

CIS - Web Designer

CIS - Web Designer Local Certificate

A Web designer is an information technology professional. Web designers are responsible for designing the graphics and overall layout of the pages of a website. In addition to having a keen understanding of computer science, web designers are unique in the fact that in order to perform their jobs effectively, they must also be artistically inclined. They may work within the IT department of an organization, for a graphic design firm or as an independent contractor.
