# Academic Readiness

## Academic Readiness Certificate of Achievement

The Academic Readiness Certificate is for students with learning and other disabilities. The certificate prepares students for the academic rigor of college level courses along with the development of academic skills to succeed in college. The Academic Readiness Certificate offers preparation in English and math courses and the development of career planning and college success skills.

Upon successful completion of the program, students will be able to:

- Facilitate student success in college level courses
- Implement critical thinking skills for college level courses
- Identify and evaluate career interests
- Enrich the collegiate experience for persons with learning and other disabilities
- Bestow empowerment through education

Course #	Title	Units

	<b>Total .....</b>	<b>9</b>

# Administration of Justice

The Associate in Science Degree in Administration of Justice for Transfer (AS-T) is designed to prepare students to enter careers in law enforcement, corrections or investigative positions in the private sector. Students receive practical, “hands-on”, experiences in order to expose them to the fundamental concepts and tasks of law enforcement and corrections and ready them for the qualification and screening processes required to enter training enforcement academies.

## Administration of Justice AS-T Degree

### Program Student Learning Outcomes

Upon completion of the program, the student will be able to:

- identify the components of the criminal justice system to include law enforcement, corrections, courts and the three levels of state and federal courts.
- identify the protections afforded all persons as delineated in the first, fourth, fifth, sixth, eighth, and 14th Amendments; Students will identify that the Miranda decision came from the courts and is not a right enumerated in the Bill of Rights.
- identify the role of the Exclusionary Rule in the admissibility of evidence, the four exceptions to that rule and be able to identify the general rules of admissibility for all evidence.
- identify the various roles individuals play in a criminal event, such as principals, accessories, accomplices, and feigned accomplices and the four types of intent required that must be proven to establish an act as a crime.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18.0 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60.0 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Administration of Justice - Correctional Science

## Administration of Justice - Correctional Science AA

The Administration of Justice program is designed to provide the student an option of emphasizing Law Enforcement or Correctional Science. This program provides introductory and journey level course work in Administration of Justice for local, state, federal and private enterprise levels. This program enhances student development with philosophical, statutory, practical and, tactical experience and background necessary to successfully compete in a technologically advancing, competitive and rewarding career field. Upon successful completion of the program the student will be prepared for several career options in the Administration of Justice.

### Program Student Learning Outcomes

Upon completion of the program, the student will be able to:

- identify the rights afforded prisoners while incarcerated in jails and prisons.
- identify the psychological and physiological effects of institutionalization on male and female offenders and the effect changes in classification and case law create.
- identify the values and risks associated with probation, parole and other release programs.
- demonstrate the ability to conduct interviews and complete various types of reports.
- identify the rights afforded each accused individual including the 4th, 5th, 6th, 8th, 10th, and 14th amendments.

### Associate Degree Requirements:

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete Local General Education and District requirements
- Complete elective units for total of 60 degree applicable semester units
- Complete all required courses for the major or area of emphasis, English, and math with a “C” or better
- Obtain an overall minimum grade point average of 2.0

The following has been recognized as core course requirements by the Commission on Correctional Peace Officers Standards and Training (CPOST) for all new apprentices (entry-level) hired with the Department of Corrections and Department of the Youth Authority after July 1, 1995:

# Administration of Justice- Correctional Rehabilitation

## Administration of Justice- Correctional Rehabilitation COA

The Correctional Rehabilitation Certificate of Achievement (COA) guides students toward successful employment in a correctional law enforcement agency. The certificate of achievement for correctional workers, developed in conjunction with local and state agencies, provides students with a broad range of correctional skills and competencies, which promote success in a variety of correctional settings. The certificate ensures correctional workers understand the history of correctional rehabilitation, the relationship between correctional and other law enforcement agencies, and the complex legal environment of the corrections worker. Students will understand the role of risk and needs assessments in developing treatment programs for correctional clients. Students who complete the certificate will be ready for the workforce, and the certificate provides a stepping-stone to continue their education and complete an A.A. in Administration of Justice or Corrections.

### Program Student Learning Outcomes

Upon completion of the program, student will be able to:

- Demonstrate an understanding of the history of corrections and rehabilitation and the relationship between the criminal justice and corrections subsystem.
- Demonstrate an understanding of the roles and responsibilities relative to the supervision and control of inmates in local, state and federal correctional institutions.
- Demonstrate the ability to communicate effectively in a correctional setting to include verbal and written communications or reports.
- Demonstrate an understanding of the doctrines of criminal liability in the United States and the classification of crimes against persons, property, morals, and public welfare.
- Demonstrate an understanding of the legal and historical framework, concepts and precedents that guide correctional practice in the United States.
- Demonstrate an understanding of the techniques of interviewing and counseling available to practitioners in corrections.
- Demonstrate understanding of the processes of Risk and Needs assessments relative to correctional clients.

# Agriculture Sales and Marketing

## Agriculture Sales and Marketing Certificate of Achievement (COA)

The Agriculture Sales and Marketing will develop and expand the student’s knowledge of Agriculture Business. The student will develop knowledge and skills sufficient to gain and hold entry-level jobs in Ag Sales and Marketing. The student will learn step-by-step sales techniques, stage presence, self-evaluation of voice, habits, abilities in sales, and understanding of sales career. This program will help students make decisions as to whether or not they are qualified in sales, and prepare them for a sales career if they choose that vocation.

**Upon successful completion of the program, students will be able to:**

- demonstrate characteristics of a good communication skills.
- demonstrate techniques to develop a sales relationship.
- maximize technology and resources to successfully market a good or product
- model professional sales presentation strategies

# Art - Studio Arts

## Art - Studio Arts AA-T

The Associate in Arts in Studio Arts for Transfer degree is designed to provide the opportunity to achieve an associate degree in the student’s area of specialization. Upon completion of a baccalaureate degree, students will be preparing for careers such as teaching, commercial art, museum curator, computer art, or to be self-employed. The Associate in Arts in Studio Arts for Transfer degree is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Studio Arts or similar degree.

### Program Student Learning Outcomes

Upon completion of the program, student will be able to:

- articulate and apply the elements and principles of two-dimensional design.
- demonstrate an ability to solve a variety of problems related to the use of various drawing materials.
- articulate and apply the elements and principles of three-dimensional design.
- demonstrate an ability to solve a variety of problems related to the use of various painting materials and techniques.
- demonstrate an understanding of the historical development of art, be capable of identifying works from various art movements and periods in history, and be capable of articulating how context has influenced the creation of works of art during these movements and periods.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Biology

## Biology AS

The Biology Program provides students with the opportunity to earn an associate degree in the student's area of specialization and prepares the student for transfer to a four-year institution. Students completing the baccalaureate program or graduate school may be hired in the major or in a related field such as biochemistry, bioengineering, botany, clinical lab technology, environmental biology, forestry, oceanography, range management, wildlife/fisheries biology, or zoology.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- recognize and explain the individual structures and hierarchical levels of structure of living organisms
- relate the physiological functions of living organisms to homeostasis, at multiple levels of organismal complexity
- explain and apply basic chemistry principles as they relate to inorganic and organic molecules in biological systems
- manipulate advanced mathematical concepts and equations that can relate to biological systems and/or research
- explain and apply basic physics concepts that can relate to biological systems and/or research

### Associate Degree Requirements:

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete Local General Education and District requirements
- Complete elective units for total of 60 degree applicable semester units
- Complete all required courses for the major or area of emphasis, English, and math with a "C" or better
- Obtain an overall minimum grade point average of 2.0

# Business - Retail Business Management

## Retail Business Management Certificate of Achievement

The Business Program of study prepares the student for entry level positions in areas such as bookkeeping, management and retailing. The business program provides a foundation for further study and is valuable for students interested in starting or enhancing their own business. The program provides students with an understanding of the operation of business in the American economic system.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- demonstrate utilization of a variety of prevailing Microsoft office applications and accounting software.
- input and produce reports from business records.
- identify the basic elements of a contract and assess a contract’s validity.
- compose business letters and employment applications choosing the appropriate delivery means.
- assess business situations from an owner’s/manager’s prospective including basic employment laws.

# Business Administration

## Business Administration AS-T

The AS-T in Business Administration curriculum is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Business Administration or similar major. While a baccalaureate degree is recommended preparation for those considering professional careers in this field, the completion of this suggested program will demonstrate commitment to the field, and provide comprehensive preparation for upper division work. Upon completion of the AS-T in Business Administration, students will be able to: 1) develop and understand the fundamental principles of business administration 2) utilize the mathematical and statistical tools available to them, and 3) promote the use of technology to support the field of business administration.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- compose, analyze, and interpret business reports.
- identify the basic elements of a contract and assess a contract’s validity.
- use basic Microsoft office applications.
- identify and/or describe major U.S. business practices and their relationship to the economy.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

## Business Administration AS

The Business Administration curriculum is intended for those interested in transferring to a four-year college or university to earn a Bachelor of Arts or Science degree. Students are encouraged to consult with business staff to ensure that their course selections reflect their career interest and the career goals of their major.

### Program Student Learning Outcomes

Upon completion of the program, student will be able to:

- compose, analyze, and interpret business reports.
- identify the basic elements of a contract and assess a contract’s validity.
- use basic Microsoft office applications.
- identify and/or describe major U.S. business practices and their relationship to the economy.

### Associate Degree Requirements:

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete Local General Education and District requirements
- Complete elective units for total of 60 degree applicable semester units
- Complete all required courses for the major or area of emphasis, English, and math with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Business Bookkeeping

## Business Bookkeeping Certificate of Achievement

The Business Program of study prepares the student for entry level positions in areas such as bookkeeping, management and retailing. The business program provides a foundation for further study and is valuable for students interested in starting or enhancing their own business. The program provides students with an understanding of the operation of business in the American economic system.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- demonstrate utilization of a variety of prevailing Microsoft office applications accounting software.
- input and produce reports from business records.
- compose business letters and employment applications choosing the appropriate delivery means.

# Business Information Worker(BIW)

## Business Information Worker(BIW) Certificate of Achievement

The Business Information Worker (BIW) Certificate guides students toward successful employment in business and government. The BIW certificate of achievement for office workers, developed in conjunction with local employers, provides students with a broad range of entry-level office skills and applications which promote success in a variety of office environments. With a solid foundation in Microsoft Windows and Office as well as strong digital and web literacy skills, the Business Information Worker brings efficiency and productivity to the workplace. Completion of the Business Information Worker pathway also brings indispensable critical thinking, problem solving, and interpersonal skills to the workplace. Students who complete the certificate will be ready for the workforce and the certificate provides a stepping stone to continue their education and complete an A.S. in Business or an AS-T in Business Administration.

### Program Student Learning Outcomes

Upon completion of the program, student will be able to:

- demonstrate accurate text and data entry using a standard keyboard and/or numeric keypad at expected entry-level occupation production rate.
- organize correspondence and locate business documents by applying the 12 alphabetic and numeric filing rules.
- compose complex business letters, reports and employment applications choosing the appropriate delivery means.
- demonstrate utilization of basic information systems and a variety of prevailing Microsoft Office applications such as Microsoft Word, Microsoft Excel, and Microsoft Outlook.
- demonstrate proficiency in business communications and human relations/customer service.

# CIS - Computer Information Systems

## Computer Information Systems AA and AS

The Computer Information Systems Program at West Hills College Lemoore teaches concepts, procedures and terminology as well as the skills and applications necessary to operate computers and network systems.

### Program Student Learning Outcomes

Upon completion of the program, student will be able to:

- demonstrate an understanding of four primary applications in the Microsoft Office Suite
- demonstrate an understanding of the keystroke required to complete the cutting, copying, and pasting of data from one type of documents into another documents.
- identify the basic HTML tags required to create a simple Web page. Students were given a basic coding assignment in which correct coding syntax was stressed in accordance with HTML, CSS and JavaScript standards.
- develop and complete ecommerce site or business plan.
- demonstrate an understanding of seven phases of the system development life cycle

### Associate Degree Requirements:

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete Local General Education and District requirements
- Complete elective units for total of 60 degree applicable semester units
- Complete all required courses for the major or area of emphasis, English, and math with a “C” or better

# CIS - Introduction to Programming

## CIS - Introduction to Programming Certificate of Achievement

The explosion of the internet in recent years has created a new demand for web programmers or web designers. These are people who have design skills specifically used for web design. In addition to being able to build websites, a web specialist must also be a master of communication - both in the visual and verbal arenas. The web specialist must know HTML, CSS, JavaScript, JAVA, server side scripting languages such as PHP/MySQL and other related web programming languages, which they will use to convert the everyday print documents that are used format he most basic communication level to the most advanced communication level with the inclusion of images and other multi-media formats to communicate their messages into a web-friendly format.

### Program Student Learning Outcomes

Upon completion of the program, student will be able to:

- Demonstrate competency in the use of common HTML code.
- Demonstrate competency using FTP to transfer web pages to a server.
- Construct pages that meet guidelines for efficient download.
- Construct pages that meet the needs of an identified audience.
- Construct efficient file structure for web sites.
- Demonstrate proficiency in the use of a WYSIWYG design software.
- Evaluate the functions of specific types of web pages in relationship to an entire web site.
- Design electronic text and web pages that include the standard textual components needed on web pages.
- Create web pages that meet accessibility needs of those with physical disabilities.
- Understand how CSS will affect web page creation.
- Understand the role of JavaScript in web page creation.
- Modify CSS and JavaScript for use on a web site.
- Understand the function of copyright in relationship to web design and coding.
- Utilize graphic design to enhance web pages.

# CIS - Networking Fundamentals

## CIS - Networking Fundamentals Certificate of Achievement

Networking fundamentals explains computer networking basics in terms that can be easily understood, using concepts common to everyday, no-computing experience. A brief introduction to networking history provides context, explaining how networks have become so important to businesses and individuals. The certificate emphasizes networking fundamentals, explaining the software and hardware that makes networking possible. The certificate stresses understanding how and why networks work, rather than focusing on memorization of terms or numbers. Upon completion of the certificate, students will perform basic computer networks tasks, such as DSL connectivity or configuring connections to an Internet service provider. This certificate gives student the foundation needed to begin training for the CCNA (Cisco Certified Network Administrator) Certification or employment in a computer networking career.

### Program Student Learning Outcomes

Upon completion of the program, student will be able to:

- Take the CompTIA Network+ certification exam.
- Configure networking on systems and workstations.
- Understand and setup TCP/IP networks and subnets.
- Maintain physical and wireless network connections and equipment.

# CIS - Web Active Scripting

## CIS - Web Active Scripting Local Certificate

Scripting generally refers to the class of computer programs on the web that are executed client-side, by the user’s web browser, instead of server-side (on the web server). This type of computer programming is an important part of the active scripting concept, enabling web pages to be scripted; that is, to have different and changing content depending on user input, environmental conditions (such as the time of day), or other variables. This enables authors to create compelling and powerful web content. This specification covers extensions to HTML and HTML5 needed for client-side scripting, but leaves out the architectural and application programming interface issues for how scripting engines are implemented and how they communicate with the document and other objects on the same page. Languages which may be used are CSS, CSS3, JavaScript, JScript, VBscript, Hypertext Preprocessor Protocol (PHP), Perl, Active Server Pages (ASP and ASP.Net), Asynchronous JavaScript and XML (AJAX) and Simple Object Access Protocol (SOAP).

Course #	Title	Units

# CIS - Web Business Management

## CIS - Web Business Management Local Certificate

This certificate examines the main issues involved in designing successful Internet and small business services. This module is designed around the idea that electronic commerce systems are new communication channels between entities. The e-commerce systems are then classified from the communication perspective, depending on what kind of entities it communicates and therefore defining what the main user requirements are. This area of study provides a student with an introduction to small business management and e-commerce.

# CIS - Web Designer

## CIS - Web Designer Local Certificate

A Web designer is an information technology professional. Web designers are responsible for designing the graphics and overall layout of the pages of a website. In addition to having a keen understanding of computer science, web designers are unique in the fact that in order to perform their jobs effectively, they must also be artistically inclined. They may work within the IT department of an organization, for a graphic design firm or as an independent contractor.

# Child Development

## Child Development AA

The West Hills College Lemoore Child Development Program offers a comprehensive background in the field of child growth and development. Program emphasis includes information directed at working with culturally diverse families, addressing the needs of children at risk through early intervention and creating and teaching developmentally appropriate curriculum to young children. Students will be offered information and skills for potential employment in Federal, State, non-profit, or privately owned early childhood educational/child care programs. Courses in this program may assist the student to qualify for Child Development Certificates issued by West Hills College and/or a Child Development Permit obtained from the State of California, Commission for Teacher Preparation and Licensing.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- comprehensive knowledge and will be able to identify, analyze and/or evaluate typical and atypical growth and development of young children.
- comprehensive knowledge of nutrition, health and safety issues and prevention strategies pertaining to young children.
- the ability to plan, create, implement and/or evaluate age-appropriate curriculum, while developing the ability to produce written observations and/or assessments.
- the ability to identify and work with diverse families and recognize socialization issues pertaining to children.
- knowledge of and have the ability to identify effective methods of working with diverse people.

### Associate Degree Requirements:

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete Local General Education and District requirements
- Complete elective units for total of 60 degree applicable semester units
- Complete all required courses for the major or area of emphasis, English, and math with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Child Development - Early Childhood Education

## Child Development - Early Childhood Education AS-T

The Associate in Science in Early Childhood Education for Transfer degree curriculum is designed to provide the opportunity to achieve a broad-based associate degree and a seamless transfer into the CSU system to complete a baccalaureate degree in Early Childhood Education. While a baccalaureate degree is recommended preparation for those considering professional careers in this field, the completion of this program will demonstrate commitment to the field, and provide comprehensive preparation for upper division work. Upon completion of this degree, students will be prepared to enter careers such as teaching, pre- school/child care operation, community service, social services, and government.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- comprehensive knowledge and will be able to identify, analyze and/or evaluate typical and atypical growth and development of young children.
- comprehensive knowledge of nutrition, health and safety issues and prevention strategies pertaining to young children.
- the ability to plan, create, implement and/or evaluate age-appropriate curriculum, while developing the ability to produce written observations and/or assessments.
- the ability to identify and work with diverse families and recognize socialization issues pertaining to children.
- knowledge of and have the ability to identify effective methods of working with diverse people.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Child Development Permits

The State of California, Commission for Teacher Preparation and Licensing, is responsible for issuing Child Development Permits to eligible students seeking employment in State funded early childhood educational programs or other selective children’s programs. The student with the intention of securing a Child Development Permit must follow mandated course requirements as outlined by the Child Development Permit Matrix handout. To secure a copy of the Child development Permit Matrix contact a Child Development Instructor or the coordinator of the Child Development Training Consortium. There is a monetary fee paid to the Commission for Teacher Preparation and Licensing when securing the Child Development permit and as required, all course work must be passed with a grade of “C” or better.

# Communication Studies

## Communication Studies AA-T

The Associate in Arts in Communication Studies for Transfer degree is designed to provide the opportunity to achieve an associate degree in the student’s area of specialization. The Associate in Arts in Communication Studies for Transfer degree is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Communication Studies or similar degree. While a baccalaureate degree is recommended preparation for those considering professional careers in teaching, marketing, broadcasting, or mass communication, the completion of this program will demonstrate commitment to the field, and provide comprehensive preparation for upper division work.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- demonstrate basic public speaking delivery techniques.
- solve problems utilizing effective conflict management styles, decision making, and leadership.
- understand and utilize the interdependent nature of verbal and nonverbal communication in the communication transactional process.
- demonstrate effective argumentation by formulating written and/or oral arguments that are free of errors in reasoning.
- perform a variety of verbal and nonverbal skills to bring literature to life and heighten the effectiveness of the performer’s message.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Cybersecurity

## Introduction to Cybersecurity (Certificate of Achievement)

The Introduction to Cybersecurity Certificate of Achievement offers a problem-solving methodology built on key principles that are independent of specific technologies in a vendor neutral environment. The principles taught in this certificate are mappable, stackable, and track to today’s emerging technologies and teach students the security techniques and research skills required to stay on top of today’s ever-changing security environment. This certificate provides comprehensive training to begin a career focused on securing computing assets and information. Join our program to acquire skills and knowledge in the design, application, installation, operation, and maintenance of computer security systems through extensive hands-on experience in this rapidly growing field. This program of study prepares student to take the following certification exams: CompTIA is an ANSI accredited Certifier - 0731. The CompTIA Security+ program is included in the scope of this accreditation. The CompTIA Security+ certification may be kept current through the CompTIA Continuing Education program.

**Upon successful completion of the program, students will be able to:**

- troubleshoot and diagnose security issues;
- conduct security audits and penetration testing;
- assist in developing and implementing security plans and procedures;
- assist in developing and presenting security awareness;
- evaluate, recommend and install security hardware and software;
- monitor computer systems to detect inappropriate use;
- develop incident, disaster recovery, business continuity and emergency response plans.

# EMT - Paramedic

## EMT - Paramedic AS and Certificate of Achievement

The Paramedic Program is a comprehensive lecture, lab and field training program to produce competent, entry level paramedics to serve in career and volunteer positions in the Central San Joaquin Valley. Our Paramedic Program meets and exceeds regulations in the California Code of Regulations Title 22, Division 9, Chapter 4. This program meets all the objectives of the United States Department of Transportation's 1998 Emergency Medical Technician-Paramedic National Standard Curriculum as well as the 2009 National Emergency Medical Services Education Standards for Paramedics.

Graduates will earn a Certificate of Achievement and be eligible to sit for certification by the National Registry of Emergency Medical Technicians. This program also meets the major requirements for an Associate Degree in EMT-Paramedic when required GE courses are completed.

### Program Learning Student Outcomes

Upon completion of the program, students will be able to:

- demonstrate a complete pre-hospital patient assessment and management of a trauma and medical patient.
- demonstrate a complete pre-hospital patient assessment and management of a cardiac arrest patient.
- demonstrate a complete pre-hospital patient assessment and management of a patient with an acute respiratory compromise.
- demonstrate a complete pre-hospital patient assessment and management of a patient with an acute neurological compromise.
- demonstrate a complete pre-hospital patient assessment and management of a pediatric patient in acute distress.

### Associate Degree Requirements:

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete Local General Education and District requirements - **specific to paramedic program**
- Area D - PSYCH 001, 002, SOC 001, or 002
- HE 035 waiver, **if applicable**
- Complete elective units for total of 60 degree applicable semester units
- Complete all required courses for the major or area of emphasis, English, and math with a "C" or better
- Obtain an overall minimum grade point average of 2.0

Course #	Title	Units

# Elementary Teacher Education

## Elementary Teacher Education AA-T

The Associate in Arts in Elementary Teacher Education for Transfer degree is designed to provide the opportunity to achieve an associate degree in the student's area of specialization. Upon completion of the degree requirement, students will begin preparation for careers such as teaching, operating a daycare, social work, and school administration. The Associate in Arts in Elementary Teacher Education for Transfer degree is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Elementary Teacher Education or similar major.

### Program Learning Outcomes

Upon completion of the program, student will be able to:

- compose a formal, argumentative MLA-style research paper that shows an understanding of the writing process, technical correctness, and higher level critical thinking skills.
- identify a career path and educational goals for a career in education taking into consideration the level(s) they want to teach and the institution(s) where they want to complete their degree(s) and credential(s).
- provide a college-level in-class written analysis of authors' content and style.
- develop and teach a standards-based lesson in an authentic educational setting that will include intention/rationale, process, assessment, and reflection.
- demonstrate basic public speaking delivery techniques.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
  - Complete IGETC or CSU General Education – Breadth requirements
  - Complete total of 60 CSU transferable semester units
  - Complete all required courses for the major or area of emphasis with a "C" or better
  - Obtain an overall minimum grade point average of 2.0

# Engineering

## Engineering AS

Engineers analyze, design, build, test and perfect our environment by applying science and math to practical applications. Students with an interest in engineering can earn an associate degree and develop knowledge and skills necessary to transfer to a four-year degree program. This program is designed to satisfy core requirements for many engineering transfer majors. In addition to the traditional branches of civil, mechanical, electrical, computer and chemical engineering, more specific disciplines have evolved such as biomedical, aerospace, petroleum and agricultural engineering. The engineering field is innovative, challenging and growing each year.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- apply basic problem solving techniques to identify the useful information provided, make proper simplifications, apply basic physics and engineering theories, solve for the solution and interpret the results.
- design an experimental method, predict results using appropriate scientific and mathematics theory, perform the experiment and collect data while minimizing sources of error, present results with graphical and mathematical support, complete thorough error analysis and interpret experimental results in comparison with theoretical predictions.
- demonstrate efficient use of computer tools such as basic work processing and spreadsheet programs, graphing and computer data acquisition programs and computer aided design software. They will also have fundamental knowledge of computer programming languages, algorithm development and be able to write, compile and run programs from scratch for problem solving.
- explain scientific theory verbally through presentation techniques and in writing through formal written reports, using scientific, mathematical and analytical skills.

### Associate Degree Requirements:

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete Local General Education and District requirements
- Complete elective units for total of 60 degree applicable semester units
- Complete all required courses for the major or area of emphasis, English, and math with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# English

## Associate of Arts in English for Transfer Degree (English AA-T)

The Associate of Arts in English for Transfer Degree (AA-T) program is designed to provide entry-level skills and knowledge for a student transferring to a 4-year institution with a major in English. The English major requires 18 units in English and related fields. Course work in this program will provide a foundation in subjects students will study as English majors in 4-year colleges or university programs. The English major prepares student for four-year programs with emphasis in composition, literature, and creative writing.

To earn the Associate in Arts in English for Transfer Degree, a student must:

- Complete all degree course requirements in the major as outlined below with grades of C or better.
- Complete a minimum of 60 CSU-transferable semester units with a minimum grade point average of 2.0.
- Complete either the CSU General Education Breadth pattern (CSU GE) which requires a minimum of 39 units, or the Intersegmental General Education Transfer Curriculum (IGETC), which requires 34-38 units. Double counting of courses is encouraged and permitted. Students are not required to complete the West Hills College Lemoore’s local graduation requirements (Health Education 35 and two units of activity courses, if applicable).Program Student Learning Outcomes

**Upon successful completion of the program, students will be able to:**

- write about topics in a manner that demonstrates college-level writing skills with lucid claims for a variety of purposes and audiences. This writing will exhibit critical thinking, control of meaning, maturity of style, and appropriate tone.
- identify the strengths and weaknesses of a piece of writing, including cogent or fallacious reasoning, as well as the assumptions, values, rhetorical moves, premises, and logical progressions.
- exhibit an ability to interpret and analyze a variety of fiction and non-fiction works from a variety of genres, eras, and cultures.
- locate, evaluate, interpret, and engage appropriate and credible sources and correctly incorporate source material into their arguments in rhetorically effective ways

# English as a Second Language (ESL)

## English as a Second Language (ESL) NC Certificate of Completion

The ESL Certificate of Completion is designed to prepare students to communicate, write, and read in the English language. ESL students will have an opportunity to show their employers and future employers that they have an understanding and knowledge of the English language.

Upon successful completion of the program, students will be able to:

- demonstrate correct spelling and grammar in English.
- demonstrate proper reading and cognitive development in English.
- demonstrate confidence in their speaking, reading, and writing in English.

# Geography

## Geography AA-T

The Associate in Arts in Geography for Transfer degree is designed to provide students with an understanding of the major aspects of the atmosphere, hydrosphere, lithosphere, and biosphere and how these realms relate to, and interact with the development and functioning of human cultural patterns. The courses have a strong real-world focus. This knowledge will be helpful in the student’s upper-division course work. While a baccalaureate degree is recommended preparation for those considering professional careers in this field, the completion of this suggested program will demonstrate commitment to the field, and provide comprehensive preparation for upper division work. The Associate in Arts in Geography for Transfer degree is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Geography or similar major.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- define and demonstrate understanding of terms and concepts used during the courses
- describe and explain Geographic patterns as they related to the courses
- describe and analyze maps relative to physical/cultural people and places
- demonstrate and understanding of geographical factors as they relate to physical and cultural diversity around the world
- demonstrate an understanding of human/environment interactions and consequences of these interactions

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

	16		16		14	

The Associate Degree in Geography is designed to provide the West Hills College Lemoore transfer student with those lower division courses that can be applied to geography major or minor at the upper division level.

The program consists of 24 units that fit primarily Social, but also Physical Science majors. Geography’s overall integration of the Social and Physical Sciences causes it to be applicable at the Associate, Bachelor, or Master’s level to a number of careers including regional and urban planning, teaching, remote sensing intelligence and interpretation, real estate, cartography, plus environmental engineering and management.

**Program Student Learning Outcomes**

Upon completion of the program, students will be able to:

- define and demonstrate understanding of terms and concepts used during the courses
- describe and explain Geographic patterns as they related to the courses
- describe and analyze maps relative to physical/cultural people and places
- demonstrate and understanding of geographical factors as they relate to physical and cultural diversity around the world
- demonstrate an understanding of human/environment interactions and consequences of these interactions

**Associate Degree Requirements:**

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete Local General Education and District requirements
- Complete elective units for total of 60 degree applicable semester units
- Complete all required courses for the major or area of emphasis, English, and math with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Geology

## Geology AS-T

The Associate in Science in Geology for Transfer degree trains individuals in the physical aspects and history of the earth. Geologists, in general, are analytical, curious, able to work as a team, and are required to communicate effectively. The Associate in Science in Geology for Transfer degree is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Geology or similar major.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- define and demonstrate understanding of terms and concepts used during the courses
- describe and explain Geographic patterns as they related to the courses
- describe and analyze maps relative to physical/cultural people and places
- demonstrate and understanding of geographical factors as they relate to physical and cultural diversity around the world
- demonstrate an understanding of human/environment interactions and consequences of these interactions

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# HRCM - Culinary: Chef Apprentice

## HRCM - Culinary Chef Apprentice Certificate of Achievement

The Culinary Arts program offers the opportunity to achieve various certificates to students in becoming well-trained culinary professional. Our programs are rooted in providing individualized, hands-on training and having the concept of quality education, quality service and the commitment in preparing individuals for positions within the industry.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- generalize the essential skills required to support the performance of positions within the culinary kitchen, and restaurant management
- investigate and analyze customer service, and legal topics within the restaurant industry
- review, recognize, and convert any standardized recipe
- develop basic principles of nutrition, dietetics, and food and beverage composition
- recognize and demonstrate the requirements for proper sanitation in the foodservice industry.

# Health Science

## Health Science AS

The Health Science program is designed for those students planning to transfer to two-year institutions to attain specific and additional training in a particular field of study such as dental hygiene, health care assistant, nursing and radiology technician. Requirements for admission to each of these programs vary among institutions.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- recognize and identify key structures in critical biological systems such as the nervous, muscular, and cardiovascular systems.
- understand the functions of key bodily systems and how they operate in a coordinated manner with other systems to maintain systemic homeostasis.
- identify the differences in cell wall structures and basic microbial metabolic processes as they relate to health of a human being.
- demonstrate the critical thinking skills, quantitative analysis methods, and chemical specific terminology for chemical training used in medicine.
- understand the interrelationships between the six basic types of nutrients, healthy dietary habits, and how they pertain to normal digestive functioning.

### Associate Degree Requirements:

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete Local General Education and District requirements
- Complete elective units for total of 60 degree applicable semester units
- Complete all required courses for the major or area of emphasis, English, and math with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# History

## History AA-T

The Associate in Arts in History (AA-T) curriculum is designed to provide the opportunity to achieve an associate degree in the student’s area of specialization. Upon completion of the degree requirement, students will begin preparation for careers such as teaching, human services, journalism, politics, public relations, business, and public administration. While a baccalaureate degree is recommended preparation for those considering professional careers in this field, the completion of this suggested program will demonstrate commitment to the field, and provide comprehensive preparation for upper division work.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Hospitality, Restaurant and Casino Management

## Hotel Restaurant and Casino Management (HRCM) AA

This industry specific program is intended to prepare the student to work in the unique environment of a hospitality organization. Combining general hospitality course with industry specific classes, the student will be prepared for an entry-level position or advancement within the company to an entry-level supervisory position in addition to acquiring skill that is utilized in hotel, restaurant, or casino organizations. Courses taken to satisfy these AA degree and/or certificates requirements come from both the Hotel, Restaurant and Casino Management (HRCM) and Business/Computer Information Systems (CIS) departments.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- give examples of the correct processes and procedures to manage food service operations based on the guidelines and policies of safety and for safe food systems.
- apply knowledge and demonstrate proficient ability to handle and operate production kitchen tools and equipment with ease and safety.
- learn through evaluation to judge the quality in completed food preparation fundamentals, methods, and techniques based on their time efficiency, adequacy, value, procedures, esthetics, structure, and taste.
- identify parts, relationships, and organizational principals to the production of cuisine or the relation to.
- recognize specific terms, concepts, and formulas to calculate measurements and conversions.

### Associate Degree Requirements:

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete Local General Education and District requirements
- Complete 60 degree applicable semester units
- Complete all required courses for the major or area of emphasis, English, and math with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Industrial Automation

## Introduction to Industrial Automation (Certificate of Achievement)

The Introduction to Industrial Automation Certificate program is modeled after local industry competency standards and includes study in the following areas: electrical theory and components, soldering, wiring diagrams, safety programmable logic controllers, and Allen Bradley SLC 500 and CLX 5000 computer integrated manufacturing. This program will provide the necessary knowledge and skills to increase job performance for careers in electronics technology. Students will be prepared for entry level positions in petroleum/energy, manufacturing automation, process control, logistics and distribution, material processing, and industrial maintenance.

### Program Student Learning Outcomes

Upon successful completion of the program, students will be able to:

- demonstrate proficiency of safety principles required for industrial employment.
- demonstrate proficiency in automation programming/troubleshooting related to programmable logic controllers.
- demonstrate problem solving skills used in industrial manufacturing environments.
- demonstrate an understanding of industrial manufacturing and electronics.
- demonstrate an understanding of the core hardware and theory related to programmable automation controllers.

# Industrial Mechanic

## Industrial Mechanic I Certificate of Achievement

The Industrial Mechanic I Certificate program is modeled after local industry competency standards. The program includes study in the following areas: power transmission, hydraulics, pneumatics, centrifugal pumps, electrical theory and components for the industrial maintenance mechanic and industrial safety in manufacturing. This program prepares students for entry level positions in Industrial Maintenance Mechanic, Industrial Maintenance Technician, Process Maintenance Technician, Plant Maintenance Mechanic, and Building Maintenance Mechanic.

Upon successful completion of the program, students will be able to:

- demonstrate proficiency of safety principles required for industrial employment.
- demonstrate proficiency in basic electrical systems for industrial equipment.
- demonstrate proficiency in power transmission systems.
- demonstrate an understanding of industrial manufacturing.
- demonstrate an understanding of hydraulic and pneumatic systems.
- demonstrate an understanding of centrifugal pumps.
- demonstrate problem solving skills used in industrial manufacturing environments.

# Kinesiology

## Kinesiology AA-T

The Kinesiology curriculum is designed to provide the opportunity to achieve an associate degree in the student’s area of specialization. While a baccalaureate degree is recommended preparation for those considering professional careers in this field, the completion of this suggested program will demonstrate commitment to the field, and provide comprehensive preparation for upper division work.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- demonstrate knowledge of major muscle groups and joint movements as they pertain to common demonstrations of human performance.
- demonstrate the proper technique for performing exercises essential to improving general fitness levels.
- understand the connection between proper nutrition and improved athletic performance.
- understand and demonstrate how healthy mental functioning impacts athletic performance.
- select and implement field tests necessary for fitness assessment.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

Course #	Title	Units
<b>Required Core Courses</b>		
KINES 001 .....	Introduction to Kinesiology .....	3
BIO 032 .....	Human Anatomy .....	4
BIO 035 .....	Human Physiology .....	4

# Liberal Arts - Arts and Humanities

## Liberal Arts - Arts and Humanities AA

The Liberal Arts with an Emphasis in Arts and Humanities Associate Degree program is designed to provide the transfer Arts and/or Humanities student the opportunity to earn an associate degree with specialization in areas of the student’s choice. The program provides introductory lower-division work in the Arts and Humanities. These courses emphasize the study of cultural, literary, humanistic activities and artistic expression of human beings throughout history. Students will evaluate and interpret the ways in which people, through the ages in different cultures, have responded to themselves and the world around them in artistic and cultural creation. Students will also learn to value aesthetic understanding and incorporates these concepts when constructing value judgments. Students should consult the catalog of their intended transfer university for any local requirements, in addition to those earned through this degree and contact a West Hills College Lemoore counselor for further information or assistance.

### Program Student Learning Outcomes

Upon completion of the program, student will be able to:

- articulate knowledge about various cultural, literary, humanistic activities, and artistic expression of human beings throughout history.
- demonstrate an understanding of the ways in which people, through the ages in different cultures, have responded to themselves and the world around them in artistic and cultural creation.
- demonstrate an understanding of aesthetics and be capable of incorporating these concepts when constructing value judgments.
- Student will be able to demonstrate an understanding of how historical context has influenced the development of various achievements in western culture, including religion, art, literature, drama, music, architecture and philosophy.

### Required Coursework:

Choose 18 units from the following: (at least one course must from the Arts (Art, Music, Theater) and one course must be from the Humanities (Literature, Philosophy, Foreign Languages) category.

#### Arts:

Course #	Title	Units
<b>Required Core Courses</b>		
ART 005A .....	Basic Drawing .....	3
ART-013A.....	Introduction to Ceramic Design .....	3
ART 016A .....	Survey of Western Art: Pre-History .....	3
ART 016B .....	Survey of Western Art: Renaissance .....	3
ART 042 .....	Art Appreciation .....	3
MUS 042 .....	Music Appreciation .....	3
PA 001 .....	Introduction to Theater .....	3
PA 003 .....	Film Appreciation .....	3
.....		

#### Humanities:

Course #	Title	Units
<b>Required Core Courses</b>		
ASL 001 .....	Intro. to American Sign Language-Level 1 .....	4
ASL 002 .....	Intermediate American Sign Language 2 .....	4
ENG 001B .....	Literature/ Critical Thinking & Writing .....	3
FLSPN 001 .....	Introductory Span for Non-Native Speake .....	4
FLSPN 002 .....	Elementary Spanish for Non-Native Speake .....	4
FLSPN 003 .....	Intermediate Spanish .....	4
FLSPN 004 .....	Advanced Spanish .....	4
FLSPN-011.....	Introduction to Spanish for the Limitedly Bilingual.....	4
FLSPN-012.....	Elementary Spanish for the Limitedly Bilingual.....	4
GEOG 003 .....	Cultural Geography .....	3
HIST 004A .....	Western Civilization to 1700 .....	3
HIST 004B .....	Western Civilization From 1700 .....	3
HIST 020 .....	World History I .....	3
HUM 001 .....	Introduction to Western Culture .....	3
HUM 022 .....	Introduction to Comparative Religion .....	3
LING 011 .....	Introduction to Linguistics .....	3

# Liberal Arts - Elementary Teacher Preparation

## Liberal Arts Emphasis in Elementary Teacher Preparation AA

The Liberal Arts Degree with an Emphasis in Elementary Teacher Preparation, is designed for students who are interested in transferring to a university and completing a Liberal Arts or Liberal Studies degree and continuing on to earn a multiple subject teaching credential.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- compose a formal, argumentative MLA-style research paper that shows an understanding of the writing process, technical correctness, and higher level critical thinking skills.
- identify a career path and educational goals for a career in education taking into consideration the level(s) they want to teach and the institution(s) where they want to complete their degree(s) and credential(s).
- provide a college-level in-class written analysis of authors' content and style.
- develop and teach a standards-based lesson in an authentic educational setting that will include intention/rationale, process, assessment, and reflection.
- demonstrate basic public speaking delivery techniques.

### Required Coursework

The students must complete 24 units from the list of required coursework. The courses designated by a (\*) are considered preparation for a CSU.

Course #	Title	Units
<b>Required Core Courses</b>		
ENG 001A .....	Composition and Reading .....	3

# Liberal Arts - Math and Science

## Liberal Arts Emphasis in Math and Science AA

The Liberal Arts with an Emphasis in Math and Science degree provides an area of emphasis for students that wish to develop a broad knowledge base while focusing on core mathematics and scientific skills useful for their intended transfer major. Natural science courses examine the physical universe, including its life forms, structure and natural phenomena that govern the universe. Mathematics course emphasize the development of mathematical and quantitative reasoning skills beyond the level of intermediate algebra, developing a quantitative framework for analysis of scientific principles. Students will gain comprehension of the integrated nature of mathematics and the sciences and will be able to execute experimental methods, assessment and interpretation of scientific phenomena.

Transfer majors appropriate for this area of emphasis include, but are not limited to: Biochemistry, Biology, Biotechnology, Chemistry, Earth Science, Ecology, Genetics, Geology, Geosciences, Health Science, Natural Science, Physical Science, Physics, Physiology and pre-professional majors including Pre-Dental, Pre-Medical, Pre-Physical Therapy and Pre-Veterinary. Students should consult the catalog of their intended transfer university for any local requirements in addition to those earned through this degree and contact a West Hills College Lemoore counselor for further information or assistance.

### Program Student Learning Outcomes

Upon completion of the program, student will be able to:

- identify and describe the structures and functions of living organisms.
- identify the composition of matter and types of energy.
- use mathematics to understand and interpret the world around them.
- perform quantitative analysis on sampled data.

### Required Coursework

Choose 18 units from the following: (at least 1 course must be from mathematics course (MATH) and 1 course must be from science courses (BIO, CHEM, GEOL, GEOG, PHYSCI, PHYSICS))

---

Course #	Title	Units
<b>Required Core Courses</b>		
MATH 001A ...	Introduction to Calculus .....	5
MATH 001B ...	Calculus With Applications .....	5
MATH 002A ...	Multivariate Calculus .....	4
MATH 002B ...	Differential Equations .....	4
MATH 003A ...	Linear Algebra I .....	4
MATH 015 .....	Precalculus .....	5
MATH 025 .....	Introduction to Statistics .....	4
MATH 045 .....	Contemporary Math .....	3
BIO 010 .....	Fundamentals of Biology .....	3
BIO 015 .....	Biology for Education .....	3
BIO 032 .....	Human Anatomy .....	4
BIO 035 .....	Human Physiology .....	4
BIO 038 .....	Microbiology .....	4
CHEM 001A ...	General Chemistry I .....	5
CHEM 001B ...	General Chemistry II .....	5
CHEM 002A ...	Introductory Chemistry .....	4
GEOG 001 .....	Physical Geography .....	4
GEOL 001 .....	Physical Geology With Lab .....	4
GEOL 003 .....	Historical Geology .....	4
PHYSI-001.....	Survey of the Physical Sciences.....	4
PHYSICS 002A	Mechanics and Thermodynamics .....	4
PHYSICS 002B	Elect., Mag., Optics & Modern Physics .....	4
PHYSICS 004A	Classical Mechanics .....	4
PHYSICS 004B	Electricity, Magnetism & Waves .....	4
PHYSICS 004C	Thermodynamics,optics and Modern Physics .....	4

.....

**Special Note: A student may receive credit for either BIO 010 or BIO 015, either CHEM 001A or CHEM 002A either PHYSICS 002A or PHYSICS 004A, either PHYSICS 002B or PHYSICS 004B**

---

# Liberal Arts - Social Science

## Liberal Arts Emphasis in Social Science AA

The Liberal Arts with an Emphasis in Social Science degree program is designed to provide the Social Science student the opportunity to earn an associate degree with specialization of the student's choice. The program provides introductory lower-division work in the Social Sciences. The area of emphasis is made up of 18 units in the fields of Economics, Ethnic Studies, Geography, History, Political Science, Psychology and Sociology. The program prepares students to be enlightened citizens equipped with the broad cultural background essential to studies in the fields of education, philosophy, literature, law, government, journalism, public service and business; all of which today demand a grasp of vital domestic and foreign concerns. Students should consult the catalog of their intended transfer university for any local requirements in addition to those earned through this degree and contact a West Hills College Lemoore counselor for further information or assistance.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- recognize the various types of academic sources used within the Social Science discipline, including primary and secondary sources.
- analyze the legitimacy and validity of the various academic sources used within the Social Science discipline, including discerning facts from opinions, biases, the validity of data collection, and public opinion polls.

### Required Coursework

Students may choose 18 units from among the following courses. A minimum of two disciplines must be represented (ex. Geography and History or Psychology and Sociology).

---

<b>Course #</b>	<b>Title</b>	<b>Units</b>
<b>Required Core Courses</b>		
AOJ 001 .....	Introduction to Criminal Justice .....	3

# Licensed Vocational Nurse to Registered Nurse

## Licensed Vocational Nurse to Registered Nurse AS

The goal of the Licensed Vocational Nurse (LVN) to Associate of Science Degree in Nursing (ADN) program is to prepare students to meet the requirements for licensure as a Registered Nurse in California. The emphasis of the program will be on prioritization, leadership, organization, and delegation (PLOD). The study of nursing is a very complex one that requires mental and physical abilities to complete the tasks necessary to become a registered nurse. Two of the most essential tools are the Nursing Process and the Organizing Framework around which curriculum is developed. The nursing process is a problem solving process that guides the method of thought and action. It is the thinking process used by registered nurses to care for the clients' response to their health care issues as well as to guide prevention and wellness activities.

The mission of the Licensed Vocational Nurse (LVN) to Associate of Science Degree in Nursing (ADN) bridge program is to prepare LVNs as entry-level registered nurses to provide care across the health/illness continuum and as members within the profession. The program respects the individuality of students and recognizes that each student has different educational, experiential, cultural, spiritual, socio-economic backgrounds, and a unique support system. The aim of the curriculum is to provide a positive, innovative learning model that fosters the development of critical thinking and problem solving skills so that the nursing graduate is equipped to deliver care to a diverse population in a variety of healthcare settings. Nursing graduates will collaborate with members of the health care team, effectively communicate, become politically aware, and committed to lifelong learning.

### Associate Degree Requirements:

- complete a minimum of 18 semester units in a major or area of emphasis
- complete local general education and district requirements - specific to nursing program
  - Area B - CHEM 002A
  - Area D - PSYCH 001 and SOC 001 or 002
  - HE 035 waiver, if applicable
  - Other: COM 001, 003, or 004 and NUT 001
- complete elective units for total of 60 degree applicable semester units
- complete all required courses for the major or area of emphasis, English, and math with a "C" or better
- obtain an overall minimum grade point average of 2.0

### Program Prerequisites:

- BIO 032 Human Anatomy
  - BIO 035 Human Physiology
  - BIO 038 Microbiology
  - ENG 001A Composition and Reading
  - Valid LVN license
  - Acceptance into the ADN Program with a minimum 2.5 GPA
  - No less than C grade for Anatomy, Physiology, Microbiology and English 1A
  - No more than one repetition for the above classes
-

Course #	Title	Units

### Licensed Vocational Nurse to Registered Nurse Cert. of Achievement

The goal of this 30 Unit Option Non-degree LVN to RN Program is to prepare the LVN to meet the requirements for licensure as a registered nurse in California only. The certificate of completion will allow the qualified candidate to sit for the RN NCLEX exam, but will not result in a degree. The student will not be considered a graduate of West Hills College Lemoore. The emphasis of the program will be on prioritization, leadership, organization and delegation (PLOD). The study of nursing is a very complex one that requires mental and physical abilities to complete the tasks necessary to become a registered nurse. Two of the most essential tools are the Nursing Process and the Organizing Framework around which curriculum is developed. The Nursing Process is a problem solving process that guides the method of thought and action. It is the thinking process used by registered nurses to care for the clients' response to their health care issues as well as to guide prevention and wellness activities.

The mission of the accelerated 30 Unit Option Non-degree LVN to RN Program is to prepare the LVN to be a provider of care across the health/illness continuum and as members within the profession. The program respects the individuality of students and recognizes that each student has different educational, experiential, cultural, spiritual, economic and social backgrounds and a unique support system. The aim of the curriculum is to provide a positive, innovative learning model that fosters the development of critical thinking and problem solving skills so that the graduate nurse is equipped to deliver care to a culturally diverse population in a variety of healthcare settings. Graduate nurses will collaborate with members of the health care team, be effective communicators, be politically aware and demonstrate a commitment to lifelong learning.

#### Program Prerequisites:

- Current possession of valid California Licensed Vocational Nurse
- Biology 035 (Physiology) 4.0 units
- Biology 038 (Microbiology) 4.0 units
- Certificate of Completion in Nursing Courses

# Mathematics

## Mathematics AS-T

The Associate in Science in Mathematics for Transfer (AS-T) allows for students to begin preparation for careers in quantitative professions such as actuarial science, education, computer programming, systems analysis and operations research analysis. In addition, a strong background in mathematics facilitates employment in fields such as engineering, economics, finance and genetics.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- produce, analyze and manipulate graphs of a function.
- correctly choose and apply a theorem or procedure to produce a result.
- solve an equation or a system of linear equations.
- use and or apply mathematical solutions to better understand the world around them.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Nursing

## Nursing AS (ADN)

The goal of the Associate of Science Degree in Nursing (ADN) program is to prepare students to meet the requirements for licensure as a Registered Nurse in California. The emphasis of the program will be on prioritization, leadership, organization, and delegation (PLOD). The study of nursing is a very complex one that requires mental and physical abilities to complete the tasks necessary to become a registered nurse. Two of the most essential tools are the Nursing Process and the Organizing Framework, around which curriculum is developed. The nursing process is a problem solving process that guides the method of thought and action. It is the thinking process used by registered nurses to care for the clients' response to their health care issues as well as to guide prevention and wellness activities.

The mission of the Associate of Science Degree in Nursing (ADN) program is to prepare entry-level registered nurses to be providers of care across the health/illness continuum and as members within the profession. The program respects the individuality of students and recognizes that each student has different educational, experiential, cultural, spiritual, socio-economic backgrounds, and a unique support system. The aim of the curriculum is to provide a positive, innovative learning model that fosters the development of critical thinking and problem solving skills so that the nursing graduate is equipped to deliver care to a diverse population in a variety of healthcare settings. Nursing graduates will collaborate with members of the health care team, effectively communicate, become politically aware, and committed to lifelong learning.

### Program Prerequisites

- Successful completion BIO 032 (Human Anatomy) or equivalent
- Successful completion of BIO 035 (Human Physiology) or equivalent
- Successful completion of BIO 038 (Microbiology) or equivalent
- Successful completion of ENG 001A (Composition and Reading) or equivalent
- Minimum 18 years of age
- Healthcare provider background clearance
- Health screen clearance or equivalent
- Have current immunizations as required by partner clinical affiliates
- Current American Heart Association Basic Life Support certification
- Minimum of a cumulative and prerequisite grade point average of 2.5

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- Assist individuals to achieve optimal health utilizing the knowledge and skills gained from biological, social, and nursing sciences.
  - Formulate a comprehensive plan of care using all components of the nursing process.
  - Safely perform basic psychomotor skills in the delivery of care as a technically competent clinician.
  - Integrate the role of professional nurse into clinical practice.
  - Research and communicate to identify problems, initiate actions and evaluate outcomes for health promotion and maintenance.
  - Apply psychological, social, and cultural knowledge to the nursing role.
  - Support physiological well-being of individuals and families in the health care environment.
  - Assume the role of advocate to improve health care delivery by communicating and acting according to the expressed needs of the individual.
  - Manage the clinical environment through assessment, planning, intervention, and evaluation.
  - Apply critical thinking skills to make judgments based on evidence (fact) rather than conjecture.
  - Organize individuals or groups toward goal setting and goal achievement.
  - Implement a comprehensive teaching plan to help individuals and families achieve optimal health.
  - Understand that the culmination of the ADN program prepares for entry into practice.
-

- Realize the importance of continuing education and lifelong learning as a necessity of professional commitment to nursing.

**Associate Degree Requirements:**

Complete a minimum of 18 semester units in a major or area of emphasis

Complete Local General Education and District requirements - specific to the Nursing Program

- CHEM 002A
- PSYCH 001 or equivalent
- MATH 063 or equivalent or higher
- Select One: SOC 001 or SOC 002
- Select One: COM 001 or COM 004 or COM 005
- Humanities AREA C course- 3 units
- NUT 001 or equivalent
- A waiver for HE 035 (Personal Health and Hygiene) is given to students who successfully complete the first year of the ADN program.
- 2 units of Physical Education activity course required (PE 001-025) for students under 21 years of age

Complete all required courses for the major with a “C” or better

# Physics

## Physics AS-T

The Associate in Science degree in Physics for Transfer (AS-T) prepares students for transfer to a CSU baccalaureate program in physics by educating them in the fundamental concepts of mathematics and physics, developing analytical and quantitative reasoning skills, gaining comprehension of the integrated nature of mathematics and the sciences and executing experimental methods, assessment and interpretation of scientific phenomena.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- employ sophisticated problem solving techniques to identify the useful information provided, choose a strategy for solving the problem, demonstrate proficiency in arriving at a solution, test the solution, and interpret the results as they relate to appropriate physics concepts.
- design an experimental method, predict results using appropriate scientific and mathematics theory, perform the experiment and collect data while minimizing sources of error, express results with graphical and mathematical support, complete thorough error analysis, and interpret experimental results in comparison with theoretical predictions.
- demonstrate efficient use of computer tools such as graphing programs, spreadsheets and databases, and basic word processing. They will also have fundamental knowledge of computer programming languages, algorithm development, and be able to write, compile, and run programs from scratch for problem solving.
- explain scientific theory verbally through presentation techniques and in writing through formal written reports, using scientific, mathematical, and analytical skills.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Political Science

## Political Science AA-T

The Associate in Arts in Political Science for Transfer degree is designed to provide the opportunity to achieve an associate degree in the student’s area of specialization. The Associate in Arts in Political Science for Transfer degree is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Political Science or similar major. While a baccalaureate degree is recommended preparation for those considering professional careers in this field, the completion of this program will demonstrate commitment to the field, and provide comprehensive preparation for upper division work. Upon completion of the Associate in Arts in Political Science for Transfer degree requirements, students will begin preparation for careers such as teaching, law, local, state, and federal government, and group advocacy.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- demonstrate the ability to research and write papers or essays without bias
- demonstrate an understanding of what is the purpose of government.
- demonstrate an understanding of how governments interact with each other.
- identify between the different ideologies within the united states and around the world.
- identify the different types of governments around the world.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Project Management

## Project Management (Certificate of Achievement)

The Project Management Certificate Program provides a front-to-back learning process required to complete goals and efficiently produce goods and/or provide services. Project management is one of the fastest growing careers globally, because it applies to the needs of all industries. This program will present all the steps of project management outlined in the Project Book of Knowledge (PMBOK) published by the Project Management Institute (PMI), the largest organized project management association in the world. Program content prepares students to take the certification prep course, CAPM, which is the entry-level certification with PMI.

**Upon successful completion of the program, students will be able to:**

- Demonstrate understanding of project management principles and practices while maintaining high standards of practice, making ethical judgments and decisions in a respectful, and sustaining professional manner
- Conduct project planning activities that accurately forecast project costs, timelines, and quality. Implement processes for successful resource, communication, and risk and change management
- Create project management documents and plans in written, verbal, and non-verbal form, utilizing industry terminology.
- Manage the human resources of a project including organizing, managing and leading the project team, using effective strategies to influence others, manage conflict, and lead teams to successful project completion
- Manage projects effectively including the management of scope, time, costs, and quality, while satisfying the needs for which the project was undertaken
- Manage project risk, including identifying, analyzing and responding to risk
- Analyze and manage stakeholder expectations and engagement to ensure a successful project outcome

# Psychology

## Psychology AA-T

The Associate in Arts Degree in Psychology for Transfer (AA-T) allows students to begin preparation for careers in social services, business, and government. The degree serves as a launching point for careers in human services, journalism, politics, public relations, business, and public administration.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- identify various research methods used to study behavior and mental process.
- identify the basic structures of the brain and nervous system.
- apply psychological concepts and theories to everyday situations.
- identify and apply behavior modification techniques.
- identify the major components in a case study and how to use case studies as references when writing a research paper.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

## Psychology AA

The Psychology Associate Degree program is designed to provide entry-level skills and knowledge for the student transferring to a four-year institution with a major in psychology. The psychology major requires 18 units in psychology and related fields. Psychology is the scientific study of behavior and mental processes. Course work in

this program will provide a better understanding of human behavior in the areas of biological psychology, life-span development, states of consciousness, learning, memory, intelligence, personality, abnormal behavior, therapy and social psychology. The psychology major prepares students for four-year programs with emphasis in psychology, counseling, child development, educational psychology, education, social work, sociology, human services and nursing.

**Program Student Learning Outcomes**

Upon completion of the program, students will be able to:

- identify various research methods used to study behavior and mental process.
- identify the basic structures of the brain and nervous system.
- apply psychological concepts and theories to everyday situations.
- identify and apply behavior modification techniques.
- identify the major components in a case study and how to use case studies as references when writing a research paper.

**Associate Degree Requirements:**

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete Local General Education and District requirements
- Complete elective units for total of 60 degree applicable semester units
- Complete all required courses for the major or area of emphasis, English, and math with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Sociology

## Sociology AA-T

The Associate of Arts degree in Sociology for Transfer (AA-T) provides students with the comprehensive knowledge of the scientific study of human social life. The degree provides students with an understanding of the major theoretical perspectives in sociology, knowledge about and the ability to use sociological concepts in the analysis of social phenomena, opportunities to develop critical thinking as well as written and oral communication skills utilizing a sociological perspective, an understanding of socio-cultural diversity within and among societies, and qualitative and quantitative research skills.

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- apply and demonstrate sociological literacy underscoring the centrality of race, class, and gender in society including multicultural, cross-cultural, and cross-national content in sociological analysis.
- apply and demonstrate higher order critical thinking skills using major concepts and theoretical perspectives in sociological analysis through written and oral communication.
- apply and demonstrate an empirical base of sociology across several methodologies, posing sociological questions, developing theoretical explanations, and using primary and secondary data as supporting evidence.

### Associate Degree for Transfer requirements (pursuant to SB 1440):

- Complete a minimum of 18 semester units in a major or area of emphasis
- Complete IGETC or CSU General Education – Breadth requirements
- Complete total of 60 CSU transferable semester units
- Complete all required courses for the major or area of emphasis with a “C” or better
- Obtain an overall minimum grade point average of 2.0

# Transfer Studies – CSU GE Breadth

## Transfer Studies – CSU GE Breadth, Certificate of Achievement

The General Education Full Certification for California State University (CSU) provides students the ability to fulfill in-state, public university lower-division general education requirements before transferring. It is strongly recommended that students complete the CSU GE prior to transfer to allow more flexibility in class selection at the university and timely progress to degree completion. All CSU campuses will accept the completed CSU GE to satisfy all lower-division general education requirements, however, individual colleges or majors within a CSU campus may not accept for meeting general education

### Program Student Learning Outcomes

Upon completion of the program, students will be able to:

- Demonstrate critical thinking through literary works and written compositions
  - Utilize quantitative analysis and have the ability to use and criticize quantitative arguments
  - Analyze works of philosophical, historical, literary, aesthetic and cultural importance
  - Examine social and behavioral perspectives in their contemporary, historical, and geographical settings
  - Comprehend physical and biological concepts, their limitations, and the power of scientific inquiry
-

<b>Course #</b>	<b>Title</b>	<b>Units</b>
<b>Required Core Courses</b>		
Area A1.....	Oral Communication.....	3
Select one course from: COM 1, COM 003, or COM 004. ....		
Area A2.....	Written Communication.....	3
Select one course from: ENG 001A or 001B. ....		
Area A3.....	Critical Thinking.....	3
Select one course from: COM 003; EDUC 005; ENG 001B, ENG 003; PHIL 002; SOC 002. ....		
Area B1.....	Physical Science.....	3-5
Select one course from the following: CHEM 001A, 001B, 002A; GEOG 001; GEOL 001, 003; PHY SCI 002; PHYSICS 002A, 002B, 004A, 004B, 004C, ESCI 002. ....		
Area B2.....	Life Science .....	3-5

Area B4.....	Quantitative Reasoning .....	3-5
Select one course from the following: BUS 039; MATH 001A, 001B, 002A, 002B, 010A, 015, 025, 045. .		
Area C1.....	Arts .....	3
Select one course from the following: ART 005A, 016A, 016B, 042; COM 002; HUM 001; MUS 042; PA 001, 003, 014. ....		
Area C2.....	Humanities .....	3
Select one course from the following: ASL 001, 002; ENG 001B, 002, 004, 005; FLSPN 001, 002, 003, 004;GEOG 002, 003; HIST 004A, 004B, 017A, 017B, 020, 021; HUM 001, 022; LING 011; PHIL 001, 003. ....		
Area C1/2.....	Any Arts or Humanities from Area C1 or C2.....	3
Area D.....	Social Sciences .....	9
Select from the following courses (from at least two disciplines): AOJ 001, 029; CD 005, ECON 001A, 001B; GEOG 002, 003, 018; HIST 004A, 004B, 017A, 017B, 020, 021,032, 034, POLSCI 001, 002, 004; PSYCH 001, 002, 003, 005, 006, 029; SOC 001, 002, 003, 005, 010. ....		
Area E.....	Lifelong Understanding and Self Development .....	3
Select one course from the following: CD 004, 005; COM 005; HE 035; IS 001; KINES 001; NUT 001;PE 002, 003, 007, 008, 011, 016, 018, 019, 021, 023, 024, 025A; PSYCH 001, 002, 003, 004, 029; SOC 003. .		
<b>Total .....</b>		<b>39-45</b>

*A minimum "C" grade is required in areas A1, A2, A3, and B4 where a "C" is defined as a minimum 2.0 grade points on a 4.0 scale. International Baccalaureate (IB) scores may not be used for AREA A2. Advanced Placement (AP) and IB scores may be used in all areas except A3 & C1. Newly approved CSU GE courses can be added to this certificate as listed in [www.assist.org](http://www.assist.org)*

# **Transfer Studies – Full Intersegmental General Education Transfer (IGETC) Curriculum Certification: UC**

## **Transfer Studies – Full IGETC Certification: UC, Certificate of Achievement**

The Intersegmental General Education Transfer Curriculum (IGETC) Full Certification for University of California (UC) provides students the ability to fulfill in-state, public university lower-division general education requirements before transferring. It is strongly recommended that students complete the IGETC prior to transfer to allow more flexibility in class selection at the university and timely progress to degree completion. All UC campuses will accept the completed IGETC to satisfy all lower-division general education requirements, however, individual colleges or majors within a UC campus may not accept IGETC for meeting general education.

Upon completion of the Transfer Studies - Full IGETC Certification: UC, the student will be able to:

- Demonstrate critical thinking through literary works and written compositions.
  - Utilize quantitative analysis and have the ability to use and criticize quantitative arguments.
  - Analyze works of philosophical, historical, literary, aesthetic and cultural importance.
  - Examine social and behavioral perspectives in their contemporary, historical, and geographical settings.
  - Comprehend physical and biological concepts, their limitations, and the power of scientific inquiry.
  - Demonstrate proficiency in a language other than English.
-
