student who wishes to participate in athletics should verify eligibility with the coach of the sport well in advance of the season.

ACCIDENTS, INJURIES AND HEALTH PROBLEMS

If required, a student should transport themselves for treatment. If the student is unable to transport him or herself, a staff member should contact the student's spouse, family or friends to arrange transportation. If these two initial options

have been exhausted, and the use of an ambulance is not indicated, a West Hills employee will drive the student. Calling an ambulance can result in an expense to the student depending upon their insurance coverage. This should only occur when necessary, or if the student requests it.

Student athletes should be referred to the WHC athletic trainer for sports-related accidents/injuries. The student accident insurance is a secondary insurance, to be utilized after the benefits of a primary insurance have been applied. Student accident insurance applies only to supervised school activities and may not cover all charges.

The instructor/coach is generally the first person to observe accidents or illness of students. The college has a published Emergency Preparedness Plan, which should be in every classroom. Please read the chart and be familiar with its contents. Call 911 if the situation is deemed an emergency. If an accident does occur, make sure an accident report is completed.

FINANCIAL AID

Financial assistance for college expenses comes in many forms.

SCHOLARSHIPS

Scholarships are available from a variety of community, state and private sources. Scholarships target students with particular qualifications including academic strength, field of study, or heritage. A comprehensive list of scholarships available to West Hills College Lemoore students is available at <http://www.westhillscollge.com/lemoore/academics/scholarships/index.asp> or you can search nationally using Fast Web at www.fastweb.com

GRANTS

Grants are available from the federal and state governments to students who meet the established income guidelines.

Pell Grants

These are federal monies provided to United States citizens and eligible non-citizens that are enrolled in college courses leading toward a degree or certificate. To apply, complete the Free Application for Federal Student Aid (FAFSA) at

www.fafsa.ed.gov. After submitting your online application, you will receive a student aid report (SAR) that must be reviewed for accuracy. Any corrections can be easily made on the FAFSA website. Your FAFSA information will be sent to West Hills College Lemoore and eligible students will receive their grant funds in three checks per semester. Eligibility is determined by income level and enrollment.

Cal Grants

These are state funded grants available to students that are legal California residents. Cal Grants A,B, & C all require that students complete a FAFSA and have their school submit their GPA. Incoming freshmen must have their high school GPA submitted by their high school. GPAs for students that have completed 24 or more units at WHC are submitted automatically. FAFSA applications must be submitted by March 2 to be considered for Cal Grants.

SEOG Grants

Supplemental Opportunity Grants are federal monies for undergraduates only. Awards are based on need and the limited availability of SEOG funds.

EOPS Grants

Extended Opportunity Program and Services Grants are available to California residents that meet need and additional eligibility requirements. More information can be obtained from the EOPS staff in the Administration Building.

FEE WAIVERS

Fee Waivers are available to California residents who meet the income requirements set by the Board of Governors. Fee waivers cover tuition charges at California Community Colleges.

WORK STUDY

Provides students with an opportunity to earn while they learn. Campus based, part-time employment is available through an application and hiring process.

LOANS

Loans are an option available to all students; however, it is important to note that loans do require repayment upon degree completion or withdrawal from school.

DIRECT STUDENT LOANS

These loans require a completed FAFSA and an additional loan application. Entrance counseling is also a required element of the loan application process. Student loans enter repayment six months after a student withdraws or drops below half-time status. Brochures are available in the financial aid office.

EMERGENCY LOANS

Emergency loans of up to \$100 are available to students experiencing extreme circumstances. Applications are available at the financial aid office. These 30-day loans are interest free.

IMPORTANT DATES AND DEADLINES

January 1	FAFSA filing period begins
March 2	Deadline for Cal Grant A&B
September 2	Deadline for competitive Cal Grant

DISQUALIFICATION

A student may be disqualified from financial aid if he/she fails to make academic progress. More information on this policy is available in the financial aid publication SAP (Satisfactory Academic Progress/how it affects you).

REINSTATEMENT

A student may appeal decisions regarding financial aid in writing to the Financial Aid Coordinator. Written appeals must be received within 10 days of the imposed decision. The Director may authorize the reinstatement of a disqualified student, if it does not conflict with federal or state regulations on financial aid. Appeal forms are available in the financial aid office.

OVERPAYMENTS

Students who collect financial aid for classes they stopped attending will be charged for the overpayment. Students owing overpayments are not eligible for further aid until repayment is made.

STANDARDS OF CONDUCT

ACADEMIC HONESTY

Board Policy 5500

Standards of Student Conduct

Reference: Education Code Section 66300, 66301; Accreditation Standard II.A.7.b

The Chancellor shall establish procedures for the imposition of discipline on students in accordance with the requirements for due process of the federal and state law and regulations. The procedures shall be made widely available to students through the college catalog and other means.

The following conduct shall constitute good cause for discipline including, but not limited to, the removal, suspension or expulsion of a student:

1. Causing, attempting to cause, or threatening to cause physical injury to another person.
2. Open contempt for any safety rules and regulations.
3. Disruption or obstruction of teaching; research; administration; disciplinary proceedings; other West Hills Community college District (WHCCD) activities, including its public service functions on or off campus; or other authorized non-

WHCCD activities when the act occurs on WHCCD premises.

4. Possession, sale or otherwise furnishing any firearm, knife, explosive or other dangerous object including, but not limited to, any facsimile firearm, knife or explosive, unless, in the case of possession of any object of this type, the student has obtained written permission to possess the item from a district employee, which is concurred in by the College President.
5. Unlawful possession, use, sale, offer to sell, furnishing, or being under the influence of, any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the California Health and Safety Code, an alcoholic beverage, or an intoxicant of any kind; or unlawful possession of, offering, arranging or negotiating the sale of any drug paraphernalia defined in California Health and Safety Code Section 11014.5.
6. Committing or attempting to commit robbery or extortion.
7. Causing or attempting to cause damage to district property or to private property on campus.
8. Stealing or attempting to steal district property or private property on campus, or knowingly receiving stolen district property or private property on campus.
9. Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the college or the district.
10. Committing sexual harassment as defined by law or by district policies and procedures.
11. Engaging in harassing or discriminatory behavior based on race, sex (i.e., gender), religion, age, national origin, disability, or any other status protected by law.
12. Willful misconduct which results in injury or death to a student or to college personnel or which results in cutting, defacing, or other injury to any real or personal property owned by the district or on campus.
13. Disruptive behavior, willful disobedience, habitual profanity or vulgarity, or the open and persistent defiance of the authority of, or persistent abuse of, college personnel.
14. Cheating, plagiarism (including plagiarism in a student publication), or engaging in other academic dishonesty.

- The term “cheating” includes, but is not limited to:
 - Use of any unauthorized assistance in taking quizzes, tests, or examinations; o Dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments; or acquisition, without permission, of tests or other academic material belonging to a member of the WHCCD faculty or staff.
 - The term “plagiarism” includes, but is not limited to, the use, by paraphrase or direct quotation, of the published or unpublished work of another person without full and clear acknowledgment. It also includes the unacknowledged use of materials prepared by another person or agency engaged in the buying or selling of term papers or other academic materials.
15. Dishonesty, forgery, alteration or misuse of college documents, records or identification; or knowingly furnishing false information to the district.
 16. Unauthorized entry upon or use of college or district facilities.
 17. Lewd, indecent or obscene conduct on district-owned or controlled property, or at district sponsored
 1. or supervised functions.
 18. Engaging in expression which is obscene, libelous or slanderous, or which so incites students as to create a clear and present danger of the commission of unlawful acts on college or district premises, or the violation of lawful district administrative procedures, or the substantial disruption of the orderly operation of the district.
 19. Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.
 20. Violation of published WHCCD policies, rules or regulations, including those concerning student organization and the use of college facilities or the time, place and manner of public expression or distribution of materials.

21. Violation of federal, state or local law on WHCCD premises or at WHCCD sponsored or supervised activities.
22. Participation in a campus demonstration which disrupts the normal operations of WHCCD and infringes on the rights of other members of the WHCCD community; leading or inciting others to disrupt scheduled and/or normal activities within any campus building or area; intentional obstruction which unreasonably interferes with freedom of movement, either pedestrian or vehicular, on WHCCD premises or at WHCCD sponsored or supervised activities.
23. Unauthorized preparation, giving, selling, transfer, distribution, or publication, for any commercial purpose, of any contemporaneous recording of an academic presentation in a classroom or equivalent site of instruction including, but not limited to, handwritten or typewritten class notes, except as permitted by any district policy or administrative procedure.
24. Theft or other abuse of phones, electronic devices or computer time, including but not limited to:
 - a. Unauthorized entry into a WHCCD system file to use, read, or change the contents or for any other purpose.
 - b. Unauthorized or illegal transfer or downloading of files
 - c. Unauthorized use of another individual's identification and password.
 - d. Unauthorized use of electronic devices in the classroom including, but not limited to, head phones, cellular phones, and pagers.
 - e. Use of computing facilities to interfere with the work of another student, faculty member, or WHCCD staff member.
 - f. Use of computing facilities to download or view material deemed to be lewd, indecent and/or obscene matter that is not education related.
 - g. Use of computing facilities to send obscene or abusive threatening messages.
 - h. Use of computing facilities to interfere with normal operation of WHCCD computing systems.
25. Abuse of the Standards of Student Conduct including, but not limited to:
 - a. Failure to obey the summons of a Student Conduct Hearing Panel or WHCCD official.

- b. Falsification, distortion, or misrepresentation of information.
- c. Disruption or interference with the orderly conduct of a judicial proceeding or Student Conduct Hearing Panel.
- d. Institution of a judicial proceeding or Student Conduct Hearing Panel knowingly without cause.
- e. Attempting to discourage an individual's proper participation in, or use of, the WHCCD judicial system.
- f. Attempting to influence the impartiality of a member of a judicial body prior to and/or during the course of the judicial proceeding or Student Conduct Hearing Panel.
- g. Failure to comply with the sanctions imposed under the Student Code of Conduct and/or Education Code.
- h. Influencing or attempting to influence another person or commit an abuse of the judicial system.

Board approval date: 7/27/10

Administrative Procedure 5520

Student Discipline

The purpose of this procedure is to provide a prompt and equitable means to address violations of the Standards of Student Conduct, which guarantees to the student or students involved the due process rights guaranteed them by state and federal constitutional protections. This procedure will be used in a fair and equitable manner, and not for purposes of retaliation. It is not intended to substitute for criminal or civil proceedings that may be initiated by other agencies.

These Administrative Procedures are specifically not intended to infringe in any way on the rights of students to engage in free expression as protected by the state and federal constitutions, and by Education Code Section 76120, and will not be used to punish expression that is protected.

Definitions:

District – The West Hills Community College District

Student – Any person currently enrolled as a student at any college or in any program offered by the District.

Instructor – Any academic employee of the District in whose class a student subject to discipline is enrolled, or counselor who is providing or has provided services to the student, or other academic employee who has responsibility for the student's educational program.

Short-term Suspension – Exclusion of the student by the College President for good cause from one or more classes for a period of up to ten consecutive days of instruction.

Long-term Suspension – Exclusion of the student by the College President for good cause from one or more classes for the remainder of the school term, or from all classes and activities of the college for one or more terms.

Expulsion – Exclusion of the student by the Board of Trustees from all colleges in the district for one or more terms or permanently.

Removal from class – Exclusion of the student by an instructor for the day of the removal and the next class meeting.

Written or verbal reprimand – An admonition to the student to cease and desist from conduct determined to violate the Standards of Student Conduct. Written reprimands may become part of a student's permanent record at the college. A record of the fact that a verbal reprimand has been given may become part of a student's record at the college for a period of up to one year.

Withdrawal of Consent to Remain on Campus – Withdrawal of consent by the College President or designee for any person to remain on campus in accordance with California Penal Code Section 626.4 where the College President or designee has reasonable cause to believe that such person has willfully disrupted the orderly operation of the campus.

Day – Days during which the District is in session and regular classes are held, excluding Saturdays and Sundays.

Short-term Suspensions, Long-term Suspensions, and Expulsions

Before any disciplinary action to suspend or expel is taken against a student, the following procedures will apply:

- Notice – The Chief Student Services Officer (CSSO) or designee will provide the student with written notice of the conduct warranting the discipline. The written notice will include the following:
 - The specific section of the Standards of Student Conduct that the student is accused
 - of violating.
 - A short statement of the facts supporting the accusation.
 - The right of the student to meet with the CSSO or designee to discuss the
 - Accusation, or to respond in writing.
 - The nature of the discipline that is being considered.

Time limits – The notice must be provided to the student within ten (10) days of the date on which the conduct took place, in the case of continuous, repeated or ongoing conduct, the notice must be provided within five (5) days of the date on which conduct occurred which led to the decision to take disciplinary action.

Meeting – If the student chooses to meet with the CSSO or designee, the meeting must occur no sooner than three (3) days after the notice is provided. At the meeting, the student must again be told the facts leading to the accusation, and must be given an opportunity to respond verbally or in writing to the accusation.

Short-term Suspension – Within five (5) days after the meeting described above, the College President shall, pursuant to a recommendation from the CSSO or designee, decide whether to impose a short-term suspension, whether to impose some lesser disciplinary action, or whether to end the matter. Written notice of the College President's decision shall be provided to the student. The notice will include the length of time of the suspension, or the nature of the

lesser disciplinary action. The College President's decision on a short-term suspension shall be final.

Long-term Suspension – Within five (5) days after the meeting described above, the College President shall, pursuant to a recommendation from the CSSO or designee, decide whether to impose a long-term suspension. Written notice of the College President's decision shall be provided to the student. The notice will include the right of the student to request a formal hearing before a long-term suspension is imposed, and a copy of this administrative procedure describing the procedures for a hearing.

Expulsion Within ten (1) days after the meeting described above, the College President shall, pursuant to a recommendation from the CSSO or designee, decide whether to recommend expulsion to the Chancellor for recommendation to the Board of Trustees. Written notice of the College President's decision shall be provided to the student. The notice will include the right of the student to request a formal hearing before expulsion is imposed, and a copy of this administrative procedure describing the procedures for a hearing.

Hearing Procedures

- Request for Hearing – Within five (5) days after receipt of the College President's decision regarding a long-term suspension or expulsion, the student may request a formal hearing. The request must be made in writing to the College President or designee.
- Schedule of Hearing – The formal hearing shall be held within fifteen (15) days after a formal request for hearing is received.
- Hearing Panel – The hearing panel for any disciplinary action shall be composed of one administrator, one faculty member, and one student.

The College President, the president of the Academic Senate, and the Associated Student Body President shall each, at the beginning of the academic year, establish a list of at least six (6) persons (2 persons each) who will serve on student disciplinary hearing panels. The College President shall appoint the hearing panel from the names on

these lists. However, no administrator, faculty member or student who has any personal involvement in the matter to be decided, who is a necessary witness, or who could not otherwise act in a neutral manner shall serve on a hearing panel.

- Hearing Panel Chair – The College President shall appoint one member of the panel to serve as the chair. The decision of the hearing panel chair shall be final on all matters relating to the conduct of the hearing unless there is a vote by both other members of the panel to the contrary.
- Conduct of the Hearing – The members of the hearing panel shall be provided with a copy of the accusation against the student and any written response provided by the student before the hearing begins.
- The facts supporting the accusation shall be presented by a college representative who shall be the CSSO or designee
- The college representative and the student may call witnesses and introduce oral and written testimony relevant to the issues of the matter.
- Formal rules of evidence shall not apply. Any relevant evidence shall be admitted.
- Unless the hearing panel determines to proceed otherwise, the college representative and the student shall each be permitted to make an opening statement. Thereafter, the college representative shall make the first presentation, followed by the student. The college representative may present rebuttal evidence after the student completes his or her evidence. The burden shall be on the college representative to prove by substantial of evidence that the facts alleged are true.
- The student may represent himself or herself, and may also have the right to be represented by a person of his or her choice except that the student shall not be represented by an attorney unless, in the judgment of the hearing panel, complex legal issues are involved. If the student wishes to be represented by an attorney, a request must be presented not less than five days prior to the date of the hearing. If the student is permitted to be represented by an attorney, the college representative may request legal assistance. The hearing panel may also request legal assistance; any legal advisor provided to the panel may sit with it in an advisory capacity to provide

legal counsel but shall not be a member of the panel nor vote with it.

- Hearings shall be closed and confidential unless the student requests that it be open to the public. Any such request must be made no less than five (5) days prior to the date of the hearing.
- In a closed hearing, witnesses shall not be present at the hearing when not testifying, unless all parties and the panel agree to the contrary.
- The hearing shall be recorded by the District either by tape recording or stenographic recording, and shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. In the event the recording is by tape recording, the hearing panel chair shall, at the beginning of the hearing, ask each person present to identify themselves by name, and thereafter shall ask witnesses to identify themselves by name. Tape recording shall remain in the custody of the District at all times, unless released to a professional transcribing service. The student may request a copy of the tape recording.
- All testimony shall be taken under oath; the oath shall be administered by the hearing panel chair. Written statements of witnesses under penalty of perjury shall not be used unless the witness is unavailable to testify. A witness who refuses to be tape recorded is not unavailable.
- Within five (5) days following the close of the hearing, the hearing panel shall prepare and send to the College President a written decision. The decision shall include specific factual findings regarding the accusation, and shall include specific conclusions regarding whether any specific section of the Standards of Student Conduct were violated. The decision shall also include a specific recommendation regarding the disciplinary action to be imposed, if any. The decision shall be based only on the record of the hearing, and not on matter outside of that record. The record consists of the original accusation, the written response, if any, of the student, and the oral and written evidence produced at the hearing.

College President's Decision

- Long-term suspension – Within five (5) days following receipt of the hearing panel's recommended decision, the College President shall render a final written decision. The College President may accept, modify or reject the findings, decisions and recommendations of the hearing panel. If the College President modifies or rejects the hearing panel's decision, the College President shall review the record of the hearing, and shall prepare a new written decision which contains specific factual findings and conclusions. The decision of the College President shall be final.
- Expulsion – Within five (5) days following receipt of the hearing panel's recommended decision, the College President shall render a written recommended decision to the Chancellor who shall forward the recommendation to the Board of Trustees. The Chancellor may accept, modify or reject the findings, decisions and recommendations. If the Chancellor modifies or rejects the decision, he or she shall review the record of the hearing and shall prepare a new written decision which contains specific factual findings and conclusions. The Chancellor's decision shall be forwarded to the Board of Trustees.

Board of Trustees Decision

- The Board of Trustees shall consider any recommendation from the Chancellor for expulsion at the next regularly scheduled meeting of the Board after receipt of the recommended decision.
- The Board shall consider an expulsion recommendation in closed session, unless the student has requested that the matter be considered in a public meeting in accordance with these procedures. (Education Code Section 72122).
- The student shall be notified in writing, by registered or certified mail or by personal service, at least three days prior to the meeting, of the date, time, and place of the Board's meeting.
- The student may, within forty-eight hours after receipt of the notice, request that the hearing be held as a public meeting.
- Even if a student has requested that the Board consider an expulsion recommendation in a public meeting, the Board

will hold any discussion that might be in conflict with the right to privacy of any student other than the student requesting the public meeting in closed session.

- The Board may accept, modify or reject the findings, decisions and recommendations of the Chancellor and/or the hearing panel. If the Board modifies or rejects the decision, the Board shall review the record of the hearing, and shall prepare a new written decision which contains specific factual findings and conclusions. The decision of the Board shall be final.
- The final action of the Board on the expulsion shall be taken at a public meeting, and the result of the action shall be a public record of the District.

Immediate Interim Suspension (Education Code Section 66017)

The College President and/or designee may order immediate suspension of a student where he or she concludes that immediate suspension is required to protect lives or property and to ensure the maintenance of order. In cases where an interim suspension has been ordered, the time limits contained in these procedures shall not apply, and all hearing rights, including the right to a formal hearing where a long-term suspension or expulsion is recommended, will be afforded to the student within ten (10) days.

Removal from Class (Education Code Section 76032)

Any instructor may order a student removed from his or her class for the day of the removal and the next class meeting. The instructor shall immediately report the removal to the College President and the CSSO or designee. The CSSO or designee shall arrange for a conference between the student and the instructor regarding the removal. If the instructor or the student requests, the CSSO or designee shall attend the conference. The student shall not be returned to the class during the period of the removal without the concurrence of the instructor. Nothing herein will prevent the CSSO or designee from recommending further disciplinary procedures in

accordance with these procedures based on the facts which led to the removal.

Withdrawal of Consent to Remain on Campus

The CSSO or designee may notify any person for whom there is a reasonable belief that the person has willfully disrupted the orderly operation of the campus that consent to remain on campus has been withdrawn. If the person is on campus at the time, he or she must promptly leave or be escorted off campus. If consent is withdrawn by the CSSO or designee, a written report must be promptly made to the College President.

The person from whom consent has been withdrawn may submit a written request for a hearing on the withdrawal within the period of the withdrawal. The request shall be granted not later than seven days from the date of receipt of the request. The hearing will be conducted in accordance with the provisions of this procedure relating to interim suspensions.

In no case shall consent be withdrawn for longer than twenty (20) days from the date upon which consent was initially withdrawn. Any person as to whom consent to remain on campus has been withdrawn who knowingly reenters the campus during the period in which consent has been withdrawn, except to come for a meeting or hearing, is subject to arrest. (Penal Code Section 626.4)

Time Limits

Any times specified in these procedures may be shortened or lengthened if there is mutual concurrence by all parties.

Board approval date: 7/27/10

Administrative Procedure 5530 Student Rights and Grievances

Reference: *Title IX, Education Amendments of 1972; Education Code Section 76224(a)*

The purpose of this procedure is to provide a prompt and equitable means of resolving student grievances. These procedures shall be available to any student who reasonably believes a college decision or

action has adversely affected his or her status, rights or privileges as a student. The procedures shall include, but not be limited to, grievances regarding:

- Sex discrimination as prohibited by Title IX of the Higher Education Amendments of 1972
- Sexual harassment
- Financial aid
- Illegal discrimination
- Course grades, to the extent permitted by Education Code Section 76224(a), which provides: "When grades are given for any course of instruction taught in a community college District, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetency, shall be final." "Mistake" may include, but is not limited to, errors made by an instructor in calculating a student's grade and clerical errors.
- The exercise of rights of free expression protected by state and federal constitutions and Education Code Section 76120

This procedure does not apply to:

- Student disciplinary actions, which are covered under separate Board policies and Administrative Procedures
- Police citations (i.e. "tickets"); complaints about citations must be directed to the County Courthouse in the same way as any traffic violation

Definitions

- Party – The student or any persons claimed to have been responsible for the student's alleged grievance, together with their representatives. "Party" shall not include the Grievance Hearing Committee or the College Grievance Officer.
- President – The College President or a designated representative of the College President.
- Student – A currently enrolled student, a person who has filed an application for admission to the college, or a former student. A grievance by an applicant shall be limited to a

complaint regarding denial of admission. Former students shall be limited to grievances relating to course grades to the extent permitted by Education Code Section 76224(a).

- **Respondent** – Any person claimed by a grievant to be responsible for the alleged grievance.
- **Day** – Unless otherwise provided, day shall mean a day during which the college is in session and regular classes are held, excluding Saturdays and Sundays.

Informal Resolution

Each student who has a grievance shall make a reasonable effort to resolve the matter on an informal basis prior to requesting a grievance hearing, and shall attempt to solve the problem with the person with whom the student has the grievance, that person's immediate supervisor, or the local college administration. In matters involving a disputed course or test grade, students should attempt to resolve the matter with the instructor before involving the administration.

The College President shall appoint an employee who shall assist students in seeking resolution by informal means. This person shall be called the Grievance Officer (Chief Instructional Officer or designee). The Grievance Officer and the student may also seek the assistance of the Associated Student Organization in attempting to resolve a grievance informally.

Informal meetings and discussion between persons directly involved in a grievance are essential at the outset of a dispute and should be encouraged at all stages. An equitable solution should be sought before persons directly involved in the case have stated official or public positions that might tend to polarize the dispute and render a solution more difficult. At no time shall any of the persons directly or indirectly involved in the case use the fact of such informal discussion, the fact that a grievance has been filed, or the character of the informal discussion for the purpose of strengthening the case for or against persons directly involved in the dispute or for any purpose other than the settlement of the grievance.

Any student who believes he or she has a grievance shall file a Complaint/Incident/Grievance Form with the Grievance Officer within

ten (10) days of the incident on which the grievance is based, or ten (10) days after the student learns of the basis for the grievance, whichever is later. The Complaint/Incident/Grievance Form must be filed whether or not the student has already initiated efforts at informal resolution, if the student wishes the grievance to become official. Within two days following receipt of the Complaint/Incident/Grievance Form, the Grievance Officer shall advise the student of his or her rights and responsibilities under these procedures, and assist the student, if necessary, in the final preparation of the Statement of Grievance form.

If at the end of ten (10) days following the student's first meeting with the Grievance Officer, there is no informal resolution of the complaint which is satisfactory to the student, the student shall have the right to request a grievance hearing.

Grievance Hearing Committee

The College President shall, at the beginning of each semester, including any summer session, establish a standing panel of nine (9) members of the college community, including three (3) students, three (3) faculty members and three (3) administrators, from which one or more Grievance Hearing Committees may be appointed. The panel will be established with the advice and assistance of the Associated Students Organization and the Academic Senate, who shall each submit three (3) names to the College President for inclusion on the panel. A Grievance Hearing Committee shall be constituted in accordance with the following:

- The Grievance Officer shall select three (3) individuals from the panel to serve on the Grievance Hearing Committee. It shall include one (1) student, one (1) instructor, and one college administrator selected from the panel described above.
- No person shall serve as a member of a Grievance Hearing Committee if that person has been personally involved in any matter giving rise to the grievance, has made any statement on the matters at issue, or could otherwise not act in a neutral manner. Any party to the grievance may challenge for cause any member of the hearing committee prior to the beginning

of the hearing by addressing a challenge to the College President who shall determine whether cause for disqualification has been shown. If the College President feels that sufficient grounds for removal of a member of the committee has been presented, the College President shall remove the challenged member or members and substitute a member or members from the panel described above. This determination is subject to appeal as defined below.

- The Grievance Officer shall sit with the Grievance Hearing Committee but shall not serve as a member nor vote. The Grievance Officer shall coordinate all scheduling of hearings, shall serve to assist all parties and the Hearing Committee to facilitate a full, fair and efficient resolution of the grievance, and shall avoid an adversary role.

Request for Grievance Hearing

Any request for a grievance hearing shall be filed on a Request for Grievance Hearing Form within ten (10) days after filing the Complaint/Incident/Grievance Form as described above.

Within twenty (20) days following receipt of the Request for Grievance Hearing, the College President shall appoint a Grievance Hearing Committee as described above, and the Grievance Hearing Committee shall meet in private and without the parties present to select a chair and to determine on the basis of the Statement of Grievance whether it presents sufficient grounds for a hearing.

The determination of whether the Statement of Grievance presents sufficient grounds for a hearing shall be based on the following:

- The statement contains facts which, if true, would constitute a grievance under these procedures;
- The grievant is a student as defined in these procedures, which include applicants and former students;
- The grievant is personally and directly affected by the alleged grievance;
- The grievance was filed in a timely manner;

- The grievance is not clearly frivolous, clearly without foundation, or clearly filed for purposes of harassment.

If the grievance does not meet each of the requirements, the Hearing Committee chair shall notify the student in writing of the rejection of the Request for a Grievance Hearing, together with the specific reasons for the rejection and the procedures for appeal. This notice will be provided within ten (10) days of the date the decision is made by the Grievance Hearing Committee.

If the Request for Grievance Hearing satisfies each of the requirements, the College Grievance Officer shall schedule a grievance hearing. The hearing will begin within twenty (20) days following the decision to grant a Grievance Hearing. All parties to the grievance shall be given not less than five (5) days notice of the date, time and place of the hearing.

Hearing Procedure

The decision of the Grievance Hearing Committee chair shall be final on all matters relating to the conduct of the hearing unless there is a vote of a majority of the other members of the panel to the contrary.

The members of the Grievance Hearing Committee shall be provided with a copy of the grievance and any written response provided by the respondent before the hearing begins.

Each party to the grievance may call witnesses and introduce oral and written testimony relevant to the issues of the matter.

Formal rules of evidence shall not apply. Any relevant evidence shall be admitted.

Unless the Grievance Hearing Committee determines to proceed otherwise, each party to the grievance shall be permitted to make an opening statement. Thereafter, the grievant or grievants shall make the first presentation, followed by the respondent or respondents. The grievant(s) may present rebuttal evidence after the respondent(s)' evidence. The burden shall be on the grievant(s) to prove by substan-

tial evidence that the facts alleged are true and that a grievance has been established as specified above.

Each party to the grievance may represent himself or herself, and may also have the right to be represented by a person of his or her choice; except that a party shall not be represented by an attorney unless, in the judgment of the Grievance Hearing Committee, complex legal issues are involved. If a party wishes to be represented by an attorney, a request must be presented to the Grievance Officer not less than ten (10) days prior to the date of the hearing. If one party is permitted to be represented by an attorney, any other party shall have the right to be represented by an attorney. The hearing committee may also request legal assistance through the College President. Any legal advisor provided to the hearing committee may sit with it in an advisory capacity to provide legal counsel but shall not be a member of the panel nor vote with it.

Hearings shall be closed and confidential unless all parties request that it be open to the public. Any such request must be made to the Grievance Officer no less than five (5) days prior to the date of the hearing.

In a closed hearing, witnesses shall not be present at the hearing when not testifying, unless all parties and the committee agree to the contrary.

The hearing shall be recorded by the Grievance Officer either by tape recording or stenographic recording, and shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. In the event the recording is by tape recording, the Grievance Hearing Committee Chair shall, at the beginning of the hearing, ask each person present to identify themselves by name, and thereafter shall ask witnesses to identify themselves by name. The tape recording shall remain in the custody of the District, either at the college or the District office, at all times, unless released to a professional transcribing service. Any party may request a copy of the tape recording.

All testimony shall be taken under oath; the oath shall be administered by the Grievance Hearing Committee Chair. Written statements of witnesses under penalty of perjury shall not be used unless the witness is unavailable to testify. A witness who refuses to be tape recorded shall be considered to be unavailable.

Within ten (10) days following the close of the hearing, the Grievance Hearing Committee shall prepare and send to the College President a written decision. The decision shall include specific factual findings regarding the grievance, and shall include specific conclusions regarding whether a grievance has been established as defined above. The decision shall also include a specific recommendation regarding the relief to be afforded the grievant, if any. The decision shall be based only on the record of the hearing, and not on matter outside of that record. The record consists of the original grievance, any written response, and the oral and written evidence produced at the hearing.

President's Decision

Within ten (10) days following receipt of the Grievance Hearing Committee's decision and recommendation(s), the College President shall send to all parties his or her written decision, together with the Hearing Committee's decision and recommendations. The College President may accept or reject the findings, decisions and recommendations of the Hearing Committee. The factual findings of the Hearing Committee shall be accorded great weight; and if the College President does not accept the decision or a finding or recommendation of the Hearing Committee, the College President shall review the record of the hearing, and shall prepare a new written decision which contains specific factual findings and conclusions. The decision of the College President shall be final, subject only to appeal as provided below.

Appeal

Any appeal relating to a Grievance Hearing Committee decision that the Statement of Grievance does not present a grievance as defined in these procedures shall be made in writing to the College President within ten (10) days of that decision. The College President shall review the Statement of Grievance and Request for Grievance Hearing in accordance with the requirements for a grievance provided in these procedures, but shall not consider any other matters. The College

President's decision whether or not to grant a grievance hearing shall be final and not subject to further appeal.

Any party to the grievance may appeal the decision of the College President after a hearing before a Grievance Hearing Committee by filing an appeal with the Chancellor. The Chancellor may designate a District administrator to review the appeal and make a recommendation.

- Any such appeal shall be submitted in writing within five days following receipt of the College President's decision and shall state specifically the grounds for appeal.
- The written appeal shall be sent to all concerned parties. All parties may submit written statements on the appeal.
- The Chancellor or designee shall review the record of the hearing and the documents submitted in connection with the appeal, but shall not consider any matters outside of the record. Following the review of the record and appeal statements, the Chancellor or designee, if any, shall make a written recommendation to the College President regarding the outcome of the appeal.
- The Chancellor may decide to sustain, reverse or modify the decision of the College President. The Chancellor's decision shall be in writing and shall include a statement of reasons for the decision. The Chancellor's decision shall be final.
- The decision on appeal shall be reached within five days after receipt of the appeal documents. Copies of the Chancellor's appeal decision shall be sent to all parties.

Time Limits

Any times specified in these procedures may be shortened or lengthened if there is mutual concurrence by all parties.

STUDY HABITS

1. Set a regular time to study. Don't delay - have all materials ready. Make up a time schedule for a week (seven days). Plan your study time - and stick to that plan, work your plan.

2. Have a regular quiet place to study. No distractions (or as few as possible). Have a dictionary and all other materials handy (pencils, paper, calculator, etc.). A straight-back chair is recommended.
 3. Keep a "things I have to do" list. Keep it accurate. List dates that assignments and projects are due. Watch long-term assignments - don't wait until the last minute to start.
 4. Allow enough time for each assignment. Start with the toughest or least favorite task. Take a short break now and then. Keep up with assignments, day by day, or within the respective week, at the very least. This avoids your having to "cram."
 5. Make good use of time before and after class. Review your notes and "fill in" information immediately after class before your memory fades. Refresh your memory before class so you can focus your attention on the topic.
 6. Give full attention to your work. Use every minute of class time profitably. Train yourself to listen-most communication is oral. Pick up on the structure of the lecture or discussion. Be ready to respond. Know and understand the assignment.
 7. Read to understand ideas, concepts and vocabulary. Check that you understand the meaning of each sentence and paragraph. Vocabulary and reading skills are absolutes for success - in college and in our society. A dictionary will come in handy.
 8. Neatness always counts. Make your papers neat, complete and hand them in on time. Ask yourself, is it neat, in ink or typewritten form, on 8 1/2 x 11" white paper - with no grammatical or spelling errors? If not, do it again - correctly!
 9. Follow a study system (a) survey the material before reading it; (b) ask yourself questions about the material; (c) read the material and look for answers to your questions; (d) recite the material while underlining, outlining and/or writing a summary; and (e) review from your summary, outline, or underline material.
 10. Be strict with yourself. Success is earned through effort and work. Force yourself to learn the habits that are necessary to achieve success.
- IMPORTANT!!! If a study skill problem develops, DON'T WAIT! See your instructor - as soon as possible - during his/her office hours or contact your counselor.

HOW TO TAKE EXAMS

1. Prepare early for examinations. Begin during the first week of the semester. Study day-by-day, week-by-week.

Will the exam cover all or part of the course? Will it be based on textbook reading, lectures, or both? Be sure that you know. Study what you do not know. Do know the vocabulary. Cooperative study with others is helpful. Cramming (if you absolutely must): (1) Review intensively a week before the examination; (2) cramming on material previously learned may be helpful; but (3) cramming on new material won't work! Think positively - most people pass examinations.

2. Taking the test - Relax on the night before the examination, but no TV. Activities that tax the mind tend to interfere with learning and/or retention. Be early and follow directions to the letter. Bring a pencil and pen (as necessary). Ignore other students in the class - they have their own problems. Don't panic if your mind goes blank on a question. Move on and then come back to it later - if you have the time. Skim over the entire test quickly. Note the time allowed and number of questions.

3. Objective Tests - read the directions first - then skim the entire test. Find out if there is a penalty for guessing. Beware of changing answers, unless you obviously misread the questions. On true/false questions, look for the key words, (always-never-seldom usual). On multiple-choice questions, eliminate the obviously incorrect answers first. Skip difficult questions on first read-through. Return to them later, if you have the time. On matching, answer immediately those items of which you are sure - and check them off. Then guess at the rest. Always plan your time -estimating the time needed per question.

4. Essay Tests - Skim over the entire test first. Note the number of points assigned to each question, then plan your time accordingly. Answer the easy questions first, leaving appropriate space for the others. Attempt all questions - whether you are sure of your answers or not. Think about one question at a time. Follow directions (if it says to evaluate, evaluate -don't merely describe). Plan before you write (thesis statements, supporting material, tran-

sitional words and phrases, perhaps a summary). Outline in your mind. Write neatly and in ink. Watch mechanics, such as spelling, punctuation and grammar. If you have time, reread your answers before turning in the test. You just may remember an important additional item.

5. Summary - To build confidence, study carefully - all through the course. Stay in shape both physically and emotionally. Follow directions. Be sure of what is being asked. Plan your time! Stick with your plans. Learn from each test in order to do better on future tests.

When you have done your best, turn in the exam and then relax. Go on to your next task. Don't waste time and energy worrying. You did your best and the exam is history. It's time to cover new territory and challenges in the learning process!

I. Introduction

- A. A brief overview of the college, to include the credit/non-credit enrollments, demographics and a description of the organization of the college with an organizational chart detailing the four categorical programs.*

West Hills College Lemoore is one of two separately accredited colleges within the West Hills Community College District. The college is located in the city of Lemoore, which is about 40 miles southwest of Fresno, California and 17 miles east of the I-5 corridor. The college sits quietly on 100 acres near the crossroads of Highway 41 and Highway 198. Conveniently, the college is situated within 2 - 3 hours from Yosemite and Central Coast cities such as San Luis Obispo. The college serves citizens from the communities of Riverdale, Laton, Lemoore, Caruthers, Hanford, Stratford, Avenal, and the Lemoore Naval Air Base.

The college campus is new, with students and staff moving in during the spring of 2002. The college facilities, instructional programs, and technology are state of the art and the college is well prepared to meet the needs of the twenty-first century. The Strategic Master Plan further demonstrates that the college is on the cutting edge of educational technologies to serve diverse communities. In serving the rural communities, WHCL has taken an active role leading the way with unique programs and marketing outreach activities, along with innovative ideas like “Xtreme Registration.” WHCL takes pride in being the only fully accredited comprehensive college in Kings County.

The history of West Hills College began in 1932 when Fresno State College created a Coalinga Extension Center. In 1941, Coalinga Junior College became an independent unit under the Governing Board of Coalinga High School District. In 1962, the voters in Lemoore annexed to the college district, which officially changed its name to West Hills College in 1969. The first college classroom in Lemoore went up in 1981 and it was called the Kings County Center. In 2002, the Lemoore center of West Hills Community College relocated to a brand new facility thanks in part to a land donation from the Pederson and Simas families. West Hills College Lemoore began the accreditation process to become a comprehensive community college and gained status as the 109th California Community College in June of 2006. Today WHCL has the most advanced library in Kings County, a state-of-the-art science wing called a “Colaboratory,” and a student population that continues to grow.

West Hills College Lemoore’s unduplicated student headcount for 2006-2007 was 6,469 and 7,091 for 2007-2008. Students who enroll at WHCL choose from 24 different programs including 4 System Office approved certificates, 13 Associate of Science degrees and 19 Associate of Arts degree. The newest program is the Registered Nursing program, which received final state approval in the spring of 2008.

The following provides a series of graphics that illustrates WHCL enrollment; and the gender, ethnicity, and age diversity of the student population as well as the student retention and degree completion rates.

WHCL Student Headcount

Year	Count	% Change
2002-03	5,468	
2003-04	5,010	-8.38
2004-05	5,512	10.02
2005-06	5,817	5.53
2006-07	6,469	11.21
2007-08	7,091	9.62

Source: WHCCD Data Warehouse

- A three year trend of steady growth with significant increase on the Main Campus
- Note: due to state budget cuts during the 2003-2004 year, numbers of courses offered were reduced therefore causing a decrease in student headcount.

WHCL Gender:

GENDER	02-03		03-04		04-05		05-06		06-07		07-08

WHCL

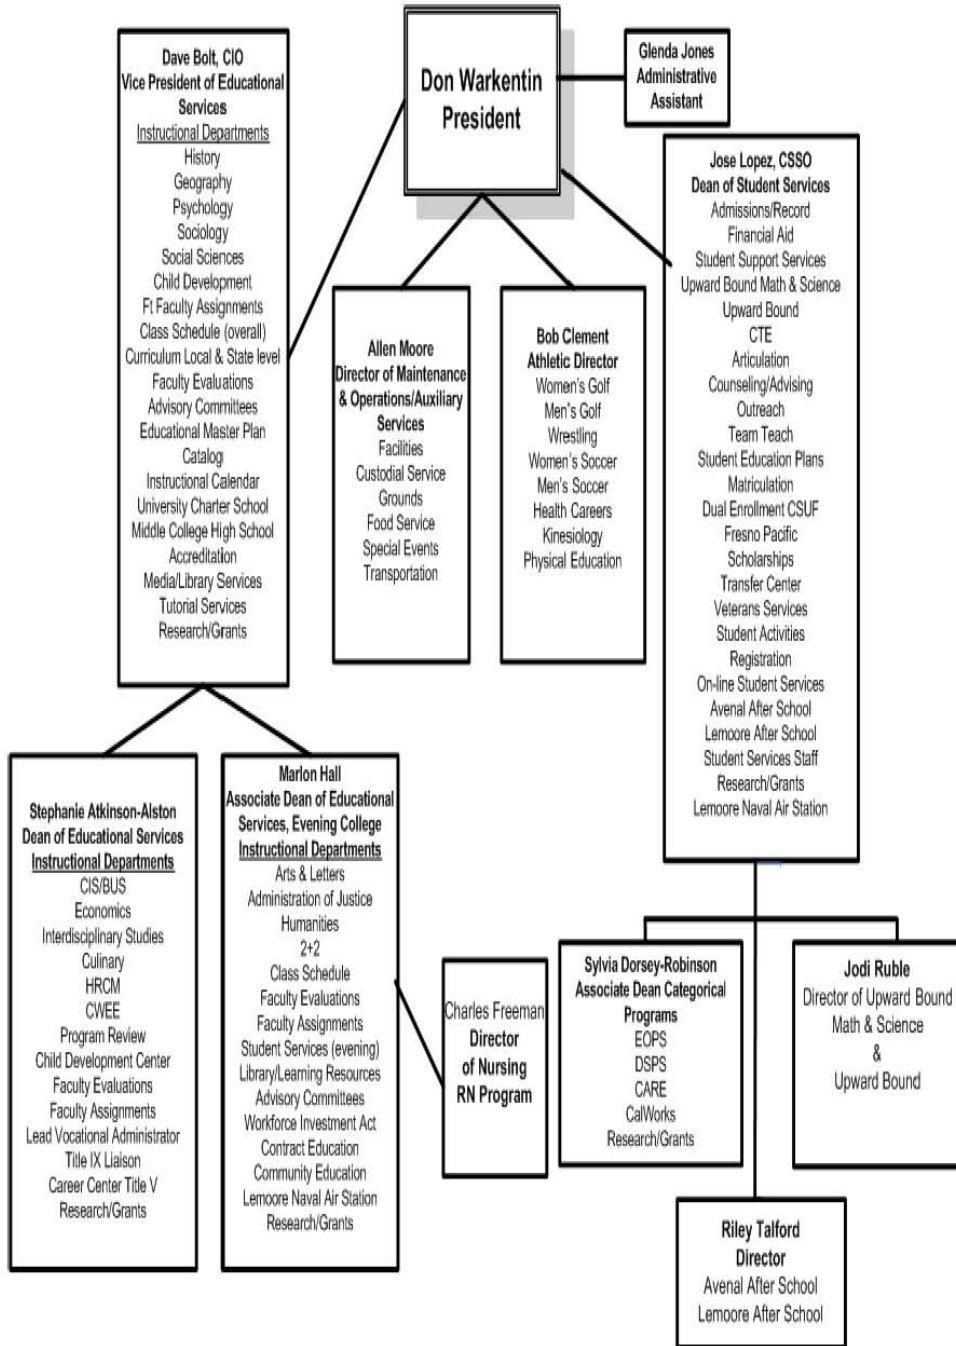

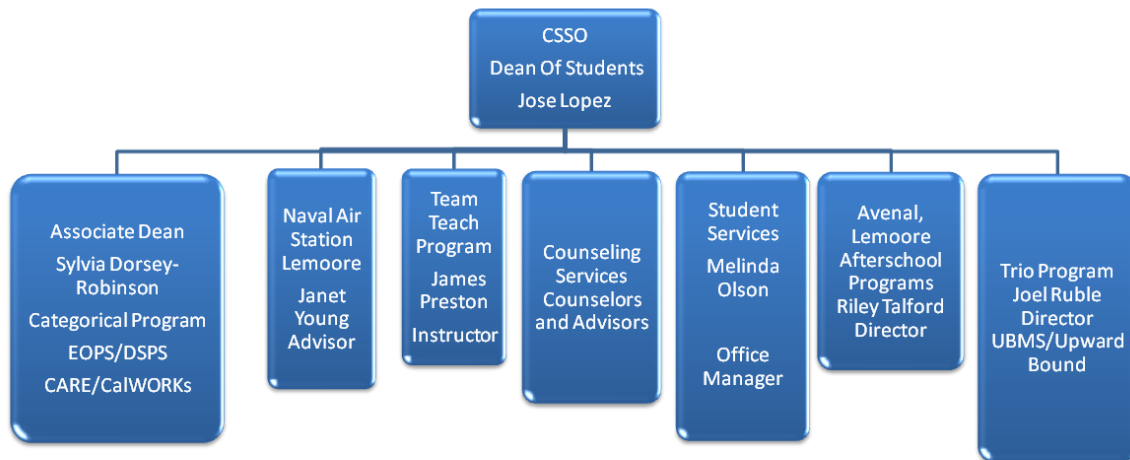

Source for both graphs: National Student Clearing House; WHCCD Data Warehouse
 Methodology: Students who completed at least 12 units at WHCCD before transferring to four year institution.

The college is organized in a traditional manner with a Vice President for Instructional Services (CIO) and a Student Services Dean (CSSO) who oversee their respective areas. Deans and Associate Deans are administrators who oversee other programs within these areas. The following organizational charts will reflect staffing at West Hills College Lemoore.

B. A brief overview of each of the four categorical programs to include number of staff, number of student served annually, facilities/location, and responses to or progress made towards recommendations from your last categorical program or fiscal review, as appropriate.

Matriculation

The West Hills College Lemoore matriculation program provides a process for admission; an orientation to college programs, services and procedures; pre-enrollment assessment and counseling for course selection; a suitable curriculum or program of courses; continuous follow-up on student progress with referral to support services when needed; and a program of institutional research and evaluation.

Admissions processes at WHCL occur primarily electronically. Students typically utilize the online application through CCCApply and the information is imported electronically into the college's Datatel management information system. Whenever application follow-up or additional processing is required it is handled by the WHCL Student Services Assistants or the Student Services Office Manager.

Assessment at WHCL is an organized institutional process that facilitates course placement and selection. This function is critical in determining students' skill level in mathematics, reading and writing and serves as a launch-board for student educational plans. WHCL has cross-trained six Advising Specialists to proctor and process the placement tests throughout the year. Testing is provided in multiple

locations and times across campus with accommodations for students with disabilities as necessary. The goal of WHCL assessment practices is to provide adequate opportunities for students to take advantage of this service. The college assessed over 1,000 students this past year.

Counseling and advising services are a critical component of the matriculation program. The interaction between the counselor/advisor and the student is vital to providing a rewarding college experience and successful matriculation. The focus of the program is to provide academic, career, transfer and personal counseling/advising to assist students in realizing their educational goals. The specific services provided are:

- Assistance in completing the application for admission.
- Orientations to inform students about their college options, programs, services, activities, policies, rights and responsibilities.
- Assistance in utilizing assessment results for appropriate course placement and educating students regarding how their skills relate to academic success.
- Assistance in understanding the entire range of educational opportunities available including vocational, transfer, certificate/degree, and other personal objectives.
- Assistance with career decision making through personality assessment, individual and or group counseling, classes and referrals to the Career/Transfer Center.
- Follow up and counseling services to students experiencing personal/academic problems and making appropriate referrals to: community mental health agencies, Financial Aid, Tutoring, Writing labs, Math labs, DSP&S, and EOPS.

In the 06-07 school years, there were 926 students who matriculated to WHCL. This number reflects those students who participated in assessment, orientation, and/or had contact with a counselor or advisor. There are many more students who took advantage of individual matriculation services in the 06-07 school year; however, for purposes of defining and identifying a matriculated student, the student must have met the aforementioned criteria. All students are afforded the opportunity to utilize the matriculation services; however, not all students elect to participate.

The Administration/Student Services Building is the primary point of contact for matriculation. The student services department has three full-time Student Services Assistants and an Office Manager all located in the lobby area within this building. Additionally, the majority of the counselors and advisors and categorical programs are housed in the administration building. The matriculation funded staff includes a coordinator who is a counselor with 25% matriculation load; five adjunct counselors, one full-time advising specialist, and a part time test proctor. The matriculation program also funds a proportionate amount of time of

three additional full-time counselors, a program development assistant, and the three aforementioned student services assistants.

The college has not had to respond to any recommendations from the last categorical program or fiscal review as this is the second year of full accreditation.

EOPS/CARE

The Extended Opportunity Programs and Services (EOPS) provides over and above supplements to the regular educational programs at WHCL. This is done to encourage the enrollment and retention of students challenged by language, social, and economic disadvantages. EOPS and its companion program CARE (Cooperative Agencies Resources for Education), facilitate the successful completion of participating students' educational goals and objectives. Located in the Student Services Office area are five staff members working directly in the EOPS/CARE programs. Supervising the program and staff is one Associate Dean who also supervises two other categorical programs and one secretary who has responsibilities in those programs as well. Additionally, there are two counselors and one advising specialist serving the EOPS/CARE student population.

In the 06-07 school year, 221 students were served in EOPS and 75 students in CARE. In the 07-08 school year there were 268 students served in EOPS and 52 in CARE.

Because WHCL was recently established as a comprehensive, accredited college in June 2006, there are no recommendations from prior categorical or fiscal reviews.

Disabled Student Program and Services

The mission of West Hills Community College Disabled Student Programs and Services (DSP&S) is to provide equal access to education for disabled students in order that each student has the opportunity to realize his/her full potential. This is accomplished, in part, by providing academic accommodations and support services to students with physical, learning and psychological disabilities. Currently there is fourteen staff supporting the DSP&S students and one volunteer. The certificated staff is composed of the Associate Dean, two DSP&S Counselors and five faculty (one full-time and three part-time). The classified staff consists of one High Technology/Access Specialist, two Learning Skills Program Assistants, one secretary, one part-time mobility driver, and one student driver.

The DSP&S staff is comprised of not only individuals with a variety of education and experience levels, but ethnic groups as well. Of the 14 staff, ethnic diversity is well represented (three- African-Americans, nine Caucasians and three Hispanics).

The student population has continued to grow, going from 356 in 2005-06 to currently 424 students; representing a wide range of individual with disabilities.

DSP&S services are provided in the Administration Building as well as in the Learning Resource Center. In the Administration Building, students are able to meet with a counselor and communicate with the Associate Dean and secretary. In the Learning Resource Center, students are also able to meet with a counselor, access the DSP&S lab, and receive services from the High Technology/Assistive Specialist and Learning Skills Program Assistants.

The college has not had to respond to any recommendations from the last categorical program or fiscal review as this is the second year of full accreditation.

CalWORKs

The CalWORKs Program served approximately 205 students for 2006-2007.

The program is located in the Career/Transfer Center, room 270. The program is strategically located there to provide students with access to computer work stations, program staff, and in close proximity to additional educational and employment resources.

Currently there are four staff supporting the CalWORKs program; an Associate Dean of Categorical Programs, one full time advising specialist, one counselor and a career technician who are full-time but share portions of their time with other programs.

The college has not had to respond to any recommendations from the last categorical program or fiscal review as this is the second year of full accreditation.

II. Collegewide Student Services Integration and Coordination

This section should summarize responses for Student Services as a whole. If there are specific issues for one or two programs, those issues should be described in the appropriate program-specific section.

A. How these four categorical programs work with each other and with other student services programs.

WHCL benefits from the structure and organization of the student services department. Not only is the staff competent in their respective areas, but the culture of the department is such that it encourages communication, collegiality, and support. There is one vision for student services- student success. It is communicated by the Dean of Student Services and passed down to the categorical programs by the Associate Dean and the Matriculation Coordinator. This is reflected and enhanced by the participation and membership of staff in campus wide committees that contribute to institutional effectiveness, planning and sound decision making. As a testimony to this systemic process, the Dean of Student Services holds counseling and advising (C&A) meetings twice a month. These meetings include standing items for each of the categorical programs and committee members to report on campus activities. It is important to note that every counselor and advisor on campus (general, federal categorical and state categorical) participates in the meetings. WHCL is fortunate to have the benefit of the vast majority of the staff located in the administration building.

Additionally, EOPS/CARE, CalWORKs, and DSP&S work closely together; this occurs in many different ways. These programs share a director, the Associate Dean of Categorical Programs. There are monthly staff meetings which deliberately occur right after the counseling and advising meetings. At these meetings each area provides updates and information to the other categorical staff. The purpose of the meeting is for the programs to be of one accord while respecting the individual purpose and intent of each categorical program. This is done by engaging staff in shared decision making for the improvement of all of the programs and identifying ways to serve students and avoid duplication of services. This cohesion of services creates a wrap-around service delivery system for our students

B. How student services works with instruction, institutional research, and the management information systems (MIS).

Student Services works with instruction in a number of venues at WHCL. The Deans meet with the President, program directors, and representatives from the academic area on a monthly basis. Counselors also serve on the Academic Senate, Curriculum Committee, Basic Skills Committee, Bookstore Committee,

Planning and Governance as well as on the Student Success Committee. Additionally, each counselor on staff serves as a liaison to an instructional learning area and attends that department meeting as a representative of student services. This allows for open communication between student services and instruction. At the C&A meetings, the counselor liaison, and as needed the instructional services faculty, deans and directors, present updated reports to the group and/or pass along relevant information to other student services personnel.

A good working relationship exists between the student services department and the Director of Institutional Effectiveness and Planning (WHCCD's Institutional Researcher). The Director of Institutional Effectiveness and Planning provides timely and updated demographic statistical reports that enable the student services staff to analyze and make decisions related to retention, persistence, and success. In addition, the Director of Institutional Effectiveness and Planning customizes reports for the end user and assist in the development, implementation, compilation, and analysis of surveys. Support of program review and student learning outcomes data and training is also provided by the Director of Institutional Effectiveness and Planning. While the Director of Institutional Effectiveness and Planning is a district office employee, he and/or his staff are frequently on the WHCL campus, attend meetings and make themselves available for individual consultations and committee work.

Student Services staff interacts with management information systems (MIS) through training provided on new screens or updates on DATATEL. For MIS reporting, counselors and advisors work with IT specialists to check each others' data for accuracy before it is sent to Sacramento. The Matriculation Coordinator, the Associate Dean of Categorical Programs and the Dean of Students receive MIS reports on a regular basis and these are shared with staff when appropriate. Student services staff work closely with IT staff during the implementation of new programs. Additionally, IT staff is available for on-site training and review of the data elements as well as to collaborate with student services staff to ensure accuracy of MIS reports.

It is important to note that the Instructional Services, Institutional Research, and IT Departments are all genuinely interested in working collaboratively with the Student Services Department and each other for the benefit of students. A perfect example of this collaboration is the Xtreme Registration event. Members of each area volunteer their time to make this event a success every semester. The participation has grown to over 135 volunteers, which include faculty, staff, administration, and district office staff.

C. How are these programs integrated with student equity planning and other strategic planning initiatives of the college?

The Student Equity plan was last updated in January of 2005, before WHCL was accredited as a comprehensive college. Therefore it reflects both West Hills College Coalinga (WHCC) and WHCL as one institution. It is the intention of the Dean of Student Services to create a WHCL Student Equity Plan during the 2008-2009 academic school year. The Dean of Student Services will incorporate the student success and access mandates of the categorical programs within the framework of the WHCL Student Equity Plan. The Dean of Students will establish a timeline for completion of the Student Equity Plan that involves the consultation of representatives of the categorical programs. In addition, the timeline will include dissemination of the WHCL student equity plan through the shared governance strategic planning process.

The categorical program staff are involved in many aspects of strategic planning across campus as evidenced in constituency membership of the WHCL Strategic Planning Team, the Planning and Governance Committee, the Budget Committees, the Educational Master Plan committee and various other standing and ad hoc committees. The staff lends a voice to the access, success, and persistence issues on the various committees reflective of the needs of the categorical programs.

D. How effective the programs are in enabling success for underprepared and underrepresented students? (i.e., are they using data to reassess how services are provided?)

Analysis of student access and success reveals that an overwhelming majority of students in WHCL categorical programs are performing as well as or better than students not participating in categorical programs as evidenced by the table on the following page.

West Hills College Lemoore Revision date: 6/30/2008	All Students	% of all	EOPS (Non- CARE)	% of EOPS	% of all	CARE	% of CARE	% of all	DSP&S	% of DSP&S	% of all	Cal WORKs	% of CalWORKs	% of all

The Dean of Instruction has established a comprehensive timeline for program review and mid-term reporting which is the mechanism for evaluating program effectiveness. This process includes both instructional and non-instructional programs, specifically categorical programs. A comprehensive, ongoing training timeline supports the categorical staff in analyzing data reflective of their programs, particularly students' success and access of underrepresented programs. During the program review process, the Director of Institutional Effectiveness and Planning provides program specific data. Categorical programs use this data to evaluate program effectiveness and implement improvements for student success and access. This process activates the mechanism for strategic planning; which includes the budget allocation committee.

E. How the program directors/coordinators and the business office work together to monitor allowable expenditures and reconcile fiscal reporting.

Program directors, deans, and support staff work closely with the district business office through frequent and ongoing meetings and communications; when necessary, individual consultations are also scheduled. The Matriculation Coordinator, Dean of Students and Associate Dean outline the fiscal management plan in the program plan or the expenditure sheet which is developed and reviewed by the business office. Those documents are approved by the Dean of Students, President, and Vice Chancellor of Business Services prior to submittal to the System Office. These documents are maintained in the business office and serves as a resource and reference for allocations and reporting to the WHCCD Board of Trustees.

The Datatel system provides up-to-date line item expenses and tracks expenditures throughout the year. The system prevents any final procurement before all signatures are collected. The District Office has made themselves available to provide its expertise in fiscal planning and year end close outs. Appropriate categorical and business office staff has access to the same fiscal information in Datatel.

III. Program-Specific Self-Evaluation

Matriculation: Credit and Non-Credit

- A. *Management Information System (MIS) Data Reporting - For access, progress and success, MIS data for the prior three years (2005-06, 2006-07, and 2007-08) will be provided annually by the System Office for each college. Program staff will need to conduct an analysis of the data sent by the System Office. Colleges may also use in-house data to complete this section.*

Questions for Analysis:

1. *How is the categorical program director involved in the review of MIS data before it is submitted to the System Office?*

At least once a semester, usually at the beginning, the Matriculation Coordinator conducts training at the regularly scheduled counseling and advising meeting. This training covers how to properly input the MIS student data so that all contacts can be extracted. The District Programmer/Analyst extracts the MIS data from Datatel and places it into a readable Excel format for review by the Matriculation Coordinator. The data is put into tabular reports to help identify weaknesses; as well as measure overall counts more easily. The Coordinator reviews the data for accuracy. Prior to the final extract, the Matriculation Coordinator in collaboration with the Dean of Students notifies students services personnel that all appropriate and/or corrected data must be input into the system by a specified date. Student Services personnel correct and update the data before the date specified. The final data extract occurs at this point and is sent to the System Office.

2. *Do the data appear to be accurate? Do the numbers of students in the MIS report match your program records?*

The overall count of students in the matriculation report is accurate given the enrollment at the college. For the matriculation program, the number of students in the MIS report matches the program records, because the data that is being reported is filed electronically into the very database used for reporting. In the matriculation program, the majority of documentation is housed in the MATI screen of Datatel; the MIS reporting software reads these same fields. Additionally, transcripts from other colleges are scanned into an electronic database as are the student education plans. These electronic files are available to counselors and advisors and become an official part of the student files. Students in the categorical programs are included in Matriculation. However, the data

relies on counselors/advisors to hand input the correct contact codes for every individual contact they have with students. The only concern related to the data is that it is dependent on individual counselor/advisor input and it is difficult to validate the accuracy.

3. *If the data does not appear to be accurate, identify the problem (e.g. too many or too few participants listed; demographics seem incorrect, etc.). Document the process used to identify the problem. Share this information with the college information technology services staff to determine ways to correct your MIS reporting.*

The CCC System Office began clarification of the data in 2007 that stated SM01 is an “informed goal after receiving matriculation services” has caused a change in the process for the Counseling/Advising staff. Prior to the summer of 2007, the informed education goal data was downloaded automatically from the online application and was not “informed.” Instead it represented data provided by the student on the application for admission without any direction, consultation, or feedback from counselors/advisors. To solve this problem, Datatel was reprogrammed in summer of 2007 and all records housed in this section of Datatel were eliminated. Essentially, the SM01 data then needed to be hand input. In order to successfully transition through this process, the Matriculation Coordinator needed to be trained and then train all counselors/advisors to input this data individually as they meet with students. This training occurred late November of 2007. Consequently, the data is not wholly reflective of the services being provided, however, the data should be more accurate and continue to improve with each consecutive semester.

SM12 “Counseling/Advising-Services” and SM13 “Academic- Follow-up-Services” reporting is improving each semester; however, it does not appear that the counselors and advisors are capturing all of our counseling and follow up services. Since the summer of 2007 the counselors/advisors have done a better job of documenting individual appointments and coding them correctly into Datatel; therefore the data is improving. Since our college was accredited in the summer of 2006, the matriculation coordinator has provided training at the counselor/advisor meetings and has been available to better assist in improving the data.

- B. *Access - Identify how accessible the program is by comparing demographic data from the college to the program. Data to be compared include gender, ethnicity, age, informed educational goal, Pell and BOG fee waiver recipients, English Language Learners (ELL) and students with disabilities.*

Questions for Analysis:

1. *How does the program compare with the total college demographic data?*

<i>West Hills College Lemoore Revision</i> <i>date: 6/30/2008</i>	All		*Matric	% of	
	Students	% of all		Matric	% of all

Other	1,068	16.5%	191	20.6%	17.9%

In the 06-07 school year, 6,469 total students enrolled at WHCL; 30% are considered full time students with a credit load of 12 or more units. For purposes of this report, a matriculated student is defined as one who participated in assessment, orientation, and/or had contact with a counselor or advisor.

When reviewing the statistics, the following statements can be made with a 95% certainty that the statistical differences are not due to chance. With respect to gender breakdowns, there are 4.4% fewer women represented in the matriculation program as compared to females in the college population. However, 4.8% more men participate in the matriculation program as compared to males in the general college population.

With respect to ethnicity, the African-American, Hispanic, Native American, Pacific Islander, and Caucasian students participate in the matriculation program at about the same rates (no statistical significance) when compared to the same sub-groups of the general population. The Filipino students are matriculating at a rate 3.2% better than the general student population. However, Asian students are only matriculating about half as well when compared to the number of Asian students in the general population (2.4% vs. 5.6%).

Students under the age of 20, matriculate at a much better rate when compared to students aged 20 or younger in the general student population (39.0% vs. 24.4%). Students ages 25-29 and 30-49 are matriculating at about the same rate as their respective age groups in the general student population. However, students aged 20-24 and 50 and older are not well represented in the matriculation population.

Approximately 10% of WHCL students are English Language Learners. However, data regarding English Language Learners and students' informed educational goal was not available for review and comparison between the matriculation program and the general student population.

Students who receive the BOG Waiver or the Pell Grant are more likely to matriculate when compared to the general student population (47% vs. 38.5% and 30.3% vs. 22.4% respectively.)

The proportion of students with a disability who matriculate is about half in comparison to the general student population with a disability (3.9% vs. 6.4%). Students with a disability represent 6.4% of the general population; however they only represent 3.9% of the matriculation program.

2. Describe the areas where you have concerns about access.

The Matriculation Program has concerns about access for female students, Asian students, students ages 20-24 and over 50, and students with a disability. The Matriculation Coordinator and Associate Dean of Categorical Programs suspect that the students with disabilities are receiving the services and matriculating; however, the data is not being captured or input to reflect this.

3. Please describe any plans in place for improving access.

The following plans are in place for improving access:

- Sending an email to all students informing them about matriculation and the services available and inviting them to participate.
- Providing sessions of New Student Orientation during Welcome Week.
- The Student Success Committee is exploring mandating orientation and proposing this through the governance process.
- The Matriculation Coordinator and counselors will also visit classes and make presentations about services available and student education plans.
- Utilizing the Student Portal to promote and advertise matriculation services.

4. What programs and services do you feel specifically contribute to student access at your college? Why?

The following programs and services contribute to student access at WHCL:

- “Xtreme Registration” is offered from 6:00 PM until 12:00 AM on the Friday prior to the start of each semester. It provides a one-stop shop approach for students to take advantage of all the services necessary for enrolling for the semester including application assistance, new student orientation, assessment and counseling/advising.
- Online application, registration and new student orientation provide a mechanism for students to get services in a non-traditional format and at whatever time is convenient.
- The majority of matriculation services are provided in one location allowing for easy access for students.
- The majority of categorical programs are housed in the same location as most of the matriculation services; this allows for increased communication, easy accessibility and a strategic and efficient approach to services for students.

C. *Progress - Compare how well students served by the program perform compared to those of the whole college. Data to be compared include course success rates, academic and progress dismissal, and persistence.*

Questions for Analysis:

1. How well do the students served by your program perform compared to the total college population?

West Hills College Lemoore Revision date: 6/30/2008	All Students	% of all	*Matric	% of Matric	% of all		
GENERAL DATA							
PROGRESS							
PERSISTENCE							
Enrolled in Fall 06	3,850	59.5%	501	54.1%	13.0%		
Persisted to Spring 07	2,476	64.3%	383	76.4%	15.5%		
<i>Fall 06 to Fall07</i>	1,647	42.8%	262	52.3%	15.9%		
COURSE COMPLETION - Enrollment and success is based on duplicated enrollments							
DEGREE APPLICABLE							
Attempted	20,717	100.0%	3362	100.0%	16.2%		
Successful	12,982	62.7%	2115	62.9%	16.3%		
BASIC SKILLS							
ESL							
Attempted	40	0.6%	9	100.0%	22.5%		
Successful	34	85.0%	9	100.0%	26.5%		
ENGLISH							
Attempted	385	6.0%	135	100.0%	35.1%		
Successful	217	56.4%	71	52.6%	32.7%		
MATH							
Attempted	321	5.0%	103	100.0%	32.1%		
Successful	210	65.4%	69	67.0%	32.9%		
WORKFORCE DEVELOPMENT - Enrollment & success is based on duplicated enrollments							
Apprenticeship (SAM = A)							
Attempted	0	0.0%	0	0.0%	0.0%		
Successful	0	0.0%	0	0.0%	0.0%		
Adv. Occupational (SAM = B)							
Attempted	97	100.0%	15	100.0%	15.5%		
Successful	59	60.8%	6	40.0%	10.2%		
Clearly Occupational (SAM = C)							
Attempted	4,226	100.0%	523	100.0%	12.4%		
Successful	2,714	64.2%	322	61.6%	11.9%		

In the degree applicable courses and vocational courses (WORKFORCE DEVELOPMENT as indicated on the chart) students perform about the same as students in the college population.

When comparing student progress in the ESL classes; all nine matriculated students successfully passed the courses as compared to 85% of the general student population who took ESL. Although the sample size is quite small (40

students total, 9 matriculated) it is noteworthy that those students who received matriculation services all succeeded.

When reviewing the English courses, the students in the matriculation program have slightly lower success rates than the general student population (52.6% vs. 56.4%); however, the data demonstrates that the students in the matriculation program actually attempt English at a much higher rate than the general population (35.1% compared to 6.0%). This is significant because it indicates that students who receive services are being directed to take English.

In the Math courses the students in the matriculation program perform about the same as the students in the general student population (67% vs. 65.4%). However, like English, students in the matriculation program attempt Math courses at a higher rate than the general student population (32.1% vs. 5%). This indicates that the matriculation program has a positive impact on student progress as both Math and English are necessary courses for both foundational skills development and most educational goals.

Data regarding academic and progress dismissal was not available for review and comparison.

When comparing persistence, the data indicates that matriculation has a positive impact on student progress. Students in the matriculation program persisted 12.1% better than the general student population from fall 2006 to spring 2006 (76.4% vs. 64.3%). The fall 2006 to fall 2007 persistence rates indicates an improvement in the matriculation program of 9.5% (52.3% vs. 42.8%).

2. Describe areas where you have concern about student progress.

There are no significant concerns related to student progress in the matriculation program at this time.

3. What programs and services do you feel specifically contribute to the progress of students at your college? Why?

The following programs and services contribute to student progress at WHCL:

- The Early Alert system allows for early identification and intervention for students who have barriers to success in their classes.
- Counselor follow up with instructors and students as a result of the Early Alert system provides appropriate services and referrals for students.
- The tutoring program provides a mechanism for success in classes that are challenging for students.

- Providing a dedicated Advising Specialist for the Basic Skills students allows for more personal and sustained follow up.
- There is both a dedicated English Lab and Math Lab available to students. The labs are staffed by full-time faculty in those learning areas for assistance with homework, content area questions and to discuss ways to overcome obstacles.
- Although data was not provided on academic progress dismissal for purposes of this report, the District Director of Enrollment does provide semester reports to the Dean of Students and follow up occurs with these students via a letter recommending they meet with a counselor.

D. Success - Review how well your students are completing their educational goals. Data to be included are number of degrees and certificates awarded, number of transfer-prepared students, number of transfers, and achievement of non-credit educational goals.

Questions for Analysis:

1. How well do the program students perform compared to the total college population?

West Hills College Lemoore Revision date: 6/30/2008	All Students	% of all	*Matric	% of Matric	% of all
GENERAL DATA					
ACADEMIC SUCCESS					
Degree	349	5.4%	27	2.9%	7.7%
Certificate	24	0.4%	2	0.2%	8.3%
Transferred to 4-Year	1,544	23.9%			
<i>Unduplicated Success Rate</i>	1,725	26.7%			
Transfer Directed	762	11.8%			
Transfer Prepared	572	8.8%			

Students in the matriculation program perform better overall in completing their educational goals. The percentage of students in the matriculation program who complete associates degrees is 7.7% as compared to 5.4% of students in the general population. For certificates, matriculated students complete certificates at a rate of 8.3% which is significantly higher than students in the general population (0.4%).

Data regarding number of transfer prepared students and number of transfer students was not available for review and comparison.

Data regarding the achievement rate of non-credit educational goals was not available for review and comparison.

2. Describe areas where you have concern about student success.

There are no significant concerns related to student success in the matriculation program at this time.

3. What programs and services do you feel specifically contribute to the success of students at your college? Why?

The following programs and services contribute to student success at WHCL:

- New student orientation outlines the requirements for associate degrees, transfer pathways, and certificate programs.
- Counselor interaction with students in the completion of a student education plan clarifies goal requirements and provides a planning mechanism for students.
- There is a dedicated transfer/career center with a full time counselor who assists students in identifying and working toward their educational goals.
- The Engineering Scholars Program and the Team T.E.A.C.H program identify students with specific education goals and provide appropriate support and in-depth services to enable students to succeed.
- There is a dedicated counselor to assist nursing students in realizing their educational goals.

E. Student Learning Outcomes - Describe your progress in the development and implementation of Student Learning Outcomes (SLOs) for the program at the college.

Questions for Analysis:

1. What are the SLOs for the program?

- 1.) After completing a student educational plan (SEP), students will make progress towards their informed educational goal.
- 2.) After completing orientation, students will understand that they need to meet with a counselor to formalize their educational plan.
- 3.) After completing orientation, students will know that the preferred method of communication between the district and them is via their West Hills College student email account.
- 4.) After taking the assessment test, students will register for the appropriate classes.

5.) After meeting with a counselor or advisor for academic follow up, students will be given the information necessary to be successful.

2. What process was used (or plan to use) to develop these outcomes?

The Matriculation program has completed both program level outcomes and student learning outcomes. The program level outcomes were completed in March of 2007 when the Matriculation Program Review Midterm Report was due. The mid-term report is designed to review and assess the program outcomes. The original program review was completed as a district wide program review as it was prepared before Lemoore received accreditation as an independent college. In reality, the mid-term report was prepared to reflect Lemoore's program outcomes independently. The program level outcomes were written based upon the Strategic Plan for the college; the outcomes of Matriculation are aligned with the goals outlined in the West Hills College Lemoore Strategic Plan. The midterm report was written by a team comprised of two counselors (one is the transfer/career counselor, the other is the Matriculation Coordinator), an advising specialist and the Director of Institutional Planning and Effectiveness.

Once the program outcomes were written; the Matriculation Coordinator formed a committee of counseling faculty and the Director of Institutional Effectiveness and Planning that met multiple times to write the student learning outcomes. The goals of the college's Strategic Plan and the matriculation regulations provided the framework and direction utilized to identify and write appropriate student learning outcomes.

3. What types of activities are you conducting in order to achieve these outcomes?

Activities for:

SLO #1-After a Student Educational Plan is on file and the student meets with a counselor or advisor for follow up, the student's goals are reviewed to ensure that the student is making progress. If necessary, the SEP is updated or changed to reflect the student's current educational goal. If the student is not making progress, the counselor may refer students to additional academic and health support services or appropriate programs to ensure success. Counselors also respond to Early Alert forms from faculty to check in with students who are not succeeding in a class or who have barriers inhibiting their progress.

SLO #2- All new students are sent a letter prior to the start of the fall semester and informed of the new student orientation and invited to attend. At the new student orientation, students are educated about the value of meeting with a counselor and completing a Student Education Plan. This message is reinforced when the orientation covers students' rights and responsibilities during the

orientation- students are informed that they have the responsibility to obtain a SEP. Counselors and advisors also go into basic skills and general education classes and reinforce this message through announcements. Additionally, completion of a SEP is a course assignment for the IS 1 College Success Class. It is the common practice by the counselors to initiate the SEP with students the first time a student meets with a counselor.

SLO #3- During the face-to-face orientation students are informed that they need to utilize their West Hills College student email. This is covered several times and is also illustrated on two different PowerPoint slides. In the online orientation this information is covered and reinforced.

SLO #4- Upon completion of the assessment test the student is handed a form that indicates their raw score on the test and interprets for them what Mathematics and English courses to take. The counselors and advisors also utilize the placements when assisting students with course selection.

SLO #5- When a counselor meets with a student as a result of an Early Alert, the counselor assesses the students' needs and assists the student in meeting those needs. Often a referral to tutoring, academic support, or other outside agencies is generated as a result of the appointment.

4.How are you assessing the achievement of the outcomes?

For SLO #1, the achievement of the outcomes is assessed by coding in Datatel the informed educational goal and updating the major in SACP. The completion rates are tracked by cohort and checked to ensure that students are progressing toward their educational goal as stated in the SEP.

For SLO #2, the achievement of the outcomes is assessed using a pre- and post survey. The survey question is "Who do you meet with to identify the courses needed to reach your educational goal?" and the answer options are: Instructor, Financial Aid, Friends, and Counselor.

For SLO #3, the achievement of the outcomes will also be measured utilizing the pre- and post-survey. The survey question is "Which email should you use for online classes and for correspondence with the campus?" and the answer options are: Home email, whccd.net, parent's email, or work email.

For SLO #4, the achievement of the outcomes is assess by identifying a cohort of students who took the placement test and check their schedule to determine whether they have registered for the appropriate classes.

For SLO #5, the achievement of the outcomes is measured by tracking the Early Alert students and their success rates.

5. How have you used the assessment information to improve the services?

As a result of the assessments completed at the Spring 2008 New Student Orientation, wherein 42.8% of the students did not know that the preferred method of communication between the district and them is via their West Hills College student email account; the Matriculation Coordinator has identified the need for further and more specific training to be given to the staff providing new student orientation services. Additionally, the Matriculation Coordinator added slides to the face-to-face orientation PowerPoint that further emphasize student usage of the WHCCD email and completion of a SEP. In developing the script for the online orientation, content was added to reinforce the message that the WHCCD email is the main form of communication utilized by the district.

- F. *Compliance - Provide an overview of how each program is meeting the applicable minimum requirements of the federal laws and regulations, California Education Code, Title 5 regulations, Budget Act Language and/or program guidelines. The key areas to be reviewed include: 1) student eligibility, 2) student services, 3) program requirements, and 4) funding, expenditures, and accountability. The review should clearly demonstrate that the programs are responsibly handling categorical dollars.*

Student Eligibility

The Matriculation process is a comprehensive and integrated set of services designed to enhance student retention and persistence, and thereby contribute to the educational opportunities of all students. Matriculation provides and coordinates fundamental student services, including admissions and orientation assistance, general assessment, counseling/advisement, and follow-up assistance to all non-exempt, students in credit and noncredit Matriculation programs. Please provide a copy of your Board approved exemption policy for Matriculation.

Student Services

Admissions

The admissions component is the first opportunity for the potential student to declare an educational goal and to identify any supportive or language needs that may be critical to the student's successful enrollment.

Are there significant student populations on campus that speak primary languages other than English? If yes, are there application materials available for these students in their native languages?

West Hills College Lemoore has identified a significant Spanish speaking population on campus. Application materials are available in Spanish for these students. Students can choose to complete an online Spanish version of the application or a paper Spanish version of the application. The online application is available in both English and Spanish; at any time students can switch between languages by clicking a button. This function allows students to interpret and answer each question in the language in which they feel most comfortable and proficient. In addition, Spanish speaking student services personnel are available to assist students with the application.

(Title 5 - 55520(a); 55522; 55510(a)(4))

Orientation

The orientation component signals the student's introduction to the college environment and provides the opportunity for the student and counselor/advisor to interact while exposing the student to the college's programs, services, facilities and grounds, academic expectations and institutional procedures.

1. What modes of orientation are available to students?

West Hills College Lemoore offers multiple sessions of face-to-face orientation prior to the start of each semester. It is offered in conjunction with "Xtreme Registration," an event that occurs on our campus the Friday before the beginning of the fall and spring semesters. The event occurs in the evening and the different orientation sessions are offered between the hours of 6 p.m. and midnight. In addition to the face-to-face orientation format, an online orientation has been developed, filmed, and is in the final stages of production. The goal is to have it ready and in use prior to the fall 2008 semester.

2. What topics are covered in orientation? Is there a script, PowerPoint presentation or outline available? If yes, please provide a copy.

Orientation covers a variety of information that a committee of college faculty, staff, and administrators identified as necessary to student success. Topics covered during orientation include: Catalog, Student Complaint Procedures, Sexual Harassment Policy, Matriculation, Assessment, Student Education Plans, "MyWestHills," Student Email, Pre-Requisites and Co-Requisites, Class Delivery, Student Services, Financial Aid, Support Programs and Services, Certificates, Associate Degrees, Transfer, Bookstore, Student Life, and important

phone numbers and resources. There is a script of the online orientation as well as a PowerPoint presentation available.

3. *Are modified modes of orientation available for ethnic or language minority groups?*

At least one face-to-face session of the orientations offered during “Xtreme Registration” is offered in Spanish. The online orientation has a Spanish captions option available for student to select as well as closed captions for those with a disability.

(Title 5 - 55530(b)(d); 55502(j); 58106(c)(d)(e); 55534 (a)(b); 55522; 55532(a)(c)(d))

Assessment

The assessment component is critical to the accurate placement of students into the college’s curricula. Student placement must be accomplished with an approved test instrument and appropriate multiple measures. If the college uses a self-placement procedure, identify the elements of the placement process.

1. *Are all validation studies for the college’s assessment instruments up to date?*

Yes; the current assessment instruments used by the West Hills College District were implemented in the spring of 2005. At that time, the cut scores were validated by the West Hills College Coalinga Matriculation Coordinator (WHCL gained accreditation in summer of 2006.) Since then additional validation studies have occurred. A validation study is currently being undertaken this semester (spring 2008) for the Math assessment instrument. The English assessment instrument was validated by the Matriculation Coordinator in spring of 2007.

2. *Describe the multiple measures and how they are regularly used for placement.*

The multiple measures that are most commonly used at West Hills College Lemoore by counselors and advisors for placement purposes are high school transcripts, college transcripts, self reporting, instructor recommendations and assessment tests. When discussing course placement with a student, counselors and advisors utilize the above mentioned measurements to identify the classes in which students are most likely to succeed.

3. *Identify the test instruments used for placement.*

The College Test of English Proficiency (CTEP) is the English assessment instrument currently used for placement. However, the English faculty, in a

meeting with the Matriculation Coordinator, expressed concern regarding the fact that the CTEP does not include a writing sample of student work. The Matriculation Coordinator has agreed to work with the faculty in exploring other assessment options in the next academic year.

The test instrument used for math placement is the UC/CSU Mathematics Diagnostic Testing Project (MDTP.) However, the Matriculation Coordinator is currently researching other test options for mathematics placement purposes at the request of the Mathematics Learning Area faculty.

(Title 5 - 55510(a)(4); 55520(c); 55521(a)(b)(c)(e); 55522; 55532(a)(c)(d))

Counseling and Advising

The counseling and advisement component provides academic advice as well as academic planning opportunities for all students. The college must provide these services to all nonexempt students with reasonable attempts to counsel the following student groups: probationary, those enrolled in pre-collegiate basic skills courses and students without a declared educational goal.

1. How do you address the counseling needs of:

- *Students who speak languages other than English?*

West Hills College Lemoore employs Spanish speaking student services personnel including three advising specialists to assist students. In addition, the district appointed Spanish speaking representative is a WHCL student services assistant who provides students with assistance at the initial point of contact.

- *Evening/weekend students?*

The college provides counselors and advisors in the evenings. The student services' building is open Monday through Thursday from 7:30 a.m. to 7 p.m. and from 7:30 a.m. to 5 p.m. on Fridays. This schedule parallels the course offerings; classes are offered in the evenings Monday through Thursday with the latest class session beginning at 7 p.m. There is counselor coverage until 7 p.m. Monday through Thursday. West Hills College Lemoore does not offer a weekend program at this time.

- *Students attending summer or inter-sessions?*

Each spring the Lead Counselor (who is also the Matriculation Coordinator) organizes a meeting with all counselors to coordinate their schedules to ensure

full time counseling faculty coverage throughout the year including summer and the winter break. Advising specialists work on a 12 month contract. Additionally, adjunct counseling faculty are also employed year round.

- *Students who are only distance education students?*

Counseling and advising resources exist online for students who are only distance education students. These resources include “Ask-a-Counselor,” a form online that allows students to ask specific questions and receive an answer via email. Counselors also schedule phone appointments on an as needed basis. The West Hills College Lemoore website also provides a lot of resources including links to services for students. During business hours, the district employs a technology support/help desk professional to assist students with their technology needs.

- *Other students who seek online counseling support?*

In addition to the services outlined above, West Hills College Lemoore also offers an online orientation for new students that provide necessary information regarding counseling and advising services to online students.

2. *Describe how paraprofessionals are used in the provision of counseling/advising services.*

West Hills Community College District employs advising specialists to assist in meeting students’ needs. Advising specialists assist with registration, orientation, class selection, and administer the placement tests. Several advising specialists are designated fulltime to specific programs and perform all counseling/advising services for students in that program.

3. *Describe the activities associated with developing Student Educational Plans (SEPs)*

At what point in the counseling/advising process is the SEP initiated?

Students are expected to identify a specific educational goal during the term after which they complete 12 units. Once they have identified a specific goal, the student is expected to meet with a counselor to complete a SEP.

How many SEPs are written by counselors or advisors each term?

Below is the numbers of SEPs written by counselors or advisors each term as reported in Datatel for 06-07 academic terms and fall of 2007:

- 2006/SU - 0
- 2006/FA - 143
- 2007/SP – 107
- 2007/FA - 243

These numbers appear to be low. The data is derived through each advisor and counselor inputting contact codes into Datatel upon meeting with students. Since our college was accredited in the summer of 2006, the matriculation coordinator has provided training at the counselor/advisor meetings and has been available to better assist in improving the data. As the data demonstrates, each semester the data has improved. The matriculation coordinator reinforces this training each semester and expects that the data will continue to improve.

How often are the SEPs reviewed and updated?

The process for reviewing and updating SEPs are initiated by students. This process occurs informally as a result of student appointments with counselors and advisors. The process is often initiated by counselors if the student has been referred as a result of an Early Alert or has been academically disqualified or placed on probation; the counselor will utilize the SEP as a tool for directing the student. Additionally, when a student appeals financial aid, a SEP is initiated; for those students who have them already, the SEP is reviewed and updated at the time of the appeal.

Are SEPs available in an electronic format?

SEPs are not currently available in an electronic format. A team of student services personnel reviewed the Datatel module that provides this service to students to determine whether the district wants to purchase the module. After reviewing the technology and exploring this option, the team decided the technology did not support all of the services necessary to provide an electronic SEP. However, the student services subcommittee of the West Hills College Information Systems Team (WHCIST-ST) has identified placing an electronic SEP on the web as a priority for the district and the team is currently exploring other options.

(Title 5-55520(d) (g)(1)(2); 55523(a)(1)(2)(3)(4); 55526; 55525(a),(b)(c)(d); 55530(d); 55201(f),(g);58106(c),(d),(e); 55534(b); 55522; 55510(a)(4)(5); 55532(a)(c)(d))

Student Follow-Up

The student follow-up component is intended to ensure that students who are experiencing academic difficulties are identified early enough during the term for appropriate and effective intervention to occur.

Describe the follow-up services provided for students who are on probation or dismissal status, basic skills, undecided, provided by the college:

How are students selected for follow-up?

The District Director of Enrollment Services runs a report out of Datatel that indicates- probationary, dismissal, president's list and dean's list students. The lists are sent to the Dean of Students to be distributed as appropriate. Those students who are identified as probationary or dismissed status are sent a letter that informs them of their academic status and the services that are available. The letter urges them to see a counselor and to take advantage of the academic support services. When these students see a counselor they are often referred to tutoring. Students are also informed of tutoring services through a variety of ways including orientation, instructor referral, flyers, via the campus website, and school newspaper.

Basic Skills students receive follow up services through a basic skills advising specialist who works closely with the instructors of the basic skills courses. The advising specialist contacts students who exhibit risk factors such as poor attendance, late or missing work, and poor academic progress and connects these students with appropriate services. The Basic Skills advising specialist is diligent in tracking down students via phone calls, emails, text messages, and intercepting them in class. Additionally, he visits the classes regularly to remind students to take advantage of services and to meet with him for support and assistance.

Students who are undecided are referred to the Career/Transfer center to take personality inventories and assessments to identify their aptitudes and interests. This process often occurs at the time a student meets with a counselor to develop a Student Education Plan.

How does instructional faculty participate in follow-up?

The instructional faculty members participate in follow up activities in a variety of ways. The most formal mechanism for faculty participation in student follow up is utilization of the Early Alert System. A lot of the follow up occurs informally. Full time faculty engage in student follow up through office hours: these hours are published in the course syllabus. Many faculty will email students directly. The learning communities also provide faculty with another avenue for student follow up: the instructors who team teach the courses often converse with each other regarding student attendance, performance, etc. Currently the college

is looking at using Basic Skills money to implement a faculty/staff mentor program for students in the basic skills classes to provide them an additional avenue of support and follow-up services. Another way in which instructional faculty participate in follow up is they identify those students needing tutoring and complete the faculty referral portion of the tutoring application. Often times faculty will also assist with follow-up by referring students to a specific counselor or advisor based upon appropriate student demographics; for example a student may share with a faculty member that they are the first in their family to attend college and they are struggling financially and the faculty member recommends to the student that they check out the EOPS program.

Does the college utilize an Early Alert Program?

West Hills College Lemoore utilizes an Early Alert Program. There is an online counseling referral form that faculty and staff can fill out and submit to notify student services of any concerns related to individual students. The form generates an email that is sent to a counselor who is responsible for coordinating the program. The coordinator reads the email and disseminates it to the appropriate individual or program for follow up. It is expected that the student will be contacted within 48 hours (at the latest; if the counselor determines that the situation requires immediate intervention it is handled accordingly.) Once the student has been contacted, the individual who submitted the referral is notified that the student has received services. Please note that confidentiality of the student is maintained throughout the process. The Matriculation Coordinator reminds the faculty of the process at the start of each semester at Flex Day activities and sends an email with instructions and a link to the online form at the start of the semester and at the mid-way point.

(Title 5 - 55520(f)(g); 55522; 55523(a)(1-3); 55526; 55510(a)(4))

Program Requirements

Coordination and Training

Much of the coordination of Matriculation services depends upon a network of service providers with different responsibilities. It is important that staff and personnel in each component be properly integrated into the comprehensive Matriculation process. This is accomplished primarily with training and staff development opportunities.

- 1. Identify who is responsible for each matriculation component and the process used to keep staff up-to-date on matriculation requirements.*

The Matriculation Coordinator is on the system wide matriculation list serve. As updates and information is sent out via the list serve, the matriculation coordinator disseminates that information through the proper channels on our campus via email, meetings, and trainings.

The Student Services Office Manager is responsible for coordination and training of the Admissions component. The Office Manager keeps the students services assistants informed of any changes related to the application process and students records.

The Matriculation Coordinator is responsible for coordination and training related to the orientation component. This includes training new orientation presenters, updating the orientation PowerPoint and managing the online orientation.

Counseling/Advising training occurs regularly; the mechanism is the bi-monthly counseling and advising meeting. This meeting is chaired by the Dean of Students and matriculation is a regular informational item on the agenda. In addition, the schedule of the meetings is set in such a way as to allow for in-depth training to happen once a month.

Student Follow up is coordinated by the Matriculation Coordinator. Peer tutors are trained in their courses (EA 50, EA 55, and EA 58.) Each semester the Matriculation Coordinator covers the Early Alert process in the adjunct faculty orientation. In addition, all faculty are sent a reminder email with a link to the online Early Alert form and instructions on how to use the form at the start of every semester.

In consultation with the Matriculation Coordinator, the Director of Institutional Effectiveness and Planning supports the Research and Evaluation component of matriculation and assists with training. This includes providing data and analysis for program evaluation.

The faculty Curriculum Chairperson and CIO are responsible for training and updates related to Pre-Requisites/Co-Requisites. This training typically occurs at the weekly curriculum committee meetings as updates and changes come down from the System Office.

2. What types of matriculation training are provided to faculty, staff and administrators (e.g. FLEX activities, etc.)

In the spring of 2008 at Flex Day the matriculation coordinator hosted a workshop entitled "Matriculation Matters." All faculty members attended the workshop; the content was an overview of matriculation. It is the priority of the Matriculation Coordinator to continue to conduct in-service trainings. It is the intent of the

Matriculation Coordinator to conduct this training at the newly implemented Classified Staff Duty Day.

Since spring of 2008 the Matriculation Coordinator has attended the adjunct faculty orientations and provided an overview of matriculation and training on the services available to students, including how to complete the Early Alert online form. The matriculation coordinator also attends faculty brown bag sessions, senate workshops and meetings, and curriculum workshops and meetings to answer any matriculation related questions and provide information on regulations.

Annual trainings to student services staff are provided by the Matriculation Coordinator via the counseling and advising meetings. Additionally, the Student Services Office Manager is responsible to monitor admissions and registration services and provide training as necessary to the student services assistants.

(Title 5 - 55516; 55510(a)(3)(4); 55523(b))

Research and Evaluation

The research and evaluation component can readily illustrate the efficacy of the provision of Matriculation services by analyzing and reporting on student retention, persistence, course completions, educational goals, transfer, etc.

1. Describe the resources available and committed for matriculation research.

West Hills College Lemoore has access to several resources for matriculation research. There is a Director of Institutional Effectiveness and Planning who provides consultation services and is responsible for district research. Although he is located at the district office, he is very accessible and works closely with the Matriculation Coordinator to provide any needed research and or data. In addition, there is a full time Research Assistant; although this is a district-wide position as well, she is based at the Lemoore campus. In addition to the research specific positions, the “Data Warehouse” was created. It is a data repository designed to ease/facilitate reporting functions and duties which allows WHCCD to be more effective in generating reports. It can be accessed whenever necessary.

Additionally, there is a district Programmer/Analyst who is responsible for all of the MIS reporting including matriculation specific reports. The District Director of Enrollment also assists with querying Datatel, the student services software for matriculation related research.

2. *Describe the research agenda supporting matriculation and what studies have been completed.*

There are several active research projects that the district has completed and continues to research. The matriculation research agenda is driven by the matriculation SLOs and the program goals. The Community College Survey of Student Engagement (CCSSE) was first implemented in 2007 and is reassessed annually. This survey provides the campus with information regarding student satisfaction with their overall college experience.

Students who petition to receive an associate degree or certificate are given an exit survey to provide the campus with additional information regarding students' plans and their perception of the college experience.

The assessments of matriculation student learning outcomes are another ongoing research agenda item. Some but not all of the SLOs related to matriculation have been assessed. The SLOs are on a specific assessment cycle.

There are two surveys that were assessed to identify specific needs related to student retention- the Student Retention Survey and the Student Retention Survey for Faculty.

The College Performance Indicators identify how well we are doing with enrollment services; these indicators assess High School Participation Rates and Adult Participation Rates.

Finally, Program Review is an ongoing matriculation research item. Data collected from program review provides direction for all matriculation services.

(Title 5 - 55512(a)(1)(2)(3)(4)(5)(6); 55514(a)(b)(c)(d)(f)(g)(h); 55520(g); 55532(a); 55510(a)(4))

Prerequisites, Co-requisites and Advisories on Recommended Preparation

Establishing prerequisites, co-requisites, and advisories on recommended preparation is an academic responsibility of instructional faculty. The responsibility for ensuring that policies are in place in order to establish and enforce pre- and co-requisites is shared by Matriculation.

1. *Are there local board-adopted policies governing prerequisites?*

Yes, there are local board-adopted policies governing prerequisites. The policies are included in the evidence submitted with this document.

2. *Have all prerequisites been approved by the curriculum committee?*

All the prerequisites have been approved by the curriculum committee and they are reviewed along with the course outlines.

3. *Does the college follow the Model District Policy?*

WHCL does follow the Model District Policy.

(Title 5 - 55201(b)(3); 55002(b)(2)(D); 55002(a)(2)(E); 55510(a)(6); 55201(e); 55002(a)(2)(D); 55201(b)(1); 58106(b))

Funding, Expenditures and Accountability

The credit and noncredit Matriculation funding formulas are complex and comprised of different elements with different weights and matching requirements.

1. *Are you familiar with the distinctions between the formulas and their elements and how these determine the college/district allocation(s)? Would you like technical assistance in this area?*

The college is familiar with the distinctions between the formulas and their elements and the way in which these determine the college/district allocations. While WHCL does not think that technical assistance is necessary at this time, it is felt that exploring best practices opportunities can assist in enhancing the matriculation process and the Matriculation Coordinator is open and interested in attending workshops and conferences related to best practices.

2. *How do you ensure that Matriculation funds are only used to pay for allowable matriculation expenditures?*

The funding requests are initiated at any level and forwarded to the Dean of Student Services. If there is a concern regarding whether the request is an allowable matriculation expenditure, the Dean will consult with the Matriculation Coordinator. The Matriculation Coordinator is familiar with the regulations and makes recommendations to the Dean based upon the “CCCCO Matriculation Allowable Expenditures Fact Sheet.” The Dean approves and signs the request. It is then forwarded to the College President for approval and signature who in turn forwards it to the Business Office for final signatures and approvals from the Vice Chancellor of Business Services.

3. *Describe the process for developing and approving the Matriculation Budget and Expenditures.*

The Dean of Students works with the Program Development Assistant who is familiar with the accounting process at the district level. The Program Development Assistant coordinates the compilation of expenditure data for the Dean of Students. Together, the Dean of Students and the Program Development Assistant consult with the Matriculation Coordinator and District Director of Enrollment to determine the fiscal needs of the matriculation program.

4. Identify the process for completing the Matriculation Year-End Report and relationship to the district's year-end program accounting.

The Program Development Assistant completes the Matriculation Year-End Report in consultation with the Dean of Students, the Matriculation Coordinator and the Director of Fiscal Services.

Other

a. With which other departments or areas on campus do you coordinate to provide services to students?

The matriculation program works with most departments on campus. The Matriculation Coordinator consults with other areas on campus as needed to coordinate matriculation services and the Matriculation Coordinator is often called upon by other departments for consultation related to student needs.

III. Program-Specific Self-Evaluation

EOPS/CARE: Extended Opportunity Programs and Services/Cooperative Agencies Resources for Education

The self-evaluation is based on the WASC Accreditation Standard IIB-Student Support Services:

“The institution recruits and admits diverse students who are able to benefit from programs, consistent with its mission. Student support services address the identified needs of students and enhance a supportive learning environment. The entire student pathway through the institutional experience is characterized by a concern for student access, progress, learning and success. The institution systematically assess student support services using student learning outcomes, faculty and staff input, and other appropriate measures in order to improve the effectiveness of these services.”

- A. Management Information System (MIS) Data Reporting –for access, progress and success, MIS data for the prior year (2006-07) will be provided annually by the System Office for each college. Program staff will need to conduct an analysis of the data sent by the System Office. Colleges may also use in-house data to complete this section.*

Questions for Analysis:

- 1. How is the categorical program director involved in the review of MIS data before it is submitted to the State Chancellor’s Office?*

EOPS staff enters student contacts into the Datatel system at the time of the contact. This process allows for accurate data storage. The Secretary maintains an excel spreadsheet to track student services data and uses this information for reconciliation. Prior to MIS submission to the System Office, the District Programmer/Analyst and the Associate Dean of Categorical Programs (EOPS Director) communicate regarding the accuracy of the MIS data. The Secretary and the Associate Dean make any necessary clarifications to the data. Once the data has been validated, the District Programmer/Analyst submits it to the System Office.

- 2. Does the data appear to be accurate? Do the numbers of students in the MIS report match your program records?*

Yes, the data appears to be accurate and the numbers of the students match our program report.

- 3. If the data does not appear to be accurate, identify the problem (e.g. too many or too few participants listed; demographics seem incorrect, ect.). Document the process*

used to identify the problem. Share this information with the college information technology services staff to determine ways to correct your MIS reporting.

N/A

B. Access-Identify how accessible the program is by comparing demographic data from the college to the program. Data to be compared include gender, ethnicity, age, informed educational goal, Pell and BOGG fee waiver recipients, English Language Learners (ELL) and students with disabilities.

West Hills College Lemoore Revision date: 6/30/2008		All Students	% of all	EOPS (Non-CARE)	% of EOPS	% of all	CARE	% of CARE	% of all

	Other	1,068	16.5%	210	95.0%	19.7%	67	89.3%	6.3%

Questions for Analysis:

1. How does the program compare with the total college demographic data?

With respect to gender breakdowns, there are 13.5% more female students in EOPS than non-EOPS students; the EOPS male population is 12.6% less than the non-EOPS male student population. There is a disproportionate number of CARE female students when compared with male students in the CARE program and the general population. This difference is due to the fact that one of the requirements for CARE students is to be a single parent of at least one child under the age of 14 which typically is the female parent.

With respect to ethnic breakdown, both EOPS and CARE serve a very high population of Hispanic students at 63.3% for EOPS and 52.0% for CARE. In contrast, Hispanic students comprise only 38% of the total student population. While 37.8% of the students attending WHCL are Caucasian, only 14.8% of the EOPS students are Caucasian and 25.3% comprise the CARE population.

2. Describe the areas where you have concerns about access.

The EOPS program is concerned about the access of Caucasian students; although several strategies for recruiting have been tried, the dominate recruitment strategy has always been word of mouth. A review of the data suggests that the Hispanic population is more aware of the EOPS/CARE programs and actively utilize the services.

3. Please describe any plans in place for improving access.

- The strategies listed below are intended to address the strategies for improving access for students.
- Working with departments on campus such as CalWorks and vocational education programs to reach out and identify possible EOPS/CARE students.
- Improving our working relationship with financial aid in identifying all BOGG A and B students. We hope to capture more of these students that fall within the demographics not generally associated with EOPS/CARE: non-minorities, males and over 35 years.

- Improving early outreach activities in the local high schools and community agencies.
- Enlisting EOPS counselor attendance at feeder high school presentations along with the general counselors to explain the programs requirements and benefits to all high school seniors.
- Providing the EOPS application online.
- Increase advertising of EOPS eligibility requirements.

4. What programs and services do you feel specifically contribute to student access at your college? Why?

The following bullets identify programs and services that contribute to student access at WHCL:

- In the spring of 2007 an additional full time EOPS counselor was added with extended evening hours. This improved access opportunities for students by doubling the number of full time EOPS counselors.
- Ongoing working relationships with college faculty; specifically faculty who teach basic skills level courses and college success courses that help identify potential EOPS/CARE students.
- The EOPS Advisor's established and sustained relationship with feeder high school students facilitates a smooth transition to WHCL.
- Collaborative efforts with other on-campus programs such as Financial Aid, CalWorks, and DSP&S.
- Referrals by other department staff and a genuine concern by counselors and advisors to inform students about programs that can assist them.

C. Progress-Compare how well students served by the program perform compared to those of the whole college. Data to be compared include course success rates, academic and progress dismissal, and persistence.

Questions for Analysis:

- 1. How well do the students served by your program perform compared to the total college population?*

<i>West Hills College Lemoore</i> <i>Revision date: 6/30/2008</i>	All Students	% of all	EOPS (Non- CARE)	% of EOPS	% of all	CARE	% of CARE	% of all
GENERAL DATA

Successful (A,B,C)	2,714	64.2%	213	72.4%	7.8%	91	59.5%	3.4%

Please note that data was not available for the EOPS program to evaluate academic and progress dismissal. However, the persistence rate for EOPS students during fall 06 to fall 07 was 60.3% compared to the non-EOP students which were 42.8%. EOPS students showed approximately 17.5% higher persistence rate over non-EOPS students. The CARE students' persistence rates were even higher at 63.5%

The success rate for EOPS in English classes was 51.5%, compared to 56.4% for non-EOPS students. CARE students' success rate in English classes was lower at 39.1%.

In the area of Math, the EOPS success rates was 70.7%, compares to 65.4% for non-EOPS student. CARE students success rates in math classes was 36.4%.

2. Describe areas where you have concern about student progress.

There is concern for the EOPS and CARE students' progress in the areas of Math and English.

3. What programs and services do you feel specifically contribute to the progress of students at your college? Why?

The following bullets identify programs and services that contribute to student progress at WHCL:

- In the spring of 2007 an additional full time EOPS counselor was added with extended evening hours. This improves student progress through increasing the breadth, scope and length allotted for contacts.
- Mid-semester progress reports enable the counselors to identify interventions and strategies for students.
- Utilizing the EOPS/CARE advisory group fiscal priorities were identified such as increasing bus passes for student transportation use.

D. Success-Review how well your students are completing their educational goals.

Data to be included are number of degrees and certificates awarded, number of transfer-prepared students, number of transfers, and achievement of non-credit educational goals.

<i>West Hills College Lemoore</i> <i>Revision date: 6/30/2008</i> GENERAL DATA	All		EOPS	% of	% of		% of	% of
	Students	% of all	(Non-CARE)	EOPS	all	CARE	CARE	all
ACADEMIC SUCCESS								
<i>Degree</i>	349	5.4%	30	13.6%	8.6%	11	14.7%	3.2%
<i>Certificate</i>	24	0.4%	0	0.0%	0.0%	3	4.0%	12.5%
<i>Transferred to 4-Year</i>	1544	23.9%	27	12.2%	1.7%	2	2.7%	0.1%
<i>Unduplicated Success Rate</i>	1725	26.7%	41	18.6%	2.4%	12	16.0%	0.7%
<i>Transfer Directed</i>	762	11.8%	29	13.1%	3.8%	2	2.7%	0.3%
<i>Transfer Prepared</i>	572	8.8%	25	11.3%	4.4%	6	8.0%	1.0%

Questions for Analysis:

1. How well do the program students perform compared to the total population?

Please note that transfer data was not available for comparison due to the relatively new accreditation status and achievement of non-credit educational goals data was not provided. EOPS and CARE students have performed significantly better with degree

completion than the general student population at a rate of 13.6% for EOPS and 14.7% for CARE. This compares to the 5.4% of the general students who have completed their degree programs.

With regards to certificates completed, CARE students have completed at a higher percentage than the general population however, in 2006-2007 none of the EOPS students completed a certificate. Only.4% of the general program completed their certificate program.

2. Describe the areas where you have concern about student success.

There are no concerns in the area of student success at this time.

3. What programs and services do you feel specifically contribute to the success of students at your college? Why?

The following bullets identify programs and services that contribute to student success at WHCL:

- Collaborative efforts with other on-campus programs such as Financial Aid, CalWORKs, DSP&S, the Career/Transfer Center, the EOPS/CARE advisory group and Kings County of Social Services have been very effective in increasing student success.
- In the spring of 2007 an additional full time EOPS counselor was added with extended evening hours. This enabled the students to review and update educational plan and course selections as related to their goals.
- While there is no quantitative data related specifically to student/counselor contact, the EOPS/CARE success rates as indicated by that data supports that the student counselor relationship that is developed through the three mandatory contacts helps students succeed.

E. Student Learning Outcomes-Describe your progress in the development and implementation of Student Learning Outcomes (SLOs) for the program at the college.

Questions for Analysis:

1. What are the SLOs for the program?

The EOPS/CARE students will meet expectations outlined in the Mutual Responsibility Contract.

2. What process was used (or plan to use) to develop these outcomes?

During the 2007-08 school year, the EOPS/CARE staff met to evaluate student data regarding persistence in the EOPS/ARE program. As a result of this data review, the teams determined that EOPS/CARE students had difficulty sustaining the commitment to follow the Mutual Responsibility Contract. Specifically, making and keeping appointments. The EOPS Program Plan created a temporary part-time position to evaluate all EOPS/CARE students' files to extrapolate data on the percentages of students that met their counseling appointments. This data was analyzed and it was determined that an aggressive approach was necessary to ensure that students followed through with their Mutual Responsibility Contracts. The EOPS/CARE staff developed one SLO to address this problem.

Each semester, counselors review the mutual responsibility contracts with student. After students have been in the program a few semesters, instead of reading and explaining the MRC to the student, Counselors ask the student to explain what they are required to accomplish as an EOPS/CARE student.

Students' academic progress is monitored through mid-semester progress reports by instructors.

3. What types of activities are you conducting in order to achieve these outcomes?

There is an orientation each semester where a survey is administered to students as a springboard for discussion and clarification regarding the EOPS/CARE program requirements. This discussion covers the student Mutual Responsibility Contract (MRC), which is the foundation for the SLOs.

If a student misses one of his/her mandatory contacts, the counselor will immediately email the student reminding them of the appointment they missed. Additionally, the Associate Dean of Categorical Programs meets with students who are in jeopardy of not meeting or have already failed to meet the MRC to re-establish program involvement.

At the EOPS/CARE advisory committee meetings and the staff meetings, ongoing discussions occur regarding concerns and intervention opportunities to improve student completion of the MRC.

4. How are you assessing the achievement of the outcomes?

Data will be provided each semester by the Director of Institutional Research and the EOPS secretary regarding the number of EOPS/CARE students who maintained full-time (12 units) status.

Data will be provided each semester by the Director of Institutional Research and the EOPS secretary regarding the number of EOPS/CARE students who met with a counselor/advisor 3 times that semester.

Data will be provided each semester by the Director of Institutional Research and the EOPS secretary regarding the number of EOPS/CARE students who maintained a cumulative GPA of 2.0 or higher.

5. How have you used the assessment information to improve the services?

This will be the first year the EOPS/CARE program has developed and conducted research on the SLO's. The staff will meet to discuss possible ways to ensure students are following their MRC.

- F. Compliance - Provide an overview of how each program is meeting the applicable minimum requirements of the federal laws and regulations, California Education Code, Title 5 regulations, Budget Act Language and/or program guidelines. The key areas to be reviewed include: 1) student eligibility, 2) student services, 3) program requirements, and 4) funding, expenditures, and accountability. The review should clearly demonstrate that the programs are responsibly handling categorical dollars.*

EOPS/CARE: Extended Opportunity Programs and Services/Cooperative Agencies Resources for Education

EOPS provides financial and academic support to community college students whose educational and socioeconomic backgrounds might prevent them from successfully attending college. Services are specifically designed for at-risk students and their special needs. Counseling contacts are mandatory and a Student Educational Plan (SEP) is developed for each student to assist the student in achieving their individual goal.

CARE further assists EOPS students who are recipients of TANF and CalWORKs, single heads of household with children under 14 years old, to break the welfare-dependency cycle by completing college-level educational training programs, and therefore, become more employable and economically self-sufficient.

Student Eligibility

Student eligibility for the EOPS program is limited to those who meet specific criteria identified in Title 5. The program is responsible for determining the student's eligibility and documenting this in the student's file. The CARE program has additional eligibility

requirements which must be reviewed and documented to accept students into the program. The program must monitor student continued participation

1. Describe the factors your program used to determine that students are educationally disadvantaged and how these factors are communicated in your program information/handouts? [Title 5 – 56208]

The Advising Specialist evaluates the incoming students' application. The EOPS application asks specific questions which determine if a student has an educational disadvantage such as:

- What was your high school grade point average?
- Are you a high school graduate?
- Are you eligible for degree level math and English?
- Have you previously taken remedial education courses?
- Are you a 1st generation college student (10%)?

The supportive paperwork that is used to document this information is High School transcripts, college transcripts and WHCL Assessment test scores.

This information is communicated through college brochures, the WHCL college website, and during outreach activities and campus-wide events. The brochures are also available in the Administration Building along with other program brochures.

2. Describe the process used to monitor continued EOPS eligibility (70 units/6 semesters). [Title 5 – 56226]

The monitoring of EOPS eligibility is conducted by a secretary who is shared between EOPS and other categorical programs. Prior to the start of each semester, the secretary extrapolates semester completion data from Datatel as well as the number of units completed to identify any EOPS student who has exceeded the semester and/or unit limit. Those students are flagged and mailed a conditional acceptance letter alerting them to their eligibility status.

3. Describe the process for assisting students in completing their Student Educational Plan (SEP) and making necessary revisions.

When a student is determined to be eligible for the program, an appointment is scheduled with the EOPS counselor. During this appointment the counselor and student review the student's educational goals and test scores. Course prerequisites are explained in detail so that the student understands why classes need to be taken in sequence. During this appointment, the counselor and student determine if his/her goal is to receive job skills which may include a certificate, associate degree or possibly transfer general education requirements. The program major sheet is then reviewed by both the counselor and student along with the required general education courses for an associate degree.

Transfer general education requirements are reviewed if applicable. Counseling notes are then entered in MATI to record what services were provided or issues discussed with the student.

The EOPS student Educational Plan reflects at least 12 units per semester. The counselor and student work together to ensure that appropriate English/math skills are mastered to promote college success. The SEP is then signed by both the counselor and the student indicating that both agree that this is the best plan of action at this time. At the beginning of each semester the SEP is reviewed with the student to make appropriate changes where needed if necessary.

4. Describe the process and documentation used to verify eligibility for the CARE program.

A student must first complete an EOPS and CARE application. They must meet all requirements for the EOPS program before they can be considered for the CARE program. For the CARE program, the student must meet the following criteria: be a single head of household, a current recipient of TANF/CalWORKs, have one child under 14 years of age, and be enrolled full-time upon acceptance into the program.

The documentation used to verify eligibility for CARE is a “Notice of Action” or “Passport of Services” from the Department of Social Services. This document cannot be dated more than thirty days from the date of acceptance into the program and must be renewed each year.

1. Student Services

1. Does the EOPS program offer all of the program services listed in Article 3 of Title 5? If not, which ones are not offered in EOPS and why? [Title 5-56232-56240]

EOPS/CARE at West Hills College Lemoore does not provide the following services; waivers were submitted and approved by the Chancellor’s Office for the 2006-07 school year:

Assessments:

EOPS and CARE does not provide assessments as this is provided by the college for all students.

Tutoring Services:

Tutoring services are not directly offered by the EOPS/CARE program. However, tutoring is available for all students at West Hills College Lemoore. Each student is allowed up to 3 hours per week tutoring for any subject. An English Lab has also been established for additional tutoring hours in English. The English Lab is open Monday

through Friday for at least 5 to 7 hours a day. The lab is staffed by an English instructor and there are also tutors available for additional assistance. Also, there is a Math lab on campus.

Basic Skills Instruction and Tutoring Services:

EOPS/CARE program does not provide or pay for basic skills instruction. The college offers basic skills instruction that includes: 1) English as a Second Language (e.g. ESL 120, 125, 130, 135), 2) Remedial/developmental English and reading courses (101A, 101B, 105A, 105B), and remedial/developmental math (math 101). These are non-degree applicable courses designed to build the necessary skills to succeed in credit coursework. Many times, students lack sufficient study skills to enable successful completion of college classes. For this reason, EOP&S/CARE students may enroll in the Guidance Studies class, GS 61. This class is offered in the DSP&S lab which is equipped with state of the art technology. Students are able to acquire college success skills, which include, note taking strategies and study skills. It can be taken every semester if needed.

Transfer and Career Employment Services:

These services are not offered by EOPS/CARE program. However, West Hills College Lemoore has a well established and active Transfer/Career Center which provides information about job opportunities for all students. EOPS counselors also inform students about “federal work study” jobs that are available on the campus. In addition, the Cooperative Work Experience Education (CWEE) program is a class that students can take to prepare them for a job in their specific major.

2. How are the required counseling contacts documented? [Title 5-56236]

Counselors record counseling contacts on the Activity Log in the student’s file. The counselor briefly documents what occurred during the meeting. The counselor also enters the student contact into Datatel. Finally, the program secretary enters contact information on a spreadsheet that she maintains for record keeping of all EOPS students.

3. Describe the process you have in place to ensure all eligible students meet their required counseling contacts. [Title 5 – 56236]

The EOPS/CARE staff continually stress the requirement and importance of the required counseling contacts. This expectation is also communicated at the student orientations each semester. In the student orientation held for the spring of 2008, students were given a “True” or “False” questionnaire to test their knowledge of the EOPS/CARE program requirements and services. In addition, when a student meets with an EOPS counselor to complete their Student Educational Plan (SEP), the counselor will review the Mutual Responsibility Contract (MRC) with each student. The MRC is discussed in detail, explaining that there are requirements the student must complete in order to remain

eligible. Part of the student obligation is to attend and participate in a minimum of three counselor contacts per semester. Before the student leaves the counseling session their next contact appointment is scheduled.

The student is also required to sign and date the MRC. The student is then given a copy of the contract to keep for their records. When a scheduled appointment is missed, the counselor emails the student, reminding them of their obligation and encouraging them to call and reschedule their missed appointment.

The final process we use to hold a student accountable for meeting their required semester contacts is a letter sent to them by the Associate Dean for Categorical Programs. They are informed why they will be put on a probationary status and that they have a right to appeal the decision by calling and meeting with the Associate Dean. After the meeting, a letter is sent to the student informing them of what they must accomplish to remain in the program and to receive full benefits.

4. Describe the tutorial services for EOPS that are over and above those available to the general students.

At this time the EOPS/CARE program does not provide tutorial services over and above those available to the general students at WHCL.

5. What services are provided to CARE students and how are these over and above those provided to EOPS students?

CARE students receive a stipend for additional educational costs; which may cover transportation needs or school supplies. CARE students make the determination on how to spend their stipend based on individual needs.

CARE students also are offered multiple opportunities to attend different workshops each semester. Topics discussed often include self-esteem, parenting, study skills and time management. The expectation is that CARE students will attend at least one workshop per semester.

2. Program Requirements

1. Title 5 regulations require the program to have a full-time EOP&S/CARE director. If the director is less than full-time in EOP&S/CARE, please identify the other program responsibilities and the percentage of time for each. In addition, if the position is less than full-time attach a copy of the letter granting a waiver to these criteria.

The Associate Dean is currently less than full-time in EOPS/CARE. This individual also oversees the DSP&S and CalWORKs Programs. Her time is divided 50% EOPS/CARE, 25% DSP&S and 25% District. (A copy of the letter granting a waiver for this criterion is attached, in order to meet compliance of 100%).

2. Describe the role of the EOP&S/CARE advisory committee, identify the membership/composition, list the frequency of the meetings and provide a copy of the last meeting's minutes. [Title 5-5602]

The role of the EOPS/CARE advisory committee at West Hills College Lemoore is to provide valuable input to the EOPS/CARE staff regarding the implementation of the program and its policies and services.

The Advisory Committee meets two times a year. The first meeting was on February 14, 2008 and the next meeting was held on May 6, 2008. In the future, meetings will be one time each semester. Copies of the meetings minutes are attached.

The EOPS/CARE Advisory Committee is composed of the following faculty, staff, and members of the local community:

- Angela Barginear, WHCL CalWorks
- Keith Brock, WHCL DSP&S
- Marla Fleming, WHCL Learning Skills Program Assistant
- Rafeal Flores, WHCL CalWorks Advising Specialist
- Valentine Garza, Hanford Human Services Agency
- Anthony Gracian, Community Member
- Veronica Grijalva, WHCL EOPS/CARE Counselor
- Lataria Hall, WHCL DSP&S Counselor
- Suanne Heskett, WHCL DSP&S Instructor
- Eva Jimenez, WHCL EOPS/CARE Advising Specialist
- Michael Rodriguez, WHCL CalWorks/Career Center Counselor
- Adrian Simas, WHCL Learning Skills Program Assistant
- Gissell Simon, WHCL Interim EOPS Counselor
- Dolores Smith, WHCL Financial Aid Director
- Sylvia Spiller, Hanford Human Services Agency
- Karen Stieve, WHCL Work Study Coordinator
- Elva Torres, WHCL EOPS/CARE/DSP&S Secretary
- Erika Guillen, WHCL student
- Jeanette Rodriguez, WHCL Student
- Esther Concilian, WHCL Student
- Jacqueline Tafolla, WHCL Student
- Ines Tafolla, WHCL student

- Martin Vega, WHCL student
- Rosa Diaz, WHCL student
- Alma V. Cervantez Mejicanos, WHCL student
- Elena Zermeno, WHCL Student

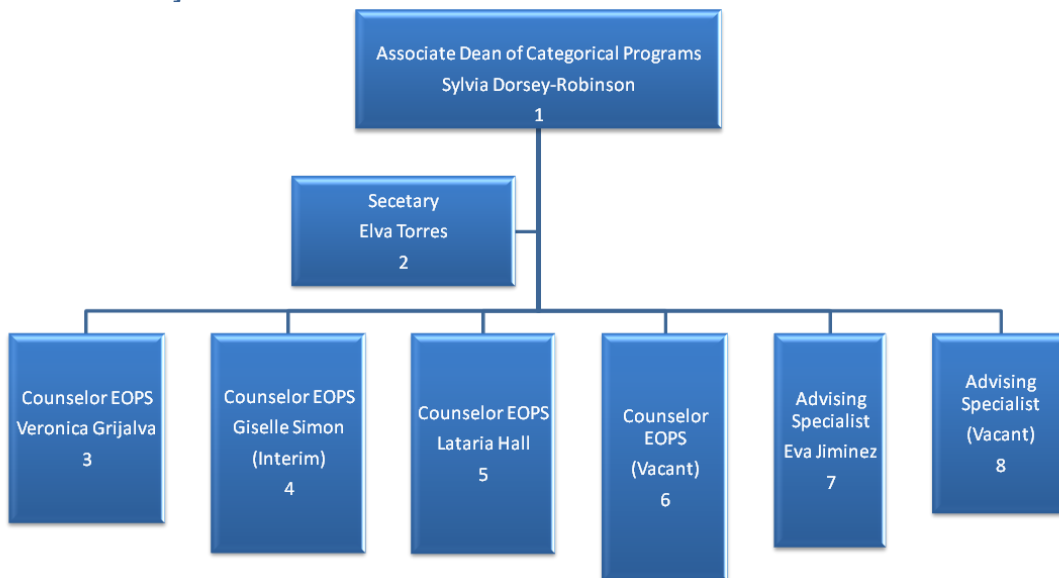

3. *Funding, Expenditures and Accountability*

EOP&S and CARE funds may only be used to fund over and above services to EOPS and CARE students. This also applies to district funds reported as direct contribution.

1. Understanding the EOPS and CARE funding formulas is essential in effectively administering and advocating for your program. The funding formula is complex and comprised of different elements. Would you like technical assistance in this area?

The Associate Dean has attended technical training at the state and local levels. She also checks the Chancellor’s website as a source. Also the EOPS and CARE coordinators at the Chancellor’s Office are always accessible to answer questions or concerns. However, continued technical assistance is valued and appreciated.

2. For staff reported in your EOPS program plan that are not assigned 100% to EOPS/CARE, please list the position(s) and how the percentage of time was determined. How are these staff accountable to the EOPS Director for the services they provide to EOPS students? In addition, how are their duties for this assigned time above and beyond what they provide to non-EOPS or CARE students? [Title 5-56293]

- Associate Dean of Categorical Programs/EOPS Director-50% EOP&S, 25% DSP&S-State, 25% DSP&S-District.
- Counselor-80%-EOP&S, 10%-DSP&S, 10%-District
- Interim Counselor-80%-EOP&S, 10%-DSP&S, 10%-District
- Counselor-15%-EOPS, DSP&S-State-60%, DSP&S-District-15%, District-General-10%
- Counselor- 15%-EOPS, DSP&S-State-60%, DSP&S-District-15%, District-General-10%
- Advising Specialist- EOPS-State-42.5%, CARE-22.5%, DSP&S-State-25%, District-General-10%
- Advising Specialist-EOPS-State-15%, CARE-15%, CalWorks-70%
- Program Secretary-EOPS-District-40%, DSP&S-State-15%, DSP&S-District-25%, District-General-20%)

The recently added positions were determined based upon the increased student population and a discussion with the advisory and EOPS/CARE team regarding strategies for increased student access and success.

Staff is accountable to the Associate Dean by submitting time allocation logs on a monthly basis. In addition, monthly staff meetings are held to discuss program updates, service issues or concerns, events and pending student needs.

In addition, the staff duties for EOPS/CARE students listed below demonstrate above and beyond what is provided to non-EOPS/CARE students:

- Associate Dean of Categorical Programs/EOPS Director- Coordinates all administration needs of the program and staff.
- Counselors- complete a SEP for all EOPS/CARE students; meets with students at least three times each semester; and follows up with students who missed appointments; and facilitates workshops.
- Advising Specialists- Reviews all incoming applications for EOPS/CARE to determine student eligibility; works closely with the counselor and student in answering various questions to assist in academic planning and success; and organizes all workshops for CARE students.
- Program Secretary-Assists Associate Dean and EOPS staff with necessary secretarial support duties such as scheduling counseling appointments; maintaining contact logs; preparing awards disbursement; and assists with data entry for MIS reporting.

3. For CARE funded positions that provide services to CARE students, please list the position(s) and describe how the services provided are above and beyond those provided to EOPS students?

The two Advising Specialists provide assistance in monitoring continued student program eligibility and collaborate with each other regarding the identifying and coordinating the CalWorks students who may also be eligible for CARE. They also assist the Associate Dean in coordinating all support services for CARE students. The Advising Specialist participates in on/off campus recruitment activities that target potential CARE students. Additionally, they facilitate workshops specifically tailored to meet the needs of CARE students.

4. How do you ensure that EOPS and CARE funds are only used to pay for allowable services for EOPS/CARE eligible students?

Title V expenditures are accounted for appropriately by the Associate Dean of Categorical Programs. The student eligibility list is maintained in the DATATEL system which is utilized to determine events, activities and awards. The Associate Dean maintains close contact with the Business Office, Budget Committees, Financial Aid, along with the Dean of Students and College President. The staff at the System Office is contacted when there are any questions concerning allowable expenses.

5. Describe the process for developing and approving the EOPS and CARE Budgets and Expenditures.

The EOPS/CARE staff members discuss student needs and current services and identify priorities for the next fiscal year. Advisory members and students also provide valuable input. The budget is developed and submitted to the WHCL Dean of Students and WHCCD Vice Chancellor of Business Services for review and signature.

EOPS/CARE expenditures are monitored regularly by the Business Office. The Associate Dean of Categorical Programs and program secretary meet as needed to reconcile accounts and provide regular maintenance on budget issues.

All requisitions are completed electronically and the Associate Dean of Categorical Programs approves requisitions before they can be processed and purchase orders issued. The requisitions may require one or more signatures from site administration and district business office employees, depending on the dollar amount.

6. Identify the process for completing the EOPS and CARE Year-End Reports and relationship to the district's year-end program.

The Associate Dean of Categorical Programs reviews the end of the year expenditures report for EOPS/CARE and district contribution. This information is reviewed by category and salaries are totaled and placed in the appropriate allocation budget categories; this is also done with the district contribution. This process is completed to insure all EOPS funds are accounted for and district contributions are met. A draft of the

report is reviewed by the Business Office before the final report is signed by all designated administrators and forwarded to the EOPS program staff in the System Office.

The CARE year-end report also consists of a narrative of highlights of services provided to CARE student throughout the year. This report is developed in collaboration with the EOPS/CARE Advisor.

4. Other

1. What other areas or departments on campus do you coordinate with to provide services to EOPS and CARE students?

EOPS and CARE work very closely with Financial Aid, Admissions and Records, CalWorks, Career/Transfer Center, DSP&S, General Counseling, Department of Social Services, and the Work Study Coordinator to provide services to EOPS and CARE students.

2. What other programs or agencies off-campus do you coordinate with to provide services to EOPS and CARE students?

EOPS/CARE work very closely with the local feeder high schools and continuation schools to assist in identifying incoming high school freshman who may qualify for EOPS/CARE. Other organizations we work with are: Kings Area Rural Transit, Kings County Department of Social Services, Kings Community Action Organization, a county organization that assists the low-income population with child care and other needs and Kings County Mental Health Department.

3. Is there any training that you believe would improve performance in the EOPS program? Please describe training needs as you see them.

On-going training opportunities provided through the System Office with updated or best practices models would improve performance in the EOPS program. Internally, EOPS staff could learn more about the departments with which efforts are coordinated and share information with those departments regarding how EOPS/CARE works.

III. Program-Specific Self-Evaluation

Disabled Student Program and Services

The self-evaluation is based on the WASC Accreditation Standard IIB – Student Support Services:

“The institution recruits and admits diverse students who are able to benefit from its programs, consistent with its mission. Student support services address the identified needs of students and enhance a supportive learning environment. The entire student pathway through the institutional experience is characterized by a concern for student access, progress, learning and success. The institution systematically assesses student support services using student learning outcomes, faculty and staff input, and other appropriate measures in order to improve the effectiveness of these services.”¹

- A. Management Information System (MIS) Data Reporting - For access, progress and success, MIS data for the prior three years (2005-06, 2004-05, and 2003-04) will be provided annually by the System Office for each college. Program staff will need to conduct an analysis of the data sent by the System Office. Colleges may also use in-house data to complete this section.*

Questions for Analysis:

How is the categorical program director involved in the review of MIS data before it is submitted to the State Chancellor’s Office?

The Associate Dean of Categorical Programs works closely with the DSP&S staff and District Programmer/Analyst to ensure that information is entered correctly. The District Programmer/Analyst submits preliminary data for review by the Associate Dean and secretary. This information is reconciled to ensure that contacts are appropriately coded in Datetel; contacts relate to the disability and all student contacts are captured correctly before submission to the System Office. Additionally, all DSP&S staff are involved in reviewing their entries to ensure they are correct.

Do the data appear to be accurate? Do the numbers of students in the MIS report match your program records?

The data appears to be accurate. However, the data is not provided for a comparison between the students in NC140A, NC140B, NC141 and NC 142; therefore the team requested that the Director of Institutional Effectiveness

¹ Self Study Manual – ACCJC Standards Adopted June 2002, Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges, August 2005

and Planning provide an additional field as it is theorized that these students are more likely to persist from one semester to another and one year to another.

If the data does not appear to be accurate, identify the problem (e.g. too many or too few participants listed; demographics seem incorrect, etc.). Document the process used to identify the problem. Share this information with the college information technology services staff to determine ways to correct your MIS reporting.

N/A

- B. *Access - Identify how accessible the program is by comparing demographic data from the group college to the program. Data to be compared include gender, ethnicity, age, informed educational goal, Pell and BOG fee waiver recipients, English Language Learners (ELL) and students with disabilities.*

Questions for Analysis:

How does program compare with the total college demographic data?

With respect to gender breakdowns, there is not a statistically significant difference between the numbers of males vs. female students receiving DSP&S services. However, in the DSP&S program there is a statistically significant difference in the number of students who indicated their gender is “unknown”. There were 5.9% that responded to “unknown” to this question while only 1% of the general population responded “unknown”.

The largest percentage of DSP&S students attending West Hills Lemoore by age group are those who are between the ages of 30-49. Thirty-three percent of the DSP&S students are within this age group; while 23.7 % of the general population is in this age group. By contrast, the second largest number of DSP&S students attending college are those in the age range of 20-24; and in the general population, this age group represented the highest percentage of students attending college.

With respect to ethnic breakdowns, there appears to be a disproportionate number of African-American students receiving DSP&S services as compared to students enrolled at the college. A little more than six percent of the student population is African-American (6.5%), while 13.2% of the DSP&S students are African-American. The team believes that the impact of the Larry P. vs. Riles 793 F. 2d 969 (9th Cir. 1984) decision in the K-12 setting, which prohibits the IQ testing of African-American students, is the contributing factor to this large number. While this is not to say that African-American students were not served in the K-12 setting if they had academic difficulties, some students may not have met the eligibility criteria under the California Education Code. The team believes that this factor will diminish over time as the reauthorization of IDEA (Individuals with Disabilities Education Action), instituted the Response to Intervention.

Describe the areas where you have concerns about access.

While there are no significant concerns in the area of access for individuals who are 30 years of age and above and who are African-American, the college needs to be mindful of the sensitive cultural and age factors to these respective populations. The DSP&S staff is concerned about the limited number of Caucasian students in the program.

Please describe any plans in place for improving access.

The DSP&S program staff is very proud of the number of students' accessing the program.

The team would like to explore the notion of "student ambassadors" to mentor incoming students. A "student ambassador" who is already familiar with the program would serve as a contact for incoming students with a disability. Their roles would be to facilitate the transition; acquaint the new student to resources, supports and campus life; and become an individual that the new students can contact with questions.

What programs and services do you feel specifically contribute to student access at your college? Why?

The team believes that the genuine concern staff expresses for students, the availability of services, the openness of the DSP&S lab and all other services contribute to the overall access opportunities students have with the program. Additionally, the counselors stay in contact with feeder school special education teachers; and work one-on-one with students for application assistance, placement testing and registration in the spring of every year. As a part of continued opportunities to improve service delivery and outreach, the counselors have provided campus and community-wide events that highlight the eligibility requirements and services provided.

C. Progress - Compare how well students served by the program perform compared to those of the whole college. Data to be compared include course success rates, academic and progress dismissal, and persistence.

Questions for Analysis:

1. How well do the students served by your program perform compared to the total college population?

West Hills College Lemoore Revision date: 6/30/2008	All Students	% of all	DSP&S	% of DSP&S	% of all

DSP&S students are more likely to persist from one semester to another and one year to another as reflected in the 2006-07 data. DSP&S students have a significantly higher rate of semester to semester persistence (86.1%) compared to the general population (64.3%). Additionally DSP&S students are more likely to return from one year to another as evidenced in the data from 2006-07; wherein 74.3% of DSP&S students return from one fall. By contrast, only 42.8% of the general population returned.

With regard to Workforce Development the sample size (4 students) of advanced occupational courses is too small to make assumptions regarding DSP&S student progress. In the area of Clearly Occupations, DSP&S students success rate was significantly lower (13.3% less) than the general population,

However, in the area of course completions, DSP&S students had a higher rate of being unsuccessful in the classes they attempted. In the areas of English and Math, 40.4% of DSP&S students were successfully in English courses and 36.4% were successful in Math courses. This is particularly alarming as 56.4% of the general population students were successful in English and 65.4% were successful in Math.

Describe areas where you have concern about student progress.

The areas that are most concerning are the success rates of DSP&S students in both English and Math classes. It will be important for the DSP&S team to further explore what mitigating factors are influencing the success rate of DSP&S students.

However, the results of data regarding student persistent is inspiring. In the area of persistence, the DSP&S students did significantly better than the

general college population. 86.1 % of DSP&S students persisted from the fall 2006 to the spring of 2007, compared to 64.3% of the total student populations. Additionally, DSP&S students had a higher persistence rate from fall 2006 to fall 2007 at a rate of 86.1%, compared with the general student population rating at 42.8%.

In the area of course completions, the success rate of DSP&S students were 3.2% less than the general student populations at a rate of 59.5% compared to the general population at 62.7%. There appears to be a significant disparity between the percentage of DSP&S students successfully completing English and Math class. There is a 16% difference in the area of English and an 11.8% in Math.

With regard to Workforce Development, the DSP&S students were slightly more successful in Advanced Occupational classes (5.9% higher), than the general population and significantly lower (13.3%) in the Clearly Occupational classes.

It is unclear what is the underlying reason; to this end, the team will spend more time evaluating this discrepancy and working on implementing “student ambassadors” to orient and connect students to campus resources and a specialized tutoring program for the 2009-10 school year.

What programs and services do you feel specifically contribute to the progress of students at your college? Why?

It is believed that the success of the DSP&S students in persistence is due to many factors across the campus community. These factors include: the openness of faculty and staff, DSP&S counseling and other services, accommodations provided, and technology available in the lab. Additionally, we now have two full time counselors and we have also extended the hours for student contacts; students now have the option to come in until 5:30 pm instead of 4:00 pm. The DSP&S labs hours have also been extended to accommodate students in the evening.

D. Success - Review how well your students are completing their educational goals. Data to be included are number of degrees and certificates awarded, number of transfer-prepared students, number of transfers, and achievement of non-credit educational goals.

West Hills College Lemoore Revision date: 6/30/2008	All	% of	DSP&S	% of	% of
GENERAL DATA	Students	all	DSP&S	DSP&S	all
ACADEMIC SUCCESS					
Degree	349	5.4%	25	5.9%	7.2%
Certificate	24	0.4%	2	0.5%	8.3%
Transferred to 4-Year	1,544	23.9%	27	6.4%	1.7%
<i>Unduplicated Success Rate</i>	1,725	26.7%	39	9.2%	2.3%
Transfer Directed	762	11.8%	18	4.2%	2.4%
Transfer Prepared	572	8.8%	26	6.1%	4.5%

Questions for Analysis:

1. How well do the program students perform compared to the total college population?

The results of data regarding student persistence, retention, and graduation are inspiring. DSP&S students are achieving degrees (5.9%) and certificates (0.5%) at a comparable rate to general students (degrees- 5.4%, certificates 0.4%). However, a review of the transfer data shows that fewer DSP&S students (6.4%) transfer than the general population (23.9%).

2. Describe areas where you have concern about student success.

The area of concern is the percentage of DSP&S students who do not transfer.

3. What programs and services do you feel specifically contribute to the success of students at your college? Why?

The DSP&S staff believes that students feel very positive about staff, services, and support they receive on campus. This starts with initial contacts to lab availability, counseling services, assistive technology and availability of staff to confer with. In addition, the positive interactions are highlighted with faculty and those interactions with students.

E. Student Learning Outcomes - Describe your progress in the development and implementation of Student Learning Outcomes (SLOs) for the program at the college.

Questions for Analysis:

1. What are the SLOs for the program?

SLO 1.) Students will be able to follow their educational plan.

SLO 2.) Students will be able to advocate their special needs to faculty and staff.

2. What process was used (or plan to use) to develop these outcomes?

The faculty and staff of the DSP&S Department met to develop the program plan in 2006-07. Using student demographic data supplied from the Director of Institutional Effectiveness and Planning, the staff recognized that educational achievement of DSP&S students would heavily depend on their capability to complete their educational plan and to be able to self advocate.

3. What types of activities are you conducting in order to achieve these outcomes?

At the DSP&S students' orientation, students were given "true" and "false" questions to assess their knowledge of the DSP&S program and serve their understanding of their responsibilities for self advocating. Additionally, students were given an electronic communication regarding the process for communicating their educational need to their instructors and assessing services and supports. This communication is also provided to faculty each semester. Counselors also review with students their educational contract and make revisions as necessary.

4. How are you assessing the achievement of the outcomes?

The Student Learning Outcomes listed above were completed in the fall of 2007. The DSP&S staff will be assessing the achievement of the outcomes in the spring of 2008 in the following manner:

SLO 1.) A random sampling of 20% of the DSP&S students will be made to determine the number of students following their education plan as outlined.

SLO 2.) Data regarding the number of students requesting accommodations following the census week will be collected each semester.

5. How have you used the assessment information to improve the services?

The categorical staff, which includes the DSP&S staff, review the results of the data collected at a regularly scheduled staff meeting. The analysis of the data helps to guide decisions regarding programs, supports, activities, and goals for the upcoming year.

- F. *Compliance - Provide an overview of how each program is meeting the applicable minimum requirements of the federal laws and regulations, California Education Code, Title 5 regulations, Budget Act Language and/or program guidelines. The key areas to be reviewed include: 1) student eligibility, 2) student services, 3) program requirements, and 4) funding, expenditures, and accountability. The review should clearly demonstrate that the programs are responsibly handling categorical dollars.*

DSPS: Disabled Student Programs and Services

The Disabled Student Programs and Services (DSP&S) program administered by the System Office is unique in the nation in the scope of services provided to individuals with a range of physical and cognitive disabilities to assist them to succeed in postsecondary education. The DSP&S program authorizes the provision of support services, specialized instruction, and educational accommodations to students with disabilities so that they can participate fully and benefit equitably from the college experience.

Colleges are charged with providing an equal opportunity for students with disabilities to succeed, but cannot guarantee success. "Equal, not better" is the critical determinant in whether DSP&S should provide a service or arrange for an accommodation for a student with a disability. These services assist California's community colleges in meeting the requirements that college programs and activities be accessible to and useable by students with disabilities contained in Section 504 of the federal Rehabilitation Act of 1973, the federal Americans with Disabilities Act (ADA) of 1990, State Government Code sections 11135-11139.5 and California Education Code section 67310.

Student Eligibility

1. Describe the processes used to verify and document a student's eligibility for DSP&S services and instruction. Please provide a copy of the form(s) used to document a student's eligibility for services.

A "student with a disability" is a person enrolled in the college who has a verified impairment, which limits one or more major life activities, and which imposes an educational limitation. DSP&S eligibility needs to comply with Title 5, CCR section 56006

The process used to verify and document a student's eligibility for DSP&S is:
A student requests and receives an application (blue form) and an appointment is scheduled with a DSP&S counselor. An intake interview is completed with the

student and the application is reviewed (blue form which includes the consent for release) with the student. Based on the intake interview, the student may indicate that they have received services from the high school and an IEP (Individualized Education Plan) is requested from their high school.

If it is determined that LD testing is appropriate, the first testing session is then scheduled. If the student has just enrolled as a first time student from a local high school and has a current IEP this student may be granted temporary services.

If the disability appears or suggests that he/she has a medical or psychological disability, they are given a Medical Disability Verification form to be given to the appropriate medical professional for verification. This may include documentation from Mental Health or some other agency. A student's eligibility is verified through documentation from a person who is licensed or certified in a field to diagnose specified conditions. The completed medical form needs to include functional limitations.

If the intake interview suggests that the student has a history of learning difficulties, the student is provided with an application for testing (yellow form) and scheduled for testing. If the college receives prior documentation of a learning disability, the DSP&S Counselor/LD Specialist will review those documents to determine if there is sufficient information to meet the prior documentation test as outlined through the System Office.

If however, a student has an observable disability, such as blindness, the DSP&S Counselors will certify that the student meets the criteria under Title V for eligibility.

Upon completion of disability verification, the correct disability code will be assigned to the student and appropriate accommodations will be set up in the necessary classes. This information is documented in the student's file and a statement of their educational limitations is notated in the (SEC) Student Educational Contract.

2. Describe the process used to determine what support services the student would need to enable his or her participation in activities, programs and classes offered by the college, given the student's educational limitation.

Support services are student specific and are determined by the student's educational limitations, disability and self disclosure. The in-take interview is essential in determining academic needs, the student's limitations and coursework that will satisfy their educational goals.

Upon initiation by the student each semester, accommodation forms are given to the student to deliver to his/her instructor(s). For instructors teaching on-line classes, this accommodations sheet is provided electronically with the permission from the student. Accommodations are monitored throughout the school year and are often modified, depending on student needs, requests, schedule changes, etc.

(Title 5 - 56000, 56002, 56004, 56005, 56006, 56008, 56010, 56022, 56026, 56027, 56028, 56029, 56032, 56034, 56036, 56038, 56040, 56042, 56044)

Student Services

1. List and describe the DSP&S services that are provided to students with disabilities, above and beyond the regular services offered by the college. (Title 5 – 56005, 56026)

The services that are provided to DSP&S students that are over and above the regular services offered by the college are:

- Adaptive equipment
 - Loans for adaptive equipment
 - Traditional and speech activated calculators
 - Alpha Smart Keyboards
 - Braille labeler
- Alternative media
 - Tape recorders and other listening devices
 - E-books
- Braille
- Assistive computer Technology
 - Assistive technology in DSP&S lab, and other campus locations
- Campus and Community Liaison
 - Liaison/advocating and referrals with college programs, instructors, administration, and other agencies
- Counseling: academic, career and personal, vocational
- Course related co-curricular accommodations
 - Preferential seating
- Equipment loan –
 - Flash drivers
 - Automatic door openers
- Interpreter /caption services
 - Video captioning
 - Interpreter for the deaf
- Liaison with local, state and federal agencies
- Multi-media educational aids
 - Computers modified to accommodate various limitations (e.g. magnified screens, specialized keyboards and monitors)

- Note taker/scribe services
 - Scribes and readers
- Outreach activities
 - Networking with DSP&S staff, feeder schools
- Referral services
- Registration assistance
 - Priority registration
- Repair of adaptive equipment
- Specials classes
 - Adaptive educational classes
- Specialized/supplemental orientation
 - DSP&S Orientation
 - Tools for organization
- Learning assessments/Educational testing
- Test facilitation/proctoring
 - Location change for testing with extended time
 - Testing accommodations
- Transportation (on campus) if criteria is met
 - Transportation between classes
- Initial mobility orientation

2. List and describe the DSP&S special class instruction that is offered by the college, if applicable. (Title 5 – 56028)

West Hills College Lemoore is fortunate to be able to offer a variety of adaptive classes, both credit and non-credit. The classes offer students developmental skill building in order to assist students in achieving their goals of a higher education.

The credit classes consist of Guidance Studies Classes (GS 61), English 89, and Adapted PE 19.

GS 61:

These classes assist students below the basic skill level; as well as provide assistance in acquiring prerequisites required for the basic skills courses. Content includes instruction in study skills, learning styles, test-taking, note-taking, reading strategies, and assistive technology programs. Students receive instruction in a lecture/lab structure with both whole group and individual instruction. The class is intended primarily for students with learning or other disabilities, although any student may enroll.

English 89:

These classes are intended primarily for students with learning disabilities. The content of the course relates to writing, spelling and related language arts.

PE 19 (Adaptive):

These classes are designed to assess the fitness and ability levels of students while creating a specific fitness plan.

The non-credit classes consists of NC 140A, NC140B, NC141 and NC142. All of these courses are offered off site at the Kings Rehabilitation Center. The focus is primarily on individuals with developmental disabilities. The course curriculum graduates from a moderately disabled adult to a mildly disabled adult. However, all of the courses focus on opportunities to develop personal, vocational, social and behavioral skills through integrated activities.

The core expectations for all DSP&S students are to advance towards independence, self-sufficiency and self-advocacy.

NC 140A:

These classes are designed to provide moderately disabled adults with opportunities to develop personal, vocational, social, and behavioral skills through a comprehensive program of work, social, behavioral, and community integrated activities.

NC 140B:

Similar to design of NC 140A, this class is designed to provide mildly and moderately disabled adults with opportunities to develop personal, vocational, social, and behavioral skills through a comprehensive program of work, social, behavioral, and community integrated activities.

NC 141:

This course provides paid work opportunities to individuals with a variety of disabilities. The program is intended for those individuals who lack competitive job skills at the time of placement due to disability, but who are capable both vocationally and socially of performing work with work crews. These crews receive job coaching and support. Pay is based on individual productivity.

NC 142:

This course provides job skill development, extended employment, off-site employment, living skills and support services to individuals who, at referral, are too severely disabled to work in a competitive job situation. Services will assist in maximizing vocational development and

independent living through work crews and enclaves. Pay is based on individual productivity.

3. *Describe how regulations, policies, legal opinions, US Department of Education, Office for Civil Rights (OCR) decisions and administrative directives are incorporated into DSP&S program operations and service delivery. (Californian Education Code and Title 5)*

The Associate Dean of the DSP&S program stays current on regulations, policies, legal opinions, USD Department of Education, and OCR decisions and administrative directives by:

- Reviewing the publications such as: LRP, Disability Compliance for Higher Education, ADA Compliance Guide, Title V Regulations.
- Communicating with representatives from the Galvin Group, regional colleagues, System Office staff
- Attending workshops and conferences.

4. *Describe the procedures for preparing, monitoring, and annually updating the Student Educational Contract (SEC). What methods are being used to evaluate student progress? (Title 5 - 56022)*

The DSP&S counselors meet with the student to review the necessary requirements to complete their program of study using program sheets. The counselor, along with the student, completes the Student Educational Contract (SEC) for the year. Additionally, the student's disability is identified along with educational limitations and supports needed for the classes in which the student is enrolling. The SEC is prepared upon initial contact in the granting of the student case. This contract can be amended as needed throughout the year.

The SEC is monitored and evaluated throughout the semester through student contacts and the mid-semester progress reports. Using the mid-semester report, the counselors discuss student progress, needs, amendments and supports to help the student pass their classes. At the completion of each semester or beginning of the following semester, the SEC is updated when the grades are received. The student's academic records are reviewed to assess progress towards the student goal's and the student educational plan.

The SEC is updated at least once a year.

Program Requirements

1. *Describe the role of the advisory committee, identify the composition of the advisory committee representatives, the frequency of the meetings, and attach minutes from the two most recent meetings.*

The Advisory Committee is a cross-representation of faculty, staff, students and community agencies. The role of the advisory as stated in our missions statement is: "...The Mission of the DSP&S Advisory committee will be to assess the functioning of said DSP&S programs as it relates to Title V Requirements and the needs of the disabled student population within the community." The DSP&S Advisory committee meets once a year or more frequently as needed. (Title 5 - 56050)

2. *Identify the individual designated as the DSP&S Coordinator and how the individual serving in this position meets the minimum qualifications. (Title 5 – 56048)*

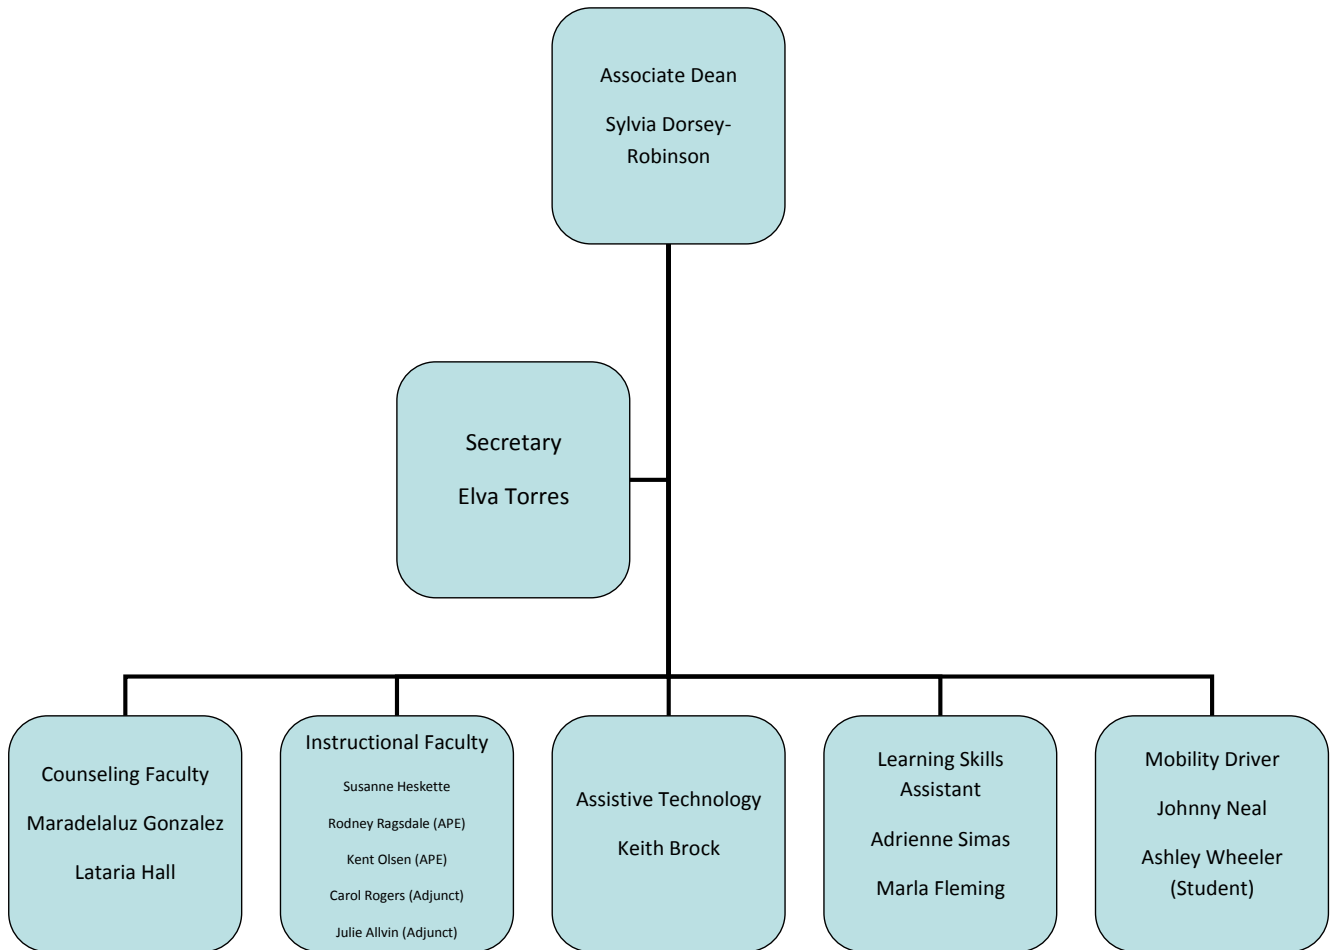

The Associate Dean of the DSP&S program is Sylvia Dorsey-Robinson. She meets the minimum qualifications by having acquired a Master's Degree in Education Administration, having worked over twenty years in the K-12 setting with individuals with disabilities, including serving as the Director of Special Education for ten of those years and having served as the Associate Dean of the DSP&S program for the last year and a half. Her resume and credentials were meticulously reviewed by the Human Resources department and determined to have met the requirements under the Title 5 Regulations.

3. *List and describe each of the positions funded by or supporting DSP&S and how the individuals serving in these positions meet the minimum qualifications. (Title 5 - 56048)*

The DSP&S staff consists of:

- director (Associate Dean- partially funded)
- secretary (partially funded)
- full-time counselors
- 1 high technology/access specialists
- learning skills assistants
- 2 adjunct faculty
- 1 full time faculty
- 2 full-time faculty with adapted PE classes
- 1 part-time mobility driver
- 1 work-study mobility driver

All of the individuals listed above meet minimum qualifications based on the job description and Title 5 Regulations as reviewed by the Human Resources Department.

Funding, Expenditures and Accountability

- 1. Describe how DSP&S funding is being used to provide support services and/or instruction to students with disabilities.***

The DSP&S funds provide support services and/or instructional services in the funding of staff, delivery of assistive technology, orientations, specialized classes, on-campus transportation, training, workshops and outreach.

- 2. How is the DSP&S Coordinator’s salary funded?***

The DSP&S Associate Dean is funded 25% - State allocation DSP&S and 75% district.

3. *How is revenue from DSP&S Special Classes being accounted? (Title 5 – 56060, 56064, 56070, 56072)*

The Associate Dean and the secretary gather positive attendance data from the non-credit classes each month. This information is forwarded to the Registrar who verifies the attendance documents. At the conclusion of the fall term the Associate Dean requests FTEs generated from the adaptive classes, both credit and non-credit. This process occurs each term.

4. *Describe the process for developing and approving the DSP&S Budget and Expenditures.*

The DSP&S Associate Dean works with the staff and advisory to identify any needs for the upcoming year and establish budget priorities accordingly. This is part of the college wide planning and governance process. The Associate Dean creates both a categorical dollar budget and a general fund budget in the spring of each year. The categorical budget is based on a 95% allocation, as the actual allocation is unknown until the fall term.

The general fund budget is developed based on the budget amount supplied by the business office. These budgets are reviewed with the Dean of Students before submission to the president.

5. *Identify the process for completing the DSP&S Year-End Report and relationship to the district's year-end program accounting.*

The DSP&S Year End Report is completed by the Associate Dean. This process begins after the first month of the summer term. The Associate Dean and the secretary gather positive attendance data from the non-credit classes each month. This information is forwarded to the Director of District Enrollment who verifies the attendance documents. At the conclusion of the fall term the Associate Dean requests FTEs generated from the adaptive classes, both credit and non-credit. This process continues in both the fall and spring semesters. Throughout the year, the Associate Dean and secretary are monitoring the DSP&S budgets and making adjustments as necessary. At the end of the fiscal year, the Associate Dean reviews the budget and FTEs and reports the dollars as indicated on the End of the Year Report. This information is reviewed with the business office prior to obtaining appropriate signatures and submitting to the System Office on or before September 15th of each year.

- 6. Identify the process for tracking and documenting Deaf and Hard of Hearing Allocation funds expenditures, if the college receives these funds, and the required college match.*

At the time of this report, the college had not applied for and Deaf and Hard of Hearing Allocations.

- 7. Describe how the college utilizes the funds in the DSP&S allocation for Access to Print and Electronic Information and funds from other sources, to ensure that educational materials are provided in a format that is accessible to and usable by students with disabilities.*

The colleges utilize the funds in DSP&S for access to print and electronic information by employing an Assistive Technology/High Access Specialist. This individual ensures that alternative support is provided to enable students to access the curriculum. The Assistive Technology Specialist communicates with the DSP&S counselors, faculty, students, the High Tech Center, and the Alternative Text Production Centers to provide the appropriate support to students in order to achieve access.

- 8. Describe the procedures for recording the student's minimum four service contacts per year that are required in order to receive funding, and the process of verifying and reporting those service contacts to MIS (Title 5 – 56062)*

Upon granting a student case, the information is documented under the Datatel EMER/CASM screen. A MIS form is submitted to the DSP&S department's secretary who cross-checks the information through her database. It is important that the information on the MIS form coincides with the information on the Datatel EMER screen. The District Programmer/Analyst generates a semester report listing student contacts to DSP&S. This ensures that the required four yearly contacts have been met.

A student enrolled in an adaptive class will automatically receive their four contacts. A student who is not enrolled in an adaptive class, but receives disability related services such as test proctoring, is also documented in the CASM Datatel screen.

A master list of contacts is compiled to verify the required four contacts. The District Programmer/Analyst submits preliminary data for review by the Associate Dean and secretary. This information is reconciled to ensure that contacts are appropriately coded in the EMER screen and relate to disability, and all student contacts are captured and corrected before submission to the System Office.

9. *In general, describe the DSP&S funding allocations formula and its elements. Understanding the formula is essential in effectively administering and advocating for your program. The funding formula is complex and comprised of different elements, including weights assigned by disability category. Would your college like to request technical assistance in this area?*

The DSP&S funding is built on student “head count” broken down and weighted by disability and the enrollment in credit and non-credit classes. Staff is responsible for entering all student contacts; however, only those contacts related to the disability count and must be a minimum of 4 contacts per year in order for the college to receive DSP&S funding. The specific disability areas identified through the community college system are: Mobility, hearing, vision, psychological, developmentally delayed, learning disabled, acquired brain injury, speech, and other.

The Institutional Technology Services (ITS) department maintains the data as it is input in the Datatel system. The District Programmer/Analyst communicates with the DSP&S Associate Dean and the secretary to indicate when the data has been updated. The DSP&S department reviews the student information to ensure that the information is correct and accurate, reports any mistakes so that District Programmer/Analyst can make any changes prior to submission to the System Office. The System Office uses this head count information along with the FTES generated by the credit and non-credit classes, and the amount of money spent in the current year, along with the anticipated amount that should have been spent to determine the next years’ allocation.

The Associate Dean works closely with the DSP&S staff, students, advisory group, and facilities team members to determine upcoming needs in the DSP&S program. Each spring, the Associate Dean uses this information and other information supplied by the business department to develop a budget based on a minimum 95% of the current year’s allocation.

The college feels that accessing the resources available through the Galvin Group provides adequate training and technical assistance at this time.

Other

1. *Describe other areas or departments on campus you coordinate with to provide services to students served by DSP&S.*

The DSP&S program and staff are intricately involved in the fabric of the college. Staff are standing members of Learning Communities, Facilities and Planning meetings, President’s Cabinet, President’s Executive Cabinet, Site team Planning, Development of SLO’s, the Basic Skills Committee and Counseling and Advising

meetings. This ensures that the needs of the disabled population are well represented and that there is collegiality between and amongst staff and programs that fosters unity of services to this population. In addition, all staff has an open door policy that allows for good communication to exist.

This coordination is evidence in the fact that faculty will often submit referrals to the DSP&S department. They also assist with providing the necessary and appropriate accommodations within their classrooms. They are often collaborating with staff on ways in which they can maximize assistive technology and identify alternative technologies to enable students to gain the needed material. Faculty often meets with the director, counselors and assistive technology specialist in order to collaborate regarding student needs.

The Associate Dean communicates regularly with the Director of Maintenance and Operations to identify accessibility issues and needed resources or potential problems for students. The staff is very accommodating and amendable to providing services.

Because the director of the DSP&S program is the Associate Dean of Categorical Programs, she oversees the EOPS, CARE, and CalWORKs programs as well. This multifaceted responsibility has served to harness inter-categorical communications. This is accomplished through the centralized Associate Dean and monthly staff meetings.

2. What type of training would you like to receive in order to improve the efficiency and performance of your college's DSP&S program? Please describe all DSP&S related training needs as you see them.

The staff recognizes the need to advance its knowledge of assistive technology software and hardware; as well as providing students with training on use of the software and hardware in order to maximize the use of the devices.

In addition, there is an increased need and interest in understanding the characteristics and how best to support the needs of individuals with autism and autism related disabilities. The staff and faculty also need training in the areas of Tourette's Syndrome, mental illness and learning disabilities and accommodations.

As previously mentioned, the college as a recently accredited college is in its infancy; therefore the staff has continued to grow. One area of growth is in the number of staff. However, with that growth and additional staff is the need to "ramp-up" staff in order to advert any break in services. While we have completed this comfortably, it is an area we would continue to need to monitor.

There are a number of ways the staff feels they can achieve the desired results listed above, some of which are participation and attendance at regional meetings, maintaining communications with the various list-serves, attendance at the CAPED, CSUN, and AHEAD conferences as well as seeking out conference and trainings opportunities that focuses on brain-based learning opportunities.

CalWORKs/TANF: California Work Opportunities and Responsibility to Kids/Temporary Assistance to Needy Families

Program-Specific Self-Evaluation

The self-evaluation is based on the WASC Accreditation Standard IIB – Student Support Services:

“The institution recruits and admits diverse students who are able to benefit from its programs, consistent with its mission. Student support services address the identified needs of students and enhance a supportive learning environment. The entire student pathway through the institutional experience is characterized by a concern for student access, progress, learning and success. The institution systematically assesses student support services using student learning outcomes, faculty and staff input, and other appropriate measures in order to improve the effectiveness of these services.”²

- A. Management Information System (MIS) Data Reporting - For access, progress and success, MIS data for the prior three years (2005-06, 2004-05, and 2003-04) will be provided annually by the System Office for each college. Program staff will need to conduct an analysis of the data sent by the System Office. Colleges may also use in-house data to complete this section.***

Questions for Analysis:

1. How is the categorical program director involved in the review of MIS data before it is submitted to the State Chancellor’s Office?

The District Office has a Data Tracking Technician that generates campus CalWORKs MIS specific reports from Datatel for the Associate Dean of Categorical Programs. In 2006-2007, these reports were forwarded and validated by the Career Center Technician who was responsible for tracking and entering all WHCL CalWORKs MIS data. In addition to MIS input into Datatel, the Career Center Technician maintained a local database of information. The MIS data report is compared to the data stored in the locally developed program database. Any necessary corrections are reviewed and cited by the Career Center Technician and Associate Dean before forwarding to the District for final submission to the Chancellor’s Office.

² Self Study Manual – ACCJC Standards Adopted June 2002, Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges, August 2005

2. Does the data appear to be accurate? Do the numbers of students in the MIS report match your program records?

So far, implementation of the new CalWORKs MIS data since Summer 2007 has been successful. Data appears to be accurate with some inconsistencies occurring with enrollment records of CalWORKs student in non-credit courses as well as reporting of students in the local database that are unable to be captured in MIS since the student fails to apply or enroll in classes. Establishing a clear procedure for tracking and maintaining CalWORKs MIS Data collection is needed as the new CalWORKs Advising Specialist will be processing this data instead of the Career Center Technician.

3. If the data does not appear to be accurate, identify the problem (e.g. too many or too few participants listed; demographics seem incorrect, etc.). Document the process used to identify the problem. Share this information with the college information technology services staff to determine ways to correct your MIS reporting.

As cited previously, the inconsistencies occur between the MIS report and the local database of CalWORKs information. The problem exists with the enrollment records of CalWORKs student in non-credit courses as well as the inability to capture student that go through the intake process but fail to apply or enroll in classes. Much of this falls on the CalWORKs program staff, not the information technology services staff. Again, efforts to establish a clear procedure for tracking and maintaining CalWORKs data is needed as the new CalWORKs Advising Specialist will be processing this data instead of the Career Center Technician.

B. Access - Identify how accessible the program is by comparing demographic data from the college to the program. Data to be compared include gender, ethnicity, age, informed educational goal, Pell and BOG fee waiver recipients, English Language Learners (ELL) and students with disabilities.

West Hills College Lemoore Revision date: 6/30/2008		All Students	% of all	Cal WORKs	% of CalWORKs	% of all
GENERAL DATA

	Other	1,068	16.5%	116	56.6%	10.9%

Questions for Analysis:

1. How does the program compare with the total college demographic data?

- CalWORKs serves more females (81.5%) than males (18.5%)
- In comparison to the general population, CalWORKs students' ethnicities are higher in the following areas: Hispanic (47.3%), African-American (13.7%), and Native American (2.4%)
- CalWORKs students' ages, 20-49, are consistent with the general population
- CalWORKs students' receipt of financial aid (90.2%) is significantly higher than the general population (39.9%)
- Of the 6.4%, or 412, total students cited with a primary or secondary disability, 8.8%, or 18, were CalWORKs students

2. Describe the areas where you have concerns about access.

- Increasing participation of males and teenage parents

3. Please describe any plans in place for improving access.

- Work closely with the county and school teen parenting programs to increase referral process for males and teenage parents

4. What programs and services do you feel specifically contribute to student access at your college? Why?

- Location of CalWORKs office works well within the Career Center
- Ability to place at least 10% of CalWORKs eligible students in on campus work study positions
- Availability of supervised tutorial through NC160 (GED Preparation) course which counts as an allowable activity for county purposes
- EOPS/CARE and DSP&S often refer CalWORKs students for services

C. Progress - Compare how well students served by the program perform compared to those of the whole college. Data to be compared include course success rates, academic and progress dismissal, and persistence.

West Hills College Lemoore <i>Revision date: 6/30/2008</i>		All	% of	Cal	% of	% of
		Students	all	WORKs	CalWORKs	all
GENERAL DATA						
PROGRESS

	Successful (A,B,C,C)	2,714	64.2%	180	54.5%	6.6%

Questions for Analysis:

1. How well do the students served by your program perform compared to the total college population?

- In comparison to the general college population, CalWORKs students' successful course completion is low for degree applicable (General 62.7%, CalWORKs 56.2%), English (General 56.4%, CalWORKs 53.7%), math

(General 65.4%, CalWORKs 56.5%), advanced occupational (General 60.8%, CalWORKs 44.4%), and clearly occupational (General 64.2%, CalWORKs 54.5%)

- CalWORKs student performed better than the general college population in successful course completion of English as a Second Language (General 85%, CalWORKs 100%)
- CalWORKs students persisted from semester to semester at a higher rate than the general population.

2. Describe areas where you have concern about student progress.

- CalWORKs students’ academic performance is low, especially in math. However, CalWORKs students tend to possess more challenges than your average student (lack of high school diploma or equivalent, limited financial resources, child care, and transportation – just to name a few)

3. What programs and services do you feel specifically contribute to the progress of students at your college? Why?

- The addition of the CalWORKs Advising Specialist in Spring 2008 will support and monitor student learning by providing increased case management and student support
- County collaborative on campus supports the coordinating of essential student services (textbook, child care, and transportation assistance)
- Availability of a CalWORKs specific orientation, supervised tutorial environment, academic and vocational counseling, child care, work study, and employment services

C. Success - Review how well your students are completing their educational goals. Data to be included are number of degrees and certificates awarded, number of transfer-prepared students, number of transfers, and achievement of non-credit educational goals.

West Hills College Lemoore Revision date: 6/30/2008	All	% of	Cal	% of	% of
	Students	all	WORKs	CalWORKs	all
GENERAL DATA					
ACADEMIC SUCCESS					
Degree	349	5.4%	26	12.7%	7.4%
Certificate	24	0.4%	3	1.5%	12.5%
Transferred to 4-Year	1,544	23.9%	16	7.8%	1.0%
<i>Unduplicated Success Rate</i>	1,725	26.7%	32	15.6%	1.9%
Transfer Directed	762	11.8%	13	6.3%	1.7%
Transfer Prepared	572	8.8%	26	12.7%	4.5%

Questions for Analysis:

1. How well do the program students perform compared to the total college population?

- CalWORKs had high certificate (1.5%) and degree (12.7%) completion rates

2. Describe areas where you have concern about student success.

- Due to the nature of CalWORKs student educational goals, majority of students are on a non-transfer track
- CalWORKs students have limited vocational certificate options, and of those vocational options, there are inconsistent course offerings

3. What programs and services do you feel specifically contribute to the success of students at your college? Why?

- The addition of the CalWORKs Advising Specialist in Spring 2008 will support and monitor student learning by providing increased case management and student support
- County collaborative on campus supports the coordinating of essential student services (textbook, child care, and transportation assistance)
- Availability of a CalWORKs specific orientation, supervised tutorial environment, academic and vocational counseling, child care, work study, and employment services

E. Student Learning Outcomes - Describe your progress in the development and implementation of Student Learning Outcomes (SLOs) for the program at the college.

Questions for Analysis:

1. What are the SLOs for the program?

Student Level

- Upon completion of the CalWORKs orientation students will be able to identify program related information and services.
- CalWORKs students will navigate between on and off campus resources to obtain their books for school.
- Students placed in CalWORKs work study program will be able to meet employer expectations & standards

2. What process was used (or plan to use) to develop these outcomes?

Direction was given to create program and student level outcomes. The two counselors and the Associate Dean affiliated with the CalWORKs Program

convened in Fall 2007 on three separate occasions to review CalWORKs Program related goals and objectives. At least three student and three program level outcomes were created along with suggested assessment methods.

3. What types of activities are you conducting in order to achieve these outcomes?

The framework is in place to assess and evaluate student and program outcomes. For the CalWORKs student level outcomes, three activities are being conducted. The first is the CalWORKs orientations which are conducted prior to the Fall and Spring semesters as well as one on one orientations throughout the semester. At the conclusion of the orientation, an evaluation is completed by the student to assess level of familiarity with CalWORKs services as well as other on and off campus resources. The second activity that demonstrates students successfully navigating between on and off campus resources is related to requesting textbook assistance. This is assessed by the CalWORKs staff receiving receipt of book purchase authorization from the county. The third activity is the supervisor's evaluation of the CalWORKs Work Study student's performance. For the CalWORKs program level outcomes, activities will include file audits to review service receipts, progress reports, and evaluations. Increased coordination between EOPS/CARE, DSP&S, and the Career Center allows for follow-up on progress reports and workshop participation.

4. How are you assessing the achievement of the outcomes?

The assessment tools mentioned above are in place to gather information and data. At this time, the goal is to evaluate at least one student and program outcome each semester.

5. How have you used the assessment information to improve the services?

At this time, data has been gathered but not evaluated yet to directly improve services. The CalWORKs Program Student Learning Outcomes were developed in fall 2007. Assessment occurred in Spring 2008. Those results will be compiled and shared with CalWORKs staff during Fall 2008 to incorporate any suggested recommendations to improve services for the 2008-2009 academic year.

F. Compliance - Provide an overview of how each program is meeting the applicable minimum requirements of the federal regulations, California Education Code, Title 5 regulations, Budget Act Language and/or program

guidelines. The key areas to be reviewed include: 1) student eligibility, 2) student services, 3) program requirements, 4) funding, expenditures, and accountability, and 5) other. The review should clearly demonstrate that the programs are responsibly handling categorical dollars.

*CalWORKs/TANF: California Work Opportunities and Responsibility to
Kids/Temporary Assistance to Needy Families
Student Eligibility*

Colleges must coordinate with the local County Welfare Department (CWD) to determine eligibility. Eligibility must be determined at the beginning of each term. The college's CalWORKs program is responsible for determining and tracking student eligibility and for all CalWORKs and TANF-funded services. Services provided through other college department, like the Child Care Center, must be coordinated with the college CalWORKs program to verify a student's ongoing eligibility for services, academic progress, monitor program expenses, and report data.

- 1. Describe your college's coordination with the local county department of social services to determine student eligibility for services and coordinate services to be consistent with and in support of the student's welfare-to-work plan.*

West Hills College Lemoore (WHCL) CalWORKs program has had an agreement since 2006-2007 with the Kings County Human Services Employment & Training (KCHSET) Services. This agreement outlines the respective roles that each entity will fulfill which includes eligibility determination and coordination of support services relative to the student's Welfare to Work (WTW) plan. During the intake process, the CalWORKs student signs a consent to release information. As a result, the County and the CalWORKs program are able to obtain eligibility verifications, coordinate services, and provide case management on a regular basis. The partnership has afforded greater accessibility for staff and students by stationing Employment and Training Workers (ETW) at the WHCL campus who address the CalWORKs student's ancillary requests and eligibility documentation. To ensure services are dealt with in a timely manner and consistent with the CalWORKs student's WTW plan, monthly case management meetings and bi-annual advisory meetings occur as well as email and telephone communiqué between the CalWORKs staff and the ETW. Regular student contact is maintained to assess any additional needs or services.

CalWORKs students have a variety of services available at the WCHL campus to meet their mandatory work hour requirements. These include: academic, vocational, and remedial programs, study skills lab, and exposure to employment opportunities. Direct student support services offered at the WHCL campus

include counseling/advising, job preparation workshops, work study, child care, and academic follow-up/case management. All CalWORKs students are encouraged to apply for financial aid and other student support programs, such as Extended Opportunity Programs and Services/Cooperative Agencies and Resources for Education (EOPS/CARE) and the Disabled Students Programs and Services (DSP&S).

2. What documentation is used for eligibility for CalWORKs funded services? Do the student files contain this eligibility documentation?

To validate CalWORKs funded services, all student files include a current “Passport to Services” - this is a county notice to validate the student’s CalWORKs/TANF status and level of services. In its entirety, the CalWORKs student files include:

- CalWORKs Student Intake
- CalWORKs Narrative/Case Notes
- CalWORKs Student Educational Plan
- CalWORKs Progress Reports
- CalWORKs Consent to Release Information
- College Semester Schedule
- College Transcripts
- Financial Aid Award Letter for Work Study students only
- County “Passport to Services”
- County Contract/Referral/Enrollment Verification
- County Consent to Release Information
- Other Miscellaneous Correspondence

The CalWORKs student file maintains the necessary information for eligibility as well as data necessary for semester Management Information Systems (MIS) reporting. At this time, verifications for CalWORKs funded child care and work study remain within the Child Development Center and Financial Aid Work Study department files. It is recognized that centralization of this information is necessary and steps have already been taken to better coordinate CalWORKs child care and work study services.

3. If provided, describe how student eligibility for on-campus child care is determined and how is this service coordinated between the college’s Child Development Center and the CalWORKs program.

The child development center collects verification of eligibility from the CalWORKs student and authorizes necessary child care services. In addition, they validate the students served with the CalWORKs office and, each semester,

reports the number of children utilizing services and the hours of child care provided. As mentioned previously, centralization of this information is necessary and efforts have been made to increase coordination efforts between the Child Development Center and the CalWORKs program's child care services.

(State Budget 6870-101-0001 Schedule (8) 20.10.045-Special Services for CalWORKs Recipients; CalWORKs Handbook, Essential Program Elements (a))

Student Services

The California Community College CalWORKs program funds are used for specific coordinated student services as detailed in the annual budget act. These comprehensive support services are designed to assist welfare recipient students obtain the educational level they need to transition off of welfare and ultimately achieve long-term self-sufficiency. These funds enable the community colleges to be a full partner in the statewide welfare reform system by requiring the colleges to provide the following direct student support services: service coordination; curriculum development and redesign; work-study; subsidized child care; and job development and job placement.

1. Describe each of the program component services that are provided using CalWORKs and TANF funds and how these services are documented.

(State Budget Act; Education Code)

Service coordination and case management is provided by the ETW and supplemented by the CalWORKs program staff. Currently, the CalWORKs Advising Specialist is the first point of contact for the CalWORKs student. The initial meeting includes the CalWORKs student providing a copy of their "Passport to Services" and completing the CalWORKs intake form. A subsequent appointment with the counselor for a student educational plan is arranged. The counselor assists the student in choosing the appropriate coursework to satisfy their career objectives and meet their requirements under welfare to work. CalWORKs staff assists the students by setting them up with the necessary tools and resources to navigate the campus and the community. This includes information on campus programs and services such as EOPS/CARE, DSP&S, career/transfer center, financial aid, scholarships, student government association, child care resources, and public transportation information. A separate process is in place to facilitate textbook purchases between the county and the campus bookstore. A consent to release information form is signed to facilitate exchange of information with the county and between campus programs to coordinate services. An internal system is in place between categorical programs to utilize a color coded identifier to acknowledge their participation in a specific program – such as EOPS, CARE, or DSP&S – and facilitate the exchange of "Passport to Services", student educational plans, or semester progress reports. All

documentation and services referred and received are noted in the student's CalWORKs file.

There are no current activities planned for curriculum development and redesign. However, the business/computer skills and remedial basic skills (NC 160: GED Preparation) open entry and open exit labs are previous curriculum areas that were created to meet the needs of the CalWORKs student population. A recent addition of the WorkKeys program will provide job skills assessment that measures the CalWORKs student's real world skills. WorkKeys connect work skills, training, and testing for education and employers. It supports the CalWORKs program by fulfilling the requirements of federal programs and legislation, as well as economic and workforce development programs. CalWORKs students that are engaged in any curricular area have their academic and vocational objectives outlined in their student educational plan.

In order for students to access **CalWORKs Work Study (CWWS)**, they must bring a referral or copy of their "Passport to Services" to verify their eligibility for services. CalWORKs students are required to be enrolled in at least 6.0 units, maintain satisfactory academic progress (Grade point average of 2.0 or better), and have submitted and completed their Free Application for Financial Student Aid (FAFSA). The Work Study Coordinator matches the wages as follows: 75% from CWWS and 25% from Federal Work Study (FWS). Wages do not exceed state minimum wage standards. The task of placing CalWORKs eligible student in work study and expending CWWS funds is easily accomplished each fiscal year. Work study opportunities are identified by students and campus programs or departments with placements intended to match the students identified career objectives. Due to the College's rural location, lack of business and transportation, most students are placed on campus. Students are placed primarily on-campus and at local elementary schools as tutors. The work study coordinator is responsible for collecting the work study application, matching student placement with their career goals, and maintaining all work study placement information (site, hours per week, wages). On average, up to 15 - 20 CalWORKs students get placed during the fiscal year. The financial aid award letter serves as documentation of the CWWS award. On the rare occasion when there are additional funds or positions available, other outreach avenues include coordinating with EOPS/CARE and researching CalWORKs/TANF recipients via the Board of Governors Grant (BOGG).

CalWORKs child care services are available through the campus child development center (CDC). Quality and convenience are the prime reasons CalWORKs students are encouraged to utilize the CDC. As one of the few child care centers in Lemoore, the CalWORKs students seek out the child care services and opt to obtain training and education as well. Students bring proof of CalWORKs eligibility ("Passport to Services" and school schedule) and this

allows their family access to child care services. The CDC staff is responsible for providing the data necessary for MIS reporting. Annually, the CalWORKs programs provides 15% of the child care funding to enhance the CDC play equipment and often requests additional funding from the Chancellor's Office to meet the needs of the CalWORKs families. For billing purposes, CalWORKs child care funds are set up with their own account number and the CDC staff charge monthly against this account for our CalWORKs children. The CDC provides monthly invoices which are processed directly to the CalWORKs child care budget. For continuation of service from semester to semester, the CalWORKs student is required to provide the CDC staff with a current passport to service and a copy of their semester schedule. All information is maintained in the child's file at the CDC.

Job development and job placement activities occur through the financial aid work study coordinator and the campus career center staff. The CalWORKs Office's location within the Career and Transfer Center facilitates job development and job placement activities. The CalWORKs program collaborates with the career center to offer workshops on career exploration, drafting resume, cover letter writing, dress for success, and interview skills. CalWORKs students are encouraged to participate in these activities to increase their employability. If there are no available positions or funding available under CWWS, the career center and county staff assist with direct job placement. Additional considerations may be developed through the creation of internships and use of work experience opportunities. Any CalWORKs funded employment services provided to the student are documented in their student files.

2. *Describe your college's process for providing case management services.*

Academic case management is provided to students in partnership with ETW. CalWORKs students are referred to the Career Center/CalWORKs Office. The CalWORKs Advising Specialist begins the intake process by collecting information, verifying case worker, obtaining the referral documentation, and scheduling the student for needs assessment and academic advising. The advising specialist obtains transcripts at the end of each semester to assure satisfactory progress, provide interventions as needed, and validate appropriate placement and monitoring of future classes. Now that this program is falling under the scope of the Associate Dean of Categorical Programs, students will be required to provide a mid-term evaluation for progress tracking purposes. CalWORKs staff works closely with ETW to validate eligibility and students time limitations under CalWORKs/TANF.

(State Budget Act; CalWORKs Handbook, Essential Program Elements (c) & Case Management Section)

Program Requirements

The community college CalWORKs program must have a program coordinator or director in place to manage the use of funds, ensure coordinated services are provided to students, and ensure that reports, forms, and program plans are submitted to the System Office in a timely basis.

- 1. Do you have a program coordinator or director? What percentage of time does this position have assigned to CalWORKs and how was it calculated?*

The Associate Dean of Categorical Programs primary assignment is for WHCL; this individual has local oversight and direction of the WHCL CalWORKs program. The Associate Dean allocates 20% of their time to managing the CalWORKs program. This calculation is based upon the multiple categorical areas of oversight and distribution of student populations. Historically, CalWORKs program management has been handled at the District level and started gradually shifting locally in 2006-2007 with the hiring of the Associate Dean and the identification of CalWORKs staff to serve the Lemoore campus. With the CalWORKs staff in place, a variety of elements have been implemented (case management, counseling, and work study) to firmly establish the program.

(CalWORKs Handbook, Essential Program Elements (g); Organization Section)

- 2. Describe how the CalWORKs program coordinator and staff coordinate with the local county welfare department to provide services to eligible CalWORKs students.*

Coordination elements are performed by all partners affiliated with CalWORKs. The county ETWs complement the current process utilized by the College CalWORKs Staff. When the CalWORKs Staff see a new student and they mention they are on public assistance, a CalWORKs intake form is completed. The CalWORKs Counselor and Advising Specialist encourage the student to choose a major that is approvable by county CalWORKs standards and assists in the development of a student educational plan. This plan and current class schedule is transmitted to the ETW who will coordinate the purchase of textbooks and approve any necessary transportation and child care. A process is underway to centralize CWWS and CWCC through the CalWORKs Advising Specialist who will document referral and receipt of CalWORKs services.

To insure that as many CalWORKs students are being served, the WHCL CalWORKs staff works closely with the county workers to capture and service eligible participants. Internally, there are two other means to identify if a student is on CalWORKs; one is to review list of the EOPS/CARE students and the

second is to review BOGG applications for indication that they are a CalWORKs/TANF recipient. The second method requires greater attention as we seek to increase outreach efforts. The ETW is an active member of the CalWORKs Advisory.

Funding, Expenditures and Accountability

The community college CalWORKs program must have a process for tracking the expenditure of CalWORKs funds, to ensure expenditures comply with legal requirements set forth in the Education Code and annual Budget Act language, and in guidelines issued by the System Office.

1. *How do you ensure that CalWORKs funds are only used to pay for allowable services for CalWORKs eligible students?*

Expenditures are monitored and verified to ensure it is an allowable expense under the CalWORKs budget regulations.

(State Budget Act, Education Code, CalWORKs Handbook)

2. *How do you ensure the declared match are from allowable sources and are for direct services provided to CalWORKs students?*

Matching funds must benefit the CalWORKs program directly. The matching source is reviewed to make sure it is permissible with the criteria set forth through the CalWORKs District Match Guidelines. All match sources are cited in the CalWORKs program plan and budgeting reports.

3. *Describe the process for developing and approving the CalWORKs Budget and Expenditures.*

As West Hills College transitions from a single to multi-college district, plans are in place to gradually increase and implement site level development of the CalWORKs budget and expenditures. Continued coordination will be required since CalWORKs funding is allocated at the District level. Currently, the CalWORKs budget and expenditures are developed and approved locally in consultation with the West Hills Community College District business office. Any dollars expended through the CalWORKs program has to go through an approval process. This process begins with the local Associate Dean and then forwarded to the District Program Manager, Grants Accountant, and Director of Fiscal Services before it is posted to the program ledger.

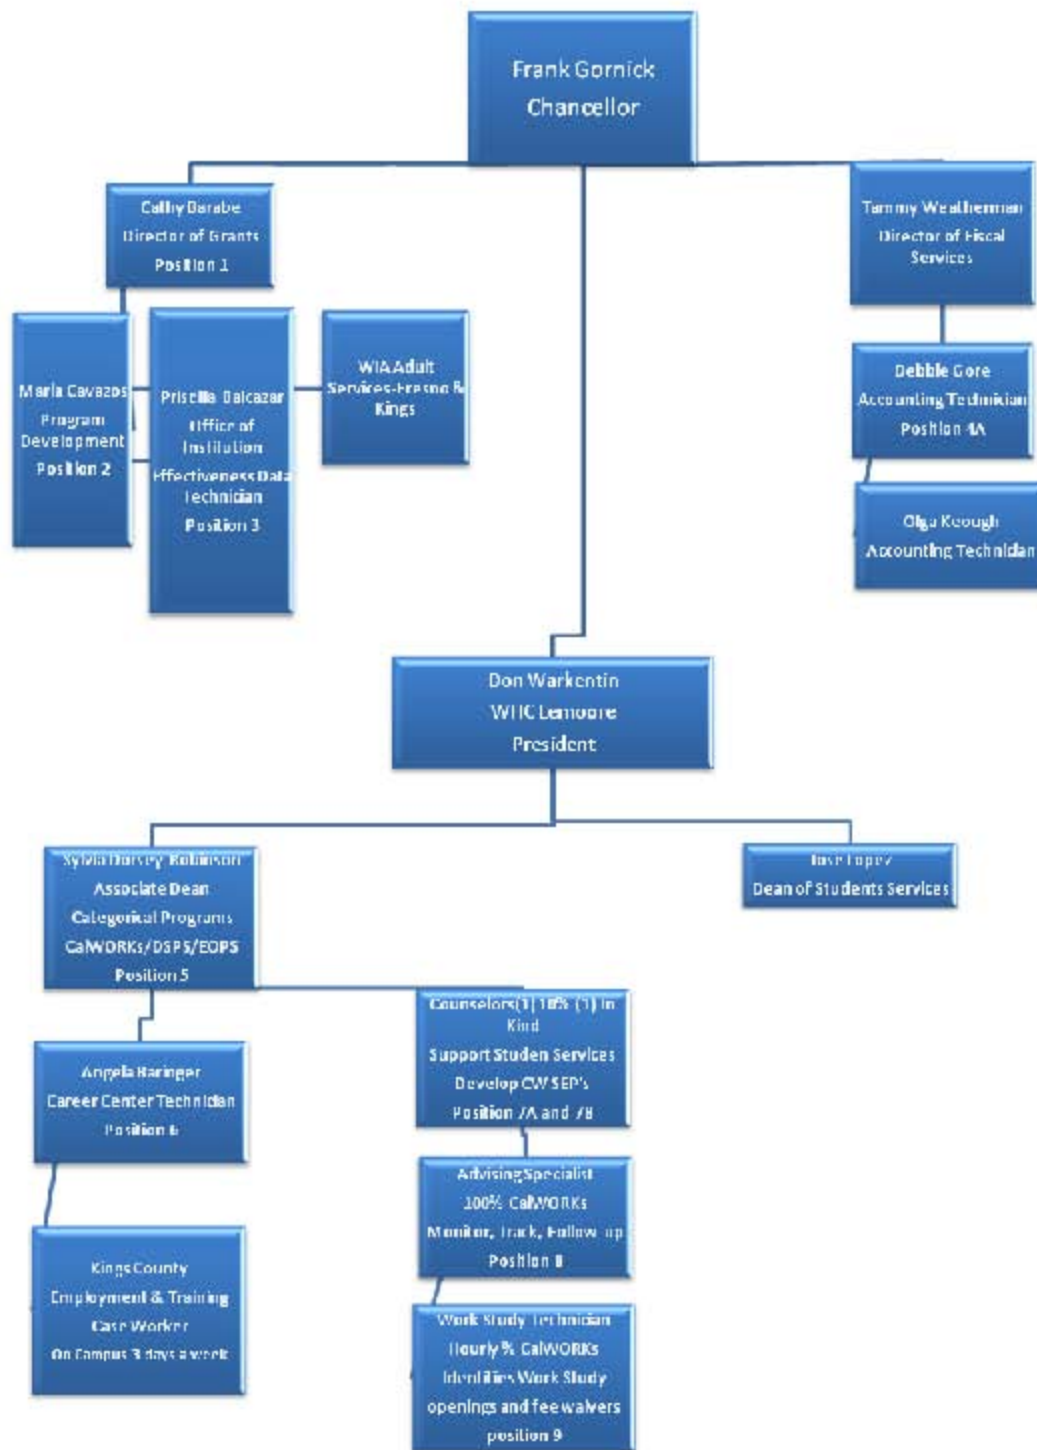

4. *Identify the process for completing the CalWORKs Year-End Report and relationship to the district's year-end program accounting.*

At the end of the fiscal year, the District's grant accountant runs various general ledger reports related to the CalWORKs and TANF budgets. The District's internal auditor examines the reports to make sure that the expenditures are allowable and comply with the funding guidelines.

Other

What other areas or departments on campus do you coordinate with to provide services to CalWORKs students?

The CalWORKs Program coordinates with a variety of on campus areas and departments to provide services to its target population. The CalWORKs program coordinates with the bookstore, Eagle Career Connection, transfer center, child development center, financial aid/work study, tutorial center, EOPS/CARE, DSP&S, and the Student Support Services programs. Consultation occurs in the learning areas for the development of vocational and instructional support services for CalWORKs students (i.e. GED Preparation, CalWORKs Study Lab, WorkKeys). The access and co-location of the county case workers on campus in Learning Resource Center is valuable and essential for the provision of providing timely services to CalWORKs students. In 200-2007, an annual student recognition ceremony was held with EOPS/CARE and DSP&S to recognize academic achievement. Finally, CalWORKs program information is provided at the campus College Day and during the Fall and Spring Xtreme Registrations.

Effective Practices and Opportunities for Improvement

Please complete a separate narrative for each categorical program by describing:

Matriculation: Credit and Non-Credit

A. What is working well.

Progress and Success- matriculation has a positive impact on student progress and success. Students in the matriculation program are progressing and succeeding as well as or better than students in the general population.

SLOs- program and student outcomes are written and the assessment process is underway. The assessment and evaluation process has been informative and has provided feedback useful for training purposes.

Admissions- When applying online, students can switch back and forth between Spanish and English. The online application for admission is in real time; once submitted, within minutes the student can access all student services including online orientation, registration, assessment, etc.

Orientation- It is offered multiple times a year in multiple modalities (face-to-face and online.) Face-to-face orientation is offered in both English and Spanish. The online orientation has Spanish captions and closed captioning for students with a disability. Face-to-face orientation is linked with our Xtreme Registration event and therefore gets a lot of publicity and generates a lot of excitement.

Assessment- Ample opportunities for assessment exist; there has been a significant increase in the amount of assessments scheduled in the last two years. The numbers of assessments offered are driven by student demand with additional sessions added as needed. Assessment is offered with a variety of times for assessment to meet all scheduling needs. Cross training of staff exists to provide multiple sessions of assessment; a part time test proctor was hired in 2007-2008 to meet the added demand of increasing assessments.

Counseling and Advising-The bi-monthly meetings provide an excellent time for communication, training, and updates to keep everyone on the same page and well informed. There are a variety of ways offered for students to access counseling and advising services including evening and online. The counselors work together as a team to provide full time counselor coverage all summer for students to access services. The counselors serve as liaisons to other learning areas to increase collaboration and communication between student services and instructional services.

Academic Follow Up- Better student utilization of the Tutoring Program resulting in increased participation rates as well as improved student tutor training through implementation of monthly tutor training workshops. There has been a significant increase in faculty awareness and use of the Early Alert Program. The addition of an Advising Specialist dedicated to basic skills students has improved follow up to this student population.

Coordination and Training-There has been increased numbers and types of training related to matriculation campus-wide. As a result of “MATI” trainings, our MIS data is improving. The Matriculation Coordinator serves on several committees across the campus to advocate, communicate, and coordinate the program.

Research and Evaluation-The Matriculation Coordinator and Director of Institutional Effectiveness and Planning work closely together to assess the efficacy of matriculation. The District Programmer/Analyst is very responsive to requests for assistance or data and provides the matriculation coordinator ample time to review data prior to MIS submissions.

B. What areas need to be addressed more effectively.

The matriculation program is well aware that it needs to focus on improving student participation rates. There is concern regarding the participation rates of female students, Asian students, and students ages 20-24 and 50 or older. Additionally, the matriculation program would like to increase the overall participation of students.

WHCL has had low participation rates in new student orientation. Although many innovative ideas have been implemented to address the low participation, the rates continue to be small.

The number of student education plans is low and needs to be increased. The matriculation program suspects that there are more students completing SEPs than is reflected in the numbers; however, the data does not reflect this.

The matriculation program is aware that the MIS reporting does not wholly reflect the actual services and contacts students are receiving. Training has been implemented to address this concern and the data has demonstrated improvements; however, it is clear that training needs to be an ongoing activity.

C. Any exemplary practices and services that may be replicated by other colleges.

The “Xtreme Registration” event is a highly successful event that has generated much interest and excitement throughout the college and community. Additionally, it was so successful and well advertised that another local community college has since adopted a similar model.

Implementing the Counselor Liaison model has linked student services more closely with instructional services as evidenced by the voluntary involvement of the instructional faculty in the “Xtreme Registration” event. Additionally this has increased communication and collaboration between areas and has kept student advocacy at the forefront of conversation and decision making.

The college strategically linked full-time counselor instruction of college success classes with specific learning communities.

The Team T.E.A.C.H and Engineering Scholars Program both provide counselors, specific curriculum, and services for students to assist them in navigating the complex educational systems necessary for goal obtainment.

Provision of the English and Math labs facilitate communication between faculty and students and assists students in succeeding in the respective content areas.

Implementing a Tutor training program has improved the quality of peer tutoring offered on the WHCL campus. In order to ensure quality tutoring services, peer tutors enroll in EA 50, EA 55 and EA 58, tutor training courses. During these courses, peer tutors cover pertinent topics related to working with others and problem solving.

WHCL launched an online orientation in the fall of 2008. While it is too early to assess the impact and data, early student feedback has been very positive.

D. Any successful pilot projects implemented by your program.

None of the projects implemented from the matriculation program were piloted first.

*EOPS/CARE: Extended Opportunity Programs and Services/Cooperative
Agencies Resources for Education*

A. What is working well.

Within the last two years there have been significant changes in the staff, including a new director (Associate Dean) and advising specialist, as well as an additional counselor, and a portion of another advising specialist. Despite these changes, there has been an increase in the number of EOPS/CARE students served; and innovative outreach activities such as a “Categorical Jubilee” and End of the Year Celebrations. Along with these highlights, there has been an increase in the number of student attending the EOPS orientations; a 6% increase from one year to the next.

In addition the Associate Dean, who is responsible for multiple categorical programs, meets regularly with the entire team of categorical staff; which includes EOPS/CARE. These meetings allow and ensure cross-categorical communication in an effort to eliminate duplication of services and maintain the integrity of each program.

B. What areas need to be addressed more effectively.

The development of the Student Learning Outcomes is evidence that the EOPS/CARE staff recognize a continued need to work with students in fulfilling the commitments in the Mutual Responsibility Contract. The staff will explore implementation of a “student ambassador” program to connect returning EOPS/CRE students who have successfully met the obligations in the Mutual Responsibility contract for two consecutive semesters with incoming first time EOPS/CARE students.

In addition, there is a need to expand greater outreach activities to males and Caucasian students as these populations are significantly lower than females and Hispanic.

Another area that needs to be addressed is the course completion of EOPS/CARE students who are not successful in both English and math courses.

D. Any exemplary practices and services that may be replicated by other colleges.

None at this time

D. Any successful pilot projects implemented by your program.

None at this time.

Disabled Student Program and Services

A. What is working well.

The DSP&S is a strong team that is molded into the fabric of other categorical programs and the campus composition. The faculty and staff are very responsive to student needs and go above and beyond. There is a campus feeling of “they are our students”. The communication lines are open and faculty and staff are very eager to support the needs of the DSP&S students. In addition, the campus has expanded the hours to include the evening time up to 7:00 PM.

Another area that works well is the bi-semester electronic communication with faculty regarding the DSP&S accommodations, services and test proctoring. Faculty anticipates this electronic communication and uses it to communicate with students about their specific accommodations and needs.

In addition, the test proctoring process has been streamlined. In the past, there were no consistent expectations regarding how tests were delivered, administered and returned. The DSP&S staff have created an on-line mechanism, so that an electronic test is distributed to a variety of the DSP&S team members, which takes into consideration when one person is out, the student is still able to have his/her test administered.

Additionally, all students are required to sign up to have their test proctored, rather than walk into the lab and expect that it will be taken care of when they want it.

B. What areas need to be addressed more effectively.

The DSP&S staff recognizes that the program is beginning to lay a solid foundation for services as an accredited college. The DSP&S staff is a very committed team; however, nearly half of the staff supporting this program has been in the program for less than one and one-half years. While many systems and processes are in place, the team recognizes the need to continue to strengthen processes, services, communication and supports.

C. Any exemplary practices and services that may be replicated by other colleges.

Because of the close collaboration the DSP&S staff has with other programs and departments, there is a sense of share responsibility and support of all students on the campus.

D. Any successful pilot projects implemented by your program.

While the college has had the availability of pick-up services for DSP&S students for several years, the installation of bus stops has recently begun and it is anticipated that by fall 2008 a schedule of stops will be added.

In addition, a second Learning Skills position and counselor were added in spring 2008. These additional staff has enabled program services and DSP&S lab hours to be available in the evening.

CalWORKs/TANF: California Work Opportunities and Responsibility to Kids/Temporary Assistance to Needy Families

A. What is working well.

- Associate Dean of Categoricals overseeing and managing programs minimizing duplication of services
- Collaboration of categorical programs via monthly staff meetings and categorical advisory boards
- Rebuilding CalWORKs Staff and Program
- Exchange of information between campus and Kings County Human Services Eligibility Staff

B. What areas need to be addressed more effectively

- Track student participation to validate mileage and attendance
- Work within local and district guidelines to increase work study hours and opportunities for CalWORKs students
- Increase collaboration with the Vice-President of Educational Services & Workforce Development Administrator to increase vocational and short-term classes that meet the needs of the CalWORKs population.
- Utilize progress reports for referrals to tutoring and learning disability assessment
- Maximize campus work experience program for CalWORKs students

C. Any exemplary practices and services that may be replicated by other colleges.

- Co-location of county worker on college campus

D. Any successful pilot projects implemented by your program.

- None at this time

IV. Planning Agenda

As you evaluate each program with respect to the data provided and topics reviewed, identify areas where you may need to make adjustments. The Planning Agenda will provide the opportunity for the programs to list changes needed in order to improve their services to students. The planning agenda should include new plans, timelines, resources needed and who is responsible for implementing the plans.

Matriculation: Credit and Non-Credit

The matriculation program has the following planning agenda items:

New Plan	Timelines	Resources Needed	Person(s) Responsible
Increase student awareness of matriculation program via an email to all students informing of the services and their responsibilities in the process.	Fall, 2008	Time Allocation	<ul style="list-style-type: none"> ▪ Matriculation Coordinator
Increase student awareness of the matriculation program by visiting the English classes and providing presentations	Fall, 2008	Time Allocation Faculty Commitment	<ul style="list-style-type: none"> ▪ Matriculation Coordinator ▪ Counselors ▪ Advising Specialists
Utilizing the new “My West Hills” portal to advertise matriculation	Fall 2009	Time Allocation Training	<ul style="list-style-type: none"> ▪ Matriculation Coordinator ▪ Dean of Students
Explore mandating new student orientation	2008-2009 Academic Year	Support of the Student Success Committee, Approval from Academic Senate, Planning and Governance and Board.	<ul style="list-style-type: none"> ▪ Dean of Students ▪ Matriculation Coordinator
Implement sessions of new student orientation during Welcome Week	Spring 2009	Time Allocation	<ul style="list-style-type: none"> ▪ Matriculation Coordinator
Explore creation of an assessment center	2008-2009 Academic Year	Designated location Fiscal allocation Staffing allocation	<ul style="list-style-type: none"> ▪ Dean of Students ▪ Matriculation Coordinator
Research the MIS data collection and compare it to the total number of SEPs on file	2008-2009 Academic Year	Time Allocation	<ul style="list-style-type: none"> ▪ Associate Dean of Categorical Programs ▪ Matriculation Coordinator
Implement SARs for data tracking and MIS reporting purposes.	Spring 2009	Time Allocation	<ul style="list-style-type: none"> ▪ CIO ▪ Dean of Students

Continue working with IT department for data tracking and MIS reporting purposes	Ongoing	Training	<ul style="list-style-type: none"> ▪ Matriculation Coordinator ▪ Programmer/Analyst ▪ Counselors/Advising Specialist
Research the efficacy of the addition of College Success courses taught by full time counselors to the learning communities model	Fall 2009	Time Allocation	<ul style="list-style-type: none"> ▪ Matriculation Coordinator ▪ Director of Institutional Effectiveness and Planning ▪ Counselors ▪ Teaching Faculty

*EOPS/CARE: Extended Opportunity Programs and Services/Cooperative
Agencies Resources for Education*

The EOPS/CARE staff has discussed current and future needs that will enable EOPS/CARE students to successfully complete their Student Education Plan. Those discussions have resulted in the following Planning Agenda Items:

New Plan	Timelines	Resources Needed	Person(s) Responsible
Assessment of SLO's	Fall, 2008	Time Allocation	<ul style="list-style-type: none"> ▪ Associate Dean (EOPS/CARE) ▪ EOPS/CARE staff ▪ IT Department
Explore creating a "student ambassador" program	Fall, 2008	Time Allocation	EOPS/CARE Staff
Identify outreach activities that appeal to males and Caucasian students	Fall, 2008	Time Allocation	<ul style="list-style-type: none"> ▪ Associate Dean (EOPS/CARE) ▪ EOPS/CARE staff
Explore intervention options for EOPS/CARE students in English and Math	Fall, 2008	Time Allocation	<ul style="list-style-type: none"> ▪ Associate Dean (EOPS/CARE) ▪ EOPS/CARE staff ▪ Instructional staff

Disabled Student Program and Services

The DSP&S staff has discussed current and future needs that will enable all students to have equal access to a college education. Those discussions have resulted in the following Planning Agenda Items:

New Plan	Timelines	Resources Needed	Person(s) Responsible
Create on-line DSP&S Applications	Fall, 2008	Time Allocation	Associate Dean (DSP&S) <ul style="list-style-type: none"> ▪ Assistive Technology Specialist ▪ IT Department
Implement “specialized tutoring” for DSP&S students	Spring, 2009	Fiscal Allocation	Associate Dean (DSP&S) <ul style="list-style-type: none"> ▪ DSP&S Counselors
Explore creating a “student ambassador” program	Fall, 2008	Time Allocation	DSP&S Staff
Update the existing college DSP&S website and maintain currency	Fall, 2008	Training	Associate Dean (DSP&S) <ul style="list-style-type: none"> ▪ Assistive Technology Specialist ▪ IT Department
Develop an internal system to communicate to identify medically fragile students, without breaching confidentiality,	Fall, 2008	Time Allocation	<ul style="list-style-type: none"> ▪ Associate Dean (DSP&S) ▪ Academic Senate ▪ Secretary ▪ Counselors ▪ Deans ▪ Vice-President ▪ President
Work with the IT Department and Deans regarding Section 508 Compliance	Ongoing	Time Allocation Training	<ul style="list-style-type: none"> ▪ Associate Dean (DSP&S) ▪ Instructional and Student Services Deans ▪ Director of IT
Evaluate campus-wide ADA accessibility issues	Ongoing	Time Allocation	Associate Dean (DSP&S) <ul style="list-style-type: none"> ▪ Director M & O ▪ Advisory Team
Maintain active involvement on the Facilities Committee to ensure new construction projects go beyond the minimum ADA compliance responsibilities.	Ongoing	Time Allocation	<ul style="list-style-type: none"> ▪ Associate Dean (DSP&S)
Complete installation of mobility pick-up stations	Spring, 2008	None	<ul style="list-style-type: none"> ▪ Associate Dean (DSP&S) ▪ Director M & O

CalWORKs/TANF: California Work Opportunities and Responsibility to Kids/Temporary Assistance to Needy Families

Plans	Timeline	Resources Needed	Responsible Persons
Establish intensive case management services and protocol – should include practices for working with the hard-to serve, identifying needs early, referring and accounting for services provided	Spring of 2009	Time Allocation	<ul style="list-style-type: none"> • Associate Dean • CalWorks Staff
Increase marketing and recruiting efforts to students not directly referred by the county welfare offices, especially males and teenage parenting programs	Fall of 2008	Time Allocation	<ul style="list-style-type: none"> • Associate Dean • CalWorks Staff • County Personnel
Increase program visibility by marketing benefits of the program – especially child care, work study, and success stories	Fall of 2008	Time Allocation	<ul style="list-style-type: none"> • Associate Dean • CalWorks Staff • Marketing Department

V. Implementation and Technical Assistance

Matriculation: Credit and Non-Credit

A. Is there any training or technical assistance that you believe would improve the effectiveness of your programs?

- Ongoing and greater campus-wide participation of staff in regional and state matriculation trainings.

B. Are there any laws, regulations or other requirements that you find problematic in implementing any of these categorical programs to your college? (Optional)

- None at this time.

*EOPS/CARE: Extended Opportunity Programs and Services/Cooperative
Agencies Resources for Education*

- A. Is there any training or technical assistance that you believe would improve the effectiveness of your programs?*

There are no trainings or technical assistance identified at this time.

- B. Are there any laws, regulations or other requirements that you find problematic in implementing any of these categorical programs to your college? (Optional)*

There are currently no laws, regulations or other requirements that appear to be problematic in implementing the EOPS/CARE program .

Disabled Student Program and Services

A. Is there any training or technical assistance that you believe would improve the effectiveness of your programs?

As technology advances continue to be made, there is a need for on-going training regarding the types of software and hardware available for students with disabilities in order to better enable them to access the curriculum.

Additionally, students need to become better trained in how to maximize the use of the software and hardware devices provided. The college has recently completed the recruitment for a permanent full-time Assistive technology/Access Specialist.

B. Are there any laws, regulations or other requirements that you find problematic in implementing any of these categorical programs to your college? (Optional)

There are currently no laws, regulations or other requirements that we have found to be problematic in implementing the DSP&S program or any other categorical program.

CalWORKs/TANF: California Work Opportunities and Responsibility to Kids/Temporary Assistance to Needy Families

A. Is there any training or technical assistance that you believe would improve the effectiveness of your programs?

- On-going participation of CalWORKs Staff in regional and state trainings

B. Are there any laws, regulations or other requirements that you find problematic in implementing any of these categorical programs to your college? (Optional)

- None at this time.

VII. Supplemental Information

A. Collegewide Information

1. College Application
2. College Catalog
3. Class Schedule
4. Student Handbook
5. Student Equity Plan
6. Student Services SLOs

B. Matriculation

1. Matriculation Program Plan
2. Orientation outline or presentation.
3. Matriculation SLOs

C. EOPS/CARE

1. List of what is maintained in an EOPS and CARE student file:
2. Examples of typical counselor entries.
3. List of special majors exceeding the 70 unit limit.
4. Forms used in EOPS (i.e. EOPS application, educational plan, and mutual responsibility contract, student eligibility determination, progress monitoring, notifications to students that apply to the EOPS and CARE programs)
5. EOPS and CARE SLOs

D. DSP&S

1. DSP&S Program Plan
2. Approved list of DSP&S credit/non-credit special classes.
3. Policies and procedures for special class repetition, accommodation requests and academic adjustments, suspension and termination of services, assessment and testing, access for students with sensory disabilities.
4. Emergency Preparation and Disaster Plan for students with disabilities.

5. Forms used in DSP&S (i.e. DSP&S application, release of student information, disability verification, student educational contract, educational accommodations)
6. List all of the elements retained in the DSP&S Student File and provide the record retention period for each item contained in the student file.
7. DSP&S SLOs

E. CalWORKs

1. County verification form for cash assistance.
2. List of what is maintained in a CalWORKs student file.
3. List of county approved degree and certificate programs.
4. Forms used in CalWORKs (i.e. CalWORKs eligibility verification, intake/needs assessment, educational plan, student class schedule, CalWORKs progress review, workability agreements)
5. CalWORKs SLOs

**West Hills College Lemoore
Planning and Governance Council
Wednesday – February 4, 2009, 1:30 p.m.
Conference Center Rm. 256**

AGENDA

Call to Order

Approval of minutes

- January 21, 2009

Action Items

- Matriculation Program Review

Information/Discussion Items

1. Program Reviews:
For further discussion Dave Bolt
 - i. Business Administration Program
 - ii. Social Science Program
 - iii. Life After School Program
First Reading:
 - i. Mathematics
 - ii. Library/Learning Resources
2. Board Policies (college approval is not needed)
 - BP and AP 2433 Chancellor Selection Dave Bolt
 - BP 2432 Chancellor Succession
3. Curriculum Committee Report Rene Sanchez
4. Academic Senate Report Stephanie Droker
5. Report from Committee Representative
 - a) Student Learning Outcomes Committee David Babb
 - b) Student Learning Committee Dave Bolt
 - c) Budget Allocation Committee Dave Bolt
 - d) Employee Success and Development Committee Marlon Hall
 - e) Student Success Committee Jose Lopez
 - f) Facilities, Safety and Auxiliary Services Committee Allen Moore
 - g) Technology Committee Ron Oxford
6. PGC Membership Don Warkentin
7. Other
 - Student Strategic Planning Retreat, Friday, 2/27/09
 - Off Campus Traffic
8. Agenda items for next meeting
9. Adjournment – Next mtg., February 18, 2009

**West Hills College Lemoore
Planning and Governance Council
Wednesday – February 4, 2009, 1:30 p.m.
Conference Center Rm. 256**

MINUTES

Members Present:

David Babb, Student Learning Outcomes Chair
Dave Bolt, Vice President of Educational Services
Stephanie Droker, Academic Senate President
Marty Ennes, CTA/Faculty Representative
Jose Lopez, Dean of Students
Allen Moore, Director of Facilities & Auxiliary Services
Ron Oxford, Librarian
Angela Tos, CTA/Faculty Representative

Members Absent:

America Bryant, CSEA/Classified Representative
Bob Clement, Athletic Director
Marlon Hall, Associate Dean of Educational Services, Evening College
Teresa Macias-Quilici, CSEA/Classified Representative
Rene Sanchez, Curriculum Committee Chair
Don Warkentin, President
_____, Counselor/Advisor
_____, Student Government Association Representative

Call to Order

In the absence of Mr. Warkentin, Dave Bolt called the meeting to order at 1:36 p.m.

Approval of minutes

Marty Ennes motioned to approve the minutes from the January 21, 2009 meeting, it was seconded by Stephanie Droker with one correction, all were in favor with two abstentions (Dave Bolt and Angela Tos), motion passed.

Action Items

- Matriculation Program Review

Marty Ennes motioned to approve the Matriculation Program Review, it was seconded by David Babb, all were in favor, motion passed.

Information/Discussion Items

1. Program Reviews:
 - i. Business Administration Program
 - ii. Social Science Program
 - iii. Life After School Program

Dave Bolt announced that he's the chair of the Student Learning Committee (SLC). He was not in attendance at the last PGC meeting and asked what the criticisms were of the program reviews that were forwarded to the PGC for approval. David Babb and Marty Ennes explained that there were sections left blank and also grammar and punctuation errors. The Business Administration Program Review slo's were more like program outcomes and were not written as student learning outcomes. Dave Bolt believes these should be returned to the originators to discuss the problems. David Babb concurred stating that PGC thought it would be good for the SLC to review the program reviews for completeness and return them to the originator if not complete. Dave questioned the expectations from the SLC as it is not their role to approve program reviews, but only to funnel them to the PGC. Angela Tos stated that Dean Alston had led her to believe if there were concerns with program reviews they would come from the SLC. What the SLC did was pass these to someone not too close to the program for reading. Dave responded that the SLC does not look for content they are just checking to see if answers were complete. The Technical Review Committee (TRC) reviews curriculum committee information and Dave questioned if this is something SLC should be doing. He further commented that they all don't excel in the English language. Marty Ennes does not feel that the grammar is the most important, but suggested an administrator could be responsible to review the specific area program review to make sure all questions have been responded to, and that if there are glaring punctuation errors whoever wrote it could make corrections. Ron Oxford stated that as the originator of the Library/Learning Resources Program Review, he expects that the PGC will address questions to him when this review becomes an action item. Marty believes PGC should look at the content. Dave reminded all that this is a new process and this is the reason for questions/brainstorming. Further discussion concerning the process transpired with the outcome being that program reviews will first pass through the learning area and/or administrator whichever is most expedient, and then they will go to the SLC, then to the PGC. Dave would also like learning area approval. Marty believes the process should be approved from the learning area first, then the area administrator, then SLC, and then PGC. David Babb questioned what happens at the SLC. Dave Bolt responded that he thought they looked at completeness. Stephanie Droker asked if the forms are to be consistent (i.e. graphs, charts) within the form. David Babb replied that the form says to attach the proper data. Dave stated we will take the Business Administration, Life After School Program, and Social Science Program Reviews and send them back to the learning area administrator for review in lieu of the TRC. The question was asked where the program review goes after it is approved by PGC. Dave responded that he sees the program review being returned to the learning area who prepared the review; however, Mr. Warkentin has told him that approved program reviews would go to the Budget Allocation Committee (BAC) to be considered as budget decisions are made. Marty Ennes recommends a form be developed to extract data from the program review to be sent to BAC to outline relevant staffing/budget needs. This would serve as an advocate to various committees.

First Reading:

- i. Mathematics
- ii. Library/Learning Resources

Mr. Bolt stated that the above program reviews are for a first reading. Marty Ennes stated that she does not know if the formatting needs to be consistent, she feels the format can be difficult to read. Marty Ennes motioned that the VP/CIO be the person to contact the respective program review originator to request their attendance at the PGC when their specific program review is on the agenda for action, it was seconded by Allen Moore, all were in favor, the motion passed. Dave Bolt stated that he will return the discussed three program reviews and the ones backlogged in Dean Alston's office back to the area administrator for review.

2. Board Policies (college approval is not needed)

- BP and AP 2433 Chancellor Selection
- BP 2432 Chancellor Succession

Mr. Bolt stated that he learned at the District Leadership Council that BP/AP 2433 and BP 2432 had been approved. Marty Ennes interjected that these were discussed at the last retreat and they needed to have something in place for succession or selection of the chancellor. Additionally, when they were in San Francisco at the bond meeting, it was valued to know that we have a succession/selection process in place for sustainability. These have been approved by the Board and have been sent to the constituency groups as a courtesy. Other items discussed were OASHA recommendations which came out of the JPA; these have been approved by the Board. These mostly affect campus level safety and only certain departments. The other one is the sustainable resources policy. There has also been BP 3830 approved. Faculty wants to see confirmation that our paper is being recycled and that we have more recycling bins on campus. This is a touchy topic. Mr. Bolt reported that he is aware of paper waste; however, we are using recyclable paper. Marty will create a summary review of faculty concerns regarding board policies. Allen responded that we are mandated by the state to recycle. Stephanie Droker stated that a question had come up at Senate about papers placed in the bottle dumpster. Paper can be placed in the dumpsters along with bottles.

3. Curriculum Committee Report

In the absence of Rene Sanchez, Dave Bolt reported that there had not been a meeting this semester as there is no curriculum. His title as co-chair of the Curriculum Committee needs to be discussed. There are deadlines for items to be in the new catalog. Anything discussed this semester will not go into the catalog addendum until spring. Marty Ennes stated that Rene Sanchez had sent an e-mail regarding the deadline. David Babb reported that he did not know about the addendum and that he is aware of problems with the Biology information.

4. Academic Senate Report

Stephanie Droker reported that they have had two meetings and the next is scheduled on the first Monday in March. Tenure recommendations have not yet been confirmed to her before going to the Board.

5. Report from Committee Representative

a) Student Learning Outcomes Committee

David Babb reported they had their first meeting today to discuss meeting times and days. They talked about the possibility of meetings on Tuesdays. They also discussed general education slo's and how to get those taken care of. They plan to have a focused meeting on this topic. They are going to schedule slo parties (program level) to help people write slo's. Non-instructional slo's have to be put on the correct forms. Dave Bolt announced that WASC is highlighting a program for electronic submission of slo's.

b) Student Learning Committee

Dave Bolt reported that the Student Learning Committee had not met and is scheduled to meet next week with the focus to remedy the flow of the program review process. They will also discuss a form to gather program review information and the next cycle of program reviews.

c) Budget Allocation Committee

Dave Bolt reported that the Budget Allocation Committee is scheduled to meet next Tuesday and they will discuss the fact that the district office has withdrawn supplies money. They will still go through the process for input from staff should there be monies come available. Marty Ennes asked if people need to be concerned about on-going necessary items. Dave responded that necessary supplies in order to carry out curriculum are permitted and requests should be submitted.

d) Employee Success and Development Committee

In the absence of Dr. Hall, no report was given at this time.

e) Student Success Committee

Jose Lopez reported that SSC had met last week and they wish to begin a Retention Committee. Dave Bolt recommends this go to the Strategic Planning Committee. Marty Ennes questioned whether this should possibly be a subcommittee of the Student Success Committee. Ron Oxford questioned how the membership takes into account the on-line student concerns. Angela Tos responded that Susan Whitener has been attending and she feels this committee would need a standing committee member. Dave suggested discussing this with the respective constituency groups. This will be discussed at the Strategic Planning Committee meeting scheduled in March.

f) Facilities, Safety and Auxiliary Services Committee

Allen Moore reported that this committee has a meeting soon. He reported that the work order system has been implemented. Lemoore Unified Elementary School District revealed at a meeting yesterday that they are willing to pay for half of the cost of the student center. They would thereby be entitled to use of half; however, the size of the building would double. The other revelation is that the Middle College High School has recently become a charter school and now also has access to funds and is willing to share the cost of the 500 building complex for shared use. This would allow daytime use by them and evening time use for us. Mr. Lopez stated that grants are available for charter schools. It is Dave's opinion that the college's needs must come first.

g) Technology Committee

Ron Oxford reported that the Technology Committee will be meeting on Tuesday. Tomorrow night, author, Michael Mehas, will be on campus for a book signing and presentation.

6. PGC Membership

Dave Bolt asked for recall of the discussion on the PGC membership at the last meeting. Jose Lopez stated that the recommendation from the counseling area was for Teresa Quilici to fill the open seat; however, it was voiced that this was not the understanding by counselors in attendance at their recent department meeting. Mr. Lopez will revisit the minutes of the counselor/advisor meeting. CSEA needs to be the one selecting their representative and counseling/advising needs to select theirs. Ron Oxford stated that Keith Brock rotates his work between campuses. Marty Ennes recommended that Mr. Warkentin speak to Mark Millet, CSEA President, with regard to Keith Brock as a PGC CSEA representative.

7. Other**• Student Strategic Planning Retreat, Friday, 2/27/09**

Topics of concern to students need be determined. There will be a student survey on-line soon. Marty Ennes would like to be notified when the survey goes live through the portal. Glenda OliverSmith will bring a list of topics and rsvp's to the next meeting and PGC will possibly add to the list of topics. Marty suggested that the flier be sent to faculty with sign-up sheets and that faculty sign students up to attend. Angela Tos motioned that the name of the student planning event be entitled, "*Student Town Hall Meeting*", it was seconded by Marty Ennes, all in favor, motion passed.

• Off Campus Traffic

Dave Bolt gave an update on off campus traffic issues that have now been witnessed by the commander of the Lemoore Police Department. They recognize that this is a safety concern. The City of Lemoore manager, charter school principal, chancellor, and other community members attended a meeting with the topic of discussion as why the recent traffic issue. They have concurred that WHCL is responsible due to the new class schedule. Students elect to take 8 a.m. classes and thus WHCL told the City that there is nothing we can do this semester but we would think about it for future planning. Mr. Warkentin's plan is to maintain the same number of classes next semester. Over the summer the City will make some adjustments. One thing is to change the stop sign and create a turn lane. Also they may remove some stop signs. This will prevent some traffic from making turns during certain hours of the day. Marty Ennes asked if on the class schedule they will look at 8 a.m. sections and enrollment dropping for future scheduling. Some students took the 8 a.m. classes as that was the only choice they had. Marty feels it is a misnomer as some students do not choose to be in 8 a.m. classes. Dave feels this is interpretational. Enrollment is up 11-12% this semester. Marty asked how we are doing with room usage. Dave stated that he had received a phone call from chief of police and she is looking for people to work part-time who want to be deputized for LPD. There may be AOJ students who are interested. This is minimum wage and only 1 hour per day. Allen Moore will e-mail Terry Davis regarding this.

Angela Tos announced that the *New Student Orientation* is now on-line.

8. Agenda items for next meeting:

- Accreditation
- Pre-requisite/Co-requisite Challenge Form

9. Adjournment – Next mtg., February 18, 2009

The meeting was adjourned at 2:58 p.m.

Residence Halls	4.33	6
Placement Testing	4.32	47
Cafeteria/Food services	4.20	15
Career Center/Job Placement	3.91	11

II. Mapping Program Level SLOs to Courses/Learning Experiences/Requirements

Map the expected program level student learning outcomes (Section I) to all the courses, program requirements, and/or other learning experiences (i.e. work experience, internships, support services, etc.) that are a part of the program. Place an "X" in the box for each program level SLO that is introduced, emphasized, or reinforced in each of the listed courses or learning experiences.

Course or Learning Experience	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5
IS 1	X	X	X		X
IS 2	X			X	X
IS 7					
Ed Code 55502	X	X	X	X	X
Ed Code 55520	X	X	X	X	X
Ed Code 55523	X			X	X
Ed Code 55525	X				
Ed Code 55526					X

III. Defining Assessment of Expected Student Learning Outcomes

Identify appropriate assessment methodologies for the program level student learning outcomes, including summative assessments where appropriate.

1.) Code in Datatel the informed educational goal and update the major in SACP.
Track completion rates by cohort of the goal within three years to develop a baseline.

2.) Utilize a pre-survey and post-survey at orientation- “Who do you meet with to identify the courses needed to reach your educational goal?”

- a. Instructor
- b. Financial Aid
- c. Friends
- d. Counselor

3.) At orientation students will be directed to send an email to the LemooreOrientation@westhillscollge.com
Track the number of students who complete an orientation and send an email.
Compare received emails with attendance at orientation as MATI'd

4.) Identify a cohort of students who took the placement test and check their schedule to determine they have registered for the appropriate classes.

5.) Track early alert students and their success rates.

IV. Assessing Student Learning Outcomes

Have the expected student learning outcomes for all courses or other experiences required in the program (section II and III) been assessed? If all relevant courses and/or other experiences have been assessed, summarize the assessment data.

IS 1-

IS2- Was not taught at West Hills College Lemoore either face-to-face or online this year academic year (2008-2009).

SLO #2 was assessed both in the fall and in the spring semesters.

The data indicates:

Fall 2008 New Student Orientation:

48% of the students understood that they needed to meet with a counselor to formalize their educational plan.

Spring 2009 New Student Orientation:

65/95 students understood that they needed to meet with a counselor to formalize their educational plan for a total of 68% accuracy.

SLO# 3 was assessed both in the fall and in the spring semesters.

The data indicates:

Fall 2008 New Student Orientation:

42% of the students knew that the preferred method of communication between the district and them is via their West Hills College student email account.

Spring 2009 New Student Orientation:

65/95 students knew that the preferred method of communication between the district and them is via their West Hills College student email account for an accuracy rate of 68%.

However, when worded a little differently: "How will you be most frequently contacted with all types of important information?" only 36/95 answered correctly for an accuracy rate of 38%.

V. Analyzing the Results of Assessment

Have the assessment results for all courses and/or other experiences required in the program (section II and III) been analyzed? If so, summarize those analyses. In other words, what does the relevant SLO assessment data tell you about student learning in this program.

IS1-

IS 7-

SLO #2-68% accuracy is an improvement over past orientations whereas the highest accuracy in the past was 48%. This improvement demonstrates that the training provided for orientation and the addition of the 2 slides is improving the success rates.

SLO #3-68% accuracy is an improvement over past orientations whereas the highest accuracy in the past was 42%. This improvement demonstrates that the training provided for orientation and the addition of the slides is improving the success rates. The discrepancy between correct answers when the same content is worded differently provides interesting insight. This evaluator believes that students answered the second question in a manner as to how **they** would **like** to be contacted. This hypothesis requires further exploration and as it is the district's policy to use email we need to explore the ramifications.

VI. Planning/implementing changes to pedagogy, facilities, etc. to improve learning

Using the assessment results from sections IV and V, have changes to pedagogy, facilities, etc. been planned and implemented to improve learning in the program? Explain how the assessment results were used to plan and make changes to improve learning; and describe the changes implemented. If no changes are planned, explain why.

SLO #2- It is the plan of the matriculation coordinator to continue with the trainings already initiated for those who will facilitate new student orientation as improvement was demonstrated. At this time neither the PowerPoint Presentation nor the online orientation will undergo significant changes as the data indicated it is not warranted.

SLO#3- It appears that students would prefer or are most easily contacted via their cell phone. If this is truly the case, perhaps the district needs to revisit their policy of having email be the primary means of communication. If the district determines to continue to use email primarily, then we need to change the culture of the students. This would require additional training besides new student orientation and reinforcements campus-wide. For new student orientation purposes, perhaps an activity (hands-on preferred) at the face-to-face orientation that trains them on how to use whccd.net email and helps them learn their login and password would be useful.

West Hills College Lemoore

Program Level Student Learning Outcomes

Program Name/Title:

Originator(s):

Date:

I. Expected Program Level Student Learning Outcomes Defined
--

<p>SLO 1: After completing a student educational plan (SEP), students will make progress towards their informed educational goal.</p>
--

<p>SLO 2: After completing orientation, students will understand that they need to meet with a counselor to formalize their educational plan.</p>
--

<p>SLO 3: After completing orientation, students will know that the preferred method of communication between the district and them is via their West Hills College student email account.</p>

<p>SLO 4: After taking the assessment test, students will register for the appropriate classes.</p>
--

<p>SLO 5: After meeting with a counselor or advisor for academic follow up, students will be given the information necessary to be successful.</p>

West Hills College Lemoore
Student Success
Meeting Minutes
Date: December 10, 2010

Attending: America Bryant, S. Dorsey-Robinson, Tammy Larson, Jose Lopez, Tiffani McGee, Mike Rodriguez, Joel Ruble, Angela Tos, Ryan Cardoza (student), Brittany Burkhardt (student)

Absent: Susie Briones-Aceron, Priscilla Balcazar

1. Hear Update from Student Activities Committee - Lopez

J. Lopez gave an update from the Student Activities Committee. He stated they were having a meeting next Thursday and they were off to a good start. He also stated that having student, like Brittany, on the committee was good. They were working on identifying students for next year to sign up for the IS 7 class that can also assist with Heritage Day. He stated that in April 2011, a week before spring break, there will be Heritage week activities.

J. Lopez discussed a fall Scholarship Gala Night to raise money, something he will work on. More information will follow.

2. Hear Update of Student Services – Robinson

- High School Principal Contact and Follow-up meeting
- High school Outreach
- H.O.P.E.

SDR shared information on collaboration with high schools and initiatives and the work that the advisors are doing. J. Ruble shared the "Having Opportunity and Promise through Education" (H.O.P.E.) project

3. Review WCHL Crest

J. Lopez shared a copy of the proposed WCHL Crest. A discussion regarding the timeline for completion and bringing it back to Student Success Committee was discussed. SDR shared that the timeline was important in order to have things ready by graduation. SDR will place item on next Student Success agenda for action and J. Lopez will take to SGA for portal vote.

4. Discuss Result of placement test

Angela Tos shared work that is being done on the placement test

5. Follow-up to Student Success Conference

Team shared what they learned from the Strengthening Student Success Conference, T. McGee shared that she was impressed with information she learned about supplemental instruction, tutors, and assigned tutors to basic skills classes. A. Bryant shared the wealth of information she received from the Financial Aid sessions, and the notation of Financial Aid I.Q., SDR shared information on the CalPASS sessions and "Ask Lane" robust online serves at Lane Community College in Oregon; A. Tos shared information on the data on Completion by Design, Loss Points, Momentum Points, Achieving the Dream, "It is not Over in October" and Stay until May campaign at Sacramento Community College, learning community about how

effective retention is, and how to make it universal. All committee members that attended felt it was one of the best conferences and should be something that members are able to attend next year.

6. Receive Updated Strategic Planning Grid on progress made

SDR distributed copies of the revised Strategic planning grid with changes made from last Student Success Committee meeting. A small 3 hole punch was requested by team members so that can punch holes in their documents and put in their binders. SDR stated she would get them.

7. Receive Proposed WHCCD Strategic Plan Goals 2011-2016

SDR distributed copies 2011-2016 Strategic Planning which focused new goals and targets/

8. Tasks to be completed

- a. Revised Student Equity Plan
- b. Revised Student Transfer Plan
- c. Follow-Up to Student Town Hall Matrix

SDR shared that the goals of the activity was to have members break off into teams, with J. Lopez facilitating the Student Town Hall matrix revisions, M. Rodriguez facilitating the revision to the Transfer Plan and SDR facilitating revising to the Equity Plan. Members were given additional data and using the data in their binders to examine the following:

1. What does the data say
2. What does this mean
3. What is the goal
4. How will we get there
5. Timeline
6. Who is responsible
7. Where to for to get more information
8. Resources and Funding

Team members were assigned to work in groups and share back. Based on the discussins, team members felt the need to come back together to finish in January.

9. Other:

- a. WISE-Up- T. McGee and M. Rodriguez shared that they were working with the local credit union to deliver a WISE-UP session to there is students on April 8th from 9:00-12. The purpose is to help student understand how to manage their money

Counseling Faculty Learning Area Meeting

Agenda: 5/12/10

1. Call to Order
2. Changes to Agenda
3. Approval of Minutes
4. Reports
 - a. Senate
 - b. Curriculum
 - c. Student Success
 - d. Student Learning Outcomes
 - e. Basic Skills
 - f. Transfer/Career
 - g. Articulation
 - h. PGC
 - i. Technology Committee
 - j. Advisor Meeting Update
 - k. Learning Areas
 - i. Arts and Letters
 - ii. Social Science
 - iii. Career Technical Education
 - iv. Health and Wellness
 - v. Math and Science
5. Action Items

6. Agenda items for next meeting

Next meeting is scheduled for May 26th??????

Counseling Faculty Learning Area Meeting

Minutes: 3/24/10

1. Call to Order:
2. Changes to Agenda
3. Members
 - a. Present: Tiffani McGee, Mike Rodriguez, Ann Barr, Marta Hendrickson, Sylvia Dorsey-Robinson, Angela Tos, Linda Amaya, Veronica Grijalva, Rupinder Rai, Maria Gonzalez, Lataria Hall
4. Absent: Gary Sedgwick
5. Reports
 - a. Senate:
 - i. Discussed new faculty list: 1. Psych 2. ESL 3. Humanities 4. Developmental English 5. Nursing
 - b. Curriculum
 - i. PE 45 was approved
 - ii. Education 5 was approved for 5 year review
 - iii. English 89 to 100/GS 61 to 101 were both approved for a second reading
 - iv. Intro to nursing courses was approved for second reading
 - v. Deleted Humanities degree because of new liberal arts degree
 - vi. Program revision for LVN to RN and RN were approved
 - c. Student Success
 - i. Prioritized student town hall matrix
 - ii. Reviewed Student Equity Plan
 - iii. Revised governance statement
 - d. Student Learning Outcomes
 - i. Discussed that adjunct faculty need to assess SLO's because we are not getting credit through WASC for the assessment unless every section of the course is assessed.
 - e. Basic Skills
 - i. Discussed goals for next semester
 - f. Transfer/Career
 - i. Transfer Dinner on May 20th
 - ii. UC Merced is opening doors for Spring 2011. Also accepting TAG agreements for Spring 2011
 - g. Articulation
 - i. Marta went to DeVry University presentation. They offer 16 week sessions with 8 week session incorporated. They also have degree completion programs. The cost to attend is \$580 per unit for the first 11 units and \$350 per unit for the 12th unit and above. See Marta for the catalog
 - ii. Online Biology 10 lab is being rescinded (online part)
 - iii. Update on Bio 35L-only students who have take our Bio 35 online or currently taking our Bio 35 online and plan to transfer to CSUF

or another campus that does not take our Bio 35 online should take this one unit lab course.

- iv. Geol 9 Update-will not be cross-listed with Geog 1. B. Hall plans to create geology as a new stand alone class (earth science)
- h. PGC
 - i. Discussed program review for Snack Bar and UBMS-approved
 - ii. Middle College Accreditation-received an "A" letter grade-suggestion to get separate campus
 - iii. Evelyn Sue Westover-honorary degree/PGC approved-going to Board for final approval
 - iv. Relay for Life update-made \$1500 and received a bronze medal
 - v. SGA elections were held on May 12th
- i. Technology Committee
 - i. Has not met
- j. Advisor Meeting Update
 - i. Not met yet since last meeting-SDR provided update
 - ii. Met w/Cindy Homburg from HHS-discussed concerns and protocol for next semester
 - iii. A few advisors and SDR are going on a field trip next Monday to visit a few local high schools-plans to get a sense of their needs and we can do to improve our services to their campuses.
 - iv. LHS has not responded to our invitation for a meeting to discuss concerns
- k. Learning Areas
 - i. A & L-Discussed new faculty list
 - ii. Social Science-has not met since last meeting
 - iii. Career Technical Education-Discussed AOJ and SLO's
 - iv. Health and Wellness-Discussed nominations for new faculty
 - v. Math and Science-has not met
- 6. Action Items
 - a. Give comp time usage for remaining of the semester to SDR ASAP
 - b. Transcript evaluations
 - i. Commitment to students-transcripts will be evaluated and posted w/in 10 days of receiving them.
 - ii. SDR gathering funds-had conversation w/Jewel—take over Fall 2010 transcript evaluation process w/front counter(stamped, dated)
 - c. Request for conferences
 - i. SDR will post excel spreadsheet on portal for requests. She wants to honor as many requests as possible
 - d. Summer Coverage
 - i. Calendars to SDR by 6/1/10
 - e. Next SSM meeting is 5/21/10 from 8:30-10:00 with all student services staff
 - f. Lunch schedule for next year
 - i. Will stagger lunches (11:30-12:30, 12:00-1:00, 12:30-1:30) Monday through Thursday only

ii. Will discuss at flex day when discussing committee responsibilities

7. Items for next meeting:

- a. Flex Day 8/10/10-committee assignments/coordinate lunch schedule
- b. Discuss position for dual enrollment
- c. Petition to graduate changes (2 campuses)
- d. Review of progress on SLO's and assessment cycle
- e. What does Early Alert look like next year?

WEST HILLS COLLEGE LEMOORE

PROGRAM REVIEW/PLANNING AND EVALUATION PROCESS UNIT PLANNING GUIDE - NON-INSTRUCTIONAL DEPARTMENTS & AREAS TO BE COMPLETED BY UNIT/DEPARTMENT COMMITTEE

(Please submit this information using Microsoft Word. In formatting your response, please use the exact outline developed below.)

I. General Information

Department/Service: TRiO Upward Bound

Date Prepared: October 1, 2008

Prepared By: Joel Ruble

Staff: Jose Murrieta, Brian Green, Anna Silvestre

II. Program Overview

- A. State the program mission. If you don't have one, create one. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. *(200 word limit)*

West Hills College Lemoore's Upward Bound Classic program is committed to youth, educational experiences, community partnerships, and providing opportunities to the underserved and disadvantaged population. UB Classic identifies low-income, first-generation college bound students and provides them with services such as after school tutoring, special instruction, college visits and educational/career advising. Members will have their educational aspirations encouraged and enhanced by qualified instructors, counselors and positive experiences that promote diversity, cultures, educational experiences and the real possibility of attending a college of their choice.

- B. Briefly describe the current state of the program/department/service area. *(250 words or less)*

Upward Bound Classic at West Hills College Lemoore is a newly funded program in our first year of operation. We are funded to serve 50 students from our 3 target high schools, Laton, Lemoore and Avenal. We began recruiting and serving students last fall and filled all of our program slots before spring. The program's focus is on college entry and success for our first generation and low income students. The program's primary activities are weekly or daily tutorials at each school site, monthly Saturday sessions and a 6-week summer program. There are also various activities throughout the year such as campus visits at colleges and universities or at science or technology enterprises. A perfect example of these activities would be a trip taken on February 2009; we took a group of students to visit UCLA Campus along with the Museum Of Tolerance in Los Angeles, CA. We monitor our students' grades carefully and assist them with applications to colleges and universities. Many of our students have the opportunity to take college level courses through West Hills College Lemoore. At the same time students are able to take these classes for dual credit. This must be approved by parents,

school counselor and principal. When our students do take college courses, we purchase their books and provide them whatever support is necessary to ensure their success.

C. Describe how the program/department/service area goals and objectives are aligned to the advancement of the college mission, goals and objectives. *(250 words or less)*

Our program SLO's are focused on the needs of our low income, first generation pertaining to their preparation for college. They include results on the California High School Exit Exam, advising in college preparation (SAT, A thru G, financial aid, etc.) and postsecondary enrollment. All develop in our communities a college going culture.

D. List any recommendations from the most recent college/program/department accreditation and/or previous review. *(250 words or less)*

As a new program this is our first opportunity to participate in the program review process.

III. Qualitative and Quantitative Data Review

A. Attach the following Non-Instructional Program Review data (as provided):

- Enrollment Trends
 - Approximately 50% of our program participants enroll in courses at WHCL for dual credit.
- Student Retention Rates/Student Success Rates (if applicable)
- WSCH/FTEF (if applicable)
- Full-time to Part-time Faculty Ratio- NA
- Number of Students Earning Degrees (if applicable) N/A
- Number of Students Earning Certificates (if applicable) N/A
- Job Market Analysis (if applicable)
- Student Demographics- See Chart below
- Grade Distribution (if applicable)
- Student Survey Data (if applicable)

Total Students - 50	Race/Ethnicity	Entry Status
<u>9th graders</u> 1-Lemoore HS 0-Laton HS 0-Avenal HS	<u>Lemoore HS</u> 19-Hispanic 1African American	33 - First Generation and Low Income 17 - First Gen only
<u>10th Graders</u> 3-Lemoore HS 5-Laton HS 8-Avenal HS	<u>Laton HS</u> 7-Hispanic 2-White 1-Asian	
<u>11th Graders</u> 8-Lemoore HS 5-Laton HS 8-Avenal HS	<u>Avenal HS</u> 19-Hispanic 1-Arab	
<u>12th Graders</u> 9-Lemoore HS 1-Laton HS		

- B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific course/program/service. (250 words or less)

The most significant trends for Upward Bound Classic are that under our new grant application we are serving 3 target schools. Upward Bound Classic serves Avenal, Lemoore and Laton high schools. This spreads our resources over a larger geographic area and also requires staff to be in more places during a normal week. It doubles the school site staff necessary for operation and doubles the number of tutorials to manage each week. All of this serves to spread our staffing and fiscal resources more thinly than we expected. It also lays the groundwork for the second trend that has great effect on our program operation.

The recent increases in transportation costs are probably the most difficult issues for us to resolve. Because we transport our students to events at the college or at other institutions and having 6 sites to serve rather than 3, the impact of these transportation expenses is all the more devastating.

- 1) State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).

We measure the success of our program primarily through our annual performance report. We measure standardized objectives regarding low income/first generation status, state testing, retention, and post secondary enrollment.

We also measure our success in our overall contact with students. We have approximately 90% attendance at our afterschool tutorial, 75%-80% at our Saturday sessions and approximately 50% participation in our 6-week summer component. During the summer, a good block of our students work to help support their families, attend other college programs (COSMOS, Berkeley House, etc.) Or attend summer school at their high schools. In this light, our 50% summer participation is quite high.

- C. Attach the following data maintained for your program/department/service area:

1. Budget information regarding costs per program/department/service area on personnel, equipment, supplies, delivery of services (where applicable), and any other direct or indirect costs connected with the service as reflected by student enrollment.

UB BUDGET

SALARIES

Full-time Personnel 131,123

Part-time Personnel 6,500

BENEFITS 45,566

SUPPLIES & MATERIALS 1,809

TRAVEL AND CONFERENCE	3,500
PARTICIPANT COSTS	22,150
PARTICIPANT STIPENDS	22,500
TOTAL DIRECT COST	233,148
INDIRECT COST 8%	16,852
TOTAL PROGRAM COST	250,000
Cost per participant	5,000

2. Identify all personnel, including the number of certificated, classified professionals and volunteers. Discuss the diversity of faculty and staff.

Employee Classification:

Certificated .5 Class. Professional 1.4 Student Worker 1
 Volunteers 0

Diversity (Race/Ethnicity)

- | | |
|---|--|
| <input type="checkbox"/> Native Am. /Alaskan Nat. | <input type="checkbox"/> African/African-American/Non-Hispanic |
| <input type="checkbox"/> Asian/Pacific Islander | <input checked="" type="checkbox"/> Caucasian/Non-Hispanic |
| <input checked="" type="checkbox"/> Hispanic | <input type="checkbox"/> Filipino |
| <input checked="" type="checkbox"/> Mixed | |

3. Describe the certificated and classified staffing requirements of the existing program/department/service area, as well as the effect any proposed curricular or instructional changes would have in the next three years. This statement should include the need to retrain, or to add staffing for new specialties. Finally, this statement should include the need to retrain or to add staff for clerical assistance, for maintaining equipment, or for serving as an instructional assistant.

Our program employs 1.1 advising staff under the Advising Specialist, .25 Program Development Assistant and 1 hour per week school site instructors under the Upward Bound Instructor job description and student tutors at our school sites. We also have 1 student worker per semester to help with office and clerical work. Although our staff does a great job accomplishing our goals the need for more staff is obvious especially for our weekend Saturday session and/or weekend trips. This would help because hours would be distributed evenly among staff so no overtime would have to be paid thus, saving the program money.

- D. Identify and discuss the effect that trends may have on the program/department/services area's organization, structure, and nature over the next two to four years.

Our model is well established and proven effective and we would be unwise to retool that model at this point. We will also have to respond to escalating transportation costs in our summer program design. Transporting students from 3 communities each day is prohibitively expensive and so our program will respond by transferring some

of the summer instruction to an online environment and doing portions of our work in the communities where our target schools are located. Due to our current financial crisis, our institution has gone through a shift of personnel (Director Position). Our Advising staff and schools are still intact. Budget concerns have also caused a cut back in staff travel as well as student travel, not eliminated but limited to how much travel can be done.

- E. What resources are required to maintain program/department/service area, and what additional resources are necessary to improve or expand it?

Transportation is our main consideration resource wise. Our other main resource requirement is for technology to stay connected with our students and to connect them with the most current college and scholarship information. Transportation cost has gone up versus our financial crisis is affecting our program in a big way. We must now ask our students to travel on their own with parents to our locations. We cannot afford to contract out a bus company to bring our students to our local Saturday sessions but will limit to contracting when planning out of district travel.

- F. Discuss staff training, academic and professional currency.

Our staff is involved in training throughout the year. For example: our advisor and Director will enroll in a specific TRiO training if budget allows. TRiO trainings are Federal trainings therefore, sometimes located out of state. We also do local CSU and UC counselor conferences which are most of the time located in Fresno, CA. We plan to attend at least one TRiO training per year. These are offered by various organizations and are approved by the DOE (Department of Education). The director attends the TRiO annual conference (San Antonio, TX in 2009) which is mandated under our approved grant proposal.

- G. Excluding curriculum validation, discuss community involvement in the operation of the program/department/service area. Upward Bound involves our students and staff greatly in our communities. One of our most successful community event this past year was our Student walk for measure W. We have a great rapport with site counselors, principals and teachers along with our parents. We offer our students a great opportunity for them to give back by setting up an annual Community Service project out at Camp El-o-Win. Our students have always been willing and able to help whenever we are needed in our communities.

IV. Professional Development

- A. What professional development activities have staff participated in?

We have attended professional developments such as; CSU counselors' conference, UC counselors' conference, TRiO training in priority 1 record keeping retention student success.

B. How does this professional development affect Student Learning Outcomes for your program/department/service area?

Our trainings always focus on student retention and success as well as postsecondary enrollment.

C. Describe the program/department/service area's plans for staff development over the next four years.

We will continue with our current plan. We are looking to focus on increasing our efficiency with our student database as our first priority. Due to financial crisis that our state is in, our institution has gone through a re-organization of personnel as well as cross-training for job specification. (Our Director has been re-organized to serve our grant 75% and our District/Institution 25%)

D. Discuss the effectiveness of continuing education requirement to meet the need for advanced training and/or training in emerging technologies.

Upward Bound continues to strive in our technology department. Perfect example of this is, we are currently using our Student Access software to store all of our students' information as well as running our partial and annual reports. West Hills College has also done a great job improving our online services, we are now able to use the Portal to check students' grades and/or class schedules and we also can have access to our work email through this portal.

V. Student Learning Outcomes

A List all Student Learning Outcomes for this program/department/service.

SLO.1). Upward Bound Classic students will be successful in high school as indicated by successful completion of the California High School Exit Exam. (CAHSEE)

SLO. 2). Upward Bound Classic students will enroll in programs of postsecondary education after high school.

SLO.3). Upward Bound Classic students will be successful in college level coursework.

B. Explain how Student Learning Outcomes are used to measure quality and success of this program/department/service area.

We based our SLO's on West hills College Lemoore's standardized outcomes and so success in SLO's will naturally reflect success from the perspective of our federal regulators.

C. Based upon the results of the program SLO assessments, what improvements have been identified?

We have yet to assess our SLO's.

VI. General Operations

A. How does the program/department/service area ensure that current curriculum/delivery of service is adequately meeting the needs of students?

Our program Advisor ensures that current deliveries of services are meeting the needs of the program participants by:

1. Attending workshops to keep up with new technology/updates related to our students. For example: Trio training, UC/CSU Counselors' conferences as well as Financial Aid Workshops.

2. Assessing Student needs by having personal advising thus, directing needs based on each individual participant.

B. Do special accreditations, external regulations, or advisory committees regulate the program/department/service area? Yes No (if yes, elaborate.)

Upward Bound Classic is directed under the umbrella of the TRiO Programs out of the US department of Education. We operate under the Education Department's General Administrative Regulations Guidelines.

C. Does the program/department/service area have any special regulations, space requirements, staff training, etc.? Yes No (if yes, elaborate.)

Under the approved grant, the host institution must provide the work/office space necessary to run Upward Bound Classic. This includes but is not limited to office equipment, transportation for staff and participants as well as to and from Federal or local staff training opportunities. West Hills College Lemoore is in the works of a new building phase and Upward Bound Classic has been considered for office space in this new construction.

D. Is there evidence of unmet student needs caused by your program/department/service area? Yes No (if yes, elaborate.)

A major student need that is currently not being met is in the area of transportation which is limited due to high cost. Commercial passenger vans can no longer be utilized for our high school students due to the CHP/Department of Transportation compliance policy. This new policy has an effect on attendance and participation during weekend activities held outside of students' local area.

E. How does the program/department/service area address cultural diversity?

Upward Bound Classic is guided toward helping disadvantage students. Students must meet a certain criteria to be eligible for program services. 1. First Generation College bound. 2. Family Income must meet the Federal low income levels. 3. US Citizen or US Resident. These students can come from any cultural background as long as they meet the National criteria.

Program addresses cultural diversity by exposing students to cultural related events that are hosted by higher education institutions.

F. Describe the initiatives the program/department/service area has implemented to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical mental disabilities, re-entry, gender, etc.)

Bound by Federal guidelines that mandate as to who to target thus, Upward Bound Classic targets students with disadvantage backgrounds. Students and their families must meet the low income levels that set forth by the Federal Government. Upward Bound staff requires documentation from applicants to confirm qualification.

G. Discuss the program/department/service area's use of external funding, including grants and collaborative partnerships, if applicable.
US department of Education is only funding source.

H. To what extent is technology being used in the program/department/service area?
Technology is used on a daily basis by Upward Bound Classic staff and students. A main example of this would be our WHCL Portal and website where student and staff can communicate with each other via email. Staff has also made their cell phone numbers available to students for texting since, this is widely use in our young population now days.

I. Describe the supply requirements for your existing program/department/service area, as well as the effect that any proposed changes would have on the supplies in the next four years. This statement should include the kinds and amounts of supplies needed, any anticipated costs, and the need for any computer software/technology.

Supplies are needed throughout the year for our program. Starting with our office supplies, which include, but are limited to file folders, writing equipment, binder and outreach materials among others needed "Student Access" data entry software is needed for electronic data filing. An increase in demand combined with an increase of cost is giving our program difficulty providing the right equipment and materials. With help of West Hills College Lemoore providing extra materials our program would function better.

J. Describe the need for facility modifications within your existing program/department/service area or the effect that any proposed curricular or instructional changes would have on the existing facilities in the next four years. This statement should include a description of the desired changes, the rationale for the changes, and a rough estimate of the costs.

West Hills College Lemoore has mentioned Upward Bound as one of the new considered occupants of the new construction phase in 2012. This would benefit our programs by being closer to our regular college counselors and being able to refer our program participants to our college staff and programs.

VII. Additional Information (optional)

Please provide any other information to describe, explain, justify, analyze, or clarify prospective program/department/service area changes or needs anticipated in the next four years.

A. What factors did you use in determining the quality and success of this program/department/service area?

Upward Classic was established nationally in 1972 and since then guidelines have been followed continually throughout the years. Upward Bound Classic at West Hills

College Lemoore has been in existence since fall 2007, with these guidelines in mind as well as our College's mission statement we serve our students and community. Federal Guidelines will continue to overlook our Upward Bound program. One way to determine our program success is by looking at examples of our students that have since graduated from Upward Bound. For example we have 95% of our graduated students confirm enrolment in either a CSU or UC of their choice. These results go along with our grant objectives, we have objectives such as retention, graduation and participation; Retention objective: 85% of our students will stay with our program until graduation of high school. Our numbers were 89%. Graduation objective: 85% of our students will graduate from high school and enroll in a post high school program. Our numbers were 95%. Participation objective: 85% of our active participants will participate in program sponsored activities. Our numbers were 86%.

- B. Identify the best ways to measure the quality and success of this program/department/service area. Conduct an evaluation of the program/department/service area. Use a survey or questionnaire when appropriate to address questions. (Examples: How do the persons served by this program/department/service area evaluate its adequacy or effectiveness? How do services compare to similar departments/service areas outside the College? By what processes does the program/department/service area deal with complaints and continually up-grade services? Other methods might include matching or exceeding nation-wide productivity measures, i.e., full-time staffing equivalent per square foot for M & O and per number of employees for Human resources, feedback from campus "clients", etc.)

Participants are given surveys and evaluation forms that allows for reflection of services. Students receive these questionnaires throughout program activities. These surveys will allow our staff to have more effective program activities thus, keeping retention numbers up and actual programs up by recruitment. These surveys also allow our students to express satisfaction/dissatisfaction along with a voice in the program. This would make the students have some ownership and pride in the program.

- C. Describe the annual scheduling patterns for courses impact your program/department/service areas. Consider interaction with other programs/departments/service areas, use of facilities and flexibility for students.

Our program participants are required to enroll in college level courses in the summer session. In part of the coordination of registration, program staff collaborates with Department Faculty to inform them of our initiatives which focuses on high school students. Due to our current financial crisis, our institution has gone through a dramatic cut back on class sessions thus, creating less available classes for our current participants to choose from.

VIII. Summary and Recommendations

- A. What actions have been taken to address the assessment and improvements of program learning outcomes?

Program staff is required to monitor student progress on a monthly basis versus quarterly. Students are provided with evaluation forms to assess program services so appropriate adjustments or accommodations are made for students.

B. Based on analysis of the information provided in I through VII, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.

1. Program strengths

Staff is committed to serving students and meeting their needs. Program has positive rapport with target serving school sites and their staff. Program has attained successful rates of students entering institutions of higher education after high school graduation.

2. Areas that need improvement

Program needs improvement in the area of facilities and transportation

3. Strategies and actions for program enhancement and improvement.

Staff will make more contact with students to develop education planning to insure that students are progressing academically. Program staff is currently strategizing on collaborating with other programs and school transportation officials to reduce student unmet needs.

C. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

Assessment Planning Logic Model
Midterm Report**

Program: Upward Bound Classic		Date:
Findings	Analysis	Actions
What are the actual quantifiable outcomes compared to those listed in column four of the Assessment Grid?	Your interpretation of the results (why the activities were not successful in achieving the goal)	Based on the Findings and Analysis, what is the next step?
<ol style="list-style-type: none"> 1. Currently, project has met number of qualifying participants for the year. Site instructors are in place at each of our participating high schools. Project has 54 active participants and intends to retain 54 participants by the end of the academic year. 2. Participant log in sheets are completed during tutorial sessions weekly, recording attendance and participant course work. 3. Saturday workshops are coordinated on a monthly basis and documentation recording dates and 	<ol style="list-style-type: none"> 1. Although students are highly involved in extra-curricular activities and cannot commit the amount of time required by project; we have been able to find recruits but with difficulties especially in the smaller high schools. Project staff is limited to the amount of time spent on recruiting new participants. 2. Documentation on attendance during tutorials is recorded on a weekly basis. 3. Activities are being met and accomplished effectively. Saturday 	<ol style="list-style-type: none"> 1. Work closely with site instructors and delegate more time to be spent on recruiting students interested in a post secondary education. 2. Continue maintaining accurate documentation recording attendance and participant course work during after-school weekly tutorials. 3. Continue planning in advance to meet mandated project requirements consisting of Saturday workshops covering a series of core subjects including cultural and community service activities. Maintain accurate

<p>subjects are in place. Project has conducted 6 Saturday academic and culturally related sessions. Project is currently planning to conduct it 7th and 8th session for the year. Documentation and attendance including activities conducted during the Saturday events are recorded monthly.</p> <ol style="list-style-type: none"> 4. Participant academic records are evaluated on a quarterly basis. Grades are obtained through high school counseling department. Project staff reviews grades and proceeds with one to one meeting with participant to discuss academic progress or regression. 5. Project is currently in the planning stages developing summer program. Project staff has met with institution's faculty to discuss course outline and schedule. Project staff has informed all participants of the summer program that is underway. Majority of participants are already admitted into the institution through its application process. Over 35 participants have taken the institution's placement exam, a requirement for selection of courses. During the next eight weeks project staff will submit all required forms on behalf of the participant for summer registration confirmation. 6. Annual report is due in January of 2008 and data for report is on file. Data will be converted into report's format when Dept. of Education 	<p>workshops are planned accordingly and have yet have not canceled or postponed scheduled activities. All documentation relating to Saturday activities are recorded monthly.</p> <ol style="list-style-type: none"> 4. Academic records are posted quarterly and made available for project staff to review. Project staff is responsible to schedule student meetings to discuss grades. Evaluation of participant grades is done accordingly when grades are available for review. 5. A six-week summer program is under review and will be going on our third summer session in the upcoming Summer 2010. Participants will be required to make efforts to be part of this component. 6. Annual report is always submitted prior to deadline and reviewed by project staff and administrator prior to submission. Annual report is due January 14, 2010. It is necessary that the project work in conjunction with students services personnel to develop SLO's that appropriately reflect our program goals and objectives. 	<p>records of Saturday activities and events including attendance.</p> <ol style="list-style-type: none"> 4. Continue evaluating grades when available and meet with participants accordingly to discuss academic results to promote achievement. 5. Plan and execute an effective six-week summer component that will allow participants to gain college and high school credit for achieving a passing grade in a college course. 6. Maintain accurate data throughout the academic year to meet all standards required by the Department of Education which reviews our project's accomplishments during the academic year and Summer component. In addition to annual reporting, program staff will work closely with institution student success personnel to develop appropriate student learning outcomes.

WEST HILLS COLLEGE LEMOORE

PROGRAM REVIEW/PLANNING AND EVALUATION PROCESS UNIT PLANNING GUIDE - NON-INSTRUCTIONAL DEPARTMENTS & AREAS TO BE COMPLETED BY UNIT/DEPARTMENT COMMITTEE

(Please submit this information using Microsoft Word. In formatting your response, please use the exact outline developed below.)

I. General Information

Department/Service: **TRiO Upward Bound Math and Science**

Date Prepared: **October 1, 2008**

Prepared By: **Joel Ruble**

Staff: **Oscar Villarreal, Brian Green, Anna Silvestre**

II. Program Overview

- A. State the program mission. If you don't have one, create one. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. *(200 word limit)*

West Hills College Lemoore Upward Bound Math & Science (UBMS) program is committed to youth, educational experiences, community partnerships, and providing opportunities to the underserved and disadvantaged population. UBMS identifies low-income, first-generation college bound students and provides them with services that provide participants access to individualized tutoring, special instruction, college visits and educational/career advising. Members will have their Science, Engineering, Technology and Math interests encouraged and enhanced by qualified instructors, counselors, and positive experiences that promote diversity, cultures, educational success and post secondary attainment.

- B. Briefly describe the current state of the program/department/service area. *(250 words or less)*

Upward Bound Math and Science at West Hills College Lemoore is a federally funded TRiO program in its second funding cycle beginning 2007-2008. We are funded to serve 50 students from our 3 target high schools in the communities of: Laton, Lemoore and Avenal. In addition to the three target sites, we continue to provide limited services to 3 additional high schools from our previous cycle. At present, we have filled 40 of our 50 program slots. The program's focus is on college entry and success for our first generation and low income students. The program's primary activities consist of daily or weekly tutorials at each school site, monthly Saturday sessions and a 6-week summer program with a residential component. There are also various activities throughout the year such as campus visits to universities, community service fieldtrips to science or technology enterprises (ie: Moss Landing Institute, San Francisco Exploratorium, Roche Pharmaceutical, and Point Lobos). In addition, we monitor our

students' academic progress regularly and provide post-secondary access support. More than 50% of our students experience dual college enrollment at West Hills College during first year participant status. Participants enrolled in college courses are provided with books and materials in addition to academic support through the UBMS program.

- C. Describe how the program/department/service area goals and objectives are aligned to the advancement of the college mission, goals and objectives. (250 words or less)

Our program SLO's are focused on the needs of our low income, first generation population pertaining to their preparation for college. This includes evaluation of results on the California High School Exit Exam, advisement in college preparation (ie: SAT/ACT, A thru G, financial aid, etc.) and postsecondary enrollment. These activities develop in our communities which promote a college going culture aligning with the mission statement of the college in terms of providing educational learning opportunities and partnerships. As well as providing a positive environment that is committed to student learning and empowering students to achieve their educational goals.

- D. List any recommendations from the most recent college/program/department accreditation and/or previous review. (250 words or less)

No recommendations proposed at this time.

III. Qualitative and Quantitative Data Review

- A. Attach the following Non-Instructional Program Review data (as provided):

- Enrollment Trends-Approximately 50% of our program participants enroll in courses at WHCL for dual credit.
- Student Retention Rates/Student Success Rates (if applicable) -- Our year to year retention rate as submitted in our Annual Performance Report is consistently at approximately 89%.
- WSCH/FTEF (if applicable)
- Full-time to Part-time Faculty Ratio
- Number of Students Earning Degrees -- (Data not available at this time)
- Number of Students Earning Certificates -- (Data not available at this time)
- Job Market Analysis (not applicable)
- Student Demographics Review Data Below
- Grade Distribution (not applicable)
- Student Survey Data (not applicable)

Target Sites:

1. Lemoore High School
2. Avenal High School
3. Laton High School
4. Corcoran High School
5. Caruthers High School
6. Riverdale High School

Grade Levels:

1. Freshmen (9th) -3
2. Sophomores (10th) - 15
3. Juniors (11th) - 6
4. Seniors (12th) - 16

Program Category:

1. 27 - Low Income / First Generation
2. 13 - First Generation Only

Race / Ethnicity:

1. 33 - Hispanic
2. 2 - White
3. 2 - Indian
4. 1 - African American
5. 2 - Other

Median Grade Point Average:

1. Freshmen (9th) - 3.01
2. Sophomores (10th) - 3.027
3. Juniors (11th) - 3.051
4. Seniors (12th) - 3.170

Total Students Currently: 40

B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific course/program/service. (250 words or less)

The most significant trend for Upward Bound Math and Science is that under our new grant application we are mandated to serve 3 target schools one of which is new to our program. During the time of transition from our previous cycle to the new, we have approval to limit services to the students from previous target sites not highlighted in the new grant cycle of 2007-2011. This stretches our resources over a larger geographic area requiring staff to be out in the field for the majority of time. It doubles the school site staff necessary for operation and doubles the number of tutorials to manage each week. These challenges encumber on our staffing and fiscal resources as they are limited. It also lays the groundwork for the second trend that has great effect on our program operation.

The recent increases in transportation costs are probably the most difficult issues for us to resolve. Because we transport our students to events at the college or at other institutions and having 6 sites to serve rather than 3, the impact of these transportation expenses is all the more devastating.

The lack of residential living on campus is another trend that forces the program to seek outside partnerships to house participants during the summer component. Without providing students a residential living experience, the program would be out of compliance with the grantee. Every year, program staff explores and networks with other organizations that provide opportunities to give students a residential living experience. In past experience, CSU Monterey has invited our students to participate in a Biotechnology Camp that provides housing at minimal costs to the program. We have also taken the opportunity to partner with the Girl Scouts of America who kindly allow us

to use their facilities and housing units for student related activities during the summer component.

- 1) State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).

We measure the success of our program primarily through our Annual Performance Report. We measure standardized objectives regarding low income/first generation status, state assessment, participant retention, and post secondary enrollment. We take account of the positive feedback we receive from student testimonies on our yearly student surveys. Additionally, administrators and staff at the target high schools have recognized the positive influences of the program to its students through advisory committee feedback announcements.

We also measure our success in our overall contact with students. We have approximately 90% attendance at our afterschool tutorial, 75%-80% at our Saturday sessions and approximately 50% participation in our 6-week summer component. During the summer, a significant number of our students join the workforce to help support their families. Others attend out of district programs (COSMOS, Berkeley House, etc.) or are required to attend summer school at their local high schools forcing them limit themselves to participation during the Upward Bound's summer component. In this light, our 50% summer participation is quite high.

C. Attach the following data maintained for your program/department/service area:

1. Budget information regarding costs per program/department/service area on personnel, equipment, supplies, delivery of services (where applicable), and any other direct or indirect costs connected with the service as reflected by student enrollment.

UBMS BUDGET

SALARIES

Full-time Personnel 131,123

Part-time Personnel 6,500

BENEFITS 45,566

SUPPLIES & MATERIALS 1,809

TRAVEL AND CONFERENCE 3,500

PARTICIPANT COSTS 22,150

PARTICIPANT STIPENDS 22,500

TOTAL DIRECT COST 233,148

INDIRECT COST 8% 16,852

TOTAL PROGRAM COST

	250,000
Cost per participant	5,000

- Identify all personnel, including the number of certificated, classified professionals and volunteers. Discuss the diversity of faculty and staff.

Employee Classification:

Certificated 5 Class. Professional 1.4 Student Worker 1
Volunteers 0

Diversity (Race/Ethnicity)

- | | |
|---|--|
| <input type="checkbox"/> Native Am. /Alaskan Nat. | <input type="checkbox"/> African/African-American/Non-Hispanic |
| <input type="checkbox"/> Asian/Pacific Islander | <input checked="" type="checkbox"/> Caucasian/Non-Hispanic |
| <input checked="" type="checkbox"/> Hispanic | <input type="checkbox"/> Filipino |
| <input checked="" type="checkbox"/> Mixed | |

- Describe the certificated and classified staffing requirements of the existing program/department/service area, as well as the effect any proposed curricular or instructional changes would have in the next three years. This statement should include the need to retrain, or to add staffing for new specialties. Finally, this statement should include the need to retrain or to add staff for clerical assistance, for maintaining equipment, or for serving as an instructional assistant.

Our program employs 1.1 advising staff under the Advising Specialist, .25 Program Development Assistant, 1 hour per week school site instructors under the Upward Bound Instructor job description and student tutors at our school sites. We also have 1 student worker per semester to help with office and clerical work.

The program would recommend additional staff to broaden the opportunities and services it already provides. But, due to budget constraints, additional hires would dampen the budget and hinder the program from meeting its goals and objectives jeopardizing its future. Staff is also recommended to attend yearly training seminars related to program standards. Travel expenses at times will prevent staff from attending out of district trainings requiring staff to adhere to out dated policies and procedures or required to research the web for updated material related to program operation.

- D. Identify and discuss the effect that trends may have on the program/department/services area's organization, structure, and nature over the next two to four years.

Structural changes will occur primarily based upon our shift from 6 target campuses down to 3. Our model is well established and proven effective and we would be unwise to retool that model at this point. We will also have to respond to escalating transportation costs in our summer program design. Transporting students from 6 communities each day is prohibitively expensive and so our program will respond by transferring some of the summer instruction to an online environment and doing portions of our work in the communities where our target schools are located.

Due to the state's economic crisis, our host institution is revamping its administrative structure which impacts all categorical programs on campus. The new organization will require for our program's director to delegate a percentage of his responsibilities toward district duties. This change will bring forth additional duties and responsibilities onto current program staff potentially hindering the delivery of services to program participants.

- E. What resources are required to maintain program/department/service area, and what additional resources are necessary to improve or expand it?

Transportation is our main consideration resource wise. If the college were to provide transportation services at minimal or no-cost to the program, attendance to functions and events will improve substantially. Our other main resource requirement is technology which allows for program staff to communicate with students to inform them with the most current college updates including scholarship information. Additional personnel are another resource that will prove valuable to the operation of the program. More funding would vitalize the capabilities ensuring innovation and commitment to our students.

- F. Discuss staff training, academic and professional currency.

Our staff is invited to trainings throughout the year. Staff arranges to attend at least 1 TRiO related training per year. These are offered by various organizations and are approved by the Department of Education. The director attends the annual conference, which is usually held in Washington D.C. or San Antonio, Texas. Our advising staff also attends training from the CSU and UC to stay updated with university admissions and topics related to incoming transfers.

- G. Excluding curriculum validation, discuss community involvement in the operation of the program/department/service area.

Throughout the year, our participants get involved with community service projects. Many of our students volunteered their time during the election year of 2008 promoting the Measure E bond which would expand West Hills College. They walked precincts and participated in phone banking informing community members about Measure E. In addition to their community service, many of our students make it a yearly tradition to help out the Girl Scouts of America. Every summer, our students make a trip to Camp-El-O-Win and spend time cleaning debris and helping prepare the campsite prior to the opening of summer camp. In addition to their involvement with the Girl Scouts of America, our students have also volunteered their time to help remove non-native plants at the Point Lobos State Reserve of California located in Monterey County. The program also recruits instructors from the community that work with our students in school and during Saturday workshops.

IV. Professional Development

A. What professional development activities have staff participated in?

CSU Counselors Conference, UC Counselors Conference, TRiO training in priority 1 record keeping, retention student success.

B. How does this professional development affect Student Learning Outcomes for your program/department/service area?

Our trainings always focus on student retention and success as well as postsecondary enrollment. Strategies to improve student retention and positive student outcome are always highlighted and reintroduced for reinforcement purposes. Our efforts to maintain student retention rates improve the overall success of the program's goals and objectives.

C. Describe the program/department/service area's plans for staff development over the next four years.

We will continue with our current plan. We are looking to focus on increasing our efficiency with our student database and implementing a new staff re-organization structure that will require cross-training among staff for the purpose of program effectiveness.

D. Discuss the effectiveness of continuing education requirement to meet the need for advanced training and/or training in emerging technologies.

Program staff is encouraged to continue with furthering their education and given an opportunity to take advantage of an internal Educational Assistance Program that helps with tuition costs. West Hills College also provides training opportunities for staff to advance in emerging technologies. The college has moved towards a Portal network that provides students access to college information using technology innovation. All employees are required to attend trainings related to the Portal network to stay updated with system updates. The program has also purchased a student database through Student Access which allows for TRIO programs to maintain record-keeping for its participants. Training for continued effectiveness on database program is forthcoming.

V. Student Learning Outcomes

A List all Student Learning Outcomes for this program/department/service.

- 1.) Upward Bound Math and Science students will be successful in high school as indicated by successful completion of the California High School Exit Exam. (CAHSEE)
- 2.) Upward Bound Math and Science students will enroll in programs of postsecondary education after high school.

3.) Upward Bound Math and Science students will be successful in college level coursework.

B. Explain how Student Learning Outcomes are used to measure quality and success of this program/department/service area.

We based our SLO's on West Hills College Lemoore standardized outcomes and so success in SLO's will also reflect success from the perspective of our federal mandates of Upward Bound Math & Science.

C. Based upon the results of the program SLO assessments, what improvements have been identified?

We have yet to assess our SLO's.

VI. General Operations

A. How does the program/department/service area ensure that current curriculum/delivery of service is adequately meeting the needs of students?

Students are showing improvement in their academics and have a positive attitude towards higher education. Students are fulfilling the California Exit Exam standards and progressing academically based on evaluation of student academic transcripts. Graduating seniors are meeting eligibility criteria for the CSU and UC college systems.

B. Do special accreditations, external regulations, or advisory committees regulate the program/department/service area? Yes No (if yes, elaborate.)

Program operation must adhere to the Education Department General Administrative Regulations manual which set standards for program administration of services and agreements. Mandates require Upward Bound Math & Science program to maintain retention rates, improve college access to participants and demonstrate success of program effectiveness through post-secondary retention.

C. Does the program/department/service area have any special regulations, space requirements, staff training, etc.? Yes No (if yes, elaborate.)

Program grant specifies that appropriate facilities must be provided for staff. The grant also provides a budget which appropriates funds for staff training that is available year round. West Hills College Lemoore is in process of completing a new phase in the expansion project and is considering TRIO Programs to be accommodated in the newly constructed facility.

D. Is there evidence of unmet student needs caused by your program/department/service area? Yes No (if yes, elaborate.)

A major student need that is currently not being met is in the area of transportation which is limited due to high costs. Commercial passenger vans can no longer be utilized for transporting of minors. This new policy is in force by the Department of Transportation and California's Highway Patrol which has a negative impact on attendance and participation during weekend activities held outside of student's target area.

E. How does the program/department/service area address cultural diversity?

Program addresses cultural diversity by becoming aware of the multicultural factions along with their values and learning needs. Staff is sensitive to the cultural diversity that exists and utilizes multicultural activities to bring awareness to students and their peers.

F. Describe the initiatives the program/department/service area has implemented to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical mental disabilities, re-entry, gender, etc.)

Program insures equality to all participants regardless of deficiencies. It also provides an incentive stipend to assist students economically. The program currently does not have students with physical or mental disabilities. The program primarily targets students who come from a low social-economically background who are at a disadvantage in acquiring the necessary resources to pursue higher education.

G. Discuss the program/department/service area's use of external funding, including grants and collaborative partnerships, if applicable.

The program is funded through a grant sponsored by the Department of Education. The program is currently seeking to acquire collaborative partnerships with other grant programs within the hosted institution.

H. To what extent is technology being used in the program/department/service area?

Technology is the vital resource that is utilized for program operation. Technology is used for communication purposes which is instrumental to the program's functions. Technology is also utilized to provide instruction and for learning development. The program integrates technology during weekly and Saturday instruction and promotes telecommunication among its participants.

I. Describe the supply requirements for your existing program/department/service area, as well as the effect that any proposed changes would have on the supplies in the next four years. This statement should include the kinds and amounts of supplies needed, any anticipated costs, and the need for any computer software/technology.

The demand for supplies will increase along with costs in the upcoming years. With the help of the college, our program would operate much more successfully if provided assistance in this area. Much of our office supplies include but not limited to file folders,

writing materials, binders, and other outreach essentials. Another requirement in this area that will impact the program's supply budget is the renewal and maintenance agreement for the Student Access database provided by Heiburg Consulting.

- J. Describe the need for facility modifications within your existing program/department/service area or the effect that any proposed curricular or instructional changes would have on the existing facilities in the next four years. This statement should include a description of the desired changes, the rationale for the changes, and a rough estimate of the costs.

Individual staff offices needed. Currently, West Hills College Lemoore is in process of completing a new phase in the expansion construction project and is considering housing TRIO Program Offices in the newly constructed facility. This will bring forth advantages that will improve the delivery of services to our students.

VII. Additional Information (optional)

Please provide any other information to describe, explain, justify, analyze, or clarify prospective program/department/service area changes or needs anticipated in the next four years.

- A. What factors did you use in determining the quality and success of this program/department/service area?

The program evaluates student assessment provided by the state of California. As required by the grantee, program objectives revolve around student success. Participant graduation rates and post-secondary enrollment are indicators that confirm program success. In addition to these factors, the program has a proven record of success based on its renewal funding awards which are determined by program effectiveness.

- B. Identify the best ways to measure the quality and success of this program/department/service area. Conduct an evaluation of the program/department/service area. Use a survey or questionnaire when appropriate to address questions. (Examples: How do the persons served by this program/department/service area evaluate its adequacy or effectiveness? How do services compare to similar departments/service areas outside the College? By what processes does the program/department/service area deal with complaints and continually up-grade services? Other methods might include matching or exceeding nation-wide productivity measures, i.e., full-time staffing equivalent per square foot for M & O and per number of employees for Human resources, feedback from campus "clients", etc.)

Participants are given surveys and evaluation forms that allows for reflection of services. Students receive these questionnaires upon completion of program activities for feedback purposes.

- C. Describe the annual scheduling patterns for courses impact your program/department/service areas. Consider interaction with other programs/departments/service areas, use of facilities and flexibility for students.

Our program participants are required to enroll in college level courses in the summer session. In part of the coordination of registration, program staff collaborates with Department Faculty to inform them of our initiatives which focuses on high school students. Due to current fiscal cuts enforced by the state, our host institution is forced to reduce course sections which will impact the number of program participants enrolling in college classes in the near future.

VIII. Summary and Recommendations

- A. What actions have been taken to address the assessment and improvements of program learning outcomes?

Program staff is required to monitor student progress on a monthly basis versus quarterly. Students are provided with evaluation forms to assess program services so appropriate adjustments or accommodations are made for students.

- B. Based on analysis of the information provided in I through VII, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.

1. Program strengths

Staff is committed to serving students and meeting their needs. Program has positive rapport with target serving school sites. Program has attained successful rates of students entering higher education institutions after graduation. Collaboration efforts with West Hills College Lemoore are effective promoting future program participant involvement with college events and activities.

2. Areas that need improvement

Program needs improvement in the area of facilities and transportation.

3. Strategies and actions for program enhancement and improvement.

Staff will make more contact with students to develop education planning to insure that students are progressing academically. Program staff is currently strategizing on

collaborating with other programs and school transportation officials to reduce student unmet needs.

- C. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

Program Review, Planning and Evaluation

**West Hills College Lemoore
Program Planning and Evaluation
Assessment Planning Logic Model
Midterm Report**

Program: Upward Bound Math & Science		Date:
Findings	Analysis	Actions
What are the actual quantifiable outcomes compared to those listed in column four of the Assessment Grid?	Your interpretation of the results (why the activities were not successful in achieving the goal)	Based on the Findings and Analysis, what is the next step?
<ol style="list-style-type: none"> 1. Currently, project has not met number of qualifying participants for the year. Site instructors are recruiting interested students at their area high school. Project has 42 active participants and intends to recruit and retain 50 participants by the end of the academic year. 2. Participant log in sheets are completed during tutorial sessions weekly, recording attendance and participant course work. 3. Saturday workshops are coordinated on a monthly basis and documentation recording dates and subjects are in place. Project has 	<ol style="list-style-type: none"> 1. Students are highly involved in extra-curricular activities and cannot commit the amount of time required by project. Project staff is limited to the amount of time spent on recruiting new participants. 2. Documentation on attendance during tutorials is recorded on a weekly basis. 3. Activities are being met and accomplished effectively. Saturday workshops are planned accordingly and have yet have not canceled or postponed scheduled activities. All documentation relating to Saturday activities are recorded monthly. 	<ol style="list-style-type: none"> 1. Work closely with site instructors and delegate more time to be spent on recruiting students interested in careers in the Math or Science fields. 2. Continue maintaining accurate documentation recording attendance and participant course work during after-school weekly tutorials. 3. Continue planning in advance to meet mandated project requirements consisting of Saturday workshops covering a series of core subjects including cultural and community service activities. Maintain accurate records of Saturday activities and events including attendance.

conducted 3 Saturday academic and culturally related sessions. Project is currently planning to conduct its 4th session for the year. Documentation and attendance including activities conducted during the Saturday events are recorded monthly.

4. Participant academic records are evaluated on a quarterly basis. Grades are obtained through high school counseling department. Project staff reviews grades and proceeds with one to one meeting with participant to discuss academic progress or regression.
5. Project is currently in the planning stages developing summer program. Project staff has met with institution's faculty to discuss course outline and schedule. Project staff has informed all participants of the summer program that is underway. Majority of participants are already admitted into the institution through its application process. Over thirty participants have taken the institution's placement exam, a requirement for selection of courses. During the next eight weeks project staff will submit all required forms on behalf of the participant for summer registration confirmation.
6. Annual report is due in December of 2009 and data for report is on file. Data will be converted into report's format when Dept. of Education announces instructions for report. Project SLO's will be defined by

4. Academic records are posted quarterly and made available for project staff to review. Project staff is responsible to schedule student meetings to discuss grades. Evaluation of participant grades is done accordingly when grades are available for review.
5. A six-week summer program is implemented yearly which includes a residential module off campus. Participants will be required to make efforts to be part of this component.
6. Annual report is always submitted prior to deadline and reviewed by project staff and administrator prior to submission. Annual report is due December 28, 2009. It is necessary that the project work in conjunction with students services personnel to develop SLO's that appropriately reflect our program goals and objectives.

4. Continue evaluating grades when available and meet with participants accordingly to discuss academic results to promote achievement.
5. Plan and execute an effective six-week summer component that will allow participants to gain college and high school credit for achieving a passing grade in a college course.
6. Maintain accurate data throughout the academic year to meet all standards required by the Department of Education which reviews our project's accomplishments during the academic year of 2008-2009. In addition to annual reporting, program staff will work closely with institution student success personnel to develop appropriate student learning outcomes.

annual reporting requirements and institutional student success committee.

West Hills Community College Library/Learning Resource Center Mission, Vision, and Collection Policy

Mission

Learning Resources supports WHCCD in providing a positive world-class learning environment by utilizing innovative technology, as well as traditional and nontraditional resources, to promote enhanced learning opportunities for the local and global campus communities we serve.

Vision

Facilitate the scholarly pursuit of academic excellence by providing diverse resources and developing information competencies.

Lending Policy

Enrolled students, staff, and faculty may obtain an identification card which allows items to be checked out according to the following loan periods:

- Reference materials – In library use only.
- Academic Reserves – In library use only.
- Magazines – In library use only.
- Short loan books – Seven (7) days.
- CD/Videos/Cassettes – Overnight.
- Books – Three (3) weeks.
- Laptop Computers – In library use only.

Items may be renewed as long as there are not any current holds placed by other library users. Returning items on time is the responsibility of the borrower. Overdue items will be assessed a fine and the ability to obtain grades, transcripts, and register for classes may be affected by not clearing fines and/or returning items that are overdue.

Databases are usable by the students, staff, and faculty both on campus and off. Community users are free to use any of the databases or collection items within the library with the exception of laptop computers. The primary goal of the library is the support of the students and staff here at West Hills College with any preference always being given to them in regards to resource use. As the policies and collection grow the community borrowing procedures will be enhanced to best suit the needs of all who seek to further their academic knowledge through the resources offered at West Hills College.

Selection Responsibility

Discussion and input from faculty will weigh heavily in the selection of materials for their subject areas, but the ultimate decision lies with the Librarian and the Dean of Learning Resources. Everyone is welcome to recommend resources for the Library/LRC. Full and part-time faculty members are strongly encouraged to take an interest in their subject areas and make recommendations.

Guidelines for Selection

Collection development will be geared toward a balanced collection in all subject areas relevant to the curriculum at West Hills College Lemoore. The Library/LRC will only pursue acquisitions that will support this curriculum. Popular fiction is available in the public libraries and will not be purchased with some exceptions. Barring any large discrepancies in cost all formats relevant to the collection will be considered. Web-based resources will be continuously sought and evaluated for usefulness and added to the libraries web site. Chosen URLs will be monitored to ensure their relevancy with outdated or dead links being removed. Selection of materials will be based on reviews, publications, peer suggestions, faculty requests, cost, and any other criteria deemed relevant by the library staff and/or faculty member. Any controversial topics will have differing viewpoints offered. The collection will strive to have breadth over depth with single copies of all but the most high use items being maintained. Up-to-date information will be a goal of the Library/LRC in all areas keeping in mind that new is not always better in some subject areas such as the classics and out-of-print materials. Some items such as the sciences will need to be maintained at a more intensive pace due to the nature of the information and the need for updated information.

Complaints

Any library user who finds an item to be inappropriate for the collection is free to give a written complaint to the Librarian. The Librarian will evaluate the item with a faculty member in the particular area in question or with the Dean of Learning Resources as appropriate. A written response will be given to the person submitting the complaint.

Magazines and Newspapers

Due to storage considerations newspapers will be kept for six months. Magazine titles deemed to be of research value will be maintained with leisure magazines being kept for three months. Although there has not been a policy of periodical retention in the past the Library/LRC will begin to develop a collection of useful research magazines and journals for access via a traditional periodical index in order to supplement the electronic magazine database.

Weeding/Deselection

Weeding/Deselection will be carried out by continuously reviewing, and evaluating the collection. This procedure will be an ongoing process with all members of the Library/LRC staff bringing any items of possible concern to the attention of the Librarian. Although circulation logs will weigh heavily in any weeding decisions the age of the edition, possible obsolescence of the information, condition, newer versions in the collection, and overall value for research purposes will all be looked at before any items are chosen for weeding.

Donations

Donations are accepted with the understanding that the items will face the same criteria that purchased items must face. The librarian and the Dean of Learning Resources have the right to accept, reject, sell, or otherwise dispose of donated materials. Donated materials will be thoroughly scanned for mold, mildew, or insect damage. Old periodicals will not be accepted. Reference materials over two years old will not be accepted. There are Internal Revenue Service Regulations which bar the appraisal of gifts.

Textbooks

Textbooks will have to be recommended by faculty as the best source of information in that area before being added to the collection. The Library/LRC will not purchase textbooks for the support of the curriculum. Textbooks are not good for the general collection because of their high-cost and constant need of revision.

Intellectual Freedom

The Library/LRC will adhere to the following:

Library Bill of Rights

The American Library Association affirms that all libraries are forums for information and ideas, and that the following basic policies should guide their services.

- I. Books and other library resources should be provided for the interest, information, and enlightenment of all people of the community the library serves. Materials should not be excluded because of the origin, background, or views of those contributing to their creation.
- II. Libraries should provide materials and information presenting all points of view on current and historical issues. Materials should not be proscribed or removed because of partisan or doctrinal disapproval.
- III. Libraries should challenge censorship in the fulfillment of their responsibility to provide information and enlightenment.
- IV. Libraries should cooperate with all persons and groups concerned with resisting abridgment of free expression and free access to ideas.
- V. A person's right to use a library should not be denied or abridged because of origin, age, background, or views.
- VI. Libraries which make exhibit spaces and meeting rooms available to the public they serve should make such facilities available on an equitable basis, regardless of the beliefs or affiliations of individuals or groups requesting their use.

**WEST HILLS COLLEGE LEMOORE
CURRICULUM/GENERAL EDUCATION COMMITTEE**

April 1, 2009

12:00 p.m. –1:00p.m.

Administration Building Conference Room 124

MINUTES

Voting Members: D. Bolt, N. Gomez, V. Grijalva, R. Neves, P. Kraft-Chapman, B. Kron, M. Hendrickson, M. McDowell, R. Sanchez, K. Olson, R. Oxford

Non-Voting Members: S. Atkinson-Alston, M. Hall, J. Lopez

At-Large Non-Voting Members: D. Georgatos, S. Whitener, M. Lourenco

Members Present: M. Hendrickson, P. Kraft-Chapman, B. Kron, M. McDowell, R. Neves, , R. Sanchez,

Members Absent: S. Atkinson-Alston, D. Bolt, D. Georgatos, V. Grijalva, J. Lopez, M. Lourenco, K. Olson, R. Oxford, S. Whitener

Others: K. Crider, R. Ragsdale, J. Shehorn

1.0 Call to order

Meeting called to order at 12:06pm by R. Sanchez.

2.0 Changes to the agenda

None

3.0 Approval of Minutes

3.1 March 25, 2009

A motion to approve the minutes from 3/25/09 with corrections was made by R. Neves and seconded by M. McDowell; the motion passed unanimously.

4.0 Items for Second Consideration

4.1 Course Revision

4.1.1 PE 35 – Women’s Intercollegiate Soccer

• **Course**

R. Ragsdale reported that the class hours have been changed to 175 hours, and a textbook has been listed for the course. M. McDowell made a motion to approve the course, and it was seconded by M. Hendrickson. The motion passed unanimously.

5.0 Items for First Consideration

5.1 New Course

5.1.1 Math 88 – Mathematics for Life II

• **Course**

R. Neves reported that this class is being created to give students an option to continue from Math 87 and fulfill the math requirement to get an Associates . M. Hendrickson pointed out that on page three this class should be listed as GE and elective for an associate degree, rather than as transferable. “Successful completion of...” was added to the prerequisite statement, and the catalog description will be slightly reworded. B. Kron made a motion to move this course to a second reading. This was seconded by P. Kraft-Chapman and passed unanimously.

- **Prerequisite(s): Math 87 or Math 61 or the equivalent**

Revisions to the prerequisite were suggested, including the addition of “successful completion of...”, the listing of the course numbers for the prerequisite classes, and numbering the items on the content review grid of the prerequisite form B. R. Neves made a motion to move the prerequisite to a second reading. This was seconded by P. Kraft-Chapman and approved unanimously.

- **DE (hybrid)**

M. Hendrickson made a motion to approve the DE addendum for Math 88. P. Kraft-Chapman seconded the motion and it was approved unanimously.

6.0 Old Business

6.1 Certificates (less than 18 units)

R. Sanchez reported that she had discussed the naming of certificates with Sarah Shepherd in Coalinga, and that Coalinga’s curriculum committee would allow Lemoore to decide on a name for certificates of less than 18 units, and that Coalinga would use the same name for its certificates. B. Kron reported that community members at the recent CTE advisory meeting stated that they would like a listing of skills attached to each certificate.

R. Neves made a motion to name these certificates Career Development Certificates; P. Kraft-Chapman seconded the motion and it was approved unanimously.

6.2 Catalog Committee

R. Sanchez reported on an email she had received from D. Bolt regarding the catalog committee and its goals and membership. Membership would include the VP of Educational Services as the committee chair, a counselor or advisor, and a full-time instructor. It was noted that the Curriculum Committee chair and the Director of Enrollment Services could serve on the committee as *ad hoc* members. M. Hendrickson stated that she would prefer a seat for a counselor on the committee rather than a counselor or advisor.

7.0 New Business

Information Competency Requirement

J. Shehorn pointed out that our college is unusual for not requiring courses to have an information competency requirement, and that she and Ron Oxford have been discussing the idea. This requirement would focus on students’ abilities to

evaluate information and properly conduct research and is important to groups such as WASC. J. Shehorn and R. Oxford proposed adding information competency to all course outlines—making it a required item, similar to writing assignments and the diversity statement. J. Shehorn and R. Oxford pointed out that standalone courses for research skills are not the best option, but that the library could conduct workshops on research skills that students could be required by their instructors to attend.

R. Sanchez stated that she would email the committee members to have them discuss this with their learning areas.

8.0 Adjournment

Meeting adjourned at 12:49pm.

WEST HILLS COLLEGE LEMOORE

PROGRAM REVIEW/PLANNING AND EVALUATION PROCESS UNIT PLANNING GUIDE - NON-INSTRUCTIONAL DEPARTMENTS & AREAS TO BE COMPLETED BY UNIT/DEPARTMENT COMMITTEE

(Please submit this information using Microsoft Word. In formatting your response, please use the exact outline developed below.)

I. General Information

Department/Service: Library/Learning Resource Center

Date Prepared:

Prepared By: Ron Oxford

Staff: Fracess Andrade, Russell Bellamy, Sharon Eldridge, Jessica Fernandez

II. Program Overview

A. State the program mission. If you don't have one, create one. The mission statement should include the purpose of the program, the ideals the program strives to attain, and who the program serves. *(200 word limit)*

The WHCL Library/LRC is committed to the creation of a collection of intellectual and academic value for the student, faculty, and community population that we serve. It is the goal of the Library/LRC to provide a scholarly atmosphere with the materials and knowledge necessary for these users to become information literate in today's advanced technological society. The secondary goal is the enrichment of the lives of the district population through cultural and social activities. In order to have an environment conducive to the pursuit of knowledge access to the collection and resources is open to all.

B. Briefly describe the current state of the program/department/service area. *(250 words or less)*

With the continued growth in enrollment at WHCL the Library/Learning Resource Center (LLRC) is striving to maintain a level of service that allows for every student, staff, and visitor to meet their informational needs. Currently the library houses over 45,000 items in both electronic and traditional formats. There are 60 circulating laptops and 45 student computer workstations in the library at this time. The amount of visitors is growing with approximately 75,000 people entering the library during the spring 2008 semester. This number is simply the amount of people entering the library tallied on a daily basis. This number includes students, staff, faculty, and one person could be counted numerous times if they enter at various times throughout the day. This number also is just reflecting traffic through the front door and not alternate entrances.

With the large volume of students, staff, and community members entering the LLRC on a daily basis the staff faces an ever broadening array of requests for services. Many of those seeking information or computer assistance require staff interaction

outside the level of assistance available from student workers. This increasing workload continually challenges the current staffing levels.

As traditional library services are maintained and enhanced the need to provide increased services to online learners is also increasing. There is a growing need for online tutorials and guides to engage online learners in the proper usage of the libraries electronic resources. These online resources currently consist of six full text subscription databases and a growing collection of electronic books. With the speed in which information technology is being generated it is also imperative that library staff remain current in the field and take part in professional development activities on a regular basis.

C. Describe how the program/department/service area goals and objectives are aligned to the advancement of the college mission, goals and objectives. *(250 words or less)*

“The college provides a positive environment that is committed to student learning and empowering students to achieve their educational goals”. The L/LRC aligns with this section of the college mission by providing facilities and services which allow students to access research materials, both traditional and electronic and technology in a safe, clean, and comfortable environment. **“WHCL is committed to provide quality education to students and the community”.** This goal is met by the L/LRCs development of a relevant academic collection of resources for use by students, faculty, staff, and the community. The L/LRC also stimulates intellectual curiosity for the community and campus via book signings and lectures throughout the year covering a broad range of topics. **“WHCL will effectively maintain and increase its resources and productivity”.** The L/LRC currently houses approximately 30,000 books with the Association of College and Research Libraries recommending that a college with FTES of 1,000 - 2,999 should have at least 40,000 volumes. With the current budget restraints on purchasing new items the library is focusing on enhancing the Library Management system with upgrades and cataloging of donated items of value to the collection. Productivity is always being strived for via increased utilization of technology to complete job functions and strengthening of policies and procedures.

D. List any recommendations from the most recent college/program/department accreditation and/or previous review. *(250 words or less)*

Self-identified issues and responses from the 2007 Focused Midterm Report:

- 1. The college will hire a librarian for West Hills College Lemoore to allow Library/Learning Resource Center maintenance to be completed on a regular basis.** The hiring of a librarian in July of 2006 allows for the regular maintenance of the Library/Learning Resource Center.
- 2. The college will initiate a Library/Learning Resource Center guide to using the library’s resources via Blackboard that can be taken by all students.** An online repository for faculty has been created. This repository is designed to help faculty guide their students in using the online library resources. During the recent Distance Learning Strategic Planning session in November 2008 there was a renewed emphasis placed on enhancing library services to online learners.

3. **The librarian will become more involved with the Curriculum Committee in adding information literacy to course outlines.** As a result of a librarian being hired many of the goals regarding the library have changed. As a result, the librarian plays a supportive role rather than one of instruction. The librarian is not involved with curriculum decisions; therefore, this agenda item is complete. It should be noted however that there is a close professional working relationship between teaching and non-teaching faculty and informal dialogue about acquiring needed resources is carried out on a regular basis.

2004 Program Review Three-Year Goal Statements:

1. **Collection Development** – It was recommended that a consistent and thorough purchasing and weeding program be put in place. This has been done and continues to be strengthened.
2. **Computer lab enhancement** – There were concerns about the lack of staff ability to deal with the wide array of computer problems and assistance requests in the lab. A recent decision to rearrange the computer lab and address printing issues may help alleviate some of these problems. Because of the multitude of issues with the lab computers and software a lab technician would greatly enhance services.
3. **Procedures** – The procedures Manual is out of date and still needs updating.
4. **Student Library Orientation** – There were concerns about the amount of students not taking part in library orientation tours. Although there has been an increase in the amount of students being reached in classroom orientations there is still a need for online tutorials to be developed.

III. Qualitative and Quantitative Data Review

A. Attach the following Non-Instructional Program Review data (as provided):

- Enrollment Trends

Unduplicated Student Headcount

Year	Count	% Change
2002-03	5,468	-9.24
2003-04	5,010	-8.38
2004-05	5,512	10.02
2005-06	5,817	5.53
2006-07	6,469	11.21
2007-08	7,091	9.62

Source: WHCCD Data Warehouse

- The last four years show a pattern of steady growth.

▪ Student Demographics

ETHNICITY	02-03		03-04		04-05		05-06		06-07		07-08	
	n	%	n	%	n	%	n	%	n	%	n	%

Source: WHCCD Data Warehouse

- The proportion of enrollment for most ethnic populations remains fairly stable.
- Among Hispanic students there has been a 5% increase over the time shown while white student enrollment has decreased by approximately 10%.

B. Using the data provided, address any significant trends/challenges/opportunities identified which relate to your specific course/program/service. (250 words or less)

With growing enrollment comes an increase of students with diverse learning needs. One significant area of this population that needs more attention from library staff while working in conjunction with faculty is Basic Skills students. Because these students are just beginning to develop their research skills it is an opportune time to work with them and teach information literacy basics. Also, because of the blurring of online library resource usage and traditional library materials there is a need to maintain and enhance both equally. In order to do this in the most efficient manner possible a sustained system of tracking usage and gaining user feedback needs to be developed and maintained. Another significant trend that needs addressing is the number of Latino students attending WHCL. A recent study by the PEW institute states that this demographic is the least likely to have computer and internet access at home. In order to ensure the Digital Divide in our area is not widened computers must be maintained in sufficient quantities to allow students access. Just by providing access to computers though will not prepare students for proper information usage, this is done via information literacy (the ability to seek, evaluate, and disseminate information). There is a need to strengthen information literacy for all students.

- 1) State any other measures used to determine the success of this program (e.g. satisfaction surveys, employer surveys or advisory committee feedback).

A survey of faculty, staff, and students was implemented during Fall 2008. The results of this survey will be discussed under **Additional Information VII B.**

- C. Attach the following data maintained for your program/department/service area:
 1. Budget information regarding costs per program/department/service area on personnel, equipment, supplies, delivery of services (where applicable), and any other direct or indirect costs connected with the service as reflected by student enrollment.

<u>Budget Items</u>	
<u>Allocated</u>	<u>Normal/08-09</u>
Personnel	219,035
Books/Mags/DVD	29,179/0
Supplies	10,330
Travel/Memberships	3,130
Hardware/Maint./License	12,650
Total	274,324

1. Identify all personnel, including the number of certificated, classified professionals and volunteers. Discuss the diversity of faculty and staff.

Employee Classification:

Certificated 1.5 Class. Professional 2 Student Worker 10
 Volunteers 0

*Diversity (Race/Ethnicity)**

- | | |
|---|---|
| <input type="checkbox"/> Native Am. /Alaskan Nat. | <input checked="" type="checkbox"/> African/African-American/Non-Hispanic (1) |
| <input type="checkbox"/> Asian/Pacific Islander | <input checked="" type="checkbox"/> Caucasian/Non-Hispanic (2) |
| <input checked="" type="checkbox"/> Hispanic (1) | <input type="checkbox"/> Filipino |
| <input checked="" type="checkbox"/> Mixed (1) | |

*Student workers are not reflected in this response due to constant turnover of workers.

2. Describe the certificated and classified staffing requirements of the existing program/department/service area, as well as the effect any proposed curricular or instructional changes would have in the next three years. This statement should include the need to retrain, or to add staffing for new specialties. Finally, this statement should include the need to retrain or to add staff for clerical assistance, for maintaining equipment, or for serving as an instructional assistant.

Association of College and Research Libraries (ACRL) Standards

FTE Students	Admin	Faculty		Technicians/Staff		Total Staff	
	Min/Excel	Minimum	Excellent	Min	Excel	Min	Excel
ACRL Guidelines for FTE 1,000-3,000	1	3	5	6	12	10	18
Current West Hills College Lemoore Library		1.5		2		3.5	

Title V: Minimum Standards Sections 66700, 70901, and 84750.

FTE Student	Faculty Librarian	Support Staff	Total
Ed. Code Guidelines for 1,000-3,000	4	7.5	11.5
Current West Hills College Lemoore Library	1.5	2	3.5

These numbers are based on the recommendations from 2006 with the current system being based on peer group points of comparison. These numbers are being used as the data needed to compare peer institutions in regards to library services has yet to be developed. The most appropriate method of staffing an academic library would be to have staff focusing on areas of specialization while also sharing certain duties. Because we are currently operating with no depth to our staffing structure almost all staff time is devoted to simple day-to-day operations. The current library hours are M-Th 7:30 A.M.-8:00 P.M. and F 7:30 A.M. – 4:00 P.M.. Our current staffing usually allows for only one staff member to be assigned circulation desk duties at any one time. This is problematic when there is illness, vacation, professional development, or campus governance time needed by an employee. There are times when student workers are left to manage the circulation desk and “managed” by someone in Media Services or Distance Learning staff. Currently there are no substitutes for missing library staff. Although current staffing levels fall below what is recommended in the above tables this program review does not advocate too large of a staffing increase. A concise and well trained staffing package should be able to meet the campus needs with the minimum amounts recommended. This recommended library staff package will be described below.

Library Faculty

It is the job of library faculty to organize, develop, and maintain complex systems and policies for the proper functioning of an academic library. The reference desk should be manned by a professional librarian during open hours in order to give one-on-one instruction during the research process. Information literacy in an academic library begins with proper research skills being taught at point of contact to students in order for them to gain the necessary abilities to perform in today's information rich environment. Relying on student workers or un-trained para-professionals is not meeting this important academic need. We currently have only one designated adjunct reference librarian who works the reference desk 16 hours of the libraries 54.5 open hours. Besides manning the reference desk there is a need to catalog items into the collection according to Library of Congress Cataloging Rules (Technical Services Librarian). Maintaining the numerous systems such as the Sirsi/Dynix Library Management System, ID card system, Website, Portal Team Site, and subscription research databases requires systems librarian skills. Tutorials, pathfinders, and information literacy workshops falls within the realm of information literacy librarian. Working with faculty and vendors to create a relevant and up-to-date collection is the area of collection development librarian. Over the next three years some of these areas need to be parceled out to specialized adjunct staff that will be able to enhance and create innovative services for the campus community. 1.5 FTE faculty librarians fall short of the recommended minimum 3 or 4 FTE. An increase of 2 adjunct librarians would allow for extended library hours and the creation of a virtual library. This could be accomplished by extending the library hours into the night and having the adjuncts focus solely on online learning needs while working in an atmosphere less prone to interruption. It would not be as busy at night as in the day. If possible funding for this position could be split with Distance Learning and the night adjunct librarian could be cross-trained to assist the help-desk during this time.

Library Technicians/Specialists

The library currently has one full-time technician and two part-time specialists for a support staff FTE of 2. As can be seen from the chart above the minimum recommended for our FTES is 6. This program review recommends a modest increase in this area while streamlining the job descriptions and adding a lower pay scale entry level position equivalent to a clerical position called Library Assistant. Having a full-time technician with a very similar job description, heavier workload, and lower pay rate than the two part-time specialists is problematic from a management standpoint. These positions should be made uniform with the Technician position being inactivated. If we had 3 FTE Library Specialists that could concentrate on individual service areas that are less technical than faculty duties workloads could be more uniform. These positions would then have the more basic duties of monitoring student workers replaced by Library Assistants. Service areas that need individualized attention from Specialists are as follows:

Acquisitions/Accounting – The Specialist in this area would be responsible for placing, tracking, and reconciling of library material orders recommended by

librarians. The multitude of vendors that the library uses needs to have one access point to the Business Office. This would also allow for more time to be spent on price comparison. This position would be responsible for student timecards and scheduling.

Circulation/Reserves/Periodicals – This Specialist would be responsible for the libraries circulation policies. This entails various systems settings to deal with different users permissions. Maintaining the Charter School, MCHS, faculty, staff, and community user's levels of access is a huge undertaking. This person would also be responsible for the ID cards that are growing ever more complex. Managing special IDs for Charter (getting ID #s), MCHS, Nursing, After School Programs, etc. is beginning to require more attention. Managing the Reserve textbook collection is an important function of the library and needs constant attention. Periodical management is the tracking and archiving of newspapers and magazines.

Technical Services/Processing – This position would be responsible for copy cataloging of books, labeling of items, and quality control of student workers final processing (labels, book jackets, stamping, etc.). If a book is mislabeled then it is effectively lost in the collection until the mistake is found.

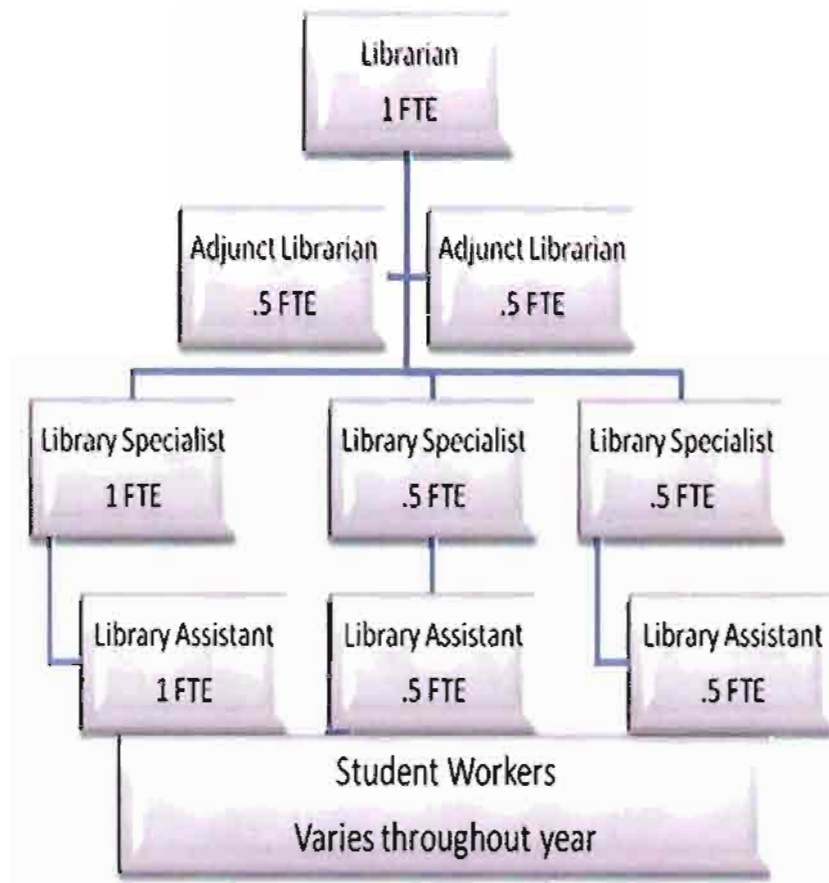

Library Assistants

This would be a newly created position. It would be designed to directly work with, train, and monitor the student workers. This position would be the people managing the circulation desk and assisting student workers and specialists with entry level tasks. This would be an entry position to develop a career path for those wishing to gain experience in an academic library. This position would also be responsible for the monitoring and required assistance needed with expanding computer applications in the lab and on the laptops. These staff members would be directly responsible for stack maintenance and the proper shelving of books by student workers.

Student Workers

The library currently enjoys a generous allotment of student workers from the Financial Aid office. The amount of student workers varies, but averages about ten per semester. This number is sometimes supplemented by workers from CAMP and other programs as well. It is imperative that minimal staffing levels not rely heavily on student workers for the long term. Although there are exceptions student workers have a high turn-over rate, are sometimes unreliable, and don't have the skills necessary to properly staff an academic library without sufficient training and supervision. Having students respond to other student's needs does not fulfill the academic need of a teaching library. There is a definite need for the amount of student workers as the circulation of materials continues to increase. This circulation is most labor intensive with managing the laptops. Final processing of materials and re-shelving of returned books is also a function that requires many student hours.

Hierarchy

Reaching this level of staffing

- First year
 - Move Technician to Specialist
 - Create Library Assistant position
 - Hire part-time Library Assistant
 - Hire an adjunct librarian
 - Extend library hours
- Second year
 - Move Library Assistant position to full time
 - Hire second part-time Library Assistant
 - Hire an adjunct librarian
- Third year
 - Hire third part-time position
 - Evaluate staffing during Library Program Review
- If this were to be implemented we would have 2 FTE Library Faculty Librarians the first year and a total of 2.5 the second year. This would still fall short of the minimum recommended 3 FTE equivalents, but be beneficial to the program.
- First year would place us at 2.5 FTE support staff.
- Second year 3.5 FTE

- Third year a total of 4 FTE support staff still under the recommended 6 but beneficial to the program.

It is fully understood that the current budget situation will not allow for much to be done in this area, but within the next several years hopefully this will form the basis of an increased library staffing expansion. The district reclassification study is also underway and initial indications are the career ladder aspects of the above recommendations are being mirrored within it.

- D. Identify and discuss the effect that trends may have on the program/department/services area's organization, structure, and nature over the next two to four years. The two largest trends that will affect the library are both related to growth. The campus is due for a large expansion that will create many new opportunities for the students, both academically and extracurricular. The library is not due to be a part of this next expansion and will rely on well designed staffing schemes, appropriate funding, and clear policies in order to continue providing the needed services for a growing campus community. Utilization of existing space will be paramount in the coming years and hours will need expansion to meet this growing need. The second trend that will affect the library program is the growth in online learning. As the Distance Learning program continues to grow there will be increasing demands on library staff to help support the academic research needs of the online learners and faculty. Again this will require proper utilization of staff and resources.
- E. What resources are required to maintain program/department/service area, and what additional resources are necessary to improve or expand it? The computer lab was recently moved into a larger area that will be able to accommodate more desktop computers. Within the next 2 to 3 years the current computers will need to be replaced and more added. Due to the fiscal crisis in 08/09 there were no new books purchased. Although there were books added to the collection from donations and a backlog of cataloging new books are needed. In order to maintain the collection's relevance the reestablishment of money for books will need to take place. A collaborative effort with Coalinga and the District must be developed to help establish a virtual library. Relying on current budgets and staffing at the campus level to create an online library will strain Lemoore Library's resources. Online classes need funding for electronic research databases beyond what is purchased with campus funds. Resource allocation to the Sirsi/Dynix Library Management System should take place. The current public access catalog for finding materials is outdated and needs upgrading.
- F. Discuss staff training, academic and professional currency. Information science is a constant challenge to stay abreast of because of how quickly technologies come and go. Staff training has gained a new momentum recently with a regular schedule of various topics being developed. The most pressing need for training at this point is in two areas. First is the need to train staff on how to properly assist students in using the research databases. The next area is for staff to get a

better grasp of the circulation software. The ability to send staff to professional development activities is hampered by the lack of coverage available from other staff members. A thorough and documented plan of staff development will be instated and begin implementation during the 08/09 year. Many training opportunities are free from the various vendors who provide our services, yet there is still a need to provide funds for conferences and webcasts.

- G. Excluding curriculum validation, discuss community involvement in the operation of the program/department/service area. The two greatest areas of community involvement in regards to library activities are book signings/lectures and use of our resources while on campus. Each year in conjunction with the Kings County Library we invite authors, local figures, and experts in various fields to WHCL. We attempt to have as many classes participate in these lectures as possible. Turnouts have been good and we will be continuing with this endeavor. Although there is not currently a mechanism in place to allow community borrowers the opportunity to check items out of the library they are still able to access our resources on campus. Memorandums of Understanding will need to be explored with other local colleges who increasingly want to use our resources for their students. Reference materials, books, and databases can be used by anyone within the library, but currently only WHCL students and staff are allowed to check items out.

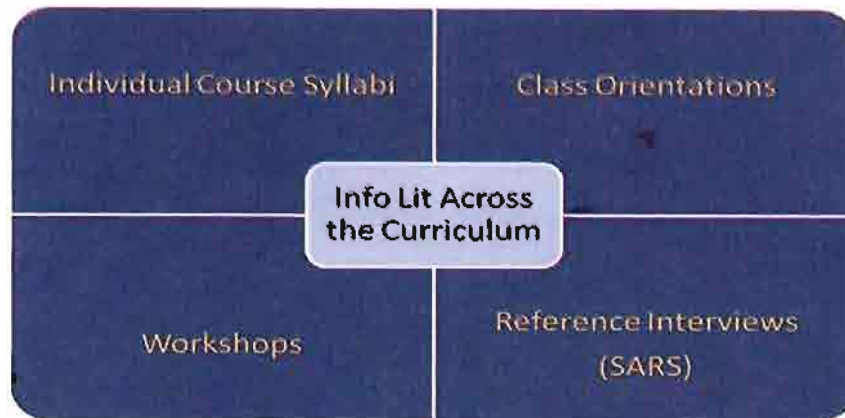

IV. Professional Development

- A. What professional development activities have staff participated in? The librarian and full time library technician regularly attend the California Library Association and American Library Association (When on West Coast) conferences. In Fall 2008 Information Today's Internet Librarian Conference was also attended by the librarian. All staff take part in various webcasts and online tutorials. Some of the providers of these learning opportunities are; Association of College and Research Libraries e-Learning webcasts, Infopeople webcasts, and Ebscohost online tutorials. Three staff members also recently took part in the National Women's Conference.
- B. How does this professional development affect Student Learning Outcomes for your program/department/service area? The libraries student learning outcomes are tied directly to student's abilities to access and properly use information. The professional development opportunities that staff participate in are directly related to preparation in these areas.
- C. Describe the program/department/service area's plans for staff development over the next four years. A systematic method of evaluating and enhancing staff development needs to be implemented. As mentioned earlier staff need to be cross-trained in all areas of the library, but also need to begin specialization in particular areas in order to increase quality of services.

- D. Discuss the effectiveness of continuing education requirement to meet the need for advanced training and/or training in emerging technologies. Information technology is very dynamic and fast-paced with library staffs ability to keep pace being critical. The most crucial area that staff needs advanced training in is the online environment. There is enough continuing education opportunities available to meet this need, yet limited staffing levels and budget constraints minimize the abilities of staff to fully explore these options.

V. Student Learning Outcomes

- A. List all Student Learning Outcomes for this program/department/service. In developing the student learning outcomes for the library the following three areas were discerned to be the most useful:
1. Students access a variety of information resources to achieve their educational goals.
 2. Students become life-long learners by increasing their information literacy.
 3. Students have access to an information environment conducive to study and research.
- B. Explain how Student Learning Outcomes are used to measure quality and success of this program/department/service area. The library SLOs are currently being reevaluated in order to separate program level outcomes from student level outcomes. Because assessing student learning outcomes at the student level is difficult the library will be focusing on program level outcomes. Once a system of evaluating student's information literacy skills is developed individual student learning outcomes can begin to be assessed.
- C. Based upon the results of the program SLO assessments, what improvements have been identified? Currently there is no formal mechanism in place at WHCL for ensuring students are gaining needed information literacy skills. The current system is one of information literacy across the curriculum with the idea being all classes will teach the needed skills of information retrieval, evaluation, and ethical use. Many community colleges offer standalone courses, courses that have information literacy components embedded in them, or series of workshops to teach the needed skills. As accreditation approaches some documentation should be developed explaining WHCLs philosophy on this matter. If information literacy across the curriculum is to be the method of teaching this needed skill the college may at some point be asked to provide evidence of this policy. The following chart could be used as a basis in the development of this:

By working within the above framework faculty and library staff would be able to begin strengthening information literacy throughout the campus. Once a system of teaching information literacy is developed the library will then be able to assess student level outcomes.

VI. General Operations

- A. How does the program/department/service area ensure that current curriculum/delivery of service is adequately meeting the needs of students? The library constantly tracks a variety of information about service delivery. Four of the more relevant areas of service are displayed below:
- Library orientations are given to classes upon instructor request and provide information literacy guidance. These numbers do not fulfill the needs of all students, but are a good starting point.

- Circulation of materials is also a good indicator of how well the library is providing services. The laptop program continues to be a main function for the library.

- The library also charts the number of visitors on a daily basis. This number is simply a door count of everytime someone enters the building. It consists of students, staff, visitors, and faculty. If someone enters multiple times they will be counted on each occasion.

B. Do special accreditations, external regulations, or advisory committees regulate the program/department/service area? Yes [] No [X] (if yes, elaborate.)

- C. Does the program/department/service area have any special regulations, space requirements, staff training, etc.? Yes [] No [X] (if yes, elaborate.)
- D. Is there evidence of unmet student needs caused by your program/department/service area? Yes [X] No [] (if yes, elaborate.)
Although there is no evidence that information literacy needs are not being met it is this program reviews recommendation that it needs to be strengthened across the curriculum.
- D. How does the program/department/service area address cultural diversity? The following statement from the Collection Development Policy addresses intellectual freedom in the collection:
Race, nationality, or creed will not bar an author's work from being selected for the collection. Personal biases of the Library/LRC staff will not determine collection development. The collection will be developed on principles of librarianship and every effort will be made to further the academic value of the collection development policy.
It is library policy to purchase materials that provide information from all perspectives and opposing viewpoints. The library regularly has displays of books and other items celebrating cultural awareness.
- F. Describe the initiatives the program/department/service area has implemented to meet the needs of social-economically diverse students, and/or those with non-traditional requirements (e.g., physical mental disabilities, re-entry, gender, etc.) WHCL is strong in the support services offered to students in the above categories. All staff are encouraged to become versed in the services offered and know where to direct students. The library does provide a fully functional assistive technology station for anyone needing it. Individual assistance with information resources is also provided to those needing it through reference services. The library also offers a popular textbook checkout program that allows students to use textbooks in the library for two hours at a time. This program aids those in financial need and allows many students to continue in their classes who would be unable to do so otherwise.
- G. Discuss the program/department/service area's use of external funding, including grants and collaborative partnerships, if applicable. The library has had substantial grant allocations over the past several years from various sources as well as lottery funds. The vast majority of these funds have been used to build the collection by buying books. Initial start-up of a collection is a huge expense and these funds have been well-spent. Due to the current 08/09 financial situation all funding has been scarce.
- H. To what extent is technology being used in the program/department/service area?
The library relies heavily on technology in almost all aspects of the services provided.
- I. Describe the supply requirements for your existing program/department/service area, as well as the effect that any proposed changes would have on the supplies in the next

four years. This statement should include the kinds and amounts of supplies needed, any anticipated costs, and the need for any computer software/technology. The computer lab is used extensively during all open hours and was recently moved into the larger open area to allow for expansion of the number of computers that can be housed there. There are currently 45 desktops with plans to expand to approximately 60 during the next purchase. This purchase of 60 computers will need to be budgeted for within the next three years at an approximate cost of \$72,000. IT has suggested that labs be purchased in unison rather than piecemeal in order to facilitate better care and service. The library also has the circulating laptops which number 60 at this time. There are no current plans to expand this past 60 as any more becomes too hard to manage at the circulation desk. These also will need to be replaced in the next three years at an approximate cost of \$60,000. Staff computers and the Online Public Access Catalog (OPAC) computers will also need replacing at an approximate cost of \$10,000. The ID card machine and software also needs to be upgraded at a cost of approximately \$10,000. The open computer lab printers will also need replacing at approximately \$2,000. The supply budget needs to be substantially increased in order to compensate for the amount of paper and toner being used since the campus has gone to free printing. Almost the entire supply budget in 07/08 was used to provide for this free service. Supplies also need to be purchased for day-to-day operations and the processing of books. Book supplies alone consist of jackets, barcodes, labels, etc. and are a necessity for the proper operation of the library.

- J. Describe the need for facility modifications within your existing program/department/service area or the effect that any proposed curricular or instructional changes would have on the existing facilities in the next four years. This statement should include a description of the desired changes, the rationale for the changes, and a rough estimate of the costs. The next four years will show a substantial amount of construction on the campus. As facilities are added and FTES grows the library will need to utilize all of its space in the most efficient way possible. Student study space is already at a premium and any removal of this limited space for faculty or staff use is not recommended by this program review.

VII. Additional Information (optional)

Please provide any other information to describe, explain, justify, analyze, or clarify prospective program/department/service area changes or needs anticipated in the next four years.

- A. What factors did you use in determining the quality and success of this program/department/service area? The library tracks a variety of data which is used to answer the Annual Data Survey to the Chancellor's Office in Sacramento, the American Library Association survey, California State Library survey, and the California Library Association survey. This data tracks the most common measurements of quality library services and includes transaction statistics, door counts, collection totals, reference interviews, etc. The library also began running a

survey during the Fall semester that is ongoing both in the library and with a link on the website. Some of the results of this survey are provided in B below.

- B. Identify the best ways to measure the quality and success of this program/department/service area. Conduct an evaluation of the program/department/service area. Use a survey or questionnaire when appropriate to address questions. (Examples: How do the persons served by this program/department/service area evaluate its adequacy or effectiveness? How do services compare to similar departments/service areas out side the College? By what processes does the program/department/service area deal with complaints and continually up-grade services? Other methods might include matching or exceeding nation-wide productivity measures, i.e., full-time staffing equivalent per square foot for M & O and per number of employees for Human resources, feedback from campus “clients”, etc.)

Although the survey covers a variety of services and user concerns only the following portion is provided to give an idea of library user’s satisfaction.

6. Please describe your overall satisfaction with the following resources:								
	Very Satisfied	Satisfied	Neutral	Dissatisfied	Very Dissatisfied	Does Not Apply	Rating Average	Response Count
Books available for checkout	31.2% (49)	38.2% (60)	14.6% (23)	1.3% (2)	0.6% (1)	14.0% (22)	3.56	157

<i>answered question</i>								158
<i>skipped question</i>								0

Below are some of the suggestions provided by library users on the survey:

1. Longer hours, such as classes run until 10pm but the library closes by 8pm. Since most resources are electronic, for example, you need a computer to read them, and the public lemoore library has a one hour time limit per day for internet use when available, could the library be open on the weekends (at least on Saturdays) as well, especially during fall and spring semesters? CSU Fresno is opening a big new library @ Fall of 2009. This would be good opportunity for soliciting volunteers who would be interested to gain experience in this area for when they want to transfer to a 4-year institution, and it may help them learn better in their classes here.
2. you should watch for people smoking outside of the doors its very disrespectful that they smoke right outside the doors. last semester i was pregnant and not just here but everywhere people smoke right in front of the classes and non-smokers have to deal with that. they should have a place where they can smoke without bolering anyone else
3. More books and DVDs (always need more!), more "loungue" areas in the library; a separate computer area for non-school use--a place where students can use MySpace, etc. and not worry; a separate library for the Charter Schools! Turn the bullpen into the tutoring center and find semi-private offices (maybe some of the study rooms) for the faculty.
4. I had a very satisfied feeling about the services of the library because I use it in daily basis with the tutoring I get and for other reasons like to do homework, but as of this week starting 11/11/08 they had moved the computers and it seems there is less room to seat. Everything looks crowded to find a place to seat. It seems that the tutors have almost half of the library space to them but is that necessary when we already had enough room to seat and study. Now it is obvious whos tutoring or getting tutor because we have a special place to seat. I personally do not like it. The library looks crowded with all the computers taking to much space

in the rough tables and you can not even see if there is an empty space to seat. It was better how it was before. All students learn differently and it was a more functional library how it was before, with more options, and more organized. Now it looks crowded with less room and more disturbing. Thank you for letting me express myself about this new change, because change is good when it is for the best. Not in this case.

5. Please make sure all student workers are informed correctly about services offered in the library
6. Please allow students to print PowerPoint lecture notes and post instructions for doing so to save paper and ink. Even charging for this service is appropriate, they just need access.
7. maintenance needs to clean more often and thoroughly. library staff is very helpful.
8. I am grateful to have it the way it is.
9. The DVD collection copied for instructors should be stored separately from general reserved collection and only released from instructor control when the instructor is terminated.
10. Why is it not open longer for students to study 10 or 11 would be good.
11. I definitely need to use the Library/Learning Resource Center more often. I would like to find information on different videos that I can show in my IS 1 class.
12. I have had several students complain this semester that when they want to use computers for "actual" class work they have been times when they weren't available because younger students were on site like MySpace or playing games.
13. When I go up to the counter to ask a question it takes a good 5 minutes for someone to recognize that I'm there. They are talking/on the computer/text messaging/etc
14. Maybe a little colder
15. Have longer hours Mon-Thurs, maybe until 9pm. Weekend hours also 9-2pm. More tables around library, by windows (stacks)
16. zj #14 Students often come into library to socialize, get on Myspace and mess around. I come to work on assignments- these students cause a distraction and take up space and resources that could be for students actually working.
17. Myspace is ok, but only if networking for jobs or to reach a family member. Not to listen to music or play games.
18. It would be nice for the library to have all the books that the teachers make mandatory to have for class
19. sometimes it gets a little noisy!
20. more copy machines for students
21. open longer on summer sessions
22. DOING GREAT WORK!
23. better chairs
24. better summer hours
25. some cookies and juice
26. A big smile once I come in!
27. charter students should not be able to check out laptops if college students need them several times I have tried to get a laptop and they were out. I needed to do homework while they were on Myspace.
28. I do not agree with the charter students sharing the library

Two of the major themes that are reflected in the above comments are the need for longer hours and dissatisfaction with the number of students using computers for recreation as opposed to academics.

- C. Describe the annual scheduling patterns for courses and how they impact your program/department/service areas. Consider interaction with other programs/departments/service areas, use of facilities and flexibility for students. The library has many classes, meetings, and other functions taking place on a daily basis. Managing study room reservations for various groups can sometimes be problematic

when rooms sit vacant after they have been reserved. The library is actively trying to get those reserving rooms to call and notify if they don't intend on keeping their reservation in order to free up space for others. Scheduling of classes outside of the normal operating hours of the library is also a practice that sometimes leaves students free to roam the library when no staff is present. There have been times when the doors have been propped open for friends to come and go while others are in class. This results in a security issue and loss of computers or other materials could result. M & O has been consulted on this issue and solutions are being worked out.

VIII. Summary and Recommendations

- A. What actions have been taken to address the assessment and improvements of program learning outcomes? The librarian has recently begun the position of co-chair for the student learning outcomes committee. This position will focus directly on program level outcomes and give the library a better grasp as to how these program learning outcomes can be better assessed and improved.
- B. Based on analysis of the information provided in I through VII, describe the program's strengths, areas that need improvement, and strategies and actions to make those improvements.
1. Program strengths:
The library program is fortunate to have good support from the administration, work study, information technology and all the other departments which make for a good working environment. Library staff are dedicated and motivated to provide quality services to everyone using the library. Having a relatively new collection of materials also allows for collection growth that is directly relevant to the curriculum.
 2. Areas that need improvement:
As mentioned throughout this program review the need for an improved staffing structure is key to the continuation of quality library services. Policies and procedures need to be strengthened. Staff training and professional development will also become more necessary as the college continues to grow. As with all things in the current budget crisis a study flow of funds for materials is necessary, but understandably hard to locate.
 3. Strategies and actions for program enhancement and improvement.
This program review will be used as a basis over the course of the next several years to improve on the library program.
- C. Attach your **Program Planning and Evaluation Assessment Grid**. Follow the directions provided and thoroughly complete the form. You should have not more than five short term goals, of which at least three are student learning outcome goals.

WEST HILLS COMMUNITY COLLEGE
Complaint Policy

CERTIFICATED STAFF

- B. Within ten days the administrator shall communicate his/her decision to the employee in writing. If the administrator does not respond within the time limit, the complainant may appeal to the next level.

Either party to the complaint shall have the right to request a personal conference in order to resolve the complaint. Either party may request the presence of one conferee.

Level Two

- A. Within seven days after receiving the decision of the administrator in Level One, the complainant may, on his/her own, or with his/her conferee, appeal the decision of Level One to the Superintendent/President. The appeal shall be in writing and shall be accompanied by a copy of the decision of Level One.
- B. Within seven days after the delivery of the appeal, the Superintendent/President shall investigate the complaint, including giving all persons who participated in Level One a reasonable opportunity to be heard.
- C. Within twelve days after the delivery of the appeal, the Superintendent/President shall submit his/her decision in writing together with the supporting reasons, to the complainant and the administrators involved.

Govt. Code 3543.2

Board Policy 7120 Recruitment and Selection

Reference: *Education Code Section 70902(d), 87100 et seq.;*
Title 5, Section 53000, et seq.;
Accreditation Standard III.1.A

The Chancellor shall establish procedures for the recruitment and selection of employees including, but not limited to, the following criteria:

- An Equal Employment Opportunity plan shall be implemented according to Title 5 and Board Policy 3420.
- Academic employees shall possess the minimum qualifications prescribed for their positions by the Board of Governors.
- The criteria and procedures for hiring academic employees shall be established and implemented in accordance with Board policies and procedures regarding the Academic Senate's role in local decision-making.
- The criteria and procedures for hiring classified employees shall be established after first affording CSEA an opportunity to participate in the decisions under the Board's policies regarding local decision-making.

See Administrative Procedure 7120.

Board approval date: 2/22/05

Administrative Procedure 7120 Recruitment and Selection

Reference: *Title 5, Section 53000, et seq.;*
Education Code Section 87100 et seq., 87400, 88003;
Accreditation Standard III.A.1.a;
CSEA Bargaining Unit Agreement, CTA/NEA Bargaining Unit Agreement

Recruitment Outreach

All vacancies may be advertised via internet, newspapers and other media as needed. The district website is a main source for internet postings.

Continuous Recruitments

Continuous recruitment will occur for adjunct faculty and certain classified, hard-to-fill positions. Applications for adjunct faculty will be accepted throughout the academic year. Applications for these positions will be held for six months, creating a relevant applicant pool. After the six month period, applications that have not been used will be put into storage.

Length of Recruitments

A minimum 15-day recruitment period is established for all positions unless otherwise extended.

Employment Application

As a general rule, applicants are required to submit a district employment application and an optional EEO Form. Resumes are recommended and unofficial transcripts and supplemental questionnaires may be required by the hiring manager, depending on the minimum qualifications of the position.

Examinations and Questionnaires

Pre-employment testing, if any, is conducted and monitored by the Human Resources Department.

Composition of the Selection Committee

Selection Committees consist of the hiring manager and other members required by the administrative procedure of the applicable employee classification.

Minimum Qualifications Review

After the filing deadline, the Director of Human Resources or his/her designee reviews all applications and forwards to the selection committee for interviews only those candidates who meet the minimum qualifications for the position. Depending on the applicant pool, the selection committee may screen all applications.

Tasks of the Selection Committee

Selection committees create screening forms and scales to use during the paper screening and actual interviews. (See Exhibits D and E for sample screening documents).

Responsibilities of the Selection Committee

The selection committee selects a chairperson to guide the committee in all its endeavors; reviews the job description, minimum qualifications and desirable qualifications; and establishes timelines for future recruitment and selection meetings and interviews.

The Equal Employment Opportunity (EEO) Representative distributes the administrative procedure relevant to the position being hired; pre-employment question guidelines (?????); duties and responsibilities of committee members, chairperson and EEO Representative (Exhibits A, B and C); the job announcement; and 4) the job description. These materials are explained to the committee and signatures obtained that indicate the committee member's understanding of their duties and responsibilities.

Interviews

The number of applicants interviewed is determined by the hiring manager and interviews are conducted by the committee.

Employment Offer

The hiring manager or his/her designee discusses and confirms salary and other arrangements with the selected applicant. The Director of Human Resources or his/her designee promptly communicates with the remaining finalists and checks and verifies the transcripts and previous relevant work experience of the selected applicant.

Correspondence

Information about all applicants and their status, as well as the contacts and correspondence generated by the screening and recommendation processes are conveyed only by the Human Resources Department. No notification of status to an applicant is made until all final recommendations are confirmed.

Documentation, Records & Confidentiality

All application materials, rating sheets and other records used in the screening process are stored for a minimum of three years by the Human Resources Department. These materials, the interview records and committee notes are treated as confidential information by everyone involved in the hiring process which shows high regard for candidates and enhances the fairness of discussions and decisions. The Human Resources Department is responsible for all contact and correspondence with applicants, candidates and selectees.

Board approval date: 1/24/06

**DUTIES AND RESPONSIBILITIES
OF SELECTION COMMITTEE MEMBERS**

1. Attend all meetings of the committee.
2. Serve as a representative of your respective group.
3. Read all materials presented during the meetings so that you may actively participate in the screening and interview process. Ask questions and make contributions.
4. Maintain strict confidentiality which includes, but is not limited to, the names of applicants and their qualifications, scores or ratings from paper screening, scores or ratings from interviews, any conversation held during screening committee meetings, or any other information throughout the selection process.

Signature of Committee Member

Date

**DUTIES AND RESPONSIBILITIES
OF SELECTION COMMITTEE CHAIRPERSON**

1. Serve as the facilitator/leader of the committee henceforth and attend all meetings in their entirety.
2. Ensure all members fulfill their duties and responsibilities as assigned.
3. Lead the committee through the screening and selection process.
4. Meet with the Director of Human Resources or designee to discuss testing and applicant pool diversity.
5. Reserve all rooms for future meetings.
6. Obtain committee screening materials and from the Human Resources Department.
7. Return all screening materials to the Human Resources Department immediately after committee meetings and update the Director of Human Resources or his/her designee on the status of the candidate pool, interview questions and demonstrations, if applicable, and interview scheduling.
8. Obtain packets of interview materials and applications from Human Resources Department immediately before interview meetings.
9. Return interview materials to the Human Resources Department immediately after interview meetings and update the Director of Human Resources or his/her designee regarding interview outcomes.
10. Maintain strict confidentiality in all recruitment matters, including but not limited to the names of applicants and their qualifications, scores or ratings, any conversations held during committee meetings, or any other information discovered during the selection process

Signature of Committee Chairperson

Date

**DUTIES AND RESPONSIBILITIES
OF EQUAL EMPLOYMENT OPPORTUNITY (EEO) REPRESENTATIVE**

1. Present and explain to the committee the district hiring procedures and guidelines, the pre-employment question guidelines, the job description, and the duties and responsibilities of committee members, the chairperson, and the EEO Representative.
2. Review these materials in detail with the members of the committee and respond to any questions they may have.
3. Guide the committee through the selection process of a chairperson.
4. Secure the signatures that indicate the understanding of all duties and responsibilities by committee members and the chairperson.
5. Attend all meetings of the committee in their entirety.
6. While non-voting unless possessing a dual role as a committee member, the EEO Representative acts as an observer in the screening and selection processes to ensure an equal opportunity for all applicants.
7. Assist the chairperson in enforcing the hiring procedures and guidelines and the pre-employment question guidelines.
8. Immediately bring committee concerns or EEO related issues to the Director of Human Resources or his/her designee so those concerns and issues may be expediently addressed.
9. Maintain strict confidentiality in all recruitment matters including, but not limited to, the names of applicants and their qualifications, scores or ratings, any conversations held during committee meetings, or any other information discovered during the selection process.

Signature of EEO Representative

CERTIFICATION AND AGREEMENT OF APPLICANT:

Please read carefully before signing

This application and all supporting documents become the property of the West Hills Community College District to which I have applied and will not be returned.

Certification: I hereby certify that all statements made on this application and any attachments are true and complete to the best of my knowledge. I understand that any false, incomplete or incorrect statement may result in my dismissal from employment with West Hills Community College District. I authorize the District to investigate my references, conduct a background check, work record, education, performance evaluations or any other matters relating to my suitability for employment. I authorize and direct my former or current employer and educational institutions to release to the District any information they may have concerning my employment or education. I also authorize the District to obtain review any documents or records, including driving records, which are applicable to my employment. I release the parties listed above from any and all liability related to this process of supplying or gathering any information about my suitability for employment. I also understand that an incomplete application may delay or prevent employment opportunities with the West Hills Community College District. I hereby release the West Hills Community College District, as well as those contacted by West Hills Community College District from any liability or damage which may result from providing or using the information requested.

Reasonable Accommodations: West Hills Community College District is an Equal Opportunity employer committed to nondiscrimination on the basis of race, color, religion, national origin, sex, sexual orientation, gender status, pregnancy, age, disability, or covered veteran's status consistent with applicable federal and state laws. Reasonable accommodations will be provided for applicants with disabilities who self disclose.

Drug Testing: In accordance with the Drug Free Environment of the WHCCD I understand that if I am selected for employment as a part of my employment I will be required to submit to a drug and alcohol test as a part of my health examination. By signing this application I am authorizing the District to conduct a drug and alcohol test as a part of my health examination.

ABOUT THE POSITION:

BASIC FUNCTION:

Plans, develops, coordinates, and maintains the information architecture and technical foundation of the District's internet and intranet web sites. Facilitates creation of policies and procedures to ensure high quality and appropriateness of web content, consistent display, access and security. Supervise and evaluate performance of assigned personnel.

The Web Administrator is senior-level technical position in an Information Technology career ladder for technical support, web design, and administration. Advancement to this level is by appointment and requires compliance with all aspects of the job qualifications and demonstration of the following competencies: ability to design, develop and implement internet and intranet services, develop web display standards, and perform scripting and programming of web site applications.

REPRESENTATIVE DUTIES:

- Administers the District's web servers, including back-ups, search engines, logs, documentation, and other components. Monitors the District's web site presence, including the positioning of key information for search engines and directories access.
- Ensures that documents submitted follow established display and content standards. Coordinates conversion and/or converts documents submitted web documents, ensuring that all hyperlinks on the District web site are functional and updated regularly.
- Oversees and participates in day-to-day operations of the District web site, including but not limited to, transferring, testing, and updating web content, integrating approved content to District web sites, managing District web-connected databases, coordinating retrieval of information, and archiving records.
- Submits, updates, and indexes pages to major search engines. Scales images to allow for consistent width and height definition. Applies systems technology and methodology to automate web site content development and delivery.
- Diagnoses and troubleshoots problems. Works with Network Technicians and System Administrators to identify and resolve problems.
- Configures security layers to permit and control access to publications.

ABOUT THE POSITION:

- Maintains server logs for the District web sites. Develops reports for activity, performance assessment, security, web-connected databases, problems and solutions, and other purposes. Analyze logs, creates, and implements appropriate security measures.
- Works with administrators, committees and others to establish design and access standards and procedures that ensure continuity of campus and district web content and site availability for staff, students, including those with special needs, and the public.
- Facilitates and participates in creating policies and procedures to govern the posting of material to the college web sites. Ensure that established technical requirements are observed. Meet regularly with the college web and technical committees to ensure that the college web sites are appropriately managed.
- Recommends, applies, and implements web site navigation methods. Configures web server parameters to control file caching, font mapping, internet mail awareness, and application launching for web browsers.
- Determines appropriate data compression techniques, resolutions, sizes, color maps, and depths to ensure that images and synthesized graphics are delivered at a sufficient speed and quality for optimal intended media output.
- Coordinates and participates in scripting and programming of web site features and applications. Programs in languages appropriate for web browsing (e.g., HyperText Markup Language (HTML), Java Script, and ASP) and transaction processing applications (e.g., on-line registration). Integrates multimedia applications into web site.
- Designs web site templates or structures to guide application development. Consults with users to develop web pages, sites, and links to comply with structures and standards.
- Coordinates and participates in the work of other staff assigned to support the District's web presence. Oversees and coordinates services provided by outside vendors.
- Researches, on a continuous basis, trends in web technology and its integration with various business and student information system applications, e-mail, conferencing, newsgroup and related technologies.
- Maintains up-to-date knowledge of state-of-the-art web site practices, including graphic presentation, interactivity, web marketing, server performance and other relevant areas, and serves as District resource to provide guidance and support in those areas.
- Performs other duties as assigned that support the overall objective of the position.

KNOWLEDGE, SKILLS, AND ABILITIES:

KNOWLEDGE OF:

The position requires in-depth knowledge of the principles of, and techniques used for design and maintenance of web sites that provide information and process transactions. Requires in-depth knowledge of software browsers such as, but limited to, Microsoft Internet Explorer. Requires extensive knowledge of web server administration and file system maintenance methods and techniques, proper indexing methodology, file conversion. Requires in-depth knowledge of multiple operating systems and web server technology such as, but not limited to UNIX, NT, and Windows. Requires in-depth knowledge of and skills in, programming and scripting languages used to assemble web sites, such as C/C++, Practical Extraction and Reporting Language (Perl), Java, HyperText Markup Language (HTML), Active Server Pages (ASP), Common Gateway Interface (CGI), Dynamic HTML, Extensible Markup Language (XML), Java Script, Visual BASIC, and VB Script. Requires knowledge of internet protocols, e.g. Transmission Control Protocol/Internet Protocol (TCP/IP). Requires in-depth knowledge of web server administration, file system maintenance techniques, and indexing and file conversion techniques. Requires well-developed skills in copy editing, proper American English language composition, usage, grammar, syntax, vocabulary, spelling and punctuation. Requires knowledge standard office procedures. Requires sufficient human relations skill to work cooperatively as part of a team, facilitate discussions with staff and others outside the department to extract information about web page needs, conduct training, and review work of others.

ABILITY TO:

Must be able to perform all of the relevant duties of the position with only general direction. Must be able to use internet and middle-range programming and scripting languages to develop, to create and maintain District web sites and integrate multimedia applications. Must be able to manage District web sites from both the server and client perspective. Must be able to work on multiple server platforms. Must be able to operate a variety of computer terminals, printers, and peripheral equipment. Requires a willingness to update skills on a regular basis to keep abreast of rapidly changing technology. Requires the ability to analyze highly technical problems and develop and apply appropriate solutions. Requires the ability to create and edit web page text and graphics and convert them to web content. Requires the ability to discuss technical information with users, discern their needs and develop programs, systems, screens, etc., which meet those needs. Must be able to communicate technical and complex information to 'non-technical' users. Requires the ability to provide training to on-line users in use and maintenance of web pages. Must be able to read, understand and apply information from technical manuals. Must be able to prioritize work to meet deadlines and schedules.

PHYSICAL ABILITIES:

Requires the ability to function effectively indoors in an office environment engaged in work of primarily a sedentary nature. Position involves light to medium walking, standing, stooping carrying and lifting of light weight materials (under 25 pounds). Requires near visual acuity to read numbers, letters, and images. Requires hand and finger dexterity to use a keyboard at an advanced rate, and hand-eye coordination to use a computer pointing device. Requires speaking and hearing ability sufficient to hear over phone and carry on routine conversations.

WORKING CONDITIONS:

Work is performed indoors where minimal safety considerations exist.

MINIMUM QUALIFICATIONS:

NOTE: Minimum qualifications and required materials must be met/received by the last day of the filing period.

EDUCATION AND EXPERIENCE:

Position requires a combination of education and experience equivalent to an AA degree in a computer science discipline plus eight years of experience in web design and programming using advanced languages; or a BS degree plus four years of experience. Additional experience or industry certifications may substitute for higher education. May require a valid driver's license.

REQUIRED MATERIALS:

REQUIRED MATERIALS:

1. Letter of application addressing the selection criteria.
2. Completed Non-Academic District Application. (Typed preferred/or printed)
3. Professional resume.
4. Unofficial transcripts verifying course work completed and degree(s) received.
5. Please provide names, addresses, home and work numbers of five persons familiar with your work.
6. EEO survey (optional).

APPLICATION DEADLINE:

Friday, December 10, 2010, by 5:00pm

NOTE:

All our positions require the ability to pass a background and fingerprinting check. **Drug Testing:** In accordance with the Drug Free Environment of the WHCCD, The applicant understands that if he/she is selected for employment, as a part of their employment they will be required to submit to a drug and alcohol test as a part of the health examination.

**SELECTION
PROCESS:**

Depending upon the number of applicants who meet the minimum qualifications, the examination process may include a qualifications screening by a committee. Those demonstrating the strongest backgrounds related to the position will be invited to interview.

**APPLICATION
REQUEST:**

**West Hills Community College District Human Resources Office
9900 Cody Street, Coalinga, Ca 93210**

HIGH TECHNOLOGY/ACCESS SPECIALIST

Interview Questions

Applicant: _____

Date: _____

1. What have you done to prepare for this interview?
4 3 2 1 0
Comments:

2. A visually impaired student has enrolled in Health Education 35 (Personal Health and Hygiene) online. In the past, this course has used many web sites that have extensive graphic content for student research and study. What suggestions would you provide the instructor in terms of course design and instructional strategy?
4 3 2 1 0
Comments:

3. You have been asked to oversee the conversion of the West Hills Community College website to be fully accessible. Explain how you would approach a project of this magnitude, include your experience in coordinating and managing large scale projects.
4 3 2 1 0
Comments:

4. What do you believe is the greatest barrier to accessibility today?
4 3 2 1 0
Comments:

5. Describe your personal experience with regard to computer hardware and software installation and maintenance.
4 3 2 1 0
Comments:

6. What accessibility software have you found to be most helpful, and why?
4 3 2 1 0
Comments:

7. Share your life experience as it relates to interacting with persons with limited physical and/or intellectual abilities.
4 3 2 1 0
Comments:

8. When installing software on an NT server/network, describe two possible limitations that may need to be addressed.
4 3 2 1 0
Comments:

9. Describe any diversity workshops, or professional development activities in which you have participated which are relevant to the duties of this position.

4 3 2 1 0

Comments:

10. What is your experience with and attitude toward each of the following:

a. Persons who have limitations, which restricts one or more major life activities.

b. Persons from diverse racial, cultural and socioeconomic backgrounds.

c. Men and women in non-traditional roles (male – nurses; female – truck drivers).

4 3 2 1 0

Comments:

11. When purchasing specialized software, what considerations must be taken into account if a server or workstation is required to run speech recognition software.

4 3 2 1 0

Comments:

12. In your own words, please describe assistive and/or adaptive technology.

4 3 2 1 0

Comments:

13. A faculty member approaches you and requests that you put a piece of assistive software on their office system saying they just wish to play with it and see how it works, what is your response?

4 3 2 1 0

Comments:

14. You are asked by the DSPS Coordinator to install some new software on the system under her control, what is the first thing you should do prior to installing the software?

4 3 2 1 0

Comments:

15. Do you have any questions for the committee?

Professional License As Alternative Qualification

For disciplines specified in this section, a bachelor's degree in the discipline of the assignment plus a professional license or certification may be substituted for the minimum qualifications specified under Minimum Qualifications for Instructors. The license or certification so substituted must be valid in California. The following professional licenses and certifications are acceptable:

<u>Discipline</u>	<u>License or Certification</u>
Accounting	Certified Public Accountant
Counseling	Marriage, Family, and Child Counselor
Engineering	Professional Engineer
Nutritional Science/ Dietetics	Registered Dietitian

NOTE: Authority cited: Sections 70901 and 87356, Education Code.
 Reference: Sections 70901(b)(1)(B) and 87356, Education Code.

Minimum Qualifications for Health Services Professionals

- a. The minimum qualifications for a health services professional with overall responsibility for developing and directing student health services shall be a valid, current California license as a registered nurse, and either of the following:
 1. a master's degree in nursing and a California Public Health Nurse certificate; or
 2. a bachelor's degree in nursing, a California Public Health Nurse certificate, and a master's degree in health education, sociology, psychology, counseling, health care administration, public health, or community health.

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

- b. Other health services personnel shall not be subject to statewide minimum qualifications; however, all personnel shall possess appropriate valid, current licensure or certification to practice in California when required by law. Ancillary personnel shall work under appropriate supervision when required by their license laws.

NOTE: Authority cited: Sections 70901 and 87356, Education Code.
Reference: Sections 70901(b)(1)(B), 87003, and 87356, Education Code.

Minimum Qualifications for Instructors of Noncredit Courses

Except as provided elsewhere in this article, the minimum qualifications for service as a faculty member teaching a noncredit course shall be the same as the minimum qualifications for credit instruction in the appropriate discipline, or as follows:

- a. For an interdisciplinary noncredit basic skills course, a bachelor's in any social science, humanities, mathematics, or natural science discipline or in liberal studies, as appropriate to the course.
- b. For a noncredit basic skills course in mathematics, a bachelor's in mathematics.
- c. For a noncredit basic skills course in reading and/or writing, either: a bachelor's degree in English, literature, comparative literature, composition, linguistics, speech, creative writing, or journalism; or a bachelor's degree in any discipline and twelve semester units of coursework in teaching reading.
- d. For a noncredit course in citizenship, a bachelor's degree in any discipline and six semester units in American history and institutions.

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

- e. For a noncredit course in English as a second language (ESL), any one of the following:
 - 1. A bachelor's degree in teaching English as a second language, or in teaching English to speakers of other languages.
 - 2. A bachelor's degree in education, English, linguistics, applied linguistics, any foreign language, composition, bilingual/bicultural studies, reading, or speech; and a certificate in teaching English as a second language, which may be completed concurrently during the first year of employment as a noncredit instructor.
 - 3. A bachelor's degree with any of the majors specified in subparagraph (2) above; and one year of experience teaching ESL in an accredited institution; and a certificate in teaching English as a second language, which may be completed concurrently during the first two years of employment as a noncredit instructor.
 - 4. Possession of a full-time, clear California Designated Subjects Adult Education Teaching Credential authorizing instruction in ESL.
- f. For a noncredit course in health and safety, a bachelor's degree in health science, health education, biology, nursing, dietetics, or nutrition; or an associate degree in any of those subjects, and four years of professional experience related to the subject of the course taught.
- g. For a noncredit course in home economics, a bachelor's degree in home economics, life management, family and consumer studies, dietetics,

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications**CERTIFICATED STAFF**

- food management, interior design, or clothing and textiles; or an associate degree in any of those subjects, and four years of professional experience related to the subject of the course taught.
- h. For a noncredit course intended for older adults, either pattern (1) or pattern (2) following:
1. A bachelor's degree with a major related to the subject of the course taught; and either (A) or (B) below:
 - A. Thirty hours or two semester units of course work or class work in understanding the needs of the older adult, taken at an accredited institution of higher education or approved by the district. This requirement may be completed concurrently during the first year of employment as a noncredit instructor.
 - B. One year of professional experience working with older adults.
 2. An associate degree with a major related to the subject of the course taught; and two years of occupational experience related to the subject of the course taught; and sixty hours or four semester units of coursework or classwork in understanding the needs of the older adult, taken at an accredited institution of higher education or approved by the district. This last requirement may be completed concurrently during the first year of employment as a noncredit instructor.
- i. For a noncredit course in parent education, a bachelor's degree in child development, early childhood education, human development, family and consumer studies with a specialization in child development or

Master's in agriculture, agriculture sciences or education with a specialization in
agriculture OR Bachelor's in any of the above AND Master's in agriculture business,
natural resources, animal science, forestry, pomology, agricultural engineering,
environmental horticulture, agronomy, or enology OR the equivalent.

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

ANTHROPOLOGY

Master's in anthropology or archaeology OR Bachelor's in either of the above AND Master's in sociology, biological sciences, forensic sciences, genetics or paleontology OR the equivalent.

ART

Master's in fine arts, art, or art history OR Bachelor's in any of the above AND Master's in humanities OR the equivalent.

(NOTE: "Master's in fine arts" as used here refers to any master's degree in the subject matter of fine arts, which is defined to include visual studio arts such as drawing, painting, sculpture, printmaking, ceramics, textiles, and metal and jewelry art; and also art education and art therapy. It does not refer to the "Master of Fine Arts" (MFA) degree when that degree is based on specialization in performing arts or dance, film, video, photography, creative writing, or other nonplastic arts.)

ASTRONOMY

See Physics/Astronomy

BIOLOGICAL SCIENCES

Master's in any biological science OR Bachelor's in any biological science AND Master's in biochemistry, biophysics, or marine science OR the equivalent.

BUSINESS

Master's in business, business management, business administration, accountancy, finance, marketing, or business education OR Bachelor's in any of the above AND Master's in economics, personnel management, public administration, or JD or LLB degree OR Bachelor's in economics with a business emphasis AND Master's in

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

personnel management, public administration, or JD or LLB degree OR the equivalent.

BUSINESS EDUCATION

Master's in business, business administration, or business education OR Bachelor's in any of the above AND Master's in vocational education OR the equivalent.

CHEMISTRY

Master's in chemistry OR Bachelor's in chemistry AND Master's in biochemistry, chemical engineering, chemical physics, physics, molecular biology, or geo-chemistry OR the equivalent.

CHILD DEVELOPMENT/EARLY CHILDHOOD EDUCATION

Master's in child development, early childhood education, human development, home economics/family and consumer studies with a specialization in child development/early childhood education, educational psychology with a specialization in child development/early childhood education OR Bachelor's in any of the above AND Master's in social work, educational supervision, elementary education, special education, psychology, bilingual/bicultural education, life management/home economics, family life studies, or family and consumer studies OR the equivalent.

COMPUTER SCIENCE

Master's in computer science or computer engineering OR Bachelor's in either of the above AND Master's in mathematics, cybernetics, business administration, accounting, or engineering OR Bachelor's in engineering AND Master's in cybernetics, engineering, mathematics, or business administration OR Bachelor's in mathematics AND Master's in cybernetics, engineering, mathematics, or business administration OR the equivalent.

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

(NOTE: Course in the use of computer programs for application to a particular discipline may be classified, for minimum qualifications purposes, under the discipline of the application.)

COUNSELING

Master's in counseling, rehabilitation counseling, clinical psychology, counseling psychology, guidance counseling, educational counseling, social work, or career development, OR the equivalent.

(NOTE: A license as a Marriage, Family, and Child Counselor is an alternative qualification for this discipline, pursuant to Title 5, Section 53410.1)

DANCE

Master's in dance, physical education with a dance emphasis, or theater with dance emphasis OR Bachelor's in any of the above AND Master's in physical education, any life science, physiology, theater arts, kinesiology, humanities, performing arts, or music OR the equivalent.

DIETETICS

See Nutritional Science/Dietetics

DRAMA/THEATER ARTS

Master's in drama/theater arts/performance OR Bachelor's in drama/theater arts/performance AND Master's in comparative literature, English, speech, literature, or humanities OR the equivalent.

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

EARTH SCIENCE

Master's in geology, geophysics, earth sciences, meteorology, oceanography, or paleontology OR Bachelor's in geology AND Master's in geography, physics, or geochemistry OR the equivalent.

ECOLOGY

Master's in ecology or environmental studies OR the equivalent OR See Interdisciplinary Studies.

ECONOMICS

Master's in economics OR Bachelor's in economics AND Master's in business, business administration, business management, business education, finance, or political science OR the equivalent.

EDUCATION

Master's in education OR the equivalent.

ENGINEERING

Master's in any field of engineering OR Bachelor's in any of the above AND Master's in mathematics, physics, computer science, chemistry, or geology OR the equivalent.

(NOTE: A bachelor's in any field of engineering with a professional engineer's license is an alternative qualification for this discipline, pursuant to Title 5, 53410.1.)

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

ENGLISH

Master's in English, literature, comparative literature, or composition OR Bachelor's in any of the above AND Master's in linguistics, TESL, speech, education with a specialization in reading, creative writing, or journalism OR the equivalent.

ESL

Master's in TESL, TESOL, applied linguistics with a TESL emphasis, linguistics with a TESL emphasis, English with a TESL emphasis, or education with a TESL emphasis OR Bachelor's in TESL, TESOL, English with a TESL certificate, linguistics with a TESL certificate, applied linguistics with a TESL certificate, or any foreign language with a TESL certificate AND Master's in linguistics, applied linguistics, English, composition, bilingual/bicultural studies, reading, speech, or any foreign language OR the equivalent.

ETHNIC STUDIES

Master's in the ethnic studies field OR the equivalent OR See Interdisciplinary Studies.

FAMILY AND CONSUMER STUDIES/HOME ECONOMICS

Master's in family and consumer studies, life management/home economics, or home economics education OR Bachelor's in any of the above AND Master's in child development, early childhood education, human development, gerontology, fashion, clothing and textiles, housing/interior design, foods/nutrition, or dietetics and food administration OR the equivalent.

FOREIGN LANGUAGES

Master's in the language being taught OR Bachelor's in the language being taught AND Master's in another foreign language OR the equivalent.

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

GEOGRAPHY

Master's in geography OR Bachelor's in geography AND Master's in geology, history, meteorology, or oceanography OR the equivalent OR See Interdisciplinary Studies.

GERONTOLOGY

Master's in gerontology OR the equivalent OR See Interdisciplinary Studies.

HEALTH

Master's in health science, health education, biology, nursing, physical education, dietetics, or nutrition OR Bachelor's in any of the above AND Master's in public health, or any biological science OR the equivalent.

HEALTH SERVICES DIRECTOR/HEALTH SERVICES COORDINATOR/
COLLEGE NURSE

(Minimum qualifications for these faculty members are specified in Title 5, Section 53411.)

HISTORY

Master's in history OR Bachelor's in history AND Master's in political science, humanities, geography, area studies, women's studies, social science, or ethnic studies OR the equivalent.

HUMANITIES

Master's in humanities OR the equivalent OR See Interdisciplinary Studies.

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

INSTRUCTIONAL DESIGN/TECHNOLOGY

Master's in instructional design/technology OR the equivalent.

INTERDISCIPLINARY STUDIES

Master's in the interdisciplinary area OR Master's in one of the disciplines included in the interdisciplinary area and upper division or graduate coursework in each constituent discipline.

JOURNALISM

Master's in journalism or communication with a specialization in journalism OR Bachelor's in either of the above AND Master's in English, history, communication, literature, composition, comparative literature, any social science, business, business administration, marketing, graphics, or photography OR the equivalent.

LAW

JD or LLB

(NOTE: Courses in aspects of law for application to a particular discipline may be classified, for minimum qualifications purposes in the discipline of the application.)

LIBRARY SCIENCE

Master's in library science OR the equivalent.

LINGUISTICS

Master's in linguistics or applied linguistics OR Bachelor's in linguistics AND Master's in TESOL, anthropology, psychology, sociology, English, or any foreign language OR the equivalent.

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

MANAGEMENT

Master's in business administration, business management, business education, marketing, public administration, or finance OR Bachelor's in any of the above AND Master's in economics, accountancy, taxation, or law OR the equivalent.

MARKETING

Master's in business administration, business management, business education, marketing, advertising, or finance OR Bachelor's in any of the above AND Master's in economics, accountancy, taxations, or law OR the equivalent.

MASS COMMUNICATION

Master's in radio, television, film, mass communication, or journalism OR Bachelor's in any of the above AND Master's in drama/theater arts, communication, speech communication, business, telecommunications, or English OR the equivalent.

MATHEMATICS

Master's in mathematics or applied mathematics OR Bachelor's in either of the above AND Master's in statistics, physics, or mathematics education OR the equivalent.

MUSIC

Master's in music OR Bachelor's in music AND Master's in humanities OR the equivalent.

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

NURSING

Master's in nursing OR Bachelor's in nursing AND Master's in health education or health science OR the equivalent OR the minimum qualifications as set by the Board of Registered Nursing, whichever is higher.

NUTRITIONAL SCIENCE/DIETETICS

Master's in nutrition, dietetics, or dietetics and food administration OR Bachelor's in any of the above AND Master's in chemistry, public health, or family and consumer studies/home economics OR the equivalent.

(NOTE: A bachelor's in nutrition, dietetics, or dietetics and food administration, and certification as a registered dietitian, is an alternative qualification for this discipline, pursuant to Title 5, Section 53410.1.)

PHILOSOPHY

Master's in philosophy OR Bachelor's in philosophy AND Master's in humanities or theology OR the equivalent.

PHOTOGRAPHY

Master's in photography, fine arts, or art OR Bachelor's in any of the above AND Master's in art history or humanities.

PHYSICAL EDUCATION

Master's in physical education or education with an emphasis in physical education OR Bachelor's in either of the above AND Master's in any life science, dance, physiology, health education, recreation administration, kinesiology, or physical therapy OR the equivalent.

WEST HILLS COMMUNITY COLLEGE
Minimum Qualifications

CERTIFICATED STAFF

PHYSICAL SCIENCES

Disciplines Not Requiring Master's

The minimum qualifications for disciplines on this list are any bachelor's degree and two years of experience, or any associate degree and six years of experience. Please see other notes at the beginning of "Disciplines Requiring the Master's Degree." The list of "areas also included in the discipline" is not exhaustive. Only those areas are included for which it might not be clear otherwise whether they were intended to be included.

DISCIPLINE	AREAS ALSO INCLUDED IN THE DISCIPLINE
Addiction paraprofessional training	
Administration of Justice	Police science, corrections, law enforcement
Aeronautics	Airframe and powerplant, aircraft mechanics, aeronautical engineering technician, avionics
Agricultural Business and Related Services	Inspection, pest control, food processing/meat cutting
Agricultural Engineering	Equipment and machinery, farm mechanics
Agricultural Production	Animal science, plant science, beekeeping, aquaculture
Air conditioning, Refrigeration, Heating	Solar energy technician

 WEST HILLS COMMUNITY COLLEGE
 Minimum Qualifications

CERTIFICATED STAFF

DISCIPLINE	AREAS ALSO INCLUDED IN THE DISCIPLINE
Animal Health Technology	
Animal Training and Management	Exotic animal training
Appliance repair	Vending machines
Architecture	
Athletic Training	(Note: This discipline listing applies only to instructors teaching apportionment-generating courses in the subject of athletic training. Non-apportionment-generating athletic training activity is not subject to minimum qualifications.)
Auto Body Technology Restoration	Antique and classic auto restoration
Auto mechanics	
Aviation	Flight, navigation, ground school, air traffic control
Banking and Finance	
Barbering	
Bicycle repair	

 WEST HILLS COMMUNITY COLLEGE
 Minimum Qualifications

CERTIFICATED STAFF

DISCIPLINE	AREAS ALSO INCLUDED IN THE DISCIPLINE
Bookbinding	
Broadcasting Technology	Filmmaking/video, media production, radio/TV
Building Codes and Regulations	Inspecting of construction, building codes, contractor training
Building Maintenance	
Business Machine Technology	
Cabinetmaking	
Cardiovascular Technology	
Carpentry	
Coaching	
Commercial Art Rendering	Signmaking, lettering, packaging, rendering
Commercial Music	
Ceramic Technology	
Computer Information Systems	Computer network installation, microcomputer technology, computer applications

MINIMUM QUALIFICATIONS CERTIFICATION And Instructor Acknowledgement

In accordance with the West Hills Community College District
Minimum Qualifications Policy

This is to certify that _____ meets minimum qualifications
to teach courses within the West Hills Community College District in the following
disciplines:

And other courses as follows:

With the following restrictions (if any)

Signed: _____ Date: _____
Superintendent/President

Signed: _____ Date: _____
Academic Senate President

Signed: _____ Date: _____
Placement & Salary Committee

Acknowledgement by faculty member being certified:

Signed: _____ Date: _____
Faculty Member

EQUIVALENCY POLICY AND PROCEDURESSection 1 - Philosophy

- 1.1 It is the policy of the West Hills Community College District that faculty hiring procedures and guidelines be established to provide for college faculty of highly qualified people who are expert in their subject areas, who are skilled in teaching and serving the needs of a varied student population, who can foster overall college effectiveness, and who are sensitive to and themselves represent the racial and cultural diversity of the adult population of the state of California.

The Board of Trustees represented by the administration has the principal legal and public responsibility for ensuring an effective hiring process. The faculty represented by the Academic Senate has an inherent professional responsibility in the development and implementation of policies and procedures governing the hiring process which is to ensure the quality of its faculty peers.

One part of the process needed to fulfill these responsibilities is a procedure for determining when an applicant for a faculty position, though lacking the exact degree or experience specified in the West Hills Community College Disciplines List, nonetheless does possess qualifications that are at least equivalent.

The determination of equivalency is distinct and separate from the hiring/interviewing process and will be established prior to consideration of employment in all cases. The Equivalency Committee shall meet on a monthly basis as well as on an "as needed" basis as determined by the Director of Human Resources. The Affirmative Action Officer may act as a non-voting observer in all segments of the equivalency process with respect to the administering of the District Affirmative Action policy.

WEST HILLS COMMUNITY COLLEGE
Equivalency Policy and Procedures

CERTIFICATED STAFF

Section 2 - Responsibilities of the Candidate

- 2.1 In the event that a candidate for employment does not meet the minimum qualifications set forth within the standards established by the West Hills Community College District's Minimum Qualifications List, it shall be the candidate's responsibility to apply for an evaluation of equivalency by the Equivalency Subcommittee of the Academic Senate.
- 2.2 It shall be the responsibility of the candidate to supply to the Human Resources Office, for use by the Equivalency Subcommittee, the application form for equivalency and all documentation needed to evaluate equivalency and to be available for interview or examination.
- 2.3 The candidate must meet the minimum requirements for an equivalency evaluation described within this equivalency policy.

Section 3 - Responsibilities of the Human Resources Office

- 3.1 The Human Resources Office shall provide the candidate with the necessary forms, a copy of the West Hills Community College District Equivalency Policy, and sample definitions of what constitutes acceptable "conclusive evidence" upon request of the candidate. Acceptable conclusive evidence of equivalency shall not be limited to the sample definitions, and requests shall be decided on a case-by-case basis. Department faculty member(s) shall determine if the evidence submitted is acceptable and conclusive. Upon completion of the forms, the candidates will return the forms and any supporting documentation to the Human Resources Office.
- 3.2 The Human Resources Office shall determine the completeness of the application and supporting documentation. Candidates shall be notified by the Human Resources Office one week after the closing date of the vacancy announcement if their files are not complete.

WEST HILLS COMMUNITY COLLEGE
Equivalency Policy and Procedures

CERTIFICATED STAFF

- 3.3 The Human Resources Office will forward all applications and supporting documentation to the Equivalency Subcommittee two weeks after the closing date of the vacancy announcement. The Equivalency Subcommittee will consider applications in order to determine if candidates for any faculty position possess qualifications established for the discipline by the West Hills Community College District Minimum Qualifications List.

Section 4 - Responsibilities of the Academic Senate and Board of Trustees

- 4.1 All deliberations and records of the Equivalency Subcommittee shall be confidential. The Academic Senate will insure that, as far as disciplines allow, the same standards are applied in each case and will audit the subcommittee for case-to-case uniformity.
- 4.2 Under no circumstance will any Equivalency Subcommittee member sit in consideration of his/her own case.
- 4.3 The actions of the Equivalency Subcommittee and/or the Academic Senate relative to evaluating equivalency shall not be considered as part of the hiring process and shall have no bearing on any other deliberation.
- 4.4 The West Hills Community College District Academic Senate shall establish a standing Equivalency Subcommittee consisting of the following voting members: Chair of the Equivalency Committee; two permanent committee members from the faculty; two full-time faculty from the appropriate discipline or closely allied discipline; and the Vice President, Educational Services/Assistant Superintendent (or designee). In the case of a tie vote, the Academic Senate President shall cast a vote to break the tie. The Director of Human Resources shall serve as a non-voting member.
- 4.5 Faculty appointments to the equivalency subcommittee shall be made by the full-time faculty of the department in which the discipline in question resides. If the department is unable to make the appointments, the Academic Senate shall assume the responsibility of filling any vacancies.

WEST HILLS COMMUNITY COLLEGE
Equivalency Policy and Procedures

CERTIFICATED STAFF

- 4.6 The Equivalency Subcommittee shall meet within five working days of receiving materials from the Human Resources Office to review the equivalency request.
- 4.7 If a candidate who the Equivalency Subcommittee determines does not meet equivalency is recommended for hire to the Board of Trustees, the Board shall make an opportunity available for the Academic Senate to present its views before the Board makes a determination as to the candidate's having equivalent qualifications; and the written record of the decision, including the views of the Academic Senate and the criteria and evidence used by the Board of Trustees in making the determination, shall be reflected in the Board's action employing the individual and shall be available for review.

Section 5 - Minimum Standards for Consideration of Equivalency

- 5.1 The Equivalency Subcommittee shall adopt policies further defining what evidence shall be required for establishing equivalency. Establishing specific requirements for determining the equivalent of the general education component of a degree can be achieved by the Equivalency Subcommittee since those requirements are rather similar for different programs. Establishing the equivalence of work experience will be unique to each discipline.

A committee comprised of faculty from the same discipline should list the specific skills mastery which will establish equivalence to the years of experience. For establishing the equivalent of the major, such a committee shall recommend measures of the quality of the experience, publications, or other work products that will establish equivalence to the major.

Setting out criteria in advance can make the process of determining equivalency more efficient and more consistent. However, there will always be unusual candidates. Therefore, the list of criteria shall only indicate what evidence will definitely be accepted. The qualifications of individual

WEST HILLS COMMUNITY COLLEGE
Equivalency Policy and Procedures

CERTIFICATED STAFF

candidates may still be evaluated individually on the specific evidence submitted through the process indicated above.

5.2 Only infrequently will candidates meet the minimum qualifications through the equivalency process. Candidates do possess equivalent qualifications who have all the appropriate courses for a particular degree but do not possess the specific degree named on the West Hills Community College Disciplines List. Occasionally, a candidate who is obviously highly qualified, who indeed may be the best qualified of all the candidates, will be able to demonstrate through publications or similar achievements that he or she has qualifications equivalent to those specified in the Disciplines List. However, the one who claims equivalent qualifications will have to provide conclusive evidence that he or she has qualifications that are at least equivalent to what is required by the minimum qualifications. Specifically, the one making the claim must provide conclusive evidence in regard to each of the following:

5.2.1 A transcript showing that appropriate courses were successfully completed at an accredited college* or appropriate foreign institution**.

5.2.2 Publications that show a command of the major in question, the general education of the candidate, or his or her writing skill.

5.2.3 Other work products that show a command of the major or occupation in question. This may include a departmentally administered examination or interview relative to meeting the minimum qualifications of the discipline.

5.2.4 A resume, employer statement, chronological listing, or other evidence of work experience in the appropriate discipline.

5.2.5 Other evidence of demonstrated skill or accomplishment.

WEST HILLS COMMUNITY COLLEGE
Equivalency Policy and Procedures

CERTIFICATED STAFF

- 5.3 The Equivalency Subcommittee may consider the following standards for establishing equivalency. However, other criteria may be used in determining equivalency as described in section 5.1 and 5.2 above.
- 5.3.1 In the case of disciplines normally requiring a master's degree, one acceptable standard shall be a BA/BS plus 30 semester units of appropriate coursework; OR a BA/BS plus appropriate licensure from an accredited* institution or entity; OR a BA/BS plus certification as an instructor in the specific discipline, as in the case of a reading instructor with a BA plus a reading specialist credential; OR a BA/BS plus additional coursework and documented experience of such eminence in the discipline that the combination of coursework and experience equals a master's degree in breadth, depth, and rigor.
- 5.3.2 In the case of disciplines not requiring a master's degree, but requiring a degree and work experience, one acceptable standard shall be coursework from accredited* institutions that would satisfy the AA/AS in breadth, depth, and rigor with coursework equivalent to a major, and six years documented work experience in the discipline; OR coursework from accredited* institutions that would satisfy a BA/BS degree in breadth, depth, and rigor with coursework equivalent to a major, and two years documented work experience in the discipline.
- 5.3.3 In the case of disciplines requiring a BA/BS, one acceptable standard shall be coursework from accredited institutions that would satisfy a BA/BS degree in breadth, depth, and rigor with coursework equivalent to major(s).
- 5.3.3 In the case of vocational education disciplines requiring an AA/AS or BA/BS degree, the minimum standard for part-time instruction only shall be that of possession of a department recognized local, state, national, or industry certificate or license clearly displaying expertise in the subject matter. This instruction shall be limited, as determined by the department, to the specific certification or license held by the

WEST HILLS COMMUNITY COLLEGE
Equivalency Policy and Procedures

CERTIFICATED STAFF

part-time instructor. In those areas where such certification or licensure does not exist, relevant work experience may be considered. Department faculty member(s) shall determine if the certificate, license, or work experience is acceptable and conclusive.

Section 6 - Graduate Students as Part-Time Faculty

- 6.1 In the interest of maintaining a close working relationship with graduate departments at UC and CSU institutions and in keeping with section 66 of AB 1725, part-time teaching positions in areas requiring the master's degree may be held by:
- 6.1.1 advanced graduate students with prior proven teaching experience.
 - 6.1.2 advanced graduate students teaching in areas consistent with the subject area of their graduate program. Such students may include advanced graduate students approved by the appropriate selection committee from among a list of candidates provided by a UC or CSU graduate department.
- 6.2 All graduate students hired for temporary part-time positions by the West Hills Community College District must be concurrently registered in a program of graduate studies at a UC or CSU campus.

Section 7 - Determination of Equivalency

- 7.1 The Equivalency Subcommittee will screen candidates using the application and supporting documentation forwarded by the Human Resources Office. At the committee's discretion, candidates may be interviewed and/or departmental examinations administered.
- 7.2 The Equivalency Subcommittee will report its finding to the Human Resources Office and, if the candidate does not meet the minimum

WEST HILLS COMMUNITY COLLEGE
Equivalency Policy and Procedures

CERTIFICATED STAFF

qualifications through equivalency, the Subcommittee will include a statement(s) on what basis equivalency was denied.

- 7.3 The Human Resources Office will notify the candidate if he/she does not meet equivalency within five working days of receiving the finding from the Equivalency Subcommittee. Such notification shall be in writing and a copy of the notification will be forwarded to the Academic Senate President and First Vice President.

Section 8 - Responsibilities of the Equivalency Subcommittee

- 8.1 The Equivalency Subcommittee shall consider candidates on a case-by-case basis maintaining thorough and accurate records of their deliberations and decisions. Upon completion of the equivalency process, all relevant records shall be forwarded to the Human Resources Office. It shall be the shared responsibility of the Equivalency subcommittee, ~~and the Academic Senate,~~ and the Human Resources Office to insure that the equivalency policy and procedures are being followed and implemented.

- 8.2 For establishing the equivalent of the required degree, possession of at least the equivalent in level of achievement and breadth of understanding for each of the following criteria will be considered by the Equivalency Subcommittee:

8.2.1 The general education required for that degree or equivalent as established in Section 5 of this document.

AND

8.2.2 The major course work required for that degree or equivalent as established in Section 5 of this document.

- 8.3 For establishing the equivalent of required experience, possession of thorough and broad skill and knowledge for each of the following criteria:

WEST HILLS COMMUNITY COLLEGE
Equivalency Policy and Procedures

CERTIFICATED STAFF

- 8.3.1 Mastery of the skills of the vocation sufficient to serve as a basis for teaching all courses within the disciplines as listed included on the West Hills College Disciplines List.
- 8.3.2 Extensive knowledge of the working environment of the vocation.
- 8.4 In evaluating the equivalency the subcommittee shall consider, is not limited to, the following as conclusive evidence:
 - 8.4.1 A transcript showing the appropriate courses were successfully completed at an accredited college* or through an appropriate foreign institution**.
 - 8.4.2 Publications that show a command of the major in question, the general education of the candidate, or his or her writing skill.
 - 8.4.3 Other work products that show a command of the major or occupation in question. This may include a departmentally administered examination or interview relative to meeting the minimum qualifications of the discipline.
 - 8.4.4 A resume, employer statement, chronological listing, or other evidence of work experience in the appropriate discipline.
 - 8.4.5 Other evidence of demonstrated skill or accomplishment.

Section 9 - Emergency Situations

- 9.1 In the event that the Equivalency Subcommittee does not or cannot meet within five days of receiving the materials from the Human Resources Office (as in the summer or other times when full-time faculty are not on duty), the following emergency procedure will be followed:

WEST HILLS COMMUNITY COLLEGE
Equivalency Policy and Procedures

CERTIFICATED STAFF

- 9.1.1 The emergency committee shall consist of a representative of the Academic Senate, the area administrator, and the Assistant Superintendent of Instruction/Dean of Instructional Services or designee.
- 9.1.2 Area administrator or Assistant Superintendent of Instruction/Dean of Instructional Services or designee shall contact Academic Senate representative and convene a meeting of the emergency committee.
- 9.1.3 The emergency committee can grant temporary, one semester equivalency. The candidate receiving temporary equivalency must submit a request for equivalency via the established equivalency procedures prior to teaching for a second semester.
- 9.1.4 If the emergency committee cannot be convened within five working days of receiving materials from the Human Resources Office, the Assistant Superintendent of Instruction/Dean of Instructional Services can grant temporary one semester equivalency as outlined in 9.1.3.
- 9.1.5 Area administrators shall notify the Academic Senate President in writing no later than five working days after a faculty member is placed in a classroom prior to the interview process and/or equivalency process being completed.

* College and University degrees and credits submitted for employment, including the equivalency process, or advancement must be from United States institutions accredited by one of the six regional accrediting agencies recognized by the Council on Post-secondary Accreditation and the United States Secretary of Education.

WEST HILLS COMMUNITY COLLEGE
Equivalency Policy and Procedures

CERTIFICATED STAFF

** All degrees and credits not covered by the six regional accrediting agencies recognized by the Council on Post-secondary Accreditation and the United States Secretary of Education, including all foreign degrees and credits, are subject to verification through the equivalency process. The candidate bears the responsibility of documenting equivalency to accredited United States institutions.

Board approval date: 1/10/95
Revised: 6/19/00

The Board of Trustees of the West Hills Community College District (the "Board" or "District") recognizes the West Hills College Faculty Association, CTA/NEA (the "WHCFA" or the "Association") , as the sole and exclusive representative of all full-time instructors, librarians and counselors whose contractual obligation equals or exceeds .60 full-time equivalent. All other employees of the District including but not limited to the following are excluded: substitutes, summer session instructors, librarians, counselors, consultants, temporary employees hired for less than a semester, division chairs, managerial, supervisory and confidential employees.

The Board agrees not to negotiate with any other organization on matters of scope over which the Association has rights of exclusive representation, and agrees not to negotiate with any member of the unit individually during the duration of this Agreement on matters subject to negotiations.

The Association recognizes the Board as the duly elected representative of the people and agrees to negotiate only with the Board's officially designated representatives. WHCFA further agrees that neither it nor any of its members or agents will attempt to negotiate privately or individually with the Board, any Board member, administrator, or other person or persons not officially designated by the Board as its representative.

On May 2, 1977, the West Hills Community College Faculty Association/CTA/NEA was recognized as the exclusive representative of a unit composed of certain certificated employees of the West Hills Community College District.

1 **ARTICLE 2. ASSOCIATION RIGHTS**

2
3 2.1 Use of Buildings and Facilities

4
5 The Association shall have the right to reasonable use of District buildings and facilities.

6
7 2.2 Notice of Activities

8
9 The Association shall have the right to post notices of activities and matters of Association
10 concern on designated bulletin boards. A courtesy copy of posted material will be provided the
11 District's Chancellor and President at the time of the posting.

12
13 2.3 Mail Service

14
15 Consistent with the limitations of the law, the Association may use the District mail service for
16 communicating with its members.

17
18 2.4 Access to District Property

19
20 Authorized representatives of the Association shall be permitted access to District property to
21 conduct proper Association business provided that such business does not interfere with the
22 duties of District employees. The Association, or its authorized representative, shall notify the
23 District's Chancellor and President in advance, where possible, of a visit to the College by an
24 Association representative, providing information regarding purpose of visit and estimated times
25 of arrival and departure.

26
27 2.5 Roster of Unit Members

28
29 Names, addresses, and telephone numbers of unit members as provided to the District by the unit
30 members shall be provided the Association within sixty (60) days of the ratification of this
31 Agreement. Names, addresses, and telephone numbers will be provided only in those cases
32 where privacy has not been requested.

33
34 2.6 Board Agenda

35
36 The Association, upon request, shall be provided one (1) copy of the Board agenda prior to each
37 regularly scheduled Board of Trustees meeting. Upon three (3) work days notice, the
38 Association may request, in writing, to place items on the agenda and speak to such items.

39
40 2.7 Dues Deductions

41
42 The District agrees to deduct dues in certified, uniform amounts from the pay of Association
43 members in the unit, and to pay the Association the normal and regular monthly membership
44 dues voluntarily authorized by the employee on the approved District form, subject to the
45 following conditions:

1 2.7.1 Such deduction shall be made only upon the submission by the employee on a
2 District approved form of a duly executed and revocable authorization;

3
4 2.7.2 The District shall not be obligated to put into effect any new, changed, or
5 discontinued deduction unless the change is in the District payroll office prior to the tenth
6 (10th) of each month;

7
8 2.7.3 The Association agrees to indemnify, defend, and hold the District harmless against
9 any claims made of any nature whatsoever, and against any claim or suit instituted against
10 the District arising from its collection and deduction of Association membership dues.

11
12 2.8 Consultation

13
14 The Association has the right to consult on the definition of education objectives, the
15 determination of the content of courses and curriculum, and the selection of textbooks to the
16 extent such matters are within the discretion of the public school employer under the law.

17
18 The President of the Association may meet regularly with the Chancellor or President of the
19 District for the purposes of consultation. Such consultations shall include recommendations
20 regarding subjects to be placed on the agendas of College meetings.

21
22 2.9 Released Time

23
24 Effective in the 1998-99 contract year the Association President shall have up to four (4) days
25 per year reassigned time to conduct association business with 30 days advanced notice to the
26 Dean's of Educational Services.

1 **ARTICLE 3. DISTRICT RIGHTS**

2
3 It is understood and agreed that the District retains all of its powers and authority to direct,
4 manage, and control to the full extent of the law. Included but not limited to those duties and
5 powers are the exclusive right to: determine its organization, and direct the work of its
6 employees; determine the times and hours of operation; determine the kinds and levels of service
7 to be provided, and the methods and means of providing them; establish its educational policies,
8 goals, and objectives; insure the rights and educational opportunities of students; determine
9 staffing patterns; determine the number and kinds of personnel required; maintain the efficiency
10 of District operations; determine the curriculum; build, move, or modify facilities; establish
11 budget procedures and determine budgetary allocation; determine the methods of raising
12 revenue; contract out work; and take action on any matter in the event of an emergency.
13

14 In addition, the Board retains the right to hire, classify, assign, transfer, evaluate, promote,
15 terminate, and discipline employees. The exercise of the foregoing powers, rights, authority,
16 duties, and responsibilities by the District, the adoption of policies, rules, and regulations, and
17 practices in furtherance thereof, and the use of judgment and discretion in connection therewith
18 shall be limited only by the specific and express terms of this Agreement, and then only to the
19 extent such specific and express terms are in conformance with law.
20

21 The District retains its rights to amend, modify, or suspend policies and practices referred to in
22 this Agreement in case of emergency. Emergency is defined as an act of God, a natural disaster,
23 or other dire interruption of the District's programs. The determination of whether or not an
24 emergency exists is solely within the discretion of the Board.

1 **ARTICLE 4. EVALUATION PROCEDURE**

2
3 4.1 Preamble

4
5 The purposes of the evaluation procedure is to recognize faculty for outstanding performance,
6 to assist the unit member in becoming a better teacher/counselor/librarian and to provide
7 information to assist in making tenure decisions.

8
9 4.2 Definitions

10
11 A "contract employee" (non-tenured) means a member of the bargaining unit who is employed
12 on the basis of a contract in accordance with the provisions of Education Code sections 87605,
13 87608(b), or 87608.5(b).

14
15 A "regular employee" (tenured) means a member of the bargaining unit who is employed on a
16 regular basis in accordance with Education Code sections 87608(c), 87608.5(c), or 87609(a).

17
18 An "administrative evaluator" means the Chancellor or designee from the administrative staff.

19
20 In the case of a "contract" (non-tenured) employee, a "peer evaluator" means any unit member
21 appointed by the Academic Senate.

22
23 In the case of a "regular" (tenured) employee, a "peer evaluator" means any unit member
24 selected by the member to be evaluated.

25
26 An "evaluation team" shall consist of the following:

27 One (1) administrative evaluator and two (2) peer evaluators.

28
29 A "self-evaluation" means the contract (non-tenured) unit member to be evaluated will complete
30 a written self-assessment.

31
32 An "observation visitation" means a period of time during which an evaluator observes a unit
33 member performing assigned duties.

34
35 An "academic year" means that period of time beginning on the first day of a fall semester and
36 ending on the last day of the following spring semester.

37
38 4.3 General

39
40 All information and materials related to the evaluation process shall remain confidential.

41
42 Evaluation forms currently in use at the time this Agreement goes into effect shall continue to be
43 used for the duration of this Agreement. (See Exhibit A.) A joint committee of the Association
44 and the District shall determine the final version of Exhibit A. **(Online evaluation tools in**
45 **exhibit A ratified on 01-17-2008).**

1 Evaluators and unit members being evaluated are encouraged to meet informally at any mutually
2 agreed upon time before, during, or after the evaluation process.

3
4 Contract (non-tenured) employees shall be evaluated at least once in each academic year. The
5 members of the evaluation team shall remain the same each year the contract (non-tenured)
6 employee is evaluated.

7
8 Regular (tenured) employees shall be evaluated at least once in every three (3) academic years.

9 10 4.4 Procedure

11
12 Initially, a member of the unit who is to be evaluated shall meet with the administrative evaluator
13 and the entire evaluation team in a pre-observation conference, the purpose of which is to
14 discuss, ascertain, and identify the ingredients and objectives of the evaluation, the time and
15 conditions of the observation visitation, and the time of the post-observation conference.

16
17 The observation visitation by each member of the evaluation team shall take place within twenty-
18 five (25) workdays of the pre-observation conference. Observation visitations normally will be
19 for a period of fifty (50) minutes; however, the period of time of an observation visitation may be
20 shortened or lengthened by the mutual agreement of the unit member and the administrative
21 evaluator.

22
23 Notes may be taken during the observation visitation. Observation forms should be filled out
24 during or immediately following the observation visitation and forwarded to the administrative
25 evaluator.

26
27 The contract (non-tenured) unit member shall prepare a self-evaluation, including their
28 professional development goals/plans and provide copies to the evaluation team. Regular
29 (tenured) unit members shall prepare professional development goals/plans, which shall be
30 revised as needed.

31
32 The post-observation conference shall take place within twenty (20) workdays of the observation
33 visitations. Within fifteen (15) workdays of the observation visitations, the administrative
34 evaluator shall submit to the unit member being evaluated copies of the observation forms.

35
36 A post-observation conference shall be held. Contract (non-tenured) unit members shall
37 conference with the administrative evaluator and the entire evaluation team. Regular (tenured)
38 unit members may, at their election, conference with the entire evaluation team. Nothing herein
39 shall be deemed a waiver of representational rights.

40
41 During the post-observation conference, the administrative evaluator and the unit member may
42 agree to changes in the written remarks of the evaluation, in which case it shall be re-drafted and
43 submitted to the unit member within five (5) work days of the post-observation conference. The
44 unit member shall sign and return to the administrative evaluator the modified, re-drafted, final
45 evaluation form within five (5) work days of the date it was submitted to the unit member.

1 In the event the unit member being evaluated receives what he or she considers to be a negative
2 evaluation, the administrative evaluator and unit member shall discuss the matter at the post-
3 observation conference. The administrative evaluator shall specify on the evaluation form the
4 reason(s) for the negative evaluation. The administrative evaluator and the unit member shall
5 meet within fifteen (15) work days of the post-observation conference to develop a written,
6 detailed plan for remediation of the deficiencies upon which a negative evaluation was based.

7
8 A copy of the final, signed evaluation form shall be given to the unit member no later than April
9 15, and a copy shall be placed in the unit member's personnel file as soon as practicable. The
10 unit member and the administrative evaluator may extend this April 15 deadline by mutual
11 consent.

12
13 A peer review process shall be part of each unit member's evaluation, and each evaluation should
14 include, to the extent practicable, student evaluations.

15
16 The unit member and administrative evaluator may attach to the evaluation form copies of peer
17 observation forms, student evaluations, and/or self-appraisal evaluations.

18
19 A unit member may select a peer evaluator from outside the unit member's discipline.

20 21 4.5 Tenure Process

22
23 Recommendation for tenure is the responsibility of the Academic Senate.

24 25 4.6 Personnel Files

26
27 4.6.1 Records relating to the employment of unit members shall be maintained in
28 individual files located in the Personnel Office.

29
30 4.6.1.1 A unit member whose personnel file contains derogatory information may
31 request that said information be sealed in the personnel file. Only information
32 four (4) or more years old may be sealed. The sealed envelope shall state that
33 it may be unsealed: 1) with the mutual consent of the employee and the
34 Chancellor or Designee, 2) upon the receipt of a lawful subpoena or court
35 order, 3) in the event the employee brings a suit, claim or action against the
36 District.

37
38 A unit member's request to seal documents in his/her personnel file shall not
39 be refused by the District absent good cause.

40
41 4.6.2 Materials in a unit member's personnel file, which may serve as a basis for affecting
42 his/her status, shall be available for inspection by the unit member.

43
44 4.6.2.1 Members shall not be entitled to review ratings, reports, or other records
45 obtained prior to employment, prepared by identifiable committee members or

1 were obtained in connection with a promotional exam, as provided by
2 Education Section 88031.

3
4 4.6.2.2 A unit member shall have the right to examine and/or obtain copies of
5 personnel file documents upon reasonable notice to the Human Resources
6 Department.

7
8 4.6.2.3 Review of personnel files shall take place at a time when the unit member
9 is not actually required to render services to the District.

10
11 4.6.3 Personnel files are confidential. Absent a lawful subpoena or other court order,
12 access to files shall be limited to District supervisors, administrators, or agents.

13
14 4.6.3.1 A representative of the Association may review a unit member's
15 Personnel file only upon written authorization of the unit member.

16
17 4.6.4 Information of a derogatory nature shall not be entered or filed until the unit
18 member is provided a copy of the document and an opportunity to respond. The
19 response, if any, shall be placed in the unit member's personnel file.

20
21 4.6.5 All material placed in a unit member's personnel file shall be dated and signed by
22 the preparer. Documents shall be placed in a unit member's personnel file within
23 ninety (90) days of the final documents' creation.

40
41
42
The District reserves the right to establish a calendar for each academic year, except that the total number of work days unit members must serve and the beginning and ending dates of academic years are mandatory subjects of negotiations between the District and the Association.

The District and Association shall jointly establish a calendar for each academic year in accordance with the process used to produce the 2001-2002 calendar. (NOTE: The 2000-2001 and the 2001-2002 calendars are attached as Exhibits B) When finalized the 2002-2003 calendar will be added to Exhibit B.

The parties agree to form a committee with the express purpose of analyzing the potential advantages and disadvantages associated with the implementation of a compressed 16 week calendar. The committee shall be comprised of three (3) members appointed by the Faculty Association and three (3) members appointed by the District administration. Among the review and considerations by the committee, shall be the amount of total semester hours of teaching, the equivalent number of minutes and hours of teaching which shall comply with the minimum requirement of 175 teaching days under the traditional calendar, the impact on students, and the success or lack thereof experienced by other institutions which have adopted the compressed calendar. The committee shall report its findings to the Association and the District administration not later than June 30, 2008. **(Change Ratified on 01-07-2008).**

27 **5.2 Teaching Faculty Work Year**

28
29 The teaching faculty work year is as follows:

30	173	Teaching Days
31	2	Flexible Teaching Days
32	175	Total Teaching Days
33	2	Duty Days
34	177	Work Days

35
36 The base year for teaching faculty shall be 177 assigned workdays. Extended year contracts for
37 unit members shall be voluntary and not more than 44 assigned workdays. Extended years
38 contracts shall be defined as contracts, which are extended from the normal work year of 177
39 workdays and shall not include those contracts, which originate as more than 177 workdays.
40 Extended year contracts shall occur during the designated fiscal year. A Faculty member may
41 request an extended contract.
42

1 5.3 Non-Teaching and/or Student Services Faculty Work Year

2
3 The total workdays for counselors shall be 197. Not later than 60 days before the end of the
4 academic year, the Dean of Students shall determine counselor work days and scheduled time
5 off for the following school year. Counselors shall, sufficiently in advance of that date,
6 submit to the Dean of Students their proposed individual work schedules for the next year.
7 In the event of scheduling conflicts, the Dean of Students shall attempt to resolve them
8 informally with the affected counselors. If there is no resolution through the informal
9 process, the Dean of Students shall decide the schedules. The counselor work year will begin
10 July 1 and end June 30 of each year.

11
12 The total workdays for the librarian(s) will be 221.

13 5.4 Duty Days

14
15 The two (2) duty days shall be scheduled by the District. All unit members shall be required
16 to attend duty days as days in addition to the total number of days in which classes are
17 scheduled during the academic year.

18
19 5.5 Flex Days

20
21 Unit members shall attend or obtain credit through an in-lieu activity for two (2) flexible
22 teaching days ("flex days").

23
24 District Flex Day. The District's one (1) flex day shall be mandatory for all unit members
25 unless the unit member is pre-approved by the Chancellor or designee for an in-lieu activity.
26 This flex day activity shall be organized and scheduled by the District.

27
28 Unit Member Flex Day. The unit members' one (1) flex day shall be mandatory for all unit
29 members unless the unit member is pre-approved by the Chancellor or designee for an in-lieu
30 activity. The unit member's one (1) flex day shall be organized and planned by the faculty
31 members and Academic Senate.

14
15
16
17 **6.1 Work Week**

18 A thirty five (35) hour week shall serve as the benchmark for calculating reassigned time and leave.

19 Full-time instructors are expected to participate in professional duties and responsibilities including serving on faculty committees, as student club advisors, conduct student recruitment, participate in registration as requested, be involved in in-service institutes and programs, and perform other professionally related services as requested by either the Chancellor or his/her designee.

20 Instructors are responsible for attending meetings and participating in other professional activities called by administration, departments, faculty or committees on teaching and non-teaching days. The guidelines for professional responsibilities may be found in Board Policy and the Faculty Resource Guide.

40
41 **6.2 Teaching Duty**

42 The Board establishes an instructor's full-time teaching load to be fifteen (15) lecture hours per semester. A laboratory activity hour shall be equivalent to seventy-five hundredths (.75) of a lecture hour.

43 In a given semester, if an instructor is assigned a teaching load which is greater than a full-time teaching load as defined directly above, because of special needs of the District, the instructor shall have the option to receive hourly pay for in-class hours beyond the fifteen (15) lecture hour equivalents, or to balance the teaching load over four (4) consecutive semesters to reach a balance of sixty (60) hours ((two) (2) consecutive semesters in the case of a first year instructor). In no event shall an instructor's load be reduced more than six (6) hours below a full-time teaching load in any one semester to accommodate balancing.

44 Except as otherwise agreed upon between the unit member and the Chancellor or his/her designee, regular contract teaching assignments shall be scheduled, within a daily span of time of nine hours or less, excluding meal times and overload.

45 The amount of voluntary overload hours for any instructor shall not be limited.

46 In addition, as a minimum, each full-time instructor is expected to be available on campus or at an off-campus site, and maintain office hours a minimum of five (5) hours per week for purposes of assisting students through formal and informal advisory processes.

6.3.1 Counselors

201 The basic work year for counselors shall be 197 days. The work week shall consist of

1 thirty five (35) hours of assigned duty which may include committee assignments, faculty
2 senate, other college-related meetings, research, orientation, counseling appointments,
3 teaching responsibilities, if assigned, staff development activities and/or any other
4 professionally-related activities as authorized and/or directed by the administration.
5 Counselors will stagger their consecutively scheduled hours in a manner so that coverage
6 will be maintained as determined by the Dean of Students and pursuant to Article 5.3.
7

8 6.3.2 Librarians 9

10 The basic work year for librarians shall be as defined in Article 5. The workweek shall
11 consist of thirty five (35) hours of assigned duties, which may include committee
12 assignments, other college related meetings, teaching responsibilities, if assigned, staff
13 development activities and/or any other professionally related activities as authorized
14 and/or directed by the administration.
15

16 Duty days and hours shall be assigned by administration after consultation between the
17 librarian and the administration with consideration to the unit member's concern.
18

19 6.4 Scheduling 20

21 Responsibility for scheduling lies with the Chancellor or his/her designee.
22

23 6.5 Extended Contract Stipends 24

25 Extended contract faculty shall be paid according to the following formula:
26

27 The employee's annual salary (S) shall be divided by the number of workdays in the normal
28 work year (177) to arrive at the employee's daily rate (DR).
29

30 The employee's daily rate (DR) shall be multiplied by the number of total contracted work
31 days (TCWD) in excess of the normal work year of 177 days to arrive at the extended
32 contract stipend amount (ECSA). The employee's extended contract stipend amount
33 (ECSA) shall be added to the annual salary (S) to arrive at the employee's total
34 compensation (TC).
35

$$S/177 = DR$$

$$DR \times (TCWD-177) = ECSA$$

$$S + ECSA = TC$$

38 For example, if an employee's annual salary is \$ 50,000 and the employee's extended
39 contract shall entail a total contracted work year of 221 days, the employee would be
40 compensated an additional \$ 12,429.56 as a stipend for the extended contract for a total
41 salary of \$ 62,429.56 for the school year in question.

$$\$ 50,000/177 = \$ 282.49$$

$$\$ 282.49 \times 44 = \$ 12,429.56$$

$$\$ 50,000 + \$ 12,429.56 = \$ 62,429.56$$

45 **ARTICLE 7. WORKLOAD REDUCTION/PART-TIME**

1
2 Members of the bargaining unit may petition the Governing Board of the District to reduce their
3 workloads from full-time to part-time and shall receive the retirement service credit they would
4 have received if they were employed on a full-time basis, and have their retirement allowance, as
5 well as any other benefits they are entitled to under the State Teachers Retirement System
6 (STRS), based upon the salary they would have received if employed on a full-time basis.
7

8 Reduced workloads under this Article shall be subject to the following provisions:
9

10 7.1 The option of part-time employment shall be exercised at the request of the employee and
11 can be revoked only with the mutual consent of the District and the employee.
12

13 7.2 The employee shall have been employed full-time in a position requiring certification for at
14 least ten (10) years, of which the immediately preceding five (5) years were full-time
15 employment.
16

17 7.3 During the period immediately preceding a request for reduction in workload, the employee
18 shall have been employed full-time in a position requiring certification for a total of at least five
19 (5) years without a break in service. For purposes of this Article, sabbaticals and other approved
20 leaves of absence shall not constitute a break in service. Time spent on a sabbatical or other
21 approved leave of absence shall not be used in computing the five (5) year full-time service
22 requirement prescribed herein.
23

24 7.4 The employee shall have reached the age of fifty-five (55) prior to reduction in workload.
25

26 7.5 The period of such part-time employment shall not extend beyond the end of the academic
27 year during which the employee reaches his or her seventieth (70th) birthday.
28

29 7.6 The period of such part-time employment shall not exceed five (5) years.
30

31 7.7 The minimum part-time employment shall be the equivalent of one-half (1/2) of the number
32 of days of service required by the employee's contract of employment during his or her final year
33 of service in a full-time position.
34

35 7.8 The employee shall be paid a salary, which is the pro-rata share of the salary he or she
36 would be earning had he or she not elected to exercise the option of part-time employment.
37

38 7.9 The member shall contribute to the STRS the amount that would have been contributed had
39 the member been employed full-time.
40

41 7.10 The District shall contribute to the STRS an amount based upon the salary that would have
42 been paid to the member had the member been employed full-time.
43
44
45

ARTICLE 8. COMPENSATION

1
2 **8.1 Preamble**
3

4 The parties agree that their goal for the duration of this agreement and this article is to
5 compensate faculty members comparably to the contiguous Community College Districts
6 known collectively as the “Central 14”. The “Central 14” districts are:
7

- 8 Allan Hancock Community College District
- 9 Cabrillo Community College District
- 10 College of the Sequoias
- 11 Gavilan Community College District
- 12 Hartnell Community College District
- 13 Kern Community College District
- 14 Merced Community College District
- 15 Monterey – Peninsula Community College District
- 16 San Luis Obispo County Community College District
- 17 San Joaquin Delta Community College District
- 18 State Center Community College District
- 19 West Kern Community College District
- 20 West Hills Community College District
- 21 Yosemite Community College District

22
23 8.1.1 The parties acknowledge that, because districts are in different stages of
24 agreements or negotiations, it is generally not possible to know the exact
25 compensation package of each of the Central 14 districts at the beginning of any
26 given year. The parties agree that for comparison purposes, the parties will use
27 the Central 14 data for the prior academic year as reported in the Community
28 College Compensation Survey published annually by the Community College
29 Association.
30

31 8.1.2 The parties recognize their mutual interest in maintaining fiscal stability.
32 Therefore the parties agree that the compensation goal must be achieved in
33 conjunction with the District’s maintenance of prudent reserves against
34 contingencies.
35

36 8.1.3 The District’s ability to meet the goal of compensating faculty members
37 comparably to the Central 14 is further dependent upon the District meeting
38 funded enrollment growth targets set by the District and by the State Chancellor’s
39 Office. If those goals are not met, the parties acknowledge that the District will
40 not be able to meet its long-term compensation goal.
41
42
43
44

45 **8.2 2006-2007 Salary Schedule**

1
2 Effective July 1, 2006, for the year 2006-2007, the 2002-2003 salary schedule set forth in Exhibit
3 "C" shall be increased as follows:

4 Each cell of the 2002-2003 salary schedule, shall be increased on the 2006-2007 salary schedule
5 by 10.92%, effective July 1, 2006. Additionally, each member of the bargaining unit employed in
6 paid work status on the date this agreement is ratified and approved shall receive a one time non-
7 repetitive stipend based upon a calculation of the product of 5% times the payroll earned during
8 the period March 1, 2006 through June 30, 2006. (Example: an employee who earns an amount
9 of \$ 20,000 during the period of March 1, 2006 through June 30, 2006, would receive \$ 1,000,
10 calculated as follows: $0.05 \times \$ 20,000 = \$ 1,000$, payable in the July 2006 payroll cycle.

11
12 2007-2008 Salary Schedule

13
14 For the year 2007-2008, the 2006-2007 salary schedule set forth in Exhibit "C" shall be increased
15 as follows:

16
17 Each cell of the salary schedule shall be increased by the greater amount of 3.0% or the state
18 funded COLA percentage to the extent the COLA is fully funded, effective July 1, 2007.

19
20 2008-2009 Salary Schedule

21
22 For the year 2008-2009, the 2007-2008 salary schedule set forth in Exhibit "C" shall be increased
23 as follows:

24
25 Each cell of the salary schedule shall be increased by the greater amount of 3% or the state
26 funded COLA percentage to the extent the COLA is fully funded, effective July 1, 2008.

27
28 8.2.1 Each unit member will advance one step per year of service to the district.

29
30 8.3 Full Time Overload Pay

31
32 Unit members who teach more than a full-time work load as defined in Article 6, shall be paid
33 at the current adjunct hourly rate as adjusted by the Governing Board. Notification will be
34 sent to unit members when adjustments to the adjunct hourly rate are made by the Governing
35 Board.

36
37 8.4 Mileage/Predominate Site

38
39 Travel compensation by the District is based upon the principle that all unit members report to
40 instructional duty at their own expense. For the purpose of calculating mileage, each unit
41 member, annually in the fall, shall be designated a predominate site. That determination shall
42 be made based on the fall schedule. Said designation shall be made by the Chancellor or
43 his/her designee. Mileage compensation for assigned instructional duties on sites other than
44 the predominate site shall be compensated at the I.R.S. rate effective July 1 of each year.

45
ARTICLE 9. INSURANCE

1
2 9.1 Preamble
3

4 As part of its total compensation package, and in order to recruit and retain faculty, the District
5 includes health and welfare premiums in the benefit package. Central Valley Trust Plan A is the
6 premier medical plan in the area. The interest of the District is to keep this Plan at a reasonable
7 cost, constant with its interests related to salary.
8

9 9.2 Coverage
10

11 The District will provide for each member of the bargaining unit insurance coverage as follows:
12

13 . HOSPITAL AND MEDICAL INSURANCE

14 Carrier selected by the CVT: Employee and Dependents
15

16 .DENTAL INSURANCE

17 Carrier selected by the CVT: Employee and Dependents unlimited dental, (and
18 orthodontia, (50/50) for dependent children limited to \$ 500.00 lifetime maximum.
19

20 .VISION INSURANCE

21 Carrier selected by the CVT: Employee and Dependents
22

23 .LIFE INSURANCE

24 Currently UNUM: Employee only (\$50,000)
25

26 .INCOME PROTECTION INSURANCE

27 Currently UNUM: Employee only
28

29 .PERSONAL ACCIDENT INSURANCE

30 Currently CIGNA: Employee Only (\$25,000)
31

32 PCS card co-pay for prescription drugs: Currently \$ 5.00 Generic and \$ 12.00 Brand for 30 day
33 supply and \$ 10.00 Generic and \$ 18.00 for 90 day mail order supply.
34

35 9.3 District Contribution
36

37 Effective October 1, 2006, the maximum District contribution shall be a sum which for calculation
38 purposes shall be \$ 966.36 per month. This amount is only subject to change based upon premium
39 changes received from CVT, based on the 100% Plan 1A. The District contribution CAP for each
40 fiscal year 2007-2008 and 2008-2009 will be increased by the same percentage that the CVT
41 premiums increase for that period.
42

43 Any amount in excess of the District's monthly contribution shall be the employee's co-payment
44 and shall be deducted from the unit member's monthly salary as a payroll deduction. The IRC
45 Section 125 provision allowing for deductions on a pre-tax basis will be available to the extent

1 allowable by law.

2
3 Employees shall have the option of selecting from four (4) Central Valley Trust (CVT) Plans, as
4 ratified by the bargaining unit, beginning October 1, 2006.

5
6 If the District receives a rebate, refund or reduction in the premium of the above health and welfare
7 benefits, the District shall take the budgeted amount in excess of actual cost, and place it in a
8 "Health and Welfare Reserve." These funds shall be held in reserve and applied to increases in
9 health and welfare premiums over the capped amount prior to assessing employees for such
10 amounts.

11
12 9.4 Retirees

13
14 9.4.1 Unit members who retire on or after the age of 55 with a minimum of ten (10)
15 years continuous service with the District immediately preceding retirement, shall
16 continue to receive District paid health insurance as per Article 9, sections 9.2 and
17 9.3 as follows:

18
19 9.4.1.1 The District shall pay the hospital and medical insurance premiums
20 for retirees as per Article 9, sections 9.2 and 9.3 until they qualify
21 for Medicare; or reach age seventy (70), whichever occurs first.
22 After which time, the District shall pay one-half (1/2) of the amount
23 of the premiums provided that such contribution for said premiums
24 shall not exceed \$2400 annually until they qualify for Medicare or
25 reach age seventy (70) whichever occurs first, or \$1200 annually
26 thereafter.

27
28 Unit members who retire on or after the age of 55 but prior to the
29 age of 65 with a minimum of fifteen (15) years continuous service
30 with the District immediately preceding retirement, may continue to
31 receive for themselves and their spouse the same District
32 contribution amount for health insurance plans offered to retirees by
33 CVT as the contribution amount provided to unit members
34 currently employed and in paid work status, as per Article 9
35 (sections 9.2 and 9.3), until the unit member's 65th birthday. At age
36 65, the unit member shall receive coverage as set forth in section
37 9.4.1.1. **(Change ratified on 01-17-2008).**

38
39 9.5 Surviving Spouse

40
41 The District agrees to continue to pay hospital and medical insurance premiums as provided above
42 for the surviving spouse of either an active or retired employee for one hundred eighty (180) days
43 following the end of the month in which the employee's death occurs. The surviving spouse of such
44 employee shall have the right to buy into the District's hospital and medical insurance program
45 during this one hundred eighty (180) day period and thereby continue such coverage following the

1 one hundred eighty (180) day period at the surviving spouse's own expense.
2

1
2
3 **ARTICLE 10. LEAVES**

4
5 10.1 Sabbaticals

6 Sabbatical leaves may be granted to members of the certificated employees bargaining unit for
7 the purpose of carrying out an approved program, which will benefit the District, the students,
8 and the instructor. Consideration will be given to programs designed to increase the
9 effectiveness of the staff member and his/her usefulness to the District through study, research,
10 travel, or other creative activity. The sabbatical is not an earned right, but rather a privilege.

11 A member of the unit who has satisfactorily completed a sequence of six (6) full years of service
12 will be eligible to apply for such leave.

13
14 Leave may be granted for a full academic year at half pay, one (1) semester at full pay, or two (2)
15 semesters at half pay, provided that in the last case both leaves are completed within a three (3)
16 year period.

17
18 The proposed plan of work must significantly relate to the faculty member's teaching assignment.
19 It should have the effect of enhancing the background or improving the teaching ability of the
20 faculty member. Equal value shall be given to study, research, travel, or other creative activity,
21 or a combination of the four.

22
23 Eligible faculty members must submit a proposed plan in writing, to the Chancellor or his/her
24 designee, prior to January 1 of the academic year preceding the year for which the leave is
25 requested. The plan of work should provide sufficient information for evaluation according to
26 the criteria outlined above.

27
28 Either a faithful performance bond or a leave of absence agreement must be executed as a
29 condition of the leave, and the employee shall agree in writing to render a period of service to the
30 District following his/her return from the leave, which is equal to twice the period of the leave.

31
32 A written report and transcripts covering formal academic study, if any, shall be filed upon return
33 from leave with the Chancellor or his/her designee for review by the members of the Board of
34 Trustees.

35
36 The forms necessary to request a sabbatical leave are attached to this agreement as Exhibit "E".
37

38 10.2 Sick Leave

39
40 Members of the unit shall accrue twenty (20) days of sick leave with pay for each school year,
41 such leave to be made available on the first day of each school year.

42
43 Instructors will notify the Chancellor or his/her designee, of illness as early as possible before the
44 absence; however, the Chancellor or his/her designee should be notified as early as possible on
45 the day the absence occurs.

1 Any unused portion of the sick leave will be cumulative indefinitely and will be transferred to
2 another school district upon the teacher's request.

3
4 Unused sick leave accrued in California public school districts where the instructor worked for at
5 least one (1) full year, and where there is no break in service during the change from the original
6 district to the West Hills Community College District, may be transferred to the West Hills
7 Community College District upon the application of the employee and verification by the
8 previous employer(s). Official verification of unused sick leave must be forwarded to the Vice
9 Chancellor Business Services, and it will be credited to the instructor's sick leave balance.

10
11 A time off duty form, attached as Exhibit "F", will be signed by a unit member who is absent
12 because of illness upon return to duty. The District may require a written statement from a
13 physician selected and paid for by the District if the absence extends beyond one (1) week.

14
15 A unit member when on a leave of absence other than paid leave will maintain accumulated sick
16 leave credit, but will not accumulate any additional sick leave during the period of such unpaid
17 leave.

18
19 When an absence extends for a period of five (5) school months or less, the amount deducted
20 from the salary due the unit member for any month in which the absence occurs shall not exceed
21 the sum which is actually paid a temporary employee employed to fill the position during the
22 absence or, if no temporary employee was employed, the amount which would have been paid
23 had a temporary employee been employed.

24 25 10.3 Bereavement Leave

26
27 Unit members may use accumulated sick leave for the death of any of the member's immediate
28 family.

29 30 10.4 Pregnancy Leave

31
32 A member of the bargaining unit shall be granted a leave of absence for reasons of pregnancy,
33 miscarriage, childbirth, and recovery therefrom. The request for leave, except in the case of a
34 miscarriage, shall be submitted to the Chancellor as far in advance as possible and in no event
35 less than one (1) month before the leave.

36
37 The length of the leave of absence, including the date on which the leave shall commence and the
38 date on which the unit member shall resume duties, shall be determined by the unit member and
39 the unit member's physician.

40
41 Disabilities caused or contributed to by pregnancy, miscarriage, childbirth, and recovery
42 therefrom are, for all job-related purposes, temporary disabilities and shall be treated as such
43 under the health or temporary disability insurance or sick leave plan available to unit members.
44 Any accrued sick leave and entitlement to other sick leave may be used for pregnancy purposes.
45 In the event the unit member is unable to return to duty after the expiration of an approved

1 pregnancy leave, the District may grant additional personal leave without pay not to exceed one
2 (1) school year beyond the school year in which the birth occurred.

3
4 An employee who is granted pregnancy leave shall not lose other benefits included under the
5 terms of this Agreement for which the employee qualifies.

6
7 10.5 Personal Necessity Leave

8
9 Unit members may use accumulated sick leave for personal necessity.

10
11 A certificated employee who is a member of the bargaining unit may use accumulated sick leave
12 benefits in a school year for any of the following purposes:

13
14 10.5.1 Accident or illness involving an employee's person or property or the person or
15 property of the employee's immediate family.

16
17 10.5.2 One (1) day of personal leave as determined by the member of the bargaining unit
18 not to be used for activities of the exclusive bargaining agent.

19
20 10.5.3 Appearance in any court or before any administrative tribunal as a litigant, party,
21 or witness under subpoena or any order made with jurisdiction.

22 The employee utilizing leave under Sections 10.5.1, 10.5.2, or 10.5.3 above shall
23 verify on the approved District form that the employee has taken a leave for one
24 of the reasons listed above. Advance permission is required for reasons under
25 Section 10.5.3 above.

26
27 10.6 Personal Business Leave

28
29 Unit members may use accumulated sick leave for Personal Business Days. Such leave may be
30 taken in hourly increments. No more than five (5) unit members shall be allowed absence for
31 such leave at any one time.

32
33 10.7 Industrial Illness and Accident Leave

34
35 All certificated employees who are eligible for Worker's Compensation benefits will be provided
36 with industrial accident and illness leave as follows:

- 37
38 1. The accident or illness must have arisen out of and in the course of the employment
39 of the employee and must be accepted by the State Compensation Insurance Fund as
40 a bona fide injury or illness.
41
42 2. Allowable leave for each industrial accident or illness will be for the number of days
43 of temporary disability, but not to exceed sixty (60) days during which the college is
44 in session or when the employee would otherwise have been performing work for the
45 District in any fiscal year.

- 1
2 3. Allowable leave will not be accumulated from year to year.
3
4 4. The leave under these rules and regulations will commence on the first day of
5 absence.
6
7 5. Maximum salary during any one period will not exceed the normal salary rate.
8
9 6. Industrial accident or illness leave will be reduced by one (1) day for each day of
10 authorized absence regardless of a temporary disability indemnity award.
11
12 7. During any paid leave of absence, the employee will endorse to the District the
13 temporary disability indemnity checks received on account of industrial accident or
14 illness. The District, in turn, will issue the employee appropriate salary warrants for
15 payment of the employee's salary and will deduct normal retirement and other
16 authorized contributions.
17
18 8. Temporary disability payment on account of the industrial accident or illness must be
19 endorsed back to the District during any paid leave of absence.
20
21 9. Upon termination of the industrial accident or illness leave, the employee will be
22 entitled to regular sick leave benefits. An absence for such purpose will be deemed to
23 have commenced on the date of termination of the industrial accident or illness leave,
24 provided that if the employee continues to receive temporary disability indemnity, the
25 employee may elect to draw on accumulated sick leave to provide (with temporary
26 disability indemnity payments) total income not to exceed normal full salary.
27

28 10.8 Military Leave

29
30 An employee shall be entitled to all military leaves and benefits as provided by Education Code
31 section 87832 and Military and Veteran's Code sections 389 and 395-395.4.
32

33 10.9 Jury Duty

34
35 A certificated employee who is called for jury duty will be granted the necessary time off with
36 pay to fulfill the jury obligation without deduction from sick leave.
37

38 Request for jury service leave should be made by presenting, as soon as possible, the official
39 court summons to jury service to the Chancellor or his/her designee and to the District payroll
40 office through appropriate channels.
41

42 The employee serving as a member of a jury will receive his/her full pay from the District,
43 provided he/she signs over and remits all compensation received for such jury duty, exclusive of
44 mileage, to the District.

45 An employee who has received a leave of absence under this provision shall be available for duty

1 during hours when the employee is not required to be in court.

2
3 **10.10 Other Leaves of Absence**

4
5 A regular employee may request and be granted a leave of absence without pay by the Board of
6 Trustees upon recommendation of the Chancellor or his/her designee, for a period not to exceed
7 one (1) year. Leaves of absence will terminate at the end of the fiscal year, June 30, but may be
8 extended or renewed.

9
10 **10.11 Family Care and Medical Leave**

11
12 Under the Federal Family and Medical Leave Act of 1993 and the California Family Rights Act
13 of 1991 (collectively, “the Acts”), eligible employees are entitled to up to 12 work-weeks
14 (prorated for part-time employees) of unpaid, job-protected leave within a 12 month period for
15 family and medical reasons. The West Hills Community College District (“District”) intends to
16 comply with the Acts and their pertinent regulations, and the interpretation of this policy is
17 governed by the Acts.

18
19 The following conditions, requirements, and procedures shall apply when requests for family care
20 of medical leave are made:

21
22 **10.11.1 Employee Eligibility** To be eligible for benefits under the Acts, an
23 employee must:

24
25 10.11.1.1 Have worked for the District for at least 12 months;

26 10.11.1.2 Have worked at least 1,250 hours over the previous
27 12 months for the District (by example, 182 days x
28 7 hours =1274 hours); and

29 10.11.1.3 Be one of at least 50 employees employed by the
30 District within 75 miles of the employee’s
31 work-site

32 **10.11.2 Reasons For Taking Leave.** A leave request from an eligible
33 employee must be granted for any of the following reasons:

34
35 10.11.2.1 Birth of the employee’s child;

36
37 10.11.2.2 Placement of a child with the employee for
38 adoption or foster care;

39 10.11.2.3 Care for the employee’s child, spouse, or parent with a
40 serious health condition;

41 10.11.2.4 The employee’s own serious health condition that keeps
42 his/her own job function.

43
44 **10.11.3 Advance Notice of Leave And Medical Certification.** Employees
45 will provide (1) advance written notice of the leave request and (2) medical

1 certification whenever a serious health condition is involved.

2
3 10.11.3.1 If the need for the leave is foreseeable, employees
4 will provide 30 days advance written notice. If the
5 need for the leave is unforeseen (i.e., an
6 emergency), notice is required to be given as soon
7 as practicable.

8 10.11.3.2 If the leave is to care for a child, spouse or parent
9 with a serious health condition, or because of the
10 employee's own serious health condition, the
11 employee will provide medical certification from a
12 health care provider or physician. The medical
13 certification must include:

14 10.11.3.2.1 Date of commencement of the serious health
15 condition;

16 10.11.3.2.2 Probable duration of the condition;

17 10.11.3.2.3 Estimated amount of time the health care provider
18 will provide care;

19 10.11.3.2.4 Confirmation that the serious condition of the child,
20 spouse or parent warrants the participation of the
21 employee; or, in the case of the employee's own
22 serious health condition, certification that the
23 employee is unable to perform his/her job functions.

24
25 10.11.3.3 The District may require a second and third medical
26 opinion regarding an employee's serious health
27 condition at the District's expense. When
28 the duration for the leave is uncertain or the
29 estimated time for the leave expires and the
30 employee remains out of work, the District may
31 require subsequent re-certification.

32 10.11.3.4 If the leave is needed for planned medical treatment
33 or supervision; the employee must make a
34 reasonable effort to schedule the treatment or
35 supervision to minimize disruptions to the District.

36 10.11.3.5 An employee's advance notice and medical
37 certification may be required to be given to the
38 employee's supervisor. The supervisor may then
39 determine the adequacy of the notice and medical
40 certification and whether or not the leave will be
41 recommended for approval to the Superintendent.
42 The amount of leave actually granted by the
43 District may be determined by what is reasonable
44 under the circumstances.

45 10.11.3.6 Failure to provide advance notice and medical

1 certification when necessary may delay the granting
2 of leave until such requirements are met.

3
4 10.11.4 Continuation of Health Coverage And Other Job Benefit Plan.

5
6 10.11.4.1 An employee taking leave will continue to
7 participate in any group health care benefits plan
8 under the same terms and conditions, including any
9 necessary co-payments, by which the employee was
10 enrolled prior to the first day of the leave.

11 10.11.4.2 If the employee fails to return from the leave for
12 any reason other than the recurrence, continuance,
13 or onset of a serious health condition, the employee
14 will be liable to the District for premiums paid for
15 maintaining the employee's health coverage.

16 10.11.4.3 An employee may, at his/her expense, continue to
17 participate in all other employee benefit plans
18 offered by the employer during the leave period.

19
20 10.11.5 Intermittent Or Reduced Schedule Leave. An employee may take leave
21 intermittently (e.g., in blocks of time), or by reducing a normal work
22 schedule, in the following circumstances:

23
24
25 10.11.5.1 Where the leave is for the birth or placement of a
26 child, leave may be taken on an intermittent or
27 reduced schedule
28 basis if the District approves.

29 10.11.5.2 Leave may be taken intermittently or on a reduced
30 work schedule whenever it is medically necessary
31 to care for a family member with a serious health
32 condition, or because the employee is seriously ill
33 and unable to work the employee's regular work
34 schedule.

35
36 10.11.6 Substitution Of Paid Leave and Other Leave Requests.

37
38 10.11.6.1 An employee must substitute accrued vacation or
39 other paid leave, including sick leave where
40 applicable (i.e., for the employee's own serious
41 health condition), for the unpaid family care leave
42 entitlement.

43 10.11.6.2 Any paid or unpaid leave taken which meets the
44 requirements of section 10.11.2 will be counted as
45 part of the employee's family care leave

1 entitlement. This means that family care leave
2 runs concurrently with any other leave that meets
3 the requirements of family care leave under section
4 10.11.2
5

6 10.11.7 Pregnancy.

7 A Woman on pregnancy leave will not start using family care leave until
8 her disability period is over (i.e., when their physician takes her off
9 disability after the birth of their child). Thus, although family leave due to
10 an employee's serious health condition would normally run concurrently
11 with sick leave where the employee is out for more than three days with a
12 serious health condition, this will not apply in the case of disability due to
13 pregnancy.
14

15 10.11.8 Spouses Who Work For The District.

16 Spouses employed by the District are jointly entitled to a combined total of
17 12 work weeks of family leave for the birth or placement of a child with
18 them. There is no limitation of entitlement for leaves taken for the serious
19 health condition of their child.
20

21 10.11.9 Period Of Eligibility.

22 The 12 month period of entitlement commences on the first day of the
23 leave.
24

25 10.11.10 Seniority, Employee Benefits and Break in Service.

26 An employee on leave will not lose any seniority or employment benefit
27 that accrued prior to the start of the leave. An employee on leave will not
28 accrue seniority or additional benefits, such as vacation, sick leave or
29 similar benefits, during the leave. The leave will not constitute a break in
30 service for purposes of longevity and seniority.
31

32 10.11.11 Reinstatement of Employment and Fitness for Duty Report.

33 Employees returning from an approved leave will be reinstated to the same
34 or equivalent position. Employees returning from an approved medical
35 leave for their own serious health condition may be required to provide a
36 fitness for duty report to return to work.
37

38 10.11.12 Key Employee Exception to Restoration.

39 An employee who is a "key" employee due to the fact that he/she is a
40 salaried employee and among the highest paid 10 percent of all the
41 employees employed by the District may be denied restoration to his/her
42 position following the leave if the District determines that substantial and
43 grievous economic injury will result if such key employee is reinstated.
44

45 10.12 Sick Leave Calculation

1 Leave usage shall be calculated based on the proportion that the time off
2 bears to a 35 hour week/7 hour day. For example, if a unit member is
3 absent due to illness for one-half day, the unit member will use 3.5 hours
4 sick leave.

5 10.13 Sick Leave Donation

6
7 10.13.1 Unit members may donate unused sick leave to another unit
8 member when that unit member suffers from a catastrophic illness
9 or injury pursuant to Board Policy 7345, the terms of
10 Administrative Regulation 7345, the collective bargaining
11 agreement between the District and the certificated unit and
12 Education Code section 87045.

13
14 10.13.2 For the purposes of Sick Leave Donation, “Catastrophic illness or
15 injury” shall mean an illness or injury:

16
17 10.13.2.1 that is expected to incapacitate the receiving
18 employee for an extended period of time in excess
19 of 15 work days beyond the employee’s paid
20 leave entitlement; and

21
22 10.13.2.2 which would create a financial hardship for the
23 receiving employee because he or she has
24 exhausted all of his or her sick leave and other
25 paid time off.

26
27 10.13.3 Sick leave may be donated by one employee to another employee,
28 as set forth above, subject to the following requirements.

29
30 10.13.3.1 Recipient Employees In order to receive donated
31 sick leave from other unit employees under this
32 provision an employee must:

33
34 10.13.3.1.1 Submit a written request to receive
35 donated leave pursuant to this section.

36
37 10.13.3.1.2 Verify the existence of a “catastrophic
38 illness or injury” as defined above. An
39 employee must provide written medical
40 verification of the catastrophic illness or
41 injury from an appropriate licensed health
42 care provider. The District, in its
43 discretion, may require a second medical
44 opinion from a licensed health care
45 provider of its choice.

45

10.13.3.1.3 Verify the exhaustion of all sick leave and other paid time off.

10.13.3.2 Donor Employees In order to donate sick leave to another employee pursuant to this section an employee must:

10.13.3.2.1 Submit a written authorization to donate his/her sick leave to a properly designated eligible employee, identifying the receiving employee and the number of sick leave days to be transferred to the receiving employee.

10.13.3.2.2 Have at least 15 days of accumulated sick leave.

10.13.3.3 An employee may only donate a maximum of ten (10) days accumulated sick leave to a designated eligible employee. Sick leave donations shall be deducted and credited at a minimum of eight (8) hours, and in hour increments thereafter.

10.13.3.4 The fact of the donation and the identity of the donor and recipient shall be a confidential personnel matter.

10.13.4 Sick leave donations pursuant to this provision shall be deducted from the donor's account and credited to the recipient's account. Such donations shall be unconditional and irrevocable. An employee who donates his or her sick leave pursuant to this provision shall lose rights or entitlement to that sick leave whether or not the donated sick leave is used by the recipient employee.

10.13.4.1 Donated sick leave will be credited between the first and the fifth of each month, and any donations made after the fifth of any given month will be credited at the beginning of the following month.

10.13.4.2 Donated sick leave shall thereafter be treated, for tax, STRS, and other purposes, as though it had

been earned by the recipient.

10.13.4.3 Donated sick leave may be applied to the first day of unpaid status as set forth in 10.13.2.1.

10.13.5 For all donations under this provision, there shall be no adjustment made for differences in individual salary between the donor and recipient. Thus, the recipient will receive his or her regular daily salary for each sick leave day donated, regardless of whether the donor's salary is greater or less than the recipient's salary.

10.13.6 Exhaustion of all sick leave as described herein includes all accumulated sick leave, all other accrued paid leave, and all sources of payment, including Workers' Compensation benefits. The recipient must be in unpaid status and must be unable to return to work at the time of the donation.

10.13.6.1 Any leave provided under the State or Federal Family Leave Acts shall run concurrently with any other paid leave.

10.13.7 Any sick leave donation made pursuant to these provisions shall be final and binding. There shall be no remedy within the District for an alleged right to recover donated sick leave.

10.13.8 An employee may not use donated sick leave credits for a period exceeding twelve (12) consecutive months. An employee who receives donated leave pursuant to this provision shall use any leave credits he or she continues to accrue on a monthly basis prior to using donated leave.

10.13.9 The parties acknowledge that at some time in the future, the classified unit may negotiate a sick leave donation program. If so, the parties agree that, at that time, members of both units may donate sick leave to each other in accordance with Education Code, Board Policy, Administrative Regulations and the mutually agreed upon terms of the respective collective bargaining agreements.

10.13.10 An employee receiving donated sick leave pursuant to this provision may only use the sick leave while the employee suffers from the catastrophic illness or injury

1
2
3

that precipitated the transfer of the sick leave (e.g., if the employee dies or recovers from the illness or injury with unused donated sick leave outstanding, that sick leave shall be lost to both the donating and the receiving employee).

1 **ARTICLE 11. TRANSFER AND REASSIGNMENT**

2
3 **11.1 Preamble**

4
5 All faculty are hired with the expectation that they may be assigned at any District site.

6
7 **11.2 Definitions**

8
9 A "transfer" occurs when a unit member relocates his or her predominant site from Coalinga,
10 Lemoore or Firebaugh.

11
12 A "reassignment" occurs when a unit member changes from one division or department to
13 another.

14
15 A "voluntary" transfer or reassignment is one, which is initiated by the unit member.

16
17 An "involuntary" transfer or reassignment is one, which is initiated by the District.

18
19 A "vacancy" is any newly created or vacated position in the bargaining unit.

20
21 **11.3 General**

22
23 The Chancellor or his/her designee(s) shall transfer or reassign unit members based upon the
24 needs of the District, which are paramount. The Chancellor or designee(s) shall in all cases,
25 determine whether a vacancy exists.

26
27 If requested by the unit member, a conference will be held between the unit member and the
28 Chancellor or designee to discuss the reason(s) for a transfer or reassignment, including the
29 operational needs of the District.

30
31 If a unit member's request for a transfer or reassignment to a vacancy is not granted, or if a unit
32 member is to be involuntarily transferred or reassigned, the unit member may request in writing
33 to meet with the Chancellor or designee to discuss the reason(s). If such a written request is
34 made, then a meeting shall take place. Following that meeting, the unit member may submit a
35 request in writing to the Chancellor or designee that written reason(s) be given. If such a request
36 is made, then the Chancellor or designee shall submit to the unit member the reason(s) in written
37 form.

38
39 When a transfer or reassignment to fill a vacancy is being considered based on the needs of the
40 District, the Chancellor or designee shall notify the Association of the contemplated change and
41 shall post a notice to that effect on designated faculty bulletin boards at all sites or via the
42 District's email system and web page, in order to promote voluntary transfers and reassignments
43 that are in the best interest of the District and the bargaining unit.

44
45 The posted notice of vacancy shall include a job description, the qualifications for the position,

1 and a closing date for applications which is at least ten (10) work days following the posting date
2 of the notice of vacancy.

3
4 If a unit member submits a written request to the Human Resources Office immediately before
5 summer session or a leave of absence to be taken by the unit member, then the District shall
6 notify the unit member (by first-class mail sent to the address provided in the written request) of
7 any posted vacancies that occur during the summer recess or the period of leave of absence.

8
9 Transfers and reassignments shall not be made in an arbitrary, capricious, retaliatory or
10 discriminatory manner, nor shall discipline be a factor when a transfer or reassignment is
11 considered by the District.

12 13 11.4 Voluntary

14
15 A request for a transfer or reassignment may be initiated at any time by the unit member by
16 submitting the request in writing to the Chancellor or his/her designee.

17
18 The District shall endeavor to grant a unit member's request for transfer or reassignment if the
19 training, experience, and abilities of the unit member match the job specifications of the available
20 position.

21
22 The unit member's prior service to the District shall be a factor in determining if a request for
23 voluntary transfer or reassignment is to be granted.

24 25 11.5 Involuntary

26
27 A bargaining unit member who is to be involuntarily transferred or reassigned shall be given
28 ninety (90) days notice if possible, but in all circumstances, as much advance notice as possible
29 prior to the effective date of the transfer or reassignment.

30
31 When an involuntary transfer or reassignment is contemplated, the District shall consider the
32 following factors in addition to the needs of the District:

33
34 11.5.1 The qualifications and demonstrated abilities of the unit member;

35
36 11.5.2 The preference of the unit member; and

37
38 11.5.3 The prior service the unit member has rendered to the District.

39
40 11.5.4 If the District determines that the above factors are equal, seniority shall be the
41 determining factor.

1 **ARTICLE 12. REDUCTION IN FORCE**

2
3 12.1 Definitions

4
5 For the purpose of this Article, the terms “contract employee” and “regular employee”
6 shall be as defined in the Education Code.
7

8 12.2 General

9
10 If it becomes necessary during the term of this Agreement to lay off contract and/or
11 regular employees who are members of the bargaining unit in accordance with the provisions of
12 Education Code section 87743, the parties agree to proceed according to Education Code
13 sections 87413, 87414, 87740 and 87743 through 87743.5, inclusive.
14

15 The District shall furnish the Association with a list indicating the seniority of each
16 contract and regular employee who is a member of the bargaining unit by no later than March 1
17 of any year in which it becomes necessary to lay off contract and/or regular employees who are
18 members of the unit.
19

20 12.3 Procedure

21
22 If such layoffs as described in Section 12.2 above become necessary, the parties agree to
23 act in accordance with the following procedure:
24

25 12.3.1 The District administration shall develop recommendations for reductions in
26 programs and services affecting members of the bargaining unit;

27 12.3.2 The Association and District administration shall meet and confer regarding such
28 recommendations and shall consider unpaid leaves of absence, reduced teaching
29 loads, reassignments, and early retirements;

30 12.3.3 Any proposed changes that emerge from the advisory consultation described in
31 Section 12.3.2 above may be incorporated into the recommendations;

32 12.3.4 The Association and District administration, at least ten (10) calendar days
33 before the date of the Board meeting at which the recommendations are to be
34 made, shall meet and negotiate regarding the anticipated effects of the proposed
35 reduction in force.
36

37 12.4 Criteria

38
39 In the development of recommendations, the parties agree to keep foremost in mind the
40 needs of the communities served by the District and the College’s missions and goals.
41

42 Recommended layoffs shall be on the basis of seniority and qualifications in accordance
43 with pertinent Education Code sections. Seniority shall be determined on the basis of the
44 contract or regular employee’s initial date of paid service with the District. In the event two (2)
45 or more contract or regular employees have the identical initial date of paid service, seniority

1 within that group of employees shall be determined by lot in accordance with Education Code
2 provisions.

3
4 12.5 Effects

5
6 Following layoffs and in the event of a recall to service of affected employees, the parties
7 agree to act in accordance with pertinent Education Code provisions.

8
9 Contract or regular employees who are laid off shall be entitled to receive health and
10 welfare benefits beyond their last date of actual service to the District, but in no case shall these
11 benefits continue beyond September 30 of the year in which the employee was laid off.

1 **ARTICLE 13. RETRAINING**

2
3 The District proposes to grant twenty percent (20%) released time per semester for two
4 (2) semesters during a two (2) year time period or forty percent (40%) for one (1) semester for a
5 faculty member to attain proficiency in an additional teaching area (i.e., meet minimum
6 equivalency requirements in a new teaching discipline) as determined by the District.
7

8 Faculty members who take advantage of the above shall agree, in writing, to remain with
9 the District for one (1) year following released time for retraining. Failure to do so shall mean
10 that the faculty member shall reimburse the District for that portion of his/her salary and benefits
11 that the released time represents.

1 **ARTICLE 14. GRIEVANCE PROCEDURE**

2
3 14.1 Purpose

4
5 The purpose of this procedure is to provide prompt and orderly means of resolving grievances at
6 the lowest administrative level.

7
8 14.2 Definitions

9
10 A "grievance" is a formal, written allegation by a grievant that there has been a violation of a
11 provision(s) of this Agreement.

12
13 A "grievant" is a faculty member, or group of faculty members, employed by the District and
14 covered by the terms of this Agreement.

15
16 A "day" is a day in which the central administrative office of the District is open for business,
17 with the exception of the winter and spring recesses.

18
19 14.3 General Provisions

20
21 It is important that grievances be processed as rapidly as possible. Therefore, the number of days
22 indicated at each level should be considered as maximums, and every effort should be made to
23 expedite the process. The times specified, however, may be extended by mutual consent.

24
25 If a grievance is not processed in accordance with the time limits set forth in this Article, it shall
26 be considered settled on the basis of the last decision rendered.

27
28 A grievant may represent himself/herself or choose to have representation. If the grievant
29 chooses not to be represented by the Association, the Association shall be informed of the
30 decision and have the right to present in writing its views on the grievance at all levels of the
31 procedure.

32
33 Any records pertaining to a grievance shall be kept in a file separate from the grievant's official
34 District personnel file.

35
36 Grievances of a similar or like nature may be joined as a single grievance by mutual agreement of
37 the District and the Association.

38
39 The Association shall have the right to file a grievance alleging a violation of its rights as
40 contained in Article 2, "Association Rights."

41
42 For the purpose of this procedure, references to the President and Chancellor shall also mean
43 their designees.

44
45 14.4 Formal Grievance

1
2 14.4.1 Level 1
3

4 Within fifteen (15) days after the grievant knew, or could reasonably be expected to have
5 known of the event or condition upon which the alleged grievance is based, the grievant
6 shall meet with the Educational Dean to attempt to resolve the alleged grievance.
7

8 14.4.2 Level 2
9

10 If the grievance is not resolved at Level 1, the grievant shall within ten (10) days, submit
11 a written grievance to the President. (The grievance form is attached to this agreement
12 as Exhibit D.)
13

14 The written grievance shall set forth in a clear and concise manner the provision(s)
15 alleged to have been violated, the circumstances involved, and the specific remedy
16 sought. Appropriate grievance forms shall be provided by the District.
17

18 The President shall have ten (10) days after receiving the grievance to render a written
19 decision to the grievant. If the grievant is not satisfied with the decision, or if the
20 President has not rendered a decision within the ten (10) day time limit, the grievant may
21 appeal the decision in writing to the Chancellor, at Level 3, within ten (10) days.
22

23 14.4.3 Level 3
24

25 The appeal to Level 3 shall include a copy of the original grievance, the decision rendered
26 at Level 2, if any, and the reasons for the appeal.
27

28 The Chancellor shall have ten (10) days after receiving the appeal to render a written
29 decision to the grievant. If the grievant is not satisfied with the decision, or if the
30 Chancellor has not rendered a decision within the ten (10) day time limit, the grievant
31 may submit the grievance to arbitration. The grievant may bypass the arbitration process
32 and proceed directly to Level 5. In either case, the action shall be taken within ten (10)
33 days.
34

35 14.4.4 Level 4
36

37 The Level 4 arbitration shall be conducted in accordance with the Voluntary Arbitration
38 Rules of the American Arbitration Association (AAA) and the provisions of this
39 procedure.
40

41 However, upon the mutual agreement of the District and the Association, the arbitration
42 may proceed under the expedited rules of the AAA.
43

44 The arbitrator shall be selected from a list provided by the AAA by eliminating names
45 until only one (1) name remains. The one (1) remaining name shall be the arbitrator.

1 The process of striking names shall occur within ten (10) days of receipt by both parties
2 of the AAA list.

3
4 The decision of the arbitrator shall be based solely on the evidence and testimony
5 presented at the hearing and upon the contents of the briefs.

6
7 The arbitrator shall have no power to alter, amend, add to, subtract from, or disregard
8 any of the terms of this Agreement, but shall determine only if there has been a violation
9 of a provision(s) of this Agreement as alleged in the grievance. The arbitrator will be
10 without power or authority to make any decision, which requires the commission of an
11 act, prohibited by law or which is in violation of the terms of this Agreement.

12
13 The decision of the arbitrator shall be advisory only and shall be in the form of a written
14 recommendation to the Board of Trustees. Copies of the decision shall be submitted to
15 the District, the Association, and the grievant.

16
17 All fees and expenses of the arbitrator shall be shared equally by the District and the
18 Association. Other expenses shall be borne by the party incurring them.

19
20 14.4.5 Level 5

21
22 The Board of Trustees shall consider the arbitrator's recommendation at its next regular
23 meeting, provided at least ten (10) days have elapsed since receipt of the decision.

24
25 The Board of Trustees may implement the arbitrator's decision in whole or in part; may
26 decide not to implement the decision; may meet with the parties to discuss other
27 alternative solutions; or may take whatever other action it deems appropriate.
28 The action of the Board of Trustees shall be final and binding.

29
30 In the case of a grievant who has appealed a decision of the Chancellor directly to Level
31 5, the Board of Trustees shall render its decision in writing within twenty (20) days of the
32 day the Board heard the grievance. The action of the Board of Trustees shall be final and
33 binding.

34
35 Should the Board reject an arbitrator's decision, which sustains the grievant, the grievant
36 and/or the Association may appeal the Board's decision in a court of competent
37 jurisdiction.

38
39 14.5 Reprisals

40 No reprisals of any kind will be taken by the District against any person who files a
41 grievance, or any party in interest, any member of the Association or any other
42 participant in the grievance procedures by reason of such participation.
43

1 **ARTICLE 15. COMPETENCY AND FACULTY SERVICE AREAS**

2
3 As required by Education Code sections 87743.1 and 87743.2, the parties agree that there will
4 be one (1) faculty service area which encompasses the entire district, and that the term "faculty
5 service area," as applied to members, shall mean all District programs in which full-time
6 instructors, counselors, and librarians are employed.

7
8 As required by Education Code section 87743.5, the parties agree that the word "competency"
9 and the term "competency criteria", as applied to bargaining unit members, shall be tantamount
10 to the possession of minimum qualifications for district employment as an instructor, counselor,
11 or librarian in accordance with Education Code sections 87355 and 87356.

ARTICLE 16. SAFETY

1
2
3
4
5
6
7
8

Employee safety is a primary concern of the Governing Board and the administration of the District and is of highest priority. The obligation of the District is to provide and maintain safe working conditions and equipment at all times and to comply with standards prescribed by applicable federal, state, and local laws and regulations affecting employee safety. Any employee who notices any unsafe conditions shall remedy and/or report the condition to the Vice Chancellor of Business Services or the Director of Maintenance and operations immediately.

ARTICLE 17. AG DEPARTMENT

1
2
3
4
5

17.1 The Ag Department faculty contracts shall be a twelve month, 221 day contract.

ARTICLE 18. SEPARABILITY AND SAVINGS

If any provision of this Agreement or any application of a provision of this Agreement to any employee or group of employees is held invalid by operation of law or by a court of competent jurisdiction, such provision shall be inoperative, but all other provisions shall not be affected thereby and shall continue in full force and effect.

ARTICLE 19. EFFECT OF AGREEMENT

It is understood and agreed that the specific provisions contained in this Agreement shall prevail over District practices and procedures and over state laws to the extent permitted by state law and that in the absence of specific provisions in the Agreement, applicable state laws and District policies shall be in effect.

1 **ARTICLE 20. DISTANCE LEARNING**
2

3 **20.1 Preamble**

4 Distance Learning is defined as the use of technology for at least 51% or more of the time
5 to deliver instruction during the course term in which the instructor and student are
6 separated by distance.

7 The District reserves the right to offer courses in any medium it determines best meets the
8 needs of the student. The District may consider schedule, faculty preference, student
9 preference, historical patterns of class offering and available technology in determining how
10 a class will be offered. The District will utilize available technology in evaluating non-
11 traditional courses. To the extent practical, non-traditional courses will be treated in all
12 respects like traditional courses.

13 **20.2 Online Learning Instructor Qualifications**

14 Faculty members who wish to teach an online course are encouraged to either take an
15 online course themselves or take a course in teaching distance learning courses, or have
16 taught an online course within the immediate past five (5) years, as a means to enhance
17 their eligibility to teach in an online learning mode.
18

19 **20.3 Class Size**

20
21 20.3.1 For courses fully taught in an online mode, enrollment shall be limited to a
22 maximum of 50* students per section. (*Except as noted in existing or current
23 class size limitations, i.e., English)

24
25 If on the census date, the enrollment is at 51 or more students, the faculty
26 member will receive a stipend of \$1000. An additional \$1000 stipend will be
27 awarded for every ten students enrolled above the 50.
28

29 20.3.2 For courses fully taught in video-conference mode, enrollment shall be limited to
30 a maximum of 50* students per section. (*Except as noted in existing or current
31 class size limitations, i.e., English.)

32 If on the census date, the enrollment is at 51 or more students, the faculty
33 member will receive a stipend of \$1000. An additional \$1000 stipend will be
34 awarded for every ten students enrolled above the 50.

35
36 **20.4 Compensation/Workload**

37
38 20.4.1 An instructor who teaches a course delivered entirely in an online mode for the
39 first time will be compensated at one and one-half (1 ½) times the regular unit

1 load for that course, on the condition that the instructor agrees to teach that
2 course in that mode for a minimum of two (2) semesters within a period of two
3 (2) consecutive years.

4
5 20.4.2 An instructor who teaches a course delivered entirely in a video-conference
6 mode will be compensated by a stipend of two hundred and fifty dollars
7 (\$250.00) in addition to regular unit load for that course conditioned upon
8 reaching a minimum class size of thirty five students.

9
10 20.4.3 The compensation/workload provisions (Section 20.1.2.1 and 20.1.2.2) shall
11 not apply to instruction using any other distance learning mode or any hybrid
12 thereof.

13
14 20.5 Technological and Instructional Support

15
16 20.5.1 The District shall establish and maintain a help desk for on-line course support to
17 faculty, students and staff.

18
19 20.5.2 Technical support will be available for all video-conference courses.

20
21 20.5.3 Instructional aides shall not be utilized to increase the number of students in
22 relation to the number of distance learning instructors pursuant to California
23 Education Code section 88242.

24
25 20.5.4 In the event the College District employs instructional aides to assist distance
26 learning instructors in the performance of their duties and in the supervision of
27 students and in instructional tasks which, in the judgment of the faculty to
28 whom the instructional aide is assigned, may be performed by a person not
29 qualified as classroom instructor, the faculty member shall retain responsibility
30 for the instruction and supervision of the students in his or her charge pursuant
31 to California Education Code section 88244.

32
33 20.6 Intellectual Property and Ownership and Use Rights to Distance Learning Materials

34
35 The rights and ownership of intellectual property as between any member of the bargaining unit
36 and the District shall be governed by the applicable provisions of state and federal law and as
37 follows. Distance Learning Courses created by District employees shall be subject to the
38 copyright and ownership provisions herein. Copyrighted materials or materials, which can be
39 copyrighted (for example, tapes, CDs) fall under the copyright provisions herein.

40
41 20.7 Intellectual Property Defined

42
43 Intellectual property shall be defined as follows: Inventions, discoveries, works of authorship
44 and/or other creative works that may be subject to protection under federal or state patent,
45 copyright, trademark, and/or trade secret laws arising from or related to the works or efforts of

1 faculty. Intellectual property as used in this Agreement shall be one of three (3) types:
2

- 3 (1) Independent faculty efforts: Properties created by the faculty member in the
4 fulfillment of the faculty member's normal duties and responsibilities, without any
5 significant District support, nor commissioned by the District.
6 (2) Works for hire: District-commissioned projects, which are the result of the faculty
7 member and the District knowingly, and voluntarily entering into a written
8 agreement to create a specific intellectual property. Such efforts are not in
9 fulfillment of the faculty member's normal duties and responsibilities. They are not
10 normal research or teaching assignments.
11 (3) Joint efforts: Works created by faculty members with the support of the District.
12 Joint efforts occur when the faculty member and the District jointly create an
13 intellectual property as part of the fulfillment of the faculty member's normal
14 duties and responsibilities.
15

16 20.8 District Support Defined
17

18 As referred to herein, District support may include funding, release time, use of District
19 laboratories, computers, supplies, staff, facilities, printing services, and the like. District support
20 shall also include support provided by another organization when administered or controlled by
21 the district. Significant support shall include \$5,000 or more in un-reimbursed use, other than
22 incidental uses (use of public facilities and normal services including library and computer use) in
23 connection with the work. Significant use of District facilities means extensive un-reimbursed use
24 of laboratory, studio, or computer facilities, or human resources. Sabbatical/Faculty
25 Improvement Leaves, Research Professorships, and reassigned time for normal duties are
26 specifically excluded from consideration as significant use.
27

28 20.9 Copyright Ownership
29

30 Individual faculty efforts are owned by the faculty creator. Works-for-hire by the District are
31 owned by the District. Joint efforts are owned by the faculty creator.
32

33 20.10 Distribution of Revenues
34

35 All revenues derived from independent faculty efforts shall belong to the faculty member who
36 created it. For works for hire and joint efforts:
37

38 The first \$5,000 gross revenues shall be paid to the faculty creator.
39

40 Thereafter, the District shall be reimbursed for all documented expenses from revenues in
41 excess of \$5,000.
42

43 Thereafter, for all revenues up to \$50,000, 90% shall be distributed to the faculty creator,
44 10% to the District. For all revenues in excess of \$50,000, 75% shall be distributed to the
45 faculty creator, and 25% to the District.

1 20.11 Computer Software

2
3 Such products may be copyright, patent, or trade secret work and shall be allocated accordingly.
4

5 20.12 Ownership and Use Rights of Distance Learning Materials

6
7 To the extent that the District owns the Intellectual Property Rights in and to the Distance
8 Learning Materials, the District agrees to grant the following use rights to the faculty creator
9 without the faculty creator obtaining permission from the District:

- 10
11 20.12.1 to make reproductions of the Distance Learning Materials to use in teaching,
12 scholarship, and research;
13 20.12.2 to borrow portions of the Distance Learning Materials for use in compilations or
14 other composite works;
15 20.12.3 to make derivative works of any kind and in any form such as translations, films
16 and scripts;
17 20.12.4 to alter the Distance Learning Materials, add to the work, or update the content
18 of the Distance Learning Materials;
19 20.12.5 to be identified as the faculty creator of the Distance Learning Materials,
20 including the right to decide whether to allow the faculty creator's name to be
21 displayed in association with the District's logo;
22 20.12.6 to use the Distance Learning Materials in connection with one's profession, that
23 is, during expert witness testimony, in consulting, etc.;
24 20.12.7 to be informed, in advance, of any uses, reproductions, distributions, and
25 dispositions of the Distance Learning Materials by the District;
26 20.12.8 to have exclusive control of all decisions made related to the publishing of
27 instructional materials.
28

29 To the extent that the faculty creator owns the Intellectual Property Rights in and to the Distance
30 Learning Materials, the faculty creator agrees to grant unlimited use rights to the District,
31 including those rights set forth above, and the rights to receive and use all adaptations, editions
32 and successor products related to the copyrighted materials limited to any date upon which the
33 faculty creator separates from employment with the District.
34

ARTICLE 21. MISCELLANEOUS

1
2
3
4
5
6
7
8
9
10
11
12
13

The parties relinquish the right to meet and negotiate on any subject during the term of this Agreement, whether or not the subject is referred to or covered in this Agreement except as otherwise provided in this provision. However, any portion of this Agreement may be reopened at any time by the mutual consent of the parties. Additionally, each party may reopen two articles of its choice in each of the 2006-2007, 2007-2008 and 2008-2009 school years, except Article Sections 8.2, 8.3 and 9.3 are not subject to reopening.

This Agreement shall continue in effect year-to-year unless modified by written agreement of the parties.

1 **ARTICLE 22 RETIREMENT**

2
3 22.1 Early Retirement

4
5 Early retirement is defined as retirement prior to the age of sixty-five years of age.

6
7 22.2 Early Retirement Options

8
9 At the time of early retirement, qualified unit members may elect one of the following
10 retirement options if applicable.

11
12 Option 1: Retirement Incentive Stipend

13
14 Unit members who retire prior to the age of 65 with a minimum of fifteen (15) years
15 continuous service with the District immediately preceding retirement, who have applied
16 for STRS retirement, and who notify the District not later than November 1 of intent to
17 retire with resignation effective no later than June 30, may receive an early retirement
18 incentive stipend as follows:

Age on Effective Retirement date	Incentive Stipend
58	\$ 2,000
59	\$ 4,000
60	\$ 6,000
61	\$ 10,000
62	\$ 12,000
63	\$ 15,000
64	\$ 17,000

19
20
21
22
23
24
25
26
27
28
29
30 Option 2: Retirement Incentive Benefits.

31
32 Unit members who retire on or after the age of 55 but prior to the age of 65 with a
33 minimum of fifteen (15) years continuous service with the District immediately preceding
34 retirement, may continue to receive for themselves and their spouse the same District
35 contribution amount for health insurance plans offered to retirees by CVT as the contribution
36 amount provided to unit members currently employed and in paid work status, as per Article 9
37 (sections 9.2 and 9.3), until the unit member's 65th birthday. At age 65, the unit member shall
38 receive coverage as set forth in section 9.4.1.1.

39
40 **(Changes in Article 22 ratified on 01-17-2008)**

ARTICLE 23.

TERM

This agreement shall become effective on the date the Board acts to approve the terms and conditions of employment, however, the increase in the salary schedule shall by its term be effective on July 1, 2006. Except as otherwise stated, the Collective Bargaining Agreement shall continue in full force and effect up to and including June 30, 2009.

EXHIBIT "A" EVALUATION FORMS
West Hills College
Self-Assessment Form
Non-Tenured Faculty

Instructor _____ Semester _____ Year _____

Instructions: This form is to be completed by non-tenured faculty members each year of evaluation for use by the evaluation team. Please feel free to include additional pages if necessary.

1. Write a brief summary of the results of your students' evaluations. Describe any issues brought by the students that might lead you to change your teaching in the future.

2. Evaluate classroom performance.

3. In what ways might the college be helpful to you in relation to the improvement of your teaching and/or classroom? Have you utilized the available resources, (i.e. colleagues, counselors, administrators, library, Basic Skills Program, Computer labs, etc.)?

4. Describe any activities/committees not necessarily related to your classroom teaching, in which you participated.

EXHIBIT "A" EVALUATION FORMS

Professional Development Goals/Plans Form
Tenured and Non-Tenured Faculty

Instructor _____ Semester _____ Year _____

Instructions: This form is to be completed by each faculty member during each evaluation period for use by the evaluation team. Please feel free to include additional pages if necessary.

1. Since the last evaluation period, what have you done that demonstrates continued professional growth? (Faculty who have not previously completed a professional development goals/plans form should include any professional development activities.)

2. List the professional development goals you expect to undertake during the next evaluation period.

3. Describe how you plan to achieve each of this/these goals. How might the college facilitate this/these activity/activities?

4. How will you evaluate your successes in reaching this/these goals?

Question 1 Multiple Choice

Text(s) and/or other instructional materials related to the course.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 2 Multiple Choice

The course syllabus adequately explained learning objectives, grading procedures, and course policies.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 3 Multiple Choice

Course assignments were appropriate.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 4 Multiple Choice

Course was well organized.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 5 Multiple Choice

Tests and assignments were returned within a reasonable amount of time.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 6 Multiple Choice

Exams and other assessments were a fair test of the course materials.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 7 Multiple Choice

The instructor demonstrated enthusiasm for the subject.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 8 Multiple Choice

The instructor encouraged student interest and intellectual effort.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 9 Multiple Choice

The instructor encouraged students to ask questions and participate in online learning activities.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 10 Multiple Choice

The instructor encouraged individual thinking and differences of opinion.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 11 Multiple Choice

The instructor provided effective online contributions and sites.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 12 Multiple Choice

The instructor maintained an online course environment conducive to learning.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 13 Multiple Choice

The instructor presented ideas and theories clearly.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 14 Multiple Choice

The instructor was accessible for individual communication.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 15 Multiple Choice

The instructor provided course materials regularly and on time.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 16 Multiple Choice

I would take a class from this instructor again.

- Strongly agree
- Agree
- Disagree
- Strongly disagree
- No opinion or not applicable

Question 17 Essay

What did you like about this course?

Question 18 Essay

What about this course could be improved?

EXHIBIT "A" EVALUATION FORMS
Procedures for Counselor Performance Evaluations

Student Evaluations

- 1. Student evaluations will be completed during a 4-week period in the same semester the formal evaluation is conducted.**
- 2. Student evaluations will be completed in October for evaluations conducted during the fall semester and from mid-March through mid-April for evaluations conducted during the spring semester.**
- 3. All students seen by the counselor during the 4-week period will complete the evaluation form.**
- 4. Evaluation forms will be given to each student by an assigned secretarial/clerical employee when the student leaves the counseling session. The secretarial/clerical employee will ask the student to complete the evaluation before leaving the counseling area.**
- 5. The evaluation form will be returned to the secretarial/clerical employee who will place it in an envelope.**
- 6. The secretarial/clerical employee will keep all completed evaluation forms in the envelope during the 4-week evaluation period.**
- 7. At the end of the 4-week period, the secretarial/clerical employee will send the completed evaluation forms to the Dean of Students who will compile the results and distribute the results to the counselor being evaluated and to each member of the evaluation team.**

Peer Evaluations

- 1. Each member of the evaluation team will observe one separate counseling session during the 4-week period and will complete an evaluation form for the session.**

EXHIBIT "E" SABBATICAL LEAVE

PROCEDURES

WEST HILLS COMMUNITY COLLEGE

SABBATICAL LEAVE

I. Application Procedures

- A. Eligible faculty members must submit a proposed plan in writing to the Chancellor prior to December 1 of the academic year preceding the year for which the leave is requested. The plan of work should provide sufficient information for evaluation according to the criteria outlined in Board of Trustees Sabbatical Leave Policy. For the Spring Semester of the 1996-97 academic year, proposed plans must be submitted by November 1, 1996.**

Sabbatical leave applications will then be forwarded to the Academic Senate. The Academic Senate will review the applications and recommend acceptable applications for final approval by the Chancellor and Board of Trustees.

- B. The recommendations of applicants by the Academic Senate will be influenced significantly as indicated below:**
- 1. Major consideration will be given to the present and future worth of the sabbatical leave in terms of improving student success and/or curriculum development.**
 - 2. Consideration may be given to past accomplishments such as workshops, committee work, individual projects and studies, and any other group activities.**
 - 3. Should the District be undertaking a project or have a need in a certain field, priority may be given to those applicants most likely to make a contribution to these needs.**
 - 4. With less emphasis, consideration may also be given in terms of length of service to the District and distribution of sabbatical leaves among the various departments.**

II. Selection Procedures

**A. The Academic Senate will screen the sabbatical leave applications and
EXHIBIT "E" SABBATICAL LEAVE**

forward their recommendation(s), including the applications, to the Dean of Education by February 1 (November 15 for the Spring Semester of 1996-1997).

B. The Dean of Education and the Chancellor will recommend applications. The Chancellor will recommend either acceptance or rejection of the recommended applications to the Board of Trustees at the February meeting (December meeting for the Spring Semester of 1996-1997).

C. The applicants will be notified by the Chancellor on or before March 15 regarding the acceptance or rejection of their applications by the Board of Trustees (December 15 for the Spring Semester of 1996-1997).

**TENATIVE AGREEMENT
BETWEEN THE
WEST HILLS COMMUNITY COLLEGE DISTRICT
AND THE
WEST HILLS COLLEGE FACULTY ASSOCIATION CTA/NEA**

August 11, 2009

The collective bargaining provisions herein by the West Hills Community College District the West Hills Faculty Association are expressly pursuant to the Educational Employment Relations Act and Article 21, Miscellaneous, of the current Collective Bargaining Agreement between the parties.

It is the intention of the West Hills Community College District Board of Trustees to bargain in good faith over the proposals submitted by the respective parties to the Collective Bargaining Agreement pursuant to the Educational Employment Relations Act.

Any article proposed for amendment by the Exclusive Representative in accordance with Article 21, shall be deemed herein to remain unchanged in the Collective Bargaining Agreement unless otherwise expressly stated.

**ARTICLE 8
COMPENSATION**

Article 8 COMPENSATION shall remain unchanged except for salary schedules which shall be amended to include the following:

2009-2010 Salary

The salary schedule shall remain unchanged except as provided in the following section Furlough Days.

1. Preamble

- a. The purpose of furloughs is to close the District budget "gap" by reducing compensation costs.

2. Definitions

- a. The term "furlough day" as used in this Agreement refers to a day on which a faculty unit employee is normally scheduled to work, or is in pay status, that is taken as an unpaid day off.
- b. The term "pay status" as used in this Agreement refers to the time in which a faculty unit employee is working or is on paid leave.

3. Furlough Days

- a. The President may designate specific furlough days as campus closure days, or partial campus closure days. The college president shall consult with faculty regarding the designation of furlough days based on operational needs of the campus and shall explain those needs in writing to the faculty unit employee.

Instructors shall be responsible for out of class assignments if campus closure occurs on a day in which class is scheduled.

- b. Full-time 12 month, 221 day contract Faculty Unit Employees shall be subject to twelve (12) furlough days between July 1, 2009 and June 30, 2010. Unit employees less than 12 months shall have furlough days prorated as follows; 197/199 day contracts shall have eleven (11) furlough days and 177 day contracts shall have ten (10) furlough days.
- c. Furlough Credit – for each month in which a salary deduction is taken a corresponding furlough credit shall be given to the Faculty Unit employee.
- d. Furlough Observance – The Furlough Program shall allow a Faculty Unit employee up to four (4) furlough days in a single calendar month. With the exception of this one-time observation no employee shall be subject to, or take, more than two (2) furlough days in any calendar month for a full-time faculty unit employee over the terms of this agreement. Exceptions shall be made on an individual basis.
- e. A faculty employee shall not be permitted to observe more than one furlough day in any work week, except for flex and duty day in the spring of 2010.
- f. For Academic Year Faculty unit employees (177 day contracts), only those days that are workdays within the academic calendar may be used as furlough days.
- g. All furlough days must be taken before June 30, 2010.
- h. At the end of the negotiated Furlough Program, the President shall ensure that all Faculty unit employees have taken the appropriate number of furlough days commensurate with the salary reductions that have been made.

4. Employee Salary Rates and Schedules

- a. Each employee's pay reduction necessitated by furloughs shall be spread evenly over the employee's work year.
- b. Employees may not substitute sick leave for furlough days.

5. Impact of Furlough Program on Salary Programs, Benefits and Retirement

- a. The Furlough Program shall not affect an employee's anniversary date or seniority credit or create a break-in-service. The Furlough Program shall not impact the accrual of sick leave or the payment of health, dental or vision benefits.
- b. These furloughs shall not constitute a break in service for any faculty unit employee and shall also not change the seniority date of any tenured faculty unit employee.
- c. The furloughs described herein shall have no adverse effect on the eligibility for, award of, and amount of upward movement on the salary schedule pursuant to Article 8.

- d. There shall be no adverse impact on STRS service credit.
2010-2011 and 2011-2012 Re-Openers

Either party may “re-open” Article 8, Compensation, for the 2010-2011 and the 2011-2012 academic years by giving its initial proposal to the other party no later than April 30th of the academic year preceding the 2010-2011 and 2011-2012 academic years.

ARTICLE 9 **INSURANCE**

Article 9 INSURANCE shall remain unchanged except for the following amendments:

- 9.2 Coverage
- 9.3 Prescription drugs shall be in accordance with plans offered by CVT.
- 9.3 Effective October 1, 2009 the maximum District contribution shall be a sum which for calculation purposes shall be \$1057.29 per month. The District contribution CAP for each fiscal year 2010-2011 and 2011-2012 will be increased by the same percentage that the CVT premiums increase for that period.

ARTICLE 10 **LEAVES**

Article 10 LEAVES shall remain unchanged except for the following amendments:

- 10.14 Paternity/Adoption Leave
In accordance with the Family Medical Leave Act, a member of the bargaining unit shall be granted a leave of absence for reasons of adoption.

The request for leave shall be submitted to the Chancellor as far in advance as possible.

The length of the leave of absence, including the date on which the leave shall commence and the date on which the unit member shall resume duties, shall be determined by the unit member and the adoption agency, attorney, and/or physician to the extent limited under the Family Medical Leave Act (FMLA). Leave may not begin prior to the adoption placement and may continue thereafter as necessitated by the adoption up to a maximum time allowed by FMLA.

Any accrued sick leave and entitlement to other sick leave may be used for adoption purposes. In the event the unit member is unable to return to duty after the expiration of an approved paternity/adoption leave, the District may grant additional personal leave without pay not to exceed one (1) school year in which the adoption occurred.

An employee who is granted paternity/adoption leave shall not lose other benefits included under the terms of the Agreement for which the employee qualifies.

ARTICLE 23
TERM

This Agreement shall become effective on July 1, 2009 and shall continue in full force and effect up to and including June 30, 2012.

Signed and entered into this 11th day of August, 2009.

ARTICLE 1. RECOGNITION

The District confirms its recognition of the Association as the exclusive representative of that unit of employees recognized by the District in accordance with the voluntary recognition agreement, which appears as Appendix A. The parties agree to review Appendix A and update it as necessary prior to the final adoption of the collective bargaining agreement.

ARTICLE 2. DISTRICT RIGHTS

It is understood and agreed that the District retains all of its powers and authority to direct, manage, and control to the full extent of the law. Included in but not limited to those duties and powers are the exclusive right to determine its organization; direct the work of its employees; determine the times and hours of operation; determine the kinds and levels of services to be provided, and the methods and means of providing them; determine staffing patterns; determine the number and kinds of personnel required; maintain the efficiency of District operations; build, move, or modify facilities; establish budget procedures and determine budgetary allocation; determine the methods of raising revenue; and take action on any matter in the event of an emergency. In addition, the Board retains the right to hire, classify, assign, evaluate, promote, terminate, and discipline employees.

The exercise of the foregoing powers, rights, authority, duties, and responsibilities by the District, the adoption of policies, rules, regulations, and practices in furtherance thereof, and the use of judgment and discretion in connection therewith shall be limited only by the specific and express terms of this Agreement and then only to the extent such specific and express terms are in conformance with the law. The District retains its right to amend, modify, or rescind policies

1 and practices referred to in this Agreement during an emergency.
2 The District shall have the sole and exclusive right to determine
3 the impacts and effects of matters which are outside the scope of
4 representation. On written request from CSEA, the District will
5 agree to negotiate over any impact or effect of matters which are
6 outside the scope of representation.

7

1 **ARTICLE 3. ORGANIZATIONAL SECURITY/ PAYROLL DEDUCTIONS**

2 Pursuant to the enactment of SB 1960, amending the Educational
3 Employment Relations Act ("EERA"), Government Code sections
4 3540.1, 3543, 3543.5 and 3546, the parties agree to the following
5 organizational security agreement.

6 3.1 Organizational Security

7 3.1.1 It is the mutual intention of the parties that
8 the provisions of this Article protect the
9 rights of individual employees without
10 restricting CSEA's right to require every
11 bargaining unit employee, except those exempt
12 from these provisions, to pay a fair share of
13 the cost of collective bargaining activities.
14 Except as expressly exempted herein, all
15 employees in the bargaining unit who do not
16 maintain membership in good standing in CSEA are
17 required, as a condition of continued
18 employment, to pay service fees to CSEA, in
19 amounts that do not exceed the periodic dues of
20 CSEA, for the duration of this agreement.

21 3.1.2 Except as expressly exempted herein, all
22 employees in the bargaining unit who are not
23 members of the Association as of the date of
24 ratification of this Agreement, and all
25 employees who hereafter enter the bargaining

1 unit, shall, as a condition of continued
2 employment, within 30 days of the date of
3 ratification of this agreement or their initial
4 employment, become members of CSEA or pay to
5 CSEA a service fee in an amount not to exceed
6 the periodic dues of CSEA, for the duration of
7 this agreement.

8 3.1.3 No employee shall be obligated to pay dues or
9 service fees to CSEA until the first of the
10 month following 30 calendar days after the
11 employee first comes into the bargaining unit.

12 3.1.4 Any unit member who is a member of a religious
13 body whose traditional tenets or teachings
14 include objections to joining or financially
15 supporting employee organizations shall not be
16 required to join, maintain membership in or
17 financially support CSEA as a condition of
18 employment with the District. However, such
19 unit members may be required, in lieu of a
20 service fee, to pay sums equal to such service
21 fee to one of the following nonreligious, non-
22 labor organization, charitable fund exempt from
23 taxation under Section 501(c)(3) of Title 26 of
24 the Internal Revenue Code as follows:

3.1.5 Any unit member who claims the religious exemption set forth above must file a written statement to this effect with the District and CSEA within 30 days of the ratification of this agreement or his/her initial employment. As a condition of continued exemption, the employee must furnish CSEA and the District with proof of such payments on an annual basis in the form of payment receipts or payroll deductions.

3.2 Dues and Service Fee Deductions

3.2.1 CSEA has the sole and exclusive right to have employee organization membership dues and service fees deducted by the District for employees in the bargaining unit.

Introduction

The purpose of the 7 Habits Benchmark report is to provide you with valuable feedback regarding your personal and interpersonal effectiveness. Please make sure to **PRINT THIS OUT AND BRING IT WITH YOU TO THE WORKSHOP.**

As you review this report, remember the following two items:

1. **Do NOT take action now.** During the workshop, you will review this data in depth and develop a complete action plan. Go ahead and do a high-level review now, looking for areas that stand out, then put the report aside until the workshop.
2. **Take a balanced view.** Straight feedback is a priceless gift. Don't spend time guessing who gave you low scores or express hostility toward people who responded. Use the data in a balanced, objective way to improve your abilities.

Scoring

The following surveys contributed to your report:

Self	31
Boss	30
Peers	213
Direct Reports	0
Total	274

General Information

All responses were converted to percentages in the following manner:

Response	Resulting Score %
6 Strongly Agree	100%
5 Agree	80%
4 Slightly Agree	60%
3 Slightly Disagree	40%
2 Disagree	20%
1 Strongly Disagree	0%
? Don't Know / NA	**

Responses of "Don't Know" or nonresponses are indicated by ** and are not tallied in the percentages.

			85										
14 Does not push people to work beyond a reasonable limit.	**	84	84	84									
			84										

Habit 1: Be Proactive

TOTALS	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree			
				Others	10	20	30	40	50	60	70	80	90
	**	86	85	87	86								

QUESTIONS

	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree		
				Others	10	20	30	40	50	60	70	80
15 Takes initiative to get things done.	**	88	85	93								
				88								
16 Works to solve problems rather than avoiding them.	**	88	82	92								
				87								
17 Focuses on things he/she can do something about rather than on things beyond his/her control.	**	86	85	86								
				86								
18 Maintains self-control, even in difficult or emotional circumstances.	**	87	88	83								
				87								
19 Accepts responsibility for his/her actions rather than making excuses.	**	86	84	92								
				86								
20 Receives negative feedback without becoming defensive.	**	82	83	77								
				82								
21 Does the "right" thing, even if it is unpopular.	**	86	88	90								
				86								
22 Is decisive when a decision is needed.	**	86	81	86								
				85								

Habit 2: Begin With the End in Mind

TOTALS	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree			
				Others	10	20	30	40	50	60	70	80	90
	**	85	84	86	85								

QUESTIONS

QUESTIONS	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree		
				Others	10	20	30	40	50	60	70	80
23 Begins projects with a clear understanding of desired outcomes.	**	85	85	85								
				85								
24 Displays a sense of direction in life.	**	91	90	94								
				90								
25 Works toward long-term solutions, not just "quick fixes."	**	87	84	89								
				86								
26 Plans ahead to reduce having to work in a crisis mode.	**	83	77	81								
				82								
27 Anticipates how his/her decisions impact others.	**	81	81	88								
				81								
28 Is organized when conducting meetings.	**	85	86	82								
				85								
29 Ensures that his/her work group has a clear sense of direction.	**	84	81	83								
				84								
30 Sets clear expectations with individuals when assigning tasks.	**	84	84	85								
				84								

Habit 3: Put First Things First

TOTALS	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree			
				Others	10	20	30	40	50	60	70	80	90
	**	86	82	83	85	[Redacted]							

QUESTIONS

QUESTIONS	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree		
				Others	10	20	30	40	50	60	70	80
31 Prioritizes work so time is spent on the most important issues.	**	84	81	80	[Redacted]							
				84	[Redacted]							
32 Is punctual (i.e., on time for appointments, meetings, etc.).	**	88	86	85	[Redacted]							
				87	[Redacted]							
33 Is disciplined in carrying out plans (i.e., avoids procrastination).	**	87	83	83	[Redacted]							
				86	[Redacted]							
34 Respects people's time (i.e., does not waste others' time with trivial interruptions).	**	89	89	88	[Redacted]							
				89	[Redacted]							
35 Responds to requests in a timely manner.	**	87	83	85	[Redacted]							
				86	[Redacted]							
36 Is organized in handling multiple tasks and projects.	**	86	80	83	[Redacted]							
				85	[Redacted]							
37 Delegates work that ought to be done by others.	**	80	77	74	[Redacted]							
				80	[Redacted]							
38 Sets reasonable deadlines so others have sufficient time to respond.	**	84	81	85	[Redacted]							
				83	[Redacted]							
39 Keeps his/her work group focused on priorities.	**	85	79	85	[Redacted]							
				84	[Redacted]							

Habit 4: Think Win-Win

TOTALS	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree			
	Others				10	20	30	40	50	60	70	80	90
**	89	90	91										
			89										

QUESTIONS

QUESTIONS	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree			
	Others				10	20	30	40	50	60	70	80	90
40 Does not undermine others for personal gain.	**	90	92	95									
				90									
41 Is fair with all people (i.e., does not show favoritism).	**	87	90	92									
				87									
42 Works to find win-win solutions.	**	89	91	89									
				89									
43 Does what is best for the entire organization, not just his/her own interests.	**	90	86	94									
				89									
44 Has the courage to say no when appropriate.	**	86	81	84									
				85									
45 Shares credit and recognition for successes.	**	91	93	88									
				92									
46 Does not pressure people to compromise personal values.	**	91	95	94									
				91									

Habit 5: Seek First to Understand...

TOTALS	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree			
				Others	10	20	30	40	50	60	70	80	90
	**	86	88	84	87	[Redacted]							

QUESTIONS

QUESTIONS	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree		
				Others	10	20	30	40	50	60	70	80
47 Listens without interrupting.	**	88	95	77	[Redacted]							
				89	[Redacted]							
48 Is sensitive to people's feelings.	**	88	91	90	[Redacted]							
				88	[Redacted]							
49 Seeks to understand people's viewpoints.	**	86	89	88	[Redacted]							
				86	[Redacted]							
50 Seeks to understand problems before attempting to solve them.	**	85	89	86	[Redacted]							
				86	[Redacted]							
51 Is easy to approach with a concern.	**	92	92	90	[Redacted]							
				92	[Redacted]							
52 Spends enough one-on-one time with individuals in his/her work group.	**	85	81	75	[Redacted]							
				85	[Redacted]							
53 Understands what is going on in his/her work group.	**	84	83	86	[Redacted]							
				84	[Redacted]							
54 Understands issues outside his/her work group (e.g., other departments, product trends, competition).	**	83	82	83	[Redacted]							
				83	[Redacted]							

...Then to Be Understood

TOTALS	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree			
				Others	10	20	30	40	50	60	70	80	90
	**	88	89	87									
				88									

QUESTIONS

QUESTIONS	Direct Report	Peer	Boss	Self	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree			
				Others	10	20	30	40	50	60	70	80	90
55 Communicates clearly and concisely.	**	88	85	84									
				87									
56 Does not dominate discussions.	**	87	93	86									
				88									
57 Expresses viewpoints with confidence.	**	91	89	88

76 Takes steps to improve his/her leadership abilities.	**	87	87	87								
				87								
77 Seeks feedback on ways he/she can improve.	**	83	83	83								
				83								
78 Strives to improve his/her workgroup performance.	**	88	87	90								
				88								

Rankings and Frequencies

NOTES

- The individual statements are ranked below by the scores of "Others."
- Others = Average of all Boss, Peer, and Direct Report responses – in other words, all scores excluding "Self."
- "Self" scores are included in the frequencies.

QUESTIONS	Frequencies							Scores				
	Strongly Disagree					Strongly Agree	Don't Know	Direct Report	Peer	Boss	Others	Self

WEST HILLS COMMUNITY COLLEGE

Part-Time Faculty Evaluation Procedures

I. Procedure:

One classroom visit will be made by a Dean or Associate Dean. The visit should be for at least one hour and be made between the fourth and sixteenth week of the semester. (Second to seventh week for summer school.) If necessary, additional classroom visits may be scheduled. A review of the student evaluations, as well as class materials such as tests, quizzes, and syllabi will be conducted by the Administrator.

A written self-assessment will be prepared by the part-time faculty member being evaluated. The Administrator will then complete written summaries of the following;

- a. class materials
- b. self-assessment
- c. classroom visitation
- d. student evaluations

Recommendations and an overall assessment of the level of accomplishment of previous objectives and recommendations will be included.

II. Process:

The area Administrator will send a written notification to the part-time faculty member in his/her area, indicating when the classroom visit will be conducted and outlining the faculty member's responsibilities in the evaluation process. Part-time faculty shall be evaluated at least once during their first semester of employment. Returning part-time faculty shall be evaluated a minimum of once every two years.

The area Administrator will make a one-hour classroom visit. He/She will then review the student evaluations, class materials, instructor's self-assessment/objectives and classroom visit, and schedule a post-observation meeting with the instructor.

During the post-observation meeting, the Administrator will discuss all the data collected and make written recommendations. At the conclusion of the post-observation meeting, the instructor will sign the form to indicate awareness of the evaluation report. The faculty member is not required to agree or disagree with the stated recommendations. The instructor may also include written comments as indicated on the evaluation forms.

III. Conclusion:

The following will be submitted as a permanent evaluation record for inclusion in the instructor's personnel file:

1. Written self-assessment/objectives
2. Review of class materials and self-assessment/objectives
3. Summaries of student evaluations
4. Classroom observation
5. Certification of completion and recommendation

WEST HILLS COMMUNITY COLLEGE
Part-Time Faculty
Self-Assessment

Instructor _____ Semester _____

Course(s) taught: _____

1. Write a brief summary of your perception of the results of your students' evaluation of you.

2. Evaluate yourself in terms of your strengths and areas where you feel you need improvement.

3. Based on your evaluation, state your goals in terms of improving your instructional skills.

4. Planned efforts/objectives for improving professional competency. Comments may include, but are not limited to, such areas as: classes taken, conferences, workshops, seminars, professional training, and professional reading; or informal learning experiences such as concerts, exhibits, performances and site visits.

5. How could the college help you improve your classroom instruction?

6. Future Professional Objectives. List any other plans you have for future development as a professional. How might the District facilitate these plans?

7. Include other information you would like us to know about you here.

8. Are there other areas of the college where you would like to be more involved?
(Examples: curriculum, master planning, etc.)

WEST HILLS COMMUNITY COLLEGE Team Evaluation Form

Instructor _____

Evaluator _____

Class _____

Date _____

Type of Class _____

Location _____

Number of Students Enrolled _____

Number of Students Present _____

Please rate the instructor being evaluated on each of the following items. If the statement does not apply to the lecture or laboratory class, please mark N/A.

Rating Scale: ☞ Poor 1 2 3 4 5 Good ☜

1. The objective of the lesson was clearly stated.

Comments:

1 2 3 4 5 N/A

2. Examples were used to clarify abstract or difficult ideas.

Comments:

1 2 3 4 5 N/A

3. Methods of presentation were for the types of materials

Comments:

☜ 1 2 3 4 5 N/A

4. The instructor presented alternative and/or opposing views.

Comments:

1 2 3 4 5 N/A

5. The instructor used appropriate supporting materials

Comments:

1 2 3 4 5 N/A

6. Major points were summarized

Comments

1 2 3 4 5 N/A

7. Information or material presented was up-to-date.

Comments:

1 2 3 4 5 N/A

8. Material was presented in an organized manner.

Comments:

1 2 3 4 5 N/A

9. Material was presented at an appropriate pace.

PART TIME INSTRUCTOR

1. Explain to the committee how your educational background and experiences have prepared you for part time teaching at a community college level?
2. In your opinion, what is the most important topic to communicate to students in your class? Why?
3. What is your opinion of how technology can be used to assist in your teaching? What experiences do you have in using technology?
4. Describe any recent course work, instructional improvement, diversity workshops, or professional development activities you have participated that are relevant to the duties of this position.

Teaching Demonstration - 5 minutes

5. Please demonstrate a 5 minute lesson you might give during the first week of class.
6. Do you have any questions for the committee?

CONFIDENTIAL AND MANAGEMENT EVALUATION

- 214 A Evaluation of Confidential and Management employees has as its primary purpose recognition and improvement of job performance as it relates to the mission of the District. This process is viewed as continuous and shall include, to the extent possible and where appropriate, input by faculty and peers.
- 214 B A written evaluation report shall be completed annually for each confidential and management employee. See Appendix A of this Board Policy for the Report of Confidential/Management Evaluation form. The annual evaluation report shall present a total impression of the employee's technical and human relations competencies and shall include the following:
- a. A written self assessment, which shall include accomplishments for the current year and goals for the coming year;
 - b. A current job description; and
 - c. A written evaluation from the immediate supervisor.
- 214 C The annual evaluation process shall include one or more of the following: results of surveys and interviews of students, faculty, peers, community members, or others, as well as commendations, and any other procedures as agreed upon by the employee and his/her supervisor.
- 214 D At least once every three years, and before step increases at level 5, 6, or 7 of the Administrative Salary Schedule, faculty input shall be included in the evaluation of confidential and management staff whose assignment involves regular interaction with faculty. Faculty selected

WEST HILLS COMMUNITY COLLEGE
Confidential and Management Evaluation

ADMINISTRATION

to participate in the process shall be selected from a list submitted by the President of the Academic Senate and who regularly interact with the administrator being evaluated. The supervising administrator shall inform the Academic Senate President regarding faculty selected to participate in this evaluation prior to the beginning of the process.

- 214 E The evaluation process shall be jointly designed as outlined in sections 214 C and 214.D by the employee and supervisor based upon observation of the employee's work in his/her assigned position.
- 214 F The supervisor shall provide a copy of, review, and discuss the annual report with the employee.
- 214 G The evaluation is to be completed and submitted to the Superintendent/President by July 1 of each year.
- 214 H The employee's evaluation shall be compiled and written by the immediate supervisor and requires the approval of the supervising dean and the Superintendent/President.
- 214 I The Superintendent/President may initiate an employee evaluation at any time. The scope and process for this evaluation shall be determined by the Superintendent/President.

Subject: WHC Lemoore President's Cabinet - March 9, 2007 - 2:30 p.m.

Attached is the agenda for the meeting referenced above. Also attached are the minutes from the January 25, 2007 meeting and the following handouts which are on the agenda:

- Ed Code Student Drops 58004
- Senate resolution for release time for SLO Faculty Coordinator
- Senate resolution for SLO Hold Harmless policy
- WHC Lemoore Mission Statement (draft)
- WHC Lemoore Outcomes/Goals (draft)

This meeting will be videoconference between the District Office Board Room and the Admin Conference Room 124.

Please arrange your schedules to attend.

Thank you.

Glenda Jones, Administrative Assistant
President's Office
925-3205

Resolution for Student Learning Outcomes—Hold Harmless Policy

Whereas, Student Learning Outcomes (SLO) are an academic and professional matter and speak to the core of curriculum, program review, and accreditation, and

Whereas, the effective implementation and evaluation of SLOs are an instrumental part of the accreditation process that make this a viable institution, and

Whereas, student learning outcomes are faculty-driven at the course level, and

Whereas, West Hills College Lemoore Academic Senate recognizes the importance of the process of the writing, implementation, and evaluation of student learning outcomes, and

Whereas, student learning outcomes are one of multiple measures used to determine student learning at the community college level, and

Whereas, student success or failure in achieving any stated student learning outcomes can be effected by multiple variables,

Therefore, be it resolved the evaluation process of faculty will not be affected by student success or failure in achieving any stated student learning outcome, whether at the course, program, or college level.

Resolution for release time for Faculty Student Learning Outcomes Coordinator

Whereas, Student Learning Outcomes (SLO) are an academic and professional matter and speak to the core of curriculum, program review, and

Whereas, the effective implementation and evaluation of SLOs are an instrumental part of the accreditation process that make this a viable institution, and

Whereas, student learning outcomes are faculty-driven at the course level, and

Whereas, there are approximately 90 faculty reassigned as SLO/Assessment Coordinators throughout the California Community College System, and

Whereas, the State Academic Senate resolutions and advice to local senates included the creation of faculty/SLO coordinator positions with reassigned time, and

Whereas, West Hills College Lemoore Academic Senate recognizes the importance of having a lead faculty member to facilitate the process of the writing, implementation, and evaluation of student learning outcomes, and

Whereas, West Hills College Lemoore Academic Senate recognizes the importance of having a lead faculty member to track student learning outcomes and serve as a training resource for our faculty in this area,

Therefore, be it resolved, that West Hills College Lemoore provide a faculty Student Learning Outcomes Coordinator with 3 units release time each semester.

Board Policy 2710 Conflict of Interest

Reference: *Government Code Sections 1090, et seq.; 1126; 87200, et seq.;*
Title 2, Sections 18730 et seq.

Board members shall not be financially interested in any contract made by the Board of Trustees or in any contract they make or participate in making in their capacity as Board members.

A Board member shall not engage in any employment or activity that is inconsistent with, incompatible with, in conflict with or inimical to his or her duties as an officer of the District. A Board member shall not simultaneously hold two public offices that are incompatible.

Upon leaving the Board, former members shall not, for a period of one year, act as an attorney, agent or otherwise represent for compensation others appearing before the board.

The Chancellor shall establish administrative procedures to provide for disclosure of assets of income of Board members who may be affected by their official actions, and prevent members from making or participating in the making of Board decisions which may foreseeably have a material effect on their financial interest.

Board members shall file statements of economic interest with the filing officer identified by the administrative procedures.

Compliance with conflict of interest rules requires forethought and careful attention. Board members are encouraged to seek counsel from the District's legal advisor in every case where any question arises.

See Administrative Procedure 2710

Board approval date: 7/24/07

Administrative Procedure 2710 Conflict of Interest

Reference: *Government Code Sections 87105, 87200-87210;*
Title 2, Sections 18700 et seq.; and as listed below

Incompatible Activities (*Government Code Section 1126, 1099*)

Board members shall not engage in any employment or activity that is inconsistent with, incompatible with, in conflict with or inimical to the Board member's duties as an officer of the District. A Board member shall not simultaneously hold two public offices that are incompatible. When two offices are incompatible, a Board member shall be deemed to have forfeited the first office upon acceding to the second.

Financial Interest in Contracts (*Government Code Section 1090 et seq.*)

Board members, employees and consultants shall not be financially interested in any contract made by the Board or in any contract they make or participate in making in their capacity as members of the Board or as employees or consultants.

A Board member shall not be considered to be financially interested in a contract if his or her interest meets the definitions contained in applicable law. (See, for example, Government Code Section 1091). A Board member shall not be deemed to be financially interested in a contract if he or she has only a remote interest in the contract and if the remote interest is disclosed during a Board meeting and noted in the official Board minutes. The affected Board member shall not vote or debate on the matter or attempt to influence any member of the Board or other public official to enter into the contract. Remote interests are specified in Government Code Sections 1091(b). They include, but are not limited to, the interest of a parent in the earnings of his or her minor child. In addition, a Board member shall not be deemed financially interested in a contract if he or she has no qualifying interest in the contract, as specified by law. (See Government Code Section 1091.5).

No Employment Allowed (*Education Code Section 72103(b)*)

An employee of the District may not be sworn in as an elected or appointed member of the Governing Board unless and until he or she resigns as an employee. If the employee does not resign, the employment will automatically terminate upon being sworn into office.

Financial Interest in a Governmental Decision (*Government Code Section 87100 et seq.*)

If a Board member determines that he or she has a financial interest in a decision, as described in Government Code Section 87103, this determination shall be disclosed and made part of the Board's official minutes. Where practicable, this announcement shall be made in writing and submitted to the Board in advance of the Board meeting. A Board member, upon identifying a conflict of interest, or a potential conflict of interest, shall do all of the following prior to consideration of the matter:

**Administrative Procedure 2710
Conflict of Interest**

- Publicly identify the financial interest in detail sufficient to be understood by the public;
- Recuse himself or herself from discussing and voting on the matter;
- Leave the room until after the discussion, vote, and any other disposition of the matter is concluded unless the matter is placed on the agenda reserved for uncontested matters. A Board member may, however, discuss the issue during the time the general public speaks on the issue.

Gifts (*Government Code Section 89503*)

Board members and any employees who manage public investments shall not accept from any single source in any calendar year any gifts in excess of the prevailing gift limitation specified in law. Designated employees are those officials designated in the District's conflict of interest code (AP 7212) who are required to file a statement of economic interests. Designated employees shall not accept from any single source in any calendar year any gifts in excess of the prevailing gift limitation specified in law if the employee would be required to report the receipt of income or gifts from that source on his/her statement of economic interests.

The above limitations on gifts do not apply to wedding gifts and gifts exchanged between individuals on birthdays, holidays and other similar occasions, provided that the gifts exchanged are not substantially disproportionate in value.

Gifts of travel and related lodging and subsistence shall be subject to the above limitations except as described in Government Code Section 89506.

A gift of travel does not include travel provided by the District for Board members and designated employees.

Board members and any employees who manage public investments shall not accept any honorarium, which is defined as any payment made in consideration for any speech given, article published, or attendance at any public or private gathering (Government Code Sections 89501, 89502).

Designated employees shall not accept any honorarium that is defined as any payment made in consideration for any speech given, article published, or attendance at any public or private gathering, if the employee would be required to report the receipt of income or gifts from that source on his or her statement of economic interests. The term "honorarium" does not include:

- Earned income for personal services customarily provided in connection with a bona fide business, trade, or profession unless the sole or predominant activity of the business, trade or profession is making speeches.
- Any honorarium that is not used and, within 30 days after receipt, is either returned to the donor or delivered to the District for donation into the general fund without being claimed as a deduction from income tax purposes.

**Administrative Procedure 2710
Conflict of Interest**

Representation (*Government Code 87406.3*)

Elected officials shall not, for a period of one year after leaving their position, act as an agent or attorney for, or otherwise represent for compensation, any person appearing before that local government agency.

Board approval date: 7/24/07

Administrative Procedure 2712 Conflict of Interest Code

Reference: *Title 2, Section 18730;*

Government Code Sections 87103(e), 87300-87302, 89501, 89502 and 89503

Pursuant to Section 18730 of Title 2 of the California Code of Regulations, incorporation by reference of the terms of this regulation along with the designation of employees and the formulation of disclosure categories in the Appendix referred to below constitute the adoption and promulgation of a conflict of interest code within the meaning of Government Code section 87300 or the amendment of a conflict of interest code within the meaning of Government Code section 87306 if the terms of this regulation are substituted for terms of a conflict of interest code already in effect. A code so amended or adopted and promulgated requires the reporting of reportable items in a manner substantially equivalent to the requirements of article 2 of chapter 7 of the Political Reform Act, Government Code sections 81000, et seq. The requirements of a conflict of interest code are in addition to other requirements of the Political Reform Act, such as the general prohibition against conflicts of interest contained in Government Code section 87100, and to other state or local laws pertaining to conflicts of interest.

Section 1. Definitions

The definitions contained in the Political Reform Act of 1974, regulations of the Fair Political Practices Commission (2 Cal. Code of Regs. Sections 18100, et seq.), and any amendments to the Act or regulations, are incorporated by reference into this conflict of interest code. In particular, any amendments to Title 2, Section 18730 of the California Code of Regulations adopted after the effective date of this Administrative Procedure are hereby deemed incorporated into this Administrative Procedure by reference, and no action by the Board of Trustees is necessary to make such amendments effective.

Section 2. Designated Employees

The persons holding positions listed in the Appendix are designated employees. It has been determined that these persons make or participate in the making of decisions which may foreseeably have a material effect on financial interests.

Section 3. Disclosure Categories

This code does not establish any disclosure obligation for those designated employees who are also specified in Government Code Section 87200 if they are designated in this code in that same capacity or if the geographical jurisdiction of this agency is the same as or is wholly included within the jurisdiction in which those persons must report their financial interests pursuant to article 2 of chapter 7 of the Political Reform Act, Government Code Sections 87200, et seq. In addition, this code does not establish any disclosure obligation for any designated employees who are designated in a conflict of interest code for another agency, if all of the following apply:

- (A) The geographical jurisdiction of this agency is the same as or is wholly included within the jurisdiction of the other agency;

**Administrative Procedure 2712
Conflict of Interest Code**

- (B) The disclosure assigned in the code of the other agency is the same as that required under article 2 of chapter 7 of the Political Reform Act, Government Code section 87200; and
- (C) The filing officer is the same for both agencies.¹ Such persons are covered by this code for disqualification purposes only. With respect to all other designated employees, the disclosure categories set forth in the Appendix specify which kinds of financial interests are reportable. Such a designated employee shall disclose in his or her statement of economic interests those financial interests he or she has which are of the kind described in the disclosure categories to which he or she is assigned in the Appendix. It has been determined that the financial interests set forth in a designated employee's disclosure categories are the kinds of financial interests which he or she foreseeably can affect materially through the conduct of his or her office.

Section 4. Statements of Economic Interests

Place of Filing – The code reviewing body shall instruct all designated employees within its code to file statements of economic interests with the agency or with the code reviewing body, as provided by the code reviewing body in the agency's conflict of interest code.²

Section 5. Statements of Economic Interests

Time of Filing –

- (A) Initial Statements – All designated employees employed by the agency on the effective date of this code, as originally adopted, promulgated and approved by the code reviewing body, shall file statements within 30 days after the effective date of this code. Thereafter, each person already in a position when it is designated by an amendment to this code shall file an initial statement within 30 days after the effective date of the amendment.
- (B) Assuming Office Statements – All persons assuming designated positions after the effective date of this code shall file statements within 30 days after assuming the designated positions, or if subject to State Senate confirmation, 30 days after being nominated or appointed.
- (C) Annual Statements – All designated employees shall file statements no later than April 1.
- (D) Leaving Office Statements – All persons who leave designated positions shall file statements within 30 days after leaving office.

Section 5.5. Statements for Persons Who Resign Prior to Assuming Office

Any person who resigns within 12 months of initial appointment, or within 30 days of the date of notice provided by the filing officer to file an assuming office statement, is not deemed to have

¹ Designated employees who are required to file statements of economic interests under any other agency's conflict of interest code, or under article 2 for a different jurisdiction, may expand their statement of economic interests to cover reportable interests in both jurisdictions, and file copies of this expanded statement with both entities in lieu of filing separate and distinct statements, provided that each copy of such expanded statement filed in place of an original is signed and verified by the designated employee as if it were an original. See Government Code Section 81004.

² See Government Code Section 81010 and 2 Cal. Code of Regs. Section 18115 for the duties of filing officers and persons in agencies who make and retain copies of statements and forward the originals to the filing officer.

**Administrative Procedure 2712
Conflict of Interest Code**

assumed office or left office, provided he or she did not make or participate in the making of, or use his or her position to influence any decision and did not receive or become entitled to receive any form of payment as a result of his or her appointment. Such persons shall not file either an assuming or leaving office statement.

- (A) Any person who resigns a position within 30 days of the date of a notice from the filing officer shall do both of the following:
1. File a written resignation with the appointing power; and
 2. File a written statement with the filing officer declaring under penalty of perjury that during the period between appointment and resignation he or she did not make, participate in the making, or use the position to influence any decision of the agency or receive, or become entitled to receive, any form of payment by virtue of being appointed to the position.

Section 6. Contents of and Period Covered by Statements of Economic Interests

- (A) Contents of Initial Statements – Initial statements shall disclose any reportable investments, interests in real property and business positions held on the effective date of the code and income received during the 12 months prior to the effective date of the code.
- (B) Contents of Assuming Office Statements – Assuming office statements shall disclose any reportable investments, interests in real property and business positions held on the date of assuming office or, if subject to State Senate confirmation or appointment, on the date of nomination, and income received during the 12 months prior to the date of assuming office or the date of being appointed or nominated, respectively.
- (C) Contents of Annual Statements. Annual statements shall disclose any reportable investments, interests in real property, income and business positions held or received during the previous calendar year provided, however, that the period covered by an employee's first annual statement shall begin on the effective date of the code or the date of assuming office whichever is later.
- (D) Contents of Leaving Office Statements. Leaving office statements shall disclose reportable investments, interests in real property, income and business positions held or received during the period between the closing date of the last statement filed and the date of leaving office.

Section 7. Manner of Reporting

Statements of economic interests shall be made on forms prescribed by the Fair Political Practices Commission and supplied by the agency, and shall contain the following information:

- (A) Investments and Real Property Disclosure – When an investment or an interest in real property³ is required to be reported,⁴ the statement shall contain the following:

³ For the purpose of disclosure only (not disqualification), an interest in real property does not include for the principal residence of the filer.

⁴ Investments and interests in real property which have a fair market value of less than \$2,000 are not investments and interests in real property within the meaning of the Political Reform Act. However, investments or interests in real property of an individual include those held by the individual's spouse and dependent children as well as a pro rata share

**Administrative Procedure 2712
Conflict of Interest Code**

1. A statement of the nature of the investment or interest;
2. The name of the business entity in which each investment is held, and a general description of the business activity in which the business entity is engaged;
3. The address or other precise location of the real property;
4. A statement whether the fair market value of the investment or interest in real property exceeds two thousand dollars (\$2,000), exceeds ten thousand dollars (\$10,000), exceeds one hundred thousand dollars (\$100,000), or exceeds one million dollars (\$1,000,000).

(B) Personal Income Disclosure – When personal income is required to be reported,⁵ the statement shall contain:

1. The name and address of each source of income aggregating five hundred dollars (\$500) or more in value, or fifty dollars (\$50) or more in value if the income was a gift, and a general description of the business activity, if any, of each source;
2. A statement whether the aggregate value of income from each source, or in the case of a loan, the highest amount owed to each source, was one thousand dollars (\$1,000) or less, greater than one thousand dollars (\$1,000), greater than ten thousand dollars (\$10,000), or greater than one hundred thousand dollars (\$100,000);
3. A description of the consideration, if any, for which the income was received;
4. In the case of a gift, the name, address and business activity of the donor and any intermediary through which the gift was made; a description of the gift; the amount or value of the gift; and the date on which the gift was received;
5. In the case of a loan, the annual interest rate and the security, if any, given for the loan and the term of the loan.

(C) Business Entity Income Disclosure – When income of a business entity, including income of a sole proprietorship, is required to be reported,⁶ the statement shall contain:

1. The name, address, and a general description of the business activity of the business entity;
2. The name of every person from whom the business entity received payments if the filer's pro rata share of gross receipts from such person was equal to or greater than ten thousand dollars (\$10,000).

(D) Business Position Disclosure – When business positions are required to be reported, a designated employee shall list the name and address of each business entity in which he or she is a director, officer, partner, trustee, employee, or in which he or she holds any position of management, a description of the business activity in which the business entity is engaged, and the designated employee's position with the business entity.

of any investment or interest in real property of any business entity or trust in which the individual, spouse and dependent children own, in the aggregate, a direct, indirect or beneficial interest of 10 percent or greater.

⁵ A designated employee's income includes his or her community property interest in the income of his or her spouse but does not include salary or reimbursement for expenses received from a state, local or federal government agency.

⁶ Income of a business entity is reportable if the direct, indirect or beneficial interest of the filer and the filer's spouse in the business entity aggregates a 10 percent or greater interest. In addition, the disclosure of persons who are clients or customers of a business entity is required only if the clients or customers are within one of the disclosure categories of the filer.

**Administrative Procedure 2712
Conflict of Interest Code**

- (E) Acquisition or Disposal During Reporting Period – In the case of an annual or leaving office statement, if an investment or an interest in real property was partially or wholly acquired or disposed of during the period covered by the statement, the statement shall contain the date of acquisition or disposal.

Section 8. Prohibition on Receipt of Honoraria

- (A) No member of a state board or commission, and no designated employee of a state or local government agency, shall accept any honorarium from any source, if the member or employee would be required to report the receipt of income or gifts from that source on his or her statement of economic interests. This section shall not apply to any part-time member of the governing board of any public institution of higher education, unless the member is also an elected official. Subdivisions (a), (b), and (c) of Government Code section 89501 shall apply to the prohibitions in this section.

This section shall not limit or prohibit payments, advances, or reimbursements for travel and related lodging and subsistence authorized by Government Code Section 89506.

Section 8.1 Prohibition on Receipt of Gifts in Excess of \$360

- (A) No member of a state board or commission, and no designated employee of a state or local government agency, shall accept gifts with a total value of more than \$360 in a calendar year from any single source, if the member or employee would be required to report the receipt of income or gifts from that source on his or her statement of economic interests. This section shall not apply to any part-time member of the governing board of any public institution of higher education, unless the member is also an elected official.

Subdivisions (e), (f), and (g) of Government Code section 89503 shall apply to the prohibitions in this section.

Section 8.2. Loans to Public Officials

- (A) No elected officer of a state or local government agency shall, from the date of his or her election to office through the date that he or she vacates office, receive a personal loan from any officer, employee, member, or consultant of the state or local government agency in which the elected officer holds office or over which the elected officer's agency has direction and control.
- (B) No public official who is exempt from the state civil service system pursuant to subdivisions (c), (d), (e), (f), and (g) of Section 4 of Article VII of the Constitution shall, while he or she holds office, receive a personal loan from any officer, employee, member, or consultant of the state or local government agency in which the public official holds office or over which the public official's agency has direction and control. This subdivision shall not apply to loans made to a public official whose duties are solely secretarial, clerical, or manual.
- (C) No elected officer of a state or local government agency shall, from the date of his or her election to office through the date that he or she vacates office, receive a personal loan from any person who has a contract with the state or local government agency to which that

**Administrative Procedure 2712
Conflict of Interest Code**

elected officer has been elected or over which that elected officer's agency has direction and control. This subdivision shall not apply to loans made by banks or other financial

institutions or to any indebtedness created as part of a retail installment or credit card transaction, if the loan is made or the indebtedness created in the lender's regular course of business on terms available to members of the public without regard to the elected officer's official status.

(D) No public official who is exempt from the state civil service system pursuant to subdivisions (c), (d), (e), (f), and (g) of Section 4 of Article VII of the Constitution shall, while he or she holds office, receive a personal loan from any person who has a contract with the state or local government agency to which that elected officer has been elected or over which that elected officer's agency has direction and control. This subdivision shall not apply to loans made by banks or other financial institutions or to any indebtedness created as part of a retail installment or credit card transaction, if the loan is made or the indebtedness created in the lender's regular course of business on terms available to members of the public without regard to the elected officer's official status. This subdivision shall not apply to loans made to a public official whose duties are solely secretarial, clerical, or manual.

(E) This section shall not apply to the following:

1. Loans made to the campaign committee of an elected officer or candidate for elective office.
2. Loans made by a public official's spouse, child, parent, grandparent, grandchild, brother, sister, parent-in-law, brother-in-law, sister-in-law, nephew, niece, aunt, uncle, or first cousin, or the spouse of any such persons, provided that the person making the loan is not acting as an agent or intermediary for any person not otherwise exempted under this section.
3. Loans from a person which, in the aggregate, do not exceed five hundred dollars (\$500) at any given time.
4. Loans made, or offered in writing, before January 1, 1998.

Section 8.3. Loan Terms

(A) Except as set forth in subdivision (B), no elected officer of a state or local government agency shall, from the date of his or her election to office through the date he or she vacates office, receive a personal loan of five hundred dollars (\$500) or more, except when the loan is in writing and clearly states the terms of the loan, including the parties to the loan agreement, date of the loan, amount of the loan, term of the loan, date or dates when payments shall be due on the loan and the amount of the payments, and the rate of interest paid on the loan.

(B) This section shall not apply to the following types of loans:

1. Loans made to the campaign committee of the elected officer.
2. Loans made to the elected officer by his or her spouse, child, parent, grandparent, grandchild, brother, sister, parent-in-law, brother-in-law, sister-in-law, nephew, niece, aunt, uncle, or first cousin, or the spouse of any such person, provided that the person making the loan is not acting as an agent or intermediary for any person not otherwise exempted under this section.

3. Loans made, or offered in writing, before January 1, 1998.

(C) Nothing in this section shall exempt any person from any other provision of Title 9 of the Government Code.

Section 8.4. Personal Loans

(A) Except as set forth in subdivision (B), a personal loan received by any designated employee shall become a gift to the designated employee for the purposes of this section in the following circumstances:

1. If the loan has a defined date or dates for repayment, when the statute of limitations for filing an action for default has expired.
2. If the loan has no defined date or dates for repayment, when one year has elapsed from the later of the following:
 - a. The date the loan was made.
 - b. The date the last payment of one hundred dollars (\$100) or more was made on the loan.
 - c. The date upon which the debtor has made payments on the loan aggregating to less than two hundred fifty dollars (\$250) during the previous 12 months.

(B) This section shall not apply to the following types of loans:

1. A loan made to the campaign committee of an elected officer or a candidate for elective office.
2. A loan that would otherwise not be a gift as defined in this title.
3. A loan that would otherwise be a gift as set forth under subdivision (A), but on which the creditor has taken reasonable action to collect the balance due.
4. A loan that would otherwise be a gift as set forth under subdivision (A), but on which the creditor, based on reasonable business considerations, has not undertaken collection action. Except in a criminal action, a creditor who claims that a loan is not a gift on the basis of this paragraph has the burden of proving that the decision for not taking collection action was based on reasonable business considerations.
5. A loan made to a debtor who has filed for bankruptcy and the loan is ultimately discharged in bankruptcy.

(C) Nothing in this section shall exempt any person from any other provisions of Title 9 of the Government Code.

Section 9. Disqualification

No designated employee shall make, participate in making, or in any way attempt to use his or her official position to influence the making of any governmental decision which he or she knows or has reason to know will have a reasonably foreseeable material financial effect, distinguishable from its effect on the public generally, on the official or a member of his or her immediate family or on:

(A) Any business entity in which the designated employee has a direct or indirect investment worth two thousand dollars (\$2,000) or more;

- (B) Any real property in which the designated employee has a direct or indirect interest worth two thousand dollars (\$2,000) or more;
- (C) Any source of income, other than gifts and other than loans by a commercial lending institution in the regular course of business on terms available to the public without regard to official status, aggregating five hundred dollars (\$500) or more in value provided to, received by or promised to the designated employee within 12 months prior to the time when the decision is made;
- (D) Any business entity in which the designated employee is a director, officer, partner, trustee, employee, or holds any position of management; or
- (E) Any donor of, or any intermediary or agent for a donor of, a gift or gifts aggregating \$360 or more provided to; received by, or promised to the designated employee within 12 months prior to the time when the decision is made.

Section 9.3. Legally Required Participation

No designated employee shall be prevented from making or participating in the making of any decision to the extent his or her participation is legally required for the decision to be made. The fact that the vote of a designated employee who is on a voting body is needed to break a tie does not make his or her participation legally required for purposes of this section.

Section 9.5. Disqualification of State Officers and Employees

In addition to the general disqualification provisions of section 9, no state administrative official shall make, participate in making, or use his or her official position to influence any governmental decision directly relating to any contract where the state administrative official knows or has reason to know that any party to the contract is a person with whom the state administrative official, or any member of his or her immediate family has, within 12 months prior to the time when the official action is to be taken:

- (A) Engaged in a business transaction or transactions on terms not available to members of the public, regarding any investment or interest in real property; or
- (B) Engaged in a business transaction or transactions on terms not available to members of the public regarding the rendering of goods or services totaling in value one thousand dollars (\$1,000) or more.

Section 10. Disclosure of Disqualifying Interest

When a designated employee determines that he or she should not make a governmental decision because he or she has a disqualifying interest in it, the determination not to act may be accompanied by disclosure of the disqualifying interest.

**Administrative Procedure 2712
Conflict of Interest Code**

Section 11. Assistance of the Commission and Counsel

Any designated employee who is unsure of his or her duties under this code may request assistance from the Fair Political Practices Commission pursuant to Government Code section 83114 or from the attorney for his or her agency, provided that nothing in this section requires the attorney for the agency to issue any formal or informal opinion.

Section 12. Violations

This code has the force and effect of law. Designated employees violating any provision of this code are subject to the administrative, criminal and civil sanctions provided in the Political Reform Act, Government Code sections 81000 - 91015. In addition, a decision in relation to which a violation of the disqualification provisions of this code or of Government Code section 87100 or 87450 has occurred may be set aside as void pursuant to Government Code section 91003.

Section 13. Designated Positions and Disclosure Requirements

Designated positions and the disclosure categories assigned to them are included as Appendix A.

Board approval date: 4/20/10

**WEST HILLS COMMUNITY COLLEGE DISTRICT
CONFLICT-OF-INTEREST CODE**

The Political Reform Act (Government Code Section 81000, et seq.) requires state and local government agencies to adopt and promulgate conflict-of-interest codes. The Fair Political Practices Commission has adopted a regulation (2 California Code of Regulations Section 18730) that contains the terms of a standard conflict-of-interest code, which can be incorporated by reference in an agency's code. After public notice and hearing, the standard code may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act. Therefore, the terms of 2 California Code of Regulations Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by reference. This regulation and the attached Appendices, designating positions and establishing disclosure categories, shall constitute the conflict-of-interest code of the West Hills Community College District (District).

Individuals holding designated positions shall file their statements of economic interests with the District, which will make the statements available for public inspection and reproduction. (Gov. Code Sec. 81008.) All statements will be retained by the District.

WEST HILLS COMMUNITY COLLEGE DISTRICT

Class Title: OFFICE ASSISTANT II

Classified Salary Range 31

BASIC FUNCTION:

Under the direction of an assigned supervisor, perform a wide variety of complex clerical and typing duties requiring specialized knowledge in a functional area; perform duties involving frequent and responsible contact with students, staff and public.

REPRESENTATIVE DUTIES:

- Perform a wide variety of difficult and complex clerical and typing work; assure accuracy and completeness of work. *E*
- Answer telephones and greet visitors; provide information regarding fact and interpretation of programs or District policies and procedures; maintain current knowledge of program policies, terminology and clerical procedures. *E*
- Operate computer terminal to input, modify, adjust, correct or update information as appropriate; generate data, summaries and reports. *E*
- Verify, compile and record information for the preparation of reports and maintenance of filing system; prepare records, lists, files and reports for the State, County or District. *E*
- Schedule appointments and meetings for assigned committees; participate on committees as assigned. *E*
- Prepare and type correspondence, forms, reports, memoranda, requisitions, schedules and a variety of other materials; proofread materials as required; type from oral directions, rough draft, copy or notes. *E*
- Process incoming and outgoing mail; process reports, forms and manifests; duplicate, file and distribute materials as appropriate. *E*
- in person or on the telephone.
- Operate a variety of office machines including computer terminal and other office equipment and knowledge of all Microsoft Office Suite and its components.
- Incorporate the use of technology in the delivery of computerized presentations, and Microsoft Office Suite.
- Order and stock office supplies and equipment.
- Bilingual preferred (but not required).
- Perform related duties as assigned

KNOWLEDGE AND ABILITIES:

KNOWLEDGE OF:

Operations, procedures, and specific rules of a particular office to which assigned.

Modern office practices, procedures and equipment.

Record keeping techniques.

Correct English usage, grammar spelling, punctuation and vocabulary.

Interpersonal skills using tact, patience and courtesy.

Board Policy 7100 Commitment to Diversity

Reference: *Education Code Section 87100 et seq.;*
Title 5, Section 53000, et seq.

The District is committed to employing qualified administrators, faculty and staff members who are dedicated to student success. The Board recognizes that diversity in the academic environment fosters cultural awareness and responsiveness, promotes mutual understanding and respect, and provides suitable role models for all students. The Board is committed to hiring and staff development processes that support the goals of equal opportunity and diversity, and provide equal consideration for all qualified candidates.

Board approval date: 2/22/05

Board Policy 7110 Delegation

Reference: *Education Code Section 70902(d)*

The Board delegates authority to the Chancellor to authorize employment, fix job responsibilities, and perform other personnel actions provided that all federal and state laws and regulations and board policies and administrative procedures have been followed subject to confirmation by the Board.

Board approval date: 5/25/04

**West Hills College Lemoore
Planning and Governance Council
Wednesday – May 19, 2010, 2:00 p.m.
Conference Center, Rm. 256**

MINUTES

Chair: Don Warkentin

Recorder: Glenda Oliver

Members Present:

David Babb, Student Learning Outcomes Chair
Dave Bolt, Vice President of Educational Services
Sylvia Dorsey-Robinson, Vice President of Student Services
Stephanie Droker, Academic Senate President
Marty Ennes, CTA/Faculty Representative
Marlon Hall, Associate Dean of Educational Services, Evening College
Jose Lopez, Dean of Students
Keith Brock, CSEA/Classified Representative
John Bernal, Director of Facilities & Auxiliary Services
Ron Oxford, Librarian
Angela Tos, CTA/Faculty Representative
Don Warkentin, President
Linda Amaya-Guenon, Counselor/Advisor
Angel Isidoro, Student Government Association Representative

Members Absent:

America Bryant, CSEA/Classified Representative
Rene Sanchez, Curriculum Committee Chair

Others Present:

Kurt Sterling
Michael Quinonez-Hoover

Call to Order

Mr. Warkentin called the meeting to order at 2:05 p.m.

Roll Call

A silent roll call was taken and a quorum was present.

Approval of minutes

Angela Tos motioned that the May 5, 2010 minutes be approved with changes as noted, it was seconded by Marlon Hall, all in favor, motion passed.

Action Items

• **Instructional Program Review Template**

Dave Bolt stated that this template had been modified at the Student Learning Outcomes Committee (SLOC) meeting, specifically pg. 2, V. A to read: List your instructional program level student learning outcomes. Sylvia Dorsey-Robinson motioned to approve the Instructional Program Review Template with the change as noted; it was seconded by Marlon Hall, all were in favor with one abstention (Stephanie Droker), the motion passed.

- **Non-Instructional Program Review Template**

Dave Bolt reported that the same change was suggested by the Student Learning Outcomes Committee for the non-instructional program review template on pg. 2, V.A as follows: List your non instructional program level student learning outcomes. Ron Oxford motioned to approve the Non Instructional Program Review Template with the change; it was seconded by Linda Amaya-Guenon, with one abstention (Stephanie Droker), the motion passed.

- **WHCL Strategic Plan 2009-2012**

Marty Ennes stated that she understood that this Plan was to be an information/discussion item rather than an action item. Mr. Warkentin stated that this item would be a first reading at this meeting. He asked that the WHCL Strategic Plan 2009-2012 be taken to the constituency groups for input. It will be placed on the next agenda as an action item.

- **Shared Governance Survey**

Marty Ennes stated that she has received feedback from the Faculty Association and they commented that some of the listed committees are sub committees. Stephanie Droker stated that we should not be evaluated for the district groups and suggests the survey stay focused on the college. Keith Brock commented if the data is to be correlated then district committee participation should be included. Sylvia Dorsey-Robinson stated if the thread that Keith refers to helps us to gather data then this piece would speak to communication, or a planning agenda. Marty suggested adding the following statement under #3: I feel I have the opportunity to voice my concerns within the framework of the shared governance process. This survey will be sent to all staff and the Student Government Association. Sylvia motioned to move forward the survey with the changes; it was seconded Stephanie Droker, all in favor, the motion passed. Michael Quinonez-Hoover suggested that students be listed first on number 1.

- **BP & AP 5070**

Marty Ennes reported that the Faculty Association did not approve BP & AP 5070 as there are a number of issues. They believe there is a discrepancy between how on-line and face to face students are treated. Regarding BP 5070 they questioned how "cyber-presence" is defined. Second, if a student must be absent from class any requests that need to be made should be done between the student and the instructor; not with the Chief Student Services Officer (CSSO). The CSSO should only be included when there is a dispute. Third, the point at which a student is dropped due to absences should be determined by the instructor as long as the class absence policy adheres to ed code. Students cannot be dropped from class if they are attending and not doing any of the work. Online students should not be dropped if they are logging in but not doing any work. What this policy is saying is if a student logs in without a discussion board quote this policy gives them the right to drop them. Students have the right to fail the class. These are reasons for non approval. The only reason an instructor can drop a student is if they don't attend class. Concerning AP 5070, Marty Ennes stated that the Faculty Association recommends that the second paragraph under "Student Responsibilities" be deleted as they feel this should be the prerogative of the instructor, not dictated by policy, as long as the class policy aligns with ed code. The point at which a student is dropped should be up to the instructor. Mr. Warkentin asked if there was a motion to approve AP 5070, hearing none, no action transpired. Marty stated that ed code needs to be the determining factor, not replicating or adding to ed code. This does not deviated from Title V, but much more prescriptive than Title V.

Information/Discussion Items**1. District Technology Committee (DTC)**

Dave Bolt distributed the DTC updated project list which shows general workflows and what is being considered. Dave stated that some projects take on more importance than what is represented on this list. Ron Oxford asked how projects make it on this list. Dave responded that they are put on the list from the referenced committees. These recommendations had been brought forward but due to leadership changes which occurred last year many of the meetings were cancelled. The meeting entitled Cross consists of the leaders of the sub teams. Further discussion ensued regarding Blackboard 9. Stephanie Droker stated that not every instructor uses Blackboard 9. Ron Oxford commented that he is aware of projects taking place that are not on this list. Angela Tos asked who was in charge of the student's team (ST). Ron replied it was Pedro Avila, Vice Chancellor of Institutional Effectiveness. Mr. Warkentin would like to see an updated list in the fall.

2. Student Government Association**a) SGA Representatives on the PGC**

Angel Isidoro reported that they had their last 09-10 meeting. The new officers are as follows: Ryan Cardoza-President, Maleny Rodriguez -Vice President, Victoria Hotchkiss-Secretary, Kelsey La Traille - Activities Coordinator, Devon Scott - Sergeant of Arms, Michael Quinonez-Hoover - Treasurer, Dellora Wesson - Public Relations, Columbus Hasberry – Mascot.

Angel stated that SGA is requesting a second student representative to be on the PGC. Reasons for the request are as follows:

- An additional seat will allow a back up person
- They are representing 4,000 students and only one seat and one vote
- Less intimidating

Stephanie Droker commented that she would like to see more student involvement in the other subcommittees. Angela Tos commented that any student can attend the PGC meetings and vote with the proxy of the SGA representative. PGC will look at the membership makeup at the first meeting in the fall and a formal vote will be made. Myeisha Johnson and Angel both reported that they only recently learned about the other committees needing student representation. Sylvia Dorsey-Robinson announced that she is planning for students to be better informed next year in order to understand more clearly the governance and financial processes. There will training for student clubs and SGA. Stephanie recommended that if another student seat is added that a student be chosen from one of the student clubs to lend to a more varied representation and input. Marty stated that the important element is that SGA once had two seats specific to SGA members; however, she is favorable of the entire PGC membership being reconsidered. Mr. Warkentin stated that when PGC was first developed there were two student representatives and it was difficult to get two students to attend the meetings.

3. Curriculum Committee Report

Marlon Hall reported that he had attended the meeting today and there was curriculum to complete and new curriculum forms. Rene Sanchez will be working on the organizational management of the Curriculum Committee. A curriculum action report will go to the Board of Trustees next month.

4. Academic Senate Report

Stephanie Droker introduced and welcomed the new Academic Senate President, Kurt Sterling. The new term starts in the fall and her last act as president ends with today's meeting and graduation. Mr. Warkentin thanked Stephanie for her service this year.

5. Report from Committee Representative**a) Student Learning Outcomes Committee (SLOC)**

David Babb reported that SLOC had a wrap up meeting on Monday. He has modified how the SLO's are being tracked and added another column for courses that are active, but rarely taught. Due to this the numbers can never get to 100%. Another column will show courses that will not be included in the tally. An example is Com 3 and Bio 11 & 12. He is working with the learning area rep to check off these courses. David reported that SLOC had helped IEPRC update the program review forms. They are encouraging faculty to get assessments submitted and an e-mail was sent to adjunct faculty about submitting SLO's. Either adjunct faculty doesn't know what to do, or they are just not doing SLO's. It becomes difficult as some courses are only taught by adjunct faculty. Additionally, they are working on getting a list of adjuncts to contact.

b) Institutional Effectiveness and Program Review Committee (IEPRC)

Dave Bolt reported that IEPRC has not met. IEPRC would like to get involved with the one year schedule committee. The Senate submitted names for representation on the one-year schedule committee and it will be forwarded to the Chancellor. Dave is working with Tom Robb on the portal format.

c) Budget Allocation Committee (BAC)

Dave Bolt reported that BAC had not met.

d) Employee Development and Success Committee (EDSC)

Marlon Hall reported that the end of the year barbecue would be held on Friday, May 28th. Culinary will barbecue hot dogs and hamburgers and staff will bring side dishes.

e) Student Success Committee (SSC)

Sylvia Dorsey-Robinson reported that the SSC had revised their governance form. They removed some of the language and tried to make the roles and goals functional. Also they verified that all was in alignment with their mission and they made changes in the membership. It will be on the agenda for action in the fall. Angela Tos reported that they have begun drafting the student equity plan.

f) Facilities, Safety and Auxiliary Services Committee (FSASC)

John Bernal reported that the facilities meeting will begin at 1:00 p.m. rather than 11:00 a.m. beginning in July. Marty Ennes recommended that the meetings be alternated at different times to allow faculty to attend. John reported that the road beyond the library (southeast corner) will be closed off due to construction as of May 26th. Construction is

continuing out to Pederson Rd. There is a water leak under the cement of the 200 building, specifically buildings 230 & 234. John reported that construction is 29% complete on the Multi-use Sports Complex and they are approximately three weeks behind. The truss is scheduled to go up on May 28th. John reported that an instructor had their laptop stolen recently. Sylvia Dorsey-Robinson reported an erratic student on campus today which resulted in a call to the Lemoore Police Dept. John stated that the gas line tie-in will be June 5th. Mr. Warkentin announced that John had been selected for the permanent M & O Director position.

g) Technology Committee (TC)

Ron Oxford reported that TC had not met. They are working on the portal team site. David Babb asked if there is a way to get space on the server to back up files on staff laptops. This concern will be brought to TAT. David announced that all faculty have a student e-mail account and they should look there as there are e-mails that need to be deleted. He recommends setting your preferences to forward the e-mails.

6. Graduation

Jose Lopez reported that graduation plans are on track. They have added a second singer, Garrett Gudgel. 2,000 chairs have been ordered and there will be two tents set up for water, roses and t-shirts sells. The guest speaker has confirmed and he will stay at the Tachi Palace Hotel. Rehearsal is at 8:30 a.m. on graduation day. The flags from LNAS were unattainable; thus, 50 flags have purchased. Student Sue Westover has been approved to receive an honorary degree and an insert will be added to the program. There are close to 400 graduates.

7. Accreditation

Dave Bolt reported that the annual WASC report is due on June 30th. He has alerted those staff members who have a part in the report. The WHCCD Board has approved the report and it was approved by the State Substantive Change Committee last Monday.

Dave reported that the ghost writer has the self study draft.

8. Other

There were no items to consider at this time.

9. Agenda items for next meeting

- Student Success Committee Governance Form
- PGC Membership Makeup
- College Strategic Plan 2009-2012

10. Adjournment

The meeting was adjourned at 3:54 p.m.

APPENDIX 6

DUTIES AND RESPONSIBILITIES OF SCREENING COMMITTEE MEMBERS

1. Attend all meetings of the committee
2. Serve as a representative of your respected group.
3. Read all materials presented during the meetings so that you may actively participate in the screening and interview process. Ask questions and make contributions.
4. Maintain strict confidentiality which includes, but is not limited to, the names of applicants and their qualifications, scores or ratings from paper screening, scores or ratings from interviews, any conversation held during screening committee meetings, or any other information throughout the selection process.

Signature

Date

APPENDIX 7

DUTIES AND RESPONSIBILITIES OF SCREENING COMMITTEE CHAIRPERSON

1. Upon Selection, serve as the facilitator/ leader of the committee henceforth and attend all meetings of the committee in their entirety.
2. Ensure that all members of the committee fulfill their duties and responsibilities as assigned.
3. Through use of the hiring procedures and guidelines, lead the committee through the screening and selection process.
4. After the filing deadline, meet with the Director of Human Resources to keep abreast of necessary testing, if applicable, or if testing is not required, meet with the EEO Officer to be informed of suitability of the pool.
5. Reserve all rooms for future meetings.
6. Obtain packets of screening materials and applications from human resources office immediately before applications screening committee meeting.
7. Return these materials to human resources office immediately after screening committee meeting and update Director regarding the interview pool, interview questions (and demonstrations, if applicable), and interview schedule.
8. Obtain packets of interview materials and applications from human resources office immediately before interview meeting.
9. Return these materials to human resources office immediately after the interview committee meeting and update Director regarding the outcome of the interviews.
10. Maintain strict confidentiality which includes, but is not limited to, the names of applicants and their qualifications, scores or rating from paper screening, scores or ratings from interviews, any conversation held during screening committee meetings, or any other information throughout the selection process.

Signature of Committee Chairperson

Date

APPENDIX 8

DUTIES AND RESPONSIBILITIES OF EEO REPRESENTATIVE

1. Bring to the organizational meeting packets which have been prepared by the Human resources office which include the following: 1) hiring procedures and guidelines; 2) pre-employment inquiry guidelines; 3) duties and responsibilities of committee members, chairperson, and EEO representative; and 4) job description.
2. Review these materials in detail with the members of the committee and respond to any questions they have.
3. Guide the committee through the election process of a chairperson.
4. Secure the signatures of understanding of duties and responsibilities of all committee members, and chairperson, and self (EEO representative).
5. Attend all meetings of the committee in their entirety.
6. While not voting, be an observer in the screening and selection process to ensure and equal opportunity for all applicants.
7. Assist the chairperson in enforcing the hiring procedures and guidelines and the pre-employment inquiry guidelines.
8. Bring concerns to the Director of Human Resources and/ or the EEO Officer immediately so that they can be addressed with expediency.
9. Maintain strict confidentiality which includes, but limited to, applicants names and their qualifications, scores or ratings from paper screening, scores or ratings from interviews, any conversation held during screening committee meetings, or any other information throughout the selections process.

PARTNERSHIPS EARN WEST HILLS COLLEGE NATIONAL RECOGNITION

Partnerships between West Hills College and the business community are a great part of the success of the district and played a major role last year in West Hills winning the MetLife Foundation award as the small community college nationwide that best serves the needs of a diverse student population and helps move people into livable wage jobs.

"Economic development in our communities is one of the missions of community colleges," said Dr. Frank Gornick, chancellor of West Hills. "We work closely with the business community and government agencies to identify education and job training that is needed, establish those programs and then send qualified, prepared applicants to the workplace."

West Hills has several programs that best exemplify these partnerships, Gornick said. West Hills College Coalinga is home to a psychiatric technician training program that was developed in conjunction with and in part funded by the State of California Department of Mental Health. State Employment Development Department and Workforce Investment Acts funds were also used as were funds from the governor's budget.

There are currently openings for 3,500 psychiatric technicians around the state and more than another 800 will be needed when a new state mental hospital is opened in 2005, according to Cynthia Davis, who heads the program.

"Our students spend two days a week in class in Coalinga but then they're in clinical settings in health facilities around the valley the other three days a week," Davis said. "The students practice in clinical settings the concepts they learn in the classroom," she added.

The students are in class or clinical settings 35 hours a week for one year and when they graduate, they start work at an average of about \$18 an hour plus benefits, she noted.

FIRST WHCL LIBRARY COLLECTION-A GIFT OF A CENTURY

The first permanent collection added to the West Hills College Lemoore Library/Learning Resources Center was dubbed "A Gift of A Century" during its dedication ceremonies last winter. The collection contains almost 100 years of Hanford and Lemoore newspapers dating from 1897 to the last decade.

Jim Marvin, editor of The Lemoore Advance; Glen Faison, executive editor of The Hanford Sentinel and Mark Daniel, president

and publisher of The Hanford Sentinel joined WHCL President Barbara Hisco in unveiling the collection at a reception in February.

Lemoore Advance Editor Jim Marvin was instrumental in helping arrange the donation of a century worth of Lemoore Advance and Hanford Sentinel newspapers to the West Hills College Lemoore Library. He was a guest speaker during a reception last winter unveiling the first major collection for the library.

"Newspapers value their 'morgue' copies as often the only history of an area," Marvin said. "With The Sentinel and The Advance represented at WHCL, people are guaranteed a comfy place to research old papers for names and dates of local events."

Local history buff Steve Emanuels, who is a relative newcomer

to the area, spoke at the reception of his surprise when perusing old copies of The Advance and finding his grandfather had visited Lemoore on business shortly after the turn of the century.

Others at the reception view copies from Pearl Harbor Day, the day man landed on the moon, President Kennedy's assassination and other historic events.

Copies of the newspapers are on file in microfiche at area public libraries but those wishing to take a look at the original newspapers are invited to visit the WHCL Library. Normal hours of operation are 7:30 a.m. to 8:30 p.m. Monday through Thursday and 7:30 a.m. to 4 p.m. on Friday (closed Fridays during the summer).

FARM LABOR LEADER VISITS WEST HILLS

Farm labor leader Dolores Huerta was a featured guest during National Latina Month celebrations at West Hills Community College District on March 25th.

In 1972, Huerta and Cesar Chavez founded the United Farm Workers and for over 30 years she has served the union as its vice president and as the union's chief lobbyist in Sacramento and Washington, D.C.

In 1998, Ms. Magazine named Huerta "Woman of the Year," highlighting her character and significant achievements. She has been the recipient of many honors and awards and she and Chavez are prominently featured on a wall-sized mural at West Hills' facilities in Firebaugh, which she autographed during her visit to the North District Center.

During her appearances in Firebaugh and at West Hills College Coalinga and Lemoore, Ms. Huerta spoke to the students about the dignity and importance of farm laborers and of education. She highlighted achievements of the union and invited students to look to the future. "You have the power to change things," she said, and encouraged them to fight racism and sexism. "You must sacrifice to get a good education," she told the students. "Take the high way, it's the only way. In the end, there are results for everyone-including the community."

Ms. Huerta, who earned a college degree as a teacher, told Coalinga students that her father returned to college to earn a degree at 52 years old. One of her sons worked hard to become a doctor and another is an attorney.

Farm labor leader Dolores Huerta (on right) visited the Farm of the Future at West Hills College Coalinga during her visit to the campus in March. Dr. Larry Rollbaum, who heads the farm, and Rosa Moreno, a community member from Huron, talked with Huerta about global positioning equipment training available to farm workers through the college. Huerta also spoke to students at the college and in Lemoore and Firebaugh.

Students Talk about Their Lives and Dreams

West Hills College was named the small community college district nation-wide that best serves the needs of a diverse student population and helps prepare underserved youth and adults for further education and career advancement. As part of that awards program, a group of students recently worked on a project to tell the story of their lives and how West Hills is making an impact on them.

Where the Drive Comes From

by Juan Madrigal

My father was studying to be a lawyer in Mexico and everybody looked up to him. He could have finished, but his father couldn't pay for the books any more. The year I was born he came to the U.S. to do farm work with his two brothers, so he could save to go back to school. It was very hard for my mom, working and raising me herself, and so I was raised by my grandmother in Guadalajara until my parents sent for me. From the age of nine I grew up in Kerman, a town west of Fresno.

When I was twelve I was already in the fields raking hay, baling, disking, sulfuring, irrigating the fields and watering the roads with the tractor. It was interesting and I actually enjoyed it. I liked driving the tractor and learning things like that from my dad's boss. But my dad never wanted me to irrigate or drive a tractor. He didn't want us to be part of farm labor.

I was influenced a lot by my father, and I was a good student. He never told us straight out that he valued education, but somehow my brother and I got that message. Growing up, my friends and I would help our families, but we never had extra money. Now we realize how many more resources the middle-class kids had, and what an advantage that gave them. We didn't even have dictionaries at our house, we'd have to go use the dictionary from the library. But we had that competitive edge. We were the farm workers and we always wanted to compete against what we called the rich kids, to get better grades and scores. My father was the same way. He told us

once that he would get in trouble with his friends in school, because he would ruin the grading curve.

In my high school years, my friend and I bought a laptop computer from a DJ for \$500. That got us into the computer field, along with a high school computer class in which they showed us how to create a web page using HTML. Everything interests me, but right now it's computer science. At first I was thinking about medicine, but blood gets to me.

I consider myself a humble person, but I've always wanted to make it for my father. I don't hope for richness; in that way I'm not ambitious. But you really need support for these kinds of things. You have to find it one way or another, through teachers, through other people you know, through friends. In my life, I didn't feel that there was a lot of support coming from my family. I remember wanting to be in soccer, but my dad couldn't fit it in his schedule. Sometimes you really need a little of that push. I can't remember how many times I was student of the month or recognized in some other way, and he didn't show up. Sometimes when I was crying afterward, my little brother would be crying too, and I know he understands. Maybe my father considered it to be a little thing, but even if it was, it meant everything to me. It was the same with so many friends of mine. Sometimes they didn't want to even be student of the month; it hurt too much. With my little brother I try to be there for him at times like that.

When my friends with the same background as mine look back, we see people that couldn't make it through school, or didn't make it, for lots of reasons. Maybe because our families' whole lives are based on work, they have this notion that you have to get your hands dirty to work, for survival. One uncle of a friend wanted to get him out of the school system, because he saw it as lazy to work in an office. It's a matter of pride. Working with your hands is a man's work.

My support comes mostly from teachers. At college when people see the real you, they understand what you're really doing and how hard you're working. When teachers pay attention to a student, that helps the student do well, and if they don't, you tend not to do well. My friends and I always wanted to keep on going. There are all kinds of barriers, but it's always financial. When I started West Hills I had to quit after the first semester because of the cost of books and tuition, but then I came back through CAMP [College Assistance Migrant Program], which pays for all that. After I created a web page for the program, they gave me a stipend, too.

I've always wanted to teach. I was picked up as a tutor for the CAMP program at West Hills. And after just helping students to do their homework, I found this thing for teaching. That tutoring job helped me, because if I hadn't been doing it, I would have been working delivering pizza or on the farm—not at something that helped me realize what I would do later. My goal is to transfer to a four-year university, and then I want to come back and teach.

I look back at my father's life and see that if he had just a few of my opportunities, he would have finished what he had started to accomplish. He never got to the point where he could save enough to go back and be a lawyer. After ten years with the same company, he lost his job in the fields after he tried to organize workers to get more pay. But now, at the age of 39, he has started school up here again to become a welding technician. Now I'm at the point where I can help him out with money from my own work. And finally he will be doing something that he has a real interest in.

Juan Madrigal, 19, came from Mexico at nine and grew up in Kerman, California. He is in his second semester at West Hills College and is currently serving an internship with West Hills webmaster Pedro Avila.

If you would like to receive the stories of all 10 students who participated in this project, please contact WHC Marketing Director Frances Squire at (559) 934-2134.

Newsbriefs
(Continued from page 1)

She said that the program depends on clinical experience students get at places like Coalinga Regional Medical Center/Ralph Neate Center, Fresno's Community Hospitals, Corcoran District Hospital, Sunbridge Care in Coalinga, Hacienda Rehabilitation Hospital in Hanford and Pleasant Valley and Corcoran state prisons.

Hospital Council Lends Support

In another program, West Hills College Lemoore is cooperating with the Hospital Council of Northern and Central California, Central Division, to help train radiologic technologists. The council is helping fund the costs of starting the program that is initially being offered in partnership with Fresno City College. Plans are in process to do a similar project with Bakersfield College to offer registered nursing. Council members also help provide clinical practice for students.

Reducing the digital divide

Recognizing the "digital divide" between urban areas and the rural communities, West Hills has teamed with Cisco Systems; California State University, Fresno and others to supply state-of-the-art voice, video and data capabilities.

"Our students in Firebaugh can connect with classrooms in Lemoore and Coalinga with real-time interaction," Gornick said. "If three students in Firebaugh want calculus, we can offer them that class using this technology."

"Our students in Lemoore will soon be able to earn a CSUE degree without ever traveling to Fresno," Gornick continued.

"We were a Beta test site for Cisco," Gornick said. "It's important for our students to be as technology-savvy as their urban counterparts and

our partnership with Cisco has moved us a big step in that direction."

Down on the farm

Even down on the farm, West Hills is counting on partnerships to keep its students current in the latest technology.

Lemoore farmer Ted Sheely and Coalinga farmer Ross Allen have recently loaned the school equipment that will be used to train students in the latest global positioning technology (GPS) at its Farm of the Future in Coalinga. The farm is housed on 207 acres donated to the college by Ross Allen's grandmother, Dorothy Allen and other members of their family.

"We're working with farmers from throughout the state to offer training for themselves and their workers in the latest crop production equipment and procedures. This GPS technology allows them to save chemicals, water and labor costs," said Dr. Larry Rathbun, director of Farm of the Future.

West Hills has a strong ag advisory committee, headed by west side farmer Bob Viets, that works closely with the college to make sure that its programs are on target to serve the needs of industry in the valley.

"We are working with the new International Center for Water Technology at Fresno State to bring "cutting-edge" water management to our farmers," Rathbun said.

Law enforcement classes feature street smarts

Another major employer in the valley these days is the prison industry. West Hills has administration of justice/corrections programs at

its locations in Firebaugh, Coalinga and Lemoore. Current Coalinga interim police chief Frank Steenport and former Sanger and Corcoran chief John Barr teach in the program.

"Our local police forces need trained officers," Steenport said, "and I'm happy to play a role in taking my knowledge of what happens on the street into the classroom."

Students in the district recently voted Barr "instructor of the year."

West side communities working together

The communities on the west sides of the valley have banded together to form the I-5 Business Corridor Group-another partner for West Hills.

Currently that partnership, which also includes the Fresno County Workforce Investment Board, is providing specialized skills training for rural youth. The classes are three months in length and provide training in child development, computer software certification, certified nurse assistant, administration of justice and medical receptionist.

The classes are being offered in communities including Huron, Tranquillity, San Joaquin, Caruthers, Riverdale, Firebaugh and Mendota.

"Our partnerships are critical," Dr. Gornick said, "in assuring that our students are ready for the workplace and continued education. We're always on the lookout for new possibilities and opportunities-both for our students and our communities."

"In these difficult budget times," Dr. Gornick said, "West Hills will be working more closely than ever with partners throughout the region to assure that students have the best educational opportunities available. We will continue to move ahead and help find solutions to the challenges facing our cities, the region and our state," he concluded.

WEST HILLS PREPARES PSYCHIATRIC TECHNICIANS

A year of hard work and a lifetime of potential professional rewards are awaiting those who choose to train to become a psychiatric technician at West Hills College Coalinga and with the approval and start of a third class in the program it will be easier than ever for students to get training.

Students who graduate from the school's psychiatric technician program are eligible to take state licensing exams with the State of California Board of Vocational Nursing and Psychiatric Technicians and because of a shortage of trained workers around the state, jobs are readily available.

Currently there are 3,500 jobs unfilled and another 800 jobs will be added when a new state hospital opens in Coalinga in early 2005, according to Cynthia Davis, director of the West Hills' program.

Psych techs can expect to make about \$35,000 a year to start-or about \$18 to \$22 per hour, Davis said. Many of the jobs are offered by the state and offer exceptional benefit packages as well.

The first class of psychiatric technicians graduated from West Hills last August. Sixteen of the students have accepted positions at Atascadero State Hospital, four are now working at the state hospital in Porterville, two are continuing with schooling to become registered nurses, one will go to work for the Department of Corrections and one is working in the psychiatric unit at a Fresno hospital. Three are undecided on their future plans, Davis said.

Applicants for the program qualify by passing English and math placement exams.

During the one-year training course, material covers information to prepare students for the state examinations that may qualify them for jobs. Applicants must also pass basic health screening and criminal records clearance.

During the one-year training, two days a week are spent in classroom study and the other three days are spent in clinical settings. In addition, many students are able to work in related fields on the weekends to help supplement their incomes. Currently, a number of students are working weekends at Atascadero State Hospital, Davis said. The hospital assists with housing and also pays the students.

Davis said applications are being accepted for future classes. Total costs associated with the West Hills' program are about \$2,000 including tuition, books and fees. Financial aid is available for those who qualify.

For more information on the psychiatric technician and other health career programs, call West Hills at 559-934-2760.

Psychiatric technician trainees at West Hills College Coalinga are in a one-year long program that will help qualify them for more than 800 jobs that will be available in Coalinga at the new California Department of Mental Health Hospital that is currently under construction.

OPPORTUNITIES AWAIT ADMINISTRATION OF JUSTICE STUDENTS

Students interested in a career in law enforcement or corrections and enrolled in classes at West Hills Community College District might find opportunities to practice what they study while they are still enrolled in classes at West Hills.

West Hills has a close association with law enforcement in communities in the district. Frank Sceenport, interim police chief for the City of Coalinga, is one of the instructors in the AOJ/Corrections program and John

John Bart, former chief of police in Sanger and Corcoran, works with students in Administration of Justice/Corrections classes in Coalinga. Bart was named instructor of the year by West Hills students this year.

Bart, who was recently voted by West Hills' students as instructor of the year, is the former chief in Corcoran and Sanger. Terry Davis, who is also a former police officer, heads the West Hills College Lemoore AOJ/Corrections program and a number of active law enforcement

officers teach classes at West Hills. Anira Whitehead, a former sheriff's department deputy with Coos County, Oregon, and jail manager with the San Bernardino Police Department heads the program in Coalinga.

Among the possible employers for West Hills' students:

- Coalinga State Hospital (California Department of Mental Health) scheduled to open in 2005 is now accepting applications from individuals who have successfully completed AOJ 50, which is offered at all West Hills campuses.
- A private organization, Tri-County Extradition, Inc., which contracts with local law enforcement entities to transport prisoners within the state, is also accepting applications for those who are 21 and have completed the P.C. 832 class.

Kings County Sheriff's Department has an on going recruitment for detentions officers to work in the Kings County jail system. Those hired must complete the P.C. 832 class within one year of being hired.

Each of the positions available in these agencies would allow West Hills students to earn work study credit if they are concurrently enrolled in West Hills classes.

In addition, Kings County is home to three major California Department of Corrections facilities (two in Corcoran and one in Avenal). Courses at West Hills offer students an opportunity to explore AOJ as a possible career option for these institutions.

WEST HILLS FORCED TO REDUCE BUDGET-POSITIONS ELIMINATED

Despite difficult budget times, West Hills Community College District continues to meet the needs of students and the communities it serves and is forging ahead with plans for growth and expansion.

"While much of our budget is dictated by the state," Chancellor Frank Gornick said, "we're still going to find ways to move forward. We're constantly seeking federal grants and private foundation money that will allow us to serve the needs of the residents of our district."

West Hills has been forced to cut its \$20 million budget by about 10 percent this fiscal year and expects a similar decrease next year. The state legislature is also expected to increase student tuition and fees from \$11 a unit to \$24 a unit this summer.

More than 80 percent of West Hills' students receive some sort of financial aid. Many are the first in their families to attend college and Gornick said that West Hills is committed to provide classes and services they need to complete their certificate and degree programs.

"We're getting leaner," he said. "We'll be forced to offer fewer class sessions so the times may be less convenient but we're still going to offer the classes our students need. Our summer sessions will actually be similar to last year in the number of course offerings."

As a result of budget reductions, West Hills eliminated 11 full-time nonteaching positions and three part-time positions. Six faculty positions were eliminated.

WEST HILLS COLLEGE NAMES ALUMNI OF THE YEAR

In a break with tradition, West Hills College has named a couple as alumni of the year. But, as far as traditions go, the couple is probably responsible for many at West Hills due to their involvement at the Coalinga campus.

Rhonda (Sweedner) and Imo Alo met while students at West Hills in the early 1980s where she was student body president and a cheerleader and he helped found the Polynesian Cultural Club on campus. They continued their educations after leaving West Hills but have made Coalinga their home—raising three children and remaining active supporters of the community and the college.

Originally from Laton, Rhonda played tennis and volleyball while at West Hills as a student in 1981 and 82. She went on to earn a bachelor's degree from Fresno Pacific. She was administrative assistant to the Coalinga-Huron superintendent of schools, and after receiving her bachelor's degree she taught at Avenal Elementary School. Over the years, she has served as a student activity and cheer advisor at both West Hills and with the Coalinga Oilers. She teaches English and has coached volleyball and softball at Coalinga High School for the past four years.

Her husband, Imo, arrived at West Hills from his hometown of Honolulu, Hawaii. He was an offensive lineman for two years for the Falcons, MVP, and earned first team all league honors. After his graduation in 1982, he coached football for West Hills and Coalinga High School and served for five years as the men's residence hall advisor. A correctional

officer at Pleasant Valley State Prison since 1994, he currently serves as the assistant varsity football coach, the assistant varsity volleyball coach and the head varsity softball coach at Coalinga High.

The couple says that West Hills brought them together—and then they chuckled while telling the story of how their relationship was cemented by a fire in the women's dorms their sophomore year. They witnessed a suspect leaving the area where the fire happened and were interviewed by the FBI.

They fondly reminisce about the good times at West Hills as well. "Our years at West Hills were the best years of our lives," Rhonda says. After they graduated they stayed on as employees at the college for a number of years. She served as an administrative assistant in Student Services and he was the residence hall manager for five years. They lived in the dorms during that time their oldest son spent his first three years there. Rhonda laughs when noting, "There was no shortage of baby-sitters."

Imo chuckles that he and the other 37 football players who came to West Hills at the same time were told that it was only a "hop, skip and a jump" to the ocean. He is quick to point out that he has been proud to make Coalinga his home and actually prefers it to Hawaii.

"Students complain about nothing to do," Rhonda says, "but we made our own fun." She said that every Sunday night was ice night in the gym and that the Associated Student Body sponsored regular dances.

They are excited about the things they currently see happening at West Hills. "The expansion is exciting and the online technology is amazing," she said.

They're also excited about the friendships they've formed.

"Faye (Mendenhall) has been my adopted mother," Imo said. He notes that she was a big part of the sports and leadership programs when he was a student. Mendenhall, a longtime instructor at the college, has served in many volunteer capacities including taking in residents of the women's residence hall when it burned.

The Alos were honored at West Hills College graduation ceremonies in Coalinga on May 23rd. They served as guest speakers at the commencement exercises.

Watching from the stands was their three children—Niko, Kami and Tori.

Their story of coming to West Hills from an ocean apart and building a life together might be best summarized as "once you come here, you can . . ."

Rhonda and Imo Alo, 2003 alumni of the year.

West Hills College Lemoore presents
Annual Student Town Hall & Leadership Conference
Friday, March 19, 2010
9:00 AM - 3:00 PM
Conference Center, Room 253

The town hall and conference theme is:

- B** Building
- R** Roads to
- A** Achievement and
- V** Visionary
- O** Opportunities

Students will gather to discuss topics including student support services, facilities, and marketing. Discussions will focus on strengths, weaknesses, and creative solutions to improving the college environment and services to students.

Statewide and regional professionals will be addressing **cultural challenges affecting achievement and opportunities for future leaders**. The convening is open to anyone interested in bridging cultural-educational barriers. Noted experts and professionals will facilitate workshops in the following areas throughout the day:

- Share personal success stories of individuals who faced cultural challenges and transitions in education and career.
- Discuss managing and coping with cultural transitions faced in higher education.
- Identify and share information regarding support networks and discuss the integral role of student services to college success.
- Discuss strategies for managing physical and mental health issues developing from cultural, educational, or other personal life stressors while attending college.

Keynote Speaker

DAVID E. HAYES-BAUTISTA

**Professor of Medicine and
Director of the Center for the Study of
Latino Health and Culture, at the
David Geffen School of Medicine at
UCLA**

WEST HILLS COMMUNITY COLLEGE DISTRICT
Faculty and Staff Diversity Plan

1993-94, 1994-1995, 1995-1996

I. Faculty and Staff Diversity Plan: Statement of Purpose

The West Hills Community College District is committed to the concept and principles of affirmative action in providing equal opportunity in education and employment for all persons and to prohibit discrimination based on race, sex, color, religion, age, national origin, disability, marital status, Vietnam-era veteran status, or sexual orientation. This commitment applies to every aspect of education and personnel policies and practices in employment, development, advancement, and treatment of employees, students and the general public.

The West Hills Community College District believes that in order to effectively address and comply with federal and state mandates and guidelines on affirmative action, the Board of Trustees, administration, faculty, and classified staff must recognize that faculty and staff diversity is a shared responsibility and must be held accountable for application and enforcement of the plan within their area of authority. This also applies to all regional areas of the West Hills Community College District which consists of the Coalinga Campus, Kings County Center at Lemoore, the Naval Air Station Lemoore Office, and the North District Center. It is through our combined efforts that the West Hills Community College District will achieve fairness and equity consistent with established affirmative action goals and objectives.

The West Hills Community College District will continue to make faculty and staff diversity efforts to ensure that the recruitment, screening, selection, hiring, and promotional processes are in accordance with principles of equal opportunity. In addition to employment, this plan shall also address the treatment of students on campuses and centers in accordance with district-wide affirmative action efforts.

II. Faculty and Staff Diversity Plan: General Description

A. RATIONALE AND INTENT

It is the obligation of the West Hills Community College District to promote understanding and appreciation of the diverse population within the community it serves as well as within its sphere of influence.

It is educationally sound for all students attending the college and its centers within the District to have available positive images provided by individuals from historically underrepresented groups and to observe that such individuals can assume responsibilities and diverse roles in our society.

By the adoption of this faculty and staff diversity plan, members of the Board of Trustees of the West Hills Community College District reaffirm their commitment to equal opportunities in employment and education. Therefore, the policies which govern this faculty and staff diversity plan are designed to promote recruitment, employment, and promotion of persons by giving consideration to race, color, religion, national origin, sex, age, disability, Vietnam-era veterans status, or sexual orientation.

The concept of affirmative action is one of applying good faith efforts to provide equal occupational and educational opportunity. This concept is an extension of procedures which West Hills Community College District has followed for some time. The intent is to assure equal employment and educational opportunities for all, but consideration is given to race, color, religion, national origin, sex, age, disability, Vietnam-era veteran status, or sexual orientation, through the process of education, dissemination of information, and the modification of existing practices. In many instances, employment opportunities in our society have not been as available to minorities and women as they have been to other citizens. Affirmative action, therefore, is both a legal and moral responsibility for all employers. For purposes of clarification, the term "affirmative action" can best be understood in relation to equal opportunity. Equal opportunity ~~is a condition, and affirmative action includes all the various~~ methods through which equal employment opportunity for all is made a reality. More specifically, the intention of the affirmative action program at West Hills Community College District is to ensure that persons from underrepresented groups are incorporated into the service of the District in all job categories and all job levels without diminishing work quality. In keeping with the law, the program affirms that efforts to bring about a better ethnic and sexual balance among employees shall not come into conflict with the concept of equal opportunity for all, that is, steps to increase opportunities for some must not result in discrimination against others.

B. DEFINITIONS

(Reference: Title 5 California Administrative Code Section 53001)

(a) Affirmative Action Employment Programs. "Affirmative action employment programs" means all the various methods by which equal employment opportunity and proportionate representation is to be achieved for qualified members of historically underrepresented groups.

(b) Faculty and Staff Diversity Plan. A "faculty and staff diversity plan" is a written document in which a district's work force is analyzed and specific result-oriented plans and procedures for achieving equal employment opportunity and proportionate representation of qualified members of historically underrepresented groups are set forth.

(c) Business Necessity. "Business necessity" means circumstances which justify an exception to the requirements of Section 53021 because compliance with that section would result in substantial additional financial cost to the district or pose a significant threat to human life or safety. Business necessity requires greater financial cost than does mere business convenience. Business necessity does not exist where there is an alternative that will serve business needs equally well.

(d) Equal Employment Opportunity. "Equal employment opportunity" means that all qualified individuals have a full and fair opportunity to compete for hiring and promotion and to enjoy the benefits of employment with the district.

(e) Ethnic Minorities. "Ethnic minorities" means American Indians or Alaskan natives, Asians or Pacific Islanders, Blacks, and Hispanics. A person shall be included in the group with which he or she identifies as his or her group, but may be counted in only one ethnic group. These groups shall be more specifically defined by the chancellor consistent with state and federal law.

~~(f) Goals and Timetables. "Goals and timetables" means projected~~ new levels of employment of historically underrepresented groups to be worked toward on a specific schedule, given the expected turnover in the work force and the availability of persons who are qualified to perform a particular job through appropriate training or experience or who will become so qualified within a reasonable length of time. Goals are not "quotas" or rigid proportions.

(g) Person with a Disability. "Person with a disability" means any person who (1) has a physical or mental impairment which substantially limits one or more of such person's major life activities, (2) has a record of such an impairment, or (3) is

regarded as having such an impairment. A person with a disability is "substantially limited" if he or she is likely to experience difficulty in securing, retaining, or advancing in employment because of such an impairment.

(h) Historically Underrepresented Group. "Historically underrepresented group" means any group for which the percentage of persons from that group in the applicable work force is not, and has historically been, significantly lower than the percentage that members of that group represent in the pool of persons who are determined by the Chancellor to be available and qualified to perform the work in question. The Board of Governors has determined that, on a statewide basis, ethnic minorities, women, and persons with disabilities are historically underrepresented groups.

(i) Reasonable Accommodation. "Reasonable accommodation" means the efforts made on the part of the employer to remove artificial or real barriers which prevent or limit the employment and upward mobility of persons with disabilities.

(j) Proportionate Representation. "Proportionate representation" means that the percentage of persons from a historically underrepresented group in the applicable work force is at least equal to the percentage that members of that group represent in the pool of persons who are determined by the Chancellor to be available and qualified to perform the work in question.

(k) In-house or Promotional Only Hiring. "In-house" or "promotional only" hiring means that only existing district employees are allowed to apply for a position.

(l) Screening or Selection Procedures. "Screening or selection procedures" means any measure, combination of measures, or procedure used as a basis for any employment decision. Selection procedures include the full range of assessment techniques, including but not limited to, traditional paper and pencil tests, performance tests, and physical, educational, and work experience requirements, interviews, and review of application forms.

(m) Adverse or Disparate Impact. "Adverse impact" or "disparate impact" means that a statistical measure (such as those outlined in the Equal Employment Opportunity Commission's "Uniform Guidelines on Employee Selection Procedures") is applied to the effects of a selection procedure, and demonstrates a disproportionate negative impact on a historically underrepresented group as defined in subsection (h).

C. WEST HILLS COMMUNITY COLLEGE DISTRICT AFFIRMATIVE ACTION POLICY

1. Commitment. The West Hills Community College District Board of Trustees commits itself to nondiscrimination and affirmative action.

a. Nondiscrimination.

(1) No person shall be denied an educational, employment or related benefit because of the individual's race, color, religion, sex, national origin, age, marital status, disability, sexual orientation, or Vietnam-era veteran status.

(2) Nondiscrimination requires the elimination of discriminatory practices and conditions that may exist, whether intentional or inadvertent.

(3) This District shall monitor continuously and evaluate at specified times all educational and employment policies, procedures, and practices and shall take action to correct those that may unlawfully discriminate. Employment policies, procedures, and practices shall be consistent with the approved faculty and staff diversity plan.

b. Affirmative Action.

(Reference: Education Code Sections 87100-87107)

87100. Legislative findings, declarations and intent

"The Legislature finds and declares that:

(a) Generally, California Community Colleges employ a disproportionately low number of racial and ethnic minority classified and certificated employees and a disproportionately low number of women and members of racial and ethnic minorities in administrative positions.

(b) It is educationally sound for the minority student attending a racially impacted school to have available the positive impact provided by minority classified and certificated employees. It is likewise educationally sound for the student from the majority group to have positive experiences with minority people which can be provided, in part, by having minority classified and certificated employees at schools where enrollment is largely made up of majority group students. It is also educationally important for student to observe that females as well as males can assume responsible and diverse roles in society.

(c) Past employment practices created artificial barriers

and past efforts to promote additional action in the recruitment, employment, and promotion of women and minorities have not resulted in a substantial increase in employment opportunities for such persons.

(d) Lessons concerning democratic principles and the richness which racial diversity brings to our national heritage can be best taught by the presence of staff of mixed races and ethnic groups working toward a common goal.

It is the intent of the Legislature to establish and maintain a policy of equal opportunity in employment for all persons and to prohibit discrimination based on race, sex, color, religion, age, handicap, ancestry, or national origin in every aspect of personnel policy and practice in employment, development, advancement, and treatment of persons employed in the public school system, and to promote the total realization of equal employment opportunity through a continuing Affirmative Action Program. The Legislature recognizes that it is not enough to proclaim that public employers do not discriminate in employment but that effort must also be made to build a community in which opportunity is equalized. It is the intent of the Legislature to require educational agencies to adopt and implement plans for increasing the numbers of women and minority persons at all levels of responsibility."

87101. Definitions

For the purposes of this article:

(a) "Affirmative action employment program" means planned activities designed to seek, hire, and promote persons who are underrepresented in the work force compared to their number in the population, including handicapped persons, women, and persons of minority racial and ethnic backgrounds. It is a conscious, deliberate step taken by a hiring authority to assure equal employment opportunity for all staff, both certificated and classified. These programs ~~require the employer to make additional efforts to recruit, employ, and promote members of groups formerly excluded at the various levels of responsibility who meet statewide minimum qualifications, if any, and who, relative to local qualifications, are qualified or may become qualified through appropriate training or experience within a reasonable length of time. The programs should be designed to remedy the exclusion, whatever its cause. Affirmative action requires imaginative, energetic, and sustained action by each employer to devise recruiting, training, and career advancement opportunities which will result in an equitable representation of women and minorities in relation to all~~

employees of the employer.

(b) "Goals and timetables" means projected new levels of employment of women and minority racial and ethnic groups to be attained on an annual schedule, given the expected turnover in the work force and the availability of persons who are, relative to local qualifications beyond the statewide minimum qualifications, qualified, or may become qualified through appropriate training or experience within a reasonable length of time. Goals are not quotas or rigid proportions. They should relate both to the qualitative and quantitative needs of the employer.

(c) "Public education agency" means the office of the chancellor and the governing board of each community college district in California.

87102. Compliance affirmation; Record of Success to be Produced

The governing board of each community college district shall periodically submit to the Board of Governors of the California Community Colleges an affirmation of compliance with the provisions of this article. The affirmative action employment program shall have goals that ensure participation in, and commitment to, the program by district personnel, and timetables, for its implementation. The affirmative action plan shall include steps that the district will take in meeting and improving hiring goals for both full-time faculty and part-time faculty pursuant to Section 87482.6, and the development of the plan shall be a condition for receipt of allowances to that section.

The governing board of each community college district shall be held accountable pursuant to this article and other applicable provisions of law for the success or failure of its affirmative action employment program. The plans shall be a public record within the meaning of the California ~~Public Records Act [Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code].~~

(b) The governing board of each community college district shall publish and distribute a record of the success rate of measurable progress, with respect to its goals and timetables, in hiring employees through its affirmative action employment program. This publication shall be a public record within the meaning of the California Public Records Act, and shall include data and information specified by the board of governors.

87103. Assistance

The Office of the Chancellor of the California Community Colleges shall render assistance in developing and implementing affirmative action employment programs to community college districts under its jurisdiction.

87104. Requirements for use of funds

The Board of Governors of the California Community Colleges, out of funds appropriated for such purposes, (1) shall provide assistance to local community colleges in adopting and maintaining high quality affirmative action programs; (2) report to the Legislature regarding the number of districts which have adopted and are maintaining affirmative action programs, including the effectiveness of such programs in meeting the intent of this article; (3) develop and disseminate to public community college district guidelines to assist such agencies into developing and implementing affirmative action employment programs; and (4) shall establish a technical assistance team to review the affirmative action plan of each community college district which fails to make measurable progress in meeting the goals and timetables of its adopted plan. The technical assistance team shall recommend appropriate actions to assure reasonable progress in improving success rate. The board of governors shall prescribe those conditions necessary to assure reasonable progress and otherwise meet the legal requirements of affirmative action. The conditions may include the withholding of allowances made pursuant to Sections 87482.6 and 87107.

(b) The board of governors shall establish, by July 1, 1989, within the chancellor's office or through other means as deemed necessary, a major service function to assist community college districts in identifying, locating, and recruiting qualified members of underrepresented groups, and in establishing and maintaining effective affirmative action hiring procedures.

(c) The board of governors shall, by March 15, 1989, develop and adopt a systemwide plan for strengthening faculty and staff affirmative action policies and programs in the California Community Colleges.

87105. Rules and Regulations

The Board of Governors of the California Community Colleges shall adopt all necessary rules and regulations to carry out the intent of this article.

87106. Federal law

Any activities undertaken pursuant to this article shall be subject to provisions of Title VII of the Federal Civil Rights Act of 1964, and amendments thereto.

87107. Faculty and Staff Diversity Fund Establishment and Use of Money

(a) There is hereby created in the State Treasury a fund which shall be known as the Faculty and Staff Diversity Fund. The money in the fund shall be available to the board of governors upon appropriation by the Legislature for the purpose of enabling the California Community Colleges as a system to address the goal that by the year 2005 the system's work force will reflect proportionately the adult population of the state. For the purpose of administering this fund, the board of governors shall develop and apply availability data and factors for measuring district progress in contributing to this goal for the system. Also for the purpose of administering this fund, it is the intent of the Legislature that the board of governors take the steps which are necessary to reach the goal that by fiscal year 1992-93, 30 percent of all new hires in the California Community Colleges as a system will be ethnic minorities.

(b) By December 1, 1993, the board of governors shall report upon and assess the extent to which the California Community colleges as a system have met or begun to meet the goals specified in this section. The report shall include conclusions regarding any necessary revisions to these goals. Unless provided otherwise by the Legislature by statute, the board of governors may, on or after September 30, 1994, adopt regulations to revise these goals.

(c) The board of governors shall utilize up to 25 percent of the fund to do all of the following:

(1) Reimburse districts for the costs of publishing, ~~distributing, and reporting affirmative action success~~ rates as provided in Section 87102.

(2) Reimburse district for the cost of preparing and updating affirmative action plans.

(3) Carry out the assistance, service, monitoring, and compliance functions specified in Section 87104.

(d) The remainder of the fund shall be allocated to districts, in accordance with regulations of the board of governors, to provide for extended outreach and recruitment

of underrepresented groups, for incentives to hire members of underrepresented groups, for in-service training, and for other related staff diversity programs.

(e) It is the intent of the Legislature that the board of governors in administering this fund, shall, pursuant to the provisions of this article, give funding priority and shall afford flexibility and discretion in the use of these funds to districts which have made or are making reasonable progress in contribution to the achievement of the goals of this fund.

D. DUTIES AND RESPONSIBILITIES OF AFFIRMATIVE ACTION OFFICER

The West Hills Community College District will have an Affirmative Action Officer responsible for the district. The Affirmative Action Officer of the District is responsible for the overall implementation of the Faculty and Staff Diversity Plan and shall work in conjunction with the Faculty and Staff Diversity Advisory Committee and the Superintendent/President or designee of the West Hills Community College District to carry out the goals and objectives of the program.

The Affirmative Action Officer is responsible to the Superintendent/President of the West Hills Community College District and shall administer and coordinate the Affirmative Action Program. Responsibilities may include, but not necessarily be limited to the following:

1. Develop and disseminate the Faculty and Staff Diversity Plan statements and programs.
2. Identify affirmative action problem areas.
3. Assist management and supervisory personnel in arriving at solutions to affirmative action problems.
4. Design and implement an audit and reporting system that will:
 - ~~a. Measure effectiveness of the District Affirmative Action Programs.~~
 - b. Indicate need for remedial action.
 - c. Develop goals and objectives based on recommendations from administration, faculty, and classified staff, and the Faculty and Staff Diversity Advisory Committee.
 - d. Determine the degree to which goals and objectives have been attained.

- e. Assure that the District is in compliance with federal and state guidelines, executive orders, etc.
 5. Serve as liaison to minority organizations, community action groups, disabled and women's organizations concerned with employment opportunities and Affirmative Action.
 6. Keep current on all federal, state, and local laws concerned with affirmative action and keep the Superintendent/President or designee, Advisory Committee, and district personnel informed of the latest developments in affirmative action.
 7. Develop, implement, and audit methods of effective recruitment, screening and interviewing, review job descriptions, selection, training, retraining, transfer and promotion practices, and evaluation of employees to comply with equal employment laws.
 8. Review the qualifications of all employees to ensure that minorities, women, and other affected classes are given full opportunities for transfers and promotions.
 9. Conduct regular discussions with administrators, managers, supervisors, faculty, and classified staff to ascertain that the District Affirmative Action Program is being followed.
 10. Prepare an annual written report to the Board of Trustees and college staff to be presented at a regularly scheduled meeting. The report shall include but not be limited to:
 - a. progress towards goals and timetables
 - b. problems identified and solutions carried out
 - c. current problem areas
 11. Serve as Chairperson of the Faculty and Staff Diversity Advisory Committee.
-
12. Conduct active personnel recruitment efforts with county board organizations, private industry, professional organization, colleges, universities, and other identified recruitment target areas.
 13. Make periodic reports to the Chancellor's Office, state and federal compliance agencies as necessary.
 14. Keep current on equal employment opportunity developments and inform administration how any changes of emphasis might affect district hiring practices.

15. Maintain a District Faculty and Staff Diversity Advisory Committee, as outlined and directed by the Superintendent/President and Board of Trustees, consisting of diversified representation.
16. Update all recruitment and selection processes (recruitment, interviews, job description, transfer and promotion practices etc.) eliminating any artificial barriers and non-job-related selection procedures.
17. Affirmative Action Officer or designee shall attend all selection committee meetings, paper screenings, and interviews.

III. FACULTY AND STAFF DIVERSITY PLAN: PROCEDURES FOR IMPLEMENTATION

A. RESPONSIBILITY

(Reference: Title 5 California Administrative Code Sections 53020-53024)

53020. Responsibility; Delegation of Authority; Complaints

(a) The governing board of each community college district is ultimately responsible for proper implementation of this Subchapter at all levels of district and college operation and for making measurable progress toward the goals established in the district's faculty and staff diversity plan. In carrying out this responsibility, the governing board, upon the recommendation of the chief executive officer, shall ensure that an affirmative action officer is designated to oversee the day-to-day implementation of the requirements set forth in this Subchapter.

(b) The administrative structure created by any delegation of authority to the affirmative action officer or others shall be described in the district's faculty and staff diversity plan submitted pursuant to Section 53003 and shall be designed in such a manner so as to ensure prompt and effective implementation of the requirements of this Subchapter. The plan shall also designate a single officer, who may be the affirmative action officer, who shall be given authority and responsibility for receiving complaints filed pursuant to Section 53026, for ensuring that such complaints are promptly and impartially investigated, and ensuring that selection procedures and the applicant pool are properly monitored as required by Sections 53023 and 53024.

(c) Any organization or individual, whether or not an employee of the district, who acts on behalf of the governing board with regard to the recruitment and screening of personnel is an agent

of the district and is subject to all of the requirements of this Subchapter.

B. RECRUITMENT

(Reference: Title 5, California Administrative Code Section 53021)

53021. Recruitment

(a) Community college districts shall undertake a program of verifiable affirmative action recruitment of qualified members of historically underrepresented groups in all job categories and classifications, including, but not limited to, faculty, classified employees, categorically funded positions, the chief executive officer and all other executive/administrative/managerial positions.

(b) "In house or promotional only" recruitment shall not be used to fill any new opening except when:

- (1) The pool of eligible district employees has achieved proportionate representation and the district has an upward mobility program which is included in the faculty and staff diversity plan approved by the Chancellor;
- (2) The position is being filled on an interim basis (not to exceed one year) to allow for full and open recruitment; or
- (3) Justified by "business necessity" as defined in Section 53001 (c).

(c) If a district believes justification exists for use of the "business necessity" exception, it shall so notify the Faculty and Staff Diversity Advisory Committee established pursuant to Section 53005 and the Chancellor at least ten (10) working days prior to offering the position to a candidate.

(d) Even where in-house or promotional only recruitment is permitted pursuant to subsection (b), all qualified district employees shall be afforded the opportunity to apply.

(e) For purposes of this section, a new opening is not created when:

- (1) There is a reorganization or series of transfers that does not result in a net increase in the number of employees;
- (2) A position which is currently occupied by an incumbent

and is upgraded, reclassified, or renamed without significantly altering the duties being performed by the individual;

(3) The faculty in a division or department elect one faculty member to serve as a chairperson for a prescribed limited term; or

(4) The position is filled by a temporary appointment using recruitment procedures authorized by other provisions of law.

C. HIRING PROCEDURES

The West Hills Community College District Superintendent/ President and College Council, in conjunction with the Director of Personnel Services and/or the Affirmative Action Officer have developed specific "Hiring Procedures" which are to be followed for all permanent full-time and part-time positions. These procedures are included as appendices to this plan.

D. JOB ANNOUNCEMENTS

(Reference: Title 5 California Administrative Code Section 53022)

53022. Job Announcements and Required Qualifications

Job Announcements shall state clearly job specifications setting forth the knowledge, skills, and abilities necessary to job performance. For faculty and administrative positions, job requirements shall include a sensitivity to and understanding of the diverse academic, socioeconomic, cultural, disability and ethnic backgrounds of community college students. Job specifications, including any "desired" or "required" qualifications beyond the state minimum qualifications (set forth in Subchapter 4, commencing with Section 53400 of this Chapter) which the district wishes to utilize, shall be reviewed before the position is announced, to ensure conformity with the requirements of this Subchapter and state and federal nondiscrimination laws.

E. APPLICANT POOL

(Reference: Title 5 California Administrative Code Section 53023)

53023. Applicant Pool

(a) All applicants shall be given an opportunity to identify themselves as being a member of a historically underrepresented group when their application is submitted. This information shall be kept confidential and shall be used only in research, validation, monitoring, evaluating the effectiveness of the district's affirmative action employment program, or any other

purpose specifically authorized in this Subchapter, or by any applicable statute or regulation.

(b) After the application deadline has passed, applications shall be screened to determine which candidates satisfy job specifications set forth in the job announcement. Before the selection process begins, the composition of the qualified applicant pool shall be analyzed to ensure that the goals established in the district's faculty and staff diversity plan may be furthered and that members of historically underrepresented groups are not adversely impacted. If this is not the case, the chief executive officer or his or her designee shall take effective steps to address the adverse impact before the selection process is begun. Such steps may include, but are not limited to:

(1) the deadline is extended and additional recruitment focused on historically underrepresented groups is undertaken;

(2) applicants from historically underrepresented groups who were initially screened out because they failed to meet locally established "desirable or preferred" qualifications beyond the state minimum qualifications are included in the applicant pool where such applicants may be expected to meet these additional qualifications through appropriate training or experience within a reasonable length of time.

(3) locally established qualifications beyond state minimum qualifications are modified or removed and the application deadline is extended.

(c) If adverse impact persists after taking steps required under subdivision (b), the selection process may proceed only if:

(1) the job announcement does not require qualifications beyond the statewide minimum qualifications;

(2) locally established qualifications beyond state minimum qualifications, if any, are shown to be job related and ~~consistent with business necessity through a process meeting~~ the requirements of federal law; or

(3) the particular requirements beyond statewide minimum qualifications which are used in the job announcement are among those which the Board of Governors has found to be job-related and consistent with business necessity throughout the community college system.

F. SCREENING

(Reference: Title 5 California Administrative Code Section 53024)

53024. Screening or Selection Procedures

(a) All screening or selection techniques, including the procedure for developing interview questions, and the selection process as a whole, shall be:

(1) provided to the Chancellor upon request;

(2) designed to ensure that for faculty and administrative positions, consideration is given to the extent to which applicants have a sensitivity to and understanding of the diverse academic, socioeconomic, cultural, disability, and ethnic backgrounds of community college students;

(3) based solely on job-related criteria, provided that, when a particular candidate who meets the minimum qualifications for the job is also a member of a historically underrepresented group, this membership may be taken into account as one factor in the final selection process where this would further achievement of the goals set forth in the district's faculty and staff diversity plan; and

(4) designed and monitored to ensure that they do not have an adverse impact on members of historically underrepresented groups.

(b) If monitoring pursuant to subsection (a) (4) reveals that any selection technique or procedure has adversely impacted any historically underrepresented group, the chief executive officer or his/her designee shall suspend the selection process, and timely and effective steps shall be taken to remedy the problem before the selection process resumes. The affirmative action officer, or other official charged with responsibility for monitoring selection procedures, may assist the screening committee by discussing the overall composition of the applicant pool and the screening criteria or procedures which have produced an adverse impact, provided that confidential information about individual candidates is not disclosed. Where necessary, the position may be re-opened at any time and a new selection process initiated in a way designed to avoid adverse impact.

(c) A district may not designate or set aside particular positions to be filled by members of any group defined in terms of race, ethnicity, gender, age, disability, or any other characteristic which would result in discriminatory treatment prohibited by state or federal law. Nor may a district apply goals set forth in the district's faculty and staff diversity plan in a rigid manner which has the purpose or effect of so discriminating.

(d) Seniority or length of service may be taken into consideration only to the extent it is job related, is not the sole criterion, and is included in the job announcement consistent with the requirements of Section 53022.

(e) Selection testing for employees shall follow procedures as outlined in Equal Employment Opportunity Commission's "Uniform Guidelines on Employee Selection Procedures."

(f) Selection committees shall include members of historically underrepresented groups whenever possible.

(g) Notwithstanding any other provision of this Division, the governing board or its designee shall have the authority to make all final hiring decisions based upon careful review of the candidate or candidates recommended by a screening committee. This includes the right to reject all candidates and order further review by the screening committee or reopening of the position where necessary to further achievement of the goals established in the faculty and staff diversity plan. However, consistent failure to select qualified candidates from historically underrepresented groups who are recommended by screening committees shall constitute a violation of Section 51010 of this Division.

G. PERSONS WITH DISABILITIES

(Reference: Title 5 California Administrative Code Section 53025)

53025. Persons with Disabilities

(a) By July 1, 1992, each community college district shall establish goals and timetables for hiring and promotion of persons with disabilities, provided that data on the availability of persons with disabilities who are qualified for employment by community colleges is furnished by the Chancellor.

(b) For academic year 1992-93, and each year thereafter, districts shall monitor for adverse impact on persons with disabilities ~~consistent with the requirements of Sections 53004, 53023, and 53024~~ and shall report on the number of persons with disabilities who are employed by the district pursuant to Section 53004.

(c) Community college districts shall ensure that applicants and employees with disabilities receive reasonable accommodations consistent with the requirements of Government Code Sections 11135 et seq., and Section 504 of the Rehabilitation Act of 1973. Such accommodations may include, but are not limited to, job site modifications, job restructuring, flexible scheduling, adaptive equipment, and auxiliary aids such as readers, interpreters, and notetakers. Such accommodations may be paid for with the faculty

and staff diversity funds provided pursuant to Article 3 (commencing with Section 53030) of this Subchapter.

H. AFFIRMATIVE ACTION COMMITMENT

1. All employment practices, including selection, assignment, promotion, transfer, demotion, or termination decisions, shall be based on job-related factors which include qualifications and capabilities. Seniority shall be considered as required by law. The goals of the Affirmative Action Program shall also be designed to meet the special needs and aspirations of protected groups, students and the community in counseling, bilingual/multicultural education, and school-staff mobility. Bilingual/multicultural education may also include multilingual.

2. To effectuate its affirmative action commitment, the West Hills Community College District shall seek to hire and retain employees whose backgrounds and abilities add to the cultural diversity of the institution, and who can act as positive role models.

- a. Review procedures to eliminate any unlawful discriminatory practices.
- b. Display State Department of Fair Employment and Housing and Equal Employment Opportunity Commission posters where applicants and interviewers are likely to see them.
- c. Eliminate sex-stereotyped job titles.
- d. Whenever possible, assign persons with bilingual skills to provide service to non-English-speaking persons or limited-English-speaking ability persons.
- e. In a reduction in force situation, examine programmatic needs in a very comprehensive manner to ensure protected group members are retained in employment whenever possible.

I. AGENTS

[Reference: Title 5 California Administrative Code Section 53020 (c)]

See Page 11 of this document.

J. PERSONNEL POLICIES

Personnel policies comply with equal opportunity laws and guidelines.

1. Salary and Benefit Plan.

- a. Fixed salary schedules for administrative and faculty positions are based on responsibilities, experience, and education.
- b. Fixed salary schedules for classified and temporary hourly staff are based on an analysis of similarities of job responsibilities and requirements including experience and education.
- c. Salary policies are made available to all employees and prospective applicants for employment.
- d. District-provided fringe benefit plans do not operate to discriminate based on sex.

2. Leave Policies

- a. The granting of leaves, including paid or unpaid leave for educational or professional purposes, illness, disability, vacation, and personal necessity is nondiscriminatory.
- b. Women employees, regardless of marital status, are eligible for district approved disability benefits during the period of time they are physically disabled and unable to work as a result of pregnancy. A physical disability arising out of pregnancy is considered to be and is treated the same as any other disability under those benefits and policies provided by the District which may include accrued sick leave pay, vacation, and substituted difference pay. Any other leave time requested associated with pregnancy or childbirth is treated under Subsection 2-c below.
- c. The District may grant both men and women employees, in addition to other leaves provided by policy, personal ~~leaves of absence without pay for reasonable periods~~ for child caring and/or preparation of childbirth. Requests for personal leaves of absence specify the length of the leave, giving a definite date of return to work. For certificated teaching staff where the need for a personal leave of absence without pay may be anticipated in advance, leaves are granted recognizing the employee's needs, yet maintaining the continuity and continuation of the courses being taught.

3. Policy on Employment of Relatives

The policy on employment of relatives does not operate to violate the intent of the Plan which provides that affirmative action be taken to recruit and place minority persons. Similarly, the policy is not applied unilaterally to deny employment to persons of one sex. Where a practice of providing for employment of relatives has operated to exclude people based on race, such practices are contrary to the intent of the law. Policies or practices which prohibit or have an adverse impact upon one sex or the other are in violation of the law. The Board policy concerning the employment of relatives allows for employment of members of the same family but prohibits such employment when the Superintendent/President or designee determines that such employment would result in a potential conflict of interest in the performance of job duties and responsibilities. See West Hills Community College District Board Policy.

K. SPECIAL STAFF TRAINING AND PARTICIPATION

Education and training play a vital role in affirmative action.

1. Staff Training Equal opportunity is a fundamental and continuing staff responsibility. Since it is the knowledge, attitude, motivation, and personal involvement of the staff that will ensure success of the Faculty and Staff Diversity Plan, education and orientation of staff are provided for a part of the Plan.

a. Regular Meetings On at least an annual basis, Faculty and Staff Diversity Plan progress is reviewed during meetings of the Board of Trustees, faculty, administrative and classified staff, and students. To the fullest extent possible, staff and board members are responsible for the development of equal opportunity goals, objectives, and programs through discussion and planning in such meetings.

b. Training Seminars and Meetings Attendance by staff at seminars and training workshops designed to improve understanding of equal opportunity policy and affirmative action is encouraged. West Hills Community College District Faculty and Staff Diversity Advisory Committee will provide those involved with screening and selection processes training in equal opportunity and affirmative action guidelines on a regular basis.

2. Upward Mobility Program Training and Development of Employees

Operation of the West Hills Community College District will use those training programs which provide the most meaningful

opportunities for preparation of employment and advancement.

- a. Preparation for Entry-Level Classified and Certificated Positions:
 - (1) Special hiring programs in entry-level positions where future, regular employment opportunities may be anticipated are undertaken.
 - (2) Through vacation replacement, seasonal employment and leaves of absence individuals are provided with opportunities to gain practical experience qualifying for future, regular positions.
- b. Preparation for Advancement/Promotion for Classified and Certificated Positions.
 - (1) Preparation for advancement into specialized, technical, professional and management positions is encouraged.
 - (2) Abilities and experience necessary for promotions to management, supervisory, professional, technical, clerical, semi-skilled and skilled positions are developed by on-the-job-training, vacation relief and special assigned work projects.
- c. Preparation for Faculty Positions
 - (1) Higher degree-granting institutions seeking to provide their graduates with internship and other educationally-related experiences are encouraged to utilize the District as a possible resource.
 - (2) Opportunities are given to staff to participate in conferences, professional meetings and committees to gain experience, knowledge and skills wherever possible.
- d. Supplemental Education

Participation in educational and training programs is encourage and made known to employees.
- e. Professional Associations

Employees are encouraged to participate in professional organizations where such participation will contribute to their advancement and competency.

L. COMMUNITY AFFAIRS

The District will maintain an active program of community involvement and support. The District will provide for active participation in community affairs and will maintain positive and cooperative relations with underrepresented groups and community organizations covered under its Faculty and Staff Diversity Plan. Being small in enrollment, but large in rural areas, West Hills

Community College District must seek out the few community organizations that do exist.

M. STUDENT RECRUITMENT, PLACEMENT, RETENTION SERVICES AND PROGRAMS

All student support services are operated in compliance with the District's equal opportunity and affirmative action policies.

1. Recruitment and Retention

Student outreach programs are developed to recruit disadvantaged and underrepresented students. In considering recruitment techniques and formulating programs, affirmative action efforts are included.

- a. Special programs such as extended opportunity programs and services, disabled student programs, re-entry, single parent, career placement, and disadvantaged vocational student programs are all programs which are intended to improve equal opportunity and are part of our Affirmative Action Program.
- b. Emphasis is placed on ensuring that disadvantaged and underrepresented students learn of and are encouraged to undertake educational programs which they might not have undertaken in the past. Emphasis is placed on assisting women students to become aware of and involve in educational programs leading to occupations other than those traditionally available to women.

2. Service to Students

Student services such as counseling, financial aid, the Learning Resource Center, placement services, and tutoring are or will be made available to all students. Priority is given as necessary to disadvantaged students enabling them to complete their educational programs in the District. For example, West Hills Community College District allows for priority registration to DSPS and EOPS students.

3. Awareness Programs

Social and cultural awareness programs are offered throughout the year to promote district-wide understanding and support the efforts of minority groups and women. West Hills Community College District will continue to offer workshops, guest speakers, teleconferences, and video tapes on social and cultural awareness programs.

4. Curriculum

Curriculum in the West Hills Community College District includes courses on political, social, economic, historical and cultural backgrounds of minority groups and women. A list of courses which pertain exactly to minority groups and women is as follows:

Social Science 32A-Cultural History of the Chicano
Social Science 32B-Cultural History of Black Americans
Social Science 32C-Women's Studies
History 32A-Cultural History of the Chicano
History 32B-Cultural History of Black Americans
Social Service 11-Understanding the Disadvantaged Client
Social Service 12-Cultural Factors in Employment Counseling

In addition to these courses that pertain exclusively in these areas, numerous other courses present major section or modules regarding social, economic, historical, and/or cultural backgrounds of minority groups and women. A list of these courses is as follows:

Business 18-Business Law
Business 20-Introduction to Business
Business 29-Techniques of Management
Business 32-Small Business Management
Business 34-Marketing
Business 35-Personnel Management
Business 37-Human Relations in Business

5. Scholarship Programs

Scholarship programs controlled by the District comply with the equal opportunity policy. Additional scholarships are to be sought to provide financial assistance to disadvantaged students.

6. Student Programs

Student operated and controlled programs, publications, and activities are covered under the equal opportunity policy.

7. Cooperative Career Education

A cooperative Career Education Program encourages students to gain practical work experience as part of their college curriculum. West Hills Community College District will continue to conduct CWEE courses.

N. DISTRICT FACILITIES, ACTIVITIES AND PROGRAMS

The District prohibits any practice which tends to segregate employees or students based upon race, age, sex, ethnicity, disability, sexual orientation, or Vietnam-era veteran as might

arise in the planning or use of District facilities, activities, and committees. The District openly encourages all employees and students to participate fully in the affairs and activities of the District.

Where the District identifies problems that tend to segregate or inhibit full employment and educational opportunities, solutions to such problems are to be sought by the Faculty and Staff Diversity Advisory Committee.

O. PURCHASING POLICY

It is the policy of the District to ensure the minority owned and/or operated businesses have an equal opportunity to do business with the District. Additionally, the District seeks to do business with vendors complying with equal opportunity laws and guidelines.

P. DISABLED

1. The District shall make reasonable accommodation for the disabled applicant or employee. (Title 5, Regulations of the California Administrative Code, Section 53025)

2. Disabled (formerly referred to as handicapped) person(s) means any person who (a) has a physical or mental impairment which substantially limits one or more major life activities, (b) has a record of such an impairment, or (c) is regarded as having such an impairment. Reasonable accommodation is defined as efforts made on the part of the employer to remove artificial or real barriers, which prevent or limit the employment and upward mobility of disabled persons. Accommodations may include but are not limited to the provision or modification of equipment and assistive devices, modified work schedules, and job restructuring as well as job site modification.

3. (Reference: Title 5 California Administrative Code Section 59306)

59306. Visitor Parking for Persons with Disabilities

(a) Each community college district shall, consistent with the requirements of Education Code Sections 66260 and 67311.5, provide visitor parking at each of its colleges or centers at no charge to persons with disabilities or those providing transportation for such persons.

(b) For purposes of this section, "persons with disabilities" are those who:

(1) qualify as disabled persons pursuant to Section

22511.5 of the Vehicle Code; or

(2) if they were students, would be entitled to special parking provided to students with disabilities pursuant to Subchapter 1 (commencing with Section 56000) of Chapter 7 of this Division.

(c) Parking at no charge shall be available to persons with disabilities who are visitors, and those providing transportation to such persons, in those parking facilities which are most accessible to administrative offices, libraries, and other facilities which the district finds are most used by visitors.

(d) Each community college district shall post in conspicuous places notice that parking is available without charge to persons with disabilities who are visitors and those providing transportation for such persons.

(e) When parking provided pursuant to this section is located in an area where access is controlled by a mechanical gate, the district shall ensure that accommodations are made for persons with disabilities who are unable to operate the gate controls. Accommodations may be provided by an attendant assigned to assist in operation of the gate or by any other effective means deemed appropriate by the district.

(f) Parking fees collected pursuant to Education Code Section 72247 shall be used to offset any costs resulting from compliance with the requirements of this section.

4. The West Hills Community College District requests candidates to indicate on the job application if they need accommodation for the disabled in the job interview.

5. The West Hills Community College District DSPS Program plans to obtain grant money with possible matching funds by the District to make the facilities more accessible to the disabled.

Q. SEXUAL HARASSMENT

(Reference: Title 5 California Administrative Code Section 59307)

59307. Sexual Harassment and Sex Discrimination

The governing board of each community college district shall ensure that all persons, regardless of their sex, are afforded equal rights and opportunities in programs and activities conducted by colleges in the district. The district shall comply with all requirements of Chapter 2 (commencing with Section 200)

of Division 1 of Title 1 of the Education Code, which is commonly referred to as the Sex Equity in Education Act. Complaints alleging sexual harassment or discrimination on the basis of gender prohibited by that Act shall be filed and investigated pursuant to the procedures set for in this subchapter.

Also, refer to West Hills Community College District Board Policy on sexual harassment.

R. AFFIRMATIVE ACTION OFFICER

The Superintendent/President is responsible for ensuring affirmative action and equal employment opportunity. He/She may designate an Affirmative Action Officer who will oversee recruitment, selection, and interviewing in an effort to improve representation of ethnic minority groups, women, and the disabled.

Also refer to Page 9 of this document for duties and responsibilities of Affirmative Action Officer.

S. DISSEMINATION

1. Internal. The Faculty and Staff Diversity Plan shall require that all District employees be apprised of the equal employment opportunity/affirmative action policy.

2. External. The Faculty and Staff Diversity Plan shall require that a written notice be provided at least annually to various community organizations concerning the District's Affirmative Action Policy and to solicit their assistance in recruiting ethnic minority, female, disabled, and Vietnam-era veteran candidates.

3. General

(a) The principles of the District's Faculty and Staff Diversity Plan should be disseminated to all work units.

(1) A letter from the Superintendent/President reaffirming the District's commitment to affirmative action shall be sent to all employees at the beginning of each school year.

(b) Meetings with administrators and other supervisory personnel to explain the intent of the Plan and individual responsibility for its implementation shall be conducted by the Affirmative Action Officer.

(c) Meetings shall be held with officials of all employee organizations, informing them of the Faculty and Staff Diversity Plan and enlisting their cooperation.

(d) An affirmative action statement and federal and state EEO posters shall be posted in the administration buildings and instructional offices and student support services areas.

(e) A list of recruiting sources, agencies, and professional organizations shall be maintained and enhanced as a basic aid in the recruitment of minority groups, women, and other affected classes.

(f) The Faculty and Staff Diversity Plan shall be distributed to various agencies, including employment sources and commercial establishments, and specifically to those with which the District conducts business.

(g) Annual reports assessing the progress made under the Faculty and Staff Diversity Plan shall be given to the Board of Trustees.

(h) Additional procedures of dissemination, as appropriate, shall be developed by the Affirmative Action Officer in association with the Faculty and Staff Diversity Advisory Committee.

(i) Reports shall be submitted to the Chancellor's Office, as appropriate.

(j) Equal opportunity posters shall be posted on bulletin boards regularly viewed by students, employees and applicants for employment.

(k) District publications shall include statements concerning the equal opportunity and affirmative action policies. Employees and students featured in District publications shall include both underrepresented persons and women.

T. COMPLAINT PROCEDURES

(Reference: Title 5 California Administrative Code Section 53026)

53026. Complaints

Each community college district shall establish a process permitting any person to file a complaint alleging that the requirements of this Subchapter have been violated. A copy of the complaint shall immediately be forwarded to the Chancellor who may require that the district provide a written investigative report within ninety (90) days. Complaints which also allege discrimination prohibited by Government Code Sections 11135 et seq. shall be processed according to the procedures set forth in

Subchapter 4 (commencing with Sections 59300) of Chapter 10 of this Division.

An employee, applicant for employment, or student of the West Hills Community College District may file a complaint with the District Affirmative Action Officer based on alleged discrimination because of race, color, religion, sex, national origin, age, marital status, disability or Vietnam-era veteran status which meets the following requirements (Reference: Title 5 California Administrative Code Sections 59328-59342):

59328. Complaint

(a) An investigation of alleged unlawful discrimination prohibited by this Subchapter will be initiated by filing a complaint which meets the following requirements:

(1) The complaint shall be filed by one who alleges that he or she has personally suffered unlawful discrimination or by one who has learned of such unlawful discrimination in his or her official capacity.

(2) The complaint shall be filed with the Chancellor of the California Community Colleges or with the officer designated pursuant to Section 59324 by the appropriate community college district.

(3) The complaint shall be in a form prescribed by the Chancellor.

(4) The complaint shall be filed within one year of the date of the alleged unlawful discrimination or within one year of the date on which the complainant knew or should have known of the facts underlying the allegation of unlawful discrimination.

(b) Districts shall establish procedures for attempting to resolve charges of unlawful discrimination which shall be a prerequisite to filing a complaint pursuant to this chapter. Such procedures shall be limited to thirty (30) days.

59329. Complaints Filed with Chancellor

Upon receiving a complaint filed pursuant to Section 59328, the Chancellor will immediately forward a copy of the complaint to the appropriate community college district responsible officer who shall respond pursuant to Section 59322 or initiate the investigation required by Section 59334.

59330. Notice to Chancellor

Immediately upon receiving a complaint filed in accordance with Section 59328 the district shall notify the Chancellor of the complaint in a form and manner determined by the Chancellor.

59332. Defective Complaint

When a district receives a complaint which it finds does not meet the requirements of Section 59328 that district shall immediately notify the complainant that the complaint does not meet the requirements of Section 59328 and shall specify in what requirement the complaint is defective.

59334. District Investigation

Upon receiving a complaint which is properly filed in accordance with Section 59328, the district will commence an impartial fact-finding investigation of that complaint and notify the complainant and Chancellor that it is doing so. The results of the investigation shall be set forth in written report which shall include at least all of the following:

(a) a description of the circumstances giving rise to the complaint;

(b) a summary of the testimony provided by each witness, including the complainant and any witnesses identified by the complainant in the complaint;

(c) an analysis of any relevant data or other evidence collected during the course of the investigation;

(d) a specific finding as to whether discrimination did or did not occur with respect to each allegation in the complaint; and

(e) any other information deemed appropriate by the district.

59336. Administrative Determination

Within ninety (90) days of receiving a complaint, the district shall complete its investigation and forward all of the following to the complainant:

(a) a copy or summary of the investigative report required pursuant to Section 59334;

(b) a written notice setting forth:

(1) the determination of the chief executive officer or his/her designee as to whether discrimination did or did not occur with respect to each allegation in the complaint;

(2) a description of actions taken, if any, to prevent similar problems from occurring in the future;

(3) the proposed resolution of the complaint; and

(4) the complainant's right to appeal to the district governing board and the Chancellor pursuant to Section 59338.

59338. Final District Decision; Appeals

(a) If the complainant is not satisfied with the results of the administrative determination pursuant to Section 59336, the complainant may, within fifteen (15) days, submit a written appeal to the district governing board. The governing board shall review the original complaint, the investigative report, the administrative determination, and the appeal and issue a final district decision in the matter within forty-five (45) days after receiving the appeal. A copy of the final district decision rendered by the governing board shall be forwarded to the complainant and to the Chancellor. The complainant shall also be notified of his or her right to appeal this decision pursuant to this section. If the governing board does not act within forty-five (45) days the administrative determination shall be deemed approved and shall become the final district decision in the matter.

(b) In any case not involving employment discrimination, the complainant shall have the right to file a written appeal with the chancellor within thirty (30) days after the governing board issues the final district decision or permits the administrative determination to become final pursuant to subsection (a). Such appeals shall be processed pursuant to the provisions of Article 4 (commencing with Section 59350) of this subchapter.

(c) In any case involving employment discrimination, the complainant may, at any time before or after the final district decision is rendered, file a complaint with the Department of Fair Employment and Housing. In addition, in such cases, the complainant may file a petition for review with the Chancellor within thirty (30) days after the governing board issues the final district decision or permits the administrative determination to become final pursuant to subsection (a). The Chancellor shall have discretion to accept or reject any such petition for review in employment discrimination cases. If the Chancellor agrees to accept the case, he/she may:

(1) attempt to informally resolve the matter pursuant to Section 59354;

(2) where applicable, treat the complaint as an allegation that the district has violated the provisions of Subchapter 1

(commencing with Section 53000) of Chapter 4 of this Division; or

(3) take any other action deemed appropriate by the Chancellor.

59340. Forward to Chancellor

Within 150 days of receiving a complaint, the district will forward the following to the Chancellor:

(a) the original complaint;

(b) the report required pursuant to Section 59334 describing of the nature and extent of the investigation conducted by the district;

(c) a copy of the notice sent to the complainant pursuant to Section 59336(b);

(d) a copy of the final district decision rendered by the governing board or a statement indicating the date on which the administrative determination became final pursuant to Section 59338(a);

(e) a copy of the notice to the complainant required pursuant to Section 59338(a); and

(f) such other information as the Chancellor may require.

59342. Extensions; Failure to Comply

(a) If a district, for reasons beyond its control, is unable to comply with the 150-day deadline specified in Section 59340 for submission of materials to the Chancellor, the district may file a written request that the Chancellor grant an extension of the deadline. The request shall be submitted no later than ten (10) days prior to the expiration of the deadline established pursuant to Section 59340 and shall set the reasons for the request and the date by which the district expects to be able to submit the required materials.

(b) A copy of the request for an extension shall be sent to the complainant who may file written objections with the Chancellor within five (5) days of receipt.

(c) The Chancellor may grant the request unless delay would be prejudicial to the complainant.

(d) If a district fails to comply with the requirements of Section 59340 by the required deadline, including any extension granted

pursuant to this section, the Chancellor may proceed to review the case as provided in Article 4 (commencing with Section 59350) of the Subchapter based on the original complaint and any other relevant information then available.

U. GOALS AND TIMETABLES

On April 27, 1992, the Board of Governors adopted amendments to Title 5, Division IV of the California Administrative Code to require each community college district to develop and adopt a district-wide written affirmative action and equal opportunity plan. Such plans and revisions are subject to review and approval by the State Chancellor. Section 53003 of the regulations requires that each community college district shall "revise its affirmative action goals and timetables every three years..." and submit them to the State Chancellor for approval.

The Superintendent/President of West Hills Community College District in consultation with the Affirmative Action Officer, appropriate campus administrators, faculty and staff, has determined the goals for the District for the three-year period 1993-1994, 1994-1995, and 1995-1996 as specified by the Chancellor's Office, California Community Colleges, Affirmative Action Unit.

1. Background

The following conditions (based on recommendations of the Task Force on Availability) apply to the derivations of the availability data:

(a) "Professional" positions are assumed to be recruited on a statewide basis.

(b) "Non-professional" positions are assumed to be drawn from the population within a 30-mile radius of the primary work site.

This is a departure from the 1983 Task Force recommendation to use the Standard Metropolitan Statistical Area (SMSA) or county data for these positions. The 30-mile radius assumes a "reasonable" commuting distance for recruitment purposes.

(c) All categories are calculated based on the single eligibility factor of individuals possessing "requisite skills."

This approach conforms to numerous U.S. Supreme Court decisions.

(d) A procedure for calculating "grouped" faculty data for

use by small colleges is provided.

The suggested method for combining "subparts of the whole" is to use a weighted average, since it results in availability numbers that reflect the general faculty and staff configuration.

(e) Occupational categories used to estimate availability for classified positions have been increased to include those which encompass comparable to typical college jobs.

(f) "Career Education" Faculty requisite skills reflect the educational requirements associated with minimum qualifications.

Although Census data do not provide for a perfect match of occupation and the AA degree level, there is a sufficiently consistent statistical relationship to permit estimation of the proportion of AA degree holders in this category.

(g) Since the State Department of Rehabilitation has not been able to provide alternative information to date, the estimates provided here of persons in the labor force with disabilities are the best currently available. Each district's overall goals is based on statewide census data of disabled persons in the labor force adjusted for 30-mile composition of the district's faculty, educational administrators and classified staff.

2. Why goals and timetables?

Every endeavor has a measure of progress and completion. Goals and Timetables serve this purpose for diversity programs. The concept was developed in federal regulation and adapted by the Chancellor's Office for use by the system. The original purpose still holds: the measure of progress and completion toward the overriding goal of having a community work force that is proportional to the qualified labor force. Please note that goals are not quotas. A goal is a target we would like to reach because the goal makes sense. With good-faith effort, goals usually will be reached. Other circumstances affecting the choices of applicants may intrude on our ability to reach a particular goal.

3. For whom are goals set?

Goals are set for members of "historically underrepresented" groups that have been identified as having been discriminated against because of group membership in the past. For community colleges, this group includes American Indian/Alaskan Native, Asian/Pacific Islander, Black, Hispanic, Women, and Persons with a

Disability.

4. How are goals set?

For each of the groups, an "availability" measure is calculated primarily based on those in the relevant occupational category who possess the requisite skills to perform the duties of the occupation. Since professional occupations (administrators, instructors, counselors, librarians, etc) have a wider supply market than non-professional occupations (clerical, service/maintenance, technical/paraprofessional, and skilled trades workers), the relevant markets for the two are not the same. The former are expected to be recruited on a statewide basis, while the latter are recruited in a more local labor market within 30 miles of the work site. The existing work force of the district and/or college is compared to the availability in the relevant labor force market for each job category. Where there is a shortfall in the college's work force, a goal is possible if there is expected turnover in that category during the goal setting period. Whether or not there is a goal to be set up to the district, based on its good-faith effort to achieve a balanced and diverse work force.

5. Constraints in Affirmative Action Goal Setting. The Superintendent/President of the West Hills Community College District believes and recommends that the District be proactive in carrying out the provisions of its adopted Faculty and Staff Diversity Plan. While the adoption of these affirmative action goals and timetables represent a commitment to fulfill the goals leading toward a diverse organization, the Superintendent/President has identified the following constraints in achieving these goals:

- a. The employment capability of the District is largely dependent on the fiscal status and budgetary considerations of the District.
- b. The changing needs of the total district program has a direct effect on the employment program of the District.
- c. A number of positions in the District are singular position, i.e., the particular classification has only one position. These positions typically experience low turnover. The incumbents tend to be career oriented in these specialized areas. Such specialized positions do not lend themselves well to the affirmative action goal setting process.
- d. Although West Hills Community College District recruitment sources include protected group entities,

the recruitment program does not always result in a sufficient number of applications from protected group members. The plan is for the Affirmative Action Officer to review possible corrective action, such as to re-open positions at least once or increase the recruitment efforts, if this situation exists. The Affirmative Action Officer will report possible corrective action to the Superintendent/President for the final decision.

V. DISTRICT FACULTY AND STAFF DIVERSITY ADVISORY COMMITTEE

The West Hills Community College District Faculty and Staff Diversity Plan hereby establishes the District Faculty and Staff Diversity Advisory Committee to act in an advisory capacity to the Affirmative Action Officer and assist the District to achieve understanding and support of affirmative action/equal employment opportunity policies and programs. The Committee shall assist in developing the District Faculty and Staff Diversity Advisory Plan in conformity with the state and federal statutes, regulations, and guidelines and monitor its progress. The membership of the Faculty and Staff Diversity Advisory Committee will include representatives of the protected groups (ethnic minorities, women, disabled, age, and Vietnam-era veterans) whenever possible (Reference: Title 5 California Administrative Code, Section 53005).

1. Committee Functions. The Faculty and Staff Diversity Advisory Committee shall hold a minimum of two meetings per fiscal year, with additional meeting if needed, to review affirmative action goals, policies, progress, and when appropriate make recommendations to the Superintendent/President through the Affirmative Action Officer to effectuate a more meaningful Faculty and Staff Diversity Program.

The Committee will be particularly concerned with the following areas:

- a. The adequacy of projected goals and the effectiveness of the Faculty and Staff Diversity Program.
- b. The review of reports prepared by the Affirmative Action Officer regarding the District's hiring progress. The Committee should suggest appropriate actions and/or recommend policy changes as necessary.
- c. The accountability for affirmative action progress at all levels. The Faculty and Staff Diversity

Advisory Committee should be given the opportunity to comment and make recommendations.

- d. The evaluation of whether or not there is sufficient information distributed to employees clarifying misconceptions regarding affirmative action goals, responsibilities and progress to date by the District.
- e. Recruitment efforts.
- f. The advisement of administration regarding special training needs related to affirmative action. The Committee should assist in planning and implementing training programs to meet those needs.
- g. The Faculty and Staff Diversity Advisory Committee should:
 - 1. solicit advice from the DSPS Director/Counselor regarding District services to disabled persons.
 - 2. review employment policies regarding the disabled;
 - 3. assist in reviewing other written District rules, policies, practices, and procedures affecting the disabled; and
 - 4. suggest revisions of those rules, policies, practices, and procedures which may potentially be a cause for complaints of discrimination by disabled persons.
- h. Faculty and Staff Diversity Advisory Committee members will be encouraged to participate in the Faculty and Staff Diversity Program in the West Hills Community College District. Committee members may serve as the designee of the Affirmative Action Officer to serve on selection committees, paper screenings, interviews, and recruitment teams.
- i. The Faculty and Staff Diversity Advisory Committee will also have subcommittees as needed to oversee matters such as Gender Equity, Sexual Harassment, American with Disabilities Act. The chair of these subcommittee will be elected at the time of formation of the subcommittee and for purposes of

the subcommittee business will report to the Affirmative Action Officer. The results of subcommittee business will be reported to the Faculty and Staff Diversity Advisory Committee before action is taken.

- j. District employees who are committee members shall be permitted to participate in affirmative action committee activities on District time upon approval by the Affirmative Action Officer or appropriate administrator.

2. Composition and Terms of Office

Composition of the Faculty and Staff Diversity Advisory Committee will consist of:

- ** Affirmative Action Officer
- ** Representative from administration
- ** Representative from faculty
- ** Representative from classified
- ** Representative from Gender Equity Director/Counselor
- ** Representative from classified management/confidential
- ** Representative from classified supervisors
- ** Student representative
- ** Disabled Students Program and Services Director/Counselor
- ** Representative from the community

There will be a representative from the Kings County Center at Lemoore who may be one of the above representatives. The representatives from the community will be from memberships that are truly representative of racial and ethnic minority groups, women, and the disabled.

Appointments will be for one (1) year terms.

3. Procedures for the selection of members

- a. The Affirmative Action Officer, Gender Equity Director/Counselor, and Disabled Students Program and Services Director/Counselor are appointed by the nature of their position.
- b. The representatives from administration and classified management/confidential will be appointed by the Superintendent/President.
- c. The representatives from classified, classified supervisors and faculty will be appointed by their respective union organizations (CSEA, IUOE, and CTA); or for faculty only, they may be appointed by the Academic Senate.
- d. The student and community representative will be selected by the Faculty and Staff Diversity Advisory Committee.

4. Orientation of New Members

The Affirmative Action Officer shall provide all new committee members with an orientation that includes the following;

- a. Copy of the District Faculty and Staff Diversity Plan.
- b. The annual work force data which details the ethnic and sex representation of employees by occupational categories and departmental grouping.
- c. A copy of the District rules, polices and procedures manual as it becomes available.
- d. Other data, reports, policies, documents which would assist the committee's knowledge of faculty and staff diversity.

W. AFFIRMATIVE ACTION PUBLICITY

The West Hills Community College District will provide public information with special attention given to publicity, advertising and promotion both on and off campus for programs and activities which highlight cultural diversity and illustrate the unique contributions made by minority groups and women.

X. FACULTY AND STAFF DIVERSITY PLAN REVISION

The District shall revise its affirmative action goals and timetables as required in Title 5 California Administrative Code Section 53003.

Y. CORRECTIVE ACTION

1. Regulation

The Faculty and Staff Diversity Plan shall require that when imbalances exist in the various job categories of the district work force, district practices and policies must be examined to determine the factors contributing to the imbalance. Employment practices within the personnel system which constitute barriers to equal opportunity shall be identified and corrective action designed to eliminate the barriers.

2. Guideline

Conditions which should have careful review and most often necessitate corrective action include the following:

- a. Lateral or vertical movement of historically under-represented groups or women employees occurs at a lesser rate than that of other employees in all job classifications and titles.
 - b. Termination rate for minorities and women is higher than that of non-minorities and men.
 - c. Application forms, tests, interviews, and other related preemployment material are not in compliance with local, state, federal regulations, executive orders, or guidelines.
 - d. Entrance qualifications are not consistent with actual functions and duties required of the position.
 - e. Sex designation is used when not a bonafide occupational requirement for the job.
 - f. Minorities and women are absent from or under-represented in staff training or other career improvement programs.
 - g. Recruitment efforts do not yield a sufficiently representative group of applicants to indicate historically under-represented groups, the disabled, and Vietnam-era veterans are being reached for jobs at all levels.
 - h. There is evidence of harassment, coercion, or other adverse acts.

Human Resources Screening QuestionsDoes your institution have any part-time staff?*If you answer Yes to this question, you will be provided the screens to report part-time staff.*
 Yes No

Did your institution hire any full-time permanent staff who were included on the payroll of the institution between July 1 and October 31, 2009 either for the first time or after a break in service AND who were still on the payroll of the institution as of November 1, 2009? (Exclude persons who have returned from sabbatical leave OR full-time staff who are working less-than-9-month contracts/teaching periods and whose primary responsibility is instruction, research, and/or public service.)

If you answer Yes to this question and your institution has 15 or more full-time staff, you will be provided the screens to report full-time permanent new hires in the Fall Staff section (long version).
 Yes No

Do ALL of the instructional staff at your institution fall into any of the following categories?

If you answer Yes to any of the questions below, the Salaries section is NOT applicable to your institution and you will NOT be required to report data for the Salaries section.
 No Yes Are ALL of the instructional staff military personnel?

 No Yes Do ALL of the instructional staff contribute their services (e.g., members of a religious order)?

 No Yes Do ALL of the instructional staff teach pre-clinical or clinical medicine?

You may use the space below to provide context for the data you've reported above.

Human Resources Screening Questions

Does your institution have any part-time staff?

If you answer Yes to this question, you will be provided the screens to report part-time staff.

Yes No

Did your institution hire any full-time permanent staff who were included on the payroll of the institution between July 1 and October 31, 2009 either for the first time or after a break in service AND who were still on the payroll of the institution as of November 1, 2009? (Exclude persons who have returned from sabbatical leave OR full-time staff who are working less-than-9-month contracts/teaching periods and whose primary responsibility is instruction, research, and/or public service.)

If you answer Yes to this question and your institution has 15 or more full-time staff, you will be provided the screens to report full-time permanent new hires in the Fall Staff section (long version).

Yes No

Do ALL of the instructional staff at your institution fall into any of the following categories?

If you answer Yes to any of the questions below, the Salaries section is NOT applicable to your institution and you will NOT be required to report data for the Salaries section.

- No Yes Are ALL of the instructional staff military personnel?
- No Yes Do ALL of the instructional staff contribute their services (e.g., members of a religious order)?
- No Yes Do ALL of the instructional staff teach pre-clinical or clinical medicine?

You may use the space below to provide context for the data you've reported above.
